The 21st District deserves a State Representative
who will value **the needs of residents** over
the profits of developers.

GUILLERMINA GONZALEZ

DEMOCRAT FOR STATE REPRESENTATIVE

I'm an immigrant, a Delawarean, and an American by choice.

I fell in love with Pike Creek sixteen years ago when my husband, Charles, and I were transferred to Delaware as corporate executives. I have worked to improve myself and the community ever since, earning advanced degrees, teaching, and serving many charities.

My broad perspective is shaped not only by my business experience, but by my nonprofit work where I have successfully advocated for the Arts, helping to boost Delaware's Arts spending to the 3rd highest in the nation.

I am passionate about building consensus and delivering results for the community. I've knocked on thousands of your doors to hear about the issues that matter to each of you.

I want to be your next State Representative.

Let's change the tone of politics in Delaware

I've knocked on thousands of doors and personally spoken to over a thousand residents. I keep hearing the same things across the district. We all want our community to be:

More Fair

Everyone should have a chance to attain prosperity. We can get there by building better, more equal schools and creating better jobs for everyone. I support a non-partisan redistricting process - so every vote counts and each voice is heard, wherever they live.

More Inclusive

Politicians should be more accessible to all their constituents and ready to hear their concerns, regardless of their personal politics or views. I am holding weekly events, open to the public where you can tell me what matters to you and how the government can help.

More Transparent

The best decisions are made in the open after everyone has had a chance to weigh in and be heard. I will work to make Delaware's legislative and purchasing processes more transparent, accessible, and accountable to the public.

More Independent

I have taken zero dollars from PACs because I want to work for you, the voters, not for lobbyists. I put my principles before party. I will only vote for measures I personally believe in, regardless of political pressure.

VOTE in the General Election Tuesday NOV 6th!

**GUILLERMINA
GONZALEZ**

DEMOCRAT FOR STATE REPRESENTATIVE

Money & Fairness in Politics

I believe politics in Delaware should be more fair, transparent, and inclusive. Our government should be accountable to voters, not lobbyists. We need to get money out of politics and even the playing field so a wider range of people can participate. We can reform our election process with non-partisan redistricting to prevent gerrymandering and implement ranked choice voting so everyone's voice is heard.

Criminal Justice Reform

Delaware sends too many people to prison for too long and almost 70% of those arrested end up back in prison. Our system should prioritize rehabilitation and prevention over ineffective, long, and expensive prison sentences.

Our police need to represent and be responsible to the communities they serve through strong civilian oversight and much greater transparency and accountability.

Green Jobs & Infrastructure

Delaware should modernize our economy and lead the green energy revolution in America. We can be the hub of a new, high-tech industry that creates new, high paying manufacturing and service jobs while lowering bills for taxpayers and preserving our environment for future generations.

Water Pollution in Hockessin

When toxic chemicals were discovered in Hockessin's drinking water, it took years before treatment was put in place and over a decade before becoming an EPA Superfund site.

I will work closely with the EPA and DNREC to ensure we quickly, responsibly, and completely clean the district's water supply. I will also ensure regulations and inspections prevent something like this from happening again.

Sensible Gun Legislation

To keep our schools and public spaces safe we need to keep weapons of war out of the hands of criminals and those prone to violence. If elected I would support strong, common sense gun safety laws like HB 375 and SB 163 banning high capacity magazines and assault weapons.

BETTER SCHOOLS & TEACHERS

You shouldn't need to send your children to private schools or move to Pennsylvania for them to get a good education.

As a professor I know how important high quality teachers are and I've heard over and over from voters in this district how much room there is to improve in Delaware. I'm not beholden to the teachers unions or any other special interest group.

TRAFFIC & INFRASTRUCTURE

Delaware's roads and bridges are key to our economic wellbeing. Traffic in our district has increased and we need to upgrade our infrastructure to keep everyone moving and children safe.

CRIMINAL JUSTICE REFORM

Delaware sends too many people to prison for too long, and almost 70% of those arrested end up back in prison. We should prioritize prevention and rehabilitation over ineffective and expensive long sentences.

Police officers need to represent and be responsible to the communities they serve and have strong civilian oversight including the use of body cameras to increase transparency and accountability.

We need to treat the opioid epidemic as a public health crisis, rather than arresting low level offenders. We must legalize and regulate marijuana to improve safety and increase revenue while combating crime and closing black markets.

GREEN ENERGY & JOBS

Green energy and industry bring the jobs of the future and can help improve our environment and economy. I want to see more low-cost solar and wind power in the state and support a carbon tax.

SENSIBLE GUN LEGISLATION

To keep our schools and public spaces safe we need to keep weapons of war out of the hands of criminals and those prone to violence. If elected, I would support strong gun safety laws like HB 375 and SB 163 banning high capacity magazines and assault weapons.

November 17, 2018

Dear friend,

This has been an incredible year!

Running for office has been an adventure, filled with unexpected challenges, new friends, and most of all a lot of very hard work. The experience left me inspired!

Thank you from the bottom of my heart! I would never have made it through this journey without your support and encouragement.

We came so close to winning! No one thought it was possible for a Democrat to seriously challenge a Republican in this district and we finished just one hundred and forty votes behind my opponent—out of 11,770! Our team's hard work and dedication got the attention of many across the state!

Whoever runs in two years has a great chance of winning and will start the race with a fantastic network of supporters and volunteers behind them. You are already part of this terrific group!

I really couldn't have done any of this without you. This process really showed who our true friends were and I'm so glad to count you among them.

So, what's next for me?

Right now, I feel at peace. Charles and I will take some time to relax, reflect, and regroup. We're going to visit with family in Mexico during New Years and come back with a fresh perspective and a plan.

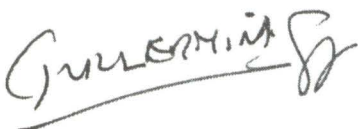

I don't know yet whether I'll run for office again, but I do know that I want to keep working to improve myself and my community. I'm looking for opportunities to serve and create positive change.

Please join me in continuing to be engaged in the community and finding places to make a difference. We've already proved that together we're capable of making great things happen. What we accomplished is just the beginning!

Charles and I wish you and your family the happiest of holidays, a relaxing close to 2018, and a joyful, impactful, and prosperous New Year!

Gratefully,

Guillermina

Paul Baumbach

23rd District Fall 2018 Update

I hope this newsletter finds you and your family well. Over the last year of legislative session, we've continued to make strides to improve the lives of every Delawarean. We had a successful budgetary process and invested in new infrastructure projects (roads, bridges, schools) across our state. We stood up for equal rights, and fought back against gun violence. There were struggles and disagreements, but they were outweighed by legislators coming together to create positive change.

This year I've knocked on doors, attended civic events, constituent coffees, and Facebook events to hear directly from many of you about your priorities. I had the opportunity this session to lead the charge on several initiatives that will have an impact on Delaware families and people here in the 23rd District. Read on for more information on the legislature's accomplishments, and some of the things I've worked on this past year.

State Representative Paul Baumbach
38 Country Hills Drive
Newark, DE 19711

DELAWARE General Assembly 149th Session Highlights

A Balanced Budget

I'm happy to report that this year's budget process went much more smoothly than last year's, and Delaware's fiscal year 2019 budget funds important priorities and programs throughout our state:

- **Raises and bonuses** for current and retired state employees.
- Increased **investment in public education**, including over **\$6 million** for reading teachers and special ed.
- Restored funding to the **Senior Prescription Program** and **Meals on Wheels**.
- **\$47 million** set aside for future years.

Fighting Back Against Gun Violence

*A new **Bump Stock Ban**, the **Beau Biden Gun Violence Prevention Act** and the creation of **Lethal Violence Protection Orders** will save lives in Delaware by helping to prevent gun violence.*

*The **Equal Rights Amendment** passed the General Assembly with overwhelming bipartisan support. It must pass again next session to become law.*

Improving Our Infrastructure

The "Bond Bill" funding capital improvements for 2019 invests \$816 million in our roads, bridges, schools, and other public resources - the most in a decade.

- **\$368 million** for our Transportation Trust Fund.
- **\$148 million** for school construction.
- **\$108 million** for maintenance and upgrades at state facilities.
- **\$1¹/₂ million** for clean water initiatives.
- **\$2 million** to support correctional officers at James T. Vaughn Correctional Center.

REP. PAUL BAUMBACH

Legislative Update

A Fair Shot For Every Delaware Family

HB 113 - Reforming the Earned Income Tax Credit

The **Earned Income Tax Credit** stabilizes income, provides incentives to work and puts families on firmer ground. My bill to reform it by making it refundable, passed by the General Assembly and will help lift more working families in Delaware out of poverty.

SB 170 - Raising the Minimum Wage

Working families in Delaware will receive a boost in wages in January thanks to a bill championed by Democrats in the General Assembly to **raise the minimum wage** by \$1 an hour over the next two years. Raising the minimum wage will help working people earn more to pay their bills and put food on the table - giving them the *fair shot* in our economy that they deserve.

Sandy Hook Promise began in the wake of a horrific school shooting, and works to empower students to help one another, prevent violence and learn when to take action. This school safety program is powerful and I am very pleased that Delaware schools are taking advantage of the organization's free learning tools, because every child should feel accepted, valued, and safe.

Insurance Coverage of PANDAS

*Pediatric Autoimmune Neuropsychiatric Disorders (PANDAS) are rare disorders associated with strep infections that can be confusing and frightening for children and families. I learned about these disorders from constituents whose daughter was diagnosed at 18, and championed **HB 386**, requiring insurance companies in Delaware to provide coverage for the disorders. I'm pleased that the General Assembly passed this bill and it will be signed by Governor Carney.*

End-Of-Life Options

HB 160: My bill to provide medical-aid-in-dying to terminal patients didn't pass this session, but we came close. I will continue to be a champion for Delawareans asking for options at the end of their lives.

HB 160 includes several steps a dying person must take before receiving medication to end his or her life, including: presentation of all end of life options which include comfort care, hospice care, and pain control; a physician's evaluation; medical confirmation by a second physician; psychiatric/psychological counseling when indicated; passage of two waiting periods; and the completion of a formally witnessed request for pre-scribed medication. A person making the request may rescind that request at any time, and can decide at any time not to use the medication.

In Our Community

Responding to an emergency along the miles of trails and paths that aren't accessible to normal vehicles is a huge challenge for fire companies like Aetna Hose, Hook & Ladder Company, which is why I joined Newark-area legislators to purchase an ATV for the company.

The ATV will allow firefighters and EMTs to quickly and effectively respond to emergencies, whether it's an injured person or a brush fire (the ATV is equipped with a 55-gallon water tank to fight small fires in addition to a stretcher).
