COUNCIL HOLDS MONTHLY SESSION

Town Debt Reduced \$4000; Three Trees Removed

The regular monthly meeting of the council was held Monday evening at the council chambers with Mayor Frank Collins presiding. Other members present were Councilmen Ramsey, Holliston, Hubert, Ferguson and Richard. Town Attorney J. Pearce Cannon was present.

The treasurer's report showed a cash balance of \$16,536.93 on hand as of October 31. Receipts for the month amounted to \$14,732.98, making a total of \$31,269.91. Disbursements for the month amounted to \$14,868.41, leaving a cash balance on hand November 30 of \$16,401.50.

It was reported that \$4000 had been paid off on the town debt. The milk inspectors report was read and found very satisfactory.

Council voted to transfer \$200 to the ambulance fund. Reports showed that the ambulance had made 22 runs during the past month and it was stated that there was a great difficulty in securing drivers as many of the people who ask for the use of the ambulance could use the bus or their own family cars.

Members of the local fire company who act as drivers have reported that they have been called to take people to the hospital who walk out of their homes and in some instances want to ride in the front seat. Ambulance drivers do not get paid and have to leave their work to perform this service.

Chief of Police Leroy C. Hill reported 51 arrests for the month of November, 26 investigations were made. Jew-

RAMSEY ASSEMBLY SPEAKER

Talks About War Torn Europe

Far too many people in this country are War Conscious it was stated on Monday by E. C. Ramsey, world famous journalist and lecturer at a special assembly held in the Newark High School auditorium.

Mr. Ramsey, who has recently returned from war torn Europe said, we have not had to do without anything, yet. He said that at a banquet one night last week, he received a serving of potatoes which represented two weeks supply in Italy. The portion of meat on his plate was as much as a person would receive in England in two weeks. With coffee selling here for 26 cents a pound, in some parts of Europe if you can get it, the same would cost about \$12 per pound.

The women of England are not talking about bridge parties or their recent operation, but instead are talking about clothes and things to eat. They try to make their wornout clothing over into other styles. In England it is not fashionable to wear mink coats, he said. Education is one of our national defenses, he stated and war is an education. War has also created a spirit of comradeship among the English people and will have a lot to do with abolishing cast.

Unless we not only secure a military victory, but a lasting peace, we will soon be in a globe civil war, he said. The only way Germany can be invaded is through Italy and he predicted that Italy would be invaded by Italians led by the English. Italy, he said was shaped like a boot and was governed by a run down heel.

All English soldiers must attend some kind of church service on Sunday, he said.

NETWORK OF VICTORY

Above, is shown the track "layout" of an important railroad terminal—the Union Station at Washington. Over it, in a single month, move more than 108,000 locomotives and cars. Yet, impressive in size and activity as this track setup is, it is only a small part of the vast network of lines that stretch from coast to coast...border to border...linking city to city...natural resources to war industries—a smooth, unified system totaling over 235,000 miles of railroad!

In the grand strategy of our military leadership, these lines are absolutely vital to success. For it takes railroads

to move great masses of troops... railroads to haul the mountains of materials needed for war. With them, our military command can move troops to any point in the country... get supplies from anywhere—quickly, smoothly, efficiently! In fact, right today—every day—more than 33,000 trains are working for the war effort!

The spirit of private enterprise—American enterprise—built this great system. And, with the continued cooperation of the public, Office of Defense Transportation, Navy and War Departments, this spirit will keep it rolling... for Victory.

FREEDOM'S TEXTBOOK

The most important books in a nation's life are its textbooks. The nation of tomorrow is determined by what it is studying today, for textbooks do more than impart information. They mould the very spirit of the nation for the years to come. America's passion for freedom was born out of a century of colonial education centering in one book—the Bible. The simple social structure of those days was reared upon three institutions; the home, the school and the church, in all of which the Bible was supreme.

The political structure of the United States Government designed by men trained in colonial concepts reflects the teachings of the Bible. There it is in the Declaration of Independence, the Constitution and the Bill of Rights. The attitude of the United States toward her neighbor nations has always been more like that of the good Samaritan than it has like that of the robber. Today our nation faces not only her responsibility for ridding the world of international gangsters but the next task of rebuilding the world on the patterns of her own national structure. No day in any of these war years is therefore any more important than Universal Bible Sunday, which may serve to remind the American people of the source of their nation's strength.

The American Bible Society has suggested the slogan "Watch Your Scripture Reading" for this year's observance. We suggest that among the other wholesome habits of life to which we are now being summoned as contributing to the winning of the war, that every citizen add the regular reading and study of the Text Book of American freedom.

Calvin Coolidge once said "The foundations of our Government rest so much on the teachings of the Bible, that it would be difficult to support them if faith in these teachings should cease to be practically universal in our country." How can we have faith in them unless we know them? Let every American turn to his Text Book for Freedom.

FREEDOM DEPENDS ON FREE PRESS

In a recent address in New York City, Dean Carl W. Ackerman of Columbia School of Journalism, pointed out the dangers in restricting freedom of the press as is now being attempted in suit filed by the Department of Justice against the Associated Press and 1,275 daily newspapers.

"If those who are determined to freeze the press, succeed in achieving their objective, we may have freedom of speech, but be deprived of freedom to speak, because the facilities and instrumentalities of communication will be frozen for the duration and only those whose governmental officials and agencies beyond censorship control will be able to use them.

"Under the cloak of war emergency, the American way of life is being profoundly changed by law, by directives, by executive orders, by judicial decisions, by consent decrees and by accomplishing facts which the people are told about after the events."

Dean Ackerman pointed out that insofar as censorship of war activity was necessary to the success of war plans, no one has a right to object and no journalist would purposely give aid or comfort to any enemy, but he said the present attack on the press "has no justification whatsoever by the necessities of war. The object of that suit is not to preserve the freedom of the press but to freeze the press into a new mold, not during the war but in perpetuity."

And in that last sentence Dean Ackerman points out a growing danger to freedom in the United States—freedom of the individual, freedom of industry and freedom of economic progress. The loyalty of our people and their willingness to give their sons, their daughters and their worldly possessions to once and for all stamp out the threat of foreign dictatorship in America, must not be used as a screen behind which political agencies can freeze the nation into a new mold of restricted rights after the war.

SHARE-THE-RIDE

No one really knows how far-reaching will be the effects of stringent nation-wide gasoline rationing. Its resulting problems will be particularly acute amidst the vast distances of the Western United States. Thousands of war workers and farmers live many miles from production centers. Plans are under consideration for sharing of rides. Compulsion should be avoided wherever possible. American citizens, by nature and traditions, simply don't like it.

The Standard Oil Company of California recently ran large advertisements in the papers, which promise to help immeasurably in this transportation problem. They urge workers to go to the nearest Standard Station and put their names on share-the-ride registers where every effort is being made to make it possible for car owners and workers to coordinate routes and times of departure.

Industry in every field of endeavor is striving to aid the overall war effort. It knows that a problem that is not solved voluntarily, must be solved by government authority. If the oil industry can help solve the auto transportation problem on a voluntary basis, all of us will owe it a debt of gratitude, because it will have helped avert official restrictions of individual action and movement, which are dear to the American citizen. We should cooperate to the limit.

SHIPS AND AIRCRAFT GET THE BREAKS

Statements regarding production of ships and planes show that they get most of the new money that is being cut loose.

U. S. shipyards reached a goal of three ships a day in deliveries last month. In fact 93 cargo vessels were launched, which was almost as much as the entire production for the year 1941.

OPA ISSUES WARNING

James L. Luke, Jr., State Director of OPA has issued a warning to those persons who have not yet been issued War Ration Book No. 1, commonly called the "sugar" book, that the deadline for receiving same has been set at December 15.

Persons who do not have this book may get it by applying before this date at their local Rationing Board Office. It will be necessary for these people to bring with them some means of personal identification such as a selective service card, auto registration card or the like.

The public is again reminded that no one is eligible to receive War Ration Book No. 2 who does not have War Ration Book No. 1.

WOLF TREES DOOMED

Crooked, grotesquely shaped "wolf trees" with huge side branches occupy too much space in a woodland and seldom yield merchantable logs. They crowd fast-growing strong, straight young trees of greater value by shading and suppressing them.

John "Snap" Fisher is heading this week's column. Why? Because "Snap" is some airplane spotter. He told this one himself, so it must be true. While at the Possum Park post recently he spotted and reported seventeen planes in the first fifteen minutes he was on duty. Nice going "Snap". We need more spotters like you.

It might be interesting to note that several high school boys and girls have volunteered for this patriotic work. At the Chestnut Hill post Miss Vera Gould is spotting on Friday afternoons from 4 to 6 o'clock and Oliver Suddard and Cliff Lee have been doing a real job on the graveyard shift from 2 to 4 on Saturday mornings. Miss Betty Hanson and Miss Elizabeth Hyde have done a swell job assisting Miss Betina Sargent on the 8 to 10 shift on Saturday mornings. When I took over this column, the boss said it was my column and did not express the sentiments of the paper and I was responsible for what went in it so I am asking the readers to let me know what they want and if you know anything that should be mentioned here also let me know and if it is fit to print I will be glad to use it.

Well the seniors at the high school had a fine trip it is reported. Someone said Red Henderson made a Buck on a bet. Naughty-naughty. Dick Robinson is wearing chin whiskers since he returned. The kids must have had a fine trip, and now the boys had better get busy on basketball.

Harry L. Bonham is getting worried about a certain drama that will be produced on Mitchell Hall stage this Friday and Saturday. Mr. Bonham is interested in the financial success of the production because the local Civilian Defense setup receives the proceeds and Boy, do they need the money. Everyone should rush up to Rhodes Drug Store and get a few tickets for the show. We don't care if you go or not. All we want is for you to buy tickets.

Property owners on Choate Street certainly should be complimented for the way they have improved the appearance of that street after the town put in the new curb and gutters and resurfaced the street. The old brickbats that everyone used to stumble over have disappeared.

More about Snap Fisher. It was reported that Snap, who is captain of the air plane spotters at the Possum Park Post on Wednesdays, was asleep while his post was on fire. Anyway the two women who were on duty did not leave their post. Good going girls. A good spotter is like a telephone operator. Many stories have been told of how they stick to their posts with fire raging close by.

Dr. Carl J. Rees, chief observer at the Possum Park Post said that his post never received any publicity. Well, Doc, here it is. But it should not be necessary to burn the post down to get in the paper.

Our hat is off to Hugh Bogovich for making the Little All-America First Team. In fact, our hat is off to every member of the Blue and Gold squad that made history for Delaware this past season.

Ed Prince, business manager of athletics at the University is making a bid to all the new field house for the 1943 season. Ed is offering a season ticket to 28 outstanding events at the special season ticket price of \$2.20. It was stated that the regular admission price to these events would be \$10.25. Boy, is that some bargain. One of those season tickets should make a Christmas Gift to delight any sports minded person's heart.

Nothing is lacking at the new sports arena. For basketball games an automatic electric clock and scoreboard will keep the spectators always informed. Seats, yes, there are only about 2,000.

Well, we had a nice snow storm yesterday. Twenty-five years ago that would have been put on the front page. Now the only thing that is front page news is "Who Gets How Many Tires" or "Register Your Homes At The High School."

Coach Bill Gillespie issued a call for basketball practice this week and it is reported that some of the boys want two extra baskets placed on the walls of the gym. Possibly they hope that when they miss one basket the ball will bounce in the other so they can make a score. It might be a better idea to have larger hoops put on the baskets.

Marines from the Brooklyn Navy Yard guarded public and private property at Troy, N. Y., in 1877, after a great labor strike paralyzed business in nine states.

HUGH BOGOVICH, BLUE HEN'S BRILLIANT GUARD, NAMED ON LITTLE ALL-AMERICA TEAM

Adkins Drills Four Teams in Practice For Game December 22 When Hens Meet Aberdeen Proving Grounds Combine; George Barlow Named Captain

Drawing its playing talent from all sections of the country, the Little All-America football team, named for the ninth time by the Associated Press, carries the name of Hugh Bogovich, as guard on the first team.

Grid Star Honored

Hugh Bogovich

Bogovich, Delaware's brilliant guard and co-captain hails from Turtle Creek, Pa., and has played varsity football at Delaware for four years. Bogy received honorable mention on the All-America team picked last season by the All-America Board of Football, composed of one leading coach from all 48 states.

Bogovich, a six foot, 180 pounder, was one of the tri-captains on the University of Delaware's undefeated and untied 1942 eleven and one of the standouts in helping the Blue Hens runs up their string to 21 games without a defeat, one of the finest marks in college ranks.

In addition to his gridiron exploits, Bogovich is president of the Student Council and pitches on the Blue and Gold baseball team.

Bogovich was the only player in this immediate vicinity to make the Little All-America first team.

Working with four teams made up of varsity candidates, Coach Adkins has spent most of the basketball practice in smoothing out an offensive weave that leads to fast breaks and pickoffs for shots at the hoop. Practice sessions have also been utilized in retrieving the ball from the banking board and fast breaks from scrimmage.

Workouts have been long and strenuous in preparation for the coming practice tilt with the powerful Aberdeen Proving Grounds combine on Tuesday, December 22.

The Aberdeen team has only lost one game up to the present time, succumbing to the Wilmington Bombers in an exhibition clash at Convention Hall last Saturday night 56 to 47. It took the last year's champions of the American Professional Basketball League two extra periods to win over the fighting soldiers. The Aberdeen Proving Grounds combine is star-studded with such standouts as Angelo Musi, former Temple ace, who garnered 20 points in his teams defeat to the Bombers, and Moe Becker, former All-American from Duquesne University.

Coach Adkins' first team has been made up of Captain George Barlow, Bennie Crescenzi, Dick Reed, and two freshmen candidates, Steve Romanik and Buck McCurry. The second team consists of Ed Legates, Verdel Short, White, Bill Glisson and Bill Nash. The third squad is composed of VanBruni, Cole, Bodley, Sposato, and Rosstier, and the fourth group is made up Schivery, Toppel, Hill, Saunders, and Samonisky.

BADMINTON STARS IN EXHIBITIONS

Ken Davidson, Hugh Fergie To Play In Field House

Ken Davidson, International known badminton player and rated as the greatest exponent of the game, will present two exhibitions in this locality this week with his partner, Hugh Fergie.

The first exhibition will be held tomorrow night at the University of Delaware's new field house, and the second will be presented at the Wilmington Y.M.C.A. on Friday night at 8:15 o'clock.

It will mark Davidson's third appearance in Wilmington, but it will be the first time with his partner.

Davidson is known as the world's greatest exhibitionist and has held numerous titles in Europe and on the continent.

Davidson and Fergie have been making tours of Army and Navy posts, and during the past spring and summer season were on the New York stage as a feature in Ed Wynn's show.

Admission will be free.

Buckingham Entry Topped by Burris Zipper In 13-Inch Class; Perryville Hound First In 15-Inch Class; Annual Election Next Week At Club House

LETTERS OF GRATITUDE RECEIVED

Service Men Write Thanks For Christmas Gifts

Additional letters of appreciation received from Newark men in service by Dr. John R. Downes, chairman of the Mayor's Committee for the recent gifts sent them by citizens of Newark are reprinted below:

Dear Sirs:

I received your card and check today. Wish to thank you one and all, of the Mayor's Committee, which is highly appreciated.

Franklin W. Morris.

Mayor's Committee:

It's a month early — the mail to this point being good — but I want to acknowledge your check and Christmas card by more than just my signature on a printed card.

I was delighted with the cards, showing each side of Main Street, not having been home in more than eight months made them particularly interesting.

The choice of a check over a carton of cigarettes was a wise one. With two dollars I can purchase more than three cartons (they cost 65c per carton). In addition, mailing fees and shipping space have been saved and it could have been that I didn't smoke.

Thanks again,

Thomas Cooch

Mayor's Committee:

I received your nice Christmas card and check expressing a holiday greeting. Both were accepted with my sincere gratitude.

This gift was a surprise to me. Since it has been nearly seven years since I've been affiliated with any activities in Newark, the present gift of a check has shown me that the people of my home vicinity are trying to promote a higher morale standing for those who are doing what little they can to keep this furious turmoil away from our own doorstep.

Let us all follow the Guiding Light into battle and victory.

Sgt. Vincent Cannon.

CORN LOAN 1942 RATES ANNOUNCED

Growers May Secure Loans At 85 Percent Of Parity

Under the provisions of the 1942 Corn Loan Program eligible corn growers may secure loans at about 85 per cent of parity in New Castle and Kent counties, reports the Delaware state committee of the Agricultural Adjustment Agency.

Under the loan program, New Castle and Kent county farmers may secure loans of 96 and 97 cents per bushel respectively. Both of these counties are classified as commercial corn areas.

To be eligible for loans, farmers must have complied with the 1942 corn allotment provisions.

Since Sussex county is classified as a non-commercial corn area, the 1942 corn loan rate has been set at about 75 per cent of parity. This means a loan rate of 73 cents per bushel for farmers in Sussex county.

The Corn Loan Program will be administered by the county Agricultural Adjustment Agency committees. Loans may be secured on this year's crop any time between now and March 31. The rates call for corn on the cob grading number three or better, except for moisture content and test weights. The loan rates are subject to deductions if the corn does not meet the grade requirements or contains over 15.6 per cent moisture.

Loans will be made on cob corn stored on the farm of the grower, provided it is stored in approved bins.

Complete information on securing loans under the 1942 Corn Loan program may be obtained from the county AAA offices located at Newark, Dover and Georgetown.

1943 Food Goals Seek Highest Production

Food-for-freedom goals for 1943 call for the highest production in the history of the American agriculture. These goals are designed to shape next year's U. S. farm production to the needs of the United Nations.

In general, the goals are aimed at maintaining or exceeding the record level of production attained this year, but there are significant changes from the 1942 production pattern which throw sharp emphasis on crops and livestock most essential to the war effort.

Winter Fails To Halt Tomato Experiments

Plant breeders of the U. S. Department of Agriculture developing better tomato varieties have found a way to continue in winter their work on defoliation diseases. They "dunk" test plants in liquids containing spores of the fungi that cause the disease.

The treatment, first used at the U. S. Vegetable Breeding Laboratory at Charleston, S. C., produces in 48 hours symptoms practically identical with natural field infection. On a greenhouse bench, winter trials thus supplement acres of summer tests.

Newspapers Have Run 50% of War Bond Ads

Results of a national survey, released by Chester LaRoche, chairman of The Advertising Council and chairman of the Young and Rubicam advertising agency, show that newspapers have run 50% of the many war bond advertisements sent to them by the Treasury Department. The space given to these advertisements runs into many millions of dollars.
