Edward Davidson Will Spend Final Year At Sorbonne

Popular Junior Receives Scholarship From Institute Of International Relations; Sails On August 22 On S. S. Champlain

FOLLOWING DEL. STUDY PLAN

J. Edward Davidson, a member of the present Junior Class has been awarded a scholarship from the Institute of International Education to spend his final year of study at the Sorbonne in Paris. The trip will be made under the University of Delaware Foreign Study Plan.

Davidson, who is taking the course in Foreign Service, here, is a graduate of New Castle High School. He has been prominent here at Delaware, especially in Dramatic and Literary work. In order to make the trip he has resigned his positions as: Treasurer of Sigma Nu Fraternity, of which he is a member; President of the Athenaeum Society; Secretary of the Footlights Club; Treasurer of the Middle Atlantic Division, International Relations Clubs; and Associate Editor of THE REVIEW.

He will sail August 22 on the S.S. Champlain. The first two months will be spent in a summer course at Tours, the remainder of the year being spent at the Sorbonne. He will return to the United States in time to be graduated at the Convocation Exercises.

Twenty-Eight Initiated Into Phi Kappa Phi Honor Group

Annual Ceremony Conducted By Miss Quaesita Drake; Two Faculty Members Inducted

The annual Phi Kappa Phi initiation was held Tuesday, May 12, 1936, in the Faculty Room at Women's College. The initiation was in charge of Dr. Quaesita Drake, of the Women's College Faculty. The following were taken into the society:

Faculty

Dean Robert L. Spencer, Dr. Ned B. Allen.

Delaware College

Harry E. Algard, Jr., William P. Baldwin, Jr., John W. Beatty, Jr., Carl Bleiberg, Francis H. Dineen, Harry M. First, James (Continued on Page 6)

Civil Engineers Enjoy Talk of Asphalt Expert

Bernard E. Gray, Chief Highway Engineer of the Asphalt Institute of New York, was the speaker at the meeting of the local A. S. C. E. held last Tuesday evening. Twenty-five members and friends heard of how asphalt is used in flood control on the Mississippi River.

Mr. Gray told of the machine that could lay strips of asphalt 217 x 30 feet at the rate of 30 feet per hour and at a cost of \$1.10 per square yard. The talk was well received by the group. Richard E. Duvall a senior and a member of the society presided.

Professor H. K. Preston of the Department of Mechanics was host to Mr. Gray during his visit to Delaware.

In Faculty Play

Carolyn Cobb

Who has a major part in the Faculty Play, Dover Road, Tuesday.

'Admiral' Vandegrift New Athenaeum President

James Stoll Elected Vice-President; Major Sam Anderson Talks On C. C. C. Boys

At a meeting of the Athenaeum Society held Monday, May 11, R. Perry Vandegrift was elected president to succeed J. Edward Davidson, resigned. Inasmuch as Mr. Vandegrift had formerly been vice-president, his election created a vacancy to which James Stoll was elected.

Mr. Vandegrift, a well known campus figure, politician, and member of the Sigma Phi Epsilon Fraternity, has been extremely active in Athenaeum Society affairs this year. He is well qualified to help make the International Relations Clubs Conference to be held under the joint auspices of the Athenaeum Society and The Forum an affair which will augment (Continued on Page 6.)

Work Progresses Rapidly On New Chemistry Building

Cornerstone Of Future Home Of Chemistry Department Will Probably Be Laid June 6

The excavation for the new chemistry building was completed this week. The power shovel, which attracted so much interest, worked until 7 p. m. one evening to complete the job. The holes for foundations and supporting pillars have been dug. The forms are almost ready to be laid, and it is expected that the workers will start pouring concrete soon. Cement mixers and wheelbarrows have arrived in preparation for the work.

The inside walls of the new building are to be made of tile. Several samples of tile were laid in the basement of Recitation Hall, from which the one which will be used was selected. A buff unglazed tile was chosen. Some of the floors will be red, unglazed brick tile. Other floors will be linoleum and hard asphalt.

The cornerstone of the new building will probably be laid on Saturday, June 6.

Faculty Dramatic Group Presents 'The Dover Road' In Mitchell Hall Tuesday

Play By A. A. Milne Is Fast-Moving; Sophisticated Comedy; Student Tickets 50 Cents; Mrs. Kase Directs

That A. A. Milne's *Dover Road*, to be presented in Mitchell Hall on Tuesday, May 19, is a masterful bit of sophisticated, romantic comedy has never been denied. The *Business and Professional Women's Club* of Newark has done well in choosing this smart English play for their second annual production. Last year the same group put on *Mrs. Bumpstead-Leigh*.

Imagine two couples, the one composed of the wife of the second man with the girl of the second couple later becoming very much interested in the male portion of the first couple. Neither couple knows the other is present in the inn on *The Dover Road*, whence the play derives its name. Needless to say, the innkeeper has his hands full in straightening these marital difficulties. How he works out the situation is the source of much merriment, and the ending is enough to surprise anyone.

To name the hero and heroine might detract some from the surprise, so suffice it to say that in the cast are Carolyn Cobb, Alma Cooch, Lawrence Willson, Paul Rice, and Richard Cooch.

Startling color is promised to (Continued on Page 6.)

Firmin Swinnen Pleases At Last University Hour

Plays Ten Pieces And Features Two Of Bach's Finest Organ Works

Firmin Swinnen gave his last concert of the year at the University of Delaware Thursday night, May 14, at 8 p. m., under the auspices of the University Hour Committee. The public was invited, no tickets being required.

A feature of this program was the playing of the two greatest numbers Bach ever wrote for the organ, the "Tocatta Adagio and Fuga in C major" and "Passacaglia in C minor."

The complete program follows: Tocatta in F, Widor; Hungarian Dance No. 5, Brahms; Romance De Pauline, Tchaikowski; Elfin Dance (Caprice), Edmundson; Minuet in B Minor, Schubert; Tocatta Adagio and Fuga in C major, Bach; (a) Spring Song, (b) Nocturne (Midsummernight's Dream), Mendelssohn; Scherzo in C minor, Widor; Prelude To "Le Deluge," Saint-Saens; Passacaglia in C minor, Bach.

California Debaters

Myer Kahn

These men will meet the University of Delaware debate team at the Y. M. C. A., Monday.

Friday, May 22, Date Of 'Humanist' Publication

Varied Contents Of Poetry, Stories, And Articles Enliven Spring Literary Issue

The *Humanist*, Delaware College literary magazine will be published on Friday, May 22 according to Editor J. Edward Davidson. Every student at Men's College will receive a copy in his mail box at that date inasmuch as this publication is made possible through an appropriation from Student Activity fees.

According to the editor this spring issue will contain unusually interesting and varied features. John Scotton and Joseph Perkins debate the fraternity question in contrasting articles. Two anonymous students from Women's College and Delaware College give opinions of each sex on the matter of blind dates. Harry Stutman contributes another excellent short story. Collins Seitz puns again—this time about dogs. Student Council President Joe Scannell (Continued on Page 6.)

Harrison Howe, Editor, Will Address Chemists

Local Section, American Chemical Society Meets May 20; Eastman To Explain Building

Dr. A. S. Eastman, head of the Department of Chemistry and Chemical Engineering, will address the Delaware Section of the American Chemical Society on Wednesday evening, May 20.

The society will have dinner in Old College at 7 p. m. Dr. Eastman, the after-dinner speaker, will explain the arrangement and design of the new chemistry building. His talk will be illustrated with slides made from the plans. The plans for the new building were made after much investigation of the subject and after study of similar buildings in other colleges.

After the dinner, the society will hold a formal meeting at 8:30 p. m. Dr. Harrison E. Howe, editor of *Industrial and Engineering Chemistry* will speak on his experiences in chemistry and as an (Continued on Page 6)

Scannell, Seitz Meet California Debating Team

Match Will Be Held In Y. M. C. A. Auditorium On May 18; Resolved, "U. S. Will Be Inevitably Drawn Into The Next World War"

WILL USE OREGON SYSTEM

On Monday evening, May 18, at 8.15 p. m., the Debating Team from the University of California of Berkeley, California, will do the State of Delaware the great honor of meeting the University of Delaware to debate on the subject, "Resolved: that the United States will be inevitably drawn into the next World War." Delaware will maintain the affirmative. The match will be held in the Y. M. C. A. auditorium in Wilmington under the joint auspices of the University of Delaware and the Y. M. C. A. The public is invited to attend.

Joseph Scannell and Collins Seitz, two of the most popular and active men on the Delaware campus, will make up Delaware's team for this meet. Scannell is President of the Student Council, an end on the varsity football team, and Business Manager of the literary magazine. He is a graduate of the Salesianum High School and is now a Junior in the Secondary Education curriculum. Seitz, an alumnus of (Continued on Page 5.)

E 52 Players Meet Walter Prichard Eaton At Tea

Twelve New Members Of Dramatic Organization Announced By Director Kase On Tuesday

A tea was given on Tuesday afternoon in the Hilarium at the University of Delaware by the E 52 Players for Walter Prichard Eaton of the Yale School of the Drama.

Announcement was made at that time that three seniors, seven juniors, and two sophomores had become eligible for membership in the Players as a result of their work this year on HELL BENT FOR HEAVEN and PEER GYNT.

Those admitted were Isabelle Ashbridge, Alison Manns, Ruth Watson, Robert Jamison, Herbert Warburton, Thomas Warren, Virginia Boston, Betty Child, Betty Davidson, Ellen Sipple, Kathleen Spencer, and Mary E. Smyth.

Farewell Hop on June 8 Is Final Council Dance

Rounding out this scholastic year's social calendar with a fanfare and flourish, the Student Council will present the annual Farewell Hop Monday evening from 9 until 2, June 8, in the dining room at Old College.

Jack Geist and his committee, Jack Hodgson, Robert Jamison, and Bill Wallace have contacted a popular orchestra, although no contract has yet been signed.

The admission has been fixed at \$1.50 per couple.

WHY DEBATE OFF CAMPUS

When student interest in campus activities reaches so low a condition that the debating team decides to hold a debate off campus in order to gain an audience, something should be done.

The California debating team could easily be contested in Mitchell Hall, but Robert Barab, manager of the Delaware team, and his associates prefer to hold the affair in Wilmington where at least a few high school students, under compulsion, will provide an audience.

It is deplorable that debating has a negligible following at the University of Delaware, since subjects of current importance are discussed, but it is equally deplorable that student funds should be spent for an activity which not only lacks student support, but also prefers to cater to Wilmington High School rather than to the admittedly small group of Delaware students who would eagerly avail themselves of an opportunity to hear the debaters if they would deign to speak in Mitchell Hall.

Obviously, when it can be easily arranged, debates should be held on campus for the benefit of what student interest there is. Otherwise there is little reason for spending student funds for an activity that lacks student favor.

DEFICITS CAN BE AVOIDED

The student Council gave the students an excellent dance several weeks ago in the Newark Armory. An enjoyable time was had by all, despite the fact that the affair was financially a failure.

It would hardly be fair to state that the Council did not try to run the dance on a paying basis, which is exactly what they should have done since the loss from Council dances must be made up from the funds of the students whom the Councilmen are supposed to serve as efficiently as possible. The Council did not deliberately make expenditures that surpassed receipts.

However, the present method of ticket selling has been criticized and with justification, we believe. That each Councilman is obliged to sell only five tickets in order to get gratis admission for himself has been called everything from poor business to an excellent racket. Critics of the ticket selling think that the members of the Council are capable of selling more than five tickets; the individual quota, they urge, ought to be raised.

Because the financial success of the Council dances depends upon the number of tickets sold, and because the Councilmen sell the tickets, it is obvious that the criticism is at least directed toward the right party when directed toward the Student Council.

The Council gives dances with student funds, and should do everything possible to balance expenditures with receipts. If a good dance can be given without financial loss to the students from whose pockets comes the money that the Council spends, there is no reason why future dances should result in deficits. An increase in ticket quotas would increase receipts and reduce the danger of unnecessary drainage from student funds.

The Collegiate Review

Jazz for the public schools is the recommendation of Dr. Harold G. Campbell, New York City's superintendent of schools.

Down with the tall, dark and handsome male, say University of Kentucky girls. They'd rather be amused by "the comic type."

Dr. James A. Naismith, 74-year-old inventor of basketball, played the game only twice in his life.

A New Deal for agriculture is old stuff, says the Mississippi Valley Historical Association. There was one following the Civil War.

Dr. Aldo Castellani, of the Royal Italian Medical Corps, is on the Louisiana State medical faculty, but duties in Ethiopia have kept him from lecturing this semester.

Columbia has received a \$13,000 Rockefeller Foundation grant for the study of infantile paralysis.

The University of Pennsylvania had a "fault-finding day" recently. Everyone aired his pet gripes, but knockers claimed nothing was done about any of them.

Three University of Georgia students called King Edward VIII the other day to tell him about an athletic contest. His Majesty wasn't at home, and the bill was \$75.

Microscopic spores 165 years old have been found in California adobe bricks and brought back to life.

Letters to the Editor

To the Editor,
THE REVIEW:

May I take this opportunity to address some remarks to your columnist Stutman, who, under date of May 6, "Reviews" Mr. Stuart Chase's "Government in Business?"

Stutman mentions "those whose energies seem to be directed in maintaining an economic structure which professes to have the best interests of 'the peepul' at heart." As one who feels that the policies of thirty-one national administrations, Republican and Democratic, have been with few exceptions in the interests of the people, I object to this reference. He might mention a few instances in which any hybrid, power-drunk bureaucracy has excelled (in having at heart the interests of the people) the "modern capitalistic society" which Stutman scorns.

Stutman mentions "government control of business." Apparently his reading of Chase's chapter-heads did not tell him that the United States had a very thorough and effective control of business through several agencies, especially the I. C. C., before Franklin Roosevelt ever came on the scene. And he seeming did not glean the fact that government control is quite different from government ownership, which does very definitely limit the personal enterprise that Stutman does not deem worth much consideration. I trust that when he thinks the matter over he will see that he owes his present status as a college man to free enterprise, for under "modern capitalistic society" everyone has an equal chance to progress except in cases where hindered by mental capacity or the F. B. I. Though Stutman thinks that the coal industry's "little NRA" is a good example of government in business I would recommend that he procure a scant knowledge of economics (which he says is not necessary in order to read Chase's book) if he wants to find out what government in business means. I am not, by the way, posing as an economist. His example of the mattresses is an example of the assumption of some people that no one has the intelligence to discover for himself the quality of the goods he buys; it is the same assumption that no one is intelligent enough to take care of himself and must instead depend upon the government.

When Stutman speaks of Chase's "irrefutable indictment of modern capitalistic society," he is introducing something into any part of the book that he may have read besides what Mr. Chase put there, for the author is "an outstanding constructive critic of modern business." ("College Omnibus"). Indictor of capitalism? Apparently not. Stutman sets Chase up as prosecutor of the American (capitalistic) form of government, with himself as judge, but I fear that he is without a prosecutor.

In his extra-review remarks, Stutman mentions "the varied and distorted approach toward the same subject" of various newspapers in their "presentation of any story." He mentions "three metropolitan paper and one Wilmington sheet," in the library. If he means the Memorial Library, he is due for a disappointment for there are only two daily English language newspapers there (both Democratic) besides the "News" and "Journal." In mentioning distorted approach to a news story he must be thinking of the "Record" which is the only one of those papers which cannot keep partisan views out of its news columns.

Stutman's predicted "new system" which we "will have to live in" will be found today, well-established, in any of several European nations, and under way, much to his satisfaction, undoubtedly, at Washington, where it will end with the inauguration of Alfred Mossman Landon on January 20, 1937.
May 7, 1936. Daniel E. Sutton.

By Harry T. Stutman

Realms of Gold

Every once in so often, though not quite often enough, I come across a book really worth passing on. This time it happens to be Alexander Woolcott's *Reader*, which contains more truly fine writing than you are likely to find in any other thousand-page book, no matter how big it may be. Woolcott himself says in his preface, "... here is a five-inch shelf put into your hands by one who, having read less than some and more than most, has usually found his keenest enjoyment when striking off from the great highways. After all, there are bypaths in the realms of gold."

And that is what these stories are: bypaths in the realms of gold. Woolcott's recommendation alone was enough for me—I'll never forget nor be able to thank him enough for telling me about *Good-Bye, Mr. Chips*.

Nothing to Say

There is not so much one can say about the book, except, "You ought-a read it. It's swell." Stories like *The Trauenbeighs* and *Mr. Fortune's Magot* and *The Bar Sinister* are hard to forget and I can readily understand Mr. Woolcott's enthusiasm for *A Doctor of the Old School* and *My Little Boy*. Words in this case are superfluous.

Out of the sixteen authors whose works are presented here: J. M. Barrie, Anthony Hope, Thornton Wilder, Ian Maclaren, Carl Ewald, William Allen White, Sylvia Townsend Warner, Marcel Schwob, Saki (H. H. Munro), Charles Macomb Flandrau, Homer W. Smith, Richard Harding Davis, Paul Alverdes, Lytton Strachey, Clarence Day, Evelyn Waugh, I have read six and am acquainted with ten. To the *Reader*, then, I am indebted for my priceless introduction to Charles Ewald, Ian Maclaren, and Paul Alverdes. And, of course, others.

One leaves this book, regretfully, with the distinct impression that the real world is that in which move the various living characters, that this world of books and experiments and logs and things is relatively unimportant. One cannot but love his fellow-man. I am filled with a great compassion. You will find *The Woolcott Reader* in Mr. Lewis's Little Library.

Nothing Said

Your reviewer is struck with the realization that he has said nothing at all about this volume of miracles. All he has done has been to mention its name. Well, as long as your reviewer's Editor doesn't care... All he asks it that you read *The Woolcott Reader*. If that were the only thing he were to do all year it would be earning at least his board and keep, if not Woolcott's.

Room 28, Recitation Hall,
University of Delaware,
May 9, 1936.

Editor of THE REVIEW,
University of Delaware.
Dear Sir:

I, too, am pleased for you to retain your Gripe Column in your paper.

I suggest for oblivion:

Stooges who prompt the more pedantic and bigoted professors in the clichés in an attempt to show said prof that they understand and appreciate their remarks.

Also stooges who condemn "honest" students for their attempts to keep progressive professors from slipping into the field of didacticism.

Sincerely yours,

T. Hukley Keithley, Jr.

Hens Top P. M. C. On Links As Trackmen Lose To Dragons

Blue And Gold Track Team Takes It On Chin In Triangular Meet Here

Washington College Trackmen Nab First Position With 68 Points; Blue And Gold To Compete In Middle Atlantics

Last Saturday the University of Delaware Cindermen dropped a triangular meet to Washington College. The other team in this meet was St. Joseph's. Washington College is the 1936 Mason-Dixon Conference Champion, so Delaware should not feel bad about dropping this meet.

The individual work of Gibby Young, the Washington team's versatile track ace, was largely responsible for this victory. This man accounted for 21 of his team's points, by winning both the 100 and 220 yard dashes, the 120 yard low hurdles and taking second in the broad jump as well as in the pole vault.

"Swede" Drozdov kept the Blue and Gold in the running by winning both the discus and shotput, also taking a second in the javelin, which was won by Pennock.

The only Delaware man to gain a victory in the track events was Perkins. The 440 yard dash saw the Blue and Gold runner break the tape in the fast time of 52 seconds.

Summaries:

220-yard low hurdles: Won by Tully, Washington; second, Farley, St. Joseph's; third, Valliant, Washington; fourth, Oakes, St. Joseph's, 26.4.

Shotput: Won by Drozdov, Delaware; second, T. Riley, St. Joseph's; third, Skipp, Washington; fourth, Mayer, Delaware, 40 ft. 8 in.

Broad jump: Won by Tully, Washington; second, Young, Washington; third, Oakes, St. Joseph's; fourth, Anderson, Washington, 21 ft. 1 in.

Two-mile run: Won by McMahon, Washington; second, Drakeley, St. Joseph's; third, Noone, St. Joseph's; fourth, Chaffey, Washington, 10:47.

880-yard dash: Won by Scullin, St. Joseph's; second, Bowen, Washington; third, King, Delaware; fourth, McKinney, St. Joseph's, 2:07.8.

220-yard dash: Won by Young, Washington; second, Perkins, Delaware; third, Sherwin, St. Joseph's; fourth, Buffington, Washington, 23.6.

Pole vault: Won by Fleming, St. Joseph's; second, Young, Washington; third, tie between Hill, Delaware, and Hodgson, Delaware, 11 ft.

120-yard high hurdles: Won by Young, Washington; second, Farley, St. Joseph's; third, Tully, Washington; fourth, Hodgson, Delaware, 16.

100-yard dash: Won by Young, Washington; second, Sherwin, St. Joseph's; third, Anderson, Washington; fourth, Tyler, Delaware, 10.1.

Javelin: Won by Pennock, Delaware; second, Drozdov, Delaware; third, F. Carey, Delaware; fourth, Davis, Delaware, 162 ft. 2 in.

One-mile run: Won by McMahon, Washington; second, Cann, St. Joseph's; third, Scullin, St. Joseph's; fourth, Drakeley, St. Joseph's, 4:45.4.

440-yard dash: Won by Perkins, Delaware; second, Valliant, Washington; third, Sherwin, St. Joseph's; fourth, Anderson, Washington, 52.

Discus: Won by Drozdov, Delaware; second, H. Riley, St. Joseph's; third, Skipp, Washington; fourth, Davis, Delaware, Distance, 110.6.

High jump: Won by Skipp, Washington; second, Davis, Delaware; third, tie between Tully, Washington, Mead, Washington, and Pennock, Delaware, Height, 5.9.

On Friday and Saturday of this week, the University of Delaware's track team will compete in the Middle Atlantics being held at Swarthmore.

The chances of the Blue Hens winning a team title are very improbable. The weakness in the track events which has been so noticeable all season will prevent

Holt

breaks tape giving relay to S. P. E. A.

With The Blue And Gold

By Dave Sloan

All appearances point to a general financial breakdown in several colleges as far as athletics are concerned. We recently learned that George Washington and Georgetown have cancelled further spring athletics due to lack of funds. This of course, throws the latter institution from our baseball schedule this year. We also understand Randolph-Macon has cancelled their game with the Blue and Gold nine because the teams scheduled to meet them on their trip north retracted their agreements leaving our team their sole opponent. With these two off our remaining four scheduled games, it looks as though the diamond season will have a shorter career than usual. "Doc" Doherty is, however, endeavoring to obtain a meeting with P. M. C. to take the place of the Randolph-Macon game Thursday, while a J. V. ball game with Newark High is possible.

"Doc" Doherty seems to be pleased with the recent development of spirit among his swatters and has expressed his satisfaction in that the boys have been playing real ball in their last three games. The early season found any such

pep severely lacking until "Doc" got after his players with "hot words" and forced out their present "talk-it-up" style. "Better late than never," may hold true, but we'll stick to the "better never late" version and try to impress our next year's ball playing prospects with the fact that season-round chatter puts confidence in each player and tends to give the team a prominent place in the win column, a feature sadly lacking this year.

"Bull" Carey who has been suffering a shoulder injury lately was put out of the triangular meet by yellow jaundice, but he came back Wednesday to nab a first in the discus and second in the shot event. The first injury still prevents his tossing the javelin, but Tom Pennock has been handling that job in fine style and has continued to put first place in the bag. Drozdov still leads all comers in the 16 lb. event and his consistent tossing merits a bit of praise. While we're handing out bouquets, suppose we toss one to Perkins who seems to hit his stride in every meet and wins his favorite 440 run plus a win or place in the 220 event.

Blue Hen Golfers Lose To West Pointers

Captain Wilson Played Fine Game, Low Score Of 74

Last Saturday the University of Delaware's golf team journeyed to the United States Military Academy and played a heartbreaking match, losing only when a short putt was missed on the very last green. Every one of the Delaware men played a fine game, but the disadvantage of being on a strange course and traveling so much was too much and the soldiers eked out a 5½ to 3½ victory.

The team stayed at the Hotel Thayer, the magnificent hotel which adjoins the Army grounds. The match was played at the Storm King Country Club, where Army plays all their matches.

The boys traveled by train this time and it seems wiser to do this more often for both financial and physical reasons.

Delaware from piling up a large score.

The only Delaware runners entered in the track events are Perkins and King. These two cindermen will represent the Blue and Gold in the 440 yard dash and the half mile run, respectively. These men should be able to help gain a few points for their school in these events.

In the field events the team has a good chance to accumulate a number of points. J. Carey, "Swede" Drozdov, and T. Pennock are representing the Blue and Gold on the field. "Droz" and Carey are entered in the javelin throw, discus and shotput, Pennock will also compete in the javelin.

Hen Diamondmen Lose Two, Win One Of Spirited Ball Games Last Week

Drop Contests With Temple And Dickinson But Win Over Drexel Dragons In Away Tilt As Payne Hurls Good Ball

The University of Delaware's ball team staged a four-run rally in the ninth inning of a nip and tuck battle, to defeat the Drexel Dragons at the West Philadelphia field by an 8-6 score.

"Husky" Payne, the Blue Hen twirler, began the big inning with a single, Carey came through with a bingle, and McCord with a timely double scored Payne with the tying run. Zimmers relieved Conard on the mound for Drexel, but George sacrificed and Carey came home, putting the Blue and Gold nine in the lead. Zimmers balked, Roberts and Hickman walked and with Reed's infield hit, two more runs came across to sew up the game.

After a poor start Payne of Delaware tightened up and allowed the Dragons only one run in the last six innings.

In the first inning Delaware scored a run by virtue of singles by George and Roberts coupled with Hickman's double, but Drexel immediately scored three runs in their half of the inning on an error, Ralston's single and triples by Captain Fox and Ehmling.

Delaware made it 4-3 in the third by bunching three hits and an error, and again Drexel went into the lead when Fox and Knapp singled along with a force play and Rhile's double.

During the next five innings there were no runs batted across the plate but in the ninth Delaware came through for a timely win over a strong Dragon squad.

Summaries:

Singles: Delaware vs. Baltimore University, May 9, 1936.
Farber, Baltimore defeated Donoho, Delaware, 6-1, 6-4.
Wheless, Delaware defeated Rubin, Baltimore, 6-3, 2-6, 6-3.
Rice, Delaware defeated Meehan, Baltimore, 3-6, 6-1, 6-1.
Wells, Delaware defeated Hyatt, Baltimore, 6-0, 6-3.
Nichols, Delaware defeated Bernstein, Baltimore, 6-1, 6-1.
Hume, Delaware defeated Snyder, Baltimore, 6-0, 6-3.

DOUBLES

Donoho and Wheless, Delaware defeated Farber and Rubin, Baltimore, 6-4, 6-4.
Rice and Wells, Delaware defeated Meehan and Hyatt, Baltimore, 6-1, 6-1.
Nichols and Hume, Delaware defeated Bernstein and Snyder, Baltimore, 6-3, 6-3.

Score: 8 to 1.

George Washington, May 11, 1936
Singles:
L. Carey, Delaware defeated Stolar, G. W., 6-1, 6-2.

Fairbanks, G. W. defeated Donoho, Delaware, 7-5, 6-2.
Breasted, G. W. defeated Wheless, Delaware, 1-6, 6-4, 6-4.

Mintz, G. W. defeated Rice, Delaware, 5-7, 6-4, 9-7.
Wells, Delaware defeated Haskell, G. W., 6-1, 6-1.

Nichols, Delaware defeated Coakley, G. W., 6-3, 6-1.

DOUBLES

Carey and Wells, Delaware defeated Coakley and Ceppos, G. W., 6-2, 6-3.
Donoho and Wheless, Delaware defeated Fairbanks and Mintz, G. W., 6-0, 6-1.

Sarine and Stolar, G. W. defeated Nichols and Hume, Delaware, 6-3, 2-6, 6-3.
Score: Delaware 5, G. W. 4.

Perkins, Lone Star, Takes Both 220 And 440 Yard Dashes; Score: 76 1-2—49 1-2

Last Wednesday the University of Delaware track team again felt the sting of defeat, this time to the well balanced conglomeration of track and field men representing the Drexel Institute. This strong team was too much for the Blue Hens who have been suffering all season from the lack of material in the track events. Even though the Blue and Gold were greatly out-classed, they put up a good fight and pushed the Drexel men in every event.

The outstanding winner for the Delaware team was again, Perkins. Joe won both the 220 and 440 yard dashes. His speed this year has been the one thing that has kept his school in the running.

Wednesday's meet marked the debut of Bob Lippincott into college competition, on the cinder track. Bob showed his ability as a runner in taking a third in the 100 and a second in the 220 yard (Continued on Page 4)

By Audrey Davis

May Day is over and it actually didn't rain for the occasion. (The terrific heat practically baked the crowd, but I suppose we shouldn't be so choicy.) The campus was lovely, the spirea bushes around Science and Residence Halls being out in blossom. The pageant was exceptionally well given.

At 6 p. m. the Alumnae Association Banquet was held in Kent Hall. The Seniors were the guests of the alumnae.

The annual May Day Dance was held from 8:30-12 in Old College. The small floor could not nearly accommodate comfortably, that is—the large crowd that attended. Stan Gallagher furnished the music. Elinor Clay, the May Queen, Miss Eastabrooks, Miss Hartshorn and Miss Dyer stood in line.

Monday Chapel was held at 12:30 in the chapel, Science Hall.

Music Club met at 4:10 p. m. in the Music Building.

Also at 4:10 the Coney Creek Crusaders spoke in the Hilarium. These young men told of the work carried on by the Coney Creek School where young men and women are trained in various professions and equipped to return to their native hills in Kentucky to work among their people. These mountain people are about two hundred years behind us, but are beginning to accept change. This group of twelve young men have been traveling for three months all over the Eastern and North Central States telling people of their work. They were excellent talkers and intensely interested in their work. We wished that they could have stayed longer and answered our many questions.

Track practices were scheduled for all classes for Monday, Tuesday, Wednesday and Thursday afternoons at 4:10 p. m.

At 4:10 on Tuesday the students of applied music gave a spring recital in the Music Building.

Assembly will be held at 11:35 a. m. on Thursday. The Student Council will preside.

Y. W. C. A. Supper Club will be held at 6 p. m. in Kent Hall. Mrs. Laboree of Lincoln University will speak on missionary work.

On Friday the Math Club will meet in Sussex Common Room at 4:10 for a meeting, and will have their annual banquet at 6 in Kent Hall.

Please fill out and put in University Mail.

1. If the Department of Physical Education sponsors an organized program of intra-mural athletics 1936-1937 (I will)—(will not) take part in the program.

2. I believe a rule requiring a minimum of 6 hours instruction and preparation (is) - (is not) desirable.

3. I (would) - would not) take part in any intra-mural contests or practices held in the evening.

4. I would enter intra-mural competition in the sports checked below.

Open Classes Announced For Course In The Novel

All interested students are invited to attend the last four meetings of the class of E 890, The Novel. General discussion and questions on critical analyses by students of better novels.

The classes meet at 2:20 p. m. on Monday, Wednesday, and Friday in the English office at the Library. The schedule follows:

May 18: Harry Algard, "Winter's Moon," by Walpole.

May 20: Joseph Rosevich, "The House Divided," Pearl S. Buck.

May 22: Joseph Scannell, "Shadows on the Rock," Willa Cather.

May 24: Alvin Handloff. Unassigned as yet.

May 26: T. Willey Keithley, "Sharpenbrake," Charles Morgan.

May 28: Gordon Chesser, "One More River," John Galsworthy.

May 30: Alison Manns, "Lost Horizon," Milton.

Men and Women Glee Club Will Hold Joint Recital

Wednesday, May 20, is the date of the spring concert given by the glee clubs of the University of Delaware, the Women's Glee Club under the direction of Hazel W. Gildersleeve, and the Delaware College Glee Club directed by Professor T. D. Mylrea.

The concert will be held in Mitchell Hall at 8 o'clock, D. S. T. No charge for admission.

This concert marks the first occasion at which the Women's and Men's College Glee Clubs have combined in a joint recital, and much effort is being expended to make it an especially interesting performance.

dashes for a total of four points.

2 Mile run: 1, Layton, Drexel; 2, Meadowcroft, Drexel; 3, Hill, Delaware. Time 11 min. 13.4 sec.

880 Yard dash: 1, Klein, Drexel; 2, King, Delaware; 3, Anderson, Delaware. Time 2 min. .08 sec.

220 Yard dash: 1, Perkins, Delaware; 2, Lippincott, Delaware; 3, Arroyo, Drexel. Time 24.2 sec.

Shot-put: 1, Drozdov, Delaware; 2, J. Carey, Delaware; 3, Curry, Drexel. Distance 40 ft. 9 in.

Discus: 1, J. Carey, Delaware; 2, Allen, Drexel; 3, Curry, Drexel. Distance 126 ft. 5.5 in.

Pole Vault: 1, tie between Carplick and Hunter, Drexel; 2, tie between Haldas of Drexel and Hodgson, Hill of Delaware. Height 9 ft. 6 in.

High Jump: 1, tie between J. Layton, Drexel and Mainwaring, Drexel; 3, Davis, Delaware. Height 5 ft. 8 in.

Javelin: 1, Pennock, Delaware; 2, Stevens, Drexel; 3, Drozdov, Delaware. Distance 169 ft. 9 in.

Broad jump: 1, Curry, Drexel; 2, Stradling, Drexel; 3, Hobson, Drexel. Distance 21 ft. 1 1/2 in.

Score: Drexel 76 1/2, Delaware 49 1/2

Hen Diamondmen Lose Two

(Continued from Page 3)

Lose to Dickinson, 6-2

Last Wednesday the Blue Hen nine traveled to Dickinson to receive a setback at the hands of the Red Devils 6-2. This was a bang-up game, with Delaware leading until the sixth inning. At this point the Mud Hens allowed two runs to cross the plate, when Stine, Dickinson's short-stop got a single, and Shore followed with a timely home run.

A Job

Official U. of D. Rings being sold by Dave Sloan, Box 497.

Delaware's two runs were gathered in the fifth stanza when Lomax, the losing pitcher, got a charity base. Ernie George then reached first base on an error by Stine, boosting Lomax to second. McCord binged to right field, sending Lomax home to tally, and putting George on third base. McCord stole second base while Smith, the shortstop, held the ball, and on an attempted play at second an error was committed, sending McCord to third, and George across the plate. The rally then ended when Preston struck out.

A featuring note in this game was the increase in fighting spirit over the previous games. Although the Delaware boys were behind, they fought hard to bring the game home, and should be given credit for trying hard.

Lose To Temple

Saturday the Blue Hen nine acted as host to a strong Temple team. The Cherry and White led all the way and the only time they were threatened was in the ninth when Delaware started a rally which fell short by four runs.

The afternoon proved to be a slugging contest as a total of 26 hits was gathered by both teams; ten for Delaware and 16 for Temple.

McCord led the Blue Hen's attack with three hits while every player on the Philadelphia nine had one or more hits.

Several fielding gems were turned in by the Hens, both in the infield and outfield. Carey made a magnificent stop, and Preston with his double play toss from right field provided plenty of thrills for the spectators.

Phil Reed tossed for the Blue and Gold and turned in a pretty good game considering the batting strength of the opponents.

THE DIAMOND STATE TELEPHONE COMPANY

Supt. Of J. G. Brill Co. Addresses A. S. M. E.

Mr. H. P. Cleaver, Delaware Graduate, Tells Of "Respon- sibilities A Young Engineer Must Expect"

Mr. Cleaver, Superintendent of the J. G. Brill Company, and a Delaware graduate of 1918 in Civil Engineering, spoke on "The Responsibilities a Young Engineer Must Expect if He Follows Any Field of Transportation." He told of the trend to lighter machines and parts, which means the requirement of a greater knowledge of materials, especially elastic limit, yield point, and proportional limit. Mr. Cleaver told of the arts and types of welding and painting. He also told of the various steps a young engineer goes through upon entering the Brill Co. The advantages and disadvantages of high speed railway travel were discussed, with reference to the Philadelphia to Norristown high speed line, which runs at a speed of eighty miles an hour on a regular schedule.

W. E. Rommel, former treasurer, was awarded a book presented to the member giving the best service to the Society during the preceding year.

The following were elected to the Technical Societies Board: W. K. Benson, Jr., Clark Lattin, and John Newcomer.

Blumberg Chosen Student Relations Group Chairman

Approves Resolution To Have Student Representation On Faculty Social Committee

Professor Leo Blumberg was elected chairman of the newly organized Student Relations Committee at their first meeting, held last Thursday. Professor Ralph W. Jones was chosen secretary. The committee of five faculty members was selected several months ago, but received notices of this fact only last week.

Robert Jamison, a Junior and a member of the Student Council, presented the case in favor of a student representative on the Faculty Social Committee. In view of the conclusive facts presented, the Committee approved a resolution to that effect which will be presented to the next meeting of the faculty, to be held the first Monday in June.

The Student Relations Committee was created by the Board of Trustees to serve as a go-between for the faculty and the student body.

Hartmann Wins Drill

In the competitive drill between the three batteries of the University of Delaware R. O. T. C. battalion at noon yesterday, Battery C, commanded by Cadet Jack Hartmann, won first honors. It was declared the best drilled battery in the battalion. Platoon No. 1 of Battery D, commanded by Cadet Lieutenant Paul Griffith, won the honor for the best drilled platoon.

Both Captain Hartmann and Lieutenant Griffith will be awarded sabers as special prizes for winning these honors. This competitive drill is one of the outstanding events of the year for the R. O. T. C. In view of the fact that owing to the extreme weather most of the winter which kept the cadets inside the battalion made an excellent showing today.

With the announcement of an 18 per cent increase in sales for the first quarter of 1936 over a similar period last year, officials of the Parker Pen Company are looking forward to an even greater sales improvement for the balance of the year. As evidenced by the number and size of new orders received, Parker Pen dealers are enjoying one of the most profitable years in the history of the company.

In commenting on the sharp improvement in first quarter sales, C. L. Frederick, Vice-President, said: "We believe there are a number of factors that are contributing to the success of the Parker line. An important one is the fact that about 59 million pens in people's pockets are obsolete by Parker's new sacless Vacumatic Pen with its scientific "breather tube" and revolutionary diaphragm filler. This pen holds 102 per cent more ink than the old-style pens without increase in size.

"Another reason is that there has developed a decided trend toward the purchase of useful and practical articles for Easter, Confirmation, Mother's Day, Graduation and other gift-giving occasions. And since gift purchases make up an important part of our business, this has had a stimulating effect.

"Then too, we believe that the Parker, advertising that has appeared continuously for the past four years has done a double job. We know that it produced immediate sales results; now we feel that it has had an accumulative effect that is reflecting to our advantage. In other words, where our advertising has impressed thousands so that they went out and bought Parker Vacumatic Pens, it also impressed other thousands who were not ready to buy because of economic conditions. Now, with improved times, they have returned to the pen market and are buying the pen they've wanted for months or years."

Ford, of Newark. Miss Davis will teach the fifth grade while Miss Ford will head the department of Junior High mathematics.

Scannell, Seitz Meet Cali- fornia Debating Team

(Continued from Page 1)

Wilmington High School, is an active member of the Student Council, Vice-President of next year's Senior Class, and a regular contributor to all school publications. He is a Junior in the Pre-legal curriculum. These two men represented Delaware in the debates against Rutgers and Vermont Universities held earlier this year. The Debate Coach at Delaware is Dr. Arthur R. Dunlap of the English Department.

Harley Spittler and Myer Kahn will defend the negative for California. They are Juniors and have been on the California Varsity Debate Team for two years. California's team is said to be one of the best in the country and has made itself quite a reputation during the past few years with its transcontinental radio debates.

California is meeting Delaware in the course of an extensive debating tour. A four man team left Berkeley on April 30, and its itinerary includes Purdue University, University of Kansas, Indiana University, Washington and Jefferson College, University of Maryland, C. C. N. Y., and Brooklyn College. It is meeting a total of thirteen colleges and universities.

The debate on May 18 will be conducted on the Oregon Plan. According to this system, the debate is similar in procedure to a court trial. Each team's constructive speaker is cross-examined following the constructive speeches. The cross-examiners then summarize the cases of their respective sides. This plan makes the debate far more interesting and exciting for both debaters and audience than does the usual debate procedure. The subject, the inevitability of the United States' entering the next World War, is one

of vital interest to everyone, particularly in view of the many recent threats to world peace and the

many predictions that there will be another World War within a short time.

**BUT MAW,
IT'S CLEAN DIRT!**

CLEAN DIRT

SOAP and water will still be needed to clean Junior's face and hands, but if Junior's father is a florist he will welcome this clean dirt. Florists and specialty growers wage a never-ending battle against weeds, insects, and plant parasites which flourish in greenhouse soil. But reinforcements have arrived. Clean dirt may now be economically obtained by means of electric equipment developed by General Electric scientists.

Electric heating units, arranged in a wooden bin, heat a quantity of soil to a temperature of 160-180 F. Heating sterilizes the soil by a process which resembles the pasteurization of milk, and weed seeds, insects, and fungi which are dormant in the soil are killed during the sterilization process. In the resulting germless dirt, plants can attain a vigorous, uniform growth, free from the competition of weeds and the invasions of other plant enemies.

**"AH, WATSON,
AN INDUSTRIAL CRIME"**

THE "corpus delicti"—a broken resistance wire; the suspect—a defect in the wire; the detective—a microchemist. With microscope

and analytical apparatus of incredibly small dimensions this industrial superdetective finds tiny crystals of sulphate near the break. The trail leads to a nearby furnace giving off sulphurous fumes. Thus, the wire is cleared of suspicion of having been defective, and the criminal fumes are eliminated.

This analysis is typical of many industrial "micro-mysteries" that have been solved in the Research Laboratory of General Electric. A development from methods devised in the

fields of biology and medicine, microchemistry has become an indispensable servant to industry, with accomplishments as great as the quantities with which it deals are small.

With thimble-sized beakers, and test tubes as small as 1/50 of an inch in diameter, the microchemist analyzes quantities of material 17,000 times lighter than a drop of water. He has defined a new unit of mass, the gamma, one millionth of a gram. A streak of dirt, a smudge, a minute pit mark—all these can be taken into the laboratory with a reasonable assurance that the microchemist will be able to provide the answer to the problem.

H. Hallett, Jr., Alvin I. Handloff, Earl D. Krapf, Robert E. Ledley, William J. Mearns, John A. Munroes, Joseph Stuart, III, Roger B. Thomas.

Women's College

Alice A. Breme, Hazel H. Darrell, Helen M. Dutter, Adelaide A. Ford, L. Ann Hellen, Margaret R. James, Martha B. Mason, Harriett A. Nivin, Rachel Phelps, Deborah A. Plummer, Erika M. Sammeth, Anne E. Wigglesworth.

After the initiation a banquet was held in Kent Hall. The new members were greeted by Dr. Drake. The replies were given by Helen M. Dutter and Harry Elwood Algard, Jr. The principal address of the evening was by Professor Walter Prichard Eaton, of Yale University, who spoke at the College Hour earlier in the day.

Prof. Eaton emphasized the con-

necting of the flow of literature in the past with present life, so as to make the study of literature enjoyable and worthwhile. To be a good scholar in literature, according to Prof. Eaton, one should first develop the ability to express his own ideas in words—to acquire the art of forceful writing. He "lam-pooned" the subject matter and quality of writing which is so common to theses written by those working for a Ph. D. These doctoral "masterpieces," he said, were some of the dullest pieces of writing he has ever read.

nell writes on haircuts. Franklin Clymer asks if peace is possible and John Oldman maintains the possibility of faith in a Supreme Being. Jean André enlightens the reader on French Political Life. Other excellent articles are contributed by Garrett Hume, Ted Berman, and Chauncey Brown.

Considerable more poetry is included in this issue. V. W. Faivre and Professor Lawrence Willson have written some excellent verse. Herb Warburton again does Es-

quirish cartoons. Jerome Niles assists him with a few linoleum block illustrations.

Copies of *The Humanist* will be on sale to Women's College students and the faculty at the price of 35 cents.

"La Maternelle" Pleases Audience at State Theatre

"La Maternelle," French talking film presented by the Modern Languages Department, was well received by a limited audience in the State Theatre Wednesday.

Although the picture was an interesting novelty, it could not compare technically with our own Hollywood product. The story itself was absorbing and well told. Photography was average, and was somewhat harmed by the noticeable cutting. This was not due entirely to censors but to the practice of movie operators putting two reels of film on one machine at the same time.

SUPPLEMENT The Review

The Undergraduate Weekly of the University of Delaware

NEWARK, DELAWARE, FRIDAY, MAY 15, 1936

VOLUME 27

LEAPING FOR THE TAPE, three University of Southern California dashmen vainly attempt to defeat Mushy Pollock of California in the 100-yard dash in a dual meet at California's Edwards Field. U. S. C. won the meet, 93 to 38. Pollock's time in the hundred was 9.7.

SAFE AT HOME, as the camera catches some fast action in the Princeton-Willamette diamond battle, won by Willamette, 10 to 6. Paine of Princeton is scoring in the fourth inning, as Moseley drops the ball.

Electric or gas built by Osborn, a freshman. A vacuum provides the wind with wind. Autographic plates regulate.

HONORING "America's greatest debater," the visiting Kiwanis Club of Hawaii, led by a team placed large letters on Daniel Webster's statue in New York's Central Park.

THE *Spotlighter*

Honored by Critics

Dramatist Anderson (left) receives critics' plaque.

IN 1925 Maxwell Anderson was on the brilliant staff of the late New York World. Anderson hadn't gone to war, but he collaborated with the World's book critic, Laurence Stallings, who had, in writing *What Price Glory*, a play meant to prove that glory is gained by a bloody price in War. It was a smash hit, but not for its profanity alone.

This experience in play writing started Maxwell Anderson, University of North Dakota, '11, in a field of rich creation. Before then, he had vacillated between an academic career (school teaching in the Dakotas and the English department at Stanford) and writing for pay (newspaper work on two coasts, east and west). After *What Price Glory* he wrote nearly a hit a year. In 1930 it was *Elizabeth the Queen*, in 1933 *Mary of Scotland*. Both *Your Houses* won the Pulitzer prize. A month or so ago his friendly enemies, the New York critics, awarded him a plaque for having written *Winter set*, the best American play of 1935-36, with a friendly nod for the excellence of his *Valley Forge* and *Night Over Taos* of previous years. By writing in a loose yet strong verse, Maxwell Anderson, Stanford M. A., preserves something of the scholarly air taste and training have led him to cherish.

Basketball's Dean

SCHOLARLY in another sense is Dr. Forrest C. (Phog) Allen, director of athletics at the University of Kansas. In 1903 he was playing basketball with the Kansas Athletic Club, and his team defeated a University of Kansas five coached by the founder of the game, Dr. James Naismith.

The next year Phog entered the University and immediately laid a firm hand, as student coach, on its basketball destinies. In the next 26 years he produced 20 conference championships, with only occasional interruptions while he coached championship teams at Baker University and Missouri State Teachers College.

When Dr. W. E. Maxwell of Wisconsin gave up basketball, Phog became dean of the game in the United States. A month

ago the Universals of Hollywood were picked to represent America in the Olympics, the first time basketball has been an Olympic sport. This was Dr. Allen's doing, as head of the committee on basketball. One of Phog Allen's most successful books is called the *Basketball Bible*, and such it has been for many a coach of the sport in the world.

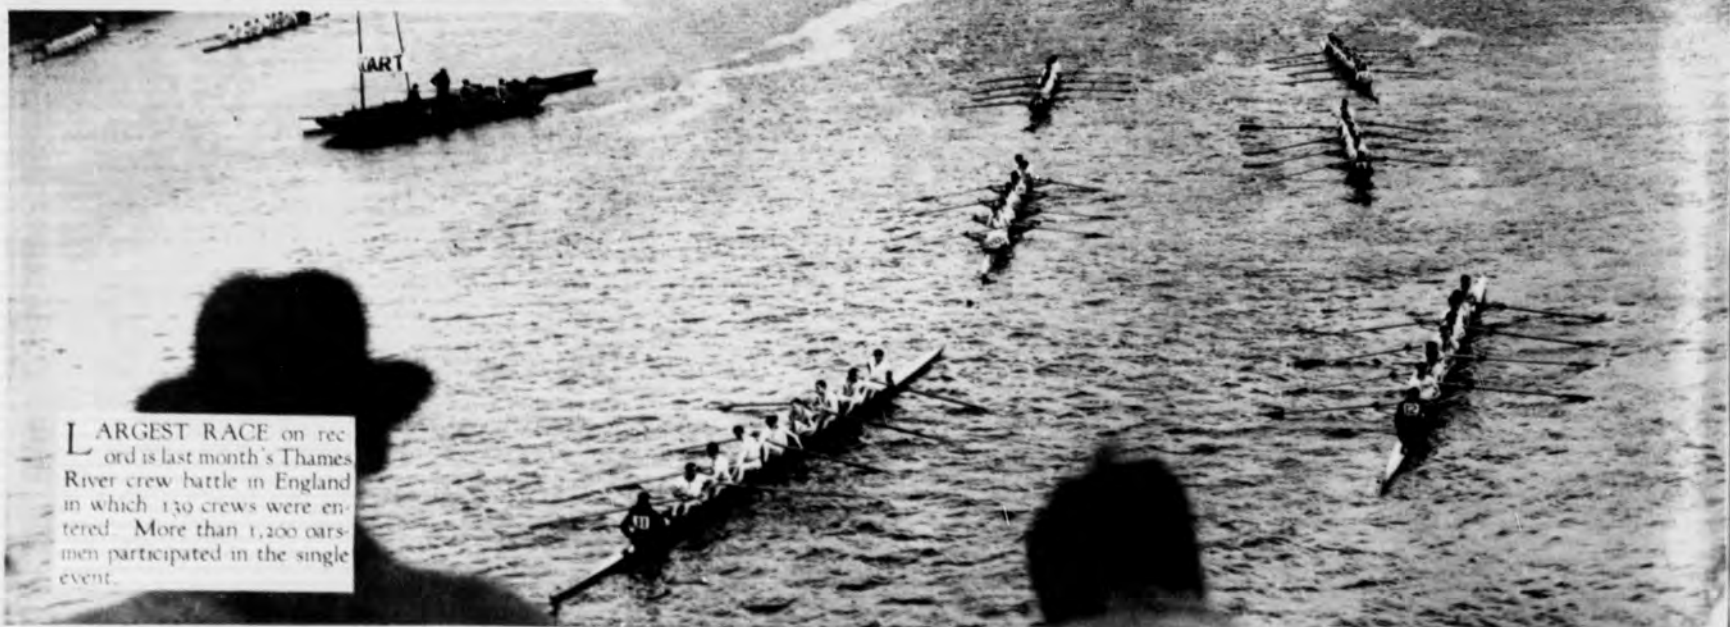

UNDAUNTED by driving rain and clinging mud, Brown University freshmen defeated the sophomores in the annual inter-class struggle. Notice the unconscious Winny Kirschberg lying on the ground.

RACING WITH DEATH that is speedily thinning the ranks of northwest Indians who can still speak their original tribal tongues, Dr. Melville Jacobs, University of Washington anthropologist, is making recordings of all known Indian languages.

SCHNOZZLE Jimmy Durante had his nose measured for the 'nth time by New York University women when he paid their alma mater a visit.

LARGEST RACE on record is last month's Thames River crew battle in England in which 130 crews were entered. More than 1,200 oarsmen participated in the single event.

For Digestion's Sake...

PROMS AND EXAMS. Constant rushing about and mental strain put you on your mettle. Camels set you right with their aid to digestion—their cheering "lift"—their costlier tobaccos.

SMOKE CAMELS

Smoking Camels stimulates the natural flow of digestive fluids . . . increases alkalinity

Life sometimes pushes us so hard that we feel too worn-down really to *enjoy* eating. Science explains that hurry, mental strain, and constant tension reduce the flow of the digestive fluids.

Scientific studies definitely show that smoking Camels increases the flow of digestive fluids . . . alkaline digestive fluids . . . so vital to the enjoyment of food and to good digestion.

Camel's rich and costly tobaccos are mild beyond words. Enjoy Camels as often as you like—with meals—any time—for their cheering "lift" . . . for their aid to digestion—for the pleasure they bring. Camels set you right! And never jangle your nerves or tire your taste. Make it Camels today.

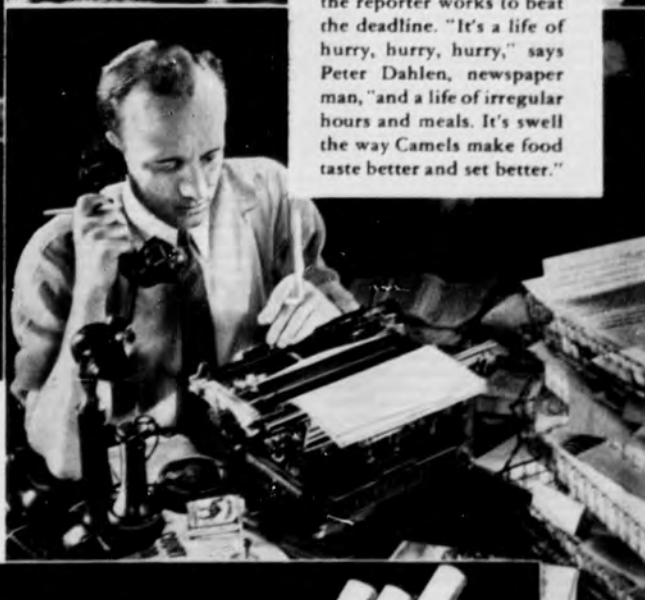

THE BROWN DERBY. The chef is putting the final touches to a Lobster *Thermidor*, while within the restaurant the stars of Hollywood gather to dine . . . and to enjoy Camels. In the

glamorous life of Hollywood, Camels play a major rôle. As Mr. Robert H. Cobb, the man behind The Brown Derby's success, remarks: "Camels are the choice of the majority of our patrons."

UNDER THE BIG TOP.

Watching Miss Dorothy Herbert of Ringling Bros.-Barnum & Bailey, you marvel at her poise. She says: "I smoke all I want—eat anything I care for. Camels make food digest easier."

CROWDED MINUTES

as the reporter works to beat the deadline. "It's a life of hurry, hurry, hurry," says Peter Dahlen, newspaper man, "and a life of irregular hours and meals. It's swell the way Camels make food taste better and set better."

THE *Spotlighter*

Honored by Critics

Dramatist Anderson (left) receives critics' plaque.

IN 1925 Maxwell Anderson was on the brilliant staff of the late New York World. Anderson hadn't gone to war, but he collaborated with the World's book critic, Laurence Stallings, who had, in writing *What Price Glory*, a play meant to prove that glory is gained by a bloody price in war. It was a smash hit, but not for its profanity alone.

This experience in play writing started Maxwell Anderson, University of North Dakota, '11, in a field of rich creation. Before then, he had vacillated between an academic career (school teaching in the Dakotas and the English department at Stanford) and writing for pay (newspaper work on two coasts, east and west). After *What Price Glory* he wrote nearly a hit a year. In 1930 it was *Elizabeth the Queen*, in 1933 *Mary of Scotland*. Both *Your Houses* won the Pulitzer prize. A month or so ago his friendly enemies, the New York critics, awarded him a plaque for having written *Winterset*, the best American play of 1935-36, with a friendly nod for the excellence of his *Valley Forge* and *Night Over Taos* of previous years. By writing in a loose yet strong verse, Maxwell Anderson, Stanford M. A., preserves something of the scholarly air taste and training have led him to cherish.

Basketball's Dean

THE STONE AGE IN PIPES

SHORT CUT TO REAL PIPE CONTENTMENT

A man can spend years finding the tobacco that hits the spot—or he can try Prince Albert now. We'll back this princely smoking tobacco against the field for choice quality—for mellow flavor—for mildness. Being "crimp cut," Prince Albert is a revelation in coolness. And the "bite" is removed by a special process. Accept the invitation below to try P.A. at our risk.

© 1936, R. J. REYNOLDS TOB. CO.

50 pipefuls of fragrant tobacco in every 2-ounce tin of Prince Albert

GENTLEMEN... PRINCE ALBERT MUST PLEASE YOU, OR...

Smoke 20 fragrant pipefuls of Prince Albert. If you don't find it the mellowest, tastiest pipe tobacco you ever smoked, return the pocket tin with the rest of the tobacco in it to us at any time within a month from this date, and we will refund full purchase price, plus postage.

PRINCE ALBERT THE NATIONAL JOY SMOKE

AND IF YOU THINK that the Veterans of Foreign Wars movement is just a joke, here's photographic proof of their Washington lobbying activity. Princeton student Thomas Riggs, Jr., is the chief of the capital staff.

SIX colleges in the United States give instruction in puppetry. Marie Ritchey is shown on the Washburn College (Topeka, Kan.) marionette stage of that institution's department of puppetry.

Leading Undergraduate Field Research Move

LEADER in the movement to establish undergraduate field research work, especially in the polar regions, one of Bowdoin College's outstanding projects is the maintenance and operation of its Kent's Island (on the Bay of Fundy) biological station. Manned almost entirely by undergraduates, work at this station centers upon research into the bird life on the island directed by W. A. O. Gross, Bowdoin junior. Important and interesting phases of this unusual type of undergraduate study and research are pictured here.

Aboard The Bowdoin, bound for Kent's Island.

The cook harpoons a seal to provide steak for supper.

Unusual photo of the Bay of Fundy's feathered clown, a Puffin.

Records of sea-bird migrations were made by catching and banding the various species to be studied. This group is searching for Razor-billed Auks.

They learned barbering, too!

Members of one of the largest colonies of Eider Ducks on the Atlantic coast, photographed at close range from a blind.

"I WOULDN'T HAB A COLB IF YOU HAB NO DRABT VENTILATION IN YOUR CAR..."

You get a lot of safeguards and comforts in modern cars that were unknown a few years ago. That's because General Motors uses its vast resources to pioneer them—and manufactures in such volume that it can produce constantly better cars at lower cost.
