NUMBER 34

CONVOCATION DAY OPENS COLLEGES

Students Hear Stirring Appeal From Dr. Richmond, Chancellor of Union College

RAIN KEEPS MANY AWAY

Academic Procession To Armory Includes Trustees, Faculty, and Students In Long Line

The official opening of the University of Delaware for the year 1923-24 took place last Friday afternoon in the Battery E Armory, Delaware Avenue.

Rain which began falling Thursday evening, and continued intermittently throughout Friday morning forced the abandonment of plans to hold the exercises under the trees in front of Old College. Chairs and tables were hurriedly removed to the Armory, where the program began on schedule at 3 o'clock.

Practically all the students of the three lower classes in both Men's and Women's Colleges were present and entered the academic procession. Many Seniors had not arrived in Newark in time for the opening.

Under the direction of Dr. F. M. K. Foster, Marshal of the procession, the line formed on the campus opposite Wolf Hall, Women's College students in the lead, followed by the young men, the Faculty, members of the Board of Trustees, with Drs. Richmond, Hulihan and Henry B. Thompson making up the last of the procession.

As the long line of marching students reached the Armory, the ranks were divided, and the order of entering the building was reversed. Several minutes ensued before all were seated and the program begun.

Absence of townspeople was noted in the audience, barely a hand-full were seated when the procession filed in and took seats. Threatening weather throughout the day was given as the reason for the small attendance.

Opens With Prayer

Dr. Hulihan, who presided at the exercises, called upon Rev. H. Everett Hallman, pastor of the local Presbyterian Church, to make the invocation. Rev. Hallman called for Divine blessing upon the young men and women who had come to the institution to seek knowledge. He asked that they be led in the seeking of the higher and finer things in life under the holy guidance of God.

Rev. Frank Herson, Methodist Episcopal pastor of Newark, read a portion from the Scripture.

Dr. G. H. Ryden lead the audience in singing "America," after which Dr. Hulihan introduced Henry B. Thompson, chairman of the Board of Trustees. After a few remarks, Mr. Thompson in turn introduced Dr. Richmond to the audience.

Dr. Richmond Addresses

After expressing his appreciation of the opportunity given him to speak before a Delaware audience, and promising not "to make demands upon his hearers' intellects," Dr. Richmond launched forth into one of the finest addresses ever heard in Newark. Those who were present were stirred by his appeal for a higher plane of living for America based on a simple, sturdy, every-day life, and upon the righteous upbringing of the children.

"There's a lot of joy-riding in this generation in the affairs of government, and in industry, as well as in Education," said Dr. Richmond.

The speaker caused a wave of laughter to sweep the hall when he drolly remarked that "it doesn't take much brains to teach Freshmen."

In speaking of the proper teaching of the young generation, Dr. Richmond declared that "in choosing a Faculty, it's not how much they know, but what kind of men are they?"

The audience stood and applauded heartily as Dr. Richmond left the building to catch his train, shortly after completing his address.

New Faculty Members

Dean George E. Dutton, in his first official appearance since accepting the post, announced the appointments in the Arts and Science School of the University. They are as follows:

(Continued on Page 10.)

TOMATO GLUT FORCES CANNING PLANT HARD

Special Offer For Two Weeks' Work Brings Many To Local Plant

Due to the influx of tomatoes embodying the last drive of the season, the plant of the United Canneries Corporation in Newark is being pushed hard to get the heavy crop packed.

A delegation of Wilmington men and women arrived this week to work at the cannery. High wages are being paid and extra inducements offered in order to get the much needed help. The cannery is paying the workers' carfare to and from the plant and many of them are taking this opportunity to make some extra money for the short season. Very few of the new employees are skilled workers but they are able to help the officials greatly in this glut.

It is expected that the season will fall off sharply within the next week. The crop is staying up to quality very well, in the opinion of local authorities.

It is reported that several Newark people are taking advantage of this opportunity and have applied and been granted positions at the plant here. Several of them have never done the work before but report it well worth while in the long run.

\$600 SUBSCRIBED FOR JAPAN RELIEF

Newark Makes Remarkable Showing in Red Cross Campaign Which Closed Sunday

Mrs. J. O. G. Duffy, chairman of the Japan Relief Drive, held under the direction of the Newark Chapter of the American Red Cross, reported yesterday that \$600 had been raised in the town during the intensive two weeks' drive. The money has been forwarded to the Delaware headquarters in Wilmington.

Chapel Street leads all the streets and districts of Newark by a wide margin, and has subscribed over one-third of the total amount collected.

The district chairmen and collectors were united in their opinion that this drive was the easiest of all undertaken by the Newark Chapter. Residents gave liberally and voluntarily at all times.

The collectors who made the rounds of the community were the following: Miss Elinor Harter, Miss Aileen Shaw, Miss Sue Smith, Miss Josephine Hossinger, Mrs. Geo. W. Rhodes, Mrs. (Continued on page 4)

ADDITIONAL GIVERS TO JAPAN RELIEF

The following names of contributors to the Red Cross Japan Relief Drive were received up to noon today.

A total of \$618.60 has been collected to date.

The full list of contributors will be found on page 4.

Mrs. Spooner, The Misses Fader, Wm. P. Wollaston, The Newark Inn, Clarence Major, Patrick Nevin, J. W. Parrish, Walter Powell, Charles C. Steel, Dorothy Hawkins, Mr. and Mrs. Harry Reed, Miss Anne Hossinger, Mrs. Charles B. Evans, Professor Koehler, Sol Wilson, Miss Lena Evans, Mrs. Geist, Mr. Pilnick, Mr. Marritz, Mrs. Dunlevy, Miss Hewitt, Dr. G. E. Rhodes, C. B. Dean, Mrs. Kane, Thomas Potts, Mrs. Pemberton, A. Handloff, Louis Hoffman, Louis Handloff, Mrs. Casler, Mr. Bushman, Mrs. Willis, Dr. Dunlevy, Mrs. Henry W. Davis, collector.

Mrs. Laura Willis, Mrs. R. W. Steel, Mrs. Streets, Mrs. White, Mrs. R. Baker, Mrs. Geo. Cox, Miss Edna Campbell, Miss Ida Murray, Mrs. Murray, Mrs. James Wilson, Mrs. Barnett, Mrs. John Moore, Mrs. James Marsey, Mrs. Wm. Smith, Mrs. Walton Smith, Mrs. Cagle, Miss Rachel Shockley, Mrs. George, Mrs. Rodman Lovett, Mrs. Herman Tyson, Mrs. C. B. Evans, Miss Jones, N. M. Motherall, Mrs. Stoll, Mrs. Donnell, Mrs. Brown, and Miss Anderson.

FIREMEN WIN FIRST PRIZE

The Aetna Hose, Hook and Ladder Company of Newark carried off first honors at Havre de Grace last evening. In competition with practically every fire company in Cecil County and one or two from out of the State, the Newark boys, headed by the Continental Band, left no doubt in the minds of the judges that they were the finest looking organization in line. A prize of \$20.00 in gold was awarded to the firemen through their chief, E. C. Wilson.

Second place went to Port Deposit, third to Singler Fire Company of Elkton and fourth to Rising Sun.

The parade was held in conjunction with the annual Firemen's Carnival now in full swing in the Maryland town.

About fifty men were in line from Newark, all dressed in the picturesque red shirts which have made them famous all over the surrounding country.

PYTHIANS' DRIVE FOR NEW MEMBERS

Local Lodge Holds Open Meeting in New Center Hall Quarters Monday

SEVERAL SPEAKERS

Over two hundred local Knights of Pythias and their allied order, the Pythian Sisters, gathered in Center Hall lodge rooms Monday night in an open meeting.

The lodge is about to institute a drive for new members and the affair this week was in the nature of an introductory meeting. The spacious room was comfortably filled when the meeting began.

Clarence A. Short presided at the meeting and introduced the speakers. Each made a short talk on various subjects. They congratulated the Pythians of Newark upon the growth of the lodge and predicted that great things were to be expected in the future.

The meeting Monday night was the first to be held in Center Hall, the future headquarters of the Pythians. Heretofore the lodge rooms had been in the Odd Fellows Hall.

The Program

The meeting was opened by a short speech of welcome by John S. Hopkins, followed by a response by George A. Souder. Then followed short talks by Grand Chancellor Albert Wilhelm, of Wilmington, Grand Vice Chancellor Thomas W. Marvel, of Seaford, Grand Prelate S. S. Hamilton, of Middletown, and Grand Master at Arms Carl Brinton, of Wilmington. The visitors congratulated the Newark Chapter on their progress and asked for continued cooperation furthering the strength of the Order.

Mrs. Mabel Hill, Most Excellent Chief of Friendship Temple No. 6, Pythian Sisters, in Newark, was first on the program for the ladies' order. Other speeches were made by Supreme Organizer, Mrs. Mae Simpson, of Wilmington, a representative of Pythian Temple No. 1, and Mrs. Margaret Tucker, of Wilmington.

"Old Times" was the subject of an (Continued on page 4)

REHAB SCHOOL GRADUATES 20

Fall Exercises in Wolf Hall Take Place Tomorrow Morning

REV. ALLISON TO SPEAK

Commencement exercises will be held by the Rehabilitation Division of the University of Delaware tomorrow morning at eleven o'clock in Wolf Hall.

A class of twenty young men have completed the courses prescribed and at that time will be given diplomas. The majority of the graduates are listed in the Horticulture and Poultry Husbandry courses at the school.

One man, Melville K. Green, completed his course in May but was not present to receive his diploma at that time.

Dr. Walter Hulihan, president of the University, will present the diplomas to the graduates. The Commencement address will be delivered by the Rev. George B. Allison, pastor of the Second Baptist Church, Wilmington.

Mr. Allison is well known in Newark, having spoken here several times. He has addressed the Rehab School before.

Raymond M. Upton, director of the school, will preside at the exercises.

All friends of the graduates living in and around Newark are cordially invited to attend the commencement.

Most of the graduates have already decided upon their future activities.

The graduates follow:

General Agriculture

Frederick G. Smalley.

Animal Husbandry

Sanford R. Griffith.

Horticulture

Peters C. Bauer, Richard C. Clark, Samuel J. Kennedy, Handel Humphries, John G. Redline, Andrew S. Walp, Edward Douglas, John Kelly.

Poultry Husbandry

Anthony Norkus, Albert Yardley, Charles E. Flowey, Lewis A. Grader, Thomas M. Utley, Curtis W. Strong, John B. Evans, Harry S. Martin, Ghordin D. Trumbull.

MYSTERY GALORE AT CUPID SIGNALS BUT THE CAT'S OUT OF THE BAG NOW

98% of Newark's Population and Two Wilmington Newspapers Fooled by Local Practical Joker—"No Children, the 'Love Nest,' Has Nothing Whatever to Do With The Klan"

EVERYBODY LAUGHS, INCLUDING THE NEWLYWEDS

Mystic signals!—arrows all pointing in the same direction—placed in the dead of night!—rain-mystery. "What does it mean, neighbor?"

This was probably the general trend of thought in the minds of early-rising Newarkers last Saturday morning, when they passed through quiet streets to catch the commuters' "palace cars" to business.

On nearly every pole, tree and building along the principal streets of the town were fastened bleeding hearts, pierced by the traditional arrow of Cupid, the well known match-maker. (We say bleeding without error, for the heavy rain during the night made the "blood" flow all over the card, creating a most realistic effect.)

And, would you believe it, ladies and gentlemen, the tortured hearts and their accompanying arrows all pointed in the same direction. From Depot Road and East Main Street they came, from Delaware Avenue

and Elkton Road. Indeed, it was not only mysterious; it was uncanny, to say the least.

Just where the arrows stopped no one knew, and most of them didn't want to see. A murder, a Freshman hanging by his heels from the water tank on Quality Hill—any one of a hundred gruesome things might be there for the eye to glimpse. (And you know the signs really had lost their—may we say—Cupidity. The rain did it.)

Ah—The Newspapers Have It!

The mystery grew thicker and murkier as Saturday wore on. Careful mothers kept their children off the streets and ordered their groceries by phone (which pleased the merchants.)

But those two Wilmington newspapers were not fooled—no sir-ee. The Journal and Every Evening both carried good heavy stories, one on the front page. Copies sold by the dozens, and eager readers swallowed the

(Continued on page 4)

ARTIST SERIES TO BE HELD THIS YEAR

Marco and Co., Magicians, Will Entertain On October 5th Next

The Artist Series of entertainments which have been features of several winters past among Newark folk will again be held this season, according to an announcement made by the committee yesterday.

The opening number will be Marco and Co., expert and mystifying magicians. Old and young alike enjoy a good magician and his "bag of tricks" and it is understood that Marco stands high in his profession. The entertainment will be held in Wolf Hall on the evening of October 5th, starting at eight o'clock.

The committee in charge of arranging the Artist Series this year is composed of Dr. Walter Hulihan, Dean W. J. Robinson, Dr. George H. Ryden and A. G. Wilkinson.

Series tickets and single tickets are being printed and will be on sale in a few days. The Artists Series has always met with popular favor in Newark, and the committee is working for a program of events to keep up the high standard of former years.

DR. T. F. MANNS HAS HAD BUSY SUMMER

Plant Disease Expert Back On Job At Experiment Station

With the opening of the University for another year Dr. Thomas F. Manns returned again to his desk and laboratory in Wolf Hall last week after a busy summer.

DR. THOMAS F. MANNS

Dr. Manns is an expert on plant diseases, and is also plant pathologist and soil bacteriologist at the Experiment Station in Wolf Hall.

As stockholder and advisor for the United Canneries Corporation of this place, he has been active all summer in furthering the interests of the canning plant. In a plot of ground to the rear of his residence on Park Place, Dr. Manns raised a bumper crop of tomatoes and is considered an authority on all things pertaining to their healthy growth. During the glut suffered here last week, Dr. Manns helped superintend the unloading of the tomatoes at the plant.

SELLING CHAPEL SEATS

Upper-Classmen Having Big Time With First Year Men At University

Desirable seats with the "officers" in the chapel "balcony" are being sold this week to unsuspecting Freshmen at the University, according to reports. The upper classmen holding the very coveted tickets very solicitously inquire as to what part of the chapel the Freshman would like to sit, and charges him accordingly. Twenty-five cents for ring-side seats is the usual charge.

Sales have also been recorded for "gun receipts," Frazer Field privileges and "professor sustenance fee."

ST. THOMAS CHURCH CALLS SNOW HILL MAN

The vestry of St. Thomas' P. E. Church here recently issued a call to Dr. R. B. Matthews, rector of a similar parish in Snow Hill, Maryland.

Nothing has been heard to date regarding the matter, but the Vestrymen expect definite word before the end of the week.

Dr. Jones is preparing to leave Newark for Cincinnati within a few days.

OLD HOME WEEK INTERESTS MANY

Proposed Three Day Celebration to be Topic at Big Dinner on October 4th

APPOINT COMMITTEES

Chamber of Commerce to Invite Ladies to Affair—Will Formulate Plans at That Time

The proposal that Newark celebrate an Old Home Week the latter part of October is meeting with considerable interest among the townspeople, according to statements made by several men this week.

At a meeting of the Chamber of Commerce last Friday evening, the subject was the main topic of discussion. The members present appeared to be in favor of the project providing sufficient interest could be mustered among the churches, schools, lodges and industrial organizations of the town.

It was suggested that the dinner planned for the near future be held on Thursday, October 4th, and that the members of the Chamber and their guests be urged to bring their wives, and make it a "Ladies Night." With such a representative body of men and women present, the business men believed that the Old Home Week project could be pushed to sure success.

President Hastings appointed Friday night a committee for Old Home Week, with Mayor Eben Frazer, ex-officio member. The other committeemen are:

J. C. Hastings, chairman; J. E. Dougherty, Dr. Walter Hulihan, T. R. Dantz and Irvin Durnall.

Three Day Affair

It was the general belief that an entire week devoted to Old Home Week would be too exhaustive and long for the town. It was hence decided that a three-day affair would be much better received. No dates were set, however. The last week in October was suggested as the best time.

Old Home Week is an entirely new venture for the town. In the opinion of members of the Chamber of Commerce such a celebration would prove a very popular annual affair in the future. The plan, of course, is to have as many families as possible in town invite old friends and relatives, who have formerly lived here, as their guests for two or three days, and during that time to have "something doing every minute." Parades, field sports, dinners, and community singing would likely be included in the program.

It is proposed that the above committee formulate tentative plans for the celebration and at the dinner on October 4th, to submit them to the gathering of men and women. If approved, and committees named that night, it is believed that the plans will go along smoother.

A committee to handle the dinner was appointed as follows:

George W. Griffin, chairman; Clarence B. Dean, Sol Wilson and Daniel Stoll.

The affair will likely be held in the Commons of the University of Delaware. It is not proposed to have a special speaker for the occasion.

WIN HONORS AT SPRINGFIELD

Boys' and Girls' Club Members Set Real Record at Exposition

The twelve boys and girls who represented Delaware last week at the annual gathering of Boys' and Girls' Club members at Camp Vail at the Eastern States Exposition at Springfield, Mass., returned to their homes Saturday night after setting up a record which has probably not been equalled since Camp Vail was started.

The Milton canning team, consisting of Ruth Lynch and Katherine Dickerson, with a score of 97 points was the highest scoring team in all lines of competition, and in the canning division was 14 points above their nearest competitor and 33 points above the average score of all other canning (Continued on page 2)

FACULTY CLUB TO HOLD RECEPTION FOR NEW PROFESSORS NEXT MONDAY NIGHT

Popular University Organization To Start Series Of Functions To Continue Throughout The Term

NEW OFFICERS WILL BE ELECTED FOR THE YEAR

READING ROOM IN FACULTY CLUB, UNIVERSITY OF DELAWARE

The Faculty Club of the University will hold its first social function of the year next Monday evening, it was announced this week.

The affair will be in the nature of a reception for the new members of the Faculty who have recently moved to Newark. In this way, it is hoped that they will be made to feel at home in the club, and also provides a convenient way of becoming acquainted with them.

The program has not been definitely announced by the committee in charge. It is likely, however, that several musical number will be parts of the entertainment. Dr. George H. Ryden will sing, it is understood.

Several of the new professors are said to be talented musicians.

It is also understood that the annual election of officers for the coming season will take place Monday evening.

Splendid Quarters

Very conveniently situated in Old College, the Faculty Club proves a popular headquarters for the professors during the daytime. The comfortable, well-furnished reading room is supplied with magazines, newspapers and books.

In another room two excellent pool and billiard tables and a shuffle-board are at the services of the members. During the winter it has been the custom to promote pool and shuffle-board tournaments.

CAR HITS POLE ON HIGHWAY FRIDAY NIGHT

One Injured Car Smashed; Alleged to Have Been Forced Off Road

As a result of some alleged careless driving on the part of a colored driver of a truck along the Newark-Wilmington Pike, last Friday evening, Mr. Brassen, of Wilmington, suffered a severe blow on the head. Mr. Brassen's machine struck a telephone pole

and he was thrown into the wind shield. Although he was knocked unconscious for a short while. He was not seriously hurt. Mr. Brassen was accompanied by another gentleman whose name was not learned. The latter escaped.

It seems that two cars and a truck were proceeding towards Wilmington. Mr. Brassen started to pass the other car and was intercepted by the truck. This forced him into a telephone pole a few feet ahead.

The Ford which Mr. Brassen was driving was severely damaged. The

front of the machine was so badly smashed that it could not be moved. Mr. Brassen was taken to Newark in a passing car.

The six o'clock bus of the "Stiltz Line," which was on its way to Wilmington, was the first machine on the scene of the accident.

Mrs. Annie Morrow, of Philadelphia, and Mrs. William Carswell, of Elsmere, and Miss Sara Carswell, of Wilmington, spent a day last week at the home of Mr. and Mrs. L. K. Bowen.

WIN HONORS AT SPRINGFIELD

(Continued from Page 1.)

club experience, placed sixth.

The leaders of the Delaware group were greatly elated over the achievement of William Marvel and Ralph Satterfield, of Magnolia, in winning first place in poultry judging over teams from Massachusetts and Connecticut. These two states employ Club Poultry Specialists who train their teams, which have been winners in National contests at Madison Square Garden.

Likewise the winning of second place in potato judging by William Dawes and Samuel Wallace, of Dover, competing with teams from the potato growing sections of Maine and Vermont, was an unexpected honor.

The dairy team, consisting of Robert Jaquette and Robert Connell, of Newark, had to be content with third place in stiff competition with highly trained teams from Maryland and Connecticut.

In the individual contests the Delaware boys and girls made a brilliant record. Honor ribbons are awarded all judging contestants making scores of 90 points or over. Only nine members of the Camp received these ribbons, being won by Katherine Dickson, 98; Ruth Lynch, 96; Elizabeth Conaway, 94; Kathaleen Wright, 94.

All of Delaware teams received gold medals for meritorious work in team demonstrations. The dyeing team, consisting of Kathaleen Wright and Elizabeth Conaway, of Bridgeville, attracted more attention and applause than any other team demonstration.

Delaware Club work was also represented by Stanley Short, who, although not a member of Camp Vail, exhibited his famous herd of Poland China hogs in the open classes, winning \$255.00 in cash prizes, including 4 championships, six firsts, five seconds and six thirds. Stanley has won over \$1,100.00 in premiums in the last four weeks.

The Delaware group made the trip to and from Springfield in company with the club group from Maryland. The Pennsylvania Railroad furnished a special observation car for the party and showed them every possible courtesy. The party was chaperoned

by A. D. Cobb, State Club Leader, Kent County Agent Russell E. Wilson, and Sussex County Club Agent Anne B. Moore.

While in Camp, the club members were housed in comfortable frame dormitories. There was a camp hospital with expert nurses in charge, and every precaution was taken to make the young folks comfortable. The Eastern States Exposition is probably the most educational agricultural and home making exhibit in America. While in Camp the club members had opportunity to see exhibits of livestock, crops and food and clothing products that represent the best in the country. The records of all boys and girls from Delaware who have attended Camp Vail since it was started in 1916, show that they have made good use of this opportunity. A majority of them have returned home to become leaders, and to aid other boys and girls in receiving opportunities. Some of the outstanding former club members who received inspirations at Camp Vail, are Wallace Cook, Newark, now Assistant State Club Leader in Pennsylvania; Naomi Pepper, of Georgetown, who is a Sophomore at the University of Delaware, and served as County Club Agent of New Castle County this summer; Mary Cruwell, of Felton, now a Senior at Cornell; Dewey Sapp, of Houston, a local club leader, and director of the Kent-Sussex Fair; Stanley Short, owner of the champion herd of Poland China hogs of the Eastern States; and Earle Meredith, of Greenwood; Wm. R. Hill, of Bridgeville; Ernest Milliken, of Newark; all

AN ENDORSEMENT

A lecturer gave a learned and interesting address before a woman's club on "The Decadence of Pure English."

At the close of the talk an over-dressed woman approached him and said:

"I did enjoy your talk ever and ever so much, and I agree with you that the English language is decaying something awful. Hardly no one talks proper nowadays, and goodness only knows what the next generation will talk like if nothing ain't done about it."—Houston Post.

students at the University of Delaware.

While at Camp Vail this year the Delaware group had the honor of meeting Governor William D. Denny, who was a guest of the Exposition. Governor Denny invited the boys and girls to his box at the Horse Show, and complimented them on their achievements.

Other Delaware visitors were Lewis P. Randall, manager of the Delaware State Fair, and W. D. Hudson, of Clayton, who spent some time inspecting the club exhibits.

POSTPONE MURDER TRIAL IN ELKTON

Counsel for Webb, Kassing and Mrs. Vaughn Did Not Appear When Case Was Called

The Circuit Court for Cecil County, now in session at Elkton, indefinitely postponed late last week the trial of John W. Webb, Charles Kassing, and Mrs. Dora Vaughn, accused of the murder of Joseph Dorine, near Barksdale, Md., last spring.

Counsel for the defense was said to have been out of town when the case was called, and the judges after conferring ordered the case held over to next term of court. The three prisoners were indicted by the Grand Jury last week.

The alleged murder created a great deal of excitement in this section last spring, when Dorine, a foreigner living near Barksdale, was found murdered, with three young children keeping watch over the body. Suspicion resolved itself upon Webb, and when he was arrested, involved the other two.

LEAVES FOR LONG TRIP

Mrs. D. J. Ayerst On Two Weeks' Visit To Relatives In Canada

Mrs. D. J. Ayerst, of Elkton, left Monday morning for Claremont, N. H., where she will spend several days with her mother, residing in that town.

From there Mrs. Ayerst will continue to Canada, visiting relatives in Sherbrook and other nearby points in the province of Quebec.

VARIETY SHOWER

Providence Couple Recipients of Many Gifts From Their Friends

A variety shower was given at the home of Mr. George Magaw on Saturday evening, September 22nd, in honor of Mr. and Mrs. Oscar Magaw. Those present were Mr. and Mrs. Oscar Magaw, Mr. and Mrs. Roy Stoll, of Rockland, Del.; Miss Lottie Stoll, of Wilmington; Mr. John Poulie, of Philadelphia; Mr. and Mrs. Earl Magaw, Mrs. Hugh Larzelare, Misses Olive Magaw, Elsie Rupp, Hilda Larzelare, Verna Spence, Dora Mark, Dorothy Gilbert, Messrs. Arnell Larzelare, Percy Magaw, George Melvin, William Magaw, Ralph Steele, Theo. Spence, George Heathe, Horace and Leonard Spratt, Joseph Miller, Ernest Patchel, Howard Kenneth and Earl Magaw, Jr. The young couple received many beautiful and useful gifts. A delightful evening was spent in playing games.

ACCIDENT ON ROAD NEAR FAIR HILL, MD.

Newark Car Overturns; Occupants Badly Shaken, Monday Last

On Monday last, three young girls in a Ford racing car, belonging to Harry Smith, of Newark, were speeding along the Angora-Fair Hill road when Smith lost control of the machine. It ran into a bank, throwing the girls to the ground. One, Miss Ethel Brown, of Cherry Hill, was thrown clear of the car and escaped uninjured, but Miss Floy Wilson, of Lewisville, and Viola Hamilton, of Fair Hill, were pinned under the overturned car. Both girls were taken to Dr. Carrico's office at Elkton for treatment. Both girls were well shaken up. Miss Wilson received some very bad bruises and Miss Hamilton a bad cut from broken glass. Smith escaped any serious hurts. The girls were taken to their homes after receiving treatment.

GIRL SCOUTS WANTED

Miss Alice Kerr Announces Hike Next Saturday Afternoon

A hike for the Newark troop of Girl Scouts will be held next Saturday afternoon, according to an announcement made today by Miss Alice Kerr, leader of the girls.

A meeting the same evening will be held at the home of Miss Kerr for the purpose of starting a plan for new members. All Scouts and those interested in Scouting are urged to be present at that time.

Elkton Personals

Mr. H. Frank Hurn and his mother, Mrs. Elizabeth Hurn, left Friday for Lewes. After staying a few days they will return bringing with them Mrs. H. Frank Hurn and children. The trip was made in Mr. Hurn's new Studebaker Special Six.

Mr. and Mrs. Roy Perkins of Cambridge are visiting her parents, Mr. and Mrs. John Sparklin.

Miss Florine Pratt who is training at the Children's Hospital, Philadelphia, spent Monday with her parents, Mr. and Mrs. Frank Pratt.

Mr. and Mrs. Casper Garrett are spending a few days with her daughter, Mrs. Evans Dunbar.

The children of the Public School held a very successful bake last Saturday afternoon.

Mr. and Mrs. Charles Grant, Mr. and Mrs. Wirt Bouchelle, Mr. and Mrs. D. J. Ayerst attended the wedding of Miss Mildred Jennes and Mr. William Lindsey in Wilmington last Saturday evening.

Mr. and Mrs. George Schuster spent the past week-end at Atlantic City, N. J.

Providence

Mrs. John Henderson entertained friends from Chester over the week-end.

On Monday of last week while Miss Emily Wherry, daughter of Mr. and Mrs. David Wherry, was at her home she became totally blind. She was at once taken to a specialist where she underwent treatment and her sight became restored. Miss Wherry was in the graduating class of the Elkton High School this year but had to give up her studies before she had finished the term, on account of ill health.

Mrs. John Brown is spending some time with her sister, Mrs. Matthew Russell, of Bay View. Mrs. Russell is very sick and Mr. Russell has been taken to the Union Hospital for treatment. Both Mr. and Mrs. Russell are in advanced years.

Mr. and Mrs. George Fillingame and family spent Sunday with Mrs. Fillingame's parents, Mr. and Mrs. Charles Dunsmore. Mr. Ralph Dunsmore was also a home visitor.

Mr. Walter Lindsay, of Kittanning, Pa., is spending a few days at the home of his parents, Mr. and Mrs. David Lindsay.

Mrs. William Russell, of Philadelphia, is visiting her sister, Mrs. George Stewart.

Mr. and Mrs. Charles Stewart and family motored to Chester and spent Sunday with friends of that place.

Mr. and Mrs. Howard Spence and family were visitors at the home of Mr. and Mrs. James Spence on Sunday.

Mrs. Morris Elwood and daughter, Helen, and Mrs. Ryan, of Chesapeake City, visited the home of Mr. and Mrs. George Ryan on Thursday.

Mrs. Emma Null is entertaining relatives from Covington, Va.

Mr. Garrett Steel and Mr. Curtis Spence started to Florida on Friday.

CHERRY HILL FAMILY IN AUTO ACCIDENT

All Escape With Minor Injuries When Thrown From Machine

While Morris Egnor and family, of Cherry Hill, were returning to their home Monday evening, Mr. Egnor turned to fix something in the back seat. He lost control of his car and it ran up a bank on the roadside, overturned and threw the family out. The top and windshield were smashed. The fact that Mr. Egnor was proceeding slowly saved them from being hurt. He carries a black eye and a sprained knee, caused by the accident.

Lecturer Cartoonist A Feature

Of Elkton "Flying Squadron"

Honorable Frank S. Regan, of Rockford, Illinois, former member of the Illinois Legislature, a member of the first division of the Flying Squadron, is a unique orator.

Mr. Regan is a tax expert, a cartoonist, a rapid crayon worker, who with lightning speed draws pictures to illustrate his points. Though the subject of taxes is supposed to be as dry as dust, it is said he keeps his audiences keyed up every minute of the time and has them applauding throughout his addresses.

No admission is charged for his lectures or for the addresses of any of the other speakers who make up the combination. Everybody is invited.

The Squadron will hold a series of six big meetings in Elkton on Sunday, Monday and Tuesday, October 7th, 8th and 9th, in the Methodist Episcopal Church. The meetings will be held at 3:00 and 7:30 p. m. daily.

MERMAID NEWS OF THE WEEK

Harmony Grange Plans For Degree Work; Personals

Harmony Grange held its regular meeting on Monday night in the Grange Hall. During the business hour Mr. Peach reported on the committee meeting which met to plan for the fifth degree. This degree is to be given by Delaware Grange on the evening of Thursday, October 11th. Every fourth degree member is urged to take the degree and to please give name to the secretary before that time. The sick of the Grange were reported improving, though Brother Greenwalt was not quite so well. The Lecturer's hour was opened with music by Sister Naomi Brackin. The question, "What the Community Most Needs" was discussed by Brother Will Naudain and Dr. Cooper also spoke a few words on that subject. Then the Worthy Secretary gave an interesting account of her trip to Washington, D. C. The Worthy Lecturer, Blanche Derriekson, then told of the remainder of her trip, beginning at Los Angeles, Calif., and coming homeward by way of the Canadian Rockies. The members thoroughly enjoyed the description of her trip and her beautiful picture. The Grange closed with a very good number present.

The birthday anniversary of Miss Blanche Kersey was celebrated on Saturday evening at the home of her uncle, Mr. Will Vanning, of Cedars. The guests were: Mr. and Mrs. J. F. Brackin, Mr. and Mrs. John Ashton, Mrs. Ella Ashton, Mr. and Mrs. Willard Klair, Mrs. L. M. Thompson, Miss Edna Brackin, Miss Naomi Brackin, Mr. Clifford Simpson.

Mr. and Mrs. John Ashton, and Mrs. Ella Ashton, all of Belle Meade, N. J., spent Saturday and Sunday with Mr. J. F. Brackin and family.

Mr. and Mrs. Laurence Pennington and family spent Sunday with Mr. Jos. Schwinhart and family, Lansdowne, Pa.

Mrs. Harry Brackin spent last week with relatives in Washington, D. C.

Mr. and Mrs. Will Naudain spent Sunday with Mr. and Mrs. Willard Klair.

Mr. and Mrs. John M. Peach, of Wilmington, spent the week-end with Mrs. Peach's brother, Mr. A. B. Dennison.

Miss Clara Morrison, of Philadelphia, Pa., is spending this week at The Mermaid.

Miss Mildred Brackin and Miss Sara Pennington will enter Beacom's College on next Monday, October 1st.

APPLETON

Miss Mary Kirk and Messrs. Robert and Guy Kirk, of Blythedale, were the guests of Miss Ida Kimble on Sunday.

The September meeting of the Women's Club was held at the home of Mrs. Joseph Hendrickson on the 19th inst. Miss Grimm, the new Home Demonstration Agent, gave an interesting talk on balanced meals and the fireless cooker.

In October the club will meet with Mrs. Fred Vansant at Richardson Park.

On Monday evening, September 17, the Grange held its regular meeting. Plans for the Community Show were discussed, and a general committee appointed. October 25 has been selected as the date for the Show.

PLEASANT VALLEY CLUB MEETS THURSDAY

New Officers To Be Elected For Coming Season; May Give Plays

The next regular meeting of the Pleasant Valley Community Club near Newark, will be held on Thursday evening, September 27, 1923, at 8:30 o'clock. As this is the first meeting of the year, new officers will be elected for the coming year. The president of the past year, Mr. G. O. Lomax, will be in the chair and will take charge of the meeting. The following officers will be elected: President, treasurer, secretary and members for the Social Committee, Publicity Committee, Visiting Committee and various other committees that form the Club.

Reports of the past year will be read by the chairman of each of the committees as well as the president, treasurer and the secretary. Judging from the monthly reports that were read at the monthly meetings last year, it showed that the Club was being run successfully.

The members of the Club are completing on giving several plays and minstrel shows during the coming winter and other social functions to bring the financial standpoint of the Club to the best possible rating of any year since it was organized.

Everybody is welcomed to attend the meetings of the Club and he or she may become a member if they wish to do so.

NEW IRON HILL ASSOCIATION BEGINS

Colored Patrons Of New School Organized Last Night

The new colored school building at Iron Hill was occupied for the first time last evening when patrons of the school district assembled to organize a community association. Alfred T. Guy, chairman of the New Castle County colored associations, presided at the meeting. Mrs. John B. Cleaver, State President of Parent-Teacher Associations, explained the things which the State Association expects of local associations, after which organization was effected with the following officers: President, William Holmes; Vice-President, Frank Williams; Secretary, Anna M. Rivers; Treasurer, John Lunn.

Twenty-three charter members enrolled in the new association which adopted the name, "Community Club of Iron Hill." The President appointed four standing committees: Membership, Mrs. Noah Congo, chairman; Program, Miss Anna Rivers, chairman; Publicity and Attendance.

The new school at Iron Hill is beautifully located on a site adjoining the old school. The school follows in general type the colored schools that have been erected by the Delaware School Auxiliary Association throughout the State. There is a bank of windows along the western wall of the building with cloak rooms and indoor toilets on either side of the main doorway for the boys and girls. Side doors afford additional and separate exits for the boys and girls. There is also a fuel room and a teacher's closet. The interior is beautifully finished in soft shades of tan. Miss Anna Rivers is entering upon her third year as teacher.

BUILDING NEW HOME

Mr. and Mrs. Strickland Building On Park Place

Another new home is going up in the popular Park Place district. Ground was broken last week for an attractive dwelling for Mr. and Mrs. F. E. Strickland, of Providence, Md.

The work is going along rapidly and will be finished, it is understood, before cold weather sets in.

Glasgow

An accident occurred on the Glasgow bridge Sunday afternoon, when an Overland car descended down over the bank on the right side as approaching the bridge from Cooch. The driver of the car, upon seeing another machine facing him, coming on the bridge, turned to the side to wait and unaware of the sudden drop of the side of the road, slid down over the bank, tearing off the tire and bending the radius rod. The machine was taken to the Mahan Garage and repaired. The occupants were at a distance of one hundred miles from home, where they were returning. Glasgow has been the scene of a great many accidents this summer.

Miss Helen Thompson, who has been with her sister, Mrs. T. McElwee, spent the week-end at her home in North East.

Miss Ida Ricards, of Wrangle Hill, and Miss Ruth Morrison, of near St. Georges, spent the week-end with Mrs. H. L. Dayett, Jr.

Mrs. Flora Brooks spent Sunday with her parents, Mr. and Mrs. H. L. Dayett, Sr., Sunday evening.

Mrs. Marie Deibert and daughter, of Elkton, spent the week-end with Mrs. J. L. Ford, of Cooch.

Mrs. Mary Frazer entertained relatives of Elkton Sunday.

Rev. J. MacMurray was entertained at supper Tuesday evening at the home of Mr. and Mrs. Charles Leasure.

Miss Miriam Alrich is suffering from an attack of the Devil's Grippe.

Mrs. Flora Brooks spent Friday visiting her sister, Mrs. Gaylord Golt, at St. Georges.

Little Carlisle Hill is spending some time with his grandparents, Mr. and

Strickersville

Mr. N. B. Slack, of West Chester, has been visiting Mr. B. I. Garrett the past week.

Mrs. J. C. Vansant entertained the Willing Workers Thursday.

Mr. George V. Bland has entered Goldey College.

Mrs. B. F. Singles and Mrs. Anna L. Whann spent Sunday with Mrs. Ethel Singles, of Newark.

Mr. and Mrs. J. C. Vansant had as their guests Sunday Mr. and Mrs. Clarence Speigler and son Henry, Mr. and Mrs. O. W. Speigler and son, Charles, Mr. and Mrs. George Speigler, Elizabeth and Janet, Mr. Elmer Speigler and Miss Parke, of Wilmington; Mr. and Mrs. David Howitt and son, Clarke, Miss Lillian Ross and Mrs. Lizzie Montgomery, Mr. and Mrs. Garvin and daughter, Caroline, of Gloucester, N. J.

The Flint Hill Literary met with Mrs. Clarence Richards Saturday night. It being the time for the annual election of officers, Mrs. Harry Swayne was elected president; Mrs. R. Anson Garrett, secretary, and Mr. R. A. Garrett, treasurer.

Miss Belle Dunlap, of Philadelphia, spent the week-end with Mrs. H. I. Garrett.

WEEKLY WEATHER OUTLOOK

Generally fair, with moderate temperature until Wednesday or Thursday, when cloudiness and showers will set in.

Mrs. William Hobson, of near Glasgow.

Mr. Thompson, of North East, is visiting his daughter, Mrs. Lamonte McElwee.

LIFE ACCIDENT HEALTH

It is odd to relate, but every man after a serious accident or term of sickness is a firm believer in Accident and Health Insurance. It is also strange to say, but most serious accidents happen when the man is not covered by insurance, and after the accident it is too late to get this form of coverage.

Why not let me show you how you can get this coverage—thus insuring a steady income for life, if necessary, and at a surprisingly low cost to you.

(Accident and Health Insurance a Specialty)

SEPTEMBER 19, 1923

DR. WEBB ON NEWSPAPERS

A newspaper publisher or editor who, to parody a line in Goldsmith's "Deserted Village," might have gone to the First Central Presbyterian Church last night "as a fool to be scoffed at," certainly would have "remained to pray" and be thankful; for Dr. Aquilla Webb, the pastor, expressed himself on the subject of newspapers in a way that is heartening for newspaper men to hear. His previously announced subject, "Place and Work of Newspapers in the Redemption of the City," because of the frequent criticisms aimed at the press, forced one to expect an old fashioned drubbing at the hands of the pulpit orator. It was refreshing to discover, however, that the pastor possesses an exceptional insight into the functions, duties and problems of the daily newspaper.

Taking as his text the first portion of the second verse, fiftieth chapter of Jeremiah, "Declare ye among nations and publish and set up a standard; publish and conceal not" . . . the minister reviewed briefly the history of the earliest daily newspapers in England and America, and recounted the long and successful struggle in this country for a free press. He brought his subject down to the present-day journal, and said, what most editors claim, that the daily newspaper's function is to "mirror" the acts of men whether they be good or bad.

The keynote of his address was that the pulpit and the editorial chair must co-operate for the benefit of the community; that Christian people must so lead their lives that the deeds the newspapers reflect will be "good deeds"; and he maintained that the "pulpit must not undertake to tell the newspaper editor how to run his business, nor must the editor tell the preacher how to administer his affairs." If an editor errs in judgment; if he makes mistakes, he is but human; but if he is spineless; if he is afraid to express his honest convictions; if he is afraid to attack wrong and injustice as he sees it, he is of no more value to his community than a spineless, timorous preacher. Dr. Webb stressed this in a manner that left no doubt as to whether he is afraid to express his convictions.

Perhaps, after all, the ministry needs the co-operation of the press in the same measure that the editorial chair needs the inspiration and teachings that come from the pulpit. We believe that Dr. Webb has met us more than half way; and we, for one, accept his words gratefully and hopefully.—Every Evening.

EDUCATION BOARD PLANS CAMPAIGN

Better Attendance Urged in Every School — Prizes Awarded to Nearby School-Rooms

The State Board of Education has already announced an Attendance Campaign for this year in the hope of arousing more interest throughout Delaware in regular school attendance. Buttons for the children and books for the school rooms will be given as awards, the buttons being especially designed for the children of Delaware. A book may be won by a school room for 90% attendance during any month of the school year, and a list of 60 books is being prepared in order that the teachers may have a wide range of choice.

According to the rules of last year's campaign, a room was required to report 90% attendance for three months before a book could be won. The records of the Service Citizens show that fourteen school rooms in New Castle County claimed three books

Churches

FIRST PRESBYTERIAN CHURCH

H. Everett Hallman, Pastor

Church School at 10:00 a. m. and preaching at 11:00 a. m. Foreign Mission Day will be observed next Sunday.

Sunday School at Milford at 2:30 p. m., and Epworth League at Milford in the evening, leader, Mrs. Carrie Guthrie. The pastor will make a brief address.

The Ladies' Mite Society met at the home of Mrs. Harriet Whiteman last week. There was a large crowd present. After the business meeting a fine literary program was rendered. Refreshments were served and all seemed to spend a delightful evening.

Rev. and Mrs. Gilbert T. Gehman have started to take a Community Survey, that is, a house to house canvass of the parish. The work has been halted owing to the temporary closing of the Ebenezer road. The pastor expects to have a complete record of folks living in the parish and also expects the record to be of great use in re-adjusting the classes in the school.

HEAD OF CHRISTIANA

Rev. John MacMurray, Pastor

The Willing Workers of the Head of Christiana Presbyterian Church will meet Thursday evening, September 27, at the manse, on West Main Street, Newark.

during the term, the largest award possible for them to win; this meant that they had an average attendance of 90% or above during the entire school session.

PRESIDENT COOLIDGE ON THE RED CROSS

"Men have attempted to rely upon the naked force of armies and navies, conquering by might of the sword. But these forces are not the ultimate rulers of mankind. They are necessary for security, as police and criminal courts and bolts and bars are necessary. They are adjuncts of peace. But they are negative forces. They do not create; they resist.

"They are not the ultimate force in the world. They do not make the final determinations among men. Over them all is a higher power."

"Good Roads, Flowers, Parks, Better Schools, Trees, Pure Water, Fresh Air, Sunshine and Work for Everybody."

LOCAL CASES UP IN COURTROOM

Man Who Threatened Chief Lewis' Life Gets Light Fine For Forgery Cases Up Today

Three cases of considerable local interest have been decided by the General Sessions Court now sitting in Wilmington, with Judges Rodney and Richards on the bench.

The trial of Ernest Frazer, aged 22, of Wilmington, who ran amuck in Newark on August 11th last, threatened the life of Chief Frank Lewis and finally gave himself up to Magistrate Thompson, was held this week. After hearing evidence on the charge of carrying concealed deadly weapons, Frazer was fined \$50.00 and paroled from the Work House, where he has been confined since his arrest. It is possible that he may be re-arrested on the charge of breaking and entering a house here on August 11th.

Washington Gets Two Years

Benjamin Washington, a colored resident of New London Avenue, faced trial this week for assault and battery with intent to kill. The incident occurred September 4th, when Washington, said to have been crazed by drink, attacked John Sewell, driver of a steam roller for F. W. Lovett, contractor, on New London Avenue. Sewell put his assailant out of commission by using a monkey wrench with great effect.

Washington pleaded guilty and was sentenced to serve two years in the Work House and pay all costs of the case.

The case of Joseph Sheer, of Philadelphia, held in the Work House since early in the summer, charged with a statutory offense, and who was arrested in Newark with a woman companion, was dismissed by the Grand Jury due to lack of evidence.

The trial of Hollinsworth Green and Eugene Lambert, both of Iron Hill district, charged with forgery, and with passing worthless checks on Newark merchants will, it is understood be settled today in Court. Several Newark people have been summoned to testify in the case.

FINDS ABANDONED CAR

While Mrs. Edward W. Cooch and children were proceeding to the old Cooch dam one day last week, they came across a Ford truck, bearing Delaware license No. 29833, which had been abandoned in a piece of woodland, near the dam.

Mrs. Cooch notified Magistrate Thompson, who in turn summoned Motor Vehicle Inspectors Johnson and Hastings. The officers arrived here Friday and inspected the car.

It was learned yesterday that the

MYSTERIES GALORE

(Continued from Page 1.)
stories with great gulps. And here was their solution to the "Mystery of the Bleeding Hearts":

"No one has been found who seems to know just what the placards mean. The college Sophomores and Freshmen were out until an early hour this morning there being clashes between the two classes despite the notice of the Student Council placing a ban on hazing but the students deny any knowledge of the placards and say they did not see any one putting them up. The signs were not up at midnight, but they were on poles and trees at 5 o'clock, standard time, this morning, which seems to be all that is definitely known about the mystery."

"It was rumored early last night that there was to be a meeting of the Ku Klux Klan on a farm on Elkton Road about a mile below Newark. The meeting, however, was not held, as many residents went to the supposed spot to witness the ceremonies, if possible, and no meeting was held there. It is believed by many to-day, however, that the placards have something to do with the Klan and that there will be a meeting in the vicinity in a short time to organize a local Klan."

The Cat Jumps Out

Hardly had evening set in, with sensitive folks vowing to pull the covers over their heads pronto, somebody from Quality Hill strode down town and let the well-known cat out of the better known bag.

"The Love Nest"—that's all he said. Then the town indulged in a good laugh, called it a "mighty good joke" and then went back to their homes and let the kids out of the attics.

Mrs. Angie B. Perkins' apartment house on West Main Street harbors four newly-married couples, all wedded within the past year, the four husbands being engaged in University teaching work.

It appears that one of their pranking friends hatched the scheme, and carried it through so successfully that the objects of the joke were the last to be thought of in connection with it. In these days of stress and strain, one may expect anything—earthquakes, riots, train wrecks included, but it was a real relief to see a good old-fashioned practical but harmless joke put across. They are so rare nowadays that we can't get used to them, that's all.

machine had been stolen from a resident of Wyoming, Del., last summer. Arrangements for the transfer of the car to its rightful owner are under way.

FRAGMENTS

The Wanderer

MEMORIES

HOW many of us ever pause for a few moments and reflect on how important a part our memories are going to play in our after-life? Are they going to be harsh and bitter, full of vain regrets as to what might have been, or will they be as sweet and calm as the twilight hour on a summer's evening?

In these modern days of commerce and industry with competition so strongly developed in every line of human endeavor, further complicated by the most marvelous inventions the world has ever known, man, it seems, has far too little time for meditation. The glories and mysteries of the great outdoors can have but little charm for the modern man rushing along at fifty miles an hour just to "get somewhere." The golden sunset, the hushed voice of Nature and the purple hue of evening is just another way of saying supper-time to him. Ceaselessly on the go, the modern man is blinded just as effectually to the beauties of the universe as the poor sightless beggar on the street corner. And after he has arrived at his destination, what then? A round of pleasure (?) and back again at fifty miles an hour!

Life today is just like that. We rush hither and thither, filling our days and nights with useless effort in the vain pursuit of "good times"; wasting the precious, golden moments of youth that, once gone, can never be recalled. To what end? For no matter how much we gain in worldly goods or temporal fame,

"The paths of glory lead but to the grave."

How much sweeter and calmer life would be if we would just steal an hour or two here and there, and develop to the fullest extent in our power the beautiful inner life that is the God-given heritage of every human being. Youth is eternal to those whose past is filled with the tranquil memories of a serene and well-balanced life; age, to these elect, is but a blending and mellowing of life's experiences—a worthy prelude to the long journey "from whose bourne no traveller returns."

MEMORY

The sweetest flow'r must wither and decay,
The happiest hours swiftly pass away;
The dreams of youth, Ambition's hot desire—
Must yield, alike, to Time's consuming fire.

O, Dawn of Life, with rosy, golden hue,
Born, zephyr-kissed, amid celestial blue;
As old as Time, yet not like Time—uncouth,
With hoary head and palsied limb—O, Youth!
O, golden Youth! With dauntless courage blest,
Comrade with Fate, on many a dang'rous quest,
Return to us and linger for a space—
Oblivion is stealing on apace.

We call to you O, Youth, but call in vain,
'Tis but in fancy that we meet again;
But Power that made the earth, the sky and sea,
We thank Thee for Thy gift of Memory!

—The Wanderer.

PYTHIANS' DRIVE FOR NEW MEMBERS

(Continued from Page 1.)
interesting talk by C. D. Grant, Grand Inner Guard of Newark.

Past Supreme Representative Joseph Jolls, of Middletown, himself first initiated into the order in the old Center Hall, kept close attention by his talk on the value and help to be derived from secret orders. He dwelt for a part of his talk on the old days in lodge work. He was warmly applauded when he had finished.

Short talks concluding the meeting were given by Edward Beesom and Robert W. Crow, of Newark.

Following the meeting, a social hour was enjoyed. Ice cream and cake were served by the Sisters, and the visitors were all accorded a strong invitation to visit the lodge again.

The plan for gaining new members

has already been put under way, and it is expected that active work will soon begin.

The committee in charge of Monday night's party was, chairman, C. A. Short, G. I. Durnall, and G. D. Grant.

PERSONALS

NEWARK FRIENDS
SAFE IN BERKELEY

Friends of Mrs. Lee Cooch, well known in this community, who is now residing in Berkeley, Calif., will be glad to know of her escape from the Berkeley disaster. The town has been very anxious to hear from her. A friend received the following note yesterday:

"We were not burned out in the awful Berkeley fire. My girls were alone until five p. m. The fire reached the other side of the campus, we living just four blocks beyond. At four o'clock the janitor went to each apartment and told the people to pack what they could and go outside the building as burning cinders were being blown on the roof by a sixty mile gale. The house next door did catch on fire. My girls both kept level heads and selected just about what I should have taken. The gale went down at five-thirty. I could see the blazing spots in North Berkeley from the ferry boat across the bay, but was unable to reach them. It was an anxious ride home and a dreadful experience for Margaret and Phoebe. Over a thousand homes were totally destroyed."

Mrs. Mahala E. Sentman, of Wilmington, Mrs. Anna L. Whann and Mrs. B. F. Singles, of Strickersville, were the guests of Mrs. E. W. Singles on Sunday.

Doctor and Mrs. Charles L. Penny are entertaining Miss Ida E. Hood and Mrs. W. M. Leftwich, of Nashville, Tennessee.

Mrs. J. O. G. Duffy is recovering nicely from an illness suffered at her home near here a week or more ago.

Mr. George C. Pierce and daughter, Edith, of Holly Oak, Delaware, visited Mr. and Mrs. Olly Leverage and son.

Mrs. James C. Pierce, of Philadelphia, is visiting her daughter, Mrs. Olly Leverage, of Newark.

Mr. Charles Davis, of Memphis, formerly of Newark, is visiting his father and mother, Mr. and Mrs. Wesley Davis.

Dr. C. D. Koch and wife, of Harrisburg, Pa., spent the week-end with Professor and Mrs. R. W. Heim, Delaware Avenue.

Miss Marion Smith will leave Monday for a week's stay at a hunting lodge in the Adirondacks, near Keene Valley, N. Y.

Mr. and Mrs. William C. Schwartz and family motored to Atlantic City over the week-end.

Mrs. Mary Schwartz who has been spending the summer with her son, William C. Schwartz, has returned to her home in Westmont, N. J.

Miss Frances B. Hurd has returned home, after spending the summer at Farmington Center, Mass.

Mr. William Chalmers, of Collingdale, Pa., is visiting his sister, Mrs. Catherine Pemberton.

Mr. and Mrs. Clifton Colmery and children, of Elsmere, visited Mrs. W. T. Colmery Sunday.

Mrs. John Foote, of Stanton, visited her sister, Mrs. George Edmanson, Tuesday.

Miss Belle Ragan, of near McClellandville, Pa., visited Mrs. Pusey Pemberton and Mrs. Ray Phillips.

GIVES PARTY

Miss Laura Colmery entertained all the children in her neighborhood Friday evening, at a very delightful little party. Those present were Ann Chalmers, Carolyn Chalmers, Elizabeth Phillips, Virginia Phillips, Katharine Colmery, Eleanor Colmery, Donald Hill, George Phillips.

THE LOST IS FOUND

Det Dog Disappears From Home; Is Found and Returned To Owner

While the loss of a mere dog is not an uncommon thing, it really becomes a tragedy in some cases. Mrs. Margaret D. Cann missed her pet Fox Terrier "Buster" yesterday. It was found by the Kids at Kells later in the day and an effort made to locate the owner. However, at nightfall the little fellow again disappeared. "Buster" was panic-stricken with fear and could not be comforted.

In the meantime, Mrs. Cann tried every means at her power to apprehend her pet, but to no avail.

This morning, however, "Buster," like the well-known bad penny, turned up big as life at Kells—but still terribly frightened. He is now home, and we can well appreciate the whole-hearted thankfulness of his kind mistress.

Mrs. Frank Balling and little son are visiting her sister, Mrs. G. W. Newman, at Philadelphia.

Mrs. Hildeith and daughter, of Philadelphia, spent the week-end with Mr. and Mrs. W. E. Holton.

Mr. and Mrs. Moore, of Dover, moved into the Chas. Holton property on Depot Road. Mr. Moore is on the staff of the Farmers' Trust Co.

Capt. and Mrs. Sparks are entertaining their cousins, Mr. and Mrs. J. B. Etter, of Tampa, Florida.

Mr. and Mrs. J. E. Frazer entertained Mr. and Mrs. Arthur Dawson and daughter, Mrs. Wallace, and Mr. and Mrs. Parris, of Chester, Pa.

Miss Alice Leah, of Philadelphia, is visiting her parents, Mr. and Mrs. Howard Leah, of this town.

Miss Elsie Slack, of Jacksonville, Fla., is spending her vacation with her parents, Mr. and Mrs. Enos Slack, of Newark.

A. E. Marconetti, of New York City, spent Tuesday visiting friends in Newark.

Mrs. Stewart Hopkins, Mrs. John J. Boulden, Mr. and Mrs. James E. Tasker and John T. Morrison, of Newark, enjoyed the beautiful sights to be seen at the Luray Caverns of Virginia on Saturday last.

Mr. and Mrs. Charles Franklin, of Wichita, Kansas, and Mrs. Charles Tatman, of Milford, spent one day last week at the home of Mr. and Mrs. Walter Carlisle.

Mr. and Mrs. Lewis Fisher attended the funeral of their little grandson, Norman Zimmerman, in Philadelphia, Monday.

(Continued on Page 7.)

NEW CENTURY CLUB
BEGINS OCTOBER 5th

First Meeting of Season To Include Several Features; Announce Committees

The New Century Club of Newark will hold its first meeting on Tuesday, October 2nd, at 2.30 o'clock. There will be an address by the president, and several musical numbers. Silhouettes will be shown, which promise to be very jolly features of the program.

During the afternoon an informal reception will be held, and the old members who are to be reinstated are invited to come.

The members are requested to be on time at this meeting.

The following is a list of the officers and chairman of the committees of the Newark New Century Club for

The photograph shows a farmer drilling fertilizer on winter wheat on his farm in Indiana. Experimental evidence gathered from all over the country practically wherever such investigations have been made, seem to indicate that the yield and quality of the wheat crop depend largely upon the supply of available plant food in the soil. Low yield per acre and wheat of inferior quality mean a crop produced at a high cost per bushel. Oftentimes a few dollars expended to provide sufficient plant food of the proper kind means the difference between a loss and a profit on the crop.

THE WILMINGTON DISTRICT COURT HEARS VICTROLAS AND WATCHES EXPERIMENTS IN WAR GASES DURING CASES

Judge Morris Presides Over Unique Proceedings Connected With Big Patent And Corporation Suits Brought By Government—Plenty Of Entertainment For All

THE JUDGE INSISTS IN GETTING ALL THE EVIDENCE

It may seem strange to find phonographs blaring, cash registers ringing or miniature smelters in operation in a dignified courtroom; yet such proceedings are sometimes necessary in the discharge of justice. That is why Federal Judge Hugh M. Morris of Wilmington, Del., sometimes transforms his court into a chemical laboratory, a machine shop or a music room.

This court hears many suits for infringement of patents, for Delaware, by reason of its easy incorporation laws, has become the home of thousands of corporations and is therefore the proper place for infringement quarrels to be settled. The recent suit on the Government against the Chemical Foundation was an illustration in point.

To demonstrate the ease with which dyes and chemicals can be transformed in time of war into ingredients for munitions, Dr. Julius Stieglitz, head of the Chemistry Department of the University of Illinois, spread on a table in Judge Morris's courtroom a dozen test tubes and other materials. Within fifteen minutes he had gone through a series of manipulations by which he effected poison gases from chemicals used in peace times for industrial pursuits. The effectiveness of his demonstration was such that those who tested the tear gas he had manufactured on the spot required no second demonstration.

Later in the same trial an important dispute developed over the possibility of manufacturing within an allotted number of hours a remedy known as cinchophen. To determine the question Judge Morris dispatched Dr. Louis Freedman of New York to the chemical laboratories of Swarthmore University, about twenty miles away, in the company of four other experts designated by the court as observers. Their spectacular experiment extending almost twenty-seven hours without time out for sleep, is an important part of the record of the case. When the heavy-lidded group of experts returned to the courtroom they testified, with bottles of chemicals and other paraphernalia before them, as to the results of the experiment.

Peas Shelled in Court

Such demonstrations are not unusual in the Federal Court at Wilmington. W. G. Mahaffey, the patent attorney, recalls a case in which the courtroom was transformed into a pantry so that the judge might decide as to the merits of two rival inventions for the hulling of green peas. Pecks of the legumes were piled on a table, and the hulling processes lasted until the floor had been littered green. Court attendants were assured of peas for meal next day, being allowed to carry the evidence home.

When two inventors disputed as to whether a certain type of railroad spike had been infringed upon by another, both types were fashioned in court. The judge saw a demonstration in which machinery, forge and anvil were involved, and then men in overalls hammered the rival spikes into railroad ties.

A less spectacular demonstration, for it did not include the actual processes of manufacture, was given in the trial of a suit in which infringement was alleged of a patent covering certain celluloid commodities. Collars, combs, collar buttons, brush handles and other items were displayed for the court's scrutiny, and the scene closely resembled a corner of a department store.

Not many months ago the court was called upon to decide a case involving two types of linotype machines. In this instance it was necessary to melt the lead and demonstrate what went on within the mold. For show purposes the mold was constructed of glass and lighted electrically. Two expert linotype operators performed before Judge Morris.

A further course in this unique scientific education of the judiciary was injected when a patent covering a locomotive stoker was brought up. It was physically impossible to bring a locomotive into court. But the disputants did bring in a section of the stoker disputed, about twelve feet long, and firemen stoked coal with it. The coal was sent into a basket representing the engine. The firemen worked themselves into a heavy perspiration in their race for stoking honors.

Another unusual demonstration showed the operations of two machines for stemming tobacco—that is, stripping tobacco stems so as not to destroy the leaves. Half the spacious courtroom was occupied by the para-

phernalia, which was operated by an electrical motor.

In 1917 the Federal District Court was called upon to decide whether there had been infringement in use by an American corporation of a process for making coke which Germans claimed was their own. Here again an actual demonstration was necessary. The Germans were upheld. About that time a section of a railroad refrigerator car was brought into court in another dispute over patents.

Mr. Mahaffey, who has been Special Master by court appointment in many cases, tells of the trial of the suit of GAL. 2—ART 18 9,11,23 JAK the National Cash Register Company on three patents for improvements. The dispute revolved around a new attachment which recorded the name of the purchaser, whether it was charge account or cash transaction, and other data. The courtroom was clogged with cash registers of various makes, many supplied by the plaintiff and many by the defendant, the Remington Arms Company. Some of the registers were of special make and carried English characters representing pounds, shillings and pence. For a number of hours Judge Morris listened to the clatter of cash registers as sums were rung up.

A Musical Day

More recently came up the trial of the suit of the Victor Talking Machine Company against the Brunswick-Balke-Collender Company. Though this case involved only the designs of doors, the occasion was seized upon for a tuneful demonstration of the musical qualities of the various machines rolled into the courtroom, for the door of a talking machine is considered to have an effect on the musical qualities of the instrument. That was the time when grand opera and jazz had their day in court and when attendants forgot their customary grimaces of expres-

sion. The organ grinder who paused to do business that day in front of the Federal Building found competition too strong and moved on.

Within the past year Judge Morris has been called upon to take evidence in the suit of the Mineral Separation Company, Ltd., of London, against the Miami Copper Company, involving a process patent for recovery of copper from ores. Nine weeks were consumed in the trial before Judge Bradford, predecessor of Judge Morris, and in that period a smelting operation was demonstrated.

In one action, that of a case in which the Mineral Separation, Ltd., was also plaintiff, Mr. Mahaffey as Special Master took testimony against a number of defendants for more than five years. When the plaintiff was upheld, \$9,000,000 went to the Mineral Separation, Ltd., from the companies found to have infringed its patent.

Steam valves have been taken apart, put together and operated. A dozen sewing machines have been pedaled in an effort to settle a question as to whether a patented improvement had been infringed upon. The walls have been covered with diagrams across which pointers have scurried.

This situation is Delaware's inescapable heritage from its easy laws for the incorporation of concerns from other States. The State frankly acknowledges that its purpose in effecting these laws was acquisition of much-needed revenue. Its success in that direction has been such that a recently published pamphlet by the Clearing House of the Delaware State Program said: "Since 1917 Delaware has been a million-dollar State, making and spending at least a million and a half dollars annually."

The larger part of the increase in revenue in late years has come through the office of the Secretary of State, corporation taxes amounting to more than \$1,000,000 annually.

ENTERTAINING IN OZARKS

"My brother-in-law from over yond Healin' Ba'n spent last Sunday at our house," related Miss John of Rumpus Ridge.
"What did you do on that day?" asked an acquaintance.
"Nuth'n in particular. We drank some, filled a 1000 and by and—yaw-w-yaw!" Miss Star.

**1924 Model
Studebaker Light-Six
Touring Car
\$995**

**The Price of This Car Is
Misleading**

Some buyers take it for granted that cars which sell at about the same prices are equal in value. This is distinctly not the case. To buy on this basis would be an injustice to yourself.

You can pay several hundred dollars more than the Light-Six price and get a car that represents no greater, if as great, intrinsic value as the Studebaker Light-Six.

Or you can pay about the same price as the Light-Six, or less, and get a car that is high-priced when compared with the Light-Six because it does not represent as much for the money invested.

And in the Light-Six you enjoy all the advantages of smooth, flexible, dependable, six-cylinder performance.

You get a beautiful, substantial, well-built, roomy and comfortable car.

The practical absence of vibration in the Light-Six is a notable achievement. It is due largely to the fact that the Light-Six crankshaft and connecting rods are machined on all surfaces. This is an exclusive Studebaker practice on cars within hundreds of dollars of the Light-Six price.

Stop in and see the 1924 Model Light-Six.

Test it for yourself—drive it and make your comparisons. Driving is believing.

After seventy-one years of service the name Studebaker enjoys confidence and respect more than ever.

PROVIDENCE THE

Providence clinched honors in the Cecil Biddle for a one-sided North East Saturday grounds, by the score 10-0. King's pitching was the home team, he allowed five hits in the seventh, and was in danger of a fast double play. Dean pulled him through scored upon. Evans' error gave the lone tally in the first, and Spence and Harris three of the home team score follows:

DELAWARE FOOTBALLERS OPEN SEASON SATURDAY WITH ST. JOSEPH'S

CONTINENTAL FIBRE CO. TO HAVE STRONG FOOTBALL TEAM THIS SEASON

Squad Works Out Daily at Noon Time and After Hours—Several Experienced Men and Plenty of Weight Make Prospects Look Bright

BENJAMIN PROUD COACHING THE ELEVEN

The first signs of football activity in Newark this fall has been the revival of a Continental Fibre Co. team. The football fans all over town are predicting great things from this husky squad and are eager to see the local hopes in action.

Coach Benjamin Proud, formerly athletic director of a school in Tarrytown, N. Y., and now connected with the Fibre Company, has taken charge of the team and is gradually whipping it into shape. Practices are held daily at the noon hour in the athletic field adjoining the plant.

Some of the well known local football experts who are out for the team are Paul Steel, a member of the Delaware Varsity two years ago; Hopkins, a fullback on Newark High's championship team; Evans, another High school star a few years ago; Jim Keeley, a hefty backfield man and a line banger of rare ability, a member of the Battery E team last fall; and Cor-

nog, a tackle on Newark High's big team two years ago.

These are but a few of the men out for positions on the team. Each piece in the line and backfield has developed a keen fight among the candidates, and Newarkers who love this fall sport should see some real games when the schedule is perfected.

It is understood that games will be arranged with several Wilmington teams, including the Delaware Hard Fibre aggregation, Defiance, 11th Ward and others. Fans here are hoping that Elktown may place a team on the gridiron this season. If they do, Newark has a good chance to avenge the beatings administered local teams in the past.

The Continental Company has a splendid field for football across the street from the plant, and with so much local talent in the lineup, it is almost certain that large crowds will witness the games.

THE SPORTING TICKER

A Column Devoted to Clean Athletics and Sportsmanship, written by one who loves the Game.

IS THIS SPORT?

Of all the foolhardy, brainless and disgraceful affairs ever to be dignified by the word Sport, the Gordon-Bennett balloon race takes the palm.

Americans are slowly awaking to the fact that a balloon race, which has so far cost the lives of five splendid men, and maimed one other so bad that if death does not mercifully carry him off, he will be a wretched cripple for the balance of his days, is not our idea of Sportsmanship. Year after year the United States has sent Army and Navy fliers to Europe and entered them in the race, for what purpose?

To bring back a piece of silver—and just as often a dead comrade's body.

We wish that every member of the Army and Navy Aircraft service could be at the pier in New York when these flag-draped caskets, containing the bodies of Olmstead and Choptaw, are carried ashore next week. The sight of Death often sways one's decision, but it is an awful price to pay for a change of policy.

The account of the start of the race, relayed by Associated Press, stated that the big bags rose in a 50-mile gale, blowing to the open sea, accompanied by a terrific thunderstorm.

When a postponement was suggested, the committee in Brussels (always safe on the ground) declared the race must start, according to the rules governing competition for the Cup.

Later, they disqualified the American balloonists for ramming another bag at the start, just as though Olmstead and Choptaw were not doing all in their power to get up safely. The soft-brained officials, however, did have the decency to waive the disqualification when they heard the air-men were dead.

We cannot hope to influence many minds in regards to this disaster, nor are we inviting or expecting support. But somehow, it seems to us, that in this day of Progress and Power, the United States has plenty of need for trained Army and Navy men, men with fearless hearts and useful brains, right here at home, rather than send them into death-inviting balloon races, to stake their lives against a piece of silver. We fervently hope, along with hundreds of thousands of Americans today, that somebody throw that damned cup into the ocean before next year rolls around.

And they call it Sport!

A BASKETBALL LEAGUE

Far be it from this column to advocate the impossible, or to bark up a tree with no possum in it, but we do want to say a word or two concerning the talk of a basketball league for Newark this winter.

At least three young huskies have spoken to us about the proposition in the last week. They are eager to get a circuit started, and have asked us to help. These boys are our very good friends, but aside from that we are, in our small way, going to do all in our power to push the idea of an amateur league, until it has been proven both impossible and foolish. And it will take some proving to convince us.

We can name six organizations off-hand who have in their rosters, sufficient athletes to make up a creditable team. Do you want them? All right, here they are:

The Continental Fibre Co.
Battery E, N. G. D.
Junior Order United American Mechanics.
The National Vulcanized Fibre Co.
Rehabilitation School.
Improved Order of Red Men.

This, of course, is merely a tentative list; some organizations capable of recruiting a team may have been left out, and if such is the case, they would be more than welcome in the fold.

A strictly amateur, home talent, league would afford not only a series of red-hot basketball games, with more than ordinary interest, but it would also give the fellows good wholesome recreation and sport. Its a mighty good idea, and should be carried on.

The cost of uniforms and equipment is not a heavy item and could be borne by the various clubs. The only sum to be raised for a general fund would be that for the purchase of balls, rent of a suitable floor, etc.

This automatically brings us to the question of a floor. The Armory is the ideal place for the games. Just what rates the soldiers would give the league for rental, say two nights a week, is, of course, impossible to state just now.

The Ticker suggests that representatives from the above-named organizations, together with all those interested in the basketball league meet in conference in the near future, and there decide whether the project is worthy of pushing, and if so, to lay some sort of definite plans.

We invite letters on this subject for publication in the Post. We would especially like to hear from these six representative groups. Any criticism, encouragement, suggestion or offer will be equally well received, and all used for the common purpose—to get the sentiment of the community.

The Post is squarely behind the league proposal, and is ready to do what it can for the success of the proposal.

PERSONALS

(Continued from Page Five.)

Mr. and Mrs. Harry H. Cleaves left Thursday last for Atlantic City where they spent several days.

Mr. and Mrs. L. K. Bowen attended the funeral of Samuel J. Newman at Wilmington last Sunday.

Mr. and Mrs. Lee Corkran and Mr. and Mrs. Claude Dilworth, of Wilmington, were guests at a reception Sunday given by Mr. and Mrs. Walter Carlisle for Mr. and Mrs. Charles H. Cannon, who were recently married here.

Wm. H. Rhodes, of Ridgely, Maryland, spent Monday last with his son, George W. Rhodes of this place.

DELAWARE FACES HARD

STRUGGLE WITH ST. JOSEPH'S AGGREGATION NEXT SATURDAY

Blue and Gold Team Appears Light And Not In The Best Of Shape As First Game Approaches. Backfield Should Shine.

LACK OF HEAVY SEASONED MATERIAL A HANDICAP

With but three days left in which to whip his team into condition to face Heine Miller's St. Joseph's College eleven, Coach Bill McAvoy, mentor of the Delaware team, is driving his charges hard each day this week in preparation for the first real test of the season.

St. Joseph's has been training in the country for the past three weeks, and has been scrimmaging for at least two weeks; Delaware on the other hand, got a late training start, and the first scrimmage was held early this week.

Just what the outcome of the game Saturday will be no one knows. St. Joseph's has offered little trouble in the past, but under the skillful guidance of Coach Heine Miller, all-American end, the squad may throw a bombshell into Delaware's hopes for a successful season.

Heiner Miller has been training the St. Joseph's squad since the first of the month. Delaware started practice late last month. Coach Bill McAvoy, realizing that he has a tough game ahead for the opener, plans to work the Delaware squad hard this week to get them in the best shape possible.

Lack of hard driving practice in which the candidates become hardened up for a gruelling season will send Delaware's team into the St. Joseph's game without a real line on their ability.

The short stay at Augustine Beach helped Coach McAvoy quite a lot in shaping up his plans, but failed to get the men into condition. The squad spent four days at the training camp, part of the time being spent on fundamentals, with no hardening scrimmages.

The game Saturday will start promptly at 3 o'clock, standard time. Coach McAvoy feels keenly the loss of McKelvie, last year's star tackle, and "Ike" Elliott, hefty backfield man, both of whom will be out for this season due to old injuries. The coach has been put to a severe test in whipping up a formidable forward line, and a whole lot depends upon this first game, according to those on the inside.

Akin, Kramer and Magaw form a veteran left side, which should prove able to take care of any situation. All three are experienced in the Delaware system and great things are expected of them.

On the other side of Captain Donaldson, three new men are being tried out in practice, Lohman, a Freshman; Torbert who saw service on last year's scrub team, and Barkley, another second string man. While much lighter than the usual trend of Delaware line-men, these boys may shape up well under fire.

The backfield looks pretty good at this stage. Hubert, a potential star for Delaware, has about cinched one of the halfback posts by his all round peppery work. Reliable Jack Williams, Garvine, Perkiomen star of two seasons, and Weggenman, last year's Varsity back, complete the quartet. Isaacs, from Georgetown High, will likely break into the lineup Saturday, also.

Several former Delaware gridiron celebrities have been on Frazed Field during the past week looking over the team and helping Coach McAvoy. Among those noticed were Dick Holton, former star tackle and captain; F. Bayard Carter, another clever line-man of a few years back, and lately returned from England; Bobby Foulk, varsity end for two years, and J. A. Crothers, line-man on several famous Delaware teams.

PROBABLE DELAWARE

LINEUP IN FIRST GAME

Left end—Magaw
Left tackle—Kramer
Left guard—Akin
Center—Donaldson (capt.)
Right guard—Lohman
Right tackle—Torbert
Right end—Barkley
Quarterback—Garvine
Halfback—Hubert
Halfback—Isaacs or Weggenman
Fullback—Williams

PROVIDENCE WINS

THE PENNANT

Providence clinched the second half honors in the Cecil County League by pounding Lockard, Boyer and Middle for a one-sided victory over North East Saturday, on the latter's grounds, by the score of 10-1.

King's pitching was too much for the home team, he allowing them but one hit in the seven innings he worked, and was in danger but once when a fast double play by Wilson and Dean pulled him through without being scored upon. Evan's wildness and Deane's error gave North East their one tally in the final frame. Scarborough, Spence and King led the visitors attack, while Reynolds collected three of the home teams six hits. The score follows:

Providence	R.	H.	O.	A.	E.
Peterson, lf	1	2	0	0	0
Spence, 1b	2	3	12	0	1
Wilson, 2b	1	1	2	4	0

STUDEBAKER SURPASSES 1922 SALES RECORD

Total of 110,540 cars Produced up to Sept. 1 As Against 109,222 Cars For Full Year 1922

With four months remaining in 1923, the Studebaker Corporation has already surpassed its entire production for 1922, according to a report just received from the Studebaker factory by Chas. W. Strahorn, local Studebaker dealer. Production for the first eight months of 1923 was 110,540 cars as compared with 109,222 for the full calendar year of 1922.

August production was 15,700 cars and broke all previous records. Production for the first eight months of 1923 was more than 32,000 in excess of the first eight months of last year.

Sales are expected to exceed 150,000 cars this year as against 110,269 last year. And they are well ahead of production which amounts to about 30,000 cars for the first two months of the present quarter as compared with 30,199 for the full third quarter last year.

All plants are running at capacity to meet the continuous, large demand for Studebaker cars from all sections of the country, and indications point to a heavy fall business. The sales of the last four months of this year will therefore represent this year's increase over the 1922 record.

Buildings are now under construction at South Bend, Indiana, which will increase Studebaker manufacturing facilities still further in order to meet more adequately the insistent demand for Studebaker cars. Work on these additions, requiring an investment of approximately \$6,000,000, is progressing rapidly.

NEWS OF WOLF HALL

Goings and Comings Among the Extension Workers

Professor T. A. Baker and County Agent Bausman took a class of University agricultural students and three County Club boys on a trip to two model farms in Chester and Montgomery Counties, Pa., Monday of this week.

They inspected the herds at the Pennhurst Farms and the Brookmead Farms, both considered among the best in the East.

The trip was of great interest and value to the boys and especially to the club workers as they were including dairy judging in their study.

A. D. Cobb and M. O. Pence leave tomorrow for Sussex County, where they will conduct the first Farm Management tour to be held in that section. On Friday a mass meeting will be held in Seaford, under the auspices of the Kiwanis Club of that town, and at which time, consideration of a milk station will be taken up.

Dean C. A. McCue will leave Newark Friday to address the meeting.

RECOVERING

Mr. Ring, an employee of the Continental Fibre Co., who was struck by a piece of board flying from a saw two weeks ago, is recovering.

RED MEN ELECT NEW OFFICERS AT SMOKER

James Edward Truitt, New Castle. Alfred Durrell Vincent, Christiana. Alvin Franklin Wakeland, Newark; Joseph Alden Warrington, Laurel; Richard T. Warner, Delaware City; Marvel Ottinger Watson, Dover; DeLloyd Wheeler, Vineland, N. J.; Kenneth White, Lewes; Harvey Weston Wilkinson, Delaware City; Conrad Wissel, Jr., East Orange, N. J.; Lewis Matthew Woodward, Wilmington; John Penrose Wilson, Jr., Newark; William Alton Wootten, Laurel; Erwin A. Yaeger, Wilmington; Donald Moore Yost, Wilmington.

(Continued on Page 11.)

Minnehaha Tribe, Improved Order of Red Men held a big smoker in their lodge rooms last night at which time officers were elected for the coming year. The results of the election are as follows: Prophet, Sherwood Orr; Sachem, Louis Krapf; Senior Sagamore, F. M. Smith; Junior Sagamore, Fred Davis; Trustee, 18 Moons, William S. Armstrong. It was announced at the meeting last night that the installation ceremonies would be held in the hall on the evening of October 2nd. All the members were urged to be present at that session.

In

"A VOICE FROM THE MINARET"

WITH EUGENE O'BRIEN and EDWIN STEVENS

Here tempestuous love and desert dangers play. Here a thousand figures sweep across the screen in beauty. Vast scenes, splendors, they come, they go, but never to forget is the incomparable art with which Norma Talmadge portrays the woman who dares love as though from the heart of Salome, Sheba, Cleopatra. It's a screen sensation of America.

NEWARK, DELAWARE, SEPTEMBER 26, 1923.

NUMBER 34

FLAG TO FLOAT OVER EVERY DEL. SCHOOL

State Board Also To Inaugurate Extensive Health Program

An extensive health program for the pupils of every public school in the State is one of the details of the beginning of the school term this fall that, because it has not been in general practice throughout the State, may be styled new. Some school rooms had their health exercises last year, but this year the State Board of Education is incorporating a system of exercise for health purposes in every schoolroom in the State.

Under the suggestion for inaugurating these health exercises, the teacher is called upon to participate. Some call them exercises, but the children call them play. In any event the teacher directs the exercises or play, and through her influence, rallies around those children who, for some reason, have never taken part in general play. Great things are promised as a result of this play or health exercises, and the schools at Laurel, where boys and girls underweight and overweight, have been made more nearly normal, is pointed to as one of the living examples in Delaware of how the plan has worked out successfully.

Flag Over Every School

An American flag over every school room and school house in Delaware where sessions are held this fall, and at least five verses from the Bible to be read every morning at the opening of each room in public schools in Delaware, is the result of an act passed (Continued on Page 10.)

NEWARK SEES THE BIGGEST AIRSHIP

ZR-1 Passes Over Town Twice Last Saturday—Flies Low Through Clouds

Residents of Newark received a real thrill Saturday morning last when the giant dirigible Z R-1, the largest lighter than air machine in the world passed over the town enroute to Washington, D. C., where it took part in a great aerial circus later in the day over Bolling Field.

Flying extremely low with motors idling at half speed, the big ship presented a majestic appearance as she swept along under lowering clouds.

None of the crew of thirty men could be seen from the ground. They were stationed in the big compartments hung from the body of the ship.

Three of the five engines were running when she passed over the Depot Road section. The course the Z R-1 was taking appeared to be along the tracks of the Pennsylvania Railroad.

On the return trip the dirigible passed almost directly over Harter Hall, and gave the aSturday afternoon shopping crowd a rare treat.

It was reported that the big ship performed without a hitch on its long journey. It arrived at its hangar in Lakehurst, N. J., some time before darkness set in. The test was pronounced very satisfactory by government officials.

"NATIONAL FORGET-ME-NOT DAY" FOR VETERANS OF WORLD WAR PLANNED

Program Planned For Cities And Towns All Over Country For November 10th Next

America's wounded and disabled veterans of the World War will be benefited a hundredfold by the coming "National Forget-Me-Not Day," of the Disabled American Veterans of the World War, to be observed throughout the United States, Saturday, November 10th; according to a statement issued here this week by National Commander, James A. McFarland, of Dalton, Ga., national head of the disabled veterans organization.

Commander McFarland is here to start preparations for "Forget-Me-Not Day," which is the annual "Day" of the Disabled American Veterans, assisted by committees of citizens and women in various cities and towns, and sponsored by national, state and civic officials. The National Information Bureau, recognized authority on the merits or demerits of movements of this type, has heartily endorsed "Forget-Me-Not Day," and pointed out that the Disabled American Veterans' organization is solely

LUTHERAN CHURCH'S REMARKABLE GROWTH

The Evangelical Lutheran Church is the largest Protestant church in the world, numbering almost as many members as all the others combined, almost 90 millions. In this country it ranks third among Protestant bodies, its membership being 2,516,000 communicants—communicants being confirmed members above the ages of 13 or 14 years. The constituency of the Lutheran Church, nominal members, children, etc., was recently given by Dr. E. O. Watson, statistician of the Federal Council of Churches of Christ in America, as being 7,043,854 members; 11,700 pastors minister to congregations.

The American Lutheran Church is conducting nearly 200 schools of higher education—seminaries, colleges, academies—with 1,800 teachers and 15,000 students. During the last 60 years the Lutheran Church in this country has doubled its membership every 14 years.

VIOLATED MANN ACT

Baltimore Man Finds Wife Here After Long Search

After a search extending back over four or five months, James Miller, of South Potomac Street, Baltimore, landed in Newark Monday and discovered that his wife, the mother of two children was living with another man in the barracks at the United Canneries plant here.

Miller immediately swore out a warrant before Magistrate Thompson for the arrest of James Messick, charged with adultery and violation of the Mann Act.

Messick pleaded guilty and with the woman, was held under \$500 bail for Court. They were taken to the Work House in default of bail Monday evening.

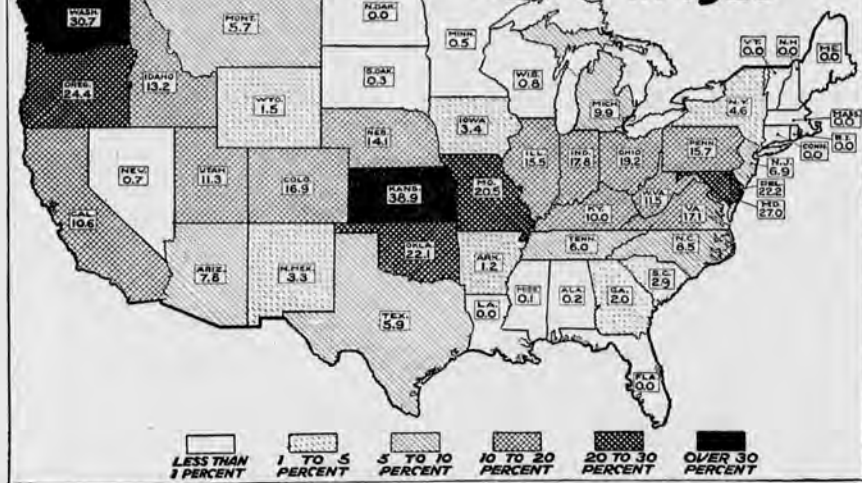

Miller left the same evening for Baltimore, where he will immediately institute divorce proceedings.

interested in the relief, welfare, legislative, educational and organization plans of the nation's wounded and disabled world war veterans.

In addition to those cities and towns where the association has chapters, citizens' committees will be organized in practically every community in the United States; so that "Forget-Me-Not Day" will be a truly national "Day." The movement in previous years has been a splendid success, and permitted extensive activities in the interest of the wounded and disabled American veterans; and the coming campaign is expected to outdo the excellent results of previous years. Additional measures and more widespread projects for the betterment and advancement of the war's disabled, will be permitted, if the approaching "Day" exceeds the results of previous years' campaigns.

A National Stand-By Committee, comprising public-spirited citizens throughout the land, will be organized

PERCENTAGE OF CROP LAND IN WINTER WHEAT IN 1923

Economic Wheat Production

by G. L. SCHUSTER, University of Delaware

Recognizing the fact that wheat ranks as one of the leading crops in Delaware and is worth about three and one-half million dollars to the Delaware farmers, the Experiment Station workers at Newark have given considerable attention to its production and improvement. The correct use of fertilizers, selection of varieties, preparation of seed bed and treatment for diseases are of paramount importance. This season the Department of Agronomy under the direction of Professor G. L. Schuster, went to one of the local mills and secured four different samples of wheat that had been brought in by local farmers. Three of these samples of wheat were in such condition that they were only worth from 40 to 65 cents a bushel if sale could be made at all. The other sample was worth 90c per bushel. The first three samples mentioned could have been improved in quality no doubt by the proper use of fertilizers and the proper handling of the grain after harvesting.

Twelve years' work at the Station shows that the use of fertilizers increases the quality of the grain, favors stooling, lessens injury from winter killing and increases disease resistance in the wheat. During some of the poorest years of the test the unfertilized wheat weighed only 44 lbs. per measured bushel, while the fertilized wheat weighed 57 lbs. per bushel. This is sufficient difference to make the fertilized wheat grade No. 3 and that of the unfertilized wheat the lowest grade known; sample grade. During the best sample grade. During the best years the unfertilized wheat weighed 57 lbs. and the fertilized wheat weighed 62 lbs. per measured bushel. This would make the unfertilized wheat Grade No. 3 and the fertilized wheat Grade No. 1. Thus can be seen the influence of fertilizers upon the quality and grade of wheat.

The kind of fertilizer to use depends on the local condition and the practices in vogue. Where a farmer keeps plenty of livestock, grows legumes regularly and has manure to add, probably 300 to 400 lbs. of 16% acid phosphate will be sufficient. Where there are plenty of legumes and an occasional green manure crop plowed under 300 lbs. of a 2-12-4 fertilizer may be advisable or a 0-10-4 may be sufficient. If there are no legumes grown or manure to add it may be necessary to use more of the 2-12-4 or even a 3-10-6.

Twelve years' results compiled at the Experiment Station show that where 450 lbs. of fertilizer similar to the 2-12-4 is used there is an increase of 17.8 bushel per acre over unfertilized land. Figuring the fertilizer at \$32.00 a ton and the wheat at 90c a bushel there is a gain of \$9.82 per acre. Fertilizers also stabilize the yields. Where there were no fertilizers used in the experiments there was a variation of 250% in the yields during the 12-year period while on the fertilized plots there was a difference of only 138% in the same period.

Pure seed of a known variety is also important. Ten years work at the Station shows that of the bearded varieties Stokers Miracle is the leader and of the smooth varieties Leaps Profite. The seed should be re-cleaned. Seeding chaff, shriveled and broken kernels will not make a wheat crop. About one peck in ten bushels will be the rate of 6 pecks. On a 25-bu. crop there will be a loss of about 3 bu. per acre in yield or \$2.70. It costs about 3c per bu. to re-clean the seed or 4 1/2c per acre seeded. This makes a net gain of \$2.65 per acre.

Disease is another item that reduces wheat yields. The most common diseases are loose smut and stinking smut or bunt. The first named appears at the time the wheat is in over. The infected heads open early, turn black and blow away infecting other wheat heads. The bunt grains are dark brown to black and when mashed contain no germ, but has a powdery mass. Either of these diseases may be treated. Directions for treatment may be secured by writing the Department of Agronomy, Newark, Delaware, or the County Agricultural Agents.

NEW MAGAZINE IS NEARING COMPLETION

"Partners" Issued By Holstein-Harvey Corp. Promises Great Things

The first issue of "Partners," a high class monthly magazine of particular interest to farmers and business men over the entire Peninsula will be published about the middle of October, according to J. G. Craig, who is in charge of the work.

Mr. Craig stated that the business of compiling the material, advertisements, etc., has about been finished, and that the opening number will be of great interest to everyone.

PURE BRED CATTLE IN BIG DAIRY SHOW

One thousand one hundred and fifty of the finest purebred dairy cattle of the five leading breeds, Holstein, Ayrshire, Guernsey, Jersey and Brown Swiss, have been entered in the National Dairy Show which will be held on the fair grounds at Syracuse, N. Y., October 5 to 13, County Agent R. O. Bausman has been informed by the management.

A significant feature of the entries is that many of them are for one or two cattle, showing that breeders are sending only their best to the exposition. In one group of 95 entries, Mr. Bausman was informed, only 12 breeders entered more than 11 cattle. It is evidence, he said, that the champions of champions are being sent to the show to fight it out for the Championship of America.

ON LONG MOTOR TRIP

Newark People Spending A Few Days in Mountains

Mrs. Denver B. Roberts and son, Denver, Jr., accompanied by Ann McCarnes, Regina DuRoss, M. Forde Allaband and C. Paul George, left town Saturday morning for Harrisburg, Pa., where Mr. Roberts, with a party of young folks, will join them. From there they will go to the Green Mountains for a two weeks' tramping and hunting trip.

LOCAL TRAVELLERS VISIT THE LURAY CAVERNS IN VIRGINIA

Join Excursion Of Several Hundred People In Philadelphia Friday Night Last. Spend Saturday Viewing Caverns

The following was received for publication yesterday. The sender requests that his name be withheld from the article.

We started from Wilmington on the 8.01 train Friday evening. Thence were transferred at West Philadelphia station to another train, which took us to Broad Street station. On arriving we found quite a large crowd ahead of us. However, when another section was added there was room for everybody without a bit of crowding. We left Broad Street station shortly after ten o'clock.

The trip to the cavern was very pleasant. During the hours of darkness some card playing was carried on. The most popular games were Five Hundred and Solitaire.

However, when daylight came we became interested in the country which we were passing through. The scenery varied from the mountains and hills to the more open sections dotted, here and there, with houses and other small buildings. The houses are mostly very small and not over two stories high. The open country, although very stony, is made to grow some corn. Also a few fruit trees were scattered about. These were mostly apple and peach trees. Then came the more thickly settled section about Luray.

When we reached Luray, about 6.30,

WELSH TRACT P-T ASSOCIATION MEETS

First Gathering of Term Elects Officers; Good Program Given

The Welsh Tract Parent-Teacher Association held the first meeting for the term at the school on last Thursday evening.

The following officers were elected: President, C. W. Johnson; vice-president, Mrs. W. M. Coverdale; treasurer, Rebecca Hutchison; secretary, Emilie P. Carpenter.

The association voted to work this year to improve the health conditions of the school. It was decided to secure a hot lunch outfit, also to supply a dodge ball for the playground.

The pupils of the school gave an interesting entertainment in which Good Health and Attendance were emphasized. The following program was given:

Health song with motions, "Smile Awhile," chorus of girls; Recitation, "September," Charlotte Johnson; "Welsh Tract School Song" followed by "Attendance Yell," chorus of boys; Health Playlet, "Slim Jim Goes to the Picnic"—Johnny Goodhealth, William Coverdale; Slim Jim, Wesley Johnson; The Pie Man, Elmer Smith; Simple Simon, Miles Coverdale; Welland Strong, David Whitten; Betty Beet, Charlotte Johnson; Cupla Carrots, Paul Milliken; Lotta Lettuce, Helen McCarns; Ann Onion, Bessie Coleman; Plenty Potato, La Costa Hickey; Caula Flower, Jane Reed; Merry Milk, Gladys Whitten; Cranky Coffee, Thomas Milliken; Terrible Tea, Harvey Davis.

A Halloween Festival will be held at the school on Thursday evening, October 25th.

CHRISTIANA CHURCH OPENED SUNDAY

J. W. Colona, District Supt., Preached Morning Sermon; Large Turnout

The Christiana Methodist Episcopal Church opened for another active season last Sunday. The opening services were attended by a large number of members and friends of the institution.

Two regular services, at 10.30 a. m. and 7.30 p. m., were held in the church. At the morning service, the sermon was delivered by the Rev. J. W. Colona, M. E. District Superintendent and the evening sermon was given by the Rev. Thomas R. Van Dyke.

William P. White, the popular song leader of Wilmington, was on hand to lead in the singing at both services. In addition, several splendid voices augmented the regular choir, and some fine solos were heard.

busses were waiting to carry us to the caverns. We arrived at 6.45. We then went through the caverns.

This is a walk of about one and three-quarters miles from the entrance out through the caves and back again. It is impossible to describe the beautiful formations to be seen there and do them justice. However, we can say that they are a queer work of nature, forming a series of caverns by an underground river a long time ago. In the caverns there are some excellent representation of the "camel," the "elephant" and also some fish. Aside from these other sights are the "ball room," the "cathedral," the "giant and his chair," the "silver lake," and the "pipe organ." These are all formed out of stone. It is one of the most beautiful caverns in the world.

On leaving the caverns we were taken to the station in the busses in which we travelled out. Although it persisted in drizzling rain we were not stopped from seeing the town of Luray and purchasing a few souvenirs.

Leaving Luray at 1.40, Saturday afternoon, we started for Philadelphia. Due to some engine trouble we did not arrive until 11.15 p. m. We took the 11.25 train for Wilmington and from Wilmington to Newark, we returned by taxi.

THE REAL VALUE OF EDUCATION

An Address Given By Charles Alexander Richmond, Chancellor Of Union College, N. Y., At Convocation Exercises Of University Of Delaware Friday Last

The following is a synopsis of Dr. Richmond's address, and while not including every sentence, contains every point which he so ably stressed in his address.

"In education we are dealing with human life in its largest and most important aspect. In laying out a scheme for the young we must know what we are aiming for, and to know what we must have settled in our minds whether man is only a stronger kind of animal, a big blonde beast created for plunder—or whether he is an immortal spirit made in the image of God and created for human service. At present we are all clamoring for what we call a practical education. Sometimes we gather it all under the team scientific, using the word unscientifically and narrowly, as applied to practical knowledge for immediate material use. More often we call it education for efficiency.

"The results of that kind of a policy have been astonishing—no less in what we have accomplished than in what we have failed to accomplish.

"We have increased in wealth and added to our physical comforts. We have created new wants and have invented new diseases. We have become not more independent of our environment, but more dependent. Life has become more sanitary but not more sane. We are smarter than our fathers, but not wiser. Science has taught us how to save life and how to destroy it. Four years of war destroyed more lives than it will save in many years.

"Whether science will eventually prove to be the friend or the enemy of mankind will depend not upon science but upon the teachings of religion. Science does not teach forgiveness or pity or brotherly love, but religion does. Science gives us knowledge but religion teaches us how to use it.

"In the great war we have had before us an illustration of what scientific efficiency can do and what it cannot do. We came to know it under the name of German efficiency. German efficiency was of course the result of the German education. We understand now how inefficient it really was.

"But we in this country, strangely enough, admired the thing which we now see was the mother of so much that was foul and base. We were of the world, and the value of his obsessed with the German education; we called it progress. We know now that it was a turning back of the clock, a return to all that was worst in the dark ages.

"In this American Democracy we are forever boasting of our liberty. But we may as well know what we mean by that kaleidoscopic word. If it means, chiefly, to get and to gain and license to do what we like, it is a measure of barbarism and not of civilization. But if it means the liberating of the spirit from the gross appetites and passions of the flesh, the disentangling of the ethereal and heavenly in man from the brutish and the material, then it is indeed a measure of civilization and of essential progress.

"We fight and suffer and spend life and fortune to gain liberty, and the best use we have for it is to forge new chains for ourselves. We multiply conveniences and then we grow dependent upon them in a way most inconvenient. And our many inventions grow of themselves into a kind of Frankenstein, in the fear of which we live. Never in the history of mankind have we been so utterly the slave of things. We cannot live without them and often they become so oppressive that it seems as if we could hardly live with them.

"We have lost the art of living simply and thousands of people successful in business and in society exhaust life in the process of living. The underlying theory of it all—held as I believe quite unconsciously—is that the possession of money will emancipate from the bondage of work and enable us to live free and easy lives, and that this is the goal of human aspiration and the only happiness we can be sure of. It is brutish and a very fallacious theory and the proof of it is that it does not satisfy. To make such a theory the foundation of a system of education and to teach our children in the schools and the young men and women in our colleges that this is life, would be like injecting an insidious kind of poison into them which would slowly corrupt the blood and in the end destroy all the finer impulses and ideals.

"It is not the detail of education I am most concerned with but the spirit behind it. We have thought too much of methods and too little of principles. The clear purpose of the men who established our early institutions of learning was to provide means to develop the higher life of the nation.

"The very first step in educating a child should be to make him realize that he is a child of God; that his life and his hope and his destiny are not to be thought of in terms of matter but of spirit, and all through the process he should be led to feel that his education is directed towards making him independent; independent of the tyranny of things, independent of fortune and of fate—the master of himself and of his passions and powers.

"Such a result will not be brought about by telling him that his education is to sharpen his wits so that he can get more than his share of the good things going. And it will not be accomplished by teaching him to judge success upon a cash basis and to estimate men in the professions in proportion to their salary. Such a policy is more likely to produce a generation of needle-eyed, acquisitive men who will no doubt gain a great deal but who, in the process, will lose about all that is worth having; among other things their souls.

"This is the road along which certain of our leaders in education are seeking to lead us. I do not believe the great body of teachers are so shallow as to be deceived by them. The real values in education are the things money cannot buy. They cannot be turned into money. But they are the things that make education worth while.

"My plea today is a plea for the safeguarding of these higher values, a regard for the ultimate rather than the immediate. I would have our youth taught from their earliest childhood to value above everything the imperishable riches of the mind and the spirit. I would inspire them with the firm belief that they are the children of God, made by Him and made for Him, and I would put this spirit into all his teaching. I would interpret history to him not as a chronicle of the tawdry magnificence of kings and empires, or the sordid story of strife for the world's markets, but as a record of the age-long

struggle of man to come to his spiritual inheritance.

"I would have him feel that success for him would be measured by the size of his contribution to the need education be proved by the strength and riches he could bring to bear upon upon the world's weakness and the world's poverty. I would teach him to scorn the cheap philosophy of getting on as the be-all and the end-all of life and the chief end of man. And so I would save some of this generation of youth, if I could, from the belated repentance of so many of their father—Jew and Gentile—who have sold their spiritual birthright for a mess of pottage.

"And then I would try from the very first to make him realize the common origin, the common brotherhood, and the common destiny of man. I would teach him to love his country but I would also aim to expand his horizon and to develop in him the international mind. I would temper his self-respect with humility; I would expose to him the insensate folly and the essential weakness of arrogance, and so I would save some if I could from the prejudice which breeds antagonisms and the narrowness which begets strife.

"Above all I would strive to purge the mind of all hate. I would clear out of our school books everything that would poison the mind of our youth against a nation once our antagonist but now our most powerful friend. Shall this country of ours become the world's breeding place for the perpetuation of ancient feuds and the field for the sowing of the dragon's teeth of war?

"We call this the melting pot of the nations. Certainly the crude and diverse human elements gathered here will never be fused by the fires of passion nor by the burning of old wounds nor by any heat whatsoever except the fires of a common sacrifice. We can never make a nation out of antagonisms. Our work of education is an education in forgetting as well as in remembering. We must set ourselves patiently to the task of educating all classes of our people to the conception of a new nationality made up out of many old elements but purified and refined and ennobled because it is permeated and transfused with the spirit of human liberty and of human sympathy. Such a nation will be a united nation and strength and prosperity will follow unity."

LARGE NUMBER OF DAIRYMEN TO ATTEND NATIONAL EXPOSITION, OCTOBER 5-13

Inter-State Committee Will Arrange All Details For Local Farmers Who Wish To Go

For many years the National Dairy Exposition and World's Dairy Congress has been held in the West. This year it will take place in the East, giving farmers and dairymen of Pennsylvania, New Jersey, Delaware and Maryland, the area of the Philadelphia Milk Shed, a splendid opportunity to visit the wonderful show practically at their own doors.

Dairy farmers and leaders in the dairying industry from all parts of the world will throng to Syracuse from October 5th to 13th to view the marvelous exhibit of all that is new and best in the dairy world. Two continuous miles of dairy and farm equipment will be on display, new and improved cream separators, milking machines, barn equipment, churns, dairy supplies and a thousand and one articles to lighten labor and increase profits on the dairy farm. He the ambitious farmer will learn more about dairying in a few days than he could learn in a lifetime at home. It is an opportunity that no man can afford to miss.

In order that every dairy farmer within the Philadelphia Milk Shed may take advantage of the opportunity to study up-to-date methods of dairying, the Inter-State Milk Producers' Association has arranged with the Pennsylvania and the Philadelphia and Reading Railroad Companies for special trains leaving Philadelphia and Harrisburg on the night of October 9th to carry groups of dairymen to Syracuse for Pennsylvania and Inter-State Day on October 10th.

A Committee on Transportation is now actively engaged in arranging for the transportation of groups from all parts of southeastern Pennsylvania, southern New Jersey, the eastern shore of Maryland and all of Delaware, to Philadelphia or Harrisburg,

where they will board the special trains for Syracuse. The committee includes C. F. Cobbe, Jr., of Kennett Square; H. D. Allebach, of Trappe; Fred Shang, of Trenton; Robert J. Brinton, of West Chester; John V. Bishop, of Columbus, N. J.; and A. B. Waddington, of Woodstown, N. J.

This committee is especially anxious to have a large and representative delegation of dairy farmers and dairymen from this area attend the Exposition on Pennsylvania and Inter-State Day. It urges that every man who can possibly arrange it go and take his family and friends with him.

The committee will attend to arrangements for Pullman reservations and other details of the trip, including the reception of all dairymen at Syracuse and their transportation to the fair grounds. Arrangements of this sort must be made as soon as possible, and for this reason the committee urges every man who plans to attend, to get in touch with them, or one member of the committee, as soon as possible. The committee will be glad to give out information concerning the trip to those who are merely thinking of going.

BREAKING IT GENTLY

The young editor had just founded a new magazine—one of those high-brow things with pale gray covers and uncut pages—and was eager for applause.

"What do you think of it?" he asked the celebrated literary critic to whom he took a copy for examination. "Well," replied the other, wearily but warily, "the stuff you rejected must certainly have been rotten."—American Legion Weekly.

That Wonderful "Land of the Sky"

8000 Square Miles of Picturesque Peaks

Nature has been exceedingly lavish with its majestic handiwork in Western North Carolina.

Within a radius of 50 miles of Asheville there are more than sixty forest crowned peaks over 6000 feet high, and over a hundred mountains exceeding 5000 feet in height.

Among these superb peaks is Mt. Mitchell, 6711 feet high, the highest point in Eastern America, and easily accessible by motor road. Here also are Mt. Pisgah overlooking Asheville; Chimney Rock, the towering sentinel of Hickory Nut Gap, with its marvelous outlook; Hickory Nut Falls, 900 feet high; Kanuga Lake, unique Blowing Rock and Grandfather Mountain; Lake Toxaway and the beautiful "Sapphire country."

In this great mountain playground the angler, the camper, the hiker, the golfer, the motorist and the eager lover of nature in her virgin forms will find their fondest desires abundantly met. It is an ideal country for a mountain vacation. The golf courses are numerous and excellent. The roads are good for motoring, and one-day trips may be made to numerous scenic points, passing wonderful views on the way. Mountain bridge paths invite horse back riding, a popular recreation.

Through sleeping car service is provided by the Pennsylvania Railroad in connection with the Southern Railway from New York, Philadelphia, Baltimore and Washington to Asheville.

Write to D. N. Bell, Passenger Traffic Manager, Pennsylvania Railroad, Broad Street Station, Philadelphia, for most interesting descriptive and illustrated literature of the "Land of the Sky."

THE STANDARD RAILROAD OF THE WORLD

CONVOCATION DAY OOPENS COLLEGE

(Continued from Page 1.)

Professor of Economics — Oscar Joseph Merrell, graduate of John Tarleton College, Texas.

Associate Professor of Physics—George Porter Paine, graduate of Harvard University and Ph. D., University of Wisconsin.

Associate Professor of Modern Languages, French and Spanish—William Morrison Patterson, graduate of Vanderbilt University, Ph. D., Columbia University.

Instructor in History and English—Oswald Watson Mosher, Jr., graduate of Princeton University.

Assistant Professor of English—Ernest Canfield Van Keuren, who returns to Delaware after an absence of a year when he did graduate work at Harvard.

Dean Charles A. McCue, of the Agricultural Department, announced the following two members of the faculty in that department:

George F. Gray, graduate of Pennsylvania State College, succeeding J. H. Clark as instructor in horticulture.

M. A. Willis, graduate of Clemson College, assistant in agronomy, succeeding G. V. C. Houghland.

Dr. Hüllihen then introduced Dean Winifred J. Robinson who announced new appointments to the Faculty of the Women's College as follows:

Miss Grace Eckman, graduate of Butler College, Indianapolis, succeeding Miss Agnes Snyder as director of student teaching.

Miss Katharine Gumble, graduate of Pennsylvania State College succeeding Miss Mariam Null in the department of Home Economics.

Miss Marion McKinney, graduate of Wellesley College, to succeed Miss Dorothy Calef, in the department of Biology.

Miss Nora B. Keely, graduate of Ursinus College, in the English department.

Miss May Prugger graduate of the Chicago Normal School of Physical Education, to succeed Miss Marion Parkhurst, as director of physical education.

Dr. Hüllihen, prior of the address by Dr. Richmond, reviewed the pro-

MIDDLETOWN BOYS AND GIRLS IN SCHOOL

Several Go To Delaware University and Washington College

Some of the girls and boys of Middletown who are leaving home to go to school are: Margie Records, Clara Brady, Caroline Fouracre, Georgia Wiggin, Edna Reynolds, who will enter the Woman's College at Newark; Purnell McWhorter, Edward Records, Harmon Reynolds and John Pool who will go to the University of Delaware; Percy and Edwin Donaghy, who have gone to Washington College at Chestertown, Md.; Letitia Pool leaves for Philadelphia where she will take a special course in library work at Drexel Institute; Esther McDowell has returned to the Maryland State Normal School at Towson, Md.; Anna Jones has entered Goucher College at Baltimore; Harris McDowell is attending Wilmington High School; De-weese Ginn and Burton Williams have enrolled at Goldey Business College, Wilmington.

gress of the University during the past year. The highlights of his address will be found in Section 2 of this issue.

Rev. Hallman, at the close of the exercises, pronounced the benediction, and the students filed out to officially begin their collegiate work.

Reception at The Knoll Immediately following the Convocation, Dr. and Mrs. Hüllihen, assisted by several ladies of the Faculty, held a reception at The Knoll in honor of the new Faculty members and students of both Colleges. Light refreshments were served by the hostess to the several hundred guests.

It was announced just prior to the Convocation that about 100 men and 95 women had enrolled as Freshmen at the University up to Friday noon. The men's enrollment fell short of that of a year previous, while the class at the Women's College is the largest ever.

Classes began at both institutions promptly at 8 o'clock Monday morning. The first vacation comes at Thanksgiving Day.

FLAG TO FLOAT OVER EVERY DEL. SCHOOL

(Continued from Page 9.)

by the Legislature at its session last winter. This is not a new thing to many schools, but in some it is certain, according to reports made to the Legislature last winter, that the Bible was not read every day in the schools. But there is no laxness this year regarding the flag. Wherever a flag is needed, the matter is referred to the proper committee, and the flag arranged for.

At the present time the State Board of Education is finding much difficulty in filling vacancies for teachers. There are many applicants for teachers but they cannot pass the required tests or examinations. At the present time there are between ten and twenty positions open waiting to be filled, and because all available material in Delaware young man or young woman to pass the required test, he or she is given the preference over all others, so that Delaware boys and girls who have the ambition to become public school instructors, are given first choice.

As to Courses of Study

One of the details of the school program that is causing much discussion is the arranging of a balanced program and course of study. All the rural supervisors met at Dover on Thursday and discussed what ought and what ought not to be emphasized in the school teaching program according to their ideas. These supervisors all conferred with parent-teachers' associations regarding the school program, and from this conference, and many others that are scheduled to be held here during the fall and winter, it is expected that a program will be worked out that will be thoroughly satisfactory to the parents and also from an educational standpoint.

One of the things that it is hoped can come about soon in Delaware is the six-grade to a room plan. In some school-rooms in Delaware today, as many as eight grades are under construction. There are various reasons why this should not be. This problem is another detail that the educational officials and assistants are studying out.

Under the appropriation made by the Legislature for the State Board of Education last winter, there was

not money enough to continue statistical work as there had been in the past. As a result, efforts are being made this fall to continue the work and assemble data, and to divide this work up among principals of schools. It is hoped that this will not mean the abandonment of the statistical part of the school work, which is extremely valuable, according to educational authorities.

STILL ANOTHER SENSE

"Bill," said a sailor of whom the Western Christian Advocate knows, looking up from his writing to consult the superior knowledge of a friend, "do you spell 'sense' with a 'c' or an 's'?"

"That depends," replied his friend. "Do you refer to money or brains?" "Aw, I don't mean either of them," was the reply. "I want to say I ain't seen him sense."—Youth's Companion.

ABOUT FARM PRICES

BY

Dr. W. E. Taylor, Head of the Soil Culture Department
of the John Deere Plow Company

WHEAT PRICES FOR 600 YEARS

"A review of wheat prices since 1261 shows remarkable fluctuations in that cereal, practically all being due to changes in supply and demand.

Period from	Low Price Year Cents	High Price Year Cents
1261 to 1361.....	1287 9	1316 48
1361 to 1461.....	1377 11	1438 45
1461 to 1561.....	1463 11	1556 85
1561 to 1661.....	1570 30	1649 188
1661 to 1761.....	1743 63	1709 199
1761 to 1861.....	1761 73	1812 385

"This subject is receiving more attention by platform orators, newspapers and magazines, politicians of all parties and classes, congresses and bureaus, than all other economic questions pertaining to the general welfare of the American people.

"Panaceas are being offered galore, some logical and consistent, but most of them hysterical chatter, absolutely at variance to natural laws of trade, which, if put into operation, would not only bring about disaster to our basic industry, but paralyze all activities dependent upon that industry.

"It cannot be denied that the farmer has a grievance of a most serious nature. His embarrassment is not wholly on account of the price of his products, but because of the extremely low purchasing power of his bushel and his pound. If the cost of practically everything the farmer buys today had declined from the peak of 1919 and 1920, in the same proportion that the price of his wheat, corn, oats, pork and beef have from their peak prices, then the present prices of his grains and meats would give him that degree of prosperity to which he is entitled, or, in other words, he would not be a victim of gross discrimination.

"The price of the more important products of the farm are governed, chiefly, by the law of supply and demand. The factors which may operate to disturb that law are: transportation, duty on imports or exports, rate of exchange, and, occasionally, 'corners' for a short period.

Supply and Demand Made Price

"From 1860 to 1920, a period of sixty years, the price of wheat in the United States has fluctuated considerably, but has always been in keeping with the world's supply and demand excepting during two or three short periods when wheat was cornered. According to the Year Book of the Department of Agriculture, the average farm price in the United States was below \$1 per bushel forty-three of the sixty years, and above \$1 seventeen years. The high average farm price was \$2.15 per bushel in 1919, and the low farm price was 49.1 cents per bushel in 1894. In December, 1919, wheat sold for \$3.50 per bushel on the Chicago market.

"It is also interesting to note that from 1884 to 1906, inclusive, the average farm price was below 70 cents per bushel fifteen years, and above 70 cents seven years.

"A review of markets indicates that wheat—being the most important of all farm crops—usually has a marked influence on the price of corn, oats, barley and rye, and often rice. However, if the supply and demand of any one crop other than wheat is out of line with wheat, the trend of the price will be at variance with wheat. The same economic laws have governed, and will continue to govern, the price of cotton, tobacco, potatoes, flax, rice and other products of the soil; also cattle, swine and sheep.

The List of Ineffective "Cures"

"Among the many theories that are being proposed to palliate or mitigate the farmer's financial embarrassment, one is to stabilize the price of wheat and other products through the enactment of a law by Congress. Recently a conference composed of seven governors of agricultural states, several Western senators, and officials of many farm organizations was held in Chicago. The object of the conference was to ask the President to call Congress together to establish a government corporation and supply it with money to stabilize the price of wheat at \$1.550 a bushel. After a careful analysis and thorough discussion of the whole subject, proposals to correct or change economic laws by legislative enactment were defeated in the final ballot taken by the members of the conference.

"Should the price of wheat be stabilized by law at \$1.50 to the farmer, and appropriations made to maintain that price, it would not require much intelligence to foresee a bankrupt treasury and distressed

people because of excessive taxation, unless production was limited by law and an embargo placed upon the importation of that cereal. Such a guarantee of price would discourage diversified farming and convert out 6,000,000 farms into 6,000,000 wheat fields.

"Attempts to stabilize prices of farm products in some of the European countries since the war have proven disastrous. In desperation, Austria fixed the price of farm products by law below the cost of production, causing more than a fourth of the farms to be abandoned. The shortage necessitated the importation of grain at a much higher price than home-grown products would have commanded had there been no government interference, thereby bringing increased hardships to all classes. Because of attempted price-fixing by law, similar complications—varying in degree—have taken place in Portugal, Hungary and a few other countries since the World War, with the result that agriculture is in a deplorable condition and the urban people are placed at the mercy of exporting countries.

"On the other hand, in an effort to protect farmers, Spain enacted a law forbidding the importation of wheat when the domestic price was under a price equivalent to \$2.20 per bushel. Switzerland has a subsidy law granting to farmers a margin of 60 cents a bushel above the import price of wheat, and France doubled the tariff on grain and placed an embargo on exports of wheat. So far there is no evidence that any of those laws, which replace natural economic laws, are of mutual benefit to agriculture, manufacturing and commerce, but, on the contrary, in most instances, make conditions worse.

"It is very evident that any effort to stabilize the prices of the important agricultural products will fail until consumption and production are equal or perfectly balanced, not only locally, but throughout the civilized world, a condition that in all human probability will never exist.

"Another plan to advance the price of wheat contrary to the economic law of supply and demand is being urged by an organization representing the farmers. The instigators of this new price stimulant propose that farmers store and hold from the market 200,000,000 bushels of this year's crop of wheat, thereby creating an apparent shortage, expecting it to advance the price. If the 200,000,000 bushels of wheat were to remain stored indefinitely, or should that quantity be entirely destroyed, it would influence the market just in proportion that it affects the world's surplus.

Does Holding Wheat Pay?

"Experience has demonstrated that to hold wheat beyond a reasonable marketing time is just as apt to result in a loss as a profit. In a chart

Thirty Years Ago—
And Now

The books of a school child of today would have astonished us 30 years ago.

Then schooling was confined to the three R's and our eyes were not taxed beyond their strength.

Many children of today are thought to be dull, stupid and sometimes unruly when the trouble is merely eyestrain, due to long lessons and close application.

of wheat prices compiled by Professor Boyde, of the College of Agriculture at Cornell, monthly prices of wheat are given for the eighty years between 1841 and 1921. Taking the fifty-one years from 1871 to 1921, the report shows that the farmers who held their wheat until spring received only enough more to pay the carrying charges, or, in other words, the farmers who marketed their wheat in the fall were as well off as those who held until later.

"Again, government statistics show that from 1908 to 1921, inclusive, the average farm price of wheat on the first day of each month was as follows:

January.....	\$1.39
February.....	1.45
March.....	1.44
April.....	1.45
May.....	1.55
June.....	1.57
July.....	1.46
August.....	1.44
September.....	1.42
October.....	1.42
November.....	1.41
December.....	1.36

or an average of \$1.43, approximately the average price for the months of July, August, September and October immediately following threshing.

"Good judgment would suggest that, in order to prevent congestion on railroads and in the principal wheat-buying centers, all farmers who can afford to carry their wheat for a few months do so.

Wheat Harvested Every Month

"If the United States produced all the wheat grown in the world, or we were entirely divorced from all other countries in the matter of trade, some of the expedients suggested to stabilize or increase the price could be made effective, but the whole world produces wheat, and every month of the year that crop is being harvested in some part of the world. If any one nation attempts to influence the price by methods not in conformity to the law of supply and demand, other wheat-growing countries will defeat it.

"Last year, 1922, our wheat crop amounted to 856,211,000 bushels, and the world's crop was 3,035,841,000 bushels. Countries other than the United States which produced a surplus for export were Argentina, Australia, British India, Bulgaria, Canada, Roumania, Chile and Russia. Because of the attractive price of wheat during the war, and the two years following, its production was stimulated all over the world, and reports indicate that, in spite of the great reduction in price, the king of cereals is still a favorite crop, and the surplus from the 1923 crop undoubtedly will establish a price somewhat discouraging to growers.

"Regardless of causes, a condition confronts the farming industry and all business activities that must be corrected, or dire results will surely follow. The power to establish prices of farm products on a basis that will return to the farmer a fair and reasonable profit can be accomplished by just one group of individuals—and that group comprises the men and women who are operating the 6,000,000 farms of the United States.

"It is within their power to decrease or increase the supply of wheat or any other product to a point where it will command a fair price to both producer and consumer. Farmers are

not kept in the dark; through the daily press and government bulletins, they can at all times secure reliable reports regarding acreage and crop conditions. They know that grain is being harvested some place on the globe every month of the year. They know which nations produce a surplus, and are advised far in advance what the harvest will probably be. They also know that importing countries require about 700,000,000 bushels annually.

"The farmers know that the United States, Canada, Australia, India and Russia are the principal exporting countries. At this time the farmers of the United States are advised that we have a surplus from the 1922 crop of more than 200,000,000 bushels, and, in addition, a large surplus from this year's crop.

"Reliable reports indicate that the wheat acreage in France is increased 1,130,000 this year, giving that country enough to supply its needs. Russian acreage has increased 24,000,000, and Canada will probably have a surplus of more than 300,000,000 bushels.

Acreage Must Be Reduced

"Last year India exported 9,000,000 bushels, but this year has a surplus of 60,000,000 to 100,000,000 bushels. In addition, we are advised that Turkish Anatolia has three times as much land under cultivation as last year, and in Jugo-Slavia 30 per cent. more land is being plowed; all indicating that the world's production of wheat will be so much greater than the demand that it should require no argument or concert propaganda to

prompt each individual wheat-grower in the United States to curtail his acreage.

"The remedy is not to be found in untried economic nostrums nor political tactics or a revolutionary or radical nature, but in the employment of a full measure of common sense so characteristic of the rank and file of hard-headed farmers. Farmers will solve their problems in good time by:

1. Harmonizing production with demands.
2. Increasing the efficiency of their soil, seeds and feeds without increasing the cost.
3. Practicing thorough diversification in everything pertaining to farming.
4. Improving the marketing systems.

CONTAGIOUS

With all a six-year-old's familiarity with measles, chicken-pox and colds, Bobbie emerged from a siege of whooping cough much the worse for

wear. The first item of interesting news he received was that his aunt was at a hospital and that there was a new baby he would be allowed to go to see soon.

"And see Aunt May, too?" he asked incredulously.

"Of course. Why not?"

"But, mother," fearfully. "Will I catch it?"—American Legion Weekly.

H. WARNER McNEAL
Newark, Delaware

UNIVERSITY PRESIDENT, IN ADDRESS FRIDAY, DEPLORED CUTTING OF APPROPRIATION BY LEGISLATURE OF STATE

Dr. Hullihen Says That Institution Is Working This Year Under A Severe Handicap Due To Lack of Funds—Holding Up Work On Library Due To High Costs

LAUDS MILITARY DEPARTMENT FOR SPLENDID SHOWING MADE

The address by Dr. Walter Hullihen at the Convocation exercises in the Armory last Friday afternoon, reviewed clearly the accomplishments and discouragements experienced by the University during the past year.

In plain words, Dr. Hullihen deplored the action of the State Legislature in cutting the appropriation for the colleges down to a point where the actual teaching staff had to be curtailed.

Among other items which the President touched briefly were:

The progress of the New Memorial Library;

The Foreign Study Plan;

The lack of housing facilities.

The address, carefully prepared and carefully delivered was eagerly received by the audience.

Dr. Hullihen, in referring to the cut in the appropriation, said in part:

"The reduction of our annual appropriation by the last Legislature has necessitated a curtailment of the teaching staff in some departments which will embarrass us seriously, and for this year and next we shall be obliged to make the best of a situation over which we have no control, and accept the contraction of courses in physics, mathematics and modern languages which the reduction in income demands. When the next Legislature meets we must not fail to make clear to it the extent of the embarrassment the reduction has caused, and I feel confident that we may expect a return to the appropriation necessary to permit us to restore in full our teaching staff.

Thanks School Auxiliary

In speaking of the permanent building program which has been halted for the past two or three years, and including in that the Memorial Library, Dr. Hullihen further stated:

"Our permanent building program has not gone forward as we might have hoped six months ago it would.

"The additional dormitory for the Women's College which we thought would be provided by the last Legislature failed to secure the approval of the Senate in the closing days of the legislative session, and it would not have been possible to provide for the girls seeking admission this fall except for the generous assistance of the Delaware School Aux-

iliary which has again come to our assistance and added to the two previously given by them a third temporary dormitory erected and furnished this summer providing comfortable quarters for 22 students.

"Our debt of gratitude to the Delaware School Auxiliary is indeed a heavy one. Except for its assistance during the past five years, higher education in this State, especially for women, would have been badly handicapped.

"After the successful completion of the great Memorial Library Campaign, in which this student body did valiant work, we entertained the hope that by the opening of this session the new library building would be well along toward completion. Unhappily such is not the case. A plan was drawn, all details of arrangement were carefully worked out by the committee in charge with the advice of library experts, and it was expected to break ground as soon as the weather would permit last spring. But when that time came costs of material and labor had advanced so enormously that the cost of the building as designed in the fall had increased by 25 per cent. and the money available was insufficient. The decision was then made to wait for several months in the hope that a predicted fall in building costs would occur. It has not occurred and it cannot be discerned by the prophets anywhere on the horizon of the immediate future. So the Committee on the Library Building faces the necessity of starting again at the beginning with its plans and of having a building designed that will come within the amount available for building purposes."

Congratulates Military

The splendid advance made in the Military Department of the University during the past year called forth a tribute from Dr. Hullihen, on behalf of the institution. He spoke of this item as follows:

"There are two items relating to the work of the military department which some of you have not heard and which will be of interest to you. Just after I received a telegram from Major Row, who was at West Point, giving the ranking of the colleges which had been given the rating of

'Distinguished Military Colleges' in the first, second and third corp areas, embracing all of the Eastern States. In that list Delaware stood first. The order of the six institutions was as follows: First Delaware, second Cornell, third Lehigh, fourth Norwich, fifth Maryland, sixth Vermont. I was sorry that this pleasant news did not reach Newark in time for announcement at commencement, but it is no less a satisfaction to be able to announce it now. We have set for ourselves a high standard which we must not fail to maintain.

"The second item came to my attention through a letter received a few days ago from General Bullard, commanding general of the second corp area, to which we belong, enclosing a letter from the adjutant-general at Washington, giving, for the nine corp areas in United States, the percentages of men in R. O. T. C. colleges taking the senior or advanced military course which prepares for a lieutenant's commission in the Reserve Corps of the regular army. The adjutant-general called attention to the fact that it is the patriotic duty of college men, who have the opportunity, to prepare themselves to be ready for military service and leadership when the country calls. He stated that the plans of Congress and the general staff for the building up of an adequate supply of reserve officers cannot be carried out unless a greater percentage of men in the R. O. T. C. colleges take the complete course, and urged college officers and every one interested to exert themselves to improve the situation. The percentages were given showing the percentage in the second corp area to be next to the lowest in the nine areas in the United States. That is bad for our corp area but we shall have the satisfaction of saying to General Bullard, and through him to the adjutant-general of the army, that while we shall certainly meet his request by effort to still further increase our percentage, we note with pride the fact that our percentage as an institution is much higher than that of the highest of the corp area averages; the highest corp area average (that of the 4th) being 31 per cent, while that of Delaware College is 79 per cent."

TWO CARS UPSET

Two Said To Have Been Injured Saturday Night Near Here

It was reported Sunday that two cars met with accidents along the Newark-Elkton Road last Saturday night. Both mishaps occurred this side of the Maryland line.

A Franklin touring car skidded off the roadway and into an adjoining field. No one was injured.

Later in the night it was reported that a Buick sedan overturned about a mile south of Newark and that two occupants were so badly injured that they were taken to the hospital.

Inquiry at nearby hospitals failed to reveal the names of anyone connected with an accident in this vicinity, however.

SPEEDING AUTOIST FINED

Hits It Up On Outskirts Of Town Monday Night

Richard Reed, of Camden, N. J., was arrested Monday evening last by County Highway Policeman Jones, charged with grossly exceeding the speed limit. Jones testified that the driver was pushing his car along at the rate of 48 miles per hour within a few hundred yards of the town limits along the Elkton Road.

Magistrate Thompson fined Reed \$25.00 and costs and reprimanded him for driving at such a pace after dark.

BAPTISMAL CEREMONY

Lois Marion, the seven-weeks old daughter of Mr. and Mrs. L. R. Det-

jen, was baptized Sunday afternoon last, at the home of her parents, on West Main Street. The ceremony was performed by the Rev. H. Everett Hallman, pastor of the First Presbyterian Church of Newark. A number of close friends and neighbors of the family attended.

WHY SHE SPEEDED

Woman Motorist—"Oh, Mister Policeman, when I tell you why I speeded, you'll let me go."

Officer—"Why were you speeding?"

Woman Motorist—"I was trying to catch up with that lady to see how her hat was trimmed."—Dry Goods Economist.
