## Trustees Name New Dorms, Alter Resident Regulations

Paula George

### SGA Ball Sat. Night

Paula George will be the featured vocalist with Ray Eberle's Serenade in Blue Orchestra at the semi-formal Christmas dance in Carpenter Field House from 8 to 12 p. m. tomorrow.

Tickets for the dance are \$3.50, and will be on sale in the basement of the library today. At the door, tickets will be \$4.

#### CHRISTMAS TREE

A large Christmas tree decorated with red lights will be the hub of the decorations. A red and white crepe paper ceiling with large candy canes at the corners will help to carry out the Christmas theme.

There will be life-size Christ-

mas cards along the wall, and in the picture corner will be found a sleigh, decorated for Christmas.

At intermission, the Santa Clauses nominated by the girls dorms will be introduced.

Eberle has appeared in several motion pictures and had his own radio and TV show. His "big break" came when he was only 18 years of age and for a period of six years was the featured vocalist with the Glenn Miller Orchestra.

#### FORMED BAND

After leaving the armed forces, Eberle formed his own band

(Continued on Page 10)

### Dr. Van Dusen To Speak On Christianity

Dr. Henry Pitney Van Dusen, the fifth lecturer in a series of distinguished American clergymen presented during the 1957-58 academic year, will speak on Sunday at 8 p. m. in Mitchell Hall on "Christianity as a World Force."

President and Roosevelt Professor of Systematic Theology at the Union Theological Seminary, New York City, Mr. Van Dusen is a world traveler and widely known editor and author. Having graduated from Princeton University with highest honors, he received the B. D. degree, summa cum laude, from the Union Theological Seminary and the Ph. D. degree from Edinburgh University.

Eleven colleges and universities in this country and abroad have conferred honorary degrees upon him. Among his latest books are: "They Found the Church There," "World Christianity: Yesterday, Today, and Tomorrow," "God in Education," and "Life's Meaning."

Dr. Van Dusen's deep interest in education is reflected by his membership on the boards of trustees of such diverse institutions and foundations as Princeton University, Vassar College, Smith College, Ginning College, Theological Seminary, The Rockefeller Foundation, and The General Education Board.

He has held numerous posts with the World Council of Churches, The Federal Council of Churches, and other religious organizations and in 1952-53, he made a survey trip to Asia and Africa for the United Board of Foreign Missions of the Presbyterian Church, U. S. A.

### Select Business Administrator As Charles E. Grubb Retires

Appointment of a business administrator and the naming of five new buildings on campus were the major issues considered during the semi-annual meeting of the University's board of trustees held here last Saturday.

Dr. Bruce J. Partridge, presently assistant comptroller at Rochester Institute of Technology, has been appointed business administrator here effective March 1, 1958. He succeeds Charles E. Grubb who, after 21 years of university service, will retire in June, 1958.

Three of the new campus dormitories will be named in honor of long-time members of the university faculty: Wilbur Owen Sypherd, Francis Hagar Squire, and Allan Philip Colburn. A fourth dormitory will be named in honor of Henry B. Thompson, president of the board of trustees from 1915 to 1935. It was decided that the new dining hall-student center building will be called The Student Center.

Four members of the board were reelected for terms of six years each. They are Walter J. Beadle, Wilmington; R. R. M. Carpenter, Jr., Wilmington; Joseph L. Marshall, Lewes; and Warren C. Newton, Bridgeville.

#### BOARD VICE PRESIDENT

Mr. Newton, now vice president of the board and chairman of its finance committee, is senior in point of service, having first been appointed in 1921. Messrs Carpenter and Marshall were appointed in 1945 and Mr. Beadle has completed his first term, having been elected to the board in 1951. Mr. Carpenter is chairman of the committee on physical education and athletics.

In an important step to meet the need for housing married students, the board approved resolutions to permit the construction of married students' dormitories on property recently acquired by the university on the northwest corner of the intersection of Elkton Road and Amstel Avenue in Newark. The dormitories, consisting of two 12-unit structures, will be constructed with funds from two sources, an HHFA loan and a state appropriation.

#### RESIDENCE RULES

The board also passed several resolutions relating to the residence of students in campus dormitories. In recent years new students have been permitted to live off campus because of the shortage of dormitory space. Completion of the four new dormitories now under construction is expected by September, 1958, and will permit the university to offer first-rate facilities to its resident students.

Consequently, all freshmen students, other than commuters, will be required to live in campus dormitories for their first year. All undergraduates who are recipients of scholarships, grants or other financial aid awarded by the university in amounts sufficient to pay all or part of their room and board in addition to university fees, also will be required to reside in university housing facilities.

Graduate students requesting dormitory rooms will be accommodated insofar as possible. These regulations correspond to those in effect at other comparable universities and colleges.

#### ENDOWED CHAIR

The establishment of an endowed chair in the school of agriculture, to be known as the S. Hallock du Pont Chair of Animal Husbandry, was approved. Funds to support a program of research, teaching and extension work were given by Mr. du Pont and accepted by the board in December, 1956. The donor's interest in beef cattle, swine and other livestock was stimulated by work on his own farm near Newark. Candidates for the new professorship are being interviewed by Dean of Agriculture George M. Worrlow.

One minor change in fees was approved. Rising costs of processing summer school students compel the University to establish a \$5 registration fee which will become effective with the 1958 summer session.

The board accepted with appreciation the president's report submitted by Dr. John A. Perkins for the calendar year 1956-57.

#### BUSINESS ADMINISTRATOR

Dr. Bruce Partridge, the new business administrator, is 31. A graduate of Oberlin College, cum laude with honors in physics, he also holds LL.B. and J.D. degrees from Blackstone College of Law. Prior to joining the staff of Rochester Institute of Technology in 1953 as assistant comptroller, he was employed as assistant treasurer and purchasing agent Baldwin-Wallace College, as business manager at Cazenovia Junior College, and as a research physicist for the American Gas Association.

He is vice president-elect of the National Association of Educational Buyers, and has served as chairman and secretary-treasurer of the Upper New York State Group, N.A.E.B.

Dr. Partridge has made frequent speaking appearances before the Industrial Management Council, the Chamber of Commerce of New York State, the Ohio Association of College and University Business Officers, the New York State Savings and Loan Institute, and national and area meetings of the N.A.E.B.

Mr. Grubb was graduated from the University of Delaware in 1914 and for two years was employed by several different firms involved in general land surveying and engineering for street, sewer and village construction. From 1916 to 1930, he was employed by the New Castle County Levy Court, holding the positions of New Castle County highway commissioner and county engineer.

(Continued on Page 7)

## Christmas Concert Tuesday

Guest artists, both vocal and instrumental, will join the University concert choir for the annual Christmas concert in Mitchell Hall, Tuesday, December 17, at 8:15 p. m.

Dr. Ivan Trusler, director of the choir, announced today that the first section of the program will be devoted to Part I of Handel's "Messiah." It will be the aim of the choir to present a performance as near that of the original version as possible.

Musicians from the Delaware symphonette, the Wilmington Symphony, and several Philadelphia area ensembles will comprise the orchestra, consisting of strings, oboes and bassoons. Miss Carolyn Brown, the choir's regular accompanist, will be at the organ.

Miss Mildred Gaddis, of the music department, will be cymbalist, and J. Robert King, tympanist. In an effort to achieve the string-reed tone of the 18th

## 'Satchmo' May Visit Campus Jam Session

There is a possibility that Louis (Satchmo) Armstrong will come to Delaware.

Peter Genereaux, chairman of the Student Center board, disclosed the plans. He added, however, that several factors involve his possible appearance here.

The Senate will sponsor a jam

session in Carpenter Field House, on Saturday, Jan. 8, starting at 8 p.m. Two combos, one of which is Queen Belle and her Noblemen, will be featured. The other has not been chosen.

The income from the jam session and the Christmas Dance tomorrow night are necessary indefinite factors. "Are we going to have enough money from the jam session and the Christmas Dance to pay for Louis Armstrong," Genereaux added.

"We have to have the Spring Dance," he declared. The band under consideration for this dance is Les Elgart.

"The problem is that we have to have enough funds from the Christmas Dance and the jam session to pay for Louis Armstrong and Les Elgart — if they can come."

Expressed simply, "First things first," Genereaux said that the Spring Dance is of primary importance, but that he is trying to find a way to get Armstrong here.

## DSTA Entertains 27 Needy Children

The Delaware Student Teachers' Association entertained seven needy children at a Christmas party last night.

The orphans were from four to seven years old.

At the party Santa Claus presented the children with Christmas stockings, Helen "Dutch" Hoffman read the story, Carrie Hock played the accordion and Marcie Getz taught a Christmas song.

Margie Wright was chairman of the Planning Committee for the party.

## South Campus Plans Holiday Parties, Festivities, Caroling

BY PAT CRAVEN

As the merriest season of the year approaches, girls on South Campus are plunging into the holiday whirl by decorating and planning for their annual Christmas parties in the dorms. With visions of food and fun dancing in their heads, the coeds anticipate both the parties they've planned for others and for themselves.

In cooperation with the welfare committee in Newark, Smyth Hall has invited 18 children to a turkey dinner at 6:30 p. m., Monday. The girls themselves will prepare the meal which will be roast turkey, baked potatoes, green beans, cranberry sauce, hot rolls, red jello-poinsettia salad, and plum pudding.

SANTA DELIVERS

Each child will receive packages from Santa Claus, after which there will be Christmas carols and games. A \$25 contribution to the Newark Welfare

Committee is also provided for in the dorm's budget.

On Friday evening, December 6, the girls invited dates to a Christmas Dance, featuring Queen Belle, held in Smyth's recreation room. Participating in still another Christmas function, Smyth girls will serve hot cocoa to approximately 450 people after the caroling on Sunday.

WARNER ENTERTAINS

As in preceding years, Warner Hall women will entertain the faculty at an open house on Sunday afternoon. On the following Tuesday is their own dorm party, at which there will be ol' St. Nick him (her?) self, gift exchanging, and carol singing. Warner Hall was also the scene of last night's Delaware Student Teachers' Association-sponsored party for 25 children.

The faculty was also entertained at a coffee hour on Wednesday evening by the residents of Kent Hall. That these girls must have admirable endurance is indicated by next Wednesday evening's agenda. First, they will be hostesses to 32 children from the New London School.

Roommates have taken responsibility for providing one child with a gift of clothing and a toy. Ice cream will be served to the children in Kent's recreation room. The girls will then go caroling to nearby nursing homes, after which they'll return to Kent for their own party.

HANDICAPPED CHILDREN

Santa Claus, with his helpers from New Castle dorm and Al-

pha Tau Omega, delighted the handicapped children of Happy Home last evening from 7 to 9 with toys and clothing. Santa's helpers had gathered toys when they were home for Thanksgiving vacation and repaired them.

Preceding this Monday night's caroling tour on North campus with the girls from Smyth, Richard (St. Nick) Orth, of Sigma Nu, will distribute the girls' gifts which will reveal the identities of peanut sisters.

After caroling, New Castle residents will finish their dorm party with refreshments, more singing, and the reading of the Christmas story.

Cannon residents, too, will reveal the identities of their peanut sisters at their holiday party on Monday. Refreshments and a Christmas program are planned. For the less fortunate

(Continued on Page 10)

## Holidays Limit Cut Privilege

There is some confusion concerning cuts before and after a holiday. The penalty for an unexcused absence is the removal of all cutting privileges in all courses until the end of the semester.

The Student Handbook reads as follows: A student who incurs an unexcused absence in one or more classes during the two days immediately preceding or the two days immediately following a holiday shall be placed on attendance warning.

This warning will notify the student that should he thereafter, during the remainder of that semester, incur an unexcused absence in any course, he will be dropped from that course with a grade of "F".

The authority for excusing absences on the two preceding or on the two days following a holiday are the Dean of Students or the Dean of Women.

## UD Student Wives Hold Party Sat.

A Christmas party is being planned by the Delaware Student Wives before the Christmas Dance tomorrow. After the dinner the members will go as a group to the dance.

The next meeting, at 8 p.m. Wednesday in Old College, will include a hobby show, after which there will be a social. Other meetings will include a lecturer, demonstration and discussion.

The 87 members are divided into groups such as: literary, sewing, crafts, and swimming. These groups hold weekly meetings.

Earlier this year, the group held a square dance in Agriculture Hall with Bates McClean as caller.

## E-52 Comedy, 'Love for Love' Runs Three Nights in Mitchell

E52 University Theatre's production of "Love for Love" opened last night at 8:15 for its three night stand in Mitchell Hall.

A raucous comedy by William Congreve, the play has a cast of sixteen fops, wits and beautiful maidens. Heading the cast are leads Gretchen Berguido, a junior drama major, and Thomas Watson, E52 technical director; and E52 veterans Suzanne Kozak and Thomas J. Waters. Both are senior drama majors.

SET IN ENGLAND

"Love for Love" set in Restoration England, centers around the questionable love between Valentine, a young dandy played by Thomas Watson, and Angelica, a fair maiden with a fortune of her own portrayed by Gretchen Berguido.

Their romance runs its rough course amid the devious schemes of other characters. Matters are complicated for Valentine when he falls under his father's displeasure because of his extravagance and thus falls into danger of losing his inheritance.

High points of the play arise when Valentine becomes entangled in his pretended lunacy used in an attempt to regain his inheritance and when half-witted coxcomb, Tattle, created by Tom Waters, is making love to the dumb yokel, Miss Prue, played by Suzanne Kozak.

SETS BY WATSON

The sets for the play were designed by Thomas Watson, and their construction was completed by he and his crew, headed by junior John Taylor. Elaine Stueber, a Home Economics senior, and her committee are in charge

TOM WATERS and Gretchen Berguido appearing today in E-52 production "Love for Love."

of the elaborate costumes which are necessary for an artificial comedy of manner such as this. Directing "Love for Love" is

Thomas Pegg, professor of dramatic arts and speech. His assistant is Jan Cox, a junior drama major.

# Phillippe Entremont, 23, To Play In Mitchell Hall

## French Pianist Will Be Here After Holiday

### Currently On Tour In North America

Phillippe Entremont, a 23 year-old French virtuoso pianist, whose concert is the fourth Artists Series program, will play on Monday Jan. 6, in Mitchell Hall at 8:15 p.m.

Despite his youth, Entremont is a veteran traveler. His present transcontinental tour, which was sold out almost before it was announced, is his fourth. He has concertized since his 17th year in his native country as well as throughout Europe and North Africa. When he completes his current four-month tour of the United States and Canada in January, Entremont will have played more than 50 recitals and orchestral engagements this season.

The brilliant young Frenchman's journey will take him from Florida to British Columbia, and will include appearances with The New York Philharmonic, The National Symphony Orchestra in Washington, D. C., The Minneapolis Symphony, The Chicago Symphony, and other major orchestras.

Last year Entremont embarked on his first tour of South America, and there received critical acclaim comparable to that accorded to him by Time Magazine, The Washington Post and Times Herald, The New York Times, and the New York Herald Tribune. In addition to this, he received the same recall by popular demand that he received wherever he performed. The exuberant pianist has a contract for three return tours south of the border.

Entremont has recently signed an exclusive, long-term recording contract with RCA Victor. The first of a coming series of Entremont-Red Seal releases is of the Tchaikovsky Concerto, which was recorded in London this June under the direction of Pierre Monteux. An all-Chopin disc, recorded for Phillips, has been released in the United States and Canada by Epic (Columbia) Records. And several Entremont performances, including two Liszt Concerts, cited by the New York Times as among the best concerto performances by anyone on any instrument, are available on the Concert Hall label.

Tickets are on sale at the bookstore. For further information see Dr. Rosenberry, professor of English or Anthony J. Loudis, chairman of the music department.

Phillippe Entremont

## Library's Reading Chamber Is Undergoing Renovation

BY ROBERT HITCHENS

In case you have been wondering what is presently going on in the west reading room of the Memorial Library, the answer lies in the fact that the entire room is currently undergoing a complete renovation, which will ultimately change the entire purpose of the room.

At the present time, the large collection of bound periodicals in the main part of the room is being moved to the loggia, just off the current periodical section of the reading room. Also being removed is the old browsing collection in the north end of the wing. The current periodical section will remain in its present form and location.

### MANY NEW VOLUMES

All this is underway to insert in their places some 6,000 volumes to form a general reading collection. According to Richard Quick, assistant to the librarian, the material in the books will be from practically every subject known.

The books will be chosen for their readability and pertinence. Those which will be both recent and of a classical nature will be added from time to time. Re-

serve books will also be placed here, and the same system for acquiring them, will be maintained.

### NEW IDEA

This combination — of an open reserve and a general reading collection — is a new idea, according to Mr. Quick, and its purpose is to make more students read about more fields other than their own special interests. The turnstile at the en-

trance of the room will serve as a place for the students to stop and check out their books.

This will be something new, since in the past, students did not have direct access to the books, but had to obtain them indirectly through the stacks. Mr. Quick contended that this is a gradual process, but that in the near future, the students will benefit by this new system.

## Alpha Tau Omega Fraternity Relatively New At Delaware

By JIM MARVEL

(This is the second in a weekly series of articles on fraternities at Delaware.)

Alpha Tau Omega was founded on this university campus on Feb. 26, 1949. This makes ATO the youngest house on campus. This fraternity was established from Alpha Sigma Delta, a local fraternity on campus.

### 'NEW' HOUSE

The first house occupied by ATO was at 5 West Main St. This house is now known as the Evans House. Presently they are

located at 153 West Main St. They have occupied this house since the summer of 1955. Their house accommodates 27 men.

At present the membership of ATO includes 37 actives, one social member, and one pledge. These men have been above the all-men's index for eight semesters. The officers for 1957-58 are: David Norcross, Worthy Master; George MacFarland, Worthy Chaplain; Robert Woodruff, Worthy Keeper of Exchequer; and Bruce Paul, Worthy Keeper of Annals.

### HOME COMING FLOAT

ATO has won the mens' division of the homecoming float competition for the past three years. They are active in campus affairs holding offices in several organizations such as editor of "Slipstick," president of the Engineering Council, president of American Institute of Chemical Engineers, president of the Psychology Club, Chairman of the Junior Musical, and vice-president of the Junior Class.

### FACULTY

Several ATO's are represented on the university faculty among whom are: Dean George Worri- low of the school of agriculture; J. Robert King, of the music department; Dr. Cuthbert Webber, chairman of the math department; Dr. William Mosher, chairman of the chemistry department; and Milo Lude, line coach of the football team.

Alpha Tau Omega

## Friends Fellows Discuss Quakers

The Friends Fellowship discussed "The Meaning of Quakerism," led by Richmond Carrick of Wilmington, at a meeting held recently.

This year Friends are meeting on the second and fourth Sundays of each month at 11 a.m. in the chapel of the Wesley House. This month, because of conflicting vacations, the meeting will be held this Sunday at 11 a.m. All visitors are welcome.

## Crompton, Matalena Win Venture Prose Prize

Charles (Ozzie) Crompton of Sigma Nu, and Angela Matalena of Kent Dormitory are the winners of the Venture Prose Contest, announced Dottie Pannell, editor of Venture.

The prize winning stories will be published in the fall issue of Venture to appear on campus Jan. 3.

"Ozzie" Crompton, who was also last year's winner of the Venture Inter-fraternity Prose Award, won the contest with a short story titled "Small Talk." It is a combination of humor and pathos in which the main character is an insensitive, demanding man, who is actually uite

shallow in his pretended knowledge.

As a contrast to the Crompton story, "Confined," by Angie Matalena is a love story which is universal and deep in its implications. This is the first time the Venture Dormitory Prose Award for women has been given.

Both Kent dormitory and the Sigma Nu fraternity house will receive silver bowls engraved with the name of the winner, the dormitory or fraternity and the year.

The judges for both contests were Dr. N. B. Allen, John Morris, and Michael Manheim, members of the English department.

## U S Propaganda

### Not Good Enough

Propaganda in itself is not a bad or good thing. To be effective, though, it must be substantiated by a tangible demonstration of its purpose. This apparently is something which the United States lacks in its dissemination of information.

In Europe, public sentiment about the U. S. is not a bowl of peaches smoothed over with a blob of whipped cream. It's more like the morning breakfast cereal—necessary for nourishment—but which certainly creates indifference and sometimes downright dislike.

It's evident that the U. S. S. R. would take advantage of the situation here known as the Little Rock crisis. But even the countries in Europe more or less not antagonistic to America were puzzled by the turmoil in Arkansas, and wondered why such a thing would happen in the land of liberty.

Switzerland, via its international radio service, interjected: "One wonders how matters came to such a turn that the question to withdraw troops is posed 90 years after the War of Secession." The event, they suggested, was not consistent with U. S. sympathy for the small countries in the Middle East.

Sadly, it seems, the U. S. S. R. has given an immediate example of the peace it professes, though statements from Moscow are not necessarily true.

Radio Moscow last month called for a struggle for peace and a happy future to the world. "War is our enemy," the English-speaking announcer claimed. "We say that the eventual rise of workers will be done internally." Taking advantage of the recent missile developments, the Russian radio challenged the Western world — namely the United States: "Let them demonstrate their superiority — but not on the battlefield."

Sputniks I and II are outright manifestations of the Russian argument for peace, but naturally those intercontinental ballistic missiles can be equipped with warheads. And there is nothing the United States apparently can do but pick up the fragments of an exploded rocket named Vanguard.

Arthur Krock in last Sunday's New York Times Magazine set down six principles for the effectiveness of propaganda. One of these was: "In the contest between totalitarianism and democracy, propaganda as such is a toy pistol unless it exploits actual deeds by which mankind is favorably or fearfully impressed."

To date we are sorely lacking in a paramount deed. As one Delaware professor put it, "We are still having trouble getting our plans off the ground."

RSW

## Notes From—

### The Editor's Notebook

**(X)MAS?** Perhaps we are a little old-fashioned but the use of the letter "X" instead of "Christ" in the word "Christmas" appears to us to be not in good taste — even somewhat crude. We are aware of the commercialization of Christmas and the widespread acceptance of the term "Xmas" by the world of business, but we had credited college students with more discernment in taste.

We are ashamed of the public display of the "SGA Xmas Dance" and disappointed in the Senate.

**LOTS OF LOTS:** "You can lead a horse to water but you can't make him drink" applies even to college students (no physical, family, or physiological resemblance intended.) Students fight for parking places in the Wolf, Robinson, and Hullahen lots and on South College but they neglect the Knoll and the new Academy Street parking areas. The former is generally 40% full and the latter, with 150 spaces, only 10% full.

What do we want? Valet service? Shuttle buses between the two and the Scrounge?

FJG

## THOUGHTS

### On Rain and Complaints

It seems that the only thing that anyone is talking about this week is the weather. So, at the risk of sounding rather trite, I will give some of my thoughts on the snow, rain, and all the trouble that comes with them.

College students from everywhere are cronic complainers about everything. When the weather is bad, this fact is the most convenient thing to complain about. For example, I spent a weekend visiting my cousin at Smith College in Massachusetts. Two of the three days I spent at Smith were beautiful and sunny, while on the third day it rained.

The first two days, there was not a word said by any-

one about the weather; the girls at Smith apparently forgot that there was such a thing as weather. As you might have guessed, the third day brought the usual complaints, "All we ever have in Northampton is rain!" Most of us are familiar with that statement with "Newark" substituted for "Northampton."

Also I can remember people in Paris who complained about the daily showers that are typical of that city during the summer. After hearing the complaints my French teacher at the Sorbonne, a lifetime Parisian gave us these gems of wisdom on the subject. He said that the weather in Paris is rainy ev-

(Continued on Page 5)

# Letters To The Editor...

## Saturday Classes

I have in hand a petition list from students who object to the shift to Saturday mornings during the coming semester of certain classes which previously had been scheduled during the period Monday through Friday. This list was handed in with a covering letter asking for an explanation of our action in this regard, perhaps through the medium of The Review.

The letter was signed by Mary Spanagel, Esther Moore, Mildred Graham, Karen Reath, Amelia Augustus, Eleanor Craig, and Barbara Kille. The letter expresses the hope that due consideration will be given the petitions and that we will take into account "the many problems with which students and faculty members are now concerned." I may add that the names on the petition list are entirely those of women students. I appreciate the opportunity which these students have proffered to answer them through your pages and I trust you will be good enough to find space in your paper for this letter of mine in reply.

## UNIVERSITY SCHEDULE

I should like to remark at the outset that the University operates on a five and one-half day schedule for classes. This is stated on page twenty-seven of the current catalog. The implications of this are clearly that the student should expect to have classes on Saturday mornings as a matter of course. The goal of a higher education is a worthy objective, but I think it might reasonably be stated that this can scarcely be made available at the students' convenience.

## PROBLEMS INVOLVED

The problems with which students and faculty are concerned, presumably in connection with the new schedule, are not enumerated. We submit, of course, that a basic problem is created through Saturday classes for students who must follow employment on Saturdays in order to help meet the financial obligations which college entails. This type of problem

## 'Neath the Arches

By NANCY STEWART

The final fling before exams comes up this weekend with the Christmas Dance, preceded by house parties at the various fraternities.

The unexpected snowfall brought with it a welcome change of schedule as students rushed out of doors to go sledding, snowballing or just walking. With the expected inevitable rainfall a la Delaware, the snow left and to the relief of some of the campus coeds, so did the snowballers who made walking up campus somewhat of a risk to life and limb.

After a trip to Mitchell to see "Love for Love," this reporter would like to say that it was a fine show.

Many of the dorms and fraternities are planning their annual Christmas parties at which children are entertained who otherwise would probably not have any kind of Christmas. Another annual project is the carol-singing by dorms and fraternities which will be repeated this year.

Carol Carlson and Bill D'Onofrio and Thomas Walls and Patti Walsh have announced their engagements.

Hour exams are pretty well over, so all most of us have to do is to get that term paper done over Christmas. Have a good vacation, anyway.

we are always willing to recognize, and we will continue to endeavor to help the student resolve this through, for example, placement in another section of a course meeting at a different time.

On the score of problems posed for faculty by these changes in class hours, I may say that we naturally consulted the schedule committees of faculty members before making the changes, and the changes were incorporated in the schedule only after consultation with the Dean of the school concerned.

I should like to turn to the larger issue involved in these schedule changes. As the University grows, we must gear ourselves to increasing demands upon the schedule and provide for a flexibility therein which will allow us to take care of these increasing demands both in terms of additional courses, sections, and laboratories, and the necessary physical space required distribution of the schedule for these. A more equitable distribution over the full five and one-half day period allows us the additional hours to do this and permits of a more efficient utilization of facilities in the face of growing enrollments.

William G. Fletcher,  
Director of Admissions  
and Records

## No Music At Kent

A few weeks ago, the question was raised whether we could have music in Kent Dining Hall. This is an old issue and has been discussed on several other occasions in preceding years.

The answer is "no." The University Maintenance Dept. has filed a full report and in essence the reason is that the cost is prohibitive. What at first seemed a relatively sim-

ple problem has developed into a complex one.

Basically, the reasons are that the acoustics are poor, a control room would have to be provided, electrical interference in the building would have to be eliminated, all wiring would have to be concealed within the walls and speakers would have to be properly located and mounted. All this would require the engagement of a consulting firm to make recommendations plus the final expense of installation and upkeep. In the end the cost would be so high as to be prohibitive, especially in view of the alternative that has been offered.

The alternative is that when the new Student Center is opened, it will have facilities for music and the music can be piped over to Kent Dining Hall with very little expense and will simultaneously overcome the other limiting factors.

It appears that the best plan is to wait until the new Student Center opens and take advantage of the facilities there.

Ken Hastings  
Chairman, Dining  
Hall Committee

## Trophy Trouble

I would appreciate it if The Delaware Review would publish the following letter which is directed to the Cheerleaders' Spirit Trophy, recently awarded to Delta Tau Delta and Kappa Alpha. I do not desire to have my name published in connection with this letter.

Cheerleaders! Since you are undergraduate students of the University of Delaware, you

## Fraternally Speaking...the Greeks

The Brothers of **Delta Tau Delta** are hanging their stockings by the chimney with care in hopes that St. Nicholas will be at the annual Christmas party at the Shelter tonight. Santa will appear again tomorrow night at the Christmas Dance.

The snow last week brought a flurry of snowball fights between the Deltas and various South Campus groups. Thanks to the girls of Bonham House for the cookies and coffee that followed our attempted snowball raid.

Thanks to our friends at the Pike House for a tremendous party last week.

**Pi Kappa Alpha** has added a mascot to its ranks, in the form of one small, friendly dog. The pup, as yet unnamed, arrived last Saturday, and promptly won the hearts of all the Pikes.

We play host to a group of children from the Happy Home Orphanage tonight at our annual Christmas party. There will be a regular party for those who survive, later on.

We should like to thank, sincerely if belatedly, Miss Nancy Newsome for being our IFC candidate.

With stomachs full, the brothers of **Theta Chi** are using up many bottles of Alka Seltzer. A royal feast was given by our good brother Howie Levv. Brothers Brever, Jones, and Pollack looked like they were in pain. Many thanks, Howie.

Our congratulations to brother Toto on being selected for the second team Little-All-American and receiving honorable mention for the All American team. Also glad to see brother Schilero dunking many points on the Blue Hen basketball team. Best of luck, Bob in future games.

Tonight the brothers of **Kappa Alpha** and their dates will enjoy a Christmas party. The guest of honor will be none other than old St. Nick who will distribute gifts. We would like to thank brother George Barczewski who donated a fine Christmas tree.

Last week's Ego-Roland house party was a tremendous success.

Led by brothers Ralph Bingham and Roland Carson who garnered 16 points each, the KA basketball team rolled to an impressive 70 to 12 victory over Delta Tau Delta.

Tonight, the **Sigma Phi Ep-**

silon house will be the scene of an authentic 'Roaring 20's Prohibition' party as the mugs and their molls will congregate at "Ma Morton's" roadhouse complete with 6-button bennys and assorted weapons.

Wednesday afternoon is the date of the annual Underprivileged Children's Christmas Party under the sponsorship of the sophomore brothers. Brother John Bowman is the chairman of the affair and Otto Fad will be Santa.

Congratulations go to brother Charley Woodward who was recently elected captain of next year's cross-country team. Also to brother Atkinson and his intramural basketball team which won its first game.

The brothers of **Alpha Tau Omega** are looking forward to the Playboy party as the best party of the year. Social Chairman Earl Graham has gone to great lengths planning and arranging details for this party.

Art Curley and his combo will provide music, and highlighting the evening will be the announcement of the "ATO Playmate" for 1957.

Brother Bill Payne, captain of Epsilon Rho's basketball

team, is getting the squad in shape, and although we dropped our first game to Sig Ep, he says we should have a good season.

Last night the brothers in conjunction with the girls of New Castle Hall, gave a party at Happy House, a home for under privileged children.

Tonight, before the witching hour, of course, a representative group of several **Phi Taus** and dates will be invading the premises of young Dennis Sloman in preparation for the big Christmas Dance tomorrow.

Congratulations are in order for the outstanding performance turned in by Brother Kimmel in the 200 yd. backstroke in the Lafayette meet.

Congratulations also to Dick Bennett, Millard Carroll and Roger Hopkins who were initiated into the brotherhood last week.

Displaying good will towards others, the brothers of **Sigma Nu** held a Christmas party last night for the kiddies of Governor Bacon Orphanage. In the midst of the activities Santa Claus made an appearance and presented each of them with a gift.

Tonight we are holding a house party in the Snake Pit, and Saint Nick is expected to return to present the seniors with some small token. To

continue the weekend activities, we are serving a buffet style dinner which will begin at 6:15 and a carol sing around the blazing fire place will follow the meal.

### Thoughts

(Continued from Page 4)

This type of thinking can be applied to other things besides the weather. Our attitude toward all the world every day or nice every day depending on how you think. clouds our opinions on specific subjects in that world.

Here at Delaware, if the weather is pleasant, students find something else to complain about. Maybe it will be the dining hall line, and if that line isn't long, then it will be the food that students get inside of the dining hall.

I guess the reason that students complain about incidental, unimportant things like those I mentioned, is to relieve the pressures of more important things. Next week's test, or the low average in a course are the real pressures. Other things, like the weather are only a good way of forgetting the real things that should be considered.

After reading over what I have written, I guess what this column complains about is people complaining. If so, let that be for I can't stand this awful weather either.

## Trophy Trouble

(Continued from Page 4)

must have minds capable of colleg work. Then how is it that you cannot make your own decisions?

It seems as though you had a standard system used for computing the scores obtained by each Spirit Trophy contended. Using your system, Delta Tau Delta should have received top honors (even before winning the last send-off). Being aware of this system, Kappa Alpha immediately devised another system giving them first place. It seems, to avoid embarrassment on your part, you called it a tie. Mathematically, regardless of the system you used, it is impossible to obtain a tie. Therefore, I would like to see the figures published so that the student body may observe them.

As a point of interest—prior to the presentation of the trophy, you stated that you would not change your present scoring system. Why, then, did you change it? Could it be due to pressure from a party involved?

Bruce Furman

## Clubs Combine Christmas Party

Eighteen countries were represented at the French and Spanish Clubs Christmas Party last night at Kent Hall Recreation Room.

The foreign exchange students from the Wilmington area are representatives from Sweden, Greece, Spain, Argentine Republic, Denmark, France, Pakistan, Finland, New Zealand, Luxembourg, Indonesia, Norway, Italy, Philippines, Belgium, Iceland, Germany, and Turkey.

There will be games, songs, entertainment and refreshments at the party.

# Offstage Notebook

By George Spelvin

Radio station CKXL - Calgary, Alta., has announced a programming ban on the new Elvis Presley Album of Christmas songs. A station spokesman declared that, "Presley's release has, we feel, no place on our station. . . . Presley sings the Christmas songs exactly as we expected he would. It is one of the most degrading things we have heard in some time."

Ed Wynn, whose comeback as an actor has been mainly confined to TV, has signed for his first TV picture series. He'll star in "My Old Man," a situation comedy series.

### NEW SHOW

In what seems to be an effort to bolster "The Thin Man" series, a Friday night NBC-TV show, Metro TV has has set Robert Taylor as guest star in an episode. The episode is titled "The Scene Stealer" and, in addition to Taylor, co-stars Peter Lawford and Phyllis Kirk. "Marty," Paddy Chayefsky's TV creation which proved to be a Cinema grand-slam, may soon find its way back to TV. United Artists TV is considering its release along with some other material (possibly "Barefoot Contessa" and "Summertime") as a package deal.

### BERGEN SHOW

The Polly Bergen Show, a Saturday night NBC-TV show, is to get its third sponsor next week since the beginning of the season! Bob Hope will leave Dec. 16 under US Army auspices for an entertainment tour of the WW 2 combat areas. In addition to Tokyo and Korea, he'll visit Hawaii.

Guadalcanal, Guam, and Wake Island.

"Witness For the Prosecution," a courtroom novel by Agatha Christie, has been shaped for the movies with competence. Under Billy Wilder's direction, "Witness" unravels realistically, producing a steady and subdued excitement. The characters are believable, the plot is never lost in intrigue, and the moods and motivations are clearly and correctly established. We were much impressed with Tyrone Power, as the ingratiating defendant who seems incapable of murder, Charles Laughton, as the sage of the courtroom and cardiac patient who constantly disobeys the nurses, and Marlene Dietrich, who is excellent histrionically and physically as the cause of much bafflement until the resolution.

### LOVE FOR LOVE

Circumstances prevented us from commenting last week on the E-52's "Love For Love" running last night, tonight and tomorrow night. It's wonderfully funny Restoration piece by William Congreve and, by all accounts, is receiving class "A" treatment from the Mitchell Hallers. If you've never seen a Restoration Comedy, you've never seen some of the funniest characters ever written. If the cast is up to it, the show should sparkle with classic epigrams, foppish men, and flirty women that should leave you gasping. Good luck to all of you in the cast!

Yours Truly,

George

## U. Of Md. Gives Financial Aid To Greek Housing Project

College Park, Md. — (I. P.)—

Under the new Greek housing program, originally proposed by President Wilson H. Elkins, of the University of Maryland, the University agrees to aid in financing individual houses that do not exceed \$110,000, of which approximately 40 per cent must be provided by the interested organization.

The funds provided by the University would be obtained from the endowment funds of the University, and have to be repaid over a period of not more than 40 years. According to the policy statement of this program, the rate of interest would be no less than 4.5 per cent, and a provision would have to be made that this rate of interest is subject to re-negotiation at the end of each five year period.

The houses constructed under the program would be considered the property of the University, and the fraternities or sororities would live in the houses so long as:

1. The investment is being

## On Jan. 3, WEAC To Sponsor Dance In Women's Gym

The Weekend Activities Club will open the 1958 campus social calendar by sponsoring a dance on Friday evening, January 3. The dance will be held in the Women's Gym from 8:30 to 11:30.

Music for the evening's dancing will be provided by the Delatones.

An admission charge of 50 cents per person will be collected at the door. The club is making arrangements for refreshments to be sold at the gym.

The dress for the evening will be coats and ties for the men.

amortized on schedule;

2. The house is being maintained in a condition satisfactory to the University; and

3. The organization is considered an asset to the University. According to Dr. Albin O. Kuhn, assistant to the president, the Board of Regents will consider arrangements under which the organization occupying the house may continue to occupy the house at a nominal fee, once the loans have been fully amortized.

Dr. Kuhn said that under this program, there would be no land-tax expense to the organization building on University property. Assistant Dean of Men, Bob James, estimated that such taxes would run about \$1200 a year.

## Sophomore Prexy Pleas For Change

"I hope that freshman rules and Sophomore Court will be abolished or changed, unless the court is given power to enforce its rules," stated Ron Nowland, president of the sophomore class in a plea before the Senate and again before his class at their second meeting last Thursday.

"However," he continued, "freshman rules are necessary to the campus."

Ron also announced that he is having the Gold Ballroom of the Hotel duPont placed on reserve for the class's senior prom.

The sophomores also made plans for a class party second semester, which will be stag or drag.

Gib Smith, treasurer, announced that class dues will be collected at registration. He reported that the sophomores made \$380 on their dance which, plus a balance of \$106, means they have \$486 in their treasury.

## Board of Trustees Report

(Continued from Page 1)

In 1929 he was appointed secretary of the governor's commission which developed a program leading to the formation of the State's Regional Planning Commission. He also served for many years as technical consultant for the Tri-State Planning Commission which embraced an area north of Trenton, N. J., to south of Newark, Del. In 1930, during the dedication of Evans Hall, Mr. Grubb was one of several engineers awarded the honorary degree of civil engineer.

In 1930 he became engineer executive for the American Road Builders Association, Washington, D. C., a post he held until 1934 when he became assistant director, Projects Division, for the Public Works Administration in Washington. In 1936 he joined the university staff in the position he now holds.

Mr. Grubb's professional and civic affiliations are many. He is a past president of six organizations: the County Highway Officials Division, American Road Builders Association; the University of Delaware Alumni Association; the Torch Club of Delaware; the Bellefonte Building and Loan Association; the Board of Trustees of the New Castle County Workhouse; and the Delaware Automobile Association.

He is a member of the Sigma Phi Epsilon fraternity; Tau Beta Pi; Phi Kappa Phi; Washington Lodge Number 1, AF & AM; the Eastern Association of College and University Business Officers; the Educational Buyers Association; the American Society of Civil Engineers; and the Church Club of Delaware. He is a registered professional engineer and land surveyor in the State of Delaware.

### THE NEW DORMITORIES

The Brown Hall extension on the central campus between Main Street and Delaware Avenue in Newark will be known as Sypherd Hall, in honor of Dr. Wilbur Owen Sypherd, who was successively student, professor, department chairman and president during his long relationship with the university.

Dr. Sypherd was graduated from the university in 1896 and, following graduate study, returned to his alma mater to serve as professor and chairman of the English department from 1906 to 1944. Until 1921 he also was college librarian and from 1936 to 1944 he was chairman of the division of graduate studies. During the difficult war years, 1944-47, he became acting president and it was during his administration that the transition from coordinate men's and women's colleges to a coeducational university was finally effected. In recognition of his significant lifetime service, the university conferred upon him the degree of Doctor of Laws, "honoris causa," in 1947.

Retirement from active teaching and administration did not end Dr. Sypherd's work as a scholar. He continued his research and writing until his death in 1955, visiting his office in Purnell Hall daily. One of his last and most successful undertakings was a recorded series of 26 radio programs of readings from the King James Version of the English Bible presented by several Delaware stations.

### DEAN SQUIRE

The extension of Sussex dormitory on the south campus will be known as Squire Hall in honor of Dr. Francis Hagar Squire, dean of the university and dean of the school of arts and science.

Dean Squire joined the university faculty in 1927 as an instructor in history and progressed rapidly through the academic ranks. Early in 1943 he enlisted in the U. S. Naval Reserve and served for two and a half years with the Naval Aviation Training Command. Upon his return to the university he was appointed dean of the university and of the school of arts and science. While in England on a sabbatical leave to complete research on a historical volume, he was stricken with a heart attack and died in April, 1956.

### DR. COLBURN

The two east campus dormitories, located approximately opposite Alison Hall on Academy Street, will be known as Thompson Hall and Colburn Hall. Thompson Hall, nearest the street, will be a dormitory for women; Colburn Hall will be a men's dormitory.

At the time of his death in February, 1955, Dr. Allan P. Colburn was recognized as one of the nation's leading authorities in the field of chemical engineering. First appointed to the university faculty in 1938, he became chairman of the department of chemical engineering and was responsible for developing a wide research program in cooperation with industry and governmental agencies. In 1947 he became assistant to the president with the development of research in all fields his principal responsibility.

In 1948 he was named the first recipient of the Professional Progress Award given by the American Institute of Chemical Engineers and in 1950 he served briefly as acting president of the University and became a life trustee of that institution. A successful manufacturer, Mr. Thompson was treasurer of Joseph Bancroft and Sons Company from 1889 to 1911 and president of the U. S. Finishing Company from 1913 to 1933.

He served as chairman of the board of the latter company from 1933 until his death, and also was a director of the Federal Reserve Bank of Philadelphia. He was active in civic, church and state affairs throughout his career.

### HENRY B. THOMPSON

Henry B. Thompson, a member of the board of trustees from 1912 until his death in 1935, served as its president for twenty years. Born in Darby, Pa., in 1857 he was a graduate of Princeton University. Upon the arrival of President John A. Perkins, he was named to the newly created post of provost. In this capacity he continued to direct the university's overall research program and assumed other administrative responsibilities which he held throughout the remainder of his active career.

## Roberts Announces Language Scholar

Dr. Kimberly Roberts, chairman of the modern foreign language department, has announced that the department will be host to a Visiting Scholar, Dr. Sturgis E. Leavitt, on Jan. 9 and 10.

Dr. Leavitt, who received his B. A. in romance languages from Bowdoin College in 1908 and his M.A. and Ph.D. from Harvard University in 1913 and 1917, respectively, is presently the Kenan professor of Spanish and director of the Institute of Latin American Studies at the University of North Carolina. He has also received an honorary doctor of literature from Bowdoin College and Davidson College.

### TAUGHT IN SOUTH

Prior to his arrival at the University of North Carolina in 1917 as assistant professor of languages, he taught as an instructor of languages at several colleges. Proceeding from assistant professor in 1917, he became an associate professor in 1918, professor in 1921, and Kenan professor in 1945. In 1919, he received a grant from Harvard to become a Sheldon Traveling Fellow in Latin America for one year.

### AUTHOR

Dr. Leavitt is the author of several books on Spanish drama in the Golden Age, a bibliography of Spanish American literature and a large number of

popular textbooks. He is the editor of the Southern Atlantic Bulletin and associate editor of the Hispanic Review.

A member of the Modern Languages Association, he is a past president of the American Association of Teachers of Spanish and Portuguese.

While here at Delaware, he will visit several classes and have lunch with advanced students in languages. In Brown Hall lounge on Thursday night, Jan. 9, at 8:15, he will give a lecture that will be open to the public. For all interested persons, he will give another lecture on Friday afternoon, Jan. 10, at 2:00. The place for this meeting is as yet undecided.

## Frosh Collect Class Funds

Lawrence Funderburk, president of the Freshman Class, announces that class dues will be collected Monday through Wednesday of next week in the basement of the library. The dues are fifty cents a semester. Funderburk states that payment at this time will be appreciated.

## Library Missing Five Costly Books

W. D. Lewis, university librarian, has sent out a plea to Delaware students.

Would the persons who removed the following books from the shelves of the Reference Reading Room in the library, please return them?

The books missing are: "Statesman's Yearbook," "Free and Inexpensive Learning Materials," "Dickens Encyclopedia," "Warner Library of World's Best Literature, Vol. 39," and "Oxford History of Music, Vol. 4."

## Freshmen Meet

There will be a Freshman Class meeting on Dec. 12 in Mitchell Hall. At the meeting Larry Funderburk, class president, will introduce the chairmen of the finance, activities, publicity and civics committees.

Larry will ask for volunteers to work on these committees. Everyone is encouraged to volunteer.

Class dues will be discussed as to the amount and when they should be paid.

A statement will be made concerning what the executive committee has been doing since the elections, and a printed agenda on future class plans will be posted in the near future.

WHERE PARKING IS NEVER A PROBLEM

Sports **SLANTS**by Dave Heeren  
Sports Editor

**S**how is indeed a phenomenon in Delaware's weather scheme while rain is an everyday occurrence. But there is one kind of rain — last Wednesday we discovered there are different kinds — that occurs here even less frequently than snow . . . indoor rain.

In a true miracle of nature, Delaware's campus was blessed with both varieties of precipitation on Wednesday. True, the two did not occur simultaneously — that would be too great a task even for Delaware's "Mother Nature" — but, no sooner had the snow stopped outside, when the rain began indoors.

The "indoors" in this case happened to be Carpenter Field House where Delaware's cagers were engaging the Hofstra tall boys. As a consequence of the "rain"—actually melted snow leaking through the roof — the boxscore of the game looked something like this:

DELAWARE					HOFSTRA				
Player	Pos.	FG	F	P	Player	Pos.	FG	F	P
Wickes, f.		4	2	10	Rathje, f.		3	3	9
Zeigler, f.		0	1	1	Laux, f.		2	2	6
Taylor, f.		0	0	0	Cunneen, f.		0	0	0
Mosher, c.		0	0	0	Einbender, c.		1	1	3
McFarland, c.		0	0	0	O'Reilly, g.		4	0	8
Schilliro, g.		0	2	2	Toperoff, g.		3	2	8
Cluff, g.		6	2	14					
<b>TOTALS</b>		<b>10</b>	<b>7</b>	<b>27</b>	<b>TOTALS</b>		<b>13</b>	<b>8</b>	<b>34</b>

As indicated by the totals, the above statistics are not those of a complete game, but of one half. The precipitation limited itself sufficiently in the first half so that play was possible. But, while the teams were in the locker rooms at intermission, water began to pour through the skylights in the roof onto the court.

The coaches of the two teams met with the officials and this guy stuck his nose in. Towels were brought out and put on the court to absorb the water, but quickly became saturated. The irate Hofstra coach suggested consultation of a rule book but, in the confusion, none was produced.

The most imaginative, if impractical, solution was offered, however, by the referee. He advocated the use of vaulting poles with towels attached to the ends, to be supported and held against the roof by volunteers in order to stop the leaks.

It was ultimately agreed upon to postpone the game until a future date.

From the beginning it was not a good day for the Hofstra cagers. The heavy snowfall caused them to leave home early in the morning, minus the freshmen, by train. Of food there was none and of expense there was plenty, but there would be a consolation, victory, or so it was believed.

The empty stomachs asserted themselves early in the game as the Blue Hens took the lead. A stray shot hit the backboard support and bounced through the hoop to put Hofstra ahead for the first time and finally the buzzer sounded the end of the first half.

Ah, "oranges" thought the Hofstra players, but then they found themselves back on the court, replaying the final minute. It seems that one of the clocks had fallen a minute behind the other.

Another buzzer and again the hungry thought, "oranges." This time the reverie was broken by the apologetic announcement that "no oranges are available but we can get cokes."

And so it went. Even Dave Tompkins, new university news director and loud speaker announcer, had his troubles. He announced the first five minutes of the game into a dead microphone.

A pensive sportswriter chuckled to himself as he imagined the headline: "Basketball Game Postponed, Rain", when a feminine voice addressed him, bringing him back to the reality of the snowball-throwing crowd outside of the Field House. It said, "weirdest people I never seen. Comes to game and takes notes! Gee!"

Varsity Swimmers  
Loses to Lafayette  
But Freshmen Win

Delaware's swimmers suffered defeat in their opening splash with Lafayette at Easton, Pa., last Saturday. However, Coach Rawstrom expects to better last year's all-time low record of one win and nine losses despite the lack of depth on the team.

The boys have been hard at work since the beginning of school hoping to turn the tables on the Leopards who walloped them 60-25 last year.

Contributing a great deal to the team this year is captain Fred Friebott from Fort Monmouth, New Jersey. Freestylers George Webber, senior, from Newark and Bart Rinehart, junior, from Wilmington, will be helping to capture points for the Hens this year along with a number of sophomores.

KA and Sig. Ep. Court Victors  
As Court Season Commences

By DOUG EVANS

The Intramural Basketball season opened Dec. 2 and defending champions Kappa Alpha got off to a good start by trouncing Delta Tau Delta, 70-12. Ralph Bingham and "Reds" McCafferty each had 18 points for the victors while Ray Sneller was high man for the Deltas with 4 points.

Almost as impressive was Sigma Phi Epsilon's 70-34 victory over Alpha Tau Omega. Otto Fad and Sonny Reihm scored 26 points between them for Sig Ep while Bill Payne and Ralph Juhl each scored 12 points for ATO.

Theta Chi downed Alpha Epsilon Pi in a well played contest and Sharp Hall beat the boys from the Delaware Avenue Dorms.

Chicks Win;  
Edge Lehigh  
By 3 Points

The Delaware Freshman Basketball team has a record of 1-0 as a result at Saturday night's 73-70 conquest of Lehigh. The Frosh quintet is coached by Irv Wisniewski and assisting him are former Delaware stars, Dallas Green and Jimmy Smith.

The starting five consists of John Barry of New York City, Bill Brooker and "Flash" Gordon, both from Waynesboro, W. Va., Alexis I. DuPont's Jay Lynch, and Tom Adams from Ocean City, New Jersey. Other players expected to see a great deal of action are Maurice Burzine, Jack Carney, Jack Baly, and Mike Andrews.

The Chicks' first game with Hofstra was cancelled due to the heavy snowfall which made transportation impossible. Delaware then met Lehigh; and after getting off to a slow start, the Blue Hens and Engineers fought a close duel to the final whistle.

In the closing minutes, John Barry, high scorer for the night with 25 points, sunk a driving layup to break a tie. "Flash" Gordon made an insurance point from the foul line, and Delaware came off the floor on the long end of a 73-70 score. Gordon is to be praised for grabbing 15 rebounds from a big Lehigh team.

Engineers Whip Hens  
With Late Drive;  
Yake on Muhlenberg

BY PETE FISHER

After holding a one-point lead at the close of the first half, Delaware's varsity basketball team fell to Lehigh, 90-66, last Saturday night in Bethlehem, Pa. Tomorrow, the Blue Hens will go after their first victory of the season against Muhlenberg in Allentown, Pa. Jim Jeffries, a Muhlenberg senior, who last year was voted the top player in the Palestra, will be the man to watch.

Frank Wickes

Up until the last nine minutes of the Lehigh scramble, Delaware was in contention. At half-time they were even leading, 34-33, despite an early 11 point deficit.

With nine minutes to go, and Lehigh on top, 58-52, the Engineers began to play basketball. They out-scored the Hens 32-14 during this final stretch.

Bob Shiliro was the top scorer for the Hens quintet with 21 points. Lehigh's Bob Roepke was the game's high scorer with 25 points. He averaged 18.4 points per game last year. Emil Healy racked 19 points for the Lehigh squad.

Coach Irv Wisniewski said that the game's story was told in the record book. Delaware sunk 27 baskets with 90 shots, for a 30 percent average, and the Engineers dropped 38 in 80 tries, for a 47.5 percentage.

The frosh fared better. They whipped the Engineer freshmen 73-70. John Barry and Tom Adams scored 25 and 21 points respectively, to lead the Chicks to victory.

Lehigh 33 27-51

## Blue Hen of the Week

BY SKIP CRAWFORD

Well Delaware's basketball team took it on the chin again Saturday night as they were defeated by Lehigh 90-66. The game took place in Bethlehem, Pa. It was a hard fought contest right up to the beginning of the third quarter when Delaware had a three point lead. Then Capt. Frank Wickes fouled out and the team seemed to fall apart.

## TWENTY STRAIGHT

Lehigh followed this with 20 straight points before Delaware could get a basket. However, the game was not without its individual stars such as Wickes and Bobby Schilliro.

Recognition as "Blue Hen" goes this week, to Frank "The Nose" Wickes. Frank played a good game, and Delaware was in the contest right up to the third quarter when he fouled out. Frank is from Ocean City, New Jersey, and a member of A&S "59" majoring in music. He is 20 years old and Captain of Delaware's Basketball team.

## MUSICIAN

Frank hopes to enter the field of music when he graduates, and with the talent that this boy has, he is liable to become a pretty good flute player. In high school Frank was an outstanding basketball player and was named to the all state and all county teams. He led his team to the state finals his senior year.

Frank and I both feel that this year's team is underrated. There is some good talent there, but there is one major thing missing; and without it, Delaware has a long road to hoe. This major thing was displayed in Saturday's game, and is known as depth.

(Continued on Page 9)

WAA Tournament Sign-ups  
Begin; Schedule Announced

BY VICKI DONOVAN

Now that Thanksgiving is just a memory, the WAA is back in full swing with planning the sports program for the latter part of the semester. Sign-ups for volleyball and badminton have already been held and the tournaments are beginning.

Gail Shierman and Joan Reed are in charge of volleyball, and Betty Mofrell heads badminton. Both tournaments will be held

in "round robin" fashion. A schedule of the games has been posted in each women's dorm. These games will continue until Jan. 18 when the winning dorm will be announced.

## PRACTICE GAMES

There will be a practice game in each sport, and for those who may be a little vague on the rules, they will be explained by the heads of the two sports. Quite a few girls are interested and have signed up for these sports. Everyone is encouraged to stick to his word and make this a great season for volleyball and badminton.

Plans are in the making to elect a freshman representative to the WAA. Her duty will be to assist the secretary in compiling points and keeping a record of the activities of this organization.

Many of the girls on campus do not know about the WAA point system. Right now, it is in the process of being revised, but it may be of interest that everyone who participates in WAA activities accumulates individual points, and upon receiving a required amount of points will receive an award.

## POINT SYSTEM

Mrs. Rothacher has asked that more girls take part in the recreational swimming. The number of participants has lagged lately, and, unless more people show interest, it will have to be discontinued. No one wants that so please, in a spare hour go to the women's gym and swim a few laps or just "mess around". The hours for recreational swimming are:

Mondays, Wednesdays, Fridays—4-5 p.m.; Tuesdays, Thursdays—7-8:30 p.m.

Hocutt Reminds  
Budding Athletes  
To Keep Off Grass

John Hocutt, Dean of Students, reminds all men's residence and fraternity groups of the rule which prohibits the playing of touch football and other games on the campus lawns. The reason for the rule is to protect the grass and shrubbery from damage. Cooperation of the students will be appreciated.

Hocutt stated, "Fraternity and dormitory groups MAY use the following areas for touch football and their games:

- (1) The property South of Amstel Avenue between Orchard Road and Elkton Road.
- (2) The two fields west of the Stadium. These two fields, which are covered with a good stand of grass, were prepared for use as intra-mural fields as well as for parking at Saturday games.
- (3) Frazier Field at the north end of the campus. These two areas may be used when they are not being used by physical education classes or by athletic teams."

as is Bill Brooker who played a fine floor game.  
The Chicks' next game is December 11 at home against Brown Prep. Then the frosh will meet the Muhlenberg freshmen, who according to coach Wisniewski, are a perennially strong team. Wisniewski continued to say that this present Delaware team is a good and respectable ball club that works well together.

**Blue Hen**  
(Continued from Page 8)  
There just isn't enough material behind the starting five to give them the support that they need. Delaware pressed Lehigh all over the court in the second half; and by the time the third period arrived, the boys were tired. Without any bench to throw in for support, the boys just fell apart, and with them went the game.  
The boys were beat after the game, and they didn't arrive back at Delaware until 1:30 a. m. It is a good three hour ride from Lehigh to Delaware, and a tiresome one at that. When they arrived, the Freshman team (which won), was dismissed, but the varsity suited up and mounted the floor for a little practice. With this early morning practice, I guess the boys were in good shape for the next game which was against Navy last Wednesday night.

**AWARD WINNER** — Tony Toto, pictured above as a would-be tackler might see him, was showered with awards and national recognition last week for his gridiron feats. Teammates Walt Handel and Joe Harvanik were also honored.

# Tony Toto Receives Numerous Honors; Linemen Mentioned

Delaware halfback Tony Toto was named All-American under two systems of ratings last week. The first was the Williamson system which is based on the statistical feats of the individual. The other was the Athletic Directors' All-American eleven.

**HANDEL NAMED**

Guard Walt Handel also received Little All-American mention. Walt, a junior with another year of football eligibility, was the outstanding member of a strong Hen forward wall.

In another poll, Toto received the Wilmington Touchdown Club Annual Award as Delaware's outstanding senior football player. Joe Harvanik, Blue Hen captain during the past season, received the Taylor Memorial trophy as the senior player who, throughout his football career, made the greatest contribution to team morale.

The occasion was the twelfth annual banquet of the club last Thursday at which the members of the Delaware football team and their coaches were guests. Principal speaker was Don Miller, of Notre Dame's famed Four Horsemen.

**RECORD SPITES INJURY**

Toto, the victim of a hand injury which kept him out of the first two games of the season, came back in the remaining five games to set a new Delaware individual season rushing record of 715 yards. He carried the ball just 84 times. He also set a new single game record with 183 yards rushed against Temple.

**WRITERS VOTE**

The senior speedster was selected as the recipient of the trophy by a vote of sportswriters and broadcasters who covered the 1957 Blue Hen activities. Harvanik, who starred as a lineman on the Delaware team of 1955 and 1956, fell prey to a knee injury this year which kept him on the sidelines most of the season.

## ASCE Society Hears Dr. Francis Pierce

Mr. Francis C. Pierce, senior foundations engineer for Charles A. Maguire & Associates consulting firm will be the guest speaker at the American Society of Civil Engineers meeting Dec. 16, at 7:15 p.m. in Evans Hall.

Mr. Pierce will speak on the design and construction of the Manhan Dam located on the west branch of the Manhan River in Southampton, Mass. This dam is a rolled-fill earth dam involving approximately one million cubic yards of embankment.

The maximum dam section is 162 feet high and the maximum height of the dam above the stream is 130 feet. The total length along the top of the dam is 2,360 feet. The storage capacity of the reservoir at the spillway crest is 14,300 acre-feet. The spillway design flow capacity (outflow) is 14,500 cubic feet per second.

Mr. Pierce will show slides on the construction of this dam from the beginning to the end. According to Frank Waller, president of the campus chapter of ASCE, this will probably be one of the most interesting speakers that will be here this year, and all interested persons are invited.

### WEC Sponsors Co-ed's Caroling

Women's Executive Council will sponsor a song fest for all women students Sunday evening, at 9:30. The girls are invited to meet in front of Kent Hall. After singing there will be refreshments served in New Castle. Sussex and Kent, Commuter women are invited.

## Six Wesley Members Attend National Methodist Convention

Betty Kintigh, Jean Jaquette, Jack Sirman, George Carlisle, Bill Foster and Harriet Herrman will attend the "Sixth National Student Methodist Conference."

The conference will be held at the University of Kansas in Lawrence, Kansas from Dec. 27 until Jan. 1. The delegates from Delaware will leave by bus Dec. 26, and hope to return in time for the opening of school.

The Wesley Foundation, the Methodist student group of the university, is paying most of the expenses.

This year's conference, whose theme is "Our Lord, Our Faith, Our Life," will be attended by 12,000 students. Its purpose is to provide fellowship and to give an opportunity for students to hear great theologians.

The conference is held every four years. Another Christmas season activity of the Wesley Foundation is a Christmas Caroling Program on Dec. 17, at 7:15 P. M. Following a worship service the group will sing for hospitals and the ill.

The Men's Resident Hall Association will hold a Christmas Party in Brown Residence Hall Lounge, tonight from 8 to 12.

Dancing will be held in the lounge, the tables, chairs and rugs being removed. Music will be served in the basement recreation rooms.

All dormitory residents who have paid dues and all women will be admitted without charge to this party. Fraternity men will not be admitted.

# Enrollment Trends Develop Among Undergrad Schools

Discernible enrollment trends are developing among the five undergraduate schools of Delaware. Dr. John A. Perkins, president, discloses in his annual report for 1956-57.

"In general, enrollments will gravitate ever more heavily toward the vocational-scientific curricula," Dr. Perkins states.

"Ten years ago," he notes, "the School of Arts and Science enrolled over 50 per cent of our undergraduates. Today it enrolls but 44 per cent and if the trend continues, a decade hence it will enroll under 40 per cent. This decline is surprising in view of the growth of Business Administration in this School."

As might be expected, the percentage of engineering students enrolled has risen.

"Engineering today enrolls one quarter of our undergraduates; in 1972 it will claim

nearly a third of them," Dr. Perkins declares. "The School of Education, which a decade ago had but 7 per cent of all undergraduates, will, a decade hence, enroll 25 per cent."

Changes in school enrollments mirror what Dr. Perkins calls the "bread and butter goals of our young people" which are determined by family background and environment. It is not likely that these goals will change, he says.

According to Dr. Perkins, decided changes in fields of concentration are also expected in the next 10 to 15 years with increasing interest in biological sciences, business administration and electrical engineering. A smaller, but significant rise in social science enrollments is anticipated.

## STUDENT INTEREST SHIFT

This shift in student interest offers a unique opportunity to

the School of Arts and Science, Dr. Perkins believes.

"If every course offering in the liberal arts is conceived and taught in a truly liberal spirit, we can graduate from this University scientists, engineers and business leaders with a rich background and a continuing interest in the arts and letters," Dr. Perkins states.

"To bring this about, we must see that every professional program is buttressed by such courses as literature, music, art, philosophy, and history. If these courses are to be successful, they must in many instances be redesigned. Instead of so many specialized courses for majors, more special courses for the non-major should be developed."

"This changing perspective will mean a new and exciting role for our School of Arts and Science," Dr. Perkins concludes. "To this end, this School will need to reorient itself in terms of new objectives and purposes."

## Faculty Members Attend Meeting

W. Francis Lindell, Thomas W. Brockenbrough, Milton G. Young and Robert F. Jackson, members of the university faculty, attended the fall meeting of the American Society for Engineering Education, Mid-Atlantic section, held in New York on Dec. 7.

## GENERAL THEME

The meeting's general theme was "Post-Collegiate Education"—how best to fit graduate engineers for the awesome responsibilities they must face now that their academic days are behind them.

At the conference's general session, held in the grand ballroom of the Hotel Manhattan, Dexter M. Keezer, director of the McGraw-Hill Publishing Company's department of economics, told the 350 educators gathered that if the student paid the full price of his education, faculty salaries could keep pace with today's scale of living. Dr. Keezer's subject was "Faculty Salaries in an Era of Abundance."

## McGraw-Hill Host

McGraw-Hill was host to the all-day session. In the afternoon, panel discussions were held in the firm's building, 330 W. 42nd Street. The panels covered Automatic Control, Recruitment, and Education for Research and Development.

## Delaware Vassar Group

### Holds Scholarship Benefit

Shelled pecan halves and rich fruitcake each at 1.50 a pound, are being sold by the Delaware Vassar Club for the benefit of its scholarship fund.

Each year the club offers a substantial scholarship, the amount of which depends upon the need of the recipient and the amount of money raised, is given to a Delaware girl entering Vassar.

The University has many ties

with Vassar through students, the faculty and friends. To mention a few members of the club, there is Dr. Evelyn H. Clift, associate professor of history; Dr. Quaesita C. Drake, professor emerita of chemistry; Mrs. Karl B. Kaufmann; Mrs. Thomas S. Watson; Mrs. Carl J. Riss; and Mrs. Robert F. Jackson.

Four Delawareans are currently studying at Vassar.

## A Campus-to-Career Case History

## "I looked at all the angles"

Howard R. Winter, B.B.A., Texas A. & M., '51, is now a Commercial Manager with Southwestern Bell Telephone Company in Houston, Texas. He's in charge of 30,000 telephone accounts and a staff of 36 people.

Howard's interest in a telephone career dates from his first interview with a telephone company representative. "I looked at all the angles," he says. "We discussed pay and chances for advancement, which looked excellent because of the rapid growth of the Bell System. We talked about many different kinds of work, and about what would be expected of me."

After receiving his degree in business administration, Howard joined

Southwestern Bell's Commercial Department. "It was natural for me," he says. "I have a business background, I like to sell and make contacts."

"My training gave me a really solid foundation in the business. Two years in the Army interrupted it, by the way, but the two years were credited to my telephone company records and count toward all benefits. After I'd returned and finished my training, I was made a business office supervisor. And since February, 1956, I've been a Commercial Manager in Houston. Each assignment I've had has been a real challenge and has presented a tremendous opportunity to contribute to and advance in the business."

Be sure to investigate the career opportunities for you in the 17 Bell Telephone Companies serving all 48 states. On your campus the local company represents the others. For more information about these career opportunities, read the Bell Telephone booklet on file in your Placement Office, or write for "Challenge and Opportunity" to: College Employment Supervisor, American Telephone and Telegraph Co., 195 Broadway, New York 7, New York.

## Senate Selects Two To Serve On Student Problems Committee

Dorie Mueller and Bob Kupe-  
lian have been selected to serve  
as members of the Committee on  
Student Personal Problems.

The function of this committee  
is to hear disciplinary cases referred  
to them by the office of  
the dean of students, the faculty  
and the Women's Judiciary  
Committee.

Students have been serving on  
the committee for the past four  
years. Two student members are  
selected by the committee from  
four students: one man and one  
woman junior and one man and  
one woman senior, who are nominated  
by the Senate members.

Chairman of the committee is  
David Nelson, Director of Athletics  
and Physical Education. Other members are Elizabeth  
Crook, assistant professor of  
music education; Thomas Brock-  
enbraugh, association professor

of civil engineering; Robert  
Burns, instructor of sociology and  
anthropology; Dr. Donald Cross-  
san, assistant research profes-  
sor, plant pathology; Bessie  
Collins, Dean of Women; and  
John Hocutt, Dean of Students.

Dick Brady, former member of  
the committee, stated, "As a student  
member last year I was  
allowed to participate freely in  
the discussion of each problem  
and to make suggestions as to  
the measures to be taken in each  
case. I felt however, that we  
should have been allowed to vote,  
a liberty which student members  
were not permitted."

## Winterthur Lecturer Reviews New England Antique Values

Dr. Abbott Lowell Cummins of  
the Society for the Preservation  
of New England Antiques was the  
Winterthur lecturer last week  
in Wolf Hall.

Dr. Cummins spoke about  
Ashie Benjamin, American artis-  
an and architect of the late  
eighteenth and nineteenth cen-  
turies.

He told the audience that Ben-  
jamin was one of the major ex-  
ponents of the Federal or Dames-  
que style of architecture in the  
country. His work shows he was  
influenced a great deal by his

friend Thomas Bullfinch, the first  
professional American architect.  
Benjamin published the first  
American Builder's Guide in 1797  
using many of the ideas he got  
from Bullfinch, Cummins said.  
Altogether he wrote seven books  
which went through 46 editions.  
These books were largely respon-  
sible for spreading the Federal  
style to the midwest.

Included in Cummins lecture  
was the fact that Benjamin is  
remembered more as a social  
phenomenon than as a first rate  
architect. He started out as coun-  
try carpenter with a rural ap-  
prenticeship and he turned into  
a professional architect in Bos-  
ton.

## Students Discuss Security

James D. Speakman, junior,  
and Ellis G. Whiteman, senior,  
represented the university at the  
ninth Student Conference on  
United States Affairs which was  
held at the United States Military  
Academy, West Point, N. Y.,  
last week.

### SPEECHES & PANELS

Other facets of the program  
were speeches and panel discus-  
sions. The conference was open-  
ed by William C. Foster, former

deputy secretary of defense, for-  
mer U. S. Representative on the  
NATO council, and now a mem-  
ber of the Science Advisory  
Group of the Office of Defense  
Mobilization. Near the close  
of the conference, Chester Bowles,  
former Governor of Connecticut,  
and U. S. ambassador, addressed  
the participants at an informal  
banquet.

## Athenaeans Meet

The next meeting of the Ath-  
enean Society will be on Sun-  
day at 7:30 p.m. at the home  
of Dr. Roseberry of the English  
department.

Dr. Roseberry will lead the  
discussion, the topic of which  
will be "Poetry and Music."

This will be the last meeting  
of the Athenaeon Society in 1957.  
It will be the sixth time the so-  
ciety has gathered to discuss  
literature since the club was  
formed this fall.
