Home Economists Hear Textile Talk By duPont Speaker

American women are the best dressed in the world because of the textile industry and chemistry, according to Pauline S. Burekel, a representative of the duPont Company's Textiles Fibers Department.

Speaking to the University of Delaware Home Economists Club recently, Miss Burekel discussed the new man-made fibers—Rayon, Acetate, Nylon, "Orlon" acrylic fiber and "Dacron" polyester fiber—in the order in which they appeared on the market.

The textile industry, the world's oldest and largest, she said, employs one-fifth of the world's working population.

Rayon has been on the market since 1910 but Nylon, Orlon, and Dacron have appeared within the last 15 years. The discovery of nylon was an overnight sensation in the hosiery industry and Orlon is so versatile that it is used in everything from sweaters to convertible tops.

Miss Burekel concluded her talk with two important points. First "man-made fibers will find their place in the textile industry because no one fiber is good for all applications," and second, "any fiber made by man can and will be further improved by man."

Delaware Music Educators In Annual Dinner Meeting

The Delaware Music Educators Association will hold its annual dinner meeting at the University of Delaware campus this evening, at 8:30 p.m.

Chicken Every Sunday—And Then Some

"Delaware Chicken, Coast to Coast", the new leaflet prepared in the New York office of the Delaware State Poultry Commission, is offered over New York City's Department of Markets Station WNYC. Blue Hen State's Chickens Publicized, Coast To Coast

Local chickens are given a boost in a new leaflet, Delaware Chicken, Coast to Coast, published by the Delaware State Poultry Commission.

John C. Hammond, chairman of this poultry group, reveals that the leaflet will be distributed on a nationwide basis by radio and television personalities, food editors and teachers.

Designed for consumers, the publication points out that Delaware chicken is available the year around, due to efficient production and improved marketing methods. Featured in the leaflet are a series of famous chefs' recipes, a quantity recipe suitable for hotels and restaurants, and serving ideas from

leading home economists. In this area, the leaflet will be available from the Commission's Office, Box 150, Newark.

While stressing this type of consumer education and poultry promotion, the state Poultry Commission also cooperates with other state agencies in making practical studies of current problems. The Commission aids with disease control programs of the State Board of Agriculture and the University of Delaware.

NATURE CALLS THE TURN

Did you ever wonder how the famous old law of supply and demand works? You saw a good example of the operation of that law this summer, just as you do every summer, in the trend of pork prices.

More than half of all pigs are born in the spring, and it takes six months for them to reach marketable size. Thus, less pork is available during the summer months. And as the supply goes down, while demand remains more or less constant, the price rises, reaching an annual high along about the latter part of August.

Come fall, the trend is reversed. Pigs are marketed in great quantities. Supply is plentiful—and the inevitable result is that prices start to drop. The annual low is usually touched early in December.

In other words, natural law decrees that when a commodity is in abundance the price declines—and when it is comparatively scarce the price goes up. That has been true since men began bartering goods. It will remain true as long as free markets exist.

Every effort of man over the ages to change the law of supply and demand—through government controls, private combinations, or any other means—has eventually resulted in failure and, in many cases, national disaster. It doesn't pay to tamper with natural forces.

Letters To The Editor

309 Delaware Circle
Newark, Delaware

Dear Sir:—When issues of public interest are not clearly explained, misunderstanding may result. Such could be the case in Newark's parking problem and the newspaper's reporting of it this when it was presented to council.

Your paper dated October 8, 1953, said that I questioned the spending of money on a privately owned parking lot and that the matter was referred to the city solicitor for an opinion. The brevity of reporting did not explain why I did not want immediate action on this problem.

Although often appearing to be a dissenter while serving on council, I have maintained a firm sense of loyalty to Newark. Now, more than ever, during Newark's present critical period of expansion, the primary function of local government is to serve the best interests of all as a public trust must be emphasized. To that end, I do not desire to be thought of as an obstructionist in voting and voicing an opinion.

When this problem was under discussion before council, I referred to a neighboring city that had had a similar problem. This city could do nothing on its own because of needed legislative action. I pointed out to council that the General Assembly took action and passed a law giving incorporated towns or cities the power to create parking authority corporations.

I stated at the meeting that we were all in accord that we wanted to do something about parking, but that at the same time, we were all in accord that we wanted to do something in the proper manner. When I asked the solicitor if he was familiar with the parking authority law he replied that he was not. Consequently, it was logical to request council's attorney to search the provisions of this measure. In doing this, we may find that this parking authority law is the proper solution for a severe municipal headache. At least, we will be able to approach the problem in an intelligent manner.

Model Plane Fans Obtain Air Field At G. R. Village

The model airplane enthusiasts of the Hobbycrafters have selected the name "Model Mangers" for their division of the club. Anyone who has been watching the Tuesday evening flights this summer will appreciate the aptness of the title.

With the assistance of the Recreation Association, the club has obtained a place to fly behind the American Legion Post in George Read Village. The boys cleared a large flight area—no small task even with the Recreation Association's power mower, and later improvements include take-off runway and a fenced-off area for the safety of the many spectators. The club plans to fly on Sunday afternoons throughout the winter as weather permits.

A number of the members were able to attend several air meets held in nearby cities this summer. Similar trips are planned for the club in the future.

The Thursday night meetings are now being held at the Armory. Anyone who would like help with their model building or who just like to work with other "mangers" is invited to attend.

Practically every wife finds the perfect husband; he's married to the woman next door.

College Park Notes

by Eleanor Irwin
17 Lincoln Drive

We want to extend greetings to Mr. and Mrs. Rudolph Arnold who have joined us recently at 76 Madison Drive. The Arnolds are former residents of Freeland, Pa.

Two of our residents, Mrs. John P. Murphy of 33 Madison Drive and Mrs. Clarence Oberholzer, 37 Madison Dr., were volunteer workers during the X-ray survey last week.

Mr. and Mrs. William Preis of Manor Park were recent visitors with Mr. and Mrs. Richard Irwin of Lincoln Drive.

Miss Rosalie Czajkowski of Hampstead, Md., is visiting for several days with Mr. and Mrs. Francis Urbaniak of 15 Lincoln Drive.

The new address for Mr. and Mrs. Fred Mandt is 59 Madison Drive. The Mandts formerly lived on Academy Street. Mr. Mandt, a former Collins College (Pa.) football star, played against the University of Delaware in a post season Cigar Bowl game in Tampa.

Miss Marjorie Brown of Lincoln Drive was honored at a dinner given by her parents, Mr. and Mrs. Allen Brown, Pleasant Valley Road, to celebrate her birthday on Monday.

Two been requested to ask motorists to be extremely careful in traveling through College Park. There are so many little children playing outdoors—especially the preschoolers—who are not apt to be watching for cars.

Many from this area took advantage of the perfect weather of the past week-end by motoring to points far and near. We wonder if the impressions were like the following lines from William Herbert Carruth:

"A haze on the far horizon
The infinite tender sky,
The ripe rich tints of the corn-
fields,

And the wild geese sailing high—
And all over upland and lowland
The charm of the golden-rod
Some of us call it Autumn
And others call it God."

Mrs. Anna Condon, of Bethesda, Md., near Washington, D.C., visited her sisters, Mrs. Dora Snyder and Mrs. Martha Houchin, of Ogletown, this past week-end.

Mrs. Houchin and Mrs. Snyder accompanied Mr. and Mrs. Charles Singles of New Castle, on a trip to Smyrna, last Sunday, where they visited their nephew and his wife, Mr. and Mrs. Charles Singles, Jr.

The Rev. Evan Renne of Wilmington was the guest of the Rev. and Mrs. James H. Bishop, Kirkwood Highway, last Sunday evening.

Roseville Park Branch Library
The Roseville Park Branch Library is located at the home of Mr. and Mrs. Charles Raymond, Laurel Ave. It is open to the public on Saturday from 10 a.m. to noon.

White Clay Creek Presbyterian Church
Members and friends of White Clay Church enjoyed an outstanding day together last Sunday, in celebration of Homecoming Day. In the 11 a.m. service, the Rev. Bishop spoke on "Fallen Idols." He pointed out that people today are giving allegiance to gold and silver, to nature, to power, science and nationalism, rather than to the God who created all.

The Youth Choir under the direction of Mrs. Paul Peach, sang, "The Whole Wide World For Jesus."

Miss Romayne McCormick, church organist, played the following selections in the half hour preceding the afternoon service: "The Lord's Prayer" (with chimes), Malotte; "Sonata in C Minor," Gullmunt; "Paraphrase on 'Abide With Me'."

The Rev. Evan W. Renne, associate minister, First and Central Church, Wilmington, brought a message on "A House For the Lord—a Home For the Soul." He stated that "no one can afford to go A.W.O.L. from our appointments in the house of the Lord—in worship and fellowship—We must not rest on the laurels of what has been done in the past. We must press forward toward greater goals."

Floral decorations were arranged by Mrs. David Eastburn. The flowers on the altar were presented by Mrs. Della Othson in memory of her husband, Lawrence.

Mrs. Harvey Ball, Mrs. Della Othson and Mrs. David Eastburn served as hostesses. Mrs. Elmer Gallaher and her luncheon committee wish to thank all who helped in any way to make the day such a success.

The offering in the afternoon service was authorized by the session to be used to help defray the cost of installing the new lighting fixtures.

Members of the class are planning to carry out a "Talent Week" in the near future. Each member will put his particular talents to work to earn money for the class. Watch for further information about this project and be prepared to hire one or more of the many services which will be available.

Both choirs will rehearse on Monday—the Youth Choir at 6:30; the Adult Choir at 8 p.m. Anyone wishing to join either choir should report on Monday.

The Improvement Society will hold its October meeting on Wednesday, at 8 p.m., at the home of Mr. and Mrs. Elmer Gallaher. The program will be in charge of Miss Jane Harrell and Miss Ellen Gallaher. Hostesses are Mrs. Elmer Gallaher, Mrs. Pusey McCormick, Mrs. John Murray, Mrs. Jane Chambers.

Last week a new oil burner with built-in water-heating unit was installed at the Mansie. Much credit is due the Improvement Society for their generous contribution.

Sunday is Reformation Sunday and at the 11 a.m. service the pastor will bring a message on "The New Reformation—the Bible and Human Needs."

Four College Grid Games Scheduled For Home View

TV "Game of the Week"
To Include Portions
Of Four Top Contests

One of the most unusual features in the history of TV coverage of sports will take place Saturday afternoon when portions of four college football games being played in different sections of the country will be seen over the national NBC network as the TV Game of the Week.

The history-making panoramic telecast will include parts of the following games: Princeton vs. Cornell; Mississippi vs. Arkansas; Illinois vs. Syracuse; and Iowa vs. Indiana.

Each of the four games will be covered in its entirety by a full crew of NBC cameramen. Each game also will be described play-by-play by a gamecast announcer. All four telecasts will be fed into a central station in Chicago, where NBC's Mel Allen and Lindsay Nelson will be ready to correlate the game-to-game switches.

The camera changes from game to game will be determined by game action, halftime and quarter intermissions, and time outs. No special portion of any game is scheduled to be televised, but the chief producer, in the Chicago headquarters station will attempt to distribute the telecast as equally as possible among the four games scheduled.

The group of producers, announcers, and technicians in the Chicago station will have four television screens in front of them at all times, each carrying a different game.

Red Cross

(Continued from Page 1)

the armed forces and their families and these volunteers are adding people in a variety of ways.

Miss J. E. Donaherty, Newark, Home Service chairman for Area 1, recently reported a case in which a service man left Newark to go overseas with the expectation that his wife and three children would follow shortly.

For some unknown reason his records remained in the United States so that his name did not appear on the payroll abroad. His family, lacking money for subsistence, sought Red Cross help. After a thorough investigation by Mrs. Donaherty, the service man's presence commanding officer was requested to locate the records and forward them overseas. Red Cross provided the necessary funds to care for the family until the first allotment check arrived.

To add to the already difficult situation, completion of overseas housing arrangements was postponed because the father was hospitalized directly after arrival at the foreign port. It is required that application for housing be made in person. Red Cross again aided the family and in a very short time housing was arranged and the mother and three children were flown to Europe to join the father. Red Cross has received several letters from the family expressing appreciation for all that was done for them.

"Men did not spend the money and take the risks that finally resulted in our splendid system of retailing just for fun. It was done in the hope of making a profit."

—Michigan Times, East Lansing, Mich.
