PRICE TEN CENTS

Technocracy Dr. Hullihen's Theme At College Hour

Students Presented With Claims Made By Technocrats And Urged To Ponder Their Importance

At the College Hour held Tuesday morning in Mitchell Hall, the claims of Technocracy were presented to the students of the college by President Hullihen. The President stated that he was not prepared to give any opinions concerning the startling facts set forth by the Technocrats but wished only to present to the students the subject which is engrossing some of the best minds in the country.

Some of Technocracy's claims quoted by Dr. Hullihen were: "that physical wealth is not measured in terms of labor, goods, or money, but in terms of energy." "The machine, under our price system, has made and is making at an accelerating pace the labor of man less and less necessary." Dr. Hullihen illustrated this last statement with figures and examples presented by the Technocrats, such as: "in 130 years the rate of output of a man has been multiplied by 75 on the average, in single instances by nine million. Three-fourths of this increase has occurred in the last 30 years."

Technocracy's estimate is that there is no room now for half of our fourteen million unemployed even if we could return to peak production of the factories of the spring of 1920 and that at the present rate of increase twenty million will be unemployed by 1934. This is not the only nor the most important of Technocracy's forecasts of disaster unless measures are taken to meet it. The Technocrats claim the price system is rushing swiftly to its own ruin because of ever-increasing technological discoveries and inventions. They call attention to the huge mountain of industrial debt of this

country and maintain that the interest upon all forms of indebtedness in the nation requires half of the present national income.

Dr. Hullihen, throughout his talk, stressed the point that he did not want to give any opinions for or against Technocracy but that the students should realize the significance of the subject. In the next issue of The Review he has promised to present a more thorough discussion of Technocracy and its claims than time permitted him at the College Hour.

Dr. C. L. Day Author of Book

"The Songs of John Dryden," edited by Dr. Cyrus L. Day of the English Department of the University of Delaware, has just appeared from the Harvard University Press. The book contains the songs that Dryden wrote for his own plays and for those of other men, as well as his other lyrics—such as his two famous odes in honor of St. Cecilia's Day.

The edition is an extremely attractive one because of the printing and arrangement, but its chief value lies in the critical notes, most of the material for which Dr. Day gathered in the British Museum and in the Bodleian Library, when he was in England in 1930-31 as holder of a Frederick Sheldon Fellowship in English from Harvard University. Dr. Day has collected much new information helpful in establishing the canon of Dryden's songs and has discovered the music for several of them. The facsimiles of some of this music are especially interesting.

Honored At N. S.F.A. Congress

Rice Elected President of the Middle Atlantic Region—Brings National Collegiate Honor to Delaware College

By Carl Bleiberg

Mr. C. H. Rice, President of the Student Council, was elected President of the Middle Atlantic Region of the National Student Federation of America at a regional meeting of that body at Tulane University, December 28, 1932. The meeting of the Middle Atlantic Region was held in conjunction with that of the Eighth Annual Congress of the N. S. F. A., December 28 to December 31. Further honor was conferred upon the University when Mr. Rice was appointed to membership on the National Executive Council.

The Middle Atlantic Region includes the following states: West Virginia, Maryland, District of Columbia, Delaware, New Jersey, Pennsylvania, and New York. There are in this region approximately 125 colleges, which tends to make the Middle Atlantic Region

the most powerful and influential of the eight regions throughout the United States. This region had the largest representation at the last Congress.

During the course of the meeting it was decided that the next regional conference would be held at the University of Delaware during the early spring of 1933, providing, of course, that this proposal meets with the approval of the Student Council of the University as well as the sanction of the University authorities. The region was also extended invitations by Rutgers U., Bucknell U., and West Virginia State Teacher's College.

It was learned late today by a staff correspondent that the Student Council of this University has already expressed its approval as to the convening of the Middle Atlantic Conference at Delaware in the early spring of 1933. Only the official consent of the University officials is now needed to insure the meeting here which is sure to gain regional recognition for the University.

President Hullihen to Attend Convention

President Hullihen will attend the Nineteenth Annual Meeting of the Association of American Colleges, which is to be held at the Hotel Chelsea, Atlantic City, on Thursday and Friday, January 12 and 13, 1933.

CO-CAPTAINS

SIDNEY "SID" KAUFMAN

Sidney Kaufman came to Delaware, a product of Atlantic City High School and Temple High School, Philadelphia. At the latter school he was a member of the Varsity basketball squad and after his matriculation to Delaware he proceeded to "Burn the court." He gained the position of Varsity forward and immediately began to emulate the former scoring greats of this institution. For three years, he has been at the top or just below in the point column.

Besides playing at forward, "Sid" has alternated at guard and center, playing all with excellent ability. At present he "holds down" the guard position and his floor play has created quite a sensation.

The popularity of this erstwhile basketball star has stretched into other fields causing his selection as a Blue Key and Derelict. His election as treasurer of the Student Council rounds out a well-balanced career.

Captain Sidney Kaufman is a member of the Sigma Tau Phi Fraternity. Without a doubt, future generations of this University will place his name among the great—as an example of good sportsmanship, an exponent of fair play—and as a superior athlete.

Curtis Institute Music Concert

The second concert by student artists of the Curtis Institute will be held Thursday, January 19, at 8 o'clock in Mitchell Hall. For this concert the Curtis Institute will send to Newark a vocalist and a trio composed of flute, violin, and viola. An invitation is extended to all members of the University to attend. There will be as usual no admission charge.

FRANCIS V. J. "BUD" HAGGERTY

Francis Haggerty, better known as "Bud," came to Delaware as a Freshman in the fall of 1929, from Salesianum School of Wilmington, where he established himself as an athlete of no mean ability, outstanding in football and basketball. It was in the former sport where he showed his greatest promise, however.

A diminutive boy, weighing only 150 pounds, "Bud" held the Varsity quarterback position on the football team throughout the season. The following year found him much busier and he was shifted to a vacated center position; he rapidly became acclimated to the new job and played valiantly. The next year he was elected to the captaincy of the football team as was he the last season. This is perhaps the first time that a Delaware man has ever been bestowed with such an honor.

A substitute his first year on the basketball team, his dexterity increased with his bodily growth and he became a stalwart varsity guard, and was elected co-captain his last year. As a demonstration of his versatility in athletics, he captured the Sigma Phi Epsilon Ping-pong Championship in 1932 and swam in that fraternity's water-polo team his first and second years at Delaware.

Socially he is similarly active. He was elected to the Druids, the Honorary Sophomore Society, and the Blue Key, the Honorary Junior Society. He is president of the Officers' Club, and a member of the Scabbard and Blade. "Bud" was the vice-president of his Junior Class.

Fraternally he is a Sigma Phi Epsilon and was elected vice-president of that society his Senior year.

Marionettes Give Enjoyable Entertainment

"Sinbad, The Sailor," Produced By Tony Sarg's Puppeteers For University Hour

Tony Sarg, ingenious master of puppetry, delighted a capacity house at Mitchell Hall last Thursday evening, presenting his world-famous Marionettes in a tale of Arabian Nights, "Sinbad the Sailor." The University Hour Committee deserves commendation for its successful efforts to bring to our campus such a notable attraction.

Adjectives such as beautiful—gorgeous—magnificent, in no measure describe the brilliant setting of "Sinbad"—twelve lavish scenes rivalling one another in ingenuity and beauty, and a cast of twenty-five twenty-inch dolls. Mr. Sarg and his aides, two young ladies and five young men, drew rounds of applause for their vocal work and clever manipulation of the myriads of strings. Everything on the miniature stage is in harmony with the stature of the Marionettes, so that, at the end of the performance, the audience is amusingly disillusioned with the appearance of a normal adult.

"Sinbad the Sailor" is Mr. Sarg's most recent production, having made its initial bow in New York on October 18, 1932. From here, the troupe travels southward, Baltimore and Washington being the next two stops. Everywhere, "Sinbad" has been well received and critics have been justly generous in their praise for the talented creator of this unusual type of entertainment. Mr. Charles E. Searles, Mr. Sarg's manager, remarked after the performance that he was "more than pleased with the reception given 'Sinbad' by the friends and students of the University of Delaware."

Inter-Fraternity Plays Planned

Percival Ableman Elected To Alpha Psi Omega

Discussion of the plans for the Inter-Fraternity Play Contest consumed most of the time of the meeting held by the Footlights Club last night. Though the Footlights Club will only act as sponsors for the play contest, they will give invaluable service to the fraternities in arranging sets and placing at the disposal of the fraternities all their equipment for producing. February second has been set as the date on which all manuscripts of original plays or other plays chosen by the fraternities for their entrance in the contest must be in the hands of the Footlights Club.

At a meeting of Alpha Psi Omega, National Honorary Dramatic Fraternity, the resignation of Charles F. Jackson, president, was regretfully accepted. T. Henry Dickerson was elected to fill the presidency and Floyd Thompson was elected to the vice-presidency vacated by Mr. Dickerson. The president of Alpha Psi Omega is automatically president of the Footlights Club and so Frank T. Lynch was elected to the vice-presidency of the Footlights Club. Percival Ableman was elected to Alpha Psi Omega in recognition of his work in dramatics in the University.

EDITORIALS

Again this column can spend its invectives to no avail. The exam schedule has already been posted. We now see that we hoped in vain. The exam period begins on Thursday, January 26, with the usual short exam period. We hoped that enough pleading and urging had been done to awaken those arranging the schedule of examinations to the fact that the students of Delaware College want, and in some cases need, a longer schedule so that they will not be required to take two examinations on the same day.

It seems an injustice to make a man take two exams with only an hour between them. Even though we are allowed one day's respite from class attendance, we can hardly be expected to prepare adequately for two examinations the following day. Twenty-four hours are a short time when one must review forty hours' work and sometimes memorize it.

We understand that the school requires a certain number of hours spent in classroom and laboratory and we feel that few of the student body would object to the addition of one week to the scholastic year so that the examination periods might be lengthened to ten days.

We hope that the Faculty will not be loath to use this suggestion in arranging the final examination period in June.

★ ★ ★ ★ ★

Last year the Junior Class was criticized because it held the Junior Prom on the same night that Delaware's basketball team opposed P. M. C. This semester the Freshman Class banqueted on the same date that the E-52 Players presented "The Cradle Song." Now the Junior Class is again receiving criticism for scheduling the Junior Prom on the night of a basketball game. These conflicts bring forth criticisms from the organizations whose activities conflict and from those who have to choose between the different activities when they would like to attend both.

Each semester the Social Calendar is arranged and placed at the disposal of all members of the University. It is made up by a Faculty committee who attempt to schedule college activities with the aid of a few suggestions from the heads of the various organizations. However, it seems that conflicts continue to occur either because of a lack of cooperation between selfish groups or because the Social Calendar does not act as a check to conflicts. It seems to us that Mr. G. P. Doherty's schedules of games are disregarded entirely by some of the social groups on the campus when they want to schedule an activity.

We should like to see these conflicts in schedules eliminated and we offer as a suggestion student representation on the Social Calendar Committee. Cooperation between all the college organizations will be the largest factor, however, in preventing conflicts.

SERGEANT DAVIS PROMOTED

Staff Sergeant Edward A. Davis was promoted to Technical Sergeant on January 1, 1933, by the Commanding General, Second Corps Area. This is the second ranking grade to which a soldier may be promoted. The only grade higher than this is Master Sergeant.

Sergeant Davis enlisted in the U. S. Navy in June, 1899, and was discharged in June, 1903, as a seaman with character Excellent; he then enlisted in the Second Cavalry and served from March, 1905, to March, 1908; his third enlistment was in the Coast Artillery from May, 1908, to May, 1911. He served two enlistments in the General Service Infantry from August, 1911, to August, 1914, and from April, 1917, to August, 1918; in August, 1918, he was discharged for the convenience of the Government to accept a commission in the Quartermaster Corps and served in the Corps until July, 1919. After the war Sergeant Davis served two enlistments on recruiting duty, August, 1919, to August, 1925. His records show the last two enlist-

ments as on the Detached Enlisted men's list, R. O. T. C. duty. Every discharge he has received has been noted with character Excellent.

Sergeant Davis is entitled to wear the campaign badge for the Philippine insurrection, having taken part in the campaign while in the Navy. He was a member of the China Relief Expedition during the Boxer Rebellion, and is entitled to wear the campaign badge awarded for that campaign. He also served 11 months in France with the American Expeditionary Forces during the World War.

Letters

Newark, Delaware,
December 29, 1932

Dear Mr. Rice:

Responding to your favor of the 15th inst., I beg to acknowledge receipt of your check for \$57.90, proceeds of your "Share-a-Meal" luncheon, for which please accept our thanks.

We hope every poor family in town received a basket for Christmas, as there were seventy-three distributed in and around Newark. In town, each basket contained a dress for the girls and mothers, where possible, and a blouse or sweater for the boys. We also tried to outfit the children with shoes and stockings, where needed. The money you contributed was spent as follows: Potatoes, \$10.00; chickens, \$26.47; clothing, \$12.59, and groceries, \$8.84.

Trusting this disbursement will meet with your approval and again expressing our thanks, I remain Very truly yours,
Helen B. Wilson.

The Editor of The Review,

Dear Sir:

The Humanists regret to announce to the students of Delaware College that the publication of a magazine this semester is impossible. During what we consider a rather thorough canvass of the campus, we discovered that the student body is—as a group—uninterested in a literary publication. Obviously we cannot publish a magazine without having sufficient subscriptions to defray the costs of printing it.

Whether this indifference of the students is caused by the unfortunate financial status of many of us, or by a lack of genuine desire for a "Humanist," we hesitate to say. Whatever the cause, however, the attitude of the school is evident—and deplorable. We hope that in the future the stock of literary interest will rise.

The Humanists, as a group, will continue, and we extend a cordial welcome to any and all students who are interested in things literary and artistic.

We wish, at this time, to thank you for the assistance you gave in our campaign, and also to acknowledge the cooperation of the Student Council and fraternities.

Very truly yours,
Harvey Maguigan,
Associate Editor.

The World Goes On

James M. Rosbrow

THE United States has taken a few backward steps in her career of imperialism. The last of the Marines have been withdrawn from Nicaragua and the newly-inaugurated President Sacasa, liberal leader, has been left to his own devices. Paradoxically enough, it was the same Dr. Sacasa who was thrust out of office by the United States when she first intervened in Nicaragua in 1926. A second step is the passage of the Bill for the Independence of the Philippine Islands. Under the terms of this bill the Islands will go through a process of gradual autonomy and will be given complete independence in 10 years. Its reception both here and at Manila has been varied. Basing their assumption upon the expressed opinions of Secretary of State Stimson and Secretary of War Hurley, political writers expect President Hoover to veto the bill. However, its passage in the Senate without a record vote and in the House by a vote of 171 to 16 seems to indicate that a two-thirds majority will be easily securable. The more radical members of the Philippine Senate, headed by Senate-President Manuel Quezon, continue to demand immediate independence, whereas Resident Commissioner of the House Osias, declared himself quite content.

JAPAN seems to have found the perfect solution to the problem of war. She no longer makes war—she merely orders her troops into action. At latest reports her troops have been very active in territory about the Great Wall and both Nanking and Peiping are in fear of air raids. Causes for the action are still rather vague but the slaughtering continues.

FRANCE has seen fit to lend \$15,000,000 to Austria. This loan to her Great War enemy seems

rather strange coming after her declining to pay the United States, her ally, the installment of the War Debt due last month. This action was denounced by several Senators from the floor; they considered it incompatible with national honor to take such a step.

VERY interesting is a report made at the meeting of the American Association for the Advancement of Science that a group of Russian Scientists are in seclusion in Turkestan trying to cross-breed man and ape. They seem to feel that what can be done with donkey and horses or cattle and buffalo may be possible with man. While fundamentalists are probably horrified, it does seem to furnish a test for evolution; that if it fails will not disprove the theory, but if it succeeds will certainly establish beyond any possibility of its being contested.

Among the other features at the meeting was a debate on the constitution of the cosmic ray. The participants were America's only two Nobel Prize Winners in Physics, Dr. Robert Andrews Millikan and Doctor Arthur Holly Compton. "Technocracy" was also discussed.

W. Chester Noses Out Delaware Five 22-20

O'Connell Stars For Home Team

Trailing by 10 points at the end of the first half, the U. of D. courtmen barely missed tying the score in the last minute of play when they were defeated by West Chester Teachers College in West Chester last night, 22-20. A field goal by "Irish" O'Connell in the last few seconds of play which would have tied the score was disallowed by the officials. This decision was a heart-breaker for the Blue and Gold cagemen.

The beginning of the game saw the "Teachers" begin to pile up a big lead against Doherty's courtmen. When the greater part of the first half had been played the score was 10-0 in favor of West Chester. Kaufman scored his only field goal of the game shortly after this which, incidentally, was the only score from the field made by Delaware in the first half.

After the second half had started, the Blue Hen cagers began to creep up on their opponents. "Irish" O'Connell was the big noise in this rally. With the score 22-20, O'Connell sank a beautiful shot from the side of the court which barely touched the net as it passed through. The whistle sounded as the ball was passing through the ring and it was ruled out. The referee ruled that "Irish" had taken too many steps. As the game had only a few seconds to go, Delaware did not get possession of the ball thereafter. Earle of W. C. T. C. was the leading scorer of the game with 11 points, closely followed by O'Connell with 10.

J. V.'s Also Lose

In a fast game in which 15 players scored, Delaware J. V. team was nosed out by W. C. T. C. J. V.'s, 31-25. Kurtzman led the scoring for West Chester, while Hurley and Jefferis counted heavily for Delaware.

THIS AND THAT

"All-'round" Athletes

R. C. M.

Not since "Ace" Taylor was graduated from the University of Delaware in 1930 has any athlete succeeded in winning more than two varsity letters in one year. That precedent will probably be resumed before the 1932-33 school year is concluded.

There are at present nine men who have the opportunity of breaking into the three-letter-man class. In the senior class Haggerty, Mayer and Linstrand have all garnered 2 letters. The possibility of these men obtaining another letter to bring their total to three is very slight. In the Junior class there are Kemske, Pohl, and G. Thompson who have been awarded 2 letters. Pohl in basketball, and Kemske in baseball, have a fighting chance to be listed among the great athletes at Delaware.

O'Connell, White, and Green are the representatives of the Sophomore class who have almost three years in which to earn their third letter. Of this trio, O'Connell has the most pleasant outlook. "Irish" narrowly missed earning his third letter during the past football season. Another year will probably put "Irish" among the three-letter men at Delaware. "Boo" White's possibilities of getting another letter are hindered by the fact that the baseball and track seasons come at the same time.

In the Freshman class "Big Ed" Thompson, Carey, and Greer seem to have the most marked abilities. "Big Ed" has started off well to earn three letters in his Freshman year. He won his letter in football and is well on his way for his second one in basketball. It is too early yet to say what he can do in basketball but from all reports from the "Big Bedroom" he has an equalized ability in all branches of sport except tennis.

Court Squad Downs Balto. Foe, 34-29

Furjanic, Baltimore Center, Leads Scorers

R. C. M.

Delaware's representatives of the wooden ways annexed their third straight victory Saturday night when they defeated the University of Baltimore quintet by the score of 34-29 in the Taylor gymnasium. Furjanic, rangy center of the visitors, proved to be the star of the game. He kept the Maryland five in the game as far as scoring was concerned. Furjanic sank 6 field goals and 2 fouls for 14 points to lead the scorers of both teams. Behind the heavy scoring of O'Connell and Leahy, the Delaware five found little difficulty in garnering a substantial lead on the Baltimore five which they never relinquished. Kaufman and Thompson proved to be too tough for the Baltimore forwards to evade and they scored only one field goal between them during the entire game. The first half ended with the Blue Hen five on the big end of an 18-9 score.

Furjanic began his assault on the basket soon after the second half got under way, but the best he could do was to make the score look respectable. In this period Kaufman came to the aid of Leahy and O'Connell and between them they managed to put the game on the right side of the ledger. Leahy led the scoring for the

Dohertymen with 11 points closely followed by Kaufman and O'Connell with 10 and 9 points respectively.

Newark Defeats Jay Vees

In a hard fought game the Newark town team gave the Delaware Jay Vees their first set-back of the season, 30-22, Saturday night. Whitman and Willis scored 29 of the 30 points for the Newark team while the Jay Vees scoring was spread out, with 8 of the 10 men used in the game at least 1 point.

Prospects Good For A Successful Blue And Gold Tank Season

T. Hanaway

preparation for these meets has been putting the natators through brisk workouts, and is rapidly rounding them into shape.

L. C. Barker, John Carey, and Bill Croes have been showing up especially well in practice. Barker, a Junior, in practice, broke the 200-yd. Delaware breaststroke record held by Nobis. The record will

not be officially broken until the meet with Johns Hopkins when Barker is sure to break it again.

Carey, a Freshman, has been doing good work in the 440 and the 150-yd. backstroke; he will also be a valuable addition to the relay team. Lindstrand, making a comeback this year, is our best man in (Continued on Page 4.)

6 o'clock means nothing
to telephone service!

Bell System service must go on *all the time*. Day and night, Sundays and holidays, it must handle with speed and accuracy not only the usual traffic but also the unexpected rush of calls.

To meet this obligation, Bell System men tackle problems of many kinds. At Bell Telephone Laboratories, scientists develop new kinds of apparatus. At Western Electric, engineers find ways to make telephones, switchboards and cable more and more reliable. In the telephone companies, traffic engineers devise improved operating methods that make service faster, more accurate, more dependable.

Result: at noon or in the dead of night, the public reaches confidently for the telephone, knowing that Bell System service never stops.

BELL SYSTEM

TELEPHONE HOME ONE NIGHT EACH WEEK

A. S. M. E. News

The regular monthly meeting of the A. S. M. E. was held in Evans Hall last night and was well attended by the members.

The principal speaker of the evening was a member of the faculty of our campus, Mr. M. H. Wilson, of the Physics department. Although he spoke on the highly technical and likewise very delicate subject of Prof. Einstein's Theory of Relativity, he managed to simplify his subject very artfully and made it quite intelligible and interesting to all those who had the opportunity of hearing him.

**PROSPECTS GOOD FOR A
SUCCESSFUL BLUE AND
GOLD TANK SEASON**

(Continued from Page 2.)
the 100-yd. free style. Arty Wilson is showing up well also in this event.

Bill Croes, a member of the Frosh swimming team, recently set a new mark in the Leroy F. Sparks

Trophy 100-yd. backstroke at the Wilmington Y. M. C. A. pool. Croes' time for the distance was one minute, 8 and 5/10 seconds, or 1/10 of a second better than the mark held by Bill Brown, former captain of the Blue and Gold tank team, set in 1927. Croes won this event last year, and the double victory ties him with Brown, each having two legs on the trophy.

The revised schedule for the swimming season is as follows:

Varsity

Jan. 17—Johns Hopkins	Home
Jan. 20—Geo. Washington	Away
Jan. 21—Wm. and Mary	Away
Jan. 23—U. of Virginia	Away

"Things I Knew You Didn't"

That Dancing Lessons may be substituted for physical education at University of Pennsylvania.

That members of the Sophomore class at Rutgers College were deprived of their traditional right to control the activities of the first-year students.

That students who are too bashful to make their own dates have the facilities of the new date bureau.

LOVETT FURNITURE

Main and Choate Sts.
NEWARK, DEL.

eau of Swarthmore College at their disposal. A sliding scale governs prices. Each boy asking for a date submits the names of 4 girls. If

his first choice can be dated, he pays 25c; second, 20c, third, 15c, and fourth 10c. Girls may use the bureau at the same prices.

We Recommend

THE GOODIE SHOP because of its
EXCELLENT FOOD
REFRESHING DRINKS
DELICIOUS ICE CREAM
QUICK SERVICE
PLEASANT SURROUNDINGS
GOOD MUSIC

"THE REVIEW STAFF"

"What a Whale of a Difference a Few Steps Make"

*When I like something
I evermore like it!*

**THEY'RE Milder—
THEY TASTE BETTER**

—and I like CHESTERFIELD Cigarettes.

To me, they are mild—that is, they don't seem to be strong; and there is certainly no bite, so far as I can tell.

To me, they taste better and they have a pleasing aroma.

Every CHESTERFIELD that I get is well-filled, and I feel like I am getting my money's worth—that there is no short measure about it.

I like CHESTERFIELDS. They satisfy me.
