#### OF, BY AND FOR the people of the Delaware Community

The WILMINGTON SUNDAY STAR that makes its first appearance March first will be a bigger-a better newspaper. It will consist of more pages-more sections-more news-more features, than ever before. It will be produced by better machinery and a larger staff of reporters, editors, feature writers and other personnel than ever before. It will be dedicated to the people of the Delaware Community-serving residents of the Diamond state and nearby areas in Pennsylvania, Maryland, and New Jersey.)

#### It will bring you:

LATE BREAKING LOCAL AND WORLD NEWS .- By the Sta's own local correspondents—from the wires of Associated and United Press and other press services will come late news—completely and accurately reported.

**HOMETOWN NEWS.**—The stories concerning the churches, schools and civic organizations of our area will keep every Star reader informed about these important local activities. SOCIETY.—The social news—homemaker's hints —home economics—news of big and little things happening to people in your community.

SPORTS.—This traditionally favorite section will be enlarged—there'll be more stories—more pic-tures—from all sports—on the local as well as national scene.

BUSINESS.—In one of the fastest growing trading areas of our nation the news of business is im-portant news. This will be reported and edited carefully for the Wilmington Trading Area and Delaware by the Wilmington Sunday Star.

EDITORIAL--Comments on the news-the views of our editors--and the views of our readers will constitute our editorial pages designed to inter-pret thoughtfully the events that make present day history in our state and nation.

WERX'S EVIEW. - Informative, interesting, com-prehensive. The Summary Of The Week's News In Delaware has become an important part in the Sunday reading habits of Delawareans. It will play an important role in the future-giving you a panoramic view of Delaware's current his-tory, linked together as it developed during the past week.

past week. IOCAL MAGAZINE.....A hometown magazine section dealing with the persons, places and subjects important to you as a member of our community. It will contain stories and articles by our own magazine staff writers and photos by our own photographers. More costly to produce than the mere insection of a nationally produced maga-zine section with little or no local significance this section plays an important part in our deter-mination to be "Locally Yours".

AMUSEMENT.—The complete guide to entertain-ment activities close to home—a full week in advance. It will bring you the complete listings of all television stations received anywhere in the state, radio schedules and highlights, theater news and playbills and nightclub comments to help you plan your entertainment for the coming week.

PICTURE FAGE.- A full page of pictures from the news stories of the week.

ADVERTISING.—In every section, advertisements showing the products of the businesses and merchants of our community. Your weekly guide to wise and economical buying for your family needs with Sunday's leisure hours to compare values

COMICS.—33 comics, in full color, carefully se-lected for the laughs and chuckles they bring. Nancy, Howdy Doody, Bugs Bunny, Right Around Home, Our Boarding House and 28 other favorites will make up the Star Comic Section.<sup>1</sup>

And so, the WILMINGTON SUNDAY STAR will be a bigger and better newspaper in every way. And the "PARADE OF PROGRESS EDITION"-the edition marking the beginning of the Star's 73rd year? as well as the beginning of the new WILMINGTON SUNDAY STAR will be a special edition-in many ways. In it you'll see a preview of the WILMINGTON SUNDAY STAR-a newspaper we plan to make one 1000 of the outstanding local Sunday newspapers of our country.

# A Salute to Thomas Edison ....

who turned a world of darkness into an age of miracles

Thomas Edison's genius has lighted the way to over a century of progress and improvement ... in science, in medicine, in the home, on the farm, in industry and business.

His more than one thousand U. S. patents have reached into practically all business, industries and professions . . . helping America achieve the highest standard of living in the history of the world . . . forming the groundwork upon which other scientists have developed health-giving, lifesaving discoveries.

To Thomas Alva Edison's memory on the anniversary of his birth - February 11th - we salute the man who turned a world of darkness into an age of miracles.

We wish to use as much as possible, help from people who live in Newark in our construction work. We also wish so far as possible, to purchase supplies and other equipment from Newark sources. We are most anxious to patronize and work with people in the fine city of Newark. We should like particularly to obtain the services of two people to fill the following iobs:

- 1 Material Clerk, Bookkeeper and General Office Clerk to care for office detail, either man or woman, the function being primarily to keep a record of payments, dealings with contractors, prepare pay rolls, seek materials and service supplies.
- 2.--- Labor Foreman a man who can keep the job tidied up, act as general caretaker, take care of common labor on the job, service delivery of materials and otherwise hold the job together.

If there be any persons in Newark who would be interested in the above positions, will they please communicate with the Newark Post, Box 60, Extension 100.
