NEWARK, DELAWARE, JANUARY 18, 1916

NUMBER 13

DELAWARE OPENS BASKETBALL SEASON WITH VICTORY

BLUE AND GOLD FIVE PILES UP SCORE OF 42-16 ON BALTIMORE "POLY"

Delaware opened her basketball season last Friday night when she defeated the Polytechnic Institute team of Baltimore in a rather one sided game.

In the first half both teams were held to a small score, Delaware leading at half time 14-8. Many fouls were committed in this period and the foul shooting control was the only bright spot in this half.

At the beginning of the second half both teams began to play a more aggressive and open game. As a result of this the "Blue and

Gold" boys "slipped" in many field goals on their Maryland opponents.

After the varsity had secured a safe lead in the final half, Coach McAvoy substituted the scrub team. During the time that these men played they scored several goals from the field and at the same time held "Poly" safe.

From the showing made by the men who played in this first game, Delaware has a bright prospect for a successful season.

The foul shooting of Wills was the feature of the game.

Plans for Next Year Being Discussed

The Committee on Instruction of the Board of Trustees met at Dover on January 11, with the view to discussing informally the plans for the next session.

Chapel Talks

On Tuesday morning, January 11, Professor Srager spoke in chapel on the subject: "The Bactericidal Effect of Ultra-Violet Light Rays." He told how these peculiar rays, about which very little is known, had the property of destroying the various bacteria dangerous to human life. He said that these rays were now in use in some places for purifying water in swimming pools, and for sterilizing milk in large quantities. "For such purposes they are both cheap and effective," he said, "and a great future awaits the man who can discover how best to apply these rays."

On Friday morning, January 14, Professor Preston gave a chapel talk on the subject of hobbies. He said that a man's regular work by which he earned his livelihood was his vocation, but that his hobbies were his avocations. He said that no one should prepare to spend his life in merely earning money, but that everyone should have a hobby of some sort. He suggested some forms of hobbies that have proved popular, and showed that it was necessary for everyone to have some sort of a hobby to divert his mind from his regular work.

Another Alumnus Making Good

Mr. Ralph Jacobs '12, holds an important position as Civil Engineer with the Pennsylvania Railroad Company. He says that the high rank which the graduates of Delaware take as engineers is due to the thoroughness of instruction received while in the college.

The faculty of Gettysburg College has passed a resolution that no class or group of students shall put up posters or proclamations against any other class or group of students.

Mr. Dole to Lecture on January 18

The lecture by Mr. Charles F. Dole will take place on the evening of January 18, at 8 o'clock. His subject will be "The United States as a World Power." The public is cordially invited.

Mid-Year Examinations to Begin Thursday

The mid-year examinations began on Thursday, January 13, and will extend to Saturday, January 22, inclusive.

Prominent Alumnus Weds

The wedding of J. Harvey Whiteman, '85, and Miss Evelyn Stone Nivin, of Landenburg, Pa., was solemnized Saturday morning, January 8, at St. Mark's Episcopal Church, Philadelphia.

Mr. Whiteman is a prominent lawyer in Wilmington. He was formerly Secretary of State and has been a trustee of Delaware College for a number of years.

Women's College Notes

On Tuesday, January 11th Miss Rich gave a talk before the Middletown New Century Club on the "Value of the Circulating Library." The following talks were given by Miss Rich before the farmer's Institute under the direction of Mr. Levi Cooch: January 13th at Talleyville on "Present Day Truths in Education;" January 14th at Bear Station on "Why Have a Parent Teacher's Association."

Two interesting chapel talks were given last week at the Women's College, one by Dean Robinson on Russian Opera and another by Miss Twitchell on the political relation of Japan and United States.

The final try-outs for the Shakesperian Play, Twelfth Night resulted in the following selections, Miss Campbell — Olivia, Miss Twitchell — Maria, and Miss Pauline Smith — Viola.

Miss Elizabeth Jefferson conducted a girls' club at Lincoln City. The club closed on January 13 with an enthusiastic meeting of both parents and students.

Meeting of the Rhodes Scholarship, Committee of Delaware

The Rhodes Scholarship Committee of Delaware held a meeting in Wilmington on January 12. The next appointment from Delaware to Oxford will be made in 1917. This is a big prize. The scholarship is worth \$1500 a year and it continues for three years. Scores of our students ought to begin to plan to take the examination in next October. The examination is given every year at Delaware College in October. Georgetown has sent three representatives to Oxford University, a record that is perhaps not equalled by any town of the same size throughout the English speaking world.

Those present were: Chancellor Charles M. Curtis, '77, Charles W. Bush, '03, Superintendent C. J. Scott, and President S. C. Mitchell.

Delaware Students Hear Senator Burton

Former United States Senator Theodore E. Burton, of Cleveland, O., addressed the students of Delaware College and the Women's College on January 13. The meeting was presided over by Governor Charles R. Miller.

Senator Burton chose as his subject "The Public Man and the People." He first advised the students to be systematic in their work; to stick to one thing and not try to be a Jack-of-all-trades. He urged the students to take a greater interest in public affairs, and outlined his idea of a true public man. He advised the students to think national thoughts, and to get away from the dust-heaps of localism. Senator Burton described the public man as one who was affable and kind, neither vindictive nor a hypocrite; as one who was progressive, not afraid of innovations,—one who saw that while the world was changing political customs and institutions must change. He said that public service should demand the services of the best men, and that there was great danger in the irresponsibility of the average citizen who gave no careful study to either conditions nor candidates. The speaker concluded with a reference to the responsibility of the times, which demand that men in charge of our public affairs should be men of character and integrity.

The Latin Department of the University of Pittsburgh has on exhibition what is no doubt the most representative collection of Roman antiquities in Pittsburgh. A large part of the objects belong to the department, having been purchased from the collection of the late Professor Olcott of Columbia University. The collection is of particular service in connection with the courses in Roman life, etc., given by the Latin department.

Selection of the Castle for "Twelfth Night"

A provisional selection of students for the cast of "Twelfth Night" has been made and the first general rehearsal was held on Monday night, January 17. The tentative cast follows: The Duke, E. E. Plumley '19; Sebastian, Herman McKay '19; Antonio, Howard Bramhall '16; the Sea Captain, Francis Proctor '19; Valentine, L. R. Witsill '17; Curio, S. D. Loomis '17; Sir Toby Belch, I. Reynolds '18; Sir Andrew Auguecheek, George Wilson '19; Malvolio, Homer Savin '18; Fabian, R. B. Wheeler '18; Festa, L. B. Steele '17; Priest, Morris Mitchell '18; Servant, G. M. Lang '19; Olivia, Marion Campbell '18; Mario, Thera Twitchell '19; Viola, Pauline Smith '19.

Dance to be Given February 25

On Friday evening, February 25, the Town and Gown Club of Newark will give a dance to the townspeople of Newark. The club is composed of prominent citizens of Newark and several members of the faculty.

Dr. Mitchell Speaks Before Civics Class

On January 12, Dr. S. C. Mitchell spoke to the Senior Civics class of the Wilmington High School. He talked on the American publicist, Francis Lieber.

Delta Phi Elections

At the last meeting of the Delta Phi Literary Society the following officers were chosen for the ensuing term: president, James E. Brayshaw; vice-president, G. C. Brower; recording secretary, W. L. Haley; corresponding secretary, J. L. Meyers; treasurer, L. B. Stayton.

The next regular meeting of the society will be held on Monday, January 31. The program for that meeting will be announced later.

Plans for Summer School

Plans for summer school have been practically completed. Professor George E. Dutton has practically completed the catalog for the Summer School and it will be issued in a short time. Professor George S. Counts, who holds a new chair of Psychology and Education will be present and will give courses in Psychology and Education. Professor Mary E. Rich will be dean of the women at the Summer School. The faculty is expected to be practically the same as last year. Residence Hall will again be used by the women this year.

His Sanity Established

"Oh, you're crazy," shouted one. "I'm not crazy!" denied the other. "But you are crazy!" vociferated the first. "I can prove that I am not crazy, and that's more than you can do," came back the rejoinder. "Let's see you prove it, then." Whereupon the man who was accused of being crazy pulled from an inside pocket the discharge papers from a nearby insane asylum.

—George Washington Hatchet

Football Schedule Arranged

The following football schedule has been arranged by Manager Ewing and will be presented to the Athletic Council tonight for its approval.

October 7, P. M. C. at Chester, October 14, Western Maryland at Newark.

October 21, Haverford at Newark. October 28, Stevens Institute at Hoboken.

November 4, Dickinson at Carlisle. November 11, St. John's at Newark.

November 18, Gallaudet at Newark.

November 30 (Thanksgiving) Mt. St. Mary's at Newark.

The prospects for next year's football team look very bright at present. Taylor, Crothers, and Newton are the only men who will be lost by graduation. Crothers, who played a star game at center last season, is considering returning to Delaware next year to take up a special course in chemistry. He would be eligible to play next year, if he should return, as he has played only two years of 'varsity' football. Taylor and Newton will be greatly missed, but men ought to be found from the scrub team and incoming freshman class to fill their places. The other members of the team will have had more experience and should be better than ever.

Mr. Kister Recovering Rapidly

Leroy Kister '18, who was hurt in a wreck on the B. & O. Railroad writes that he is rapidly recovering. One of the doctors at the Chester Hospital said that the break in Kister's hip was healing more rapidly than any other similar case he had seen. Kister is now able to sit up and he expects to go home next week. We trust Kister will be with us soon; he is one of the most popular fellows to be found on the campus.

To Begin Erection of New Science Building

Ground will be broken for the new Science Building as soon as the weather opens, perhaps in March. The building will cost about \$250,000, and will contain laboratories for Chemistry and Biology, while all of the Agricultural activities will be centered there.

To Exchange Sites

A bill providing for the exchange of the present site for the Post Office building for one more centrally located has been presented in the United States Senate by Senator du Pont. This plot is in the midst of land lately bought by Delaware College and seriously interferes with the plans for its development.

JANUARY 18, 1916

SENATOR BURTON'S SPEECH

When a great man talks, you feel as tho you were sitting on air. It is the same when a Strad sobs under a magic touch or the sunbeams dance in a Gothic choir. For the moment you feel lifted out of yourself. You are freed from the entangling meshes of petty prejudices and for a while you see life steadily and see it whole."

It was so when Senator Burton spoke the other day. From the moment when he walked to the front of the platform and without any introduction (introductions are the abominations of literature!) began to talk, until the last word of his speech had sounded its echo in our minds, you felt as tho you were on a platform a little higher than the ground glancing here and there over the landscape of life and picking out its beauties. It was a practical speech; but it possessed a beautiful kind of practicability because it held out a pointed finger toward Life—the most beautiful things we know.

Too much credit cannot be given to Dr. Mitchell for bringing these great men to us. The memories of what they have said will be with us thru the years. They have been thru what we have been thru; they have worked as we are working; they have passed thru the darkness and have come out in a clearer light.

NEED FOR AN INFIRMARY

Delaware College needs an infirmary. The necessity of a properly equipped place to take care of the sick was brought home to most of us recently when the epidemic of grip embraced a large percentage of the student body. Medical authorities have now concluded that this disease is contagious. Only two or three students at first were attacked with the grip. In ten days' time more than forty men were forced to go home suffering from this malady. Undoubtedly an infirmary will

be a part of the new development of the college. It is possible, however, that the Stoll property could be equipped now to serve the present need until the new plans have been realized. This property, located at the corner of South College and Delaware avenues, presents a neat and homelike appearance. And to furnish this building for use as an infirmary would not necessitate any extra expense beyond that for equipment that could be used in the new buildings as soon as they are built. Temporary quarters would be of great service to the student body.

Among the Colleges

The Toronto University recently commemorated the one hundred years of peace between the British Empire and the United States by conferring honorary degrees upon a number of distinguished Americans, among them being Judge Alton B. Parker and Dr. Nicholas Murray Butler.

The business fellowship plan at New York University takes in for the coming year fifteen students chosen from various colleges and universities to receive special business training. A number of the larger business establishments and banks will take these students and co-operate with the New York University in furnishing them special opportunities to learn business methods. There were 200 applications from college men for these fifteen positions.

President Hibben, of Princeton, appealed to the graduates of the institution to discontinue the free serving of beer in the reunion tents at Commencement time.

Rutgers is seeking some means to eliminate cribbing in examinations. The Honor System is not in operation in Rutgers, and the students are wondering if this system would not reduce dishonesty in examinations to a minimum, if not obliterate it entirely.

NOTICE—The joint owners of Delaware College, Hastings and Weigle, have decided that the name, Delaware College, is not a fitting appellation. Any suggestions will be greatly appreciated by the new owners.

The Women's College of Delaware

Girls who expect to complete courses in Delaware High Schools next June should plan now to secure a thorough collegiate training at the newly established and rapidly growing Women's College of Delaware. Although it has been in existence only a little over one year, the college has an enrollment of eighty-five students from several states. Tuition is free to all Delaware students. New buildings, large and capable faculty, beautiful location, individual instruction.

Three Departments:

Arts and Science—Designed to give a broad cultural training.

Education—Intended for those who wish to teach in the schools of Delaware and neighboring states.

Home Economics—Intended to give students training in home-making and in teaching Home Economics in the schools.

LOCALS

Have you read the book entitled "Reveries of a Bachelor" now in the possession of "Ernie" Wilson. Johnnie Jones read it and here is his testimonial: "Boys, I tell you it is real; I took a picture of one of my girls down from the wall last night, and the other comes down tonight."

Alex Crothers has cut his letters from eight to two pages.

By the way, what is your hobby?

How about the cute one "Gimpy" Smith slipped us in making out the schedule for examinations. He has arranged for everyone to have an exam on the Friday and Saturday of the last week so that they cannot slip off home. Then he arranged all of his exams for the first three days of next week so that he can spend a whole week home. This is the information he gave his class last week. Get your mind on the race, "Gimpy."

Hey, Morrison, where is the new Overland car the "foulks" were going to get for Xmas—that one that you were going to "get in" on the family license? L—O—Eddie.

In a week or so it will not be a strange sight to see a Freshman bidding the fellows bye-bye and digging for the railroad station.

Dr. Sypherd when going over the list of flunkers in spelling in the English 7 class, asked "Runt" de Valinger when he could take his re-examination in this subject. "Runt" answered, "Any afternoon Doctor, I am a Senior Civil Engineer."

Stanley Loomis and Prof. Koerber haven't a thing on us when it comes to "seeing things" at the W. C. D. How about the Indoor Meet fellows, thru the crack in the covered window.

Did you read in the Blue Hen where Morrison '16 elected himself the funniest men in his class? Applause from Madison street only. He must write the good locals for the Review.

Last Tuesday our old friend Zack delivered a chapel address on the subject of Bacteriological Effect of the Ultra-Violet Rays. Before he started he explained that his subject was one that very few people knew anything about. His close application to his paper soon convinced every one there wasn't a single person in the whole room who knew the first thing about the aforementioned Bacteriological Effect, etc.

Prof. Hillegass is rapidly convalescing from an attack of La Grippe. A close hair-cut evidently hastened the cure.

Beauchamp's New Year Resolution
I hereby solemnly resolve not to call on more than one (1) girl each week-night, and two (2) on Sundays.

The Junior Civils are endeavoring to figure out, with Doc Reed's help, why it is easy to catch a tub full of soft water when it rains hard.

The daily press cites an example of a man being asphyxiated from the exhaust gases of his car. It's a safe bet his car wasn't a Ford, or the paper would have said choked.

The Mid Year grind is here at last,
And no one's happy 'til it's past,
Ten days of misery and toil,
And burning of your midnight oil;
So get your books and bone real hard
For good marks on the report card.

The perpetrator of the above is at present unknown, but we hope soon to find him and bring him to time.

Reynolds and Hudson were seen in Wilmington last week. It is understood that during their sojourn along the "Great White Way," they patronized four movie shows and two quick lunch counters. They also inspected the dining room at the du Pont Hotel (thru a window.)

It's almost time for Dr. Mitchell to begin to follow out his plans for chapel talks by some of the distinguished Seniors in our midst.

According to recent reports heard in Wilmington gun-powder is going up.

According to a Junior Engineer, studying resultant forces on a pool table is different from working them out graphically on paper. No need to "consult the text" in the former.

When we consider the fact that the renowned Seniors, (best class since '96, by their own confession) step into the tide of world af-

fairs next June, we understand perfectly why the earth will make its annual trip next year in one day less than it does the present year.

We are told that Jimmie Brayshaw was taken sick with acute indigestion following his Christmas dinner. Two doctors were called in, and their differences of opinion probably saved Jimmie from serious complications. One doctor wanted to operate but the other one thought they ought to blast. While they argued Jimmie's pain left him.

Steele—A girl smiled at me yesterday.

Jones—"Well, that showed she had a sense of humor."

Freshie—"I had a ride in a 'twin six' last night."

Soph—"That's nothing. Morris Mitchell travels around in 'twin twelves' all the time."

Doc Reed was telling a class recently about a turtle that walked around for two days after its head had been cut off. Evidently the turtle didn't realize that it was dead.

Mr. Dutton has become quite a connoisseur on gentlemen's clothing. Unless you appear in one of his conferences with a dress suit, immaculate linen, and highly polished footwear, you will probably be reprimanded very severely.

DELAWARE COLLEGE

Now is the time for high school students to be making their plans for attending college next year. Why not go to a college near your home, a college which your friends are attending, a college which is growing faster than any other in the East? Delaware College offers splendid opportunities to the earnest students who come to it after completion of a full high school course. Tuition is free to all Delaware students. Thirty-one instructors to 232 students (one instructor to about every eight students) gives the students the benefit of individual instruction.

THREE DEPARTMENTS—Arts and Science, Agriculture, and Engineering

all leading to degrees. Adequate Libraries, Work Shops, and Experimental Farm. Faculty of men trained in best universities of this country and Europe.

The Brisk Smoke—"Bull" Durham

When you see an alert-looking young man in a lively argument roll a "Bull" Durham cigarette—it's the natural thing. He likes to punctuate a crisp sentence with a puff of "Bull" Durham. His mind responds to the freshness that's in the taste of it, and his senses are quickened by its unique aroma. A cigarette of "Bull" Durham just fits in with keen thinking and forceful action.

GENUINE "BULL" DURHAM SMOKING TOBACCO

Made of "bright" Virginia-North Carolina leaf, "Bull" Durham is rich, fragrant, mellow-sweet—the mildest, most enjoyable of smokes.

"Roll your own" with "Bull" Durham and join the army of smokers who have found that so good a cigarette cannot be obtained in any other way.

FREE An Illustrated Booklet, showing correct way to "Roll Your Own" Cigarettes, and a package of cigarette papers, will both be mailed, free, to any address in U. S. on request. Address "Bull" Durham, Durham, N. C.

Co-ed Hold Indoor Meet

Cheer for the Sophomores
We sing to you
You are so loyal, loyal and true
Rah! rah-rah-
Your team's a daisy,
We are just crazy
Over the Sophomore team.

At the first annual Indoor Meet Saturday last, the Sophomores easily and lightly scored above the Freshmen. The Freshies came off victorious in only one event, the high jump. "Sailing Scutch" Lauritsen '19 slid alone over the rope one inch higher after "Miraculous" Mary Ledenham '18 had abandoned the contest. The latter's jumping however, showed great form and was another honor added to her class. "Sailing Scutch" now holds the high jump record of the Women's College.

The heavy-weight wrestling match was the feature of the evening. The contestants for championship were the ancient enemies in the ring, "Rastus" Clendaniel and "Peter" Postles. These tried veterans who have twice before pitted their strength against each other were in good form, each with the light of victory shining in her eyes as she met her well-matched antagonist on the mat. From the beginning of the first bout to the "times up" whistle at the end of the third it was enjoyed keenly by all. Tho neither of the contestants suffered fatal injuries none of the spectators were disappointed in their prowess. The result was a draw. The middle-weight wrestling was won by "Victorious Zukizsky" '19 against Mary Dennison, darling of the class of '19. The latter put up a plucky struggle against her husky opponent, but was outclassed by her rival's strength and skill. The lightweight wrestling championship was easily determined by Kern '19, who with a great show of prodigious strength turned her opponent in the first two rounds.

The "flapping over" contest—a test of great agility, the aim being to turn your opponent over into a "hedgehog croquet ball," a sport typical of the Women's College—was won by "Dapper" Dawson who threw "Ponderous" Pearl in three successive rounds, amid great applause from the gallery.

For the tug-o-war there was a fair field and no favor on the side either of Freshies or Sophs. The Sophs drew bravely back and the "time up" found Freshies in Soph's territory.

Jeffries '18 won the boxing contest by default as no one was willing to enter the ring with "Petite Ollie," the strong woman.
