Feed The Birds With a heavy blanket of snow covering all available food, lov-ers of wildlife are urging resi-dents in this section to dis-tribute crumbs, tallow, and cracked corn for hungry birds. Increasing cold and stormy weather has greatly complicat-ed the existence of the feather-ed inhabitants, and cooperation on the part of bird lovers will aid in eliminating their great-est problem—the lack of food.

State Board Backs Move

State Board Backs Move The voluntary movement upon the part of local officials was en-dorsed by Dr. H. V. Holloway, sec-retary of the State Department of Public Instruction, who pointed out that it was put into effect baroly hours before the State Board of Education had planned to request such a move. The revised longh hour plan was announced in a let-ter to all parents dated December 20.

In many cases, school officials pointed out, children have been forced to lose as much as two and one-halt hours a day waiting for busses under the former one-hour period for luncheon. Advocates of the old schedule, mainly residents of the town, point-dout in the early skirnishes that numerous children are finding in impossible to walk to their homes, eat lunch, and return to school within the specified 30-minute pe-riod.

Members of the board who at-iended the session were: President Gallaher, Secretary Douglass, G. Burton Pierson, and J. Frank Wil-son. M. James Parsons, assistant superintendent of 'Newark Schools, and Mrs. Clara Cranston, school sec-retary, were also present. Mrs. G. D. Plummer, nurse at the school, formerly on a part-time basis, has been put on a full time basis action was taken in response to numerous requests received from a large number of parents.

We, the people whose

children go to your schools from out of town, think

your Newark people are most unfair in their de-

mands that the old schedule be restored. Under the old schedule, some of our children left home at 7.50 a. m., and arrived home in the evening at 4.45 p. m., on many occasions. This is

very unfair to children, six

to eight years of age. Our children have always

had to either eat a coldpacked lunch, or purchase same in the school cafe-

teria. From all reports this one of the best in the state. If the people of Newark are broadminded enough they

will admit that the cost of

purchasing same is not much more than buying and packing a cold lunch,

The article in your very fine paper last week had a statement to the effect that their children would not be able to go home to a hot meal at noon as they pre-viously had done. Our chil-

dren must always eat a cold

packed lunch or patronize the cafeteria, hence they deserve some consideration when it comes to deciding

whether they should or

should not leave a half hour sooner at night than they did under the old schedule.

We feel the extra time spent out of doors in the

fresh air and sunlight is far more beneficial than satisfying some few selfish par-

ents' wishes that their children come home to a warm noon-day meal. (Please Turn To Page 4)

Improved SUNDAY International SCHOOL \* LESSON \* By HAROLD L. LUNDQUIST, D. D. Dean of The Mooty Bible Institute of Chicago. • Western Newspaper Union.

Lesson for January 22

Leavon subjects and Scripture texts se-seted and convrighted by International Council of Refigious Education; used by PETER DENIES HIS LORD

LESSON TEXT-Luke 22:31, 32, 54-82 GOLDEN TEXT-Let him that birtheth e standeth take heed test he fall-I ucinthians 10:12

One of the most heartbreaking experfences we have as Christians is a find that one is whom we have had every confidence as a true and faithful follower of the Lord, has need Him by going out into almost shellevable sin. Often it seems at those who, like Peter, have had e loftlest and most inspiring (el-wable with the greatest case about is lowe and erace, burn to like

Isompip with the Lord, and who speak with the greatest case about His love and grace, turn to the most reprehensible of sins. Lest any unbeliever who reads this begin to gloat over the fullures of Christians, let him be rominded now of his own sin which needs his attention, and of the fact that though Peter fell, he arose again to vietary and usefulness. May it also be maid that none of us has any right to a "holier than thou" atti-ude toward a brother who has fall-en. "Let nim Out Odnketh he standeth take heed lest be fall" fall beatted sympathy heln to restore his stricken brother "in the spirit of mesheness: considering thyself, let considering thy sult, e tempted" (Gal, 6-1 ekness: consideri m also be tempted I. Sifted but Not Destroyed ive

NI, 33). Satan, who is a far more powerful spiritual being than most folk think, is actively interested in tempting the Christian. He uses many clever devices. Although he is not possessed of divine powers, he does have supernatural cumbing and possessed of divine powers, he does have supersultral cumhing and knows the weakness of each one of us. He knew the boastful self-assurance of Peter and was ready to termpt him at that point. Jesue knew this, and even in this dark nour shortly before His crucifixion He takes line to warn Peter, and with His warning to give the as-surance that though it was to be tried, his faith was not to fail, and that he was to be restored to fellow-thip and service when he "turned ship and service when he "turned again," which is the correct trans-lation for the word "converted."

lation for the word "converted." In Scil-assurance and Disgraceful Failmer (vz. 33, 34, 54-60). Peter was sure of himself and of his consecration to the Lord. A man who stands in that place is in grave danger. It is not long before we find Peter, apparently presum-ing on his own ability to stand fast, consorting with the enemies of Christ warming himself by their ing on his own ability to stand fast, consorting with the enemies of Christ, warming himself by their fire. Someone has suggested that the great spiritual problem of our day is not the conflict between the Church and the world; nor is it to determine how the Church can best serve in the world, but rather what to do about the world which has gotten into the Church. How did worldliness get into the Church? The members brought it there after they had gone out and warmed them-selves at the world's fire, and fel-lowshiped with the world in ungodly living.

living. The denials made by Peter seem atmost unbelievable in the life of one who had been in immediate fel-lowship with the Lord and who had towship with the Lord and who had seen His glory. We have here a revelation of the fact that "the heart is deceiful above all things and des-perately wicked; who can know it?" I This is shownaily ainking to the lowest plane of base ingratitude. This is shame upon shame." One might have hoped that one denial would bring quick and sincere re-pentance, but instead it leads the way to a second and to a third. 3 There seemed to be nothing that could stop Peter, until "the Lord turned and looked" at him. This suggests the only effective way to 1 deal with backsliders. Argument, pleading, even shaming them, will id go good. We must bring them to it is do good. We must bring them to the

What was in the look of Jerus is perhaps best expressed by Alexan-der Maclaren: "It spoke of Christ's knowledge, of Christ's pain, of Christ's love." The backslider needs first of all to realize that the Lord knows all about his denials and sin. He has been hiding things from his family and friends, denying accusations, trying to cover up bis guilt. Let him now abandon every such effort. Jesus knows all about it. The second thing to be realized is discrow of his Lord. For a believer to turn away from Him is no light matter, to be casually dealt with. He needs to be deeply conscious of the wounding of the heart of the Lord, as well as of the damage done. But above all it was a look of the to will condone sin, He loves the siner, and especially does He love the one who belongs to Him but who has gone astray. What a graetious Lord we do have!

Naturally, the earlier the young plants are able to get this nourishment, the sturdier their growth, the earlier their maturity, the greater improvement in yield and quality, with the net result that the farmer is able to take in a lot more cash income from the same amount of land and same amount of work-which spells prosperity both for the farmer and the community where he trades.

## Wherein We Disagree

Hen Cagers Bow To Invading Sho'men Although we cannot agree with Henry McLemore's opin on relative to "the forgotten man of sport being the football pass receiver," we express our contrary ideas with respectful reluctance. Georgia has produced three favorites in our book, namely: Ty Cobb, the greatest baseball player ever; Bobby Jones, who was a sportsman to the core, and Herr McLemore, the most entertaining sport columnist in the land, although he does encounter trouble picking horses

and fighters. One dislikes to disagree with sol-prime a favorite as Herr McLemore, but in naming the football pass re-selver "the forgotten man of sport," we think the noted United Press prime and the noted United Press we think the noted United Press prime and fighters.
