Newark's Oldest Woman Dies

Mrs. Nancy C. Law Expired Thursday. Would Have Been 100 Next August

Newark's Oldest—11-24-26 HG
Mrs. Nancy Crow Law, one of the oldest women in Delaware, died at the home of her daughter, Mrs. John Anderson, near Newark, Thursday. Mrs. Law was within less than a year of the century mark, having been born in August, 1827. She had been in failing health for some time but was able to get about until only a short time ago.

Mrs. Law was, without doubt, the oldest resident in this community. She celebrated her ninety-ninth birthday last August.

Mrs. Law was born in Ireland and came to this country with her parents when a young girl. She married James Law who for half a century was a farmer near Appleton, Md., and later was sexton of Head of Christiana Church for a number of years. He died about 18 years ago. Mrs. Law had made her home with her children since her husband's death.

She is survived by three children, Mrs. Anderson, George Law, of Newark, and John Law, of Appleton, Md., seven grandchildren and three great grandchildren. The funeral was held Sunday afternoon from Mrs. Anderson's home and interment was in Head of Christiana Cemetery.

Alumni vs High School Saturday at 2:30

Saturday afternoon, at 2:30, and probably on the High School gridiron, the Newark football rooters will have an opportunity to compare the old with the new. The alumni team, composed of old-time High School football stars, will play the High School varsity.

Johnny Mayer, who was star full-back the first time Newark won the D. I. A. A. crown, is handling the alumni team and promises to put a glittering galaxy on the field. Among those scheduled to play are: Phil Corning, Jack Jaquette, the Manns brothers, John Cunningham, Martin Doordan, Corbit Crompton, Bill Rupp, Floyd Hubert, John McCue, Malcolm Armstrong, Bill Armstrong, and Roy Stephan. A number of these men have been playing with high powered teams this fall and the High School will find some hardy competition. Last year the game was hard and close, 7 to 0 in favor of the High School.

AGED MAN DIES SUDDENLY

Albert Hambright, of 1007 West Eighth street, Wilmington, died suddenly early yesterday evening at the home of James Jackson, near Ebenezer Church. Mr. Hambright, who was 72 years of age, came to the Jackson farm yesterday to gun for rabbits. He had been out for about an hour, when he was seized with a heart attack and lay down in the field. Mr. Jackson was attracted to the spot by the excited barking of the dogs. He carried the stricken man to the house. Dr. G. Burton Pearson was summoned at five o'clock and every attention given, but death came before six o'clock.

A brother, Howard Hambright, with whom the deceased made his home in Wilmington, was staying at the Jackson home at the time of his other's death.

ROBERT C. LEVINS CHOSEN DIRECTOR

At a recent directors' meeting of the Newark Trust Company, Robert C. Levins, of Curtis and Bro., was elected a director.

The Chamber of Commerce automobile tags boosting Newark have been delivered and may be had from Warren Singles, Secretary of the Chamber at the Newark Trust company.

Chemical Club Visits Pyrites Plant

Last Thursday afternoon, the members of the Wolf Chemical Club, composed of students in chemical engineering at the University, paid a visit of inspection to the plant of Pyrites Company in Wilmington. The week before, through the courtesy of Mr. Ryan and Mr. Stuart, of the Bancroft Company, the club was taken through the Bancroft Mills, where the various processes were explained to them.

David Chalfant, president of Wolf Club last year, and now with the Pyrites Company, accompanied the students on their tour of inspection Thursday. Among other interesting processes, they saw how sulphuric acid was made, commercially.

At the last meeting of the club the following officers were elected: James M. Maddox, president; A. D. Vincent, vice-president; J. C. Creadick, secretary and treasurer. Dr. Eastman is faculty advisor for the club.

Thief Takes Cash From Dickey Home

Entered At Dusk Wednesday By One Familiar With Family Habits

Last Wednesday afternoon, the home of J. Harvey Dickey was entered, sometime between 5 and 6, and robbed of \$18 in cash. Apparently the thief was not only familiar with the family habits, but also with the layout of the house. Mrs. Dickey discovered the robbery when she returned home at 6 o'clock. She discovered a closet ransacked and the pockets of Mr. Dickey's suits turned out and then one drawer in a dresser upset and the money taken. It has been Mr. Dickey's habit to keep money in that particular drawer and that was the only one touched. Valuable jewelry lying in open sight in the drawer was not disturbed, nor was the silver in the dining-room touched. Burnt matches were dropped throughout the house indicating that the entry took place after dark.

A window in the kitchen had been forced open by the thief and persons were working in sight of that window up to 5 o'clock. Whoever committed the robbery must have known that Mr. Dickey was absent in Wilmington, where he was presiding at the Odd Fellows' Grand Communication, and that Mrs. Dickey returned from Kells late on Wednesday evenings. The fact that valuable jewelry and silverware were not taken indicates that it was an amateur, who dared not risk stealing anything he would have to dispose of. The local authorities are working on the case.

LOCAL GIRLS WIN GOLDEY AWARDS

The girls outnumbered the boys in typewriting awards at Goldey College for the past month as announced by William E. Douglas, president of the college. Two local girls won prizes in the contest. Naomi Reilly was awarded a Goldey certificate for making the greatest improvement in typing during the month. She wrote 40 words net or better a minute at the end of 14 weeks' instruction. A cash prize was presented to Miss Elma Robinson, who attained a net speed of 34 words a minute on a five minute test, after 10 weeks' instruction.

VISITING NURSE SERVICE

Beginning December 1, the Equitable Life Insurance Company, of Washington, D. C., will extend to the Newark Visiting Nurse Committee the same service that is now being given by the Metropolitan Life Insurance Company. This service entitles the policy-holders in the company to the services of the visiting nurse, payment for visits to be made by the company.

ON GUNNING TRIPS

Dr. Walter Hullahen and George L. Townsend, Jr., will leave tomorrow for Hallowing Point, Virginia, where they will spend a few days gunning.

H. W. McNeal and Ernest Wright will leave on Sunday for four days' gunning at Machipongo, Virginia.

B. F. Proud and W. N. Wright will return on Thanksgiving Day from a gunning trip at Machipongo, Virginia.

Proclamation

By the Governor

WHEREAS, An All-Wise Providence has, in His Wisdom and Goodness prospered our state and nation; blessed the labors of all the people and given unto them the fruits of the earth in their season. For all the blessings of food and raiment for our personal needs, for protection against the enemies, and for the honorable place given us among the nations and states, we, as American citizens, do continually send up our prayers of Thanksgiving and Praise to the Bountiful Giver, and

WHEREAS, In giving thanks for our annual blessings, our indebtedness to the outstanding years of our history should not be overlooked and in this day of days, set apart for the giving of thanks to Almighty God for His Divine Goodness, surely the flag, the emblem of freedom and opportunity, should be prominently displayed as evidence of our remembrance and gratitude.

NOW, THEREFORE, In accordance with the proclamation of the President of the United States, I, Robert P. Robinson, Governor of the State of Delaware, do designate Thursday, November Twenty-fifth as Thanksgiving Day and do call upon the people of our state to lay aside their usual duties and take time to give thanks unto Almighty God for his many blessings and ask for strength to meet the problems of the coming year.

IN TESTIMONY WHEREOF, I, Robert P. Robinson, Governor of the State of Delaware, have hereunto set my hand and caused the great seal to be affixed at Dover this fifth day of November, in the year of our Lord, one thousand nine hundred and twenty-six, and in the year of the independence of the United States of American, the one hundred and fifty-first.

ROBERT P. ROBINSON.

Struck by Hit and Run Driver

Sunday evening, about six o'clock, on the Elkton-Newark road, near West Amwell Chapel, James Cann, of Elk Mills, was struck by a passing motorist who left him lying by the roadside and speeded on. Several cars stopped on seeing the man lying near the road, and Ralph Bryson and "Shorty" Miller, of Newark, picked him up and took him to the Union Hospital, Elkton.

Cann was unconscious and it was first thought he had a fracture of the skull. He is still in the hospital, but is showing steady improvement. Just before Cann was found, a Hudson coach with a Delaware license, went up the road, traveling at a high rate of speed. It is thought that this is the car that struck him.

RED CROSS

Mrs. J. O. G. Duffy and Miss Jane Maxwell, who, with the assistance of local helpers, conducted the campaign for membership for the Red Cross here last week, have not a complete report for this week's issue of The Post. Miss Elsie Cooch, now of Ashland, Pennsylvania, loyal to her home town, has sent to the local committee a generous check, and it is hoped that other Newark people whose work has called them to other towns, will follow Miss Cooch's example. Any one who has not been solicited may yet send a check or money to Miss Jane Maxwell, Newark, Delaware.

DR. ADAMS HORTICULTURAL SECRETARY

At the final session of the annual meeting of the Peninsula Horticultural Society, held in Dover last week, Dr. J. H. Adams, of Delaware University, was chosen secretary to succeed Professor Wesley Webb, of Dover, who has held that office during the history of the society, 40 years. Professor Webb has held the combined offices of secretary and treasurer, but at this meeting it was decided to separate the two. Much of the credit for the growth of the society has been due to Professor Webb's untiring and efficient work.

ATTENDED DINNER TO VISITING NURSES

A number of local people attended the dinner given last evening at the Hotel du Pont, given by Vincent Saccardi, resident manager of the Metropolitan Life Insurance Company to the Visiting Nurse Association. Those from Newark who were guests were: Dr. Johnson, Miss Alice Leak, Samuel Turner and Harold Wivel.

LAST CALL FOR OLD LICENSE NUMBERS

November 30 is the last date on which applications can be received for last year's automobile registration numbers. This year an extra fee of one dollar will be added for the privilege of retaining the same number. Those wanting this privilege should apply to Squire Thompson for application blanks.

University Trustees Met Yesterday

Dr. Hullahen Reports Enrollment of 700, Announces Gifts. Two New Trustees Elected

The Board of Trustees of the University of Delaware held a business meeting yesterday in the Lounge Room of Old College, and later had luncheon in the new dining room at the Women's College.

At the business meeting, two new trustees were unanimously elected to fill vacancies from Kent and Sussex counties; one of these Harold Horsey, of Dover, who fills the Kent vacancy, was the nominee of the Alumni Association. Dr. S. M. D. Marshall, of Milford, who happens to be an alumnus of Delaware, was chosen to fill the Sussex vacancy. He was nominated by the board.

President Hullahen, in his report to the Trustees, said that the present enrollment at the University, including Delaware College and the Women's College, was 700 students, the largest in the history of the institution. Dr. Hullahen also announced a number of gifts.

Commenting on the statistics or registration in the University, Dr. Hullahen in his report says:

"The registration for the session of 1926-27, 700, happily for the efficiency of our work, does not show so great an increase as that of last year. The increase this year is at present only 32 as compared with an increase of 108 last year over the registration of the previous year. In estimating the effect of increase in numbers, however, we should, of course, consider the biennium, since the legislative appropriations are made biennially and it is necessary to provide teachers for two years on the appropriations made by each Legislature.

"It will be noted that, without taking into account the students who may be admitted later in this session, our increase for the current biennium has been 140. The total number of students registered in 1924-25, when the last General Assembly met, was 560. This year it is 700. The increase for the biennium, therefore, was 25 per cent, or an average of 12½ per cent per year. This increase has been so much larger than was anticipated that it will be necessary to ask for a slightly increased teaching budget from the Legislature this year in order to provide an adequate teaching staff for this greater number of students. It is estimated, however, that an addition of perhaps three instructors for the coming biennium, for any considerable increase in numbers at the Women's College will be prevented for the present by lack of dormitory accommodations and the increase at Delaware College has for a number of years been very gradual, not exceeding an average of four or five per cent per annum.

"It was pointed out to the Finance Committee of the last General Assembly that a few additional instructors will inevitably be needed each biennium as long as the number of students continues to grow significantly; a conclusion so obvious that it was, and probably never will be, called in question, unless the number of students should become so great at any time that our budget would be felt to be out of proportion to the financial capacity of the State.

New Buildings

"The new buildings at the Women's College, the dining-room and kitchen building and the dormitory, New Castle Hall, have at last been finished, after many difficulties, obstacles, and vicissitudes, particularly in the case of New Castle, which has only just been finished.

"The new dining-hall, erected by the Service Citizens who contributed more than half of its cost, was delayed in completion by strikes and labor troubles in certain of the manufacturing plants supplying some of the building materials; but it was ready for use and occupancy the first week of the session.

"The new dormitory, New Castle Hall, suffered more than the dining-hall from difficulty in securing materials and labor. Work on it had to be suspended almost entirely at one time for nearly six weeks because of a delay in the delivery of marble for the doors. A further delay occurred in the delivery of the roofing slate and just at the opening of the session in the stone needed for the bath-rooms.

"The new dormitory provides rooms for 65 girls and a suite of two rooms and bath for the warden, or head, of the hall and has a commodious living-room, or parlor, similar to the living-room in Sussex. The dining-room has a capacity of 375, a number which is not likely to be reached in resident students for several years to come. Moreover the construction and location of the kitchens is such that wings can be added to the dining-halls, as they are needed to accommodate possibly 200 more persons to be served from the same kitchens. It is comforting to us to feel that at least in one department we can face the next decade or two with confidence that we

shall be able to meet every demand put upon us.

Gifts To University

"To meet an urgent need in the department of physics, Lamont du Pont shortly before the opening of the session made a gift of \$2,000 to enable Dr. Paine to make provision for an advanced course in physics this session. Mr. du Pont also sent his check for \$800, and promised the same amount (\$800) each year for four more years, to be devoted to the interests of research in the same department. This generous gift will not only make possible a course in physics, needed and desired by several talented students, but will also permit Dr. Paine to continue, to the extent permitted by his present duties, his investigations in aerodynamics, the field with which his recently published Harvard studies were concerned.

Clubrooms At Women's College

"At the Women's College the completion of the new dining-hall has made available for a Faculty Club or social room the basement of Residence Hall, formerly used as the dining-room. The need has long been felt of some place to which the resident members of the Women's College faculty, who are on duty 24 hours a day in their capacity as chaperons and counselors of the students, might retire for brief periods of rest and relaxation. The basement was not perhaps an ideal place for the purpose but was hailed as highly satisfactory, compared with no place at all. There was, however, no money available with which to furnish it and Dean Robinson let it be known that the need was an urgent one and invited the assistance of any who might be interested. In response to her appeal several fine gifts were received which will enable her to furnish the rooms nicely.

"Mrs. William P. Bancroft made a donation of \$1,000; Mrs. Henry P. Scott gave \$500; and Mrs. A. D. Warner and Mrs. H. R. Sharp made presents of rugs and furniture.

"Miss Alice P. Smyth, one of the original donors of the Browning Room at the Women's College, has made a valued donation in bearing the expense of having all the furniture in this room put in perfect repair and in replacing books that have been worn out during the 12 years in which the Browning Room has been in use."

Summer School

Professor Wilkinson, head of the School of Education and director of the Summer School, makes the following report on the Summer School of 1926:

"The enrollment in the summer session of 1926 was 291, approximately (Continued on Page 4.)

Lodge Notes

The degree team of Calantha Lodge, No. 23, Knights of Pythias, from Wilmington, will confer the Rank of Page on a class of candidates for Osceola Lodge, No. 5, at Newark, on Monday evening, November 29. The meeting will call at 7:30 at Fraternal Hall. All members of Osceola are requested to be present, and all visitors will be welcomed.

M. E. CHRISTMAS PARTIES

The Primary and Beginners' Christmas program and treat will be given at 7:30 p. m. on Tuesday, December 21.

The main Christmas entertainment will be given Thursday evening, December 23, at 7:30. The first part of the program will consist of reports and collection of White Gifts for the King. As the Sunday School is aiding the Building Fund of the church, an effort is being made to raise five hundred dollars as a Christmas gift for that fund. The superintendent, E. F. Dawson, reports that one class has already more than twenty-five dollars and that the Cradle Roll has reported and turned in nearly sixty-five dollars, and he urges that all the members report their pledges soon, either to the teachers or to the pastor.

AMBULANCE BUSY FRIDAY

Just after the ambulance had returned from Wilmington last Friday, bringing home Mr. Burras; another call came in to take Mrs. Gilbert Wright, colored, living on Corbit street, to the Homeopathic Hospital, Wilmington. William Clancy was the driver on both trips.

A. G. WILKINSON HONORED BY KIWANIS

Mr. A. G. Wilkinson, business administrator of the University, has been nominated for the office of vice-president of the Wilmington Kiwanis Club, election to take place December 1st.

A MESSAGE FOR YOU ABOUT YOUR SCHOOLS

PREPARED BY THE JOINT
EDUCATIONAL COMMITTEE

There are two indispensable things in every good school: good teachers and satisfactory equipment. How does Delaware stand on these two points? The Joint Educational Committee has gone to official records for the facts.

First concerning the teachers. The teacher that is rated as "First Grade" in Delaware has had a four-year high school course, and two years in a normal or teacher-training department. It is generally agreed that it is useless to hope to see the widespread adoption of modern methods in the school rooms with anything less than these qualifications on the part of the teachers. In the entire State, including Wilmington and the Special Districts, less than one-half of the teachers hold first grade certificates; in the open country, only one out of every three, holds a first grade certificate. The lack of a teacher-training school in the State, until recently, lower salaries than are paid in the adjoining states of Maryland and New Jersey, poor buildings and equipment with which to work, are causes contributing largely to the unsatisfactory situation.

The good teacher is in demand the country over. Delaware will get them only when she provides conditions which will attract good teachers.

Second, concerning buildings. No building can be called good which does not guarantee to every child an arrangement of windows which prevents cross-lights; a heating system which makes possible an even temperature in the room; wash rooms in which sanitary conditions prevail as do safeguard health; adequate protection from fire; and a generous supply of properly protected drinking water, for his health's sake; or class rooms which allow not for listening only, but also for action; an opportunity for practice in common good enterprises, necessary for the development of a citizen in a democracy.

Fifty per cent of Delaware's schools fall short of the mark. Fully one-half of all the children in Delaware, it is known, are being sent to school in buildings which not only make impossible any modern educational practice, but endanger as well, their health and personal safety.

According to the standards cited, only one-fourth of the children in the City of Wilmington, are in satisfactory school buildings. One-half will be provided for when the program now financed and under way is completed.

Approximately 25,000 children are enrolled in the State outside of Wilmington. 1157 of these are going to school in rented rooms; 776 in temporary class rooms. 11,602 are housed in buildings that score less than 500 points out of a possible 1000. In some instances the buildings represent something less than adequate shelter from the weather.

The State of Delaware, therefore, is in urgent need of class rooms for approximately 14,000 children outside of Wilmington, and for 7,500 children in Wilmington. On the basis of 35 children per class room, this represents an immediate need for 614 class rooms.

Delaware has adopted a state-wide school system. The State is derelict in its duty if it fails to provide satisfactory school buildings.

DR. BUTLER ON EDUCATION
We stop education too soon and too suddenly. In every civilization you will find men and women who go on learning and growing as personalities till they die.

We shall have to recognize that our universities, our colleges and our schools leave education unfinished. There must be constant and continuous home study. We need to train our people in the use of the public library, and we need to inspire them to develop libraries in their own homes. The habit of reading and the ability to enjoy a good book must be fostered among those who at present have left their education behind. — Nicholas Murray Butler.

Marvelous Eruption Shots in "Volcano!"

Portraying for the screen an eruption of Mount La Pelee on the French West Indian island of Martinique, which destroyed the city of St. Pierre and wiped out 28,000 lives, is the huge undertaking which was accomplished during the filming of "Volcano!" William K. Howard's new dramatic production for Paramount, which comes to the Opera House on Thursday.

Many months of planning by the group of wizards, who evolve the magical effects for such of Paramount's pictures as "Peter Pan" preceded the actual photographing of these scenes by Lucien Andriot and his corps of assistants. More than two hundred thousand feet of lumber and several hundred tons of bricks, stones, cement and plaster were used in constructing the buildings later destroyed to provide the earthquake and volcano effects.

HOUSEHOLD HELPS

Here's a choice of menus for Thanksgiving dinner depending on the size of your family: fruit cup, then roast stuffed turkey, candied sweet potatoes, cranberry sauce, broiled fresh tomatoes, individual pumpkin tarts, with cherries on top, coffee with or after the meal. Grapefruit with candied cranberries in the center, baked stuffed chicken, rice, brussels sprouts or five-minute cabbage, grape jelly, cranberry ice, frosted cup cakes, cider. Have a salad after the main course instead of a fruit course first, if you prefer. You don't need both. Lettuce with Russian dressing is good.

Winter Desserts

Dried fruit shortcakes make good winter desserts. Prunes, figs, dates, raisins, apricots, and peaches may be used in this way. Stew the fruit, sweeten to taste, removing any pits,

University Is Host To Boys

202 High School Agricultural Students Spent Saturday at Newark

The Agricultural Club of the University of Delaware was host on Saturday to 202 vocational agricultural students enrolled in the high schools of the State. The "young farmers," with their teachers arrived at the College Farm at 10.30 in the morning when the program was scheduled to start. On account of the large number, the boys were divided into four groups of fifty boys each and with a Senior agricultural student in charge of each group, the excursions to the Agronomy plots, Horticultural experiments, Poultry Plant and Swine experiments, were made. Messrs. Runk, Detjen, Mumford, and Tomhave of the University staff explained the outstanding accomplishments in the various fields.

The noon-day program was held in Wolf Hall and was in charge of Earle Meredith, President of the "Ag" Club of the University. The speakers were Dr. Hullahen, President of the University; Professor George Schuster, who brought greetings from Dean McCue who was unable to be present on account of illness; Dr. H. V. Holloway, State Superintendent of Public Instruction, and Professor R. W. Heim, State Director of Vocational Education. Hot cocoa and apples were served by the "Ag" Club of the University during the lunch hour which followed.

Through the efforts of Dr. Eastman, President of the Athletic Council, each boy was given a free pass to Joe Frazer Field in the afternoon to witness the Haverford-Delaware football game.

This is the second time that the Agricultural Club of the University of Delaware has invited the high school agricultural students to spend a day at the University. The first invitation was extended in 1922 when 222 high school boys visited the College Farm. Of the group who visited Newark in 1922, eighteen of them are now enrolled in the Agricultural College of the University of Delaware. Another interesting fact is that 86

Dies From Injuries Received In Fall

Stanley Yeamans Victim Of Motor- cycle Accident

His skull crushed on the night of Sunday, November 14, when he was thrown from a motorcycle along the highway between Elkton and North East, Stanley Yeamans, aged 19 years, of North East, died Sunday night in the Union Hospital, in Elkton. He never regained consciousness from the time he was picked up until he succumbed to his injuries. An operation was performed last Thursday in the hope that the pressure on his brain would be relieved, but it was not successful.

Yeamans was learning to ride the motorcycle and started north Sunday night. It is supposed after the machine started to speed he became excited and was unable to stop or check its speed. It skidded on the wet concrete and threw him off, his head striking the hard roadbed and crushing his skull. He was unconscious when picked up and never revived.

Yeamans was the brother of Edwin Franklin Yeamans, the young taxi driver who was murdered along the old Cedar road near Elk Mills last January. His body was found later when boys discovered his feet sticking through the ice that covered a pool of water in a thicket.

Yeamans was the son of Mrs. Anna Yeamans of North East. Two sisters and a half brother survive him.

Appleton

On Thursday evening, December 2, the Fourth District Auxiliary of Union Hospital will hold a sock social and bake at the Women's Club Room, Coventown, Md. If stormy the social will be held the next evening. Proceeds for benefit of the Hospital.

The Willing Workers of Flint Hill M. E. Church met with Mrs. H. R. Smith on Thursday, November 18.

Armored Car for This Section

At a meeting of the Wilmington Chamber of Commerce, held Monday, it was announced that on November 24, the Nagle Detective Agency of Wilmington, would put in service an armored car to serve banks and business establishments in this section.

This car, of the latest design and mounted on a Dodge chassis, will repel a 45 calibre bullet fired at close range. The cab will be enclosed with bullet-proof glass. Besides the driver it will be manned by three guards, armed with revolvers and shot guns, and loop holes have been placed at strategic points in the car to aid in resisting a surrounding force of bandits. The guards will be equipped with gas masks and will probably carry gas bombs in the car. This service for the transportation of valuables may be engaged on contract or by the trip.

PLEASANT VALLEY SCHOOL NEWS

The monthly meeting of the Pleasant Valley School Parent-Teacher Association was held Thursday evening, November 18.

The meeting was called to order by the president, Mrs. Schwartz, and opened by singing the State P-T. A. Song. During the business discussion it was decided to buy ten new single desks. The president gave a talk on illiteracy, asking that a canvass be made of the district to find such cases as might exist.

After the business meeting, a program was given by the children. Those taking part were:

Ruth Peel, Mae Miller, Walter and Carl Wilkman, Samuel and Roland Stewart, Archie and Joseph Peel, Edwin Ketola.

Thirty-one people joined the Association and many more are expected to join. The social committee had pie and ice cream to sell. The meeting adjourned to meet December 16.

All the wild ideas of unbalanced agitators the world over in their ignorance and pitiable quest for happiness through revolution, confiscation of property, and crime, cannot overthrow the eternal truth that the one route to happiness through property or government is over the broad and open highway of service. And service always means industry, thrift, respect for authority, and recognition of the rights of others.—W. G. Sibley.

Thanksgiving

(An editorial written by Everett C. Johnson, and printed in The Newark
Post, November 25, 1925.)

Thanksgiving is a point of view, an attitude of mind. To interpret it in its fullness means more than mere appreciation of Facts; it implies the power of analysis and insight. It is not simply a Day set aside by official Proclamation, nor a holiday, nor for mere presence in the pew; it is a day of History full of tradition and romance, a day of gratitude for the blessings of yesterday and faith in tomorrow.

Its observance is a matter of thought and temperament. Some go afield with dog and gun, others atramping in the wood of the Great Outdoor, still others to the altar of their church—or around the fireside glow with homecoming kin.

All of these are worthy and expressive only of individual trend of thought and the day.

This morning with increasingly overhanging clouds, dull outlinings of trees in the distance and then the Snow—that delightful messenger of Winter with visions of Christmas and cold evenings—glowing logs and evening lamps make Thanksgiving today so impressive. With all the rush and speed, the worries and strains, the deceptions and disillusion, the misinterpretations and thrusts of enemies of the year, we are thankful. For they have challenged us, spurred us on and brought us nearer Realization and its Truth. And, too, with these have come the joy of work and at times the thrill of accomplishment. There have come quiet moments, cheering moments, grim determination. Best of all there has come a truer conception of men with their motives, and Facts with their secret forces. Our sight dimmed a bit more but insight clearer.

Gratitude guards always against Ingratitude and Success always crowns Disappointment—if viewed aright.

Thanksgiving—yes it is ours. Kells and our work and our lives are approaching yesterday's Dreams and our Trust in its fullness is just Beyond. The Past has been a delightful experience—the Future, an Adventure that thrills.

There is Work ahead. And there is Joy and Thanksgiving in Work. "Blessed is the man who has found his work." Ideas and Thanksgiving call and lead us on.

Thus our Thanksgiving and our best cheer to all who love work and men.

INDOOR SUNDAY SCHOOL PICNICS

A series of jolly indoor picnics have been given by the Methodist Sunday School during the past two months. The first of the series was arranged for the Juniors and was attended by fifty-five pupils, who spent a noisy, happy evening in indoor games. Later fifty members of the Intermediate group had their picnic with games and eats. As one boy expressed it, he had "enjoyed the whole of the evening, except the lemonade, which was sour." The picnic given one afternoon after school for the primary and beginners' department was largely attended. About forty attended the senior frolic last Thursday, which the old folks and teachers enjoyed as much as the young people.

These programs were under the direction of G. F. Gray and Dr. T. F. Manns, assisted by the teachers of the various classes. The primary and beginners' programs were under the direction of Mrs. G. M. Phipps and Mrs. John W. Moore.

Quite a bit of the enjoyment of these parties was due to the generous treats of apples by Dr. Manns.

UNION THANKSGIVING SERVICE

The union Thanksgiving service of the Presbyterian, Methodist and Episcopal Churches of the town will be held in the Presbyterian Church this evening, Wednesday, at 8 o'clock. Reverend Frank Herson will preach the sermon. Reverend Dr. Mathews will assist in the service.

SERVICES AT ST. THOMAS' THURSDAY

The Thanksgiving service of St. Thomas Protestant Episcopal Church will be held on Thursday at 10.30 a. m. The offering at this service will be taken for the Babies' Hospital, in Wilmington.

Revival Services at Glasgow

Revival Services at Glasgow Presbyterian Church began last Sunday and will continue every evening until after next Sunday. Reverend Honeyman is conducting the services. Mr. and Mrs. Harry W. Davis are directing the music.

5-A GRADE PROGRAM

The Literary Society of the 5-A grade of the local public school yesterday afternoon gave an interesting Thanksgiving program. The exercises were held in the gymnasium of High School and they had as guests the pupils of the 4-B, 5-B, 6-B grades. The teachers of the classes and many of the parents attended the exercises. The program given follows:

Piano selection, Helen Vansant; dramatic play by the pupils of the 5 room; song, "Swing the Shinnick Sickle," by the class; recitation, "I Give Thanks," Anna Coover; song by four girls, Caroline Johnston, Josephine Blake, Frances Brown and Eleanor Roberts; reading, "The Little Cook," Lillian Danby; song, "Do thy Teacher," by the class; reading, "Pray on My Plate Too," Coover; piano selection, Helen Vansant; reading, Emma Beck; song, "There is a Fat Turkey Out Grandmother's Farm," by the class; recitation, "Over the River and Through the Woods," Anna Smit; song, "Gobble, Gobble, Gobble," by the class; reading, "Thanksgiving," Marguerite Picé; piano selection, Donald Hahn; reading, Betty Wood; song, "Ten Little Cranberries," by 10 boys; song, "America." An exhibition of Indian articles was shown by Marguerite Picé.

During the exercises the roll of the class was called and each child responded with a few lines regarding Thanksgiving and its meaning.

The officers of the 5-A Literary Society are: President, Frances Brown; secretary, Eleanor Roberts; treasurer, Helen Vansant. Miss Wingate is the teacher of the class.

She had her "broad out," so she told the other elderly woman who waited with her for the train. She was "going in for the winter now; it didn't do for old folks to be gaddin' 'round in cold weather," she said.

But she had had a good time. John had taken her lots of places. They had gone to the Sesqui together, just she and John. Rosie couldn't go, on 'count of the children; then she had been before, anyways. It was good to have John to herself once. But Rosie was all right, though, a nice woman and good to her. They had asked her to stay all winter with them,

but she couldn't do that. "My home ain't much," she said, "but I'm used to it. It's nice to see the children, but it's good to get home again."

University Trustees

(Continued from Page 1.)

100 less than the high water mark of 1925. There are two explanations of this falling off in numbers:

"In the first place the State Department of Education was able last year for the first time to get enough teachers from outside of the state to take the places of those to whom only provisional certificates or permits had been issued. Holders of these permits were required, under the rules of the State Board, to attend the summer school and to take an examination each year. With their elimination, the number of teachers who were compelled to attend in order to be eligible to teach was diminished by approximately one hundred.

"In the second place the number of teachers who hold first grade certificates and are thereby exempt from compulsory attendance at summer school has been gradually increasing in recent years. This has been due largely to the out-put of the Teacher-Training Department of the Women's College, and in part to the fact that several teachers have been able through continuous attendance at summer school to raise their certificates to the first grade level.

"One of the noticeable trends in recent summer schools and one which was quite pronounced in the recent session, is found in the increased number of teachers who, having attained a first grade certificate, are now working definitely toward a college degree. This tendency is creating a demand for a larger number and wider range of regular college courses in the summer.

"The organization and administration of the work of the summer school along this line appears to be both desirable and feasible. It seems only right that Delaware teachers who are ambitious to earn a college degree should be given a chance in their own state university to utilize a portion of their summer vacation in working toward that end. Furthermore, as the demand for more elementary subjects grows less, funds will be released which may be used to offer additional college degree courses."

"The organization and administration of the work of the Summer School was carried out this summer with his usual commendable efficiency by Professor W. A. Wilkinson, as director, assisted by Miss Marion McKinney, as dean.

"The Delaware School Auxiliary of the Service Citizens again provided an interesting program of public lectures and entertainments which were much enjoyed both by the student body and the general public.

The Trustees attending were:

Mr. C. B. Evans, Mr. Messick, Mr. Biggs, Mr. Derby, Mr. Davis, Mr. Ridgely, Chancellor Curtis, Mr. Thompson, Mr. Frazer, Mr. Heald, Mr. E. A. Evans, Mr. Henry du Pont, Mr. Cannon, Mr. Newton, Dr. Grier, Mr. Williams, president of the State Board of Education, and Dr. Hulihan.

Delaware Mauled By Haverford

Blue And Gold, Outweighed, Outplayed, Go Down Fighting

Last Saturday afternoon at Frazer Field the University of Delaware lost its last football game for this season. A colorful and animated crowd of 4,000 watched the struggle. The animation was largely due to a raw damp wind that made some huddle in their blankets and robes, but most of them kept moving to keep warm. Plenty of coon-skin coats were in evidence, which made the scene very collegiate.

Apparently Friday night's parade and pep-fest was not entirely wasted for the Blue and Gold put up a sustained fight that knew no let-up. Haverford had the better team—they were probably 40 points better than Delaware, but, a desperate resistance kept the score to what it was. The Quaker boys were heavier throughout the line and backfield, and they played with well-oiled precision. Coach Harman, a portagee of Hugo Bezdek, had burly material to work with and had planned the type of play that suited them. They offset speed by smashing through the line to smear plays before they could start. Their offensive depended on straight football and their smashes at the line yielded yardage continually.

Things looked black for Delaware from the start. Boyer kicked off to Middleton, and Trip, in three plays, knifed the Delaware line for 35 yards. With the ball on Delaware's 30-yard line, Middleton and Trip made a first down in two plays. Then Trip made another 12 yards. Here, the Delaware line, with its hackles up, stopped three ponderous plunges without yielding an inch. On the fourth down Webster skirted right end, but Glasser tumbled him 2 feet from his objective. The University rooters sank back in relief, but it was short-lived. Creamer punted out of danger and on the first play Webster threw a long pass to Flint who took it to the 10-yard line. Webster then charged through tackle and made the distance. Trip kicked the extra point. Delaware made only one threatening gesture in this period, when Di Joseph cut through right end and eluded most of the secondary defense. He was almost clear, but a Haverford tackler made a desperate grab and brought him to the mat with a double wrist lock.

Haverford's second touchdown also came in the second period when Middleton, sheltered by perfect interference, made a long run for a score. The kick failed on this one. The crowd was treated to two tremendous kick-

offs by Morris, Haverford right tackle, in the first period. One sailed 70 yards and the other rolled nearly to the goal line before it was scooped up.

Although decisively outplayed in the first quarter, the Blue and Gold gave hope to their followers in the second period. They brought out their aerial game and before Haverford could find means to stop it, used it for a score. 70 yards from a touch-down, Creamer uncorked a pass that Loveland carried to the 28-yard line. This being good, the same duo did it again for 18 yards, putting the ball on the 10-yard line. Sweeney hit center and took it with him for 7 yards, and then Creamer dove under and through for the needed 3. A kick for goal was blocked. Delaware went back to their positions bristling with confidence, but Haverford took this out of them by banging down the field in straight thrusts at the line. Delaware halted them temporarily under the shadows of the goal posts, but after 2 downs, Webster went through tackle and catapulted over the goal line. Haverford kicked the extra point.

The third period was scoreless and marked by desperate fighting on the part of Delaware. They began to break through the line and stop Haverford's bruising plunges before they could get them under way.

The fourth period brought Haverford another 6 points when Kingham took the ball over for a touchdown. Delaware blocked the kick for the seventh point.

Webster and Middleton played outstanding football for Haverford, though Trip and Flint were not far behind them in chalking off the yards. Every member of the Blue and Gold team rose to heights at desperate moments, though Glasser and Reynolds were the most consistent on the defense. Creamer played a wonderful all-round game and Di Joseph hurled his impetuous 140 pounds at the line for gains time and again. Aside from his team-work with Creamer in the overhead game, Loveland couldn't get clear to show his heels to the enemy. He was slowed down by injuries received last week.

The lineup:

Delaware	Haverford
Glasser	L. E. Dohan
Boyer	L. T. Rutherford
Reese	L. G. Milliken
Reybold	C. Gawthrop

Biff and Shorty Play Winning Football

Last Saturday "Biff" Hopkins and "Shorty" Chalmers played some outstanding football for the prep schools they are attending.

"Biff" Hopkins, who is starring as fullback for Rutgers Prep, contributed two thrilling touchdowns in their game against Bordentown Academy. Rutgers won 34 to 0.

George Chalmers, who has been the outstanding star on the Tome School team this year, closed the season Saturday by being the main cause of Tomes' winning the Maryland scholastic football championship. In the championship game, played against Gilman at Port Deposit, Maryland, "Shorty" kicked all the points after goal, made one touchdown and threw the pass that accounted for another touchdown in a 21 to 3 victory.

IT'S THE OLD ARMY GAME

W. C. Fields, pantomimist and juggler appears in his second movie venture. The movies attracted him from the Ziegfeld Follies to do "Sally of the Sawdust" for Griffith and the old 3 shell game was such a success in this effort that a story "It's the Old Army Game" was written around it. This is a Paramount picture.

Some of the picture was taken at Ocala, Florida, where the local jail was termed too palatial for movie purposes by Director Sutherland, and an old-fashioned hogsgow built for the jail scenes.

Newark Primed For Thanksgiving Game

High School Confident of Keeping Championship at Milford. Rally Tonight

WINNER TO GET CHALLENGE CUP

The opening salvo in Newark's campaign to retain their D. I. A. A. championship crown will be fired tonight at 8 o'clock, at a spirited rally to be held at the High School. The Continental Band, who will accompany the team Thursday, will be on hand to furnish the tune of the program and a large crowd of rooters is expected to practice cheers.

The game, in which Newark, winners of the Northern bracket, D. I. A. A., will oppose Laurel, Southern champs, will be played at 2.30 Thanksgiving Day at the base ball park, Milford. It is expected that the largest crowd in the history of the D. I. A. A. regime will be on hand and the officials have spared no effort to give the affair a big league setting. The greater part of the population of Newark have expressed their intention of being among those present.

Newark will play the role of defending champion, a position they have successfully maintained for six successive years, and while Laurel has a whale of a team, Newark is confident of making this seven straight.

This year, the two teams will play for more than title and honor, for Millard F. Davis, of Wilmington, has donated a handsome silver cup, to be known as the Delaware Interscholastic Athletic Association Football Challenge Trophy, and the winner will hold the cup during the coming year.

In weight Laurel will have a 15 to 20 pound average advantage. This excess weight is carried mostly by their two ponderous tackles, Marvil and Beach, who scale 210 and 190, respectively, undraped. Aside from these two linemen, the rest of the forwards are evenly matched. In the back field, with Smith absent, Riley's weight will give Newark a slight weight advantage. With Smith in, who is under 140, the scale will swing slightly the other way.

Laurel again has the edge in record. They have won every game this year and piled up a total of 192 points in six games. Last Friday they polished off Dover 12 to 0. Newark, on the other hand, has lost one game to Wesley Collegiate Institute, but that game wasn't lost—it was a gift. Newark has been guilty of indifferent football on several occasions, but they have played their best under stress, which is the final quality of a genuine champion. Coach Malin has the boys up to a hair trigger edge and they are prime and fit to give the fight of their lives Thursday.

Laurel is reputed to be fast, but they haven't met the opposition Newark has faced, nor have they contended with the speed and shiftiness they

Delaware's First Cage Game December 10

Large Squad Answers First Call. Prospects Bright

Monday afternoon, Coaches Forstburg and Doherty sounded the first call for the basketball season and thirty candidates responded. A number of last year's regulars who were unable to get out for early practice are expected to be in uniform in a day or so.

The coaches started them off with an intensive drill, for the first game on the schedule is on December 10 with Drexel, here at Newark. On the 16th of December, Delaware plays Osteopathy College of Philadelphia, here, and there is a possibility of a game with Washington and Lee before Christmas. That is also tentatively scheduled for the University floor.

The prospects for a successful season are unusually bright, for there are six last year letter men, a good number of last year's scrubs and a number of very promising freshmen to build with. Captain Creamer, Lichtenstein, Di Joseph, Coppock, R. Holt and H. Holt are varsity men reporting, while Cathcart, Jaquette, Jones, Benson, Glasser, Beatty, Williams, Hodgson, Patchell and Garrett are the second string men in uniform.

"A kindergarten today, when properly conducted, is a helpful supplement to the worthy home, and is an indispensable corrective to the large number of homes which seem inadequate in the proper education of their children. It requires much education of the adult mind, to appreciate the place of child training in future citizenship and in establishing the values of personality."—Silas Evans, President, Ripon College, Wisconsin.

will discover in the Newark ends and backs.

In Riley, full back and captain, Newark has an outstanding triple threat star, who has played great football offensively and defensively, all season. He is big, fast and can smash a line or run an end with equal success. He hurls passes 30 and 40 yards that travel low and straight. Morris, the quarter, is one of the best high school field generals developed in this section. He is never rattled, and besides clever judgment in calling his own plays, has the ability to anticipate the opposing offense. A brilliant broken field runner, and accurate passer and tackler, perhaps his greatest value lies in the fact that he is always playing for the team and never gives a thought to individual honor. For all-round work, Morris is rated by many as the most valuable man on the team. He is one player who has never let down in any game.

Whiteman and Jaquette are fast, rangy backs, who are hard to pull down and are good for yardage through the line or around the wings whenever needed. "Rip" Smith is a half-portion George Pfann and his off-tackle slants have paved the way to many a score.

Doordan and Mayer on the ends handle passes or runners with equal ease and accuracy, and the receiver of a punt is generally wise in signaling a "free catch" when these two lads are down on him. The rest of the line is light, but rugged and fast charging. Dayett, at center, is an accurate passer and hard to upset.

The teams will probably take the field as follows:

Laurel	Newark
Ellis	L. E. Mayer
Marvil	L. T. McMurray
James	L. G. Cook
W. Wright	C. Dayett
O. Wright	R. G. McDowell
Beach	R. T. Vansant
Collins	R. E. Doordan
Bishop	Q. B. Morris
Griffith	L. H. Whitman
Politt	R. H. Jaquette
Johnson (Capt) F. B.	(Capt) Riley

TWO VALUABLE SMALL TREES

Persimmon and dogwood, so necessary for shuttles in the textile industry of the world, are valuable and are becoming increasingly more difficult to obtain, says the United States Department of Agriculture. As yet no satisfactory substitutes for these two

woods, either native or foreign, have been found.

Many owners of dog wood timber, because of its small size, have not realized its value, and have either not made efforts to market it or have allowed the dogwood and persimmon to be injured when the larger timber associated with it was removed.

WRONG EATING IS KILLING AMERICA SAYS DELLE ROSS

U. S. Overfed But Undernourished, States Famous Woman Dietician

Wrong eating, rather than promiscuous drinking, is what is the opinion of Mrs. Delle Ross, famous Bloomington, Illinois, dietician. Mrs. Ross is a former singer and teacher who having cured herself of the disease of overweight after years of struggle, is meeting extraordinary success in curing overweight in others.

"Eating and not drinking is the curse of America today," says Mrs. Ross. "We are overfed but undernourished. Not all are intemperate in drinking but most of us do not know how to eat intelligently. All foods are good if eaten correctly. Seven years of close study has convinced me that every disease known to man is first caused by wrong eating. Lack of adequate food, supplied in proper variety, leads to overwrought nerves, and the victim seeks in drink and drugs what he should have found in right foods."

"Many people believe it silly to think that perfect health and bodily structure can be brought about by merely eating certain foods. But is it? You would not try to repair a wire fence with silk thread nor mend a silk stocking with wire, would you? Each thing is good in its place, and the same is true of foods. The human body is a complex machine depending for its life-building and life-sustaining powers, science tells us, upon many elements found in foods free from the 'improvements' of man. If these are not all supplied properly, the body cannot work at the highest efficiency. Brain, muscle, bone and nerves depend upon the blood to furnish them materials; the blood, in turn, is dependent on the food put into the stomach. To have a perfect body, we need only to give it right foods, judiciously combined. Disease germs do not thrive in a pure blood stream."

THE MAN ON THE BOX

Warner Brothers outbid all other picture producers for the services of Syd Chaplain, because they believed they had the very story he needed to duplicate his phenomenal success in "Charley's Aunt."

"The Man on the Box," the celebrated novel and play by Harold MacGrath was the vehicle selected for Chaplain, and it will run on November 29 and 30 at the Hanark Theatre with Chaplain heading a cast that includes David Butler, Alice and Kathleen Calhoun, Theodore Lorch, Helene Costello, E. J. Ratcliffe, Charles F. Reisner, Charles Gerrard and Henry Barrowes.

The story concerns the adventures of charming Bob Warburton, who finds himself amusingly involved in a hornet's nest of intrigue that leaves him homeless and jobless, in the mysterious night, clad only in his pajamas. He has invested \$50,000 in a new flying machine and two Russian spies are intent upon stealing the plans of the plane. Romance stalks unfettered throughout the picture, which is said to be a series of ridiculous misadventures.

If you want to know how to make good light bread, muffins, or biscuits, Farmers' Bulletin 1450, "Home Baking," will be helpful. It will also give you recipes for layer cake, angle food, gingerbread, and numerous other good things. It is free for the asking while the supply lasts.

Women's College Notes

The vesper service on Sunday evening, led by Nellie Lawton, was unusually interesting. Rosalie Steel sang "Sweet Story of Old." Margaret Nunn, who attended the American Country Life Conference at the New Willard Hotel from November 10-14, talked on "The Problems of Farm Youth." She reported that the conference at Washington, considered the need of leadership the greatest need in rural social groups. The lack of cultural opportunities, of facilities, such as telephone, and the life of hard work, cause the young people not to know how to use their spare time. Churches, schools, libraries all help, but even the help given by those organizations is lessened because of lack of leadership.

The Sophomore Class has definitely decided upon December 14, as the date for the concert to be given by the Orpheus Club of Wilmington. The Sophomore Class will sponsor the concert.

Among the girls who were away for the week-end were: Jane Warner, who went to Washington; Ethel Stengle, Wilmington; Dorothy Caulk, Lansdowne; Thelma Buell and Margaret Reese, Philadelphia; and Alice Holloway, Dover.

Althea Harris, of Port Norris, New Jersey, was the week-end guest of Orpha Conahay.

Betty Krauss, of Philadelphia, spent the week-end with Kitty Krauss.

Mildred Davis, Margaret Satterfield, Sally Calloway and Charlotte Dayett were among the alumnae back for the week-end.

Louise Marshall, Sara Walker and Dorothea Pierson visited Dorothy Taylor in Wilmington over Sunday.

Grace Ellison and Lillian Benson have returned from a Dramatic Convention at Elmira, N. Y.

The finals in hockey played on Friday between Sophomores and Juniors resulted in a victory for the Sophomores with a score of 5 to 0.

The volley-ball games will be played off after the Thanksgiving recess. The three upper classes have chosen their teams, as follows: Senior, E. Butler, R. Butler, M. Nunn, T. Buell, T. Hurst, M. Rosa, B. Skrivan, H. Coleman, K. Ady, S. Skewis; Junior, M. Burke, K. Holton, D. Pierson, M. Maull, L. Marshall, E. Stengle, E. Biddle, M. Johnson, B. Walker, F. Goldstein, M. Vandever; Sophomore, A. Dawson, L. McBride, B. Malcol,

K. Gray, H. Morton, M. Pugh, C. Lewis, A. Thompson, S. Crossan, L. Carter, A. Richards, A. Barclay.

Miss Kelly and Dr. Ruth Phillips spent Friday at the Sesqui.

Miss Long was the dinner guest on Sunday of Mr. and Mrs. J. B. Harper, of Germantown. Mrs. Harper was formerly Miss Katherine Robbins, of W. C. D.

Mrs. Montford Melchoir, of Lansdowne, formerly Miss Marthe Charbonneau, a student of W. C. D., visited friends here last week-end.

Miss Edwina Long attended the conference of the Association of Business Officers of the Middle Atlantic States, at Princeton University last Thursday.

The Thanksgiving recess began today at eleven o'clock and will close Monday at noon.

The girls who are to room in New Castle Hall are rejoicing that word has come that the building is finished and that they may "move in."

Star Cars Set An Unusual Record

Mr. C. E. Rittenhouse, of the Rittenhouse Motor Company, local dealers for the Star automobile, has reported a new record that was made locally, and which adds one more to the Star's long list of hill-climbing achievements.

Monday afternoon, at Beaver Valley hill, one of the steepest and most rugged climbs in this vicinity, a Star four roadster and a Star six coupe were given a test. The four was started in high gear, from a standstill, at the bottom of the hill, and picking up momentum slowly was making 33 miles an hour when it reached the top. The same test was used on the Six and it reached the top at exactly the same rate of speed.

COMMEMORATE FOUNDING OF GETTYSBURG CEMETERY

Last Thursday the High School Assembly held exercises commemorat-

ing the anniversary of the founding of the National Cemetery at Gettysburg. It was at this founding that Lincoln made his celebrated "Gettysburg" address. Ruth Phillips recited "Lincoln's Gettysburg Address" and Dorothea Chalmers gave selections from "The Perfect Tribute."

Mrs. Hannah Warren Succumbs

Mrs. Hannah Warren, 67 years old, wife of Theodore Warren of River road, about one mile and a half south of New Castle, died in the Home-

pathic Hospital, Wilmington, Sunday, a few hours after being operated on for stomach trouble.

Mrs. Warren, who was one of the best known farm women in this vicinity, was an active church worker, being a member of St. Paul's Church, Wilmington, but owing to the long distance from her home to that church, she was closely associated with the religious and social life of the First Baptist Church of New Castle for many years.

Mrs. Warren is survived by her husband, six sons, Theodore, Jr., Heisler, Othram, Moreland, Paul and Thomas Warren, and one daughter, Mrs. Edna Davis, wife of the Rev. Erby P. Davis,

pastor of the Hazel Dell Mission at Hamilton Park.

The funeral was held from her late residence at 2 o'clock, Wednesday afternoon. Burial was made at Head of Christiana. Mrs. Warren's six sons were pallbearers.

OBITUARY

Mrs. Julia Thomas

Mrs. Julia Thomas, at Stanton, November 19. Funeral services were held yesterday at Christiana. Interment was made in Christiana Cemetery.

John Steward

In Ogletown, Del., on November 17, 1926, John Steward, aged 76 years, died. The funeral services were held at his late residence, Ogletown on

Saturday afternoon, November 20, at 2 o'clock. Interment at White Clay Creek cemetery.

One daughter, Mrs. James McGonigal, and one son, Ernest Stewart, both of Ogletown, survive.
