Col. Geo. W. Dunn To Resign CD Post In Wilmington

Newark Resident To Keep
Position As New Castle
Co. Civil Defense Chief

Col. George W. Dunn will resign Jan. 31 as civil defense director for Wilmington, and will continue as New Castle County defense chief at an increased salary.

Colonel Dunn has headed the county organization since March 1, 1952, and the city unit since the following June, each job being considered as "part time," and paying \$3,000. Under the reorganization set up envisioned by the Levy Court, he will be on full-time status as county director, at a salary of \$4,200.

Other considerations affecting his decision are the fact that he is not a resident of Wilmington—he lives on a farm near Newark—and the fact that he has received considerable more cooperation from the Levy Court than from Wilmington's City Council.

County appropriations for civil defense totaled \$30,000 in the last fiscal year, and \$35,000 in the current one. Last June, Colonel Dunn asked the County Council for \$70,000 for the city civil defense program for 1953-54. He received \$4,800, which includes his \$3,000 city salary and an annual office rental cut recently from \$1,800 to \$1,500.

Colonel Dunn served without pay as county director from March 1, 1952, until the end of that year, before going on the payroll, and also served as city director without pay from his June appointment until the end of that year. A retired Regular Army officer, he was chief of the Delaware Military District before his retirement May 31, 1951.

Jaycees To Assist March Of Dimes With Coin Scales

The Newark Junior Chamber of Commerce will initiate a two day coin scale drive for the March of Dimes to collect ten pounds of coins starting at 6 and ending at 9 o'clock Friday night. On Saturday, the drive will start at 10 a.m. and end at 6 p.m.

State Board Withholds Final Approval of School Program

Special Dover Conference Attended Monday By Local
School Officials Sees "Go Ahead" On Building
Plans Submitted At State Bd. Of Education Meeting

The State Board of Education withheld approval of the plans for the new Newark high school and for the permanent elementary school building at Brookside, at the regular monthly meeting of the State Board of Education in Dover last Thursday night, and a delegation of Newark public school officials traveled to Dover on Monday to confer with Dr. John Shilling, assistant state superintendent of secondary schools, concerning the Newark program.

Representing the Newark schools at the Dover conference were Wilmer E. Shue, local school superintendent; Frederick B. Kutz, Newark High School principal; Frank Mercer, agriculture teacher; Doris Dean, home economics instructor; and E. Wm. Martin, the architect who prepared the plans.

The State Board of Education withheld approval because members of the group felt that they were not completely informed on plans for the Newark district school buildings as agreed upon by local planning committees of parents and teachers.

Mr. Shue said that Dr. Shilling, had been invited to the planning meetings which were held in Newark.

Following the Monday conference with the visiting Newark delegation, Dr. Shilling and his staff approved the plan, which must be finally approved by the State Board of Education at their next meeting.

This preliminary approval, Mr. Shue indicated, is tantamount to final approval by the State Board of Education.

In the early stages of the high school planning program, Mr. Shue stated. In order to obtain a new high school for the Newark Special School District by September, 1953—and that date is feasible—complete cooperation at all levels is imperative.

Failure to obtain State Board of Education approval of the preliminary plans for the new high school, and approval of permanent plans for the elementary school building at Brookside, would have necessitated a delay in the Newark School District building program.

As a result of the special conference in Dover on Monday, however, the Newark school building program may continue without serious delay for action by the State Board of Education at the February meeting.

The plans prepared after study and discussion by the Parent-Teachers Association, school officials, and other interested persons of the community, call for construction of a 15-room building at Brookside, similar in most respects to the West Park Place school building now under construction, and a new high school building designed to accommodate an eventual enrollment of 1200 pupils.

The White Oak 4-H Club will hold its monthly meeting tonight at the home of Jackie Naudain on Paper Mill Road. Miss Gertrude Holloway, state leader, will be the guest speaker.

Mr. and Mrs. Charles E. Davis of Morton, Pa., are the proud parents of a son born Jan. 20 at the Delaware County Hospital at Lansdowne. Charles Keith is the baby's name. This is their first child. Mrs. Davis is the former Miss Margaret Shakespeare, daughter of Mr. and Mrs. Marvin Shakespeare of Love.

Mrs. Paul W. Mitchell, the new president of the Hockessin branch of the Needlework Guild, called a meeting of her directors last week when plans were formulated for holding monthly sewings after the guild formed a directorship. The sewings will be held the first Thursday of each month from 10 a.m. to 4 p.m. The first one will be Feb. 4 at the home of Mrs. Mitchell. Each director is to bring a box luncheon.

Mrs. J. B. Eastburn and Mrs. Paul Woodward will have charge of cutting the garments from flannel. The dresses will be cut by Mrs. John Dennison and Miss Sue Brackin.

All garments made will be placed on a memorial table honoring directors of the past.

The Waverly Club members heard facts about conservation from Robert Struble of the Red Clay Creek Valley Association. The speaker suggested development of all resources—soil, water, and wildlife—at one time. He urged conservation in the home and the support of community projects for the elimination of pollution and soil erosion. Mrs. Fred C. Earle was program chairman.

The next meeting will be devoted to sewing and quilting at the Hockessin Friends Meeting House. Each member will bring a box luncheon.

Mrs. Paul Mitchell read a poem "Guidesposts to Peace."

The Womans Home Demonstration Club installed officers and named new chairman at its monthly meeting. The club contributed \$5 to the March of Dimes and Mrs. Amos Laurence reported \$21.29 realized from the sale of cards. This project will continue.

Cake decoration was demonstrated by Mrs. Charles Harrington and Mrs. Laurence.

Johnny Harper, son of Mr. and Mrs. Alex Harper of Yorklyn, had a surprise party in honor of his 12th birthday anniversary on Jan. 18 at the Yorklyn Club House. He had 28 guests, many of whom were his classmates at Yorklyn School.

Red Clay Creek Presbyterian Church

The Aid Society will be entertained by Mrs. Irwin G. Klair tonight for its monthly meeting. The roll call will be reminiscences of old days.

The men's League heard a talk by the Rev. Dr. John W. Christie, pastor of Westminster Presbyterian Church and an authority on early Presbyterianism in Delaware, at the bi-monthly meeting last Thursday night. There were 50 men present.

In giving the historical background of the Scotch-Irish Presbyterians, he described their hardships and their immigration to this country. These pioneers settled in the area around Wilmington and Newark. They established the Red Clay and White Clay Creek Presbyterian Churches early in the 1700's.

He paid tribute to their fine principles, outstanding characteristics, and personalities. The Rev. William McKennan, first pastor at Red Clay and his family, contributed largely to the educational walks of life. A son, Capt. William McKennan, served in the Revolutionary war. The Twenty-Niners furnished music and Mr. Jamieson directed group singing.

The Boy Scout Troop has a full program for next month. Last week-end, about 18 scouts and their scoutmaster, Edward Smith, had an outing at Fisherman's Lodge, Camp Rodney.

On Feb. 7, in observance of Boy Scout Sunday, the troop will have charge of the church school period and take part in the morning worship.

Next Wednesday at 7 p.m. Mrs. M. A. Shakespeare will give an evening demonstration. Parents' Night will be celebrated Feb. 10.

Paul Hitchens, Millard Goss, and Norman Klair were elected elders for three years at the congregational meeting and were installed Sunday morning.

Red Clay plans an addition to the church school so that better facilities may be offered the rapidly increasing enrollment. A seven member committee is to be named to set up plans for raising funds for the expansion program. C. Wardon Goss, Robert M. Walker, J. Earl Woodward, H. W. Pierson, and W. Leroy Parker, form the new building committee. The present church membership is 432 and the church school 420.

THE PROBLEM OF CHRONIC ILLNESS

One of the most difficult of medical problems lies in the financial strain imposed on families when a member is afflicted with long-term chronic illness. It is estimated that some 4,000,000 Americans suffer from this kind of illness.

Luckily, very intensive work is being given to find solutions. In 1949 the American Medical Association and other groups founded a commission for the express purpose of making a detailed study of the whole problem. And the AMA has joined with the American Hospital Association, the American Public Health Association, the U. S. Public Health Service, and the American Public Welfare Association in sponsoring a major conference on the subject, to be held in Chicago next March. The conference will be divided into five major categories covering the chronically ill—the patient at home, the patient in an institution, integration of facilities, research needed, and methods of financing.

We would be foolish indeed to believe that so complex a problem can be solved in a hurry. We would be equally foolish to believe it is incapable of sound solution. The improvement that has taken place in many fields and phases of medical care in a relatively short time is nothing short of amazing. An outstanding example here is the growth of the various voluntary prepayment plans which now provide tens of millions of people with protection against the economic effects of short-term illness.

American medicine, in company with other agencies, is vigorously working on every medical problem not yet solved, and is confident of ultimate success.
