## Development Fund Projects Announced

Aid to scholarships, the completion of the Student Recreation Park, the improvement of health service facilities, the addition of new academic equipment, the buying of additional dormitory furnishings, and the expansion of library facilities are the current projects to be supported by the University Development Fund, according to Dick Groo, alumni director.

In order to continue the scholarship aid offered by the Alumni and Alumnae Associations, \$5,000 is needed. Groo pointed out in a recent interview that by continuing this program, the university is making it possible financially for outstanding students with well-rounded personalities to attend Delaware.

Last year the university students took it upon themselves to clear a recreation park just northeast of Delaware Stadium. To complete this project, about \$1,000 is needed for the buying of tables and benches and to install water facilities.

A recent survey revealed that the university's health service facilities are inadequate. Among other things, there is needed a 20-room infirmary with a reception room, record room, first-aid office, nurse's apartment and X-ray facilities.

To round out dormitory programs, these needs exist: piano for Sharp Hall; radio-phonographs for Smythe, Cannon, and Brown Halls; silver tea services for Cannon and Smythe; and other miscellaneous items.

New academic equipment is urgently needed, both as replacements and in entirely new types. Equipment is needed mainly in the School of Arts and Sciences and in the School of Engineering, and it includes such items as microscopes, balances, drying ovens, computing machines, tape recorders and calculators.

The expansion of the university into the graduate fields and extend-

### Extension School Adds Course To Curriculum

"Elementary Materials and Approaches," an education course not mentioned in the regular university extension bulletin, has been added to the curriculum in response to the demand on registration day.

Professor Beatrice Hartshorn will teach the course which carries three undergraduate credits. Teachers in Delaware and Maryland who are renewing teaching certificates should contact the State Department of Education at Dover for enrollment purposes.

The course will have fifteen sessions beginning Monday, February 15, at 7 p. m. in the Selbyville (Del.) High School.

## Turveyites Brush Up On Poesy On Notice Of Dorm's Closing

"We're poor little Turveyites who  
have lost our dorm  
Boo Hoo Hoo.  
And when they come with trucks  
to drag us away  
We'll stay, stay, stay.  
Fellow students help us fight  
Help us stand up for our rights  
Lord, have mercy on the Turveyites  
Help, Help, Help."

This ballad, Turvey Hall's new-found alma mater, resounded from the walls of Kent Dining Hall on Thursday night as the dormitory residents registered their emphatic disapproval of the University's recent eviction notice.

The girls, quite content with

### Home Ec Club Will Entertain At Open House

Today the members of the Home Economics Club will be hostesses to a group of high school girls at the annual home economics open house.

With registration beginning at Mitchell Hall at 12:30 p. m., the general meeting will convene at 1 o'clock with several short talks. Speakers for the session are Marjorie Shank, President of the Home Economics Club; Dr. John A. Perkins, President of the University of Delaware; Miss Bessie B. Collins, Dean of Women; and Miss Irma Ayers, Dean of the School of Home Economics. The University of Delaware film will also be shown.

A tour of the campus will be taken by the girls. After the tour, discussion groups will be held at Robinson Hall.

The tea concluding the event will be held in Smythe Hall at  
(Continued on Page 3)

### Four Visiting Scholars Blend Foreign Relations With Engineering Work

Four professors from foreign universities are now engaged in study in the Chemical Engineering Department and, as a result of their mutual interests and associations, have developed warm friendships.

These visiting scholars are Dr. Rolf-Bertil Eklund, Sweden; Dr. Tokuro Mizushima and Dr. Kiroku Yamazaki, Japan; and Teodorico Festin, Philippine Islands.

Dr. Eklund is studying in the United States through arrangements with the Institute of International Education. He is a member of the faculty at the Royal Institute of Technology in Stockholm.

Dr. Miashima is a professor of chemical engineering at Kyoto University, Kyoto, Japan; Dr. Yamazaki teaches mechanical engineering at the Tokyo Imperial University. Both are partially sponsored in their work through Fulbright grants.

Mr. Festin is a faculty member at the University of Manila and is being assisted in his study by the United States Office of Education.

their present dorm and dorm-mates, were taken aback on the house meeting on Monday night of this week when Miss Bessie B. Collins, Dean of Women announced that the residents of Turvey would be moved out on Thursday of this week, three days after notice was given; the small dormitory is scheduled to be closed for economic reasons, the administration reports.

In an interview with some of the girls involved, this reporter was told that, as implied in the song, they plan to stay in their present location. Others related that, if

PATTY PHILLIPS

### Dr. Potter Of Yale Will Teach History In Summer Term

Dr. David Morris Potter, co-professor of American history and director of graduate studies at Yale University, will teach the history of the South during the summer term at Delaware.

"The South in American History," the topic of Dr. Potter's course, will be a survey of southern history from 1607 to the present. The Antebellum and Post Reconstruction Periods will be stressed, and regionalism as a factor in American history will be discussed during the term. The course will include lectures and discussion periods plus assigned readings and papers.

Dr. Potter, who is in Phi Beta Kappa, has a Master's degree both from Yale and Oxford Universities and his doctorate from Yale. He is one of the board of directors of the "Yale Review." Before teaching at Yale, he was an instructor at the University of Mississippi and at Rice Institute in Houston, Texas.

Besides being the author of "Lincoln and his Party in the Secession Crisis," Dr. Potter is editor of "Trail to California," and co-editor of three books: "A Union Soldier in the Reconstruction," "Government and the National Economy,"  
(Continued on Page 3)

### Newmanites To Observe National Day On Sunday

The University of Delaware Newman Club will join with the 500 other Newman Clubs in observance of National Cardinal Newman Day, Sunday, February 28, 1954. These clubs, which exist to promote the spiritual, social and intellectual welfare of the 30,000 Catholic students on secular campuses are named after the English convert-cardinal born 152 years ago.

Cardinal Newman attained eminence in the Church of England as the leader of the Oxford Movement. Received into the Catholic Church at the age of 45, he is best known for such writings as *The Idea of a University* and the *Grammar of Assent*. He was made a Cardinal in the twilight of his life and died at 89. His motto, "Car Ad Cor Loquitur" (Heart Speaks to Heart) has been adopted as the motto of all Newman Clubs.

DAVE TOMPKINS

### Three-Point Index Remains Criterion Despite Rumors

Rumors to the effect that the scholastic index required for the Dean's List has been raised from 3.00 to 3.25 have been denied by a member of the faculty committee on scholarship. It was stated, however, that the committee recently sent a recommendation to the faculty that the change be considered.

The recommendation was submitted by the committee at a faculty meeting; but it was referred back to the committee for a more complete report, which will be presented at the next meeting. If the committee's suggestion is accepted, it will not affect the Dean's List for the fall semester.

The reason advanced for the projected change in the minimum requirement for the Dean's List was that too many students are being admitted to the List for it to be considered a distinction. It was pointed out that an average of 35 percent of past senior classes have made the List.

### Summer School Course Offered In Guadalajara

For the second time, an accredited bilingual summer school sponsored by the Universidad Autonoma de Guadalajara and members of the faculty of Stanford University will be offered in Guadalajara, Mexico, June 27 to August 7, 1954. Offerings include art, creative writing, folklore, geography, history, language and literature courses. \$225 covers six-weeks tuition, board and room.

### Rogers & Hart Begins Rehearsal On Mitchell Stage

By BILL du BELL

"A Connecticut Yankee," the well-known Rogers and Hart musical comedy, went into rehearsal in Mitchell Hall last week, with Jane Banks, Dave Tompkins and Patty Phillips playing the leading roles.

Jane (Morgan La Fay), a senior in the School of Education, is a veteran of the Mitchell Hall stage. As Daisy in last year's production of "Bloomer Girl," Janie stole many a scene with her clever wit and singing. She has appeared in "One Touch of Venus," the 1952 musical, and Noel Coward's "Fumed Oaks," given as a Lab Theatre production in the fall of 1952.

Patty (Alisande) is also a senior education major from Wilmington. She was seen in last year's production of "Amahl and the Night Visitors" and the 1952 Lab Theatre presentation of "I'll Bet You." She sang solos in Brahms' Requiem in 1952 and in Mozart's Requiem last year. In 1951 Patty appeared in two operettas.

Unusual as it may seem, the male lead is being played by a freshman never before seen in Mitchell Hall. Dave Tompkins (Martin, the "Connecticut Yankee") was graduated last year from P. S. du Pont High School in Wilmington where he was active in both music and dramatics. He was a member of the Royal Masque Club, the Studio Club, a music organization, and the A Capella Choir. Last year Dave sang the lead in the operetta and played Niki in Oscar Straus' "Waltz Dream."

Other members of the cast include Dick Sutton in the role of King Arthur; Tip Larkin, Sir Galahad; George Cavey, Merlin; Cathy DeLellis, Evelyn; Liz Parkhill, Angela; and Don Emory, a knight. Several roles have not yet been cast.

Members of the chorus are Bobbie Miruk, Elaine Labour, Mary Jane Raftery, Frannie Ribblett, Valeria Ross, Nancy Long, Joan Henderson, Mary Patricia Cannon, Shirley Watson, Patricia Brindell, Ed Hoffman and Bob Hickman.  
(Continued on Page 3)

### Test Applications Are Due March 8

All eligible students who intend to take the Selective Service College Qualification Test in 1954 should file applications at once for the April 22 administration of the test, Selective Service National Headquarters advised today.

An application and a bulletin of information may be obtained at any Selective Service local board. Following instructions in the bulletin, the student should fill out his application immediately and mail it in the special envelope provided. Applications must be postmarked not later than midnight, March 8. Early filing will be to the student's advantage.

Results will be reported to the student's Selective Service local board of jurisdiction for use in considering his deferment as a student, according to Educational Testing Service, which prepares and administers the College Qualification Test.

## Springtime Makes Delaware Campus Light And Cheery By Budding Trees

By LILA SMOLEROFF

A campus without beauty is very noticeable and an object of complaint. Yet, how many take for granted the beautiful trees and shrubbery that adorn our college grounds. In another few weeks a look at the greenery will reveal innumerable buds bursting forth from their separate branches.

Aligning the walk from Old College to Main Street are a number of American linden trees, otherwise known as basswood. In early spring, when drops of dew or rain stand upon the red buds, it is like, as Tennyson once wrote, "a million emeralds breaking from the ruby-budded limb." A little later the buds push out, and early in summer the curious clusters of blossoms appear. The flowers, which are of a greenish-yellow color, later develop into nut-like fruits which are often referred to as "monkey-nuts."

The magnificent trees that form archways over the walks of main campus are thirty-year-old elms. These trees which originated in England was introduced into America by some of the earliest settlers. The stature of the tree is similar to the Oak, and the blossoms resemble those of the American Elm.

The common locust trees array  
(Continued on Page 3)

## Civil Service Tells Of Several Exams For Student Jobs

The United States Civil Service Commission has announced several new examinations for positions.

The position for Correctional Aid in Federal penal and correctional institutions in various cities throughout the country will pay \$3,175 a year.

The other positions are as Student Aid Trainees in the fields of chemistry, physics, mathematics, metallurgy and engineering. The positions pay \$2,950 and \$3,175 a year and are located in various Federal agencies in Washington, D. C., and vicinity.

To qualify for the Student Aid Trainee, applicants must pass a written test and be college sophomores or juniors whose major study is in one of the fields listed. To qualify for the position in a correctional institution, applicants must have had appropriate education or experience and must also pass a written test.

Applications for the Correctional Aid position may be sent to the Board of U. S. Civil Service Examiners, Bureau of Prisons, c/o U. S. Penitentiary, Leavenworth, Kansas.

Since the first examination for the Student Aid Trainee positions will be given March 27, applications must be in by March 2, at the U. S. Civil Service Commission.

Information and application forms may be secured at post offices and from the U. S. Civil Service Commission, Washington 25, D. C.

## Newman Club Receives Several New Members

The Newman Club has initiated 29 new members at a candle-light ceremony. Father Cornely, the Chaplain, and Jim Flynn, the organization's president, presided. These new members are: Anne O'Keefe, Marijane McCabe, Ellen Stecker, Grace Baum, Betty Halligan, David Gregg, Kathleen Cooper, Jane Frandsen, Raymond J. Ejzak.

Also included were David Colcombe, Tommie Thomas, Clarence Beattie, Jim Shelton, Dave Good-year, John Mank, Ed Sakusky, Mike Kravitz, Anne Zeman, Barbara Turoczy, Connie Curfman, Joan Mahoney, Elaine Peterson, Matthew Shilling, Gerald Weis, Bill Michaels, Bud Bullock, Jerome Connell, Henry F. Jablonski, George Batchelor.

## Secretary Honored

## Mrs. Delena Ginther Retires After Thirty Years' Service

"I don't know of a better department to work for," was the comment of Mrs. Delena L. Ginther, secretary of Delaware's Horticulture Department, who is retiring after more than thirty years of service.

Symbolic of her co-workers' esteem of her was the party held in her behalf on Friday, February 5, in the Agriculture Building. At this event Mr. George M. Worrlow, Director of the University of Delaware Experiment Station, and Mr. Eugene Brasher, Horticulture Department head, presented Mrs. Ginther with gifts from the agriculture staff and the Horticulture Department.

Special guests at the meeting were Mrs. Earl Miller and Mrs. John Fader, secretaries, who retired two years ago, and Dr. and Mrs. Manns; Dr. Manns was Mrs. Ginther's "first boss."

Since beginning work at the university on November 1, 1923, Mrs. Ginther has seen her department and the school as a whole increase considerably. At the time of her affiliation with the university, the Horticulture staff consisted of two men—an associate professor and an instructor. The department currently features a total staff of nine.

Mrs. Ginther served as secretary for both the Horticulture and Plant Pathology staffs, as one of the seven women employed by the Agriculture school in 1923. The increased activity is typified by the fact that she is occupied full time in Horticulture and shares working quarters with more than 20 girls. The staff of men has increased five times in the time she has been there.

The work in the department, Mrs. Ginther relates, has become much more detailed and scientific. In the thirties Mrs. Ginther spent considerable time on typing for class work. Her present accelerated schedule includes correspondence to farmers, exchange of correspondence between staff members and research workers, writing reports and bulletins.

(Continued on Page 9)

## Col. Announces New Commissions

Colonel E. W. Hiddleston, Professor of Military Science and Tactics, announced that the rank of Second Lieutenant, United States Army Reserve, has been conferred on eleven students of the university at ceremonies held on Saturday, Feb. 6, 1954.

The oaths of office were administered by Major Thomas A. Mitchell, Adjutant ROTC Instructor Group at the university, under the supervision of Colonel Hiddleston. Members of the newly commissioned officers assigned to Fort George G. Meade, Maryland, in March, 1954, are John B. Allen, Richard W. Chappell, George D. Hess and Richard G. Nye.

Those assigned to the Chemical School, Fort McClellan, Alabama, in June, 1954, are Thomas R. Betty and Willard S. Singley.

William C. Evans and William J. Vallar were assigned to Fort Bliss, Texas, in March, 1954. Devereaux J. McCarthy and Alan W. Spang were assigned to Fort Bliss in June.

Raymond H. Haley was assigned for duty to Fort Sill, Oklahoma, in May, 1954.

## Marines Require Additional Period Of Active Service

All newly-enrolled Marine officer candidates will be required to serve an extended period of active duty after being commissioned, according to General Lemuel C. Shepherd, Jr., Commandant of the Marine Corps.

Current and future officer requirements of the Marine Corps, as they are presently indicated, make desirable longer periods of active service for all newly-commissioned reserve officers, General Shepherd said this week.

The Marine Corps has completed plans to make certain that a college man who enrolls in the Platoon Leaders Class after July 1, 1954, will be required to serve three years of active commissioned service, instead of the present two-year tour.

Officer Candidate Course candidates enrolled subsequent to February 1, 1954, are subject to this new policy change now. This new obligated active duty service does not apply to OCC and PLC candidates who are currently enrolled or whose applications are awaiting approval, nor does it apply to reserve officers now on active duty.

General Shepherd also declared that the new additional service requirement for reserve officers does not apply to college women who apply for the Corps' Women Officers Training Course. The next WOTC course is scheduled for June 1954 at the Marine Corps Schools, Quantico, Virginia.

## University Presents British Comedy Film

Alec Guinness will be presented in the J. Arthur Rank production of "The Lavender Hill Mob" next Monday at 3:15 and 8:15 p.m. in Mitchell Hall. The movie, another of the subtle British comedy variety, also features Sidney James and Alfie Bass.

The plot involves quiet Mr. Holland (Alec Guinness), a bank supervisor, who conceals an idea to "appropriate" a million pounds in gold bars. He has difficulty in disposing of his steal, however, until Mr. Pendlebury, a souvenir manufacturer, enters his life like a gift from the gods.

Alec Guinness was recently seen in Mitchell Hall in "Kind Hearts and Coronets," another J. Arthur Rank production. This film was also responsible for the creation of such great films as "Hamlet," "Henry V," and Dickens' "Great Expectations."

## Trenton Clergyman To Speak In Religious Emphasis Week

Dr. John B. Oman, minister of the First Methodist Church of Trenton, New Jersey, will be the speaker for Religious Emphasis Week, February 28-March 4.

Being a native of New Jersey, he attended Trenton Central High School. He received a B.S. in Education from Teacher's College, Temple University, 1939, and a S.T.B. from Temple University, School of Theology, 1940. The S.T.M. Degree was received by Dr. Oman in 1945, after completing special study at Princeton Theological Seminary in Pastoral Psychiatry and graduate work at the Lutheran Theological Seminary in Philadelphia, Pennsylvania. He also was awarded D. D. degrees from Temple University and the McKinley-Roosevelt Graduate College.

Upon completion of his formal education, he served many churches in the Trenton area. Due to his interest in penology he was Institutional Chaplain for the New Jersey State Prison for five years. For

## Dean David L. Arm Opens Observance Of Engineers' Week

The university is scheduled to actively participate in the local observance of National Engineers Week, Feb. 21-27.

Dean David L. Arm will officially open the Delaware observance when he appears on Mary Elizabeth Powers' program "Capsule" on Sunday, Feb. 21, at 6:45 p. m. over WDEL-TV. Dean Arm will also speak to a radio audience over WDEL during the week. On Thursday, Feb. 25, he will also address the Wilmington Junior Chamber of Commerce at a luncheon meeting.

On Tuesday, Feb. 23, Dr. John A. Perkins and a group of senior engineering students will be guests of honor at an All-Engineers Dinner in the Hotel Du Pont ballroom. Lt. General Leslie Groves, who was chief of the Manhattan Project during World War II will make the principal address at the dinner, which will be attended by 500 engineers of the state.

During the week, all engineering societies and organizations will prepare special exhibits for display in Wilmington store windows. These displays are intended to call attention to the accomplishments of the profession.

The School of Engineering at the university will have its exhibition in a show window of the Wilmington Trust Company. The committee in charge of this exhibit consists of Dr. Arthur Metzner, S. R. Davis and Meredith Munns.

## New Award Given To 'Aggie Of Year' At Annual Dinner

"Aggie of the Year," an award to the outstanding agricultural student of the University of Delaware, will be presented for the first time this year. The presentation will be made on Feb. 25, at the Agricultural Club's Father and Son banquet in Old College, Jim Bradford, club president, announced this week.

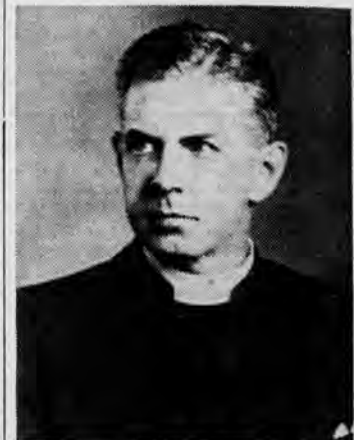

The honor is sponsored by the

JIM BRADFORD

Needle and Haystack, annual agriculture and home economics publication, in an attempt to stimulate enthusiasm in agricultural activities.

The primary requirement for a candidate is "interest and promotion of extra activities pertaining to agriculture."

DR. JOHN B. OMAN  
ORREN JACK TURNER

a decade he has been Protestant Chaplain to the criminally insane at the Trenton State Hospital and is also Chaplain of the Mercer County Jail. Serving as Chairman of the Committee on Protective Care of Parolees gives him an opportunity to aid further in the rehabilitation of criminal offenders. In addition to serving in various capacities on several other commissions, he has, in order to reach and influence many people, a nationally acclaimed radio program known as "The Chapel of Cheer."

Because of his interest in the improvement of social conditions, he will undoubtedly add much and give inspiration to the full understanding of the theme presented during Religious Emphasis Week.

## 'Walk To Newark' Reverses Contest

Get out your walking shoes, the "big event" is on its way once more. All the upper classmen are familiar with last year's Walk To Wilmington Contest. This year there will be a little twist, as the contest will be labeled Walk To Newark.

The event will be held on Saturday March 20. The contestants will begin at the B&O station in Wilmington and end at the Old College gate.

All those interested in entering please contact either Marv Balick or Bill duBell through campus mail.

## E-52 University Theatre To Re-Open Scholarship

The service scholarship involving box office management and bookkeeping for the E-52 University Theater will be open next year when Harvey Porter, present box office manager, graduates.

Interested students should apply at once to Dr. C. Robert Kase, chairman of the Department of Dramatic Arts and Speech in Mitchell Hall. The student recommended for the scholarship will be selected from among those who will serve apprenticeships this semester to learn the job.

Any student, male or female, is eligible. The position provides practical experience with pay, especially for those interested in business careers.

## Advanced ROTC Students Will Attend Military Camp

Colonel E. W. Hiddleston, Professor of Military Science and Tactics at the University of Delaware, announced today that 61 Advanced ROTC students of the university will attend military camp this summer.

Fifty-nine will attend the General Military Science ROTC camp at Fort Bragg, North Carolina. One will attend the Anti-Aircraft Artillery ROTC camp at Fort McClellan, Alabama. All camps will begin on June 19 and will close on July 30.

Fort Bragg will be the training site for General Military Science students from all states in the Second Army except Ohio and Kentucky. Besides Delaware, students from the states of Pennsylvania, Maryland, Virginia, West Virginia and the District of Columbia pursuing the General Military Science ROTC program will train at Fort Bragg.

ROTC students take military science courses along with their regular curriculum. During the summer they spend six weeks obtaining field experience and upon successful completion of the four year program are commissioned as second lieutenants in the Army Reserve and considered for regular commissions.

The government will furnish transportation to and from the various camps, and the students will receive pay during the summer training.

### Turveyites

(Continued from Page 1) forced to move, they would cease residing on campus and commute from their homes.

Turvey residents indicated that they had tried unsuccessfully to persuade administrative personnel to waive the ruling. Both the Dean of Women and the Dean of Students were contacted, but a repeal was not received. The students claim that they were given

no valid reason for closing the dormitory.

One student proposal suggested that the group be moved in a body to Warner Hall, since reports indicate that there are eighteen vacancies in the dormitory. Administrative reports imply that the girls will be separated upon moving. This, rather than the particular dorm in question was the point of dispute; the group would like to remain in a body.

The irate girls stated that several of their parents shared their evident disapproval of the move.

### Dr. Potter

(Continued from Page 1) and "Nationalism and Sectionalism in America."

Two other visiting professors will conduct history classes this summer.

Dr. Hyman Kyblin, who taught at Delaware during the 1948 and 1950 summer sessions, will teach "A Survey of Japanese History." In this course there will be emphasis on the past century of Japan, while a substantial proportion will be devoted to the culture institutions of the Japanese.

Dr. Kyblin, a specialist in Japanese history, is assistant professor of history at Brooklyn College. While in the Navy, he studied at the U.S. Navy Japanese Language School. He took his doctorate at Harvard University.

Both of these courses are open to advance undergraduate and graduate students.

Dr. Evelyn Clift and Dr. Walter L. Woodfill will also teach history this summer. Each will give a term in European Civilization while, in addition, Dr. Clift will teach an advanced course in classical historians and Dr. Woodfill will give an advanced course in the Renaissance.

## Placement Bureau

INTERVIEW SCHEDULE - - - - WEEK OF MARCH 1, 1954

Deadline for signing up: WEDNESDAY, FEB. 24

Date	Company	Classifications
Monday, Mar. 1	INTERNATIONAL BUSINESS MACHINES CORP.	B.S., M.S. MECHANICAL ENGINEERS; ELECTRICAL ENGINEERS; PHYSICISTS.
Group Meeting	EASTERN STATES FARMERS' EXCHANGE	CHEMISTRY AUDITORIUM: 4:00 P.M.
Tuesday, Mar. 2	EASTERN STATES FARMERS' EXCHANGE	AGRICULTURE seniors
	GOODYEAR TIRE & RUBBER COMPANY	B.S. & M.S. CHEMICAL, MECH., ELECTRICAL AND CIVIL ENGRS.
	and ATOMIC CORPORATION	B.S., M.S., Ph.D. CHEMICAL, MECH., ELECT., CIVIL ENGINEERS; CHEMISTS AND PHYSICISTS
	GOODYEAR AIRCRAFT CORP.	B.S., M.S., Ph.D., MECH., ELECT., CIVIL and PHYSICS
Wednesday, Mar. 3	EASTERN STATES HAGAN CORPORATION	Same as above
	AMERICAN WATERWORKS SERVICE CO., INC.	MECH., CHEM., AND ELECT. ENGRS.
Group Meeting	LIBERTY MUTUAL INSURANCE CO.	B.S., MECH., CIVIL or ELECT. ENGRS.
		CHEMISTRY AUDITORIUM: 4:00 P.M.
Thursday, Mar. 4	WESTINGHOUSE AIRBRAKE CORPORATION	MECHANICAL ENGINEERS or GENERAL ENGINEERING
	PHILADELPHIA ELECTRIC COMPANY	MECHANICAL AND ELECTRICAL ENGRS.
	LIBERTY MUTUAL INSURANCE COMPANY (Claims and Sales)	No Specific Degree
	VIKING CORPORATION	B.S., M.S., Ph.D. CHEMISTS & CHEMICAL ENGINEERS
Friday, Mar. 5	SUN OIL CORPORATION	B.S., M.S., CHEM. & CHEM. ENGRS.; M.S., PHYSICISTS; Summer Work for Jr. Chem. Engrs. or Graduate Students
	PRUDENTIAL INSURANCE COMPANY	LIBERAL ARTS, BUS. AD., MATH.
	STATE OF MARYLAND, EXTENSION SERVICE	HOME ECONOMICS
	ABERDEEN PROVING GROUND	MATH.; CHEM., ELECT., MECH. ENGRS. (men and women)
	NAVAL GUN FACTORY	ELECT., CHEMICAL, MECH. ENGRS.

## Wolf Hall Throughout The Years

Wolf Hall, named for Dr. Theodore R. Wolf, former head of the chemistry department, was built to house sciences in 1917 and is the present home of the biological sciences.

Wolf Hall, the university's brick classroom building on Delaware avenue, is the present home of the biological sciences. Built in 1917, Wolf Hall was named in honor of Dr. Theodore R. Wolf, a former head of the Department of Chemistry. It was built to house the sciences offered at Delaware College, and at the time of its completion, the departments of Biology, Chemistry and Agriculture were located there.

At the time Wolf Hall was erected, the building made an even more imposing appearance, since it stood at the southernmost end of the college property. The stone walk, ending at the doorway, clearly marks the extent of the development at that time. The building stood by itself for some time, for Harter, Brown, the Chemistry and Engineering buildings, Hulihan and the library were all erected later.

During the earlier years of the college, what is now the dining hall in Old College was used for commencements and all dramatic productions. After 1884, when audiences grew too large for this room, these events took place in the "Old Open House" on the corner of Main and Academy Streets, Cashey Hall. This auditorium also proved rather small and inadequate, and so when Wolf Hall was finally completed, the new auditorium, now notorious for its bad acoustics, fulfilled the great need for a larger hall.

## Campus Greenery

(Continued from Page 2)

the walks of south campus. They are widely used as shade trees because of their considerable growth. The flowers of the locust are a fragrant white, and they attract universal attention from the world of insects. The trunk of the tree serves as a breeding place for beetles known as locust-borers. As a result, the locust tree seldom flourishes as it ought to.

Scattered throughout campus are the evergreen, a soft, sweeping type of tree. The oak, too, may be found in varieties of white, red and pink.

Near the women's dormitories there are crab-apple and oak trees. Near the circular path may be seen hemlocks and magnolias, the latter of which produce pink buds and tiny white flowers.

Among the most attractive shrubs that decorate the campus are the bridal wreaths, which are flowering bushes. These shrubs grow swiftly and are often spread out in different sections of campus by being replanted.

The trees and shrubs are something permanent. Together with the ivy-covered, colonial buildings, they make up the loveliness and variety of the campus scene all the year round.

## E-52 Musical

(Continued from Page 1)

Vacancies still exist for men in the chorus.

Dancers for the show include Ginny Redding, Mary Minkiewicz, Marcena O'Brien, Barbara Nast, Barbara Holmes, Jenny Baird, Floydie Berl, Elise Delano, Zona Herzog and Marty Snyder.

The show, being presented by the E-52 University Theatre in collaboration with the Music Department, is under the direction of Thomas B. Pegg of the Department of Dramatic Arts and Speech. Herman D. Middleton is technical director and Bertram D. Gable is musical director. Miss Elizabeth F. Crook is in charge of choreography.

The five performances will be given over two weekends—the first, March 18, 19, and 20, and the second, March 25 and 26.

With music by Richard Rogers, lyrics by Lorenz Hart and book by Herbert Field, "A Connecticut Yankee" is a completely revamped version of a show by the same name and authors which first appeared on Broadway in 1927. The adaptation being used by the E-52 Players is one which ran for 135 performances during the winter of 1943 and 1944.

Students interested in trying out for the chorus should see Mr. Pegg, Mr. Gable, or George Cavey, assistant director, as soon as possible.

Students are also needed to work on the production crews and committees. Those with time available should contact Mr. Middleton, Bob Waples, acting production manager, or Jean DeVries, assistant production manager.

## Home Ec Club

(Continued from Page 1)

3:15 p. m. All members of the club are encouraged to attend.

Committee chairmen for the open house consist of: co-chairmen, Charlotte Goodley and Joanne Yerkes; invitations, Ann Barrowclough and Nancy Precious; hospitality, Virginia Andrews and Janet Clay; program, Eula Mae Bunting, Patti Ingram and Lois West; refreshments, Jocie Brown and Anna Robb; decorations, Ann Short and Joan Russell.

## President's Report II:

### Scholarship Talent Scouting

A major shame of present scholarship programs as they have developed over the country is that oftentimes they subsidize the education of children of families who can well afford to educate their own children. Others who really need the money go without it. Families who condemn others who seek "something for nothing" fall into the practice themselves because family prestige seemingly is enhanced if a younger family member is awarded a scholarship. A lot of scholarship money goes to students whose families can well enough afford to send their children to a good college. Something akin to a scholarship racket has evolved that may eventually so disgust philanthropists that new scholarships from either private or even public funds may be impossible to secure. A few seniors from the better metropolitan high schools are often virtually besieged by the many scholarship offers by colleges who are out to buy talent.

Under the circumstances, the University of Delaware, if it is to have its share of good students to stimulate both the ordinary student and the faculty to their best efforts, must have scholarships to compete for the good student. There is no question but that the outstanding student does a great deal of teaching, too; however, one wonders if the "buying" of top notch high school pupils hasn't gone too far. Some of the money should be spent in a wider, more systematic search for talent that should go to college. The youngster from the small town without alumni talent scouts should not be overlooked. While some families know all the angles about college, including scholarship availability, others know so little that their brightest children are not even encouraged to take a college preparatory course. In every instance where a scholarship is granted, the family and student should be expected to contribute to the extent of their financial ability. With so many able young people of high intellectual potential not even in a position to consider college because of lack of money and lack of stimulating home environment, it is a tragedy that a few people are overwhelmed with scholarship offers whether financial need exists or not.

Another scholarship practice is to be condemned. Scholarships that designate that the holder must study in a particular subject matter field leading to a special vocation are common but not desirable. Under such circumstances, young people, especially poor ones, are apt to choose their course in college not out of natural interest and aptitude but out of expediency, even necessity. Entering a vocational field in this way is a poor start and promises little truer devotion and jeopardizes ultimate success.

While many students who should go to college do not, there are undoubtedly some who, because of family background, are pushed into higher education against their own wishes. The secondary school principal halfheartedly recommends them to the college and the admissions officer with tongue in cheek accepts them conditionally. When students come to this university or any other and do not make good, not only is money wasted, but oftentimes psychological damage is done to the student. Here, again, a better coordinated guidance program between school and college could improve a bad educational situation, avoid conflicts within families, student frustrations and monetary waste that occur when a person is in the wrong place for his interests and talents.

## Letters To The Editor

All letters to be printed must be signed by the author. If desired, the name of the author will be withheld when the message is printed.

Seventeen girls in Turvey Hall were informed Monday night that they were to move out of their dorm and be separated and scattered throughout the women's dorms over the campus by the end of this week.

The reason given to them was the economic situation. Why wasn't this situation discovered before the semester commenced? If it is financial reasons, why does it have to be Turvey? This seems like unfair discrimination to the girls. It also seems that the administration would have had the foresight to have perceived this difficulty before the semester started. At this point, with only a little more than three months remaining in the semester, why is it so urgent that it be closed now?

Could it be that there are deeper reasons which have not been disclosed? The girls have considered this question, but have concluded the following:

It can't be their grades. Their overall index has improved considerably since last year.

Likewise, their behavior has conformed to the rules of the university.

They have been able to work together as a group as proved by their winning the girls dorms' volleyball championship and their working together in several other activities.

How would the rest of you fellow students feel if you were in the position of these students. It cannot be denied that you also would feel as they do, that this unfair procedure would certainly affect your happiness and consequently your future scholastic achievements.

Faced with this situation, the girls have no one but you, the student body, to turn to. Let your support be symbolic of the students' strength of the present issue or in those which may arise in the future.

The Girls In Turvey Hall

 Egypt

Dear Editor,

Here's a request from five lonely (I can't emphasize that word too much) British soldiers in the Suez Canal Zone. We'd like you to put us in touch with some of your college girls through the columns of your newspaper, magazine, or what-have-you. I hope you will try and help us, as life out here is pretty monotonous. I think one might call our interests general. My four pals are at the same address, and here are their names,—

22274237 Corporal Cuman

(Denis, 21 years)

22806300 Sigm. Smith

(Arthur, 19 years)

22808490 Sigm. Lucas

("Taff", 19 years)

22745801 Sigm. Carter

(Joe, 19 years)

We'll be waiting hopefully for some replies,

Yours sincerely,

Alan (21 years)

A limited demand for a course in beginning Italian, together with the present availability of a native educated in Italy, suggests the desirability of canvassing the student body, faculty and faculty wives. If possible the course would be offered in extension one night a week either in Newark or in Wilmington. Persons interested (no obligation) are requested to give their names to the Chairman of the Modern Language Department (214 Hullah Hall) by Wednesday, February 24.

## Choose Your Frat

### Order Out Of Chaotic Rushing

By the time of this publication, the men of the class of 1957 will have been exposed to the ins and outs of fraternity life on the Delaware campus. Opinions are undoubtedly varied and intermingled with no small amount of confusion at this point.

This confusion is gratifying, not because the purpose of rushing is to hoodwink the unsuspecting freshman, but rather because it indicates that the rushees are circulating among the houses and that the frats are competently demonstrating the benefits of fraternal life.

The initial query for first-year students concerns the choice between affiliation and non-affiliation. Basically, each house offers the same affirmative argument for this problem. Physical facilities, financial obligations, age of the chapter, etc., may vary slightly, but only in degree. The sole weight that overbalances argumentation against affiliation lies in the fraternal bond that engulfs the membership of each house. This bond, formed by men of similar beliefs and standards, binds groups of men together for four years of college and fourscore years afterwards.

Independents may achieve comradeship, but they cannot but fail to lay claim to the lasting brotherhood associated with a fraternity.

Individual houses are both distinct and similar. This difference is the key to the freshman's answers. There is but one choice for each freshman—the group with which he is most compatible. Decide which fraternity is composed of men who share similar ideals with you and whom you would be proud to call "Brother," and your decision is made.

W. D. G.

## Religious Emphasis Week

### Services For Students

What is reality? Is religion real? What place should religion take in campus life? These questions and many others will be answered during Religious Emphasis Week—February 28 through March 4. During the week services and meetings will be held. These meetings will not be successful without student cooperation.

You may not think your presence at these meetings will matter, but your participation is very important. Besides contributing to the general discussion, you will get many benefits from attending. Discussion groups, conducted at the individual dormitories and fraternities, will bring out questions important and interesting to every student.

This week should be a profitable one in your college and future life if you take advantage of the opportunity to attend. Do yourselves a favor and support the Religious Emphasis Week program.

Jean Parker

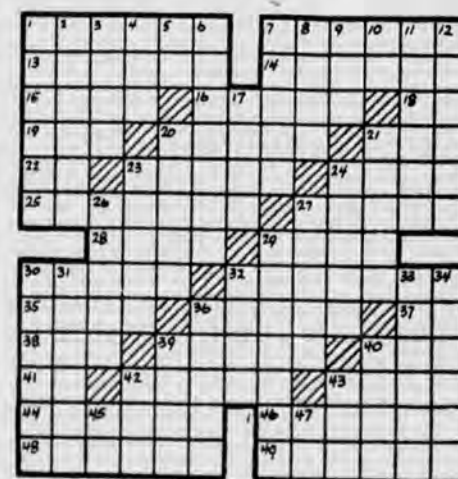

## CROSSWORD PUZZLE

**ACROSS**

1—Measuring devices  
 7—From that place  
 13—Beast  
 14—Eagles' nests  
 15—Suffix; native of

## SGA News

### Treasurer's Report:

There is a balance of \$3,706.16 in the S. G. A. account, \$10,000 in bonds plus \$6,202.75 in the Sinking Fund, and \$627.96 in the Social Fund.

### Student Union:

The Student Union Committee is trying to promote an interfaculty basketball game.

### Safe Driver's League:

Most of the commuters were contacted at registration. The dormitory and fraternity pledges are slow coming in.

### Cultural Activities:

Some difficulty is being encountered in trying to find a date that Mitchell Hall is free that corresponds with a date that George Shearing is in the vicinity. The possibilities for May 7, 1954 are favorable. Raphael Mendez, however, will give a concert on May 6. Mendez is being sponsored by the Music Department.

### Women's Executive Council:

It was suggested that the S. G. A. buy cheesecloth for a false ceiling in the Field House. This would eliminate the purchase of crepe paper for every dance. Money cannot be spared from the Social Fund to make the purchase at the present time.

### Elections Committee:

Work will begin soon on setting up the spring S. G. A. elections.

### Senior:

The class is still trying to reserve the DuPont Country Club for Senior Weekend, but the Gold Ballroom has been reserved as a second choice.

### Junior:

The Junior Prom will be held on March 13. The question of whether or not to have programs arose. Some kind of favor or programs with the ticket stubs was suggested.

### New Business:

### Executive Committee:

The By-Laws Committee will meet every Tuesday at 4 p.m. to discuss the By-Laws before presenting them to the S. G. A. A motion was made, seconded and passed unanimously that the Executive Committee be given the power to make nominations for a chairman of the Campus Chest Drive, who will be selected by the S. G. A. This chairman will be given the right to choose his own assistant chairmen, subject to the approval of the Executive Committee. The committee will meet after each S. G. A. meeting to make up the agenda for the following week. Any members may contact the secretary before Monday night to have topics added to the agenda.

A motion was made, seconded and passed that the Freshman Week Committee be responsible for the welcoming of new second semester students. It was also suggested that a letter be sent out during the summer from S. G. A. to welcome incoming students.

Women's Executive Council requested the use of S. G. A. poster paper for Women's Weekend. They have received their budget, however, in which they have considered this.

The Constitution Committee shall consist of Dick Saunders, Dave Menser, Stan Lowicki, Janet Leary, and Martha Thomas.

The Dean's List requirements are the same as in the past. A proposal for raising the requirements has been submitted to the faculty by the Scholarship Committee, and some privileges for being on the Dean's List have been included in this proposal.

### NOTICE

Students are needed to work on the crews and committees of the E-52 University Theatre's forthcoming production of the musical comedy, "Connecticut Yankee." Work is available on all phases of production. Those interested are urged to contact Jean DeVries, Bob Waples or Mr. Middleton at Mitchell Hall.

## CLIPPINGS

By PHOEBE HESTON

He—(having just kissed her) Ah! That was indeed a triumph of mind over matter.

She—Yes, I didn't mind, because you didn't matter.

\*\*\*\*\*

### Deft-initions

Ashtray—where you put the butts if the room doesn't have a floor.

Bank—An institution where you can borrow money if you can give sufficient proof to show you don't need it.

College Bred—A four year loaf made out of the old man's dough. Sympathy—What one girl will offer another in exchange for details.

\*\*\*\*\*

A little boy said to his father, "Papa, will you please explain the difference between capital and labor?"

His father replied, "If you lend money—it's capital—and when you try and get it back, it's labor!"

\*\*\*\*\*

One moonlight night, after a Prom dance, a fellow begged to drive a beautiful young girl home. She accepted and got in his little roadster. As they were driving along he sighed deeply.

"You're beautiful!" he murmured audibly. "That golden hair!"

"Thank you," she answered.

"And your big blue eyes, they're beautiful, too!"

"Thank you."

"And your lips—and pearly teeth!"

She again thanked him. As they rode along he continued to shower her with compliments, but she remained silent. Suddenly she spoke.

"Can you drive with one hand?" she asked, softly.

"Sure!" he quickly replied, hopefully.

"Well," she suggested, "wipe your nose—it's running!"

## 5 Muskrats Lose Hides; Skinner Wins Rat Crown

CAMBRIDGE, Md. — Russell Quisley recently was named champion muskrat skinner when he set a new world's record of five rats skinned in one minute, 37.7 seconds.

The former rat champ, Elihu Abbott, required all of one minute and 52 seconds to skin five.

A crowd of 1,500 people eagerly awaited the outcome of the contestants—and the rats.

## 'Neath The Arches

MICKIE BLAINE and DAVE MENSER

Notice the byline, as you can see I have a new partner in crime. You will also note that her name is first in the byline. And now to the sum and substance of our idiotic babbling.

Ex-KA Greg Gause had a minor blast at his place up in Wilmington on Saturday nite last. Walt Swenehart and Marty Murphy, Jim Hoey and Peg, the Bear and Carol, Bob Davis and Gail Conway, plus Buddy Kee and the new Missus were among those present. While we're dwelling on KA's, congratulations to Peggy Rainey and Dave Lechrone.

The boys from up in back of Recitation Hall, Sig Ep and EN, plus a slight smattering of Thet's, got together up on Naaman's Road to promote a little Inter Fraternity spirit before rushing started off with its customary "slurp." The Apes went in the right general direction, but they got confused and wound up at Painters Crossroads. We hear that Teddy Zut got permanently lost even though he was supposed to save the tables for them. Hank Bertuch and

Rhoda Weisman, Lenny Rosenbaum and Pat Lechrone, Bobby Simon and Ralph Schwab, Lynn Brandschain and Al Cohen were among those that made it.

Due to the absence of the column last week, we didn't put in the names of those who were pinned recently. That's logical. Frank Gyetvan and Dea, Sis Lewis and Tommy Baker, Shirley Binns and Johnny Allen. This week-end another Phi Tau lost his, Bob Ferguson to Valerie Stein-

## Engineers of virtually EVERY type are needed on the Boeing team

Mechanical, electrical, civil, aeronautical—in fact, graduates in virtually every field of engineering—find rewarding career opportunities here. There are openings in design, research, in the many phases of production, and for physicists and mathematicians with advanced degrees.

All engineering careers at Boeing have one thing in common: they provide plenty of opportunity to get ahead. Regular merit reviews are held. Advancement is keyed to your individual ability, application and initiative.

The aviation industry offers you a unique opportunity to gain experience with new techniques and new materials. It offers a wide range of application, from applied research, to product design and production, all going on at the same time.

What's more, you can expect long-term career stability in the aviation industry. Boeing, for instance, is now in its 37th year of operation, and actually employs more engineers today than

even at the peak of World War II. Besides designing and building the world's most advanced multi-jet aircraft (the B-47 and B-52), Boeing conducts one of the nation's major guided missile programs, and such other projects as research on supersonic flight, and nuclear power for aircraft.

Boeing engineering activity is concentrated at Seattle, Washington, and Wichita, Kansas—communities with a wide variety of recreational opportunities as well as schools of higher learning. The Company will arrange a reduced work week to permit time for graduate study and will reimburse tuition upon successful completion of each quarter's work.

For full details on opportunities at Boeing and for dates when interviewers will visit your campus,

consult your PLACEMENT OFFICE, or write:

JOHN C. SANDERS, Staff Engineer—Personnel  
Boeing Airplane Company, Seattle 14, Wash.

**BOEING**

## Hen Hoopsters Meet Strong Drexel Five Here Saturday

Saturday night's basketball game is going to be a very important one for the Delaware five. Drexel, which is currently leading the southern division of the Middle Atlantic Conference, will be the opponent on Delaware's own court.

The Hens lost to P.M.C. last Saturday night, 60-47, in an upset victory for the Cadets, putting Delaware out of a tie with Drexel for the loop lead. Unless they take the Rams tomorrow, the Hens will in all probability lose the conference championship they have held for two years.

Drexel has proved a tough opponent for everyone this year. Although they do not have much height, their winning combination is the best they have ever had.

The defeat of the Blue Hens, who had won two straight against Ursinus and Swarthmore, came as a surprise. The loss of Bob Hart proved somewhat of a drawback in the rebound department, but the team as a whole functioned nicely.

During the game with Ursinus, Jim Kinch rolled up his point total by setting a new school scoring record of 32 points and a new field goal mark of 15. The final score: Delaware 81-Ursinus 63.

Swarthmore had a losing night which put them on the short end of a 79-47 score.

The Drexel game is of the great-

est interest to Delaware fans. The Hens, however, will have to have more than Jim Kinch and Frank White to win it.

## Lafayette Faces 27-Game Schedule

EASTON, Pa., Feb. 13—The Lafayette College baseball team, defending District 2, NCAA, champion and semi-finalist in the College World Series at Omaha, Neb., last year, will play a 27-game schedule this spring.

Newcomers on the schedule, announced by Director of Athletics William H. Anderson, include Yale, Army and Colgate. Four games will be played with Lehigh, two of them on June 12, Alumni Day at both institutions. The first game will be played in Bethlehem in the morning and the second game in Easton in the afternoon.

### College Men

Earn \$75 to \$150 a week during summer.

Also part time work during winter.

Experience, in meeting people. Opportunity: Prize incentives, bonuses.

Meet at Chemistry Auditorium at 4:00 P. M. February 22, 1954.

## Lacrosse Men Oppose Swarthmore In First Games Of '54 Season

If you have seen men walking around the quad with sticks like butterfly nets, it's not the men from Mars, but it's Milt Roberts' lacrosse team. The team is under the able leadership of Coach Milt Roberts and co-captains Boyd Cook and George Chaloupka.

The team practices every Monday and Thursday nights in the field house in preparation for their two box games with Swarthmore. As soon as the warm weather comes, the team will practice every afternoon out on the soccer field. The Blue Hens will have a schedule of eleven games, with the first one scheduled in late March with MIT. During the spring vacation the team will travel to Troy, New York, to play RPI. Other games are scheduled with University of Pennsylvania, Washington College, Western Maryland, Drexel, Lehigh, Lafayette, Hofstra and Swarthmore.

Returning lettermen include Bill Gurney, Pat Morris, Bob Horne, George Chaloupka, Boyd Cook, Dick Knoll, Kirk Banks and Jerry Angulo. New members and members from last year's freshman team include Jack Wiberg, Dick Garret, Pete Brosius, Sandy Whitney, Hap Cook and Pete Braungart. Many freshmen are out, with Bob Tait from Lower Merion being the shining light. Many more candidates will report when the team goes outside on March 1st.

## Blue Hen Of The Week

The Review's selection for the Blue Hen of the Week is Frederick W. Freibott of Port Monmouth, N. J. Fred, who holds more swimming records than any other individual here at the university, went to Middletown Township High School and Peddie Prep in New Jersey. While at Peddie, Fred was an All-American Prep School swimmer in the 50 yd, 100 yd. and free style medley for the years 1951 and 1952. Also at Peddie he participated in track and baseball. In track he ran the high hurdles, high jumped and pole vaulted, while in baseball he played the outfield.

Last year Fred was a standout as a freshman. He holds six freshman records: 300 yd. medley team, 220 yd. free style, 50 yd. free style, diving, 100 yd. free style and the 200 yd. free style. Currently he holds two varsity records. He holds the Delaware record in the 100 yd. free style in 54.3, and last week against Gettysburg he smashed his old pool record in the 50 yd. free style, setting a new record of 24.4.

Fred here at the university is in the class of 1956 and belongs to KA fraternity. He is in the School of Business and is chairman of the Peddie University Club.

It's congratulations to Fred Freibott whose outstanding success and records in swimming will stand for a long time.

## Delaware Matmen Tie Ursinus 14-14 As Tom Oves Pins

"Varsity Tom" Oves came through with a pin in the final bout of the afternoon last Saturday to give Delaware a 14-14 tie with Ursinus after a tough uphill battle.

Ursinus' "Big Three" of Middle Atlantic Champ Eddie Dawkins, Capt. Al Paolone and ex-Upper Darby schoolboy star Dick Padula combined to win the first three matches, giving Ursinus an 11-0 lead. It looked like a blue afternoon for the Blue Hens till Co-Capt. Armand "Jerry" Angulo came on to win his second straight decision to get the Hens started. Muscular Harold Ladd followed Angulo up with another decision win in his first collegiate match, but another Hen newcomer, Jim Kosowski, found the going a little rougher and succumbed to a 16-10 decision after a hectic battle.

With Delaware eight points down and only two matches remaining, things still looked blue, but Co-Capt. Vince "The Mattress" Stallone scored a neat 4-0 shutout decision, and Oves came through (Continued on Page 10)

## INDOOR TRACK SEASON OPENS WITH AAU MEET

The increasing activity in Carpenter Field House indicates that another season is drawing near with the wearers of the Blue and Gold striving to continue their winning streak established last year. Last spring the track team was undefeated in eight dual meets, the first time since 1948 that a varsity team of the U. of D. had accomplished such a feat.

In order to protect this record many of the Blue Hen runners have practiced regularly throughout the winter months. This enthusiasm has been encouraged and directed by Coach Ken Steers and Capt. Bill Reybold. Since early December the so-called refrigerator room of Carpenter Field House has been invaded daily by cinder-men.

These early birds include Dante Marini, co-captain of the '54 cross-country combine; and Roger Fouracre, holder of the 2 mile record and past co-captain of the Hen harriers. Among those expected to join the varsity workouts this week are Jim Glick, holder of the record for the 2 mile (indoors); captain Bill Reybold, who at present is completing another successful year with the Hen mermen; and Don Rau, Ed McKeown, and Jim Zaiser, all members of last year's record-breaking freshman mile relay team. Dick Saunders is expected to continue his high-jumping exploits; he holds the indoor record for Delaware men. Steve Butcher will be tossing the shot again this year; he is also a record holder.

The talent that the freshmen have shown thus far has been especially promising and also encouraging. (Continued on Page 10)

### Intramural Highlights

The total of the fraternity point standings show that Kappa Alpha with 243 points holds a slight edge over Sigma Nu with 237, and that Sigma Phi Epsilon with 180 points has a firm grip on 3rd place followed by Phi Kappa Tau with 118 points.

D. Lewis of Sigma Nu defeated J. Wortz of Kappa Alpha to become the 1953 intramural ping pong champion.

Date for Intramural Foul Shooting — 2 days later than originally scheduled.

**Fraternity Point Standings**

Kappa Alpha	243
Sigma Nu	237
Sigma Phi Epsilon	180
Phi Kappa Tau	118
Alpha Tau Omega	117
Delta Tau Delta	74
Theta Chi	68
Pi Kappa Alpha	50

Date for Intramural Swimming — March 1.

*It's beautiful! It's practical! It's all vinyl!*

*It's Chevrolet's*

## DELRAY CLUB COUPE

*with the year's brightest new idea in interiors!*

This Delray Club Coupe combines all the colorful smartness of a sport model with an interior that's designed for everyday family use. Seats, sidewalls, even the headlining, are all of soft, lustrous vinyl in color treatments that harmonize with the exterior color of your choice.

And this new interior is just as durable and practical as it is beautiful. The vinyl is easily washable and amazingly resistant to scuffing and wear. You don't have to worry about little feet on the seats or the things that little hands might spill. And for grown-ups, here at last is a coupe that provides all the between-seat knee-room of a 2-door sedan!

The Delray Club Coupe is only one of the wonderful new Chevrolet models that make up the lowest-priced line in the low-price field. Come in and look them over.

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CARS

SEE YOUR CHEVROLET DEALER FOR ALL YOUR AUTOMOTIVE NEEDS!

Conveniently listed under "Automobiles" in your local classified telephone directory

## Mermen Down Gettysburg For Eleventh Straight Win

Delaware's mermen downed the Gettysburg "Bullets" 56-20 to extend their unbeaten streak to 11 straight meets. Performing before a capacity crowd, Coach Harry Rawstrom's swimmers swept to first place in all but two events. Tom Duff won the individual medley in 1:48.8, seconded closely by Jack McDaniel; while Ted Zutz posted a winning 2:31.8 in the backstroke and Bruce Stewart took second. Breaststrokers Bob Wagner and Tony DiMaio also delivered a strong one-two punch to the weakening Bullets.

School and pool records both fell before Fred Freibott's 24.3 effort in the 50-yard freestyle and Bob Wagner's 2:32.8 time in the 200-yard breaststroke. Both swimmers broke their own previous school records, and Wagner also smashed Temple breastroker Bill Schmidt's 2:33.6, which had not been threatened since 1947.

Freibott and distance man Lorin Krusberg were the only double winners, Freibott won both free style sprints, and Krusberg followed up with victories in the 220 and 440 free style.

Coach Rawstrom will take the team to West Chester tomorrow in an attempt to christen the Teachers' new Memorial Pool with another Delaware victory.

**The summary:**  
300-YARD MEDLEY RELAY: 1. Delaware (Bruce Stewart, Tony DiMaio, Marty Apostolico); 2. Gettysburg, 3:22.7.  
200 FREESTYLE: 1. Lorin Krusberg, Delaware; 2. Chet McGlauchlin, Gettysburg; 3. Bill Keybold, Delaware, 2:23.9.  
50 FREESTYLE: 1. Fred Freibott, Delaware; 2. Bob Gilchrist, Gettysburg; 3. Dick Goodley, Delaware, 0:24.3.  
150 INDIVIDUAL MEDLEY: 1. Tom Duff, Delaware; 2. Jack McDaniel, Delaware; 3. Curt Coull, Gettysburg, 1:48.8.  
DIVING: 1. Bryant Heston, Gettysburg; 2. Bill McKinley, Delaware; 3. Bill McWilliams, Delaware, 78.21 points.  
100 FREESTYLE: 1. Freibott, Delaware; 2. Heston, Gettysburg; 3. Gilchrist, Gettysburg, 0:55.4.  
220 BACKSTROKE: 1. Ted Zutz, Delaware; 2. Stewart, Delaware; 3. Jack Lipkin, Gettysburg, 2:31.8.  
200 BREASTSTROKE: 1. Bob Wagner, Delaware; 2. DiMaio, Delaware; 3. Fred Hopkins, Gettysburg, 2:32.8.

440 FREESTYLE: 1. Krusberg, Delaware; 2. McLaughlin, Gettysburg; 3. Keybold, Delaware, 5:20.7.  
400 FREESTYLE RELAY: 1. Gettysburg (Ken McKeen, Bob Eppelman and Gilchrist and Heston); 2. Delaware, 4:04.2.

## Hens To Compete Against Michigan In Season's First

The University of Delaware baseball team began workouts Monday in preparation for a rugged 24-game schedule. The Hens open the season against the University of Michigan on April 1, at Frazer Field.

The Blue and Gold will make their annual southern trip during spring vacation and will meet Maryland, Navy, Virginia, Wash-

(Continued on Page 10)

## Gettysburg Squad Loses Ace Scorer

GETTYSBURG, Pa., Feb. 11—Gettysburg College's basketball team was dealt a serious blow today when it was revealed that senior John Habeeb, highest scoring member of the Bullet team, will be lost to the club for the remainder of the season as a result of a foot injury sustained Tuesday night in Gettysburg's 88-73 victory over Franklin and Marshall. X-rays showed that the 5-10 guard from West New York, N. J., is suffering from torn ligaments and a bad sprain.

## Frosh Down PMC For Eighth Victory

Freshman coach Irv Wisniewski's quintet swept to their 8th win in 11 starts on Saturday night by downing an outmanned P. M. C. yearling "5" 89-67. A former P. S. du Pont star, Jimmie Smith, led the Blue Chicks scoring parade with 22 markers on 8 field goals and 6 free throws. Dick McKelvey, another ex-P. S. du Pont ace, racked up 15 points, while the Blue Chicks' 6 ft. 3 in. center, Pete Mulligan, also managed 15 tallies.

The frosh built up a commanding lead in the first half, a margin which reached 20 points late in the third quarter. With Ross, Kugler, McKelvey and Mulligan controlling both the offensive and defensive backboards, the Cadet could never muster a sustained attack.

## The Armchair Umpire

BY CHARLES WILLIS

Swimming has by far been the most successful winter sport this year. Harry Rawstrom's mermen have splashed to an almost perfect 6-0-1 record and will be seeking victory number seven tomorrow afternoon against West Chester.

Captain Bob Wagner and Fred Freibott stole the spotlight in last Saturday's Gettysburg meet. Wagner set a new Delaware and Taylor Pool mark by handily winning the 200 yard breaststroke in the record time of 2:32.8. Freibott, a winner in the 100 yard free style also, lowered his 50 yard free style record from 24.4 seconds to 24.3 seconds.

Although Freibott and Wagner were in the spotlight, last week's victory was a team effort, as are most group sports. Lorin Krusberg, veteran 220 yard and 440 yard free style artist, captured both of his specialties; and Ted Zutz and Tom Duff scored firsts in the 220 yard backstroke and 150 yard individual medley.

Important seconds and thirds were posted by Bruce Stewart, Bill Keybold, Tony DiMaio, Marty Apostolico, Jack McDaniel, and divers Bill McKinley and Bill McWilliams.

Pennsylvania, who the Hens meet March 3 at Taylor Pool, now looms as the big obstacle in the road to an undefeated season.

Tomorrow night it will be "do or die" for Fred Emmerson's cagers if they hope to retain their M.A.C. basketball crown. The Drexel Dragons, who sport a perfect 5-0 league ledger, will be hungry for the victory, as they have been in the second position in league play for the past several seasons. The Hens continue to rank in the top 15 defensively among the nation's small college and university fives.

**Rebounds:** Dick Evans, last seasons hoop captain, is scoring in double figures for Laurel of the Central Shore League this campaign. . . Tom Oves, heavyweight wrestler, has shown considerable improvement in the past several weeks and should provide plenty of trouble for his remaining opponents this season.

# Fraternally Speaking: The Greeks...

## Delta Tau Delta

The Delt House on S. College Ave. became the center of operations for many an exciting and mysterious adventure during the past week.

On Friday afternoon, pledges Mealey, Hastings, and Gedling set out for the wilds of Boston on their pledge quest. They were supposed to bring back a wagon wheel three feet in diam., a champagne bottle of lake water, and certain female anatomical measurements. The boys had no trouble with the latter arriving in Boston in time for the big Winter Carnival at Tufts College. Three of the loveliest of the New England beauties were accompanied by our pledges on their rounds (they forgot about the wagon wheel). It is reported that they wound up their little trip by delivering a speech before a Harvard audience on the Boston Green.

Everyone was overwhelmed with the changes in the House, which were being made as the brothers busily wielded paint brushes in their eager little hands. Then someone saw, out of the corner of his eye, weird, indescribable sights

in the first floor bathroom; mysterious creatures stared from the walls—what in the world? At this point words fail us.

## Kappa Alpha

Kappa Alpha is looking forward to meeting the young men of the class of 1957. These next two weeks will be ones of great decision. Although many men believe that they desire to join one fraternity, they may find that some other one is more desirable. A rushee should make a wise decision, in that his choice will be one which will make him happy the rest of his college days. He should not base his decision on men who are graduating but on men with whom he will be living most of the time. We send a hearty welcome to the class of 1957.

Saturday night found two parties on tap, and that wasn't all. Alumnus Greg Gause had a small get-together for a few alumni and also invited were Peggy Tighe, Jim Hoey, Carol Morgan and Judge McWhorter.

The other party found a small excursion to the Coliseum. Pat

Lyons and Fred Freibott were tripping the light fantastic. That's a good adjective for anything that Chimp does.

Congratulations to Dave Lecrone who gave his fraternity pin to Peg Rainey on Saturday night. We are glad to welcome such a grand two-some into the ball and chain club.

## Sigma Phi Epsilon

The red door is now thrown open to the freshmen for the rush season. Festivities were started with a smoker party Monday night. We hope you frosh had a fair time. We expect another great time Saturday night at our house party. Entertainment will be provided by the Panther Five or Six. It "resembles" Dixieland music.

Brothers Chauncy Dean and Bill Karau journeyed to the Penn State chapter for a real blast. Brother Karau lost his head and his pin too. Congratulations, Bill. Congratulations also to Bobbie Holmes and Brother Frank White. We hope Bobbie enjoyed the serenade (even if a few brothers did die of frostbite.)

Brother Pierce Crompton return-

ed for a visit to the quad after his six-week vacation at Marine boot camp. The welcoming committee adjourned to C. I. where the "spirits" were high."

## Phi Kappa Tau

Phi Kappa Tau extends a cordial welcome to all freshmen and upperclassmen. For those of you interested in fraternities, make your decision wisely, visit all chapters and meet the brothers. This is the only way to find the group of men with whom you wish to associate. Our doors will always be open to you.

Congratulations to Bob Ferguson who presented his pin to Valerie Steinmetz and to Bill West who became engaged to Pat Harbold.

We welcome new pledges Don Bunnell, Jim Kosowsky, and Bob Dryden to our chapter.

We also welcome new brothers Don Elpper and Dave Woodward.

## Theta Chi

The chapter extends its sincerest congratulations to our new president Tom Fannon, who took over

the gavel from Yukon bound Charley Sullivan.

Most of the Brothers came through the mid-year ordeal in fine fashion. Jack Eagle, Tom Oves, Stan Wojciechowski, Joe and Ed Stout all amassed 3 point indexes. Looks like the OX's are really hitting the books.

Looks like Vince Stallone, Ferd Susi and Howie Todd are trying their best to make the House of David baseball team. They look like fugitives from the Bowery Ball.

Tom Oves, Tuhie Barrow, and the Stout brothers spent their mid-term vacation cleaning up the new OX chateau. Heartiest thanks for a fine job done.

## AE Pi

With the spring term now in full swing, the Apes of West Main St. have ceased the disorganized goofing off that usually comes with the beginning of a new semester and are now completely organized. The social calendar has been drawn up by Gordon Pizor, our new social chairman, which he headed by scheduling a house party this Saturday night followed by an old clothes "Spaghetti" party the following Friday. (Get here early, rushees, these Apes are really pigs.)

Last Monday night saw the newly elected lieutenant master, David Schulman, welcome a big turnout of prospective pledges to our first smoker. Lou Cherr, a member of the A E Pi's supreme board of governors, addressed the rushees with a beautiful speech. After convincing most of them to transfer to Penn, Lou presented the chapter with its umpteenth consecutive scholarship award from the national organization.

Question of the week: How is Eric, Janet?

## Sigma Nu

Social activities covered a wide area during the first weekend of this semester. Many brothers, in the habit of singing fortissimo, invaded the shores of the Elk River at F. T. Harry Fitzsimmons, Jack Harper, Jay Badgley, Bud Kimmel, and Jack Miller all proved to be worthy choir masters.

Last Saturday night at the Cedar Inn it looked like Delta Kappa was present cum maximum; Norm Williams, Bob Green, Tom Hopkins, Bob Waples and Don Lewis were included in this forceful group.

Tom Bratton, Len Brown, and Charlie Paski toured Ursinus's campus last Saturday; that same evening they quadruple dated with Jimmy Roosevelt in the "city of Brotherly."

## Pi Kappa Alpha

CONGRATULATIONS to Captain Tom Redfield's hoopsters, who lived up to pre-season expectations by bringing home the interfraternity trophy. The "Phizz Kids" concluded an undefeated season by defeating Phi Tau. The all-victorious squad includes Steve Butcher, Bob Cornwell, Frank Serpico, Jock Henderson, Tom Redfield, and leading scorer, Vince Landi.

Pike administrators finally gave in to rank and file sentiment by allowing a TV set in the house (for its educational value only, of course). Howie Graham still insists on watching Hopalong Cassidy.

A vote of thanks to our conscientious house manager, Paul Dolan, who organized and supervised the clean-up, paint-up activities at the house.

## Alpha Tau Omega

Congratulations to all Brothers on the excellent scholastic record of the last term, particularly to the ten Brothers and pledges who made the Dean's List. Also our hats are off to Brother Carl Schupp who recently was initiated into Alpha Chi Sigma, honorary chemistry fraternity.

The doors at 5 West Main Street are open wide from now on to all men of the Class of '57.

# THE DU PONT DIGEST

## Technical Sales

A major in glibness and a minor in solid information—those were the mythical requirements for a salesman in the old days. But they really never sufficed for a man selling the products of chemical technology.

Today, the diverse applications of Du Pont's 1200 products and product lines create a need for trained sales personnel representing many different technical backgrounds. These men must deal intelligently with problems in chemistry and engineering applied to such fields as plastics, ceramics, textiles, and many others.

Du Pont technical men are assigned to various types of technical sales activity. In some spots they are equipped to handle all phases of sell-

ing. In others they deal mainly with customer problems. Also, certain departments maintain sales development sections, where technical problems connected with the introduction of a new product, or a new application for an established product, are worked out.

For example, a technical man in one of Du Pont's sales groups was recently called upon to help a customer make a better and less expensive hose for car radiators. Involved were problems in compounding, such as choice and amount of neoprene, inert fillers, softeners, accelerators, and antioxidants. Correct processing methods also had to be worked out, including optimum time and temperature of milling and extruding. The successful completion of this

project naturally gave a good deal of satisfaction to the customer as well as Du Pont.

In another case a customer wanted to reduce carbon contamination of arc welding rod stock. A Du Pont technical service man suggested changes in cleaning procedures that lowered contamination by 90 per cent. The new process also reduced metal loss during heat treatment—a benefit that more than offset the cost of the additional cleaning operations.

Technical men interested in sales work usually start in a laboratory or manufacturing plant where they can acquire needed background. Depending on their interest and abilities, they may then move into technical sales service, sales development, or direct sales.

In any of these fields, the man with the right combination of sales aptitude and technical knowledge will find interesting work, and exceptional opportunities for growth in the Du Pont Company.

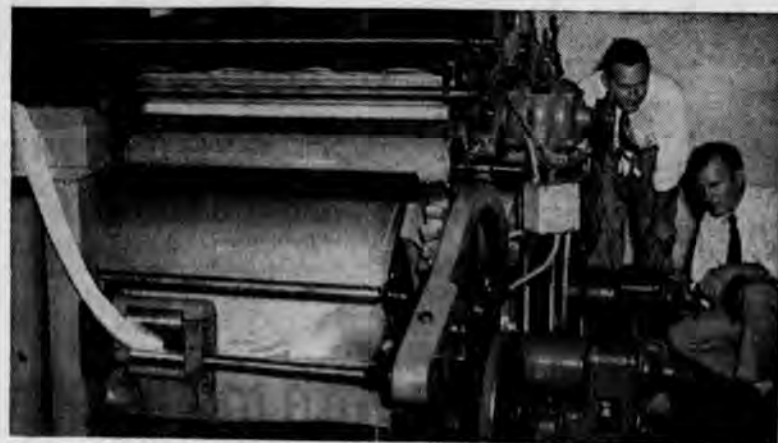

W. A. Hawkins (left), B.S.M.E., Carnegie Tech., demonstrates extrusion of "Teflon" tetrafluoroethylene resin for a customer.

## Mrs. Ginther

(Continued from Page 2)

serving as horticulture librarian, bookkeeping for federal and state allocations to projects, handling the payroll at the Georgetown substation, filing, and writing purchase orders.

Mrs. Ginther shares seniority honors with four others who were at Delaware when she began—Dean George L. Schuster, Professor T. A. Baker, Professor Tomhave, and Professor L. R. Detgen.

Mrs. Ginther, whose retirement becomes effective on March 1, relates that her lifetime with the university has been thoroughly enjoyable, and she would recommend the Agriculture Department as an excellent place for employment.

## Aggie Of The Year

(Continued from Page 2)

ing to the growth and development of agricultural students and the School of Agriculture." Candidates must have a 2.0 overall or a 2.0 the previous semester as well as being petitioned by any ten agriculture students.

Student petitions, identified only by a number, will be judged by a three-man faculty committee se-

lected by Dean George L. Schuster. Petitions must be filed by noon, February 23.

The banquet at which the award will be made will also feature an address by Dr. William A. Mosher, professor of chemistry. George Van Horne, William Crittenden, Richard Darsie and Maurice Field, the faculty quartet, will provide the entertainment.

The Agriculture Club, the second oldest continuously active organization, was founded in 1909.

## Fund Projects

(Continued from Page 1)

ed research make indispensable many of the publications of learned societies that would have been luxuries ten or twenty years ago. The library needs back issues of technical periodicals, micro-film of journals which are not otherwise available, and micro-film readers and film storage equipment. It also needs to keep up on literature

on such subjects as religion, law and medicine.

This year's development fund marks the 15th campaign of its kind in Delaware. During a six week period each year, alumni and alumnae leaders in all parts of the country solicit funds from the former students of the university. This year's campaign began on January 16, with a kick-off luncheon. It will be concluded on March 22.

According to Groo, the develop-

ment fund is an "investment for alumni in the university's future. It is a way by which the alumni, alumnae and friends of the university may help support it."

## IT'S ALL A MATTER OF TASTE

When you come right down to it, you smoke for one simple reason . . . enjoyment. And smoking enjoyment is all a matter of taste. Yes, taste is what counts in a cigarette. And Luckies taste better.

Two facts explain why Luckies taste better. First, L.S./M.F.T.—Lucky Strike means fine tobacco . . . light, mild, good-tasting tobacco. Second, Luckies are actually made better to taste better . . . always round, firm, fully packed to draw freely and smoke evenly.

So, for the enjoyment you get from better taste, and only from better taste, Be Happy—Go Lucky. Get a pack or a carton of better-tasting Luckies today.

## COLLEGE SMOKERS PREFER LUCKIES

A comprehensive survey—based on 31,000 student interviews and supervised by college professors—shows that smokers in colleges from coast to coast prefer Luckies to all other brands! The No. 1 reason: Luckies' better taste!

We're rooting for our favorite team! The arguments are loud. But smoother-tasting Lucky Strike Wins cheers from all the crowd.

Alice G. Ogden  
Santa Barbara College

In college crowds you'll always see Those packs of red and white—It's Lucky Strikes they choose to buy! Their flavor tastes just right!

## Matmen

(Continued from Page 6)

with his pin to knot things up to 14 all.

Mat Marks: Gene Holland, the Hens' veteran 167 pounder, got an academic release at mid-semester. Tom Bratton, who dropped wrestling to study in December, is continuing to concentrate only on the books. Incidentally, Bratton pulled a Dean's list index.

Harold Ladd, who won his 157 lb. bout, had a starting job at 147 a month ago but missed the bus to Virginia. Tom Baker, whom Ladd beat to get the 157 pound berth, has made things tough in the eliminations every week since the season started. Baker eliminated regular 157 pounder Bruce White last week only to lose to Ladd the next day.

The Hens meet Muhlenberg's Mules at Carpenter Field House tomorrow. The Mules, led by Middle Atlantic 147 lb. champ Al Billy, currently have a three match winning streak.

The summaries:

123 lbs.—Ed Dawkins, Ursinus, decisioned Dale Boyd, 3-4.  
130 lbs.—Al Paolone, Ursinus, decisioned Bill McCaffery, 10-2.  
137 lbs.—Dick Padula, Ursinus, pinned Ed White.  
147 lbs.—Jerry Angulo, Delaware, decisioned Dick Briner, 8-5.  
157 lbs.—Harold Ladd, Delaware, decisioned Dick Glock, 6-4.  
167 lbs.—Dick Heydt, Ursinus, decisioned Jim Kosowski, 16-10.  
177 lbs.—Vince Stallone, Delaware, decisioned George Aucott, 4-0.  
Unlimited—Tom Oves, Delaware, pinned Jerry Nunn.

## Hen Nine

(Continued from Page 7)

ington and Lee, Quantico Marines and Georgetown on successive days.

Sixteen players were present at the first conference held by coach Bob Sieman last week. Present at the meeting were infielders John Kennedy, Ray Hoopes, Andy Wagner, Lou Romagnoli, Albert Tanager, Ralph Barrow, Gary Buckwalter and Bob Hooper; outfielders Tom Redfield, Jimmy Zaiser and Warren Allen; catchers Bob Trivits and Frank Serpico; and pitchers Dave Woodward and Buddy Kimmel.

The mound corps will be strengthened when Pete Kelleher and Dallas Green join the squad after the close of the basketball season. The Blue Hens will be out to better last season's poor 6-15 record. Frank Serpico and Bill Annonio are co-captains of the squad, and Frank Baylis is the manager.

IN THE still of the night—high above a sleeping American city—an unidentified aircraft is spotted. In a matter of seconds a lightning-like jet interceptor takes to the air. Unerringly, with an Aircraft Observer showing the way, the Air Force F-94 Night Fighter speeds to intercept the stranger. The Aircraft Observer is the man behind the pilot—the officer who keeps America's planes flying on course and on target. Without him the Air Force couldn't do its job.

### What is the Aircraft Observer?

He's a Radar Officer... employing an all seeing eye that penetrates where human sight fails.

He's an Aircraft Performance Engineer Officer... knowing everything there is to know about his plane... keeping it fit for the skies and ready for action.

He's a Navigation Officer... plotting his plane's course... with an entire crew depending on him for a safe flight.

He's a Bombardment Officer... in full control of the plane over the target area... the Air Force Officer who "lowers the boom" on the enemy.

### What the Aircraft Observer gets

He earns over \$5,000 a year. His silver Aircraft Observer wings give him prestige and distinction, and he wears the bars of an Air Force Lieutenant. They mark him as the eyes, ears, and brains of America's Number One flying team.

### What it takes to be an Aircraft Observer

The Aircraft Observer must be sound of limb, keen of mind, and above all, must have the determination to be the best.

To qualify as an Aircraft Observer you must be single, between 19 and 26½ years old, and a high school graduate. However, it will be better for you and the Air Force if you stay in college and graduate before you apply. Then you, too, can be one of the best... as an Aircraft Observer.

### WHERE TO GET MORE DETAILS:

Contact your nearest Aviation Cadet Selection Team, Air Force ROTC Unit or Air Force Recruiting Officer. Or write to: Aviation Cadet, Headquarters, U. S. Air Force, Washington 25, D. C.
