HCR 90 - Congratulating Regina Ciritella, a Student at St. Elizabeth's High School, on Winning the 1979-80 "Voice of Democracy" Contest Sponsored by the Veterans of Foreign Wars.

WHEREAS, the Veterans of Foreign Wars of the United States, its Ladies Auxiliary, and cooperating National and State Associations of Broadcasters offer every high school in the country an opportunity to involve its students in the "Voice of Democracy" National Broadcast Scriptwriting Scholarship Program; and

WHEREAS, this year's theme, "My Role in America's Future," focuses the attention of youth on their role as the leaders of tomorrow, and how their guidance will preserve democracy as a way of life in our Republic; and

WHEREAS, this is the 33rd annual "Voice of Democracy" scholarship program, which is the largest program of its type in the United States, involving winners from the fifty states along with a winner from Washington, D.C., one from Panama and one from the general Pacific area; and

WHEREAS, the last weekend in February is set aside for the selection of the national winner, which is coordinated with the Conference of National Officers of the Veterans of Foreign Wars and their State Commanders, in Washington, D.C.; and

WHEREAS, the winner will personally give his or her speech on the 1st Tuesday in March at a Congressional banquet in Washington, D.C. at which the President of the United States is expected to be in attendance; and

WHEREAS, Delaware's "Voice of Democracy" winner, Miss Regina Ciritella, from St. Elizabeth's High School, was recently selected on Sunday, January 13, 1980, from a list of four semi-finalists representing the City of Wilmington, New Castle County, Kent County and Sussex County; and

WHEREAS, the Delaware "Voice of Democracy" contest chairman Mr. Thomas B. Nolan; assistant chairman Don Addor; Ladies Auxiliary chairperson Veronica Carney; along with the district chairman, Service Officer for the Veterans Administration in Delaware, Mr. Elmer Saxton; and state officers are to be congratulated for the fine job they did in organizing and carrying out the contest in the State of Delaware.

NOW, THEREFORE:

BE IT RESOLVED by the House of Representatives of the 130th General Assembly of the State of Delaware, the Senate concurring therein, that congratulations are hereby extended to Miss Regina Ciritella for being the First Place Winner in Delaware's "Voice of Democracy" contest.

BE IT FURTHER RESOLVED that the Governor and the General Assembly of the State of Delaware wish her the very best of luck in her pursuit of the 1979-80 national "Voice of Democracy" scholarship award.

Representative Connor requested and was granted the privilege of the floor for Regina Ciritella.

Miss Ciritella read the following award-winning speech before the House:

#### My View on Involvement

My personal experience in the United States is so minimal that at first it didn't seem as if there were that much I myself could do to affect its future. This country has always fascinated me because of its large size. There are so many different people here, and yet this country functions as a whole. When people study history, most of what they learn is taught in a general view. There are a few people who are studied individually because of the effect their lives had on the people they were involved with. People like George Washington, Abraham Lincoln, Susan B. Anthony, or Martin Luther King. I never looked at myself as being able to influence my country in such a grand style as they did. But now I realize that isn't fair to say, about me or anyone.

I believe the education I've had in this country has formulated my present attitude. That attitude is that every single person in this country affects the future of us all in some way. And that includes me.

I asked myself the question, "What are my responsibilities as a citizen growing up in America?" It occurred to me that there are two that stand out as very important. These two responsibilities are so closely related that it's very difficult to see any difference between them. They both are vital to each other, they are a team. The first cannot work without the second, and the second doesn't exist without the first.

My first responsibility is to get an education. I have a responsibility to learn all about the things I am or may come in contact with. Besides studying such topics as physics, English, and sociology (to name a few) it's important to study this country: to study America's history, its people, and its makings. My second responsibility involves what I do with this knowledge. I must do something with what I've learned. It seems that the one word that is most important in carrying out my responsibilities, is the one word that turns most people away. The word is INVOLVEMENT. I must involve myself in the things I've studied. It's my second responsibility. It's my choice. And when I choose to become involved, I choose to affect the future.

There are many young people who involve themselves outside of the classroom with people who share their ideals. There are students involved with groups against nuclear power, and in groups for nuclear power. There are young people who express beliefs about such issues as discrimination, drugs, and abortion. There are students involved in groups for women's rights, and students involved in bettering their neighborhoods and their environment.

In addition to these groups that young people give their time freely to, some jobs may allow young people to contribute to and understand more fully their role in America's future.

For example, in many of our cities students can find jobs as errand runners for various law firms. They run messages, affidavits, and other materials to other law firms and to the different courts. They have a first hand look at how this country's judicial system works, and at the same time are learning the practical value of the dollar.

Another example of how a job can show a young person's integrity is counseling at a summer camp. In this situation young people spend time asserting their leadership qualities, giving example to younger children, and developing a sense of worth at having accomplished something good. These young people have the responsibility of controlling the children they are in charge of. Probably the best part of this job is the chance to share, the chance to share talents and imagination. And sharing is involvement.

Through these issues and jobs it is possible for me and others to take a stand, and through them I can have a role in America's future. Therefore I am on my way to fulfilling my two responsibilities.

People can study, think, and talk all they like. But if no one gets involved, then it doesn't mean a thing.

January 16, 1980

Mr. Jim Baker  
Community Action of  
Greater Wilmington  
1103 Madison Street  
Wilmington, Delaware 19801  
Dear Jim:

The continuing rise in energy cost, particularly of fuel oil, has placed a special emphasis on the importance of the Energy Crisis Assistance Program. Proper and effective management of the program must be achieved if we are to be assured that those most in need have the financial ability to provide for their essential heating fuel requirements.

It has been brought to my attention that the portion of the program within Community Action of Greater Wilmington is experiencing major management problems which jeopardize the effectiveness of the system.

To cite some examples, it has been reported that:

- 1) Application forms are often lost, requiring potential clients to refile;
- 2) Personnel have not been properly trained to handle neither the volume nor the specific nature of the applications;
- 3) There has been insufficient follow-through on emergency calls;
- 4) Many emergency requests are delayed beyond normal delivery times;
- 5) Fuel vendors are delayed as much as four weeks in receiving their reimbursement checks.

I would appreciate your immediate attention to these questions and an indication of how you plan to correct the above deficiencies. It is essential that the program become more effective than it appears to be, so that a maximum number of citizens may be served during the remainder of the winter.

Sincerely,  
 Pierre S. duPont  
 Governor

Representative Burris moved to recess for caucus at 2:25 p.m.

The House reconvened at 3:50 p.m.

The Reading Clerk read the following communications into the record:

November 8, 1979

As a result of inquiries from Mayor Klingmeyer, members of City Council and interested citizens in New Castle, my office has for the last several months worked with appropriate federal and state agencies to insure that (1) the alignment for the proposed pipeline be one that most minimizes threats to public safety and the environment; (2) that any pipeline that may be constructed be built in such a way that hazard to public safety and the environment are eliminated.

My staff has met with Getty representatives on several occasions. They have been most co-operative and appear to be sincerely trying to build a safe, efficient line to carry their product. It should be noted here that Getty's economic interest is best served by constructing a safe leakproof pipeline. From those meetings, I am convinced that Getty sincerely believes that the line that they propose comes as close to meeting that goal as is possible.

From my standpoint one of the more troublesome aspects of the federal permitting process here concerns the Corps of Engineers environmental assessment required for the permit that is the subject of tonight's hearing.

The most significant shortcoming with the environmental assessment is that it fails to address or in fact recognize any other route alternatives for the pipeline other than the one proposed by the applicant.

Under the provisions of the National Environmental Policy Act it is the clear responsibility of the permitting agency to evaluate the relative advantages and disadvantages of viable alternatives. It is my opinion that the Corps has failed its responsibility in this regard.

The environmental assessment should provide this hearing with a frame of reference that would permit the public to engage in an objective discussion of various route alternatives and methods for moving refined product from Getty.

Further, such an assessment would provide us with a basis for deciding whether a full environmental impact statement is needed.

Ironically the Corps of Engineers in its August 24 notice for hearing used an environmental assessment which was not available to the public until a full two months after its decision to find that an environmental impact statement was not necessary to its permitting decision.

Any discussion here tonight on the relative merits of alternative alignments by the applicant, state and federal agencies and the general public will, I'm sure, be helpful to the decision-making process. Such discussion, however, cannot substitute for a timely and complete environmental assessment.

I therefore strongly recommend that the Corps of Engineers prepare a revised environmental assessment which would consider viable route alternatives. I further recommend that upon completion of the assessment that another public hearing be held. Further, I'm sure it would be helpful if the revised assessment were attached to the notice for that public hearing.

On a different subject, as a result of general and specific inquiries and concerns that the public has raised on the safety of petroleum pipelines I asked the Secretary of the Department of Transportation to send us a representative from the Office of Pipeline Safety to respond to the public's inquiries. He has very graciously responded to my request by making Mr. Cesar Deleon, Director of Pipeline Regulation, available for tonight's meeting.

If, after this hearing you have any concerns or questions about the federal part of this permitting process, call or write my Wilmington office.

Thank you.

Senator Joseph R. Biden, Jr.

The following letter was not read, but Representative Connor requested that it be made a part of the record:

January 15, 1980

Colonel James Ton  
District Engineer  
Philadelphia District  
U. S. Army Corps of Engineers  
Custom House - 2nd and Chestnut Streets  
Philadelphia, Pennsylvania 19106  
Dear Colonel Ton:

Getty Pipeline, Inc., has applied to you for a Federal permit to construct a refined petroleum products pipeline from Getty Oil Company's refinery in Delaware City, Delaware to a Sun Oil Company pump station in Marcus Hook, Pennsylvania.

According to Getty's plans, its proposed pipeline would run directly through a major water aquifer and within the city limits of New Castle, Delaware. This aquifer serves as the major source of water for thousands of residents of the City of New Castle as well as customers of Artesian Water Company in New Castle County Delaware. In addition, the 20-mile route of the pipeline through Delaware would cross nine major streams, pass through fragile wetlands, and come within 60 feet of the City of New Castle's water plant.

Since the time when Getty applied for this Federal permit, the residents and elected officials of New Castle and other Delaware citizens have expressed to me their strong concern that the pipeline as planned would endanger their water supplies and would have a major impact on their public safety and environment.

Because I believe very strongly that all the concerns of the New Castle residents need to be fully addressed, I urge you to perform a timely and complete environmental assessment of the proposed pipeline which includes a full evaluation of its impact on water supplies and the environment in general, alternatives to the pipeline, and alternative routes.

It is my understanding that the Corps has taken no action since the public hearing in New Castle in November. This matter is far too important to the residents of New Castle to face further delays. I urge that the environmental assessment begin immediately.

Finally, I recommend that you make copies of your environmental assessment available to the public when complete, and that you hold a public hearing in the City of New Castle in order to receive testimony from interested citizens on the findings of the assessment.

In this way, the interests of the public in a full, fair, and open consideration of the issues raised by the pipeline can best be served and an informed decision on the environmental impact of the pipeline can best be made.

Sincerely,  
William V. Roth, Jr.  
U. S. Senate

Senator Sharp moved that the Secretary of the Senate and Chief Clerk of the House act as Secretaries of the Joint Session. The motion prevailed.

The President appointed the following committee to escort the Governor to the Senate Chamber: Senators Holloway and Berndt; Representatives Jonkiert and Fallon.

The Sergeant-at-Arms admitted the Governor and the duly appointed committee to the Senate Chamber. The President invited the Governor to the rostrum and introduced him to the Joint Session.

The Governor addressed the members of the General Assembly as follows:

When we began our task in January of 1977, the challenge for Delaware was clear: to establish a framework for restoring the machinery and the integrity of State Government that would help correct the excesses and errors of the earlier years of that decade, and assure our preparedness for the uncertainties of the next decade.

Although there were reasons for what had gone before, the public mistrust and the fiscal problems that plagued our government in that cold winter left little doubt in any mind that Delaware required a new order. I spoke to the task of creating this order on Inaugural Day in January of 1977:

"The challenge, then, will be to recognize our limitations, establish our priorities, and live within our means. It will require personal discipline from each of us, and political discipline from all of us. It will be painful, but not fatal, for a careful pruning of the shoots and branches of government will lead to a new prosperity, founded on economic growth, unencumbered by the luxury of non-essential services or the deadweight of a non-productive bureaucracy."

Delaware met the challenge of survival in the turbulent 70's by going back to basics, by following a policy of sensitive austerity in all facets of our State Government. But, more was needed; we also asked for the trust of our people. We asked you to believe that sacrifice and contribution would bring financial stability and control. We asked you, in the face of all the broken promises that had gone before, for a new commitment that we be given an opportunity to demonstrate that change could be achieved and progress become a reality. In short, we asked each Delawarean to accept on faith the basic competence and integrity of our trusteeship at a time when there was precious little reason to do so.

Our people accepted the challenge and helped us at a difficult time. Thanks to your support, we were successful. Delaware has not only survived the crisis of the 70's; it has emerged strong and confident. Our budget is balanced for the third consecutive year, and it will be again next year. Our Emergency Reserve Account is full to the brim. We have rolled back the Deficit Gasoline Tax as promised, and we managed to do so much earlier than promised. We have witnessed the economic revitalization of the Farmers Bank. We have reduced Personal Income Tax rates for the first time in modern history. We have corsetted the growth of government by moving toward permanent limitations on our spending power, and similar constraints on our taxing power. We have prevailed.

Most significantly, the restoration of both economic vitality and creditability to Delaware government did not mean that Programs and Reforms took a back seat. To the contrary, prosperity permitted carefully planned progress; the parity between fiscal responsibility in government and the improvement of government services to which we pledged our efforts has achieved substantial results.

Operation Overhaul is patching and treating 1,250 miles of Delaware road and resurfacing 100 miles more — the most ambitious and successful program of its kind in our history. We have broken ground on two new correctional facilities which, when completed in the fall of 1981, will give us an additional 424 beds over and above the 490 beds we have already added since 1977. We have introduced Community Crime Prevention Programs to the entire State; to date, 3,700 households are already participating. Welfare benefits have been increased prudently. There are 710 units of subsidized housing that did not exist in 1977, and the State Mortgage Program has made home ownership possible for 1,100 families. Statewide testing, competency based education, programs for the gifted and talented, a school for excellence for our very gifted students, the soundness of basics plus education and the common sense of comprehensive job placement and counseling through our Jobs for Delaware Graduates Program have marked our progress in education. We have witnessed the successes of our Judicial Nominating Commission, our Washington Office and the Office of the Public Advocate. In short, for the third successive year, we have demonstrated meaningful progress without jeopardy to our pocketbook.

While we in State government may take pride in our unified and positive role in accomplishing these successes, let none of us forget where the true credit rests: with the people of Delaware. You gave us the mandate for reform; you endured the sacrifices; you time and again extended the faith and credit that provided the political capital for change and innovation. We have emerged so well from the last decade because, once more, the people of Delaware proved our claim as the First State of the United States of America.

Today we are joined in a new beginning — preparing ourselves and our State for a new year and a new decade. Ahead of us lie a host of challenges. Some familiar from the 1970's, others fresh and demanding as we are confronted by the uncertainties of the 1980's. In our effort to master these challenges, what we have so successfully demonstrated in the past few years suggests our course for the next decade: continued attention to the basics of government — economics, education, employment; and a continuing commitment to excellence in government — in spirit, concept, and in the delivery of human services.

Future historians will view the 1980's as a time of testing and will measure our success by the quality of our response. Accusations and outrage will not help us reach our goals; understanding and common sense will. The quantity of dollars expended or programs begun will not be the measure of our success: the quality of our efforts will. Success in the 1980's will consist of steady progress towards clearly defined goals, by the achievement of a limited number of highly desirable objectives, by recognition of the complexity of our problems and rejection of solutions that reach their symptoms rather than their substance.

In Delaware, as everywhere in America, we are entering a decade of critical choices. Driven by the dwindling availability of the earth's natural resources, buffeted by a currency of shrinking value which makes the cost of all our resources increasingly dear, and acutely aware of the impact of these twin pressures upon our citizenry and its government, we are coming face to face with hard and irreversible choices which are so fundamental as to control our destiny for the next decade. Our task is to make choices that will strengthen our ability to prosper in a weakening national environment.

The areas of critical choice number three: first, we must resolve to conserve by every means possible our energy and other dwindling natural resources; second, we must with equal vigor expand our economic base; and finally, we must make certain that State and Local Government operations and programs foster — and rather than hinder — our collective economic well-being and quality of life.

### CONSERVATION

We in Delaware have already demonstrated our capacity to conserve. When temporary shortages in heating fuels and gasoline occurred in the last decade, necessitating the imposition of both voluntary and involuntary conservation measures, Delawareans resolutely cut back, stoked down, and shut off.

But the effort to conserve is merely beginning. After five years of spot shortages, and other unmistakable signals, Washington still has not prepared an energy policy that assures adequate development of domestic energy resources, and a lessening dependence upon foreign oil.

We must accept the reality that energy will be a scarce resource in the 80's, and we must prepare ourselves for it. This means doing much more than complying with the President's voluntary target of an 8% reduction in gasoline consumption; indeed we are rapidly approaching that target with the limited measures now in effect. The critical choice of maximum conservation requires much more of both Delaware government and our citizens.

First, the State must lead by example; and we will. Our fleet purchases will focus upon the most energy efficient vehicles. We will establish as our goal a reduction in consumption of gasoline by State Agencies of 20%. To assure compliance with our own target of 15% reduction in heating oil consumption by the State, we will continue to weatherize, to monitor thermostats and to reprogram the way we build, refurbish and utilize State facilities. Additional funds for these proposals will be made available during the next fiscal year.

I know that these sweeping conservation efforts within State government have required and will continue to require difficult adjustments in the workstyles and lifestyles of some State employees. But these changes and sacrifices are working, and they are paying substantial conservation dividends to our State.

State government will ask Delaware citizens to do no less. We have already proposed a \$2 million Conservation Grant Program to help 10,000 homeowners weatherize their homes. We must further expand the Weatherization Program and make it mandatory for all homes which benefit from fuel subsidies. We will prod local governments to enforce energy efficient Building Codes as mandated by 1979 legislation. We must learn by our past mistakes and assure that all new construction meet energy efficiency standards. Additionally we must continue to explore all possible incentives for voluntary installation of fuel saving improvements in residential and commercial construction and in building operation.

Conservation is not our only response to our energy dilemma. We must move aggressively to promote greater use of renewable energy sources. In an effort to encourage their greater use, I am proposing a Renewable Resource Grants Program to assist Delaware consumers in converting to renewable resource energy systems such as solar and biomass conversion.

These critical conservation efforts will succeed with minimum dislocation of daily life in Delaware if we choose to commit ourselves totally and immediately to the cause. So too with the task of conserving equally critical non-energy resources whose existence might well be in jeopardy during the 80's. We are in the third year of the three year Beach Erosion Control Program. The beaches of Delaware are among our greatest resources; we should, therefore, continue this important program into its fourth year and search for new ways to protect our shoreline.

The decade of the 80's also requires that we find permanent solutions to conserve and protect our water supply and our croplands against further depletion. We must concentrate on containing older land fills. We must expand our solid waste treatment capability. We must adopt by legislation appropriate controls for hazardous substances and toxic wastes, so that their disposal and storage pose no threat to the environment.

A permanent solution to the subtle depletion of our valuable croplands is no less critical. Since 1943, the amount of acreage devoted to farming, truly Delaware's major industry, has dwindled from 814,000 to 630,000 acres. We must halt this trend. We will form a study group under the direction of the Office of Management Budget and Planning to evaluate a range of options, from farm use covenants to a land classification system, so that we can recommend to the General Assembly legislation which will most effectively secure for our farmers sufficient incentives to keep their rich lands under cultivation.

Finally inflation -- the cruelest tax of all -- is making conservation of personal resources most difficult. The solution to that problem lies more in Washington than in Dover. But we can help the one group of Delawareans least able to cope with inflation -- our senior citizens on fixed incomes.

For several years Delaware has supervised a statewide Retail Discount Program which provides significant cash discounts for many retail goods and services purchased by older Delawareans. That program is a good beginning, but it could serve many more senior citizens. With renewed emphasis and increased financial support "Diamond Club" Memberships could reach thousands of over 60 Delawareans who are trying to cope with the problem of inflation every day. With a full statewide program, the annual cash saving to each "Diamond Club" member should reach \$400 — a \$400 cut in the cost of living is meaningful help for our senior citizens.

The critical choice for the 80's is to conserve our precious non-renewable resources: heating oil and gasoline, beaches, and cropland, and the economic resources of those on fixed incomes. In the past three years we have demonstrated that we can serve; now, to meet the challenge of the 80's, we must choose to do even more.

### EXPANDING DELAWARE'S ECONOMIC BASE

Delaware can and should do all that it can to combat the predicted recession. We have come too far, adhered to principles of sound fiscal control too well, and committed ourselves too deeply to the stability of continued economic growth, to retrench. Let others accept without question the economic stagnation which Washington forecasts as inevitable; Delaware will redouble its commitment during the new decade to steady economic growth. To do so, we must make a number of critical choices.

Initially, and above all else, we must look to the needs of those industries which already nurture the Delaware economy; history has shown that the best source of new jobs for our people is already here — the businesses inside our borders. To secure those jobs, we must choose to allocate a portion of our limited resources, and to assume an occasional investment risk, for the necessary protection or welcome expansion of our native industries. For example, Chrysler Corporation made and continues to make a giant investment in the economic well-being of Delaware. Faced with collapse because of forces not entirely of its own making, Delaware must help by making a modest investment in its economic well being, just as we assisted Phoenix Steel Corporation, and just as we are dedicated to providing incentives to preserve Hercules as a major employer in downtown Wilmington. We must continue our efforts to attract for the first time a duPont Company facility to Kent County. In each case, the message we want to transmit to our native industries is clear: we want you to expand in Delaware, and we will help you do so.

Next, we want to see that as many new industries as possible become native industries during the decade of the 80's. The action which we took to reduce the "Red Flag" rates of our Personal Income Tax, and the passage of a Gross Receipts and Corporate Income Tax credit for new business, provided important starting points, but we can do much more. First, the funding of the Delaware Economic Development Corporation, which I initially suggested in 1976, is long overdue.

Second, this is the target year for our concerted effort to make Delaware the home base for America's Insurance Industry. The coalition of Delaware insurance and business executives who make up the "Why Not Delaware Committee" has already achieved significant success in this effort. This year, as part of that effort, I will personally talk with the executives of national companies to make clear the warmth of Delaware's welcome and the advantages of a Delaware Home Office.

Third, Delaware must maximize the potential of its natural business magnets, including the Port of Wilmington, and the Lewes Marine Park. I will ask General Assembly approval for additional facilities for the Port which will move it closer to containerization, the technological foundation for expansion in the 80's. I also renew my call for passage of HB 447, which will, as a complement to the recent authorization of offshore oil drilling support facilities, permit the cross flow of oil and gas through the Coastal Zone. And I will, in conjunction with the commendable efforts of the College of Marine Studies of the University of Delaware, work with several research organizations whose relocation to the University's Sussex complex in Lewes could make us competitive with Woodshole as a Marine Research Center.

Fourth, we must continue efforts to put to work the most precious of our natural and economic resources — our young people. A successful private/public sector program is underway to put young people to work — Jobs for Delaware Graduates. It is essential to expand our efforts to help that Job Program reach every high school senior in Delaware.

Finally, I believe 1980 is the year when Delaware should recoup its investment in the Farmers Bank. Through continued State efforts and sound management, Farmers Bank has become a viable institution, but the costs to our State have been high. State government does not belong in the banking business. Selling the State's interest in Farmers Bank will free up our State deposits, further improve our credit rating on Wall Street, and reduce our outstanding indebtedness.

Delaware can sustain its economic growth in the 80's if we make the correct decisions. The time is ripe: the critical choices are clear. Let's make them together.

### MAKING GOVERNMENT BETTER

I believe that our collective efforts to improve the efficiency of State government during the past three years have finally established us as an ally, rather than an adversary, of progress. But we can do ever better if we choose.

To assure a continuation of this Alliance for Progress throughout the decade, I am suggesting a number of initiatives to improve the quality and efficiency of government in Delaware, and to enhance the level of services delivered to our citizens:

- The continuation of Operation Overhaul, funded at a level of \$6 million for the next fiscal year, with concentration on the preservation and renewal of main roads and connecting arteries. When added to the \$9 million we invested in our highways last year, we will have completed a major commitment to our transportation system.

- Implementation of most of the 93 recommendations for the streamlining of government in Delaware as developed by the Intergovernmental Task Force, with major emphasis in the coming year upon the establishment of the coordinating mechanisms for Public Safety, Economic Development, and Health Planning.
- Expansion of our investment in weatherization of State buildings to stem the most rapidly rising cost of State government — the cost of energy.
- Construction and rehabilitation of the new home of the Department of Natural Resources on the Richardson and Robbins site in Dover, to include a central State laboratory that will permit the consolidation of certain routine and duplicative laboratory services now performed by several different Agencies;
- Reform of the outdated Workman's Compensation Statute and the dedication of additional management resources to the Industrial Accident Board to eliminate a serious backlog in cases;
- Restructuring Delaware's Conflict of Interest Statute so that every public officer and employee is subject to clear and enforceable standards of conduct;
- Passage of the "Second Leg" of the two Constitutional Amendments limiting State appropriations to 98% of revenues, and prohibiting the enactment of new taxes or higher tax rates unless approved by a 3/5 vote of the membership of the General Assembly;
- Continuation of the Governor's School for Excellence and expansion of both Basics Plus Schools and the Jobs for Delaware Graduates Program state-wide.

A few days from now, I will discuss more specifically many of these initiatives, and several more, in my annual Budget message. Together, they continue the course of prudence and progress that has characterized our movement out of the '70's.

In Delaware, we must begin this new decade much as we ended the last; chastened by the necessity for limiting our expectations of what government can do for us; and challenged by the extraordinary task of preserving our economy and our environment against dwindling resources and external forces which we do not control. But, unlike the dark days of the last decade, there is one important difference; we know, because we have now seen it with our own eyes, that our willingness to make the critical choices correctly will cause us to succeed.

Continued attention to the basics of government, and a continuing commitment to excellence — these are the cornerstones upon which the foundations of progress must be built. I hope you will join me in this effort, for in this the 204th year of our independence, we must rededicate all of our efforts and energies to these goals.

They were admitted and seated. The Speaker invited Lieutenant Governor McGinnis and President Pro Tempore Cordrey to a seat on the rostrum.

JOINT SESSION  
HOUSE CHAMBER

January 29, 1980

Representative Burris moved that the House and Senate convene in Joint Session. The motion prevailed.

Representative Burris moved that the Speaker of the House preside over the Joint Session. The motion prevailed.

Representative Burris moved that the Secretary of the Senate and Chief Clerk of the House act as Secretaries of the Joint Session. The motion prevailed.

The Speaker appointed Representative Sincock and Representative W. Brady and Senator Cook and Senator Spence to escort the Governor to the Chamber.

The Sergeant-at-Arms admitted the Governor and the duly appointed committee to the House Chamber. The Speaker invited the Governor to the rostrum and introduced him to the Joint Session.

The Governor addressed the members of the General Assembly as follows:

This afternoon, I am presenting to you for your consideration, and the consideration of the citizens of the State of Delaware, the fiscal year 1981 budget. This budget represents yet another forward step for our mutually agreed upon course of sound financial planning and administration - a course we embarked upon together three years ago to solve the recurring financial problems of the past. To the credit of the executive and the legislative branches, we have erased our deficit, enacted and executed balanced budgets, built an emergency budget reserve fund, and achieved significant debt reduction. For our efforts we have been rewarded with a higher credit rating for the State and, more importantly, we have been able to reduce taxes for all Delawareans.

The budget that I am presenting to you today is, for the fourth straight year, a balanced budget. It proposes operating expenditures equal to the revenues we expect to receive during the fiscal year. It does not dip into accumulated surplus to fund recurring operating expenses. It will, if enacted, enhance the solid financial footing we have worked so hard to achieve. Enactment of this budget will mean a decline in the real cost of government - measured in "deflated" dollars - for the third consecutive year.

The Delaware Economic and Financial Advisory Council has estimated that tax revenues will reach \$634 million dollars in FY 1981. When combined with revenue sharing receipts and the increased federal funds automatically received from a change in Medicaid income limits for nursing homes and State institutions, projected revenues become \$641 million. The budget act, combined with monies for grants, supplementals and automatic appropriations that are likely to be enacted, brings expenditures to \$641 million, which balances against projected revenues.

As we enter the decade of the 1980's, we face an uncertain economy. Gloomy forecasts of inflation, recession and unemployment vary only in degree: All of our economic forecasters agree that a difficult year lies ahead of us. But, in Delaware, we are prepared for these potential difficulties about as well as we can be. Our budget is honestly balanced; we will have a reserve fund of \$32 million to cushion the impact of an economic downturn; our spending controls are both strong and effective. It is a year to be prudent and conservative in our spending programs, for we have not yet experienced the full impact of last year's tax cut, nor do we know the depth and extent of the coming recession. But, if we are both careful and conservative, and if the recession is not too deep, we will survive in sound economic health.

While under these conditions, what kind of a spending plan should we prepare for the coming year? Of course, it must balance expenditures with revenues, but what of our existing surplus, how can we best utilize this resource to benefit our future? How can we best meet the challenge that inflation places upon employees and programs in the coming year? These are the crucial questions for our spending plan. Let me express myself briefly upon each.

### THE EXCESS RESERVE

Recall that we concluded fiscal year 1977 with a \$19.3 million deficit. Together we enacted taxes and reduced spending to eliminate this deficit and to build a reserve fund - a "Rainy Day Fund" - to cushion us against future recessions. In 1979 and 1980, we filled that reserve account, and we expect to add nearly \$3 million more in the coming fiscal year, so that by the end of fiscal year 1981, the budget reserve account will contain \$32 million or 5% of our operating budget. This is perhaps the most important result we have achieved by working together: protecting Delaware, its taxpayers and its employees against future financial uncertainty.

But we have accomplished even more. Carefully controlled spending, coupled with unexpectedly strong growth in our economy, has produced an unencumbered cash balance, in addition to the budget reserve account, of \$27 million. What should be done with this money?

Certainly, it must not be spent for the ongoing operating expenses of government, for it is one time revenue that will not come to us every year. The cornerstone of the budget I am recommending to you today is that we have not used any of these funds to meet the recurring operating expenses of the next fiscal year. We should use these funds with special care, just as we used our Divestiture Funds in the past two decades.

We have recommended that these funds be invested in specific projects that will strengthen our economy and the basic structure of our state - economic development, transportation, agriculture and energy conservation. We are recommending the investment of \$27 million in one time projects that will not require additional annual operating costs and that will benefit all of our citizens in the future.

The investment of \$5.0 million in Chrysler Corporation is one such priority; \$800,000 in further developing the Port of Wilmington, \$500,000 in the Lewes Marine Park and \$200,000 in agricultural ditching projects are additional economic development programs that will enhance our opportunities to grow throughout the decade of the 1980's.

During this fiscal year, we successfully undertook Operation Overhaul, investing \$9 million in improving the roads of our state. Another \$6 million in the next fiscal year will complete the task of bringing our highways back to sound condition and aid in further development of our State's resources.

Reducing our dependence on foreign oil calls for an aggressive response on the part of state government. Earlier this month, I proposed a \$2 million dollar program to help private citizens insulate their homes, saving dollars for themselves and energy for America. Today, I would propose that we extend this effort through a \$200,000 renewable resources grant program which will provide financial incentives to residential home owners to convert to the fuels of the future, such as solar power and biomass conversion.

In addition, I am proposing that about \$1.6 million be made available for insulating state buildings and schools, so that they, too, can conserve our valuable energy resources and, in turn, our state tax dollars. This program will generate nearly an equal amount in matching federal dollars.

The improved mass transit systems will help meet the transportation needs of our people and save energy at the same time, so we propose to use \$1.5 million of the unencumbered cash balance to match with federal dollars to purchase 55 new energy efficient DART busses. And \$200,000 to match city and federal monies to build a new transportation center in downtown Wilmington.

\$800,000 we suggest for the purchase of a modern communications system for the Delaware State Police. Over the years we have attempted to see that our State Police are well equipped and capable of responding to the law enforcement needs of our citizens. This has paid dividends in the saving of lives and property. One element of the State Police operations, however, has been ignored. The communications equipment has reached a state where it is now seriously beginning to impede the State Police's ability to respond, and if the disrepair goes unchecked, we will encounter difficulties more frequently than we already have.

Finally, two financial liabilities demand the allocation of additional dollars. A one-time \$5 supplemental appropriation year will fully fund the post-retirement pension benefit program enacted a year ago. And a one-time Social Security payment of under \$3 million to the federal government will be required in 1981 because of a change in federal accounting rules that becomes effective July 1, 1980.

All of these expenditures are investments in our future. All are one-time expenditures that will not increase our financial liabilities in future years. All will help insure, as I stressed in my State of the State Message last week, that Delaware is well prepared to fend for itself in a weakening national economic environment.

### THE BUDGET

The traditional concerns of Delaware budgets have been education and employee salaries, for these are the major costs of State government. Again this year, nearly half our expenditures will be devoted to education, and again this year our single largest expense is for people - because service is our primary responsibility. But this year another cost of government has become critical as well - the cost of energy.

Because of the very rapid increase in energy costs - both experienced and forecast - we have included increased funding in our budget energy lines - a special \$650 per unit increase in the Division II education budgets for example. We have also set aside nearly \$7 million in an energy contingency fund to insure sufficient funds to pay our energy bills. Even so, if these funds are going to cover those costs, all departments must reach the conservation goal of 15 percent discussed in the State of the State Message last week.

The largest category of expense within State government is, of course, employees' salaries. President Carter's administration has again requested compliance with its wage and price guidelines, and I believe it is our duty to continue the fight against inflation but this does not mean that we are unmindful of our employees needs when the cost of living is rising so rapidly. With these competing factors in mind, I am proposing a salary policy which will allow us to make our contribution in the fight against inflation but will also be meaningful to our State employees. First, I have included an 8 percent increase in salary for all employees, inclusive of their step increments; second, I am proposing that this and all future raises be effective at the beginning of the fiscal year on July 1st, exclusive of those employees with contractual agreements which begin on a date certain. Third, I am recommending that the State pay 100% of the premium cost of family basic plan health benefits for State employees. Fourth, we have included \$3 million to be used as an additional contribution to the pension fund to finance increasing the contribution rate to keep the fund actuarially sound. This plan provides real increases in benefits to State employees (exclusive of pension contributions) totalling \$21 million, and continues our support for reasonable benefit increases within the bounds of national guidelines.

I am particularly sensitive to the question of growth in government. It not only places an increasing burden on the taxpayers but also subtracts from our ability to address the needs of our current employees. The total contingent of State employees will decline this year, by 161 positions, even after we have moved 50 employees from bond funds to general funds. As we have pointed out in the past, an employee paid from 20 year bonds funds costs 63% more than one paid directly from the general fund. The transfer of these additional 50 employees brings the three-year total to 183, at a savings to the taxpayer of almost \$2.5 million.

Education consumes about 45 percent of the total State budget, and energy related increases are particularly costly for our school system. It will require, for an example, an additional \$7 million to transport our children to schools next year primarily due to the rising costs of fuel - bringing the total annual cost of school transportation to more than \$22 million. This includes monies for the transportation of handicapped children required by legislation passed last session. In Division II, we have raised the per unit state payment from \$2,310 to \$2,967, a 28% increase to help meet rising energy costs. A \$100 per unit increase in Division III funding will help continue equalization programs.

The education financing recommendations we are putting forward today include increased support services for autistic children and the private placement of the handicapped and they also contain a doubling of the resources for gifted and talented program support which should result in a doubling of the number of children served.

Delaware, like all communities, suffers severe problems in youth employment. Nearly half of all our unemployed are under 24 years of age.

At the end of the first half of the school year our Jobs for Delaware Graduates Program has interviewed and tested more than 4,000 seniors and juniors; more than twice as many students as we expected have asked to be in the program -- and the business, labor, and education communities have all been highly supportive of our effort.

There is an urgent need to continue and expand this program. I have included in the budget, \$250,000 which will permit us to expand the program throughout the State and secure more than \$2.5 million in federal and private funding. I am also requesting in the budget \$250,000 to insure the current level of career guidance and placement services in our high schools -- and that is another critical element of our overall placement program.

Finally, I believe that the State should pursue the innovative proposal of the Lieutenant Governor that we develop a monorail transportation system for Delaware. I am, therefore, asking the General Assembly to appropriate \$50,000 to permit a careful financial and practical analysis of such a demonstration project.

As we leave the seventies behind we have all experienced painful lessons concerning the limitation of our resources. Our economy cannot support nor satisfy all of our desires. Critical choices must be made and must be with appropriate consideration for the future. This budget, much like the ones I suspect will be presented throughout the first part of the 1980's, is shaped by many considerations largely beyond our control -- the price of energy and the cost of inflation.

This does not mean that we should not actively pursue shaping our own destinies. Quite the contrary, our successful efforts to lower personal taxes, provide business tax incentives, and improve our transportation system will result in Delaware being a more competitive, attractive place for economic investments and this, in turn, will provide the stable base from which to maintain our standard of living.

Let me say in closing that in times of 13% inflation and enormous increases in energy costs, that balancing this operating budget without dipping into the surplus for on-going programs has required many difficult choices. In the past, the seeds of future financial problems have been sown, not when we were in financial trouble and all pulling together, but when we were financially healthy, when the temptations were great, and the pressures even greater. This year those pressures will be very, very strong. It will be tempting to enact new, attractive programs which will be popular before the election, but will lead us to financial difficulty in 1981 and 1982. This is the year in which we must have the political will and the personal discipline to live within our means, for this is the year which will set the financial course for our State for the next several years.

The 1981 budget that I am submitting to you today is balanced, conservative, and focused upon the basics of government - improving our infrastructure and paying close attention to education, energy and economics. It is a prudent budget and I believe provides a sound beginning for the 1980's. I recommend it to you for your consideration, and look forward to working with you towards its enactment.

January 31, 1980

Special Delivery

The Honorable Patricia Harris, Secretary  
Department of Health, Education and Welfare  
330 Independence Avenue S.W.  
Washington, D. C. 20201  
Dear Secretary Harris:

I am respectfully requesting that your office investigate what appears to be a blatantly discriminatory act committed by Delaware's Department of Health and Social Services - in that a student from Iran is receiving general assistance even though a Delaware state law (with which I do not agree) prevents persons between the ages of eighteen and fifty-four who are single and employable, from receiving general assistance. In Delaware, our own Delaware citizens in this age category cannot get general assistance under any terms unless they are disabled, which the person in question is not.

I would hope that your office would carefully look into this situation so that a determination can be made whether or not the Department of Health and Social Services is going to have a uniform set of rules or if they are going to hand out special privileges to Iranian students while our own American students and other citizens are, in a very real sense, held hostage to breeding crime through the denial of general assistance even though our state has the second highest unemployment rate in the nation - which means that minority unemployment rates are even higher and getting worse.

Enclosed is an article from the Wilmington Morning News, Thursday, January 31, 1980, written by Margaret Kirk.

Should you need any further information, please contact me at 571-4100, or 764-4180, or by contacting Legislative Hall in Dover, Delaware.

Your immediate attention will be greatly appreciated.

Sincerely,  
Al O. Plant, Sr.  
Representative  
2nd Representative District  
General Chairman  
Independent Affirmative Action  
Investigating Committee

SUBJECT: HJR 31

On January 31, House Joint Resolution 31 passed in the House of Representatives and was sent to the Senate for action. The resolution asked that I cease General Assistance payments to an Iranian student, or begin to process applications for General Assistance for Delawareans between the ages of 18-54.

I would like to clear up some confusion concerning this matter and make the General Assembly aware of the facts in this case. The Iranian student is not the eligible recipient for the General Assistance grant. This student has a baby, who is an American citizen, as documented by a passport, and it is the baby who is eligible for assistance. The grant is for one person only (the baby), and is for support of the baby. General Assistance laws do make children under the age of 18 eligible for grants if their families meet the income criteria. The Division of Social Services is in conformity with regulations and laws of the State of Delaware. We have a number of cases where eligible children are receiving assistance but their parents are not.

I share the anger and frustration that all Americans feel over the holding of hostages in Iran, but I feel that this case should be handled like any other, in accordance with established laws and regulations.

It would be a very dangerous precedent to deny assistance to any eligible recipient, based on the nationality or ethnic origin of that recipient's family or parents.

I hope that this will be taken into consideration in any Senate deliberations on HJR 31, and I welcome this opportunity to assure the General Assembly that we are abiding by the law in this matter.

February 12, 1980

TO THE HOUSE OF REPRESENTATIVES  
OF THE 130TH GENERAL ASSEMBLY  
OF THE STATE OF DELAWARE

On January 31, 1980 I received House Bill 539 as amended by House Amendment No. 1, entitled AN ACT TO AMEND CHAPTERS 9 and 11, TITLE 13, DELAWARE CODE RELATING TO ADOPTION AND TERMINATION OF PARENTAL RIGHTS. I am returning this Bill without my signature. The Bill has much to commend it in that it attempts to expedite the termination/adoption process, particularly in respect of newborn children. Further, it amplifies existing law concerning confidentiality of records.

Despite these desirable objectives, I am concerned that the Bill fails to provide notice and a right to be heard to those parties most affected by the proceedings - those whose parental rights are subject to termination. Considerations of fundamental fairness require that, when altering family relationships, our Courts proceed only on the basis of a record in which all concerned have had an opportunity to participate.

I am also troubled by the Bill's requirement that a father "acknowledge" his child or else lose his parental rights. If the reference is to the formal acknowledgement procedures described in 13 Del. C. §1301, it may be that many fathers are simply unaware that such procedural formalities must be followed. To base the forfeiture of such important rights upon an unfamiliarity with legal procedures seems inequitable.

Finally, certain of the Bill's provisions may run afoul of the Equal Protection Clause of the United States Constitution. For example, the Bill seems to require certain showings of male parents not required of female parents.

Because of the Bill's merits, it is my hope that legislation will soon be prepared and introduced which accomplishes the Bill's desirable objectives while avoiding the Constitutional difficulties to which I have referred.

Respectfully submitted,  
Pierre S. du Pont, IV  
Governor

Honorable Robert W. Riddagh  
Legislative Hall  
Dover, DE 19901  
Dear Speaker Riddagh:

This letter is in response to House Resolution No. 146, concerning East Main Street in Newark, Delaware.

As requested we have reviewed our decision to make East Main Street, from Library Road to Washington Street, one way westbound. We find that we cannot allow two way traffic on this section and still maintain the integrity of the overall project.

It must be emphasized that the original decision was not made arbitrarily or without the full knowledge of the City. The traffic flow plan including the one way operation of this block of East Main Street was approved by the City of Newark in correspondence dated May 27, 1975.

This Department is mandated to provide for the transportation needs of all the citizens of Delaware. Unfortunately, while providing for the good of the many, sometimes a few are inconvenienced. We are certainly sensitive to the needs of those who are inconvenienced. This is exactly the case in this situation, and to this end we offered to the City of Newark on January 28, 1980 to construct a connector from George Read Village to Delaware Avenue to alleviate this inconvenience. The offer included the signalization of the intersection with Delaware Avenue, if any need develops. To date, we have received no response from the City to our offer.

Our responsibility and efforts in this matter have been and remain to efficiently and economically provide for the traveling needs of the majority of the public, while being sensitive to and minimizing the inconveniences to the few. I feel this has been duly illustrated by our traffic flow plan and subsequent offer to alleviate the inconvenience to the citizens of George Read Village.

Your consideration and understanding of the above is appreciated.

Sincerely,  
Kermit H. Justice  
Secretary

Representative Holloway introduced and brought HR 157 before the House for consideration.

HR 157 - Welcoming Reverend Jesse L. Jackson, Nationally Known Civil Rights Leader and President of People United to Save Humanity (PUSH) to the State of Delaware, the First State.

HR 157 was adopted by voice vote.

Representative Holloway requested and was granted the privilege of the floor for Reverend Jesse L. Jackson who addressed the House as follows:

Thank you, Mr. Speaker, Representative Holloway. To Distinguished Officials of this Body, to the people from the State of Delaware, who have been so warm and kind and so gracious to us since we've been here. I want to express my thanks to the officials of DAPI and to Mrs. Nix in particular, its founder, and to the men and women of this Body who have had the foresight to tackle one of the great and critical problems of our day in such a forthright and admirable fashion.

Furthermore, I thank you for giving me these few minutes to share with you some views and insights that we have gathered from traveling around this nation and from around the world.....and as we observe what is happening and what our leadership must do.....there is this critical moment for challenge and opportunity today. It is almost a foregone statement that our nation is in a crisis. I am disturbed at the repeated and rather superficial gestures toward what is now a crisis of mindboggling dimensions.

In the last ten years, with relatively few bullets being fired, almost no bombs being dropped, a worldwide revolution has occurred. In a matter of ten years, we take cognizance of a worldwide revolution, a drive for self-determination, a drive that has resulted in a kind of human rights renaissance that has rather profound effects on how our nation will survive.

Indeed for the balance of this century, just a very quick observation, there are about four million people on earth, one-half of all human beings are Asians, one-half of them Chinese, one of every eight human beings are African, one of every four Nigerian. Our neighbors to the south of us - Mexico, South, Central and Latin America - speak Spanish and Portugese. Look in the Middle East now and the Arab-OPEC states have under their feet 64% of the world's known oil reserves. They're talking about 44% for the Western World. Any alteration in that flow has rather profound implications for our nation and its destiny. The Arab-OPEC states have \$150 billion on fiscal reserves — more than half of it U.S. dollars — we haven't been a bit greedy, perhaps too undisciplined. We now find ourselves virtually dependent, held hostage, in many economic ways, upon foreign sources for fiscal and energy protection. There has been a radical redistribution of people and power in the world and those of us who are American are but 4% of the world's population. We are 4% of the world's population; beyond us is 96% of the world.

That calls for some radical readjustments, it seems, one being that the illusion that we are superior over the world must give way to a new reality, of the delusion that we must be inferior to the world, must give way to another reality; in fact, our challenge is to learn to live with the world and to maintain some leadership posture. Merely being 4% of the world, we cannot afford the kind of class, caste and racial divisiveness that threatens the internal stability of our nation.

We now find ourselves grappling with this great problem of inflation and all of us must commit ourselves to fighting inflation and yet, if we are to be ethically consistent and argue that to whom more is given, more is required, there are those more able to fight inflation than others. A hungry person, an ignorant person, an unemployed person is not eligible for any kind of fight against inflation or foreign forces or anybody. So now we find ourselves trying to fight this problem, by and large, off of the backs of the poor; asking the poor to accept mandatory requirements for wages that many of them do not have, asking the rich to operate in a voluntary fashion. This calls for a rather radical re-assessment — foreign governments benefit so tremendously from our flight of capital complex. Last year, Mr. Speaker, we spent more than \$150 billion in foreign countries; reaped about \$35 billion in profits from that. It had the effect of allowing oil from other countries and steel and cars to knock Americans out of jobs which created stagflation and unemployment as well as inflation. There must be, at every level of our government, radical re-assessment.

One area where we have a tremendous malfunction manifesting itself is how we relate to our children in the face of all this. Last year more than one million teenagers between the ages of fifteen and nineteen became pregnant. More than 600,000 gave birth last year. About 90% keep their babies. In addition, another 30,000 girls under fifteen became pregnant. 10% of all U.S. females became pregnant and gave birth. Babies born to babies. Babies born to teens are twice as likely to die during the first year. Of the one million teenagers who became pregnant, 28% follow in marriage. 10% precede marriage, 21% out of wedlock births. Two-thirds of all teenage pregnancies and one-half of all teenage births are unintended. These statistics are real and growing.

Three-fourths of the black children in America, who live in poverty, live in homes headed by females. More than 60% of the AFDC families were mothers who had babies as teenagers and more than 90% of them have the second child. The teenage pregnancy is the number one cause of school dropouts in this nation. The fact of the matter is, we have several options as we look at these children. We can turn our heads to the crisis and be ignorant and superstitious; we can turn our backs and be dispassionate, insensitive and unkind; or we can face the fact that these are our children, breeding our soldiers, our taxpayers, our workers, our labor market.

Delaware must be commended for being, at this point, the most forward state in the nation — by adopting the DAPI Program — a comprehensive assessment of how to handle the trauma. You do not handle a traumatized teenager who is pregnant by turning your head or by turning your back. I've observed piecemeal programs all over the nation; by far the most comprehensive, the most significant, the most impactful has been the DAPI Program. It's not black, it's not white. Because fundamentally the issue of teenage pregnancy is not an ethnic problem, it is an ethical problem. It is a reflection upon the state of affairs of the morality and the mentality of our nation.

We have a responsibility today in this State to remain forward in facing this problem and we've got critical choices, it seems to me, to make. One, we can choose sexual education over sexual ignorance. So many of our children are victimized by superstition and ignorance. We say, well, the church ought to teach morals to the children and, for many of those who attend, the church does. The homes ought to teach it but they don't. Schools ought to teach it but they don't. And so we find ourselves victimized by sexual ignorance. We find ourselves with increased sexual stimulation and reduced sexual education. For example, the number one record last year beating in our children's minds was, "Am I Sexy Enough for You?" followed up with songs like, "Let's Make a Baby," and "You Do It to Me and I'll Do It to You," and "Let's Do It the French Way." A kind of solemn demoral atmosphere ushering in a value system that is totally alien to human productivity. This notion of pornographic music being a stimulus, ushering our children into the premature heat, is a real fact of life.

T.V. can no longer get away with just being an education or an entertainment medium. This is the first generation of children who, by age fifteen, have seen 18,000 hours of television, 750,000 commercials, compared with 11,000 hours of school and less than 3,000 hours of church. The mass media quantitatively has more access to our children's minds and qualitatively its impressions are deeper than home, church and school combined. And so long as they usher in a value system that lends itself to premature sexual and violent aggression, no matter what laws we make in these chambers, no matter what morality we preach from pulpits, no matter how much love we project from homes, there is another estate quantitatively that has more access to our children's minds and qualitatively the impressions are deeper than home, church and school combined. And so we must move from merely occupying our chairs and mikes, for beyond us there is a pervasive problem that reaches each of our homes and this crisis of pregnancy is not one side of town.

The value crisis has hit an all-time low. We must make decisions. Shall our children become so anemic and so weak until, when the crises of life strike, they use pill power to cop out because they don't have the willpower to cope? Shall, when crises come, they put dope in their veins rather than hope in their brains? When the storms of life rage, do they have a factor of faith beyond their facts? Is there indeed something missing about how we generate a relationship with these children? Many of us become panic-stricken and say, well, lock them up. If one goes to any State University in America — Delaware, California, New York, Illinois — any State University in America for four years, it will cost less than \$20,000. If anyone goes to any State or Federal Penitentiary for four years, it will cost between \$60,000 and \$130,000. Penitentiary scholarships are four and five times higher than academic scholarships and yet, when we speak of cutting budgets, oftentimes we engage in short-term pleasure and longterm pain.

Today we find ourselves with a prison population of 550,000. Building jails far more rapidly than we are building schools. If we support DAPI, for some it represents short-term pain but longterm pleasure. The national rate of these girls who drop out of highschool and never come back is above 25%. At DAPI the girls who, in fact, are able to finish highschool and lead productive lives is above 75% because somebody in this Body had the good judgment and the good sense to be creative and forward-looking and not just backwards.

I say this, and I close to you today, that we must reassess our values and our options and our possibilities; be willing to communicate freely and openly with our children about society. We can't afford racial polarization. There are just not enough of us. We can't argue about the bus when the issue is us. There are just not enough of us.

An American child must be able to relate to Africans. They send to us from Nigeria the second greatest quantity of oil, the finest grade in the world. An American child just cannot be educated if he or she cannot speak some Arabic when these people have in their hands the destiny of our nation. We simply must learn not to be our brother's and sister's keeper, which is rather arrogant; but to be our brothers and sisters — brothers and sisters — as we reassess how we relate to the world.

The laws of these chambers are significant laws but there are some other laws we must teach our children. The laws of convenience lead to collapse; the laws of sacrifice lead to greatness. There are some other laws.....that which is superficial speaks to that which is symbolic and surface-ridden. The laws of sacrifice, the laws of the sacrificial, must reign superior to the laws of the artificial and superficial. There are some other laws.....if you're not smarter, work harder. There are some other laws.....if you are behind in the race, get up early in the morning to run faster; to be sober while your opposition is drunk; to be awake while your opposition is asleep.

Oh, yes, we need opportunity. But there is another law called the law of effort. Effort literally must exceed opportunity. But what does it matter if the doors of opportunity are wide open if we are too drunk to stagger through them? It is a question of values. What does it matter if we have a Ph.D., or no D for a teacher, if we do not attend the class to hear from either? What does it really matter if our classmate is black or white if we are antisocial toward both?

And so our children surely must learn that suffering and sacrifice are not negative terms because they are too necessary to go through to get the goodness and greatness. Each of us wants the crucifixion to pass by our lives trying to get to the resurrection. But there will be no resurrection without going through the crucifixion — suffer — the law of unearned suffering leads us to redemption. Suffering breeds character; character breeds faith and, in the end, faith will not disappoint.

Today we have the glorious opportunity and the splendid challenge right from this State which is famous for so many firsts, so many fundamental firsts, to be first in compassion, first in care, first in sensitivity, the first in knowing that we must balance bellies and budgets, first in knowing that we must judge people by their character and not merely by their color, first in knowing that, above the chaos, the confusion and the crying are infinite possibilities. It is a fact of faith in my life that weeping may endure for a night but joy will come in the morning. And, just because it rains, we do not have to drown. You may be born in the slum but the slum does not have to be born in you.

With a made-up mind you can rise above your circumstance. We do not judge the greatness of a nation by its budgets or by its buildings or by its height but by its breadth, its compassion and its sensitivity. Even as we have done it unto the least of these is the measure by which we will be judged.

I thank you for this privilege, for this opportunity. I APPEAL to you to assume your rightful place in the forefront of national leadership. Thank you so much.

HCR 105 - Congratulating the Indian River High School Basketball Team on Winning the State Championship for the First Time.

WHEREAS, the Indian River High School Basketball Team defeated Cape Henlopen, 66 to 65, on Saturday, March 15, 1980, at the University of Delaware Fieldhouse to win the state championship for the first time; and

WHEREAS, Dave Cook, coach of Indian River, gave full credit to his team for the victory which marked Indian River's first state championship in any sport; and

WHEREAS, to win the championship Indian River had to survive four tournament games, defeating Middletown, St. Mark's and Concord as well as Cape Henlopen; and

WHEREAS, Coach Ralph Baird of Cape Henlopen said "Our kids never quit and played to the last second. They beat us on the boards in the first half but we hung in there with them the second half. It was a typical Cape-Indian River game and I thought both teams played very well"; and

WHEREAS, good sportsmanship prevailed through the game and the tournament.

NOW, THEREFORE:

BE IT RESOLVED that the House of Representatives of the 130th General Assembly of Delaware, the Senate concurring, congratulates the Indian River High School Basketball Team on winning the state championship for the first time.

BE IT FURTHER RESOLVED that copies of this resolution be sent to the chief officer of the school as a token of our commendation.

Representative West introduced and brought HR 159 before the House for consideration.

HR 159 - Requesting the Congress of the United States to Reinstate the Deduction from Federal Adjusted Gross Income of State and Local Gasoline Taxes Incurred by an Individual for Personal Purposes.

WHEREAS, for many years the Federal Personal Income Tax Statute permitted deduction from the federal adjusted gross income of state and local gasoline taxes incurred by an individual for personal purposes; and

WHEREAS, this deduction now has been repealed by the Congress of the United States; and

WHEREAS, these taxes represent a significant expense to the citizens of the State of Delaware; and

WHEREAS, reinstatement of the deduction for state and local gasoline taxes would provide some relief from the overwhelming tax burden imposed on the citizens of the United States; and

WHEREAS, other, similar state and local taxes are still deductible; and

WHEREAS, the Federal Government has failed to show how the disallowance promotes any fiscal goal; and

WHEREAS, this disallowance helps to fuel inflation which the National Administration is trying to curb.

NOW THEREFORE:

BE IT RESOLVED that the House of Representatives of the 130th General Assembly of Delaware requests the Congress of the United States to reinstate the deduction from federal adjusted gross income of state and local gasoline taxes incurred by an individual for personal purposes.

704 Wilson Road  
Wilmington, DE 19803  
March 20, 1980

The Honorable Richard Sincok  
2201 Beaumont Road  
Fairfax

Wilmington, DE 19803

Dear Mr. Sincok:

May I recommend a possible way of cutting costs and increasing income for our government?

My recommendation is:

1. Sell the office building at 14th and Washington Streets to a company which pays taxes.
2. House the administrators now using the building in the empty wings of partially filled school buildings.

My reasons are:

1. The office building, centrally located, well built, with a beautiful view, ought to be a fine source of taxes for many years besides bringing a fine price at this time.
2. The building has always had a parking place too small to allow the citizens to reach administrators.
3. Housing administrators near students has a salutary effect on schools, and the opportunity to observe students briefly and informally each day is helpful to administrators.
4. Using one wing or section of three or four schools might alleviate somewhat the school-closing problems.
5. Taxpayers are interested in the best possible use of our resources and we now own too much school-building-space. Selling the office building is practical. Businesses could use it. Administrators can, (and in my opinion OUGHT TO BE,) housed near students. Business people, for safety reasons, ought not be housed in schools, unless the people, by nature of their work, have studied child psychology and related subjects.

I hope this recommendation will be considered.

Respectfully submitted,  
Beatrice C. Boyles  
Retired Elementary School Principal

March 25, 1980

Dr. Carroll W. Biggs, Executive Secretary  
New Castle County Board of Education  
4 Mt. Lebanon Road  
Wilmington, Delaware 19803  
Dear Dr. Biggs:

As I am sure you are aware, the subject of school closings is one that has caused a great deal of discussion both pro and con. Many educators take the position that closing schools will have an adverse effect on the students, parents fear even more busing and displacement of students, while others say it costs in excess of \$50,000 each year to keep a vacant school closed.

In my opinion, the taxpayers of New Castle County should have the right to address the problem by way of a referendum. Therefore, I propose that the Board of Education for New Castle County offer a referendum in June, July or September on the question: "Do the taxpayers of New Castle County wish to keep schools, no longer needed, open at a cost of 5¢ (five cents) per \$100 of assessed valuation? It is important that the referendum be held during the summer months, and not as a part of the general election in November. Further, the referendum must be countywide to allow all county residents the opportunity to voice their opinion.

I would be most interested to hear your comments on my proposal. I await a reply at your earliest convenience.

Yours truly,  
John Matushefske  
State Representative

The Honorable Robert W. Riddagh  
Speaker of the House  
Legislative Hall  
Dover, DE 19901

Dear Mr. Speaker:

I shall not be able to attend the session today due to a workshop seminar I am coordinating in conjunction with the University of Pittsburgh and Educational Testing Service of Princeton.

This seminar workshop will take place at Delcastle Highschool from 3:30 p.m. to 9:00 p.m.

Thank you for your cooperation.

Sincerely,  
Joseph P. Ambrosino

P.S. Bob, please have this read into the record. Thank you.

Representative Ferguson requested that the following statement be made a part of the record:

April 1, 1980

Mr. Speaker, Members of the House...

On March 25 I introduced House Concurrent Resolution No. 111 requesting the Congress of the United States to authorize no cutbacks in federal aid to states, counties and municipalities until a significant reduction is made in foreign aid. I am happy to say today that my colleagues in this house and in the Senate approved this resolution and, I feel sure, copies of it are now on their way to the several persons to whom they were addressed including the members of the Delaware Congressional Delegation.

I will need only a moment or two more of your time, Mr. Speaker. I had sensed for weeks, even months, that the uneasy feeling among political subdivision officials over budgets and taxes - over the whole problem known as Finances - was becoming more acute. The rumors and reports from Washington that the budget cutting was going to be deep and severe grew by the hour. I was and I remain alarmed. I know that this generous nation spends billions and billions of dollars a year on foreign aid. I am reminded of remarks made by the late United States Senator Everett Dirksen one afternoon, some years ago, in a debate on the Senate floor about funds. Senator Dirksen said, "A billion here...a billion there...pretty soon it runs into money!"

Our foreign aid runs into lots of money and I have to assume that much of it is well spent. But an article in the latest issue of U.S. News and World Report inspires some doubt. One quote underlines what I am saying and I quote: "Closer scrutiny has revealed that many aid programs are not advancing U. S. foreign policy and, indeed, are counterproductive to our objectives in some cases." End quote.

Now, please, one more quote from this U.S. News and World Report article. I quote again: "What discourages many lawmakers is that instability and anti-American hostility continue to flourish around the globe despite U.S. foreign-aid expenditures of nearly 195 billion dollars since World War II." In other words, we are not getting much, if anything, out of our investment. Let us then review it and let us review it now when we are dedicated to balancing our national budget. Let us not deprive our own people of the services they require while we ply people who are in some cases dedicated enemies of our nation and our system with our riches.

Thank you, Mr. Speaker, and, Mr. Speaker, may I ask that with your kind permission this short statement be made a part of the record of today's proceedings of the House? Thank you.

Rambleton Liquor Store  
Rambleton Acres Shopping Center  
April 16, 1980

John P. Ferguson  
Legislative Hall,  
Dover, DE  
Dear Sir:

We have a liquor store in Rambleton Acres Shopping Center and I wish to express my concern over the pending Bottle Bill #688. It is not only unfair but many other problems go with it and one especially I am concerned about is the unhealthy situation it will surely make as you know some will be very dirty, cigarette butts and anything else they can put in. Another problem is there is nothing to stop our customers from crossing over to Pennsylvania, Maryland and buying cheaper and then trying to pass the bottles to us. This means more help which I do not need. Also paper is a problem so why not tax the fast food shoppes and also any other bottle companies milk and etc. Please take all of these things in your consideration before passing such a bill. It will surely hurt small stores like ours and many more Mom and Pop places. Thank you for your time and consideration.

We remain,  
Mr. & Mrs. Philip Carucci  
Rambleton Liquors  
Rambleton Shopping Center

P. S. Where do we get the extra room for all the returnables?

Representative Smith moved to place HB 688 on the Speaker's table. The motion was seconded by Representative Neal and adopted by voice vote.

Representative West introduced and brought HR 188 before the House for consideration.

HR 188 - Requesting President Jimmy Carter to Call Off the Programs for the Cuban Refugees and Start Helping the Citizens of the United States Who Are Paying and Paying and Paying.

WHEREAS, for two weeks at least, the United States has been receiving Cuban refugees who are coming ashore at Key West and other places along the Florida Coast; and

WHEREAS, the cost of receiving and caring for these refugees grows every day; and

WHEREAS, these refugees, whom we really know nothing about, are going to be a future burden to a nation already sliding into a recession; and

WHEREAS, at the same time that the President is admitting these refugees, the people who have been living here right along are suffering from high prices, inflation, low expectation, rising unemployment, 15-percent mortgages, unlimited interest, overdose of credit cards, falling hopes; and

WHEREAS, the President of the United States in his capacity as Chief Executive, has the power to stop this inflow of refugees who, for all we know, may be a Trojan Horse; and

WHEREAS, if the President and the Executive Suite do not start to heed the needs of the people of the United States there will be the biggest awakening on Tuesday, November 4, 1980, that anyone can remember.

NOW THEREFORE:

BE IT RESOLVED that the House of Representatives of the 130th General Assembly of Delaware requests President Jimmy Carter to call off the programs for the Cuban refugees and start helping the citizens of the United States who are paying and paying and paying.

BE IT FURTHER RESOLVED that copies of this resolution be sent to President Jimmy Carter at the White House and to the Speaker of the House and the President Pro Tem of the Senate, of the United States Congress.

LEGISLATIVE ADVISORY #36

FROM: Office of Counsel to the Governor

The Governor signed the following legislation on the dates indicated: 4/24/80 - SJR 43.

5/1/80 - SB 395, HB 403 aab SA 1.

The following is a constitutional Amendment and did not require the Governor's signature: SB 1, SB 520, SB 2.

May 1, 1980

To the House of Representatives  
of the 130th General Assembly  
of the State of Delaware

House Bill No. 310, as amended by House Amendment 2 and House Amendment 1 to House Amendment 2, was received by my office on April 24, 1980, and is entitled:

"AN ACT TO AMEND CHAPTER 39, PART I, TITLE 18 OF THE DELAWARE CODE RELATING TO CASUALTY INSURANCE CONTRACTS; AND PROVIDING A LIMITATION ON PREMIUM INCREASES AND POLICY CANCELLATIONS."

It is intended to prevent the cancellation of an insurance policy, or an increase in the rate for such insurance, following an accident in which the insured is not at fault. I am returning the bill without my signature because I believe that in its present form the bill may well deter rather than promote the laudable purpose of the legislation.

First, one effect of the bill in its present form is actually to expand, rather than restrict, the reasons on which a cancellation of a policy may be based. The bill would permit a cancellation after a single accident; this is not now permitted under Delaware Law unless certain other factors, such as a conviction or a misrepresentation, are involved.

Second, the bill amends Section 3903 of Title 18, which is primarily a definitional section, rather than Section 3904 which lists the reasons on which the cancellation or nonrenewal of a policy must be based. This flaw is not simply a stylistic one, for the section of the Code which provides for a right to a hearing before the Insurance Commissioner when a policy is cancelled specifically refers to Section 3904. Thus, by amending Section 3903 rather than Section 3904, the bill unwittingly eliminates the right to a hearing when a policy is cancelled after a claim is made thereon.

Other problems with the bill include its failure to adequately define such terms as "minor claims", "substantial history" and "continuous claims", and its 60 day notice requirement, which appears to conflict with other time-frames established by the Chapter.

I note that the Insurance Commissioner concurs in my "veto" of this bill and he and the sponsor are working to develop a corrected version.

Respectfully submitted,  
Pierre S. du Pont, IV  
Governor

Representative Maxwell brought HA 2 to HJR 33 before the House for consideration.

Representative Maxwell requested that the following letter be made a part of the record:

May 5, 1980

Dear Member of the House of Representatives:

I am writing to request your support in favor of amending House Joint Resolution No. 33, introduced on April 3, 1980, "directing state-supported institutions of higher education not to admit Iranian nationals as students of such institutions, until the American hostages have been released."

I wish to congratulate Representative Gerrard Cain for initiating a resolution reflecting the feeling and concern of the people of our State toward our fellow American hostages in Iran. However, it is my conviction that, with minor but relevant changes, the Resolution can be further strengthened and reflect more accurately and justifiably what Representative Cain aims to accomplish.

The U.S. Immigration and Naturalization Service has screened the more than fifty thousand Iranian students in our country and has determined that a specified number of little over six thousand are illegally here and under the law, therefore, deportable. However, to the best of our knowledge, only nineteen have actually been deported. Thus, the problem with Iranian students in our country seems to be not those

who are legal and pursue their studies, but those who are illegal, and those who have taken part in violent or in unauthorized demonstrations.

It is very important to note that most of the Iranian students who have maintained their legal status in this country and who have not taken part in violent or unauthorized demonstrations are anti-Khomeini, some even pro-Shah, and certainly pro-American. To punish these students for what the mob in Iran is doing to our people — the same which they would do to pro-American Iranians returning to Iran — is not only unjustifiable, but even dangerous. It would be paralleled only by the now-regrettable 1941 action against Japanese-Americans.

In view of the above, I urge you to strengthen Representative Cain's praiseworthy, as an initial endeavor, House Joint Resolution No. 33 by amending the last line, #12, to read from line #11, "....to suspend all admissions of Iranian nationals illegally in the United States and of those Iranian nationals who have participated in violent or unauthorized demonstrations."

For the benefit of our country which looks to us for respectability, of our world which looks to us for leadership, and of our youth which looks to us for firmness, but with fairness, I pray that the proposed resolution be amended to protect the innocent and to punish the guilty, as it is intended to do.

Sincerely yours,

Dean C. Lomis, Ph.D.

International Student Adviser

Honorable Robert W. Riddagh

Speaker of the House of Representatives

Legislative Hall

Dover, Delaware 19901

My Dear Mr. Speaker:

I wish to convey to the members of the 130th General Assembly my  
heartfelt appreciation and the deep appreciation of my sons, Stephen and  
Richard, for House Concurrent Resolution No. 119 expressing sorrow and  
sympathies upon the death of Zelda K. Herrmann, beloved wife and  
mother.

My family and I shall always treasure the document and the very  
kind and thoughtful sentiments it represents.

Sincerely,

The Honorable Robert Riddagh

Speaker of House

Delaware House of Representatives

Dover, Delaware

Dear Representative Riddagh:

The Board of Commissioners of the Wilmington Housing Authority  
would like to express their appreciation to the General Assembly for  
making it possible, through Grants and Aids Bill #172, for the Senior  
Citizens and handicapped residents of their Hi-Rise Buildings to have a  
bus to transport them to markets, medical facilities, public housing  
programs and occasional recreation events.

Since there are approximately 926 residents of these buildings you  
can appreciate the gratitude felt for this portal to portal transportation  
in a facility that includes an electric lift for disabled persons and space  
for four wheelchairs to be locked in place when they are aboard.

The bus attracts much attention, examination, admiration and many questions from citizens when they see the lift operating in the shopping centers.

You may be interested in the attached copy of the schedule by which the bus operates.

Respectfully yours,  
Kester I. H. Cross,  
Chairman

Representative Oberle requested that the following communication be read into the record:

May 2, 1980

DELAWARE LEGISLATIVE ALERT

Dear NRA Member:

A major gun bill, S.B. 309, passed the Delaware Senate in 1979 and will be considered by the full House within the next few days. Under the terms of this bill all prospective gun owners are presumed to be guilty until proven innocent.

Police statistics in state after state prove that the incidence of crime and violence committed by persons who legally purchase handguns is virtually non-existent. Yet, to Senator Weiss, the sponsor of this bill, these facts apparently don't mean much.

The Weiss bill, S.B. 309, would:

- \*require a purchase application to be filled out and sent to the State Police.

- \*Require a 48-hour waiting period to purchase any handgun less than 25 years old, including black powder replicas.

This measure will do nothing to prevent criminals from obtaining a handgun. Study after study has shown that criminals do not purchase firearms legally. They obtain their weapons from underground and illegal sources.

This bill won't stop crimes of passion either. Crimes of passion are usually committed with any object close at hand such as knives, clubs, appliance cords, and any other accessible objects. These crimes are also most often committed between the 10 p.m. to 3 a.m. time frame by someone under the influence of alcohol or drugs. The sale of firearms is already precluded in the one instance and prohibited in the latter.

What S.B. 309 would do is subject innocent gun buyers to more bureaucratic red tape. It would force the applicant to take time off from his job and make repeated trips to legally purchase a firearm. More paperwork for dealers means higher prices. Because the bill does not direct the State Police to destroy or return the forms to the purchaser, you will have statewide "de facto" registration.

But that's not all. Inevitably, waiting periods fail to reduce crime; invariably, that failure is used as an excuse to impose more restrictive laws.

Delaware has a proud history of firearms ownership. S.B. 309 by Senator Weiss threatens that fine tradition.

Time is short, we need your help. This bill has already passed the State Senate. It need only pass the House and it will be sent to the Governor. Call your Delaware State Representative today and ask for a NO vote on S.B. 309. We're counting on you.

Sincerely,  
Neal Knox  
Executive Director

P.S. If you don't know the name or phone number of your Representative, call the toll free Legislative Council number (1-800-282-8545) for that information.

Representative Oberle rose on a point of order. Mr. Speaker concurred.

Representative Burris moved to recess for five minutes at 4:10 p.m.

Representative Plant requested that the following letter be made a part of the record:

May 13, 1980

Mr. Speaker and Fellow Members of the Delaware General Assembly:

I believe it is essential prior to my introduction of a resolution that I make a few remarks. I believe that after many years of disagreements concerning minority rights with various members of this Assembly, I am generally respected by you and regarded by Delawareans as a man of principle who believes in fairness and justice regardless of the issue.

I am not against Cuban immigrants or any other immigrants coming to this country as long as they are prepared to work hard and contribute in a positive way to the growth and development of this great country. After all, with the exception of Indians, there are really no true Americans in the sense of natural rights to this country.

The forefathers of everyone in this room chose to leave other countries and come to this land founded by Christopher Columbus. Of course, my forefathers and the forefathers of other blacks were brought to this country as slaves in bondage and chains. This shame still mars the history of this country.

My concern today is not to dwell on history but to beg for justice for the Haitians caught up in politics and racism, who want to become citizens of the greatest nation on earth.

Frankly, this is not the best time in our history to let any foreigners into the United States, with inflation at the highest level in the history of this country; with workers suffering under the worst unemployment in many years, and with blacks and other minorities unable to find work, and now at the brink of the frustration that played such a large part in the riots of the 1960s.

There are simply no funds available to support these refugees.

But, if we are to admit persons seeking so-called political asylum into this country, then surely the Haitians have a greater case than the Cubans. Fidel Castro has indicated that he intends to send all the mental patients and scum of the earth he can find to the United States. I don't blame Mr. Castro at all for sending us his social burden - but why should we accept these types of people when there are healthy, hard-working Haitians who want more than anything else to come into this country and be an asset and not a burden to our society?

I can see no reason other than the darkness of skin as to why the United States Government ignores the starvation and political repression going on in Haiti, yet opens up its hearts and doors to the Cubans. As a black American I am ashamed and appalled at this apparent double standard and hypocrisy in United States foreign policy, and I hope you will join me and support the resolution I offer today, which in effect demands that the Carter administration move to immediately allow the 15,000 Haitians into this country in the name of justice and fairness.

Al O. Plant, Sr.,  
Representative  
2nd Representative  
District

Representative Plant introduced and brought HCR 131 before the House for consideration.

The Governor vetoed the Following legislation on the dates indicated: HB 310 aab HA 2 & HA 1 to HA 2; 5/9/80 - HB 363 aab SA 1.

May 9, 1980

To the House of Representatives  
of the 130th General Assembly  
of the State of Delaware

On April 30, 1980, I received House Bill No. 363 as amended by Senate Amendment No. 1, which is entitled:

"AN ACT TO AMEND CHAPTER 21, TITLE 21 OF THE  
DELAWARE CODE TO PROVIDE FOR THE ISSUANCE OF  
SPECIAL LICENSE PLATES TO FORMER PRISONERS OF  
WAR."

The bill is designed to recognize former prisoners of war by issuing to them special license plates. While I share the respect and gratitude that all Americans have for those who suffered long and difficult periods of imprisonment, I am not convinced that enactment of this legislation is the most appropriate way to honor these brave men.

I am also concerned that the bill will establish an unwise and potentially expensive precedent, for once special plates are issued to a particular group or organization, however deserving, it becomes difficult to deny such plates to other groups. This has been the experience in other states, and in fact, I note that six other special license plates bills are now pending in the General Assembly.

Further, passage and enactment of this legislation is unfair to members of other groups who have sought special plates - such as volunteer firemen and disabled veterans - but who have voluntarily refrained from pushing for legislation because of the cost involved.

Finally, I note that the bill has no fiscal projection as required by 29 Del. Code 1907 and the House Rules, contains in Section 2 an incorrect reference to "§2121 (h)" rather than to "§2136", and erroneously designates subsection (d) as subsection (e).

For these reasons, I return House Bill No. 363 as amended by Senate Amendment No. 1 without my signature.

Respectfully submitted,  
Pierre S. duPont, IV,  
Governor

May 13, 1980

The Honorable William H. Vernon  
House of Representatives  
Legislative Hall  
Dover, DE 19901

Dear Representative Vernon:

In reference to your request concerning the position of the Division of Fish and Wildlife with respect to a total ban on the use of 220 Conibear traps in Delaware, this Division does not support the total ban of 220 Conibears in the State of Delaware for the following reasons:

1. The 220 Conibear was designed as an alternative to the use of a drowning set for a foot trap.
2. The area in which the 220 Conibear is allowed to be used; to wit, tidal marshes east of Route 13 in Kent and New Castle Counties, has not been a problem area with catching dogs.

The area in which we have a problem is that the fine for the illegal use of these traps is too low and should be raised.

Your amendment is consistent with established Division policy (a copy of the regulation is attached).

Sincerely,  
William C. Wagner II  
Director

LEGISLATIVE ADVISORY #38

FROM: Office of Counsel to the Governor

The Governor signed the following legislation on the dates indicated: 5/15/80 - SB 580. 5/22/80 - SB 378 aab SA 1, SJR 46. 5/27/80 - HB 971.

The following is a Constitutional Amendment and did not require the Governor's signature: HB 626.

May 23, 1980

The Honorable Robert W. Riddagh  
Speaker of the House  
House of Representatives  
Legislative Hall  
Dover, Delaware 19901  
Dear Mr. Speaker:

I am in receipt of House Resolution Number 192, adopted by voice vote on May 6, requesting that I provide the sum of \$58,560.00 from the Contingency Fund to meet operating expenses of the Delaware Adolescent Program, Inc. While I am sympathetic to the important mission of this fine organization, there are significant reasons why I cannot accommodate the will of the House of Representatives in this matter.

First, the majority of the membership of the Budget Commission, and not the Governor alone, must approve any expenditure from the Contingency Fund. Second, it is the long standing position of the membership of the Budget Commission that no monies be expended from the Contingency Fund for purposes which constitute grants-in-aid in the absence of an express authorization by the General Assembly by not less than a vote of 3/4 of the membership of both Houses, as the Delaware Constitution requires. And finally, it would seem appropriate in the instance of any extraordinary earmarking of funds from the Contingency Fund that the Budget Commission have the mandate of both the Delaware Senate and House of Representatives, rather than an expression of will of one House without the other.

I would respectfully request that this communication be made part of the journal of the House of Representatives so that all members might understand and have an opportunity to comment upon the circumstances of my denial of the request embodied in House Resolution Number 192.

Sincerely yours,  
Pierre S. du Pont  
Governor

HB 1050 - An Act to Abolish the Delaware Heritage Commission.

Mr. Speaker Riddagh made the following announcement:

"Upon reviewing the House tapes with Mrs. Morris on Friday, the voice vote clearly indicated that HCR 141 had failed the House. At this time, I would like to apologize to Mrs. Anderson for the mix-up.

"Also, on reconsidering the debate on HB 1049, the chair erred in not permitting the debate to continue.

"If this House is to function properly and if each Representative is to have the opportunity to do the job they were elected for - the respect for the rules should be accorded them.

"At this time, I want to personally apologize to Representative Gilligan, Representative Darling, and Representative Holloway and to and through Representative Gordy for any other minority member who intended to continue speaking on HB 1049 last Thursday.

"Knowing anything I might offer today would be inadequate, I still want to say that I am sorry."
