## RECORDS FALL IN TRACK MEETS

### Delaware Makes Fine Showing on Southern Trip

Meeting two of the best track teams in the East, Delaware made a very creditable showing against University of Virginia and the Naval Academy in dual meets. Considering the long trip and constant railroad travel some of the times were very creditable. On the trip the following records were made.

Pitman—100 yards, 10 sec.  
Booth—Mile run, 4 minutes, 34 seconds.

Harmer—Half mile, 2 minutes and 2 2/5 seconds.

Betzmer—Javelin throw, 167 ft. 7 1/2 in.

Betzmer—Shot put—39 ft. 7 inches.

Tom McDonnell performed with great skill, winning the pole vault at Virginia and getting second place at Navy. In the Virginia meet it was nick tuck till towards the finish when Virginia's superiority in field events began to tell; at one time the score was 36-35 in favor of Delaware. Pitman created a sensation by giving Seward the first defeat he has suffered in dual meets while in college. The treatment received was excellent and the trip was a success from every viewpoint. Booth besides breaking the mile record broke a "vase," the report of which could be heard in Charlottesville, many of the Southern boys thought it was an earthquake at first. Returning to the hotel he kept his record breaking performances by breaking a hand-some water pitcher and nearly breaking his nose.

The final score of the Virginia Meet was 84-42. Great (Continued on Page Three.)

## FORMER COMMANDANT A MAJOR GENERAL

### Colonel Gordon Nominated by President Harding

Colonel Walter H. Gordon, former Commandant at Delaware College, has been recommended by President Harding for promotion to Brigadier General in the Regular Army. General Gordon was a temporary Major General in the A. E. F. in command of a division. On the cessation of hostilities, he reverted to his regular rank of Colonel.

In 1897, Colonel Gordon (then Lieutenant Gordon) was commandant of cadets at Delaware College. At the outbreak of the Spanish-American War, he was ordered to muster in the First Delaware Regiment of Volunteers. He was later made Colonel of the Regiment. At the end of the war, he resumed his rank of First Lieutenant, and was assigned to the Philippines; later, he served in the office of the Inspector General. Colonel Gordon was a great favorite at the college. On the other hand, he always held the college and those connected with it in high regard; he was an interested spectator at the last commencement.

## GLEE CLUBS TO PRESENT "MISS BOB WHITE"

### Comic Operetta Ambitious Production

On April 29th the combined Glee Clubs of the University will present the comic opera, "Miss Bob White." This is the biggest production ever attempted by any musical clubs of the University, and, in order to insure success, rehearsals are being held almost daily. Miss Dora Wilcox, director of music at the Women's College, is directing the opera.

The story of the opera concerns two young millionaires who are compelled to spend two months as tramps in order to pay an election bet. They obtain work on a farm of "Friend" Road. In the meantime the heroine of the opera, Miss Livingston, a New York society belle in love with one of the millionaires, learns of the bet. She disguises herself as "Miss Bob White," a milkmaid, and comes to work on the same farm. Things move quite rapidly for her and the two young adventurers. The farmer's charming daughter, Goldenrod, adds her share to the fun. The denouement is completely satisfactory to all concerned, and the conclusion is a happy one.

The following is the complete cast:

Artie TreBillion L. B. Daley, '22  
Billy VanMillion, J. G. Christfield, '22  
Duke of Hightitles (English peer)

Clifford Smith, '24

Lord Bashful (His son)

F. J. Rowan, '23

"Friend" Samuel Rodd (Farmer)

Irving Boggs, '21

Jack Heartie (a sailor)

G. F. Waples, '21

O'Yankemin (a suburban cop)

Harold Repp, '22

George Washington DeVere (Butler)

T. R. Dantz, '22

Nagg (a hunter) Herbert Kirk, '24

Brush (a hunter) H. P. Yost, '23

Miss Livingston (Miss Bob White)

Miss Helen Fisher, '21

Goldenrod (Farmer Rodd's daughter)

Miss Eleanor Vineyard, '24

Miss Liveinthe past Autumn

Miss Beatrice Naylor, '23

Miss Schuyler (a one-only Dame)

Miss Mabel Bromley, '24

Maggie Miss Myra Averett, '24

### Tennis Match Postponed

Owing to the heavy rains of last Thursday and Friday, the tennis courts of the du Pont Country Club were not in suitable condition to be played on, and the scheduled match with the University Tennis Team was postponed. This match will very likely be played later in the season. The opening match will be played against Haverford College at Haverford next Saturday afternoon.

### To Go Abroad

Dr. W. Owen Sypherd plans to visit the Continent this summer on a tour of travel and study. He will leave on July 26th, sailing directly to France. After spending two weeks in Paris, he will cross the channel to England for a fortnight's stay in Merrie England. He will return the last of September.

## WILMINGTON ALUMNI HOLD FIRST MEETING

### Large Attendance Marks Organization Meeting—Judge Morris Named Temporary Chairman

Increasing interest of Alumni of the University of Delaware in their Alma Mater made itself apparent last week, when about seventy-five "old grads" met in Wilmington to tentatively or-

ganize the Wilmington Chapter of the Alumni of the University of Delaware. Hugh M. Morris, class of 1901, Judge of the United States District Court, was selected as temporary chairman. (Continued on Page 2)

### Sophomore Dance Proves a Huge Success

What was conceded as being one of the most successful dances of the year by those who were present was held last Saturday night by the class of 1923. The gaiety and exuberant feeling ran so high as a result of the wonderful music and "jazzy" atmosphere that the hoots and long drawn out yells of the underclassmen occasionally drowned out the strains of the selection. This exceptional music was furnished by the Original Six Orchestra of Wilmington.

Old College, where the affair was held, was artistically decorated, as a result of the work of a committee of Sophs under the able leadership of Jimmy Tilghman. The lights were enclosed in huge squares of blue and yellow crepe paper, with fringed paper hanging gracefully down from the sides of the square. On each panel, white and black crepe paper cut in the shape of various birds alternated with the effect of the darker paper on the lights. Lattice work of crepe paper filled in the tops of the windows and suspended streamers of red, blue, and black crepe floated lazily down to complete the effect. Yellow crepe birds covering lights in the halls and lounge room augmented the artistic and delicate hue of the decorations. The dance ended at midnight much to the regret of all present.

## DELAWARE GETS NEW SPORT

### Rifle Range Provided by the Military Department

The past week has witnessed the facilities of the University decidedly augmented by the addition of a Rifle Range. This range is a standard 50 to 75 foot affair equipped with eight sliding targets. It will be open from 3 to 5 p. m. to all of the students of the University and rifles and ammunition will be furnished by the Military Department. In fact, it is entirely due to the initiative of Major Rowe that the range has been provided.

Beginning May 1st, Major Rowe has planned a series of competitive events including a tournament within the Battalion between the various companies and platoons. Several telegraphic matches with adjacent colleges and universities are planned, and, in fact, a match with the University of South Carolina has been scheduled for May 5th. In the meantime, the scores of the individual students will be recorded and filed and students showing the greatest progress will be selected to represent the University in inter-collegiate matches. At least three members of the student body, Holton, Terril, and Fader, have had experience in match shooting.

The facilities of the rifle range are open to the Faculty as well as to the students. A faculty team will be organized, and inter-collegiate faculty matches run off. The faculty is evidently out to beat the students for a triangular match of Dr. Hullihen, Major Rowe, and the President of the Student Body was observed last Saturday. Dr. Hullihen is an expert rifleman, a member of the National Rifle Association, and has competed in matches at Camp Perry, Ohio.

### Ag Club Elects Officers

The Agricultural Club held a very interesting meeting Tuesday night in room 216 of Wolf Hall. The program consisted of an illustrated lecture on Agriculture in the Philippine Islands, by Dr. F. T. Manns. As Dr. Manns has spent three years teaching Agriculture on the Islands, he was able to give the audience lots of inside "dope" along this line, as well as many other novel and humorous experiences. He illustrated his talk with lantern slides which served to give a clear conception of the actual conditions as they exist in our island possessions of which we know so little. The speaker emphasized the fact that the country, altho still in a crude state of civilization, has many undeveloped resources and offers great opportunities.

The election of officers followed this lecture. Smokes were passed in order to create a political atmosphere and when the "Farmers" were well doped the ballots were cast. Results of the election will appear later.

## JINX TRAILS TEAM ON WESTERN TRIP

### Baseball Team Plans Come-back

The annual baseball jinx has exerted itself. That team of ours is now bound to have clear sailing and it is sure to "clean up" for the remainder of the season.

Sunday evening a squad of rather "tight" baseball men returned to Newark after a rather semi-disastrous western trip through the Keystone State. As for "bacon" the men returned with four defeats. However, the experience which they received completely overshadows this record. They had experienced real fire and from now on the whole squad will be itching to express their wrath upon some other ball club.

At 2 p. m. Wednesday, the team arrived at Bucknell after a short journey made long by several jerk-water railroads, and in an hour the bats were crossed with Bucknell. The jinx was there with the wrench, and the Shipley machine was "kiboshed" when it was thrown into the well-oiled cogs, in fact 'twas said by one who knows that the only cogs which worked well were Collins and Spaid, the only men that did not play. After the cloud blew over we were on the short end of a 16 to 8 score.

The next hop was to Penn State. Here we met the best team in college baseball. The Delaware nine played wonderful ball but the breaks were against us and the game ended 7 to 1. The score does not at all show the anxiety that our team gave Bezdak's athletes. Collins twirled for the "Chicks" and the game was actually a battle between Collins and Thomas, the Penn State star pitcher.

On Friday the team reached Pittsburgh after an all-night ride and in the afternoon played the University of Pittsburgh club. The Delaware club fought an uphill battle and the Pitt team had a hard time defeating the team from the Diamond State. Rothrock pitched fine ball, and had the Delaware team hit (Continued on Page 4.)

## QUARTERLY DINNER OF NEW YORK ALUMNI

### C. C. Cooper, '02, President of General Motors Subsidiary

The Delaware College Club of New York City will hold its quarterly dinner at the Harvard Club on April 29th, at 6.30 p. m. Any "rooters" who expect to accompany the baseball team to New York for the Stevens game on the 30th are invited to attend the dinner and become acquainted with some of the older graduates. At this meeting of the club, the name will be changed to correspond to the University.

Mr. C. C. Cooper, '02, was recently elected president of the General Motors Acceptance Corporation, New York City. This corporation is a subsidiary of the General Motors Corporation. Mr. Cooper is vice-president of the Delaware College Club of New York and is keenly interested in the development of Old Delaware.

### Omit the Curse

Defeated, but with heads held high, the University teams have returned from their recent trips. Is it not better that they be greeted with a smile and a word of cheer than with a doleful shake of the head and a muttered curse?

Traveling wearis the body and mind. Would not a cheering grin and a firm handelasp go far toward lightening that weariness? Would they not serve to show that the University still believes in its teams—still has confidence in their ability to uphold the athletic honor of our institution?

Then why not the smile and the word of cheer, rather than the doleful shake of the head and the curse?

### Rifle Range

The Rifle Range acquired by the University, due directly to the foresight and energy of Major Rowe, is a distinct addition to our equipment. Numerous Rifle Clubs are springing up so quickly in all sections of the country as to cause a prominent sports editor to remark "that shooting bids fair to replace baseball as our national pastime." Congress has encouraged the formation of these clubs by granting generous appropriations to be used in assisting these organizations.

There are several reasons why we should be glad to note the operation of our Rifle Range. In the first place, the experience gained here will enable the men in the R. O. T. C. to make a more creditable showing in their competition with other college men at Plattsburg. In the second place, it makes possible valuable preparedness training for those who, for one reason or another, are not members of the R. O. T. C. Finally, shooting is good sport, sufficient in itself, and a red-blooded college activity.

The test of the value of the Rifle Range will come, however, in the degree to which it is used by those eligible. Individually, and as a university, it is desirable that the range be crowded from 3 to 5 p. m. Competition is a good thing; accuracy is a good thing; the range provides an opportunity for the exercise of both. The Rifle Range is an asset—use it!

### Frown on Loafers

A student may think, that inasmuch as he is spending his own money, he has the right to waste his time while in college, if he sees fit. But he has NOT that right because every man

should be designed to teach Freshmen the University spirit, the universal spirit. Every Freshman should be urged and encouraged to go out for every College activity his course will permit. If that encouragement is given each fall to all of the new men, in a very short time Delaware's "University Spirit" will far exceed the fondest dreams ever held for Delaware's "College Spirit."

Wallace Cook, '23.

### WILMINGTON ALUMNI HOLD FIRST MEETING

(Continued from Page One.)

man, and Harris Samonisky, class of 1916, was made temporary secretary. The following members of an organization committee were elected: F. Irving Walls, '11, C. E. Grubb, '14, Joseph McVey, '05, J. A. Crothers, '16, Harry Samonisky, '16, J. Rankin Davis, '10, Leroy Hickman, '03.

An interesting talk on the deeds and functions of the university's alumni chapters at New York, Philadelphia and Pittsburgh was given by Everett C. Johnson, '98, former Secretary of State for Delaware and president of the Alumni Association. Other interesting talks were given by Rev. Charles M. Clark, J. A. Crothers, H. L. Brown, J. Rankin Davis, Irving Walls, Harry Loose, Lee Sparks,

Harris Samonisky, Eugene Manning, and George N. Davis. The next meeting will be held April 27 at the rooms of the Y. M. C. A. to further perfect and make permanent the organization.

Later, the organization committee held a meeting and a temporary policy agreed upon. The Wilmington chapter will include graduates of the university of at least one year's standing living in Wilmington and its vicinity.

It was suggested monthly luncheons should be held and a committee appointed to cooperate with the athletic committee of the university in the furtherance of its plans.

It is possible that the new chapter will arrange a scholar-

ship for deserving students of the university.

The meeting was an enthusiastic one from start to finish. Interesting and fitting tales of the older college were well told by some of the "old" grads. Mr. Johnson's talk on the work of other chapters was especially interesting.

Too much importance cannot be attached to this increasing and admirable activity of our alumni and we must all look forward to the day when we shall be on the role of an alumni chapter, doing what we can.

## PROMOTING PROGRESS

# Westinghouse

**Senior Mechanicals  
Test Pumping Plant**

The Seniors in Mechanical Engineering spent last week-end in Chesapeake City, Maryland, where they ran tests on the steam pumping plant used to supply water from the Back Creek to the Chesapeake and Delaware Canal. This test will be used as a basis for the thesis required for graduation.

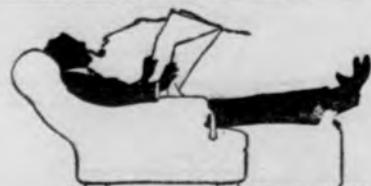

Tests were run on two pumping units. One of these is a large water wheel driven by two steam engines. The other is a centrifugal pump driven by a Fairbanks-Morse Engine. The steam unit tested is unique in that it is the only one of its kind in this section of the country. The engines of 175 H. P. each, erected in 1854 and 1862 respectively, are supplied by two return tubular boilers which were placed in their settings in 1894. The wheel which is driven by these engines is a large wooden affair with a diameter of 37 feet and a speed of 1 1/3 revolutions per minute. The test was of 48 hours duration, its object being to determine the relative amount of water delivered when the plant was operated with different grades of coal.

The men conducting the test are: Gordy, Price, Johnson, and Steel. These were assisted last week by Lindsay, Frederick, Repp, Christfield and Linn.

**RECORDS FALL IN  
TRACK MEETS**

(Continued from Page One.) credit is due to the squad as they succeeded in gaining seven first places in this meet, for particulars see Manager Waples. Four-acre, Gunlack, Lilly, Humphries, also performed well in this meet but without success as fourth places did not count. However, their time and distances in this meet were faster and further than their previous trials. Pitman, Harmer, Booth, Betzmer, McDonnell scored the first places in this meet.

The Navy Meet was supposed to be a triangular meet but Hopkins failed to come up to past records and scored only four points. Again Delaware was the dark horse, and when Pitman captured the 100 yard dash Navy realized there was to be some real competition. Curtis and Clapp, both former Olympic stars, featured for the Navy. Their performances were versatile. Curtis ran the mile in 4.31 on a new soft cinder track and also captured the half in 2 min-

Philadelphia

utes and 2.5 seconds, a remarkable performance. Pitman won the 220, Betzmer the Javelin, Harmer the 440. Again weakness in the hurdles and broad jumps and other events held us back and failure of Johns Hopkins to come through aided the Navy's score. The final score was, Navy 80, Delaware 33, Hopkins 4.

The wonderful treatment received by Delaware at Virginia and Navy was certainly appreciated and the boys all came

home with a great deal of respect for the hospitality of these two great institutions. The trip was not all running and work, Coach "Jimmie" LeCato and "Showers" Waples did everything possible to make the trip a pleasure. The meets have put the team in excellent shape and everything points to a successful season with the best colleges to be met. The high scores on the trip were as follows:

Pitman, 20.

Betzmer, 17.

ON WESTERN TRIP**

(Continued from Page 1)

the opposing twirler, he would have turned in a splendid victory over a team composed of "stars," but the jinx came along, and the game ended, Pittsburgh 7, Delaware 1.

The last game went to Carnegie Tech by a 3 to 2 score. Delaware played good ball and showed marked improvement. Old "Hans" Wagner's aggregation of sluggers were given an example of good Delaware baseball. Collins was the coach's selection but after pitching the first inning his arm was strained. He was relieved by Joe Rothrock but Joe had worked

too hard the day before and he was greeted by a hit, a sacrifice, a triple and a double. Grubb took the burden from Rothrock and pitched splendid ball for the rest of the game. Several times the "Chicks" threatened to score but due to the breaks being against them it was impossible to overcome the lead of the Tech team.

The game was characterized by clean playing, good sportsmanship and fighting pep.
