NEWARK, DELAWARE, WEDNESDAY, SEPTEMBER 26, 1928

NUMBER 35

## 80 AIRPLANES TO COMPETE IN BELLANCA MEET

Madison, Conn., in, Miss  
Carter Expected to Thrilling  
Race and Performance Jumps  
4000 ft. in 15

At least 40 biplanes of various types, all equipped with the latest in aviation, will be on hand for the Bellanca meet at the Madison airport, Belton, Pa., on Saturday. The meet is being held in honor of the late John H. Bellanca, who was one of the greatest aviation engineers of the world. The meet is being held at the Madison airport, Belton, Pa., on Saturday. The meet is being held in honor of the late John H. Bellanca, who was one of the greatest aviation engineers of the world.

The first three days of the Newark Post's "Help Yourself Travel Club" finds a number of contestants girding their armor of pep and enthusiasm about them in preparation for a great competition for the Buick Sedan, the Durant Sedan, the household and kitchen furnishings, the scholarships, the wonderful trips and tours or the CASH which will be given by the Post as a reward for six short weeks of work. Somebody is going to earn more than two hundred dollars a week during the next six weeks, and several others are going to earn more money than they have ever earned in their lives in so short a time. To the ones who show the most determination and resourcefulness will, of course, go the richest reward. There is no patented process of success, it is simply a matter of well planned and aggressive work.

## CLOSING WEEK OF TENT SERVICES

Will Monitor For Evan  
at On Sunday; Dr.  
Carter Presents Motto  
To Friends

## Florida Asks \$12,000,000 Aid

Reports Generous Response But More  
Funds Urgently Needed; Report  
of Florida Conditions

Florida needs more of the aid that has been so generously given to it by the people of the United States. The report of the Florida conditions shows that the state is in a desperate financial straits. The state has been hit by a severe drought, and the crops have failed. The people are suffering from lack of food and clothing. The state has no money to pay for the relief of the people. The state has no money to pay for the relief of the people. The state has no money to pay for the relief of the people.

## NO CREDIT CARDS IN POST CAMPAIGN

It is often customary to introduce what is known as "credit cards" into the closing weeks of subscription campaigns. These cards give votes or credits to contestants in the subscription competition, if they are signed for amounts of advertising or job work to be done by the newspaper conducting the campaign.

The Post feels that this might afford an unfair advantage to some contestants over others, and there will be introduced into The Post Campaign no credit cards, or any other such scheme for getting credits for anything but subscriptions. The only object of this campaign is to increase the circulation and the goodwill of The Newark Post, and every precaution will be taken to see that every contestant will have a fair and equal chance to win the premiums.

## GOVERN SELF ADDRESS THEME

Professor Myers Speaks To-  
day At University Convo-  
cation; 7 Newark Boys  
Enter Delaware

"Personal Government" is the subject of the convocation address being delivered this afternoon by Professor William Starr Myers, professor of government and political science at Princeton University, at the convocation exercises of the University of Delaware, being held this afternoon on the campus in front of old college. The program of the exercises is as follows:

Academic procession; invocation and reading of the Scripture by the Rev. H. Everett Hallman, pastor of Newark Presbyterian Church; announcement by President Hullahen; address by Prof. William Starr Myers; conferring of degrees, benediction by the Rev. H. Everett Hallman.

Seven degrees will be conferred, three on students of Delaware College and four to students of the Women's College. Degrees of bachelor of arts will be conferred on Theodore R. Fleetwood and Robert H. Richards, of Delaware College. Fleetwood completed required work during the summer and Richards spent his senior year in France with the Delaware Foreign Study Group, returning too late for graduation. The degree of Master of Science will be conferred on Marshall McDowell Manns.

The four Women's College students who are to receive degrees and who also finished some required work during the summer will be as follows: Bachelor of arts—Margaret Burke, of Newark; Nellie Pauline Lawton, of Wilmington; and Marion Louise Kenney, of Newark; bachelor of science, Mrs. Jane Warner Grissinger, of Roselle, N. J.

Freshman Week at both colleges closed Sunday and the college year opened Monday with a joint enrollment of over 700. Seven Newark boys entered the Delaware College in the freshman class. They are: Herman Handloff, Marion Hopkins, Wilmer Riley, James L. Crooks, Thomas Manns, Jr., Paul F. Pie, Jr., and Charles H. Boyce.

The freshman and sophomore classes of Delaware College were introduced to each other, Monday night, in front of Harter Hall. The Student (Continued on Page 4.)

## ASK NEW BIDS ON POSTOFFICE

Supplementary Specifications  
Drawn; New Bids Will  
Be Opened October 4;  
Original Bids All Over  
Appropriation

Last week Postmaster William H. Evans received notice from the Post-office Department at Washington, that supplementary bids had been asked on the new Federal Postoffice building to be erected at Newark, and that these bids would be opened October 4.

Original bids on this building were opened several weeks ago and all of the bids exceeded the appropriation of \$60,000 which had been allotted for this building by Congress. The lowest bidder was A. H. Alcott and Company, of Wilmington, who bid \$60,370. Other bids ranged up to \$75,000. It is understood that the Alcott Company offered to revise their bid and make it come within the appropriation, but this the Post-office Department refused to do.

It is understood that the supplementary specifications incorporate five minor changes that will reduce the cost of building, but will make no noticeable difference in the construction or appearance of the structure. One of the changes is said to be a substitution of concrete for masonry in the cellar stairway. The building will be erected on the government owned lot at the corner of Main and Center streets. It was first feared that the high bidding would delay the building of the new Postoffice seriously, but it is now believed that construction will start in the very near future.

## REORGANIZE 3 SCHOOL GRADES

Changes Make Possible Definite Instruction In Various Subjects; Dr. Cooke Addresses Schools

In order to take care of increased enrollment, grades 2, 7 and 8 of the Newark Public Schools were reorganized this week, so that no teacher would have more than a normal number of pupils to teach. Grade 2 was divided into three sections, making less than 35 pupils under each teacher, and grades 7 and 8 were changed from 5 to 6 sections.

Miss Elsie White, Miss Mary Vaughan and Mrs. Mamie Palmer are now teaching grade 2. The division of pupils was made alphabetically.

This reorganization makes it possible to give a definite place in the daily work to penmanship, spelling, music, art and physical education. The teaching of these subjects was only incidental before the conditions were changed.

Dr. George Cooke, the Methodist evangelist, addressed the High School assemblies, this morning, on "Constructive Citizenship in Public Education." Dr. Cooke and Professor Brinser gave a trombone duet, and Mr. Harold Vignuelle sang. Mr. Samuel Ettelson played Mr. Vignuelle's accompaniment.

Today Mr. Thomas Malin's classes in agriculture are attending the Wilmington Fair.

On Friday the Newark Schools will hold appropriate exercises in commemoration of the life and service of Frances E. Willard, first president of the W. C. T. U. Dorothy Wheelless, of the class of '29, will make an address suitable to the occasion.

Yesterday Mr. D. H. Petry, principal of the Millboro Schools, and four of his teachers visited the Newark Schools. The teachers were: Mrs. Joseph L. Chandler, Mrs. Adelia Lingo, Mrs. Gardner Ellis and Mrs. Lottie McCabe. The Millboro schools will open soon in their new building.

NOTICE  
A meeting of the Nursing Nurse's Association has been called for next Monday night at 7 o'clock, sharp.

## WILL ABANDON POMEROY TRAIN

Protests Lodged Against Dis-  
continuing Newark To Pom-  
ero Passenger Service; Plan  
To Take Train Off Saturday

Despite vigorous protest from patrons along the line, and from the Newark Chamber of Commerce and the Council of Newark, passenger service on the Newark and Pomero branch of the Pennsylvania Railroad will probably be abandoned this Saturday. It was announced last week by the railroad company that this service would be discontinued when the fall schedule became effective, which is this Sunday.

While this service will be discontinued from lack of patronage, it will work a great hardship on farmers, and business men near Newark, who have depended on the road for the shipment of milk and express. When the report got out that passenger service on the line would be abandoned, a delegation of business men and farmers called on the local Chamber of Commerce and asked it to intercede with the railroad company. Both the Chamber of Commerce and the Council of Newark lodged protests, but it is believed that the service will be stopped at the end of the week.

Passenger business on this road started to go down with the advent of the automobile and it had dropped to such an extent two years ago that the railroad took off the regular steam operated train that had been used for many years and put on one small combination car operated by gasoline. It is understood that even this has been operated at a loss.

In a number of respects this is one of the most unique divisions, not only of the Pennsylvania system, but of any road in the country. It runs from Newark, Del., to Pomero, Pa., which is on the main division of the Pennsylvania, a distance of about 26 miles from Newark.

Railroad men who have worked on this division claim that it has more bridges than any other 26 miles of railroad in the country. Over the 26 miles there are 65 bridges which is considerable over two bridges to every mile of track.

It runs through a beautiful rolling country and curves in and out the entire 26 miles, there probably not being one mile of straight track on the entire division. Near Green Lawn, Pa., station just above Avondale the track makes almost as perfect a horse shoe as the famous horse shoe bend near Altoona. The stations (Continued on Page 12.)

## BUYS NEW HEARSE

Robert T. Jones has just had delivered a new limousine hearse from Sayers and Scovill, of Cincinnati, who specialize in the manufacture of hearses and ambulances. The new machine has the latest developments in luxury and appointments, and with it as added equipment, Mr. Jones stands out as the best equipped undertaker in the state. Last year he completed and opened his new Funeral Home, which provides for every need in the event of death. Since the Home has been opened, a large number of services have been held in it.

## A. G. WILKINSON TALKS TO CIVIC ASSOCIATION

Arthur G. Wilkinson, business administrator for the University of Delaware and president of the Wilmington Kiwanis Club, gave an address before the Wilmington Civic Association, at their meeting, held in the du Pont-Biltmore, this morning. Mr. Wilkinson's subject was, "Wilmington, the City in Which to Buy."

## AMBULANCE CALL

Mrs. J. W. Parrish was taken to Baltimore, Friday, to the home of a relative, in the Newark ambulance. Charles Hopkins had the run.

## RADIO AUDITION

Only one contestant, Kennedy Fell, has entered the Newark radio audition for competition in the State and National auditions sponsored by the Atwater Kent Radio Foundation. Any other contestants who wish to enter the Newark trials must register their names this week with Miss Nell Wilson, chairman of the local committee, as the local audition must be held by October 1.

## CENTURY CLUB TO MEET

The first fall meeting of the Newark New Century Club will be held on Monday, October 1, at 2:30 p. m.

## WINS CUP

The Alpha Gamma Chapter of the Phi Kappa Tau fraternity was awarded the silver loving cup for having the highest rating of any chapter in the fraternity.

## NUMBER OF WORKERS BEGIN BATTLE FOR RICH AWARDS OFFERED BY NEWARK POST

Liberal Pay Assured to All Workers Who Enter and Remain  
Active Until the End of the Campaign November 3rd

NOTHING TO LOSE—ALL TO GAIN  
There is No Red Tape. It Cost Nothing to Enter and the  
Winner of First Award Will Receive \$215.00 Per Week

The first three days of the Newark Post's "Help Yourself Travel Club" finds a number of contestants girding their armor of pep and enthusiasm about them in preparation for a great competition for the Buick Sedan, the Durant Sedan, the household and kitchen furnishings, the scholarships, the wonderful trips and tours or the CASH which will be given by the Post as a reward for six short weeks of work. Somebody is going to earn more than two hundred dollars a week during the next six weeks, and several others are going to earn more money than they have ever earned in their lives in so short a time. To the ones who show the most determination and resourcefulness will, of course, go the richest reward. There is no patented process of success, it is simply a matter of well planned and aggressive work.

## DAHLIA SHOW NEXT WEEK

Amateur Growers Will Dis-  
play At Century Club Tues-  
day and Wednesday

The third annual exhibition of the Newark Dahlia Association will be held in the Newark New Century Club next Tuesday and Wednesday, October 2 and 3. Sponsoring the show is the Civic Committee of the New Century Club, whose cooperation has made it possible to provide adequate space for staging the show in a most attractive manner.

The show is to be strictly an amateur affair for residents of Newark and immediate vicinity, and there will be no professional exhibitors. Every local lover of dahlias is invited to exhibit blooms from their gardens, whether they have one or a hundred to enter. No entry fee will be charged and the exhibition will also be free and open to the public from 6 p. m. to 10 p. m. Tuesday and all days until 10 p. m. Wednesday.

For the first time a professional judge and experienced grower of dahlias has been secured to judge the show, and Mr. Smith T. Curry, of West Chester, will place the awards on Tuesday afternoon.

The show committee announces that tables and bottles will be ready to receive exhibits from 6 p. m. to 10 p. m. Monday, October 1, and from 9:30 a. m. to 11:30 a. m., Tuesday, October 2. Bottles will be provided for all single bloom entries, but exhibitors must furnish containers for all vase and basket entries. No unsightly jars or tin cans will be acceptable.

The following Divisions and classifications for entries have been decided upon by the committee:

- Division A—Single Blooms with 15 inch stems.
  - Class 1—Best Decorative Dahlia
  - Class 2—Best Peony Dahlia
  - Class 3—Best Hybrid Cactus Dahlia
  - Class 4—Best Cactus Dahlia
  - Class 5—Best Show or Ball Dahlia
  - Class 6—Best Undissected Dahlia
  - Class 7—Best Pompon Dahlia

(Continued on Page 12.)

## Better Come In Today !!

At the time of going to press ten persons in Newark and surrounding community have handed in an entry blank and started on the road to earning an automobile, a wonderful trip, a scholarship, or one of the other attractive awards which The Newark Post will give for work during the next six weeks.

These workers are going to be mighty happy on the evening of November 3rd, but there is plenty of room for many more workers in all parts of the territory, and there will be plenty of cheer for them also.

There is plenty of time, but there is none to lose. Better get busy now or you will be sorry later.

## Entrants to Date

Names	Entry Credits Only
Mrs. J. Leslie Ford, Cooch's Bridge	5,000
Miss Kathleen Boyce, Stanton	5,000
Mrs. H. A. Phelps, Christiana	5,000
Price Jackson, Newark	5,000
Mrs. Sarah Tryens, Newark	5,000
Miss Mae F. Malcom, Newark	5,000
Jacob M. Riley, Newark	5,000
Mrs. Florence L. Strahorn, Newark	5,000
Mrs. Orville Little, Newark	5,000
Lynam A. Reed, Newark	5,000

## MODEL KITCHEN SHOWN AT FAIR

Mrs. Daugherty Shows Proper Arrangement In County Agent Booth; Uses Of Apple

"If there is any one time of the year when a comfortable, convenient kitchen is more important than at another, it is in the winter time when so many extra duties are crowded into this room of the average home," says Mrs. Kate Henley Daugherty, County Home Demonstration Agent.

With this thought in mind, Mrs. Daugherty has arranged an exhibit of a convenient kitchen at the Wilmington Fair being held at Elsmere, this week. Arrangement to save energy and time by the proper grouping of equipment and utensils as well as correct working heights, are some of the main features of this exhibit.

"The table, sink, grouping of equipment, stove and kitchen cabinet or cupboard represent the essential pieces of equipment necessary for every kitchen," continues Mrs. Daugherty. These pieces form the nucleus of the working centers necessary in the preparation, serving and clearing away of food.

"The home maker may have chosen the right kind of equipment and have all the necessary utensils, but unless these utensils are grouped in proper relation to the main working centers many unnecessary steps will be taken in the ordinary routine of a day's work."

"Fortunately the old idea that it is desirable to put all equipment away in the pantry or into closed cupboards, out of sight is fast changing."

"Utensils that are used every day are now hung on easily accessible hooks or open shelves near the work center, while such utensils as are used only occasionally are put into closed cupboards or drawers. The paring knife and vegetable brush are placed near the sink, while the bread board and knife find quarters near the bread box where they are always used."

While almost every home maker's ideas may differ somewhat as to the best grouping of utensils, the Home Demonstration Agent offers a few suggestions that may serve to help the home maker to save steps.

The cabinet or work table should be near the range. A small table on the opposite side of the range will be of great help in saving steps.

Group bowls, pans and food materials and small utensils near the cabinet or work table.

The dish closet or cupboard should be near the dining room, if possible. A sink with a drain board, table or wheel tray on the right for stacking the dishes and a drain board on the left for draining the dishes will make the task less irksome.

While many steps can be saved by the proper grouping of equipment there is still another way in which the home maker may save herself and that is by sitting down to do much of her work. A high stool in the kitchen will prove indispensable when once the home maker has learned to use it. A comfortable chair, too, in an attractive corner of that kitchen with the daily paper, a magazine or an interesting book near by will invite the home maker to rest and read while waiting those few minutes for something to finish cooking or for the family to come to a meal.

Mrs. Daugherty will be in her exhibit booth at the fair every day during the week, and will be glad to have the home maker's stop and discuss their problems.

**Uses Of Dropped Apples**  
In order to utilize to good advantage some of the many apples that fall to the ground during the recent severe winds, Mrs. Daugherty offers the following recipes.

**Apple Butter**—10 lbs. apples, 3 qts. of 1 gal. of sweet cider, 1 to 1½ lbs. of sugar, 1½ tablespoons cinnamon, ½ tablespoons cloves.

Apple butter is an excellent substitute for the sweeter jams, jellies, and preserves. It is an excellent spread for bread and is one of the cheapest products used for this purpose.

The apples should be washed and cut into halves or quarters. The blossom end should be removed, also any large bruises and any worms or decayed parts. Place the sweet cider in a suitable size cooking vessel and add the prepared fruit from ten pounds of apples. Cover the kettle, bring to boiling, and boil until the fruit is tender. Remove the cover and continue to boil with occasional stirring to prevent scorching.

When the fruit pulps begin to thicken somewhat and most of the color has disappeared from the peel of the fruit, remove the kettle from the fire and rub the pulps through a fine sieve. Use a bottle or fruit jar to force the fruit through.

Return the fine pulp to the kettle, bring to boiling and boil rapidly until the hot pulps will round up on the spoon. Almost constant stirring is necessary to prevent scorching.

Weight out 1 to 1½ pounds of sugar, mix with this 1½ tablespoons of ground cinnamon and ½ tablespoon of ground cloves. Add the mixture of sugar and spices and continue to boil rapidly until the hot butter will again round up on the spoon or until it becomes of such consistency that when a small spoonful is placed on a cold plate there will be no free liquid separate from the pulp.

Fill hot into clean dry jars. Add just rubber and cover. Bring the top

clamp into the notch in the cover. Set the jars in a water bath and process at boiling for 3 to 5 minutes. Remove the jars, press down the side clamp and set aside to cool.

**Note.**—Sugar and spices may be varied to suit the taste.

**Apple Sauce**—10 lbs. apples, 1 qt. water, 1½ to 2 lbs. sugar.  
To prepare a sauce of rough or uneven texture proceed as follows: Peel, core, and slice the fruit, removing all bruises and decay, if present. Drop the sliced fruit into a vessel of weak brine (three tablespoons of salt per gallon of water). When the fruit is all prepared remove from brine and rinse in cold water. Mix sugar and water, bring to boiling and add the prepared apples. Cover the kettle and bring to boiling. Boil moderately for about 8 minutes or until fruits are soft. Stir a few times during latter part of cooking period.

Remove from the fire and allow to cool for several minutes. The froth on the surface may be skimmed off or stirred in.

**Note.**—The sugar may be varied to suit the taste. When the sauce has cooled for five or ten minutes it may be filled into clean dry jars. The jars are filled full, partially sealed and processed in a water bath for 3 to 5 minutes.

If a fine sauce is preferred the cooked fruit may be passed through a fine sieve or colander just before filling into jars.

Ten pounds of good grade fruit should give an average yield of about seven or eight pints of sauce.

**Jelly from the Peel and Cores**—To the peel and cores from ten pounds of apples add 5 pints of water. Cover the kettle and boil slowly for 20 minutes. Strain off all free run juice through one layer of cheese cloth. Return the peel and cores to the kettle, add 5 pints of water and boil slowly for 20 minutes. Strain off free run juice and press or squeeze the pulp to secure all the juice.

Mix the two extractions and strain through four layers of cheese cloth. Measure the juice. There should be about 4 quarts.

Concentrate this clarified juice to about one-half its volume by rapid boiling. Add sugar at the rate of one pound for each quart of extracted juice. Boil rapidly to jelly test, i. e., the last few drops of hot syrup poured from a spoon will form a sheet along the edge of the spoon.

Strain the finished jelly through a layer of cheese cloth into a vessel suitable for pouring. Fill at once into clean dry glasses, filling them to within one-fourth inch of the top.

When jelly has set paraffin, cover and store, or paraffin can be poured on while jelly is still hot.

**Apple Paste**—Prepare apple pulp as for making apple butter, by cooking the apples and putting them through a sieve. The pulp should be thick. Measure it and to each cup of pulp add ¼ c. sugar and 1 tbsp. white corn syrup. Cook the mixture rapidly until thick and clear, stirring to prevent scorching. Grease a plate slightly with oil or any unsalted fat. Turn on the plate and when a film has dried over the top, turn the paste onto a cloth covered wire rack and dry it. When sufficiently dry, that is, no longer sticky to the touch, lay it on a piece of oiled paper and roll it in a small roll. Store the paste in a tight container in a cool dry place. The paste may be made by combining three parts apples with one part other fruit such as pears, plums, cherries, peaches.

**Suggestions for Using the Paste**  
Cut the paste in narrow strips, or small squares, and roll them in granulated sugar. Roll the paste as tightly as possible and cut in thin slices like a cinnamon roll.

**Ribbon Paste**—Put a layer of green paste over a red or light colored paste. Press together, then cut in thin slices or small squares. Three layers of different colored paste may be used successfully.

**Paste Cream**—Cut small circles from colored paste and place a circle between vanilla flavored fondant wafers.

**Paste Bon Bons**—Dip small squares of paste in melted fondant and dry them on waxed paper.

**Paste with Nuts**—Roll small squares of paste in finely chopped nuts or shredded cocoanut.

**Mint Chips**—Mint chips may be made by adding mint flavoring and green coloring to plain apple paste. When the paste is dry, cut it in small pieces, roll it in sugar, and dry it for a few hours. To obtain the best green color use apples having as light color as possible.

**Candied Apples**—2 c. sugar, ¼ c. white corn syrup 1 c. water.

The small amount of syrup prevents crystallization. Cook the syrup 3 minutes. Add the fruit, being careful not to crowd it in the kettle. Cook the fruit rapidly until it is clear. Lift it onto a plate to drain. When the syrup has drained off, place the fruit on a rack and dry it until it is no longer sticky. Pack the fruit between waxed paper and place it in a tin box or a glass jar.

**Variations**—Medium sized red apples may be cored and cut in slices ¼ inch thick. Do not pare them, as the skin adds color. Larger apples pared, cored and sliced have much the appearance of pineapple. A delicious confection is made by using pineapple juice for half of the liquid in making the syrup. Apples cut in sections and candied may be tinted any color. The sections may then be rolled in sugar or cut in thin slices or strips.

**Apple Balls**—Pare the apple and with a vegetable ball cutter form small balls and follow the directions for making candied apples. The syr-

## IN THE CHURCHES

### Methodist Episcopal Church

Reverend D. W. Jacobs, Pastor

10:00 a. m., Sunday School.

11:00 a. m., Morning service.

2:30 p. m., Afternoon service.

7:00 p. m., Evening service.

Sunday School to be held in the church. All other meetings will be held in the evangelistic tent, with Dr. Geo. W. Cooke in charge.

During the week, services held every evening with the exception of Monday, at 7:00 o'clock.

Cottage prayer meetings held each morning in the respective homes.

All services standard time.

### Presbyterian Church

Reverend H. E. Hallman, Pastor

Sunday, September 30, Rally Day

for the Sunday School at 9:45 a. m.

11:00 a. m., Morning service.

6:45 p. m., Christian Endeavor.

7:30 p. m., Evening service.

All services standard time.

# OBERLY BRICK PRODUCTION INCREASED 12,000 DAILY

Contract for supplying about 600,000 brick for the new John Palmer, Jr. school, in South Wilmington, has been awarded the Oberly Brick Company, of Wilmington, and deliveries have already been started. During the past week, a carload of 20,000 bricks was sent to Seaford, where a school is now being completed. This shipment marked the last of an order for 150,000 bricks. The local concern has also received the contract for furnishing Colonial brick on a fraternity house, now being erected in Newark. Deliveries will be started within two weeks, when the foundation work will have been completed.

This season has proven to be exceptionally fine. Only two weeks ago, it was found necessary to increase the capacity of the plant by 12,000 bricks daily. This is at the rate of about 3,600,000 annually. Prospects are that the increased production, which has meant the taking on of additional men, will be maintained until the first of the year, at the least.

## BUDGET ESTIMATES

The Security Trust Company of Wilmington offers the following estimates, merely as a guide to be used in making your trial weekly budget estimate. Of course, the estimate will have to be modified according to the individual or family requirements.

Weekly Income	\$30-\$50	\$50-\$75	\$75-\$100
Food	24%	22%	18%
Clothing	11%	11%	11%
Rent, B. & L. Repairs	23%	23%	23%
Laundry, Cleaners	3%	3%	4%
Fuel, Light, Telephone	6%	6%	6%
Taxes, Interest	2%	2%	2%
Furnishings	2%	3%	5%
Health	3%	4%	4%
Automobile	6%	6%	6%
Amusements, Radio	3%	3%	3%
Dues, Donations	2%	2%	2%
Life Insurance, Savings	10%	10%	10%
Miscellaneous—Barber, Shoe Repairs, Etc.	3%	3%	3%
Education, Books, Study	2%	2%	3%

Total 100% 100% 100%  
Within the past few years the budgeting system, national, state, municipal, industrial, social, religious, and educational, always produces the same effect, stabilization and control. Spend your income on the budget plan, work out a schedule, using the above as your start. Open a bank account, write checks for everything and it will help you keep your records.

## BATTERY EACH 3.6 SECONDS

Tuesday, September 11th, was the biggest production day in the history of Prest-O-Lite, says Ted Kreuger of Kreuger's Battery Service, 1305 French street, Wilmington. The number of batteries produced shattered all former Prest-O-Lite records for one day's production. Here are some facts about this record-smasher:

1. On the basis of the eight-hour day, one battery was completed every 3.6 seconds.
2. Over 300,000 pounds of lead was used in the construction of the batteries produced.
3. A parade of cars equipped with the batteries produced in this one day would be over 20 miles long.
4. Over 7 tons of acid were used in batteries shipped "wet."

## NEW DURANT CARS

Last week Durant Motors, Inc., announced new models of the Durant Four and Durant "60." This latter, replacing the Silver Anniversary model of the Durant "55." These cars are improved throughout over the former models; having new advanced body lines, brilliant body colors, more roomy body interiors, and as in all Durant cars, perfect balance and unrivalled comfort and performance.

These new models for the first time make available to the purchasers of an inexpensive car, a car which has a body that is rattle-proof and squeak-proof. It is no longer necessary to feel that in buying an inexpensive car, you are getting a body that sounds like a menagerie, for the new model Durant, both Four's and "60's" have bodies constructed on the same principle as that of the finest built car in America, the Locomobile, another Durant product.

The second prize in The Post's "Help Yourself Travel Club" campaign is one of the new Durant Four 2-door Sedan models. The winner may choose whatever color combination is desired.

Four hundred and four reels of motion pictures have been sent to several thousand lepers in the Culion Leprosy Colony in the Philippines by the Motion Picture Producers and Distributors of America. This is a wonderful gift to these unfortunates, who are now seeing for the first time much of the outside world.

Persecution has not crushed the Church; power has not beaten it back; time has not abated its force; and, what is most wonderful of all, the abuses and treasons of its friends have not shaken its stability.—Bushnell.

# NEW HEATER REDUCES COAL COST NEARLY 50%

The possibilities of heating with coal has been developed slowly and continued to improve with the modern appliances. Large size coal has always been used for domestic heating because there was no known way of burning the smaller sizes. The smaller sizes have been accumulating in the mining regions for 70 years until there now exists an enormous surplus of this kind of coal. In addition to this the breaking down of the larger sizes produce 18 per cent of the small size coal and thus, it is impossible to make large size coal without chipping. These chips when separated, produce buckwheat, rice and barley coal.

The mining companies and combustion engineers throughout the world have experimented for years with mechanical apparatus for burning this small size surplus coal and only recently developed a satisfactory machine. This machine, called The Electric Furnace Man, has created admiration and comment wherever it has been demonstrated. It has been called a low pressure gas producer as it converts the coal gas into an inflammable slate, which it burns. It takes small rice or buckwheat coal and introduces it into a special burner from the bottom where the coal becomes preheated and releases the volatile gases, which when properly mixed with the required amount of air acts very much like a carburetor of an automobile, giving a perfect form of combustion.

This is a big improvement over old methods of burning coal as all previous methods allowed the majority of gases to escape out the chimney unburned. Due to improper combustion immense quantities of unburned coal was thrown out in the ashes.

These machines are distributed throughout this district by the J. V. Dean Company, whose showrooms are at 609 Orange street, Wilmington, where the machine can be seen in operation.

Several machines have been installed in Newark and the purchasers have reported enthusiastically in regard to the economy, safety, and efficiency of the machine.

HENRY T. BUSH

Mr. Bush is President of the Bush Line, of the Farmers' Bank of Wilmington, of the Peninsula Auto Express, and a member of the Rotary Club.

He is the son of the late Mr. and Mrs. Walter D. Bush and has been a life-long resident of the vicinity of Wilmington. He attended Friends School, learning there to take a

# WHAT THE ELECTRIC FURNACE MAN DOES

It costs much less to buy, install and operate than other automatic heating appliances. It is a time, money and labor-saving device, electrically operated and is easily installed in your present furnace, whether it is hot air, steam, vapor or hot water boiler.

Performs the work ordinarily done by the furnace man—puts coal on the fire—keeps the fire burning—deposits the ashes in a can outside the furnace. And it does it more efficiently by giving COMPLETE COMBUSTION of the coal burned.

## It Is Clean, Quiet and Safe

When you purchase an Electric Furnace Man you are making an investment paying from 10% to 50%, as it reduces heating costs by this amount.

See the  
Electric Furnace Man

clerical position with the Harlan and Hollingsworth Company. Three years later he became connected with the Bush Company, with which he served in various capacities and was elected president in 1918.

It was through the active interest of Mr. Bush that the Bush Line Truck Service through the Peninsula was inaugurated and which has become such a prominent feature in solving the transportation problems of the farmers of this State.

Mr. Bush has a wide circle of friends and is regarded as one of the most progressive young business men of his city.

## JAS. E. CHEFFINS JOINS OLDSMOBILE FORCES

The sales force of the Hammond Motors Company, Thirty-seventh and Market streets, Wilmington agents for Oldsmobile cars, has been augmented by James E. Cheffins, well known automobile salesman of this district. Mr. Cheffins comes to the Hammond Motors Company from the Union Park Garage, for which concern he worked several years. Only last year, he sold sixty new cars, as well as a large number of used cars,

establishing quite a record.

Mr. Cheffins, who has been in the automobile selling game for the past five years, is well known throughout the city. He is an active member of the Knights of Pythias and the D. O. K. K., as well as being a Past Sachem in the Improved Order of Red Men.

Business at the Hammond Motors agency is exceptionally good, and cars are being sold as fast as they are received. This month alone is seeing the sale of more cars than any month since last February. And this,

in spite of the fact that each month has been a record-breaker. Used cars are in big demand, and are meeting with ready sale, according to H. L. Dinsmore, sales-manager.

## Give All You Can

The present appeal of the Red Cross for funds and clothing to alleviate the almost unbelievable suffering of the storm victims in Florida and Porto Rico, is probably the most urgent and vital call for help that this organization has ever sounded in times of peace. The reports that come from Florida and the stricken island of Porto Rico are almost untellable in their frightfulness. The ravished survivors of this disaster of nature cannot help themselves, and it is only through the aid of the American Red Cross that they are kept from perishing.

Money and supplies have poured into the Red Cross headquarters, but the demands are so enormous that it hardly suffices for the rescue work from day to day. More money and more clothing is needed at once to save American lives and the lives of those under our protection. The local Red Cross chapter urgently appeals to everyone to contribute all they possibly can. Send your donation to either Mrs. Ernest Wright or to Miss Jane Maxwell for immediate forwarding to the Delaware headquarters.

## DELAWARE 4-H MEMBERS WIN HONORS AT VAIL

Robert Dennison Wins Blue Ribbon  
In Potato Judging

The twelve Delaware 4-H Club members who spent last week at Camp Vail at the Eastern States Exposition, Springfield, Mass., returned Saturday night on their special car over the P. R. R., and if one could judge by their enthusiasm and happy faces, they owned the world.

Robert Dennison, of Hockessin, brought back the coveted blue ribbon for first honors in potato judging. Lyndon Caulk of Woodside landed a second place in dairy judging against the crack 4-H judges of the East. Robert Maull, of Lewes, placed second in corn judging, and Irene Tarr, of Seaford, and Madge Shockley, of Woodside, won ribbons in the girls' classes. With nearly 200 of the champion 4-H members of the Eastern States in competition, it is significant that nearly half of the Delaware group placed.

On Friday the Delaware girls and boys prepared and served a four-course dinner for eight prominent guests of the Exposition, including the Commissioner of Agriculture of Massachusetts and Mrs. Milton Danziger, wife of the Assistant General Manager of the Exposition. This meal was planned under the direction of Miss Anne B. Moore, County Agent of Sussex county.

Six members of the group attended daily classes under John Bradford of the Playground and Recreation Association of America, and came home prepared to assist club groups in program planning and community recreation problems. Several hours each day were spent in studying the agricultural and home making exhibits on the grounds.

A. D. Cobb, State Leader of County Agents, planned the details of the trip and acted as Director of Demonstrations for the camp and Marshall of all camp parades. George M. Worlow, County Club Agent of New Castle county, assisted Mr. Cobb and acted as assistant in the Dairy Judging contests.

Camp Vail is the goal of all Delaware Club members and much of the present success of 4-H Club work in Delaware is due to the inspiration and training gained by the hundreds of boys and girls who have won these trips during the last nine years.

## LEONA TRYENS SUFFERS SEVERE LEG FRACTURE

Leona Tryens, 12-year-old daughter of Mr. and Mrs. Leon Tryens, of Kells avenue, suffered a serious compound fracture of her left leg yesterday when an automobile struck the front wheel of her bicycle, tangling her in her wheel and dragging her along the street. After emergency treatment at the Flower Hospital, the little girl was taken to the Physicians and Surgeons Hospital, Wilmington. The motorist who struck, left without giving his name, but his number was taken and he is being traced.

According to the story of the child and of persons who were eye-witnesses of the accident, Leona was standing astraddle of her wheel in the driveway next to Sheaffer's paint shop, on Main street. Part of the front wheel of the bicycle was standing in the gutter. Leona says that she saw the car that struck her coming, but turned her head to answer the call of a little friend and at that moment she was struck. Witnesses say that the driver of the car which struck her was looking across the street and in swerving to avoid another car ran into the gutter and struck the little girl's wheel.

The man who struck her stopped, got out but did not go to the girl, or has not as yet visited the

girl's parents. His number was taken, and it is said he is a man by the name of Smith from Brack-Ex.

Lynard Reed, Manager of the Crook store, ran across the street and picked the girl up and hailing a car took her to the Flower Hospital. She was later taken to the Physicians and Surgeons Hospital, where she is now confined.

## TWO DRUNKS

On Saturday George Lamney was arrested by Chief of Police Keeley and brought before Magistrate Thompson, charged with being drunk. As this was his second offense within a short period, his fine was \$10 and costs.

On Sunday, George Robinson was arraigned before Magistrate Thompson and fined \$5 for drunkenness. He was arrested by Constable Wideman.

## MANY SPEEDERS FINED

The State Highway Police made a large haul of speeders on Friday and Saturday, all of whom paid the minimum fine of \$25 and costs. On Friday they were just hurrying through. On Saturday most of them were late for the races.

On Friday Magistrate Thompson imposed fines on the following: Otto L. Park, Troy, Alabama, arrested by Officer Knecht; M. O. Houston, New York, arrested by Officer Carpenter; Claude Jagers, Trenton, N. J., arrested by Officer Carpenter; Henry Dreyer, New York, arrested by Officer Boyer.

On Saturday the following contributed: Miss Juanita Eagle, Philadelphia, arrested by Officer Boyer; Abraham Linsk, arrested by Officer Knecht; Paul Sullivan, Germantown, Morris Silverman and Max Goettner, both of Philadelphia, all three arrested by Officer Workman; Jacob Koffenburger, Wilmington, and Jacob Fine, Philadelphia, both overhauled by Officer Carpenter.

On Sunday Constable Wideman arrested Joseph Davis, of Coatesville, for not coming to a stop at a boulevard stop sign. He was fined \$5 and costs by Magistrate Thompson.

## Govern Self Address Theme

(Continued from Page 1.)

Council organized a series of events to avert a possible impromptu rush and the two classes split even on four contests. The sophes won a tug-of-war and a jousting contest, while the frosh gained the honors in a four fight and a rush. The only extemporaneous part of the evening was furnished by a basket of tomatoes, which was distributed with force throughout the crowd.

The list of Freshmen at Delaware College, their courses and residence follows:

Arts and Science—Richard Harrison Barnes, Frederick Deakne Bender, Jr., Benjamin Brodinsky, Edward Joseph Buckley, Gus Spiros Caras, Benjamin Cohen, Carmelo Joseph Coletta, William Ward Donohoe, Martin Goldberg, George Wilson Hammond, Samuel Cherry Hanby, Emanuel Handler, Edward Rowder Hansel, Richard Zechman Hill, Morris Samuel Horowitz, Harvey Osmond Hufnagel, Samuel Doraakan Kety, William Ferdinand Kraemer, Henry Darwin Murray, Isadore Nathans, Edward Omenn, William Griffith Ott, Harry R. Parker, Samuel Reitzes, Paul Raymond Sharp, William Howard Shellady, Harold Piao Sortman, Gerald MacDonough Stradley, Walter Campion Violi, Harry Eugene Walter, John Chapman Ward, Frank Alexander Webb, Jr., David Herbert Willer and Richard Wirt Willis, all of Wilmington.

Herman Handloff, Marion Hopkins, and Wilmer Riley, of Newark; William Rusling Batten and John Abner Waddington, of Salem, N. J.; Henry

Alfred Blomquist, of Richardson Park; James Dawson Gaulk, of St. Michael's, Md.; Samuel Guy Cox, of Landenberg, Pa.; Mark Orr Fagan, of Wildwood, N. J.; Francis Bryson Gebhart, of New Castle; Leonard Joseph Hampson, of Odessa; William Robinson Hazzard, Jr., of Claymont; John Nicholas Heesters, of Oxford, Pa.; Charles Warren Hocker, of Ocean View; Russell Matthew Hudson, of Clarksville; Van Steel Jackson, of Bala-Cynwyd, Pa.; Walter Hutchinson Lee, of Townsend; Robert Carlton Moore, of Millsboro; Sidney Jack Rosenblatt, of Trenton, N. J.; Paul Bliss Smith, of Maryland; John Kenton Speel, of Lowell, Mass.; Albert James Urian, of Smyrna; John Henry Warrington, of Selbyville.

Electrical Engineering—Solomon L. Blum, Harry Wilkins Orth, John Cranston Phillips and Gregory Anthony Sazoda, of Wilmington; Karl Utz and James Emory Willey, Jr., of Seaford; Ralph Walters Beach, of Delmar; Lynard Andrew Byam, of Lowell, Mass.; Eugene Reybold Cain, of Marshallton; Arthur Groom Craig, of Newport; John Griffith Ellison, of Kirkwood; Roger William Fulling, of Philadelphia; Raymond Edward Koppie, of Harbeson; Charles Franklin McVaugh, of Hockessin; Francis Morgan Newham, of Mountain Lakes, N. J.; Herbert Owen Wardell, of Rose Hill; Isaac Fisher Warren, Jr., of Ellendale; Ernest Weldon, Jr., of Middletown; Robert Lee Wright, Jr., of Vienna, Md.

Chemical Engineering—Charles Anthony Coghlan, Robert Bernard Gihney, Fred Fisher Homan, Charles Franklin Jackson, John James Pettigrew and Herbert Ward Townsend, of Wilmington; James Lasher Crooks, Thomas Manns, Jr., and Paul Fleming Pie, Jr., of Newark; Robert M. Chesney, of Paulsboro, N. J.; Charles George Pusey, of Seaford; Daniel Rogers, of New Castle; Garvice Carroll Sligh, of Elkton, Md.

Civil Engineering—Willard Paul Krapf, Lloyd Hamlin Lewis, Edward Powell Smith and Sidney Davis Walker, of Wilmington; Charles Harvey Boyce, of Newark; Edward Newton Conway, of Seaford; Emerson Romer Sparks, of Norristown, Pa.; Corwin Paul Vansant, of Wildwood, N. J.

Mechanical Engineering—William Anthony Corrigan, of Wilmington; Ignatius Taylor Cooper, Jr., of Camden, Del.; John Willard Jester, of Baltimore, Md.; Charles Joseph McCarthy, of Salem, N. J.; Marshall McCully, of Glenolden, Pa.; L. Claughton Rouner, of Waynesboro, Pa., and Albury Knight Tunnell, of Seaford.

Engineering, unclassified—Ralph Edward Von Kleck, of Lansdowne, Pa. Agriculture—Walter Lumb Churchman and Benjamin Charles Deputy, of Wilmington; William Raymond Acton, of Swedesboro, N. J.; Earl Pitt Felt, of Emporium, Pa.; Charles Edward McCauley, of Bridgeville; John Burgess McVaugh, of Hockessin; Ralph Stevens Obier, of Oak Grove; Samuel Morris Sloan, of Angola, and Preston Coleman Townsend, of Selbyville.

## MR. KELLOGG ON BACKBITING

The whispering campaign is being widely discussed. The attitude of candidates and voters toward the "whisperers" varies widely. Some feel that scurrilous attacks should be fought with their own fire; some that they should be ignored as unworthy of notice, and others that their effect can only be to enlist public sympathy on the side of the intended victim.

A story concerning Secretary Kellogg's position in the matter comes, circuitously, from the August number of a French magazine. Lectures pour Tous. When himself a candidate for election, Mr. Kellogg was urged to respond in kind to defamatory attacks. He replied to his advisers with this story:

In a small village word went round that a mad dog was running loose. Villagers took to their houses, frightened. A sudden tumult at a crossroads broke out when an old woman was bitten by a stray dog. The dog was captured and proved to be mad. "He is really mad?" asked the old woman.

"Certainly."  
"Then I, too, shall go mad!"  
"There is no doubt of it."  
"Quick, then, a pencil and a bit of paper."

"You wish to make your last will and testament?"  
"No," said the old woman, sarcastically, "no, indeed. I want to make a list of the people whom I ought to bite before I die."—N. Y. Times.

"Clothes may make a man, but they sometimes undo his tailor."

## Closing Week of Tent Services

(Continued from Page 1.)

services. Sunday School in the morning at 10 o'clock in the church. Preaching in the tent at 11, 2 and 7 o'clock.

The business men's meeting at 11 o'clock standard time on Wednesday, Thursday and Friday. Services will be held in the M. E. Church on East Main street at 1:30 p. m., standard time, on Wednesday, Thursday and Friday.

The expense of the campaign will be met by voluntary offerings at the services. A freewill offering at the various services at the tent next Sunday will go to Dr. Cooke. Dr. Cooke receives no salary during the campaign and none of the collections incident to the expenses of the campaign are paid to him. He only receives a freewill offering on the last Sunday.

Last night Dr. Cooke visited the Aetna Hose, Hook and Ladder Company and presented it with a motto in appreciation of the support of the Firemen during the Gospel Campaign.

## 80 Airplanes To Compete In Bellanca Meet

(Continued from Page 1.)

will be \$1.00, which entitles the holder to unlimited parking, and grand stand 50c. The committee has ruled that children under twelve years of age must be accompanied by parents.

The Pennsylvania Railroad has put into effect a special fare for a round trip from all Del-Mar-Va Peninsula points to Wilmington, tickets good on October 5, 6, 7. These rates are also good from Washington to Philadelphia and all intermediate points.

Included among the noted aviators who have been invited and are expected to attend are Colonel Charles A. Lindbergh, Clarence D. Chamberlin, and Amelia Earhart. Government officials include Secretary of War, Dwight F. Davis; Secretary of Navy, Curtis D. Wilbur; Postmaster General, Harry S. New; Secretary of Commerce, William F. Whiting.

The races will be run over a five-mile course with the start and finish at Bellanca Field. Although the full schedule of events has not been decided upon, it will include a formation flight of Army, Navy, and Marine Corps planes over the field at 11 o'clock on the morning of the 6th.

From 11:30 to 1:30 passenger carrying by authorized civilian pilots and public inspection of airplanes under proper supervision will be permitted. The Committee is taking every precaution that only planes and pilots licensed by the United States Department of Commerce and having a sufficient number of flying hours will be permitted to carry passengers.

An event of considerable interest will take place at 2:50 p. m. This will be the parachute jumps. Military planes will go to an altitude of 3000 feet and the parachute jumpers will endeavor to land on a mark mapped out on the field. In order to

make this mark it will be necessary for the jumper to shift his parachute one way or the other.

Another event will be the race to altitude and landing. Fast pursuit planes from a standing start will race to an altitude of 5,000 feet and will dive down almost perpendicularly in order to be the first to land.

Other events include the two civilian races of 35 miles and 50 miles for bi-place military planes, a pursuit plane race, which will be the fastest race of the day, these ships being capable of speed of 200 miles an hour, and manoeuvrability contests during which the "dog fights" of the World War days will be re-enacted.

In order to accommodate the huge crowd that is expected, special arrangement has been made by C. Douglas Buck, Chairman of the Police Committee, for ample parking facilities. Space has been reserved to accommodate 15,000 automobiles. At least 500 armed guards will be on hand to assist directing traffic and maintaining order.

The official program of the Meet will be the September issue of "The Wilmington," official publication of the Wilmington Chamber of Commerce. It will contain 34 pages of articles devoted to aviation, amply illustrated, and will be sold on the field.

## Boys, Too—Wear This New Styled Vest

THE Jacket comes with pointed lapels and 2 buttoned; the knickers, blouse in the English manner.

How the Aroma

## FOR THE HOUSEWIFE

### SAUCES FOR MEATS

The difference between distinction and the commonplace often lies in the sauce with which a dish is served. The French are noted as cooks and it is safe to say that the secret of half their success lies in the care they devote to the development of sauces and accompaniments.

#### Aspic for Baked Ham

Soften 1/2 box of gelatin in 4 tablespoons of cold water for ten minutes, then hold over boiling water to dissolve. Add to 2 cups sweet peach or pear pickle juice. Pour into a shallow pan to set. Cut in squares and use as an accompaniment to baked ham.

#### Never-Fail Hollandaise Sauce

Three-quarters cup water; juice 1 lemon; salt; 1 tablespoon cornstarch; 2 egg yolks; 2 tablespoons butter. Heat water, lemon juice, and salt in double boiler. Add cornstarch dissolved in a little water. Remove from stove and pour into beaten egg yolks. Add butter and reheat. Will not curdle and will serve four persons.

#### Chicago Sauce

To 1 cup Hollandaise sauce add 1 cup tomato sauce or tomato puree and 3 tablespoons horseradish.

#### Current Mint Sauce

Beat with a fork 1 glass currant jelly. Add 2 tablespoons finely minced mint leaves and a few drops of lemon juice. Serve with lamb.

### GARNISHES

Making a dish attractive as well as palatable is an important part of food preparation. Garnishes may be as simple or as elaborate as one may desire, but it is well to have them edible in so far as possible, and they should never interfere with the service of the food.

There are on the market vegetable cutters in flower forms with which one may get perfectly entrancing effects. Carrots, converted into tulips and turnips that are realistic daisies will add greatly to the salad or the planked steak.

Aspic colored red or green and cut in fancy shapes or in cubes adds to the attractiveness and palatability of cold meat platter or meat salad.

All vegetables, such as celery, watercress, curly endive, and radishes should be crisp and fresh else they defeat their own purpose.

### FRESH COFFEE IN CANS

It is often the morning cup of coffee that makes the day bright or gloomy. Nearly everyone wants to get the day with the aroma of a steaming fresh cup of delicious coffee at breakfast. The aroma that's the hint! For the aroma is a great part of the lure of coffee. A cup of coffee without the aroma.

When green coffee is roasted, a change takes place in the coffee bean, and certain vegetable oils are developed. Every pound of freshly roasted coffee contains one ounce of these oils. It is really these aromatic oils, abstracted from the coffee by water, that make coffee. But these oils are very volatile, and they vaporize and escape before the coffee reaches the coffee pot if great care is not taken to imprison them until they are needed.

#### How the Aroma Escapes

A freshly roasted coffee beans are exposed to the air, the coffee aroma will escape completely in about two days. Twenty-five per cent of the aroma will escape in the first twenty-four hours. But the grinding of coffee makes it easier for the aromatic gases to escape. When freshly roasted and freshly ground coffee is exposed to the air, fifty per cent of the gases will leave in the first ten hours, and all will have made their escape after nine days. The substance of the coffee that is left will, of course, look like coffee, but the aroma that comes to the table will lack the tempting aroma and flavor and the coffee will be stale and tasteless. It is the oxygen in the air that effects this vegetable oils.

If the morning cup of coffee that is served in your house is not full and humming over with aroma and flavor, the fault may not be in the making of the coffee, and it may not be in the quality or brand of coffee that you are using. It is more than likely that the fault lies in the fact that the coffee that you use is not freshly roasted, or that, after being roasted it is not preserved properly from the air. In which case most or all of the aroma will have escaped before the cup of coffee is served at your table.

#### How to Buy Good Coffee

In order to have good coffee, if you buy coffee loose, go to a store where you know that roasted coffee beans are never kept for more than a day or two in the bins. Buy just one week supply for your family, and have it ground while you wait. Then buy home with your package and place the coffee in an air-tight container as soon as you reach your house. A glass preserving jar with a rubbering is a very good receptacle to use. Screw the top on the jar tightly and remove it only long enough to transfer your coffee to the cup pot.

Fortunately, fresh, aromatic coffee may be purchased in air-tight, vacuum packed tins. Under this method packing, every bit of the

aroma is preserved. As soon as the coffee is roasted it is placed in cans, the cans are put into a hood, and air is drawn out of the hood, and out of the open cans, thereby creating a vacuum. The cans are sealed securely while they are in this vacuum. Since there is practically no air remaining in the sealed vacuum packed cans, it is impossible for oxygen to reach the coffee.

#### Secrets of Success

The gas and aroma of the coffee fill that part of the can that was emptied of air, and accordingly the vacuum packed coffee remains surrounded only by its own aroma. Therefore, it keeps its flavor and freshness indefinitely. Coffee that was packed eleven years ago in a vacuum packed can was recently tested out by experts and was pronounced as good, as fresh and as aromatic as freshly roasted coffee. Many of the best coffee roasters now use this method of packing so that they can be assured that their produce reaches you absolutely fresh.

When you get home with your can of vacuum packed coffee, after the can has once been opened, keep the contents as nearly air-tight as possible.

Here are a few hints for making good coffee: keep your coffee pot clean and absolutely free from all brown sediment; use coarsely ground coffee for boiling, finely ground coffee for percolating, and pulverized coffee for tricolored or drip pots.

### Mrs. Brown "Pretties Up" Her Food

"Pretty as a pretty does," said Mrs. Brown firmly.

"What care I how fair she be, if she be not fair to me!" responded Mr. Brown gloomily.

No, gentle reader, the Brown family was not discussing the forthcoming arrival of a portentous female relative. Instead, Mrs. Brown was trying with more vigor than tact to get her sulky husband to eat a particular food which was good for him, but which he did not like.

The discussion was a draw.

#### The Midnight Fairy

That night, Mrs. Brown had a dream. She dreamt that a fairy whispered in her ear: "Pretty tastes as pretty looks"; and "Fair food never lost a race"; and "Decorations on the pudding make it eaten like a good 'un."

When Mrs. Brown woke she had seen the light. From henceforth and forever her food would, above all things, LOOK PRETTY! She would "pretty up" her most ordinary dishes until they appeared to be entirely new concoctions.

#### A Devilish Product

Mrs. Brown considered her supper menu for tomorrow night, and her heart sank. She was going to have deviled eggs, and Henry didn't like deviled eggs even though he should. What could she do? Her eyes ranged along the row of canned foods which she saw sitting on her cupboard shelves, and stopped at one which bore the label "Sliced Pineapple." Just the thing! Henry loved pineapple. She would cut her eggs crosswise instead of the long way and then would fit an egg into the hole of a pineapple slice. Delicate mounds of salad make the combination so charming to look at that even the recalcitrant Mr. Brown would enjoy it.

And the lobster canape that she was going to serve her bridge club—why wouldn't it look nicer and taste better if the round of lobster-covered toast rested on a ring of pineapple?

Then Mrs. Brown decided that all this imagining would be put into effect—and it was.

And when Mr. Brown saw all the glorified foods did he smile and smile, and eat and eat, with never a single objection? Well, he certainly did!

#### INN PARLORS

How cozy they are—these little parlors in wayside inns! The friendly ejaculations of the wag-at-the-wall clock; the brightly colored almanacs; the large pictures taken from the London weeklies, portraying a fashionable wedding; the huge shells and faded photographs on the mantelboard; the quaintly contrived map of England, worked in colored threads by the daughter of the house; the well-rubbed Windsor chairs; the likeness of Beaconsfield or Gladstone that looks down upon you serenely as you sit at meat. And then the one small row of books in the recess—"The Prince of the House of David," "Marmion," "The Lamplighter," "Queechy," "Sanford and Merton," "The Pilgrim's Progress," "The Saint's Everlasting Rest." They are all old friends, May they yet live long in the land!—Herbert W. Tompkins, in "In Constable's Country."

Remember always that the first great need of animals in hot weather is water, and keep a supply within easy reach of them.

## The Ride of Caesar Rodney

An Exploit Which Outdoes All Other Famous Rides In Courageous Effort; One of the Most Magnificent Incidents In the Nation's History

There have been a number of famous rides in United States history that have been celebrated in song and verse, Paul Revere and Sheridan have had their equestrian exploits recited from the platforms of every school house in the country, and their rides are numbered in the most widely known incidents of the nation's history. However, Delaware history contains a ride, which for courageous and gruelling effort surpasses that of either Paul Revere or General Sheridan, and the historical significance of which is, in some respects, more important than that of either.

The eighty-mile ride of Caesar Rodney to vote "yes" on the Declaration of Independence has been given too little importance in recording individual achievements in the making of this country. Caesar Rodney's ride is brought to light again in an interesting article in the October issue of the National Republic, in an article by George B. Cromwell. Mr. Cromwell's article follows:

"One of the most important rides in the history of America was that made by Caesar Rodney, of Delaware, a member of the Continental Congress.

"Paul Revere took his famous midnight ride to warn the people of the approach of the British and to save the army supplies at Concord and Lexington. But Rodney rode day and night to make the Declaration of Independence a fact. America had reached the most exciting point of her history. The Declaration of Independence had been written by the committee appointed for that purpose. It had been referred to Congress by that committee. Did Congress have the nerve to adopt it? In order that it be a perfect success it was necessary for the country to show a united front in voting on the Declaration. The leaders of Congress were anxious for the news to go out to the world that the representatives of every one of the thirteen colonies had voted for it. The only hitch was that existing in Delaware. That colony had three delegates in Congress—Thomas McKean, George Read and Caesar Rodney. McKean was for independence, Read was opposed and Rodney was not present at Independence Hall, being ill at his home in Delaware, eighty miles away. Rodney's vote was absolutely necessary to carry Delaware and thus enable the Declaration of Independence to be a unanimous proposition.

"Realizing the absolute necessity for getting to Philadelphia before the vote was taken, McKean prevailed upon Benjamin Harrison, of Virginia, to plead for time and use every possible means to delay voting. Rodney must be present!

"On July first McKean arranged with a trusty messenger to ride to Rodney's home, acquaint him with the existing facts and urge him to make the effort of his life to reach the Halls of Congress before it would be too late. That messenger rode through the country as if 'Old Nick' himself were after him.

The messenger found poor Rodney suffering excruciating pains caused by cancer of the face. This dread disease had been under way for four years and had now reached the unpleasant stage where it became necessary for the sufferer to wear a thick veil. When McKean's urgent message was delivered to him and he realized what his presence at Independence Hall would mean for his country Rodney did not hesitate for a moment.

"Saddle the black," he ordered. "Mr. Rodney, a long trip of this character in this scorching weather will surely kill you," declared the old family physician.

"The pleas of the nurse who had so faithfully cared for him were made in vain.

The tears of relatives were equally unavailing. His country was calling him as never before. Nothing but death would prevent his getting to Philadelphia and voting for that declaration which was destined to free America from European bondage.

"Hurry, and saddle that black horse," he again ordered in tones that would brook no delay.

"The excitement of the occasion enabled him to forget his suffering for the moment. With the agility of a boy he leaped into the saddle and galloped to the northward with such terrific speed that the messenger who came for him was soon left in the lurch.

"No one will ever know the awful suffering and anxiety of that eighty-mile ride over roads that were no roads at all. For hours and hours Rodney would suffer from hunger and thirst. Houses were few and far apart. Besides he didn't want to waste the moments that were so precious. He must reach Congress before that vote was taken.

"It was the morning of the Fourth of July. The first faint light of the approaching dawn was appearing in the heavens. Rodney was still many miles from old Independence Hall. His horse was sweaty and breathing heavily. That disease-ravaged face was throbbing with pain. Lighter and lighter became the skies. He could now see half a mile ahead. And then came the brilliant rays of the sun leaping over the edge of the world. At last, thank God, at last! Just a few miles ahead he could plainly see the spires of the City of Brotherly Love.

"He grew sick at heart as he wondered whether or not he was too late. Possibly they voted yesterday. His tired animal was now only capable of a walk. It seemed that he would never reach the banks of the Schuylkill.

"A horseman came galloping toward him. 'Stop man, stop!' shouted Rodney. 'Tell me the news; has Congress taken the vote on the Declaration of Independence?'

"Not yet, sir," replied the horse-

man. 'But I'm told this is the day they're going to do so,' shouted this stranger as he applied the spurs to his horse.

"Congress was already in session when Rodney rode up in front of Independence Hall. The anxious McKean was standing out in front waiting and praying for his arrival, and embraced him when he alighted from his horse. Booted and spurred, and without waiting to dress his diseased face or get a bite to eat, Rodney walked into that sacred building and took his seat in Congress.

"John Hancock, President of Congress, stern and dignified, was presiding. The names of the delegates from the various colonies were being called. They were asked to vote "yes" or "no" on the Declaration of Independence.

"Delaware was called. Intense silence prevailed. All eyes were centered on the three delegates from that colony. McKean arose and voted 'aye.' 'Nay,' responded Read. Then slowly arose Caesar Rodney, and in a voice vibrant with joy and determination said: 'As I believe the voice of my constituents and of all fair, sensible and honest men is in favor of independence, and as my own judgment concurs with them, I vote for independence.'

"That was a magnificent moment in the history of this country. 'Tis said that tears of thankfulness trickled down the cheeks of some of the members of Congress as they realized how much suffering Rodney had undergone, and how he had risked his very life to get to Philadelphia in time to make it possible for every one of the thirteen colonies to be recorded in favor of a Declaration of Independence.

"This month of October, 1928, marks the two hundredth anniversary of the birth of Caesar Rodney, near Dover, Delaware. He died in 1784. His life was a busy and useful one. As early as 1758 he was sheriff of Kent County, and then held the offices of justice, judge and state assemblyman. In 1765 he represented his state in the Stamp Act Congress in New York. While serving in the Delaware Assembly he presented a resolution 'totally prohibiting the importation of slaves into the Province of Delaware.' So earnestly and effectively did he plead for its adoption that it only lacked two votes of passing. He was speaker of the state assembly from 1769 to 1774, and was in the Continental Congress from 1774 to 1776.

He was commissioned a brigadier general of militia and served under Washington in the Delaware campaign.

"Caesar Rodney lived and died a bachelor."

### CAN CONVENIENCE

No, we're not being so heartless as to suggest that you "can" convenience—give it up—but we are talking about a convenient new size of can which has recently come into the market. This has been variously nicknamed the "bachelor" or "buffet" can, the "can for a couple," or simply the "eight ounce can." It is three-fourths of an inch shorter than a standard No. 1 can and of the same diameter, and its contents are sufficient to serve one person lavishly or for moderate portions for two. It is a most convenient size for people living alone, such as bachelors, business women and hermits, and it has the merit of avoiding all waste.

This can got its start in the five and ten cent stores. For a long time these stores had wanted to sell ten-cent amounts of foods, just as they sell ten-cent amounts of a multitude of other necessities, but there were none on the market. Finally a couple of enterprising packers entered this field, and, shortly after, others followed. Now the new size of cans has found its way into other stores such as groceries, dairies and delicatessens. In New York City there is even a whole grocery store, run on the self-service principle, which carries nothing but five and ten cent packages of food, and offers about 400 different items.

Among the foods packed in these new small size cans are the staple fruits, such as peaches, pears, pineapple, apricots, cherries, plums, the smaller vegetables such as corn and peas, and many specialties such as soups, pickles, jams, jellies, fruit juices, condiments and cheese.

These small cans solve the problem of "just enough—not too much." A ten-cent can of apricots, for instance, provides four halves, canned pears five halves, Maraschino cherries eight cherries. For decorations to top desserts, or to eke out some left-over vegetable these small cans are a resource for larger families.

## The Press Examines Itself

The following editorial in the February 27 issue of the Christian Science Monitor was awarded first prize at the International Press Exhibition, which opened in May at Cologne, Germany, and will continue until October.—Ed.

The printed word is a combustible commodity—an instrument for peace, a utility of war. Five hundred years ago Gutenberg set up his movable type at Mainz, and for five centuries the world has witnessed almost incredible progress in the enlightenment of mankind. A single poem has revolutionized an industry. A single book has changed the lives of men and the destinies of nations. Wars have been waged and won as much by stirring phrases, kindling the emotions of people, as by material armaments, endangering their security.

During these five centuries the printed word, or more particularly the daily and periodic press, has been scrutinizing the world and reflecting its varying moods. It has, by its very nature, been engaged principally in everybody else's business. Now a time for introspection has come—a time when all the world is to have the opportunity to scrutinize and to reflect upon the press itself. The International Press Exhibition, Pressa, as it will be called in the headlines, to be held in Cologne, Germany, from May to October, 1928, will offer that opportunity. It will be an occasion, appropriately marking the centennial of intellectual advancement by means of the printed word. Moreover, by virtue of its graphic panorama of the methods and motives of the press of all nations, it cannot but give to the future higher motives and better methods.

To appraise the contributions of the printed word to the industrial and social life of the world, in the perspective of several hundred years and through the impartiality of an international exhibition, is a service which has not heretofore been rendered. And to examine with the comprehensiveness which the Cologne exhibit is certain to achieve, the evolution of the economic, educational, and mechanical progress which has brought the press to its present state of efficiency, should prove a service of inestimable value to the practitioners of journalism and its allied professions. Here are two objectives which command the co-operation of all countries. Their attainment will serve all countries.

While more than fifty countries are to be represented at Cologne, America has especially significant reasons for lending its support to the exhibition—reasons which affect not only the position of the American newspaper press as a profession, but the interests of the United States as a nation. The development of modern newspaper technique unfolds a story of accomplishment almost as breath-taking as Lindbergh's daring leaps from burning mail planes in the days before the world knew him for greater deeds—accomplishments which, indeed, made possible the nearly instantaneous, detailed account—through thousands of newspapers—thousands of miles apart—of his solitary flight from Mitchell Field to Le Bourget.

Tom-toms once beat the messages of aboriginal tribes, and primitives drew pictures in sand and hammered them in rock. Today a vast network of cable and wireless services compass the globe, and news travels only a little less swiftly than light. Pictures are transmitted by telephone and radio, are reproduced in color, and forty-page daily newspapers are circulated to millions of readers. In short, 500 years have seen world communication supplant enforced isolation, the earth's five continents being little more than so many city precincts under the surveillance of a "City Editor."

The economic growth of the newspaper and magazine press has been no less phenomenal. Advertising has become a highly developed science, and as integral a part of the press—if, indeed, it is not as interesting and serviceable—as the news. Publishing is Big Business in the most constructive sense of that phrase. It is discharging a public trust, yet its methods are not infrequently those of mass production. Some newspapers are owned and conducted in chains, and one syndicated editorial commonly serves a score and more of editorial pages.

Famous printing houses of lofty and mature traditions have been merged and remerged. Many of these developments have been born during the last quarter of a century, and they have found, perhaps, their widest expression in the American press. It is for this reason that the International Press Exhibition offers to America an obligation to contribute to it a cross-section of the Nation's best journalistic achievements. Its return value will be received in the innovations which the exhibition will offer, and the inspiration it will give.

The concerns of journalism, even viewing journalism in its broadest scope, do not constitute the greatest value which this undertaking at Cologne holds for America. There are considerations more fundamental and perhaps more persuasive than the good of a great profession which should impel the fullest participation of the American press and the fullest assistance of the American Government. These considerations concern the interests of the Nation which American journalism seeks to serve. They are premised upon the changed conditions which confront the world

of 1928. Cologne was once 3000 miles from New York Harbor. Today it is just across the Atlantic!

To appreciate the full effect of this annihilation of time and space, and to realize the deeper significance which the International Press Exhibition holds for America, it is necessary to note the onward march of natural science and the transformation it has left in its wake. A few of the mountain peaks of scientific progress will serve to indicate whither this march has been taking us. Gutenberg's invention of movable type laid the basis for today's most powerful agency for public enlightenment—the printed word. Highly organized industrial society is conditioned upon the fact of a widely circulated public press—a press which brings consumer and producer into common contact.

The line of achievement from the spinning-jenny of Hargreaves and Arkwright which precipitated the industrial revolution, to the steamboat of Fulton which ultimately bridged the oceans, to the telegraph, wireless and radio of more recent perfection, has been one which has linked all nations into increasingly intimate contact. "Foreign affairs" have almost become a thing of the past. The comfort and speed of modern travel and the celerity of modern communication have made nations, though separated by oceans, as neighbors, and affairs which once might have been alien to many nations are now a common concern to all.

It has been dramatic progress, and in this drama the United States has been cast in a leading role. American manufacturing technique has been developed to a state of mass perfection perhaps paralleled by no other country. American loans to European nations reached nearly \$2,000,000,000 last year, and have tended to bind the two worlds in strong economic ties. American foreign trade, particularly since the World War, has penetrated to the remotest parts of the globe. The American daily and periodic press, in its collection and distribution of news, and in its technical and artistic appearance, has made achievements unique in journalistic history.

The cumulative effect of these far-reaching changes has been to make the nations of the world almost as interdependent as the peoples within the nations. No nation is today wholly self-sufficient. American industry, American finance, American prestige, are all contingent in no small measure upon the respect and good will which the United States may merit from other nations.

You'll have style written all over you if you let us tailor clothes for you.

**CHRYSLER**

**CARS**

**RITTENHOUSE MOTOR CO.**

**SOUTH COLLEGE AVE.**

These considerations give to the International Press Exhibition a significance far beyond its technical value to journalism. The spread of the printed word has been an omnipresent force in effecting this growing interdependence of nations. It has made intelligible to all countries the wants and resources, the hopes and ambitions of each. If this interdependence—if, concretely, America's growing contact, economically and politically, with its neighbor nations far and near—is to continue to be productive of reciprocal good, then the press of the world must be a mirror of mutual understanding. It must not serve hostility; it must serve friendship.

The International Press Exhibition is to provide a channel through which this great end can be approached. It offers to America as a nation an opportunity to strengthen its position as a cooperative and peace-pursuing

member of the world community. It offers to the press of America an opportunity to enhance this cooperation and to augment the peace-pursuits of the Nation.

Ten years ago the purposes of the press of the most powerful countries were aligned against each other. The printed word had become a weapon of conflict. Today the press of the world is enlisting its dynamic agencies in the cause of unity. The printed word has become an instrument for peace. Nations which once were at enmity on the battlefield are uniting their efforts to disarm hatred with understanding and to banish warfare from the earth. Cologne will fittingly symbolize this noble endeavor. The International Press Exhibition will serve the ends of more skillful and more sympathetic journalism, and in its turn skillful and sympathetic journalism will serve the ends of peace and progress. J. R. D.

## England Plants Trees On Her Idle Land

They are putting idle land to work growing trees in the British Isles, says P. S. Ridsdale, of the American Tree Association of Washington, who has returned from England and France. This also puts some of their idle men to work, too. Charles Lathrop Pack, president of the American Tree Association since the war, has sent thousands of pounds of American tree seed to England, France, Belgium, and Italy to help reforest areas destroyed or cut down for war needs.

"Result of the work of the Forestry Commission of England and Wales on the economic situation," said Ridsdale, "is shown in the mining country. This was made plain by Prof. Fraser Story of the Commission and J. F. Corbett of the English Forestry Association.

"At Thetford Forest, Norfolk, an area of 6,000 acres, acquired about four years ago, has grown to 26,500 acres, and about half of this has been planted. It includes the largest nursery in the country, and, owing to the favorable conditions for seedling development, more than two-thirds of the conifer plants required by the Commission are raised in this forest.

"This development is interesting, not only in consequence of its forest development but owing to the growth of the scheme of forest workers' holdings. The Commission has established there 100 small-holdings, 80 of which are occupied and 19 in the course of completion. The holders are employed in the forest, and a census taken recently showed that, on an average, there was a family of four on each holding. Those who have watched the progress of this scheme express the opinion that the depopulation of the countryside is due more to lack of opportunity than the dislike of rural life.

"This work," Ridsdale continued, "has had a marked influence on the village of Stanton Downham, where a population in 1923 of about 200 people has grown to 250, and the village has become the center of administration for the forest. The Commission has also placed at the disposal of the Ministry of Labour land at Thetford for two summer camps, capable of accommodating 500 men, to be trained for agricultural work in overseas Dominions. The planting operations and the nursery work provide continuous employment for between 300 and 400 men at Thetford, and the number of workers' holdings there will shortly be increased to 130.

"Other centers of afforestation which are being similarly developed include Allerston, in Yorkshire, Hamsterley (Durham), the Mortimer Forest, on the Shropshire and Radnor Borders, and areas in North Wales. The total number of workers' holdings throughout England and Wales at the end of April was 330, and another 103 are expected to be completed this year. There is a possibility of the Commission increasing its activities in this direction in order to meet in some degree the necessity of transferring miners from the distressed mining districts. Already 25 holdings have been allotted for this purpose, and in South Wales ex-miners are being employed in the forests of the Commission.

"The United States will never be in the condition of Great Britain, of course, but we must look to the future," Ridsdale concluded. "On the Continent one-third of the land area is under timber, as compared with about four per cent in the United Kingdom. Great Britain, which contains some five million acres of waste land, much of it suitable for afforestation, has in fact less forest land

per head of its population than any country in Europe. Nor is this the only weakness in its position. Though nine-tenths of its timber supply is drawn from abroad, only one-fifth of the tonnage imported is grown in the empire."

### Thought and Conduct

The right thought has much to do with the right conduct, and if one thinks and acts kindly in life to others he creates that personality which speaks of a nobility that cannot be surpassed. There are many today who have bitter recollections that they might have done so much better toward their fellow creatures if at the moment they had thought differently, and our brother who apparently regrets some of the past has still time to ease a troubled conscience.—East London Observer.

### Promises To Be Popular

Lady (to applicant for position of governess): "Why did you leave your last place?"  
Applicant: "I refused to wash the children."

Children (in chorus): "Engage her, mamma."—Pages Gales, Yverdon.

To rejoice in the prosperity of another is to partake of it.—William Austin.

## WISDOM AT FORTY

Henry Ford says in a current magazine article: "Up to the age of forty a man is in training—every man is. He is assembling the tools with which to work. When the tools are at hand they can be put to their real uses."

In these strenuous days, when so much emphasis is placed on youth and its dynamic qualities, there has been an inclination to belittle the usefulness of the man who has passed his so-called prime.

What is a man's prime? Essentially it has nothing to do with calendar years. Many a man of seventy is more alert, more mentally active, than his sons. But over and above any mere physical and mental exuberance a man may retain, there is the judgment that comes only from long experience. Until a man acquires judgment he is still "in training," as Mr. Ford puts it. And it is this quality that justifies, and always will justify, the presence of the "old heads" in the hurly-burly of every day affairs.

It is right that the inexhaustible energy and enthusiasm of youth should be held in high esteem. But equally estimable is the wisdom that is able to guide and control that energy with the older hand of experience.—New York Evening Post.

# DIRECTORY

## POLICE CALL - - - 405

405 is the number of Chief Keeley's Phone.

## TOWN COUNCIL

Mayor and President of Council—Eben B. Frazer.

## ORGANIZATION

Eastern District—A. L. Beals, Chas. C. Hubert.  
Central District—Wm. J. Lovett, Wm. P. Wollaston.

## "For Sale--One 1908 Car"

An ad like that would get a few laughs, and that's about all. A 1908 car wouldn't look so good parked in front of your home.

But how about your Heating Equipment? Are you still struggling along with methods that were introduced 20 years ago? Things have changed since 1908. Today you needn't crank a car—and you needn't shovel coal or lug out the ashes.

It won't cost you a cent to find out about the "Oil-O-Matic." That's our name for 1928 Model Heating.

## PERSONAL NOTES AND MEETINGS

PERSONAL NOTES  
AND MEETINGS

The Week In Review

SOCIAL AND  
CLUB NEWS

Mrs. Raymond Coran and children, Henry and Robert, of Philadelphia, visited her parents, Mr. and Mrs. J. J. Gaerthe, over the week-end.

Mr. and Mrs. Carlisle, now of Greenwood, formerly of Newark, and Mrs. Frank Elliott, of Wilmington, and Mrs. Laura Miller, of Kennett Square, were guests of Mr. and Mrs. Elmer Thompson on Saturday.

On Sunday, Mr. and Mrs. Elmer Thompson attended a sixtieth wedding anniversary of Mr. and Mrs. Frank Le Fevre, of Marshallton.

Mr. Harry E. Thorp spent the week-end in Lancaster, Pa.

Mr. Frank Collins spent Sunday in Baltimore, the guest of his daughter, Mrs. Edw. T. Records.

Miss Anne Gallaher spent the week-end in Wilmington, with her aunt, Mrs. Emma Blackson.

Mrs. Henry C. Ordway and Miss Elizabeth Ordway, of Winchester, Mass., are spending a few days with Mrs. Carl Rankin.

Mr. and Mrs. R. S. Gallaher spent the latter part of the past week in Atlantic City.

Mr. and Mrs. S. T. Smith, of Philadelphia, were week-end guests at the home of Mr. and Mrs. Reese Griffin.

Mr. and Mrs. Howard Griffin and family, of Washington, have been visiting Mr. Geo. W. Griffin.

Miss Esther Osborn, of Aberdeen, is the guest of Mrs. Walter Blackwell, this week.

Mr. and Mrs. Wm. F. Medill and Mr. and Mrs. Herbert Medill and daughter Gwendolyn, of Baltimore, spent Sunday with Mrs. Philena Medill.

Mr. and Mrs. Lewis McFarlan, of Kennett Square, Pa., were guests of Mr. and Mrs. E. M. Thompson over Saturday evening and night.

Miss Lillian Mackie will be the guest of Miss Mary C. Anderson, of Baltimore, over the coming week-end and earlier part of next week. Miss Mackie will attend a meeting of the alumni of the Presbyterian Training School on Tuesday, October 2nd.

Mrs. Katharine Wilson-Williams, a graduate of the Ely School, Greenfield, Conn., and a daughter of Mr. J. P. Wilson, is now on the staff of the Misses Hebbes Select School for Girls of Wilmington, Del., teacher of Physical Education and assistant teacher of French.

Mrs. Carmi L. Alden, of Newton, Mass., who is visiting her sister, Mrs. W. Ray Baldwin, of Elkton, is being entertained at a number of local homes during her stay here. On Friday, Mrs. Baldwin entertained a few friends at luncheon in compliment to her sister, and on the coming Friday will give a dinner party at which Mrs. Alden and Dr. W. Sypher will be the guests of honor.

Mrs. Katharine Wilson-Williams is entertaining two tables of bridge today.

On Thursday, Mrs. James H. Hutchison is having a few friends for lunch and cards. And Friday afternoon, Mrs. George L. Townsend, Jr., is entertaining informally at a bridge luncheon.

Mrs. Ada Bowers, of New York City, was the guest of Miss Charlotte Hossinger, the past week.

Miss Elizabeth C. Errickson, of New Brunswick, N. J., a senior at Women's College, was the guest of Miss Ruth Vinsinger prior to the opening of college.

Ethel and Jean Strickland, of Elkton, spent the week-end with their little cousin, DuVal Cleaves.

Mr. and Mrs. Thos. Ryther, of Park Place, spent the week-end in Philadelphia.

Miss Lillian Mackie attended the Sunday School Convention held at the Presbyterian Church, Elkton, on Friday.

Mr. and Mrs. Hugh T. Stephenson and Miss Marian Strickland, of Wilmington, were guests of Mr. and Mrs. Fred Strickland, on Thursday.

Mrs. Ralph Dinsmore is leaving tomorrow for a stay of about a week in Bridgeton, N. J., to attend the wedding of her sister, Miss Mildred Russell, of Wilmington.

Mrs. Walter Hurlihen entertained at lunch and bridge in honor of the Misses Lord, guests of Mrs. A. S. Eastman, last Wednesday.

Mrs. Mildred McNeal Lind spent Sunday with Mr. and Mrs. H. Warner McNeal.

Mr. and Mrs. Harvey Beedle, of Keyport, N. J., are visiting Mr. and Mrs. A. C. Huston.

Mr. and Mrs. L. K. Bowen were dinner guests of Col. and Mrs. Carswell, of Wilmington, Monday evening.

Dr. and Mrs. David O. Evans, who have been visiting their parents in Wales, B. L., arrived in New York City on Monday on the S. S. Minnetonka.

Mrs. M. L. Johnson, of Baltimore, is visiting her niece, Mrs. Geo. M. Phipps.

Miss Jane Maxwell entertained at bridge in honor of her guest, Miss Elizabeth Underwood, on Tuesday afternoon.

The Misses Lord, who have been guests of their sister, Mrs. A. S. Eastman, will leave for their home at Hartford, Conn., tomorrow.

Mr. and Mrs. Jas. H. Hutchison and Mrs. John MacDonald spent the week-end at Spring Lake, N. J., with Mrs. Jas. R. Barbour.

Mrs. Paul Pié is giving a birthday party for her daughter, Marguerite, today.

Mrs. H. G. Dimmick, of Washington, who has been spending some time with her parents, leaves today for a week's visit with friends in Reading.

Mrs. Harvey Hoffecker is visiting Mr. and Mrs. J. S. Hoffecker in Lansdowne, Pa.

Midshipman Justin Steel and Albert Strahorn leave tomorrow for U. S. Naval Academy at Annapolis, after a month's leave of absence.

Miss Rosalie Steele spent the week-end with Mrs. Reybold, in Delaware City.

Charles Henry Keyes, II, will spend the week-end with his grandmother, Mrs. Jennie Campbell. Mr. and Mrs. Keyes will spend the week-end at Annapolis, where Mr. Keyes is officiating at the Navy football game.

Mr. and Mrs. Charles V. McFarland visited with Mr. McFarland's parents, in Tyrone, Pa., Sunday and Monday of this week.

Middleton W. Hanson has returned to his home on Park Place from Lake Rowland, Baltimore, Md., where he has been recuperating after a recent operation.

Mrs. Armand Durant and Col. and Mrs. S. J. Smith were also passengers on the same steamer.

Col. and Mrs. Smith went on to Boston to visit Mrs. Smith's son, Lt. Day, before their return to Newark.

Mr. and Mrs. James Ross and Mr. and Mrs. Arthur Dixon, of Brooklyn, N. Y., stopped here last Saturday, to visit Mr. and Mrs. J. W. Cristadoro. The party was on their way to Washington, D. C., and Luray, Va.

Mr. and Mrs. Harry Morton, of Richmond Hill, N. Y., and Mrs. Nathan White, Hampton Bay, Long Island, returned home today after spending several days with Mr. and Mrs. J. W. Cristadoro. While here, accompanied by Mrs. Cristadoro and son Walter, they took auto trips to Washington, D. C., and the Battlefield of Gettysburg.

Miss Edna and Miss May Chambers, their mother, Mrs. Gilbert W. Chambers, and Mrs. N. W. Bryan are on a motor trip into North Carolina.

Rowland Wollaston has entered the Junior School of the Franklin and Marshall Academy, at Lancaster, Pa. Mrs. W. D. Holton has returned home with her new son, from the Homeopathic Hospital.

Mr. and Mrs. Walter E. Adams, of Long Beach, Long Island, motored to Newark and spent three days at the home of Mrs. Adams' brother, Wm. D. Dean. Mrs. Adams will be remembered as Miss Mary E. Dean, the youngest daughter of the late Henry M. Dean and Mary E. Symington Dean, of Cherry Hill, Md. Mrs. Adams left Cherry Hill when a child and went to Wilmington. She was a popular member of the younger set at that time and an active member of Calvary P. E. Church until she moved to Philadelphia.

Mr. and Mrs. Ernest Ewing, of West Chester, spent Sunday with Mr. and Mrs. Robert Campbell.

Daniel Thompson and Miss Beulah Thompson called upon their brother, Roland Thompson, on the Main Line, Sunday afternoon.

The C. R. Runkles will move into the house of Mrs. Geo. Porter Paine, Orchard Road, the first of October.

Miss Beulah Thompson was the guest of Mr. and Mrs. Wm. Evans, of West Grove, Pa., over the week-end. On Saturday Miss Thompson, with Mr. and Mrs. Evans, attended the Evans family reunion held at the Springfield Meeting House, Springfield, Pa.

The H. V. Olsens returned home last week, after spending the summer mostly in Chicago, then visiting Mr. Olsen's parents in Omaha, Neb., and Mrs. Olsen's parents in Canada.

Mrs. Geo. E. Dutton entertained at tea yesterday afternoon.

On Friday afternoon, Mrs. Dutton entertained informally at tea in compliment to Mrs. A. S. Eastman and her sisters, the Misses Lord.

BIRTHS

Becker—Announcement of the birth of a daughter, Bernice Margaret, to Mr. and Mrs. B. R. Becker, of Tavares, Florida, on August 29, has been received by friends in Newark. Mrs. Becker is remembered as Miss Margaret Barton, daughter of W. H. Barton, a former merchant of Newark.

Lloyd—To Mr. and Mrs. Joseph Lloyd, of Chapel street, a daughter, on Friday, September 21.

Stewart—To Mr. and Mrs. Samuel T. Stewart, 3rd, of Pleasant Valley, a daughter, born Monday, September 24th.

Frazer—To Mr. and Mrs. Ralph Frazer, of Appleton, a daughter, on Thursday.

THE SICK

John Joyce, who drove a punch through his hand while at work at the National Vulcanized Fibre Company, is showing considerable improvement and will probably not lose the use of that hand.

Mrs. Philip Myers is confined to her home with illness.

L. M. Ruth lost a portion of his thumb, Saturday, while at work at a punch at the Continental Fibre Company. Preston Cullen, of Milford Cross Roads, sustained the same kind of injury on Friday.

Stephen Kenney, who has been ill at his home on West Main street for the past several days, is recovering.

Sonny Vinsinger, suffering with an infected ear, is confined to his bed.

CORRECTION

It has been good naturedly, but succinctly brought to our attention that in last week's issue of The Post, we erred in the spelling of a name, which appeared in our "Personal" columns. We have been asked to repeat the item with the spelling corrected, and we do so herewith:

Mrs. Walter H. Hilton and R. Roderick Hilton have returned to Newark from four months in their pilgrim ancestral homestead in southeastern Massachusetts. They will be joined very soon by Mr. Walter H. Hilton, who is in the Middle West, on important business and family affairs.

Some years ago we watched the renowned Harold Hilton dispose of the finest amateur golfing talent in America to etch his name on the Amateur Championship trophy; the only British golfer who has ever won that distinction; so we know that the name Hilton is not only of ancient, but modern consequence in Old England.

# After all— there is no bread like *Bond*

YOU can get almost any product at almost any price. In value you get about what you pay for. Bread value is determined by quality. There are many grades of flour and sugar and milk and shortening. Regardless of cost, Bond Bread bakers select the finest ingredients that money can buy. Purity and quality are guaranteed to you by the *Bond* printed on each Bond wrapper.

That's why housewives say:

"There can be no substitute for quality. I get exactly what I pay for. After all—there is no bread like Bond."

## U OF D SQUAD BEST IN YEARS

Many Seasoned Players In Squad of 34; Hubert, Hopkins, Riley, Newark's Contribution

With 34 candidates reporting for football the opening day of college, the prospects for the University of Delaware team look brighter than they have for some seasons. Coach Rothrock has experienced material to work with this year, and with his faculty of inspiring fight and dogged courage in even a mediocre team, he should develop an aggregation that will put Delaware on the football map this season.

The town of Newark has contributed weight, power and experience to this year's squad in Hubert, Hopkins and Riley. Hubert is not new to the Blue and Gold uniform as he was a backfield star on the Delaware varsity two years ago. He will undoubtedly hold down the post of full-back and will be a triple threat man. His weight will be a big asset to the backfield combination. Hopkins has had six years of football experience; four on the Newark High School squad, and two at Rutgers Prep. Last year he captained the Rutgers eleven, which turned in one of the best records in the east. He is rugged, fast and hard to stop. Riley, a tall, rangy heavyweight, is out for the line, and should find a berth. He played great football in the Newark High School backfield for four seasons.

Taylor, Rose and diJoseph make up the rest of the first choice backfield candidates, and give Coach Rothrock a combination that can undertake any sort of an offensive. This should give Delaware one of the best backfields in its history, and pause to any team it will face.

The line is also wealthy in likely material. Kane, a sophomore, who last year showed unusual promise until he sustained an injury to his eye, will probably hold down a guard position. Captain Glasser and Barton are scarred veterans on the wings, and work together like twins. They should handle their department with neatness and dispatch. Staats, another letter man, is passing them at center.

## NEWARK BACKS SHOW STRENGTH

High School Has Veteran Backfield, Green Line; Trying to Schedule Game for October 5

Coach Gillespie has been driving the Newark High School football squad in strenuous practice, this week, and the boys are responding by showing real condition and form, particularly in the backfield.

The biggest task that confronts the coach is to develop a line from light and green material. There are two complete backfields made up of veterans, but the line is weak in experienced material. Probably some of the backfield candidates will be shifted to the line as the practice develops, as most of these men have played in both departments.

One backfield combination is made up of "Winnie" Mayer, fullback; Holloway, left half; Edmondson, right half; and "Rip" Smith, quarter. The other combination has Frank Mayer at full, Jackson and Barrow, left and right halves, respectively, and Ned McCully at the signal post.

The line prospects include White-man, Willis and Barrow for positions on the wings; Suratt, Schwartz, Campbell and Gallagher, guards; and Coverdale, Milliken, Benson and Fell, tackles. Jaquette apparently has the center berth secured and looks like all-state material. His passing is flawless and he is a hard and sure tackler on the defense.

"Winnie" Mayer will probably make a triple threat man in the backfield, and is playing the good all-round brand of football that he has displayed for the past two years. His brother, Frank, is not to be overlooked, and is probably the most accurate passer on the team. "Rip" Smith, who has always looked like a small edition of George Pfann, is developing into a quick thinking, alert field general. He will probably be first choice for quarter.

The first scheduled game is with W. C. I. at Dover, on October 12, but the managers are trying to book a game with Nottingham or some other Pennsylvania school for October 5. Another shift in the schedule which is under negotiation is to play home games on Saturdays that the University is playing away.

### "TRIAL OF MARY DUGAN"

"The Trial of Mary Dugan," which is due at the Shubert Playhouse, Wilmington, for an engagement of one week, beginning next Monday night, has met with phenomenal success wherever it has been presented. It is now on view in half a dozen capitals of the world. This stirring play, written by Bayard Veiller, author of "Within the Law," and produced by A. H. Woods, led Alan Dale, the New York Critic, to declare that "for sheer interest and drama, it beats the Snyder case all hollow. There will be matinees Wednesday and Saturday.

## NORTH EAST EVENS THE SERIES WITH ELKTON

North East evened the score in the Tri-County League championship series Saturday by downing Elkton, 5 to 3. The week before, Elkton took the first game of the series by the close score of 3 to 2.

North East took the game in the first inning when it scored its total of 5 runs. After that Arrants tightened and held the North East bats scoreless.

The deciding game of the series will probably be played at North East, this Saturday. Score:

	R.	H.	O.	A.	E.

## NEWARK GOLFERS BEAT ATLAS LINKSMEN, 30-11

A team of sixteen Newark Country Club golfers on Sunday defeated a like number of Atlas Powder Company linksmen by a score of 30 to 11, in a point score match. The match was played on the local course.

On Saturday, the Newark Country Club held a handicap match against par, which was won by C. T. Gardner, who finished 5 down to par. J. P. Armstrong won second prize by losing 6 down to Colonel Bogey. J. P. Armstrong also won the silver spoon for low medal score on Saturday, with a 79, net.

This Saturday the Newark Golf Team will play Coatesville, at Coatesville. Team scores:

## OPEN SOCCER SEASON

The Newark Junior High School soccer team, coached by Mr. Keller, will open its season this Friday, with Claymont, at Claymont. This is about the toughest game on the schedule and if Newark can get by Claymont it will probably have the sectional championship cinched.

Opportunity will linger longer at the door of the hard worker.—Los Angeles Times.

## SUSQUEHANNA SERIES IN A DEADLOCK

Elk Mills avenged itself on Rising Sun, Saturday, by taking the second game of the Susquehanna League championship series, 2 to 1. Last week Rising Sun won the first game by the overwhelming margin of 11 to 1.

The second game was one of the closest played in the league this year and the teams battled in a deadlock score until the eighth when Elk Mills slipped over the winning score. The final game will probably be played at Elk Mills, this week.

## P. T. A. MEETING

A real get-together meeting was held by the Milford Cross Roads Parent Teachers' Association on Wednesday evening, September 19. The following program had been arranged and was presented under the direction of the teacher, Mrs. Herman-Wayne Stradley: "Simple Ave." Orchestra; Song, "America," school and audience; Original skit, Esther Greer; "Flo's Letter," Hazel Johnston; Song, "Dikory, Dikory, Dock," 1st grade; "September," Mildred Reed; "Jack and Jill," Grayson Greer; "Tales from Hoffman," Orchestra; Camp scene with songs, school girls; Song, "Baa, Baa, Black Sheep," 2nd grade; "My Pony," Roy Dunsmore; Vocal solo, "The Land of Nod," Esther Greer; Solo dance, Ruth Reed; "A Dream," Anna Mills; "At the Old Church Door," Orchestra; Recitation, George Mills; Song, "Hey, Diddle, Diddle," 2nd grade; Selection (original arrangement), Orchestra.

The refreshment committee served delicious home-made cake at the close of the program.

Elsie W. Stradley, Publicity Chairman.

She Would Change Geography  
Nancy was saying her prayers. "Please," she petitioned, "make Boston the capital of Vermont."  
"Why, Nancy!" exclaimed her shocked mother. "What in the world made you say that?"  
"I made it that on my examination papers today, and I want it to be right!"—Mrs. E. W. Salsbury.

## TEST YOUR HERD ADVISES AGENT

Shows Testing Outfit In Fair Exhibit; County Agent Exhibits Presents Work Of Department

Know your cows. Weigh and test milk at regular period is the advice of the County Agent to the farmer dairymen of the county. This with a complete testing outfit is part of the agents exhibit this week in the University of Delaware Building at the Wilmington Fair near Elmore.

Other features of the exhibit are ones pertaining to the wheat variety tests conducted at Middletown and Newark in this county, and the results of alfalfa campaign in the three counties. A whole booth right inside the door is devoted to the value of treating wheat and corn to prevent disease and increase profits.

It is expected that many farmers will see this exhibit during the week. Mr. William hopes to get in touch with every farmer who examines the exhibit and wants aid in any of their problems. "The County Agent of New Castle County is here to help the farmers of the county and if anyone

wants this help all they have to do is to ask for it and a visit will be made to them," says Mr. William.

In presenting this exhibit the agent has released the following statement: "The County Agent exhibit at the Wilmington Fair this year was made with several purposes in view. It was made first with the idea of presenting to the farmers of the county several of the lines of work being carried on in the county. To show what has been done, what is being done and to present suggestions on future work. It is also being presented with the hope that more farmers of the north of Mt. Pleasant will this year treat wheat, it rests on every man to do it at home in a home-made outfit. Study the exhibit at the Fair, ask for information and then treat your wheat is the agent's advice on this problem.

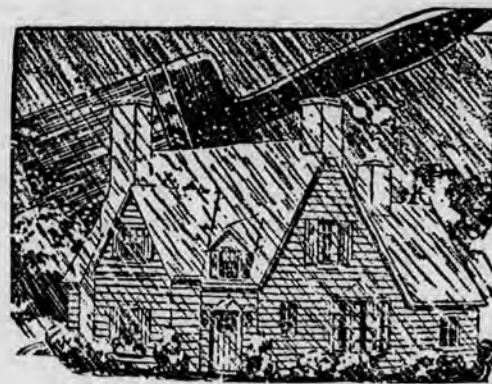

As far as the best variety of wheat to be raised in the county goes the county will get in touch with the agent about not only the things presented in the exhibit but also any other problems which they have and with which the County Agent can possibly help them.

The seed treating exhibit right inside of the door should be of special interest to all grain growers in the county. To the farmers north of the canal it should be a big help in showing them how to treat their wheat for smut. Since no grain dealer

dope on this is shown by the results of tests made at Newark and at Middletown. The best variety at Newark is not the best one for the Middle town wheat area, chiefly on account of the difference in soils. A grain grower should sow the variety which will yield the highest number of bushels of quality wheat.

The milk and alfalfa exhibit should be combined because alfalfa hay goes a long way in helping to get more milk at a lower feed cost. But aside from this exhibit shows also the value of everything and testing the milk at regular periods. If the dairymen did only one of these two things, weigh the milk of each cow two, three or four times a month and in this way learn his high producers he would soon be getting the same amount of milk with fewer cows. With fewer cows this means to the dairyman a lower feed expense, a lower labor expense with the same income from milk. It has been shown repeatedly that the dairymen can breed up his cows to a higher level of milk production by knowing his good ones and then by using a proven bull as the herd sire. In three to five years the farmer's herd which now gives about 3000 pounds of milk per cow can be increased to 5000 pounds per cow. Cow testing association records and individual breeder records show that this is being done every day by dairymen in milk communities.

The seed treating exhibit right inside of the door should be of special interest to all grain growers in the county. To the farmers north of the canal it should be a big help in showing them how to treat their wheat for smut. Since no grain dealer

# NEWS OF THE NEIGHBORING TOWNS

AS TOLD BY OUR CORRESPONDENTS

## Christiana

Everybody is asked to remember the Harvest Home service to be held at Salem M. E. Church Sunday, October 14, at 2 p. m., with preaching by Rev. T. R. Van Dyke, of New Castle.

Two other important dates are October 17, when the ladies of the Christiana M. E. Church will hold their annual chicken and oyster supper in the vestry of the church, and October 21, when the Presbyterian ladies will serve their regular fall supper in Eagle's Hall.

Sunday, October 14, has been chosen as Home Coming Day at the Presbyterian Church. Further announcement will be made in this column as to the hour of the service, and the special speaker for the occasion.

One week from Saturday, that is on October 6, the pupils of the first four grades of the Christiana School, under the leadership of their teacher, Mrs. E. E. Kennard, will hold a bake-sale. Their purpose is to raise funds for making some needed improvements in their school-room. It is hoped that all the parents and other interested people will help the children in this worthy enterprise.

On Monday afternoon Mrs. Thomas Appleby called a meeting of the Presbyterian ladies, to make arrangements for their supper. Mrs. Appleby is chairman of the general committee, the other members being Mrs. Frank Moody and Mrs. Raymond Lyman. The following subcommittees were appointed at this meeting: Cake and candy, Miss Florence M. Appleby, chairman, Mrs. Raymond Lyman and Mrs. Harry C. Dance; fancy table, Mrs. Wm. H. McCoy, chairman, Mrs. Oliver Rothwell, Mrs. George Appleby and Mrs. I. T. Morrison; coffee, Mrs. Edward Weer; oysters, Mrs. Wilkinson E. Cranston; ham, Mrs. Frank Moody; baked beans, Mrs. Wm. T. Harrington; and chicken salad, Mrs. Benj. H. Moor.

Monday evening a number of girls met at the Methodist parsonage and, under the direction of Miss Good and Miss Kemp, Y. W. C. A. officials from Wilmington, organized a local branch of Girl Reserves. Officers were elected as follows: President, Lois Phelps; vice-president, Elizabeth Moore; secretary, Helen Elliott; treasurer, Ellen Cunane. The following committees also were appointed: Program Committee, Frances Lowth, chairman, Mollie Cleaves, Alfreda Novak and Vivian See; Social Committee, Rachel Phelps, chairman, Esther and Madeline Cunane; Service Committee, Sara Moore, chairman, Elsie Ware and Regina Novak. Mrs. Preston W. Spence, Jr., will act as advisor.

Meetings will be held the first Saturday afternoon in each month, and the second, third and fourth Tuesday evenings. The Saturday afternoon meeting will be an out-door one, weather permitting.

Miss Kate Darlington returned home Saturday evening, after a several months' visit with her niece, Mrs. Lee Murray, at her home near White Clay Creek Church. During the summer Miss Darlington was quite seriously ill, but is now much improved.

Mr. and Mrs. Olan J. Cleaver and family and Mr. and Mrs. Powell Murphy spent Sunday with friends at Greenville, Delaware.

Mr. and Mrs. Frank Morrison, Jr., were Sunday visitors at the home of Mrs. Morrison's parents, Mr. and Mrs. George W. Davis.

Mr. Ralph Leasure visited friends at Sudlersville, Md., on Sunday.

Mr. and Mrs. Alfred Clabe, of Holmway Terrace spent Sunday with Mrs. Clabe's parents, Mr. and Mrs. Louis Denn. Mrs. Clabe was formerly Miss Ella Denn.

Dorothea Rothwell and Ruth Phelps, members of the class of '28, Newark High School, registered last Thursday as freshmen at the Women's College, in the Arts and Science Course.

Mrs. James Appleby, of this place, with Mr. and Mrs. H. Vernon Lyman, of Stanton, motored to West Chester on Sunday, to visit Miss Eunice Prouse, who is student at the Teachers' College there.

Miss Florence M. Appleby and her sister, Mrs. Harry Hance, of State Road, are planning to leave on Thursday for a week's stay at Atlantic City.

Last Tuesday evening Mr. and Mrs. Olan Cleaver entertained a number of friends in honor of Mr. Cleaver's cousin, Miss Leona Newman, and Mr. Jack Wicks, of Cape May, N. J. Besides Miss Newman and Mr. Wicks, the guests were Mrs. Hester Cleaver, Miss Ella Moore, Mr. and Mrs. Powell Murphy and Mrs. Wilbur Bush, Jr., all of Christiana; Mr. Calvin Baker and Mr. Walton Willis, of Denton, Md.; Miss Newman and Mr. Wicks were for some time the guests of Mrs. Hester Cleaver.

Miss Anna McLane, of Elkton, has been visiting Mrs. Louis Thorp, Jr., at her home here.

## Elkton and Neighboring Towns

The Broadway Church House in Perryville, presented to the Methodist Episcopal Church by Mrs. William H. Cole, was dedicated Friday night, with special exercises.

The jury in the Cecil County Circuit Court at Elkton, Friday in the condemnation suit of the Philadelphia, Baltimore and Washington Railroad Company, to obtain a certain property in Port Deposit, necessary in the proposed elevation of the tracks in that town, rendered a verdict for \$6000 in favor of the plaintiff.

The Cecil County Unit of the American Red Cross has made an appeal to the people of the county for funds for the sufferers from hurricanes in Florida and other Southern States.

The Cecil County School Board has awarded a contract for heating and ventilation for the proposed new high school building in Perryville, to the Baltimore Heat Corporation at a bid of \$2,904.

Two cases of infantile paralysis have been reported in Cecil county—one in Warwick and the other in Rising Sun.

Mrs. Madge E. Sears, of Perryville, has docketed a suit in the Circuit Court at Elkton for a divorce from her husband, Melvin S. Sears, on the grounds of desertion.

The movement started recently to raise the sum of \$1500 towards paying off the indebtedness on the Methodist Episcopal parsonage in Chesapeake City, has resulted in over \$1300 being subscribed.

Clarence D. Cullen, of near Rising Sun, reports a return of 489 bushels of wheat off 11 acres, an average of 44 1/2 bushels per acre. Leslie Rawlings of the same neighborhood threshed 268 bushels from 6 1/2 acres, an average of 41 bushels per acre.

## DEMOCRATS ORGANIZE IN CECIL COUNTY

Democrats of Elkton and vicinity met at the office of W. Sterling Evans in Elkton Friday night, and organized a Third District Democratic Club. John H. Terrell, a member of the Democratic State Central Committee called the meeting to order following which over two hundred men signed up as members.

Officers were elected as follows: President, Dr. S. Claude Sykes; vice-presidents, Henry L. Constable, James F. Evans, John H. Terrell, Dr. W. D. Cawley, Robert J. McCauley, Edwin S. Dorcus, H. W. Lewis, Manly Drennen, F. Rodney Frazer, Louis A. Seth, Fred Lewis, Frank H. Thompson, J. W. McAllister, Benjamin H. Davis and John K. Burkley; secretary, Fred H. Leffer; treasurer, W. Sterling Evans; chairman of registration committee, H. W. Lewis.

Plans were outlined for a big mass-meeting to be held Monday, October 8, when Senator William Cabell Bruce, Congressman T. Allen Goldsborough and Governor Ritchie will be present.

## GRAND JURY REPORTS 29 INDICTMENTS

Before making its report to the Judges and being discharged, the Grand Jury of the September term of Circuit Court for Cecil county brought in twenty-nine indictments, as follows: For murder, Edmund Howerly, Joseph Grey, and Palmer, alias Paul Rakes; assault with intent to kill, Morris LaRue, colored; assault, Robert Mullen; desertion and non-support, William Patterson; larceny, Henry Z. Short, N. C. Cameron, Paul Russell, Henry S. Love, George R. Russell, George R. Bidwell, Grover C. Rhodes, William H. Mousley, Wil-

Miss Elizabeth Levey, daughter of Mr. and Mrs. John Levey, has gone to Reading, Pa., where she has obtained employment.

Mr. Richard Megginson, who formerly made his home with the Bidwell family, has recently rented a room from Mrs. Hester Cleaver, and has moved there.

Another new assortment of books has been brought to the Christiana Library, an especially attractive collection, too. With the coming of fall, the library seems to be growing in popularity, and is certainly a wonderful addition to the community.

Mrs. Sara Kilvington has been seriously ill at her home here, but has now sufficiently recovered as to be able to be down-stairs. She is still very weak, however, and it will doubtless be some time before she is able to be about as before.

Word was received here Saturday of the death of Mr. Harry C. Morgan, of Haskell, N. J., formerly of Wilmington. Mr. Morgan was the brother of Mrs. Oliver Lyman and Messrs. Richard A. and Walter W. Morgan, all of Christiana. The funeral took place Tuesday afternoon from Yeatman's funeral parlors, in Wilmington, with burial in Riverview Cemetery.

There will be a meeting of the Trustees of the New Stanton Consolidated District No. 38 on Tuesday evening, September 25, at 8 p. m., D. S. T., at the home of Mrs. Chas. P. Dickey. J. Pearce Cann, their attorney, has called the meeting to discuss the Bond issue. The trustees are Paul Weir, Arthur Maclary and Mary E. Dickey.

The Ladies of St. James P. E. Church, Stanton, have a booth at the Fair in the Mercantile Building. They will be glad to serve their friends with lunch, sandwiches, coffee, cake, home-made pies, etc., at a reasonable price. The proceeds for the benefit of the Rectory fund.

Diamond State Grange held their regular meeting Monday night, September 24, reports were made by the committees in charge of the Annual Home Coming, held a week ago. Everyone voted the Home Coming a success. Great credit was due the committee in charge.

St. James P. E. Church School held their Rally Day exercises on Sunday, September 23, at which time promotions were made and promotion certificates given. The school is a graded school and the scholars are promoted once a year. Encouraging talks were given by the Rector, Rev. E. A. Rich, and the superintendent, R. Earle Dickey. The regular services at St. James on Sunday are: Church School, 9:45 a. m.; Morning Prayer and Sermon, 11 a. m.; Young People's Fellowship, 4:30 p. m.

Misses Hester, Frances and Ernestine Rich and Master Jack Rich, have returned to school at Baltimore, after spending the summer with their parents, Rev. E. A. Rich and Mrs. Rich.

Mr. and Mrs. Chas. P. Dickey, of Stanton, and Mr. and Mrs. R. Earle Dickey, of Christiana, motored to Conowingo on Thursday.

Mr. A. Lyman Satterthwaite, of Wilmington, was a guest of his parents, Mr. and Mrs. Alvin Satterthwaite, on Thursday.

Mrs. Hettie Donaldson, of Rock Hall, Md., was a recent guest of her brother, Chas. P. Dickey.

Miss Esther Miller was a Wilmington visitor on Saturday.

Miss Edna Jacobs, of Dagsboro, is the guest of Miss Ella Bradley.

Mr. Wm. Chambers, proprietor of Stanton Garage has returned from Atlantic City, where he spent his vacation.

Mr. and Mrs. W. Crouch and children, Betty and Billy, were the weekend guests of Mr. and Mrs. B. L. Dickey.

Mrs. Lewis Dickey spent Sunday with her son, J. Harvey Dickey, Newark.

Mr. and Mrs. Robert Goodier, of Vineland, N. J., were the Sunday guests of Mr. and Mrs. Thomas Jeffers.

Mr. and Mrs. H. A. De Groot and friends, of Glenside, Pa., motored to Chestertown, Md., on Sunday.

Mr. and Mrs. Frank Hawthorne spent Sunday with Mr. and Mrs. George McCarns at their Cottage at Sunset Lake.

Ralph Hawthorne and John Dennison motored to Atlantic City over the weekend.

Mr. and Mrs. Leroy Hawthorne and Mr. and Mrs. Leroy Lawrence and son of Wilmington, spent last week with friends at Oswego, New York.

Mr. Robert Hawthorne spent Saturday and Sunday with friends in Philadelphia.

St. James' Branch, G. F. S. A., held their first fall meeting at the home of the Branch President, Mrs. Chas. P. Dickey, on Wednesday evening. The winter's work was discussed. It was decided to hold a Platter Supper in B. L. Dickey's store room on Friday evening, October 12, from 5 to 8 p. m., for the benefit of the branch.

The Stanton Community Association held their first meeting this fall in the Community House. Charles Wilson, the newly elected president, was in the chair. Several matters pertaining to the safety of the school children were discussed and the Association will endeavor to have the speeding of trucks and motorcycles through the town stopped.

The recently elected Building Commission for the new consolidated school, met with the State Board of Education, on Friday last, in County Supervisor's room in the County Building, Wilmington. The members of the Commission are Alvin Satterthwaite, Paul Weir, Chas. P. Dickey and Clarence E. McVey; they organized by electing Chas. P. Dickey, president; Paul Weir, vice-president. The Commission is looking for a plot of ground of not less than five acres on which to build the new school. Any one having ground for sale that will be suitable, please notify the Commission. The new Stanton Consolidated District No. 38 is comprised of Stanton No. 38, Sunnyside No. 95 and Forest Oak No. 35.

The Girl Reserves held a party on Friday evening at the home of Miss Evelyn Temple. About fifteen members of the group attended as well as twelve guests. Miss Roberta Foard is the leader of this organization.

Hester, Ernestine, Frances, Adrian and Jack Rich, the children of Rev. and Mrs. Ernest A. Rich, have gone to Baltimore to resume their school duties.

The thirty-first annual convention of the Christiana Hundred Sunday School Association to be held in Green Hill Presbyterian Church tomorrow afternoon and evening will be attended by a number of persons

## Glasgow

Mrs. Harry Dayett spent Friday in Wilmington.

Mr. and Mrs. Harvey Steele, of Newark, spent Saturday with her aunt, Miss Annie Alrich.

Miss Celestia Wilson, of New Castle, spent Sunday with her parents, Mr. and Mrs. Edward Wilson.

Mr. and Mrs. George Pierce, of Richardson Park, were callers in the village on Sunday.

Rev. McCabe, of Middletown, and Rev. Linhurst, of Wilmington, are taking part in the services at Glasgow M. E. Church on Sunday afternoon, assisting Rev. Collins.

Mr. and Mrs. Crawford Wilson and daughter, Doris, of Minquidale, spent Sunday with his parents, Mr. and Mrs. Edward Wilson.

The Supper held by the Ladies of the Glasgow M. E. Church at the home of Mr. and Mrs. Julian Laws, on Thursday evening, realized about \$35 after expenses were paid. Benefit of pastor's salary.

Mr. Herman Leasure has enlarged his lunch room, making quite an improvement.

Harry McIntire was nominated for State Senator on Saturday for Pender and St. Georges Hundreds, over a majority of 7 votes for Wm. J. Crompton.

Mr. and Mrs. George Daer and children, Virginia and Elwood, of Preston, Md., visited Glasgow.

Mr. and Mrs. George Council, of Middletown, spent Sunday with Mr. and Mrs. Charles Leasure and family.

Mr. and Mrs. Wm. Victor, of Stanton, spent Friday evening with Mr. and Mrs. Charles Leasure.

Dr. Armentrout preached in Glasgow Presbyterian Church on Sunday afternoon, after the church being closed since July 15.

## Ogletown

Mrs. Harvey Tyndall and family spent the week-end with her mother, Mrs. Berry at Cheswold, Delaware.

Mr. and Mrs. H. A. De Groot and friends, of Glenside, Pa., motored to Chestertown, Md., on Sunday.

Mr. and Mrs. Frank Hawthorne spent Sunday with Mr. and Mrs. George McCarns at their Cottage at Sunset Lake.

Ralph Hawthorne and John Dennison motored to Atlantic City over the weekend.

Mr. and Mrs. Leroy Hawthorne and Mr. and Mrs. Leroy Lawrence and son of Wilmington, spent last week with friends at Oswego, New York.

Mr. Robert Hawthorne spent Saturday and Sunday with friends in Philadelphia.

## Stanton

St. James' Branch, G. F. S. A., held their first fall meeting at the home of the Branch President, Mrs. Chas. P. Dickey, on Wednesday evening. The winter's work was discussed. ## FARM EGG CLUB AUGUST REPORT

128 Farms Report Lower  
Averages Than Last Year;  
Clean Laying Houses

One hundred and twenty-eight farms reported to the Delaware Farm Egg Record Club for the month of August. The averages were as follows: Pullets, 11.4 eggs per bird; hens, 11.3, and mixed flocks, 11.6. In August, 1927, the averages were: Pullets, 12.5; hens, 13; mixed flocks, 13. The best average this August was made by a mixed flock, which averaged 24.5 eggs per bird. The highest average for a flock of hens was 17.3; and the highest averaging flock of pullets laid 18.2 eggs per bird.

Appended to the club report was the last letter in the "Grow Healthy Chick Campaign." This was prepared by Mr. H. S. Palmer, extension poultryman at the University of Delaware, and distributed from the office of Ed Willim, Jr., New Castle County Agent. The letter follows:

### Clean Laying Houses

The last point (No. 8) in our "Grow Healthy Chick" Program is Clean Laying Houses. Even if the pullets are in fine condition, they are more subject to diseases than old birds; and for this reason it is very important that the laying houses be thoroughly cleaned before putting the pullets in.

Remove all the litter and manure from the floor.

Scrape all particles of manure from hoppers, fountains, roosts, etc.

Sweep the walls and ceiling.

Scrub the floors, walls, and fixtures with hot lye water.

Spray the entire interior with a strong disinfectant.

Dirt floors should have several inches removed and replaced with fresh clean dirt or sand.

Floor litter is needed to absorb the moisture from the droppings and to keep the layers' feet clean. If grain is fed on the floor, only a thin layer of litter should be put in for the pullets at first. After they learn to scratch for the grain, the amount of litter may be increased. Many poultrymen are using peat moss litter, just enough to cover the floor, and are feeding grain in the mash hoppers on top of the mash.

### A Tonic For Pullets

If you have a flock of unthrifty pullets, you should resolve now to do better next year by following the eight points of the "Grow Healthy Chick" Campaign. But such a resolution will not help your present condition.

We have seen several poultrymen improved the condition of their pullets in the following manner:

Take whole yellow corn and smear just enough of condensed buttermilk on it to thoroughly coat the grains. Feed this mixture to the pullets once or twice a day in hoppers or troughs. Feed only as much as they will clean up in 15 or 20 minutes. Do not mix more than they will eat at one feeding.

Once the pullets get a taste of the buttermilk, they will soon learn to like it. The milk seems to serve as a tonic and appetizer, and the corn helps to put on extra flesh. Of course, they should be getting the dry mash in hoppers as usual.

## WEDDINGS

### MORRIS-KING

On Saturday afternoon Miss Mary Ruth King, daughter of Mr. and Mrs. N. Harvey King, of Bridgeville, was married to Russell Harkness Morris. The ceremony was performed at the home of the bride's parents by the Reverend Disston W. Jacobs, pastor of the Newark Methodist Church. The wedding was attended by relatives and a few close friends of the bride and groom. The newly married couple are on a wedding trip which includes Washington, D. C., Virginia and Tennessee, and will return to their new home at Orchard road and Sunset avenue on October 15.

Mrs. Morris was a student at the Women's College, University of Delaware, and Mr. Morris is the trust officer of the Newark Trust Company.

Dean Robinson, Mr. and Mrs. A. G. Wilkinson and Miss Irene Wilkinson were among the friends who attended the wedding. Miss Wilkinson played the music for the wedding march.

An amusing incident to the occasion developed when the Reverend Jacobs opened his traveling bag and found it full of confetti. His luggage had been mistaken for that belonging to the groom.

### PUPILS TO BROADCAST

On October 1, at 4:30 p. m., pupils of Mrs. Florence Hastings will broadcast from station WDEL, Wilmington. Mrs. Hastings is the director of the B Natural Club, a junior musical organization, whose purpose it is to foster good music in the home and the community. Mrs. Hastings is a graduate of the Sternberg School of Music, Philadelphia, and has been teaching for ten years.

### DEMOCRATIC MASS MEETING

There will be a Democratic mass meeting at the Newark Opera House next Wednesday evening at 8 o'clock. The speakers will be Senator Thomas F. Bayard, Honorable John M. Richardson, and Dr. Charles Wharton. Democratic nominee for Governor. The Continental Band will furnish music.

H. L. Dozier—Dahlia tuber, catalog value \$2.00, for best single decorative Dahlia bloom.

## Will Abandon Pomeroy Train

(Continued from Page 1.)

On the road are Newark, Tweed, Thompson, Yeatman, Landenburg, New Garden, Avondale, Baker, Chatham, Clonmell, Green Lawn, Beaver Dam, Glen Rose, Stottsville, Springfield, Doe Run, Buck Run and Pomeroy.

This division was first put in operation in 1873 and for some years the trains ran from Pomeroy to Delaware City, the chief purpose of the road being a short cut to tide water. Some years later, owing to the trains having to cross the main line at Newark the division was separated, one train running from Newark to Pomeroy and the other from Newark to Delaware City. About three years ago the steam train was taken off the run from Newark to Delaware City and one of the gasoline operated cars put on but this was also abandoned some months ago. This leaves Newark after next Saturday without any passenger service either to Pomeroy or Delaware City.

Amos Osborn, for years a conductor, and Frank Smith, baggage man on the old Newark and Pomeroy steam operated train are on the railroad retired list and live in Newark.

Mr. Osborn in discussing the old Pomeroy division yesterday said he never heard of any other division of that length having as many bridges.

Mr. Osborn went to work for the Pennsylvania in 1870 on the P. B. and W. division. In 1884 he was transferred to the Newark and Pomeroy division and remained there until he was placed on the pension list 13 years ago. Mr. Smith has also been on the pension list for some years.

For a great many years after the division was opened a combination freight and passenger train was operated over the division but in 1901 a train composed of an engine, one coach and one combination car was put on and remained in service until the gasoline operated car replaced it.

Freight service will be continued over both the Pomeroy and Delaware City divisions.

### MOUNTED POLICE

Last Saturday, the Newark Chamber of Commerce financed the purchase of a motorcycle by Special Town Officer and County Constable William Wideman. The machine is the latest type Harley-Davidson and is the same model that is in use by the State Police. This move was made by the Chamber to reduce speeding through the streets of Newark.

## Lodge Notes

### A. O. U. W. INITIATES AND ENTERTAINS

Anchor Lodge, No. 4, A. O. U. W., entertained a delegation of prominent Workmen from Wilmington last Thursday evening, when six candidates were initiated into the local lodge. The visitors included Grand Master Workman Howard F. McCall; Grand Recorder Charles B. Prettyman; Grand Field Manager Joseph T. Smith and Mrs. Smith; Chairman of the Grand Lodge Finance Committee E. C. Clark and Charles C. Nickleson of Wilmington Lodge No. 1. Mr. and Mrs. William L. Smith, of Blackwood, N. J., also accompanied the Wilmington party.

The Grand Master complimented Anchor Lodge on its continued increase in membership, and extended a special invitation to all members of the Lodge to attend a banquet which he will give on November 1, to celebrate the Sixtieth anniversary of the founding of the Order, which was the first fraternal insurance organization founded in America, being organized at Meadville, Pa., on October 28, 1868. The banquet was originally planned for those who had secured new members during the sixtieth anniversary membership campaign, but in recognition of the fact that the local lodge is and has been one of the most active in the jurisdiction, the invitation has been made to include all the members.

Short talks were also given by Grand Recorder Prettyman and Grand Field Manager Smith, and others.

It was decided to hold installation of officers on October 25. An invitation to attend the installation of officers of Wilmington Lodge, No. 1, on October 18, was received.

Price Jackson, who is acting as Deputy Field Manager for this section, promised to have another class of candidates before the close of the membership drive.

### SUCCESSFUL SOCIAL

Last Friday evening the A. O. U. W. Boosters Club held a cobweb social at the home of Mr. and Mrs. Frank H. Balling. After the webs were untangled music, dancing and refreshments were enjoyed. There was a very good attendance, and the club treasury was enriched by about twenty dollars as a result of the affair.

### WELFARE MEETING

The first Fall meeting of the Welfare Committee of the Newark New Century Club was held at the home of Mrs. Helen Wilson, Tuesday morning. This meeting was called for the purpose of organization and planning for the winter's work.

### MEETING

The regular monthly meeting of the Baracca auxiliary of the Presbyterian Church, will meet at the home of Mrs. Frederick Ritz, Tuesday evening October 2, at 7:30 o'clock.

## OBITUARY

### JAMES RING

James Ring, a well known resident of Newark for many years, died Sunday at his home on Church street, at the age of 74. His funeral was held this afternoon, at 2:30 o'clock, standard time, from his late home, the Reverend Disston W. Jacobs officiating. He was buried in the Newark Cemetery.

Mr. Ring is survived by his wife; son, William, of Newark, and two daughters, Mrs. George Dobson, of Newark, and Mrs. William Marsey, of Yorklyn. Mr. Ring was a member of the Odd Fellows and of the Jr. O. U. A. M. For many years he was employed by the Continental Fibre Company.

### BENJAMIN HALLETT

Benjamin Hallett, 17-year-old son of Mr. and Mrs. James Hallett, of Lewisville, Pa., died Sunday of blood poisoning in the Homeopathic Hospital, Wilmington. Funeral services were held this morning at 9:30, at St. John's Church, Lewisville, the Reverend Cook, of Lewisville, officiating. Interment was in the Head of Christiana Cemetery.

The young boy fell from a manure spreader last week, and was cut on the head and one hand by the prongs on the back of the machine. Blood poisoning set in and spread rapidly, causing his death.

### MINNIE S. MAXWELL

Mrs. Minnie S. Maxwell, wife of the late Jacob H. Maxwell, died Sunday at Hamilton Park. Funeral services were held this afternoon, at 1:30, at the Friends Meeting House, Hockessin. Interment was in the adjoining cemetery.

## LOCAL CANDIDATES

The names of a number of local men appear on the tickets of both parties for important posts, which will be decided at the coming general election.

At the Democratic primaries, held last Saturday, H. Warner McNeal was selected as nominee for Levy Court Commissioner for the Fifth District; Charles E. Barrett was selected as representative nominee for the Ninth District, and J. Leslie Ford, for the Twelfth District.

At the Republican primaries, to be held this Saturday, Harvey O. Hoffecker will stand for re-election as Prothonotary, and Wayne C. Brewer will be the candidate for Representative for the Ninth District.

## I. O. R. M.

Minnehaha Tribe, No. 23, I. O. R. M., at a regular meeting last evening elected the following officers:

Sachem, George Gravenor; Prophet, Norris Pratt; Senior Sagamore, Clarence E. Denney; Junior Sagamore, Nathan Davis; Representative Great Council, Arthur Bolsby; Trustee, 15 Moons, John Buckingham.

On next Monday evening Deputy Great Sachem, Mark McCallister and Staff of Great Chiefs will visit Minnehaha for the purpose of raising the new chiefs.

## Mermaid

### Harmony Grange

The regular meeting of Harmony Grange was held on Monday evening. During the course of business the fertilizer order was ordered sent the next day. The committee on applications reported favorably on all received. The committee on the Grange exhibit at the Wilmington Fair reported that all exhibits have been placed. Plans for enlarging the hall were discussed and made the special order of business for next Monday night.

A communication from the National Grange Master, asking for a perfect attendance of Grange members at church on September 30, "Grange Go To Church Sunday." A roll call will be made at the next meeting to ascertain the percentage of attendance.

The Lecturer's program was in charge of Miss Ruth Ball and Miss Mildred Porter. The program consisted of singing by the grange; a recitation, Frances Maclary; reading, Edna Jones; reading and quiz by Mrs. George Ball; a minstrel skit by Mrs. Pearl Harrington, Margaret Derickson, Mrs. Klair Eastburn, Mrs. Addie Klair; Mrs. Lillian Springer gave jokes and personals. The meeting closed with singing by the Grange.

## Personals

Bancroft Peach and Robert McLane returned on Sunday from a motor trip north through eastern Pennsylvania, New York, into Canada, and south through western Pennsylvania and Maryland.

Miss Clara Morrison and Miss Helen Pennington were week-end visitors at the Mermaid.

Mrs. Mary Dennison, of Kennett Square, has been spending the week at the A. B. Dennison home. Mr. and Mrs. Thomas Dennison called on their mother, Mrs. Mary Dennison, on Sunday.

Mr. and Mrs. Leonard Eastburn entertained the following at dinner on Sunday: Mr. and Mrs. Oscar Blair, Betty and Sara Jane Blair, Mr. and Mrs. Frank Schwartz, Mrs. Joe Armstrong and Helen Armstrong.
