A Citizen's Guide to Water Resources in Delaware, May 2002

Table of Contents

<u>Chapter</u>	<u>Page</u>
Introduction	i
Frequently Asked Water-Related Questions	ii
Exhibit A - Watershed Location Map	iv
Exhibit B – Surface and Ground Water Supplies Map	v
Federal	1
Regional	3
State	4
County	7
Municipal	9
Delaware Colleges and Universities	13
Community/Public Water Supply	15
Non-profit Organizations	20
Elected Officials	23
Federal	23
State	23
New Castle County	27
Kent County	27
Sussex County	28

A Citizen's Guide to Water Resources in Delaware was developed to help the residents of Delaware answer water problems that they might encounter. The guide also has the secondary purpose of serving as a condensed resource for local governments, public officials and organizations within the water resources fields to have easier access to needed information. The citizen's guide was prepared to satisfy the requirement of an undergraduate course at the University of Delaware with Bernard Dworsky, Gerald Kauffman, and Martin Wollaston serving as advisors.

The organizations and information found in this guide were obtained from the Internet, emails and phone calls. The guide is not meant to be a comprehensive listing of every water-related organization in the State of Delaware. If any organization believes that it has been overlooked, please contact us, and we will include you when an update to the guide is published. To contact the UD Water Resources Agency with questions or comments, use the following information:

University of Delaware
College of Human Services, Education and Public Policy
Institute for Public Administration - Water Resources Agency
DGS Annex
Newark DE 19716

Phone: (302) 831-4925
Fax: (302) 831-4934

U.S Army Corps of Engineers (COE)

The COE conducts responsible development, management, protection and enhancement of the Nation's water and related land resources through the following means:

- **Navigation** – The COE provides safe, reliable and efficient water borne transportation systems for movement of commerce, national security needs and recreation.
- **Flood and Coastal Storm Damage Reduction** – The COE initiates projects to reduce levels of property damage incurred by floods and storms.
- **Environment** – The COE is involved in ecosystem restoration, environmental remediation, and environmental compliance.
- **Regulation** – The COE regulates or oversees certain activities in the Nation's waters to protect the quality and availability of those waters for the use and benefit of current and future generations.
- **Hydropower** – The COE is the single largest producer of hydroelectric power and energy in the United States and produces 3% of the total energy of the U.S.

U.S. Department of Agriculture, National Resource Conservation Service (NRCS)

The NRCS aims to protect, maintain and improve natural resources and the environment through the implementation of the following programs:

- **Environmental Quality Incentives Program** provides technical, educational and financial assistance to eligible farmers to address soil, water and natural resource concerns.
- **Wetland Reserve Program** is a voluntary program to restore wetlands on private land where participants can establish conservation easements with payment or can enter restoration cost-share agreements where no easement is involved.

- **Wildlife Habitat Incentives Program** provides financial incentives to develop habitat for fish and wildlife on private land.
- **Resource Conservation and Development** provides technical and financial assistance for land conservation, community development, and other environmental, social and economic needs.
- **Conservation Buffer Initiative** advocates the use of buffers to help protect our nation's streams and rivers.
- **Watershed Surveys and Planning** assists federal, state and local agencies as well as governments to develop plans to protect watersheds from damage by erosion, floodwater and sediment.
- **Floodplain Management Studies** identify and examine floodplain related issues and provide findings and recommendations to community leaders and the general public in assessing flood hazards and mitigating flood – related hazards.

Contact:

Paul Petrichenko
Delaware State Office

Website: www.de.nrcs.usda.gov

U.S Environmental Protection Agency (EPA)

The EPA pursues the goals of maintaining clean and safe water resources and reducing the risk of pollution in communities, homes, workplaces and ecosystems. By providing the following services, this agency works with communities to reach its goals:

- **Source water assessment and watershed protection**
- **Information on tap water quality including drinking water standards and contaminants**
- **Fish and wildlife consumption advisories**

Contact:

Shawn Garvin, Delaware Coordinator
U.S. Environmental Protection Agency
Region 3
1650 Arch Street
Philadelphia PA 19103-2029

Phone: (215) 814-2300
Safe Drinking Water Hotline:
1-800-426-4791

Email: r3public@epa.gov
Website: www.epa.gov/region3

**U.S Federal Emergency Management Agency
(FEMA)**

FEMA works with state and local governments to provide disaster relief to the public while ensuring that all means used take into account environmental impact. Also, FEMA provides information on buying flood insurance including cost and coverage, flood prevention tips and safety information to prepare for a flood.

Robert Shapiro, Natural Hazards Program Manager
615 Chestnut St.
One Independence Mall, Sixth Floor
Philadelphia PA 19106-4404

Phone: (215) 931-5608
Website: www.fema.gov

**U.S. Geological Survey Water Resources Division
(USGS)**

The Water Resources Division of the USGS provides information and technical data on the Nation's water resources, including:

- **Measurements of stream flows (discharge) in cooperation with the state**
- **Groundwater levels, contamination studies, and water quality assessments on federal land**
- **Water supply data**
- **Nutrient loading data from streams**
- **Effects of land use on water quality**
- **Chemical and physical data for streams, lakes, springs and wells**
- **Research on contaminant remediation techniques**

Contact:

Daniel J. Soeder, Subdistrict Chief
1289 McD Drive

Website: md.usgs.gov/

**U.S. National Oceanic and Atmospheric
Administration (NOAA)**

NOAA strives to describe and predict changes in the Earth's environment to conserve and wisely manage the Nation's coastal and marine resources. This organization also provides the following information for public use:

- **Flood summaries**
- **River/stream flow conditions**
- **Drought data including soil moisture conditions and water levels**
- **Snow conditions and monitoring**

NOAA Office of Public and Constituent Affairs
14th Street & Constitution Avenue, NW
Room 6013
Washington, DC 20230

Phone: (202) 482-609
Email: answers@noaa.gov
Website: www.noaa.gov

U.S. National Park Service (NPS)

The NPS preserves the natural and cultural resources within national parks and helps oversee the National Wild and Scenic Rivers System. The National Wild and Scenic Rivers System preserves and protects rivers throughout the United States including the White Clay Creek in Delaware and Pennsylvania. The White Clay Creek is the only wild and scenic river in Delaware and is the first wild and scenic river nationally to be designated on a watershed basis rather than a stream corridor basis.

Contact:

Charles Barscz, Jr., Program Leader National Wild and Scenic Rivers
260 US Custom House
2nd and Chestnut Streets
Philadelphia PA 19106

Phone: (215) 597-6482
Email: charles_barscz@nps.gov
Website: www.nps.gov

**Center for the Inland Bays (CIB)**

The CIB oversees the implementation of proper conservation and management of the inland bays including Rehoboth Bay, Indian Bay, and Little Assawoman Bay near Rehoboth and Bethany Beach, Delaware. Its mission is to accomplish long-term wise use and enhancement of the inland bays' watershed through public outreach and developing conservation and preservation projects.

Contact:

Dr. Bruce Richards, Director
Center for the Inland Bays
467 Highway One
Lewes DE 19958

Phone: (302) 645-7325
Website: www.udel.edu/CIB

Delaware Estuary Program (DELEP)

The DELEP improves and maintains the state of the environment in the Delaware estuary by promoting sustainable development and prevention of pollution run-off.

Contact:

Forsyth P. Kineon, Director
Delaware Estuary Program
Delaware River Basin Commission
25 State Police Drive (PO Box 7360)
West Trenton NJ 08628-0360

Phone: (609) 883-9500 x 217
Email: fkineon@drbc.state.nj.us
Website: www.delep.org

Delaware River Basin Commission (DRBC)

The DRBC is a regional body that oversees the management of the Delaware River system without regard to political boundaries. The DRBC consists of the states of Delaware, New Jersey, New York, Pennsylvania, and the United States Government. This commission helps maintain the quality of the Delaware River system by using regional planning to allocate water supply, provide water conservation initiatives, and coordinate drought management and flood control. The DRBC is updating its comprehensive plan to include the following areas:

- **Water Resources Quality and Quantity**
- **Public Education/Involvement**
- **Waterway Corridor Management**
- **Land Use and Land Management**
- **Water Resources Coordination**

Contact:

Carol Collier, Executive Director
Delaware River Basin Commission
25 State Police Drive
PO Box 7360
West Trenton NJ 0828-0360

Phone: (609) 883-9500 x 200
Email: ccollier@drbc.state.nj.us
Website: www.state.nj.us/drbc

Susquehanna River Basin Commission (SRBC)

The SRBC coordinates all the water resource efforts of the states encompassing the Susquehanna River as well as the federal government. The SRBC consists of New York, Pennsylvania, Maryland and the United States government. In order to protect the water resources of the Susquehanna River Basin, the Commission uses the following methods:

- **Comprehensive planning to allocate water supply**
- **Water quality protection programs**
- **Prevention and reduction of flood damage**
- **Coordination of sustained development**
- **Protection of fisheries, wetlands and aquatic habitat.**

Contact:

Paul Schwartz, Executive Director
Susquehanna River Basin Commission
1721 N. Front Street
Harrisburg PA 17102

Phone: (717) 238-0423
Email: srbc@srbc.net
Website: www.srbc.net

State of Delaware Office of the Governor

The Office of the Governor is responsible for executing all tasks of the executive level of state government. Under state law, the Governor has the authority to declare a state of emergency, for example a Drought Emergency, and issue directives concerning control of water supply and demand during such an emergency.

Contact:

Debra S. Allen, Constituent Relations Director
Office of Governor Ruth Ann Minner
820 N. French St.
Wilmington DE 19801

Constituent Service Phone:
1-800-292-9570

Email: dallen@state.de.us

Website: www.state.de.us/governor

Delaware Department of Agriculture (DDA)

The DDA promotes the viability of food, fiber and agricultural industries in Delaware through the protection and enhancement of the environment and health and welfare of the general public. This is accomplished by educating about conservation and maintaining the quality of Delaware's ground and surface waters by monitoring activities involving the use of nutrients and pesticides.

Contact:

Michael T. Scuse, Secretary
Delaware Department of Agriculture
2320 S. Dupont Highway
Dover DE 19901

Phone: (302) 739-4811

Website: www.state.de.us/deptagri

Delaware Department of Natural Resources and Environmental Control (DNREC)

DNREC is subdivided into divisions that oversee the natural resources and state of the environment in Delaware. All can be found at the following website: www.dnrec.state.de.us/DNREC2000

- **The Office of the Secretary** provides business and permitting assistance, public information and education about the Department of Natural Resources and Environmental Control. This office also manages the Whole Basin Program which is the watershed management program for the State of Delaware.

Contact:

Secretary Nicholas D. Pasquale or
Steve Williams, Whole Basin Coordinator
89 Kings Hwy.
Dover, DE 19901

Phone: (302) 739-4403

- **The Division of Air and Waste Management** enforces the criminal provisions of Delaware environmental law and responds to emergency and non-emergency statewide oil and hazardous substance incidents.

Contact:

John Blevins, Director
Division of Air & Waste Management
89 Kings Hwy.
Dover, DE 19901

Phone: (302) 739-4764

- **The Division of Fish and Wildlife** manages the conservation and efficient use of the state's fish and wildlife populations, protects habitats, and aids in the licensing of hunters, fishermen, trappers and boaters.

Contact:

Lloyd Alexander, Acting Division Director or
Roy Miller, Chief Finfish Biologist
Division of Fish & Wildlife
89 Kings Hwy.
Dover, DE 19901

Phone: (302) 739-5295

- **The Division of Parks and Recreation** operates and maintains state parks, preserves and protects greenways and provides recreational and educational programs for the public.

Contact:

Charles Salkin, Director or
Mark Chura
Division of Parks & Recreation
89 Kings Hwy.
Dover, DE 19901

Phone: (302) 739-4401

- **The Division of Soil and Water Conservation** preserves and protects Delaware's soil, water and coastal resources. This Division manages the non-point source pollution program in Delaware's watersheds.

**Contact:**

John Hughes, Director or
Jenny McDermott, Non-point Source Pollution Program,
or Michael Powell, Delaware Floodplain Coordinator
Division of Soil & Water Conservation
89 Kings Hwy.
Dover, DE 19901
Phone: (302) 739-4411

- **The Division of Water Resources** protects and manages Delaware's rivers, ponds, streams, bays, wetlands, and groundwater. They also regulate water supply and wastewater systems including municipal, industrial and septic systems.

Contact:

Kevin Donnelly, Division Director or
Stewart Lovell, Chief of Water Supply Section
Division of Water Resources
89 Kings Hwy.
Dover, DE 19901
Phone: (302) 739-4860

Delaware Department of Transportation (DELDOT)

DELDOT inspects stormwater drainage systems and minimizes the introduction of pollutants into surface waters by using such programs as street sweeping and roadside marshes to trap sediment and debris. DELDOT is also managing a stormwater control program with New Castle County under the U.S. EPA NPDES Stormwater Permit Program.

Delaware Conservation Districts (DCD)

The DCD serve the conservation needs of each county by helping to educate local citizens and to aid them in devising locally driven solutions for conserving natural resources. For example, DCD can help with the following:

- **Implementing farm conservation practices to keep soil in fields and out of waterways**
- **Conserving and restoring wetlands**
- **Protecting groundwater sources**
- **Promoting the planting of land cover to hold soil, clean the air and provide shelter for wildlife**
- **Helping developers and homeowners manage land in an environmentally sensitive manner**

COMMUNITY/PUBLIC WATER SUPPLY

Artesian Water Company (AWC)

The AWC supplies drinking water to approximately 220,000 people, representing about 27% of Delaware's population, in all three counties. Most of their water is withdrawn from wells that pump groundwater from aquifers, while some is purchased from the Chester Water Authority and the City of Wilmington. The water is treated using the natural protection of the aquifers and passage through treatment plants to prevent bacterial and other types of contamination. Treatment includes aeration, pH adjustment, chlorination, fluoridation, iron removal, activated carbon and corrosion control. The annual water bill for an average residential customer using 60,000 gallons of water is \$335.

Contact:

Dian Taylor, President Artesian Water Company
New Castle County Office

United Water Delaware (UWD)

UWD supplies water to over 103,000 individuals spread throughout New Castle County, Delaware from the Delaware/Pennsylvania state line to St. Georges near the C&D Canal and over to the Maryland State line. Some of the municipalities served are Arden, Bellefonte, Newport, Newark. The source of water supply for residents is surface water and most customers receive water from the Stanton Water Treatment Plant, which draws from the White Clay and Red Clay Creeks. The Christiana Treatment Plant also provides some water and draws its supply from the Christina River. Also, United Water Delaware may purchase limited amounts of water from Chester Water Authority and if necessary, from the City of Wilmington or Artesian Water Company. Treatment includes flocculation, filtration, sedimentation, fluoridation, coagulation, disinfection, corrosion control and taste and odor control. Annual water bills are approximately \$306 for residential customers.
