To All Graduates

The Undergraduate Weekly of the University of Delaware

VOLUME 53. NUMBER 29

NEWARK, DELAWARE, WEDNESDAY, MAY 22, 1935

PRICE TEN CENTS

Plans Being Completed For Commencement Week, June 7-10, At Both Colleges

Alumni vs. Varsity Baseball Game; President's Reception For Seniors; Senior Play; Senior Supper; Farewell Hop

SWINNEN ORGAN RECITAL

Commencement week program will be inaugurated Friday, June 7, at 7 p. m. Standard Time when the Women's College Senior Dance will be held in Old College.

The activities of Saturday, June 8, begin with a meeting of the Board of Trustees at 10 a. m. Then at 1:30 p. m. the Alumni will meet the Varsity in a baseball game on Frazer Field. At 3 p. m. Women's College will hold its Class Day Exercises in Mitchell Hall. Then at 4 p. m. President Hullihen's reception for senior graduates, faculty, and visitors will be held at his home, the Knoll. The Alumni will hold a business meeting in West Wing of Old College at 5 p. m. The Delaware College Class of 1915 will hold a class reunion at 6:30 p. m. in the Blue Hen Tea Room. At 6 p. m. the Women's College Senior Supper will be served in Kent Hall. Following this, the Senior Play will be presented at 7 p. m. Then to culminate the Saturday activities, the Fraternity Reunion will be held at 9 p. m.

Sunday, June 9, will be featured by the Baccalaureate Service in Mitchell Hall at 10 a. m. The Reverend Ze Barney Thorne Phillips, D. D., rector of The Church of the Epiphany of Washington, D. C., will deliver the sermon. At 7 p. m. Firmin Swinnen will give an organ recital.

On Monday, June 10, the Graduation Exercises will take place at 10:30 a. m. The announcement of scholarship and prize awards will be made at this time, followed by the conferring of the degrees. Seats for the Graduation Exercises are reserved in the orchestra, but not in the balcony.

On Monday evening the Men's College Farewell Hop will be held in Old College, with music by the Kentuckians.

(Continued on Page 6.)

It was with deepest regret that we learned of the death of Max Allen Geller, '37, a student in the Arts and Science School, on last Sunday.

Bleiberg Elected First President Of Humanists

Barab, Scotton, And Scannell Other Officers; Student Council Gives Official Recognition

At a meeting of the Humanists the following officers were elected: President, Carl Bleiberg; Vice-President, Robert Barab; Secretary, John Scotton; Treasurer, Joseph Scannell.

Bleiberg, a Senior next year, has been an active force in the reorganization of both *The Humanist*, literary magazine, and the Humanists. He is now managing editor of THE REVIEW, Senior member of the literary board of *The Humanist*, and secretary of the Sigma Tau Phi fraternity. His interest in dramatics has won him

Debating Revived Here After Four Year Lapse

Mr. A. R. Dunlap Of English Dept. To Be Coach; Student Council Votes \$50 Support

The Debating Team has been reorganized and will commence functioning next semester after a lapse of four years. It is expected that the team will be coached by Mr. A. R. Dunlap, who will return to the English Department next term. The Student Council has granted the team an appropriation of fifty dollars to cover next year's expenses.

Debating has been one of the big omissions in extra-curricular activities at Delaware. Serving an important part in the training of pre-legal students in particular, it should be available wherever pre-law courses are given. The organization will be worked in such a manner as to permit the participation

Davidson Appointed As U. Of D. Representative On Summer Trip To France

Chosen By Pres. Hullihen To Be Guest Of University Of Paris; Sails On Return Voyage Of "Normandie" June 7

J. Edward Davidson, '37, has been appointed by President Hullihen as the University of Delaware representative on the one-month summer trip to France as the guest of the University of Paris.

He will sail from New York, June 7, on the steamship "Normandie," which will be making the return trip of its maiden voyage at that time.

All of the traveling expenses of the eleven students (representing the Universities of California, Chicago, Columbia, Harvard, Lafayette, Louisiana, Massachusetts Tech., Princeton, Stanford, Yale, and Delaware), will be defrayed by the Societe des Amis de l'Universite, the organization sponsoring the trip. This includes the crossing on the "Normandie," the railway fare from Havre to Paris, and the return fare on some steamer of the French Line.

While in Paris the students will receive free lodging at the Fondation des Etats Unis of the Cité Universitaire and will be allotted a sum of 1,000 francs apiece (approximately \$70.00 at the present rate of exchange) for a period of two

Dr. Miller To Take Charge Of German Foreign Study

Mrs. Miller To Assist In Plan To Furnish Undergraduate Study For Students Interested

Dr. Edmund Miller has resigned from the Modern Language Department to act as an administrator for the Junior Year in Munich for the 1935-36 scholastic year.

The University of Delaware is unable to take up the Foreign Study work at Munich this year, and because there have been many requests from both teachers and students for the continuance of such a work Professor and Mrs. Miller, and Dr. Bauersfeld, director of the Akademische Auslandsstelle have decided to act as administrators for the German government.

Requests have been received from Bryn Mawr College, Haver-

Kentuckians For Farewell Hop in Old College, June 10

Graduating Seniors will enjoy their last collegiate activity as students of the University when they bid good-bye to the school at the traditional Farewell Hop, June 10.

As usual, Old College will be the scene of the dance that is being run by the Student Council. Dancing will be from nine 'til two with music by The Kentuckians.

Tickets may be had for \$1.50 from any member of the Student Council. The committee in charge consists of Ralph Watson, chairman, assisted by Percival Marshall, Jack Geist and Tom Pennock.

(Continued on Page 4.)

We extend our deepest sympathy to Professor Leo Blumberg of the Engineering School on the death of his father last Friday.

"Little America" Explorer To Speak Here Monday

J. A. Wade, Former Teacher Of Chemistry At Delaware College, To Relate Experiences

Next Monday evening at 8 p. m., the University Hour Committee will present Mr. J. Alton Wade, a former member of the Chemistry Department and assistant geologist of the recently returned Byrd Expedition. Mr. Wade will speak on various interesting phases of the expedition.

While at Delaware, Mr. Wade taught Quantitative and Qualitative Analysis, Inorganic Chemistry, Mineralogy, and Geology. He started teaching here in the fall of 1931 and remained until June, 1931, at which time he went to Johns Hopkins to study for his Doctor's degree. This work was interrupted by his accepting an offer to accompany the Byrd Expedition.

Mr. Wade will be remembered by many students as a very likable personality. His lecture promises

H. F. Redmile Again Wins A. S. C. E. Award Of \$20

H. F. Redmile, civil engineering student, who a few weeks ago was awarded a prize of \$20 by the Philadelphia Section of the A. S. C. E., for the best technical paper, which he presented before the A. S. C. E. Student Chapter Convention in Swarthmore College, on April 17, has rewritten his paper, submitted it to another contest of the Philadelphia Section, and again won first honors.

For this double prize winning paper entitled "Test of Concrete Slabs Reinforced with Wire Mesh," Mr. Redmile will be given twenty dollars in the form of an invitation fee into the A. S. C. E. and one year's dues in the organization.

Dr. Charles M. Wharton, A Pioneer In The Important Field Of Human Engineering

Methods Could Be Used To Advantage In C. C. C. Camps

Contributed
Newark, home of the University of Delaware Engineering School, with many famous engineers on its staff, is apt to forget that it also has an outstanding exponent of another just as important, if not more necessary, type of engineering: *Human Engineering*. Dr. Charles M. Wharton, head of the department of Physical Education and Health, despite the fact that he holds degrees as M.D. and D.D.S. should be most accurately termed a "Human Engineer".

Thomas Edison once said: "Problems in *Human Engineering* will, in the future, receive the same genius that the last century gave to engineering in more material forms."

Twenty-Five To Become Second Lieutenants Of Reserve Corps Tomorrow

Maguigan, Russo, Gregg, Pierre And Niles To Receive Cash Prizes As Outstanding Military Men Of Their Classes

TEA DANCE IN OLD COLLEGE

Tomorrow at 4:15 D. S. T. on the green opposite Wolf Hall, commissions and prizes will be awarded to R. O. T. C. students, who have completed the four year military course and to those who have been adjudged as outstanding military students of their respective classes. The unit will be reviewed by General William E. Cole, of the Second Coast Artillery District, who will present the commissions.

The Lieutenant Clarke Churchman Memorial prize annually presented to that student who attains the highest proficiency in the military department goes this year to Cadet-Major Harvey Maguigan. He will also receive a sabre from the 621st Reserve Officer Corps.

The General J. Ernest Smith prizes for the highest rating in the Freshman, Sophomore, Junior and Senior classes will be given to the following men: Freshman, Pvt. Jerome D. Niles; Sophomore, Pvt. George Pierre; Junior, Cadet-Sergeant Emmor Gregg, and Senior, Cadet-Captain John N. Russo. These are all cash prizes.

Sabres will be presented to Cadet-Captain Delbert Minner and Cadet-Lieutenant Eldon Vosseller by the Military Department for having the best battery and platoon respectively. Cadet-Captain Henry Redmile, of the Band, and Artillery Staff Officer Thomas Roe will also be given sabres by the local R. O. T. C. unit. Cadet-Adjutant John P. Tawes will be awarded a sabre by the 621st Reserve Officer Corps.

A communication from Lieutenant Colonel Frederick Holmer, of the Second Coast Artillery District, relates that he was particularly impressed with the band on the inspection of May 2. He considers the Delaware Band to be on a par

Introducing Frank Garatwa, Faithful University Janitor For Twenty-Five Years

Weaver Of Rugs And Linens Before Coming To United States

Introducing Frank Garatwa! Twenty-five years ago this Thursday, (May 23) Frank came into the employ of the University and ever since that time has worked faithfully as a janitor under the Agricultural Department.

Frank, or Franz, landed in this country January 20, 1905, and arrived in Newark on September 2 of the same year. Before coming to the United States, he was a weaver of rugs and linens in Parapacs, then a part of Austria-Hungary and now a part of Serbia. His first job in Newark was with the Thomas' Wall Paper Mills, which burned down in 1918. He later was employed at the Curtis Paper Mills.

Then, on May 23, 1910, Frank

was given a job in the Agricultural Experimentation Building, now the Physics Building, by Dean Haywood, under whom he worked until 1920, when Dean Haywood was succeeded by Dean McCue. Since 1917, he has been working in Wolf Hall, where his friendly helpfulness to everyone has made him a favorite with students and faculty alike.

Though born in Europe, Frank is an American citizen; has been, in fact, since July 2, 1913, at which time he received his citizenship papers.

Many people who do not know Frank by name may recognize him as the portly gentleman with the Kaiser-like moustache often to be

EDITORIALS

INVENTORY

This is the last issue of THE REVIEW for the current term. It seems especially fitting that we should "take stock" at this time in the form of a summation of this paper's progress during the past scholastic year. We feel that this is necessary, not because it might give us an opportunity to boast of our accomplishments, but because we feel obligated to justify ourselves of the support of our readers and our financial backers, the Student Council. It is our duty to show that we are worthy of continued publication.

Physical Improvements

In the line of physical equipment, we have made decided advancement. With the cooperation of Mr. A. G. Wilkinson, Business Administrator for the University, we have been able to transform THE REVIEW office from a shabby, paper-strewn attic into a presentable newspaper office. We are now proud of typewriter, telephone, filing, and furniture facilities such as we have never enjoyed before.

Newspaper Content

As for the newspaper itself, we are justly proud of it, too. Campus newspapers encounter difficulties which are frequently overlooked by others than those intimately connected with their publication. Perhaps most important of all, college newspapers suffer far more than professional ones from the fact that news of interest to their constituency travels far too fast by word of mouth. As a result, all of the important news is known throughout the dormitories and fraternity houses before it can be printed. In spite of this handicap, however, we have been fairly successful in bringing to our readers live news stories worthy of their interest. Furthermore, in order that our paper may be of even greater news value, we intend to ask the cooperation of all news sources on the campus in giving THE REVIEW first release notices on news items.

In view of our difficulties with news

stories, we have tried to keep our paper well supplied with features of various types. We eliminated "Chatter" because of lack of cooperation from the sources in submitting the column, and because we felt that the space it took up could be used to a greater advantage. The humorous features, informative features, and various columns, we think, have been successful in holding the interest of students within a broad range.

Editorial Policy

The editorial columns of a great many college newspapers are just so many words. We have, however, made it a point to do better than this. As a result, we have not only made the students of the University of Delaware "editorial conscious" (a difficult achievement for a college newspaper), but we have also attained ends which are a decided indication of real progress at our institution.

Activities Fee

We feel that we were at least instrumental in placing the Student Activities Fee on the College bill. We consider this a real accomplishment, because it gives financial insurance to extra-curricular activities at the University.

Influencing Legislation

We may or may not have been an influence in the veto of the teachers' oath bill. Our part in the quelling of the movement for taxation of fraternities may also be disputed. Nevertheless, both of these issues were settled in the favor of those connected with the University.

Change of Student Attitude

This newspaper, we think, played a large part in changing the student attitude from one of indifference to one of serious and active interest in things academic and extra-curricular. The students here have become increasingly serious minded. They have questioned the value of the education they have been receiving and have become aware of the deficiencies of this institution. As a consequence, for the first time in the 101 years of the existence of the University, a student committee had an audience with the executive committee of the Board of Trustees to discuss fundamental problems of the college.

Renascence

At the same time, the faculty and administration of the University have been awakened to the fact that students are discriminating and critical. We hope that the result of this renascence will be improved academic conditions, an improved system of student advisers, and a placement bureau for graduates.

"The Humanist" and Debating

Further indication of a more serious student attitude is evidenced in the revival of *The Humanist*, campus literary magazine, and in the reorganization of the debating team. Both of these projects were given the full support of this newspaper.

The adoption of a point system for extra-curricular activities is another accomplishment which, we think, will be the means for the inspiring of greater activity on this campus.

Hope For the Future

In accomplishing many of these ends, we unquestionably made many friends, and at the same time perhaps made enemies. We cannot deny that we stepped on some toes to awaken lethargic groups to action. However, we do not regret it because we have secured results.

All that we can say is that while the toes have healed, a new spirit has been created which we hope will lift this institution to its deserved heights. With the head start we have got this term, we will be in a position to have all improvements in full swing by the beginning of the fall session. So with this we say so-long until next fall.

Art Exhibit, May 25

The annual exhibit of work done by students in the Art Department of the Women's College will be on display in the Art Gallery of the Memorial Library for one day, March 25, from 9 a. m. to 5.30 p. m. Tea will be served from 4 to 5.30 p. m. Oil paintings, charcoal and pencil drawings, surface designs, jewelry, pottery, book-binding, block-printing, and weaving will be shown. All students and friends of the College are invited to attend.

Reader's Budget

By Theodore Berman

Seven Poor Men from Sydney, by Christina Stead. Appleton-Century. \$2.50

This is a novel concerning the present-day conditions in the city of Sydney, Australia. The plot consists of a series of events that befall seven men, and Catherine, the sister of one of them. Throughout the book one can sense tragedy and misery lurking between the lines. The style of writing deserves much praise, although Miss Stead sacrifices her characters in order to strengthen the curious events that are told throughout the book. As many of her contemporaries, Miss Stead, too, sympathizes with the labor class, and duly expresses her opinions on these matters.

Fugitive, by Louise Peattie. Bobbs. \$2.00.

This is the story of a beautiful woman, who, because of some distressing incidents, has attempted suicide in an obscure boarding house. At the zero hour a young lecturer saves her, and they promptly fall in love. At this point the situation becomes puzzling; the young man was engaged to another woman. Gradually the situation clears up, but not without a bit of sorrow. Mrs. Peattie has given this story a poetic atmosphere which makes a beautiful story out of a much-used plot.

Davidson Appointed As U. of D. Representative on Summer Trip To France

(Continued From Page 1)

weeks. This money is for food, metro-fare, theatre, and opera admission fees, etc. French courtesy is further exemplified by the fact that the French Consulate at New York City may even waive the customary visa fee. If the students desire to do so they may extend their stay in France at their own expense.

Davidson, although at present a resident of Wilmington, graduated from New Castle High School in 1933 as the valedictorian of his class. He was senior class president, Athletic Council president, and manager of basketball and soccer.

Since his matriculation at the University of Delaware he has maintained his high scholastic record and actively participated in journalism, dramatics, fraternity work, and other extra-curricular activities. He is editor-in-chief of the newly revived *Humanist*, campus editor of THE REVIEW, a member of the Footlights Club, treasurer of the Sigma Nu Fraternity, and secretary and treasurer of the Athenaeon Society.

He is enrolled in the Foreign Service course and upon graduation plans to take post graduate work in maritime, commercial, and international law at Georgetown University. After this he expects to take the Foreign Service examination and enter the governmental consular and diplomatic service. Therefore, the experience of this

thru kampus keyholes

Swan Song

My last column . . . then I surrender my space to someone as ambitious as I was . . . someone who has not learned that if you print "the dirt" you endanger your life, and if you don't no one reads your column.

As this last journalistic attempt goes to press, I can't help sighing as I think that—no longer will Mansberger's size be a thing of wonder to visitors of the campus . . . nor will Nick Russo "entertain the kids" with droll stories . . . Tawes' "Present Arms" will never again thrill W. C. D. . . .

Bill Bolen has swayed the crowd with "The Alma Mater" for his last time . . . Jim Nichols' editorials have caused their last sensation . . . Frank Foard's "Jack Benny" stories are a thing of the past . . . Gebhart will no longer awaken education-students with his outbursts of theory in classes . . .

Sol Jasper has played his last comedy at Mitchell Hall . . . Scott, Mayer, Patterson, Vossler, Greenstine and Welsh, of the Clam Bake Club, have adjourned their final meeting . . . Redmile will no longer be panned about the R. O. T. C. Band . . . Joe Crow will bring to a close his distance training between S. P. E. and East Newark . . . Harry Wilson's place in the hearts of W. C. D. will be taken by another . . . Minner will leave the field clear to Hodgson . . .

Roe's letter a day will no longer be necessary . . . MacSorley will plod his weary way to W. C. D. no more . . . Tanner will speak of his band elsewhere . . . The inseparable Jeffers will play the "old army game" on other battle fields . . . Hanaway will not serve 'em across at Rhodes' future patrons . . . Athletic contests of the future will have to be won without O'Connell, Green, Zavada, Newman, Lambert or Lawrence . . . Pié has sunk his last putt for Delaware . . . Wirt has burned the last "mid-night oil" over those long English assignments . . . The team of Maguigan and McMullen breaks up . . .

The others, dozens of them, will leave . . . some with a sigh . . . some with a smile . . . The Class of 1935 passes . . . as I began this column in September, so shall I close it in May, with these words, "The old order changeth."

Bleiberg Elected First President Of Humanists

(Continued from Page 1.)

leading roles in "Three Corners Moon" and "Green Cockatoo". He also wrote, acted in, and directed his fraternity's play in the 1934 inter-fraternity competition.

Barab and Scannell will be Juniors next year. Barab, a member of Sigma Tau Phi, is feature editor of THE REVIEW and member of the newly organized debate team. Scannell is a varsity football man and treasurer of the Student Council. Scotton is manager of tennis and secretary of Theta Chi.

As outlined before the Student Council in securing recognition as a campus organization, the purpose of the Humanists is the publication of *The Humanist* and the general furtherance in cultural activities. Membership in the Humanists now numbers twenty. Beginning next year only those men whose contributions to *The Humanist* are accepted for publication will be admitted. Dr. Cyrus L. Day is faculty adviser.

troop to France will be a great assistance in succeeding in his chosen career.

Committee Of Fifteen To "Run" Freshman Next Year

The Student Council representatives of next year's Sophomore Class have chosen a committee of 15 to "run" the incumbent freshman class. The committee consists of the following:

Student Council Representatives: Clark Lattin, Sigma Nu; Julius Reiver, Sigma Tau Phi; Joshua West, Kappa Alpha; Hial Pepper, Sigma Phi Epsilon; Armel Long, Theta Chi; Coulter Passwaters, Phi Kappa Tau; John Wells, Non-Fraternity.

Committeemen—Howard Dunlap, Carlton Backus, Jr., Hyman Swartz, Olaf Drozdov, Randall Carpenter, James Stewart, Ronald Zabowski, Sylvester Augustynowicz.

"Little America" Explorer To Speak Here Monday

(Continued from Page 1.)
to be one of the most enjoyable of any this year.

Mr. Wade's talk will cover his experiences as Assistant Geologist of the Second Byrd Expedition which was stationed at Little America for two years. The Expedition, under the auspices of the National Geographic Society, left Norfolk, Va., in the Summer of '33 to obtain scientific data about the unexplored regions of the Antarctic Continent. The most outstanding events were the two flights over the South Pole and the unsuccessful attempt to reach the Pole by dog-sled.

More Students Receive Achievement Awards

The following have recently received packs of flat fifties, of Philip Morris cigarettes: Jack Hartmann, new president of the Student Council; Ralph Walson, vice-president of the Student Council; E. C. Matthews, manager of baseball; Robert Callaway, manager of track; and Roy Donoho and William Wells, freshman members of the tennis team.

Frank Garatwa, University Janitor For 25 Years

(Continued from Page 1.)

found in rabid conversation with members of the German Department. Anyone who is familiar with Frank's native tongue is a welcome visitor in his Wolf Hall station.

Frank has one son, Frank I., who has made his father justly proud by graduating from the University of Delaware in 1925, and subsequently becoming a teacher in the Englewood, N. J. High School.

Math. Club Meeting

On Thursday at 5 there will be a meeting of the Math. Club in Sussex Common for the election of officers. At 6 the members will have dinner in Kent Hall.

Outing Club

The Outing Club is expecting to spend the week-end of May 25 at Fenwick's Island.

Sussex House Party

On Saturday night, May 25, Sussex is having a house party with Ruth Watson in charge. Alma Seely has charge of refreshments, Dot Ramsey, music; Phoebe Spiers, business, and Audrey Davis, decorations.

What's What At W. C. D.

Senior Week-end

The Seniors returned Monday night, May 20, from Virginia Beach, Va., where they spent the week-end. Some have a "swell" tan to show off; others have great hopes for their now brickish complexions, but all declared that the trip was decidedly a success.

Finals Soon!

There is a frantic bustle all over campus as the time draws uncomfortably close for exams. The schedule for those nightmares has long been posted as if to remind us constantly of what is ahead. But, in spite of this, some care-free souls took advantage of the pleasant weekend.

Freshman Dance

The Juniors gave their little sisters, the Freshman, a dance from 8 to 11 in Kent Hall on Saturday night, May 18. Paul Wilkinson's orchestra furnished the music. Punch and cakes were served. The Hall was very attractively decorated with flowers and ferns. According to those lucky ones who could go, it was one of the nicest dances of the year.

Press Club Officers

The Press Club officers for next year are: President, Alice Pepper; Vice-President, Alice Breme; Secretary, Emily Carr, and Treasurer, Margaret James.

Blue and Gold Staff

The staff of the Blue and Gold has also been elected. They are: Editor, Deborah Plummer; Photography Editor, Margaret Waples; Art Editor, Gertrude Draper; Assistant Art Editor, Dee Smythe; Literary Editor, Margaret Trumbull; Advertising Manager, Marjorie Allmond; Circulating Manager, Peggy Knox, and Business Manager, Audrey Davis.

Puppets Dinner

On Tuesday, May 21, the Puppets entertained the new members at dinner at the Hob Tea Room in Wilmington and later at the movie, "Les Miserables." The new Puppets are Jane Yost, Dot Ramsey, Peg Waples, Bette McKelvey and Charlotte Stout.

Science Club Meeting

On Wednesday at 4:10 the Science Club met in the Hilarium. There was an illustrated lecture by Mr. John S. Cole on the "Development of Automobiles and their Fuels."

Social Committee Meets

On Wednesday at 4:10 there was also an important meeting of the Social Committee, of which Jane Yost is chairman.

French Club Picnic

On Thursday, May 23, the French Club will have a picnic at Holloway Beach, near Charlestown, Md. Regina Cohen is in charge.

Conklin Exhibits Patented Model Of Globe Theater

Ernest Conklin, outstanding authority on the Elizabethan Theater, exhibited his patented scale model of the Shakespearian Globe Theater, at yesterday's College Hour in Mitchell Hall.

Mr. Conklin besides exhibiting his model lectured on its various details of a round pit, the passage ways to the balconies, the overhanging floor, the orioles, etc. He likewise gave an account of the various divergent opinions held by Elizabeth authorities on the details of Globe Theater.

Dr. Charles M. Wharton, Pioneer in Important Field Of Human Engineering

(Continued from page 1)

a physical one. An unhealthy person cannot be a really happy one. The first approach is a complete physical examination of the subject. In many cases, the person is found to be *undernourished*, from a *scientific point of view*, or even suffering from some definite physical ailment. This is given immediate attention. However, in many cases, there is no physical ailment or drawback. It is then necessary to go a bit further and check the *capabilities and talents* of the subject. A boy with a limited mentality may have gotten into college by really driving himself all the way through high school. However, when he runs into really complex work, he can't quite make the grade, and might be a lot better off using some *mechanical ability* which might be his, and which might make him potentially a highly skilled craftsman of a type which is growing increasingly rare and necessary because of the current popular distaste for all but white-collar jobs. It is the place of the *Human Engineer* to get to the root of all this and explain to the subject just what are his *limitations* and his *abilities*. He must be made to see that *mechanical intelligence* is of just as high a type as ability to grasp more abstract subjects, and that certainly no stigma can be attached to his making a success of himself in one field when he would have been a deplorable mediocrity at best in the other.

All the problems are not as serious as these. Sometimes there are small difficulties perplexing the late adolescent that disappear almost as quickly as they are talked over with a sympathetic and intelligent listener. There are questions such as whether or not it is advisable to take a lower grade and go out for sports or wait a year and build up a better scholastic background, or whether to wait a year and put on some more weight and avoid the danger of injury in the more strenuous sports, and the thousands of other little problems that loom so large when they seem so new and individual but lose much of their sting when it becomes apparent that they have to be faced by every one in the process of growing up.

Some of these *human engineering* methods of Dr. Wharton could be used to good advantage in the training of the thousands of youths now being taken into the Civilian Conservation Corps. To take these boys into the corps for six months or a year, to subject them to haphazard instruction, and then to turn them loose again is to defeat the entire aim of the program, if it intends to develop these individuals into useful citizens. With a small, capable staff, it would be possible to determine just what kind of work each boy is best fitted for and to develop him along those lines. Certain groups will be willing and anxious for real education: courses of high school and even junior college level. It would be a shame to waste this opportunity to give them that training.

On the other hand, doubtless the *mental equipment* and past background of many of the members would not be such as to enable them to take advantage of this type of work. For them, there is vocational training, with such amounts of theory as they are able to absorb.

Here is the greatest potential field yet open for *Human Engineering*.

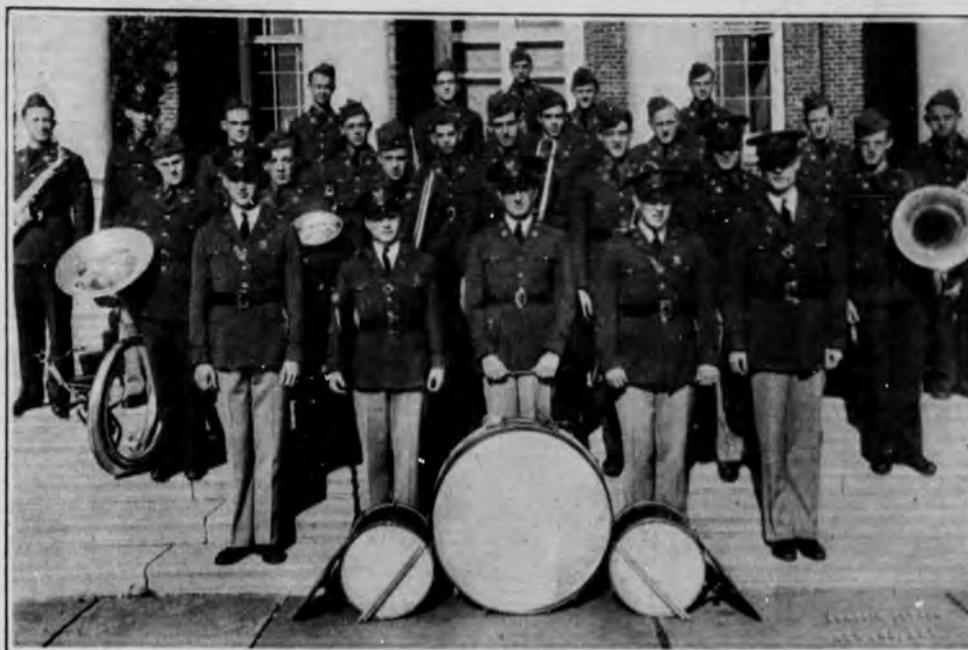

Twenty-Five To Become Second Lieutenants Of Reserve Corps Tomorrow

(Continued from Page 1.)

with any R. O. T. C. band he has seen.

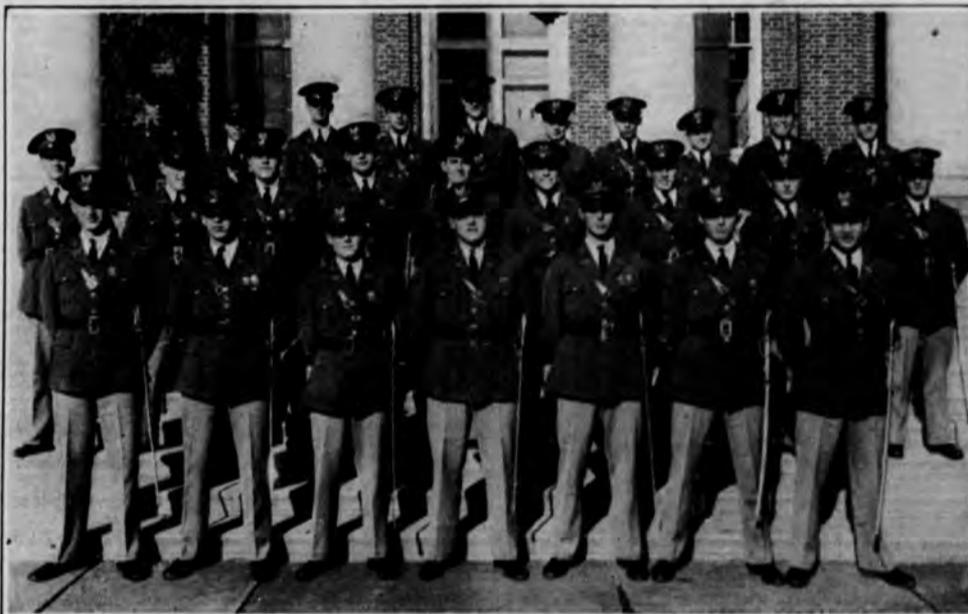

Following the presentation of commissions and prizes a tea dance will be held in Old College for the graduates and their guests.

Delaware R. O. T. C. Band Which Won Acclaim From Inspecting Officers

Left to right, front row: Capt. H. F. Redmile; Drum Major, A. H. Eisenman; Mr. W. C. Viohl, Musical Director; First Lieutenant, S. C. Toulson, Jr.; Second Lieutenant, R. E. Tanner.
 Second Row: G. R. Cheney; W. K. Benson; E. E. Jackson, Jr.; J. Tyler; P. O. Tanner; H. E. Hulson; H. A. Tanner.
 Third Row: T. Johnson; H. R. Pancoast; F. C. Warren; A. J. Heather; F. A. Zappacosta; N. Goherman; W. Bant; W. Fahey; R. F. Zabowski.
 Last Row: H. R. Pepper; O. Simpler; C. N. Cunningham; C. Passwaters; F. E. Warren.

Graduating R. O. T. C. Class Who Receive Commissions Tomorrow

Left to right, front row: H. F. Redmile; E. C. Jefferis; T. C. Roe; H. Maguigan; J. P. Tawes; D. M. Minner; J. N. Russo.
 Second Row: J. H. Patterson; S. C. Toulson, Jr.; C. R. Jefferis, III; E. R. Vosseller; W. R. Wetherell; F. L. Zabowski; C. St. C. Pie; S. M. Hunn; H. T. Wilson.
 Third Row: A. B. Frick; H. A. Prosceno; J. W. Nichols; R. C. Potts; R. E. Tanner; L. H. Shinfeld; J. M. Hutchison; A. H. Eisenman; D. L. Hermann; F. A. Lambert.

Those to be commissioned as Second Lieutenants in the Reserve Corps are:

Robert W. Callaway, Abraham H. Eiseman, Arthur B. Frick, Francis B. Gebhart, Daniel L. Herrmann, Samuel M. Hunn, James M. Hutchison, Charles R. Jefferis, III, Edwin C. Jefferis, Francis A. Lambert, Harvey Maguigan, Delbert M. Minner, James W. Nichols, James T. Patterson, Charles St. C. Pie, Robert C. Potts, Harry A. Prosceno, Harold F. Redmile, John N. Russo, Louis H. Schinfeld, John P. Tawes, Smith C. Toulson, Jr., Eldon R. Vosseller, Harry T. Wilson, and Fred L. Zabowski.

Students who do not receive commissions, but receive certifi-

cates of appointments as they are not yet twenty-one years of age, are Thomas C. Roe and William R. Wetherell. These men will be commissioned as second lieutenants when they reach their twenty-first birthday.

Robert E. Tanner will be given a certificate of proficiency for having successfully completed the prescribed four years of R. O. T. C. training for scholastic credit only.

Regular army officers in command of the Delaware R. O. T. C. Post are Major Donald E. Dutton, Captain Sam W. Anderson, Captain Frank J. Cunningham, Sergeant Overstreet and Sergeant Kessinger.

Dr. Miller To Take Charge Of German Foreign Study

(Continued From Page 1)

ford College, Lake Erie College, Smith College, Stanford University, Vassar College, and Wellesley College for the study in Germany. Several interested Americans have announced their intention of aiding the movement financially. There has also been a limited number of scholarships offered by American colleges and three given by the Deutscher Akademische Auslandsstelle.

This plan for undergraduate study in Munich is intended for those who are especially interested in Germany, its language, literature, and culture. It affords the greatest opportunity to those students who are desirous of specializing in German, in philosophy, in history or political science.

The immediate goal of the year's work is to familiarize the student with the German language, literature, history, and civilization as is possible in the short period of time available. Several vacation tours have been arranged; a skiing tour will be conducted through the numerous, picturesque Bavarian villages.

Mrs. Miller, who is a graduate nurse and was, before coming to this country, a departmental supervisor in the University Hospital of Frankfort-am-Main, will be the medical supervisor of the group.

Dr. Miller, when asked for his sentiments regarding the University of Delaware, said: "I have thoroughly enjoyed my four years at the University of Delaware. I have found working conditions very agreeable and have enjoyed personal friendship with many of my students and members of the faculty."

President Hullahen has accepted Dr. Miller's resignation with regret. He, the whole faculty, and the student body feel that the University suffers real loss in Mr. Miller's leaving.

Plans Being Completed For Commencement Week, June 7-10, at Both Colleges

(Continued from Page 1.)

The following are the faculty committee which arranged for the Graduation Exercise:

University Committee on Arrangements: G. E. Dutton, chairman; H. K. Preston, assistant chairman; Miss W. J. Robinson, assistant chairman of Women's College.

Capa, Gowns, and Procession: E. B. Crooks, chairman and marshal; C. J. Rees, Miss Constance Blegan.

Seating, Decorations, and Ushers: G. A. Koerber, chairman; C. O. Houghton, Miss Camilla Downing.

Baccalaureate Sunday Program: Music for Baccalaureate Service and Commencement, A. D. Cobb, chairman, T. D. Mylrea.

Alumni: H. K. Lawson, chairman; W. F. Lindell, Leo Blumberg.

Alumnae: Miss Edith McDougale, chairman; Miss Olive Murray, Miss Gertrude Sturges.

Commencement Program: G. E. Dutton, chairman; Miss W. J. Robinson, C. A. McCue.

Announcements and Ushers: H. K. Preston, chairman; E. C. Byam, Miss E. G. Kelly.

Speakers: President Hulihan, chairman; Miss W. J. Robinson, G. E. Dutton.

The following are the graduating seniors:

Men's College

School Of Arts And Science

Julius Max Balick, Melvin Blechman, Daniel Ainslee Brown, Joseph John Crowe, Jr., Charles Nelson Cunningham, Jr., Robert Emmett Curtin, Abraham Herman Eisenman, Franklin Peach Foard, Francis Bryson Eckhart, Joseph Francis Green, Richard Marshall Green, Thomas Edwin Hanaway, Daniel L. Herrmann, Roy Linden Hill, Jr., Samuel Mifflin Hunn, Solomon Jasper, Charles Robinson Jefferis, Jr., Edwin Clayton Jefferis, Joseph Russell Jefferson, Howard William Kleits, Francis Albert Lambert, Harry Willis Lawrence, Leon Levy, Albert Marsee Lupton, Harvey Maguigan, Thomas Julio Malatesta, Richard Reid Manna, Walter John Mansberg, Francis Charles Mayer, Walter Phillip McEvilly.

Ralph Carlton McMullen, Delbert Massey Minner, Frederick Eugene Morgan, James Paul Mulrooney, James Warren Nichols, James Joseph Noonan, Ralph Arnold O'Connell, Charles St. Clair Pie, Robert Curtis Potts, James Pride Prettyman, Henry Johnson Ridgely, Jean Robert Richer, John Nicholas Russo, Isadore Salkind, Louis Harry Schinfeld, Isadore Slovian, Henry Herbert Stroud, William Alzor Sturman, Robert Elmer Tanner, John Paul Tawes, John Paul August Veit, Robert Melvin Vernon, Eldon Richard Vosseller, William Robert Wetherell, Frederick Smith Williams, Theodore Oscar Mitchell Wills, Harry Tinney Wilson, Harry Myers Witt, Jr., Fred Lewis Zabowski.

School Of Agriculture

Carlton Slaughter Garrison, Homer Thawley Hopkins, Joseph Edward Zavaša.

School Of Chemical Engineering

Robert Waller Callaway, Philip Tyre Cornelius, John William Gotwals, Jr., Harry Leroy Himmershitz, Isadore Hoffman, James Melville Hutchison, John Shilling, Jr.

School Of Civil Engineering

Walter Benjamin Moore, Donald Ross Morton, Jr., Joseph Knowles Newman, Harry Anthony Prosceno, Harold Franklin Redmile.

School Of Electrical Engineering

Edward Anthony Andersen, William Francis Bolen, Donald Miller Darrell, William Welch Garbutt, Morris Greenstine, Walter Denney Hoffecker, Francis Bayard Kendall, Everett Ellsworth Lodge, Olin Lowe MacSorley, Max Charles Mayer, James Howard Patterson, Walter John Pryzwara, Thomas Coombe Roe, John Alexander Salin, Smith Catlin Toulson, Jr.

Debating Revived Here After Four Year Lapse

(Continued from Page 1)

tion of the maximum number of students.

Present indications are that material will be available in sufficient numbers and of sufficient ability to make an excellent team. It is even possible that two teams will be formed.

Challenges have been sent to about ten different colleges and universities and, from these and others, about six of eight meets will probably be scheduled. Several of these will take place at the University and will be open to the student body.

Professor Leo Blumberg expresses his sincere appreciation for the kindness and sympathy of the faculty, student-body, Student Council, and staff of the University during the recent death of his father.

I'm sometimes asked about cigarettes . . . and I believe they offer the mildest and purest form in which tobacco is used . . .

Mild Ripe Tobacco . . .
Aged 2 years or more . . .

- the farmer who grows the tobacco . . .
- the warehouseman who sells it at auction to the highest bidder . . .
- every man who knows about leaf tobacco—will tell you that it takes mild, ripe tobacco to make a good cigarette; and this is the kind we buy for CHESTERFIELD Cigarettes.

All of the tobacco used in CHESTERFIELD Cigarettes is aged for two years or more.

LIGGETT & MYERS TOBACCO CO.

Chesterfield is the cigarette that's MILD
Chesterfield is the cigarette that TASTES BETTER
