NEWARK, DELAWARE, OCTOBER 10, 1916

NUMBER 3

DELAWARE CRUSHES P. M. C.

Blue and Gold Team Scores Easy Victory Over Chester Rivals. Score 21--0

"Delaware" opened her football season last Saturday in a manner which made everyone sit up and take notice, and which bids well for another successful season for the "Blue and Gold."

Only four of last year's veterans were in the line-up which Coach McAvoy sent in to face the P. M. C. warriors at the kick-off. It was this fact that made many of the "Blue and Gold" followers rather skeptical as to the possible outcome when they lined up against Si Pauxtis' veteran aggregation. But this doubt soon absented itself from the minds of the "Delaware" rooters when "Herb" Weldin skirted right-end for the first touchdown of the game. This score was made several minutes after the opening of the first quarter. The final result was never in doubt after this first score, for "Delaware" was playing fast, aggressive football at all times and was quick to take advantage of their opponents' mistakes. Although there was no more scoring in the first half, the Delaware boys had the ball in the shadow of the P. M. C. goal posts several times.

The second touchdown came in the third quarter, when Clancy, Delaware's new end, received a long pass from Weldin and stepped across the line. This second score took the fight out of the Pennsylvanians and Delaware had little trouble in pushing across another touchdown in the final quarter.

Captain Sigel played a star game for the Chesterites and worried the "Blue and Gold" team a great deal by his long end runs. However, the rest of the P. M. C. eleven did not line up to expectations. Campuzzano and Cramp did not put up their usual aggressive game.

The entire Delaware team played a plucky game throughout. Not once did the team let up in their driving attack on their opponents and during most of the time were playing on the offensive. Not once during the contest did P. M. C. get within Delaware's 20-yard line.

Clancy at end, Johnson at tackle, and Selby in the backfield, were the stars of the new men, while "Ernie" Wilson, Herb Weldin, and Capt. Fidance played steady and consistent football.

The game in detail:

First Period

P. M. C. kicked to Delaware. Selby ran the ball back 30 yards before he was downed. In the first play, Selby went around left end for a ten yard gain. Weldin made four yards through right tackle. Selby and Fidance each gained a yard on short line plunges. Selby failed to gain and the ball went to P. M. C. on their 46 yard line. Campuzzano made four yards around right end. Poole fumbled the ball and Gilman recovered it for Delaware. Loose went through right tackle for a slight gain and Selby added four more on a dash through the same hole. Marconetti and E. Wilson were opening huge holes in the P. M. C. line. Weldin was dropped without having gained. A forward pass, Weldin to Fitzpatrick, failed. Delaware was penalized five yards for

offside play. Fidance and Weldin made 10 yards through right guard. Loose gained three yards around right end. P. M. C. received the ball and kicked out of danger. Loose ran the ball back to the fifteen yard line. Fidance fumbled on the next play but quickly recovered and he made five yards through center. The center of the Delaware line swept back the P. M. C. players like chaff. Selby made a short gain and Weldin on a delayed pass from Fidance went around left end for the first score of the 1916 season. This play baffled the P. M. C. players and Weldin had a clear field. E. Wilson kicked the goal. Delaware kicked off. Campuzzano fumbled the kick and was down on P. M. C.'s 25-yard line. Sigel skirted left end for 10 yards. On the next four attempts P. M. C. failed to gain and the ball went to Delaware as the whistle ended the period. Score: Delaware, 7; P. M. C., 0.

Second Period

On the opening play Sigel went around right end for 25 yards. A series of short runs by Campuzzano, Poole and Sweeny, added 10 yards. Sigel made 10 yards around right end. Sweeny and Campuzzano failed to gain. P. M. C. penalized 15 yards for holding. Johnson and Wilson broke up two attempted forward passes by Sigel. On the last play Johnson recovered the ball on P. M. C.'s 30-yard line. Weldin and Selby made a first down by short runs. A forward, Weldin to Meyers, failed. Delaware was penalized 25 yards for unnecessary use of hands. Weldin made a forward pass which was intercepted by Sigel on his 25 yard line. The whistle ended the period. Score: Delaware, 7; P. M. C., 0.

Third Period

Delaware kicked to P. M. C. and Campuzzano was dropped by Clancy on P. M. C.'s 35-yard line. A series of runs by Harte, Sweeny and Campuzzano added 20 yards. Sigel fumbled and Selby recovered the ball. Delaware was penalized 10 yards. Selby, Weldin and Loose made 20 yards through right guard and right tackle plays. Delaware was again penalized by unnecessary roughness. With the ball on their 25 yard line Delaware punted to midfield. Sigel ran the ball back 20 yards to Delaware's 43 yard line. Campuzzano essayed a forward but Weldin caught the ball and on the next play Weldin made 30 yards through right tackle. V. Poole was hurt on this play. Shifts in the left side of the P. M. C. line were made by Coach Pauxtis in an effort to bolster the team as practically all of Delaware's gains had been through this part of the line. Selby, Weldin and Fidance all made short gains. Loose and Selby failed to gain around left end. Weldin made 10 yards around right end. Delaware received another 25 yard penalty for unnecessary roughness. On a forward, Weldin to Clancy, Delaware kicked to P. M. C. Sweeny was dropped by Johnson. (continued on page 4)

FRESHMAN-SOPHOMORE MEET

Track Meet To Be Held Between Rival Classes

On Tuesday, October 24, the Freshmen and Sophomores will clash for the cinder path championship of the two lower classes.

Coach Keyes is "pulling off" a new one at "Delaware" this fall, in staging this meet. Up until this year, "Delaware" has had no one to take charge of the track candidates in the fall, for the reason that all of Coach McAvoy's time has been taken up in developing the football team. But now that "Pat" Keyes is here to assist Coach we are going to have a change. "Pat" has been working faithfully to devise some plan whereby he can get a line on the new track material. Whether his new scheme is going to work out successfully will be seen on Oct. 24.

Now that Coach Keyes has done his part, it is entirely up to the members of the two lower classes to determine how great a success it is really going to be. By the manner in which both the Freshies and Sophs have gone into the spirit of the thing, there is no doubt but that both classes are out to trim each other. If this spirit continues, and all indications point that it will, this meet will not only be a complete success, but will pave the way for the success of future meets, which will no doubt take place every year at this time.

The events arranged for by Coach Keyes are as follows:

100 yard dash
220 yard dash
440 yard dash
Half-mile run
Mile run
120 yard hurdles
220 yard hurdles
High jump
Broad jump
Shot put
Pole vault
Discus

Entries for this meet will close Saturday, Oct. 21, and it is important that the captains of each team shall have given the names of all of his competing men to Coach Keyes by this date. Any number of men are allowed to enter each event.

Train Adjustment Is Satisfactory To Commuters

The change in the schedule of the B. & O. trains will solve the commuters' situation to the general satisfaction of all concerned. Trains will leave Wilmington, beginning tomorrow, at 7.45 a. m., getting students to Newark in time for the first period which begins at 8.15. The Pennsylvania R. R. commuters have at their disposal a 7.10 and a 7.32 train. In view of the satisfactory adjustment of trains, the present schedule of classes will remain in force.

The State W. C. T. U. is selecting a number of works on temperance, costing \$50, for presentation to the library of Delaware College. Thirty-five dollars will also be given for prizes for scientific temperance instruction contest work in the public schools of the counties.

DELAWARE AND ITS FUTURE

Plans In General

It is often complained that, while all know that great plans for the future of Delaware College are in existence, very few know anything definite as to what those plans are. In response to this complaint the following is an attempt to picture the campus of many years hence as well as to give some clearer idea of the plans for the immediate future.

The campus as a whole will be approximately three-quarters of a mile long, extending from the north side of Frazer Field to the southern extremity of the W. C. D. campus opposite Red Men's Home. In width the campus will extend from Depot Road to Academy street, with the exception of some property on Main street and Delaware avenue and the Lewis home. Aside from the old campus there will be two parallel rows of buildings, extending in the same direction as Depot Road and from the southern extremity of the W. C. D. campus to the wall of Frazer Field. The two rows of buildings will be three hundred feet apart with paths running immediately in front of each row. Between the rows the land is to be perfectly leveled and trees, either red oak or elms will be planted in rows. Without the enclosure the campus will be natural in grading with trees planted at irregular intervals.

The buildings in these two parallel lines are to face one another. Thus they will form an interior court which will be called The Green. This Green will be somewhat broken by a slight turn, which will occur at about where the W. C. D. Annex now stands. This break will be further emphasized by a transverse court which runs diagonally across the Green at this point. At the head of this transverse court, and facing Depot Road will be the Auditorium. And this bend in the campus will be still further emphasized by the new Library building which it is now planned to be placed at this juncture in the Green. About the Library there is to be a grove which will be the common possession of both colleges but which will mark the dividing line between the two.

As To The Immediate Future

The contract was let on Tuesday, Oct. 3, for the construction of the new dormitory. This building is to cost approximately \$100,000 and is to be situated just north of Wolf Hall in a line with it but just across Delaware Ave. At present it is planned not to use columns on the dormitories, but to save them instead for the buildings which are to occupy more prominent positions.

The extension of the heating system which is now under way will eventually reach the Women's College. The eight inch pipes which are to carry the heat have already been laid as far as Wolf Hall under the basement of which they run. They pass directly through the center of the new dormitory. This part of the system has also been laid and is ready for connection.

There is also a plan afoot to have a single fraternity building composed of four separate units, to house the present fraternities. To this building could be added other units as necessity arose. Plans and drawings for such a structure are now being made by the architects, Day and Klauder. Each unit, it is planned will cost about twenty-five thousand dollars. The location which it now seems likely that this building would occupy is that between the old Elliott stone barn and the Elliott House itself. Such a location would be ideal for the fraternities, since their home would face down the entire green and would be the head building of the entire campus. Additional prominence would be given this building by the eight foot terrace which is to occur just south of, and parallel to, Main street. The idea of this building, it appears, is the result of the favorable investigation into the fraternity question at Delaware by the Board of Trustees and a desire to bring the fraternities into closer proximity to the other buildings of student life.

Such plans are the out-growth of capable, devoted, painstaking, imaginative and far-seeing minds.

Death Of John C. Stockly

Mr. John C. Stockley, whose death occurred during the last week of September, was a trustee and former student of Delaware College. He attended this institution from 1854 to 1858 during which period the college was progressing rapidly. Among Mr. Stockley's contemporaries were Mr. John C. Higgins, Anthony Higgins, and George Biddle. Mr. Stockley became a member of the board of trustees during the early 80's. His two sons, Charles and Ayres, were graduates of the college and have since been admitted to the bar of the Delaware Courts. The deceased's daughter, the widow of a former Delaware man, Mr. Crawford Stevens, is now living with her mother.

Mr. Stockley was interested in farming and banking, and was generally active both as a citizen and a neighbor in promoting any

object that looked toward the up-building of the community. He was a thorough student and one of the best informed men in the state.

Class Advisors Selected

At a recent meeting of the students of Delaware College the following professors were elected as faculty advisors to the classes: chairman of the committee, Dean E. L. Smith; Senior advisor, Professor G. A. Koerber; Junior class, Dr. K. R. Greenfield; Sophomore class, Professor H. K. Preston; Freshman, Professor G. E. Dutton.

College Alumnus

To Enter Ministry

W. Hulburd Alderson, of the class of 1915, last week entered Drew Seminary, Madison, N. J. There Mr. Alderson will take the regular three year course in preparation for the ministry.

A Political Club

Why not have a political club at Delaware? Every other college of any size or importance has its Republican or Democratic Club; so why should we not join the ranks? The advantages that a political club would mean to Delaware students can hardly be overestimated. To students who have any desire to enter politics after leaving college the training would be invaluable.

Many students familiar with the ordinary political clubs in the cities are opposed to the idea of a club at Delaware. But it must be understood that a college club would only slightly resemble the clubs found in the cities in every ward.

In politics every element must be catered to. For this reason the ward-boss dominates the city clubs. At Delaware a different type of man would have control. Shrewd politicians would never allow an inferior man to call a meeting of a college political club, for the simple reason that the inferior man could not gain the respect of the students.

Students, think over the idea of a political club at Delaware. If you conclude it would be a good thing, get someone else to think it over.

PEP! PEP! AND MORE PEP!**Students Turn Out En Masse For First Smoker**

The first smoker of the 1916-17 collegiate year was held last Friday night. Enthusiasm and "pep" abounded everywhere. Every student was in high spirits from the first talk to the pee-rade at the wind-up.

Dr. Syphard was chosen for the first speaker of the evening and he gave a talk full of reminiscences calling back the football heroes of

the past. Johnny Rothrock, Messick, Wolf, the Canns and the Taylors were among the heroes mentioned. Dr. Greenfield then gave a good account of the difference between spirit from the heart and just wild spirit. The stories "economic specialist" told were appreciated by all.

After the two talks we all joined in on a new song to the tune of "Brighten the Corner Where You Are." Here is the song:
We want a touchdown
Hit that line.
Just a little touchdown
Would be fine;
We will kill that hoodoo
And bury it tonight.
We want a touchdown—
Fight, fight, fight.

All credit is due to the Sigma Phi Epsilon boys for this excellent composition.

Dean Smith spoke on the spirit shown and complimented the student body on the big turn out. Coach McAvoy then told the boys that they should fight—fight—fight and use clean, fair, hard football and they would never lose. Professor Short told those present how to play football and he gave a stirring account of the good old days of '96. Lieutenant Hoey wound up the list of speakers, by giving a splendid account of his football career at Dover High School.

Le Roy Steele, as president of the Students' Government Association, presided over the smoker. Steele enlivened the intervals between the speakers by some good antique jokes. An election was held for the cheer-leaders for this year and Horsey '18 and Reynolds '18 were re-elected unanimously. Plenty of smokes were handed out and the fumigation and hot air were omni-present.

After the close of one of the most successful smokers Delaware College ever witnessed, the band led a pee-rade down Main street to the Post Office and thence down to the Women's College, where the girls were serenaded. Our first smoker was a great success—it produced "pep" and spirit and helped us greatly.

The next Smoker will be held Friday night, October 20 before the Haverford game. Freshmen are going to turn out for a costume parade also. Show your "pep." Freshmen!

DEAN SMITH HEADS ATHLETIC COUNCIL

Delaware College Sports Discussed At Organization's First Meeting

At the first meeting of the Delaware College Athletic Council for this college year the body was organized by electing Dean E. Laurence Smith, president; Professor Charles A. McCue, vice-president; R. H. Pepper, secretary; Dr. Webster M. Steel, treasurer, and Coach William J. McAvoy, general manager.

Athletic matters were discussed in a general way. It was decided to award some medals for break-records last year that were not given out before college closed on the night before the Haverford football game, which will be October 20. There will be a smoker in the gymnasium that night.

It was stated at the meeting that both Wilson O'Daniel, manager of basketball for 1916-17, and George C. Brower, manager of baseball, are with Company E, Organized Militia at Deming, N. M., but both are working on the schedules from that point.

Athenaeon Officers Elected

On Tuesday last an organizing meeting was held of the Athenaeon Literary Society. The meeting was called to order by Vice-Presi-

dent Terry Mitchell, President Biamhall being absent. Nominations were opened for officers and the following men were elected: Morris R. Mitchell, President; Paul D. Lovett, Vice-President; Vaughn Hastings, Secretary and Treasurer.

It was decided that beginning with Tuesday, Oct. 10, 1916, meetings of the society should be held only once every two weeks. This will make the meetings fall on the Tuesdays alternating with those on which the Engineering Society meets.

A committee consisting of Mr. Vaughn Hastings, chairman, and Mr. Terry Mitchell, was appointed to attempt to arrange with the Delta Phi Literary Society for a debate to be held about Thanksgiving holiday with St. John's College.

The spirit of the meeting which was well attended, seemed to be that the society should grow away from the former idea of secrecy and give greater publicity to its work. In accordance with this spirit it seems probable that many of the meetings in the future will be open to all visitors.

W. C. D. NOTES

The District School

The party given by the Y. W. C. A. for the freshmen on Saturday last was a huge success. It took the form of a district school, with Miss Powers in the role of teacher. With her hair strained tightly back, forming an unseemly excrescence at the back of her head, the severity of which was slightly lessened by a corkscrew curl over each ear, Miss Powers did the honors nobly.

Classes in arithmetic and spelling were held for the older scholars of the school and the younger members recited their a, b, c's. It is impossible to tell all the nonsense which kept the participants convulsed with laughter. The bad boy of the school, Miss Selma Bachrach, created quite a diversion by "coming in late."

Miss Pearl Wilson, as Miss Gladys Walton's little brother made one of the hits of the evening when she appeared in her little red and white suit and sailor hat.

In the afternoon, school opened with a talk by "the expert from Washington," who, in academic life is Dean Robinson. The women of the faculty were given some particularly sapient advice by the expert, upon the wisdom of eliminating work from their everyday life.

"Free Love" and "True Love," the inseparable twins who spoke when they were spoken to and when they were not, were Miss Brady and Miss Butterworth. Their recitations, always in concert, were very clever.

Altogether, everyone had a most enjoyable time. After school was over, refreshments were served and then, owing to the lateness of the hour, the party broke up.

The Y. W. C. A. Organize

At 1.30 last Sunday evening the Y. W. C. A. held its usual weekly meeting. Miss Hilda Stevens led the services. Miss Evans sang a solo. The topic of the evening was "What We Are."

The duties of the committee of religious meetings, Bible study, missionary work, social service, finance, information and membership were explained respectively by Miss Jones, Miss Kern, Miss Wright, Miss Shunder, Miss Wilson, Miss Smith and Miss Houston.

This week the campaign for new members will begin, and the freshmen are being invited to join the Association.

Dues Day

Wednesday, October 4, was Dues Day at the Women's College. According to most reports some of the girls thought the day like its name suspiciously resembled Doooms Day. Nevertheless the results were very satisfactory. The booths representing the different associations and societies of the college were decorated and arranged in the basement. Altogether about two hundred dollars was taken in.

Thursday, Dr. Mitchell spoke in chapel. He began his talk to the girls by telling them how interested outsiders were in the college. As an example he mentioned a working man who helped buy the flag which the Jr. O. U. A. M. presented to the College and who looked toward the college each day to see if the flag was still floating.

"Your attitude toward change," said Dr. Mitchell, "determines what you are. If you resist change, it stunts you, but if you accept it as

an opportunity for bigger and better things, you are strengthened. Changes are taking place daily in our college life, for the Women's College of Delaware is still in the plastic stage, and we who have a chance to mould its future should be better prepared to meet the world than those who go to a college where traditions are fixed. The place of woman in the world is changing also. The college girl of today has far different duties and privileges than her mother had. The time is surely coming when women will vote, not merely cast a ballot, but have great influence in public affairs. In college girls are fitted to take their place in the world.

Finally the war in Europe will make wonderful changes. After peace comes, there will be almost a new earth, with all old things passed away and all things made new. The leaders of that time will have to be strong, well educated people, full of sympathy and understanding. It is to the college women of tomorrow that the world will look for the solution of its problems."

Last Saturday morning Miss Smythe and Miss Mather of Wilmington, two friends of the Women's College, were present at chapel.

LOCALS

When Morris Mitchell met Prof. Bernhardt for the first time he mistook the new prof for a Freshman. As long as Mitchell kept this thought to himself it was all right. But he saw a good chance to make a pun on the name Bernhardt, and as soon as he opened his mouth he put his foot in it. (Figure of speech, it really couldn't be done.) When the new prof said, "I am Prof. Bernhardt, come to give you a re-exam in elementary German," Mitchell wanted to climb a tree and pull it up after him.

W. C. D. Notes of last week made the statement that the absence of the stronger sex "did not detract from universal enjoyment of the occasion." We wonder if the girls thought the boys couldn't have enjoyed the performance also.

Did you notice the matter-of-fact way in which Steele said he would have a special car put on the 1.02 Saturday for the P. M. C. trip? If he has so much pull with the B. & O. why shouldn't he use his influence to have them put an extra train on for the benefit of the day-break commuters?

Crockett: "Do you want a good Cymbal player?"

Sumwalt: "Yes, What do you know about music?"

Crockett: "Music of Apartment Houses."

Sumwalt: "How's that?"

"Crockett: "Music in 'Flats'."

(Padded Cell Stuff)

Prof.: "What's a watt?"

A—: "What's a watt?"

Prof.: "Yes, a watt; what's a watt?"

A—: "Why, what—what—?"

Prof.: "You'll find out what's a watt."

Sergeant Frazier's watch is not satisfied with being up-to-date, but is generally ahead of the times. This explains the vacant seats in chapel.

We don't need to say anything about Beauchamp's socks. The pair he wore last Wednesday spoke for themselves. They belonged to Jones, Jr., but threw him when he first wore them. Consequently, Beech volunteered to break them in for him.

George Kalmy started to learn the powder business this summer. For three weeks he made powder at Carney's, now he's down in Mexico shooting it off. He hopes in this way to learn all the phases of the industry.

Notice

Attention is directed to the course in education which will be offered the second semester. This course will be concerned with methods of teaching the various high school subjects, and will thus prepare those taking it for teaching in high schools. Juniors and seniors may elect the course, and any information concerning it will be gladly given by Prof. Counts.

To Organize A Chess And Checker Club

A meeting of all those interested in chess or checkers will be held on Thursday evening, Oct. 12, at 7.30 p. m. in Purnell Hall. Members of the faculty as well as the student body, who are interested in either of these two games are urged to be present. The object of the meeting is to organize into a club, those men who are interested in these sports in order that teams may be developed later on in the year. It is hoped that by mutual advice and instruction a team of some merit may later be picked to compete with those of other colleges.

No matter whether you are a "shark" or not, come out Thursday at 7.30. And if you have a board and men, bring them with you 7.30, All Out.

Freshmen Elect Track Captain

The Freshman Class have elected "Tom" McDonnell, holder of Frazer Field pole-vault record, captain of the team which they will send against the Sophomores in the track meet Oct. 2.

Small Town Stuff

BY WILL MINGTON

It was great fun
With twenty-one
While P. M. C. took nought.
It did us good
(But let's touch wood)
To see how our men fought.

"Lew" Plam pulled in M I II about five minutes late Saturday with the remark, "Excuse me for being late, Professor, but my car broke down." Who ever saw "Lew" in an auto anyway.

"Why do all the students wear soft shirts and collars here?" asked the inquisitive visitor.

"Probably to distinguish them from the assistant professors," answered the "Stude."

"Baron" Francis O'Rourke was seen in the vicinity of Third and Market streets in Wilmington last Thursday. The "Baron" says he imagined the shows at the Lyric should be real judging from the pretty pictures outside.

No matter how the election goes the winning candidate won't be the next president of the United States. We bet 10 to 1 on Secretary Lansing for the honor—for a little over twenty-four hours.

WANTED—Second-hand baker on bread and cakes. Miller's Bakery, Sixth and Madison streets, Wilmington, E. E.

Might have added "Must be in good working condition."

From the looks of things now we should see some pretty bon fires before long. Wonder how the Freshman Class is at chopping wood anyway.

Well, Western Maryland next. Let's trounce them good.

So long,
Bill.

The Engineers' Society

The Engineers' Society held an interesting meeting last Tuesday evening. Beauchamp read an article from "Engineering News" on "Successful Sewage Disposal by Broad Irrigation," which told of the method used by San Antonio, Texas, for many years. He then told us about a summer's experience in Civil Engineering work, and advised all who possibly could to spend their summer vacation doing practical work along their line of study. He said that a fellow should not expect to be running a transit the very first day, just because he is a college student. If he is told to drive stakes, he should not consider the work beneath him, but should go right to work, and show his employer what he is made of. He won't be driving stakes long.

After Beauchamp's talk Dean Cullimore commended the Society on its work, and said that he considered it without exception the most important thing in the life of the Engineering student. He hoped that at the next meeting he would see every Engineering student in College present. He assured us that we have the heartiest support of the Faculty without their interference.

We are going to make the keynote Dean Cullimore sounded our slogan for every open meeting.—
EVERY ENGINEER PRESENT

Delaware Crushes P. M. C.

(continued from page 1)

son for a loss. End of period: Delaware, 14; P. M. C., 0.

Fourth Period

Sigel was nailed by Johnson after he had made a six-yard gain around right end. Campuzzano

tore through the center of the line for ten yards. Campuzzano was hurt on this play, but resumed his position after a rest. After Harte made six yards through left tackle, P. M. C. fumbled and then unsuccessfully tried a forward pass. Delaware took the ball on downs. Selby gained three yards, Loose failed to gain. A forward pass, Weldin to Clancy, gained 25 yards. Selby and Loose made a first down. Weldin failed to gain. Selby gained ten yards around right end. Coach McAvoy sent in practically the entire scrub team into play after Loose went over for a third touchdown. Wilson kicked the goal. With two minutes to play, Delaware kicked off. Wilson downed Harte. The Delaware line held on the next two plays. A forward pass failed. Sigel gained twelve yards. Sigel gained twenty yards more and Beauchamp dropped him as the period ended.

Score: Delaware, 21; P. M. C., 0.

Line-up:
Delaware P. M. C.
Fitzpatrick... I. e. ...Horbacher

Johnson..... I. t. Peters
Lauritsen.... I. g. Hoyt

Your Glasses Were Fitted When?

If your eyes have not been examined within the past two years they should be looked after now; particularly if you have suffered from a severe illness.

Improper lenses can prove harmful not only to your eyes but to your health as well.

In all Delaware there is no better optical service than ours.

Let us test your eyes and prove it to you.
