NEWARK, DELAWARE, MAY 1, 1917

NUMBER 25

DELAWARE BREAKS EVEN

Wins From P. M. C. But Loses To St. Johns

On last Wednesday, Delaware defeated P. M. C. in an exciting game by a score of 8-4. The game was marked by slugging on Delaware's part. Home runs were made by Taggart, Ferguson and Clancy. The hit by Taggart was a clean one, while Ferguson's and Clancy's were made by misjudgments of the center fielder. George Madden showed up better at the bat than he has done previously. He secured three hits off of the P. M. C. pitchers, which were two doubles and a triple.

In only one inning were the Cadets able to find Clancy's delivery, a triple by Pool, a double by Campuzano and the squeeze play resulting in four tallies.

One feature of the game was a double play unassisted, by Captain Christensen, of the soldier team, who made a circus catch of D. Horsey's hard hit liner and slid thru the dust, doubling Madden at third.

Clancy's pitching showed improvement over the Rock Hill game. He held the opponents to three hits, struck out eleven, but gave nine bases on balls. The score:

P. M. C.	R. H. O. A. E.
Lutz, 3b	0 0 3 2 0
Pool, c	1 1 3 3 0

Two-base hits—Madden, 2; Campuzano. Three-base hits—Pool, Madden. Home runs—Taggart, Ferguson. Double plays—Christensen, unassisted; Lutz, Campuzano, Davenport. Struck out—By Clancy, 11; by Sweeney, 2; by Lupton, 1. First base on called balls—By Clancy, 9; Sweeney, 3; by Crothers, 2. Umpire—Dougherty.

In a well played game Saturday afternoon St. John's College defeated Delaware by the score of 2 to 1. The boys of the Blue and Gold fought hard for the game as Delaware had already registered wins in football and basketball and this game would have meant victory in the three branches of sport.

Owing to a sprained ankle which he received in the P. M. C. game Don Horsey, was forced to sit on the (Continued on Page 4)

Ambulance Corps Assured At Delaware

It has now been definitely decided to organize an Ambulance Corps at Delaware College, which will furnish one of the units for the Wilmington Red Cross. It will, however, be under the supervision of the college even after the war closes.

As to equipment, the Red Cross Society will provide whatever is necessary for the carrying on of this work and will also help to raise the funds for the purchase of a modern automobile ambulance. It is rumored that a portion, at least, of the fund has already been promised.

The idea originated with Paul Cleaver, now a Junior at "Delaware." Through his efforts faculty members were interested and there resulted a conference between a committee of the faculty of the college and the women of the Red Cross in Wilmington. Dean E. L. Smith, Dean Allan R. Cullimore, and Professor C. A. Short represented the faculty. In this way the Ambulance Corps seems assured.

Dr. Walter H. Steele and Miss Beck, of the College Infirmary, have offered their services and with the support of the Wilmington Red Cross there are great possibilities. As it will require several weeks to get the Ambulance, the time will be devoted to training in first-aid. Bandages, etc., have already been received from the Wilmington Red Cross Society.

The first meeting was held on Friday, April 27, at 3 o'clock, at the Infirmary. All students interested in this work were excused from classes in order to attend this meeting at which an organization was effected. Among the students who have signified their intention to take up the work are: Herdman, Bowen, Marks, Pierson, D. Horsey, Weigle, Lovett, Chillas, Marshall, and several others. The Corps will consist of eight men from which number it is hoped that four will be available at all times.

The Corps will be maintained even after the close of war and will be ready at a moment's notice. The work is not only a most important way to serve one's country but the training is such that it will always be useful.

Carswell And Cameron Accept Positions With British Government

T. S. Carswell, '18, and R. M. Cameron, '17, have recently accepted positions with the British Government. Carswell will be located at Carney's Point and will be assistant chemist. Cameron will serve in the same capacity in the Bethlehem Steel Works at Bethlehem.

Alderson Joins Regulars

John H. Alderson, a member of the 1918 class, has enlisted in the regular army. Alderson left last Friday for Fort Slocum, N. J., where he will be in camp for an indefinite period. Before leaving college, Alderson received full credit for this year's work and should he return next year will enter the Senior Class.

DELAWARE'S RELAY TEAM VICTORIOUS AT PENN

First Winning Quartet In Years

When the clerk of the course called the roll at the beginning of Event No. 52 last Saturday in the University of Pennsylvania 23rd Relay Race Carnival five teams answered present. They were: Delaware, Maryland State, Lebanon Valley, Rhode Island State, and St. Johns.

At the word "go" Fitzpatrick was well up among the leaders and ran a heady race clear to the finish. He finished a good second with Lebanon Valley running first.

Here Delaware encountered a mishap which meant at least three seconds lost and the first man fully fifteen yards in the lead. Fitzpatrick couldn't get the baton to Craig partly on account of being well done up and partly because Craig couldn't seem to get hold of it. However, Craig set out at a fast pace, having been placed in third place on account of the mishap, and overtook the second man who was the Maryland State runner, and passed him on the back stretch. Craig handed Marshall the baton with Lebanon Valley ahead by about seven yards.

Marshall ran a beautiful race and deserves the highest individual credit for making the Blue and Gold victorious. He followed the man to the home stretch where he passed him and gave Steele, Delaware's anchor man, a ten to fifteen yard lead. Maryland State had in the meantime crept up and Chipman, Maryland's star quarter miler, was running in second place. Chipman ran the race of a veteran and gradually closed the distance between himself and Steele. However, Steele crossed the line, winning by inches, and registering the first victory for Delaware in the Relays for years.

The time, which was 3.40 3/5, was comparatively slow, but it would have been much faster if Fitzpatrick had not had difficulty in passing the baton to Craig.

School Visitation In Progress

Dr. Greenfield, of the Faculty, spent Wednesday of last week visiting the high schools of lower Sussex. His itinerary included Selbyville, Frankford, Millsboro, and Georgetown, all located on the new DuPont highway, which is being pushed northward in a straight line from the boundary, and Lewes. Interest in the Interscholastic Field and Track Meet was manifest among the boys in the upper classes. Selbyville expects to send a representative this year who has done better than five feet in the high jump. Many of the teachers, and members of the classes about to graduate will take advantage of the liberal act recently passed by the Delaware Legislature under which the state defrays the expenses of Delaware teachers who attend the Summer School. The School visitation is planned to touch every high school which may have a direct relation to Delaware College in any capacity, and keeps the Faculty in fresh contact with the needs of the schools and opportunities for service. Dr. Vaughn is visiting the schools of New Castle, Professor Short those of Kent County.

Two One-Act Plays And Mandolin Concert

Rehearsals for the two one-act plays to be given Friday evening, May 11th, by members of the Dramatic Club are rapidly assuming a professional air. Mr. F. J. Pohl is coaching the players. Notwithstanding the lack of dramatic experience on the part of many of the players, he is meeting with splendid success; partly due to the earnestness and diligence of those having parts. Other characters have had more training in dramatic art, acting in such well-known plays as "Twelfth Night," "As You Like It," and "Dandy Dick."

"Honor" is the name of the first play; an original play with an intensely vivid plot written by Mr. Pohl and Mr. Irving Reynolds. There are eleven characters. This play depicts college experiences as they may exist wherever the honor system is striving for recognition as a means of constructive character building. There will be amusement and pathos running through the whole play, and it is possible that a certain character will enlist the sympathy of the entire audience.

"The Green Coat," by the French authors, Augier and de Musset, requires four characters. The delicate touch of the French dramatists maintain a polite dignity and a warmth of feeling so uncommon to other great dramatists. This is probably the first occasion on which a French play will have been given at Delaware College.

The Mandolin Club will give a concert on the same evening in conjunction with the two plays. This will assure a full evening's entertainment. The public has not heard the club since last commencement and during this interval they have acquired more skill and experience. A practically new program will be presented.

Tickets will be in the hands of the Review staff today, and those desiring to make sure of reserved seats can secure them at Rhodes' Drug Store May 7th. The admission will be fifty cents.

Professor Short Talks In Chapel

Professor Clarence A. Short, of the Engineering Department, last Friday gave the student body some earnest advice concerning enlistment. He said that in any crisis it is the thinking men who prove most efficient and that such men are invariably chosen in the selection of military officers. Professor Short urged the students to take advantage of the advanced military course now being offered at Delaware and said that it is the duty of every man to stand shoulder to shoulder with the other patriots when he is called by his country.

Annual Debate

About eight students are signed up for the annual debate for Alumni prizes. Preliminaries will be held sometime soon, but it is not definitely decided what the subjects will be.

This year the debate is open to anyone in the college.

College Community Shocked By Fatal Accident

While playing in front of her home last Friday afternoon, Helen Edith Smith, six-year-old daughter of Dean E. Laurence Smith, was run over by an automobile and instantly killed. This untimely death came as a severe shock to Mr. and Mrs. Smith, both of whom have been very ill.

The student body of the college, and the many friends of the little girl, wish to express their deepest sympathy to Mr. and Mrs. Smith during their bereavement.

Tennis Team Defeats St. Johns

Delaware opened the tennis season last Saturday by defeating the St. John team 5-1. Considering the fact that the team has only had a few days of practice it made a remarkably good showing.

The home team won every match from their opponents with the exception of one set of doubles. All four of the Delaware men played consistent tennis, and no men individually can be given the credit for the victory. The showing on Saturday gave them confidence, and should lead to a successful season. Results of matches are as follows:

Singles

McMillan, Delaware, defeated Fell, St. Johns, 6-2, 6-4.

Humphrey, Delaware, defeated Metzger, St. Johns, 6-2, 0-6, 6-2.

Olcott, Delaware, defeated Gardner, St. Johns, 6-3, 6-1.

Gutowitz, Delaware, defeated Bowers, St. Johns, 6-4, 6-2.

Doubles

Fell and Metzger, St. Johns, defeated McMillan and Humphrey, 8-6, 6-2.

Olcott and Gutowitz, Delaware, defeated Gardner and Bowers, 6-4, 5-7, 6-2.

Former Delaware Student Marries Newark Girl

On Saturday evening, April 21, Miss Eleanor Bayne Pilling of Newark, became the bride of Mr. Carl Addison Taylor, of Philadelphia. Both of the young people are well-known to the student body, Miss Pilling having been a resident of Newark for sometime, and Mr. Taylor having graduated from Delaware in the class of 1912. Mr. Taylor was a member of the Sigma Phi Epsilon Fraternity, and one of the best athletes who ever attended "Delaware." He is now in the employ of the Pennsylvania Railroad. The young couple are now on a trip thru the middle west including Chicago and Cincinnati. On their return they will reside in Philadelphia.

Vote On New Regulations

This week the student body will vote on the proposed regulations for the Student Council. These regulations were published in the last issue of the Review in order that the students could discuss them and be able to decide intelligently whether or not they should be adopted. As has already been said, these rules were drawn up only after the greatest care had been taken and the best of judgment used by the committee. Therefore they represent the best efforts of the committee to give Delaware College a complete and thorough constitution for the Student Council. From the few cases which have come before the Council during the past year it is evident that this body will never succeed as long as it is hampered by the present inadequate set of regulations. It is also true that if Student Government is to be a success at Delaware the Student Council must also be. Unless we have a capable Council provided with tools with which to act, there is no need of an Honor System. As everyone knows, the Student Council is the representative of the student body chosen to carry out the rules of the Honor System. To have an effective set of Honor rules and a Council with no means to execute them would be just as absurd as to elect a President and refuse him power to act. Next week the Honor System is to be voted on, after which a vote will be taken by the Students. There is little question but what the System will be passed by a big majority. Yet there will be no advantage in passing the Honor System unless the Regulations for the Student Council are also passed. Therefore it is the duty of every Delaware student even though he may be rushed with extra work at the time, to examine thoroughly the proposed constitution and be prepared to vote intelligently on it.

No matter how you vote, whether for or against this constitution, have your reason for voting the way you do. Vote the way "you" think best and if everyone does that, the result will be best for the college.

The Present Situation

One of the most dangerous elements of the present crisis is the confusion due to lack of definite knowledge of what has happened or will happen in the near future. At present there seems more danger from men "going off half cocked" than from any of the many courses which one might rationally choose. On this account it seems well to publish here in as concrete form as possible, the actions of the faculty and of the military headquarters in regard to the duty of Delaware students.

Attitude Of The Faculty

April 17, 1917

In view of the uncertainty existing in regard to our duty concerning military preparation, rural questions, and other patriotic service, the Faculty of Delaware College discussed these questions and appointed a central committee of the Faculty with power to act.

This committee consists of President Mitchell and Lieutenant Hoey, Dean Smith, Dr. Harter, and Dr. Sypherd, representing the School of Arts and Science, Dean Hayward, Professor Grantham, and Professor McCue, representing the School of Agriculture, Dean Cullimore, Professor Koerner, and Professor Short, representing the School of Engineering.

After deliberation upon the various phases of these problems, this central committee empowered me to make the following statements:

First: It is the sense of the Faculty that in view of the gravity of the crisis facing us, Delaware College will make every effort to adjust its work so that the students and Faculty may be of the greatest service to the country.

Second: A student whose presence is required at home on the farm must present a request to that effect from his parents. This request will be brought before the central committee of the Faculty, which will investigate and treat each case on its individual merit, and determine how credit for College work shall be given under the circumstances.

It is understood, of course, that no one will leave College to accept a position solely for his personal advantage.

Third: The cases of students who may be called out with the militia and others who may be requested to take part in any other patriotic service will be treated in the same manner as the above.

Fourth: Students who are excused from College work for any sort of patriotic service will be required to make a bi-monthly report of their work to the Dean of the school in which they are registered. In each case this report must be certified to by the employer.

Fifth: Special training, consisting of eighteen periods of instruction, covering three weeks of six periods each, will be arranged for students who are twenty-one years of age, and members of the Junior and Senior classes eligible for work in the Reserve Officers' Training Corps who may not be twenty-one years of age and who have already signified their willingness to take this work. The purpose of this special training is that those who elect it may be properly prepared to pass the prescribed examinations and accept commissions. A schedule of classes and sections of this instruction will be made, students assigned to the various sections, and lists of such sections prepared and posted at the earliest possible moment (it is expected that classes will be organized and formal work begin on Monday next). Conflict of this work with formal College work will be good and sufficient excuse for absence from the conflicting period of College work. In giving final credit for College work, the instructor concerned will make due

allowance for time missed in view of this arrangement.

Sixth: It is hoped that arrangement can be made by which the physical examination required can be taken here as early as possible. It is useless for a student to elect this special course of training who would be rejected ultimately.

Seventh: An attempt will be made to have the examinations for entrance into the Reserve Officers' Training Corps given at Delaware College.

Eighth: All points arising under the above provisions and matters not covered therein which may need adjustment will be referred to the central committee of the Faculty, which will meet as

Edward Laurence Smith
Dean and Secretary of the Faculty of Delaware College.

Action From Headquarters

By command of Major-General Wood seven camps have been established in the eastern department. These are located at Fort Ethan Allen, Vt., Plattsburg, N. Y., Madison Barracks, N. Y., Fort Niagara, N. Y., Fort Myer, Va., Fort Oglethorpe, Ga., and Fort McPherson, Ga. The camps begin on May 8, and continue for three months. The purpose is to train college men to enter the Reserve Officers' Training Corps. The number of men at each camp is not to exceed 2500. The camp at Fort Myer is for candidates from New Jersey, Delaware, Maryland, Virginia, and the District of Columbia. It was learned through a telegram received by Lieutenant Hoey from headquarters on Wednesday, that men would not be allowed to elect to attend camps other than those to which their state is assigned unless the applications to the desired camps fail to reach the 2500 mark. And it seems certain that this number will be far surpassed in every case.

To enter the camp a candidate must be between the ages of 20 years nine months and 44 years. And he must further pass an entrance examination. By special orders forwarded to Lieutenant Hoey on Thursday, he is designated to hold these examinations for candidates from Delaware College. It is understood that the returns of this examination will depend as much on physique and personality as on technical knowledge.

Of course, any work done in the extra military courses conducted by the military department will aid directly in one's chances for success in the examination.

Physical Examinations

On last Tuesday Dr. Marshall of Milford, held a thorough physical examination of seventy students. While this examination was not official, it was very thorough and might well serve as an index to those who anticipate further military work. On the whole the condition of the men was very satisfactory. The few failures that were recorded were due directly to flat feet and weak eyes.

College Credit For Campers

The central committee of the faculty has made the following decisions in regard to credit for those men who attend the camp at Fort Myer. First they must file their name at once in the dean's office. Second, they there receive a slip with a list of all their classes. This list must be taken to the various members of the faculty and filled out by them, stating definitely the condition of the student's work and whether or not it has been satisfactory. Third, this paper must be returned to the office where it will be acted upon by the central committee. Fourth, grades given on the basis of these slips will be considered final if the student's application to the camp is accepted and he actually attends. If his application is for any reason rejected, he shall return at once to college and any time lost will be considered as a furlough.

What Should Be Our Attitude

It is clear that the faculty has been more than fair in their dealings; they have been really generous. It is up to us now to see that we do not use their generosity for selfish ends.

This is the time when every Delaware man should show his real manhood and patriotism. When war comes it will mean a sacrifice for everyone and the

sacrifice of the Delaware student at present is to bear the extra burden of college and military work willingly. The students who begin to "slack" their college work now, hoping that some unforeseen event will exempt them from the final examinations, are not the type of men that Uncle Sam needs.

No better advice can be given to Delaware men than Major-General Wood gave to the students of the University of Pennsylvania when he said, "That the duty of all Pennsylvania students at this time is to stick to their college work and put forth their best efforts in it at all times." If Delaware students follow this wise and friendly advice they will be doing their true duty.

On motion it was ordered that all students who are candidates for entrance into the Reserve Officers' Training Camp be required to obtain credits, as in the case of agricultural students previously considered, and, upon their acceptance as members of the Camp, their grades shall be recorded as permanent grades. These temporary grades of students not accepted shall not be recorded, time lost by such students shall be considered as a furlough, and the students shall be required to resume their collegiate work in order to receive grades in the several courses.

Student Council

Dance Postponed

The Student Council Dance, which was to be held on Saturday evening, April 25, has been postponed for a week to the evening of May 5. For several reasons, including the Penn Relays and the absence of the tennis team, it was thought advisable by the Council week. This arrangement will undoubtedly suit the convenience of the student body, and it is hoped that a large number will be on hand. This will very probably be the last Student Council dance of the year, and it should be made a success. Everybody out!

COLLEGE BOYS ANSWER CALL TO DUTY

Volunteer For Census Work

In one way or another channels of usefulness are being opened up to Delaware College students. Some have felt the call to arms, and have joined the Militia and Coast Artillery of the regular Army; some have responded to the Government call for men trained in the industrial arts, while still others are lately called upon to work in another capacity, namely, that of making a survey of the farms in this State. Dean Harry Hayward of the Agricultural department, has been appointed by the Governor's Council to supervise the work. The survey is made with the object in view of appealing to the farmer to increase his acreage for those crops that will be needed in case of a national shortage.

Dean Hayward's appeal for student volunteers to take the census was met with enthusiastic response. Sixty to seventy-five students offered their services. From this number 32 were selected. The number of farms in the State is estimated at approximately 20,000. It is hoped that the work will be completed in a week but it may require a longer time to acquire definite information. The State will be canvassed by counties; the County Agents in Kent and Sussex Counties and William Edgar, a graduate of the college, will have charge of the census taken in New Castle County.

The students assigned to Kent and Sussex Counties left for Dover

and Georgetown last Wednesday afternoon to be ready for work on Thursday morning. They will make their trips through the rural sections in automobiles.

The students assigned to the work and the counties in which they are working follows:

New Castle County—W. S. Levey, J. Hopkins, E. C. Manahan, W. McKinney, C. T. Myers, F. R. Pool, W. Price, C. R. Smith, P. C. Swayne, F. H. Tyson, C. Warner, E. Wilson, W. A. Wise.

Kent County—D. P. Barnard, H. C. Grier, C. S. Holland, F. Marten, J. H. Meredith, W. H. Savin, N. W. Taylor.

Sussex County—J. C. Cole, J. P. Gum, J. F. Davis, N. H. Evans, G. W. Hearne, J. A. Hastings, G. A. Hudson, L. Kister, R. T. Marshall, H. B. Mitchell, F. Penuel, R. H. Pepper.

BREAKS EVEN

(Continued from Page 1)
bench. His brother, Harold, was shifted from left field to the infield and preformed creditably on the second bag. In the outfield, Madden was shifted to left and "Bill" Stewart played right.

One of the features of the game was the playing of Carter. Besides getting three hits he stole home while the St. John's pitcher and first baseman were having a confab.

St. John's Scored In Fourth

St. John's got their first run in the fourth inning. Polk singled but was out at second when Peck tried to sacrifice him. On the hit and run play Freeney was safe but Peck was out trying to make third. Freeney took second on the play. Tucker's hit scored Freeney. In the eight hits by Lowman and Polk coupled with Taggart's misplay put St. John's last run across.

Hits by Carter and Stewart and Carter's steal put Delaware's one run across. Delaware had several good chances to score but fast fielding prevented it.

Noted Speaker At
Commencement

The committee on commencement at Delaware College, consisting of Dr. W. O. Sypherd, chairman, Professors C. A. McCue, G. A. Koerber and G. E. Dutton and Lieutenant W. F. Hoey, announces that the commencement address will be delivered by Mr. Elisha Lee, general manager of the Pennsylvania Railroad, and that to the Y. M. C. A. by Governor John G. Townsend, Jr. Mr. Lee is now one of the foremost men in the industrial world, and his address will no doubt be a memorable one. The selection of Governor Townsend to deliver the address to the Y. M. C. A., is in keeping with the policy of the college to secure each year for this purpose a prominent layman of the State who can give to the students the benefit of his experience in solving the problems that they must meet after their graduation from college.

Engineers Meet Tonight

The most important meeting of the Engineering Society will be held tonight in Room 2, Recitation Hall. Officers for the coming year will be elected. Dean Cullimore will be the speaker of the evening and will favor the society with a very interesting talk. There will be refreshments and a general good time. All engineering students are urged to be present.

Your Glasses Were Fitted When?

If your eyes have not been examined within the past two years they should be looked after now; particularly if you have suffered from a severe illness.

Improper lenses can prove harmful not only to your eyes but to your health as well.

In all Delaware there is no better optical service than ours.

Let us test your eyes and prove it to you.

DIRECTORY OF ADVERTISERS

We believe in reciprocity. "If you deal with us, we will deal with you" is a fair and square business proposition.

The Review is dependent upon its advertisers. Without their help in the form of advertisements it could not be published. Therefore it is only right and proper that the students and entire constituency of the College should patronize those concerns which patronize the Review. Your trade and business dealings should preferably go to them.

Below is a classified list of those advertisements which appear in "Our" paper and "Your" paper. Look it over and then follow that doctrine of Reciprocity.
