Dean Theodore C. Blegen Speaks at Commencement

Ph. D. Degrees Will Also Be Presented

Dean of U. of Minn. Graduate School

Dean Theodore C. Blegen of the University of Minnesota's Graduate School will be the commencement speaker at the University of Delaware on Monday, June 7, it was announced today by H. K. Preston, chairman of the committee for the exercises.

Dean Blegen's address will be particularly appropriate, Mr. Preston pointed out, since at the exercises Delaware will confer the first earned Ph.D. degrees which it ever has granted. At that time, in addition to approximately four doctorates, the University also will confer some 37 master's degrees—a record number—and about 200 baccalaureate degrees.

An innovation in the commencement program is that fact that for the first time in many years it will be held out-of-doors. Because of the size of the class, Mr. Preston said, it was thought desirable to accommodate as many relatives and friends of the graduates as possible. Therefore, chairs for 1800 persons—about twice the seating capacity of Mitchell Hall—will be placed on the campus in front of University Hall. In case of rain, the exercises will be held in nearby Mitchell Hall.

Dean Blegen, who also is professor of history at Minnesota, is a specialist in American social and cultural history. He formerly was superintendent of the Minnesota History Society, a Guggenheim Fellow, and president of the Mississippi Valley Historical Association. During the recent war, he was director of the national Historical Service Board which prepared material for the Army's "G.I. Roundtable."

He also is the author of many books, including "Grass Roots History," published last year a history of his native state of Minnesota a two-volume monograph on Norwegian migration to America; and a collection of immigrant songs and ballads. His hobby is collecting ballads.

Dean Blegen is chairman of the Graduate Council of the American Association of Land Grant Colleges and Universities.

Dr. C.R. Kase Again On ANTA Board

Re-elected Member Of Board for Three Years

Dr. C. Robert Kase, director of dramatics at the University of Delaware, has been re-elected a member of the board of directors of the American National Theatre and Academy. He will serve a three-year term ending in 1951.

Dr. Kase originally was elected to ANTA's board as a representative of the American Educational Theatre Association, of which he was president last year. ANTA, chartered by Congress, seeks the establishment of a national theatre for the United States.

Other board members of ANTA who were re-elected at the meeting when Dr. Kase's term was extended include Brooks Atkinson, Clarence Derwent, Vinton Freedley, Rosamond Gilder, Robert Porterfield, Oscar Serlin and Lee Simonson.

Dr. Kase will spend the coming (Continued on Page 6)

DEAN T. C. BLEGEN

Dr. Beck To Leave At End of Summer

Will Become Professor Of Philosophy at Lehigh

The resignation of Dr. Lewis W. Beck, associate professor of philosophy at the University of Delaware, effective at the end of the summer, was announced May 15 by Dr. William S. Carlson, president of the University.

Dr. Beck will become professor of philosophy at Lehigh University in September.

He came to the University of Delaware in 1941 as head of the philosophy faculty, but from 1942 to 1945 he was on leave from Delaware to join the Hercules Powder Company's staff, preparing technical bibliographies and translations, and administering the technical library.

Dr. Beck is a native of Georgia and holds an A. B. degree from Emory University and two graduate degrees from Duke University. He taught at Emory before coming to Delaware. A new translation of Kant's ethical writings will be published by Dr. Beck next year. He is a former president of the American Philosophical Association, and now is chairman of its national committee on employment.

Dr. Francis H. Squire, dean of the University, said that a successor to Dr. Beck at Delaware would be appointed soon.

James Goldey New Math. Club Leader

Other Officers Include Peter, Russo, Prettyman

James M. Goldey, of Wilmington, a sophomore here, has been elected president of the Mathematics Club for the coming year. Goldey, a physics major, formerly was corresponding secretary of the club.

Other officers named were: Vice-president, Nancy Peter; corresponding secretary, Julian Russo; assistant corresponding secretary, Milman E. Prettyman, Jr.; recording secretary-treasurer, Leon Katz; social chairman, Patricia Reybold; assistant social chairman, Margaret Simon.

The officers were elected at a meeting at which Mrs. J. Edmund Thompson, Jr., a mathematician and supervisor of a unit at the Ballistic Research Laboratories, Aberdeen Proving Ground, spoke on "Some Phases of Applied Mathematics."

Local Fraternity To Join National Rank

Delta Tau Delta to Grant Charter to Delta Sigma

A telegram was received on April 26, 1948, by Allen Wise, former president of Delta Sigma Fraternity of the University of Delaware, approving that organization's petition for charter to Delta Tau Delta National Fraternity. Thus climaxed an extensive campaign of petitioning which began about six months ago. Installation into the national is expected to take place soon after the beginning of the fall term, 1948. Following the receipt of the telegram, plans were made to send several delegates to the University of Maryland for the installation there of this same national fraternity on May 23 and to an August convention of Delta Tau Delta at French Lick Springs, Indiana.

The new charter officers, who will preside at the ceremonies this fall, are Harvey C. Day, Jr., president; Edward Fagan, vice-president; Robert Day, secretary; and Leon Stayton, treasurer. These officers were elected at the annual election held last March.

Harvey Day, who succeeds Allen Wise, hails from Findlay, Ohio, and is a Sophomore in the school of Arts and Science, majoring in Business Administration. He served three and a half years as an air gunner in the Pacific Theatre during the war. He was on the Freshman Rules Committee and active in intramural sports.

Edward Fagan is a Junior, majoring in Psychology. He is a graduate of P. S. du Pont High School. In the service he served as a U. S. Navy pilot in the Asiatic-Pacific Theatre. He was formerly secretary of the fraternity.

Robert Day, a Junior, is majoring in English in the school of Arts and Science. He served a year and a half in the service and is active in the Blue Hen, the Cauldron, and the Augustan Society. Bob also comes from Findlay, Ohio, and attended high schools in New Jersey, Connecticut, and P. S. du Pont in Wilmington.

Leon Stayton, who is serving his second year as treasurer, is a Junior, majoring in Business Administration. He attended P. S. du Pont High School and served in the European and Asiatic Theatres while in the service. He is an Advanced R.O.T.C. student and a delegate to the Inter-Fraternity Council.

Veterans Respond Best to Dating Poll

They Turn in 44 Out Of The 100 Cases in Study

Out of four hundred questionnaires distributed to the students two weeks ago, one hundred twelve were returned and of these one hundred have been scored. It is requested that students who have not as yet handed these questionnaires in do so, as research has only just begun. The distribution thus far is as follows:

Girls	43
Boys	57
Resident Freshman	9
Resident Sophomores	13
Resident Juniors	8
Resident Seniors	8
Commuted Freshmen	2
Commuted Sophomores	2
Commuted Juniors	1
Commuted Seniors	0
Non-Vet Resident Fraternity	4
Non-Vet Non-Fraternity	3
Commuted Fraternity	12
Commuted Non-Fraternity	4
Veteran Resident Fraternity	18
Veteran Non-Fraternity	7
Commuted Fraternity	2
Commuted Non-Fraternity	17

An attempt has been made to score for Rural and Urban, Secularized and Non-secularized, family and individualistic qualities of (Continued on Page 9)

Freshman Initiation Will Be Re-established In Fall

Student-Faculty Meeting On May 18

Student Initiative Urged On Problems of Interest

The Student-Faculty Senate, for the mutual benefit of both students and faculty, held a meeting in the office of President Carlson, on Tuesday, May 18. All members are working towards achieving a better relationship between students and faculty. However, the members of the Student-Faculty Senate feel that they have heard too little from the student body itself. It is requested that the students make known their desires by writing to the S.G.A. and to the REVIEW.

The issues on the agenda Tuesday night were all for the students benefit. The students are asked to take notice of these topics and to write letters expressing their opinions.

A student lounge located beneath the East Wing of the Library. The funds for the furnishing of this lounge would be met by both the University and the S.G.A.

A 5-1 meal ticket for the benefit of the commuters. This is in response to a request of the commuters and this group is asked to send in their opinions on this matter.

A drive to be constructed on Frazer Field circling the Training House in order that both students and faculty can enter the Field House without wading through seas of mud or being drenched on a rainy night.

Bruce Ayers Pres. Of 1948 Alumni

Final Preparations Made For Big Senior Week-end

At a meeting held on May 13, permanent alumni officers of the class of '48 were elected. H. Bruce Ayers of Dover was elected to the post of president. Bruce, one of the most active students on campus, has served as President of the E-52 Players, Recorder of Sigma Nu and Captain of Cheerleaders, and recently has organized a chapter of Alpha Phi Omega, national service fraternity on this campus. The permanent vice-president will be Bob Cofer, well-known athlete from Delaware City. Bob, who is a trackman, was the president of the class this year. He is a member of Kappa Alpha and served this year as captain of the Hen swimming team. The post of secretary will be filled by Don McLellan, erstwhile musician from Sigma Nu. Don held the post of Publicity Chairman of the SGA Social Committee this year, and was chairman of that committee last year. Bob Levis, popular Newark lad, will handle the finances for the class of '48. He is a member of the Sigma Phi Epsilon fraternity.

The senior class is making final preparation for their big Senior Week-end. It is hoped that the success of this year's weekend will enable this affair to become an annual event.

The Student Government Association is now planning the social calendar for next year. All organizations are requested to send their plans for social functions for the coming year in to Bill Gordon, Social Committee Chairman, in order that dates may be arranged.

Rules Will Be Fair And Not Too Harsh

Co-operation of All Current Students Requested

Freshman regulations will be re-established on the campus of the University of Delaware next fall. In order to make this effort a success it is necessary to have the co-operation of all U. of D. students. The suggested Freshman regulations for the year 1948-1949 are as follows:

1. Freshmen must wear the regulation garb until Thanksgiving. This garb will consist of the "dink" and the name button. The garb MUST be worn at all times on the campus and at all athletic events.

2. Freshmen will greet all members of the faculty, upper-classmen and sophomores at all times and address the above mentioned as "Sir" or "Ma'm".

3. Freshmen MUST learn the Alma Mater and all University of Delaware songs and yells before the end of Freshman week. They must also be able to answer any questions concerning the Constitution of the Student Government Association.

4. Freshmen will not walk on the grass and are forbidden to sit on the upperclassmen's wall.

5. Freshmen are prohibited from wearing any "high" or "prep" school insignia of any kind.

6. All Freshmen are required to attend all pep-fests during the football season.

7. All Freshmen must assemble in a group 45 minutes before every home football game and march into the stands in a body. Attendance will be checked and no Freshmen will be admitted to the stadium unless he is with the Freshmen group.

8. Freshmen are required to attend all College Hours and University Assemblies during the Freshman year.

9. Freshman rules will be in effect from Monday, 8:00 A. M. to Saturday, 6:00 P. M.

Papy, Tatnall Win Recommendations

Nominated for Positions In Reg. Army Air Force

Robert H. Papy Jr., Lt. Col. of the ROTC battalion at the University and a graduate student in Business Administration, and Phillip R. Tatnall, Cadet Captain commanding Battery A, also a student in Business Administration, were notified today by the Adjutant General, Department of the Army, that they had been nominated for appointment in the Regular Army Air Force. Appointment will be made during the summer after completion of routine physical examination and completion of ROTC and University requirements.

Both of the students were earlier appointed Distinguished Military Students by Colonel R. T. Pendleton, P. M. S. & T., and approval of Dr. Carlson, president of the University. They are currently scheduled to attend ROTC summer camp at Fort Bragg, N. C., this summer. Letters of congratulations were received from Honorable J. Caleb Boggs and Senator John J. Williams.

Arm-Chair Generals

In the past year, out of the ranks of the student body has come probably the most amazing collection of athletic experts, grandstand managers, and Monday morning quarterbacks ever assembled for the purpose of criticism of honest effort. From the time Bill Murray and his gridders took it on the chin from a crowd out of their league last fall, down to the occasional donneybrooks heaped on Shack Martin's very capable diamond nine, the bleatings of the side line experts have become extremely blatant and rather annoying. The REVIEW has been among these offenders.

Much of the noise has come from a rather athletically barren crowd who compensate for their exclusion from varsity competition with criticism designed to level off the extremes in popularity brought on by athletics. The more noticeable, and the more dangerous, blast comes from a disgruntled group of dreamers who have been connected with the system at some time or the other. Most of them are of the type found in the kindergartens—"I pitch or I don't play". They have either been cut from squads or have retired rather than ride the bench.

The records speak for themselves. The men who bear the brunt of participation are actually the victims of this prattle, and in some cases the efficiency of the coaches has been impaired. It has been agreed upon by people longer in the business than any student in this school that an opposite flavor of criticism would put more scores in the black. There is always the alternative of putting on the pants and trying it yourself.

J. M. G.

The Open Door

In response to popular request of the student body the door leading from the basement of the library to the upstairs will be open. Since this stairway opens onto a corridor which is directly outside the West Wing reading room, the students using it are urged not to congregate at the head of the stairs or at the foot. Any noise issuing from these stairs will be heard in the reading room and if the noise is loud enough to disturb those who are studying the door will again be closed. Another danger issuing from the use of these stairs is the fact that they are narrow and dark. This is a situation which cannot be corrected and so caution must be used if accidents are to be avoided. The door is open only for a trial period and any violations in the use of it will result in its being closed again.

The Review Salutes

This being the last issue of the REVIEW for the semester, we feel this is a time to look back over the past year and pass out compliments where we feel they are due. It is true that this year was characterized by a general apathy which surpassed anything the campus has ever known. Yet despite this, many things were accomplished by the student body, by the faculty and by the administration, which were a credit to the University. And so the REVIEW salutes—the SGA for formulating a new and workable constitution; the Social Committee for a series of fine dances; the football team, which experienced its first defeat in many a year and then came back fighting in succeeding games; the E-52 Players and Dr. Kase for their many fine performances on the Mitchell Hall stage; the I.R.C. and especially the four delegates who so ably represented Delaware at the collegiate U.N.; Dr. Sypherd and the rest of the Student Center Committee; the Junior Class for initiating a Junior week-end; Dan Button for his work in the Public Relations office and for the help he has given the REVIEW Staff; the cheerleaders for their efforts to arouse school spirit; the University Band; Alpha Phi Omega for their work in the Red Cross Drive; the members of the W.A.A. for getting women's sports rolling again; Dick Kiddoo for his untiring work on the REVIEW; and last but not least to everyone who has done something, no matter how small, to further the interests of the U. of D.

And along with this list of congratulations goes the wish that next year may see an even more impressive one.

The Geyser

By JIM REAGAN

Here we sit with a large sheet of white paper and visions of hour tests, finals, formals, initiations and lab. reports buzzing in our mighty mind. Writing the last column of the year should be our happiest task, but for the life of us we can't dig up that last spark of genius to make you remember us till next fall. Our sparkling compatriot Wee Willie Wright, has been as fortunate as Jeff Crockett with his visitations from the Muse but we're just a-wearying for vacation and California, and sex on the beach.

Jack Veale and Bob Grubbs have just given us a smile, a pat on the back and the suggestion that we try the D.P., but even Budweiser has lost its appeal. We've been told jokes, watched Bill Hughes fall over in his chair, and have been beaten over the head, and we still can't lose the feeling of needing a fifth and a place to fall. The only good suggestion we've had was a hearty "Drop Dead" from our roommates. From what we've been able to see we're not alone, tho'. There hasn't been a happy face all week—we're used to missing them before breakfast, but gloom all day is pretty rough.

The only bright spot of the week so far has been Bergman's "Weather Angle". If we hadn't known it would be 107° on July 31, 1950, we wouldn't have bought that extra case. How much can you know?

There was another bright spot in campus life last weekend—the May Day Dance. If we were in a crusading mood, dances like that would be our first goal. We've heard nary a word of complaint—not even a veiled one. The music, the decorations, the floor, the price, and the non-corsage and tux idea hit the males, at least.

Since we've given the rest of the frat dances our neat touch, we feel it's only fair to mention the Delta Sigma and Pi Kappa Alpha shindig this Friday. Advance information. "Lover" Scari and two redheads; Dukes and Ewing will share the limelight. Sex rears its ugly head again.

All right, so we're still thinking about exams. But we wonder, just as you, why any department should think that an hour test is a necessity at this late stage of the game. It seems as though our high-powered intellects would be able to realize that most people here are taking more than one course—and that there may be a little make-up required in some. With seven finals and four hour tests staring us in the face—and because of the two nights a week we spend in that sweat-box under the Library—we're very biased, though. Engineering is finite, so they say—and so is the homework. Maybe we should call this the Wailing Wall.

We're sorry that we've relegated Alpha Sigma Delta's formal to this low spot on the page, but we haven't been able to find anyone who can say more than "It was wonderful" and develop a starry stare—grade one.

We leave this term with memories of: a reject on our first column . . . good luck or poor taste after that . . . cigarettes, a bludgeon and a pencil . . . the Junior Prom with Claude Thornhill and Candy Barr . . . Muhlenberg and the convention . . . figuring what our stomach could stand at the State . . . and our wallet could stand anywhere . . . bright hopes and rough courses . . . frat formals . . . basketball . . . the warm weather unveiling on lower campus . . . contest after con-

(Continued on Page 4)

CAMPUSODES

By BILL WRIGHT

We came across a very strange fellow the other day. He was coming down campus, doing an Irish Jig, whistling "Who Slapped Annie on the Shoulder with a Flounder" and juggling three crab cakes from the State Restaurant.

"There's something fishy about this character," we said to ourself and waylaid him with the lasso we use for interviews.

"How now, my good fellow," he said.

"Ah! an English major," we said.

"No, just meeting requirements," he said, letting the third crab cake crush resoundingly to the ground. After the echoes had died away we asked him what made him so chipper.

"Well," he began, "if you don't mind a few value judgments, I'll tell you or at least indicate it and leave the rest to your intuition. It started Friday in quant. lab. when I added up my limestone percentages and got 130. Must have been a strong sample I said to myself and turned in the notebook.

Oh, well, summer school isn't so bad, and I'm satisfied."

We loosened the rope and let him breathe once or twice.

"My," we said.

"My, hell," he said, "that's not all. Yesterday I broke my slide rule."

Tears came to his eyes and we nodded sympathetically.

"But," he continued, blowing his nose with some No. 42 Whatman, "I'm satisfied."

"Gad," we said.

"Gad, nothing—jeepers," he said, "there's more. I took the German Reading Test today."

"How'd you make out?" we asked.

"Ha," he said, resting his chin on the heel of his right foot, "but still, I'm satisfied."

He smiled ingratiatingly, showing a strong white tooth, and eased the noose about his neck.

"I broke my right arm a while ago," he continued, "trying to write a term paper between classes."

"Did it hurt?" we asked rapping his bandage with a stick.

"Yeh," he said, "but, I'm satisfied."

"Tell us," we said, "you're an amazing fellow. Everything's wrong but you're content, you're satisfied with your lot. How do you do it?"

Without bothering to answer he deftly slipped the rope from his neck, kicked us viciously in the stomach and scampered down toward lower campus, twirling our lasso about his head. When we were able to shrug our shoulders, we shrugged them. Then we bent down and picked up something our friend had dropped—a pack of Chesterfields. Now we're satisfied.

LETTERS TO THE EDITOR

TO the Editor:

Is it gross disrespect, or ignorance that makes our fellow students place books and other paraphernalia on the memorial pedestal in the Library? It strikes a definite discord in my being, too, to see students sit on the new memorial marker in front of Mitchell Hall to carry on their bull sessions. Whatever the cause, I hope we can enlighten the ignorant and teach the disrespectful.

Very sincerely yours,
H. Bruce Ayars

Tuesday, May 18

TO the Editor:

Concerning the letter written by John Shields, Bob Caulk, and Bruce Laird, I must say that I'm forced to disagree with the thoughts implied by it.

Reading their letter over and over again, the opinion that sticks most in my mind is the fact that they seem to have a repellent attitude toward certain student activities on this campus. Now I don't like to be "pushed around" either, but I think a "verbal going over" by the editor was most appropriate at that time. For elections as important as the class and SGA, the student interest and voting should be 100%. We all realize the miserable turnout at our polls several weeks ago.

It is difficult for commuters to devote precious time toward extra-curricular activities. I do think that each one of us should participate to the extent that we are able. The editorial by Miss Furth stressed a fundamental weakness on this campus—specifically, the general lack of student interest in the majority of important events that take place. Come, come, men! Let's not be bitter! A good old tongue lashing never hurt anyone!

Sincerely yours,

Daniel F. Shields

TO the Editor:

After looking at the examination schedule which was posted this morning, we came away pretty confused and disgusted, wondering just what is the reason for the exams being so crowded together.

When a student taking a regular course (we refer right now to the regulation Business Administration curriculum) has two examinations falling on Saturday and two more the following Monday, it looks to us like the poorest job of planning we've seen for a long, long time.

T. E. R.
R. A. W.

Weather Angle

By WILLIAM M. BERGMAN, 3rd
May 20th to May 31st and
Extended Predictions

May 20th will have fair weather and moderate temperatures. May 21st to 26th will be warm and light thunder showers on the 24th; the 27th to 31st will be unusually warm and have maximum temperatures in the low 90's. June 1st will be partly cloudy and warm followed by scattered thunder showers; highest temperature of the year will be 96° on June 1st or September 7th. June will be warm and dry. July will be cool and wet. August will be pleasantly cool and dry. September will probably have subnormal in temperature and above normal in rainfall. October and November will be cool and wet. December will be mild and rainfall will be above normal. The winter of 1949 will be mild. Snowfall will be light and subnormal. Spring of 1949 will be late and backward. A prolonged severe winter will occur from December, 1949, to the end of March, 1950 with subzero temperatures from January 27 to 31st, 1950. Snowfall in the winter of 1949-1950 will be above normal and may total over 40 weeks. The summer of 1950 will be a prolonged hot one with maximum above 100° F. with 107° on July 31, 1950.

SPORTS

Peggy Chew Leach Badminton Champ

Mrs. Hal Leach, formerly Peggy Chew, a senior and a scholarship student, is the badminton champion at the south end of the campus. In the W.A.A. Tourney, Peggy, who is fast and light but who also has a terrific smash, overwhelmed her opponents in the tournament until she reached the finals. In the final match with W.A.A. President Irene Short, Peggy bowled over "Shorty" to become the official champ on May 6th. Final score was 11-1, 11-2.

A quick look into Peggy's past shows that Peggy went all through school in Malaya where she played badminton particularly and other sports that we play in this country. Peggy's brother was the badminton champion of their school at one time and Peggy reached the finals

Photo by Dick Meixell

but was defeated. Badminton's great popularity in Malaya is due to the English influence there, Peggy maintains. Following her preliminary education in Malaya, Peggy left her home and went to Hong Kong University in 1941 but her stay there was short-lived as it was for students all over the world. The war broke out and Peggy went to Free China and tried to finish her education. In the final year of war, Peggy worked for the United States Army as a secretary, receiving a scholarship here at the conclusion of the war. Graduation is just around the corner for Peggy, and after that she will travel to California, UCLA, to begin her graduate work. Peggy hopes to play a lot more badminton, her favorite, in California where there'll be plenty of warm weather all year 'round.

Winner of the Consolation Tournament is Elsie Foulsham, who defeated Charlotte Hedlicka 3-11, 11-6, 11-5.

Annual Schoolboy Meet Saturday

Nearly 375 schoolboy athletes, representing 16 Delaware high schools and 15 junior high schools, will compete in the annual Delaware Interscholastic Track and Field Meet, on Saturday afternoon at Frazer Field, Newark.

The number of contestants is about 25 per cent larger than last year, when there were 287 boys entered from a total of 15 high schools and 12 junior high schools.

Coach Ken Steers of the University of Delaware, who is directing the interscholastics, announced the entering schools as follows:

High Schools (224 boys): Brown Vocational High School, Caesar Rodney, Claymont, Conrad, Dover, A. I. duPont, P. S. duPont, Felton, Howard, Middletown, Milford, Newark, Salesianum, Sanford Preparatory, St. Andrews, and Wilmington. Junior High Schools or departments (149 boys): Bayard, Caesar Rodney, Claymont, Dover, A. I. duPont, P. S. duPont, Ferris School, Howard, Milford, Newark, Salesianum, Sanford, St. Andrew's, Warner, and Wilmington High.

The meet will start at 1 p.m., daylight time.

In the Henhouse

By SCOTTY MURDOCK

The Women's Athletic Association recently elected new officers for the coming year. President of the Association for the coming year is Jean Cameron, diminutive physical education major from Camden, Delaware. Jean, a popular athlete, well-versed in all sports, matriculated from Dover High School in 1945 whence she came to the University of Delaware. "Cammy" has held the positions of Secretary and Vice-President in the W.A.A. during her stay here. Serving as a captain of several teams, Jean was also elected to the All-Delaware Hockey team last fall. After graduation, "Cammy" will go into public health.

For vice-president, we have Sally Wooleyhan, Newark High protegee, who is also majoring in Physical Education. Sally, who has been called "Joe Verdeur" since her recent victories in the Inter-Dorm Swim Meet, excels in that swimming art and basketball and track. In her Freshman year, Sally was the Freshmen Representative to the W.A.A., and has served as manager for many sports. When Sally graduates next year, she will enter the physiotherapy field.

Mary Gordy, better known as "Fuss", came to Delaware from Laurel last year and like the other officers is majoring in Physical Education. "Fuss" will take over the post of secretary.

A Freshman Phys. Ed. major, Ruth Clements, will take over the position of treasurer. "Clem" is a down state girl from Milford, Del.

☆☆☆

We know that bad weather has kept the tennis matches to a minimum and the schedule is out of wack, but Lois Weber, manager, asks that all participants play their matches off as soon as possible. After the first match is over, contact your next opponent quickly and try to get the tournament over by exams.

☆☆☆

The boys at the north end of the campus have instilled a desire to play lacrosse in the hearts of the feminine members at Delaware, and therefore the Women's Phys. Ed. Dept. has gone ahead and ordered equipment for next season.

Hens Bring Streak Up to 5 Straight

Coach Shack Martin's fighting Blue Hen nine defeated a highly-respected PMC team here last Saturday 9-5 before a large Alumni Day crowd. The win brought the season's record up to 11 victories and 6 losses and extended the current winning streak to five straight.

Billy Roy started on the mound for the Hens but immediately ran into trouble when the Chester lads thumped him for four safeties and three runs in the first inning. Jim Collins relieved Roy in the second and held the visitors to two runs and four hits the remaining eight innings to get credit for the win.

Larry O'Toole's big bat led the victors' 13-hit attack as he banged out three hits in four trips to the plate. O'Toole's stickwork was appropriate to the occasion, as a large delegation from the Delaware class of '23 cheered for the portlander bearing the number 23 on his jersey. Albee Thorpe, Tom Silk, and pitcher Collins each contributed two hits and were instrumental in the Hens' five run rally in the 7th.

Lacrosse Men Won Two Last Week

The Delaware lacrosse team broke into the winning column twice last week to make it three and three for a .500 average—so far.

On Wednesday afternoon, May 12th, Delaware fans saw lacrosse mayhem on Frazer Field as the Rawstrom-coached clubbers defeated West Chester 9 to 6. It was sweet revenge for the veterans of last year's informal lacrosse club who suffered two defeats at the hands of West Chester. An aggressive but overconfident West Chester aggregation soon found that experience pays off when there is fight and a will to win. This year's varsity club, vastly improved over last year's informal outfit and much improved since the lacings it took from Duke and Virginia, went out on the field Wednesday and from the starting whistle showed West Chester that it had a ball game on its hands.

Peckerman, West Chester's star center, faced-off with Gordy Bierman, Delaware's captain and mainstay of the team; in less than a minute Peckerman fired one into the goal to put West Chester ahead 1 to 0. Delaware came roaring right back, however, with three goals by "Cappy" Bierman, Walt Benoit and Don Swan. This made it 3 to 1 Delaware but West Chester came fighting back to go out ahead 4 to 3 at the close of the first quarter. This was the first and last spurt for West Chester, however.

The second quarter was all Delaware with the Blue Hens scoring 4 to West Chester's 1. Although the Delaware attack played good lacrosse and put the home team well out in front, it was the defense combination of Leo "Louie" Mullin, Bill "Bulldog" Murray, and Bob "Sheck" Schechinger who should get most of the honors for they held the opponents to one goal in spite of the fact that they played most of the quarter with a man or two short. (To those unenlightened ones who have yet to see the Delaware lacrosse team in action, a word of explanation is due here. The game of lacrosse, which is more or less ice hockey on land, with a hard rubber ball for a puck which is passed through the air by webbed sticks instead of being shoved over the ice, is kept from becoming outright murder by a system of time penalties, just as in ice hockey. These penalties can keep an offending player in the penalty box for one, two, three or even more minutes depending on the offense; and it's all up to the referee. Thus it was that with a referee who was intent upon turning the contest into a tea party Delaware spent most of the second quarter with a man or two short.)

It is a credit to the defense men and their sharp use of those big sticks plus the alert play of George Snyder, Delaware's rambling goalie, that West Chester could only garner one goal that quarter. The second half saw a tightening of both defenses with little scoring; Delaware added two and West Chester one and the contest ended up with a sweet victory, 9 to 6.

Saturday, May 15th, saw a rousing victory for Delaware at the home grounds of Franklin and Marshall as Delaware swamped the Diplomats 11 to 2. While the more

Delaware Walks All Over Ursinus

Delaware's tennis team defeated Ursinus Tuesday afternoon, with a 7-2 victory over the Collegeville, Pa., team, at the Frazer Field courts.

The Bears only victories were McCausland over Kirkland and a doubles win by Trout and Davidson over Robinson and Perry.

Results of the matches:
McCausland (U) defeated Kirkland, 6-3, 6-3.
Haines (D) defeated Walsh 6-1, 6-0.
Ryan (D) defeated Trout 6-3, 7-5.
Dunlap (D) defeated Vance 4-6, 6-4, 6-0.
Hovesplan (D) defeated Davidson 8-6, 6-1.
Short (D) defeated Lytle 6-4, 6-4.
Kirkland and Haines defeated Walsh and McCausland 3-6, 6-2, 7-5.
Trout and Davidson defeated Robinson and Perry 6-2, 6-3.
Ryan and Dunlap defeated Lytle and Landis 4-6, 6-1, 6-4.

SPORT SHOTS

By DON REYNOLDS

In the final meeting of the year, the Varsity Club voted Jack Messick the outstanding athlete in the senior class. A Media, Pa. resident, Jack was co-captain of Delaware's 1947 football squad. He also was a letter winner for two other seasons in football, and a letter winner in baseball in one season. The likeable redhead will graduate this June in the school of education. Of course he is best known as a rugged pivot man on the Delaware grid squad during its rise to football fame. His excellent offensive and linebacking work was instrumental in bringing Delaware through to several victories during the years that he has participated in the fall sport. The Varsity Club and the whole school is proud to have such a competitor and leader, and equally proud to be able to honor him.

Since this is the sign-off issue of the year, we would like to doff our hats to the athletes who we think were the tops in their respective sports. Football—co-captain Walt "Moose" Marusa, basketball—Billy Cole, soccer—Bob Brodey, lacrosse—Gordy Bierman, track—Frank Lanza, and baseball—Barney Runcie. These men in our opinion have been outstanding during the past year, and have best displayed the ability and sportsmanship which we would like to see more of here at Delaware.

The injury to Barney Runcie was a tough break for the boy from Freeport, L. I. The "Monk" was having a great season for the Blue Hen nine, and at the time he was injured was hitting at a lusty .412 clip, and was in the midst of a terrific batting spree. Barney will graduate in June, and Delaware will lose another of its top athletes. However Coach Martin is quite fortunate in having a capable replacement in Jules Hoffstein, who incidentally is due a few laurels himself, for he and Billy Cole are the only men who will win three letters during the 1947-48 season.

Next year we would like to see things get off to a booming start, with winning seasons in both football and soccer. One of the improvements which we would like to see put in effect, would be individual training tables, for all sports, not necessarily a free meal ticket, for we know that that would be almost impossible, but a set-up whereby the teams could practice or play as late as necessary, without having to stop because the doors at the chowhall are closed. It's regrettable that a recent baseball game had to be terminated in the seventh inning, because the players could not eat at the "Commons" if they played any later. The students and school alike should both resolve to come back next year eager to get behind our athletes and really have the best record, for all sports, not just football, that we've ever had.

Tennis Team Wins Two, Loses Two

The varsity tennis team played four games this past week, winning two and losing two. St. Joseph's handed the Hen netmen a 7 to 2 setback and Western Maryland edged out a 5 to 4 win. Washington College fell before Delaware 8 to 1 and F & M lost to the Blue and Gold 6 to 3.

Results of St. Joseph's match:
Gilliland (SJ) defeated Kirkland 6-4, 6-4.
Wilcox (SJ) defeated Haines 8-6, 6-4.
Phelan (SJ) defeated Ryan 6-0, 6-4.
Jordan (SJ) defeated Dunlap 6-2, 6-4.
Hovesplan (D) defeated Rudolph 6-2, 6-1.
Bateman (SJ) defeated Edwards 7-5, 6-1.

Doubles
Kirkland and Haines (D) defeated Gilliland and Wilcox 7-5, 6-4.
Phelan and Jordan (SJ) defeated Hovesplan and Short 6-3, 6-1.
Bateman and Timby (SJ) defeated Robinson and Ryan 6-4, 7-5.

Results of Washington College match:

Singles
Kirkland (D) defeated McGram 6-2, 6-2.
Haines (D) defeated Brandt 6-1, 6-2.
Ryan (D) defeated Shetterly 7-5, 6-1.
Dunlap (D) defeated James 6-2, 6-3.
Bellock (WC) defeated Hovesplan 6-2, 2-6, 7-5.
Short (D) defeated MacHale 6-4, 6-1.

Doubles
Kirkland and Haines (D) defeated McGram and Brandt 6-3, 6-4.
Hovesplan and Short (D) defeated Bellock and James 8-6, 7-5.
Dunlap and Ryan (D) defeated Davis and Shetterly 6-0, 6-3.

Results of Western Maryland match:

Singles
Kirkland (D) defeated Volkhart 2-6, 7-5, 6-4.
Moore (WM) defeated Haines 10-8, 6-2.
Stern (WM) defeated Ryan 6-3, 9-7.
Sack (WM) defeated Dunlap 9-7, 9-7.
Hovesplan (D) defeated Weaver 7-5, 6-1.
Spittel (WM) defeated Short 6-2, 8-6.

Doubles
Kirkland and Haines (D) defeated Moore and Talner 6-2, 6-2.
Stern and Sack (WM) defeated Hovesplan and Short 8-6, 6-4.
Ryan and Dunlap (D) defeated Weaver and Spittel 6-2, 6-2.

Results of F & M match:

Singles
Zink (FM) defeated Kirkland 6-1, 6-3.
Haines (D) defeated Singer 6-0, 6-0.
Buch (FM) defeated Ryan 6-1, 6-3.
Holland (FM) defeated Robinson 6-0, 4-6, 6-1.
Hovesplan (D) defeated Hunter 6-3, 7-5.
Short (D) defeated Kennedy 6-1, 7-5.

Doubles
Kirkland and Haines (D) defeated Zink and Bunch 6-2, 6-4.
Hovesplan and Short (D) defeated Holland and Charles 6-4, 6-4.
Ryan and Perry (D) defeated Singer and Hunter 6-2, 6-4.

Cinder Aces Lose In Middle Atlantics

Theta Chi, Kappa Alpha Top in Inter-Frat Meet

Walt Bartoshevsky was the lone track man from Delaware to score in the finals of the Middle Atlantic track and field meet in Easton, Pa., last Saturday. Walt, one of our ace polevaulter, shared second position with seven other competitors, while the vaulter from Muhlenberg topped them all. The greatest let-down of the day for the track team was the loss of Frank Lanza in the 100 and 220 finals. Showing the usual speed of a gazelle, Frank was burning up the track in the heats, until he pulled a muscle in a 100-yard dash semi-final, and was unable to enter the finals.

The team will have a chance to redeem themselves this Wednesday, when they travel to Muhlenberg for the last meet of the year. The Freshman team will go with them and engage the Muhlenberg Frosh in a meet.

In the Middle Atlantic meet, Coach Steers made up a Frosh medley relay team, in which Bob Goodell ran the mile, Bob Schlenzig the 880, Harry Loose the 440, and Bill Groetzinger the 220. All have definite talent and ability, but failed to score for points (fourth place). This team could probably beat a team the varsity would put up, and still couldn't get a high place because of the extremely stiff opposition that the other colleges offered.

Even though the regular harriers (the cream of the crop) were on the road, Frazer Field was not idle. For the homecoming alumni, at the end of the fifth inning of the baseball game, the inter-fraternity half-mile relay was run. The Cup won last year by Theta Chi was retained when Jack T. Jo, Carl Lasker, Dick Wells, and Hank Paris buzzed the second place KA's by 15 or 20 yards. KA's Bob Cofer, anchor man, made an impressive pull at the end to beat out Sigma Nu from second place. Theta Chi, however, took the lead from the first, and increased their lead steadily until the tape was snapped. Dean Dougherty was the chief starter, and surprised everybody at his officiating prowess.

Open Letter To Student Body

The purpose of this letter is to announce to the students and faculty the existence of the Psychology Club. The Club was officially organized about a month ago at a meeting in the Brown Hall Lounge. Isaac H. Cabbage was elected by the charter members to serve as President for the coming year. The other officers are Ann Scannel, vice-president; Edward Golin, treasurer; and Robert Lewis, program director. Dr. E. E. Lane is acting as Faculty Advisor for the group.

With only two meetings under its belt the Psych. Club has been very fortunate in having as guests two very fine speakers. At the first meeting Dr. Henry Weitz, director of the University of Delaware Psychological Service Center, spoke on "Opportunities in Personnel Psychology." Miss Elizabeth Ridgway, who is director of Occupational Therapy at the Delaware State Hospital, was introduced at the next meeting, and she addressed the group informally on her experiences as an occupational therapist.

It is felt by the members that no psychology major or minor with reasonably high academic standards should miss out on membership, since plans are being laid for affiliation with Psi Chi, national honorary psychology society.

Phi Kappa Phi Will Hold Its Initiations

The annual initiation meeting of the University of Delaware Chapter of Phi Kappa Phi, national honor fraternity, will be held in Warner Hall at 7:30 this evening.

At this time 26 undergraduates and two members of the faculty will be received into active membership in the organization, which honors scholastic achievement in all of the University's five schools.

Preceding the initiation a brief business meeting will be held for old members, and officers will be named for the coming year. Retiring officers include Dr. H. Clay Reed, Dr. Cecil Lynch, and Dr. Edna C. Frederick.

Following the ceremony, members of Phi Kappa Phi will hold a joint meeting with members of Tau Beta Pi and Pi Mu Epsilon, honorary engineering and mathematics fraternities at which Dr. Guy E. Snively, Executive Director of the Association of American Colleges, will be the guest speaker.

Phi Kappa Phi initiates include the following: Dr. Elizabeth Bohning, of the modern language department, Dr. Lewis Beck of the department of philosophy, Miss Lottie Mueller, Norman L. Reynolds, Herman Krinsky, Miss Ann Scannel, Kurt Seligman, Milton Wahl, Charles Rogers, Miss Margery Marston, Irving Shuren, Robert W. Kennard, Phillip J. Taylor, Miss Pauline Ellingsworth, Robert H. M. Simon, Joseph M. Woods, Donald W. Kershner, Paul C. Harrison, Henry A. Brainerd, William J. Osborne, Peter B. Hill, Louis T. Liarakos, Miss Marijane Smith, Miss Sara Anne Swing, Miss Sheila Walsh, Miss Mary F. Tierney, Miss Thelma Edler, and Harry Gordon Bethards.

Drs. Colburn And Gerster At Meeting

Synthetic Rubber Study Is Topic In New Orleans

Application of information from the University of Delaware's study of extractive distillation, to plants producing butadiene for synthetic rubber, were discussed at a meeting in New Orleans May 13 and 14.

Dr. Allan P. Colburn, assistant to the president of the University and former chairman of the Department of Chemical Engineering, and Dr. Jack A. Gerster, assistant professor of chemical engineering, are in New Orleans, at the invitation of the Office of Rubber Reserve, to meet with an operators' committee on the production of butadiene from petroleum. Representatives of the plants manufacturing butadiene are present, with the aim of hearing how information gained in the University's extractive distillation study can be utilized to improve operation and economy at the plants.

Dr. Kirk Speaks At ACS Dinner Thurs.

Dr. Raymond E. Kirk, dean of the Graduate School and head of the chemistry department at Brooklyn Polytechnic Institute, will be the speaker at the annual dinner of the University of Delaware student affiliate of the American Chemical Society Thursday, May 20 in Old College. Dr. Kirk's subject will be "The Chemist and His Job."

Members of the faculty in the University's Chemistry Department, headed by Dr. William A. Mosher, chairman of the department, will attend, as will undergraduate students. Stanley Reed, president of the chapter, will preside. Kurt Seligman is chairman of the arrangements for the banquet.

New Castle Hall Holds Open House

Dean Emeritus Robinson Among the Many Guests

Miss McDougale and the girls of New Castle Hall held an Open House last Sunday afternoon from 2:30 until 4:30. Among the many guests present was Dean Emeritus Robinson, after whom Robinson Hall was named. About 60 persons attended the Open House, including faculty members, girls from other dormitories, and the girls from New Castle. Punch and cookies were served, and an enjoyable afternoon was had by all.

ASME Meeting At New Castle Field

The New Castle Air Base was the scene of the annual picnic of the Delaware student branch of the American Society of Mechanical Engineers.

The highlight of the day was the Faculty-Student softball game, the outcome of which favored the students with a somewhat unbalanced score of 23-2.

Nevertheless a fine spirit of congeniality prevailed and all returned tired but well-fed.

International Club Elects J. Newburg

On Monday, May 17, the International Relations Club held elections of officers for the coming year. Judson Newburg was elected president; Barbara S. Mitchell, vice-president; Shirley Mittleman, secretary; Edward Braun, treasurer; and Alfred Carey, program chairman.

Dr. Felix Oppenheim is the new faculty advisor.

Here's a **RECORD** Topping the List

"Saxa-Boogie"—Sam Donahue's latest recording for Capitol

SAM DONAHUE'S slick-style waxing of this jazz-boogie instrumental is fast hitting the top in popularity. Sam is a Camel fan from 'way back. As he puts it, "Of all the brands I've tried, Camels suit me best. They're mild and cool smoking—and Camel's full rich flavor always hits the spot!"

Try Camels on your "T-Zone"—T for Taste, T for Throat. See for yourself why, with Sam Donahue and millions of other smokers, Camels are the "choice of experience."

And here's
another
**GREAT
RECORD!**

CAMELS
suit my
'T-zone' to
a 'T'

More people are smoking **CAMELS** than ever before!

Fellowships Go To Staff For Summer

Grants of \$400 Apiece Go To Faculty Members

Eight University of Delaware faculty members have received the first fellowships, for summer research granted to the University's staff, Dr. A. P. Colburn, assistant to the president and advisor on research, said today.

The grants, averaging some \$400 apiece, were made to enable the faculty members to carry out important research work in which they are interested. Dr. Colburn said. Two of those receiving the faculty fellowships will work abroad. The fields of concentration are broad, embracing biology, chemistry, economics, English, physics, and history.

The awards were made by President William S. Carlson on the recommendation of the research committee headed by Dr. Colburn, and the executive committee of the Institute of Delaware History and Culture.

The researchers who will carry on their study abroad are Dr. Walter Kirchner, associate professor of history, who will work at Geneva, and Dr. Herbert Dorn, who will be at the University of Mexico in Mexico City.

Dr. Kirchner, who is instructor in Russian history at the University and author of a recently-published "History of Russia," will engage in further research on the early stages of Russian foreign relations, emphasizing that country's cultural relations abroad. Dr. Kirchner's previous publications have included aspects of Russia's past relations with the Baltic countries, Denmark and France.

Dr. Dorn, lecturer in economics at the University, will be in Mexico to study the economic relationship between Mexico and the United States, and allied matters.

Also working at some distance will be Dr. Arnold M. Clark, instructor in biological sciences, who will carry out research at the Marine Biological Station at Woods Hole, Mass., where he will continue his study of the development in habrobracon, a parasitic wasp. Results of one phase of Dr. Clark's work, already completed are being published by the "Journal of Heredity."

A second instructor in biological sciences, Miss Mary A. Russell, will continue her study of "Effects of Radiation and of Nitrogen Mustard on Zea Mays." This project concerns factors relating to cellular division and growth, especially as to mechanisms interfering with growth. Miss Russell's work has "definite implications of interest to cancer research in general," according to Dr. Colburn.

Alan F. Clifford, of the Department of Chemistry, will continue his work on the "Anomalous Valence of chemical methods for separation of the various rare earth elements."

A study of place-names in Delaware will be conducted during the summer by Dr. Arthur R. Dunlap, associate professor of English. Dr. Dunlap, who already has published two preliminary studies in this field, will concentrate this summer, in collaboration with C. A. Weslager, on Indian place-names in the state. He also will do later work on the hundreds in Delaware, and on the names of territories included in the state's present boundaries.

Dr. Harold Feeny, associate professor of physics, will continue his research program on Geiger counters, particularly in designing and constructing special thin-walled counters for Beta-ray work. His specific topic is a study of the absorption coefficient of Beta-rays in biological tissues.

E. E. Kraehe, instructor in history, will work on a history of the German confederation from 1815 to 1866. The confederation's role in the unification of Germany is described by Mr. Kraehe as especially significant because of its close similarity, in structure and problems, to the United Nations.

Alpha Sigma Delta Holds First Formal

New Fraternity Dances To Music of Ken Janney

Last Friday night the Newark Century club resounded to the music of Ken Janney's Sextet as the Alpha Sigma Delta Fraternity held its first annual spring formal.

The New Century Club was dressed in swaying palms and tropical lights to fit the big occasion. At intermission refreshments were served in the lower lounge by Palmer Carter and Bill George.

With "Good-Night Sweetheart"

still in their ears the Sigma Deltas and their guests left the club regretting only that 1 o'clock had come so soon.

The fraternity appreciated the services of Mr. and Mrs. George H. Loving, Dr. and Mrs. William A. Mosher, and Mr. and Mrs. Paul A. Lovett as chaperones; Pres. and Mrs. William S. Carlson, Dean and Mrs. George H. Schuster, Dean and Mrs. J. Fenton Daugherty, and Mr. Fred D. Carl as patrons and patronesses.

John E. Wells, chairman of the formal, with the assistance of the officers, John R. Symonds, president; James O. Porteus, vice-president; Lawrence E. Wimbrow, secretary, and Burnie R. Waskl, treasurer, aided in making the dance a great success.

summer directing at theatres in Minnesota and Maine.

In the first part of the summer he will teach a course in directing at the University of Minnesota, where he also will deliver one public lecture in a series, and will direct a production of "What Every Woman Knows."

In August, Dr. Kase will be at the Camden Hills summer theatre in

Maine, where he will direct the productions.

All other members of the University's Department of Dramatic Arts and Speech, of which Dr. Kase is chairman, will spend the summer in study. Thomas B. Pegg will study at the University of Southern California in radio and speech work, his specialties at Delaware; Milton A. Valentine will do graduate work at Sanford University in speech correction, his principal field at Delaware; and Harry R. Bidlake will study at Columbia University.

NO finer CLEANING at any PRICE

We use Stod Solution, the nation's leading dry cleaning solvent. Our solvent is always clean, kept so by distillation, which means that your clothes are always cleaned in pure solvent.

DU PONT Digest

For Students of Science and Engineering

Rubber accelerators lead the way to new agricultural fungicides

Vulcanization accelerators for rubber and agricultural fungicides would seem to have little in common. But the wide variety of interests of men in the Du Pont organization sometimes result in outstanding developments from such apparently unrelated products.

A rubber chemist suggested to a plant pathologist that derivatives of dithiocarbamic acid, $\text{NH}_2\text{-C(S)SH}$, parent substance of a well-known group of rubber accelerators, be tested as insecticides. His suggestion was based on the possibility that sulfur combined in this form might be more effective than free sulfur, a recognized insecticide.

Entomologists and plant pathologists investigated the fungicidal as well as the insecticidal properties of this group. One of the first compounds tested, sodium dimethyldithiocarbamate, $(\text{CH}_3)_2\text{N-C(S)SNa}$, even in dilutions of 1:30,000, was found to be a powerful fungicide, but somewhat injurious to plant life.

This led to a systematic program of research including other metallic salts, the ethyl, propyl, butyl, phenyl, and other aryl derivatives of the dithiocarbamates and thiuram mono- and disulfides, and the related compounds

made from ethylenediamine and morpholine. In this phase of the work, organic chemists played an important role by suggesting various derivatives and preparing them for tests. Later, in cases where proper dispersion and adherence of the compounds to plants were important, the skill of physical chemists was called upon.

In general, the compounds of greater chemical stability were found to be less effective. Fungicidal efficiency diminished with increase in size of alkyl radical, and as aryl radicals were substituted for alkyl. Thus the unusual situation developed that with the exception of the bisethylene (dithiocarbamates), the first and simplest products tested, the methyl derivatives, proved to be the best fungicides.

Iron and zinc dimethyldithiocarbamates, $(\text{CH}_3)_2\text{NC(S)-S-M-S-(S)CN}$ (CH_3), are now sold as "Fermate" fungicide and "Zerlate" fungicide respectively, for control of fungous diseases of many fruit and vegetable crops, tobacco, flowers and other ornamentals. Zinc ethylenebis(dithiocarbamate), $\text{Zn(-SC(S)NHCH}_2\text{CH}_2\text{NH(S)CS-)}$, marketed as "Parzate" fungicide, has specific action in the control of late

B. L. Richards, Jr. Ph.D., Cornell '44, and A. H. Goddin, M.S., University of West Virginia '32, test efficiency of "Parzate" fungicide in control of tomato late blight and bean rust. Equipment is specially designed laboratory spray chamber.

blight on potatoes and tomatoes. Tetramethylthiuram disulfide, $(\text{CH}_3)_4\text{NC(S)-S-S-C(S)N(CH}_3)_4$, is used in two compositions, as "Arasan" disinfectant for seeds and "Tersan" fungicide for turf diseases.

Overall, the derivatives of these groups of compounds proved to be outstanding as fungicides, rather than as insecticides. Although a marked degree of specificity for different pests was characteristic of the members of this series, it is interesting to note that all three were highly effective. This work offers still another example of how the breadth of interest in a company like Du Pont can lead to worthwhile developments.

Questions College Men ask about working with Du Pont

What are the opportunities for research men?

Men qualified for fundamental or applied research are offered unusual opportunities in facilities and funds. Investigations in the fields of organic, inorganic and physical chemistry, biology, parasitology, plant pathology and engineering suggest the wide range of activities. Write for booklet, "The Du Pont Company and the College Graduate," 2521-A Nemours Building, Wilmington 98, Delaware.

BETTER THINGS FOR BETTER LIVING

Field testing of promising fungicides, including "Parzate" formulations, for control of tomato late blight.

"Dipper Over Gimbel's" cast during rehearsal. Left to right: Howard Hitchens, Margaret Guenveur, Marilyn Greenberg, and William Whedbee.

Stetson Delighted With Dipper Cast

Seats Still Available For Friday Eve Performance

As "Dipper Over Gimbel's" went into its final week of rehearsal we found the cast and playwright optimistic about the outcome of the production. In spite of the fact that two of her characters did not appear on the Mitchell Hall stage as she had originally visualized them, Miss Stetson was delighted with their portrayal. Ethel, one of the cleaning women, was conceived of as an English immigrant of some 40 years back with a bit of the cockney still clinging to her. Miss Stetson, discovering upon her arrival that Marilyn Greenberg was playing the part straight from the heart of Brooklyn, was enchanted with the transformation. Jack Smith in the role of the store detective had to have his name changed from Mr. Dougherty to Campbell because his Irish accent had become decidedly Scotch. Ann Tarburton, in black face and deep south talk, is the second cleaning woman while Lynn Bullis, master of the Irish accent, is the third of the trio. Bill Whedbee plays the blind piano tuner, Mike, and incidentally plays some very good mood music, some of it of his own composing. Joe McVey gives an excellent portrayal of Tim, a wrapper from the basement who has been "wrapping one and drinking two."

We look for the usual fine performance of Margaret Guenveur and Howard Hitchens when "Dipper Over Gimbel's" opens tonight. Marge has been able to display with great ability the mixture of bored sophistication and vacant hopelessness which the role of Ariel demands. Hitch is superb as the Irish store electrician Kevin. This part affords him the opportunity not only to exhibit his best interpretive acting, but also to introduce a new song, "Rue, Rue, Bitter Rue", written by Peter Korn, a Hollywood songwriter, who has composed the music score for the "Dipper".

A few seats are still available for Friday night, the last performance. The box office in Mitchell Hall will be open Friday from 3:30 to 5 and 7 until curtain time at 8:15.

Parent-Son Dinner Held by AEPI's

The second annual "Parent and Son" banquet held by the Alpha Epsilon Pi Fraternity on Sunday, May 16, proved to be a great success. The affair was held at the "Kent Manor Inn" near Wilmington and the food was enjoyed by all who were present. After the dinner David Bunin, chairman of the affair, introduced the master and ex-master of the fraternity who gave short talks before the principal speaker was introduced. The principal speaker of the afternoon was Mr. Paul Dolan, of the Political Science Department, who spoke on the subject "The Meaning of Being an American." After the speech the parents and members assembled for a little get-together so as to become more acquainted with one another.

Lacrosse

(Continued from Page 3)

skilled Delaware men had the scoring pretty much their own way, the score is no indication of the keenness of competition. The Diplomats fought all the way and it was the rugged play which was the high point of the game. Even in the rock and sock department Delaware came out on top for six of the F. and M. players were helped or carried off the field while the Hens suffered only the usual crop of cuts and bruises. Lacrosse can be a ferocious game and both teams wanted it that way Saturday. Cappy Bierman again carried off the scoring honors with six goals to his credit.

Scabbard & Blade Chooses Initiates

12 Men Will be Nucleus For Next Year's Society

Twelve University of Delaware students who are in the advanced R.O.T.C. course have been chosen for membership in Scabbard and Blade, national honorary military fraternity. All will be in the final year of their R.O.T.C. training next year.

The new members, who will be initiated this week, are: William C. Conrad, Wilmington; Robert L. Cox, Newark; Charles L. Hammell, Jr.; Haddonfield, N. J.; Robert W. Inskeep, Jr., New Castle; Donald R. Moore, Wilmington; John W. Reynolds, Greenwood; Eugene C. Robinson, Newark; Leon B. Stayton, Jr., Wilmington; John T. Zolper, Wilmington; Harold Berman, Wilmington; Lowell G. Ward, Audubon, N.J.; and Burt K. Williams, Elsmere.

Scabbard and Blade was reactivated this spring at the University, but all its present members will be graduated next month, and the initiates will form the University's chapter next year.

Gold Key Elects Officers for Fall

The Gold Key Society held elections at their weekly meeting last Thursday to select officers for the coming fall term. Don Reynolds was elected president of the society by his fellow head managers. He succeeds Bob Hunter. Reynolds,

varsity soccer manager, was the society's treasurer this past term.

Bob Donaghy was elected vice-president, succeeding Tom Walsh. Al Bellak was reelected to the position of secretary and Arnold Greenhouse received the same approval for the corresponding secretary's job. Woody Branner was elected treasurer. Branner and Walt Kittle, co-football managers for 1948, were recently elected to the society.

Final Smoke Talk Of This Season

The final Smoke Talk of the season was held in Old College Lounge Thursday, May 13. The guest speakers were Dr. Vincent Parker of the Physics Department and Dr. Lewis Beck of the Philosophy Department. The topic discussed concerned the ethical position of the scientist in the world of today. Most of the discussion centered around four questions which Dr. Beck proposed, the most profound of these and the one exciting most debate was based upon a hypothetical example. "If a scientist discovered a drug by means of which the sex of children could be controlled, should or should not this scientist publish this information?" Dr. Beck emphasized the ramifications of this issue by the assumption that most people want male children. Granting this assumption, the human race would be extinguished within a few generations if that scientist made known his discovery.

In the ensuing debate, Dr. Parker stated that regardless of the nature of the discovery or of the discoverer, it was only a matter of time before some other worker unearthed the same fact, if fact it was. Comments from the floor were sporadic and for the most part unrelated to one another. The discussion went so far afield as to include

Photo by Dick Melkell. The girl's archery fiends practice up on their skill with the bows and arrows.

a few brief words on the mathematical proof of a diety thru the theory of probability.

However, the heterogeneous nature of the talk stimulated rather than stymied the interest of the group. At the end of two hours the moderator reluctantly called the meeting to a halt.

More than meets the eye...

One look and you'd say that a great deal of work lies ahead before this new telephone central office is completed. That's true. But already, much of the job is done!

For months telephone men have been hard at work—in offices and in the field. One group has carefully studied business and population trends and has forecast the telephone needs of the community for years to come. Another has determined the amount and types of equipment that will best meet these needs. Still others have found ways to make this new equipment a part of our world-wide communications network.

At our Western Electric plants the telephone equipment—the switchboards, frames and switching mechanisms, the cable, wire and relays—has been scheduled and is already being manufactured.

All this and more before the ground was broken!

The telephone business is a constantly expanding business in which thousands of college men are finding interesting and rewarding careers. There's a future in telephony.

R.O.T.C. Will Hold Its Final Ceremony

The ROTC of the University of Delaware is having its annual inspection to determine its proficiency in accomplishing its mission during the past school year. A board of officers consisting of: Lt. Col. R. A. Persell, Inf., Major M. T. Nesbitt, FA, and Capt. A. J. Fields, A.G.D., from First Army Headquarters, Governors Island, New York, in making the inspection.

Results of this inspection will determine rating to be given to the Military Department by the Department of the Army for the entire school year. A rating of excellent is necessary in order to retain the present status and authority for each member thereof to continue to wear the "Blue Star" now so conspicuous on the right sleeve.

The final ceremony of the school year will be held on the University of Delaware campus mall in front of Wolf Hall at 11:10 on Tuesday, 25, May 1948. At that time a formal review and presentation of awards ceremony will be conducted by the cadet battalion.

With the concurrence of the President of the University, the following list of prizes and medals awarded to students of the Reserve Officers' Training Corps for the year 1947-1948 is announced.

The Lieutenant Clarke Churchman Prize for highest proficiency in the Department of Military Science and Tactics to Cadet Major Kurt L. Seligman.

The General J. Ernest Smith Prizes for excellence in Military Science and Tactics, a prize to the outstanding student in each class of the ROTC, to: Advanced Course, 2nd Year-Cadet Lt. Col. Robert H. Papy, Jr.; Advanced Course, 1st Year-Cadet 1st Lt. William C. Conrad; Basic Course, 2nd Year-Cadet M/Sgt. Rodger L. Holton, and Basic Course, 1st Year-Cadet Pvt. Frank W. Guthridge.

The Coast Artillery Association Medal, awarded to a member of the First Year Advanced Course on the basis of academic achievement, military achievement, and personal qualifications, to Cadet 2nd Lt. Louis H. Cox, IV.

The Rifle Marksmanship Medal, presented by the Daughters of the Founders and Patriots of America to the student attaining the highest score in Rifle Marksmanship, to Cadet Pvt. Donald S. Marsh—Score, 123x125.

The Reserve Officers Association Medals, presented by the Wilmington Reserve Officers Association to students of the ROTC graduating class who have been designated by the PMS&T, with the concurrence of the President of the University, as Distinguished Military Students, to Cadet Lt. Col. Robert H. Papy, Jr., Cadet Major Kurt L. Seligman, and Cadet Captain Phillip R. Tattall.

Sing a song of sixpence, pockets full of dough. Here's the way you'll get it from Pepsi-Cola Co. Make us laugh . . . if you can. We'll pay you \$1, \$2, \$3 . . . as much as \$15 for stuff we accept — and print. Think of it. You can retire. (As early as 9 P. M. if you like.) You don't have to mention Pepsi-Cola but that always

makes us smile. So send in your jokes and gags to Easy Money Dept., Box B. Pepsi-Cola Co., Long Island City, N. Y.

The very next day you may receive a de-luxe radio-phonograph combination and a nine-room prefabricated house. It won't be from us. We'll just send you money if we feel like it. Easy Money, too.

—HE-SHE GAGS—

If you're a "he" or a "she" (as we suspect) writing HE-SHE jokes should be a cinch for you. If you're not a "he" or a "she" don't bother. Anyway, if you're crazy enough to give us gags like these, we might be crazy enough to pay you a few bucks for them.

He: Give me a kiss and I'll buy you a Pepsi-Cola . . . or something.

She: Correction. Either you'll buy me a Pepsi . . . or nothing!

He: When a man leans forward eagerly, lips parted, thirsting for loveliness, don't you know what to do?

She: Sure, give him a Pepsi-Cola.

He ghost: I'm thirsty. Let's go haunt the Pepsi-Cola plant.

She ghost: That's the spirit!

\$3.00 (three bucks) we pay for stuff like this, if printed. We are not ashamed of ourselves, either!

CUTE SAYINGS of KIDDIES

(age 16 to 19 plus)

A famous sage has said that people are funnier than anybody. If that were true, all you'd have to do would be listen to what the kiddies are saying, write it down, send it in, and we'd buy it. If that were true. It might be, for all we know. We haven't the slightest idea what we'll ac-

cept. Chances are it would be things like these unless we get some sense.

"My George, who will just be 17 on next Guy Fawkes Day, had his appendix removed last month. When the doctor asked him what kind of stitching he'd like to

have, George said, 'suture self, doctor'."

"Elmer Treestump says his girl Sagebrush, only 22½, brings a bottle of Pepsi-Cola along on every date for protection. She tells everybody, 'that's my Pop!'"

\$1 each for acceptable stuff like this.

Dating Poll

(Continued From Page 1)

the population. This data has been contrasted with the "steadiness" or "unsteadiness" of the college dating patterns. No exact figures or correlations can be given at this early date, but general conclusions can be guessed at.

First: We do get a fairly normal distribution for Rural-Urban quality.

Very Rural	3 cases
Fairly Rural	23 "
Average	54 "
Fairly Urban	18 "
Very Urban	2 "

100 cases

Second: It can be said that very urban do not present a very steady dating pattern; Rural and urban alike present a great predominance of highly unsteady dating, tapering off to average steadiness; and that the majority of very steady patterns belong to the fairly and very rural population. The steadiness to unsteadiness pattern distributes itself as follows:

	Score range based on 55 points
Very Steady	40% 0-11
Fairly Steady	17% 12-22
Median	15% 23-33
Fairly Steady	13% 34-44
Very Steady	15% 45-55

The questionnaire asked each student to rate by preference and by frequency several types of dates. In the table below is shown the frequency with which each type of activity fell within the first three choices as indicated on the questionnaires, for preference and frequency. For instance movies were preferred as first, second, or third choice in 15% of all the choices. Movies are the things we do first, second, or third most frequently in 21% of the possibilities. At the other extreme are "Campus Social Club Get-togethers," which have preference and frequency ratings respectively of 1% and 2%.

Another way to look at this is to say that while students go to the movies much more often than they prefer to do, they do not have nearly as many informal dances as they would like. Likewise they go to bars and night-clubs more often than they show preference for, while their desires for formal dances, plays, and concerts are not at all satisfied.

Type of Date	Preference %	Frequency %
Parlor Dates	5%	11%
Movies	15%	21%
House Parties (Frat. and Brown Hall)	11%	11%
Class Dances (informal)	12%	7%
Formal Dances	14%	7%
Plays and Concerts	9%	6%
Athletic Events (a spectator)	8%	7%
Night Clubs and Bars	6%	11%
Walking, Golf, Tennis, Bowling	8%	6%
Campus Social Club Get-together	1%	2%
Parking and "Moonlight Ambling"	7%	7%
Other	4%	3%

Totals 100% 100%

At another place in the questionnaire students were asked for the considerations they took into account in choosing a date. The following tables show the percentage of boys and girls checking each item.

"I object to dating a person who:	Boys	Girls
Is older than I	4%	0%
Is younger than I	9%	8%
Is the same age as I	0%	1%
Talks about other dates	17%	13%
Is very quiet	13%	10%
Talks a lot	7%	2%
Can't dance well	11%	8%
Is against drinking	7%	3%
Doesn't drink himself, but doesn't mind if others do	0%	4%
Occasionally gets intoxicated	5%	9%
Usually gets intoxicated	15%	10.8%
Dates other persons at the same time	5%	5%
Gets serious and wants to go steady	3%	7%
Attempts to make dates necking or petting affairs	4%	13%
Items taken into consideration in making a date:		
Religion of date	8%	11%

E52 Players Elect Next Year's Bosses

At the last meeting of the E52 Players this year on May 11, an election of officers for the forthcoming year was held. Succeeding Bruce Ayers as president is William Whedbee. Jane Booker was elected vice-president and Mandy Abbott secretary.

Eight new members were initiated into the organization: Rita Patnovic, Pat Lawson, Joanna Lindstrom, William Wise, Spofford Beadle, Frank Buck, Verda Vane, and Anthony Feurbach.

Plus Sat. Only—Tim Holt's

"THUNDER MOUNTAIN"

MONDAY & TUESDAY

"YOU WERE MEANT

FOR ME"

Dan Dailey - Jeanne Crain

Have you made up your mind on what you'll do when you graduate this June? If not, consider the opportunity available to you in the Aviation Cadets.

Few jobs anywhere can match this offer. When you win your wings and a Second Lieutenant's commission, you're paid as high as \$336 per month to start. The training you get before and after you're commissioned is recognized as the world's finest—and it equips you for a well-paid lifetime career in military or commercial aviation.

You're eligible for appointment to the Cadets if you're single, between 20 and 26½ years old, and have completed at least one-half the require-

ments for a degree from an accredited college or university (or pass an equivalent examination).

Talk the program over with men in your class who have been Aviation Cadets. And for full details, ask at your nearest U. S. Army and U. S. Air Force Recruiting Station. Why not drop in today and discuss it?

Introducing

Dear Reader, (wherever you may be)

This week is the last issue of the REVIEW until September. Naturally Introducing will be hidden from the moths until that certain time rolls around next year.

We are very sorry that everyone was not "introduced" this term, but don't forget you all will be here next year if the exams aren't too tough, and then your turn will come.

This term we tried to write up the Juniors and Seniors. Starting in September the plan is to start with the Freshmen and to wind up with the new Seniors, working down to Sophomores and Juniors. There will also be members of the faculty "introduced" along with the students.

To all those who are leaving, by that we mean, graduating, getting married, changing schools etc., we wish to extend to each and every one of you our sincere and best wishes for your success and happiness in your respective ambitions and vocations. To those who are graduating, remember, don't set the world on fire.

To those who are leaving for other reasons, just as good as the ones above, to Rosetta Pettit, who will be going to Art School in Philadelphia, to Gloria Williams, who will be taking that all important step along with Johnny Stetser, Barbara Bell, and Edith Ploener, we really wish you good luck for you will need it.

So until next term, we close by stealing Jim Reagan's favorite bit of advice, "Don't take any wooden . . ." (you fill it in).

WE PRESENT SPORT KNITS FOR SUMMER

We have come up this spring with the handsomest crop of sporty pullovers that we have ever seen.

For sheer comfort, form-fitting lines and brand new patterns, come in and see our new summer sport knits by McGregor.

"THERE'S
NO FINER CIGARETTE
THAN CHESTERFIELD.
I KNOW, IT'S MY BRAND."

WHY... I smoke Chesterfield

(FROM A SERIES OF STATEMENTS BY PROMINENT TOBACCO FARMERS)

I have done business with Liggett & Myers for over 40 years. They buy the best crops in the house at the auctions.

I am exclusively a Chesterfield smoker. I think they are the best cigarette made.
