# University to Offer **Extension Courses** During Next Term

### Classes to Be Held In Wilmington and Newark

A large number of graduate courses will be offered by the Uni-versity of Delaware during the com-ing semester through the Division of Extension, it was announced by Dr. C. J. Rees, head of the Division of Graduate Study. These courses, which begin the first week in Febwhich begin the first week in February, will be given at various centers in the State, but chiefly in Wilmington and in Newark. Registration for all Wilmington extension courses will be held the evening of January 30th in the Wilmington High School. Any Wilmingtonian for whom it is more convenient may register at this same time and place for courses being offered in Newark. For all others registraplace for courses being offered in Newark. For all others registra-tion for the Newark courses may be made from 9:00-11:30 a.m. in Room 200 at University Hall during the week of February 3-8.

week of February 3-8.

Among the courses to be provided through the Department of Physics is Physical Instrumentation for Chemists and Engineers, which will be given by Mr. V. F. Hanson, Manager of the Applied Physics Section of the Engineering Research Laboratories, of the DuPont Company. Assisting Mr. Hanson will be eight other scientists from the Research Laboratories, who will lecture on Laboratories, who will lecture on their specialties. Mr. C. M. Albright and Dr. R. J. Hunn will present electronic applications, high fre-quency techniques and supersonics; Mr. L. G. Glasser will give work in calorimetry and Mr. W. T. E. Elm-endorf will be in charge of work in endorf will be in charge of work in electronic circuits for measurements and controls; Mr. P. C. Hoell and Mr. J. M. Morris will lecture on instrumentation and electronic applications; Mr. P. D. Freil will provide the material on optical applications, and Mr. C. O. Baldwin will lecture on electronic instruments. Mr. Hanson will unify the material of the course and present topics on stress in electrical measurements, calorimetry and spectroscophy.

# Aggies and Home **Ecs Discuss Dance**

### Dr. Hueberger Discusses Fields of Agriculture

The Agriculture Club met in Old The Agriculture Club met in Old College lounge Thursday, January 9. A dance sponsored jointly by the Agriculture Club and the Economics Club was the subject of discussion during the business meeting. The time, place and type of dance will be announced later.

Following the business discussion, President Esham turned the meeting over to Pete Drobick, program chairman. Pete introduced

gram chairman. Pete introduced the speakers of the evening. Dr. Hueberger gave a short talk on the many opportunities that are now being offered in the fields of Enty-mology and Plant Pathology. He mology and Plant Pathology. He also briefly outlined what courses the University of Delaware Agricultural School had to offer that would requirements for a

gree in those two studies.

A motion picture of the life history of Brucellosis, a cattle disease. was shown following Dr. Hueberg-er's talk. Dr. Palmer spoke on the effects of the disease in the United States, and gave some interesting highlights of the disease not

brought out in the picture.

Now that the Agricultural Club is in full swing again it is hoped that 100 per cent of the Agricultural Students will turn out for the next meeting.

# Students Get Paid

### Officer-Type Uniforms To Be Issued to Basics

The R. O. T. C. has just taken a decided turn for the better. Although rather slow at first due to the new administration, the military department is now functioning

effectively, and progress is being made toward several objectives. Since last November, the nine participants of the advanced R. O. T. C. program have been on the payroll and are receiving a month-ly check for \$20.46. The MI rifle, otherwise known as the Garand automatic, will be issued next term for drill; and all uniforms now in use will soon be replaced by offi-cer-type uniforms. Also a Bofors remote control anti-aircraft 40-mm.

gun has been recently secured.

The R. O. T. C. department is still anxious to have rifle competition. anxious to have rifle competition. The rifle team has received numerous challenges which could not be accepted due to the lack of space for a rifle range. It is expected that this space will be provided soon, and that an excellent rifle team will soon be fielded.

# Col. Duenner Given Alumni Award

### U of D Health Director Cited for Service in War

Colonel Robert H. Duenner, Director of Student Health at the University of Delaware, has been given the George Washington University Alumni Achievement the University Alumni Achievement the United States during World War II. The Award was made by Chester W. Holmes, President of the Alumni Association, at the 125th Annual Commencement of George Washington University. It was presented upon the recommendation of the General Alumni Association to a selected number of graduates for their professional achievement coupled with their service to the University.

Dr. Duenner was retired from the Regular Army last fall, after more than 34 years of service. He entered the Army Medical Corps immediately upon completion of the interneship which followed his graduation from the George Washington University School of Medicine.

In April, 1946, Col. Duenner was

ington University School of Methicine.

In April, 1946, Col. Duenner was the recipient of the Army Commendation Ribbon for his distinguished service as Surgeon at Fort Sam Houston. Tex. In that same month his group was awarded the Meritorious Service Unit Plaque.

From Fort Sam Houston Dr. Duenner came to the University of Delaware late last fall to take charge of the greatly-expanded Student Health Center. He and Mrs. Duenner are residing temporarily at 186 S. College Ave., Newark, Del. Dr. Duenner was born in Knoxville, Tenn., where a sister, Mrs. William Q. Johnson, still lives, Mrs. Duenner is a native of Louisville, Ky.

The girls of Sussex Hall enjoyed a half hour of music and refresh-ments, sponsored by Miss Fredrick the housemother, in the dormitory last Thursday evening, Jan. 9. The recording of Brahms' Fourth Sym-phony was the selection for the

The idea of a musicale in the dormitory is different and very enjoyable, and it is hoped that it can repeated often.

# Advanced R.O.T.C. E. P. Hanson Gives African Frontiers

On Jan. 9, at the Thursday morn-

On Jan. 9, at the Thursday morning College Hour, Dr. Carlson presented his former colleague, the noted explorer, Earl Parker Hanson.

Mr. Hanson presented an informative and stimulating discussion of the potentialties of the untouched frontiers in tropical America and Africa. Africa.

In 1938 the International Conference of Geographers at Amsterdam finally dealt the death blow scien-tifically to the oft-cited theory of the dehabilitating effects of tropical cli-mate on members of the white race. The Geographers based their con-clusions on recent highly success-ful attempts at colonizing tropical ful attempts at colonizing tropical areas by the Australian government. In 1907 Australia deported the Asiatic colored laborers, leaving the northern Commonwealth of Queensland with a serious labor shortage. Since that date the Australian government has successfully replaced these plantation workers with white laborers from the more temperate portions of the continent. So successfully have they attacked the problems of tropical deterioration and disease, that today Queensland is the healthiest portion of Australian and the sease of the continent. land is the healthlest portion of Australia.

Mr. Hanson outlined several State Department decisions concerning international trade. These decisions are based upon the conviction that are based upon the conviction that in order to maintain and improve our present standard of living, the United States must gain new markets. One of the methods of gaining new markets is to help raise the standard of living of backward peoples, thus increasing their demands and their abilities to buy more goods. By helping these people the State Department hopes to capture the potential markets for American business and to prevent the infiltrabusiness and to prevent the infiltra-tion of Communism.

Mr. Hanson led one such expedi-tion to the back-country of Siberia. and in addition to having some re-markable experiences, was able to successfully introduce improved ag-

ricultural methods to the natives.

Mr. Hanson believes that most undeveloped tropical areas such as the Amazon Basin will prove to be frontiers in a new age of American

# **King Quintet Gives** Music Recital

Featuring 16th Century Music, a Brass Quintet, composed of U. of D. band members, played in recital Wednesday night, Jan. 15th, for the University Women's Group, New-

The following unusual and seldom heard compositions were per-formed:

Two Pavans ... Melchoir Franck Honie-Suckle ... Anthony Holborne March and Gavotte .... George Fred-erick Handel

and Bob Walls; tuba, Al Greenstein.

This combination, one rarely heard in the music world, was organized and trained by the music department's J. R. King, talented and youthful conductor of the Band

and Orchestra. Commenting on this type of music Mr. King said: "This type of music is known as 'Tower Music'. Its name originated from the fact that it was played from the Tower of the walls surrounding the 16th Century Ger-man Cities. The groups playing this music were street musicians and. like other artisans of the period, had their own guild. One of the favo-rite times for playing this restful music was the early evening hours.

# Housing Allotment Discussed by AVC

The second meeting of the Newark Memorial Chapter of the American Veterans Committee was held on Tuesday, January 7, at No. 3 New Street, in Newark. Robert H. Le-

Street, in Newark. Robert H. Levine, chairman, officiated.

The discussion centered around the lack of housing facilities for student veterans in Newark, and suggestions were entertained for the remedying of the situation. The members also discussed the present action of the A.V.C. college chapters throughout the country in chapters throughout the country in their campaign to raise the sub-sistence allowance of student vet-erans, and made plans for a similar

campaign at this college.

The following committees were appointed, and the meeting was adjourned:

Housing Committee: Sol Sitzer, chairman, Bob Levine and Gil

Membership: Bob Mueller, chairman, John Schmidhauser and Tom Sanford. Publicity: Dan Bloch, Ann Fogel-man and Ed Golin.

# Registration Dates To Be February 4-5

The registrars office has announced that pre-registration for all stu-dents must be completed by Janu-ary 18th. The announcement said that it was the responsibility of each student to contact his adviser and plan his course of study for the spring term. Due to the great num-ber of underclassmen matriculated

ber of underclassmen matriculated at the present time no exceptions will be made to this rule.

Registration for the spring semester will be held on February 4th and 5th. In order to avoid confusion, the entire student body will register in the Field House. A notice will be sent to each student by the Dean of his respective school stating the day and hour on which he should register. The hours have been staggered in order to reduce been staggered in order to reduce congestion as far as possible.

It was re-emphasized that registration must be completed by January 18th, and that each student must register at the proper time.

### All Students Attention

The completed questionnaire for the yearbook must be turned in not later than January 23, if you wish to be represented in the BLUE HEN.

### Alumnae Assoc. To Will Be Given January 21 Hamilton, Cairns to Star

The Wilmington Drama League will present P. G. Wodehouse's rollicking comedy Candielight in Mitchell Hall at 5:15 on January 21, as the guests of the University of Delaware E 52 Players.

This marks the first time that the Wilmington Drama League has brought a full-length play to the campus, although it has contributed a number of one act plays to Festival and Playbill programs. This guest appearance is the first in a planned series of exchange programs to be offered by community theatre groups and the University.

theatre groups and the University.

Charles Culp has directed this three-act comedy, which made its Broadway debut in 1927, starring Gertrude Lawrence and Leslie Howard and achieving a run of almost two years. Leading roles in the Drama League production will be taken by William H. Hamilton as Josef, Katharine K. Cairns as Marie and Victor Esker as Prince Rudolph.

Bill Hamilton made his first ap-

Bill Hamilton made his first appearance with the Wilmington Drama League in the production "Boy Meets Girl," in which he played the role of J. Carlyle Benson, one the Hollywood script who contributed to the hilarity of the comedy.

Katharine Cairns will be remem-bered for her portrayals in You Can't Take It With You and in The Man Who Married a Dumb

Victor Esker offered perhaps his best work as the sagacious doctor in *The Guardsman* and as the mad husband in *Angel Street*.

Other members of the cast in-clude: Chauffeur, Joseph Patter-son; Liserl, Rebecca Moore; Baron von Rischenheim, Robert V Bur-dick; Waiter, David Golding; and Baroness von Rischenheim, Ann Corlotta Corlotta.

# U. of D. to Sponsor Dramatic Clinic

### Clinic Will Eventually Aid All Schools of State

Invitations have been sent by the Invitations have been sent by the University of Delaware Dramatic Center to superintendents of schools in Sussex County to send one or more faculty representatives to the Sussex County Drama Clinic, to be held at the Georgetown High School from 4:00-9:00 p.m., on Wednesday, January 22. nesday, January 22.

The purpose of this newly-organ-ized clinic, according to Dr. C. R. Kase. Director of the Dramatic Center, is to discuss the problems of Center, is to discuss the problems of the individual schools in connec-tion with their dramatic programs, to discover ways in which the Uni-versity Dramatic Center might be of more use to the schools, and to assist in the organization of the Sussex County Tournament in the Fifth Dramatic Festival, to be held

The Sussex County Drama Clinic is the first of three such county clinics to be organized in the State. New Castle and Kent County groups will meet in the near future.

The Clinic aims to supplement ne annual Dramatic Conference held at the University by providing greater opportunity for the consid-eration of individual problems and the exchange of information.

Dr. Kase, accompanied by one or more high school directors from other parts of the state, plans to at-tend the Georgetown meeting.

### DANCE DILEMMA

Four bells to Stan Reed, Junior Class President and to Don McClellan, Chairman of the Junior Prom Committee, for the best dance of the post-war era. The Lake Placid winter scene was something out of this world.

All persons concerned with the affair are to be particularly congratulated since they had to do all the work under the most adverse conditions. It seems that the committee wasn't even allowed to start their extensive decorating until after the basketball team had finished its practice. We fully realize that the team needs to practice but we do think that they could have relinquished the floor for the one evening. This is naturally not the fault of the team; it is the athletic office that's to blame. Mr. Murray absolutely refused to let the committee begin decorating before six o'clock in the evening; and the dance began at nine!

Also, it seems that Mr. Murray has refused to allow any more dances to be held in the field house until the termination of the current basketball season! This means that the Valentine's Day Dance; which has been contracted for the field house, will have to be held elsewheres. It seems that some sort of suitable arrangement could be made to permit both parties concerned to use the field house for the evening. Why couldn't the team hold its practice in the old gym for the one night? It surely wouldn't hurt the efficiency of the team.

The REVIEW fully realizes that sports are an intregal and important part of college life. College wouldn't be college without them—but—social affairs are also just as important to a well rounded student life on campus. The University seems to have put sports above everything else but we

feel that there should be some sort of happy medium. If the field house cannot be used for our large dances, then where will we hold them?

"Can't your father do it?" questioned the clergyman, somewhat taken

"Nope," answered the girl, "only the bull."
In case they have cut all the other jokes we'll add this one: The butcher, the baker, and the candle stick maker.

For Health and Beauty . . . Let's Neck

Silly? Not in the least. According to certain Doctors and beauty experts, not to mention many W. C. D. students, the kiss is a good way to build resistance to many diseases—diseases that is. The princieases—diseases that is. The principle is that by introducing a few germs into the system at a time, the body—system is probably a better word—develops an immunity to germs and "microbes bounce off the person of the 'much kissed' girl or boy." (Been wondering why some people "never had a cold" in their lives.) A beauty expert states that "kissing also makes the eyes brighter, the skin clearer, and eyes brighter, the skin clearer, and gives the hair an added luster." This will save many a dollar (poppa's) and many a trip to the beauty parlor for the "sweet young thing" preparing for a prom.

Why the hell can't 1?

One point should be made, however, there are kisses and there are KISSES. The type for health and beauty is the KISS—the l-o-n-g, strong, stimulating kind that plays strong, stimulating kind that plays havoc with the pulse rate and blood pressure, to say the least. This kind is one that must be developed —not that it isn't natural, it is— but practice is needed to make the kiss literally "do things for you."

As the men generally take the lead (?) in kissing, it might be well, (for the sake of health and well, (for the sake of nealth and beauty), to have instruction given in the osculatory art. The high schools are not in a position to handle a course of this sort, nor are the students ready for it; therefore it falls upon the colleges to perform this task. A suggested course would consist of one hour lecture a

# In the Sportlight

It is with no illusions that we declare Billy Cole, football, baseball, and basketball letterman, the greatest all-around athlete to ever adorn the campus of the University of Delaware. A thorough search thru the annals of the athletic history of our Alma Mater reveals no individual who could match the skill and spirit which has been vested in the diminutive P. S. du-Pont High School expatriate.

It is difficult to judge in which sport the ex-Army Air Corps pilot excels. His performances at Delaware have only duplicated a starstudded grid, diamond, and court career at the Wilmington school. A memorable 90-yard runback, in 1941, in the annual duPont-Wilmington High classic climaxed three years of football under the three years of football under the tutelage of Rea McGraw, Dynamiter mentor. His size, while making him the fans' natural favorite, was little help when his talents were transferred to the basketball boards. However, his speed and aggressiveness made him one of the best hoopsters to emanate from the school which has produced some of the finest courtmen in this section of the country. Also, his uncanny the finest courtmen in this section of the country. Also, his uncanny base-running ability and a better-than-fair batting eye make him a strong contender for laurels in the national pastime both in high school and in the Delaware State Semi-pro loop. His flawless fielding around the keystone sack is nothing short of astounding, and will provide thrills a-plenty for baseball followers in 1947.

Matriculating to the Newark

baseball followers in 1947.

Matriculating to the Newark campus in the fall of 1942 saw the diminutive scatback quickly earn a berth on Coach Murray's undefeated grid juggernaut. With the close of the football campaign, Cole donned the garb of a Blue and Gold basketeer and proceeded to win a starting berth on the Mason-Dixon Conference runner-up five of 1943. Spring found Wee Willie once more in the familiar slot at second base on Shack Martin's Hen nine.

However, following the trend of

However, following the trend of the times, "Beely" traded mufti for khaki, and proceeded to earn his wings as a sky-driver in Uncle Sam's AAF. He returned almost three years later to once more assume his leading role in Delaware's greats apporans.

sports panorama.

The key to Cole's success is not only athletics but in anything he has yet attempted is his keen competitive spirit and his eagerness to petitive spirit and his eagerness to improve himself. It would seem that his extra-curricular activities would limit his scholastic endeavors, but here again the sun shines bright and the name William Cole has become a regular fixture on the Dean's List. A science major, Billy is a Junior.

With the passing of time and the indomitable spirit constantly driving him to improve the already Frank Merriwell-like abilities of our hero, the "Cole Era" at Delaware will not soon be forgotten.

### Two Pool Records Tumble Grier Wins Diving Event

LaSaile Collège's swimming Ex-plorers whipped into Taylor Gym last Saturday afternoon, churned the waters of the tank for an hour, and left for Philadelphia with a 55-20 victory over the Blue Hens under their belts. As expected, Joe Verdeur and Jack Lumsden, Explorer, and Aller Lumsden, and Alle Verdeur and Jack Lumsden, Explorer aces, performed brilliantly in leading their team to its decisive victory. Verdeur smashed the pool record in the 220 yard freestyle by roaring over the distance in 2:16.8, which eradicated the old mark of 2:20.5 set by Spence of Rutgers in 1934. Later he came back and shattered another longstanding mark in the 440 yard freestyle by coming across the line in 5:03.6. This lowered by 7.6 seconds the pool record hung up in 1939 by Monihan of Delaware. Lumsden made a poor turn in the 50 yard freestyle and did not place, but swam an anchor leg on the 400 yard relay that was little short of poetry in motion. in motion.

In motion.

Bauduy Grier, Bob Bush, John Bishop and Bob Cofer shone for the Hens in defeat. Grier copped top diving honors with Bush doing likewise in the 150 yard backstroke. Bishop took a second place in the 50 yard freestyle just ahead of Cofer, who also drove home in second place in the 100 yard free.

The meat scheduled for this Sat-

The meet scheduled for this Sat-urday in Taylor Gym with Gettysburg has been postponed due to a severe fire which damaged the lat-ter's gymnasium. Coach Raw-strum hopes to find another team to fill in this date.

Last Saturday's summaries:

# Hen Tankmen Bow Blue Hen Quintet Takes Thriller From To La Salle 55-20 Drexel Tech in Dying Seconds of Game

## HEN CHATTER

### By DICK KIDDOO

With twin victories over Washington College and Drexel Tech, Coach Joe Brunansky's varsity ington College and Drexel Tech.
Coach Joe Brunansky's varsity
Passers are finally living up to preseason expectations. We think the
combination of Bill Cole, Captain
Jerry Bowlus, Vic Wood, Bill Nash,
and Jim McFadden, with Jules
Hoffstein, a dependable climax
player, as the vital sixth man in the
machine, will bring one of the best
seasons among the sadly under-emseasons among the sadly under-em-phasized Blue and Gold basketball teams of the past decade.

Material already available on the campus would put Delaware on the basketball map if the cage game were granted the same grace which has produced the Murray grid combines. Simply because we has produced the Murray grid combines. Simply because we maintain a first-rate football team is no reason to reduce the court game to the level of a minor sport. Schools producing Grade A court aggregations begin serious drills with the opening of the fall semester of classes, while here midst our tight-fisted administra-tion the team cannot commence tion the team cannot commence practice sessions until the basket-ball coach is freed from duties with the football team, or about Decem-

This year, to top it all off, the coach has necessarily devoted his time before the holidays to scouttime before the holidays to scotting and preparing the football
team for the Bowl Game. With his
spare moments—in, the evening—
he was expected to assemble a winning team. The loss of the first
contest then subjected both players
and exactly to withering blasts from and coach to withering blasts from students and so-called Hen fans. We think this show of poor sportsman-ship and sheer stupidity is the blackest mark in the athletic pic-ture at Delaware which we have had the misfortune to contact. The fact that the Blue and Gold Basketeers have won their last two games

eers have won their last two games is a more than fitting tribute to the abilities and determination of both players and Coach Joe Brunansky. It seems to us that a full schedule (not 16 games), a training table, and a new deal in general is in order for the nation's favorite sport.

Our heartfelt sympathy goes out to Coaches Shack Martin and Harry Rawstrom, whose lots as mentors of the wrestling and swimming teams these days leaves much to be de-sired. The breaks have all been (Continued on Page 5)

### Cole Sinks Foul Shot To Provide 1 Point Victory

With Billy Cole providing a story book ending, the University of Delaware basketball team tripped a hard-fighting brexel Tech five last Saturday night in the Field House 38-37. The win was the second in the first three starts of the season.

While Captain Jerry Bowlus was hampered by a pulled muscle sustained in pre-game drills and was forced to retire in the fourth period, Bill Nash and Jim McFadperiod. Bill Nash and Jim McFadden paced the Blue Hens through the first three periods but the sharpshooting and tight defensive play of the visitors kept them ahead of the Brunansky men throughout the better part of the play. However, a final spurt gave the locals a one-point margin with less than a minute to play. A foul against Bill Schwal, Dragon guard, brought the crowd to its feet and when he converted the penalty toss the hearts of the some 1000 odd fans were nigh on to falling. Howwhen he converted the penalty toss
the hearts of the some 1000 odd
fans were nigh on to falling. However, a last minute foul on Billy
Cole provided the tiny forward
with an opportunity to either become the hero or goat of the day.
Cole dropped the foul with just
ten seconds remaining and the contest was saved.

Jim McFadden provided 12

Jim McFadden provided 13 counters for the Hen cause, several times keeping the Blue and Gold passers within reach of the pace-setting Philadelphians. Bill "Knacker" Nash accounted for four "Knacker" Nash accounted for four field goals and two fouls to aggre-gate ten points while Fred Kollar, ace Dragon forward, garnered 13 points to take honors among the losers.

Saturday the Blue Hens will tangle with Johns Hopkins University at 8:00 p. m. in the Field House while the Junior Varsity faces the Wilmington Y. M. C. A. quintet in a preliminary at 7 p. m.

Boy Bylander's symmasts pro-

a preliminary at 7 p. m.

Roy Rylander's gymnasts provided an excellent exhibition of parallel bar work between the halves of the Drexel game. It is interesting to note that many of those participating in the half-time fete are new to apparatus work this year and Coach Rylander merits a round of applause for his brilliant work.

# Delaware Foreign Study Plan Resumed Includes 11 Months' Study in Geneva

### Knowledge of French Is Required for Eligibility

The University of Delaware has achieved renown throughout the country for something other than her football team although few students on this campus are aware of it. It is the Delaware Foreign Study Plan which sends deserving juniors abroad to study each year that will actually constitute a more lasting fame for this University than any of her athletic victories because of its intercollegiate, and even more important, international character

The Junior Year Abroad Plan was originated in 1919 by the late Raymond W. Kirkbride, and was adopted by the faculty of the University of Delaware in 1923. It provides for one year's supervised study abroad for undergraduate students with full credit toward the American baccalaureate degree. The Delaware plan was in continuous operation in France from 1923-1939. It extended to Germany in 1932 but the University of Delaware later withdrew sponsorship of work in that country owing to political conditions. This year students will only be sent to Geneva. At the request of many colleges, the Delaware Committee agreed to consider application for member-Raymond W. Kirkbride, and was

the Delaware Committee agreed to consider application for member-ship in its Foreign Study Groups from properly qualified students of any accredited college. During the sixteen years that the Foreign Study Plan operated in France prior to the recent war, 123 Ameri-can colleges and universities parcan colleges and universities par-ticipated by sending 768 students to France for undergraduate study under the direction of the University of Delaware.

There are numerous advantages in this year abroad for any student interested in French. The postwar emphasis upon the practical command of foreign languages, the increasing need for men and women trained for service in international organizations, and the economy of a year in which foreign residence organizations, and the economy of a year in which foreign residence is combined with undergraduate study certainly presents cogent arguments for student adoption of the Plan. From a wider point of view the desirable results of this plan include a reservoir of college men and women having a good

knowledge of the languages and customs of foreign countries who may find positions in the business may find positions in the business world or government jobs, the number of college graduates qualified to teach foreign languages in our schools will be greatly increased, solid foundations will be made for postgraduate courses, the individual's point of view will be broadened by the experience, and through all these will ultimately come a significant advance in our knowledge of other nations and our knowledge of other nations and our sympathy with their problems. It is hoped this will exert a real influence upon the attainment of in-ternational understanding and good

The Junior year in Geneva is of approximately eleven months' duration, including a preparation ration, including a preparation term of intensive study of French. term of Intensive study of French. During the winter and summer the Delaware students are offered at the University of Geneva a varied program of special and regular courses suitable to their needs. Placed in carefully selected homes for their stay in Geneva, students speak the French language and gain considerable knowledge of family life. An interesting social life is also offered through a series of operas, concerts, and plays, as well as short trips to Lake Geneva and three long vacation trips. In and three long vacation trips. In the winter there is skiing, skating, or coasting; and there is bicycling, swimming, canoeing, and boating in the summer. There are also many tennis courts in Geneva. In fact there are few places in the world where the student has greater opportunity for enjoying indescribable natural beauty and at the same time every kind of outdoor sport in com-pany with comrades who have made out-of-door life an art.

The Foreign Study Plan is open to both men and women in regular standing in any college or university on the accredited list of the Association of American University Association of American Universities. Candidates for admission must have had as preparation in French, at least two years in preparatory school and two in college, or the equivalent. For further information as to qualifications, fees, and other details, bulletins on the Junior Year in Geneva may be secured from the Foreign Study office in University Hall. in University Hall.

Dear Editor:
The following is a statement of the activities and purposes of the Yacht Club of the U. of D. The Club was formed officially on the 5th of December, 1946, with the adoption of a set of by-laws, and the election of officers. Committees were formed to carry on the organization. They have been working and doing a good job. At the time of organization the club hard so members. had 80 members.

The week before the Christmas yacation, the committee on Student Organizations met and unanimous ly voted against recognition of this Club. This means that we cannot represent the University of Dela-ware nor use the name of the

would like to quote from our

Purposes: 1. To represent the U. of D. in Intercollegiate Yacht

racing.
2. To provide sailing experience and pleasure for the members

Extend members' nautical knowledge through a course of

knowledge through a course of instruction and guest speakers. By the Committee's action our first purpose is out. Our second purpose is likewise cut out for the following reasons: To sail, we need hoats, and boats cost money. By not recognizing us, we are automatically unable to receive funds from ically unable to receive funds from the University; neither are we able to solicit any donations from pri-vate citizens. People very rightly could not be expected to contribute money to a Collegiate organization that has not been recognized by the College. We have raised about \$200.00 thus far from dues, the card game and sale of Christmas cards. However, boats cost money, on the present market about \$500.00. We are planning a dance in the spring but it will not net much over \$150.00.

The money that we now have in the treasury would all go for sending crews to the various meets and regattas. So, we still have no boats. Purpose two is therefore out. This leaves us with our third and final purpose that we are able to carry out.

I feel that our purposes are excel-

lent, that we can do a lot to spread the name of Delaware in Intercollegiate sports circles and certainly this school needs all of the public-ity it can get. We are aiming to help, not hinder the school; yet, we are stopped.

Finances seem to be the main rinances seem to be the main reason for the Committee turning "thumbs down" on us. We certainly would appreciate any help the school could or would give us along this line. However, we feel that the money needed could be raised by donations, but without the approval of the school we can make proval of the school we can make no attempt to raise the necessary amount. Approval has been asked, with a non-financial clause, but that too has been disapproved.

It might be well to state that as yet, the written report of the Com-mittee has not been received, but the information we have received, but the information we have received comes from conferences with two of the members. It is our feeling that the School has adopted a policy of suppressing student activities. WHY?

The Yacht Club is not dead, we have received a foul blow, but we are just beginning to fight. We are going to continue that fight until the Administration the Administration can prove a just and legal reason for not permitting us to exist and try to make a suc-cess of this club, and we feel that we can make a success of it. The necessary talent, energy and high interest is present. We will continue to fight for our life, and the lives of all other student activities now present or to be born on the campus

The Administration does not seem to realize that the training one gets in participating in Student Organizations is just as important as the required courses he takes. Ask any personnel director and he will back me up on this last state

The Yacht Club is making arrangements with the North East Yacht Club to use their facilities as our home port. This seems ironical now, but we expect to have a fleet by late spring. We expect to win this battle with the Administration and we are prepared for a hard fight.

Name of Writer Withheld.

Dear Editor

In recent issues you have aired the plight of the poor hapless vet-eran who is trying to get along on \$65.00; you have given the campus

\$65.00; you have given the campus beaneries a working over; and your columnist. Mr. Beach, has even registered a gripe about the cost of a room in the dorms.

Humpf! You guys think you have troubles; you think you are getting a raw deal. How about us married simps who thought we could still get through school? If you think your cost of living is high, just try to rent a chicken coop for two from these money-hungry locals. Of course, we could slip a crisp fifty or so to the bureaucrat who would get us into the "village," but we

or so to the bureaucrat who would get us into the "village," but we haven't been able to identify the Shylock, as yet.

Recently the Evening Journal ran an editorial commending the authorities at Delaware State College for the fine living quarters that they had provided for the veterans, both married and single, but, alas, this was the colored school at erans, both married and single, but, alas, this was the colored school at Dover. No, I am sorry to say that no bouquets have been thrown this way, in fact, not even an aged egg with its ensuing bad publicity. Things really aren't so bad, though; you can put your name on the list in Brown Hall, and then if there is a snare garage that all of

there is a spare garage that all of the homeless faculty have turned down as undesirable, you might, and I say "might," be given the

address. The head of the Wilmington Housing Authority says that he has repeatedly offered housing to the University, but all offers have been turned down. The Authority was willing to GIVE buildings, ship them free of charge, and erect them at no cost. The university was acked to lead a little ground rent address. asked to lend a little ground, rent them, and maintain the project. Cornell, Rutgers, Penn State, and even Delaware State have seen fit to accept the Federal gift. Why

hasn't the U, of D.?

We don't ask for any luxuries;
we don't ask anything for nothing; however, if we are to continue on our near nothing incomes, we would prefer to be associated with people in the same circumstances rather than raise our children in

(Continued from Page 3) bad for the matmen with Bob Rosenberg and George Sarmousakis both sidelined by the recurrence of old injuries, and both Horace Ginn, a 1943 Mason-Dixon Conference champ, and Bill Thistlewalte find-ing the grappling game consuming too much time from their academic duties. Rosenberg. Sarmousakis, and Thistlewaite all participated in the Washington College meet and carned victories in their events. The loss of Bob Bush, are back-

The loss of Bob Bush, are park-stroke and relay merman, who is leaving school with this semester will inflict a deep wound upon the strength of the Hen tankmen.

Speaking of swimming, those missing the LaSalle swimming meet might well wish they had attended. The Philadelphia natators brought probably the best team and, in Joe probably the best team and, in Joe Verdeur, undoubtedly the best individual performer ever to appear in the Taylor Gym pool. Verdeur, holder of the world's record for 220-yard breast stroke, broke two pool records individually and helped the medley relay team catch a third, even though he failed to participate in his favorite event.

# Vesper Services Being Resumed

Vesper services have been resum ed again under the sponsorship of the Delaware Student Christian As-sociation. They are held in the music room on the third floor in Old College every Sunday evening at 6:30 p.m. Everyone is invited to at-tend regardless of their own relig-lous affiliation.

The idea of Vespers is to give the students a common meeting-ground in religious matters, and it is there-fore hoped that all students will avail themselves of this opportun-ity.

### Drama Dribblings

Marlyn Greenberg and Helena Clark were accepted as new mem-bers of the E-52 Players at the meetbers of the E-52 Players at the meeting on last Tuesday evening. Marlyn was seen in a lead of the oneact comedy "Sparkin'" and has had
parts in such plays as "The Great
Big Doorstep" and Christmas plays.
Besides this, she is chairman of the
Makeup Committee. Helena, better
known as "Cookie," has served on

A Veteran Administration survey for the first half of 1946 disclosed that 612,690 veterans have avail ed themselves of the educational benefits provided by the Service-men's Readjustment Act. (G. I.

The survey showed that 105,294 veterans, or 17.19 per cent of the total, were taking liberal education and 91,337 were studying trade and

Engineering attracted 57,241 vet-rans, and mechanical courses, 48,470.

A total of 19,555 were interested in scientific study, 18,428 were taking courses in law schools, 7,688 aimed at writing careers and 3,563 looked forward to being pharmacists.

The survey revealed that veterans were taking educational courses in all the professions and in virtually every type of craft and industry that is taught in our nation's institutions of learning.

Many of these veterans would be unable to continue their educa-tions without the benefits which

There will be someone in the Vets office every Friday after-noon to advise vets on their in-

surance problems.

All vets who have not filled out their schedule cards are asked to stop in at the office and do so.

# This Collegiate World

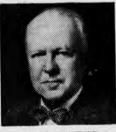

ST. PAUL, MINN .- (ACP)-It cost composition major Emil Strom of Hamlin College all his baggage and most of his personal belongings, \$800 worth of lost music and 20 pounds of lost weight to study music in France this past summer-and he wants to go back again

Strom, now studying under Dean Ernst Krenek of the school of music, was one of 18 American students attending the first postwar summer session of the American Arts Schools in the Palace of Fountain-

His baggages and music were lost in travelling, but his lost weight was caused by cramming six months work into two, and a somethingmore-than rigid French diet. All things considered, Strom thinks his trip was a valuable experience, and he hopes the trip next summer will be more enjoyable-even if he has to tie his baggage on his back next time to keep from losing it.

EVANSTON, ILL.-(ACP)-Northwestern's electricians, steamfitters, janitors-the men who make the university liveable-will receive their orders over a mobile telephone soon. It is believed that this will be the first such arrangement in a university in the country.

The phone will be installed within a few days in the automobile of Maurice Ekberg, superintendent of buildings and grounds at Northwestern. The department's 247 workers can be contacted immediately in case of electrical difficulties, flooded basements, or other mishaps which call for a repair crew, Ekberg said.

WALTER S. GIFFORD

President of the New Jersey Bell Telephone Company. Started with the Bell System as a clerk in Boston in 1909.

JOE E. HARRELL President of the New England Telephone and Telegraph Com-pany, Started with Bell System as a clerk in Atlanta in 1913.

RUSSELL J. HOPLEY President of the Northwestern Bell Telephone Company. Started as collector in Fort Madison, Iowa, in 1915.

WILLIAM A. HUGHES

President of The Southern New England Telephone Company. Started as engineer's assistant in New Haven in 1911.

# Up from the Ranks

These are presidents of operating telephone companies of the Bell System. They all started at the bottom of the ladder . . . Nine years ago the Bell System first published an advertisement like this, except that there are now thirteen new faces in the pictures. These new presidents also started at the bottom.

The Bell System aims to keep the opportunity for advancement

open to all. One of its traditions is that its executives come up from the ranks. That has been true of the business for many years and nowhere is it better illustrated than in the careers of the men who now serve as presidents of Bell Telephone Companies. As a group, they have put in 611 years of telephone service, an average of 36 years each.

### PRESIDENTS OF BELL TELEPHONE COMPANIES AND THEIR FIRST JOBS

Name	Company	Date Place of Start	First Pay	First Job
