

## Handloff Chosen Editor-In-Chief To Succeed Nichols

**Will Take Office With Next Issue;  
Active In Other Campus Or-  
ganizations; Business Manager  
To Be Chosen At Later Date**

The Committee on Publications has confirmed the appointment of Alvin I. Handloff to the position of editor-in-chief of The Review to succeed James Nichols, who will remain on the staff in the capacity of advisory editor after February 27, at which time the new editor will assume office. Nichols has been editor-in-chief of The Review since March 1, 1934.

Since his freshman year in high school, Handloff has been active in journalism. Trained by working for the Smyrna High School "Spy Glass," he has been upon The Review staff throughout the three years of his Delaware career, and at the present time holds the position of managing editor.

Besides writing for The Review Handloff has participated in other campus activities. He has been corresponding secretary of the Sigma Tau Phi fraternity, and is now the secretary of the Footlights Club, campus dramatic organizations and corresponding secretary of the Delaware College Student Council.

The new Business Manager will be chosen next week.

In changing of executives at this time of the year, The Review is continuing the plan started several years ago of giving the new Editor and Business Manager a chance to run the paper while their predecessors are still in school and available if needed to advise and help.

## Rees Talks On 'Success In College And Business'

**Assistant Vice-President Of A. T. & T. Tells College Hour Group  
The Importance Of A Good  
College Record**

On Tuesday, February 19, General R. I. Rees addressed the College Hour on the subject "Success in College and Business." The program was sponsored by the Delaware Alpha Chapter of Tau Beta Pi, honorary engineering society.

General Rees, an assistant vice-president of the American Telephone and Telegraph Company, in opening his talk stated that the true value of an education is that it influences every subsequent act in life and enables one better to live in a world in which the principal desire is self-preservation.

In discussing the factors possessed by successful college men, the speaker said that an examination of the campus records of their employes proved that a high scholastic average, achievement in campus activities, and early graduation characterize the college men who reach places of authority and responsibility in the Bell Telephone Company. The ability to become adjusted to environmental conditions, fitness for specific positions, and the opportunity for advancement were listed as factors controlling individual progress to important offices in industry.

"Leadership," said General Rees, "is an extremely important thing" (Continued on page 6)

## ? ? ?

Sixty-one students in Freshman English failed or received conditions at Delaware College last semester; ninety-one passed with a grade of B, C, or D. Not a single A was given out of the class of one hundred and fifty-two. Obviously something is wrong when two-fifths of a class do not do satisfactory work in a given course.

Either too high a goal is set for the students in the first place, or it is too high to be attained from the instruction now given.

Personally we do not feel that English composition is overemphasized here. But we do not feel that the Freshmen are given a square deal when forty per cent cannot pass Freshman English unconditionally.

It is not right to flunk arbitrarily all those who do not measure up to certain criteria, and dismiss them with a shrug of the shoulders as if to say "It's too bad so many failed but nothing can be done about it." The true function of the college is to educate.

If forty per cent of the Freshmen are not equipped with a sufficient command of the English language to pass Freshman Composition they should not, therefore, be automatically cast aside and thrown to the wolves. The college should do its best to remedy and make up for past deficiencies in the education of its students. If the

## "Footlights" Promise Best Comedy In Years

**"The Family Upstairs" To Be  
Presented On March 7th Has  
Excellent Possibilities For  
Great Success**

One of the most laugh-provoking domestic comedies ever to be produced will be brought to the Mitchell Hall stage on Thursday evening, March 7, when the Footlights Club presents, "The Family Upstairs."

This play, which was written by Harry Delf, gives such an intimate picturization of the average home with its petty spats and trivial problems, that one is amused by simplicity and frankness of the scenes.

The scene is laid in the Heller home. Mr. Heller (Bill Lawrence) is a street car conductor, whose life is made miserable by a nagging wife (Caroline Cobb), who is worried that her daughter, Louise, (Vera McCall), will not find a husband.

In her zealous effort to make a match between her daughter and Charles Grant, a bank clerk, (Curtis Potts), she bluffs to such an extent that serious complications of a very comical nature result.

Willie Heller, (Blair Ely), is the wise-cracking, seventeen-year-old son of the family, who feels that he is too old to go to school. He is set upon a political career and spends many of his nights down at the billiard parlor shooting pool with the politicians.

Annabel Heller, (Kay Spencer), the kid sister, provides some rollicking scenes as she practices her piano lesson with her eyes on the clock.

Miss Callahan, (Marjorie Breuer), the dressmaker from downstairs contributes considerable

## Dr. Day and Prof. Kase To Grade Exams In E 205

Carrying out to an extent the proposal of President Hulihan at the College Hour two weeks ago, Dr. Day and Mr. Kase have agreed to compose each other's final exams in Sophomore English. Dr. Day will give Mr. Kase a list of the things to be covered in his class and Mr. Kase will make up the examination for Dr. Day's class from this. Dr. Day will similarly write Mr. Kase's examination. Each professor will, however, correct his own section's papers.

## Dr. Day Publishes New Book

Dr. Cyrus Lawrence Day, assistant professor of English at the University of Delaware, has just published a new book entitled "Sailor's Knots." In it are contained over 150 knots, splices, senit plaitings, lashings, servings, wire splicings, etc., each illustrated by exceptionally fine photographic plates.

The foreword of the work was written by Felix Riesenbergh. The book was published by Dodd, Mead and Company, New York.

## Pres. Hulihan Denies Criticising Del. Teachers

**States That He Is In Opposition  
With U. S. College Methods  
In General**

President Hulihan in a statement to the Wilmington papers and the Review cleared the false impression these journals may have created recently. He said that the linking of his name with the three letters appearing in the last issue of the Review left the impression that he joined the three students in their attack against University of Delaware professors and their methods of instruction.

Such is not the case. His criticism (Continued on Page 5)

Frances McGee

Frances McGee was elected as this year's May Queen yesterday noon. The Junior Duchess is Betty Armstrong; the Sophomore Duchess, Marjorie Allmond; and the Freshman Duchess, Dorothy Hanby. Other members of the court will be elected later.

## 27 Students Elected To Phi Kappa Phi Honors

**All But Three Delaware Residents; Four 3-Year Students  
In Group**

The local chapter of the Phi Kappa Phi Honor Society, at a meeting last Wednesday afternoon, February 13, elected 15 seniors from Delaware College and Women's College.

In order of their scholastic standing the students so honored are: Delaware College: O. A. Bartley, of Wilmington; Harvey Maguigan, of Wilmington; Olin Towe MacSorley, of Little Creek; Henry H. Stroud, Walter P. McEvilly, Louis Henry Schinfeld, Isadore Slovin, Daniel Ainslee Brown, Daniel L. Herrmann, all of Wilmington; Theodore Oscar Mitchell Wills, of Newark; Albert M. Lupton, John P. A. Veit, Roy Linden Hill, Jr., James Warren Nichols and James Howard Patterson, all of Wilmington.

Women's College: Esther Topkis, of Wilmington; Elizabeth Wood Wills, of Newark; Katherine Elizabeth Lynch of Wilmington; Verona Josephine Chalmers, of Newark; Helen Calvert Handy, of New

## Harlow, Harvard Coach, Speaker At Alumni Banquet

**Seniors Invited To Attend At Reduced Rate; Radio Offered As  
Door Prize To Holder Of  
Lucky Ticket**

The Alumni Committee on Arrangements for the annual Mid-Winter Reunion to be held on Saturday, February 23, have secured as one of the speakers at the banquet in Old College, "Dick" Harlow, new head coach of football at Harvard. Mr. Harlow was recently selected for his Harvard position after coaching Western through an undefeated season last fall. In addition he developed Bill Shepherd, the nation's leading scorer last season.

Other speakers at the banquet will be Mr. C. William Duncan, president of the Philadelphia Sport Writers' Association, who will speak on "Famous People I Have Met in the Realm of Sport;" Dr. George Harlan Wells, whose subject will be "The College Man and the New Deal;" Coach Neil Stahley, whose topic will be "Football at Delaware;" and Secretary of State Walter Dent Smith.

Mr. Joseph McVey will be toastmaster, and the invocation will be given by the Rev. Charles Clash, of Immanuel Church, Wilmington.

It has been announced that steak and French fried potatoes will be served at the banquet. A feature of the affair will be a door prize of a radio to be given to the holder of the lucky ticket.

Seniors at the University have been invited to attend the banquet at a reduced rate, and it is expected (Continued on Page 5)

## Dr. F. A. Stearns Chosen Faculty Member Of P.K.P.

**Entomologist Of National Repute;  
Present Member Of Delaware  
Mosquito Commission**

Dr. Louis Agassiz Stearns, research and extension entomologist, was the faculty member of the University of Delaware, who was honored last Wednesday by election to the Phi Kappa Phi. Dr. Stearns is an entomologist of national repute.

He was educated at Ohio Wesleyan University, where he received his B. A. in 1915. He received his M. S. in 1918 from Ohio State University and his Ph. D. from the same institution in 1928.

During his 20 years of work in his profession, Dr. Stearns has served on many important commissions. In 1916 he was temporary summer field assistant with the United States Bureau of Entomology in its southern field crop investigation of tobacco insects at Clarksville, Tenn.; in 1917 he helped the truck investigation of cucumber insects at Madison, Wis. From 1918-1919 he was assistant entomologist of the Virginia State Crop Pest Commission. From 1924-1927 and 1927-1929 he held similar positions on the New Jersey and the Ohio State Agricultural Experimental Station.

Dr. Stearns held positions at three other colleges and universities before he took up his work at Delaware in 1929. From 1915-1917 he was graduate assistant in the Zoology and Entomology Department of Ohio State University.

## Teaching Rather Than Research Should Receive Greatest Attention Of Faculty

By George M. Records

There is a philosophy that a college is a laboratory where professors can do research work and write theses for degrees in return for perfunctorily lecturing to and examining a few classes of undergraduates. This is the prevailing philosophy at the University of Delaware. But it is years out-of-date and ineffective.

Professors are judged according to the amount of research work that they have done, for the degree that they have obtained, or a book that they have written—not according to their true merits as a teacher or an educator. There are many professors on our faculty who are capable of being real teachers, but, because of the machine system, they are forced to

devote their time to the receiving of credits toward advanced degrees. If it were not for this insane craze and demand on the part of the administration for degrees, the professors would have the time to take a personal individual interest in their students without fear of losing their jobs. Under present conditions it is impossible to disregard the implied threat of dismissal if he does not "improve" himself but wholeheartedly devotes himself to his students. Let the researchers take care of the research work—Let the teachers actually teach.

Some of the faculty members will say that a personal interest in the students would be wasted time.

???

(Continued from Page 1.)

Freshmen do not know high school English, the college should not assume a supercilious attitude and say, "We cannot help you. It is our duty to flunk you because you cannot do our work. But don't blame us. Blame your preparatory school."

The students are now in college. Most of them possess enough intelligence to pass Freshman English; they have just not had the proper training. We admit poor training in high school is a bad situation. But should the college, therefore, say, "There's nothing we can do about it. Until the secondary schools are improved thirty or forty per cent of the Freshman class will have to suffer each year."

If English Composition is important enough to warrant the setting up of standards so high that two-fifths of the Freshmen cannot now meet them, then it is important enough to warrant more time and effort being put on it. It is not fair to start forty per cent of a Freshman class on the second semester's work of their first year at college with a condition or a failure in English already hanging over their heads.

Instead of three hours of English a week, five hours should be given. Those who do not need the extra time spent on it can gradually be exempted in the manner exceptional students are now exempted at times. Even if these two extra hours a week were given only for the first semester, many a man would be kept in school who otherwise is now summarily dismissed due to the system here rather than to any fault of his own.

Perhaps this is not the best plan. But something must be done. The college must begin to assume responsibility for the individual students who come here.

## WANTED:—A CHANGE IN FUNDAMENTAL ATTITUDES

When a football team loses, the coach is blamed. When students lose in their battle

for a passing grade, they are blamed. A teacher is just as responsible for the percentage of wins (passing grades) and losses (failures) in his classes as is the football coach. The teacher's position is analogous to that of the coach in every respect, and he should be held just as responsible.

However, just as the coach must have the cooperation of his players, so must the professor have the cooperation of his students. But the initiative must of necessity lie with the professor.

In confronting the present problem of how the college can be changed to perform best its true functions, we hope both students and faculty will cooperate. That there is a problem before us, we cannot doubt.

"It requires no great courage to predict that if it is to survive as a characteristic feature of American education and American life, the college must become a very different place from the conventional type which prevailed in the first quarter of the century," is the statement of Frederick P. Keppell, president of the Carnegie Foundation.

"Not through a large expenditure for physical change will the smaller college become the place it should," he says, "but rather by an effective study as to the application of what we now know regarding individual differences, interests, and motives, mental hygiene, the technique of continuous record, the use of comprehensive and other examinations.

"The change will involve building on the personality of the existing faculty and will require study rather than money," he declares.

"The colleges have sought to improve conditions by tinkering with the curriculum rather than by concentrating their attention upon the student himself, as contrasted with his program of study."

Curricular changes, Dr. Keppell points out, cost little or no money. "The changes, which must come by trial and error, involve problems that cannot be solved by money alone," he adds, "but must be brought about by a fundamental change in the attitude of the institution toward the student and a different conception by the student of his purpose in attending college."

## Current Quotes

Let our young men pass on from their detestation of war to a personal crusade to strengthen every international agency designed to prevent it.—Robert C. Clothier, president of Rutgers University.

Our conflict is not with individual men, but with established systems, entrenched customs, habitual attitudes, vested interests and false standards of life.—Dean Speight of Swarthmore College.

Traditions are the best guides we have in what not to do.—S. L. Rothafel.

America has not been guaranteed eternal democracy by divine fiat.—Harry Boodburn Chase.

The day has gone by when a heedless man can amass a fortune and escape from the waste he has created.—The Dean of Manchester.

Primarily, industry should exist for man and not man for industry.—Rabbi S. S. Wise.

One of the pleasing developments in industrial America is the recognition that beauty pays.—Otto H. Kahn.

Every new instrument that civilization has devised—property, currency, credit, the machine—has widened the breach between individuals and heaped up inequalities and misery.—Dr. Reinold Neibuhr.

## U Sed It

In Which We Point Out The Faculty's Acknowledgment Of Its Own Shortcomings

The average salary paid to ten faculty members while they were teaching at Delaware was \$2811, while the average salary they received at other institutions was \$3817, or an increase of 35.8%.

In this condensation from a report made by the Delaware Chapter of the American Association of College Professors in 1930 we can find the crux of the present justified complaint that our faculty is not making a good job of teaching. The trouble lies in that the salaries paid to our faculty (mindful of a 10% cut by the last Legislature) are not adequate to retain those men who have received their "breaking in" here and just when they have progressed sufficiently to really become teachers they are grabbed up by other institutions. This means that while other new men are being broken in only a minimum of educational value is imparted to the student body because of the very inexperience of their instructors.

Again quoting from the Association's report we find by their own admission that "during the past ten years (1920-1930) 32 of the 53 instructors have been here but one year. This means since instructors teach mostly Freshman and Sophomore courses, the student who needs good instruction most is the one upon whom the young instructor is thrust." Obviously enough, with a 64% turnover the fundamental training of the student must have indeed been decidedly limited.

Again we find our faculty's own admissions are the strongest arguments that their teaching taken collectively, is below par. "Employee turnover is an important consideration in industrial concerns, for to train an employee is a costly process. When a trained employee is lost it means that he must be replaced by a person whose length of tenure of office is especially important in educational institutions. (51% of the faculty stays 2 years or less!) It differs markedly from tenure in industrial establishments because in educational institutions there is little routine work to be done. In an industrial concern routine work may be delegated to subordinates and the quality of the product may be regularly checked. In educational institutions the raw material is composed of human beings, and once a mistake is made upon them the damage cannot be rectified. Each teacher or research worker is an individual producer, and what he produces is determined by his own efforts. It is extremely difficult for even the head of a department to ascertain the quality of the work of his subordinates with any degree of accuracy. He can only appraise it by general observance the first year or so of his subordinate's tenure of office, and if, after the first year he finds that the students have not received the best instruction, there is no remedy for such a condition as far as those students are concerned. A student cannot have his credits revoked and be made to do the work over again, since the fault was not his own. Not only is a student's time not well spent under a poor instructor, but he receives lasting damage by poor instruction."

There you have the story in a nut-shell. As long as Delaware College is a haven for the poorest teachers who are not even worth the meagre salaries paid them; as long as Delaware College is a training school for instruction to later boast of proper training to receive a position elsewhere; as long as Delaware College officials remain blind and believe the smatterings of facts as taught here to be culture—then the complaint from the student body will always remain and with justice, too.

The situation today calls for prompt administrative action in recognition that basic changes are

## thru kampus keyholes

### Noise Off Stage

With a corner on the campus dramatic luminaries, Footlights Club goes into its second week of rehearsal for "The Family Upstairs." In a comparatively small cast we find the presidents of every dramatic organization on the campus, W. C. D.'s Dramatic Board, Puppets, Footlights Club, and Alpha Psi Omega. Six of the eight members of the cast are E52 Players. The director of the Apprentice Players carries a lead part. The director of the show is none other than the one who directed two winning Interfraternity plays, and his assistant director wrote this year's winner . . . But—enough for the low-down on the higher-ups. Let's take a glance at the two players that are taking their first bow behind Mitchell Hall's footlights. Far be it from me to play the role of builder-upper, but from all indications they're going to get more than their share of applause.

A question on a recent geography quiz was "What do they raise in Delaware?" I could tell what they raise at Delaware, but I'm afraid the censor would omit it from this column.

### Kampus Kadets Kaper

Present or accounted for were the Senior R. O. T. C. Cadets at the Reserve Officers Association cabaret dance held last Friday night . . . Amid the soft lights of the Gold Ball room and the sweet music by "The Kentuckians" Officers and Kadets enjoyed the old army spirit . . . Featured during the evening was a floor show imported from the "Cat," as well as an introduction to the celebrities present—Bebe Daniels, St. Ben Lyon and "Skeets" Gallagher of the stage comedy, "Hollywood Holiday," were among those to take a bow . . . Just like the "Pirate Ship," luck, gang . . . and to think that one of W. C. D.'s girls went all the way to Philadelphia to attend a military affair.

### From Lombardland

Last week's "favorite five" included "Tea For Two," "Chloe," "Make Believe," "The Object of My Affections," and "With Every Breath I Take." That last number, by the way, is W. C. D.'s new themes song . . . "I Dream of Lew with every breath I take."

### Social Calendar

Wednesday, Feb. 27—Women's College Forum, Hilarium, 4:10 p. m.

Thursday, Feb. 28—Women's College Music Club, 4:10 p. m. Organ Recital, Mitchell Hall, 8:00 p. m.

needed and not easily remedied superficialities. This column has often issued twenty-one gun salves for meritorious service, but it now assembles the entire fleet to pay homage to George Records whose courage has made everyone realize that immediate action is imperative if present students at Delaware are to salvage anything from four years at Delaware College. C. B.

## SPORTS

## West Chester Teachers Triumph Over Delaware Quintet In Fast Game, 28-22

## Blue Hens Outscore Visitors Nine To Seven From Field But Make Only Four Fouls To Teachers' Fourteen

In one of the fastest games of the season the West Chester State Teachers defeated Coach Doc Doherty's Blue and Gold five by a close score of 28-22. Although the Delaware team was tie with the Teachers combine at the halfway mark, the West Chester squad rallied in the last part of the game to get out in front by the six point margin.

The game was rough and it was because of the fine foul shooting on the Pennsylvania cagers part that really netted them the victory. The Blue Hens outscored the Teachers from the field by a nine to seven margin, but fell short in the free toss shooting.

Beaver, of West Chester, with one field goal and eight fouls for a total of ten points, led in scoring. Irish O'Connell, Pennock and Jim Prettyman were the high scorers for the Delaware quintet.

In the preliminary game the Delaware Jay Vees easily defeated the West Chester Reserves by a 41-33 score. Lou Carey with 18 points led both teams in scoring.

## WITH THE BLUE AND GOLD

BALDY ADAMS

On Saturday, Coach Ed Bardo's tank squad once more proved that they have a good squad by swamping Lehigh University. This week Coach Bardo's swimmers will be kept busy. On Thursday Rider College will be the Blue Hen tank squad's opponents, while on Friday night Carnegie will be the visiting team. Both meets should turn out victorious for the Delaware team.

Coach "Doc" Doherty's cage squad took the expected setback from Army on last Wednesday. On last Saturday night they proved for about the eighth time this season that the Blue Hen five can only last either the first or second half in good style. After being outscored by Washington College 21-6 in the first half of the game, the Hens came back and outscored the Maryland school by a 17-10 score in the second half. It goes to show that Delaware either gets started too late or they are played out by the second half. I think that the Blue and Gold passers will find Dickinson the best team they have played this season outside of Army when they meet the Pennsylvania College in Taylor Gym on Saturday night. P. M. C. will probably repeat with its second victory of the season over the Blue Hen quintet when they meet here in Newark on Monday night. P. M. C. defeated Delaware 40-29 when the two teams met in Chester earlier in the season before the Mid-years hit the Hens.

As I predicted last week the Sig Eps would probably carry off the cup. I still think they will and I have more reason for saying so this week than I did last. The Theta Chi and Sig Eps played a close game on Monday night and as the result the Sig Eps are in first place now. The Sig Eps and Sigma Nu will meet sometime next week and unless the Sig Eps lose this game they should not have trouble in taking the cup although they have to play every team twice.

Salter of New Castle was high scorer for Washington College on Saturday night in the game against Delaware. Salter is just another one of the many good athletes who tried to get in Delaware and could not.

## Swimmers Easily Swamp Lehigh Mermen 48-27

## Win All But One First Place; Croes And Carey Double Winners

Losing only one event of eight, the University of Delaware swimmers sank Lehigh University mermen in their dual meet there Saturday, 48-27.

Bill Croes and Johnny Carey were double winners for the Blue Hens. Croes captured the 50-yard dash and 150 yard backstroke, while Carey annexed the 100 and 200-yard dashes. Wilson, Veit and the Delaware relay squad of Lawrence, duRoss, Croes and Carey snared the other firsts for the Delaware team.

Summary:

50-Yard Dash—Won by Croes, Delaware; second, Ellison, Lehigh; third, Stewart, Lehigh. Time .25.  
220 Yard Swim—Won by Carey, Delaware; second, DuRoss, Delaware; third, Hutchenson, Lehigh. Time 2:34.

Dive—Won by Wilson, Delaware second, Collins, Lehigh; third, Carpenter, Lehigh.

440-Yard Swim—Won by Hutchenson, Lehigh; second, duRoss, Delaware; third, Kahn, Delaware. Time, 5:50.2.

150-Yard Backstroke—Won by Croes, Delaware; second, Watson, Lehigh; third, Williams, Lehigh. Time, 1:56.

220-Yard Breaststroke—Won by Veit, Delaware; second, Hartman, Delaware; third, Reynolds, Lehigh. Time, 3:06.9.

100-Yard Dash—Won by Carey, Delaware; second, Stewart, Lehigh; third, Ellison, Lehigh. Time, 57.6.  
400-Yard Relay—Won by Lawrence, DuRoss, Croes, Carey, Delaware. Time, 4:06.

## McCue Heads State Farm Modernization

Dean C. A. McCue, of the Agricultural College, at the University of Delaware, will be in charge of the State-wide campaign to modernize Delaware farmhouses under the plan of the Federal Housing Administration.

He will appoint a chairman from each county to assist in the work.

## Blue And Gold Quintet Loses To Army, Score 43-17

## Pie, Thompson, Prettyman Score Four Points Each

Coach Doc Doherty's Blue and Gold Five were set down to their seventh defeat of the season by the one-sided score of 43-17 on last Wednesday by a strong army on the cadets' home court at West Point.

Although the Blue Hen quintet got off to a good start, they were not able to stop the fast Army passers who soon overtook the Delaware Cagers and ran up the large score. This defeat was the worst suffered by the Hens this season. Of course the Army quintet was far out of the Blue and Gold Cagers' class and the defeat was a more or less expected affair.

Dawalt and Meyer of Army took the scoring honors by making fourteen and thirteen points respectively. Charlie Pie, Ed Thompson, and Jim Prettyman each made four points for Delaware.

	F.	F.	Pts.

## Mercer On Athletic Council

William Mercer was elected Freshman Representative to the Athletic Council by the Student Council on Monday night. He will be a non-voting member.

## Washington College Trips Courtmen 31-23

## Irish O'Connell And Pennock High Scorers For Hens; Jay Vees Win

On last Saturday night the Washington College quintet defeated Coach Doc Doherty's Blue Hen Five by a score of 31-23 on the Chestertown school's home court. It was the eighth defeat of the season for the Delaware cagers.

Although the Blue and Gold passers were on the short end of a 21-6 score at the half way mark they staged a second half rally which netted them 17 points against 10 for the home team, but they were unable to overtake the Washington College courtmen.

Irish O'Connell and Tom Pennock proved to be the high scorers for the Blue Hen squad. Irish had a total of 13 points while Pennock trailed with 9 counters. Salter of New Castle, proved to be the best scorer for the home team, with a total of 10 points.

In the preliminary game the Delaware Jay Vees defeated the Washington College reserves by a one sided score of 38-24.

## Rifle Team Completes Match

The Rifle Team, of the University of Delaware, has just completed its match in the Second Corps Area competition. The Second Corps Area includes the Reserve Officers' Training Corps, both senior and junior, in New York, New Jersey, Delaware and Porto Rico.

The following list shows the men who competed for Delaware and the number of possible points they made out of eight hundred. Only the ten highest scores are sent in.

1. Hoadley, A.	694
2. Hinnerstz, H.	671
3. Page, M.	660
4. Geist, J.	654
5. Baldwin, E.	649
6. Hoeffcker, W.	639
7. Zabenko, N.	622
8. Jackson, E.	590
9. Benson, W.	588
10. Preston, H.	581
11. Conch, T.	575
12. Lott, O.	549
13. Lewis, J.	444

The ten highest men will now be formed into a team to fire matches with several colleges throughout the United States. Matches will be shot in the near future with Michigan, Virginia Military Institute, Montana State, and The Utah State College.

## NOTICE!

The Student Council warns the members of the student body that anyone seen marking or otherwise defacing the tables in the Memorial Library will have the amount of damages charged against his contingency fee.

## Malcolm, Delle Donne Football Co-Managers

**West, Ely, Assistant Managers;  
Carpenter, Simpler, Jacobs  
Sophomore Assistants**

At the meeting of the Athletic Council on last Monday night the managers for the football team for next season were appointed, Irvin Malcolm and Eugene Delle Donne, who will act as senior co-managers. Co-managers were first tried two years ago here in 1933.

The junior managers will be Joshua West and T. Blair Ely.

The sophomore managers will be Randall Carpenter, Oliver Simpler and Lyman Jacobs.

Harold Leary will be sophomore soccer manager.

## Women's College Notes

Since the snow is practically gone the "grass is getting greener all the time," and the number of spring fever cases is increasing daily, can't we safely assume that spring is "just around the corner?"

College Hour at W. C. D. was held Tuesday morning at 11:35 in the Chapel of Science Hall. President Hulihan was the speaker.

Interclass basketball games will start on Thursday, Feb. 21, when the Freshmen and Juniors will play at 4:10. On Monday, Feb. 25, the winners will play the Sophomores.

At 4:10 Monday, Feb. 18, Dr. Baker spoke to the Home Economics Club on "New Discoveries in Jelly Making."

Miss Raitt, National President of the American Home Economics Association spoke at a Faculty Club tea in the Faculty Club room on Tuesday, Feb. 19.

In Sussex Common Room at 4:10 Friday, Feb. 15 the Mathematics Club had a tea. Harriet Nivin poured. Rose Divorkin spoke on "Arabian Algebra."

March 2 there will be a combined gym meet and Parent-Student day, when, as usual on that day, our work will be on display here for the parents to see and inspect. The gym exhibit, under the direction of Miss Hartshorn and Miss Blegan, will be the main feature. It will start at 2:30 and will consist of exhibitions of deck-tennis, badminton, ping pong, quoits, tumbling, swimming, apparatus work and dancing. The dancing will include tap dancing, folk dances and modern dances. (Modern dancing includes rhythmic and original dances). Again, then, we will have an opportunity to show off our lovely gym, of which we have just reason to be proud.

The Freshmen are working hard to make their Formal, which is to be given on March 9, a success. They have scheduled the orchestra and selected their favors. We sincerely hope that the customary snow storm will be absent.

### Lewi Writes Novel

Grant Lewi, a former English instructor at the University of Delaware, has published his first novel, "Star of Empire." Mr. Lewi is a graduate of Hamilton College and lives in New York. The novel is the story of a gallant gentleman who owned many acres, then lost it all and returned to a small farm in California.

### Play By Faculty Rumored

It is rumored that the faculty of the University of Delaware, will present a full-length three act play in Mitchell Hall, on March 28.

The name of the play it is understood will be "Mrs. Bumpstead Lee." If the story is well-founded the entire cast will be drawn from the University faculty, and the play will be direct by Professor Kase.

## What They Say

What is your opinion of physical education?

Senior — "Physical education should take care of the lack of big muscle activity in our every day life. The average man takes very little active exercise in the course of a normal day, if he had been physically educated in school and college he would take care of his physical need for activity. I think physical education is as valuable as general education when it is properly taught."

Junior — "Physical education is worthwhile and, I think it should be compulsory for four years. The program should have more variation and more time devoted to it. Everyone should take it excepting those with bad hearts or other handicaps."

Sophomore — "There are fellows on the campus who are very poorly coordinated in their muscular movements — physical education should teach these fellows to react smoothly, to walk correctly, and to spruce up their postures. Physical education should be compulsory and should require a certain standard of physical efficiency."

Freshman — "Compulsory but without the need of reaching a standard. Something beneficial in the program, a practical application; life saving."

## Prof. Kase To Attend Convention At Yale

Professor C. R. Kase, director of dramatics at the University of Delaware, will attend the Convention of the National Theater Conference at the Yale School of Drama, on Friday and Saturday of this week.

Men prominently connected with the Little Theater will be present at this convention, in addition to many eminent personages of professional theater.

Professor Kase expects to collect some valuable information which will aid in the rapidly growing dramatic movement on the Delaware campus.

## Chatter

### Theta Chisels

Hunn can't stand publicity. One letter and he get's cold feet. . . . Bishop starts housekeeping at Circus Park. . . . Watch out you don't get burned, Benson. . . . Matthews has that blonde chain and ball again. . . . Seely's theme song: "Sweet Madeline". . . . Patterson is the scenter of attraction; wants to keep the home fires burning, "or what have you," too. . . . Scotton didn't feel in shape Tuesday night; but any other night, he says. . . . "Vanity of Vanities—all is Vanity" Johnson. . . . We wonder if Hunn will really get to Law School or knot. . . . Who's shaving bowl did you say that was, Hoeffcker?

### Sigma Tau Philosophy

"Handle Bar Hank" Blechman stood in the wind yesterday and the Freshmen still wonder why he's called "Handle-bar". . . . Harris and Jasper just missed first-nighting it Saturday, but they say it still was a good show. . . . Eisenman was also to be seen in the offing. . . . no, with his sister. . . . "Pehooch" Salsbury is going south this week-end in more ways than one. . . . Woe betide Casanova, for "Don Juan" Smith will shine like a gold tooth in a mouthful of false teeth this week-end. . . . "Hank" Blechman is "ringin' dem bells" in order that the crease in his trousers can cut some ice during the oncoming W. E. . . . "Cyrano Carioca" Glick will demonstrate his ability to put on the dog Saturday nite. . . . so says he.

Our own Alf deserves congrats, so we offer them. . . . Congrats, Alf. . . . Read the front page, you dopes. . . . There'll be more to say about that after this "week-end". . . . "Tex" Levy has changed his alias, but he blocked the keyholes, nailed up the transoms, and pulled down the blinds, so we can't get the dope on what his new "monicker" will be. . . . Stiff competition between Lew Harris and Sol Jasper for the title of Mr. S. P. S. . . . The seers have it that that smooth, debonaire Harris will take all honors (?) in a walkaway. . . . Salsburg says "Who nose? (Cyrano)". . . . Spiller insists that he, too, is competition. . . . Little nose he!

### Sigma Nus:

Gala house party of hearts and red and white streamers. . . . Eckbert brings the S. H. of E. N. and Baldy takes her home. . . . Adams can't stand the pace and goes home to Dover the next day with infected tonsils. . . . Barker gets lost in a Paul Jones and doesn't recover his girl friend for half an hour. . . . Bachelor Davis again plays truant. . . . Fastman Tunnell's style is cramped by appendicitis incision. . . . Hume couldn't wait to get back to Wilmington Saturday so he brings the big moment down to college. . . . Why not take her to classes, Tubby? . . . Medill helps an absent brother. . . . Davidson assists an expectant mother. . . . feeds stray cat from his third floor darty. . . . Keithley turns student. . . . has cut no classes up to date. . . . Hill and Lupton on new intellectual pedestals.

### Kapers

West slipped up a little last Saturday nite—he went down from 10B to 9B. Better luck next time, Josh. . . . Sunday nite he came back strong, very strong. King did not like the trick he pulled, so he put a little reminder for Josh on the

bulletin board. . . . Walson really "put on the dog" Saturday nite. I wouldn't be surprised to see him going to teas some of these afternoons. . . . We are all wondering why Mercher had to go to Wilmington Monday nite. . . . "Jelly-Belly" is going to singing school every Monday night. As a result all the brothers have to put up with his terrible singing. Even the radio can't drown him out. . . . King, one of our nite-hawks, goes to bed early now. Something is the matter with him. Maybe he is running Killough a race. . . . West still writes to the girl at Laurel. I wonder if it's getting serious. Maybe he thinks so. . . . Williams is still bragging about the swell parties they have in Smyrna. Are they that good? . . . Sutton still is our highpowered lover. He toes the mark more than ever. Do you suppose he is a slave to love? . . . Page hopes the boys span the red paint during Hell Nite. . . . McCullough is thinking about going to Florida to school. If she comes home, maybe he'll stay at dear old Delaware. . . . Wheeler was sitting on top of the world the other nite—way up high. I guess he came down without any bad effects. . . . Taggart really rates. He receives telegrams from girls now. . . . Kelley still hangs around the mailbox every day. Did she forget to write? . . . The boys are getting in shape for Hell Nite. I hope the pledgers' feelings are not hurt too much. . . . Get me back later when you have the chance.

## Stage Model Exhibit Continues

The exhibit of stage models in the Memorial Library by the E 352 Class in dramatic production is still in progress. On Friday of this week Mary Vinyard's set for Schnitzler's "The Green Cockatoo," will be shown.

On next Monday a scene by Sol Jasper for Act I, of Sir James Barrie's "Holiday," will be set up. On Wednesday Betty McKelvey's scene for Act II of the same play will be shown. These two scenes were made in the form of a unit sets, many of the flats being duplicated for both scenes.

## 27 Students Elected To Phi Kappa Phi Honors

(Continued from Page 1)

Brighton, N. Y.; Jean Elizabeth Mason, Alberta Elizabeth Edge, Ellen Palmer, Elizabeth Marie Manchester, of Wilmington; Marjorie Amerling Slider, of Longhorne, Pa.; Viola Evelyn Phillips, of Hickory, Pa.; Anne Easby Cheavens, of Wilmington.

This record speaks well for the scholastic ability of university students from Delaware for of the entire group of 27, but 3 are from other states. The entire group from men's college are Delaware residents.

Another interesting observation is that of those elected to the Phi Kappa Phi, five are completing the regulation four year course in three years. These are Henry H. Stroud, Walter P. McEvilly, Albert M. Lupton, and John P. A. Veit, of Delaware College.

The initiation for these Phi Kappa Phi members will be held March 19 at the annual banquet of the local chapter.

Dr. Q. C. Drake, president; Dr. A. S. Eastman, vice president; Mr. R. W. Heim, secretary-treasurer, and Prof. R. Jones are the present officers of the local chapter.

## Dr. F. A. Stearns Chose Faculty Member Of R.K.P.

(Continued on Page 6)

the next year he was professor and acting head of the Department of Alma College, Mich., and from 1919-1924 he was professor of economic entomology of Virginia Polytechnic Institute.

Recently, in 1934, he was chairman of the eastern branch of the American Association of Economic Entomologists. At present he is a member of the Delaware Mosquito Commission, having been appointed by Governor Buck. In concluding his impressive vocational history, it is interesting to note that Dr. Stearns has published 75 scientific papers and bulletins and is a member of Sigma Xi National Honorary Science Fraternity.

Dr. Stearns is likewise a member of several other non-professional organizations. He is an S. P. E., a member of the I. O. O. F., and of the Masons. Locally he is quite popular, being a member of the Newark Lions Club and the president of the University Faculty Club.

## National A. S. M. E. To Meet

On Tuesday, February 26, the national organization of the A. S. M. E., will hold its annual sectional meeting in Philadelphia, which the student chapter of the University of Delaware will attend.

As has been the custom in the past, the meeting will be served which will be followed by a musical program. The speakers on that occasion will be the president of the S. K. F. Company and a prominent member of the Budd Co.

Transportation to this meeting will be arranged for members of the A. S. M. E. Those students who wish to go should get in touch with Mr. F. Lindell.

## New Group Gives First Play

The newly organized Apprentice Players will present their first one act play before the E 352 Class in acting and the officers of the campus dramatic organizations on Tuesday, February 26.

The cast of the play which is entitled "Not Quite Such A Goose," is as follows: Mrs. Bell, Mildred Shenkin; Albert Bell, Earl Krapf; Sylvia Bell, Jean Barnes; Philip

Trick, Joseph Perkins; Hazel Henderson, Margaret Knox.

## Pres. Hullihen Denies Criticising Del. Teachers

(Continued from Page 1)

cism was of the American college grading and examination system in general and in no way a condemnation of Delaware instructors and methods which are similar to those of 90 per cent of the colleges and universities of the United States. The report of his College Hour talk the appearance of the three student letters in the same issue of the Review was merely coincidental.

## Harlow, Harvard Coach, Speaks At Alumni Banquet

(Continued from Page 1)

pected that many of them will be present.

President Hullihen has arranged to have the Library, laboratories, and other buildings open for inspection by the Alumni during the entire day. Following the banquet there will be a basketball game with Dickinson College. The game will be free to all holders of tickets for the banquet.

## Teaching Rather Than Research Should Receive Greater Attention Of Faculty

(Continued from Page 1)

for the students are more interested in athletics and extra-curricular activities than in their studies. The reason that undergraduates throw their energies into these activities is the professor in the first place took no interest in students. The faculty, as a whole, is not interested in doing any more than seeing that students learn a certain set of facts and recite them back to them in the classroom and a test. There is no conscious attempt to develop the personality or reasoning abilities of the students. We pass subjects and get a diploma without even having the faculty actually help us to develop those capabilities in which we excel and thus make the most of those personality traits with which we are endowed.

Mexican parents who send their children to schools teaching socialism, and teachers in such schools, have been threatened with excommunication by Archbishop Pascual Diaz, of Mexico.

When you need an excuse  
to stay a little longer....

I'm your best friend

I am your Lucky Strike

I give you the mildest smoke, the best-tasting smoke. You wonder what makes me different. I'll tell you. It's center leaves. I spurn the little, sticky, top leaves... so

bitter to the taste. I scorn the coarse bottom leaves, so harsh and unappetizing. I am careful of your friendship, for I am made only of the mild, fragrant, expensive center leaves.

They Taste Better

## Two Ministers, Wife Of One Make Phi Kappa Phi

**O. A. Bartley, T. O. M. Wills  
And Elizabeth Wills In Group  
Of 27; Commute And Carry  
Church Responsibilities**

Of unusual interest in the recent Phi Kappa Phi election is the fact that two ministers, the Reverend O. A. Bartley and the Reverend Theodore Wills, and the wife of the latter, were among the 27 students chosen. This is a unique situation at the University of Delaware.

The Reverend Bartley, present pastor of the Brandywine Methodist Episcopal Church of Wilmington, ranked first in the Delaware College Group. Ten years ago, Mr. Bartley was obliged to stop his studies at Randolph-Macon College while in his junior year. He entered the Methodist ministry and has held regular charges since that time, and likewise was a high school teacher for a few years. However, Reverend Bartley was determined to finish his university training and recently had the opportunity to do so. He attended the summer school sessions the past two years and the regular college terms of 1933-1934, graduating at the convocation exercises this September. While pursuing his college courses at Delaware, carrying a full-time schedule, he commuted first from New Castle and then from Wilmington. At the same time he carried out the many duties and responsibilities involved in his church work—a very rare accomplishment. At present he is writing his thesis, "Church Pensions Plan, a Study in Economic Security" for his master's degree.

Rev. And Mrs. Wills Both Elected  
Reverend Wills' story is similar to that of Reverend Bartley. He too has been carrying a full-time schedule at the University and holding a charge at the Ebenezer M. E. Church during the past four years. He had to travel 4½ miles daily from his home at Ebenezer to Newark and carry on the many church duties. Reverend Wills, in addition to his work as pastor and student, has been enrolled in a School of Ministerial Training under the auspices of the Wilmington Annual M. E. Conference. In this group he has led his class and will be elected to the Deacon's Orders at the annual conference this spring.

In addition to Rev. Wills' outstanding record, it is interesting to note that his wife has been a student at Women's College also during the past four years and that she too made such an enviable record, ranking second in the Women's College group, to merit election to Phi Kappa Phi.

### Dean McCue Attends Regional Extension Conference

Dean C. A. McCue and Mr. A. D. Cobb, of the School of Agriculture, left Newark on Monday to attend a conference of the North Eastern Regional Extension Directors to be held in New York City this week from the nineteenth to the twenty-first. Dean McCue and Mr. Cobb were accompanied by Mrs. McKinley and Miss McDonald, who will act as secretaries.

### A. S. C. E. Meeting Postponed

The regular meeting of the A. S. C. E. which was scheduled this Tuesday evening, was postponed until February 26, when H. F. Redmile will speak on "Reinforcement Concrete."

Mr. Redmile's subject will be based upon the concrete tests during the last semester in the civil engineering laboratory conducted by Prof. T. D. Mylrea, head of the department.

Plans for attending the annual sectional meeting of the A. S. C. E. National Organization will be discussed by that time.

## Rees Talks On 'Success In College And Business'

(Continued from Page 1)

and can be discovered in the enthusiasm with which a man goes into extra curricular activities, but it is less important than scholarship. A fine scholastic record in college usually means a fine record in business."

Self-analysis, through which individual abilities are found, said General Rees, is the first step in deciding upon one's life work. Occupation during vocation and the study of career books should help the student to discover for which phase of business he is best fitted. Then, the speaker continued, the student should consult with authorities in his chosen field, prepare himself for that work and develop an ability to cooperate with fellow-workers.

In applying for a job, one should be neat, calm, eager to answer prying questions, and be generally affable and attractive in both ap-

pearance and personality, advise General Rees. An understanding of the specific company at which position is being sought is helpful, said the speaker, for it enables the candidate to ask definite questions and to display an especial interest in certain phases of the industry.

Engineers, stated General Rees, should seek positions in the research, design, or construction phases of business, since their special education best equips them for such activities.

### 'Footlights' Promise Best Comedy In Years

(Continued from Page 1)

humorous effect in several scenes. The part of Mrs. Grant is being played by Betty Manchester.

The production staff for the play is as follows: Director, Bill Lawrence; Assistant Director, Sol Jasper; Stage Manager, Gordon Chesler; Business Manager, Ed. Davidson; Publicity Manager, Alvin Handloff.

## How Tall A One Can You Tell?

For the advancement of the gentle art of prevarication, the "Review" is conducting a contest which will be won by the student who can prove most convincingly that Baron Munchausen influenced his ancestry. Candidates for the prize are merely to write stories of the skyscraping tendencies according to a few honest rules, and from the yarns received the judges will select the tallest of the tall and bestow prizes to their authors.

Here are the rules for the contest:

1. All lies must be handed in by Wednesday, March 7, 1935. The limit in length is 250 words.

2. Any stories received that, in

the opinion of the judges are not real lies will be thrown out.

3. The contest is open only to students and faculty members of Delaware College and the Women's College.

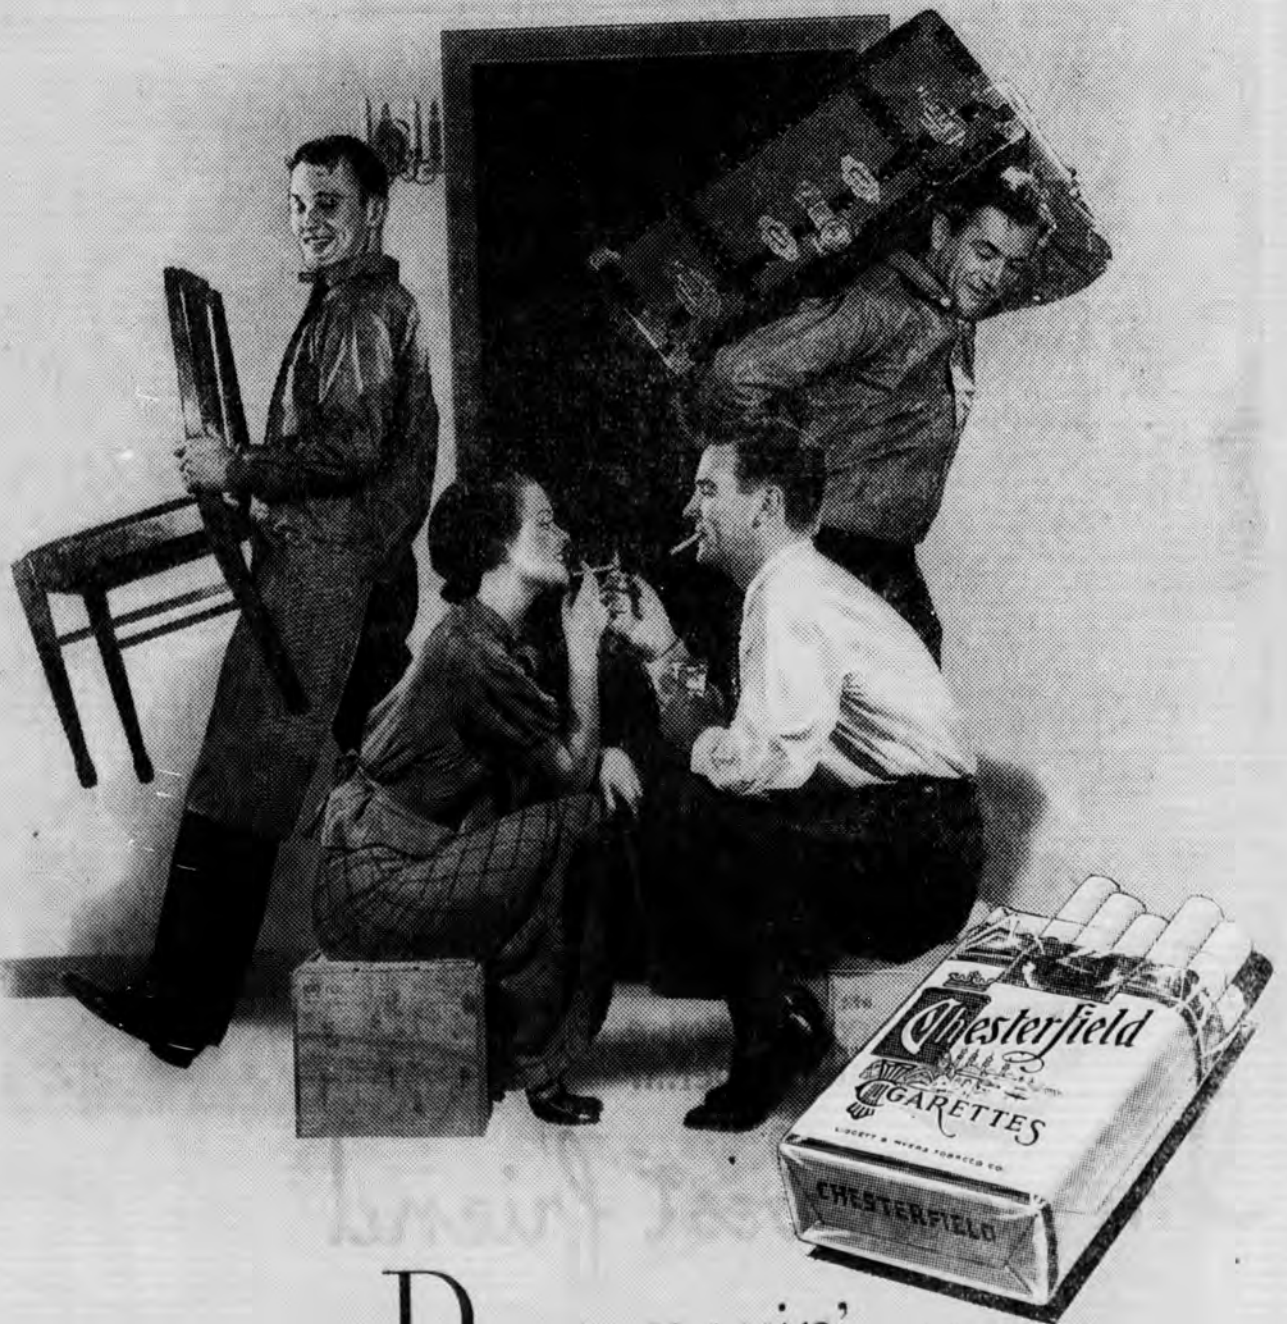

4. The best lies will be printed in the "Review" and winners will be rewarded with prizes of great value.

5. Contributions bearing the odor of plagiarism will not be judged; all stories must be original.

For obvious reasons, the contest editors and judges must remain unnamed. Send your story to  
CONTEST EDITORS,  
c/o REVIEW.

### ALUMNI BANQUET

All Seniors planning to attend the Alumni Banquet this Saturday get in touch with Jim Nichols before Friday noon. Tickets are \$1.00.

## Done movin'

Smokers of Chesterfield are funny that way, you can hardly move 'em. They evermore like 'em, and they evermore stick to 'em. *Chesterfields are milder—they taste better.*
