NUMBER 30

Crowd Attends Harvest Home

Good Sum Relized by Ebenezer Church

Harvest home held in White-man's Grove last Thursday under the auspices of Ebenezer M. E. Church, attracted folk from far and wide. Visitors during the entire day, it is estimated, exceeded five thousand. Over two hundred and sixty dollars was cleared by the big woods meeting.

An ideal day favored the plans of the committee, which were carried out to the letter. The Rev. H. O. Klug, the new progressive pastor of the church, acted as chairman. Co-workers on the committee in charge of the exercises were Samuel Little, J. Denny, and Dr. Cook.

The women of the church, under the direction of Mrs. James Little, served both dinner and supper. Six hundred were served at dinner and two hundred at supper. The great majority of folk, however, regarded the picnic dinner as one of the pleasantest features of the day, and brought their own old-fashioned picnic baskets packed with good things. Teams and automobiles started to file onto the grounds early in the morning, although the formal program did not begin until 10.30. Rev. George A. Cooke, of Wilmington, made the opening address, discussing under the subject "The New Patriotism," topics of vital interest to the people attending the Harvest Home.

The afternoon address was delivered by the Hon. W. H. Berry, Collector of Port of Philadelphia, who is well-known to many Delaware audiences. Mr. Berry talked on "Man and Monkey." The speaker ridiculed the theory of scientists that man sprang from the monkey and claimed that if this were true man would never have been able to accomplish all that he has. "We are not from the jungle," said Mr. Berry, "and nothing that has ever been found would indicate that we are from the law of the jungle." He contended that instead of man's work being completed it is just starting and that there remains much for man yet to do.

In conclusion Mr. Berry advised his hearers to do their own political thinking. "Don't let anyone else do it for you. You can do it better yourself." Speaking of a man who ridiculed women's suffrage the speaker said: "If men had done what they should have done and had not sidestepped we would not have heard anything about suffrage for a century to come."

In the evening there was a band concert at 7.15 o'clock and Mr. Berry made another address at 8 o'clock. Both addresses by the Pennsylvania speaker were greatly enjoyed. In the evening he talked on matters pertaining to local option.

Throughout the day every possible care was taken to provide entertainment for the small children. There were sand hills to play in, as well as a number of other amusements. For the adults there were several attractions including a baseball game which was largely attended.

The chairman, Mr. Klug, announced during the day that he is already arranging for some new features in connection with next year's Harvest Home. For more than a half-century the day has been one of interest to the farmers of the entire countryside.

1915 Football Schedule

The football schedule for the 1915 season at Delaware, completed during the last week, promises to be of unusual interest. A list of the games follows:

- Oct. 2—P. M. C. at Chester.
- Oct. 9—Haverford at Haverford.
- Oct. 16—P. M. C. at Newark.
- Oct. 20—La Fayette at Easton.
- Oct. 23—Western Maryland at Newark.
- Oct. 30—Catholic University at Washington.
- Nov. 6—Dickinson College at Newark.
- Nov. 13—Mount St. Mary's at Emmittsburg.
- Nov. 25 (Thanksgiving Game)—William and Mary at Newark.

Quein's Whereabouts Located

Algenon Quein, the Cecil county farmer who mysteriously disappeared a month ago, leaving his wife and five small children alone on a farm near Fairhill, has been located at Columbia, Pa., where he is working in a mill. Quein left home suddenly last month after one of his horses dropped dead in the hay field. It was thought at the time that his mind was affected by the heat and that he had committed suicide. Neighbors made a search of the surrounding country for several days for his body.

As far as is known Quein, who is well known in Newark, where he was formerly employed in the store of William P. Wollaston, has made no explanation of his action in leaving his wife and children. The first that his family knew that he was even alive was when Mrs. Quein received a letter from his several days ago stating that he was working in Columbia and asked that his clothes be sent to him there.

One day last week a fire started in a straw stack on the farm where Quein lived and before it could be extinguished every building on the place, including the dwelling, was burned to the ground. Mrs. Quein and the children escaped with only the clothes they wore as there was no time to save the contents of the buildings. Quein evidently knew nothing of the fire when he wrote for his clothes.

The fire was not the only misfortune that Mrs. Quein has had since her husband left her. When he left their youngest child was ill and since then was removed to Elkton Hospital for an operation. Quein's father, who is a merchant at Fairhill, is looking after Mrs. Quein and her children at his home.

Union Services Close Sunday

The last of the series of union services on the campus of Delaware College will be held next Sunday evening at 6.30. Rev. Herman Klug, pastor of Ebenezer M. E. Church, will preach the sermon. If stormy the committee has arranged to hold the services in the Oratory.

Accepts New Position

A. H. Dean, Delaware College, Class 1914, paid a flying visit to Newark friends on Sunday. Mr. Dean was enroute for Emporium, Pa., in the vicinity of Pittsburgh, where he has accepted a position with the Aetna Explosives Co. of that place.

Wilmington Machinists Strike

The ranks of the striking machinists in Wilmington, who demand an eight-hour day and a 20 per cent wage increase, were swollen on Saturday by employees of several large plants, including those of Harlan and Hollingsworth Corporation, Trump Bros. and the Pusey and Jones Company. The Harlan & Hollingsworth hands were paid in full to date. Some of the employers stated that they could not grant the increase of pay demanded. The strikers say that they can get work at Eddystone on the terms demanded.

Fatal Play With Matches

While Margaret Seelig, the seven-year-old daughter of George Seelig of 1617 West Eighth street, Wilmington, was playing on the Rodney street playground on Thursday with two other children they began to light and throw about matches. One of them set her dress ablaze. The motorman and conductor of a passing trolley car ran to the child's aid, wrapping her with coats and rolling her on the grass to check the flames. She was taken to Delaware Hospital where she died from her injuries.

Hurt In Wagon Upset

While Joseph Paul, a farmer of the Seaford section, was waiting at the railroad station on Thursday to convey about 25 Bohemian women and children to work in canneries who had boarded his large peach wagon, a runaway team collided with the vehicle which was upset. Mr. Paul's face was gashed and a number of the women were hurt but the children escaped with bruises.

FOUR YEAR COURSE ADOPTED AT HIGH SCHOOL

At a meeting of the Board of Education last evening the question of taking immediate steps to adjust the work of the Newark High School to conform to the new course of study prescribed by the State Board for Delaware High Schools, was carefully considered, and several definite conclusions were reached. First, that nothing less than the four-year course would satisfactorily meet the needs of this community. Second, that the new four-year course shall be adopted at once for the entering, or Ninth Year Class. This applies equally to all such pupils, whether they pursue work leading to graduation in College Preparatory, General, or Commercial branches. Third, that the classes now in the High School will be allowed to continue the courses already started and graduate upon the completion of the present three year course. This includes the starting of a new Commercial class this year for the benefit of those pupils now in the High School who have taken Ninth

Grade work with this purpose in view.

This arrangement will cause no pupils now in the High School any disappointment because of forced changes in the course of study, while at the same time it will place our high school in line with the best schools of the State, a number of which had of their own initiative adopted a four-year course. Furthermore the new course of study is uniform throughout the State, and pupils passing from one high school to another will encounter no serious obstacle as has frequently been the case in the past when each school had its own course of study. This is made possible by the simple device of prescribing identical courses for two-year and three-year high schools as are prescribed for the first two or three years of a four-year high school.

The complete course leading to graduation, as adopted by the Newark Board of Education last night follows:

(continued on page 4)

Notice To Parents

The Board of Education has decided that no Beginners' Class shall be started in the First Grade in February of this school year as in previous years. Children arriving at the age of six years, on or before Jan. 1 will be admitted to the First Grade at the opening of school, August 30. During the first two weeks there will be no afternoon sessions in this grade, but parents expecting to enter pupils are urged to do so promptly. A delay of a week or two after the class is organized often proves a serious disadvantage to a beginner.

R. F. Friedel, Principal.

Miss Todd On National Committee

Miss Eleanor E. Todd of Newark has been appointed a member of the National Committee of the Woman's section of the Navy League of the United of the United States to organize the local work of that body in arousing the women of the United States to the necessity in the present days of strife and peril to work for the ends of patriotism and national defense. They will act in conjunction with a body of more than a thousand of the most prominent women in every section of the United States, numbering among them Mrs. Wm. Cumming Story, Pres. Gen. of the D. A. R., Mrs. Daisy McLaurin Stevens, Pres. Gen. Daughters of the Confederacy, Mrs. George Dewey, Anne Morgan, Mrs. Phoebe A. Hearst, Mrs. Thomas Edison, Mrs. George Lauder Carnegie, Mrs. Alexander Van Rensselaer, Mrs. Grace M. Pierce, Registrar D. A. R., Mrs. Augustus P. Gardiner, Mrs. Medill McCormick, Mrs. Ralph Beaver Strassburger, Miss Julia Marlowe, and a host of others.

Other members of the National Committee from Delaware are Mrs. Charles R. Miller, Mrs. T. Coleman du Pont, Mrs. George C. Hall, State Regent of the D. A. R., Mrs. E. P. Moody, of Wilmington, and Mrs. Annie E. Massey of Woodside, Delaware.

Shaft Impales Cyclor

Harry Stewart, aged 25 years, son of Rev. H. F. Stewart, pastor of the Dover Circuit, A. M. E. Church, while riding a bicycle on Lookerman street, Dover, one night last week ran against the shaft of a carriage which, it is said, he did not notice as he was looking backward at the time. His breast was pierced for several inches and his condition at last accounts was reported serious.

County Finances

County Treasurer Lippincott reported to the Levy Court on Tuesday the following balances:

To the credit of the Levy Court, \$24,029.24; Third street bridge, \$71,196.24; Christiana, \$32.86; Mill Creek, \$39.15; White Clay Creek, \$1,628.75; Penader, \$72.98; New Castle, \$924.79; Red Lion, \$10.66; St. Georges, \$1,087.62; Appoquinimink, \$176.17; Blackbird, \$1,147.06; Brandywine, \$353.84.

Farm Peach Season On

Peach season is at its height at the College Farm. About seven hundred baskets of the Belle of Georgia have been picked during the first three days of this week, and two hundred and fifty baskets lieved the crop is slightly smaller of Champions. Although it is better than last year, it is estimated it will total at least five thousand baskets.

The entire crop has been sold at contract price to C. M. Cella of Wilmington. The Station has reserved the right to sell locally, in limited quantities, however. Although persons in the immediate locality may purchase at the orchards, sales to Wilmington parties are discouraged by the management.

Owing to the fact that the disposal of the drop peaches has interfered seriously with the experimental work on the farm, it has been deemed advisable to dispose of this part of the crop also by contract. Consequently an arrangement to this effect has been made with Alfred Stiltz of Newark.

The first Elbertas were picked today. It is believed pickers will be busy in the orchard until about the tenth of September.

Advisory Board To Assist Labor Commission

At the last meeting of the Labor Commission of Delaware the commission took up a general problem covering the important question of the commission's relation to the public and the securing of the best public co-operation to enforce the laws and assist in the study of the child and woman labor conditions in the State.

The discussion of this question came about through a written statement presented by Miss Jeanette Eckman of Wilmington. Miss Eckman has been acting for about a year as secretary to the organizing committee for the general service board of Delaware. A portion of her work in this capacity has required extensive field study of civic and social problems in many centers throughout the United States which she has been undertaking the last six months. This field work has convinced Miss Eckman of the large advantage arising in many other states by the use of voluntary advisory boards of citizens selected from among those interested in each particular problem. These boards, where invited by various official commissions and official bureaus, serve a valuable purpose in collecting information more thoroughly from the public as to violations of the law and as to conditions which need improvement by rulings of the official bodies or by legal enactment.

These voluntary boards assume a responsibility and form a connecting link between the official body and the citizens which by practical experience has been found of great service in other states.

Miss Eckman's forceful presentation of the subject to the Labor Commission resulted in the Labor Commission unanimously approving of a motion offered by Commissioner Sypherd for the establishment of a Voluntary Advisory Board. According to the resolution, the new Advisory Board shall not exceed fifteen in number at any time and shall be selected from names to be submitted to the chairman, Charles Warner, and referred to the commission by letter vote from time to time.

As the Labor Commission of Delaware appreciates the big problem it is confronted with in the administration of the present laws, as well as the study of all the conditions affecting the woman and child labor within the State of Delaware, it is earnestly seeking through every co-operative step possible to secure the interest and assistance of the citizens.

This general plan has possibilities of wide adaptation in assisting many official bodies in the better conduct of their duties and in arriving at a clearer understanding of the best methods to apply in rendering public service.

Bridge In Need Of Repairs

The Stanton bridge is reported in such a dilapidated condition that it is dangerous for heavy vehicles to pass over it.

Many Unacquainted With Law

All New High School Pupils Must be Examined

According to the new ruling of the State Board of Education, examinations for entrance to high schools throughout Delaware were held on August twentieth at various centers throughout the State. At Newark the examinations were in charge of Mr. Friedel, principal of the High School. Nine pupils from outside of the district seeking entrance to the Newark School were examined, and three who desire admission to the New Castle school. The Newark school has for several years had between twenty and twenty-five new pupils. Mr. Friedel in speaking of the small number who were examined last week stated his belief that the decrease was due to a failure to grasp the import of the new law. In spite of the fact that repeated press notices, stating that all new pupils must pass an examination before being admitted to a high school, have appeared in the papers throughout the State, many rural pupils are expecting to enter the schools in September, who have not yet been examined.

Mr. Friedel has communicated with County Superintendent Cross who is in conference with Dr. Wagner, concerning the unsatisfactory outcome of the examination. In view of the fact that the custom has not been established, it is probable a second examination will be held at an early date.

Sustains Painful Burns

George Leak was painfully burned on the hands and arms on Tuesday, while at work at the Newark Garage and Electric Co. Mr. Leak had washed his hands in gasoline before going to work on a car. A tool which he was using caused a spark from a wire on the car, igniting the gasoline. His burns were treated by Dr. Blake.

Egg Records Broken

Delaware farmers are getting more money for poultry every year than from any single crop except corn. The egg laying competition at Newark is demonstrating that we have hens in the State that lay 200 eggs each per year. The Delaware hen with the best record up to date is one entered in the competition by Hon. O. A. Newton, of Bridgeville. Her record to August 3 is 198 eggs, and the year will not be up until November 1. Just across the line in Maryland is the home of the champion hen of the world, now in the competition at Newark, her record being 246 eggs up to August 13, and as she has two and a half months to go, she is likely to reach the 300 mark. Additional buildings the needed at the Station and it is understood that they will be provided as soon as the trustees can find the small amount of money necessary for this purpose. Superintendent Polard is asking for a building, the basement of which will be used for an incubator room and the main floor for grain and other storage. If this building is secured, the Station will receive a gift of a Mammoth incubator worth as much as the cost of the building, and other gifts will follow from people outside of Delaware who are interested in the development of the poultry industry.

Congratulations To Mr. Plumley

The unique window display of Welch Grape Juice in the store of G. W. Rhodes, has won for the decorator, Mr. Walter Plumley, a prize of five dollars, from the Welch Grape Juice Co. The prize was offered in a "Welch Week" window trimming contest. Some twenty thousand windows, according to the statement of the Company, were viewed by the judges. The prizes were awarded by N. W. Ayer and Son, reputed advertising and sales experts of the business world. Mr. Plumley competed with retailers in Delaware, Maryland, District of Columbia, West Virginia, Kentucky, Tennessee, Alabama, North and South Carolina, Georgia, Florida, Mississippi, Arkansas, Louisiana, Oklahoma, and Texas.

EDUCATION IN CECIL COUNTY

By O. R. Washburn

The loss from bad management of a public utility is not alone financial; it is moral and spiritual. The taint of economic wrong is one that spreads through the whole fabric of society. Shiftlessness in a public school system is more than a mere waste of money; it is a waste of effort, a destruction of ambition and fatal to efficiency in the mental realm. Cecil county is shiftless as to education. For this the only excuse is ignorance of actual conditions and the complacency of those people who, not using their thinking powers as to the matter, congratulate themselves upon the public schools as they exist. As to Cecil county the latest official statistics I have at hand are from the report of the Department of Education of Maryland for the year ending July 31st last year. For that period there were, for the fall term, of white pupils, 3467 enrolled. The average attendance of these was 2583. For the winter term 3423 were enrolled and an average of 2489 attended. During the spring term there were 3342 enrolled and 2456 attended. During the summer term there were 3009 enrolled and 2452 in attendance. The total enrollment for the school year was 3,549 the average attendance was 2,270. Speaking roughly out of an enrollment of each fourteen pupils five stayed away and nine came, each day. The number of children who ought to have been in school but were not enrolled at all is not known to me; there is a considerable number of such children but I will ignore this phase of the matter for the moment.

Considering the matter of money waste let us look at the cost of this method, to the tax payer, above what the same schooling could be obtained for if the pupils were there each day during the days they do attend, instead of coming occasionally, or without instruction in being absent. The cost of the school year was, exclusive of interest on money invested in buildings and equipment, \$55,080. Exactly the same amount of instruction could have been given, and given with better effect, taking the average as the standard, if the pupils had been compelled to attend every school day for nine-fourteenths of the time school was taught. A few pupils who attended the full year would have lost days of instruction under such a change but others would have gained as many days instruction as they lost. Nine-fourteenths of the money would have enlightened as much as the whole sum, had there been compulsory school attendance; the saving would have been five-fourteenths of \$55,080 or something over nineteen thousand seven hundred dollars. Yet it is the belief of the average citizen of Cecil county that our schools are well managed. Throwing away as far as effective use of cash is concerned, a third of the school money, they congratulate themselves upon the success of the system.

But the system by which pupils stay away from school as they or their parents please probably reduces the amount of money effectively used to less than one half the total expenditures. For if pupils attend a day or two and then are absent a day or two, or in any way break the continuity of instruction, any teacher knows that effective class instruction is quite impossible. Each pupil must be in a class with either two or three others, or in a class where he is going ahead with today's lesson without knowing fully the work that has been passed while he was absent. Schools thus handicapped can not be effective—they can only be places of hazard instruction. No teacher can do effective work under such conditions and no teacher will long attempt to do so. The better trained teachers must, by necessity, give up the attempt, train as best they can the small number who do come regularly and make the best of the chaos that they cannot reduce to order and progress. It is true that schools could not be run nine-fourteenths of the present school year for nine-fourteenths of the money, but considering the handicap upon teaching, under the present system of laxness in attendance, it is not too much to say that for more than a third of the school money is being wasted.

A further example of the ineffectiveness of education in the country is furnished by the statistics as to primary education. During the school year last reported there were 1027 pupils in the first grade. The year before there were 1021 pupils in that grade. During the 1914 school year there were 592 pupils in the second grade and 571 in the third

grade; taking the situation on January 1st in each instance. Something more than four out of ten pupils in the first grade do not pass to the second grade, or do not get back, apparently, to any of the grades. The fourth grade, last year, had only 509, the fifth grade 475, the sixth 342, the seventh 285. Less than one in three of the first year pupils get to the grammar school grade. Of the thousand pupils registering for the first grade only 135 enter high school, something like seven-eighths of them never attend high school; only about thirty-eight in a thousand are graduated from high school. Death, sickness, incapacity because of lack of natural talents, account for much, but the conclusion that the registration of a thousand in the first year falls to one third of that number by the time the seventh grade is reached, mostly because the children are taken out of school to work, is logical. The schools of Cecil county appear to not only fail to give effective and continuous instruction to a large portion of the pupils but to be abandoned by two out of three of the children before even the rudiments of an education can be acquired, the two thirds being diminished only by the number that die and the few that are naturally defective as to mental powers. The system as it exists not only insures a condition of attendance making first class work by teachers wholly impossible but it allows the majority of the children to grow up without even the education of the seventh grade. Of the hundred teachers employed by the county something like the work of thirty-three of them is being lost; that is a third of the teachers' efforts are wasted because the children are not there to be taught and another third, speaking roughly, is lost by the difficulty of teaching children who are constantly out of school, anything more than a mere fact here and there. In this matter the white parents show little superiority to the colored people; the attendance averages about the same for both races.

There are about a hundred teachers, including both black and white races and about forty-five hundred different pupils register. This is about forty-five pupils to the teacher and the average attendance is about twenty-nine to the teacher. To instruct under such conditions is like trying to teach arithmetic to a parade while it is on the march.

The first remedy is, of course, an enforced compulsory school law. It is in the hands of the parents. As far as I know no newspaper in Cecil county wants compulsory school attendance. As far as I know there is no agitation for any such thing. The people are contented with present conditions. I heard in Wilmington recently a colored clergyman declare to an audience of some three hundred negroes that most of them sold their votes for trifling sums to politicians who betrayed their race and the interests of their country; it was a severe arraignment and the result was laughter from all over the hall thought the speaker was very serious. That laughter seemed to me the most evil indication that that audience could have given. If an audience of Cecil county people of the aver-

age kind were to hear a speaker denounce this shiftless, wasteful, unscientific and stupid way of managing the schools it is probable that most of them would ignore the address or openly scoff at it; that indifference now shown by press, pulpit, and parents in Cecil county is the most damaging indictment of them that could be formulated.

Back of that standard of morals which approves the claim that parents have a right to allow children to grow up ignorant, is not only darkness of past ages but the greed of the present. The civilization of any locality may be known by its school system. Maryland has given millions to Johns Hopkins University for classical education and it neglects the country education shamefully. It seems to be more of a satisfaction for the real rulers of Cecil county to have children in the canning factories and doing farm work than to have them in school until they are at least past the eighth grade. The persistent ignoring of the value of popular education is accompanied by a general neglect by the people of local government, local improvement of schools and of the standards of instruction. It has happened that I have lived in six other states; some of them had much to be desired as to schools, but all had much better attendance and the teachers a better chance to do good work than has Cecil county.

Farmer Catches Robber

James Legare, claiming to hail from Dover, on Friday evening robbed the home of James Sipple, of the State Road section, of \$5, some jewelry and a revolver. Cyrus Rittenhouse, a farmer living nearby, pursued the robber in his automobile and overtook him on the road. The plunder was found upon him and Justice Nickerson of New Castle held him for Court in default of \$500 bail.

Start State Highway Work

Construction work on the 16 mile stretch of the du Pont State highway in Sussex county was to start on Monday. Equipment and materials have arrived at Georgetown and a large gang of laborers left Wilmington for that point on Friday.

Oil Truck-Auto Crash

The heavy motor truck of the Atlantic Refining Company en route from Dover to Camden last Tuesday, collided with the automobile of Dr. W. T. Chipman of Felton. Miss Julia Ennis of Felton and Dr. Chipman's wife and child and another woman were in his car but all escaped injury except Miss Ennis whose arm was broken and her left cheek gashed. The truck driver, it is reported, leaped from his seat and hurried away.

SCHEDULE FOR SATURDAY			
Newark at Traction Co.			
Parkside at Elkton.			
Elk Mills at New Castle.			

The race between New Castle and Parkside for the Delaware-Maryland League pennant grows more interesting each week. The two teams are still but one game apart and this close race promises to continue until the last game of the season. The schedule looks made to order for the race between these two clubs as they meet in the final game of the schedule at New Castle on September 11. It is just possible that this game will decide the winner of the league. The New Castle players kept in touch with the Parkside-Traction Co. game while playing here on Saturday. In the early innings Traction Co. had a lead and the New Castle players were jubilant. But later reports showed that Parkside made a strong finish and won out. There is not much to pick from in the schedules of New Castle and Parkside the next three weeks as both teams are scheduled to meet the tail end clubs all three Saturdays.

Newark Lost To New Castle

While Newark lost to New Castle on Saturday on the home grounds by the score of 5 to 2, little complaint could justly be made of the game. In the first place it was the general opinion of fans that Umpire Lucas, who seems to be coming to Newark more often than is good for the home club, gave the locals the wrong end of several decisions that might have had a material effect on the game had they been decided the other way. The visitors got the best of the breaks of practically every close decision.

Newark went to the field with a much patched up team and as a matter of fact it was necessary to do some scurrying around before nine men were found who would play. Several of the Continental Fibre Co. team, that club having a day off, were in line and they all did good work. Young Ritz, who covered right field, took care of four fly balls, even though he did miss one that cost a run. It must be considered, however, that the youngster is a catcher and not an outfielder. Ferguson did not have a whole lot to do at second base but he was strong with the stick, getting two clean hits.

The leaders were taking no chances in this game and sent their star man Ingram in to work against Hogan. At that the south-paw pitched the better ball and with the same kind of support would have won. Four hits was the best that New Castle could gather while Newark made six. Ingram's support, however, was very clean and Newark had to drive in all their runs. Spence caught Hogan in fine shape, while Pedrick, a peppery young fellow who will likely be seen on the Delaware College team next summer, did the receiving for New Castle.

New Castle scored first in the initial inning, errors by Gray and Scott being responsible for the run. In the third another run counted when Ritz missed Carlin's drive. New Castle bunched three of their four hits in the sixth inning which with Hogan's error and a sacrifice fly gave them three runs.

Newark had men on the bases in most every inning but it was only in the sixth that they had the punch to score. Ferguson lead off with a solid single to left and was forced at second by Scott. Kirk was hit with a pitched ball and both runners scored on Gregg's pretty drive to left but the latter was caught between second and third which stopped the batting rally.

The score follows:

Newark			
	R.	H.	O. A. E.
Ferguson, 2b	0	2	0 3 0
Scott, ss	1	0	1 4 2

Kirk, cf	1	4	0 0
Gregg, 1b	0	1	9 2 0
Spence, c	0	2	7 1 0
Ritz, rf	0	0	4 0 1
Hogan, p	0	0	1 1 1
Gray, 3b	0	0	0 1 1
Scanlon, lf	0	0	1 0 0
Totals	2	6	27 12 5

New Castle			
	R.	H.	O. A. E.
Hance, 2b	0	0	1 2 0

*Kirk out, bunted third strike.

Score by Innings

Two base hits—Kirk and Gregg; sacrifice hits—McDaniel; hit by pitched ball—Kirk; wild pitch, Hogan; double plays—Scott to Gregg to Spence, 2; Connell to Carlin; stolen bases—Ferguson, Kirk, Carlin, Pedrick, Madden, 3; struck out—b y Hogan, 3; by Ingram, 7; base on balls—off Hogan, 2; off Ingram, 5; left on bases—Newark, 6; New Castle, 3; Umpire, Lucas.

The Parkside-Traction Co. game attracted a large crowd and much interest because of the fact of the Wilmington club having a chance for the pennant. Chase pitched for Traction Co. and for six innings did good work. Parkside, however, solved his delivery the last two innings and coupled with several errors scored five of their six runs. Traction Co. lead until the seventh innings and had been touching Jones up rather freely. The score follows:

Traction Co.			
	R.	H.	O. A. E.
Doherty, ss	0	1	2 3 3
Huston, c	0	1	5 1 0
Fidance, 2b	0	0	0 3 1
Dolan, lf	1	0	0 0 0
Wingate, 3b	1	2	2 3 1
Chase, p	0	1	0 2 0
Stirlith, 1b	0	1	15 0 0
Lind, cf	0	3	0 0 0
Downs, rf	1	0	0 0 0
Totals	3	9	24 12 5

Parkside

	R.	H.	O. A. E.
Rainey, 2b	0	2	3 1 0
Gertsenberg, ss	1	2	3 5 1

Elliott, 3b	0	0	1 1 1
Hampton, cf	0	0	5 0 1
Duncan, rf	2	1	0 0 0
Jones, p	2	2	0 0 0
Totals	6	10	26 10 4

*Doherty out, bunted third strike.

Score by Innings

Traction Co. 0 0 0 2 1 0 0 0—3
Parkside 0 0 0 1 0 0 3 2 x—6

Hits off Chase, 10; off Jones, 9; earned runs, Traction Co., 1; Parkside, 4; two-base hits, Wingate, Maguire, Booth, Duncan; struck out, by Chase, 4; by Jones, 5; double plays, Gertsenberg to Booth; left on bases, Traction Co., 8; Parkside, 8; stolen bases, Huston, Fidance, Lind, Rainey, 2; Gertsenberg, Jones; hit by pitched ball, Austin, by Chase; base on balls, off Chase, 1; off Jones, 2; passed ball, Huston; umpire, McKay.

Elkton took a brace on Saturday and won a double header from Elk Mills. This puts the Elkton club ahead of Newark and tied with Traction Co. for third place. Jay pitched the first game for Elkton and Finn the second and the latter furnished a fine article of ball getting a shut out. The score by innings of the first game follows:

R. H. E.			
Elk Mills	2	1	0 0 2 0 0 0 0—5
Elkton	0	0	3 3 0 2 0 0 x—8

Batteries: Elk Mills—Grant, Work and Thomas; Elkton—Clay and Potts.

Second game:

Elk Mills	0	0	0 0 0 0 0 0 0—0
Elkton	1	0	0 1 0 0 0 0 x—2

Batteries: Elk Mills—Jackson, Wilson, and Thomas; Elkton—Finn and Potts.

Paid \$4 For A Team

Found in possession of a team owned by J. F. Moore, a farmer living near Port Penn, William C. Moore, a youth hailing from Eddystone, Pa., was charged with stealing the outfit and was held for Court by Justice Reybold of Delaware City on Friday. Moore said he missed the excursion boat at Augustine Beach and gave a man \$4 for the use of the team.

Yes

For All Roofs

the Best is the most economical, whether you are talking of Plows, Seeds or Roofs. It costs as much to lay a poor roofing as it does to lay the best. The economic purchaser must demand to know how long the roofing he is asked to buy has n on the market—how it stands the weather, water, fire, acids, alkalies, and gases. He must demand to see where the roof has been in use for a stated number of years.

Ru-Ber-Oid can be banked upon. It will measure up to all requirements of the careful buyer.

No matter what the building or where

Fires On Cecil Farms

Fire visited two Cecil farms last week. Lightning last Sunday struck the barn on Russell J. Reed's farm near Bay View above North East, which was burned with the contents, hay, wheat and implements. Six horses and a colt perished in the flames. There was but a few hundred dollars insurance. Children, playing with matches, it is supposed, caused a blaze on Wednesday morning on the farm of John Quein, near Providence, tenanted by his son, Alonzo Quein, who disappeared several weeks ago. The flames started in the dwelling and spread to the barn and granary, destroying the three buildings with household goods, hay, wheat, and farming implements.

Drowned Woman Suicide

Joseph T. Hunter, a motorman, of 464 Olive street, Philadelphia, last Tuesday identified the rings, bracelet and handbag of the woman who leaped or fell from the upper deck of the steamer City of Chester, near the Christiana drawbridge on August 13 as property of his wife. He showed her photograph which Deputy Coroner Nichols identified as that of the drowned woman. Hunter said his wife tried suicide by gas about five months ago and later left him and their children, the youngest three years old. A coroner's jury found a verdict of suicide.

AUGUST 25, 1915

FOUR YEAR COURSE AT HIGH SCHOOL

The action of the Board of Education in raising the standard of the High School, making a four year course, is to be commended. The course to be given will be according to the State Standard, set by the State Board of Education, making Newark on equal footing with other Four-year High Schools of the State. It is especially gratifying that the Board has adopted this standard, showing a spirit of co-operation with the College and those conducting the campaign for educational advance.

Aside from this, however, it is most important, in that the four-year course will be of decided advantage to the boy or girl unable to attend college. This extra year on our present course will be of great benefit in facing the demands of the workaday problems. It means better schools, higher standards for college men, and better citizens.

Congratulations to the Board.

Character A By-Product

"Character is a by-product. It is produced in the great manufacture of daily duty. I have always maintained that the man who lives result only in cultivating an in-to cultivate his own character will be himself."

—Woodrow Wilson.

Crazed Negro Fells Lodgers

With an iron bar used as a furnace shaker Webb Jet, colored, 67 years old, of Bentonville, Va., who declared that people from Virginia wanted to "get him" attacked five men in the lodgers' room in the Wilmington police station basement early on Sunday morning. Tony Koskenski and Charles Carr, of Philadelphia, and Adolph Riders of Germany were seriously and John Kelly and William Robinson, colored, slightly injured. Captain Kane, who with other officers hurried to the basement knocked Jet down with a blow of his fist and Jet was removed to Farnhurst after Drs. Tomlinson and Forrest had pronounced him insane.

Motor Boatmen Rounded Up

Federal officials rounded up motorboat owners operating on Indian river last week for failing to comply with Government regulations. One was fined \$300 and others were taxed from \$25 to \$50 in penalties. Several boat owners got wind of the officers coming and managed to elude them. Most of the boats carrying passengers had few or no life preservers and many operators had no licenses.

Five of Edward Newton's cows were killed by lightning on his farm near Cecilton, last Sunday night.

designation of a High School whose course covers four years, and whose students complete twenty units of standard work. This obviates the use of the terms, "First Grade High School," and so on, and its invidious implications.

Among other rules laid down in the new bulletin is the clause concerning commercial courses, which reads, "The Commercial Course in every High School may not,

after 1916, lead to earlier graduation than other courses of the same school."

The treasurer of the local board reported \$6396.34 collected on this year's tax duplicate. It was decided to place the remainder—

\$3012.398—in the hands of Mr. Lovett, the County Collector. Mr. Lovett will be allowed until next May to complete the collections. The treasurer also reported a balance of \$3894.20.

An Association of newspapers, capitalists, manufacturers, bankers, professional men and progressive citizens, co-operating in the general advancement and progress of the Delmarvia Peninsula and the preservation of its notable history, as early America.
Historical and art publications, portraying the attractions and advantages, are now in preparation for Cecil and Kent Counties, Maryland, and New Castle County, Delaware. The plan will in turn be carried out in all the counties of Delmarvia—one of the most inviting Peninsulas and sections of the world.

A Wonderful Feed
NO MIXING NO BOTHER
"It positively produces more milk than any other feed ever used on dairy cows. It is a complete feed, and does not require any other feed. It is a complete feed, and does not require any other feed. It is a complete feed, and does not require any other feed."
Larro-feed
Absolutely free from adulterants and fillers. Just like the feed you would mix for yourself, in a special combination of choice oatmeal, molasses, dried beet pulp, chicken feed, corn distillers' grains, wheat bran, wheat middlings and a little salt. That's all. Each ingredient selected by automatic scales and all thoroughly mixed in huge power-driven mixers, so that it is always absolutely uniform, and always good. As extra, quart or two of milk daily from each cow may turn a loss into a profit. Try LARRO-FEED for more profits. Sold on a plan of "money back if you are not satisfied."
EDW. L. RICHARDS, Newark, Del.

WHAT CONSTITUTES WEALTH?

A Persian Philosopher—who albeit a Philosopher was very wise in the things of this world—when asked as to what constituted wealth replied: "To constitute wealth there must be three gifts. No. 1, Money. No. 2, More Money. No. 3, Still More Money." There is more in this than appears to the casual eye. First, let us say, open a Bank Account at The Newark Trust & Safe Deposit Co. with a little Money. Add to it and you will have More Money. Continue adding to it and you will have Still More Money—and before you know it, you have WEALTH.

—Labor and Thrift are the Cornerstones upon which the Structures of Success and Wealth are erected.

This course was adopted as the official course of study for approved high schools of the State by the State Board of Education in May 1915. The Committee on Preparation of the High School Course of Study was composed of Dr. C. A. Wagner, State Commissioner of Education; Professor Harry Hayward and George S. Messersmith, representing the State Board; and Professor W. O. Sypher and Professor C. A. Short, representing Delaware College.

The following quoted from the Bulletin of the State Board, Number 1, Serial 4, distributed last week, defines the unit of work:

"In the approved High Schools of Delaware, a unit of work shall consist of not less than 180 recitations in any subject, each recitation occupying thirty or more

minutes each day. In a 180-day High School, daily recitations in a subject for the entire year will thus constitute a unit in that subject. A half unit will consist of daily recitations for a half year, or of recitations every other day for the entire year." In regard to the classification of high schools, the bulletin gives the following: "Hereafter High Schools will be known as follows: A 10-unit High School, which shall be the designation for a High School whose course covers two years and whose students complete ten units of standard work; a 15-unit High School, which shall be the designation for a High School whose course covers three years, and whose students complete fifteen units of standard work; a 20-unit High School, which shall be the

PERSONALS

Mrs. James H. McClurg of Ox-
ford, Pa., and Mr. Edwin Lan-
dreth and son Grier of East Or-
ange, N. J., have been the guests
of Mrs. Rebecca Wilson and fam-
ily.

Mr. Wilbur Simpkins of Philadel-
phia, was the recent guest of his
sister, Mrs. F. J. Merrick.

Miss Sylvia Billett has returned
to her home in Glen Falls, N. Y.,
after an extended visit with New-
ark friends. Miss Billett was ac-
companied by Miss Ruby Robinson
who will be the former's guest dur-
ing the autumn months.

Miss Ethel Robinson has return-
ed after a week's visit with rela-
tives in Wilmington.

Mrs. H. B. Wright is spending
the week at Atlantic City.

Dr. and Mrs. Herbert Watson
and son James are registered at
the Belhaven, Rehoboth Beach.

Dr. H. G. M. Kollock is spending
a vacation at Rehoboth Beach.

Mr. and Mrs. McAvoy and Mr.
and Mrs. J. P. Wright are register-
ed at the Henlopen, Rehoboth
Beach.

Rev. W. J. Rowan and family
have returned after a four week's
vacation in the country near Read-
ing, Pa.

Mr. Otto Thomas has returned
after a stay at Atlantic City.

Mr. and Mrs. W. H. Taylor are
spending a vacation with friends
near Kennett Square, Pa.

Miss Nellie Kennelley of New
York is the guest of Miss Annie
Kennelley.

Miss Rita Singles has entered
the Nurses' Training Department
of the Physicians' and Surgeons'
Hospital, Wilmington.

Misses Margaret Cook and Anna
Gallaher are the guests of friends
in Philadelphia.

Prof. C. O. Houghton and family
have returned from an extended
visit with relatives in Potsdam, N.
Y.

Mayor J. H. Hossinger family
and Daniel Thompson and family
are spending a vacation along
Chesapeake Bay near McDaniel,
Md.

Miss Edith Spencer is the guest
of friends in Pottsville, Pa.

"A party of fishermen from
Newark, Del., J. Pilling Wright,
Professor E. Laurence Smith,
Coach W. J. McAvoy, Prof. M.
Van G. Smith, of Delaware Col-
lege, and Dr. Leech of Washing-
ton, D. C., caught over 200 pounds
of trout and flounders off the
Breakwater of Lewes, last week."
So runs a news item from Reho-
both Beach, Delaware.

Mr. Samuel Murray, who is in
the Homeopathic Hospital, Wil-
mington, where he was operated on
for appendicitis, is reported much
improved.

Mrs. Harry Campbell and
daughters, Misses Ethel and Mar-
ian Campbell, are spending some
time at The Addison, Asbury Park,
N. J.

Master Edward Richards is
spending the week with friends at
Kennett Square, Pa.

Miss Annie Shepherd of Phila-
delphia, spent the week-end at her
home in Newark.

Mr. and Mrs. Edward W. Cooch
have returned after an absence of
over two weeks, which they spent
at Shelter Island Heights, on Long
Island Sound, and at New London,
Connecticut.

Mr. F. A. Cooch and family have
returned after a vacation at Vine-
mont, Pa.

SOCIAL NOTES

Mrs. S. J. Wright and the Misses
Wright entertained at a porch
party last Thursday the following
guests: Mrs. J. P. Wilson, Mrs. E.
S. Armstrong, Mrs. Wiehe of
Washington, Mrs. Hoffecker, Miss
Edith Hoffecker, Mrs. Roberts,
Miss Roberts, Mrs. Levi Cooch,
Mrs. W. H. Evans, Mrs. Blake,
Mrs. Calvert, Miss Robinson, Mrs.
Whittier, Miss Butterworth, Miss
Medill, Miss McNeal, Miss Grime,
Mrs. McCue, Mrs. John Pilling,
and Mrs. E. B. Wright.

Mr. and Mrs. William H. Bland
have issued invitations for the
wedding of their daughter, Miss
Adelta Wakefield, and Mr. Earl
Frampton Dawson, at the home of
the bride near Newark, on Tuesday
evening, September seventh, at
seven-thirty o'clock.

"Potash And Perlmutter"

No more welcome theatrical an-
nouncement could be made than
that "Potash and Perlmutter," the
famous comedy woven about the
two heroes of Montague Glass'
stories in the Saturday Evening
Post is to be at the playhouse in
Wilmington on Monday and Tues-
day evenings, August 30th and 31st.
"Potash and Perlmutter" pic-
tures the trials and tribulations,
the joys and the triumphs of Mr.
Glass' famous characters "Abe"
and "Mawrues," those delightful
members of the cloak and suit

trade who seem happy only when
quarrelling with each other but
who stick together through thick
and thin. Sharp-witted, keen, sus-
picious in business, they are nev-
ertheless generous to a fault in
their private lives and it is this
same generosity that for a time
threatens to ruin them.

Briefly, the story of "Potash and
Perlmutter" deals with the trials
and tribulations of these two part-
ners of the cloak trade through
their generous championship of
Boris Andrieff, a young Russian
whom the representatives of the
Czar are trying to drag back to
the country of his birth and to a
life-time in Siberia. They pledge
their all to go his bail and when,
through their ignorance of the
law, he starts for Canada to gain
a respite from the trickery of the
Russian representatives and the
partners are in danger of forfeit-
ing their business and their homes
the story takes a serious turn in-
deed. But Boris learns through
the newspapers of the danger to
his benefactors and returns in
time to save them from ruin, and
to learn of his complete vindica-
tion of the charges against him.
There is plenty of romance to add
to the charm of the play for Boris
marries Abe's young daughter,
while Perlmutter wins a "lady de-
signer," with a business head like
Carnegie and a shape like "Lillian
Russell"—a young lady, by the
way, who figures extensively in the
good fortunes of the re-established
firm. —Adv.

Around Ebenezer

The Ladies' Aid Society of Eben-
ezer Church will meet at the home
of Mr. and Mrs. George L. Denny
of near Red Lion on next Thursday
evening.

Miss Lora Little spent last week
with friends in Brandywine Hun-
dred.

Miss Bessie Virden and Miss
Beatrice Cook of near Dover, are
the guests of Mr. and Mrs. Herman
Cook.

The Rev. and Mrs. Herman Klug

OFFICIAL INSPECTION OF BRANDS OF FERTILIZERS

Offered for Sale in Delaware in the Spring of 1915

By Charles L. Penny, State Chemist

The following tables show for each Brand the guaranteed and the actual analysis expressed as percentage, also the money valuation of the ingredients, both separate and combined.

The "Guaranteed Analysis" gives in order the Ammonia, Available Phosphoric Acid and Potash, except that in the case of untreated Bones the Total Phosphoric Acid is meant instead of Available.

Brands that fall below the guarantee in one constituent but that make up the deficiency by excess in any other, thus giving full value, are marked "FV" at the right of the table.

Nitrogen, in whatever form it may be present, is always reckoned as Ammonia. "Inactive Nitrogen," here reckoned as Ammonia and expressed like the other constituents as a percentage of the entire fertilizer, represents forms of Nitrogen less readily available and probably less valuable. It has been determined by the "Neutral Permanganate," or the "Street," method. The Phosphoric Acid given for untreated Bones (Bone Meal, Ground Bones, etc.) is the Total Phosphoric Acid, though printed in the column headed "Available," but marked with "T" in each case. "Fine" bone is such as will pass a sieve of fiftieth-inch holes, "Coarse," such as will not pass. In Potash Fertilizers any chlorine present is reckoned as "Muriate" up to the limit of the Potash. In all of the Brands here reported Potash is counted as Muriate.

The Money valuations show first the separate value of the Ammonia, the Total Phosphoric Acid and the Potash and then their combined value, in a ton (2000 lbs.) of fertilizer. These values represent the retail cost of the constituents without allowance for expenses of manufacture, freight, commission, profit, etc.

Hence the "Estimated Value Per Ton" should be understood rather as for the purpose of fair selling price; the latter must vary with local conditions. The values are estimated from the fair selling prices of the ingredients, which have been determined by adding twenty per cent. to the prices of the ingredients in the Middle States. These prices, which have been determined by adding twenty per cent. to the prices of the ingredients in the Middle States, are as follows: Ammonia in mixed fertilizers 15.00 per cwt.; in "fine" bone 17.50; in "coarse" bone 16.00; phosphoric 3.75 per cwt.; insoluble phosphoric acid 2.00. Total phosphoric acid in "fine" bone 4.50; in "coarse" bone 3.50 per cwt. and sulphate 9.50.

Because of the European war it is impossible to obtain potash in the amounts needed at the price. The prices used herein to calculate potash values, although they are about double the actual price, the potash constituents are worth more than is here shown; but an accurate estimate of the value of the potash constituents is not possible.

The several brands of ground bone were found to have the following degrees of fineness: 2382—60%; No. 2444—70%; No. 2445—40%; No. 2466—61%; No. 2480—65%; No. 2503—50%; 2522—50%; No. 2533—50%; No. 2559—75%.

Copies of this bulletin may be obtained free of cost by applying to Delaware College, Dover, July 27, 1915.

Egg-Laying Score in The Philadelphia North American International Egg-Laying Competition

Operated on the Grounds of the
Delaware Agricultural Experiment Station
Delaware College, Newark, Del.

EGGS LAID IN THE 41st WEEK, 4th YEAR

One hundred pens of five birds each make up the competition,
the 500 birds are numbered from 1 to 500.
Eggs laid outside of the trap nest are credited to the pen.

Pen No. Entrant Total to date

Here and There

Burglars last week visited the homes of Thomas Nolan, Abner Appleby and Robert McFarlin in the Farnhurst section.

Ladies of Lewes Presbyterian congregation cleared upwards of \$75 from their recent bazaar.

Hog cholera on the farm of John Waples, of the Milton section, has caused him a loss of \$800, it is stated.

For failing to blow horns at crossings 45 automobile drivers were arrested at Blades and 10 at Seaford last Sunday.

The contract has been awarded for a ne WM. E. parsonage at New London.

Sussex Levy Court has ordered all road work in the county to be stopped pending inquiry as to financial matters in some of the districts.

Justice Nickerson of New Castle fined Harry Cripps, of that city, and Homer Carr of Wilmington, \$10 and costs on Friday for running motorcycles beyond the speed limit. The former paid \$13.50 and the latter left this machine for security.

Burton Townsend last Wednesday bought the Bell Hotel and furnishings in Dover at public sale for \$6,400.

Edward Myers was kicked and trampled upon by a mule on his father's stock farm near Bridgeville, on Wednesday. He was severely injured but will recover.

The completion of the swamp road, between Ellendale and Georgetown, gives a short automobile route from Wilmington to Rehoboth Beach.

Bathers at Rehoboth eBach, it is stated, must hereafter wear suits extending from shoulders to knees to avoid \$20 fine.

A lodge of the order of Owis is to be organized in Lewes.

Milton is arranging for a home coming week during its Chautauqua in October.

John Crouch, rural mail carrier, of Marshallton, was severely hurt when thrown out of his mail wagon which an automobile struck and wrecked one day last week.

The contract for the new hall of Santa Maria Council, Knights of Columbus, in Wilmington, has been awarded to Joyce & Kerrigan of that city, for \$15,000.

A Georgetown special states that Elwood Webster, a leading business man of Nassau, was arrested on Thursday night on the charge of embezzling \$6000 of public funds while tax collector and committed to jail in default of \$2500 bond.

Israel Lundy and Senaro Poppili, Wilmington dealers, plead guilty in the City Court last Tuesday to selling tubercular meat and were fined \$50 and costs.

Many ocean front lots at Rehoboth Beach occupied by squatters were sold by the State Land Commission on Wednesday, mostly to the occupants who made partial payments, final payments to be made next month.

Governor Miller and staff, regular army and militia officers were among a large audience present at the musicale given in the Playhouse, Wilmington, on Wednesday night, for the benefit of the widow and children of Louis F. Wagner, killed by lightning on the closing night of the O. M. D. encampment at the State Rifle Range.

The Clover Dairy Company recently incorporated by George L. Townsend, Jr., of Wilmington, Frederick Brady, of Middletown, and Charles H. Cook of Trenton, N. J., proposes purchasing most of the 150 milk routes in Wilmington and will erect a modern milk pasteurizing plant from which to supply the trade of the city.

Packers in Sussex are now feasting on vegetables for which prevailing low prices fail to tempt growers and many have the range of peach orchards for a like reason.

Ernest Ely, the 18-year-old son of Howard G. Ely, of 1315 North Jackson street, Wilmington, who, against his parents' wishes, joined the British Royal Naval Reserves on July 1 after shipping on a steamer which sailed from Marcus Hook, has been released from service at the instance of Congressman Miller whose aid was sought, to secure his discharge. The youth arrived home last week working his way on the steamship New York.

The great demand for skilled and unskilled labor at Carney's Point, Easington, and other war boom points, is affecting the supply in Wilmington and other cities and towns.

Caught with a team taken from the stable of Hastings Porter, near Farmington, which they claimed they intended to return, Harry Carlisle and Fred Kuntze, two Wilmington boys, were charged with larceny and held for Court.

Making the sharp turn on the overhead railroad bridge, near Charlestown, on Friday evening, a touring car driven by G. F. Wagner of Baltimore, ran against the guard rails. The car was badly damaged and the occupants were thrown down the embankments.

Lots are selling rapidly at Chesapeake Haven, the proposed new summer resort at Grove Point.

IN SUMMER TIME

Many people suffer from **EYE STRAIN** caused by the intense brightness of the sun, more particularly when driving or on the water. Frequently colored glasses (of which we have a most complete stock) will give relief—but in other cases it is necessary to have glasses made to correct some error of the eyes that cannot endure the increased strain. In either case consult our Optometrists, they'll advise you conscientiously.

WEST GROVE MAN MURDERED

Authorities Unable To Solve Mystery

William Lemon, a farmer, residing just outside of the borough of West Grove, who was shot by an unknown colored man on Saturday night as he walked from his automobile to witness a display of fireworks being put off by the Italian workers of the marble quarries, died yesterday at the Chester County Hospital, where he was brought about midnight Saturday.

The murder has considerable mystery attached to it from the fact that no one seems to be able to give the slightest clue as to who the negro was who fired the two shots that resulted in the death of Mr. Lemon. Although County Detective Jeffers and District Attorney Sprout visited the scene of the shooting a short time after it occurred and also worked all day yesterday on the case, they were unable to make much headway.

Lemon, who was well thought of in that section, on Saturday evening took his sister, with whom he resided, and his nephew, in his automobile, which he recently purchased, to West Grove, where they made some purchases and then it was suggested that they all go over to the quarries and see the fireworks display which the Italians were giving. They left West Grove at 8:55 and arrived at the quarries about fifteen minutes later. The sister did not care to leave the automobile so she remained in the machine, and Mr. Lemon and his nephew started to go over to where the crowd was gathered.

They had proceeded only a short distance, according to the story told by the nephew when suddenly a short colored man appeared from an ambush alongside the road and without saying a word pulled a revolver and fired twice at Mr. Lemon, the bullets entering the abdomen, piercing the walls of the stomach and making wounds from which blood gushed in streams.

Miss Lemon, the sister, who was sitting in the automobile, heard the shots and heard the cry of her brother, who fell to the ground, and she leaped from the car and hurried to the side of the injured man.

Dr. William Ewing of West Grove, was hastily summoned and the wounded man was taken at once to the home of the physician where an examination of the wounds was made. Seeing that they were of a grave nature Lemon was placed on an automobile and hurriedly brought to the Chester County Hospital, his sister accompanying him.

Yesterday an operation was performed on Mr. Lemon and everything possible done to save his life, but he sank rapidly and died without regaining consciousness.

All West Grove and the surrounding country is excited over the murder. No cause can be assigned why anyone should attempt the life of a man as well-known as Lemon.

The deceased at one time farmed, but of recent years lived retired. He was 52 years of age and was a son of the late William Lemon, and had lived in West Grove for the past thirty-four years.

STRICKERSVILLE

Mrs. J. Sherman Dayett and daughter Rhea spent several days last week with friends in Philadelphia and in Merchantville, N. J.

Mr. and Mrs. J. C. Mote are spending several weeks in Florida. Miss Helen Dayett and Miss Martha Richey were Wilmington visitors on Saturday.

Mr. and Mrs. James Richey entertained friends from Philadelphia last week.

The Flint Hill Literary met at the home of Mr. and Mrs. Harry Garrett last Saturday.

Mr. James Richey and son Robert were Wilmington visitors last week.

Scientist Declares Temperament Hereditary

The August number of the Proceedings of the National Academy of Sciences contains an article on the inheritance of temperament, by Dr. C. B. Davenport, of the Station of Experimental Evolution, Carnegie Institution, Washington, in which are disclosed the results of statistical study into the cases of 89 carefully described family histories.

Temperament is hereditary and as little alterable as stature, says Dr. Davenport, and in seeking to

explain the great diversity in temperaments he makes the hypothesis that there are involved in the inheritance of temperaments two factors, one of which induces more or less periodic excitability and whose absence results in calmness, another which makes for normal cheerfulness and whose absence permits more or less periodic depression, these factors being inherited independently and occurring in any combination. Persons may be divided into calm, nervous, or choleric, according to their degree of excitability, and into cheerful, phlegmatic, and melancholic, according to their degree of cheerfulness or its opposite, and there were then, nine classes of temperament formed by combining these two classes, namely, choleric-cheerful, choleric-melancholic, nervous-cheerful, nervous-phlegmatic, and so on.

The statistical study of the 89 carefully described family histories seems to bear out Dr. Davenport's hypothesis, because the different classes of temperament actually occur with about the relative frequencies which would be expected from the hypothesis and the usual laws of inheritance.

Tax-Dodgers Get A Scare

The Sussex County Good Government League has served notice that it will insist upon prosecution

of all taxpayers failing to make true valuation of their property under the new assessment. Many persons, it is stated, have returned values identical with those under the old assessment upon the

blanks furnished by the three county assessors. The Board will take action against all parties making or advising false returns. Tax-dodgers are reported as badly scared.

Du Ponts To Reorganize

Announcement was made on Thursday in Wilmington that all the properties of the E. I. du Pont de Nemours Powder Company is to be sold to a new company to be incorporated at Dover, to be known as E. I. du Pont de Nemours & Co. under the direction and management identical with that of the present company. The purchase price of the properties, it is stated will be \$120,000,000, payable, \$1,484,100 in cash, \$59,661,700 in debenture stock and \$58,854,200 in common stock of the new company which will have no bonded indebtedness or other fixed charges, as

all the outstanding bonds of the old concern, totalling \$15,390,000, will be retired. Preferred stock, \$16,068,680 of the old concern will be exchanged for debenture stock of the new company, which takes the original name of the concern founded in 1802. Increase in volume of business and need of new capital made the reorganization necessary. The new company will assume all the obligations and contracts of the old concern.

School Again

The public schools of the town open next Monday, August 30th.

I have completed arrangements to be in Newark every Monday from 9 A. M. to 4 P. M., at 301 Main Street. Commencing in September
