

## VOLUNTEERS NEEDED FOR CIVILIAN DEFENSE

### Citizens Attend First Meeting Of Committee Sunday Afternoon

About thirty citizens attended the first meeting of the Civilian Defense Committee held in Council offices Sunday afternoon and heard F. Allyn Cooch, Chief Observer, explain the functions of the Civilian Observation Corps being carried on throughout the state twenty-four hours a day.

D. A. McClintock, chairman of the Newark Council of Civilian Defense, opened the meeting and asked Mr. Cooch to act as chairman. Mr. Cooch also outlined the many steps Newarkers must take at once to adequately be prepared for war time emergencies.

Plans for opening a Registration office for volunteer workers were discussed. It is estimated that more than a thousand volunteers will be required to complement local fire department, police and other agencies. Every able-bodied man and woman in the community is urged to register without delay. Location and personnel of the registration office will be made public as soon as a definite site has been obtained.

Arrangements are also under way whereby whistles of several local industrial plants will be blown simultaneously to indicate air raid alarms instead of using the fire siren as the siren is not readily heard at remote parts of town and its sounding may be interpreted as a fire alarm and ignored in case of an emergency alarm.

Mrs. A. D. Cobb, president of the New Century Club, and Mrs. Walter Hultihen, chairman of the Newark Branch, American Red Cross, reported on the work already being carried on through their respective organizations and M. James Parsons outlined tentative plans for the protection and evacuation of school children in case of a raid.

Cooper, Mrs. David Anderson, Mrs. James Frederickson, Mrs. Charles Langley, Mrs. Harvey Boyce, and Mrs. C. L. Davis.

## LOCAL D.A.R. GIVES AID

### Committee Thanks Friends For Gifts

The U.S.O. Committee of the Cooch's Bridge Chapter, D.A.R. has been very active in contributing to the enlisted men's recreation room at Ft. duPont. Mrs. Horace B. McKay, chairman, reports:

A truckload of magazines and game books were taken over last Saturday while a handsome Victrola and small radio, contributed locally, and small radio, a piano and card tables have been previously supplied by this organization.

The enlisted men's room provides for about a thousand books, about 500 of which have already been supplied by the Cooch's Bridge Chapter. Mrs. McKay wishes to express the gratitude of the organization to the many friends and contributors to this work.

## Registration Office For Civilian Defense Workers Opens Friday

Registration offices for Civilian Defense volunteers will be open to receive registrations, at the Elliot Building, 26 East Main Street, formerly occupied by the New Castle County Health Unit, Friday morning, Chairman D. A. McClintock announced yesterday.

Use of the building has been contributed by the University of Delaware and personnel will be composed of volunteer workers under the supervision of Mrs. F. Allyn Cooch.

All able-bodied persons who are willing to volunteer for local Civilian Defense work are urged to register at these headquarters immediately. It is estimated that approximately 2,500 volunteer workers will be required to adequately staff the various emergencies and auxiliary units.

## CHRISTMAS LIGHTING CONTEST WINNERS

### Best General Appearance Prize Is Awarded To Raymond W. Heim

Leon H. Ryan, chairman of the Newark Garden Club's judging committee, has announced winners of the Christmas Decoration Contest which were selected following an inspection of all homes lighted for the holidays.

## New Year's Day Service At St. Thomas' Church

Prayer and intercessions in keeping with the President's request for a national-wide day, will be held at the New Year's Day service at the St. Thomas Episcopal Church, Rev. Andrew W. Mayer has announced.

The service will start at 10 o'clock after which Holy Communion will be celebrated.

## COUNAHAN HONORED

J. D. Counahan, of the Wood Preserving Co., has received a gold, diamond-set emblem symbolic of twenty-five years of service with all affiliated or predecessor companies of the Koppers Company.

Bearing the numerals 25 to indicate the years of service of Mr. Counahan, the emblem was engraved on the back with his initials. Similar emblems were awarded to 202 employees, eight with 40 years service; sixteen with 35 years; thirty-three with 30 years and 145 with 25 years service.

## Lesson-Sermon

"God" will be the subject of the lesson-sermon to be delivered Sunday morning at 10 o'clock at the First Church of Christ, Scientist, Park Place and Van Buren Street, Wilmington.

## NEWARK MAILING RECORDS BROKEN

### Holiday Rush Swamps Force With 140,044 Letters, Cards

Following the usual trend, all-time mailing records were broken at the Newark Post Office as the number of Christmas cards, letters, and packages skyrocketed to a new height. Figures on the holiday deluge, capably handled by the regular staff and several "extras" proved it to be the biggest mailing season in postal history.

Postmaster Cyrus E. Rittenhouse, in releasing the figures, also pointed out the annual increase up to Dec. 26 which was \$42,478.16 compared to the 1940 total of \$37,600.19. An idea of the town's growth can also be gained by the fact that during Mr. Rittenhouse's first year in office, 1934, the annual receipts were listed at only \$26,895.83.

As far as the holiday rush is concerned, all types of records were smashed. On Dec. 20, 1940, a total of 31,355 pieces of mail passed through the cancellation machine to set an all-time mark, but on the corresponding day this year, the mark zoomed to 36,501. A total of 133,320 pieces of mail was cancelled during the period from Dec. 16-24 last year, while the 1941 total climbed to 140,044.

Strangely enough, however, the cancellation figures failed to keep step with the stamp sales and this was attributed to the fact that a larger percentage of the people heeded the warning to mail their packages and letters before the Christmas rush.

Stamp sales for December were boosted from 151,500 in 1940 to 185,000 this year. During the month, 119,700 one and one-half cent stamps, 16,700 two-cent stamps, and 48,600 three-cent stamps were sold.

With more than 30,000 parcels and hand-stamped packages handled during the rush, Postmaster Rittenhouse estimated that almost 200,000 pieces of mail had passed through the local post-office during the rush.

The daily 1941 cancellation figures were as follows:

Dec. 16—6,034; 17—8,194; 18—12,248; 19—20,264; 20—27,778; 21—5,018; 22—36,501; 23—18,328; 24—5,679.

Daily cancellation figures for 1940 were:

Dec. 16—6,707; 17—9,570; 18—13,358; 19—23,326; 20—31,355; 21—25,225; 22—3,113; 23—16,518; 24—4,148.

## CIVILIAN POLICE

### Volunteers Are Divided Into Two Sections

Fifty volunteers answered the first call for civilian police Monday night when the first organization meeting was held in the Newark High School auditorium. The course was outlined by Officer Leroy C. Hill who will conduct the classes and it was decided to divide the men into two classes, one of which met Tuesday night. The second section is slated to convene tonight.

Emphasizing the need for preparedness, Officer Hill pointed out that the course is designed to familiarize the men with essential work during bombings, evacuations, and troop movements through town. The course is an outgrowth of the investigations conducted by two representatives of the Federal Bureau of Investigation who studied the work done in London under actual bombing conditions.

The various types of explosives and how they should be handled will be studied extensively along with work under blackout conditions, first aid, traffic duty in case of military movements, civilians and school children, repairing damage to sewers, water mains, light cables, and cooperation with military forces.

At the first session of the auxiliary police school held Tuesday night the following section leaders were appointed: Lumbrook, James Beers; west of B. and O. John Murray; Elkton Road, Denny Marshall; Cleveland Avenue, James Hawkins; East Park Place, John Holladay; Kells Avenue, Samuel Diehl; Loyett Avenue, Edward McCully; Delaware Avenue, William Gray; East Main Street, B. Wright; Orchard Road, Dr. L. A. Stearns; center part of Main Street, L. Fisher; Elliott Heights, George Mills; Prospect Avenue, W. Burnett; South Chapel, William Bolton. Films on the bombing of London were shown by John R. Fader.

## Treacherous Attack By Japan Highlights 1941

## RECORD TAX PAID BY MOTORISTS

### \$3,860,000 Is Reached; Daniel Reviews Figures

Delaware motorists, farmers, truckers and other motor vehicle owners paid in 1941 a record-breaking total of \$3,860,000 in automotive taxes to the state, H. V. Daniel, secretary, Associated Petroleum Industries of Delaware, said yesterday in reviewing the remarkable expansion of automobile ownership and use in this state. Of the total automotive tax revenue, an estimated \$2,500,000 was derived from gasoline taxes and an estimated \$1,352,000 from registration and other fees.

It is well worthy of note that the State of Delaware in 1941 received in revenue in automotive taxes an amount more than 75 per cent of its total tax revenue from all sources less than two decades ago. In other words, car owners are paying in 1941 to the state an estimated total tax bill of \$3,860,000, while, just a few years ago in 1923, the state's total revenue from all sources was \$5,045,930.

Registrations of automobiles and trucks in the state increased by 8 per cent in 1941, according to estimates from preliminary figures, and at the close of 1941 an all-time high number of motor vehicles were operating on the highways of this state. More than half of all the families in the state now own automobiles.

Not only did the number of automobiles increase in 1941, but owners of all cars tended to use their vehicles more. Preliminary figures for the year, said Mr. Daniel, indicate that motor vehicle owners used 3 per cent more gasoline in 1941 than they did in the previous year. A substantial part of that gain in consumption was from the increase in automobile registrations, and the balance of the gain results from the wheels of all motor vehicles on the highways generally moving more than in 1940.

Warning that the present high level of automobile taxes will not continue indefinitely was sounded by Mr. Daniel. "A few years hence when the post-war readjustment comes, there may be a sharp drop in highway user taxes," he said. "For example, in the years 1930 to 1933, when incomes of millions of families in the United States declined, one out of every 10 cars in this country was forced off the roads because owners could not afford to operate their cars. In some states automobile registrations dropped a third."

"Highway transportation is a vital and an integral part of the activities of a democratic people—in peace, in preparedness, or in war," said Mr. Daniel. "For that reason it is in the public interest to encourage highway transportation so that at all times it will serve adequately the basic needs of the people in the movement of persons and goods."

## MOTOR CORP ORGANIZED

### Red Cross To Form Unit

The Newark Red Cross Branch has received a very interesting contribution to the War Fund in the form of a check for \$75 from the Delaware College Faculty Club. This was made possible by having no refreshments and no expenses for entertainment at the annual Christmas party. The party was as enjoyable as usual. This way of raising money is a good suggestion for us all.

Beginning the first of January, Mrs. George E. Dutton will have entire charge of knitting.

The Newark Branch is organizing a Motor Corps under the chairmanship of Miss Isabel Ashbridge, who would like to have volunteers for this work. The members of the Motor Corps must have passed the First Aid course, the Advanced First Aid course, and be willing to take the course in Motor Mechanics. They must be able to drive and have a car at their disposal. All who meet these qualifications and are interested, are urged to contact Miss Ashbridge at once.

## Tire Rationing Board Appointed

A Tire Rationing Board for the Newark Area was appointed this week by D. A. McClintock, Chairman of the Newark Council for Civilian Defense.

The Board, whose duties it will be to control the rationing of automobile tires under the new Federal restrictions is composed of Leon H. Ryan, J. Irvin Dayett and Weldon C. Waples.

Under present circumstances no new tires or tubes may be purchased at all until January 5 when the Board will become active and new tires and tubes may be purchased upon approval by the Board and their issuance of the proper certification.

## DINNER TO HIGHLIGHT NEW YEAR

### Large Attendance Expected For Ladies Night

About 150 members and guests are expected to attend the Newark Chamber of Commerce Annual Dinner and election of officers, which will be observed in the form of Ladies Night, at the Country Club at six thirty o'clock Thursday evening, January 8.

John K. Johnston will be toastmaster for the occasion which will be presided over by President D. A. McClintock. Invitations have been issued to all members of the Town Council, Samuel E. Dameron, President of the Rotary Club and John K. Speicher, President of the Lions Club. A varied program of entertainment will follow the dinner and the election of directors will conclude the meeting.

Four directors are to be chosen by the membership to serve three-year terms succeeding Meyer Pinnick, Wm. S. Hamilton, Samuel Handloff and J. K. Johnston who retired December 31.

The nominating committee composed of Geo. W. Rhodes, H. L. Bonham, J. K. Johnston, Geo. M. Haney and Weldon Waples has submitted the names of J. Irvin Dayett, Meyer Pinnick, C. E. Rittenhouse and Norris N. Wright as candidates for the directorate. Other nominations will be received from the floor.

Following the election of directors, the board will meet and select officers for the ensuing year to succeed the retiring slate consisting of D. A. McClintock, president, Alfred Deck, vice president, J. E. Dougherty, treasurer and R. T. Ware, secretary.

Complimentary tickets are available to members who are urged to bring their wives or a guest with them in an effort to make the first Ladies Night in several years an outstanding success.

## MUSSELMAN IS NEWARK REGISTRAR

### Local Men To Register At Deer Park Hotel

Consistent with recently enacted legislation all male citizens of the United States between the ages of 18 and 64 years inclusive will be required to register for Selective Service to immediately raise the personnel of U.S. armed forces to more than twice their present size.

Registration of Newark residents will be conducted at the Deer Park Hotel on dates to be announced soon. It was announced this week by Lt. Paul K. Musselman, Registrar for Newark, Appointment of Lieutenant Musselman was confirmed this week by G. Roy Eaton, chairman of local Selective Service Board No. 1, located at New Castle.

A volunteer corps of workers to assist in the registration will be enrolled and headquarters established at the Deer Park. Definite dates for the registration will be established by Federal officials and made public as the information is received locally. It is considered certain that local registrations will be held during January.

Workers willing to volunteer for registration work are needed and urged to report to Lt. Musselman at once.

## CHRONOLOGY REVIEWS WEEKLY EVENTS

### Defense Work And Organizations Center Of Stage For New Year

Complete cooperation in matters of national defense, generous contributions pledged for worthy causes, opposition in the town election, and a busy council year, all climaxed by Japan's treacherous attack at Pearl Harbor, were the chief items of interest to occupy residents of Newark and vicinity during 1941.

People here ran the gamut of emotions, enjoyed the fruits of well-expended labors, suffered the pangs of sudden tragedy, and saw business conditions steadily improve with mounting defense orders.

Continuing the trend started in recent years, building continued at a rapid pace. The new men's dormitory at the University of Delaware was started early in the year and is now nearing completion; work is now being done on the fire house addition, and a \$60,000 bond issue for the purpose of erecting a new primary school was approved by a 154-14 vote.

One of the town's oldest businesses passed out of existence when the William P. Wollaston establishment was sold to A. L. Geist, dealer in farm supplies; George E. Ramsey and George F. Ferguson, veteran councilmen, survived opposition, and Postmaster Cyrus E. Rittenhouse announced extension of the mailing routes, giving Newark one of the most complete setups for a town of its size in the country.

Death entered local ranks, numbering among its victims, Dr. Ezra B. Crooks and Dr. George H. Ryden, veteran members of the university faculty, and Jacob F. Shew, town electrician for the past 40 years, and the worst tragedy in years shocked this community when Clarence D. Webb, Sr., 28, killed his wife and two children, then committed suicide to escape arrest.

Following the lead of larger cities, defense organizations have sprung up during the past year, including the Civilian Police, Civilian Aircraft Observation Post, and Newark Council for Civilian Defense. More than \$500 was collected from this section in the national USO drive, while the soldiers' Christmas fund to provide holiday gifts for local boys in service, topped the \$750 mark.

Red Cross work reached a new degree of efficiency; 168 students were graduated from the University of Delaware, and 78 received diplomas at the Newark High School. An enrollment of 170 was announced at the Newark Playground and Recreation Center, supported by public subscription; residents answered the Flower Hospital appeal, and two churches marked anniversaries, the Newark Methodist Church, its 130th, the St. Thomas Episcopal Church, its 100th.

In general, business conditions were judged "excellent" and businessmen are looking forward to increased prosperity in the new year.

Following is a weekly chronology of outstanding events in 1941 as recorded in THE NEWARK POST.

## January

- 2—Roy Reed elected chancellor of Oscola Lodge No. 5, Knights of Pythias. Meredith Thomas elected to head American Flag Council No. 28, Junior Order of United American Mechanics.
- 9—John R. Fader appointed acting manager of Delaware Safety Council, replacing Capt. James J. Ashton who was called into service.
- 16—Miss Alice Leak, visiting nurse for this section of New Castle County, reports total of 2,806 visits, an increase of 102 calls over 1939.
- 23—D. A. McClintock named Chamber of Commerce president, succeeding George M. Haney.
- Dr. Walter Hultihen urges support of allies at Lions Club meeting.
- Mrs. David R. Eastburn re-elected president of Newark Garden Club.
- Dr. Alvin Kronacher, outstanding European theatre director, joins University of Delaware staff after hazardous trip.
- 30—Approval of new elementary school building is favored by Parent-Teacher Association.
- American Flag Council No. 28, Junior (Please turn to page 8)

PAINT solves the problem of redecorating shower and bathroom tile, providing limitless styling possibilities for the color-conscious home owner.

The paint applied must have a pigment and oil combination which forms an exceptionally adhesive, waterproof film to adhere firmly and prove durable on smooth tile under the severe washroom conditions of moisture and wear.

Before painting, wash tile clean with plain soap and water. Rinse the surface well. When thoroughly dry, apply three coats of high quality oil paint.

To produce durable work at low cost, mix the paint on the job from soft paste white lead and a flaking vehicle according to the following volume formula:

Priming coat: 3 parts soft paste white lead, 4 parts lead mixing or lead reducing oil.  
For flat finish, follow with body and finish coats of equal parts soft paste white lead and lead mixing or lead reducing oil.

For semi-gloss effect, substitute for flat finish coat one composed of 12 parts soft paste white lead, 5 parts floor varnish, 3 parts turpentine. Add 1/4 pt. drier to each gallon.  
Q. A recently cleaned rug curls at the ends. What treatment do you suggest?  
A. New rugs are usually flattened before delivery by back-sizing. This glue coating often disappears due to wear or cleaning, resulting in curling ends or corners.

To resize, tack rug face down on floor and spray back with solution of 1/2 lb. chip glue in two qts. water. Allow to dry thoroughly before laying face up.

## 4-H CORN PROJECT RESULTS

C. E. McCauley, county 4-H club agent supervisor for the University of Delaware Agricultural Extension Service, announced recently the results of 17 hybrid corn projects carried on by 4-H club boys in Delaware during 1941. Seed corn for the demonstrations was supplied by one of the leading hybrid seed corn producers in the country. Projects were carried out by boys from all three Delaware counties on strains all of which were recommended by Claude Phillips, assistant agronomist for the Delaware Agricultural Experiment Station at the University of Delaware.

Those boys participating in the project from New Castle County were: Linwood Robinson, Paul Bradley, Jack Dukes, Melson Sammons, Townsend, Franklin Schafer, Blackbird; Tommy Johnson, Bruce Taylor, Robert McMahon, Wilmington, and Bernard Kent, Boothwyn, Pa.

Kent County club members raising hybrids were: John and Francis Houtman, and Nelson Steele, Clayton; Jack Dill, Wilbert Clark, Felton; Arnold Long, Hartly; Lloyd McNatt, Smyrna, and Donald Maloney, Milford.

Testing the yield of hybrids in Sussex County was Martin Truitt of Lewes. As a result of outstanding work in corn project work in New Castle County, Franklin Schafer of Blackbird, was awarded a trip to the National 4-H Club Congress and International Livestock Exposition held at Chicago, November 29 to December 6.

According to McCauley, the success with the hybrids indicates that a number of them show promise for use in Delaware. A hybrid grown by one boy showed an increased yield of 4 bushels over the yield of the open-pollinated variety of corn usually grown on his farm. Results of all projects gave yields over those usually obtained.

### Christmas Season

It's Christmas Season again! That is front-page news even in this year. It is more important than all the other news of a world deep in hatred and strife.

The glad tidings of the coming of the One who became flesh and dwelt among us to be the Saviour of men still moves the thinking and the living of a world even though it has gone far from Him. There is hope, therefore, that we may reach the heart of even the most callous and indifferent soul at Christmas with the word that a Saviour has been born. We may also hope and pray that the leaders of this world may realize that He is the Prince of Peace who shall one day come to reign, and thus bring peace to the entire earth.

Above all, let us be certain at this Christmastime that we and our families do not miss the true meaning of the holiday. May the tender baby hand from the cradle at Bethlehem reach out and touch our hearts, bringing us peace with God as we know the peace of God. The Christmas story is found in Luke 2. Look it up on Christmas day and read the first twenty verses of this beautiful chapter; or better yet, permit one of the children to read it to the assembled family. Then let all join in a prayer of thankfulness to God for His unspeakable gift.

Three things are observed in this portion of God's Word.

I. "Unto you is born . . . a Saviour" (v. 11). Christ was a great teacher, one whom the common people heard gladly (Mark 1:22). He was a leader, and lived a life that was an example. But, mark it well, the essential purpose of His coming was to be the Saviour of all mankind. Is He your Saviour today? Or will you turn to Him in repentance and faith to receive Him just now that you may with Him truly keep Christmas?

II. "Let us now go . . . and see" (v. 15). The fear of the shepherds was quickly turned to assurance by the words of the angels, and they at once decided to go and see. Would that all who hear the Christmas message do likewise. The shepherds doubtless had many good excuses for not going, yet we read that they came with haste and found Jesus. Let us follow their example. Then we shall "keep Christ in Christmas" — something which the world has largely forgotten to do.

III. "When they had seen . . . they made known" (v. 17). Knowing Christ as our own Saviour normally should express itself by the proclamation of the gospel to the ends of the earth. One of the best ways to keep Christmas is to tell someone else that a Saviour is born. In doing so we shall make for ourselves, as well as for those to whom we minister,

A Very Blessed Christmas!

### Musical Guidance For The Pre-School Child

"Why can't we have some good music on Sunday mornings?" bemoaned the chief engineer as he dialed out the Perole String Quartet. "Oh I know I'm missing something, but this serious music is too mysterious and complicated for me. Anything deeper than Gilbert and Sullivan leaves me cold because I haven't the faintest notion what it's all about. Plays and books I enjoy. I have as long as I can remember, but we never had much music around our house when I was a child. Perhaps if I had been exposed to it sooner—"

How many otherwise broadly cultured, intelligent Americans are musical illiterates because they weren't "exposed to it" soon enough? What is the musical upbringing our small fry have a right to expect? When does it begin and of what should it consist?

Deems Taylor advocates starting with your six months old infant. Let him listen to any rhythmic, tuneful music at a definite time each day. This pure sense stimulation may result only in increased quietness, or in kicking, waving of arms and vocalization. As he gains in muscular control, he will start experimenting with sounds and inventing things to do to music. Don't

be afraid of giving him the best. He may be more charmed by a Bach toccata or Beethoven's "Pastorale Symphony" than by Schubert's "Bee". Whatever he likes, let him hear more of it—playing for him yourself, playing records, or using the medium of the radio.

After he has learned to talk, this listening period should be supplemented with folk songs and nursery rhymes. If you can't play and sing them yourself, get the best recordings you can find and teach them to the child, putting the stress on the words, but being sure he gets the tune right.

Let the folk-songs be his main diet, for they are the stuff from which the masters gleaned many of their themes. Brahms, Tchaikovsky, Wagner, Beethoven will be old friends when he meets a familiar folk-tune in their symphonies. Then, if you can manage it, have him taught the elements of reading and writing notes. Nothing makes music seem so difficult as the squiggles with which it is scored. But as a matter of fact, the rudiments of notation are not

one tenth as difficult to master as the spelling of the English language and any normal child can learn them about the time he starts to school.

Let him play musical games—"Ring Around a Rosie", "This is the Way to London Town", "Looby Loo", "Here We Go Round the Mulberry Bush", "London Bridge is Falling Down", "The Farmer in the Dell". Let him see and manipulate as many instruments as possible. Tell him stories of the lives of great composers, and if he is mechanically inclined, help him make primitive instruments at home. In her book, "Creative Music for Children" Satis Coleman describes kettle drums made of chopping bowls, gourd banjos, an ocharino of clay and many other instruments made by little children at Lincoln School, Teacher's College, N. Y.

If we "expose our children" to music in early childhood, we may build a generation whose musical discrimination rises above the figurative level of pulp magazines and the comic strip.

## We pledge ourselves to this cause

A Statement by

## The Great Atlantic & Pacific Tea Company

We make this pledge publicly to our national government and to the people of the United States:

That we will cooperate unhesitatingly in every effort of authorized government agencies to prevent unwarranted rises in prices of foods.

That we will continue our efforts to reduce the spread between prices paid to the grower and prices charged to the consumers.

That to this end we will continue to do everything in our power to assist the farmers and growers of America in the orderly marketing of their products at the fairest possible prices to them.

That we will make every effort to hold our inventories at the lowest point consistent with good service to our customers because hoarding, whether by wholesalers, retailers, or consumers, will cause higher prices.

That we will endeavor to continue to pay our employees the highest wages and to give them the best working conditions in the grocery business generally.

That we will make every effort to continue to sell food at retail at the lowest gross margin of profit in the history of the retail grocery business.

Today we are providing food for our customers at the lowest gross profit rate in the history of the retail grocery business. This means that we have achieved efficiencies in the distribution of food never before attained. More of your food dollar goes for food and less for overhead expenses than ever before. No other great retail business in the United States in any field is operated with such a low cost of distribution.

No one in the food business can control the wholesale price of food. Only the government of the United States has power to do this, and for the protection of our people this power in the government is now a necessary power.

Today, with the nation at war, we believe that no private interest has any rights in conflict with the general public interest.

The armed forces of the United States are today receiving more and better food than ever before in our national history. It is equally important that all of our people working and living behind the lines, men, women and children, shall be better fed and better nourished than ever before in our national history.

## LOOKING FORWARD

Another milestone is passed with the dawning of 1942 and we have another twelve months experience to reflect upon with a great degree of satisfaction and accomplishment.

We have far from achieved every goal set for ourselves as Newark's ONE newspaper but we have sincerely tried to devote all our energies and facilities for the good of the community we serve. While we undoubtedly have erred and gotten off on the wrong foot many times it has been from either lack of understanding or conditions beyond our control rather than from insincerity.

It is our conviction that Newark is the garden spot of America—from a residential standpoint—and we unhesitatingly pledge our every effort and facility to the development and progress of the best interests of our town.

If our efforts merit your approval during the past year, we are truly grateful. If, on the other hand, you feel that we have failed to perform our obligations as a newspaper, we shall appreciate your constructive criticism and unbiased suggestions. This newspaper is owned and operated solely and wholly by and for the people of Newark and we sincerely want every subscriber to feel that it is YOUR newspaper in every sense of the word.

The management will always welcome your thoughts and ideas for its improvement. We extend to each of you a cordial invitation to let your opinions be known to us that we may be guided by your views in our desire to serve our community.

That we may exert an influence for the good and well-being of our readers is our one and only purpose and we shall not knowingly deviate from that policy.

To each and every person who reads these lines—and the many who do not—we extend our sincere wishes for a Happy, Prosperous New Year.

## CALL TO COLORS

In this Twentieth Century, World Conflict No. 2, the 'Call to Colors' is no longer limited to youngsters who would fight and die for their country. Not, for a minute, that they aren't needed greatly and in unprecedented numbers—they are, for the crisis we find our Nation in on this New Year's Day is unparalleled in importance.

But, the need for Civilian Defense workers at home is equally as great. Wars no longer are limited to battle fields. The era of modern aero warfare has brought imminent danger and destruction to our very doorsteps and threatens every hearthstone in America today. We, at home, must be prepared to do our bit for the Defense of America. Every last one of us—old and young alike—can render vital service to our community in the vast program of defense being outlined by the Newark Council for Civilian Defense.

It is the obligation—the patriotic duty—of every able-bodied man and woman in Newark to register with their local Defense Council for whatever line of work they are best fitted. Auxiliary police, firemen, nurses, demolition crews, air raid wardens, airplane observers and numerous corps of workers are needed immediately and in large numbers. These can only be manned by local volunteers. It is estimated that approximately 1,000 volunteers will be needed to adequately staff the various emergency agencies necessary for complete, local preparedness.

The Newark Registration Office for Civilian Defense Volunteers will be open in the Elliot Building, 26 East Main Street (formerly New Castle County Health Office) bright and early Friday morning. A staff of voluntary workers will be on hand to receive your application for service. We sincerely hope that every man and woman able to walk will throng the office in a clamor to be the first to offer their services for the defense of their community.

## NO RABBITS IN HATS

The OPM's consumer relation section has received a number of letters protesting at rising retail prices, and accusing the retail industry of profiteering at the public's expense. That is evidence of misunderstanding on the part of the public.

It can be said categorically that retail merchandising in all fields has generally done its utmost to hold prices down. It has done this in various ways: By voluntarily accepting smaller profits; by further increasing overhead efficiency and lowering costs; by educating the consumer to use suitable substitutes for scarce, costly articles; by fighting "scare buying," etc.

According to government figures, retail food prices are still 18.4 per cent below 1929 levels. That is true of most other commodities as well.

So, don't blame the stores when prices rise. They can't perform miracles. Higher wages, higher taxes and higher manufacturing and wholesale costs must be reflected in retail prices. The retailers are doing the finest work in their history in cutting overhead and serving the public today.

## To All Newark Men in Uniform:

This is an open letter from your friends and relatives 'back home' to let you know that we are thinking of you on this New Year's Day and wishing you well—wherever you are.

You are in our hearts and minds this New Year's Day even though you are far away. That God may watch over you, protect and preserve you and bring you safely back to us when once again shall reign "Peace on Earth, Goodwill to Men" is our New Year's wish for you.

## THE LITTLE GUY

What distinguishes this country from the other great nations of the world? There are many possible answers to that question. And here's one of the best: "The United States is the country where the little guy is boss—where the little guy can go as far as his energies and abilities allow—where the little guy doesn't have to bow and scrape to anyone."

Little guys made this country. They came here from everywhere to establish freedom and escape tyranny. They landed in a wilderness. They were often cold and hungry. They seldom became rich. But they kept the faith. They built the homes and cleared the land and raised the children. They fought the wars of the past, just as they are fighting this war. The little guys were proud and strong and confident of the future, and the great land in which we live is their gift to us, the little guys of the present.

Little guys built the industries of this country. They saved a few dollars and put them into a store or a bank or a factory of some kind. They took chances. Much of the time they lost, but that didn't dismay them. They saved a few more dollars and took new chances. They didn't laugh when some visionary came along with an idea the wisecracks said was obviously insane—the telephone, for instance, or the automobile, or a plan for lighting homes with electricity. There might be something in it, they thought, and they played the long shot. For the visionaries with the ideas were the same kind of people—little guys trying to get ahead, little guys trying to build and create. And some of them went from shacks to mansions in a year or two, and a year or two later were back in the shacks starting again. They always started again. It was in their blood, their bone, their character. The little guys didn't give up.

All of this country is a monument to the little guy. All of our industries, our farms, our homes, our resources—the little guys did the work. They went into the oil fields and brought out the black gold. They dug in the earth and gave us our coal and metals. A few became famous, but the millions remained unknown. They worked and died in obscurity, but this country is an everlasting monument to their deathless spirit which lives on.

That is the ideal we Americans must always keep in mind—America must be a place where the little guy is king. Free enterprise is the little guy's kind of enterprise—he can go into any business he wants, invest his savings in whatever he wants, and lick the competitors to a frazzle if he is able to. The government belongs to him—he doesn't belong to the government. The little guy made America, and today he is perpetuating America. And tomorrow he must be the symbol of America, too.

Newsweek reports many deserters from General Weyand's French forces in Africa going over to the pro-British army of General de Gaulle. A group of aviators are said to have flown away from Madagascar to join the British in South Africa, and a French destroyer with its officers missing also changed sides.

Rome dispatches announce that 14 Italians were recently sentenced to prison terms ranging from three months to nine years, for listening to radio broadcasts from London. In Germany, even harsher punishment is said to be inflicted for this "crime."

Lieut. Harry V. Hubbard is recovering from an injury received because he couldn't duck a duck. The bird crashed through the windshield of his bombing plane, while he was making a training flight near Fort George Wright, Wash.

## FOOD for THOUGHT

"The Cook Enlists"  
BY  
Charlotte Spencer Hurley

In the present crisis everyone wants to do their part. As far as food is concerned every housewife has two big opportunities for service: (1) Feeding her own family to the best of her ability, (2) Participating in community planning for food.

Good meals are more important than ever for each individual family. Morale depends on health and health depends to a large extent on food. Every person who is responsible for planning, preparing and serving meals has a duty to make herself well informed so that she may do her part efficiently.

Meals for the family need to be nourishing and well balanced. If a cook does not know what makes a well balanced diet she should write to the Extension Service University of Delaware or to the State Board of Health and ask for a copy of Delaware's Daily Food Guide which was prepared by the Extension Service in cooperation with the State Nutrition Committee for Defense. This leaflet will tell you what to include in your daily meal plans.

Good cooking is just as essential as good planning. Cooking properly done preserves the nutritive value of food while poor cooking loses vitamins and minerals. Good cooking also makes meals taste good and so your family will eat the nourishing food which you have planned for them. Good cooking cuts down waste because the family eats what is prepared.

Some women are particularly interested in the problems of food and defense and wish to do more than feeding their own family. Such women have a large field before them. They can participate and lead in their community's effort for food planning.

Your community probably has some group food plans already under way such as school lunches, the giving of food at holiday time, contributions of food throughout the year to needy families, and the work of Home Demonstration groups. Join in these efforts and make them reflect our present day knowledge of nutrition.

The Red Cross offers nutrition and canteen classes. There should be canteen preparation for emergency feeding in every town. Find out what has been planned for your town and how you can help with it. You may be able to secure your local Home Economics teacher or dietitian to teach a Red Cross nutrition class. Special training and experience in feeding large numbers qualify the canteen instructors.

Every housewife should feed her family in as healthful a way as possible throughout the war. Women with special interest can go farther than that and render a real defense service by assisting with their community plans for food.

IF THERE'S ONE GUY OR GAL among you who has any complaint to register as far as the 1941 sporting season is concerned, let him step right up and speak his piece—after which he'll be promptly shipped over to the state hospital where a quiet cell and a tight-fitting straitjacket have been reserved.

Name any sport—amateur or professional—in this town and this section, and you'll find Newark and the state represented by a winner. The Wilmington Bombers, newly-organized pro quintet, concluded the perfect year Saturday night by handing Washington a 29-28 reverse and taking over undisputed possession of the American Basketball League's top spot.

**JOY CAME TO THE HEART** of every sport fan in the state this month when the Wilmington Clippers, handled by a new coach, George Venerosa, roared back after a slow start to nab the American Association championship from Long Island for the first time in the history of the Fleet's gridiron activities.

As far as the local sports picture is concerned, there were few disappointments in this section as the University of Delaware football team completed its first undefeated season in the history of the school and extended its unbeaten streak, started in 1940, to 13 straight games. Only West Chester marred the record by holding the Hens to a 7-7 deadlock while Drexel was beaten only 7-6, but in all other cases, comfortable margins were piled up.

Bill Gillespie's Jackets also handled themselves well on the gridiron this season, dropping only one verdict to North Coventry. In state competition, they were undefeated, however, although P. S. duPont succeeded in holding them to a 6-6 tie on Armistice Day.

**DELAWARE'S BASEBALL TEAM** and the Jacket diamondmen wound up with brilliant records; Ellis Cullen's Continental Diamond Fibre Co. team made mince meat of the New Castle County circuit, and the American Legion Juniors, after copping the junior county championship, represented the state in the regional play-offs at Poughkeepsie.

Roland Wollaston knocked off "Sank" Richards in the Newark Country Club's championship tournament to annex the links title for the first time and the match, finally decided on the last green, was packed with thrills and unexpected turns.

**LOCALLY THERE WAS FUN** for a couple hundred boys and men as baseball and softball competitions were successfully staged at the Newark Playground and Recreation Center. Bob Walls copped the State Billiard Parlor championship, while Don Pierce grabbed top honors at the Academy. Both billiard houses presented free of charge, several of the outstanding cue performers in the world, including Erwin Rudolph, present world's champion; "Babe" Cranfield, Ralph Greenleaf, Joe Chamaco, Patsy Natalie, Marcel Camp, and others.

Sports were at their best for local fans in 1941 and if the war interferes with the schedule for next year, perhaps the high degree of success will serve to carry you over until a normal program can be resumed.

## RUDOLPH TO SHOW AT STATE

### World's Cue Champ To Give Exhibition

Erwin Rudolph, five times champion of the world at pocket billiards, and present holder of the title, will cross cues in an exhibition match of 125 points with a local expert, at the State Billiard Parlor on Jan. 9 at 7 p. m. sharp.

"Rudy" is no stranger in these parts to devotees of the green baize, and many will be present to welcome and congratulate him on his recent victory in the Philadelphia tournament, in which title tilt he outplayed such cue stars as Greenleaf, Mosconi, Caras and Ponzi, and a host of others. Things had been a little rough for Rudolph in competition the last few seasons, and his brilliant comeback this year has earned for him the sobriquet of "Cinderella Man of Billiards" (with apologies to Jimmy Braddock). Rudolph will entertain with his inimitable collection of fancy shots after the exhibition match, and answer all questions in line with instructive purpose.

Rudolph made an earlier appearance at the Newark Billiard Academy this season and made a decided hit with local followers.

Thieves who stole three radio receivers in Richmond, Va., spent \$2.10 in postage to return them to their owners, with this note enclosed: "We don't like it. You are costing us dough."

Mrs. Belinda Clark, 73, of Hunters Range, N. Y., walked 17 miles to a beauty shop for a permanent wave.

## SPORT FANS GET MONEY'S WORTH AS 1941 HITS NEW HIGH FOR SUCCESSES

### University Of Delaware Football Team's Undefeated Season Grabs Spotlight; Jacket Gridders And Diamond Men Also Turn In Wins

Although the shadow of war is slowly but surely being cast over the athletic picture, Japan's treacherous attack in the Pacific came too late to mar the 1941 schedule of events which, as far as local sports is concerned, will go down in history as a brilliant year.

With Coach Bill Murray's undefeated University of Delaware grid team setting the pace, champions in this section were a dime a dozen and not in a single instance, did local teams fail to emerge victorious in out-of-town competition.

The Hen eleven, taking up where it left off in 1940, added seven more victories and a tie to the five straight conquests marked up last season, to run the unbeaten streak up to 13 consecutive games. New-found supporters turned out to cheer on Coach Murray's brilliant combine and a record crowd of more than 7,000 spectators jammed Wilmington Park for the P.M.C. clash.

Newark High School's grid team, handled by the capable Bill Gillespie,

### Successful Manager

Ellis P. Cullen

Cullen's Continental baseball team made hash out of the New Castle County League last summer as it emerged in the top spot at the end of the regular season, then handed Holly Oak three straight setbacks in the championship playoff.

returned again to the football spotlight by going through its campaign without a setback at the hands of a Delaware team. Five opponents reeled under the Jackets' punches, while P. S. duPont managed to hold out for a 6-6 deadlock and North Coventry (Pa.) High School was credited with the lone victory in a free-scoring contest.

Ellis Cullen's Continental Diamond Fibre Co. baseball team polished off the New Castle County League in grand style, finishing in the top spot at the end of the regular season. Facing Holly Oak in the championship test, the Millmen proceeded to drub their rivals in three straight games to walk off with the flag.

Bill (Red) Hogan, outstanding sophomore athlete who occupied the key position in the Hen backfield, proved his versatility in the spring (he was still a freshman) when he pounded out 26 hits in 64 trips to the plate for a batting average of .406, leading the Blue and Gold tossers to 13 wins against 8 setbacks.

Ralph (Irish) O'Connell's Jacket baseball team opened its season with a 19-0 victory over Wilmington High School, then proceeded to mark up eight conquests in 11 starts. "Fuzz" McCormick was credited with five of the triumphs, while Al Thorpe paced the Newark sluggers with a mark of .468.

Led by the masterful Thorpe, who turned in a no-hit, no-run game against New Castle, the Newark Legion team gained undisputed possession of the Junior New Castle County baseball league pennant by sweeping both halves. This team also downed New Castle in the "Little World Series" play-offs for the honor of representing the state, but bowed out of the picture in the sectional battle at Poughkeepsie, N. Y.

A. E. Benton failed to defend his Newark Country Club golf championship this year and a newcomer to the throne, Roland (Hotz) Wollaston, turned in a one-up triumph over B. F. (Sank) Richards to cop the title.

## KEN BARNES COPS LOCAL CUE CROWN

### "Spike" Daly Handed 100-87 Reverse In Final

Ken Barnes ascended the local billiard throne last week when he handed Charles (Spike) Daly a 100-87 setback in the final round of Jimmy Martin's annual championship cue tournament at the State Parlor.

Played on even terms with both performers sporting a handicap of 3 balls, the match took on the appearance of a complete rout as the new champion ran up a 47-9 lead in the first four racks, but Daly, a former wearer of the crown, managed to dig back in the late stages to stage a comeback. Barnes' margin was however, too great to overcome.

The winner collected \$15 in his march to the title, numbering among his victims, Herman (Barney) Renshaw, New Sheaffer, Jake Hogan, and Porky MacLary.

Daly, whose finalist berth was worth \$10, knocked Clayton Riley, Pete Wilson, strong, Bob Ewing, and Howard Wilson in his bid for the championship.

(Continued from page 1)

receive immediate information from Wilmington was urged by John Fader, Manager of the Delaware Safety Council.

Such a Control Center receives the various alarms and passes them along immediately to local industries, defense plants, institutions and key members of the defense personnel.

Fire Chief Elmer Ellison and Sgt. Leroy Hill, of the Police Department, reported measures being taken by their departments to cope with any emergencies that may arise. Town Engineer Price also reported the installation of auxiliary gasoline engines to maintain electric power in case of a disruption in service and mentioned that all fire hydrants and street valves were being inspected periodically in addition to all available mechanics, plumbers, laborers and truckers being listed for emergency duty.

Mayor Collins said one first-class line man had been added to the Town Electrical department to offset any unusually heavy demand on its personnel.

Headed by D. A. McClintock, the committee appointed last week by Mayor Collins to comprise the Newark Council for Civilian Defense includes Carl S. Rankin, Alfred Deek, Ralph E. Stone, M. James Parsons, Mrs. Walter Hultihen, Mrs. F. Allyn Cooch, Mrs. A. D. Cobb, Mrs. Leon H. Ryan and Chas. E. Grubb.

Others present at the meeting Sunday afternoon were: J. H. Rumer, Chief Elmer Ellison, Dr. Walter Hultihen, Harry L. Bonham, Robert J. Boyd, Mayor Collins, Cleaver Price, Town Engineer, Harlan Herdman, Gerald Gilligan, Walter R. Powell, Charles Eisner, Eugene Stiltz, Officer Hill, John Fader, Charles Tasker, Ira S. Shellender, R. T.
