## Young Austrian Pianist Appears in Mitchell Hall Stage Jan. 14

Paul Badura-Skoda, the distinguished, young Austrian pianist, will appear in Mitchell Hall on the University of Delaware campus at 8:15 p. m. on Friday, January 14, as the first Artist Series performer of the new year.

Although only in his twenties, Badura-Skoda, who made his first North American tour in 1952-1953, has already achieved an enviable position in the ranks of internationally famous pianists. He began to achieve professional recognition by winning the first prize at the Austrian Music Competition in 1947. In 1948, he passed the finals for piano and choir conduction with special mention in the Vienna College of Music.

After Badura-Skoda had won the important first prize at the Austrian Music Festivals, other prizes at the International Music Competition in Budapest in 1948 and in Paris in 1950 followed.

In 1950, he played at the Bach Festival in Vienna and also at the Salzburg Festival, after which he concertized in Europe. In 1951, he had his first extensive Austrian Broadcasting Commission and where he met with overwhelming success.

Some measure of proof of his talent preceded his American tour in the form of his recordings for Westminster. These recordings have displayed such a maturity, sensitive musicianship and mature grasp of style that seasoned music critics have praised him with praise without waiting for the more orthodox appraisal in a concert hall. His North American debut took place on November 1st in Toronto, Canada, and his United States tour as soloist with the Cincinnati Symphony in November.

Paul Badura-Skoda's repertoire is extensive. It ranges from the works of Bartok, Ravel and Debussy. Although, through his Westminster recordings, he is known mostly for his impressive interpretation of the insight and art of Bach, Mozart, Schubert, Schumann, his recitals have shown that he is an equal master of Beethoven.

Paul Badura-Skoda

## Interdorm Playbill Committee Schedules Show For Feb. 23-24

The members of the South Campus dormitories have been busy for the past month working on scripts and music for the annual Interdorm Playbill to be presented on February 23 and 24.

There will be eight participants this year: Warner, Sussex, Cannon, NewCastle, two groups from Smyth, the Women Commuters and a joint production from Topsy, Turvey, Boletus, Johnston and Tiffany. This is the first year the commuters have entered.

Each group is allowed thirty-five minutes. They may divide this time between a chorus of songs and a play or combine the two into a musical play. The trend seems to be toward musical comedy as all but one dorm are presenting original plays.

Co-chairmen Joann Chandler and Jean Durgin announced some of the following themes: "Nursery Rhymes for Modern Times" by New Castle, "Once Upon a Time" by Warner, "Trial in Tune" by Sussex and "Hell's Belles" by the Commuters.

Chairmen for the different dorms are Warner, Mary Martin and Marilyn Smith; Sussex, Norma McClellan and Mary Terrell; New Castle, Joyce Mitchell; Cannon, Barbara Nast, Ann Williams, and Betty Carvel; "The Big Five," Joan Ross; Smyth A., Peyton Hudson and Nancy Van Sciver; Smyth B., Suzanne Kozak and Lee Hannold; and the Commuters, Nancy Glick.

## 'Venture' to Appear

The first issue of the new campus magazine, *Venture*, has gone to press and will appear within the next few weeks. It will contain fiction and essays ranging from Medieval medicine to current political problems, poetry, illustrations and cartoons. Variety has been an aim of the magazine and it is hoped that everyone will find something to his liking.

## Preregistration Dates Set Between Jan. 5-12

Preregistration for the second semester started Wednesday and will continue through January 12. All students are asked to make appointments with their advisors in the preregistration period.

Again this term preregistration is final except for deletions. Students may make during registration in the Field House. In preregistration for sectional courses it is necessary for students to continue the first semester time whenever possible.

For full-time training under PL550 (Korean GI Bill), an undergraduate student must carry fourteen credit hours, including at least twelve for credit. E 90, M 90 and modern languages taken for O credit, and courses a student is required to audit, count toward the minimum of fourteen, but in addition a student must carry at least twelve hours for college credit.

Class schedules will be delivered before the start of preregistration, and additional preregistration forms are available in the registrar's office.

## E-52 To Produce 'Mrs. McThing'; Schedules Tryouts For Next Week

"Mrs. McThing," another comic fantasy by Marie Chase, author of "Harvey," and one of the best loved plays of Broadway's 1952 season, will be presented by the E-52 University Theatre March 17, 18 and 19 in Mitchell Hall with Thomas B. Pegg directing.

## George Washington Physics Professor To Visit UD Campus

Dr. George Gamow, Professor of Physics at George Washington University, is a visiting scholar at the University of Delaware today and Monday.

Dr. Gamow is author of such books as "Mr. Tompkins in Wonderland" and "Mr. Tompkins Explores the Atom," short stories about strange worlds where the laws of relativity and quantum theory would govern every day life. Dr. Gamow's best known scientific research has been in the "Evolution of the Universe" or, as he has sometimes titled the early stages of this evolution, "A Ha! Hour of Creation."

He believes that all the elements as we now know them were formed in the course of about one half hour at some time about four billion years ago. More recently, Dr. Gamow's research interests have turned toward the equally fascinating field of biophysics.

Dr. Gamow was born in Odessa, Russia. He has been professor of physics at George Washington University since 1934. He is a member of many scientific societies and the recipient of a number of scientific honors.

Three special campus meetings have been planned for Dr. Gamow's visit. At 2 p. m. today he will be the speaker for an open biology-chemistry-physics seminar in the auditorium of Brown Chemistry Laboratory. His subject will be "Information Theory and Protein Structure."

At 3:30 p. m., Dr. Gamow will address an open physics seminar in Room 6, Recitation Hall. The topic for discussion will be "The Origin of the Elements."

On Monday evening at 8 p. m., the visiting scholar will again (Continued on Page 3)

## Orientation Program To Precede Rushing

Fraternity rushing will be held from Wednesday, February 9, to Saturday, February 19.

An orientation to fraternities for freshmen only is scheduled for next Tuesday afternoon at 4

## Movie, Bicycle Thief To Be Shown Jan. 9

"Bicycle Thief" will be presented in Mitchell Hall at two showings on January 9. The first showing will be at 3:15 p. m. and the second showing at 8:15 p. m.

"Best film in 30 years" is the statement that was made in *Time* magazine about this movie.

This is the story about a man, his son and a bicycle; not just any bicycle but one that was stolen when it was needed in order to qualify for a long-sought job.

Remember — this coming Sun-

day the movie will be presented. Admission is free.

p. m. in Mitchell Hall. "This program is designed to acquaint freshmen with the fraternity system at Delaware—to show them what we have to offer and to let them see what they can expect to give and get from a fraternity," according to Jim Meyers, Inter-fraternity Council Chairman of Rushing.

Spencer Hedger, president of the Inter-fraternity Council, and Dean John E. Hocutt, Dean of Students, will be the speakers at the orientation program. The presidents of the nine fraternities will be introduced and will take part in a question and answer period in which all freshmen present will have an opportunity to get their questions about fraternities answered.

A rushing brochure will be distributed to all present; it will contain a list of men in each of the nine fraternities on campus, a schedule of events during rushing, and the rushing rules. There has been a new rule added this year that may affect those interested in fraternities—i. e., a scholastic index of 1.75 is required in order to be pledged, and an index of 2.00 must be achieved before one can be initiated.

The Inter-fraternity Council rushing committee is headed by Jim Meyers, of ATO, with one representative from each fraternity as follows: Bob Ferguson, Phi Kappa Tau; Grant Lowe, Alpha Tau Omega; Jack Davidson, Delta Tau Delta; Don Goodridge, Kappa Alpha; Brad Barnes, Sigma Nu; Ed Gearhart, Sigma Phi Epsilon.

The committee urges all freshmen who are even remotely interested in fraternities to come to the orientation program and get the facts first-hand. This will help them first to decide if they want to pledge a fraternity, and then, which one.

## Greenstein, Fiery Represent Delaware At Annual Meeting

Richard Greenstein and Cynthia Fiery were delegates at the Sixth Annual Student Conference on United States Affairs held recently.

The topic for the conference, which students from over sixty United States and Canadian universities attended, was "The National Security Policy of the United States."

Among events scheduled were several addresses, including "The Military Aspects of Our Security Policy," and "Political and Economic Aspects of National Security Policy;" and three days of discussions among the conferees themselves. These groups held round table discussions on the threats to the security of the U. S. and the policy best calculated to meet those threats.

A panel discussion was given on individuals who are engaged in the actual business of formulating national security policy.

The panel members spoke from the respective standpoints of the State Department, Congress, the Defense Department, and the Press and Public. The meeting was conceived for the purpose of making it clear to the conferees that policymaking is complicated and difficult; that it sometimes involves conflicts among agencies; and that its realities usually include both uncertainties and compromise.

## IF Council Passes Resolution To Raise Scholastic Standards

The Inter-Fraternity Council recently passed a resolution to raise the standards of scholarship within the fraternities.

If a fraternity fails to meet this new goal; that is, if it does not get above the all mens' index at least once every three semesters, it will be placed on social probation until it complies with the standard.

IFC President Spence Hedger stated that this latest resolution by the council is part of a continuing program to encourage scholarship among university men here.

The council earlier adopted another resolution in line with this program that prospective members must have a 1.75 overall scholastic index to be accepted as pledges.

## Fall Of '55 To See New Programs In Arts and Science, Engineering

Two new college programs were recently announced and will be initiated in the fall of 1955. One is a two year program in the Schools of Arts and Science and Engineering and the other is a five year course in combining work in liberal arts and engineering.

Plans for the five year program leading to a B. A. degree in one of four branches of engineering were started last year, but final arrangements were not concluded until the end of November. Similar programs are finding wide acceptance at other universities which have Schools of Arts and Science and Engineering on the same campus.

Most important is the fact that the student pursues studies in both schools throughout his five year period of enrollment. Secondly, he is not forced to leave the friends and familiar surroundings of one campus and make an adjustment to a completely new situation at another.

The freshman year program is similar to that for any other entering student and will require courses in modern language, history, mathematics, chemistry, English, physical education and military science. The student may elect to major in the area of chemical, civil, electrical or mechanical engineering for his engineering bachelor's degree, and may choose a wide variety of arts courses to fulfill his requirements in that field.

It was emphasized that the five-year program in no way replaces the four year degree offerings of the two schools. It does provide a curriculum in which top management leaders of industry have evidenced participation.

(Continued on Page 8)

## Research Group To Hold Luncheon

The sixth annual luncheon of the Haskell Research Foundation will be held Saturday, January 8th, 1955, at 12:15 p.m. in Old College.

The speakers and their subjects are: Mr. Leo J. Cotnoir, Jr., "Chemistry of Soil Organic Matter"; Dr. James C. Kakavas, "The Effect of Nutrition Upon Bacteria"; Dr. Loren Smith, "The Effect of Distorting Speech on its Intelligibility"; and Mr. William Amos, "Biological Survey of the Delaware River Estuary."

Preceding the luncheon there will be about a forty-five minute tour of the laboratories.

During 1953 some of the projects undertaken by this foundation were: Studies on Brucellosis and other infectious diseases, the Andelot Project, Biology of Delaware Estuary.

The Haskell Research Foundation is a non-profit corporation organized to support fundamental research in all fields of science, particularly at the University of Delaware. The Foundation was incorporated in April, 1949. The Foundation is governed and administered by six trustees each serving a term of six years.

## Philosophy Head at N.Y.U. Speaks to Education Dept.

Dr. Sidney Hook, Chairman of the Department of Philosophy at New York University, is the visiting scholar in education on January 6 and 7.

Dr. Hook's opening topic was "The Vocation of Teaching Today." His final discussion yesterday was "My Philosophy of Education." Today, the visiting scholar will speak on the subjects, "The Philosophy of John Dewey," "Education in a World of Uneasy Co-existence" and "Security and Freedom."

A University Fellow in Philosophy, he was twice awarded a Guggenheim Fellowship for research in philosophy (1928-29) in Germany and Russia, and, upon the publication of his "Hero in History," received the Nicholas Murray Butler Silver Medal for distinction in the field of philosophy and education (1945).

Among his publications are: "From Hezello Marx," "John Dewey: An Intellectual Portrait," and "Heresy, Yes—Conspiracy—No."

Dr. Hook is a member of the American Philosophers Association, American Association of University Professors, International Committee for Academic Freedom and the John Dewey Society.

## Maritime Exhibition Features Old Ships

A Maritime Exhibition featuring nineteenth century ships, is currently being presented at the Delaware Art Center in Wilmington. In addition to painting and prints, there will be ship models, cannon and several groups of Chinese export porcelain decorated with ship motifs.

For several months Dr. David B. Tyler, of the University of Delaware, has been assisting Mr. H. B. duPont, chairman of the exhibit in searching for and selecting the most interesting material available.

On Wednesday, January 19th, at 8 p.m., three art films will be presented. These films are the "Lost Paradise," Hieronymus Bosch, Manet, and Paul Gauguin.

The Art Center is open weekdays from 10 a.m. to 5 p.m. and on Sunday from 2 to 6 p.m. Admission is free.

### NOTICE

The United States Air Force counseling team will talk to interested persons in the basement of the library on Thursday, January 13, from 10 a.m. to 3 p.m.

## Scholarship Fund Receives Generous Gift From Alumnus

The University of Delaware's scholarship fund has received a gift of \$10,000 from a distinguished alumnus of the Class of 1906, Mr. William M. Francis.

Final arrangements for the distribution of the funds have not yet been completed, but a \$750 grant to be known as the William M. Francis Scholarship will be awarded to an entering freshman in 1955. \$100, to be known as the William M. Francis Prize, will be presented to this year's senior engineering student, who, in the opinion of the School of Engineering faculty, has achieved outstanding scholarship, leadership, and service, and shows promise of future attainment. Other awards are being planned by Dean of Students, John E. Hocum and will be announced at a later date.

Mr. Francis has long been one of the university's most interested and loyal alumni and was prompted to make this contribution because of an awareness for the increasing need for qualified engineers. His scholarship will be offered to an engineering student, preferably a resident of Delaware.

Mr. Francis served as business manager of the school yearbook, "The Derelict," in 1906, and as a member of a number of class athletic teams. He won a varsity football letter in 1905. In scholarly and social affairs he was a member of the Engineering Society; the Delta Phi Literary Society; Sigma Phi Epsilon; the Glee Club; the Mandolin, Banjo, and Guitar Club; and the Mask and Wig Club. Mr. Francis graduated from the University in 1908 with a degree in civil engineering and completed work at Delaware toward his master's degree in the same field in 1911. He later became chief engineer in charge of construction of the facilities of Mr. Pierre S. duPont's Longwood Gardens Estate. The William R. Francis Contracting Company, which he eventually formed, built a number of schools, hospitals and other structures in Delaware and neighboring states.

## State Highway Dept. Holds Essay Contest For All Ag Majors

"The Importance of the Construction of the Delaware Memorial Bridge and the Delaware State Highway System to the Agricultural Economy of the State" is the subject of the essay for the contest the State Highway Department is sponsoring for Ag students.

The final date for submitting completed essays to the Dean of the School of Agriculture, will be April 1, 1955 at 5 p.m. Eight cash prizes, to be awarded on honor day, range from \$20 to \$170.

According to the Dean of Agriculture, George M. Worrlow, the purpose of the contest is to acquaint citizens of Delaware with the necessity for constructing and improving highways and highway facilities in order to build and maintain a strong thriving farm economy.

The student-faculty committee consists of faculty members R. O. Bausman as chairman, C. W. Hitz, C. R. Richards, D. F. Bray, L. J. Cotnoir, S. G. Gwinn and D. F. Crossan; and student members co-chairman is W. B. Evans, assisted by H. W. Cook, T. H. Metz, E. H. Ralph and D. H. Woodward. They will judge the contest on the basis of a point system.

Essays may be between 2,000 and 3,000 words. They must be type-written and double spaced on white bond paper, 8-1/2 x 11 inches. Tables, charts and graphs may be submitted in support of the narrative. A list of references will be required of all participants.

## Feb. Finds Registrar's Office Busy And Buzzing As Beehive

In February, we might say, the student's fancy lightly turns to thoughts of registration.

A rather dubious pleasure for some, to be sure, but perhaps will find it less agonizing, thinking of the harassed employees whose job it is to handle the entire business. At this time near the small Office of the Registrar, located in the basement of the Library, becomes a virtual beehive.

Within the week previous to registration, the staff of seven, thirty student helpers taking on for this period, issues no more than eight copies of each of five thousand grade reports, then proceeds to attend to four to five thousand students signing up for the second semester. This being accomplished, they may then sit back to the steady stream of Dropouts which begin to flow into the office.

The student himself is familiar with all of these duties to some extent, but perhaps he does not realize that these constitute only a small portion of an extremely busy cycle.

Only during the summer does this once let up, the rest of the year is spent tending to such matters as: preparation of Graduate Undergraduate Catalogs, the Summer Session Bulletin, and Student Directory; the advising of Korean veterans and Selective Service applicants; the filling of applications for degrees, honors and awards; the issuing of class lists, exam schedules, classroom assignments and forty statistical reports a year. In addition to keeping track of the student's academic and registration records previously mentioned, the office must deal with such things as student withdrawals, notices and notices for the committee on poor scholarship and the re-admission of undergraduate students.

This staggering list includes a large part of the work done by William H. Bohning, Registrar, and his office force, but other important service has to be mentioned. It also means that these people manage rather unofficial information bureau on the side and any one of them will tell you that this where routine ends and the unexpected follows. Questions and complaints come in daily.

Then, too, owing to the fact that practically all mail addressed to "The University of Delaware" finds its way to this office, staff occasionally has to deal with a number of unusual requests. Letters frequently come from out-of-state school children, asking for samples of the flower and copies of its petals to complete their classroom projects. Prospective students require some attention, for a young lady wrote in one letter to inquire whether the Economics course offered by the university would teach how to can peaches!

One of the most interesting letters, however, came from India not too long ago. By way of explanation it must be said that a company was formed in this country some twenty or thirty years ago, which printed and sold diplomas and degrees supposedly issued by the "International University of Delaware." After its charter was revoked, further evidence of the diploma mill began to turn up abroad.

This resulted in the letters our school has been known to receive from its "alumni" in these foreign countries who send in requests for duplicate diplomas. Recently, however, a letter from the president of an unaccredited college in India came to the Registrar's attention. It bears that this man wished to know whether he might buy diplomas for his entire graduating class from "Delaware State University of America!"

## Commuters To Use All Campus Facilities

Milt Roberts, Co-ordinator of Student Affairs, reminds commuters that they are cordially invited to share fully the campus facilities available to all students.

There are two lounges which commuters may use regularly. One, which is for women commuters only, is located in the basement of Robinson Hall, while the other, Old College Lounge, may be used by both men and women commuters along with students who live on campus.

## McThing

## ENGINEERS or PHYSICS GRADUATES

To those interested in advanced academic study while associated with important research and development in industry, Hughes offers two separate practical programs:

### HUGHES COOPERATIVE FELLOWSHIP PROGRAM

for  
Master of  
Science  
Degrees

#### HOW TO APPLY

University of Southern California University of California at Los Angeles

### THE HOWARD HUGHES FELLOWSHIPS

in  
Science  
and  
Engineering

#### HOW TO APPLY

California Institute of Technology

A program to assist outstanding individuals in studying for the Master of Science Degree while employed in industry and making contributions to important military work. Open to students who will receive the B.S. degree in Electrical Engineering, Physics or Mechanical Engineering during the coming year, and to members of the Armed Services honorably discharged and holding such B.S. degrees. As many as 100 Fellowships will be awarded each year.

Candidates must meet entrance requirements for advanced study at the University of California at Los Angeles or the University of Southern California. Participants will work full time during the summer in the Hughes Laboratories and 25 hours per week while pursuing a half-time schedule of graduate study at the university.

Salary is commensurate with the individual's ability and experience. Tuition, admission fees and books for university attendance are provided. Provision is made to assist in paying travel and moving expenses from outside Southern California.

For the Hughes Cooperative Fellowship Program: Address all correspondence to the Committee for Graduate Study

Eligible for these Fellowships are those who have completed one year of graduate study in physics or engineering. Successful candidates must qualify for graduate standing at the California Institute of Technology for study toward the degree of Doctor of Philosophy or post-doctoral work. Fellows may pursue graduate research in the fields of physics or engineering. During summers they will work full time in the Hughes Laboratories in association with scientists and engineers in their fields.

Each appointment is for twelve months and provides a cash award of not less than \$2,000, a salary of not less than \$2,500, and \$1,500 for tuition and research expenses. A suitable adjustment is made when financial responsibilities of the Fellow might otherwise preclude participation in the program. For those coming from outside the Southern California area provision is made for moving and transportation expenses.

For the Howard Hughes Fellowships in Science and Engineering: Address all correspondence to the Howard Hughes Fellowship Committee

## Nonsense

### In The Mail

Although we have recently been subjected to the same amount of "junk" mail received by other defenseless citizens in the past few months, we never realized, because we rarely bothered to read the stuff, how accurate the name is until a vile little piece of business parading under the misleading title of "Common Sense" landed on our desk shortly before the Christmas holidays.

We had heard of this item before we saw it, and we expected the scent of slave ships and Nazi gas ovens and visions of "100% White Christian American" banners waving again over American streets to rise from its pages. Sure enough, it was the same old line handed out by the bundists and the Gerald L. K. Smith's in the pre-war years, with the same old props. The ragged carcass of the phony Jewish Protocols was hung up once more in the public square, and the pre-Reconstruction portrait of the placid "nigger" was dusted off and hung beside it. Add the Red flag and you have the picture, not very new, not very interesting, and just as sickening as ever.

We are not disturbed because we fear that this grab-bag of bigotry is likely to do much damage to healthy intellects, but first of all because we had forgotten that sick minds could still find means to inflict such trash on the public, and secondly because this "hate sheet," which was until recently generally unknown in this state, was sent to Delaware and especially to the Milford area as a direct result of the school integration fight in that town. We hope that those opponents of integration who are sincere have been led to re-evaluate their position in the light of the allies with whom they find themselves willy-nilly associated.

We will not dishonor these pages with any detailed refutation of the slanders in "Common Sense." In fact, we probably will not bother to read it again. The name of Conde McGinley, the editor of the thing, was nothing to us formerly, and it has become less.

We would much rather read of old, familiar and respected names like George Washington Carver, Albert Einstein, Ralph Bunche, and a host of others, who have raised the stature of their peoples to heights where nothing so low as "Common Sense" can defile them in the eyes of God and men.

RCC

## Watch Your Step When Rushing

The busiest period of the school year is rapidly approaching for men students. Immediately following finals, the second semester will usher in fraternity rushing for two weeks, and with it, the winter social season.

In contrast to the fall semester, the freshman will be the "kings" of the campus instead of the "rats."

To some of the "rushees" the two weeks will be only a period of handshaking and cordiality. To others it will be a period of deciding which house they would like to join.

The decision of the rushees should be well thought out. Some of the things to be considered are listed by Dean of Students, John E. Hocutt, in the Rushing Brochure. They are as follows:

1. Are the men in a given group those whom you would choose as intimate friends and "brothers" for the remainder of your college career and for the years after college?
2. Does the chapter's total program encourage excellence in scholarship, gentlemanly conduct, an appreciation of cultural activities and participation in extra-curricular affairs — as well as provide a balanced social program?
3. Is the fraternity really interested in promoting the best interests of the total university as well as working toward a stronger fraternity?
4. Does the chapter have able leadership and does it have financial strength?
5. What positive contributions can you be expected to make to the program of the fraternity you wish to join? Will you give your time and effort toward making your fraternity a leading organization on the Delaware campus?
6. What does a fraternity cost? In fairness to yourself, your family and the fraternity, you should not accept a bid unless you can pay the pledge and initiation fees, the dues and the other expenses involved. What do you as a fraternity member receive in return for these costs?

The wise rushees have been looking over the actions of all the fraternities during the first semester when the members were not trying to "create an impression."

RDV

## 'Neath The Arches

By Marty Baldwin and Jack Mealey

Happy hangover . . . Well we're back. That's all we can say for the situation. Everyone looks so haggard — what we need is a vacation! Let's hope that the rest of the year will be as gay as the parties which ushered the year in.

For those of you that spent a safe and sober holiday — finishing term papers, reading those little outside nothings, and catching up on your sleep, we hope that your New Year's Resolutions will get you out of this horrible rut.

One of the most familiar carols this season seemed to be the Wedding March. Joan Frazer and Bo Foreacre started off the long procession with Franny Phillips and Dick Love in hot pursuit. Next in line were Eula Mae Bunting and Ralph Groves, followed by Lyman Sipple and Grace Hurd. Last but not least were Earl Webb and June Deisen.

Social functions and other gatherings over the holiday are far too numerous to list here — please consult the greek columns for details and results.

Santa came to town loaded with hot ice this Christmas. He left his first sparkler at Sarah Townsend's — Jimmy Smith looked a little silly in those long white whiskers. Tuey Barrow really looked the part when he played Santa to Penny Ernest. Then in rapid order Old Saint Nick bestowed his blessings on Tish Ware and Andy Sole, Al Tanyer and Peggy Yerkes, and Ginny Larson and Jim Gibbs.

At Joan Yerk's house there arose such a clatter as Humphrey Miller got stuck in the chimney while attempting to deliver his ring. It was obvious that it was not a mouse stirring in Jo Anne Wood's house, but big Bill Doppstadt creeping in with his diamond. Mush Trivits made just as much noise while presenting his ring to Doris Carmichel.

Old Chris Christerfield parked his reindeer at Mickey Blaine's door, and then Santa took over to call on Ron Smith and Florence Gray, and Jimmy Lawrence and Margie Scott. After a long hard night he pulled away with hearty congratulations for all.

Question of the Week: What OX was found in a Delt's bathtub sleeping peacefully on New Year's morning with the water running?

We want to wish everyone success and happiness in the year nineteen hundred and fifty-five.

## Letters To The Editor

To the Editor:

The University Religious Council would like to take this opportunity to extend its thanks to *The Review*, the Maintenance Department, the E-52 Players, the SGA and those commercial firms which aided in the building of the Creche on campus as part of the observance of the Christmas season.

It is the type of independent action which the Council feels exemplifies the religious spirit which the University Religious Council is striving to renew on the campus at the University of Delaware.

Gratefully,  
Jack Grant, Student Chairman  
University Religious Council

COMMON SENSE. Just before the Christmas vacation commenced, "The Nation's Anti-Communist Newspaper — *Common Sense* —" was passed to us by a friend who had received the mail. After taking a quick glance at this hate sheet, we dropped it in the waste basket and forgot it.

On the campus the next day, however, there seemed to be conversation other than discussion of this newspaper. Conversation ranged from putting the blame on Senator McCarthy, to claim that it was actually a Communist front. No one, though, seemed to consider seriously its obvious intent.

For those who haven't seen the paper and other miscellaneous sheets that accompanied it, it's just the same old method of ing their bigotry with a few factual statements. The sum purpose of the paper, you might say, is a "protest" sheet which accompanied this particular issue that reads: "I, the undersigned, protest against the white and colored integration of American society, and the filling of American public offices of trust by Zionists and Communists or their cohorts, as an abomination against GOD AND THE CHRISTIAN PRINCIPLES which are cornerstones of the American republic."

Certainly, common sense is all one needs to comprehend intolerant objectives of this publication. Should it be really feared? We think not, but nonetheless, it should be watched carefully those responsible in our government.

Just a few days before we received this newspaper, the Committee on Un-American Activities, under the chairmanship of Representative Velde, issued a preliminary report on Neo-Fascist and Hate Groups. Although the general public was only becoming aware of *Common Sense*, it seems that this committee had been watching it for quite awhile.

The report discusses the editor of the paper, Conde J. McGinley, its organization, others who write for the paper, the nature of its propaganda, and its circulation and finances.

The report concludes, "The Committee is continuing its investigation and exposure of Communist conspirators wherever they may be found. The Committee is convinced, however, that there is a concurrent need for continuous investigation, exposure, and, where necessary, prosecution, to the end that no activity of a professed nature will ever be permitted to gain substantial stature of influence in the United States."

This committee can be thanked for its work and the security that accompanies it. Representative Velde will soon be stepping down from his chairmanship as the Democrats reorganize. We hope that they continue the good work that this committee has done.

## Impressions

By Jack Evenston

Did you ever stop and really listen to what people were talking about? If you have, you've probably heard an awful lot of complaining. That seems to be everyone's favorite topic of conversation. While trying to think of a good question for this week, we realized that we might as well make these complaints public. So the question was: Do you have any complaints about the University of Delaware?

Frannie Hamilton: The only real complaint I have about the U of D is the food. There's no excuse for it. Another thing is the fact that a lot of kids go home on weekends. Outside of these two things, everything else is fine.

Dave Coccolone and Gail Bornmann: This school needs a better Student Union. The traffic situation is bad because there's no place to park an automobile. What this college needs is a good five cent beer. Seriously, we both agree that this is a good school.

Ben McLaughlin and Bob Messick: It feels so rotten to come back after a vacation. This town should have a good place to eat. Another thing is that

there should be on-campus drinking. We think there should be more out-of-state students here. Outside of these things, this is a fine school.  
Ann Lloyd and Patti Ingram: We can't think of any complaints.

# Fraternally Speaking:

## Alpha Epsilon Pi

Happy New Year everybody—hic. I hope that you have all recovered from the festivities—burp. Now that vacation is over, we can all look forward to finals. Numerous activities took place during the vacation. Eddie Podolnick and Brothers Pizor, Brodsky and Seres hauled mail for the U. S. Post Office. Many other brothers were not as fortunate, as they had to work long hours for short wages. Among these were Brothers Goodman, Spivack, Sirkin and Kates. Most of Brother Sloan returned. The name was the same, but the nose was different. The New Year was welcomed in various ways and places. Brother Handloff, after celebrating for an hour, spent New Years in a peaceful manner. He was in no shape to do otherwise. Spyres Eynouchides was fortunate enough to fly out to the West Coast to witness the Tournament of Roses and the Rose Bowl Game. Brother Kugler looked very becoming in his cheerleader outfit on New Year's.

AEPI is closing out its social calendar for the semester with an informal affair this Saturday. We have a news flash: Brothers Brodsky and Handloff are running neck and neck in their weight reducing contest. Both of them have gained ten pounds.

## Sigma Nu

Just as someone once said, all good things must come to an end, the past two weeks of plenty of sleep, good food and tremendous parties came to an end and the brothers returned eager (???) to get back to the books.

Cupid stepped in during that time and scored two hits. Congratulations go to Mickey Blaine and Bob Christfield, who are engaged to be married and also to Meg Andres and Dick Goodley, who are pinned.

Notice !!!! If anyone should happen to be on the road to Kentucky and sees a trunk lying in a ditch somewhere, please contact Craig Pepper. Don't be too downhearted Craig, maybe someone will lend you a ROTC uniform to wear.

Catching up on last minute events just before the vacation brings congratulations to Bill Green, who is now a pledge. It's good to have you with us, Bill. Congratulations also to Tom Duff, who advanced to win the finals in the intramural ping-pong and retain the trophy in the house.

We are sorry to say, pledge Bill Grier recently dropped from school to fulfill the wishes of Uncle Sam.

## Alpha Tau Omega

The vacation is over and a great time was had by all!

The biggest event of the holiday season was a New Year's Eve party held at Brother Pollitt's home in Asbury Park, New Jersey. The chapter was well represented. Two members of the "Coke Set" were also on hand; they were Brothers Gorney and Horgan. The "Ox of the Night Award" went to Brother Hopkins and date after they accounted for one chair "damaged or destroyed" in combat. While at Brother Pollitt's house some of the brothers and their dates made it over to New York City. One of the brothers who had received money for Christmas to buy a new suit literally lost the clothes off his back on

this excursion. But, it was great! Wasn't it Glenn?

A stage group also made it to the Ice Follies during the holidays. What puzzles me is that Sing Fu Lee was doing a dance routine last time I heard, not skating.

Some of the more "eager beaver" brothers spent a day of their vacation painting the Hammond Room and other parts of the house.

One of the more outstanding events was the Bay Shores reunion, which some of the brothers attended. Mike Pedison was better than ever.

## Delta Tau Delta

Lots of big excitement off campus during the holidays for almost all the Deltas at Delaware!

First of all, however, belated congratulations to our newest pledge, Lee Olmstead! And then, best wishes to Albert Tanyer, who finally bought the ring for Peggy! Good luck to both of you kids!

Art Hodges and Walt Jebens went skiing in the New England Alps last week, and Walt left his pin with Gail Partenheimer in New Jersey—congratulations, Walt. Art only landed a sore... er... pride!

Out at brother Jack Grant's open house on Christmas Eve everyone seemed to be enjoying themselves. Thanks to Jack for a swell time.

Up at Joan Avery's house in Ridley Park, Jack Mealey was tending bar, and seen through the crowds of real happy people were happy Brothers Larry Lore, Jack Davidson, Frank Davidson and Karl Buretz all living it up in great style!

Here we are, all back at school and set for two weeks' work; that is, all here except for the mysterious disappearance of one Warren Beh. Where is Beh? No one knows—bloodhounds, Marines, even the 43rd British Zouaves have been sent out, returning to 158 with no luck at all! Please, Beh, come back! All is forgiven!

## Theta Chi

The Oxen want to welcome all students and otherwise, back to the Quad; we hope you managed to become properly relaxed, or at least a little loose.

We found ourselves evicted from our warm, snug rooms at the Chi Sty when we came back; seems we've all been moved above decks to the third floor which now looks like a berthing compartment on a tramp steamer. But naturally this will improve marks and keep the house clean.

Christmas vacation was quite a thing for some of the more romantic brothers. We congratulate Judy Vannerson and Tom McKenna, who became engaged. And carnations are in order for Bert Rensing and Charlotte Hemmuth who are pinned to Brothers Tomczyk and Susi, respectively. Wicked Bill Hopson spent an industrious vacation with the light of his life, Judy Campomenosi. Bill is also pinless. Nagle lost his under the table, but Ralph Snowberger and Johnny Williams still have theirs.

Stan Wojciechowski was the Belle of the Ball at Sobo's party, and Marty Apostolico won the 50 yard free style at the New Year's Day Meet at the local YMCA. Other things too numerous to mention, happened. But we have to say that Ralph Barron got a Penny Ernest for Christmas.

## Pbi Kappa Tau

The house is still overflowing with empty Christmas cookie tins, but that is about all there is left of the holiday spirit. But if we force a glance back on the wonderful and sublime, we can see what our brothers did on their vacation.

Don Rau had a gala New Year's Eve Party, with 12 brothers traveling to New York to attend. Many "interesting" incidents marked the evening: the Philmont Kid's kiss and Brother Frey's and Pledge Dougerty's precarious ride on the ferryboat. All the brothers saw double—brother Rau and his twin brother, and many of the brothers didn't hear the bell toll in the New Year.

The brotherhood would like to offer its congratulations to two brothers who lost their hearts under the mistletoe, Ginny Larson and Brother Jim Gibbs became engaged, and Cathy Lange and Brother Tom Lennox were pinned.

## Sigma Phi Epsilon

All's quiet behind the big red door as everybody is settling down for some intense studying (Ha! Ha!). As for the brighter side of life, the reports of the various New Year parties are still coming in. Some brothers, such as Ed Gearhart, threw their own parties while others such as Danielle, Dean, Hobbs and Williamson traveled around until they made their own. Others led a mixed-up night, like Ray Hoopes and Dick Knoll—one went from Wilmington to Philadelphia, while the other went from Philadelphia to Wilmington. Of course the smartest person of all was Ken Conrad—he fell asleep at 9:30 p.m. on New Year's Eve.

As the guys came back last Sunday, they brought along some of their bad habits. For instance the card sharks, Babe Herman, Irv Rinard and Dick Armstrong are trying to earn enough money for the whole year. Meanwhile Pete Mulligan is trying to set a new record for consecutive hours of sleeping.

Congratulations are in order to Bob Trivits on his engagement to Doris Carmichael and also Lt. B. Doppstadt to Jo Ann Wood.

## Kappa Alpha

Hearing all the vacation gossip around the Kastle, it's hard to believe so much could happen in two weeks. It was two weeks of no sleep for it seems if the brothers weren't working, they were busy attending parties and dances.

The first party of the vacation was held at Peggy Tighe's house in honor of our last year's president, Jim Hoey, who was taking a break from Army life. The final party took place at the Berl residence on New Year's Eve. It was in honor of those who were still able to welcome the New Year at 2 a. m. in the morning. In between these two parties social life was just one whirl after the other. Among the royalty added to our ranks were the Duke and Duchess of York.

But there was also the serious side, for we lost six men to the cause. Congratulations to Brother Lyman Simple, who married Grace Hurd, to Pledge Earl Webb on his marriage to June Delsam, and the engaged ones, Brother Jim Lawrence to Marge Scott, Brother Dave George to Emma Lou Grey, and Pledge Ron Smith to Florence Shaw; and to Bob Oggenfuss who pinned Georgeanne Voshell.

## A Campus-to-Career Case History

## "Always something new"

"Different types of work appeal to different men," says Donald O'Brian (A.B., Indiana, '50), in the Traffic Department with Indiana Bell Telephone Company. "For me, I'll take a job that keeps me hopping. And that's just the kind of job I have."

"You'd think that after two years I'd have all the variables pinned down. But it doesn't work that way. When you supervise telephone service for thousands of different customers whose

needs are always changing, there's always something new coming up.

"I started with Indiana Bell in 1952, after two years in the Army. My training program exposed me to many different kinds of telephone work—customer contact, personnel, accounting, operations. I saw a lot of jobs which looked as interesting as mine. As much as I like the kind of work I'm doing now, I bet I'll like my next spot even better."

Don's enthusiasm for his job is pretty typical of how most young college men feel about their telephone careers. Perhaps you'd be interested in a similar opportunity with a Bell Telephone operating company, such as Indiana Bell... or with Bell Telephone Laboratories, Western Electric or Sandia Corporation. See your Placement Officer for more information.

## Coaches, Officials Select Outstanding '54 Soccer Players

Alden H. Burnham, vice-chairman of the All-America Soccer Committee for Pennsylvania, New Jersey and Delaware, has announced the leading players in his area for the 1954 season. Players were chosen on the basis of a rating system involving the votes of all coaches and officials.

Penn State and Temple won three berths each on the first team. Booters from Allegheny, Ursinus, West Chester, Pittsburgh and Swarthmore captured the remaining berths on the All-Pennsylvania, New Jersey and Delaware team; the latter three schools also have men who received a second team selection.

Delaware, Drexel, Franklin and Marshall, Princeton, Stevens and Slippery Rock also were represented on the second team.

Men on the 1954 All-Pennsylvania, New Jersey and Delaware team who were also selected on last year's team are: Willard Thompson and John McLaughlin of Delaware; James R. Monahan and Nicholas Cordero of Princeton; Leonard Oliver and John Dunn of Temple; Robert Heisler, Michael Roman and James Oliver of West Chester; Richard Packer and John Pine-zich of Penn State; Fortune J. Odenhal of Franklin and Marshall; Earl Fair of Slippery Rock; Constantine Inglessis of Swarthmore; and Gabor Czako of Pennsylvania. Of these, only Temple's Oliver and Dunn are first team repeaters.

### First Team

G—Donald Clark, Pittsburgh  
RF—Robert Siemons, Allegheny  
LF—Paul Dierks, Penn State  
RH—Albert Didrikson, Temple  
CH—Sergio Rey, West Chester

IR—Jack Dunn, Temple  
CF—Richard Packer, Penn State  
IL—Larry Zartman, Ursinus  
OL—John Pinezich, Penn State  
(Continued on Page 7)

## Grapplers Face Virginia At Field House Tomorrow

Led by team captain Dale Boyd, the Delaware wrestling team will face the University of Virginia in the first home meet of the current campaign on Saturday at 1:30 p.m. in Carpenter Field House.

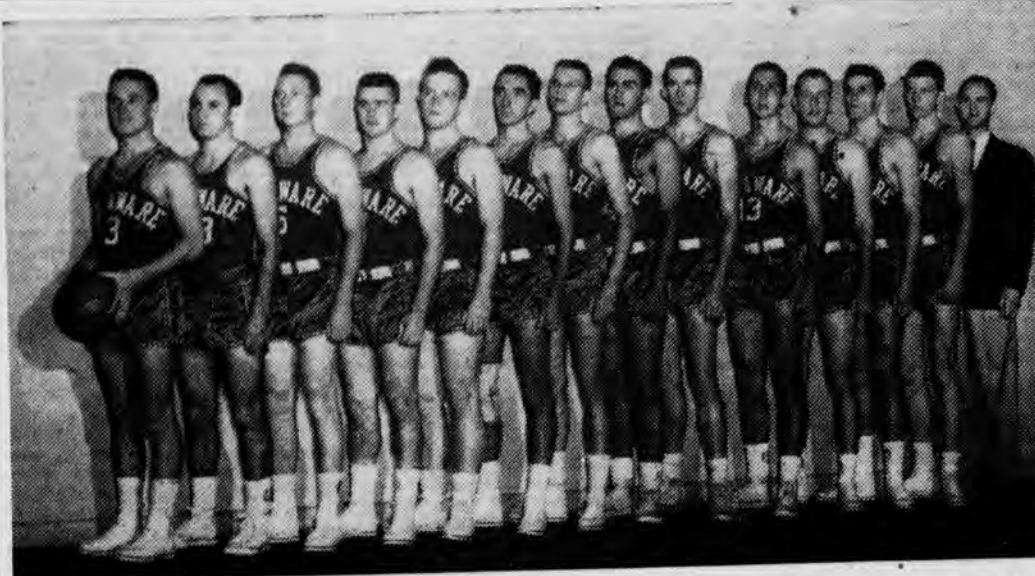

The mountain-men were the Southern Conference Champions last year and they should prove a tough match for the Hens.

The Blue Hen grapplers are pointing for the first win of the season, after dropping the season opener to Lafayette and tying a dual match with Haverford. Boyd, representing the university in the 123-pound division, will try to maintain his unbeaten status. Delaware matmen met the host Charlottesville squad who handed the Hens a 27-3 lacing.

The Blue Hens in their last appearance before the holidays tied Haverford 14-14 in a match at Havertown. The Hens started fast and strong by winning the first four out of five matches.

Captain Dale Boyd began the scoring for the Hens when he decided his opponent, Bill Bauer lost a decision in the 137 pound class and wiry Eddie White scored a decisive pin over his man to give the Blue and Gold an 8-3 lead.

Hal Ladd and Tom Baker continued to increase this lead by scoring decisions in the 147 lb. and 157 lb. classes respectively. This increase made the score 14-3, but Haverford came back strong to score decisions in the next two weights and in the heavyweight class.

## How Well Do You Know Our Hoopsters?

To enlighten the avid basketball fans who follow our teams fortunes with great zeal we present a brief, minute thumb-nail sketch of the varsity basketball players. The information includes class, age, height, position, high-school, academic major and favorite shot. Left to right:

**Clyde Louth**—sophomore . . . 20 . . . 5'8" . . . guard . . . Salesianum High . . . Accounting . . . set shot.

**Neil Keough**—junior . . . 20 . . . 5'8" . . . guard . . . transfer from Springfield College . . . Political Science . . . set shot.

**Jack Waddington**—junior . . . 20 . . . 6'5" . . . center . . . Salem High School . . . Agriculture . . . set shot.

**Coach Irv Wisniewski**

## Hen Gridders Slate Rutgers In '55; Mules, Rams Missing From Schedule

The Scarlet of Rutgers re-appears on the 1955 Delaware football schedule after an absence of 18 years. Coach Dave Nelson announced today. The two teams will meet on October 29, 1955, at Rutgers Stadium.

The resumption of competition between the two schools renews an old rivalry which dates back to 1901, when the Blue Hens scored a 6-5 win over the New Jersey squad.

The Rutgers series is the oldest of all series with teams currently on the Delaware schedule. Bucknell, faced for the first time in 1908, ranks as the next in line.

In 15 games with Rutgers, Delaware has acquired three wins while losing nine games and tying three. All three stalemates ended, 6-6. Eight consecutive games, played from 1901 to 1908, gave each team three wins, with two contests ending in ties.

Delaware last defeated Rutgers in 1906, when the Blue Hens salvaged a 4-0 duel. Since then, Rutgers has scored seven shut-outs in the nine games that followed.

West Chester and Muhlenberg do not appear on the eight-game list of Delaware opponents next year. Lafayette, faced late in the season this year, will be the second team to meet the Hens in 1955. Temple, the third team on the list in the past campaign, will face Delaware at Philadelphia on November 12.

**1955 Delaware Football Schedule**  
October 1—Lehigh, at Newark, Del.

October 8—Lafayette, at Easton, Pa.

October 15—New Hampshire, at Newark, Del.

October 22—Connecticut, at Newark, Del.

October 29—Rutgers, at New Brunswick, N. J.

November 5—Gettysburg, at Newark, Del.  
November 12—Temple, at Philadelphia, Pa.  
November 19—Bucknell, at Lewisburg, Pa.

## Blue Hen Of The Week

Jack Waddington, 6 feet 5 inch towering center on Delaware's basketball team, played an inspirational game against Cortland in the Hofstra Tournament in New York, which was won by 79-75. He was the high scorer for the game, with 23 points. He scored eight field goals during the game and eight markers in the overtime, as well as completing 7 free throws in 11 attempts.

Coming from Salem High School, Jack, now a junior, has improved his game considerably since his days on the Blue Chicks Basketball Team. At present he holds two individual records. In free throws, he scored the high mark in the Hofstra game by completing ten out of twelve.

Starting in all eight games, Jack has averaged 37.2% in field goals, 68.5% in free throws, and 12.6 rebounds per game.

## SPORTS SCHEDULE

### WEEK OF JANUARY 8-14

#### VARSITY

Basketball	Jan. 8 vs. Drexel (Home — 8:30 p. m.)
	Jan. 10 vs. Ursinus (Away — 8:30 p. m.)
	Jan. 12 vs. Haverford (Home — 8:30 p. m.)

Wrestling	Jan. 8 vs. Virginia (Home — 1:30 p. m.)
	Jan. 14 vs. Swarthmore (Home — 7:30 p. m.)

Swimming	Jan. 8 vs. Lehigh (Home — 2:00 p. m.)
----------	---------------------------------------

#### FRESHMAN

Basketball	Jan. 8 vs. Drexel Frosh (Home — 6:45 p. m.)
Swimming	Jan. 8 vs. Lehigh Frosh (Home — 2:00 p. m.)
Wrestling	Jan. 14 vs. St. Andrews (Home — 6:30 p. m.)

## Courtmen Take On Drexel After Defeating Cortland In Hofstra Tournament

After a rather disastrous journey to Hempstead, N. Y., over the holidays to compete in the Hofstra tournament, the Blue Hen quintet will open its campaign to regain its 1953 status as Middle Atlantic Basketball League Champions tomorrow night when they meet Drexel at Carpenter Field House. The Hens finished second in league competition last topped only by Drexel.

Coach Irv Wisniewski stated recently that the Hens will be playing in their own class and that they should make a good account of themselves in the league.

At Hofstra, the Blue Hens started the tournament successfully as they upset second-seeded Cortland State Teachers College by a 79-75 score. Jack Waddington and Jim Smith sparked the overtime drive which enabled the Hens to win.

In the second game of the tournament a strong Hofstra team won easily by a 115-68 score. Hofstra's sensational Bill Thieben accounted for most of the damage. The Hens just couldn't seem to get started and took their worst beating in their history. Jim Smith scored at will again, but not enough to overcome such a margin.

In the third and final game for Delaware Blue Hens a strong Marietta won, 76-65. Dallas Green and Don Miller showed plenty of ability.

Lafayette won the Hofstra Tournament by defeating Hofstra.

Wisniewski thinks that the team needs more experience and is confident that the rest of the season should be successful.

## Mermen Seek First Win Of Season Against Lehigh

Tomorrow afternoon the Mermen of Delaware go after their first win of the season as they meet Lehigh in Taylor Gym. Lehigh should prove to be very strong competition as their present team shows decided improvement over last year's.

Both Delaware and Lehigh go into the meet with one lost. Delaware losing to Lafayette and Lehigh to Cornell. Delaware showed up very well against Lafayette, but considerably weaker than last year due to the loss of key performers.

In 20 encounters with the strong Easton, Pa. opponent, Delaware has won ten, lost nine and tied one. The tie came in 1954, a feat which was heralded by the Delaware swimmers as one of the highlights of the past season.

Two of the Delaware Mermen competed in the Delaware State Championships held at the YMCA on New Year's Day. John McDaniel won the 100-yard breaststroke trophy event and Marty Apostolico competed in the 50-yard freestyle events.

## SPOTLIGHT ON SPORTS

By DAVE TOMPKINS

"I'm not discouraged, and I don't think that any of the boys are," says "Whiz" Wisniewski about his basketball team's current 2-6 record. He blames the Hens poor showing on the fact that "the boys just aren't hitting." He attributes this to the number of inexperienced players.

The cagers' coach pointed out that opponents have been making up to 47% of their shots while the Hens' many times have failed to hit on 30% of the same number of attempts. You just can't win that way. "Whiz" believes that the Blue Hens continually outplayed Marrietta on the floor, but that they just could not connect — even on their lay-up shots.

Player inconsistency has plagued the Hens this year. The only consistent performers to date have been sophomore Jim Smith and co-captain Pete Kelleher. Jack Waddington has been hot and cold, as has been Clyde Louth. Dal Green and Don Miller have not come up to expectations.

With the Middle Atlantic States Collegiate Athletic Conference (Southern Division) competition coming up, "Whiz" is optimistic. "I think we'll do pretty well," is his comment. He considers the teams in the league (Drexel, Delaware, P.M.C., Swarthmore, Ursinus and Haverford) of about equal stature. So far this season the Hens have been playing over their heads.

In playing last year's conference champs, Drexel, tomorrow night at the field house, Delaware will be defending its second place position. Previous to this the Hens had captured two consecutive league championships.

The freshmen team will also risk its second place position in the yearling division against the champion Drexel frosh. This year's varsity star, Smith, was in second position among individual scorers with 185 points, 95 behind Bob Buckley — now on Drexel's starting five.

**QUICKIES . . .**  
The Bucknell Bisons meet Miami and Harvard in grid competition next fall. We think they'll regret it . . . Coach Ken Steers is looking for boys with which to build another great track team . . . All promising young runners and last year's lettermen are asked to contact him . . . Whitey Burnham, coach of the wrestling team since 1949, has guided his subjects to 22 wins, 18 losses and three ties in that period. The all-time Delaware record extending back to 1942 is 35 victories, 32 losses and two ties.

## Frosh Teams To Meet Drexel, Lehigh After Splitting Cage and Mat Contests

The freshman winter sports program gets into full swing tomorrow as the frosh swimmers open their season against Lehigh, while the wrestlers and cagers have already experienced some pre-vacation competition.

After solidly drubbing the Brown Prep quintet 70-55, on December 17, the Frosh basketball team hopes to add another victory to their 2-1 record tomorrow when they take on Drexel frosh. Against Brown Prep, Don Hutton and Paul Flood led the Hens' scoring with 17 apiece. Also in the double figures were George Mc-

Farland and Dick Atkinson with 10 apiece. The game's high scorer, however, was Sweeney of Brown Prep. The entire Chick squad saw action as the second half saw the contest turn into a rout.

The frosh swimmers pit their well-balanced forces against an experienced Lehigh freshman squad in their first scheduled outing. Coach Harry Rawstrom said that the meet should show just how far the continually improving freshman have progressed as the Lehigh mermen should give a lot of opposition.

A J.V. wrestling team composed of four freshmen and four sophomores, and coached by "Whitey" Burnham, lost a match to the more experienced Haverford J.V.'s by a close 20-16 score. 123—WILLIAMS (D) forfeit  
130—WIG GENHORN (R) pinned HORN (D) 3:57

## Delaware Sharpshooters Take Third in Rifle Meet

The University of Delaware ROTC Rifle Team placed third in a six team small bore rifle match with Toledo, Scranton, Loyola of Baltimore, Washington and Jefferson and Drexel yesterday.

Washington and Jefferson took first place with 1868 points, Toledo was second with 1831 points and Delaware scored 1830 points to take third place. Drexel with 1629 points, Loyola of Baltimore with 1696 points and Scranton with 1515 points placed fourth, fifth and sixth respectively.

The matches were fired with caliber .22 rifles and were of the postal type. Each member of the rifle teams fired ten rounds each in the prone, kneeling, sitting and standing positions. The top five scorers fired by the individual members of the University of Delaware ROTC team were:

N. A. Messinger	373
H. M. Simmerman	372
J. G. Mundy	363
F. Weinstein	362
J. E. Epps	360
Team Total	1830

## Secretarial Skills Guarantee Success In Business World

What will be your "Open Season" to the job you want after graduation? Most girls who go to college in order to prepare for a career in business take every other field except the one with the most opportunities. Courses in secretarial sciences should be taken as electives by most of the girls who are planning to work after college.

A secretary's job is more than typing and shorthand. In many companies a secretary takes little dictation except on highly confidential matters. A secretary screens mail, telephone calls and visitors and decides which matters are of sufficient importance to receive the attention of her superior.

She handles most correspondence on her own initiative; many times letters are signed and released without reference to her superior. The secretary makes arrangements for meetings, prepares agenda, arranges her boss's itinerary and makes transportation and hotel reservations. These are just a few of the many duties of the indispensable secretary.

The critical shortage of engineers is well known, yet today it is easier for an employer to find a graduate engineer than a secretary with a degree. The Engineering Department of the Atlantic Refining Company, for instance, is asking for more secretarial trainees than cadet engineers.

Personnel managers are urging girls to take their majors from the sciences and arts but to take their electives from the business curriculum. The way into a job, and the way up, is to start as a secretary.

## New Programs

(Continued from Page 2)

Particular interest in recent years. The other college program will allow students to enroll at the University of Delaware for two years rather than for the customary four years. Entering college, freshmen may select terminal certificate programs in the Schools of Arts and Science and Engineering for two-year courses in accounting, general business, secretarial studies, general arts and science, biological sciences, chemistry or technical aide.

This program is designed for students who, for some reason, may not be interested in receiving the four-year college degree. According to a recent study of colleges throughout the country, only about one-half of all entering college freshmen complete more than two years of study. However, the new program may be arranged so that students may transfer to a four-year and receive a bachelor of science or arts degree.

In almost every case the courses taken by students in the two-year plan will be the same courses offered to the general undergraduate body. In a few instances, special classes to meet specific needs in the two-year program have been devised. Dean Squire emphasized that all of the subject matter will be of regular college level, with no sub-standard material included.

The curriculum for study in biological sciences is of considerable flexibility. It will offer cultural and educational values for nursing education students, workers in industry who have an academic degree but who have not majored in biological sciences.

es technicians who have no degree and others interested in this field.

The chemistry curriculum will qualify chemical plant and laboratory workers for semi-professional ratings such as technician or analyst. The required courses, selected from the standard requirements for the B. S. degree, simplify the transfer of a two-year student to the regular

four-year course.

The technical aide program is designed for students who wish to pursue technical studies beyond the high school level. This course prepares graduates for work in drafting and design, equipment testing, cost estimating, surveying, construction, laboratory work, production, technical writing and other activities.

*"IT'S TOASTED"  
to taste better!*

STUDENTS ARE ECSTATIC about Luckies. That's the word, straight from the latest, largest college survey ever. Again, the No. 1 reason Luckies lead in colleges over all other brands, coast to coast—border to border: Luckies taste better. They taste better, first of all, because Lucky Strike means fine tobacco. Then, that tobacco is toasted to taste better. This famous Lucky Strike process tones up Luckies' light, good-tasting tobacco to make it taste even better. So be smart, like the student in the Doodle above, titled: Lucky smoker swinging in hammock. Swing to Luckies yourself. Enjoy the better-tasting cigarette . . . Lucky Strike.
