PRICE TEN CENTS

Set May 11th For Military Inspection

Parents And Friends Of Students
Invited To Attend Annual
Drill

The annual War Department inspection of the Reserve Officers Training Corps Unit at the University of Delaware will take place on Thursday, May eleventh, in Newark.

There is an undoubted universal appeal in martial music and marching men. Combined in a military manner, as they will be in this inspection, the appeal will be doubled. A bright Spring day, the Cadet Officers—brasses shining and leather glistening—lead their equally spic and span student Cadets upon the field. The band sounds adjutant's call and the inspection is under way. Each man does his level best and feels that the success of his individual Battery is solely dependent on him. This is an integral part of the "Esprit de Corps" so evident in all military units. Then, too, each man realizes that his mother and dad are proudly looking on and perhaps the "Girl Friend" is also there rooting for him. It is truly a sight well worth seeing, a sight that makes one swell with pride when these young men led by "Old Glory" pass in review.

The authorities of the University will be especially glad to have the parents and friends of the students present to witness the Review and Competitive Drill. All events of the

Engineering Education Advocates Here May 6

Convention To Be Held At Delaware To Include Trips To
Nearby Plants

On Saturday, May 6, at the University of Delaware, the Middle Atlantic Section of the Society for the promotion of Engineering Education, which includes members from all points from Troy, N. Y., to Baltimore, Md., will hold its annual meeting. For the morning there has been planned an inspection trip to the National Orchid Show, Longwood Gardens, Bellanca Aircraft Corporation, Conowingo Hydroelectric Plant and the Krebs Pigment and Color Corporation. Following this a return will be made to the University and luncheon will be served at the Commons. At 1:30 the members will convene at Wolf Hall where a "Welcome" address will be made by Dr. W. O. Sypherd, Hale Sutherland, Professor of Civil Engineering, Lehigh University, will talk on "The Humanities in Engineering Education"; Dr. J. S. Gould will address the audience on "The Engineer's Duty in an Economic World," and Mr. E. W. Loomis, Middle Atlantic District Manager, Westinghouse Electric and Manufacturing Company, will talk on "Selling Engineering."

From 4 to 6 p. m. there will be an opportunity to renew old acquaintances, make new ones and for an inspection of our various historic buildings and those more recently constructed. The Delaware Interscholastic Track Meet will be another interesting feature of the

(Continued on Page 6.)

Plans Completed For Delaware Interscholastics--32 Entries

New Fraternity Heads

The presidents of fraternity chapters at the University of Delaware for the year 1933-34 are as follows:

Kappa Alpha—George R. Pearce
Theta Chi—Frederick Morgan
Sigma Nu—George Thompson
Sigma Phi Epsilon—Harry Wilson
Phi Kappa Tau—Neal Welch
Sigma Tau Phi—Solomon Jasper

Child Actors To Have Parts In Doll's House

Last Minute Rush Expected For
Tickets For Season's Last
Production

For the first time in the history of dramatics here, actors who are not students at the University will take part in a major play. The actors are Mary Frances and James Anderson, daughter and son of Captain Anderson, and Patsy Gabriel, daughter of Doctor Gabriel, a member of the research staff of the University. As Nora's children they promise to be a highlight of the play.

Torvald has so realistically been playing his part in rehearsals as the selfish egotistical husband, that some of those who have seen his performance state that he had better not be seen around campus after the play.

For this production great pains have been taken to secure proper costumes, since the play takes place in that quaint period, the latter part of the nineteenth century. Some of the costumes will be of extraordinary beauty.

Although everyone on the campus has heard of Ibsen, and three-fourths of them have read him, this will be the first time in years that we have had an opportunity to see him interpreted on our own campus. There is nothing more interesting than to see something portrayed that one has read. Each has his own ideas on the interpretation.

(Continued on Page 6.)

Appropriations Cut As Yet Indefinite

So far as can be discerned, nothing definite has as yet been done concerning the proposed appropriations "cut" which is causing so much anxiety to the administration and students of Delaware College.

At present, the Director of the Budget is discussing the matter with the various heads of the departments. When it is definitely decided there, it will be turned over to the President, for his consideration. If the Senate does not reject this proposal within sixty days after the approval of the President, it becomes a law.

Dr. Hullihen has promised a definite statement of the entire affair as soon as any governmental action goes into effect.

Derelicts, Blue Keys To Tap New Men For Next Year

PLAN TOURS FOR PROSPECTIVE DEL. STUDENTS

Inter-Fraternity Relay Also
Feature Of Great Annual
Interest

Graduate Manager G. P. Doherty has completed preparations for the Delaware interscholastic track and field meet which will take place Saturday afternoon on Frazer Field. There has been entries made by 32 schools from four different states.

This year the meet will get under way at 11 o'clock when the field events for Class C will be run off. The time has been set earlier so that the meet will be completed earlier. Many of the teams have many miles to travel before they get home and "Doc" Doherty has seen fit to remedy this condition this year.

Collingswood High School, winner of Class A last year, is again entered in the scholastics. They are expected to bring another strong team to Newark next Saturday to defend their laurels. According to the calibre of the teams entered in Class A, they will have to travel at a fast clip to win the coveted title for the second year in succession.

The winner of Class B in the 1932 meet, Upper Darby, is not listed among those who will vie for this title. Vineland High School of New Jersey, will put a strong team on the field in order to garner this crown. They have won this event several times and they will again seek to carry the title across the river.

Claymont High School will again be seeking to capture the D. I. A. A. title which is equivalent to Class C. The boys from the upper nook of Delaware have formed the habit of winning track and field meets in which they are participating. They will probably face their strongest competition from Newark High School. The Newark boys have

(Continued on Page 2.)

GEORGE R. PEARCE, Jr.

G. Pearce President Of Student Council

Morgan, Lambert, Mannsberger
Other Officers For Next
Year

At the first meeting of the new Student Council, George R. (Nookey) Pearce was elected president of the Student Council on the first ballot. The choice was greeted with acclamation by the entire council. George was the secretary of the Student Council last year. Among his other activities he was vice-president and Prom chairman of the Junior Class and President of the Freshman Class and has been a member of the Student Council since his freshman year. He was recently chosen to head his fraternity, Kappa Alpha.

The new vice-president is Frederick (Pete) Morgan, head of Theta Chi House. Pete has always been a prominent member of his class and has belonged to the various class honorary societies.

Francis Lambert, also a Senior, the new secretary, is beginning his

(Continued on Page 6.)

Dean G. E. Dutton At National Meeting

On April 27, 28, and 29, Dean Dutton attended the annual meeting of the National Association of Deans of Colleges and Universities, held at Ohio State University.

All sections of the country were represented, there being deans of colleges from Maine to Texas present at this meeting. Several very important topics of real interest to the student were discussed, among them being Student Loans and Scholarships, The Place and Opportunity of the Fraternity in the Education of the Student, The Relations of the Depression to the College and University, and the "Chicago Plan as Compared to the Bucknell Plan." The former plan is one whereby the diploma is awarded on the basis of a comprehensive examination given to test the intellectual achievement of the candidate for graduation. The chief feature of the latter system is that the student must pass a comprehensive examination at the end of his sophomore year and another at the end of his senior year.

Promise 'Blue Hen' For Middle Of Month

Editor Vennum Hopes To Have
Book In Students' Hands
For May 17

According to latest reports from Robert Vennum, Editor of the "Blue Hen," that publication is expected to be in the hands of the students by May 17.

There will be two hundred and forty pages which will include one hundred and sixty individual pictures accompanied by personal write-ups.

A section which will no doubt interest the students is a feature called "Ho-Hum." It contains several humorous sketches, snapshot pictures, and the portraits of Miss Blue and Miss Gold.

A novel innovation is being introduced in the "Fraternalities" Section—each fraternity has four pages including a short historical sketch, and, in addition to the regular fraternity group picture, an informal picture portraying some phase of the fraternity life.

An effort has been made to make every page count—there are no "filler" pages. A wealth of material has been artistically "crammed" into the 240 pages.

Editor Vennum says: "I sincerely believe we have done the impossible and have produced a \$2,200 book which will compare favorably with larger universities' \$10,000 and \$15,000 books."

College Hr. Speaker Expounds New Theory

Mr. Kunkel Offers Evidence For
Hydraulic Construction
Of Pyramids

"The Hydraulic Theory of the Construction of the Pyramids," was the subject of Mr. Edward Kunkel at College Hour on Tuesday, May 2.

Mr. Kunkel was introduced by Dean Spencer, who gave a brief summary of the history of engineering.

The Pyramids were built years ago on the west bank of the Nile River. Cheops, the largest and most renowned, is composed of eighty-three million cubic feet of stone, is five hundred feet high, and weighs eight million tons.

Mr. Kunkel's interest was first aroused when he heard a lecture by Mr. Perry in which he told of a door weighing eighty tons. There are seven ways to lift weights and all can be easily eliminated because of impracticability except that of Hydraulics.

On studying the Pyramids Mr. Kunkel found traces of what may have been valves in the passageways and later, by using Physics, came to the conclusion that if the tunnels were constructed in any different way, the Hydraulics theory would not work. Water was pumped through the tunnels and compressed air helped raise its level, thus carrying the barges with stones up to the top level.

Clarence Rice made two announcements, one concerning the E-52 play, Ibsen's "Doll House," and the other concerning the proposed Glee Club.

EDITORIALS

"THE KING IS DEAD—LONG LIVE THE KING!"

Last Monday night one of the best presidents of the Student Council of this University turned over his office to a man who promises to eclipse, if possible, that distinguished record. "Pete" Rice is without a doubt one of the most efficient leaders we have ever had. Under him, Delaware has begun to assume a place of prominence in inter-collegiate student activities circles. His election as Middle States President of the National Students Federation of America was a signal honor not only for him personally, but also for us whom he represented. Delaware was further honored by having the above group hold its annual convention on our campus. The retiring Student Council took the Spring Frolic out of the rank of drunken brawls and raised it to a high plane as a dance of some merit.

In turning over the office to George Pearce, his successor, "Pete" said, "If I have accomplished anything at all during the past year, I have only scratched the surface of what it is necessary to do. It is up to you to go farther." We feel sure that we represent the entire student body of the University when we say—"Go to it George, we are behind you to the limit. We are quite willing to aid you in any matter in which you call upon us."

POLITICS

The election of a new Student Council President climaxed a series of events that have brought about a condition for which we had hoped but never expected to see. That is the elimination of fraternity politics in the campus elections. These results merely go to show what concerted action and desire for the right thing can do. It is in direct contrast to the situation that prevailed last year when every office was merely a plum in the politician's grab-bag.

Men of Delaware—we congratulate you!

SPRING FROLIC

The Student Council's annual Spring Frolic is once again in the good graces of the college. Last Friday night's affair was highly successful mainly because of the excellent behavior the attendants preserved throughout the entire dance. No one got drunk, there were no brawls, and all enjoyed themselves immensely.

The Student Council has more than vindicated its promise to hold an orderly dance. It has set a new standard which will be very hard to beat.

Things I Knew That You Didn't

That Yale and Princeton athletes do not wish to converse with you if you are not of their social caste—Ask Pohl.

That "Eva" Mansberger is the new Treasurer of Student Council and he says he's going to get all the fees next year, too, gonna' post a list—like pop—until you pay.

That Adolf Hitler is not a true German, he was born in Austria, and never went to school.

That our Editor, "Jeemie" Rosbrow flunked a test once in high school—that's nothing. Einstein flunked math once.

That Hitler is very proud of motion pictures and he often sees the same picture over three or four times. He attended a theatre in disguise at Berlin. Securing a seat

in the back of the theatre and commenced to enjoy the feature. The show over, he found a seat to his liking, near a big man. As the news flashes were shown on the screen the man commented to his newly acquired friend. A picture of Hitler came on the screen. Everyone stood up—but Hitler deliberated with himself and kept his seat. After the showing of the flash the big man sat down and said to the great Hitler, "You are the only one that hasn't risen to salute Hitler, that's the way we all feel, but we're all afraid of the old fool."

That no Interscholastic Dance will be held this year because all the money was used for the Spring Frolic.

Hey, Mug, those figures you bawled me about were for 1928.

PROFOGRAPHIES

NED BLISS ALLEN

Dr. Allen was born in Carbon-dale, Illinois, in 1899. He attended the schools of that place, after which he went to Phillips Academy at Andover, Massachusetts.

In 1922 he took his A. B. degree at Dartmouth.

During the academic year of 1922-23 he taught Spanish and French at Kentucky Military Institute, Lydon, Kentucky.

In 1923 Dr. Allen was appointed a Rhodes Scholar, and for the next three years he attended St. John's College, Oxford University, from which he received an A. B. degree with honors, in English language and literature. He also received his colors in track at St. John's.

After returning to America he became a reporter for the *Springfield Union*, a morning newspaper, in Springfield, Massachusetts. He also wrote several articles for magazines and other newspapers.

In 1927-28 Dr. Allen was an instructor in the English department of the University of Southern California. During the next two years he was an instructor in English at the University of Michigan. In 1931 he received a faculty fellowship at the same university and took his Ph. D. degree. Since then he has been Associate Professor of English at the University of Delaware.

A book by Dr. Allen entitled, "The Comedies of Dryden," will soon be published by the University of Michigan.

Dr. Allen is a member of the American Association of University Professors, the Shakespeare Association of America, the Kappa Kappa Kappa fraternity, and the Phi Beta Kappa honor fraternity.

Dr. Allen is married and has one daughter, Emily Willsey Allen.

CYRUS LAWRENCE DAY

Dr. Day was born in New York City in 1900. He secured his elementary education at the Short Hills School, Short Hills, New Jersey. From there he went to Phillips-Exeter Academy, Exeter, New Hampshire, where he was valedictorian of his class.

Then, after attending the Massachusetts Institute of Technology for two years, he went to Harvard College and obtained his B. S. degree in 1923.

Upon graduation from there he traveled in Canada and Europe for six months. After his return to this country Dr. Day held two business positions, first with the United States Rubber Company, and then with Cyrus J. Lawrence and Sons, a brokerage firm in New York City.

In 1925 he took his M. A. degree at Columbia University. During his work there Dr. Day was a special writer for the magazine "Time."

For the next two years he was an instructor, of English at the University of Texas. In 1930 he secured his Doctorate at Harvard University.

Dr. Day was then appointed a Frederick Sheldon Fellow in English and spent 1930-31 abroad in France and England, where he completed his work for a book, "The Songs of John Dryden," which was published by the Harvard University Press in 1932.

Dr. Day has published philological articles in the following periodicals: *The Publications of the Modern Language Association*, *The Review of English Studies*, *Modern Language Notes*, and *Modern Philology*.

Dr. Day is a member of the Modern Language Association of America, the American Association of University Professors, the Phi Sigma Kappa fraternity, and the Foreign Policy Association.

The Autopsy

Of all the title submitted for this column, the above was decided to be best. This title was submitted by George Markovitz, who will be awarded two tickets to "A Doll's House."

Coleman Cox, some years ago, said, "Even a woodpecker owes his success to the fact that he uses his head."

The recent lecture by the creator of "Old Bill" seems to have inspired P. Weirs on to even greater hairshute efforts. We have an old helmet you may have "Bill."

Miss Hartshorn's Gym ensemble turns us "Green" with envy.

The great rush of Spring brings our Hellenic tendencies out in an awful rash. With the stupendous two-ring circus still doing its daily act at Washington and the army of self-avowed economic experts offering a multitude of contradicting cures we realize that this is America and we're Americans. As M. O. N. says, "Hotsy Totsy—I'm a Nazi!"

With the new archery equipment purchased by the P. E. Department there should be no shortage of beaux at W. C. D.

Arnold Zweig's "Marie Antoinette" is beautifully written and well worth reading. Tiffany Thayer's "An American Girl" is the usual sex of one and half dozen of the other. Of the new tunes, "Hold Me" is our pet of the moment. "Out of the Blues," turned many a young lady's face red.

Here is one man who doesn't regard the "Reds" as the most dangerous element in our life. He is

Edward J. Tobin and he remarks: "A young couple, a bottle of moonshine and an automobile are the most dangerous quartet that can be concocted for the destruction of human society." How about the song—Ed?

Have you ever run across this: "We still accept, in theory at all events, the Mosaic conception of morality as a code of rigid and inflexible rules, arbitrarily ordained, and to be blindly obeyed." Have-lock Ellis is responsible for that truism.

The B-Taboo Chapter of the United Snakes announces a unique contest. To the committee responsible for that school function having the longest receiving line they will present an elaborately framed picture of Queen Victoria. The W. C. D. Junior Prom leads so far by six widths.

We hope that Mr. Kase's admonition to the effect that one should not bring one's little sister to "A Doll's House" does NOT apply to other people's little sisters.

The president of the B-Taboos on leaving a young lady's apartment in New York City around the neighborhood of 4.30 a. m. was heard to remark: "Thank God this isn't Newark—if it were I'd have to marry the girl."

Harrison Owen cracks thus and so: "Virtue is its own punishment."

The lower corner of the Campus is all agog over the annual recurrence of May Day. If you saw the recent Gym meet we might remark that you ain't seen nothing yet. Shall the prayer—"May Day rest in peace"—ever become a reality?

Tippecanoe McCully has originated a new step. He calls it the Elevator Dance—over in the corner and no steps. (Not original.)

Plans Completed For Interscholastics

(Continued from Page 1.)

been coming steadily forward in the track competition for several years and Claymont will have to hustle to keep atop their lofty perch. A. I. du Pont High School will also place a strong team in Class C.

Last year in this gala track meet, 21 records were broken. "Doc" Doherty thinks that this year, due to the fewer number of schools which have been entered, the competition will be more torrid. The admission this year will be only 40 cents, which is a considerable reduction from last year.

Smyrna High School
Rehoboth High School
Alexis I. du Pont High School

Honor Societies To Tap

Tapping for new Derelicts and Blue Keys will be held at 2.30 and 1.30 respectively. All Juniors are eligible for Derelicts and Sophomores for Blue Keys, so all members of both these classes are supposed to be on Frazer Field at the time of tapping.

Thirteen members of the Junior Class will be tapped for Derelicts and fifteen Sophomores for Blue Keys. To be tapped for either of these societies is considered among the highest honors to be obtained at Delaware.

Council Sponsors Tours

Another feature of this year's Interscholastics Day will be a series of tours of the various buildings and points of interest of the school. These tours will be guided by members of the Student Council and will include any of the visiting high school students who care to go along.

Invitations have been extended to all schools expecting to attend to have their students join in on the tours and a further invitation will be extended to those at the meet by means of the amplifiers on the field. They will commence at about three o'clock or three-fifteen, D. S. T., and will last from three-quarters of an hour to an hour, leaving plenty of time for all to see the Interfraternity Relay.

Inter-Frat Relay Feature

Following the inter-scholastic track and field meet, the six fraternities will again run a one-half mile relay for the coveted loving cup donated annually by the Inter-Fraternity Council.

With a victory in this event, many other set-backs can be forgotten. Theta Chi won the event last year and will be out to retain their title. Members of the fraternities can be seen daily working out on Frazer Field to get in shape for this great event.

Don't miss the production of "A Doll's House" by E-52 Players in Mitchell Hall on May 4.

SPORTS

RALPH C. McMULLEN, Editor

Blue Hen Golfers
Win From Temple 6-0

Entire Team Breaks 80

Monday afternoon the University of Delaware golf team defeated the Temple University team on the Newark course, 6-0. The entire Delaware team scored rounds under 80, which is quite a record for a four-men team.

"Tedd" Wilson, playing in number 2 position, turned in the best score of the day, carding a fine 76. Both Wilson and Benton won by a 6 and 5 count. This marked the third victory in 4 starts for the Blue and Gold team.

The score:

Twosomes

Tipka, Delaware, defeated Auerbach, Temple, 3 and 2.

Wilson, Delaware, defeated Boyd, Temple, 6 and 5.

Benton, Delaware, defeated Barcliffe, Temple, 6 and 5.

Pié, Delaware, defeated Pritchard, Temple, 4 and 3.

Foursomes

Tipka and Wilson, Delaware, defeated Auerbach and Boyd, Temple, 4 and 3.

Benton and Pié, Delaware, defeated Barcliffe and Pritchard, 4 and 3.

Haverford Wins

Easy Net Match

Losing only the second doubles match, the Haverford College tennis team had little difficulty in swamping the Delaware University team, 8 to 1, in their match played at Haverford.

Dugdale, Haverford, was extended to three sets in downing Lawrence, 3-6, 6-1, 8-6, while Monsarrat flashed good form in taking a hard match from Babcock, Delaware, 8-6, 6-4.

In the doubles matches, Hogenauer and Jones lost the only encounter for Haverford when Brown and Heppe rallied to win in three sets, 5-7, 6-4, 7-5.

Singles—Hogenauer, Haverford, defeated Brown, Delaware, 6-0, 6-4; Monsarrat, Haverford, defeated Babcock, Delaware, 8-6, 6-4; Lentz, Haverford, defeated Heppe, Delaware, 6-3, 6-2; Menhard, Haverford, defeated Walsh, Delaware, 6-1, 6-1; Green, Haverford, defeated Nichols, Delaware, 8-6, 8-6; Dugdale, Haverford, defeated Lawrence, Delaware, 3-6, 6-1, 8-6.

Doubles—Monsarrat and Lentz, Haverford, defeated Babcock and Walsh, Delaware, 5-7, 6-4, 7-5; Brown and Heppe, Delaware, defeated Hogenauer and Jones, Haverford, 7-5, 3-6, 7-5; Memhard and Green, Haverford, defeated Nichols and Lawrence, Delaware, 6-3, 5-7, 6-4.

Fine Cakes and Candles
Dinner Novelties for All OccasionsTHIS
AND
THAT

R. C. M.

There are many people in the University who are continually knocking and criticizing the ability of the Blue Hen athletic teams. These words are being written for them alone. As close as these people come to seeing the teams of their school is through the newspapers. At the baseball game last week against W. C. S. T. College, the only noise audible was the chatter of the players and the trains squeaking along the rails behind Frazer Field. I think conditions are becoming pretty bad when over 200 members of a student body sit through an entire 9 innings and never murmur a word of encouragement to the players. Mayb a cheer leader is needed. I hope it won't be necessary to advertise for one? ? ?

One of the most outstanding athletic events of the Spring term will take place Saturday when the Delaware Inter-Scholastics will be held on Frazer Field. Over 400 athletes will vie for laurels in the various events listed on the program. Upper Darby, winner of Class B last year, is the only team who will not defend their championship in the 1933 event. Due mainly to the stimulus brought on by the Olympic games last year, 21 records were broken in 1932. Many records will probably be shattered this year but it is hardly conceivable that the record breaking performances will match that of last year.

This afternoon the Blue Hen tennis team will seek their first victory of the season when they face the strong St. Joe team on the home courts. The first match of the season was dropped to Haverford last Saturday by an 8-1 count. Nearly all the set-backs handed Captain Heppe and his mates were by close scores. It is hoped that the point balance will be reversed to favor the Delaware courtmen this afternoon. Coach Jones will probably shake-up his varsity line-up this afternoon in order to get the best possible men in the positions where they can do the most good for the team.

Last Saturday afternoon the Blue Hen track team accomplished a feat which has never been equalled by any athletes from the U. of D. Lynch, Lindstrand, Lambert, and Kelk finished second in two different one-mile relays. Although these men deserve equalized credit for their feats, Lambert should receive special mention. Lambert was scheduled to run only in the dash relay, but when Cavalli was injured, he substituted for him and helped the Blue and Gold representatives finish in the "place" position in each of the one-mile relays. It is very unfortunate that Lynch, Kelk, and Lindstrand will be graduated this June. Unfortunate from the standpoint of the track team. I feel sure that if these men had another crack at the two events in which they finished second this year, they would win handily.

For two weeks a vote will be taken to select the men as listed below. If you desire to vote you may cut the clipping and fill in the names as you see fit. I have my own ideas but I am prejudiced.

Outstanding athlete	(1)	(2)
Outstanding captain for 1932-33	(1)	(2)
Most conscientious athlete	(1)	(2)
Best football player	(1)	(2)
Best basketball player	(1)	(2)
Best baseball player	(1)	(2)
Best trackman	(1)	(2)
Best golf player	(1)	(2)
Best tennis player	(1)	(2)
Most competent coach	(1)	(2)

Note: Place choices in box 255 before May 15.

Wake Forest Downs Delaware Nine, 9-6

Nickle Suffers From Several Miscues By Teammates

Wake Forest won their second game of the season over the Blue Hen team yesterday afternoon on Frazer Field, 9-6. Sam Nickle on the mound for the Doherty men suffered from the support given him by his teammates. The Southerners had defeated the Mud Hens

earlier in the season by a 23-7 score.

The Southerners scored all their runs in two innings, the second and eighth. In the second inning Wake Forest scored 4 runs on 1 hit. Sam Nickle pitched good ball throughout and deserved to win.

Frank Foard played a smart and

DELAWARE RELAY TEAMS
GARNER TWO PLACES AT RELAYS

Best Showing Ever Made By Blue Hens

"Charley" Rogers' trackmen traveled to the Penn Relays last Friday and Saturday and were rewarded for their efforts with two 2nd places in the events in which they ran. They narrowly missed gaining a third 2nd place when Cavalli, Delaware ace, strained a muscle in his leg and had to stop running.

The first event in which they ran was the 440-yard sprint relay for the championship of the United States. It was in this event that Cavalli was injured. Running in the same heat with Penn, Georgetown, and West Chester Teachers College, Cavalli was given the baton by Lambert with only a yard separating him from the Penn man who was leading. It was then the mishap occurred and deprived the Blue and Gold representatives

of their golden opportunity. The Penn team won the event and it is almost certain that the boys from Newark would have been in the money if they had stayed in the race.

With Lynch, Linstrand, Lambert, and Kelk running in that order, the Blue Hen 1 mile relay team finished second to Dickenson in the 1 mile relay championship of the Middle Atlantic States, Class B. St. Joseph's of Philadelphia, finished 3rd in this event.

In another mile relay event with the same men running, Delaware finished 2nd. This time Rider College nosed out the Delaware boys with Johns Hopkins, of Baltimore, finishing in third place.

"Stretch" Pohl was entered in the pole vault, but he could not combat with the record breaking performance of 14 ft. 1 1/2 inches.

heads-up game of ball against the team from North Carolina. He had 8 putouts in center field with many of them being nothing short of spectacular.

"Ed" Thompson and "Irish" O'Connell led the offense for the home team, while Earp and Hicks led the attack for the visitors.

Another aid to business
 ...a Teletypewriter "Central"

Working out new ways to serve the communication needs of the public is an objective always in the minds of Bell System men. The new Teletypewriter Exchange Service—typing by wire—is an example.

For some years Private Wire Teletypewriter Service has speeded communication between separated units of many large organizations. Telephone men— anxious to make this service more widely useful— have now established Teletypewriter central offices, through which any subscriber to the service may be connected directly with any other subscriber. Both can type back and forth—their messages being reproduced simultaneously at each point.

This new service provides fast, dependable communication and does for the written word what telephone service does for the spoken word. It is one more Bell System contribution to business efficiency.

BELL SYSTEM

TAKE A TRIP HOME BY TELEPHONE
 ... TONIGHT AT HALF-PAST EIGHT!

Set May 11 For Military Inspection

(Continued from Page 1.)

afternoon are open to the public and it is hoped that citizens of Delaware who are interested will attend. As far as can be foreseen the ceremony will be held on the Campus between Wolf Hall and Mitchell Hall, beginning at about 1:30 p. m. All events including the competitive drill should not occupy more than two hours, leaving ample time for an easy drive home from any part of the State.

Recent advices received by the Military Department of the College from Headquarters Second Corps Area located at Governors Island, New York, indicate that the inspection this year will be conducted by Major Meade Wildrick, C. A. C., and Major Henry C. McLean, Inf., of the Regular Army, representing Major General Nolan, the Corps Area Commander.

During the morning hours all classes in Military Science will be visited and the standard of instruction and progress made in these subjects will be rated by the inspecting officers.

The afternoon will start off with a review in honor of the Officers representing the Corps Area Com-

mander in which the entire Cadet Battalion, including the Band, will participate. This will be a most impressive ceremony and will present a strikingly colorful picture with the National Colors, the Cadet Battalion Colors, and the red of the Artillery Guidons sharply outlined against the green of the parade-ground.

Following the review the inspecting officers will rate the various organizations on their appearance and on the up-keep of arms and equipment. Every member of the Cadet Battalion is determined that the War Department rating of "Excellent" now held by the unit shall be retained.

The most exciting event of the day, from the viewpoint of the students, will be the competitive drill for the determining of the "best battery" and "best platoon." A saber is presented to the officers commanding the winning units. Rivalry this year between the three lettered batteries of the battalion, batteries A, B, and C has been exceedingly keen. Rated at each weekly drill by the three regular army instructors assigned to the University, these batteries have fought out a neck and neck race up to the present and are entering the home stretch bunched for a sensational finish. The final and decisive

drill on May eleventh will be rated by three disinterested judges, one an officer from the National Guard, one from the Reserve Corps and one from the Regular Army. It is certain to be a close fight and each outfit is working to put over a perfect drill to win the favor of the judges and thrill their respective rooters among the spectators.

Outside Our Campus

By NAD

We hope that the President, when sending Mrs. Nellie Taylor Ross her appointment as Director of the Mint, was careful to make it clear to her that the mint is not a place where mint juleps are concocted.

The farm population of the U. S., it is announced, has increased by a million in the last year. The increase will be greater in the future. Men are getting out of the bread lines. They are fleeing from the "American Standard of Living." Into the cities are congregating the inept, the least competent, the afraid and the lazy. The "American Standard of Living" is a fine

thing, no doubt, but it is come to be out of tune with a full belly. Yet we see headlines: "Rioting farmers checked by troops."

Communists of Chicago welcomed the "bomby" days of spring back with appropriate gestures on May 1.

London is said to feel that Premier MacDonald won a victory in Washington, but why talk of victory when good friends get together to decide what course they should pursue.

Eight weeks in the White House were rounded out at noon on Saturday, April 29, by President Franklin D. Roosevelt. On April 30, people throughout the nation honored him in an observance of "President's Day," with expressions of gratitude for what he has accomplished and prayers that he may have the strength to accomplish his program.

"To travel hopefully is a better thing than to arrive." — Robert Louis Stevenson. How he would have loved to ride in dirigibles!

Manuel L. Quezon, President of the Philippine Senate, who arrived a week ago with ten delegates to discuss the Hayes-Cuttin independ-

ence bill for the islands passed last January by Congress over the veto of President Hoover, sailed on Saturday for Manila. His mission fruitless, Quezon stated before leaving that he will return to seek better independence terms. If Roosevelt is in the same state of mind then as he is now, Quezon may as well stay in the islands and see a few good baseball games with his fare.

What all the financial gardeners are looking for this spring is a fertilizer that will make two greenbacks grow where one grew before.

Prof. DeBonis Gives Reading

Regular attendants of the Faculty readings at the Hilarium on Monday evenings were given a real treat when Professor A. V. De Bonis read selections from the works of Sherwood Anderson and James Branch Cobell.

In contrasting the two authors in his introductory remarks, Mr. De Bonis made the observation "that Anderson resents the cruel world while Cobell tends to disregard it." This was proven when parts of Anderson's *Winesburg, Ohio* and Cobell's *Jurgen* were read.

Something to Say

not just saying something

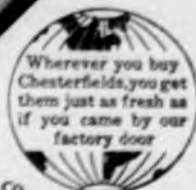

A friend of CHESTERFIELD writes us of a salesman who had "something to say":

"I dropped into a little tobacco shop, and when I asked for a pack of Chesterfields the man smiled and told me I was the seventh customer without a break to ask for Chesterfields. 'Smoker after smoker,' he said, 'tells me that Chesterfields click . . . I sell five times as many Chesterfields as I did a while back.'"

Yes, there's something to say about Chesterfields and it takes just six words to say it—"They're mild and yet they satisfy."

they Satisfy

Kappa Alphas At Convention

Seven members of the local chapter of Kappa Alpha attended the joint installation of officers for the coming fraternal year, which was held at the University of Maryland last week-end. Five chapters were represented, those from Delaware, Maryland, Johns Hopkins, St. John's, and George Washington Universities.

A very enjoyable program was offered by the Maryland chapter. In addition to their Spring Formal, which was held Friday evening, they also had a tea dance Saturday afternoon. This was followed by a

banquet, the fraternal work completing the day.

The members who attended from Delaware were C. S. Simmons, A. C. Tweed, A. Rogers, R. J. Ellis, F. K. McRight, G. R. Pearce, and H. W. Kleitz. George Pearce was installed as the new No. 1, Frank McRight at No. 2, and Howard Kleitz as No. 3. The graduating officers are respectively, Charles Simmons, Alex Tweed and Adair Rogers. Rogers was inducted into the Kappa Alpha Court of Honor, one of the highest fraternal honors bestowed.

A play which may shatter some of your cherished mid-Victorian ideals, "A Doll's House," by E-52 Players.

second year as class representative for the non-fraternity group. He has been a stellar track performer and is still remembered as the

hero of last year's Sophomore-Freshman football game.

Walter "Eva" Mansberger, new treasurer, is also president of the Junior Class and beginning his second year as representative for the Sigma Nu Fraternity. He is also Athletic Council Representative from the Junior Class.

Do You Need A Job?

Selling a small household appliance? Immediate profits and an income next fall if you want it! Write—The Raresee Company, General P. O. Box 61, New York City.

ILLUSION:

Josie, the lovely trapeze artist, stands upon a small platform. At the will of the magician she leaps *twenty feet* into the air to reach her trapeze. She uses no ropes, no ladder! A phenomenal leap for a woman . . . or a man!

EXPLANATION:

Josie didn't jump . . . she was *sprung*! The twenty-foot leap is not dependent on Josie's ability, but on a powerful spring mechanism hidden beneath the stage which propels the artist upward through the air. The force is so violent that the lady wears a light steel jacket which protects her from injury as she starts her astonishing leap.

It's FUN TO BE FOOLED ...IT'S MORE FUN TO KNOW

Magic has its place . . . but not in cigarette advertising.

Consider the illusion that there is a mysterious way to give cigarettes a superior "flavor."

EXPLANATION: Cigarette flavor can be controlled by adding artificial flavorings. By blending. And by the quality of tobaccos used.

Cheap, raw tobaccos can be "built up" or "fortified" by the lavish use of artificial flavorings.

Such magic, however, seldom holds the audience. Your taste finally tells you the truth.

The cigarette flavor that never stales, never varies, never loses its fresh appeal, comes from mild, ripe, fragrant, *more expensive* tobaccos . . . blended to bring out the full, round flavor of each type of leaf. It's the quality of the tobacco that counts!

It is a fact, well known by leaf tobacco experts, that Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.

Because Camel actually pays millions more every year for choice tobaccos, you find in Camels an appealing mildness, a better flavor.

And Camels taste cooler because the welded Humidor Pack of three-ply, MOISTURE-PROOF cellophane keeps them fresh.
