

Alumni To Hold Reunion On Campus Tomorrow During May Festivities

Alumni and alumnae will gather on campus May 12 for the 1956 Spring Reunion, sponsored by the Alumni-Alumnae Association.

A day of meetings, banquets, athletic events and musical entertainment has been planned by the Reunion committees headed by Mr. C. E. Taylor, '11, and Mrs. Alice Sheldon Taylor, '32.

A coffee hour and an executive committee meeting have been scheduled for the women in the morning and a council meeting, an executive committee meeting and a general membership meeting will occupy the men's morning time. At 10 a. m., tours of the campus will be conducted by student guides.

At noon, Kent Hall will be the scene of the Reunion Luncheon to which both the alumni and alumnae are invited. Children of the Association members will be cared for by Home Economics and Education students during the lunch hour. Miss Mary E. Wines, Acting Dean of the School of Home Economics, is in charge of the children's program.

At 1:30 p. m., Alumnae Class meetings will be held in the lounges of the various women's dormitories. The remainder of the afternoon will be taken up by a varsity tennis match with Ursinus, a varsity baseball

game with Villanova, the May Day ceremonies, and an instrumental and choral concert featuring "Music from Broadway."

The Women's Executive Council will hold a reception on South Campus at 3:30 p. m.

The Alumni Banquet at 6 p. m. in Kent Hall will be the highlight of the day for the men. The invocation will be given by Dr. Charles W. Clash, '06, pastor of the Emanuel Presbyterian Church of Wilmington. At this time awards will be given to the alumnus travelling the longest distance, the oldest member present, the class with the largest percentage of members present and to the class with the largest number present.

The outstanding alumnus for 1956, as chosen by the selection committee, will also be honored. The committee consists of Theodore M. Zink, '49; Robert P. Goldey, '18; Robert F. Stephenson, '32; Gene Hooten, Jr., '52 and Alex I. Taylor, Jr., '30.

Norma McClellan Reigns Over May Day Activities

THE QUEEN'S COURT — Left to right: Connie Darby, Ginger Lanier, Donna Wood, Mary Jo Anselm.

QUEEN NORMA is caught off guard by Review photographer (right).

May Day festivities, colorfully coordinated into a "Rainbow Fantasy" theme, will be held on South Campus tomorrow afternoon.

Norma McClellan will reign as Queen of the May. Her court will include Betsy Yeatman, Maid of Honor; Donna Wood, Senior Duchess; Carol Conrad and Frances Cook, Senior Attendants; Connie Darby, Junior Duchess; Jean Leonard and Marilyn Sturges, Junior Attendants; Mary Jo Anselm, Sophomore Duchess; Sandy McKinnon and Ann Sutherland, Sophomore attendants; Virginia Lanier, Freshman Duchess; Marilyn Cook and Eleanor Welch, Freshman Attendants.

The Processional, which will begin at 2:30 p. m., will be followed by the ten dance numbers, all relating to the rainbow theme. Physical education majors and members of all women's living groups and commuters will dance original choreographies to "Blue Tango," "Red Sunset," "Little White Lies," "Golden Violins," "Deep Purple," "Sweet Georgia Brown," "Cherry Pink and Apple Blossom White," "Green Eyes" and "Black Streets." Senior women will do the traditional May Pole dance, while Modern Dance members will dance to "Somewhere, Over the Rainbow," the May Day theme song. Costumes for the dances will mirror the song titles. A tea on the green behind Warner Hall will follow the festivities.

Committee chairmen for the thirty-third annual May Day are: NESTA Warfield, General Chairman; FI FI Dawson and Shirley Riley, Assistant Co-Chairmen; Marilyn Smith and June Bowman; Costumes; Lee Seemet, Dance; Eileen Dalton, properties; Mickey Mayo, Program and Ushers; Gladys Strobel, Music; Mary Lou Miles, Theme Coordinator; Shirley Tibbett and Betsy Yeatman, May Pole; Jane Frederick, Business; Jay Rowland and (Continued on Page 11)

Groups To Pick Dates For Events

On May 16 at 7 p. m., the Campus Calendar for 1956-57 will be set up in its primary form. The meeting for this purpose will be held in Brown Lab Auditorium.

Organizations who wish to secure spots on next year's program are requested to come prepared with information concerning the facilities they need, the time, place, date and any other pertinent details.

'Crime And Punishment' Ends Weekend Series Of Movies

The showing of "Crime and Punishment" tomorrow, six short experimental films on Sunday and "The Wave," on May 19, will bring to a close the season of week-end movies at Wolf Hall.

Mr. Gordon C. Godbey, associate professor of education and director of University Extension, stated that the movie program is the work of the subcommittee of Visiting Scholars, which is part of the Cultural Activities Committee.

The movie program started several years ago with showings at Mitchell Hall. However, due to the extensive use of Mitchell Hall for other programs,

the films could only be shown at intermittent times. Since the renovation of Wolf Hall and the installation this year of a new 16 mm. projector and sound system, a regular place was made available for showing.

The regular Sunday showing which started this year was an out-growth of the student body's demand for week-end activities. About 3300 persons have viewed the Sunday movies.

The Saturday showings were initiated on April 7 as a result of the good response to the Sunday showings. Since then 700 people have taken advantage of these showings.

Leadership Conference Stresses Need Of Positive Qualities, Group Cooperation

The importance of developing positive rather than negative qualities of leadership was emphasized by Herbert B. Warburton, former United States Congressman at the Leadership Conference Luncheon held last Saturday in Old College.

Citing the example of Adolf Hitler, Warburton stated that the ultimate goal of the leader is that which distinguished between the negative and positive approach. The latter provides for the good of those concerned which was just the opposite of Hitler's view.

Sponsored jointly by Omicron Delta Kappa and Tassel, honorary scholarship and leadership societies, the Leadership Conference opened in Mitchell Hall in the morning with speeches by Dr. Gorham Lane, professor of psychology and John E. Hocutt, Dean of Students.

Dr. Lane spoke on some of the ways of leading and developing leaders, while Dean Hocutt stressed the necessity of good leadership in campus organizations. This is of prime importance because, said Dean

Hocutt, "Student Government and other campus groups exist only through the volition of the administration."

After a brief intermission, Bessie B. Collins, Dean of Women, discussed the delegation of authority to increase group participation; David M. Nelson, director of athletics, commented on the importance of the cooperation of the entire group and the enthusiasm instilled by the nucleus of the group, while W. Glenn Dill, University New Editor, spoke on the need for closer student-administration relationship through Public Relations and publicity.

After the luncheon, a group discussion was held in Wolf Hall where Stan Lowicki, Bill Brown, Ray DeVries and Dr. Ray E. Keesey, associate professor of Dramatic Arts and Speech, spoke on various phases of leadership.

Lowicki, speaking on the role of a president, stated that presidents should survey and plan the program in advance of the meetings and stressed the importance of keeping to the point

in meetings.

The distribution of duties to committees, stated Brown, is an important aspect of organization work. Three necessary things in attacking a committee problem are to make sure that those on the committee are the ones capable of doing the job, that the problem is attacked from the right angle and that the right problem is being attacked.

Different publicity techniques were pointed out by DeVries, former editor of the Review. The objective of publicity is to get the story across to the individuals so that their curiosity will be aroused.

Dr. Keesey, speaking on parliamentary procedure, said that only a few basic principles are needed in conducting a meeting. Through a thorough knowledge of Roberts' Rules of Procedure, a person can control a meeting.

Dr. J. Fenton Daugherty, professor of physics, concluded the conference with a brief summation of the goals and accomplishments of the sessions.

Camera Captures May Queen Norma In Scolding Pose

Delaware's May Day Queen was caught by the cameraman in her school-teacher position. Norma McClellan, a senior elementary education major, is scolding in much the same way she may be doing next year while teaching fourth grade at Oak Grove.

This is the second time Norma has been elected to May Court. During her freshman year she was duchess of the class. In four years at the university, Norma has been very active in WAA sports and Women's Playbill. She was, in fact, a director of plays in both her junior and senior years.

Participation in dormitory activities also keeps Norma busy. She was a member of House Council last year and is, at present, assistant head of house at Warner.

Senior To Present Recital In Mitchell

An organ recital will be given by Ann Williams, a senior music major, on May 13 at 4 p. m. in Mitchell Hall.

The program will consist of a Canzona by Frescobaldi; Toccata and Fugue in F by Bach; two of the Schubler chorale preludes, "Sleepers Wake! A Voice is Calling" and "My Soul Exalts the Lord," also by Bach; "Fugue No. 1 written on the name B-A-C-H" by Schumann and "Sonata No. II" by Hindemith.

Mr. Fendell Yerxa Principle Speaker At 'Review' Banquet

Mr. Fendell Yerxa, executive editor of the News-Journal Company, was the guest speaker at the annual Review banquet, held Wednesday evening at Schaefer's Restaurant in Chesapeake City, Maryland.

Mr. Yerxa spoke on his experiences in newspaper work.

After serving as a Captain in the Marine Corps during the Second World War, at which time he landed in Okinawa on D-Day, he worked his way from a reporter to the city editor of the New York Herald Tribune. Following his work in New York, Mr. Yerxa came to Wilmington to accept his present position.

Ray DeVries, retiring editor of the Review, presented service keys to the members of the staff who have served for two years on the paper.

A gold key for four years service was presented to DeVries by Dave Tompkins, present editor. The former was the only one to receive the gold key.

Other guests included John E. Hocutt, Dean of Student; Bessie B. Collins, Dean of Women; Elbert Chance, Director of Public Relations; Glenn Dill, University News Editor and Neil Robbins, former editor of the Review.

Over 50 members of the staff attended the affair.

IFC, Alumni Discuss Organization Problem

Lack of interest causing poor representation was cited as the main problem at an Alumni Inter-Fraternity Council meeting held last Monday evening in the lounge of Old College.

Of the nine fraternities on campus, four had a alumni representation at the meeting, and only five had any type of representation at all. Those who attended the meeting were: presiding officer Harry G. Law-

son, KA; Dr. E. V. Lewis, KA; M. L. Draper, Sigma Nu; J. C. Stewart, Sigma Nu; John E. Hocutt, Dean of Students at the university; IFC president William R. Baldt, KA; Russell B. Myers, Alpha Tau Omega;

Richard W. Chappell, Alpha Tau Omega; William A. Krebs Jr., Alpha Tau Omega; Sidney Kugler, Alpha Epsilon Pi; William J. Baur, Jr., Sigma Nu; John C. Davidson, Delta Tau Delta and Arthur S. Diver, Delta Tau Delta.

Several problems were discussed at the meeting, among which were fraternity dining halls, hosiemothers, membership status in fraternities scholarship, "dirty rushing," elections of officers and the arousing of interest among undergraduate fraternity men for an Alumni IFC.

Commenting during the discussion, Mr. Diver asked what would be the purpose of such an organization. Mr. Draper replied that it could serve as a guide to the undergraduate IFC and to help its relations with the administration of the university. He also remarked that

(Continued on Page 11)

Reading Knowledge Test For Students To Be Given May 18

Dr. Kimberly S. Roberts, chairman for the modern language department of the university, has announced that Reading-Knowledge Tests for students in the Intermediate Courses will be given on May 18.

Required of all students in the School of Arts and Sciences, the tests will be given for French, Spanish and German. Although the time for them has not been established, Dr. Roberts said they will probably be at 4 p. m.

As mentioned in the Undergraduate Bulletin of the university, students who fail the test will not be required to keep taking their language course, but will have to pass the test before graduation.

Family Holds Funeral Rites For Dean Squire

A brief memorial service in honor of the late Dean Francis H. Squire will be held this afternoon at 4 p. m. in Mitchell Hall.

The Reverend J. Brooks Mosley, of the Cathedral Church of St. John, in Wilmington, will speak. He will be assisted by The Reverend Theodore L. Ludlow, rector of St. Thomas Episcopal Church in Newark.

The A Cappella Choir will sing Mozart's "Ave Verum." Mr. Henry Lee of the music department will supply the organ music.

A private funeral service for the late Francis H. Squire, former Dean of Arts and Science at the university was held in Newark this past Wednesday.

His body, accompanied by Mrs. Squire, had been sent from Southampton May 3 on the Queen Mary and arrived in New York the following Tuesday.

Dean Francis H. Squire

Coronary thrombosis has definitely been established as the cause of death. Dean Squire had been doing research in the British Museum in London on the day he suffered the attack, April 26. The attack came after he had returned home.

UD Summer Session Courses Offered By 24 Departments

The six-week 1956 Summer Session of the university will begin on June 18.

Twenty four departments will be represented on the campus in this session. In addition to the regular courses, numerous special programs and workshops will be held, including a Conservation Workshop, Plant Science Workshop and an experimental workshop on foreign language in the elementary school. Two special courses in surveying will be given at a different time than the regular class. CE 223, Plan Surveying, is scheduled to begin on June 4 and will last three weeks. The second half of this full semester course, CE 224, Advanced Surveying, will be held from June 25 to July 13.

The normal undergraduate course load is two courses, not to exceed seven credit hours. Permission to take more than this must be requested of the student's academic dean. Graduate students are limited strictly to a maximum of six hours.

Most classes in the summer session are held five days a week. None will be held on Saturdays. Class periods, for the most part, are one hour and fifteen minutes in length. The morning hours are used for almost all the lecture periods, with laboratory periods scheduled for two and one-half hours in the afternoon, three days a week.

Living accommodations on the campus will include room and board and will cost \$110. All students living in a dormitory are required to eat in the university dining hall. Those not living in a dorm who wish to buy meal tickets may do so at a cost of \$75 for the six-week session. These meal tickets include breakfast on Mondays and extend through lunch on Fridays.

Included in the summer session is a recreational program designed to give each person the type of relaxation that appeals to him. Activities such as picnics, swimming, concerts, lectures and movies constitute the major portion of the summer recreational activities.

Each Tuesday and Wednesday evenings a series of informal lectures will be presented by visiting professors. Dr. Robert S. Hillyer, poet and professor of English literature will give two readings during the summer.

Dr. William O. Penrose, Dean of the School of Education, is the Director of the Summer School.

Additional information and admission blanks may be obtained from Dr. William G. Fletcher, Director of Admissions. Students desiring to enter the School of Graduate Studies for work toward an advanced degree may obtain information from Dr. C. J. Rees, Dean of the School of Graduate Studies.

Dr. John Perkins Becomes Member Of National Council

Dr. John A. Perkins, president of the University of Delaware, has been named to membership on the National Council of the National Planning Association.

The Council is a group of leaders in agriculture, business, labor and the professions, representative of all geographic areas in the country.

The purpose of the National Council is to encourage cooperation by the major private groups, and to promote wider public consideration of the long-term planning studies undertaken by NPA and other organizations.

The National Planning Association is a private, nonprofit, nonpolitical association founded in 1934. It operates through Standing Committees of leaders — of agriculture, business, labor and the professions — conducting research in economics and on questions of national policy. The most recent research project upon which it has embarked is a study of the nonmilitary uses of nuclear energy.

Wilmington Students Receive Scholarships

John E. Hocutt, Dean of Students, announced last Saturday that two high school students had been awarded language scholarships for Delaware next year.

Janet Evans, daughter of Mr. and Mrs. Isadore Evans, of 1840 West Fifth St., and a senior at Wilmington High School, was awarded a \$100 scholarship to the university by the American Association of Teachers of French.

Miss Evans was awarded the scholarship on the basis of a competitive test in French given by the Delaware chapter of the organization recently at Wilmington High School.

Allen Friedman, a senior at P. S. duPont High School, was awarded a \$100 German scholarship to the University. Friedman attained the highest score in a competitive examination on German which was given at the university on April 27.

AAUW To Hold Food Sale May 16

Delaware's chapter of the American Association of University Women will hold a sandwich sale on May 16 in all the dormitories and fraternities.

The purpose of the sale is to raise money for the annual A.A.U.W. scholarship. Cupcakes and sandwiches will be sold between the hours of 9:30 and 11 p.m.

Student Art Exhibit In Gallery May 13-25

Art students are preparing for the annual Student Art Exhibition which will run from May 13 to 25 in the Memorial Library Art Gallery.

This annual art show, which will open at 7:30 p.m. Sunday, will display the projects made in the art courses during the past years. The exhibition will include some work by each student.

This display will include such projects from the drawing and painting classes as: pen-and-inks, oils, water colors, pastels, charcoals, woodworks and work in clay. The designs class will have furniture and other items. The textiles and ceramics classes will also submit displays.

Senior art majors will act as hosts and hostesses at the opening night and refreshments will be served.

ODK Picks Spivack As New President For Coming Year

Jerry Spivack has recently been elected president of Omicron Delta Kappa for next year.

Spivack replaces Stan Lowicki as head of the honorary leadership fraternity. The new vice-president is Dick Sutton, while Dr. Wakefield Smith is secretary-treasurer.

Dr. Daugherty, professor of physics, is the faculty advisor. Spivack is a biology major from Wilmington and a former SGA treasurer, historian of Beta Beta Beta, and baseball manager. He is a member of Alpha Epsilon Pi social fraternity.

Sutton is a political science major from Dover who has been active in E-52 and the Debating Club. He has held the positions of captain of the golf team and dormitory advisor at Brown Hall.

Installation of the new officers will be held in the fall.

More Fun!

In the company of friends home-ward bound you can make it a "party" all the way. There's room to roam, time to visit, and nothing to worry about.

More Comfort!

Restful coaches, loads of luggage space, refreshments and swell meals en route. No tough driving on crowded highways. No waiting for skies to clear. Yes sir! The train is tops in transportation!

What Savings!

Team up with friends and enjoy these money-saving, round-trip bargains! GROUP ECONOMY FARES*—Save 25% when 3 or more bound for the same home town travel together both ways. Tickets good for 30 days. Grand if returning to summer school. COACH PARTY FARES—Savings of 28% when 25 or more travel together on going trip home. Return singly or together for summer school or fall semester.

*Except for local travel between New York-Washington and points east of Lancaster, Pa.

See your travel or ticket agent NOW! Ask about these big money saving plans!

Girls Walked A Mile From J. Paul Sheedy* Till Wildroot Cream-Oil Gave Him Confidence

"Duns anything tonight honey?" Sheedy asked his little desert flower. "Get lost!" she heiked, "Your hair's too shaggy, Sheedy. Confidentially it sphinx!" Well, this was really insultant. So J. Paul got some Wildroot Cream-Oil. Now he's the picture of confidence because he knows his hair looks handsome and healthy the way Nature intended... neat but not greasy. Take Sheedy's advice. If you want to be popular, get a bottle or tube of Wildroot Cream-Oil. Nomad-der if your hair is straight or curly, thick or thin, a few drops of Wildroot Cream-Oil every morning will keep you looking your best. You'll agree Wildroot really keeps Sahara-n place all day long.

* of 131 So. Harris Hill Rd., Williamsville, N. Y.

Want To Flunk ? Minnesota Offers Seven Easy Ways

Duluth, Minnesota — (ACP)— The Statesman, published at the University of Minnesota's Duluth Branch, recently picked this series of helpful hints from the University of Manitoba paper. All are designed to help the student attain failing grades.

Do not bother with a textbook.

Remind yourself frequently how dull the course is.

If you must study, try to lump it together and get it over with. The most suitable time is the last week of school.

Have a few friends handy during study periods so that you can chat when bored.

Stay up all night before finals. You can spend the first half of the evening discussing your determination to cram and the latter half drinking coffee or whatever your tastes prefer.

Write your examinations rapidly. Glance at the question and then put down your first impression.

Remember that success in life is your main aim and never let extraneous matters such as grades interfere with this objective.

Twenty-four Seniors Take Engineer Exam

A total of 24 persons took the Engineer-in-Training Certificate Exam last Saturday. This examination, given primarily for recent engineering graduates or current college seniors, is the first legal step which an engineer must take toward attaining registration as a professional engineer.

The examination, eight hours long, was given in Evans Hall by the Delaware State Board of Registration for Professional Engineers and Land Surveyors.

YOU'LL BOTH GO FOR THIS CIGARETTE!

WINSTON *lets you enjoy filter smoking!*

**WINSTON
TASTES GOOD!**

**LIKE A
CIGARETTE
SHOULD!**

■ Winston is the cigarette that gives you *flavor* in filter smoking — full, rich, tobacco flavor! No wonder Winston's so popular with college smokers clear across the country. Along with real flavor, Winston also brings you a finer filter that works so well the flavor comes right through. Try Winston!

Leaders Mirror

Lack Of Enthusiasm

Many ideas and definitions of the term "leadership" were put forth at the Leadership Conference, a joint project of Omicron Delta Kappa and Tassel, held last Saturday; and many important aspects of student government were discussed which are of vital importance to all newly-elected officials of campus organizations. It is a pity that only a handful of these "student leaders" showed up at the conference.

One of the important phases of the conference was the discussion of the problem of increasing group cooperation and committee work. This has been a sore spot for some time on the campus. Another important point brought up is the need for enthusiasm on the part of the campus "leaders" in order to get and keep the "followers" interested in the job at hand.

Apparently, there are not many good leaders at Delaware. Open to the entire student body, with some 125 receiving special invitations, there were 16 people at the morning sessions, double this at the luncheon, and about 20 at the afternoon discussion. Conspicuously absent at all or most of the conference sessions were the president of the SGA, eight fraternity presidents, two class presidents and numerous organization heads.

The leadership conference was well planned and conducted by the groups in charge. It was designed to advise the new campus leaders in the carrying out of their duties to benefit themselves, the organizations involved and the campus as a whole. Members of the faculty and past organization heads were picked to give this advice through speeches and discussions.

We hope that the Leadership Conference will not fold in future years because of lack of attendance. It gives the students an opportunity to display all of the enthusiasm that they're supposed to have and that they say they have, yet that they have not shown to date.

DOT

Fore-and-After Thoughts

On Preregistration

For the last several semesters we have been appalled by the methods by which pre-registration has been carried out; and last week was no exception. There were several faults in the system that could have been eliminated by a little forethought or foresight.

1. **More advance notice should have been given.** Pre-registration was announced less than a week before it was scheduled; and preliminary class schedules were not made available until five days before. This did not give sufficient time for the students to choose their courses and to have conferences with their advisors. Some professors, we know, did not schedule conferences until the final day of pre-registration.

2. **The choice of the week for pre-registration was bad.** Many students were caught short of time because of the final round of hour exams. Class schedules were complicated by the Honors Day and military ceremonies that week.

3. **Daytime hours for pre-registration should have been extended.** Why wasn't the registration hall open in the mornings? We heard of many students who were forced to cut classes in order to pre-register.

4. **More help was needed behind the counter.** Students should have been able to move right along after their schedules had been checked, but they found themselves faced with a long line to the class cards.

5. **Class enrollment should not have been limited.** The students should have been able to sign up for their desired courses. Then, the needs for next semester should have been analyzed, with sections added or dropped after the number of "flunk-outs" and the needs of in-coming freshmen have been determined. Many students were completely baffled as to what to do after they found courses closed which they had planned to take or needed to fulfill requirements.

Had these steps been taken, we feel that a lot of discomfort would have been eliminated for both the students and pre-registration officials. Tempers would not have been raised and the long, long line would have moved more quickly.

DOT

To the Editor:

I would like to question the logic of your editorial and the committee's comments as reported in the *Review* on the decision that the Sig Ep pledge trip should warrant them social probation. The law prohibits hazing or other humiliation to the pledges; the article and the pledges themselves said they were not humiliated. Sig Ep is not guilty of that part of the law. "Hazing" is defined as "forcing a freshman to do unnecessary tasks," as stated, the pledge went to Penn State of their own choice with no one overseeing them, and were not led into danger. Thus, there is still no violation.

Now to the law itself — is it written and defined in the law that pledge quests themselves are hazing? If not, then Sig Ep, whose charge was sending pledges on a quest, violated nothing and the committee would do well to seriously reconsider their decision. If so, they are rightly punished. But then the law must not be well known or enforced. Two fratern-

nities in the Greek columns of the two last *Review* issues have announced that their pledges have returned from quests! Surely, neither the fraternity writers nor the *Review* staff would print any article stating that a group had broken a rule, if the rule had come in precise form from the administration. Too, the editorial said that the case wouldn't have been considered had not the administration's attention been called to it. Does a good law get such attention as this? Are weak, wary laws the kind to keep on the books when practically every group involved goes ahead and breaks them? Then one must be martyr because attention is focused on that violation and the committee decides to show that they are doing their job by handing out one outstanding punishment. Let's have a students' administration for the students; if the students felt the committees would work

with them, more would take problems— social, personal and academic,— to the administration.

A UD Undergraduate

To The Editor:

The Student Government Association during the past academic year has ministered to its cursory obligations plus undertaking new activities. The relative success of these endeavors can be accredited to the individuals directly associated with the task at hand and to the student assemblage as a whole. It was not enough that the students gathered together to plan functions, but what was necessary was sufficient publicity to the students of our activities. We wish to thank Ray De Vries and the staff members of the *Review* for the more than adequate coverage given us this past year.

Sincerely,

Stanley Lowicki, student

Off Stage

by George Spelvin

George Spelvin Awards. Well—the time has come for the first George Spelvin Awards. First we would like to thank all the students for the tremendous response; it was really more than we anticipated. With so much interest we are sure that the awards will become an annual affair.

The campus choice for the best production goes to the first major production of the season, "The Skin of Our Teeth" by Thornton Wilder. The hit show was directed by Professor Thomas B. Pegg, who next year is taking a year leave of absence to study in California. The Wilmington critics praised the show and the fine cast was led by Suzanne Kozak, Elizabeth Parkhill Barber and George Cavey.

Best Supporting Actor

The Spelvin Award for the best supporting actor goes to Thomas J. Waters for his fine portrayal of The Squire in "The Corn Is Green." This junior drama major also made a hit as Major Petkoff in "Arms and the Man." Recently Tom was elected president of the E-52 Players.

Capturing the award for the best supporting actress is Mary Minkiewicz for her character of the Fortune Teller in "The Skin of Our Teeth." Also a junior drama major, Mary has had a great variety of fine character parts as Eva Lewis in "Mrs. McThing" and Miss Ronberry in "The Corn Is Green."

Cavey Best Actor

The only category with no close competition was the award for the best actor. Receiving the honor is George Cavey for his part of Morgan Evans in "The Corn Is Green." One of the university's finest actors, George received all but three votes, and last year he was the first recipient for the Tony Mitchell Acting Award.

The George Spelvin Award for the best actress was the closest competition. Three fine actresses were extremely close; they were Elizabeth Parkhill Barber from "The Corn Is Green," Kathleen Jordan from "Sleeping Beauty," and Suzanne Kozak from "The Skin of Our Teeth." But the one topping the list to win the George Spelvin Award is Suzanne Kozak for her portrayal of Sabina in "The Skin of Our Teeth." This sophomore drama major was also awarded the Tony Mitchell Acting Award last week which makes her title of this year's finest actress undisputed on campus.

Best of luck of all the winners and to next year's E-52 University Theatre Season. We hope that it will be as great a year as this past one, especially since it is the twenty-fifth anniversary of the E-52 University Theatre.

TODAY

Riot at U. of Penn

by Sidney Erailson

One hundred thirty-seven students of the University of Pennsylvania were arrested on May 3, when they attempted to blockade Locust Street between 36th and 37th Streets in Philadelphia. The rioting of the students also included turning in false fire alarms and pelting the police with eggs and rocks. Police officers broke into several fraternity houses and apprehended the rioters. The arrested students were taken to the Thirty-eighth Precinct and later to City Hall.

Of the one hundred thirty-seven students, all but twenty-eight were released without charges. The twenty-eight were charged with breach of the peace and inciting a riot. They were released Monday on a total of \$14,000 bail, which was paid by the university. At the time of press, the administration of the University of Pennsylvania was considering the action it would take against the students involved. The administration promised swift and severe disciplinary action.

The *Daily Pennsylvanian*, an undergraduate newspaper of the University of Pennsylvania, commented editorially in the issue of May 4, "Last night a small segment of the University undergraduates proved that they are still irresponsible juveniles. It is unfortunate that they besmirch the honor of the University as well as demonstrate their immaturity." The newspaper continued, "The excuses that such behavior is only the student's way of letting off steam, or that it is only a manner of demonstrating that it is spring again are inadequate. The price of their thrill has been the dishonoring of the University."

We, here at the University of Delaware should, of course, be thankful that such incidents do not happen here. Perhaps, it was fortunate that the students of the University of Delaware who took part in the well remembered incident on October 29 of last year were turned over to the university to be punished, rather than being punished by the local police. We should also be thankful that the University of Delaware is in a small town and not in the center of a large city. This is true because the riot at the University of Pennsylvania was made worse by the fact that the traffic in metropolitan Philadelphia was blocked.

While students complain about the disciplinary measures here, they should be thankful that the university, rather than civil authorities, are administering them. A criminal record is nothing to be proud of. The administration should also realize that the incidents here are mild compared to the incident at the University of Pennsylvania and perhaps thankful that only lions are painted.

Fraternally Speaking:—

Sigma Nu

Reigning over this year's week-end as the White Rose Queen was Miss Carol Conrad. After the big formal on Friday, a lot of the brothers and their dates still had enough energy to drive all the way down to Rehoboth on Saturday for a barbecue at Paul Flood's. Then there was a mad rush back for the house party where "Pete" Green put on the best entertainment of the year. On Sunday afternoon the engineers had a little problem to solve, but they had to call on a phys. ed. major to help them out.

On Wednesday night, the annual Father and Son Banquet was held. It was a good opportunity to meet people, have a great meal and listen to a good talk by Coach Dave Nelson.

Saturday night the seniors will be honored at the last party of the year at the Snake House. The Sigma Nu girls, under the leadership of Liz Barber, will take care of the decorations and entertainment.

Congratulations this week go to Miss Sally Schmidt and Commander Robert Money maker, who were pinned, and to Mr. and Mrs. Randall Christensen, who were married last week-end.

Ozzie Crompton

Alpha Epsilon Pi

The dance Friday night was highlighted by the crowning of Steffie Klahr as the 1956 "Sweetheart of AEPi." Awards were given to Gordon Pizer, Tom Katman and Lenny Leeds for their outstanding accomplishments during the past two semesters. Then all went to a party at Brer Katman's. Saturday night's party at the house was attended by representatives of six of the nine fraternities on campus. The host fraternities were AEPi and OX at the Cag. We were visited by SN, SPE, KA and ATO. Needless to say, the Cag was overflowing with people, but the occasion and the hot combo (from OX) made all impervious to the tight quarters. Congratulations are in order to the new brothers: Paul Baskin, Sam Gruber, Allen Podell, Allan Goodman, Jake Haber, Bruce Evans and Lenny Leeds. Congratulations also go to Jerry Katz who became a neophyte.

Question of the week: How come Alvin's face was red Saturday night?

Joe Friedman

Sigma Phi Epsilon

The past week behind the "Big Red Door" was a week of varied activities. President Starkey was seen rapidly preparing for a visit from an inspecting representative from the Grand Chapter in Richmond. The Delaware Alpha chapter has long been known in the East as a chapter which knows how to, and does, carry out its ritualistic and official duties according to the highest standards set by the Grand Chapter. This week gave us our chance to prove it, and President Starkey and the brothers went all out to make the Grand Chapter representative feel right at home during his visit to our house.

This past week also saw the affiliation of Harris "Mo" Mosher to our chapter. Brother Mosher is a transfer from Iowa State University, a biology major and a member of the varsity football squad. Congratulations, "Mo."

The past weekend saw many of our brothers in many places. Of the many places visited, the big carnival at Price's Corner seems to have been the big attraction for many, while others were content to visit "you know where" and the unequalled State

Theatre. What was that great picture you saw? Oh, yes, "Gone With the Windshield."

Dick Brady

Tbeta Chi

Last Friday night our big weekend started off with an excellent dinner at Schaefer's. Just before the dinner, Sam Krussman took the fatal step and became engaged to Miss Marilyn Sturges. Also in the spotlight Friday were Andy Wagner, who was elected outstanding Senior; Tom Oves, the outstanding fraternity man and Howard McCurdy, the outstanding fraternity athlete. The outstanding pledge for the year was Clinton Dietz. The high point of the weekend was the crowning of the fraternity sweetheart. She is Miss Mary Jo Anselm. Congratulations to a fine girl.

Saturday night we went to a joint party with our old friends and neighbors, the AEPi's. It was a fine party, just like old times again. McCurdy made the limelight again on Saturday night by giving his pin to Miss Nancy Stewart. To top off the weekend's romances, Bob Brubaker became engaged to Miss Nancy Van Sciver. Congratulations to you all. Say, just what is going on in that room of yours? You guys got a jewelry concession in there or something?

Last Wednesday the following men were initiated into the brotherhood: Dick Duerr, Clinton Dietz, Guy Marrocco, Bill Trissell, Bob Jones, Tom Murray, John Pollack, Frank Fierro, Bud Lynch, Jim Breyer, Jim McCloskey and Peter O'Halloran. Congratulations to you all.

Jay Harford

Alpha Tau Omega

As a result of initiation on the past Saturday, Epsilon Rho has lost nine pledges and gained nine new brothers. Congratulations to Dave Dunlap, Burt Chase, Bruce Paul, Buddy Tingle, Neil Fowser, Dave Messick, Ray Christian, Ben Lane and Bob Gore. Welcome to the ranks of full-fledged Tau's. Previous to their initiation, the ex-pledges had a work party which apparently left them all worn out.

After the initiation ceremonies, the brothers journeyed to

Cramming for Exams?

Fight "Book Fatigue" Safely

Your doctor will tell you—a NoDoz Awakener is safe as an average cup of hot, black coffee. Take a NoDoz Awakener when you cram for that exam...or when mid-afternoon brings on those "3 o'clock cobwebs." You'll find NoDoz gives you a lift without a letdown... helps you snap back to normal and fight fatigue safely!

15 tablets—35¢ large economy size (for Greek Row and Dorms) 60 tablets—98¢

the Glass Kitchen for dinner. Returning to the house at 8 p.m., the brothers were seen with party of the year. The Taus' Mahal was really rocking to the theme of "Bermuda" as brother after brother appeared in shorts.

The award for the outstanding pledges of the year 1955-56 ended in a tie between Brothers Don Bullard and Dave Dunlap. Brother Paul took the trophy awarded to the pledges making the best pledge plaque.

Yorke Rhodes

Kappa Alpha

With 24 hour study rules now in effect, the men of Kappa Alpha are preparing for the last weeks of school. If everything goes according to plan, we will be above the all men's index for the fourth consecutive semester. Graduating seniors are all looking forward to making their fortunes once exams are over, while the remaining Rebels look forward to a summer of work and fun.

Our baseball team continues its winning ways under the new-found athletic ability of Brother Lowicki. Our tennis team has placed two men in the quarter finals and hopes to win this trophy too, with a degree of luck.

It's getting to be a regular occurrence these days, as "Silky" Thompson came up with his third double victory

at the track season. KA now boasts a Blue Hen of the week. Word has it that Silky's after Jesse Owen's record!

Steve Voorhees

Pi Kappa Alpha

Well here at Pikes Peak in spite of the valiant efforts of a few, there is not much studying being done. I guess our week-end was too much for the softies(?).

Buck and Pete ambled into the Delta Psi Chapter at Maryland. It seems they were having a barbecue. What a ball. I heard that they left when the liquid refreshments ran out.

I guess the funniest thing that happened this week was Rolands reaction when he found his desk on the roof. How did it happen anyway, John?

Bill Keyser and Phil Wagner went fishing Sunday evening. What is this I hear about an eel in your shoe, Bill?

Everybody knows why Vince went home last weekend, except one person. Huh, Bobbie?

Dave Krause

Delta Tau Delta

For fourteen Delt pledges, last Thursday night climaxed nine weeks of grueling toil under the direction of Pledge-master Simon Heckert and his able assistant Robert (The Scholar Gypsy) McAlpine. The ecstatic new brothers are: Butch Pierce, Jack Terres, Dick Pruett, Hugh Segner, Roy Sneller, Hal Hultman, Fred Moore, Ben Payne, Dave Kei-

ler, Bart Rinehart, Bruce Furman, John Strong, Gene Saville and Ed Haugh. The new members have pledged themselves to reform the fraternity and took a long step in the right direction by deposing Chuck Heckert as pledge-master and selecting Jack Terres as his successor.

The graduated pledge class would like to express their appreciation to all the brothers who helped them rid themselves of the accursed epithet of "pledge."

Ben Payne

Phi Kappa Tau

On May 4, Phi Tau initiated fifteen men into the brotherhood. Congratulations and a hearty welcome are extended to Fran Bisio, Bob Bunting, Dwayne DiCriscia, Clyde Draper, Alan Graham, Frank McMullen, Dan Norman, Doug Roberts, Charlie Rudolph, Bob Sanworth, Bill Simpson, Dennis Sloman, Gene Thomas, Crawford Venkey and Tom Wise. We know they will contribute much to the success of the fraternity in the next few years.

Their last-minute activity as pledges had included a pretended rain dance under the balcony of Smyth Hall, which had genuine results.

After the initiation, a novel way of celebrating was introduced—eating carnations. A new outdoor game called pad-dleminton, invented by the Skoost, has also become popular.

Ed Kimmel

The new Arrow FREE-WAY

puts "action" in a shirt...

Here's a knitted shirt just made for active sports (and lounging around, as well). The feather-light fabric is bias-cut for perfect freedom in any position. The back, cut longer than the front, lets the collar fit your neck just right. In 20 colors. Wear it correctly—with the Arrow Bermuda shorts (6 different colors)—and you've made the perfect choice for summer FREE-WAY, \$3.95. Shorts, \$3.95 up.

→ARROW→

—first in fashion

SHIRTS • TIES • SLACKS

The new Arrow FREE-WAY is here!

There's not a man on campus who can't use one of these new action-back shirts. For tennis, golf or most any sport, the unique cut of the Arrow FREE-WAY prevents binding or straining—ever. (There's plenty of style in these shirts, too.) In 20 smart colors—and we have most of them for your selection. Arrow FREE-WAY, \$3.95.

E-52 Prepares For New Year; Schedule Try-outs On May 17

Tryouts for the first major E-52 University Theatre production will be held Thursday, May 17, from 3 to 5 and 7 to 8 p.m. Mitchell Hall.

Opening the twenty-fifth anniversary season will be two pieces of the world's finest drama, "Aeschylus' Mourning Becomes Electra," "The Homecoming," the first play in O'Neill's famous trilogy, "Mourning Becomes Electra," is a modern adaptation of the Greek tragedy, "Agamemnon." It

is believed that this will be the first time in America that such a program has been offered.

Dr. Cyrus Day, professor of English and an honorary member of the E-52 Players, has consented to do the adaptation of the two plays. He hopes to be able to use modern colloquial speech in place of the sometimes stilted language of most of the translations but retain the power of the classic tragedy.

Copies of the play are on reserve in the library under E-52.

Wesley Foundation To Hold Meeting And Dinner May 15

The Wesley Foundation will hold a dinner meeting on May 15 in the dining hall of the Newark Methodist Church at 6:15 p.m.

N. G. D. Joardar, formerly of India but now connected with the Linguistics Department of Georgetown University, will be the featured speaker. Mr. Joardar pursued his education under the tutelage of the famous Indian educator, Rabindranath Tagore. After completing his studies he was associated with Mohandas K. Ghandi and later with the University of Lucknow in India as a professor and administrator. In the United States he taught law at Yale and international relations at American University before going to Georgetown.

Mr. Joardar's topic at the meeting will be "Foreign Policy and Christianity". Reservations for the dinner can be made by calling the Wesley Foundation office at ENdicott 8-4974 or Leland Hall at ENdicott 8-6977. Reservations must be made by noon of May 14.

College Co-eds Get Opportunity To Travel, Work and Get Paid Through Kelly Office Service

A chance for the coed to work this summer at her convenience and then at regular pay is offered through the national Russell Kelly Office Service.

The opportunity to go into different types of office work exists in some 45 cities as the result of a demand by employers for white collar personnel to fill positions left vacant for short periods by vacations or sick leaves — or for leveling off peak loads.

The Russell Kelly organization expects several thousand coeds this summer to help fill the chief need — employees instead of customers. Russell Kelly pays the girls directly, collecting from the employer. No fee is charged the girl. She gets the same wages as a regular employee, instead of being forced to take less money because she is not "permanent."

The girl who wants to visit several American cities during

her vacation and still make a living can use the Russell Kelly service. After one interview at the office nearest her, she can move on to the city of her choice and her records go with her. No more interviews are necessary. The weekly salary comes from the main Russell Kelly Office.

There is a branch of the Kelly office in Wilmington at 917 N. Washington, St.

APO To Sponsor Clothing Collection

Alpha Phi Omega service fraternity is sponsoring a clothing drive the week of May 14-19. Collection boxes for the clothing will be put in the dining halls.

Bill McLain, president of APO, explained that the clothing will be forwarded to the American Friends Service Committee. The AFSC will ship the clothing to areas which are in urgent need of it, including Korea, Japan and Southern Italy.

On May 7 APO inducted Don Teefer, John Tyler, George Vavoras and Alan Goodman as new members of the fraternity.

B-52 jack screw—a typical Boeing design challenge

On Boeing B-52 bombers, the horizontal tail surface has more area than the wing of a standard twin-engine airliner. Yet it can be moved in flight, up or down, to trim the aircraft.

The device that performs this function is a jack screw, which, though it weighs only 255 pounds, can exert a force of approximately 225 tons!

Many kinds of engineering skills went into designing and developing a jack screw so precise that it automatically compensates for stretch and compression under load. Civil, electrical, mechanical and aeronautical engineers, and mathematicians and physicists — all find challenging work on Boeing design projects for the B-52 global jet bomber, and for the 707 jet tanker-transport, the BO-

MARC IM-99 pilotless interceptor, and aircraft of the future.

Because of Boeing's steady expansion, there is continuing need for additional engineers. There are more than twice as many engineers with the company now as at the peak of World War II. Because Boeing is an "engineers' company," and promotes from within, these men find unusual opportunities for advancement.

Design engineers at Boeing work with other topnotch engineers in close-knit project teams. They obtain broad experience with outstanding men in many fields, and have full scope for creative expression, professional growth and individual recognition. And they find satisfaction in the high engineering integrity that is a Boeing byword.

In addition to design engineering, there are openings on other Boeing teams in research and production. Engineers like the life in the "just-right" size communities of Seattle and Wichita. They may pursue advanced studies with company assistance in tuition and participate in a most liberal retirement plan. There may be a place for you at Boeing-Seattle or Boeing-Wichita.

For further Boeing career information consult your Placement Office or write to either:

National College Jazz Tourney Offers Television Appearance

The "NATIONAL COLLEGIATE JAZZ CONTEST," sponsored by The Ludolph Wurlitzer Company, is currently underway throughout America.

The contest offers the winning jazz group a guest appearance on the Steve Allen "Tonight" TV Show, a record company audition and a Wurlitzer Electronic Piano for the college representative.

Second and third groups will be selected as runners-up in the contest and receive recognition trophies.

Six finalists will be selected by the Wurlitzer Music Workshop from all the entries.

The judges include Duke Ellington, Dave Brubeck, Tommy

and Jimmy Dorsey, Ralph Flanagan and Don Elliott.

All entries will be judged on instrument execution, performance, musical knowledge and arrangements.

Applications and covering material have been received by the SGA. Professional college jazz groups of six or less instrumentalists may enter.

A tape recording of two or three jazz selections by each group entering the contest must be sent to the judges in care of the Wurlitzer Music Workshop, 522 Fifth Avenue, New York, 3, May 12.

Entrants in the contest must be professional musicians and college students.

Fulbright Scholarships To Study Abroad Open To Graduate Students Of American Colleges

Competitions for United States Government scholarships for graduate study abroad for 1957-58 are now open, it was announced on May 1 by the Institute of International Education.

Countries where U. S. graduate students may study under the Fulbright Act are Australia, Austria, Belgium and Luxembourg, Burma, Chile, Denmark, Finland, France, Germany, Greece, India, Italy, Japan, the Netherlands, New Zealand, Norway, the Philippines and the United Kingdom. In the Asian countries — Burma, India, Japan and the Philippines, as well as in Greece, only a limited number of grants is available, and mature graduate candidates

are preferred.

Countries participating in the Buenos Aires Convention Program are Bolivia, Brazil, Chile, Colombia, Costa Rica, Cuba, the Dominican Republic, Guatemala, Haiti, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru and Venezuela.

Eligibility requirements for these foreign study fellowships are: United States citizenship; a college degree or its equivalent at the time the award is to be taken up; knowledge of the language of the country of application sufficient to carry on the proposed study and good health.

Under the Buenos Aires Convention the Institute makes the preliminary recommendation

of candidates, with the cooperating countries making the final selection of candidates for study within their borders.

Awards under the Fulbright Act are made entirely in the currencies of participating countries abroad. This act authorizes the use of foreign currencies and credits acquired through the sale of surplus property abroad for educational exchanges. The awards cover transportation, expenses of a language refresher or orientation course abroad, tuition, books and maintenance for one academic year. Awards under the Buenos Aires Convention include transportation provided by the U. S. Government.

Delaware Educators Discuss Recruitment; Advise Salary Raise

Teacher recruitment was examined by a recent university meeting of Delaware educators.

Mr. Donald J. Rickey, supervising principal of Krebs school in Newport, guided the committee in the absence of William O. Penrose, Dean of the School of Education, in its proposals concerning the securing and retaining of teachers. To promote recruitment, it was suggested that the state publish a brochure promoting teaching as a profession, and increase teacher training facilities so applicants will not have to be turned down.

To retain the present teacher supply, it was proposed that teachers be paid extra for activities requiring hours beyond the regular school day; that \$1,000 be added to the minimum state salary schedule; that relations of School Boards and teachers be improved by a greater consideration given teachers relating to fringe benefits such as free time.

Announcements

By PEGGY CRONIN FASHIONS

Due to the proposed re-building of Main Street this summer, we are now offering the greater part of our stock at substantial reductions ranging from 10% on exciting new summer fashions, 20% on Spring Toppers and Suits and 30% to 50% on many, many other items.

Watch this spot for weekly Super Specials!

This week it's a clearance of Cotton Blouses at 30%, and 20% off on all hats, except whites and brims.

While Main Street is having a face lifting, we plan to remodel. You can help us by shopping early.

Thank You,
PEGGY CRONIN ALDEN

NAVIGATOR AND PILOT

The flying U. S. Air Force is a team of men who command the aircraft and men who plan the attack. These are the pilots and navigators, both equally important to the defense of America.

THE TEAM

THAT DEFENDS
AMERICA

You, as a young man of intelligence and sound physical health, may join this select group in the world's most exciting and rewarding adventure. Your training will stand you in good stead, whatever your future plans may be—and you'll be earning over \$6,000* a year 18 months after graduation.

If you are between 19 and 26½ years of age, investigate your opportunities as an Aviation Cadet in the U. S. Air Force. Priority consideration is now being given to college graduates. For full details, write to: Commander, 3500th Recruiting Wing, Wright-Patterson Air Force Base, Ohio.

Chicks Trim Hopkins As Gil Mahla Excels; Close With 4-1 Mark

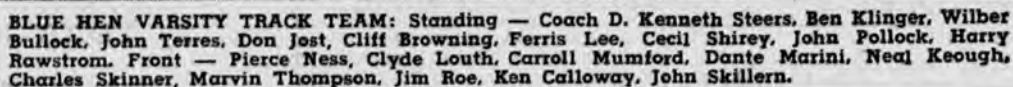

440 — 1, Mahla, Delaware: 2, Dar-
row, NAPS: 3, Jensen, NAPS. :51.7.

by Scotty Wilson

His best effort in the high jump was recorded against Johns Hopkins with a mark of 5 feet 10 inches. He made his best broad jump against Johns Hopkins with a flight of 21 feet 5½ inches. His teammate Cliff Browning beat him out in the Swarthmore meet for his only defeat.

(Continued on Page 12)

Hot Corner Situation

Watson On First

Shortstop — Sophomore Rich Hofmann, a 5 ft. 11 inch - 170 pound athlete from Haddon Heights, New Jersey holds down the shortstop job. "Lighthouse," as his teammates call him, has impressed the fans with his work both at the plate and in the field. Rick played freshman basketball for the Blue Chicks

Left Field — The graduation of two outfielders last season, necessitated Carmen Cella to move from second base to left field. "Cel" has done a workmanlike job so far for the Hens in the left and is leading the team in stolen bases. Carmen has lettered in football the past two seasons and is the leading candidate for next fall. He is formerly of Ridley Township High School where he played three varsity sports. Carmen is a physical education major who has high aspirations to be a coach some day. Carmen, the clown of the team, keeps the boys laughing with his unusual experiences.

'Zeke' Strong In Center

Center Field — "Zeke" Zaiser is well known in Delaware Sports Annals mainly because of his brilliant performances on the gridiron. "Zeke" has also been the Hen's starting center fielder for the past three seasons and has been one of the main cogs in the Delaware offense. "Zeke" has impressed the fans with his brilliant fielding and flashy base running. Known as "Marsh Rabbit" to his teammates, "Zeke" has been Coach Raymond's right hand man in keeping the Hens hustling and scraping. Zaiser has also set a mean pace in the scholastic league by being a consistent

Right Field — John "Bronko" Walsh, the bull like sophomore from North Philadelphia. "Bronko" clinched the starting right field berth in his first varsity season after holding down a similar post on last year's freshman nine. His style of play has been compared with that of the old war horse Enos "Country" Slaughter. "Bronko," like Slaughter, plays baseball like he loves it and he hustles every minute. Walsh has drawn the attention of all the baseball fans in this area primarily with his strong throwing arm (which incidentally Coach Raymond said compares with any in the major leagues), but he also has contributed much to Delaware attack with his timely hitting and fine base running. Big number 14 will be patrolling the outfield for the Hens for two more years.

Ironman Of The Mound

Pitcher — "Varsity" Bob Hooper, the former Mill Creek, Pa., athlete, Bob has amazed the fans with his brilliant hurling this season. Previously a starting varsity infielder in his sophomore year, Bob has pitched the Hens to seven of the teams first nine wins. Hooper was the man who engineered the Hens football team to their eighth and one record last fall. Bob is a member of Theta Chi fraternity and is a future dentist.

Pitcher — **Dick McKelvey.** "Noodles" is in his second year of varsity baseball for the Hens. Dick impressed the fans this season with fine performance against Haverford. McKelvey was also a member of Coach Wisniewsky's starting five this past winter. Dick, a junior, also holds from P. S. duPont and is vice president of Sigma Phi Epsilon fraternity.

Pitcher— Tony DeLucas. Tony is fast becoming one of Delaware's finest athletes. DeLucas is a possible successor to Bob Hooper's quarterback mantle next fall and is one of the Hen's top Hurlers. Tony is a member
(Continued on Page 10)

Bue Hens Meet Villanova At Frazer Field Tomorrow; Seek NCAA Playoff Bid

The Delaware baseball team will be out to further their bid for a district NCAA playoff berth tomorrow when they oppose the Villanova Wildcats starting at two o'clock on Frazer Field.

The Hens won their seventh game in a row last Saturday and their ninth game of the season when they edged Ursinus 3-2. The Hens were held to 4 hits by Ursinus and didn't score the winning run until the ninth inning. With two outs and the score deadlocked 2-2 in the bottom half of the ninth inning, Delaware scored their winning run. Dick Hoffman started the rally by reaching first on an error. He went to second as Carmen Cella walked and scored when Joe Thorne singled.

Once again it was Bob Hooper who was the man of the hour for the Hens. Hooper came into the game with the bases loaded and only one out in the ninth and retired the side with only nine pitches. Hooper thus won his seventh game of the season for the Hens, and his second game in relief. Before Hooper entered the game, Tony DeLucas had set back the Bears for 8½ innings with a fine display of pitching. DeLucas, who was seeking his second victory of the year, allowed Ursinus only six scattered Hens and had blanketed them since the second inning.

Sports **SLANTS**by HAL BODLEY
Sports Editor

TOMORROW LOOKS TO BE REAL CHAOS ON THE Delaware Campus. The annual alumni spring reunion is scheduled to take place, and with plenty of sports action on tap, the grads should be well entertained. Frazer field will be the scene of lacrosse, tennis and baseball activity. Our guess is that the alumni will stay at little while at each of the contests, so that in the long run all of the events will have a good crowd.

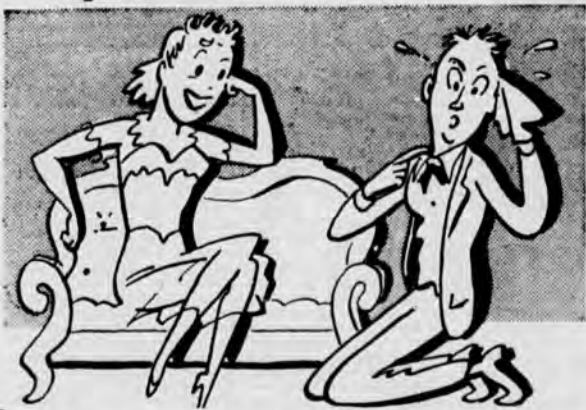

From the spectator's point of view it is too bad that the reunion wasn't held last Saturday afternoon, for the baseball game held then was really the type of contest that would have been good for the fans. It is the kind of game you read about, but very seldom see.

The bases were loaded with Ursinus Bears and the scoreboard in right field showed that the Hens and the visitors were tied at 2-2, with only one out. Tony DeLucas, who had been doing a terrific job on the mound, showed signs of weakening when he walked Bob Crigler, to put men on first and second. Coach "Tubby" Raymond, who had Dick McKelvey and Bob Hooper in the bull pen, gave McKelvey the nod, and the southpaw relieved DeLucas. The first batter that faced McKelvey bunted and reached safely, to load the bases. Raymond then called Hooper to the mound.

With the bases loaded and one out, Hooper threw only nine pitches to retire the side. In the bottom of the ninth the Hens' chances didn't look too bright, but they materialized. Dick Hofmann, who had scored the two previous Delaware runs, reached first on an error by Ursinus hurler Bob Slotter. Cella walked to put men on first and second. Catcher Joe Thorp sent a smash down the third base line, scoring Hofmann and winning the game for the Blue Hens. Hooper took credit for the win, his seventh of the season, against no defeats.

This' n That

EVER HEAR OF THE "TERMITES"? CHANCES ARE you haven't, but we sure have. The term-MIGHTS is a softball team composed of some of the frosh athletes that are not playing fraternity ball. The nucleus consists of Bob Jones, Ron Helley and Bob Kent. Some of the fraternity teams had better look out (Is that OK, boys?) . . . A real battle is shaping up next season for the third base job. Fred Walters, one of the best frosh prospects, will give "Tiger" Walls a real battle for the spot . . . Bob Kelley, **Wilmington Morning News** sports scribe, and radio sportscaster, is going to switch his radio chores from WILM to WDEL next week.

Dick Walsh (right) discussing carrier equipment which will provide many additional long distance circuits out of Philadelphia.

"There's opportunity in a growing company"

As an Engineer in the Transmission Section of Bell Telephone Company of Pennsylvania, Richard M. Walsh plans for the future.

"Our group's responsibility," says Dick, "is to see that we have sufficient facilities to handle present and future needs. Telephone usage is growing every year, and we keep up with this growth by keeping ahead of it."

"For instance, to meet the increasing demand for communication circuits in our area, we're adding 70,000 new channel miles this year alone, at a cost of \$3,500,000. Laying new cable will give us 40,000 of those channel miles, and we'll get the other 30,000 through use of carrier equipment, which lets us send a

number of long distance calls on each pair of wires simultaneously.

"Thus, though a cable might have only 300 pairs of wires, we can, with carrier, make it carry over 3000 telephone calls at one time. Using carrier equipment to get extra circuits out of cable—which is expensive to make and lay—is an example of how we engineer to give high-grade service at the lowest possible cost."

"Before I graduated from college I had interviews with twenty-eight companies. Out of all these I chose the telephone company because it had the most to offer in the way of interesting work, training and opportunity. This certainly turned out to be true. In a growing business your opportunities grow, too."

Dick Walsh graduated in 1953 from the University of Delaware with a B.S. in Mechanical Engineering. There are many interesting career opportunities in other Bell Telephone Companies, and in Bell Telephone Laboratories, Western Electric and Sandia Corporation. Your placement officer can give you more information about all Bell System Companies.

Inside Baseball

(Continued from Page 8)

of Sigma Nu fraternity and a business major. His whiplike motion and cat-like reactions have drawn raves from Delaware fans. Tony will definitely be one of Delaware's better athletes during the next two years.

Infielder, Tom Walls, "Tiger" listed as the number one reserve for Coach Raymond Walls, has filled in both in the infield and in the outfield. Tom is a business major from Wilmington High who also is a member of the varsity basketball squad.

Infielder — Fran "Count" Bisio. This former Salesianum athlete is another capable reserve. Fran hit over .350 last summer in the New Castle Semi Pro league, and keeps the starting lineup on their toes. Bisio is also a business major and a

member of Phi Kappa Tau fraternity.

Infielder — Larry Catuzzi. Larry was forced to report late this spring due to spring football drills, but has already made his presence known. Catuzzi ranks with DeLucas as the leading candidate for the quarterback slot. Larry is definitely a big man in the future baseball plans for the Hens. He is a member of the Theta Chi fraternity.

Thorp's Rifle Arm

Catcher — Joe Thorp. The main difference in the play of the Hens this season may be attributed to the fine play of this big catcher. Joe, a Newark High athlete, is perhaps the most improved player on the squad this year. At the present moment, he is leading the squad in hitting and in two separate games has produced the game's winning hit. The main feature of Thorp's play is his rifle-like arm which draws ohs and ahs from Delaware fans. Ten men have attempted to steal on Joe this year, and seven have been nabbed. Joe, an engineering major, has the material to go places in pro-baseball.

Catcher — Earl Alger. Earl is a sophomore business major from Hershey High, who has

the tough job of being behind red hot Joe Thorp. Earl is a member of Sigma Nu fraternity and the varsity football team.

Outfielder — Greer McMasters. Greer was one of the starting outfielders on last year's freshman team. A three sport athlete at A. I. duPont High, Greer batted over .450 in his senior year.

Outfielder — Bill Green. Bill is another boy whose progress has been hampered by spring football drills. Bill is a right handed hitter who is keeping the outfielders hustling.

Commencement Invitations Ready

The official university commencement invitations will be available for distribution to degree candidates during the period May 14-19. Candidates for a Bachelors Degree who are currently enrolled at the university will receive their invitations in the campus mail. Other candidates for a Bachelors Degree will receive their invitations in the mail.

Candidates for advanced degrees will obtain their invitations from the Office of the Graduate School.

Blue Hen Tennis Coach Roy Rylander Offers Choice Hints For Enthusiasts

To get the most out of tennis a player needs a sound game. The easiest way to develop a sound game is through sound instruction. Coach Roy Rylander, Blue Hen tennis mentor, points out.

It pays to take lessons, Coach Rylander says, because of the great satisfaction to be derived from the knowledge that you are playing tennis the right way. Once a beginning player has mastered the fundamentals with the help of an expert teacher, he can carry on alone.

There is virtually no limit to the improvement possible for the youngster or adult beginner at this fascinating sport, Coach Rylander continues. If a player has a soundly functioning service first, for example, he can go on to develop a kicking or a twist second service. He may have a natural "backhand approach" to the game, in which case he can work to develop his forehand—which will respond to improvement efforts very quickly if the player has

a sound approach to the shot. Another player may hit his ground shots but need work on handling volleys and overheads. Here again good coaching is of inestimable value.

Young professional Gene Garrett, a former tournament player, says that a player who has received basic instruction in the fundamentals of tennis has a better psychological approach to the game.

"Lessons give a starting player a sense of security," Garrett insists. "I know from experience. I was not taught the basic strokes before I started to play. It took me years to rid myself of the feeling of uncertainty about my strokes."

"Tennis lessons impart self confidence and eliminate a groping, tentative approach to the game."

Famed coach Mercer Beasley emphasizes psychological factors in conducting his large tennis clinics among the boy clubs of New York.

"In addition to teaching the fundamental strokes, I teach the fundamental approach to the game," Beasley declares. "I point out that it is smart tactics not to lose your temper and not to let your opponent see you upset."

Even experienced players who have many years of tennis behind them can be helped by their local pros, Coach Rylander adds.

LUCKIES RING THE BELL with college students all over the country! The reason: Luckies taste better. That's because they're made of fine tobacco—mild, naturally good-tasting tobacco that's **TOASTED** to taste better. Now check that Droodle above: Lucky-smoking midget in telephone booth. He may be short on stature, but he's mighty long on smoking enjoyment. Next time, ask for Luckies yourself. You'll say it's the best-tasting cigarette you ever smoked!

Movies

(Continued from Page 1)

The films which have been shown and which will be shown are selected by Mr. Godbey from the extensive lists sent to the university by distributors. His selections are sent to the SGA for approval and suggestions.

Mr. Godbey stated that plans for next year are not yet set because of a number of suggestions to revise the showings. One plan is to keep the program as it is with a different film on Saturday and Sunday evenings. Another plan is to have the same film shown on the two days.

Two films which are planned to be shown next year are "Man of Aran" and "Henry V."

Mr. Godbey has asked that anyone having suggestions for films to be shown next year see him at the University Extension Office, which is next to the Infirmary, or drop a note to him through campus mail.

The university has two scholarships which are now held by Kent McKinnon and Bob Dempsey, the official university senior and junior projectionists who are responsible for the showing of films.

May Day

(Continued from Page 1)

Fi Fi Dawson, Art and Posters. The program is given in coordination with the Department of Physical Education for Women and the Woman's Executive Committee. Beatrice P. Hartsorn, associate professor and chairman of the Department of Physical Education for Women; Maryann Waltz, assistant professor of Physical Education; Adrienne McNaughton, instructor of Physical Education and Barbara Rothacher, instructor of Physical Education, are the faculty advisors.

In case of rain, May day events will take place in the field house.

All three of the university's choral organizations will take part in a brief outdoor concert at 4 p. m. tomorrow, as part of the annual May celebration.

Both the Women's and the Men's Choruses and the A Cappella Choir will combine to form a singing group of 250 voices, under the direction of Mr. John R. King. Mr. King will also direct the band, which accompanies the choruses in their numbers.

the fraternities on campus should be interested in the idea if they want the fraternity system to remain at the University of Delaware.

Because of the poor representation at the meeting, no actual business was conducted and all was confined to discussion. The group selected May 22, however, as a date for a future meeting for alumni representatives only. At this date they intend to elect officers and to formulate a definite plan for activities of the Alumni Inter-Fraternity Council.

Inspection Board To Review ROTC Cadet Corps On May 15

The annual inspection of the ROTC Cadet Corps will be conducted on May 15, announced Dr. John A. Perkins, president of the university and Col. E. W.

Hiddleston, professor of military science and tactics.

The inspection board will consist of Lt. Col. Cornelius Coghill, Infantry, University of Richmond; Major Paul M. Fletcher, Infantry, Fork Union Military Academy; 1st Lt. Claude E. Eley, Jr., Corps of Engineers, Washington and Lee University; CWO Gardner E. Parker, Adjutant General Corps, Virginia State College.

The object of the inspection is to determine the standards of military training and administration maintained throughout the school year. Board members will observe both classroom instruction and the conduct of school of the soldier. In addition, they will administer practical tests in military science to each of the classes.

Highlighting the day's activities will be a review of the entire cadet corps on Frazier Field at 12:10 p. m., to which the members of the faculty and student body are invited.

Klussman To Head Modern Dancers

Virginia Klussman, was elected to the presidency of the Modern Dance Club last Tuesday.

Steffie Klahr, Jane Wollenweber and Linda Heivly were elected vice-president, treasurer and secretary, respectively. Lee Lee Hannold was chosen as chairman of the costumes committee and Karen Reath was chosen as her assistant. Joyce Mitchell is in charge of publicity.

Miss Klussman has been with the club for two years, and, although she had had no previous dancing lessons, has performed many solo parts in the club's shows.

Herschel Loomis asks:

What are my chances for advancement in a large company like Du Pont?

Peter J. Meshkoff joined Du Pont at the Jackson Laboratory in 1941, after obtaining a B.S.Ch.E. from the University of Detroit and an M.S. from the University of Michigan. He has had a wide range of Du Pont experience, from chemist in the Dye Works to chief supervisor and works engineer at several plants, with many opportunities to observe Du Pont personnel policies. Today Pete Meshkoff is works engineer at Du Pont's new Film Plant at Circleville, Ohio.

Herschel H. Loomis, Jr., will receive his B.S. degree in electrical engineering from Cornell University June 1957. Herschel is a member of the freshman and varsity rifle teams, an associate member of Octagon, a dramatic group, and belongs to Theta Chi Fraternity. Like many other students, he's making employment plans early.

Peter Meshkoff answers:

Your question is a natural one, Herschel—one we hear quite often. Du Pont is unquestionably a large company in total number of employees and in all its operations. But, actually, Du Pont is made up of ten independent departments, almost as if it were ten companies under one management. And it is a fundamental policy at Du Pont to promote from within and on merit only.

That produces many opportunities for new men, but in addition there are proportionately more promotions at Du Pont each year—by reason of expansion and retirement—than you would find in most smaller companies. I say "proportionately more" because Du Pont has grown at an average rate of seven per cent a year for the past 153 years—a record that few companies can match.

And Du Pont is still growing rapidly. Take your field, electrical engineering. A host of novel and challenging problems have to be faced, both in new construction and in maintenance. There are plants to design with features that have never been applied before; there are new equipment-control problems to work out, and new engineering processes to pioneer. So, to answer your question in a word, Herschel, I'd say your chances of promotion on merit are extremely good at Du Pont!

WANT TO KNOW MORE about the opportunities for growth touched on by Pete Meshkoff? Send for a free copy of "The Du Pont Company and the College Graduate," which discusses many of the employment policies and activities of Du Pont in detail. Write to E. I. du Pont de Nemours & Co. (Inc.), 2521 Nemours Building, Wilmington 98, Delaware.

DSTA To Install New Officers At Final Meeting Tuesday Night

Installation of officers and a Senior Farewell Banquet will be on the agenda at the final meeting of the Delaware Student Teacher's Association next Tuesday, at 6 p. m. in the west wing of Old College.

Preceding the banquet, at 5 p. m., elections will be held in Old College Lounge. The Senior Farewell Banquet is the first of its kind. Seniors and faculty members in the School of Education will receive complimentary tickets with printed invitations, and non-senior members of DSTA will receive invitations, but must remit \$2 for the meal. Non-members of DSTA in the Schools of Education and Arts and Sciences are cordially invited, but must also remit \$2 for the meal.

Those interested can obtain tickets by contacting Dorothy

Levy, Janet Culver, Connie Ellis, Loretta Baker, Evelyn Gilbert, Elaine Crittendon, Doug Roberts or Shirley Riley.

Friends Fellowship Elects New Heads

The Friends Fellowship group, at a meeting on May 1, elected Robert Stucklen to be group chairman for next year.

Other officers elected were Diane Sherman, secretary-treasurer and John Strong, University Religious Council representative.

Stucklen has been with the Friends Fellowship for two years and is currently the treasurer of Alpha Phi Omega service fraternity.

The Friends Fellowship is a Quaker organization, but its meetings are open to anyone interested in religious discussion. Meetings of the group are held every other Tuesday.

Future Teachers Tour Education, Campus Facilities

Future Teachers of America from the Henry C. Conrad School toured the University of Delaware campus on May 8 as a part of their program of preparation for careers in teaching.

The group was escorted on their visit by members of Alpha Phi Omega, national service fraternity, as the FTA girls visited the facilities of the school of education and got a brief glimpse of college life.

They were welcomed by Dr. William O. Penrose, Dean of the School of Education, in Allison Hall.

George H. Henry, associate professor of education at the university, addressed the group, describing in some detail the school of education and the program followed by education majors.

Following this, the Conrad group toured Allison Hall, Memorial Library, Mitchell Hall, Smyth Hall dormitory and other campus buildings.

Blue Hen

(Continued from Page 8)

It was not until he entered the service, however, that Thompson began to exhibit his potential talents as an athlete. While stationed in Virginia, he played basketball for the Fort Lee Travelers, one of the strongest service teams in the nation. Later, while in Hawaii, he high jumped his way into the United States Army Pacific Command championship with a leap of 6 feet 2 inches, better than his record at Delaware.

Also in Hawaii, he was a member of the Schofield Barracks Swimming Team, Schofield Barracks, incidentally, was the scene of the recent movie, "From Here To Eternity".

A sophomore at the University of Delaware, Thompson is a pre-med student majoring in biology. He was a member of the freshman tennis team last year, winning in three doubles matches and three singles. He gave up tennis, however, to concentrate his efforts solely on track.

Something unique in Thompson is his interest in art. It goes beyond mere interest, though, as he has followed it through with a few prizes. One of them was the state Poppy Poster Contest, sponsored by the American Legion. He won the contest in 1951 by designing a poster to advertise the poppy sale given annually by disabled veterans. He also won a window-display contest by painting a mural for a merchant in Dover.
