MERRY CHRISTMAS

Registrar's Office To Issue Notices Of Draft Deferments

Eligible Students Must Notify Committee Here

The University of Delaware's several hundred men students eligible for Selective Service induction must maintain liaison with their local draft boards through the office of Registrar William H. Bohning if allowable deferment is to be claimed.

Selective Service regulations permit all students, who might be drafted this winter or spring, to remain civilians until the present academic year closes. In the case of the University of Delaware students, that date is June 5, 1949. But certification of their status as students in good standing is required by the local boards, and the official notices can be obtained only through the registrar's office, Mr. Bohning explained. The only exception is in the case of ROTC deferments.

There are 691 non-veteran men at the University, of whom, it is believed, more than half would fall between the ages of 19 and 25.

A committee, which also includes Dean Francis H. Squire, Col. R. T. Pendleton, and Col. L. A. Zimmer, designated the registrar's office for centralizing of the notices to the local boards. This was done because information can best be cleared through the registrar's office," Mr. Bohning explained. The committee, which was appointed by President Carlson, will notify the local boards of the students who are eligible for postponement of their induction until June 5, or until their work ceases to be satisfactory. Such notices go to the boards, however, only when the students notify the registrar that their Selective Service status requires it.

Local boards, Mr. Bohning pointed out, differ in their methods of handling students registered with them. Technically, the student must be ordered to report for induction before he presents official evidence of his being a student. Many draft boards, he added, do accept this evidence earlier, and postpone the physical examination until the close of the academic year.

The University's Selective Service Committee also is collecting exact information on Selective Service as it applies to students, and making the information available in convenient form through the registrar's office. The committee will interpret regulations and advise students on procedure when specific cases are presented.

ROTC students will be approved by the committee for the deferments which will enable them to continue as civilians during the summer, when they otherwise might be drafted. It was announced last week that the University of Delaware has a quota of 191 members of the Class of 1952, and 118 members of the Class of '51 who can be selected for such deferment certification.

In the future, the committee expects also to function for members of the faculty and staff in a manner similar to its current liaison between draft boards and their student-registrars. So far, regulations for affected faculty and staff have not been implemented.

Chi Lambda Soc. Formed on Campus

The Chi Lambda Society has just recently been formed for the express purpose of petitioning the Omicron Delta Kappa Society to establish a "Circle" on the University of Delaware Campus.

The purpose of ODK is threefold: first, to recognize men who have attained a high standard of efficiency in collegiate activities and to inspire others to strive for conspicuous attainments along similar lines; second, to bring together the most representative men in all phases of collegiate life and thus to create an organization which will help to mould the sentiment of the institution on questions of local and intercollegiate interest; third, to bring together members of the faculty and student body of the institution on a basis of mutual interest and understanding.

Membership in ODK is awarded on the basis of character and specified eligibility, irrespective of membership in, or affiliation with other organizations, and without solicitation or propaganda to insure acceptance of invitation to membership. The constitution of ODK sets forth the following qualifications for membership: (1) The qualifications for membership in the Society shall be character, scholarship and intelligence, service and leadership in campus life, fellowship, and consecration to democratic ideals; (2) Character shall be the primary consideration for membership in this Society; (3) No person shall be eligible for active membership until he shall have had at least one year of residence in the institution where elected and, if a student, must possess at least junior standing, and shall rank in the highest thirty-five per cent in scholarship among men students in his college or school of the university; (4) The candidate must have attained, in the opinion of the active members, special distinction in at least one of the below-mentioned phases of collegiate activity: Scholarship, Athletics, Social and Religious Affairs, Publications, Speech, Music and Dramatic Arts.

With the approval of President Carlson, Dean Daugherty and Mr. James Murphy have been negotiating with ODK in regard to the formation of a local Circle. At an organizational meeting of the Chi Lambda Society, Dean Daugherty and Mr. Murphy discussed the aims and purposes of ODK with the eligible students and faculty members. Also at this meeting, the following men were elected to offices: William H. Jenkins, President; William L. Cole, Vice-President; Dean J. Fenton Daugherty, Secretary-Treasurer. Two members of the faculty, Dr. Charles N. Lanier, Jr., and Dr. Frederick B. Parker signed the petition to ODK along with ten students as prospective members.

The eligible students and their qualifying activities are listed below: Alvin O. Bellak (A & S), on the Dean's list for two terms, co-senior manager of the baseball team, intramural football, softball, and volleyball, secretary of Gold Key Society, AEPi Fraternity, Adv. Ed. of Blue Hen, Ed. of Freshman Handbook, Psi Chi, Psy. Club, Hillel Foundation.

Robert R. Campbell (Eng.), Tau Beta Pi (Vice-Pres.), Dean's list three times, Capt. of Football team, intramural basketball, Theta Chi Fraternity, Sec'y Dormitory Council.

James B. Clements (Eng.), Pres. Tau Beta Pi, on Dean's list five times, intramural volleyball, Vice-Pres. IFC, A.I.Ch.E. Band.

William L. Cole (Ed.), on Dean's list three times, varsity football, basketball and baseball, Treas.

Frances Dukler To Lead New Soc. Club

Meetings to Be Held In Students, Profs Homes

A new organization has been added to the campus with the formation of the Sociology Club. The idea for the club originated with a small group of Sociology majors and was carried out by the students with the help of the members of Sociology Department.

The purpose of the club is to provide a common meeting ground not only for Sociology majors, but also for those minoring in Sociology and all others who are interested in the subject. The meetings will be held in the homes of the students and the professors, so that an informal atmosphere may prevail.

In addition to the regular meetings, the organization is planning to sponsor lectures by prominent men in the field of Sociology, debates on Sociological topics, and field trips.

The officers of the Sociology Club are: President, Frances Dukler, who was one of the originators of the idea; Vice-president, Kenneth Wissler; Treasurer, Shirley Taylor; Recording Secretary, "Mimi" Lewis; and Corresponding Secretary, Joan Tattall. Any student who is interested in becoming a member is asked to contact Nancy Wills, Chairman of the Membership Committee.

The first meeting of the Sociology Club will be held January 6, 1949, in the lounge of Warner Hall. The guest speaker will be Mr. C. S. Anderson, Director of the Family Court of Wilmington.

Mr. Anderson has had wide experience in the field of social works. Upon his matriculation from the University of Pennsylvania School of Social Work, Mr. Anderson took over the reins of directing the Baker Foundations in Boston, Massachusetts. In 1945 he accepted the directorship of the Family Court and at present is doing a fine job of running Wilmington's newest court.

Mr. Anderson will speak on the "Opportunities Within the Field of Social Research."

The student body is invited to attend.

Board of Trustees Approves Advance

Five Members of Staff Promoted to Full Profs

Promotions for five faculty members were recently approved by the University's Board of Trustees.

Of the five, Anthony J. Loudis, Dr. Vincent E. Parker, Dr. Halsey M. MacPhee, and Dr. Frederick B. Parker will receive full professorships.

The promotions will become effective next semester.

Anthony J. Loudis, chairman of the Dept. of Music, came to Delaware in 1937, became assistant professor in 1939, and associate professor in 1945. He is a graduate of the Juilliard School of Music and has received two degrees in music from the Teacher's College, Columbia University. He is active in the Music Educator's National Conference, and is program chairman for the Newark Music Society.

Dr. Vincent E. Parker, chairman of the Dept. of Physics, has been a member of the Delaware faculty since 1941, serving at that time as a part-time instructor in Chemistry. Meanwhile, he did research with artificial radioactive elements at the Biochemical Research Foundation.

Rush Week Ended With 147 Pledges

Below is the list of men pledged by the nine fraternities on campus as result of the two-week rushing period which ended at midnight last Saturday. This number sets a new high for Rush Week pledges here, the number last year being 124.

Alpha Epsilon Pi—Irwin F. Chavin, Donald Cherr, Paul Davidson, Seymour Fink, Gerald Frankel, David Goodman, Walter A. Landau, Arnold Lieberman, Larry Lipstein, Samuel Nord, Irwin Pack, Neal J. Rothman.

Alpha Sigma Delta—Charles Bowlers, Luther F. Broadway, Allen Duffy, William W. Fletcher, Gene E. Godwin, Donald O. Griffin, Robert G. Hanby, Wesley G. Johnson, George R. Long, Harold C. MacWright Jr., Charles J. Magee, Edwin P. Prettyman, R. Alan Stewart, Robert W. Taylor, Daniel Telesco, Earl B. Walker Jr., John K. Williams.

Delta Tau Delta—Orlin S. Anderson Jr., Arthur B. Carn Jr., William C. Hall, Willis Hoch, Edward T. Howell Jr., Robert W. Irwin, William H. McCauley, Donald J. Morton, Donald Lee Ward.

Kappa Alpha—William M. Anderson, William E. Barnette, Dana D. Burch, Charles Lyle Carney, Richard C. Cecil, John C. Cunningham, Horace D. Daisey, Robert Davis Jr., William Draper Jr., Elwood M. Egert, Anthony L. Genetta, Robert H. George, Richard H. Harris, Lawrence Hartnett, David R. Klrkby, Alfred Lezenby, James McNeal Jr., Desmond Mann, Frank H. Miller, Bruce Moore, Richard Shaw, Robert Wilhelm.

Phi Kappa Tau—William P. Bowman, Richard J. Clynes Jr., Boyd M. Cook, Clifford Crothers, J. Frank Gordy, William C. Hash, Eugene Lent Jr., James W. Maxwell, John W. O'Day Jr., Charles L. Poehlmann, Larry A. Price, Carl M. Sautter, John W. Scott, James M. F. Short, Frank B. Springer Jr., William A. Tieman, Clarence F. Wright, Richard M. Williams.

Pi Kappa Alpha—Harold Bauer, William Bodnaruk, Marc Bonifitto, Robert Cox, Harry Heyl, Harold Isaacs, Stanley Layfield, John Louie, Howard Records, Louis Sala, John Ward, William Welsh, Norman Wilson.

Sigma Nu—Fred H. Baker, I. Fred Brown Jr., E. Paul Catts Jr., Richard P. Crawford, James P. Diamond, George E. Ester, Lewis W. Haines, James R. Jones, Joseph M. Lank, Charles E. Lloyd, Edward J. Minehan, Eam J. Pernikoff, Jack W. Ponton, John E. Raidy, John M. Thompson Jr., Donald Tobiasson, Donald P. Wanstall, Charles C. White.

Sigma Phi Epsilon—Thomas Baylis, Roger D. Browning, John E. Buechele, John Crosswell, Thomas E. Fouracre, Ralph E. Gesell, Arthur M. Grier, Louis R. Kenderdine, Richard MacIver, Robert Miller, William Pie, Tyler Richard, William L. Sharp, H. William Shockley, Robert M. Thompson Jr.

Theta Chi—Charles F. Anderson, John G. Borton, Alfred L. Brodhag, W. Merritt, Burke, H. William Craver, John DeGasperis, Richard C. Grossman, Frederick Hartmann, Leonard W. Hatton, Jay Hayes, Richard Hill, William R. Hill, II, H. Stanley Hughes, Edward Kedda, Donald B. Kiddoo, Joseph Lill Jr., Thomas McKenna, Frank Mangino, Hugh C. Miller, Raymond R. Salamone, Edward Samockl, Robert F. Smith, Fred M. Whitehead.

Board of Trustees Holds Meeting Sat.

Reports of Commission Told by Dr. Carlson

Research in the problems and needs of its students will mark the University of Delaware's program to end post-war improvisations, President William S. Carlson told the Board of Trustees Saturday morning, Dec. 11, 1948, at the semi-annual meeting in Newark.

President Carlson pointed out to the board that the University's enrollment had soared 450 per cent from its low in September, 1945, to its present peak of 2,000 undergraduates. He commented that now, with the size of the student body "beginning to level off, we are determined to bring an end to the improvisation which has characterized much of our work during the last two years."

"Research in problems in University education whose solution would improve our effectiveness" already is the assignment of a new committee at the University, he disclosed. "We already have made great strides in the development of an enviable research program. Now it is our intent to apply the research techniques to our own business."

Dr. Carlson also discussed the recent report of President Truman's Commission on Higher Education, especially as it might apply to conditions at the University of Delaware. Among the points he made were the following:

That "we do not expect the proportion of youth who will be admitted to the University of Delaware in the next decade to be nearly as high as the average for the nation" as predicted by the commission. This, he explained, would be attributable to the commission's use of low test scores in estimating "reasonable expectation" of a student's completing a four-year college course. At Delaware, the president said, much higher test scores are considered necessary for prediction of success in college work.

Because higher education, even in a publicly-supported institution such as the University of Delaware, is beyond the financial means of many people, Dr. Carlson said, the commission had recommended establishment of a system of federally-subsidized scholarships, "acting on the premise that educational opportunities for all are essential in a democracy."

"We have had a faculty committee studying the prevailing theories of liberal and general education, the new curricula in operation at other institutions, and the particular needs and responsibilities of the University of Delaware. The members of this committee are conscious of the importance of their task and united in their desire to develop a liberal arts program congenial to the University of Delaware and worthy of its traditions and its destiny. Specific recommendations will probably be made to the faculty this year."

Of Delaware's faculty, he commented that "from a purely statistical point-of-view, the faculty here stacks up well with other colleges in the matter of earned degrees and, insofar as possible, we have attempted to fill all vacancies with experienced personnel."

After remarking that the report had credited "the average professor of 1947 with teaching more students, working longer hours, shouldering graver responsibilities and receiving substantially less income than he did in 1940," Dr. Carlson said.

Music Notes

Peggy Ann Munoz

On Sunday, December 12, the music lovers of the University of Delaware and of the Newark community had the pleasure of hearing the Christmas portion of Handel's *Messiah*, sung by the university chorus and guest soloists, under the direction of Professor Anthony J. Loudis. This is the second year that the Music Department has presented Handel's great work, and it is edifying to see that it is becoming as much a part of campus tradition as the annual Christmas program given in conjunction with the Department of Dramatic Arts. Professor Loudis deserves the highest praise, not only for establishing this addition to the cultural life of the University, but for the excellence of the performance as a whole.

The guest soloists included Miss Lucille Miller, contralto; Mr. Norris Greer, tenor, and Mr. Duane Crossley, bass, all from Philadelphia. The University of Delaware Music Department was represented by Miss Hilda Somers, who sang the soprano solos, and Miss Grace Berry, who played the organ accompaniment with great technical skill and sympathetic understanding of Handel's music.

It was unfortunate that there was only one tenor solo in the portion of the *Messiah* that was performed,

as Mr. Greer had not only an excellent voice but also an impelling manner of delivery, which brought home the significance of the music and the text to the entire audience. The power and the tonal quality of the bass soloist, Mr. Crossley, were also extremely good. Because of the perfect control that Miss Miller had over her voice, it was a pleasure to hear her sing, and her rendering of the contralto Recitative and Air beginning "Then shall the eyes of the blind be opened" showed the utmost of tenderness and feeling.

A tremendous improvement in the Chorus over the production of last year was immediately noticeable. The attacks were, on the whole, clear and strong, while the blending of the various vocal parts throughout was unusual to hear in a non-professional organization faced with the difficulties of polyphonic music. However, in the chorus, "O thou that tellest good tidings," the tempo seemed a little too fast. This also could have been the reason that many entrances were missed in the "Lift up your heads" chorus, which gave the impression of a straining for dominance between the conductor and the chorus. As for the "Hallelujah" chorus, it was magnificently handled, and was the most inspiring of finales to a really excellent afternoon of music.

"WOW! LADY GODIVA!"

THE GEYSER

By JIM REAGAN

Well, last weekend is over—and some heavy sighs of relief are being breathed around campus. Maybe it's just that our eyesight is improving, but we didn't realize life could be so gay in this hide-bound institution.

The Winter Formal topped the weekend—and from a musical viewpoint (ours, of course) it topped anything ever held here before.

McIntyre's slogan "The Band All America Loves" almost threw us off—we didn't catch that "Famed for its Modern Rhythms" in time. The man actually played up-to-date stuff—and well—even with that kindergarten crew. We missed the progressive jazz number, but we did catch some nice bop—real inspiring stuff. The slow stuff didn't drag like the night before finals, either. The man's good! The decorations were pretty slick, considering the time for setting up was about four hours. And the floor was in fine shape, too.

Naturally, something had to spoil the pretty picture—this time it was the cloakroom. Plans for two cloakrooms didn't quite come off—and the outfit handling the deal claims no cooperation from the basketball moguls. At least it was only a fly in the ointment—not a B-29.

Parties ran rampant after the dance and over the weekend—the most spectacular being one on Saturday night in a local soda emporium. How happy can you get?

The engineers will be shooting for the same kind of hilarity pretty soon—they're reviving the pre-war Engineers' Ball, which used to be quite an event back in the days of yore. Just so they don't use the new turbo-generators for decorations—they might be too much competition for the female element. Personally, we don't think machinery will ever replace sex. Not even ping-pong could—ask Ed Clark.

Well, Rush Week is over and the pledges have been selected—another class begins the battle for survival. Good luck, boys—the work is just beginning. You'll never know how ingenious the human mind can be until a couple of months from now.

The annual Christmas celebration put on by the school promises to be at least as good as last year's—and it'll have your judgment by the time this rag hits the streets. The greatest thing we missed in the Christmas warmup is the pre-Christmas job put on by the athletes last year.

Christmas is here again—it must be, judging by the commercials. We haven't seen much of the spirit around, unless it's the eager boys getting their names in for postoffice jobs. No smiles, no caroling, no nuttin'! Be gay on Friday or Saturday anyway, gang. Tests are over until next year, there's a basketball game on Friday, and a vacation coming on the horizon.

Purely Personal—Bob Campbell beating Andy Scari's time with Lib Houston . . . Dolly McNulty giving "White Star of Sigma Nu" the Treatment . . . Mole Whitehead checking over the list for the Christmas night Dance . . . Lee Perry alibing that "Labor Pains" radio remark . . . Alice Burns missing out on the feuding . . . Hal Bauer hitting the big time—8 a.m. Saturday and Sunday . . . Sue Carter keeping the red light burning . . . Ray Cericola dodging the males . . . Fred Hartmann visiting the Bastille . . . Jack Monaco and Bob Harper preserving themselves in VO . . . Bob Hunter and Jack Guenvuer taking all offices in the Lushwell Club . . . Ike Isaacs touring the Smyrna area Saturday morning . . . Bill Wright dissipating in the better circles . . . BJ Kinder admiring Lincolns . . . Joyce Wakefield singing bass . . . Jack Veale keeping Wilmington well preserved . . . Jane Raymond, Jane Gordon, and Mandy Abbott hitting the Andrews Sisters routine . . . Leon Parham checking the ladylove . . . Al Horner harmonizing on the Beta Theta Pi's . . .

With that under our belts, we wish you luck, fun, a Merry Christmas, and a Happy New Year. Be gay and hit the jackpot—so long until '49.

Straight From the Septic Tank

By FLUSH & SLUSH

Hello Girls—With Christmas rolling up mighty soon we want to give you the scoop on wearing apparel. . . . Let's call this issue Flush and Slush Fashions.

Conglamouration for U. of Del. girls and Future Brides
Why Wear and When

More and more people everywhere are getting clothes-conscious. This means clothes will be noticed more. The reason for this is that everyone seems to be showing an increased interest in clothes.

The one thing you really notice about clothes nowadays is that they are getting greater attention than previously. That's because more people are aware of them.

Why this interest? We don't know.

We do know that the young fool who's getting married will want to wear something at her wedding, and maybe for some years after. Flush and Slush have a warehouse on Amstel Avenue that is checked full of assorted lovelies (in clothes). Let us give you the idea of what to wear all the way from the bridal path to the stable.

Our first creation is a combination nightgown-bed, suitable for overnight use. This simple thing has a cape which doubles as a mattress when wadded up and placed underneath the body. The nightgown doubles as a nightgown when taken off, you put it back on before retiring. Beside all this there is a stunning string handle wallet which is actually a pillow that can be inflated by blowing into it, just like a
(Continued on Page 4)

Letter To The Editor

Several weeks ago there appeared in THE REVIEW an editorial on the Gettysburg Police Force. I would like at this time to recommend an organization worthy not only of an editorial, but also a shakeup, the Newark Police Force.

There seems to be a rather shortsighted attitude on the part of some elements in this town that college students are nothing but a profitable nuisance.

This exact attitude is perfectly reflected in the face of a Newark policeman as he stops a very minor traffic offender and asks condescendingly, "You from College, son?"

The students deserve nothing but credit for their safety record in driving through town. The tremendous traffic flowing safely around the corner of South College and West Main Street without the aid of a traffic light or hindrance of a directing policeman is a good recommendation for every commuter.

There is absolutely no justification for Newark policemen to arrest students going 35 M. P. H. through the town very late at night, or students who hit the brake, shift gears, but in the opinion of the cops have gone through a stop sign. Thirteen-fifty is roughly 20 per cent of seventy five dollars.

The magistrate in town might also be reminded that he is supposed to give receipts for fines paid. Granted, the police in this town are not paid too well, but for this they have the obvious compensations that go with a uniform. Perhaps if the money paid in were used to repair some of the craters in the main streets of this town the whole situation might be slightly more justifiable.—E. H.

The Poet's Corner

The New Look

By Richard Burton

Vogue, Mademoiselle, and Harper's Bazaar,
Have started a movement which reaches afar.
The latest cross of the harassed male,
Makes him gnash his teeth; makes him weep and wail.

For their new long skirts that cheat the glance,
They took the cloth right off our pants.
And thereby increased our sartorial woes.

Now the cold winter winds keep away from their knees,
But what happens to us? Our ankles will freeze!
The cold winds will rush up our trousers I fear,
And chill us in places I can't mention here.

The final analysis brings only grief,
The girls must be warned, and I'll try to be brief.
We're sure to be tardy on all our dates,
'Cause the socks that we pick will have to be mates.

—From *The Junonian*

Brains are
Pains.

NOTICE TO FACULTY AND STUDENTS

Subscriptions for the 1949 Blue Hen are now on sale in University Hall Monday through Friday from 9 a.m. to 3 p.m. All those who wish to purchase copies of the year book may do so any time before January 6 at the price of \$3.00 per copy. No orders will be placed for anyone who does not make payment by this time.

Refunds of \$5.00 per copy are now available to all those who paid the original price of \$8.00 on registration day. These may be made by presenting receipts at the desk in U. Hall any time from 9 a.m. to 3 p.m.

S P O R T S

Basketball Opener Set For Friday December 17th In The Field House

Hen Cagers Open Basketball Season With G'Burgers'

Coach Joe Brunansky's 1948-49 court edition will defend Carpenter Field House this Friday in its initial home test. Opponents for the evening will be the high-powered Gettysburg Bullets.

This year's Delaware aggregation is built around five veterans who were instrumental in last season's successful campaign. Mentor Joe has selected this five as his starting team against the Pennsylvania invaders.

Co-captain Bill Nash holds top nomination for center. He'll receive support from Dick Grossman and Jim Middleton, high scorer of last year's freshmen champs.

Reds McFadden and Co-captain Billy Cole get the nod in the back court, this tireless pair pulled several games out of the fire for the Hens last season. They'll be backed up by sophomores Joe Heim, Curt Turner, Frank Albera, and "Doc" Green.

"Phantom Bob" Gregory and "Ace" Hoffstein at forward complete the starting lineup. They'll take over the spots vacated by Gerry Bowlus and Barney Runcie, last year's most consistent point-makers. However, the situation here is far from being poor; both have shown startling ability in recent scrimmages. Art Sullivan, Joe Kwiatkowski, Ed Clark, and Dave Rosenblatt provide capable depth. The Hens will scratch it out with Toledo University and Lawrence Tech of Buffalo on December 30 and 31 before they return home again to meet Temple's Owls on January 5.

Table Tennis Club Formed on Campus

Delaware Team Loses First Game To Temple

The University of Delaware now has a table tennis club for anyone interested in the game. The newly-organized club sent a representative team up to Temple University on the evening of November 30th for its first intercollegiate match.

The team came back on the short end of a 13-2 score. The members of the team played well and made the match closer than the score would indicate. Ben Hurd, Dick Edwards and Jack Friedlander put up good fights against their opponents. Although they weren't able to win any of their matches, they gave the experienced Temple squad plenty to worry about.

The only wins for the Delaware Club were turned in as a result of the evening's final matches, in which Terry Schall and Ed Clark both defeated Lederer, Temple's No. 1 player. Schall won 21-9, 24-22 while Clark defeated him 21-16, 21-13.

The team will meet in Brown Hall Basement on Tuesday nights at 7:00. A challenge ladder tournament has been set up with eighteen places. Anyone interested should be there Tuesday night.

Team Standings:

1. Ed Clark
2. Terry Schall
3. Jack Friedlander
4. Dick Edwards
5. Ben Hurd
6. Sam Spiller
7. Harry Mayer
8. Frank Moore
9. Bob Gregory
10. Stan Rosen
11. Jim Gilson

Blue Hen Mermen Drown W. Chester

Del. Meets Virginia Cavaliers Here Jan. 8

Fresh from a rather surprising victory over a favored West Chester squad, Harry Rawstrom's University of Delaware mermen get a holiday rest from dual competition until they return to service January 8 in Taylor Pool against the strong Cavaliers of the University of Virginia. The Hens were to have met the F & M team Wednesday night.

Paced by co-captain Frank Craig and by Hugh Dougherty, the Birds wasted little time dropping the boom on the conference champions from West Chester last Saturday. They swept seven of the nine events, and only Bob Kerper, the Middle Atlantic back stroke champ, was able to score an individual win. Rawstrom, highly elated, but not overly surprised at the outcome, saw the fruits of some grueling conditioning work pay off as his squad called the turn on a team that had plastered two defeats on the locals in opening meets in '46 and '47. Murray, Campbell, Jim Baird, and Johnny Bishop teamed up to give the Hens a victory in the medley, and then Dougherty took Kerper into camp in the 220. Co-captain Jack Smith was right on Dougherty's heels, and the Birds had a 13-1 margin at the start. Craig then touched out Ed Smith and Warren Haymen in the "50," and Bauday Grier made it four in a row by running off with the diving in a fine exhibition that missed the pool record by only three points.

Craig came back in the "100" for another first, and then Kerper cashed in over Campbell and Lew Ward for the Teachers first win in the backstroke in a close race. Kerper, taking on a Herculean task in swimming in three events, came close to losing his first back stroke race in four years, as both Campbell and Ward pressed him to the wire. Jimmy Baird, a name to remember this year, walked off with the rough 200-yard breast stroke, and Johnny Koch, a promising sophomore, edged out the Rams' Larry Roller for second place. This clinched the meet for the Hens, but Dougherty came back with Smith to contribute another one-two finish in the 17 lap "440." Both of these finished a full length ahead of the Ram entries, and the race settled down to a duel between the two Bird swimmers, with Dougherty spurring in the late stages to take his second win.

The Teachers won the final relay over a Hen team composed of Gary Carpenter, Craig, Fred Lewis, and Baird, but the deal was settled by then. Just what clue the meet could offer as to the Birds' chances this year in the Middle Atlantic scramble is unknown. As Rawstrom put it, "you never know how much the opposing swimmers have improved, and anyone in the league can bounce you out of a clear sky." However, if the Hens can maintain their present pace and pick up some depth for their freestyle relay, it seems certain that they'll be causing trouble in Middle Atlantic pools this year.

Something in the way of future help was in evidence in the frosh meet as the yearlings swept to a 48-27 victory over the Ram freshmen, the same score, incidentally, that prevailed in the varsity splash.

(Continued on Page 5)

The Hen Men

TED ZINK

"There's an exception to every rule." This hackneyed observation comes from the ranks of the armchair analysts day after day, especially in the field of Sports. We are reasonably sure that you will agree to the fact that the greatest majority of outstanding collegiate athletes are those who have gained the invaluable training and experience of participation in high school sports. In rare cases there are "exceptions" and a fellow who has had little or no experience can gain recognition playing on college teams. More frequently the reverse happens and some school boy stars graduate directly into the pro competition.

Here at Delaware probably the most prominent example of the "exception" is Ted Zink, who, despite the fact that he had to leave the "previous experience in high school" space a complete blank spent three seasons a member of the varsity grid squad, two seasons with the hardwood hawks, and a year with the diamond dusters.

"Thumping" Theodore (the thumping with reference to the Rollins game during which our hero ravaged the Florida backs with some beautiful defensive play) is a Phys. Ed. major who tosses in his jock this February hoping to get a sheepskin in return. Mom's secret recipe for meat loaf rates a No. 1 on his appetite index. Ted found his ideal about a year and a half ago when he married Lois Marie—second to his marriage the "Thumper" considers his being able to compete in college sports his biggest thrill.

His two and a half years of service was divided between the Merchant Marine and the Naval Reserve. Mr. Zink wasn't sunk and it's a good thing since his pillow for nearly 60,000 miles of travel was a few gallons of gasoline—high octane, while aboard one of Uncle Sam's tankers. The scenery included South America, Italy, England, North Africa, Carolinas, Philippines and the Marshalls.

After the big day in February, Ted is going to move to North Carolina because he likes the climate down there. Another part of his ambition is to teach Phys. Ed., English, and be a football coach. In three or four years after "Diamond Ted" makes his first \$100,000 he plans to open the largest bowling alley in the East.

On campus Ted is as active as they come; a member of the Varsity Club, a member of the Theta Chi Fraternity, and Intramural sports as follows: softball, basketball, bowling and volleyball.

Well, "Exception" lots of good luck after Feb. and when that bowling alley opens up expect the student body down for a few FREE frames.

Most Roses are dead

Most Violets are too

Ted Zink is leaving

99 44/100 wish they were too

REEL SIX

Merry Xmas an' I'll see ya,

next year

Co-Ed Basketball Starts January 4

January 4th marks the official opening of the basketball season for the women at the south end of the campus. Pat Wetzel, Senior Physical Education major from Wilmington has been awarded the job of Manager for the '49 season.

The W.A.A. will have a general meeting immediately after Christmas vacation to gather together the class teams that will play in the Tournament. Basketball, always a popular sport with the femmes at Delaware, should have a big year since the Freshman Class, who managed a big turnout for hockey, show evidences of duplicating their feat for basketball.

SPORT SHOTS

By DON REYNOLDS

With the coming of the Christmas Season, the Delaware Sports Shots Department is getting into a festive mood. In fact, most of the boys have been in the mood ever since Thanksgiving. We'd like to wish all of the troops a Merry Christmas, and in doing so suggest a few things which the boys might want or need on December 25th.

Stan Bilski—A few dozen Polka records.

Moon Mullin—A St. Bernard.

Billy Cole—A commuters ticket between Wilmington and Middletown.

Hugh Dougherty, Frank Craig and the rest of the swimming team—About ten more hours in the day for sleep.

Bill Nash—Some advice on how to beat Billy Cole on the golf links.

Ace Hoffstein—We could think of some good one's here, but just give him varsity letters in track, ping pong, bowling, handball, cricket and jai-alai.

Nine Stalloni and Charley Smith—A few more dorms to conquer.

Jack Gallagher—A few more rackets to run.

Ed Horney—Al Schacht's big catchers glove for next year's soccer season.

Jack 'Bongo' Miller—A steak for every meal.

Zeke Carrell—A seeing eye dog for his roommate.

Tommy Silk—A diet book.

Archie Rappaselli—2 diet books.

Jimmy Thomas—A good right leg.

Coach Brunanski—Jimmy Thomas.

Dick Wells—A free ride to Keokuk, Iowa.

Ray McCarthey—A new joke book.

Bill Otten—A contract to play with the Washington Redskins.

Bill Owen—A new voice, the old one is wearing out.

Ernie Mettenet—A new set of eye lashes.

Bob Sieman—A cash register.

Murray Campbell—A traffic light at the swimming pool so he won't have to worry about bashing his head into the walls.

Phil Genthner—A tow truck.

Coach Murray—8-0-0 in 1949.

Sam Macrum—A few more passes thrown at him.

Wayne Pollari—Governorship of Delaware.

Sig Ep Captures Football Crown

Huston, DeFiore Star In Championship Tilt

Sparked by the rifle-armed passing of "Chick" DeFiore and the glue-fingered receiving of Don Huston, offensively, and fielding the hardest charging line in either the National or the American leagues, defensively, the Sigma Phi Epsilon touch football team swept the American fraternity league and went on to beat the National league champs, The Eagles, thus capturing both the Inter-Fraternity Touch Football Cup and the Intra-mural Touch Football Championship Plaque.

Against American league opposition the Sig Ep team rolled up 176 points against 24 for their opponents. Using the "two-platoon" system, the Sig Ep defensive line consistently outcharged the teams that they faced, often stopping plays before they began. The main bulwarks of the Sig Ep defensive line were Charley Rowe, Gene Wolfe, Fred Chapman and Rod Holton. On the offensive line, husky Joe Baldwin manned the center post while a pair of tall, speedy ends, Jack Lewis, and Don Huston, held down the flanks. In the backfield, player-coach Andy Aastad, Angie Cataldi and "Chick" DeFiore starred.

Sig Ep clinched the American League title by downing the runner-up Kappa Alpha team, 21 to 6. It was a hard fought contest highlighted by two DeFiore to Huston passes for touchdowns and a long punt return by DeFiore behind excellent blocking for a T. D. K. A. scored on a long pass but failed to convert. Sig Ep converted twice and scored a safety.

The following week the Sig Ep team met the Eagles, champions of the National League, for the Intra-mural playoff. When the final whistle blew, Sig Ep was ahead 11 to 6. In the first half both teams scored, but Sig Ep was the only one to make the conversion and led 7-6 at the half. With the respective teams fairly well matched offensively, it was strictly a hard-fought defensive game. In the second half

(Continued on Page 5)

Needed: New Blood For Track Team

Attention: All Men Students of Delaware:

If you are nervous and worried about your chances of success or failure on Sadie Hawkins Day in the next few years, this communication from Ole Man Mose may set your mind at ease.

The answer is "P. R. R.—Ah has spoke." Perhaps you'll interpret this all-knowing and philosophical announcement to mean that you should purchase a ticket to an undisclosed destination on the Pennsylvania Railroad in order to avoid being ketched by that gal. Since Ole Man Mose knows little about the Pennsylvania or the B. & O., that obviously has nothing to do with it. Besides, that gal might purchase a ticket for the same train.

P. R. R. in this instance, refers to pulse rate reading. If you have a low normal pulse rate, (between 40 and 55 or 60 per minute) the chances are very good that you have the potential ability to outrun all the gals on Sadie Hawkins Day. If you are, like the boy shmoo, interested in marriage, you'll be wasting your time to continue reading.

Practically all of the outstanding distance runners (past and present) have had a low pulse rate. Leslie McMitchell, the great N. Y. U. runner, had difficulty in passing the Navy exams due to his pulse rate of 42. The examiners were hard to convince that he was not in a critical condition.

Some evening when you are ready for a ten minute break from study, why not take a few minutes to check your own pulse rate? If you find that the reading is unusually low, don't call for the smelling salts or ask your room mate to summon a physician. Just finish your study and go to bed as usual for a good night's sleep. During the first free period on your schedule the next day, stop in the Athletic Office to see the track coach, and arrange for your ticket to an unusual and outstanding career in track and cross country during the coming seasons.

Chi Lambda Soc.

SGA, Pres. Senior Class, Pres. All-son Assoc., Varsity Club.

William B. Jenkins (Agr.), on Dean's list six times, soccer and wrestling teams, Vice-Pres. DSCA, McCue Club, reporter for the Review and Aggie News, band, debate speaker, Vice-Pres. Wesley Club, Treas. Del. Student Teachers Assoc., Vice-Pres. Agr. Club.

George F. Moore (Eng.), Tau Beta Pi, on Dean's list five times, intramural softball, volleyball, football and basketball, Pres. ASME, House Manager Brown Hall.

William R. Nash (Eng.), Varsity football and basketball, intramural softball, Pres. SGA, ASCE, Newman Club.

James E. Orr, Jr. (Eng.), Varsity soccer, intramural football and softball, Treas. SGA, Sparton Soc., Treas. IFC, Pres. Sigma Phi Epsilon Fraternity, Pres. Freshman Class, AICHe, Pub. Chairman Junior Prom., Band.

Jack H. Smith (A & S), on Dean's list twice, Varsity swimming, SGA, Alpha Phi Omega, A Capella Choir, Univ. Chorus, E-52, Debate speaker, Pres. Canterbury Club, Varsity Club.

Carl Stalloni (Ed.), on Dean's list four times, Varsity football, and lacrosse, intramural basketball, softball and volleyball, Theta Chi Fraternity, Review sports staff, Newman Club, Chairman decoration committee for Junior Prom and Christmas dance.

Int'l Club Meets For Dinner Chats

A very enthusiastic group of students met Tuesday evening in Kent Hall in order to participate in the informal chats in French and Spanish that the International Students Club is holding under the direction of Mlle. Babbout and Mr. Tirado.

These language tables have proved to be of great practical value to the students since it is the only opportunity they have to practice a foreign language in an informal and friendly atmosphere.

The people who dined together this week were: Kitty Watson, Mike Phillips, Jack Pernikoff, Eleanor Nai, Carol Ranshaw, Peggy Munoz, Mary A. Grant, William Hart, Jr., Marina Attia, Osvalde A. Torres, Jaime Cuadra, Mlle. Babbout, Mr. Milton Roberts and Mr. M. Tirado.

Students and professors are invited for the next language table which will take place next Tuesday at 6:10 p. m. in Kent Hall. Common Hall tickets welcomed.

Board of Trustees

(Continued from Page 1)

In 1943, he became a full time assistant professor in Physics and was made associate professor in 1946.

Dr. Halsey M. MacPhee, chairman of the Dept. of Psychology, came to Delaware in 1946. He is a member of the American Psychological Association and was president of the Delaware Psychological Association in 1947-1948. His teaching specialties are clinical and experimental psychology.

Dr. Frederick B. Parker, chairman of the Dept. of Sociology, came to Delaware in 1946. He has been a fellow of the National Council on Religion in Higher Education, and has held a research scholarship at the Institute for Research in Social Science, University of North Carolina.

Ralph E. Kuehn, new assistant professor in electrical engineering, has been an instructor here since 1947. He holds a B. S. from the University of Illinois, and, while serving as a lieutenant in the Navy, studied at Bowdoin College and M. I. T.

balloon or a tire. Finally when rising, place it on a dull nail and charm those stucco walls—The gabs in Boletus, Topsy and Turvey will go wild. For creation number two we have a charming business suit, with simple rustic patterns stamped on by hand, and maybe adapted, to any dimensions. Just ask for your size. Your size is the size for you. It is your size. We know, you wonderful women, that you will love the pathetic simplicity of the divided skirt, and the new long look. This lovely creation will completely conceal your horrid limp.

GET A LOAD OF THIS GALS

See how easy it is to give your date a lovely toenail treatment tonight.

Remove his shoes and socks and get right to work with our patented silver toe pick. Find these things out about toenails.

DO YOU HAVE ANY?

Examine your feet objectively, turning them over in the palm of your hand. If you have nails, they will be found on your toes.

DOES YOUR DATE HAVE ANY?

Strip him to the waist and tap his knee with a mallet. If he jumps he is awake. Wait until he falls asleep before playing around with his feet. Men have pride.

WHAT TO DO WITH THEM

Hide them. They are ugly. No one wants to see toenails. Tape them up and give your friends a break.

HOW LONG DO THEY LAST?

As long as your fingernails. Examine your hands, turning them over in the palms of your feet. Do the nails show signs of wear, tear, cracking? That's bad.

We hope these practical, easy-to-follow household hints will make your life a bit happier. Anyhow you have some good info before the holidays, and if you're confused, give us a buzz and we'll have a heart to heart talk in the romping section of the "B" Room.

Our definition of passion

A feeling you felt

When you felt you were going to have a feeling

You had never felt before.

Scabbard-Blade Initiation Held

Two honorary members and five undergraduates were initiated last (Monday) night into the University of Delaware's chapter of the honorary military society, Scabbard and Blade, at ceremonies held in Old College.

The two alumni upon whom honorary membership was conferred are U. S. Rep. J. Caleb Boggs and John A. Hodgson, assistant business administrator at the University, both of whom served as Army officers in the recent war. They were selected by the chapter on the strength of their active military and ROTC careers.

The five new undergraduate members are: James Baird and Benja-

min Campagna, of Wilmington; Robert Cohee, Bridgeville; Don Reynolds, West Grove, and John Gallagher, Claymont. All are cadet officers in the Delaware ROTC battalion.

Cadet Lt. Col. William C. Conrad, captain of the society, presided at the initiation. Scabbard and Blade was reorganized on the Delaware campus last spring with the objectives of helping to raise the standard of military training, to foster esprit de corps, and unite personnel of the military department.

Blue Hen Prepares To Mug All Seniors

On January 3, 1949, at 8:30 in the morning, the first Seniors will be photographed for the Blue Hen. The schedule provides for seven persons per hour, and the entire process will take eight days—continuing until January 12. All Seniors are urged to cooperate to the fullest extent with this photography plan. This schedule was worked out individually, taking each Senior and his or her apparently free hours into consideration.

If there are class conflicts now, please write your name on the bulletin board with a list of convenient time schedules and watch for a revision and hour changes.

The photographs are being taken in Room D, Library Basement. You are expected at the hour indicated! There will be a fee of \$1.00 due at that time.

If you are a Senior and your name is not on the list, post your name and free hours as suggested above.

On appearing for your photograph, have ready the following information: Name in full, home address, nickname, major, school, activities and officers.

Note: If you do not appear for a photograph, fail to indicate an alternate time, or cannot present an acceptable reason for your absence, your photograph will not be included in the 1949 Year Book.

Sig Ep Captures

(Continued from Page 3)

the hard play of the Sig Ep line, a standout all season, paid off twice when the Eagles were thrown for two safeties and 4 points.

After this game the championship Sig Ep team was challenged by the lacrosse team of Milt Roberts, former All-Southern lacrosse player. Sporting such men from the varsity football team as Frank Guthridge and Don Swan and aided by cleats on a muddy field, the lacrosse team gave the Sig Ep gridders a rough afternoon, but finally bowed 12 to 0 to give Sig Ep its first "Bowl" victory.

Blue Hen Mermen

(Continued from Page 3)

Marv Eggert, Hugh Miller, and Charley Lloyd copped the medley; George Ester and Don Bardo finished one-two in the 200, Taylor Simpson and Tom Clements did the same in the 50, and Jim Jones kicked in a third in the diving.

Lloyd prevailed in the 100; Eggert ran off with the 150 back stroke, Miller won the 200 breast in the fast lime of 2:47.4; and Bardo placed second in the 440. Clements, Lloyd, Dick Macadam, and Ester clinched things with a winning 4:04 effort in the final relay.

Xmas Program For Foreign Students

Attention! Foreign Students!

A special program is being planned this Christmas for students from abroad who wish to spend part of their holiday in New York City. The Greater New York Council for Foreign Students is sponsoring the over-all program and various agencies are responsible for particular

aspects of it. There will be tours of places of interest and large parties as well as small social gatherings.

The headquarters will be in the International Student Lounge at the Pepsi-Cola Center, 47th & Broadway. Arrangements have been made for students coming from outside of New York City to stay at either the Sloane House, Y. M. C. A. or at the Manhattan Towers Hotel. If you desire further information concerning this program see Dr. Byam, Room 214, in University Hall.

Heuberger Tells Of Fungicide Study

The search to discover fungicides to combat new or recurring plant diseases was described by Dr. John W. Heuberger, chairman of the University of Delaware's Department of Plant Pathology, yesterday in one of a series of Graduate Lectures held at the University.

Dr. Heuberger pointed out that up to the 1920's, the only available fungicides were injurious to plants under certain climatic conditions. This led, he said, to research in organic chemicals in an effort to find fungicides less toxic to the plants. "By about 1930," said Dr. Heuberger, "we had the fortunate combination of the start of a laboratory method of assaying chemicals as fungicides, and a built-up demand for new and better fungicides."

"We now have laboratory, greenhouse and field-testing techniques that are so improved that the work is on an accurate scientific basis. It is not unusual for a single laboratory to screen 500 chemicals in a year in the laboratory, take the survivors to the greenhouse, and test the final survivors under field conditions. All this is in a single year. If one good fungicide is found out of a thousand, the batting average for the pathologists is a high one."

The steps in the testing program were described by Dr. Heuberger as follows: The fungicide's toxicity to humans; its solubility; fungicidal value; tenacity; and its toxicity to plants. There also are seed treatment tests, greenhouse protective tests, exploratory field tests, laboratory tests for formulation, tests for compatibility with insecticides, and the final field testing of the best formulations as sprays or dusts.

Dr. Heuberger was introduced by Dean George L. Schuster of the School of Agriculture. The next of the series, which is open to the public, will be held on Jan. 10, when Ralph E. Kuehn, assistant professor of electrical engineering, will speak on "Atmospheric Effects on Ultra High Frequency Radio Propagation."

Munroe Prepares Paper for AHA

Dr. John A. Munroe, assistant professor of history at the University of Delaware, will present a paper at one of the sessions of the 83rd annual meeting of the American Historical Association, in Washington, D. C., Dec. 28-30.

At a meeting on "The Teaching of State History in Colleges and Universities," Dr. Munroe will read a paper entitled "State's Rites." The session is sponsored jointly by the American Historical Association, and the American Association of State and Local History, and will be held on Dec. 29.

Other papers at the same session will be presented by Dr. Richard P. McCormick, of Rutgers University, formerly a member of the Delaware faculty in history and by Dr. Whitfield J. Bell, Jr., of Dickinson College.

Those from the University of Delaware History Department attending the meetings will include Dr. Munroe, Dr. H. Clay Reed, chairman, and all other members of the history faculty.

High Schools Form Federalist Clubs

Launching a program to form Student Federalist Chapters in local high schools, four Delaware federalists staged a forum on World Government at Wilmington

High School on Monday afternoon. Alex Greenfeld, Helen McGarry, Louise Hickman, and John Broujos presented pertinent topics; following the speeches a question period was held.

The high school students showed that the topic had been well received by turning out in substantial number at the preliminary meeting of their new chapter held after school.

On December 20 two federalist movies will be shown by the University Federalists at the Wilmington High group.

Del. Music Group Entertains Here

The Classical Music Listening Group was host to a group of 50 people at the Christmas party held on December 12. Portions of the Messiah were heard. Refreshments were served and caroling completed the program.

Plans were made for the next

meeting on Dec. 9, at 7:30 p. m. in the Old College Lounge. The program then will consist of:
Chopin's 2nd Piano Concerto
Mozart's 40th (G Minor) Symphony

Lalo Symphonie Espagnole

It is hoped that many more people will find time to attend these meetings where good music is presented in a congenial atmosphere.

Science paints the future

41 of every 1,000 U. S. chemists are engaged in production of paints, lacquers, varnishes and colors

Modern paint making is an outstanding example of chemistry at work — of the way the scientific approach has replaced rule-of-thumb methods.

Today, paints are formulated by chemists to meet specific needs. In their search for better finishes, these highly trained technical men are aided by the electron microscope and infrared spectroscopy. A variety of goni-

Rust would quickly weaken this structure. Because "Dulux" resists salt water and salt air, it has for years protected many famous bridges.

photometric and spectrophotometric devices are used by the physicist and physical chemist in the study of gloss and color.

Du Pont men have produced many superior finishes. One of them, "Dulux" nitrocellulose lacquer, made mass production of automobiles possible by shortening paint drying time from weeks to hours.

Finish failures — chipping and scratching — were costing manufacturers of home refrigerators a million dollars a year before Du Pont chemists developed "Dulux" synthetic resin enamels, based on alkyd resins. A "Dulux" coating on metal or wood dries into a film that even a hammer

blow won't break. Tests with mechanical scrubbers prove it outwears old-style enamels by more than five times. "Dulux" enamels now guard boats, large and small, as well as petroleum tank farms, machinery and other industrial installations.

At Du Pont's paint laboratories, a wide range of materials is under study. Where the colloid chemist, the physical and organic chemist, the analyst, physicist and other technically trained men leave off, the chemical engineer, mechanical engineer and metallurgist stand ready to design equipment to make better commercial production possible.

Modern equipment speeds research

Many of today's research tools are complex and expensive. The modern research worker may use a \$30,000

Satin-smooth beauty and outstanding durability are properties given by "Dulux" or "Dulux" to furniture, trucks, buses and trains.

Mark P. Morse, B. S., Physics, Washington College '40, measures specular and diffused reflection of a sample paint surface with a goniophotometer, a Du Pont development for obtaining data on gloss and brightness.

mass spectrometer installation which can make an analysis in three hours that formerly took three months. High pressure equipment, ultra centrifuges, molecular stills, and complete reference libraries are other tools which speed research and enlarge its scope.

Young scientists joining the Du Pont organization have at their disposal the finest equipment available. Moreover they enjoy the stimulation of working with some of the most able scientists in their fields, in groups

Paints are tested by exposure to weather at paint "farms." Research men interpret results as guide for development of improved paints.

small enough to bring about quick recognition of individual talent and capabilities. They find here the opportunity, cooperation and friendly encouragement they need. Thus they can do their best work, both for the organization and themselves.

BETTER THINGS FOR BETTER LIVING
... THROUGH CHEMISTRY
