PRICE TEN CENTS

Lectures Here

DR. FINLEY E. FOSTER

Dr. Foster is a former member of the University of Delaware faculty.

Dr. F. M. E. Foster Ex-Delaware Prof. To Give Lectures

Dr. Finley M. E. Foster, a former member of the University of Delaware faculty, and now a nationally known author, lecturer, and authority on literature and arts, will return to the Newark campus next week to deliver a series of three illustrated lectures. It was announced today by Dr. W. Owen Sypherd, head of the Department of English at the University.

Announcement has also been made that Dr. Foster will be the principal speaker at the initiation banquet of the Honor Society of Phi Kappa Phi, which will be held at 7:00 p. m., in Kent Hall, on Tuesday, May 12.

The illustrated lectures will be given by Dr. Foster at 4:30 p. m., on May 13, 14, and 15, in Room 220, University Hall. The entire series is given under the auspices of the University's Departments of English and Fine Arts, and the public is cordially invited to attend.

Dr. Foster's lectures will show the close relationship between literature and art which has existed through the centuries.

At his first lecture, on Wednesday, his subject will be "William Hogarth and Addison and Steele." Hogarth was a prominent mid-eighteenth century painter, and Addison and Steele were eighteenth century essayists.

At his second lecture, on May 14, Dr. Foster will speak about the late eighteenth century artist and poet, William Blake.

Dr. Foster's final lecture of the series will have as its subject, "Dante Gabriel Rossetti, and the Pre-Raphaelite Movement in Art and Literature."

From 1928 until the present, Dr. Foster has been professor of English at Adelbert College of Western Reserve University in Cleveland, Ohio. He is also professor of English in the graduate school of that University. After graduation from New York University in 1913 and receipt of his master's degree from the same institution in 1914, Dr. Foster remained at New York University as an instructor in English until 1917. In that year he became an instructor in English at the University of Delaware and remained here until 1925, by which time he had risen to the rank of

(Continued on page 2)

Col. Horton Gives R. O. T. C. Battalion Excellent Rating

On April 23, Col. Paul Horton of the Coast Artillery made the annual War Department inspection of the R. O. T. C. Cadet Battalion. The results of the inspection were made known by Dr. Hulihan, who revealed he had been advised by Col. Horton that we still retain our excellent rating.

The annual administrative inspection was made by Col. Cook (Infantry), accompanying Col. Horton. Both inspecting officers were gratified by the spirit of cooperation between the Military Department and the college authorities. Col. Horton also complimented the Military Department on the quality of the artillery instruction offered.

Lt. Col. Ashbridge, head of the Military Department, announced the possibility that Captains Moore, Chase, and Roberson and Lt. Zabel might be transferred to active combat units during the summer. In the event that these officers leave, they will be replaced by men considered beyond the age limit for combat duty.

The Senior military graduation will take place in front of Wolf Hall on May 23 at 3 p. m. The Cadet Battalion will be reviewed by Major Gen. Terry, who was recently appointed commander of the Second Corps Area. General Terry will present commissions to the officers and will then inspect the new dormitory and the Field House.

Miss Ort To Leave Del. For Position at Cornell

Miss Katherine Ort, Commons dietitian for the past seven years, will leave the University of Delaware on July 1. Miss Ort has accepted a position at Willard Straight Hall, Cornell University, and will be one of the three persons in charge of foods.

Miss Ort stated her reasons for leaving the University as being a desire for more experience in her vocation and an opportunity to handle larger crowds. She was extremely pleased with the faculty and student body of Delaware and hopes to receive the same cooperation in her new job.

Miss Ort attended Indiana University of Medicine and Columbia University before beginning work at Delaware.

Social Calendar

Saturday: May Day, Women's College, 2:30 p. m.
May Day Dance, Kent Hall, 8-12.

Baseball—Washington College.

May Queen Starts Navy Relief Campaign

MAY QUEEN SELLS NAVY RELIEF BUTTON TO UNIVERSITY PRES.

Miss Doris L. Jolls, president of the senior class at the Women's College, University of Delaware, who will be crowned Queen at the May Day Festival this Saturday, is shown as she fastened a Navy Relief Society button on President Walter Hulihan thus officially opening the campus campaign for Navy Relief.

Final Radio Guild Program Features A Radio Phantasy

"The Pussy Cat and the Expert Plumber Who was a Man," is the title of the radio script to be presented by the members of the University of Delaware Radio Guild over Station W. D. E. L., on Sunday afternoon, May 10 at 1:30 p. m. This will be the last broadcast of the current semester, and the Radio Guild has endeavored to select a type of program that will provide entertainment and enjoyment for all.

The Pussy Cat and the Expert Plumber is a radio phantasy written by Arthur Miller. The play is unique in that the principle character is a cat, who has successfully had himself elected mayor. However, an expert plumber (a man with high ideals) steps into the picture and at the last minute defeats the cat in their race for a governorship. Members of the Guild having prominent roles in the phantasy are Heintz Otto, who plays the part of the Pussy Cat, Tom Thomas, James Quinn, who portrays the Plumber, George Becker, and Phyllis Jane White, who plays the part of Mrs. Becker.

This same play was presented several months ago by the Columbia Workshop of the Air over C. B. S. coast to coast network. The original script was purchased by the Columbia Workshop from Arthur Miller for 2500 dollars. Robert N. Brodie, director of this week's program says, "This is one of the most interesting programs that the Delaware Guild has ever undertaken. It is my belief that the students of the University will appreciate this sort of program, and an endeavor will be made to secure similar material for the Radio Guild series to be presented next semester."

Cadet Selection Board To Make Second Visit

Important information has been received from the Naval Aviation Cadet Selection Board regarding students interested in V-5 classification. Next Friday afternoon, a group of officers from the Board will again visit the University of Delaware. It has been suggested by Lt. Davidson that if ten or more students of the University qualify, a Delaware University Unit will be formed.

Upon arrival next Friday, a qualified yeoman will administer the mental tests, and if a large enough number are approved, the Medical Examination Board can be scheduled at a latter date.

All interested students, whether or not they saw the Board on its last visit, should submit their names to the Business Guidance Bureau as soon as possible.

Degrees With Distinction

Attention of Juniors at Delaware College and Women's College who wish to become candidates for degrees with distinction in special fields is called to the fact that applications must be submitted to the Committee on Awarding Degrees with Distinction not later than May 15, 1942.

To be eligible to become a candidate for a degree with distinction, a student shall at the end of his Junior year have a scholastic index of 3.00 or better, and a scholastic index of 3.50 or better in his chosen field, and, in the judgment of the department concerned, be capable of doing independent work.

Student Leaders To Conduct Navy Relief Campaign

Support for the Navy Relief Society by members of the student body, faculty, and staff of the University of Delaware is being sought in a campaign which opened on the campus today for the sale of the Society's buttons and pins.

A part of a nation-wide drive to raise \$5,000,000 for Navy Relief, the campus campaign also affords members of the University group an opportunity to "back up" in a tangible way the many alumni and former students of the institution who are on active duty with the Navy, Marine Corps, and Coast Guard. More than eleven per cent of all Delaware alumni, irrespective of age, are serving in the nation's armed forces.

President Walter Hulihan has

How To Get Buttons

Mr. John McDowell, in the Office of Alumni and Public Relations, is in charge of the sale of buttons and pins on this campus. If you desire to participate in the Navy Relief Society's campaign, you may secure your button or pin for \$1.25 by:

Contacting THE REVIEW Office

Contacting your class president, fraternity president, I. M. A. President, or Student Council President.

Stopping at the Alumni Office on the first floor of Purnell Hall.

Sending your contribution and order to Mr. McDowell through the University Mail.

named John N. McDowell, of the Office of Alumni and Public Relations, to direct the sales campaign. McDowell has selected about twenty men and women student leaders, who represent the student government associations, the various classes, the fraternities, the Independent Men's Association, The Review, and the Radio Guild, to serve with him as a campaign committee.

The tremendous need for support of the Navy Relief Society by the citizens themselves was made clear by Secretary of the Navy Frank Knox who said: "This country is now engaged in the greatest naval war in its history. In one day at Pearl Harbor, more Naval casualties were inflicted than were suffered by the Navy during the Spanish-American War and the World War combined."

Lt. General Thomas Holcomb, Commandant of the U. S. Marine Corps, and a native Delawarean upon whom the University of Delaware conferred the degree of Doctor of Civil Law last September, has said of the Navy Relief Society: "That the families of the Naval Service may not suffer want, this Society exists; and it has gloriously fulfilled its mission in the past."

Thus through this campaign students, faculty, and staff of the University of Delaware are being given an opportunity to share and shoulder a little of the burden of the war which now rests on the fighting men and their families.

NAVAL RELIEF CAMPAIGN

For the past two years the students of the University of Delaware have been asked to contribute to all sorts of relief funds for the benefit of soldiers and civilians from England to China. Now the Delaware students are being given an opportunity to contribute to a cause which will help our own citizens—The Navy Relief Society. This society was formed to protect any Navy man, widow, or orphan from suffering hardship.

The student leaders of the University have formed a student committee to handle the campaigns. The dormitories, fraternities, and other groups have already organized their own systems of encouraging contributions to the campaign.

You have only one week left to do your part for the Navy Relief Society. Now is the time to act—see the box on page one for information as to how contributions may be given.

REMEMBER—In one day at Pearl Harbor, more Naval casualties were inflicted than were suffered by the Navy during the Spanish-American War and the World War combined.

A contribution to the Navy Relief Society will let you shoulder a little of the burden of war which now rests on the fighting men and their families.

MISS ORT

The Review is sorry to learn that Miss Katherine Ort, the head dietitian at Commons, is leaving the University of Delaware. Miss Ort has done a wonderful job in the Commons the eleven years she has been here. We're sure that she will be missed by all who work with her or who eat at the Commons.

Best of luck to you at Cornell, Miss Ort !!!

Dr. Foster

(Continued from page 1)

associate professor. In the meantime, he had had conferred upon him a Ph. D. degree by Columbia University in 1918. From 1925 until 1928 he was associate professor of English at the University of Wisconsin.

Dr. Foster's recent book, "Voices of Liberty" has been named by the American Institute of the Graphic Art as one of the sixty best text books of the year. This timely work was written in collaboration with Professor Homer Watt.

His list of "Twenty-five Books of Importance to Americans Today," prepared this year, has received wide circulation and high commendation by newspapers and magazines throughout the nation. In 1937 Dr. Foster's list of "One Hundred Books Which an Intelligent American Should Have Read" was highly acclaimed by critics in all parts of the country.

He is also well-known as a photographer, and two of his photographs are now on display in the May Show at the Cleveland Museum of Art. He has also traveled widely, especially throughout England and Scotland.

The Carpet Sweeper

By
FULLER and BRUSH

Three Feathers Of The Week

One to "Pee Wee" Doherty for those sensational plays at 3rd base. He's almost good enough for Brooklyn . . . one to our fightin' ball team, who, despite the loss of their pilot have gone on to win 6 straight . . . and the last to the college hour lecturer for telling the truth about Schickelgruber and his Ratzls even though his immediate family is at the mercy (?) of Herr Himmler and his Gestinko.

A goodly number of WCD 'goodies' recently ventured up to the "beeg eittee," Pennsadelphia to indulge in a delightful session of tea and crumpets. A certain few, we have on good authority, came back with a pocketful of pretzels. Tea and pretzels, eh gals?

While strolling down the campus the other day, we noticed several Harter Hellions vigorously pummeling some poor fella who was vehemently yowling, "I'll get one, I'll get one!" We wandered over to see what the score was and were told between blows that this was THE guy who hadn't bought a Naval Relief Society pin.

The recent landslide of engagements on the campus has left us breathless. Latest to join the Legion of Cupidelerious are the Wendle boys, Bill and Mert, and at the other end of the campus, E. Jane L., Doris Jolls, Betty McGee, Inez Lynch and just about anyone else you can lay your hands on.

The use of transits from the roof of the Engineering building has increased in direct proportion to the number of gals sun-bathing on the roof of the WCD gym roof.

NOMINATIONS: Tritie for the best dressed man on the Kampus between: Hank "Idol of Millions" Winchester, Perry "Buck" Burkett, and "Irish Joe" La Mota. Next week—Handsome.

Phi Kappa Phi To Hold Initiation And Banquet Tues.

Dr. T. A. Baker, president of the University of Delaware Chapter of Phi Kappa Phi, will preside at the initiation of new members into the Society and at the banquet which follows the initiation ceremony next Tuesday, May 12. Along with the initiation the election of new officers will also take place.

At the banquet, Dr. Finley Foster, head of the English Department at Western Reserve, and formerly a member of the University of Delaware English Department, will be the guest speaker.

Mrs. Marjorie S. Golder and Prof. Arthur E. Tomhave, both members

English Reading

The English Department of the University announces the seventh of the current series of English Readings, to be held on Monday evening, May 11, at seven o'clock, in the Hilarium of Warner Hall. Miss A. J. DeArmond has chosen for her topic "Stories before Chaucer." The public is cordially invited to attend.

of the faculty will be initiated into the society together with twenty-six students from the University.

Will anyone who has seen John Ballard please tell him school ends May 24—it isn't over yet.

"FILL HER UP!"

armor and guns for the same over-all weight of the ship.

BECAUSE the ocean isn't equipped with filling stations every few miles, naval vessels must carry enough fuel for long voyages. And finding storage room aboard for this fuel is a serious design problem.

Most naval ships today are driven by steam turbines connected to the propeller shafts through reduction gears. And turbine engineers, working with the Navy, have pioneered in the use of higher steam pressures and temperatures—producing turbines of such improved efficiency that in modern ships the fuel consumption per horsepower is from 25 to 40 per cent lower than in vessels of the same type used during the first World War. Thus it has been possible to design ships with greater cruising radius for the same amount of fuel oil, or with more

AU-TUBE-IOGRAPHY

GENERAL ELECTRIC'S Radio and Television Department, in its new Radio News Program with Frazier Hunt, is telling the story of electronics to a nation at war—a war in which electronics itself is one of our most powerful tools.

For electronics—the youthful science that embraces all the varied applications of electron tubes—is going into war not only on the front, but behind the front, where it is today revolutionizing many industrial practices.

Unique about this thrice-weekly broadcast (Tuesday, Thursday, and Saturday on C.B.S.) is the fact that G.E. is using an electronic device, radio, to carry the story of electronics to America.

GENERAL  ELECTRIC

Hen Scratches

By Piper and Dougherty

After winning six ball games in a row the Delaware nine was denied its seventh consecutive victory by the Johns Hopkins' Medicos, who rocked the Hens, 5-2. Shaken up by a couple of scratch hits, Bogoy couldn't hold the Doctors, and was relieved by Tait, who gave the opposition one run and three hits in six innings. This defeat shoved the Blue and Gold back to the .500 mark, having seven wins and seven reverses. A glance at the statistics will show the reader what the team's got and what it hasn't.

BATTING

	At Bat	Hits	Average
Sadowski	49	20	.409
Mitchell	53	19	.358
Wilson	32	11	.344
Crowley	56	17	.304

Runcle	34	10	.294
Tibbitt	46	11	.239
Scripps	44	9	.205
Doherty	21	4	.191
Newcomb	38	6	.156
Burkett	21	3	.146

Team average (nine highest) .287

PITCHING

	IP	R	H	S.O.	W	L
Daly	42	15	32	34	23	3
Bogovitch	23-2/3	19	33	15	19	3
Tibbitt	25-1/3	16	21	17	9	1
Tait	28-1/3	15	23	18	15	0

All due plaudits go to the select batting four who still maintain that better-than .300 average. No mention is made here of the fielding, but a glance at the scorebook will show that it's slightly below par. Bob Wilson's average belies his slump of late, being hitless in the last twelve trips. Of Newcomb's six sparse bingles, four have been doubles, and he shares this lead with Bill Tibbitt. Amie Crowley, very appropriately, is the first Blue Hen to hit for the circuit, and he is the only Hen to have a homer. Sid "Ted Williams" Sadowski, the leading batter, shares with Amie Crowley the lead in three-baggers, each man having one. Freddy Mitchell is in a class by himself in stolen bases, having sixteen. His nearest competitor is Crowley, with half that number.

"FAST BUNCH 'A BOYS"

Swarthmore's track team, reeking with power, scored a K. O. over the Hens on Tuesday by a 79½ to 46½ count to take all but four events. Only Arky Vaughn could wrest a win from the Garnet on the cinder path, while Phillips, Furman and Baer took the broad jump, discus and shot put respectively.

Maxwell, pretty well burned out after running the mile, dropped the two mile, and so went most of the meet—to a fast, well-manned team with an indoor track.

From the rear-guard Butler, quote: "Fast bunch 'a boys—fastest I've ever run behind."

The next meet for the Hens, the Mason-Dixon Meet, is now in full swing at Baltimore.

RACKETEERS

Jordan and his gang went up to Swarthmore today to try their hand against the Mayfield-sparked Middle Atlantic States indoor champs. They'll be doing a good job if they better the West Chester performance in which only Smith and Geiger could take a doubles from the rarely beaten Rams.

Fresh from the 3-3 match with West Chester on Wednesday, the linksmen also invaded the Garnet links today to try their hand against a team that beat Princeton 5-4. Most improved player on the squad to date: Chick Butler.

Noticing that fishing season was open, we inquired as to whether anyone dabbled in it or not and found one Isaac Walton in the person of Boy Scout Reed, clown of SPE. Reed gave us a long line about his escapades along White Clay Creek such as catching pan fish with a fly rod and even trout further up in Pennsylvania. So far this year he has only hooked five of the latter, most of which have been fingerlings. Whether or not this is typical fisherman's bologna, we don't know, but it sounded good anyway.

Hens Add Two Wins And One Loss To Record

The University of Delaware baseball team defeated the soldiers from Fort DuPont, 7-6 last Saturday, May 2, on Frazier Field.

Tait and Bogovitch shared the mound duties and set the fort down by scattering their bingles, while the Hens garnered enough hits to score seven runs, which proved enough to win the game. Amos Crowley clouted a home run in the seventh inning for the first Delaware round-tripper of the season.

With the score tied at 6-6 in the last of the eighth inning, and with two men out, Mitchell singled and Sadowski doubled him home. This run meant the game as Fort DuPont did not score in their half of the ninth.

On Monday the Blue Hens traveled to West Chester to meet the State Teachers nine. Delaware emerged victorious by the score of 8-4, behind timely hitting and the 4 hit pitching of John Daly. Amos Crowley with two hits led the Delaware attack on two opposing pitchers.

This victory was the 6th straight victory for the Hens and their 7th in 12 starts.

Johns Hopkins University was host to the Delaware nine on Wednesday at Baltimore and behind the very capable pitching of Marshall, the doctors came through to beat the Blue Hens and end their win streak. Hopkins came through with 10 bingles, while Marshall held Delaware to 6 hits. Bogovitch and Tait again divided the pitching assignment for Delaware. Mitchell and Runcle led the Hens in the hitting department, each getting two singles.

Friend or Enemy?

They're taking no chances

Day and night thousands of civilian volunteers at Army authorized observation posts report Aircraft Flash Messages to Army "filter" centers—by telephone. From this information, each plane's course is charted on filter maps... relayed to operations boards such as the one shown above—by telephone. Should checking prove the aircraft to be an enemy, the telephone would play an important part in the defense strategy... in warning endangered communities... in mobilizing civilian defense units.

Bell System men cooperated with Army authorities in designing and providing the telephone facilities used by the air defense system. This is but another example of a war-time job well done.

'Midsummer Night Dream' To Unfold Next Friday Night

Do you like Shakespeare? I thought not. I bet I can tell why you don't. Because you were first introduced to the immortal Bard by some stodgy old maid high school teacher who was no more capable of interpreting the works of the lusty Elizabethan poet than a lawbreaker is capable of eluding Dick Tracy. But if you'll just amble on down to Mitchell Hall one week from tonight when the E 52 Players are presenting A MIDSUMMER NIGHT'S DREAM, you will be treated to comedy so hilarious that you will be forced to admit that this guy Shakespeare is damned near as good as Thorne Smith or Al Capp.

Messrs. Schulman, Bunin, Jones, Decker, Samonisky, and Herbner, who fill the comic roles, romp through some slapstick routines that have had rehearsal audiences rolling in the aisles. Their performance is concluded with a dance that reaches a new high in low humor.

But Shakespeare did not limit himself to comedy in this delightful fantasy. There is romance, beauty, and all the charm of a fairy story. Phyllis White, Jane Hastings Sinclair, James Quinn, and Stanley Bell bring life to the roles of the four lovers whose love-lives become so complicated. Mighty Duke Theseus and his fair Duchess-to-be, Hippolyta, are played by Robert Bernhardt and Carolyn Miller.

Shakespeare handles the fairy elements with incomparable lightness of touch. The lovely fairy Queen, Titania, is played by Dorothy Thompson. Her chief fairy is played by Miriam Lewis. For other fairies, the players have recruited some WCD students of the class of 1954. They are Judith Kase, Judith Colbourn, Jane Pickett, and Joan Pickett. The fairy King, Oberon, is portrayed by Bill Pool. His wily assistant, Puck, by Layton Mabrey. Herb Rubenstein plays Philostrate, and Eddie Golin, the fiery Egeus.

The E 52 production makes full use of the beautiful score written for the play by Felix Mendelssohn. Miss Betty Rose Bock is accompanist. The Women's College Glee Club will sing. Dances have been arranged and directed by Kay Guinard.

The entire production owes its charm and vigor to the genius of its director, Dr. Alvin Kronacher. Dr. Kronacher has taken a large cast, not all of them experienced on the stage, and transformed them into a group of characters that fairly breathe the spirit of Shakespeare. Most students of the University of Delaware may never again have the privilege of seeing a play staged by so great a director. So drop in at Mitchell Hall between three and five in the evening and purchase your ducats for next Friday night.

We Need Every College Man In Officers' Training

★ To Man the Mightiest Air Army in the World ★

Make Your Choice This Week For Present or Future Officers' Training

IF your blood boils at the very thought of an enslaved world :

If Jap treachery and Nazi savagery make you see red and itch for a gun—calm yourself with the promise that *we shall pay them back with compound interest!*

We shall—and you as a college man now have the opportunity of serving as a Flying Officer—a Bombardier, Navigator or Pilot—with that branch of service which will do that paying back *in person*—the U. S. Army Air Forces!

Under the new Army Air Force Reserve Plan—if you are a Senior or wish to leave school—apply *now* for your Aviation Cadet training.

You and your friends can share together the work and fun of flight training, and after approximately 8 months—earn the right to be flying officers in the U. S. Army Air Forces!

On the other hand, if you are a Freshman, Sophomore or Junior—you can, if you like, *continue your studies* under the Deferred Service Plan of the Army Air Forces—and become better prepared for Officers' Training later.

New Simplified Requirements

To qualify you must be 18 to 26 (inclusive), physically fit—and pass a new, simplified mental test which college men find easy.

When you are ready—and facilities are ready—you begin as an

THREE ENLISTMENT PLANS FOR COLLEGE MEN

Juniors—Sophomores—Freshmen May Continue Their Education

1. A new plan allows Juniors, Sophomores and Freshmen, aged 18 to 26, inclusive, to enlist in the Air Force Enlisted Reserve and continue their schooling, provided they maintain satisfactory scholastic standing.

All College Men May Enlist for Immediate Service

2. All college students may enlist as privates in the Army Air Forces (unassigned) and serve there until their turns come for Aviation Cadet training.

3. All college students may enlist in the Air Force Enlisted Reserve and wait until ordered to report for Aviation Cadet training.

Upon graduation or withdrawal from college, men will be assigned to active duty at a training center as facilities become available.

If the necessity of war demands, the deferred status in the Army Reserve may be terminated at any time by the Secretary of War.

The new Army Air Force Enlisted Reserve Plan is part of an over-all Army Enlisted Reserve Corps program shortly to be announced. This program will provide opportunities for college men to enlist in other branches of the Army on a deferred basis and to continue their education through graduation if a satisfactory standard of work is maintained. In case of necessity the Secretary of War shall determine when they may be called to active duty.

It is understood that men so enlisted will have the opportunity of competing for vacancies in officer's candidate schools.

This plan has been approved in the belief that continuance of education will develop capacities for leadership. (Reserve enlistment will not alter regulations regarding established R. O. T. C. plans.)

Aviation Cadet at \$75 a month, with expenses paid.

If you have majored in science or engineering you can try for a commission in the ground crew—in Armament, Communications, Engineering, Meteorology, Photography.

As a Second Lieutenant on active duty, your pay ranges from \$183 to \$245 a month.

80% Have Won Commissions

Due to thorough training—about four out of every five Aviation Cadets this past year received Second Lieutenants' commissions—of which 67% are now flying officers.

The tremendous expansion of the Air Forces should assure rapid advancement in all branches. And after the war—you'll be ready for the ever-growing opportunities in aviation.

Settle Your Service Now

The years ahead are war years—and every college man should make his plans accordingly.

To make America supreme in the air we need *every* college man who can qualify for active or deferred service.

So take advantage now of this option. You may never again have such opportunities.

See your Faculty Air Force Advisor for information and help with details. Join the thousands of America's college men who are enlisting this week!

NOTE: If you are under 21, you will need your parents' or guardian's consent. Birth certificates and three letters of recommendation will be required of all applicants. Obtain the forms and send them home today.
