Caracas April 12 '57

Dear Jimmy - I have been a few days here, and have received your letter. Barbara tells me you + Jane had a trip to Florida and I hope you had a good change + good weather, here the weather is really wonderful. I have been in touch by phone with you folks, I hope by this time your mother is home again + recovering nicely from her operation. I have had bad luck with health and had to make a trip to Houston for a urinary infection which is nothing serious but annoying. It seems to be clearing up but I have to take too much medicine. Kevin + I are

planning to leave for our annual trip north
about May 10 and be away for 6 to 8 weeks.
As soon as our plans are definite I
will ^{let} you + your father know. We will
stop a few days in Houston on the way
north to do some shopping, and will probably
spend a week in Washington, as there are some
things I want to do there before we
get started on our visit. I have just
finished a letter to your father, so this
is just a short note to say we look
forward to seeing you in May or early
June. Maria is well and her principal
trouble is me! The depressing last year

did me more harm than all the
operations, illnesses, and hard work and
tension, for so many years. If my eye
it just took the starch out of me,
and leaves me a prey to any bug that
comes along, I'm not complaining for
all in all, life has been good to me.

I look forward to seeing you again.

Warm joins in love from mother to
you + Jane, and the children -

Truly
Love
Mary
