

## Alumni Return To See Campus And Classmates

Approximately 500 Delaware alumni returned to the campus last Saturday to attend the annual spring reunion.

John J. DeLuca, a graduate of the class of 1922 and chairman of the University Athletic Council, was the recipient of the Outstanding Alumnus Award which was presented at the Alumni Banquet Saturday evening. Mr. DeLuca is the youngest alumnus to be honored in this manner.

At its luncheon meeting, also held on Saturday, Delaware's Alumnae Association announced officers for next year. Eleanor Barlow Stroud, class of '36, was selected to succeed Mary deHan as association president. Ann L. Harkins, class of '41, received a gift as the alumna traveling the longest distance to attend the reunion. She came from Colorado and drove a total of 3,704 miles round-trip.

In the absence of both President William Draper and Vice-President John Healy, II, Past President James Stewart presided over the alumni banquet. Edward Neill, class of '06, received an award as the alumnus traveling the longest distance — flying to the reunion from California. The alumnus who won a prize as the oldest graduate present was Joe Brewster, class of 1898.

Charles Bush, '03; John Derickson, '29 and Roger Fulling, '32, were elected to the Alumni Council for 1956. Balloting for next year's nomination committee resulted in the election of Lewis Carey, '38; F. Allyn Cooch, '21; Joseph Marshall, '11; Fred Price, '07 and Robert Richards, '28.

## University Sets September 10, 13 As Opening Days

Freshman Week for the fall semester of the academic year 1956-1957 will begin on September 10.

On the day before, Sunday, university dormitories will open at 1 p. m. Graduate registration and extension registration will be conducted in Wilmington on September 12. Undergraduate registration is scheduled for September 13.

Classes will begin on the day after registration, September 14. The traditional convocation exercises are planned for 9 a. m. on the first day of classes.

## Senior Class Plans Gala Weekend Ending With Graduation Exercises

THE CROWNING of Queen Norma McClellan highlighted the colorful May Day ceremonies held last Saturday before an audience of students and visiting alumni.

## Freshmen Men to Receive Aid From Newly Trained Advisors

Men's Student Counselors, a group formed to duplicate similar units in other colleges, got their final briefing at a meeting in Hullahen Hall last Wednesday.

Forty-five counselors have been drawn from among sophomores, juniors and seniors. They will be on campus during the Freshman orientation period beginning September 10, in order to help entering frosh men with problems confronting them. Questions, such as the necessity to participate in sports, the purpose and value of speech screening tests and the value of indulging in social life, will be discussed and answered by them.

The names of the men counselors were submitted earlier this year by students, faculty and staff. The nominees were contacted individually last month to see if they would be interested in the advisee program. Those who have shown an interest in being counselors are

Charles Betts, John Brady, Henry Brinton, Richard Brooks, Michael Carlton, Frank Cashell, Roland Corson, James Crothers, Anthony DeLucas, Adrian Donovan, Peter Ellsworth, Douglas Evans, Frank Garosi, Henry Gerstenberg, Edwin Haugh, Richard Henson, Benson Klingler, Charles Heckert, Thomas Lennox, Andrew Lewis, Thomas Lord, Don Lull, Edward Malinowski, James Marvel, James McConney, Frank McMullan, Thomas McThenia, John Morris, Lawrence Murray, Joseph Obold, Robert Peterson, Howard Pierce, Ciro Poppiti, Randolph Reynolds, Philip Reiss, Wilbur Rudrow, Raymond Saatmen, Earle Simpson, Thomas Spackman, John Terres, Roby Wagner, Ellsworth Wakefield, John Walsh, John Welch and James Zawicki.

Miss Margaret H. Black, Counselor in the Dean of Students office, is in charge of the counseling program.

Parties, banquets and ball games will terminate the college careers of 375 seniors at the Annual Senior Week end beginning on May 31 and ending June 3.

The week end begins with a formal dance with corsages optional, at the Gold Ballroom of the Hotel DuPont. Dancing will

be from 9 p. m. to 1 a. m. This affair is open for all seniors graduating in February, June or September, 1956 and their dates.

Other activities for the long week end include a class party at the Italian American Club in Kennett Square, a picnic and a luncheon.

The highlight of the informal party at the Italian American Club on June 1 will be the Chuch Lasken Combo. The party is to be held from 9 to 1.

Riverside Beach, Maryland will be the scene of the Senior class picnic. Swimming, etc., will be on the day's agenda for the seniors and their dates. The picnic is to start at 1:30 p. m.

A luncheon will be held in Kent Dining Hall on Sunday. Tickets are a \$1.50 per person and may be purchased from representatives in each living group, or they may be bought at the Bookstore from May 21 to 29.

Seniors who have not paid their dues may do so at the dance Friday night. An activities card will be given to all seniors who have paid dues. These cards must be presented at each activity. Seniors who have not as yet paid their dues should contact Don Williamson.

Within the next week, a mimeographed pamphlet will be sent to seniors. These pamphlets will supply all information such as time, place, etc., which was not previously covered by the pamphlet sent out by the administration. Seniors are urged to hold on to these pamphlets.

Free lates until 2 a. m. will be allowed women students who are staying in the dorms on Thursday and Friday nights and

(Continued on Page 11)

## Bluebooks On Sale Starting Next Fall

Beginning with the fall semester of 1956, all students will be required to purchase their own bluebooks for examinations, a university official has disclosed.

Prices of the examination books, which vary in size, will range from three for five cents to five cents each.

The policy of selling bluebooks to students is not an innovation of the University of Delaware. Bluebooks are sold by the University of Maryland, the University of Michigan, Pennsylvania State University and many others.

Money thus saved will be devoted to other worthwhile educational needs. Bluebooks will be sold at the university bookstore.

## Professional Club In Home Ec Field Initiates 20 Women

Twenty senior home economic majors were selected for and initiated into the National Home Economics Association on Wednesday at the final meeting of the Home Ec Club.

Those honored are Nancy Prociou, Betty Mae Snowberger, Milmo Fox, Ann Platt, Nancy Herndon, Dot Strobel, Joan Russell, Phyllis Fisher, Janet Clay, Pat Burge, Marilyn Smith, Anna Robb, Mildred Minner, Pat Taylor, Margie Scott Lawrence, Ann Barrowclough, Margie Norton, Martha Gruwell, Margie Lockett and Pat Collins.

One girl from each class of home economics has been awarded a citation for outstanding achievement throughout this year. Karen Reath, Dot Liddell and Carolyn Phillips received the freshman, sophomore and junior awards respectively. Nancy Prociou and Joan Russell are tied for the senior award.

New officers were also elected at this time. They are Barbara Cubberley, president; Barbara Shank, vice president; Mary Hoover, secretary; Dolores Lloyd, treasurer; Kay Hammond, publicity chairman; Nancy Marsteller, program chairman; Marie Woerner, reporter to the Journal and Kathy Schultz and Audrey Hardenbergh, co-chairmen of project.

## Dean Saves Day As Water Fails In 'Grudge' Fight

By Matt Shilling

The Pi Kappa Alpha and Alpha Epsilon Pi water fight of May 9 ended in what might be considered a draw.

The official challenge, as basement, posted in the library read that "the honor and integrity of the Pi Kappa Alpha Fraternity was maligned many times by the Alpha Epsilon Fraternity." To right the many wrongs of the past, the Pikes challenged the Apes to a water fight on the campus north of the Library.

### The Assembly

The Pike troops, under the Commandership of Bill Keyser, assembled in front of Hullahen Hall. The Pike troops consisting of Mel Slawik, John Roland, Charlie Gebert, Dale Krause, Bill Eason, Bob Cossaboon, Pete Stee-

le, Pat Patton and Horace Stanley were outfitted in regular street clothes with crepe paper decorations of red and yellow to closely duplicate the garnet and gold colors of the fraternity.

### The Attack

Sid Kugler, commander of the AEPis, led his troops from the Brown Hall side of the battlefield. Ed Podolnick and Herby Berkman were the Ape sub-commanders. The Apes, among whom were Dave Collins, Lenny Leeds, Bob Goodman, Tom Katman, Stan Gruber, Abe Wolson, Barry Helfand, Al Rubenstein, Joe Friedman, Fred Weinstein, Shelly Spector and ammunition bearer (actually water boy) Hilly Handloff, were more practically attired. The boys had on such rain equipment as panchos and regular rain coats.

The troops gathered about 3:50 p. m. At the 4 p. m. bell the field commanders met at the center of the field to give and get their final instructions.

The first wave of Pikes attacked with the Apes repelling the attack very quickly. The second and third waves were likewise pushed back.

The individual weapons consisted of water pistols and water machine guns. This light equipment soon proved ineffectual so that the heavy artillery became the weapon of the day. (The heavy artillery consisted of water-filled balloons.) The Apes also had more practical equipment in the shields they provided for themselves to ward off the water barrages. The boys from the Hill had two pieces of equipment borrowed from the

Aetna Fire Company. They were Indian Pumps used to put out small brush fires.

The fight ended because of two factors. The obvious one that seems to be prevalent in the minds of every one watching the spectacle is that John E. Hocutt, Dean of Students, stopped the squabble. Actually the troops on both sides ran out of water before the Dean came out.

### The Objective

The only objection that the administration had with the battle was its location. As Dean Hocutt explained in a letter to both warring sides, in addition to classes being in session, there were people trying to study in the library and the administrative personnel still at work in various offices in the vicinity.

## Elliot Hall, Little Known To Students Houses Fels Group Dynamic Center

By Kathie Perone

If you have been wondering about the numerous people entering and leaving 26 East Main Street, next to Rhodes' Drug Store, you can now satisfy your curiosity. This is Elliot Hall which houses the Fels Group Dynamics Center, whose director is Dr. Stanford S. Kight.

The Center was established by the Samuel S. Fels Fund at Temple University in 1950. In general, the purpose of the Center was to conduct training and research to the field of human relations. At Temple University, as the project's work evolved and increased in effectiveness, the emphasis was on training. From 1954, when the association with Temple was terminated and the project was subsequently relocated here at the University of Delaware, the emphasis has been placed on research.

However, the need for training in human relations and the process of accomplishing it have both been retained as central problems in the present research program. Two approaches to research are emphasized; both have implications for training. One, action research, is directed primarily at helping working groups solve their practical human relations problems through the use of research methods. The other, basic research, is carried on to help provide answers to the theoretical problems of concern to both social practitioners and social scientists.

Many of the Center's studies are conducted in the laboratory which is equipped with a one-way vision mirror and complete sound equipment. This enables the researchers to observe group (Continued on Page 12)

This scene shows the Fels Center laboratory in action.

## Dr. Bergelin To Travel Abroad For Consultant Job In Pakistan

A trip across the ocean and two years in Pakistan are in store for Dr. Olaf P. Bergelin, professor of chemical engineering at the university.

Dr. Bergelin has been appointed as Educational Consultant to the Ahsanullah Engineering College at Dacca, East Pakistan. He will leave in July.

The purpose of his trip is to help reorganize the entire Engineering College, to develop a Chemical Engineering Curriculum and to acquaint local industries with aims of the teaching program. The project is part of the contract between the Texas A and M College System and Dacca University.

This will not be the first time Dr. Bergelin has been abroad.

## Wesley Group Elects Dolores Lloyd Prexy

Dolores Lloyd was elected president of the Wesley Foundation at the group's weekly meeting on May 8.

Other officers are Eugene Wollaston, vice president; Kathryn Moore, secretary; William Joseph, house chairman and James Leathrum, Suzanne Shaw, Harriet Hermann, Joyce Dickerson and William McLain; upper class team chairmen.

## Delaware ROTC Views Test-Firing Of New Cannon During Field Trip

Thirty-one Delaware ROTC seniors witnessed the test firing of the U. S. Army's 280mm. gun, the widely-publicized "atomic cannon", on a visit to the Aberdeen Proving Grounds, Maryland on April 20.

The Delaware undergraduates, who will be commissioned as second lieutenants upon graduation, observed the spectacle on the annual field trip which is a part of the "get acquainted" program offered by the department of military science and tactics prior to the graduation of the ROTC students.

"I feel that they were especially fortunate in seeing this test firing," stated Major Richard K. Delaune, who, along with Captain Arthur J. Mayer, accompanied the students.

The firing was handled by civilian technicians for testing purposes, and is the only reason that the mammoth weapon is ever fired at Aberdeen.

The future second lieutenants spent an entire day at the military post, noting primarily ordinance items.

After being welcomed by representatives of Commanding General J. L. Holman, they toured the human engineering laboratory, an indoor laboratory where models of humans are subjected to extreme tests. They saw demonstrations of the M41 tank, tank driving simulator, and radar testing simulator, all of which were locally devised.

Other items of interest included the field liaison office and the "Skysweeper," radar-controlled anti-aircraft gun. The students also toured the ballistics research laboratory and the ordinance museum where samples of every American weapon ever designed, as well as many foreign weapons, are on display.

## Resident Girls Vote For Head Positions In Women's Dorms

Dormitory elections for next year have been held in the various women's living quarters.

The girls met in the dorms they will be living in next year and elected heads of house and social chairmen.

The officers for the coming year are as follows: Sussex: Ellen Hoffman, head of house and Ann Sutherland, social chairman; Kent: Anna Mae West, head of house and Mary Lou Morrow, social chairman; Warner: Nancy Long, head of house and Betty Jane Weber, social chairman; Smyth A: Gail Veasey, head of house and Jean Fluharty, social chairman; Smyth B: Janet Culver, head of house and Lee Lee Hannold, social chairman; Smyth C: Jane Persons, head of house and Janet Keller, social chairman and Cannon: Connie Ellis, head of house and Nancy Cohen, social chairman. New Castle, Tiffany and Johnston House will meet in the fall to elect their officers for the year.

## AIEE, IRE Choose Officers At Meeting

Milton Sowiak was elected chairman of the Delaware Joint Student Branch of the American Institute of Electrical Engineers and Institute of Radio Engineers at a recent meeting.

Other officers elected were Wilson C. Buckson, vice-chairman; Henry M. Gerstenberg, secretary of IRE; Patrick A. Madden, Jr. secretary of AIEE and Robert Donohoe, treasurer.

When June rolls around  
And you're homeward bound,  
For the best smoke you've found—  
Have a CAMEL!

—Man, that's  
pure pleasure!

It's a psychological fact: Pleasure helps your disposition. If you're a smoker, remember—more people get more pure pleasure from Camels than from any other cigarette!

No other cigarette is so rich-tasting, yet so mild!

## European Grand Tour Awaits National College Queen Winner

A grand tour of Europe awaits the college girl who is selected as the 1956 "National College Queen" winner during the fourth annual National College Queen Contest grand finals, to be held in Asbury Park, N. J.

Entries are still open in the contest to find the nation's most beautiful and brainy college queen. Undergraduate college girls, between the ages of 17 and 24 years, are eligible to enter the contest. Free entry blank forms may be obtained by writing to: Contest Director, National College Queen Contest, Convention Hall, Asbury Park, N. J.

The contest is sponsored by the City of Asbury Park and the Knitted Outerwear Foundation. Judgments in the contest are based on half for beauty and half for brains. Entrants on the local level will be screened and judged for college activities and campus accomplishments; results of a questionnaire form; entry blank information; original essay on the subject, "What College Education Means To Me;" poise, form and figure and attractiveness. The Youth Research Institute of New York City, is the official scoring and marking body for the contest.

Special scholarships, wardrobe of designer's apparel, jewelry and other all-expense vacation trips and tours are among the grand prizes for the new National College Queen Winner. Miss Kathy Rodgers, junior at the University of Mississippi, current National College Queen, will conduct a college student tour of seven European countries in July, as part of her accolade as the nation's top college girl.

Each state college queen winner will receive round-trip transportation to and from Asbury Park, to compete in the grand finals in September. While in the New Jersey resort city, she will also be a guest of the City of Asbury Park at a leading beachfront hotel. The Asbury Park University Women's Club members will serve as official hostesses to the competing college queens. Prior to arriving in Asbury Park, state college queen winners will be met in New York City by the

hostess committee. They will tour the United Nations and participate in special college student functions during New York's annual Summer Festival. The college queens will all be guests at the swank Belmont Plaza Hotel.

Entrants do not necessarily have to be residents of states where they attend college; summer school students are also eligible to enter the contest.

## Annual To Arrive Between May 25-31

"Blue Hens" are expected to arrive for distribution between May 25 and May 31," announced Ed Gearhart, editor of the '56 yearbook.

Poor photographs and missed deadlines have contributed to the late day of arrival.

Distribution of Blue Hens will take place in the Blue Hen office and at two other places. Students should make a special effort to obtain their yearbooks as those not picked up will probably be given out at registration in September.

Seniors will receive Blue Hens on or before graduation if the books do not come before then. Since there are no extra copies it is suggested that seniors who did not order yearbooks and now want them, try to purchase them from freshmen willing to sell.

## Tri-Beta Initiation Net 20 New Members For Honorary Society

Initiation of new members at Alpha Psi Chapter of Beta Beta Beta, honorary biology society, was held on May 11.

The initiation ceremony took place in Sussex Hall lounge at 5:30 p. m. The new, active members initiated were: Joan Brain; Eugene Corriden; Kenneth Corrin; William Hamaker; Carolyn Kohlepp; James Marvel; Esther McDaniel; Samuel Nord; Dr. Bruce Pollock, assistant professor of biological sciences; Charles Sloan; Frederick Steinke and Jane Wollenweber.

Provisional members were also inducted. These are people who do not have the necessary biology requirements but have met with all other standards. They were Carolyn Bonk, Lillian Campbell, Phyllis Feige, Jeanette Frazier, Jennie Hayes, Frank Hems, Arthur Henry and Louise Samendinger.

Following the ceremony, a dinner was held in the back dining room of Linton's Restaurant. Dr. Robert S. Howard, assistant professor of biological sciences, was Master of Ceremonies. Dr. John A. Perkins, President of the university, was the after-dinner speaker. He spoke on "Darwin, the Man and His Theory of Evolution."

The first Senior Award of Beta Beta Beta, given to an outstanding senior active in research, went to Karl M. Buretz.

## Campus To Lose Fine Leader After Class Of '56 Graduation

With the graduation of the class of '56, the U of D will say farewell to some of its finest leaders.

Allen "Mike" Ferver, who has been president of his class for the past two years, is one who has devoted much of his time to student affairs. Mike's capability to hold the senior class presidency was shown by his fulfillment of previous offices, including co-chairman of freshman class, treasurer of sophomore class and president of his junior class. For two years he has been a member of Omega Delta Kap-

pa, leadership and scholarship fraternity; Beta Beta Beta, biology society and Alpha Zeta, agricultural society. Mike also was business manager of the Needle and Haystack, a two year participant on the track team and a member of Sigma Nu fraternity.

As president of the senior class, Ferver has held an important position in the SGA. In the past year he has been chairman of Elections Committee and the Student Union Committee. Regarding the recent elections of SGA officers, Ferver felt that there was a definite improvement in voting, but that there was still about half of the student body which did not vote. He hopes that the revision of the Constitution of SGA to give more representation will improve the situations which exist — lack of interest and relatively poor student-administration relations.

Scholastically, Ferver has proven himself by maintaining a 2.99 over-all index. He plans to attend graduate school here at Delaware to pursue the study of plant pathology and acquire a master's degree. Concerning his plans for the future, Ferver says he would like to establish a business for insecticide, fungicides and general estate maintenance. His partner in business is Ronny Smith, who also plans to attend graduate school. The two have already started their business on a small scale.

## Frosh Pass Motion To Enforce Rules

A resolution to strictly enforce freshman rules next year was passed by the class of '59 at a meeting in Brown Hall Auditorium on May 9.

Along with the resolution, a hope was expressed that the freshman rules will be adhered to in a spirit of fun and good-fellowship and that no malicious or hard feelings will result from their enforcement.

The sophomore class officers were formally introduced to the class members at this meeting. They are: Bob Kupelian, president; Dave Messick, vice-president; Mary Ann Crawford, secretary and William Walston, treasurer.

Drive with care . . . everywhere!

"One-Fifty" 2-door Sedan—with beautiful Body by Fisher!

"Two-Ten" 2-door Sedan—one of 20 frisky new Chevrolets!

And look at the model choice you've got. Twenty in all, including four hardtops—two of them "Two-Tens." Six station wagons—three "Two-Tens" and one "One-Fifty." So even among the lower priced Chevrolets you have plenty of choice. Come in and look them over!

Bel Air Sport Sedan—here's your buy for the most luxury and distinction in Chevrolet's field!

AIR CONDITIONING—TEMPERATURES MADE TO ORDER—AT NEW LOW COST. LET US DEMONSTRATE.

## Religious Council Elects Wollaston As New President

Eugene Wollaston was elected president of the University Religious Council at a meeting held on May 7.

A prospective chemical engineer, Wollaston is treasurer of Alpha Chi Sigma, chemical fraternity and a member of American Institute of Chemical Engineers. He is also vice-president of Wesley Foundation, student Methodist organization and a member of the Music Club and the Band.

Other officers elected are: Ruth Alice Levy, vice-president; John Strong, secretary and Thomas Spackman, treasurer.

The main topic under discussion in URC at this point is Religious Emphasis Week, which will be held on campus November 11 through 13.

All activities for this affair are still in the planning stage, except for selection of REW chairman. William McLain, a mathematics major, will head the week of events.

Among McLain's various activities are included president of Alpha Phi Omega, service fraternity; manager and librarian of the Band and member of the Wesley and the Math Clubs.

MAY 18, 1956

NO. 28

## Tying Up

### Loose Ends

One of the first actions of the new Student Government Association was to look into the reasons for the lateness of the appearance of the final examination schedule. Al "Corky" Walters, president of the SGA, found that the entire blame rests on Mr. Robert Gebhardtshauer, assistant director of admissions and records. Gebhardtshauer is new to the university this semester, and while he has been orienting himself to his new job, he has been confronted with the problems of class schedules and preregistration. The truth of the matter is that he was "snowed."

To make amends for the delay, Gebhardtshauer plans to have next semester's final schedule ready at the fall registration. This policy will be followed in succeeding semesters, and is similar to that used at larger universities. A step forward?

In other action last week, the SGA re-elected Dean of Students John E. Hocutt as their faculty advisor. We hear that during the past year Dean Hocutt had a better attendance record at meetings than did many of the student members. We hope that this will change with the new SGA.

The new men counselor program for freshmen seems like a good idea to us. The plan proposes to more fully orient the new students in the campus life and campus organizations. If it will tend to increase interest among the men in student affairs to correspond with that shown by the women, it will be worthwhile.

Several members of the alumni have taken to heart our suggestion of a couple of weeks back to honor the late Dean Squire by naming the proposed student union building after him. They are planning to look into the matter. The same group is also making plans to establish a memorial in his honor. The proposal is for a portrait. Right now they are looking for donors.

There are many loose ends which we hope to see cleaned up next year by the SGA and the Inter-Fraternity Council. Both organizations are currently in the midst of constitutional revisions. In the case of the SGA, the matter was left up in the air by the past members after a year's work. Thus, the new administration is faced with the task of making the necessary changes in representation and the election process.

Finally, we wonder if the SGA will press for its proposal on the exemption of seniors in good standing from final exams. And, will anything be done about the parking problem? The IFC proposal to have fraternity houses open on weekends is another one that should be re-vamped and brought up for consideration.

DOT

## Letters From Our Readers

### The Water Fight

To the Editor:

I was a witness to last week's water fight between the Apes and the Pikes. I considered, as probably everyone did, that the fight was a good show as well as a process by which steam could be let off by the fraternity boys.

The next day I heard the details of the Alpha Tau Omega incident. As I understand the story, between 60 and 70 men gathered outside the ATO house to challenge the ATO's to a fight. This was about 11:30 p. m. (a trifle late for "shenanigans" in any neighborhood.) The ATO's, realizing this late hour and the necessity of keeping the neighborly relations peaceful did not accept the challenge.

However, someone in the outside group disregarded these common courtesies. Two windows were opened and two buckets were thrown into the house. Both rooms were study rooms. The water thrown into one room landed on a desk completely drenching papers and books on it.

I think people should start practicing the Golden Rule. Most participants from the outside were fraternity men. I am sure that they would not like their prospective houses drenched.

In the future, why can't battles be planned like the one earlier in the afternoon.

Sincerely,  
Matt L. Shilling

### Dean Squire Memorial

To the Editor:

Students of the university will undoubtedly be interested to know that a fund called the Francis H. Squire Memorial Fund has been started by a group of the friends of the late Dean Squire.

To many of us who knew him, either personally or through attending the university, he represented the finest ideals of scholarship and character. Because he was such a stimulating teacher, warm friend, and understanding advisor we would like to see his memory perpetuated at the university. One of the suggestions posed is that a portrait be commissioned to be hung in one of the campus buildings.

Contributions may be sent to David A. Eastburn (class of '30), 1118 King Street, Wilmington, and checks should be made payable to the Francis H. Squire Memorial Fund.

Sincerely,  
Barbara L. Baker  
Chairman  
Class of '53

### Preregistration Reply

To the editor:

Your editorial comments in last week's issue of the Review on our recent pre-registration were much appreciated. In reply I should like to present, through the medium of your letter's column, some of our thoughts on the situation.

It has been our endeavor to evolve procedures for registration which would cause minimum inconvenience to faculty and students, and at the same time serve fully their interests in a most efficient way. Our mid-year registration was part of this endeavor and your kind editorial regarding this registration was most gratifying.

Our recent pre-registration was another aspect of this endeavor. It was admittedly experimental. Some unforeseen complications developed and our experience with these will be profitable in the future. The heart of the pre-registration was the control of sections on the spot. Limits imposed on sections were set by the departments as a necessary result of their own facilities, restrictions. Thorough on the spot control we felt that students could be immediately advised of openings or lack of them in sections of their choice.

(Continued on Page 4)

## 'Neath The Arches

By Nancy Alvarado  
and Elin Coffee

Saturday saw the annual May Day on the campus of the U of D. It almost turned into a fiasco. That missing may pole must be quite a thing to hide. We wonder if it is gracing some fraternity house? Norma McClellan didn't look a bit like a teacher as she led her court through the traditional ceremony. It was really a pageant to be proud of.

Another highlight of the weekend was the ATO houseparty. They evidently enjoyed themselves because they stayed until the tide came in. We hear it presented quite a problem when it came time to go home.

A house is not a home, but that didn't seem to phase the Sigma Nu's on Saturday night. Polly Adler may not have recognized herself, but we don't think the real McCoy could have done as terrific a job on "Red Hot Mama." We'll vote for Liz Barber as a housemother any day!

The feature attraction last week was PIKA versus AEPI in "here's mud in your eye." It certainly was a novel way to cool off.

Well, we've had a few sunny days for a chance. Cross your fingers and enjoy them because we won't be able to, come Monday. We guess by now that

George Spehn

### Off Stage

With the approach of summer, the tent theatres begin pulling up their canvas houses. St. John Terrell's Music Circus in Lambertville, New Jersey, and the Valley Forge Music Fair are once again bringing back the wonderful musical comedies, and in Philadelphia the Playhouse in the Park is presenting thirteen fine plays.

The BIG NEWS around here is the new tent musical theatre to be erected around the intersection of route 202 and 1 (in the vicinity of Christy's Restaurant). This new addition will be called the Brandywine Music Box and will open July 9 with "Finian's Rainbow." Several university students are planning to work there.

The Robin Hood Theatre in Arden, recently announced its schedule. The season consisting of eleven plays, will

(Continued on Page 12)

you've realized that this is the last column we'll be writing this year. We won't miss trying to make those Monday night deadlines, but we've all had a lot of fun. We hope we haven't bored you, because you, the students, certainly haven't bored us. Our regards to the hacks who

will write 'Neath the Arches next year. We have a bit of advice to you. Please invest in a pair of Safety Shoes for people who step back on you toes. It's going to take us a summer without shoes to recover.

Here's hoping to see you all next year 'Neath the Arches.

## TODAY

### Delaware's Reputation

By Frank Garosi

For a large number of university students the year 1956 signals the close of their college careers. For most of the other students this year is just a milestone in their college life. Whether you remain close to Delaware as an undergraduate, an alumnus, or a graduate student, the question of where the university is going and what its future will be would certainly be of interest to you.

Dr. John A. Perkins gave us a nebulous glimpse of the University of Delaware of the future in an address before the assembled alumni at the annual spring reunion banquet on May 12. "With the proper financial support by the state and continued assistance from private benefactors, the university could become the finest university of its size in this country with a national and even international reputation." (This is quoted from the Wilmington Morning News of Monday, May 14, and is not a direct quote from Dr. Perkins.)

This is an aspiration whose realization is worthy of the greatest effort on the part of a university's administration, faculty and student body. Although being the "best" in any field is a large order to fill, the mere fact of having such an ambition can serve as a catalyst capable of unifying and directing the energies of a university towards a truly worthwhile goal.

Here in Delaware we are fortunate in being located in a state whose per capita income is among the highest in the nation and where the possibility of generous financial aid from the state does exist. Furthermore, Delaware's reputation has been enhanced by its prominence in the field of chemistry and in the ability and success of its athletic teams. The latter prominence is far removed from the realm of classical academic education but has positive public relations value and is indicative of multi-lateral university growth.

Aside from development in the university's physical plant — as evidenced by construction now under way and planned for the near future — there are examples of growth in academic fields. The founding of a chapter of Phi Beta Kappa, the acknowledged aristocrat of honorary societies, this year will certainly add prestige to the university's scholarly achievements.

We spoke earlier of an university-wide aspiration or ambition serving as a catalyst in unifying and directing energies within the university, there is however one "substance" which can neutralize this catalyst — intra-university friction. Whether that friction is real or fancied has no practical effect on the situation; what has a practical effect is that which is believed to be true. All the good intentions in the world will not suffice unless all three elements of the university — administration, faculty, and students — pull together in a very real sense. This "pulling together" can come only through mutual trust and respect.

This past year has seen a few notable instances of apparent intra-university friction: the accusations leveled at Dr. Perkins by Richard D. Groo after his resignation upon the consolidation of the Alumni and Public Relations offices; Dr. Earl Parker Hanson's widely publicized letter of resignation; the furor aroused by the publication of a fraternity scholarship article during rushing; and the more recent controversy over the Penn State pledge trip. It is our observation that Dr. Perkins' aspirations for the university will come to fruition only if a closer liaison and understanding is mutually arrived at by the three elements of the university.

Let's hope that the events of the next school year will be a step towards the realization of our goal to be the best university of our size in the country.

## ARNOLD

## Fraternally Speaking:—

## Sigma Phi Epsilon

At formal initiation last week Sigma Phi Epsilon initiated Greer MacMasters into the brotherhood. Brother MacMasters has been sophomore class secretary and is a member of the varsity baseball squad.

Last Friday night the alumni of Sigma Phi Epsilon, Wilmington Chapter, met at the Newark Country Club and President "Cough-Cough" Starkey presented the annual house report. The banquet gave the brothers a good chance to meet some old "Sig Eps" and the meeting afterwards brought cheer into the forlorn brotherhood. It looks as if Sigma Phi Epsilon may expand into larger quarters, along with a much sought after house mother.

Dick Brady

## Pi Kappa Alpha

Wednesday afternoon all of the Pikes, under the leadership of Bill Keyser, assembled in battle formation in front of Hullahen Hall and attacked the forces of AEPI. The weapons were water balloons, water pistols, etc., and the outcome was a good drenching.

On Saturday night nineteen pledges, brothers, alumni and dates met at the First State bowling alley in Wilmington. Under the able guidance of Scottie Clark, the alumni team soundly whipped the Pike team in three games. Afterwards everyone went over to Scottie's home and watched movies of the weekend. What a ball!

Congratulations to the PiKA bowling team for finishing second in the interfraternity league.

Monday afternoon a group of brothers and pledges deserted their usual table in the Scrounge to go swimming at Silver Lake. Our sincerest regrets to those who couldn't make it and had to swelter in classes. The water was fine.

Congratulations are in order for Ronald McGinnis and Robert Cossaboon who were initiated last Wednesday.

Dave Krause

## Delta Tau Delta

Last week saw two neophytes added to the ranks of Delta Upsilon as Bill Rudrow and Dick Henson were formally pledged. The new men were immediately provided with hammers, nails and saws by House Manager Chuck Heckert, whose over-enthusiasm must be forgiven because of his successful bid for house improvement funds.

Congratulations are in order for Delt scholars Fred Steinke, Karl Buretz and Bill Brown. Steinke joined Tri-Beta, while Buretz and Brown became Phi Beta Kappas.

On Sunday there was a Parents' Tea at the Shelter that was successful in spite of the hot weather which put the ice fund into the red.

The Delt bowling squad, led by Walt Jebens, captured the IFC trophy last week after closing out an undefeated season; congratulations to the dauntless five.

Good luck to everyone in the pitfalls of scholarship which lie ahead.

Ben Payne

## Kappa Alpha

This writing is the final one of the year, as finals are really on us. For some it's the last set of finals ever, and to those men the rest of the Kastle inhabitants wish all the success possible. Congratulations to this year's great senior class. They've been one of the best here in many years and will be missed a lot around the house next year. The juniors would do well to follow the example that has been set for them these past nine months. KA will miss these eighteen graduating men and look for their return next year to live it up.

Some brothers started their summer prematurely this past weekend. Brothers Evans and Goodridge, with their dates, took the long trip to Lewes to bask in the sun and other quantities. They came back red-skinned and red-eyed after a great time. Some brothers went home to give mother a break and the rest stayed here to study. While we're talking of studying, Kappa Alpha is proud of Pledge Mike Clark. Pledge Clark has just been accepted at the new Air Force Academy in Denver. Best of luck, Mike!

Live it up this summer, but stay in school first! — It's great.

Steve Voorhees

## Phi Kappa Tau

Unable to resist the powerful call of nature, Drape and the Count headed south over the week end. However, news of their coming preceded them and the area was deserted when they arrived.

The May Day celebration attracted many Phi Tau graduates on Saturday. After the house was whipped into shape for the occasion, an important alumni meeting was held. It was decided to purchase all new rugs and furniture for the downstairs rooms.

Our national convention will be held the end of next month at Oxford, Ohio. This is the site of the fraternity's founding, way back in 1906. Al Lindh was elected to represent Alpha Gamma at this year's meetings.

The brand new fraternity flag was put into use last week. An armed guard has been posted around the clock to insure its safety.

Since this will be our last "column" of the semester, here's wishing everybody a happy summer vacation.

Ed Kimmel

## Sigma Nu

Last Saturday night Sigma Nu held its last house party of the school year. A farewell tribute was paid to the seniors and the high point of the evening was the entertainment by

the Sigma Nu Girls. Mary Terrell is really better than Peggy Lee.

Another social event last week was Sharp Hall weekend. According to Ed Malinowski, this exclusive affair was much better than Sigma Nu weekend. All the boys from "The Annex" really lived it up at Ma's cocktail party.

Under the able leadership of Ray Salamone, Sigma Nu's softball team is really going great. They are right in there fighting for that trophy. The house is also a top contender for the intramural trophy.

Ozzie Crompton

## Alpha Tau Omega

As finals rapidly approach, the brothers of Epsilon Rho are finishing the year up in fine form. Congratulations to those brothers who are graduating this June. The Senior Send-off Dinner, held last Wednesday evening, was climaxed by the naming of Brother Steele as Outstanding Senior, and Brother MacFarland as the most outstanding recent initiate.

On the athletics' side, ATO ends up this year with four men in the top ten candidates for the individual points trophy; Brother Steele leads the pack. In the annual softball game on Sunday, the Old Men stretched their weary bodies to eke out a moral victory over the Young Men.

On June 2, Miss Jean Wim-

brow and Brother Owen Bover will be married in Wilmington. On the morning of the same day, Brother John Symonds, one of the founders of our local chapter, will be ordained in St. Andrew's Church in Wilmington.

Congratulations to pledge-brother Ken Hastings on his entrance to pledgeship to Alpha Tau Omega.

Good Luck in finals. See you in Ocean City.

Yorke Rhodes

## Alpha Epsilon Pi

The year is at an end and with it we see a number of men from the Cage walk out, not to return anymore as undergraduates. To this class belong: Bob Goodman, Gordon Pizer, Bill Kates and Tom Katman. Accompanying these men will be Chuck Sloan who is leaving us for Tufts Dental School. To these men we all wish the best of luck in the coming years. This same wish goes also to the men and women of the university who are graduating this year. To those that remain, I can only wish a happy summer and the hope to see you all back in the fall.

The hot weather coupled with the strain of finals is bringing about short tempers. To all who suffer from this ailment, I say: think before you speak. And to those taking finals I say: think before you write.

See you in the fall.

Joe Friedman

## To Every Bargain Hunter

(And everybody is a bargain hunter)

NOW — the first week of Summer, we invite you to come and oh and ah . . . and buy and buy in our chock-full o' fashions. Shop at intriguing low prices! And, we mean l-o-w prices!

Sure, we're having a Spring Clearance Sale — big bargains on our lovely Spring suits, toppers, raincoats, etc. . . . .

Also, we're giving DISCOUNT PRICES on our brand new cotton dresses, cotton T shirts and the most exciting new (just arrived Monday) wide and scoop brim hats you ever saw!

Our shop is almost a madhouse — so much stock . . . and so many customers — but we think the smart fashions and the low prices will make it interesting and very worthwhile!

Come in . . . but do it quickly

## McCall's Blames Overemphasis On Marks As Cheating Cause

Cheaters outnumber non-cheaters today in most United States colleges and high schools, the new issue of *McCall's* magazine asserts.

"In many cases, we are actually teaching our children to cheat," *McCall's* charges.

Surveys conducted in Boston, New York and New Jersey show that between 67 and 81 per cent of high school students resort to cheating at some time. Less than a third of those surveyed considered cheating an act of delinquency.

The magazine placed the blame on students, parents and teachers alike, but placed special emphasis on adults who cut ethical corners, thereby setting a bad example for their children.

Overemphasis has been placed on the importance of marks. Such high value is placed on grades that a student will use any means to get an A or B. In the struggle to get a good grade, the student loses sight of the real goals of education.

In nine cases out of ten, the

pressure for good grades, with all its attendant bribing and bullying by parents, comes from home, not school.

"Cheating is a national problem, not confined to any one area of the country, any one type of neighborhood, any one type of school," *McCall's* reports.

Mere copying of someone's homework has become so routine that most people do not even consider it cheating. *McCall's* says, "Many teachers no longer grade homework, knowing that much of it has been copied."

Cheating today has all the aspects of cloak and dagger work, with such cases on record as that of the two Illinois high school seniors who posed as gas meter inspectors to gain entrance to a professor's home; or the countless cases of students, both college and high school, breaking into file rooms to steal forthcoming examinations.

"Honor systems—used in ten per cent of the nation's colleges—(Continued on page 11)

## Maintenance Dept. Constructs Garage For Storage Needs

The Maintenance Department is getting into the swing of the spring construction program with a little building of its own.

It is a garage that is primarily intended to be used for storage of university trucks and cars. The garage has a capacity of eight vehicles. Other maintenance equipment such as lawnmowers, the spraying equipment and snow plows will also be kept here.

The new building represents the fruition of the efforts of the department over the past several years to obtain additional storage space. Because of inadequate space, the vehicles and machinery of the university were often kept outside. Now the equipment will be properly protected against the elements.

Since it is a storage garage, the new building is only a brick shell, with neither electrical nor water outlet facilities.

## German Republic Establishes Scholarships For US Students

The Federal Republic of Germany has just established sixty special scholarships for American graduate students for study in Germany during the 1956-57 academic year.

The awards are being given in gratitude for the help of the American government and people in the post-war reconstruction of Germany. They will be administered in the United States by the Institute of International Education, New York City, and in Germany by the Deutscher Akademischer Austauschdienst (DAAD).

June 1, is the closing date of the competition.

## Ass't Dorm Jobs Open To Senior

Opportunities for relief and assistant house director positions for next year are open for qualified senior and junior women.

Duties for such posts include assisting and substituting for the house directors. Hours "on the job" vary according to the circumstances.

Any interested persons should apply at the office of the Dean of Women as soon as possible. If a person is considering applying but does not have time for an interview before finals she should indicate her interest to be considered before exams.

The scholarships, open to U. S. college graduates, will pay 300 DM a month, tuition at any institution of higher education in West Germany or West Berlin, plus round-trip travel. There are no restrictions on fields of study. A knowledge of German is a pre-requisite. Candidates in music and art who do not have degrees are eligible.

"The granting of these scholarships by the West German Government is an appropriate return for American help in post-war Germany," said Institute President Kenneth Holland, commenting on the new awards.

"Exchange of persons is an important means of achieving understanding between peoples. The establishment of these sixty scholarships by the German government is heartening evidence of increased cultural and intellectual cooperation between our two countries."

Candidates for these awards may procure applications from the Institute of International Education, 1 East 67th Street, New York 21, New York, or at the Institute's regional offices in Chicago, Denver, Houston, Los Angeles, San Francisco and Washington, D. C.

## Vogue Offers Trip To Senior Women With Writing Talent

*Vogue's* twenty-second Prix de Paris Contest, for senior college women, is offering \$1,000 cash or two weeks in Paris to the winner. It is open to women planning a career in writing, publishing, advertising, merchandising or decorating. October 15 is the final date for entering the Contest.

The second prize is \$500 cash. Each of ten Honorable Mention Winners will receive \$25 cash. First and Second Prize Winners and the ten Honorable Mention Winners will receive top consideration for jobs on *Vogue*, *Glamour*, *House and Garden*, *Vogue Pattern Book* and *Vogue Knitting Book* . . . all Conde Nast publications.

The next fifty top ranking contestants will be recommended for jobs by *Vogue* to stores, advertising agencies and other magazines.

Writing ability, grasp of subject matter, general intelligence, originality and demonstration of special talents are the points on which contestants are judged.

Enrollment blanks are available upon request from the Prix de Paris Director, *Vogue*, 420 Lexington Avenue, New York 17, New York.

## What young people are doing at General Electric

### Young ad man handles G-E jet and rocket engine advertising

The first jet engine ever to power an American plane was built by General Electric in 1942. Since 1943, G.E. has supplied the Air Force with over 30,000 of its famous J47 jet engines. And General Electric's jet experience soon will be paying additional new dividends to national defense. Its J79—called the most advanced engine of its type in the world—will soon enter production.

The man responsible for reporting G.E.'s jet and rocket engine progress to its customers and the public is Roy O. Stratton, Jr., 27-year-old account supervisor in the Company's Apparatus Advertising and Sales Promotion Department.

#### Stratton's Work Important, Interesting

Stratton supervises the planning and preparation of direct-mail promotion, brochures, films and presentations, as well as public-informational space advertisements for *Time*, *U.S. News & World Report*, *Business Week*, *Aviation Week*, and other magazines.

Considerable personal contact with the Armed Services makes Stratton's job an interesting one. Last year he traveled over 60,000 miles, visiting many of the country's Air Force bases to gather necessary information and pictures.

#### 25,000 College Graduates at General Electric

When Stratton came to General Electric in 1952, he already knew the kind of work he wanted to do. Like each of our 25,000 college graduates, he is being given the chance to grow and realize his full potential. For General Electric has long believed this: when fresh young minds are given the freedom to develop, everybody benefits—the individual, the Company, and the country.

"By Golly, those years in the library finally paid off."

## Letter To Editor

(Continued from Page 4)

This seemed to enjoy some merit over the alternative of advising them later in the summer or at September registration that the section was closed. In many cases the departments were willing to exceed the originally established limits. This overage could, in a certain degree, compensate for later "flunk outs." In no case did we imply that we were excluding students from courses. If a course was filled, students still desiring enrollment therein, were referred to the department heads of the school deans to present their case.

There was no line outside until Friday. Some students talked with on Friday felt they could have appeared earlier in the week. The first-come, first-served system was tried in order to accommodate in sections of their need, students who might otherwise have stood in an unfavorable position in the alphabet. In deference to the last registrants on Friday, we extended the pre-registration through the following Monday afternoon.

Our purpose in confining the procedure to afternoons was to enable us to run IBM tabulations for the information of the departments in the mornings and to use the morning for "tidying up" problem situations of the previous day in preparation for the afternoon's work. This arrangement also allowed us to conduct the normal business of the office, which must go on, on a full-time basis for at least the half-day.

I feel that your points regarding the choice of a better week, earlier announcement of the event and earlier publication of the schedules were well made. Steps will be taken in the future to meet these desirable objectives.

Sincerely yours,  
William G. Fletcher,  
Director of Admissions  
and Records.

## Dr. Paul Dolan Leads Discussion: On Politics For Kappa Delta Pi

Dr. Paul Dolan, chairman of the department of political science, gave a brief talk on the political race, at a recent meeting of the Kappa Delta Pi honorary education fraternity.

Dr. Dolan began with a discussion of the nature of and the reasons for the party system in the United States, and the changing patterns of party support. "Three main factors in elections, continued Dr. Dolan, are traditionalism, economic considerations and the appeal of a candidate's personality.

In referring to the coming national elections in November, Dr. Dolan foresees a trend towards a Democratic congress, although, in view of the candidacy of Dwight D. Eisenhower for re-election, the presidency shows no signs of the aforementioned Democratic trend.

plan of establishing small libraries in the dormitories and fraternity houses, sent letters to student leaders and adult supervisors in all of the living groups asking for an honest appraisal.

He found from the varied replies that (1) all groups favored a continuance of the plan, (2) in many cases the books were being read by a minority of the occupants, and (3) light reading is preferred after the strenuous class assignments.

The report from men's dormitories were, in general, more enthusiastic than those received from fraternity houses. A report from Brown Hall disclosed that nearly all of the books have circulated. Like most of the other students, the men of Brown preferred the lighter type of reading after studying. The idea of a dormitory library was so well received by some, it was found, that personal copies of books were added to the shelves when the owners had finished reading them.

The fraternities' replies agreed that the project was a good idea and one worthy of further consideration. One chapter replied that the books were exceptionally well read and enjoyed and offered only the criticism that the

number of volumes was too small.

From the women's end of the campus came a wide assortment of opinions on the value of the program. Here it appears that the books are being read by a relatively small group in each dormitory, although the idea is met with favor throughout all of the dormitories.

In one case a student volunteered her services as a librarian and initiated a card system used by occupants to sign up for the books that they took to their rooms. One Smyth Hall resident, possibly an exception, felt that too many of the volumes were products of contemporary authors, preferring instead books, by Shaw or Victorian novels. A third living group replied by sending a list of books desired for next year, one of which was a "good" dictionary.

# Hooper Named Delaware's Outstanding Athlete

## Delaware's Baseball Team Closes Shop With Bucknell In Looking For 14th Win

The Delaware baseball team will complete their regular season tomorrow when they travel to Lewisburg to take on the Bucknell Bison. The Hens will be out to further enhance their chances for a bid to the NCAA District II play-offs.

Coach Raymond's charges took a step in that direction last Saturday when they edged Villanova 5 to 4. The victory gave the Hens their 10th straight win and raised their seasonal log to 12 and 2.

The Hens jumped on Wildcat pitcher, Dan Severino, for four runs in the first inning, but didn't counter again until the ninth inning. Captain Jim Zaiser began the rally with a walk, went to third on Gene Watson's shot through the middle and scored on John Walsh's single. Lou Romagnoli's sacrifice fly brought Watson across with the second tally, and Carman Cella's triple accounted for the final runs of the frame.

Meanwhile, Villanova pecked away at this lead until they finally tied the score, with three runs in the sixth inning. Bob Hooper, who was aiming for victory number 9, was touched for 11 hits and 4 runs in the six innings he worked. Dick McKelvey, relieving in his second game in a row, didn't allow the Cats a hit, as did his successor, winning pitcher, Tony DeLucas.

Delaware, in winning their fourth game in a row by one run, scored their winning run in the ninth inning. Zaiser led the inning off with a single, went to second on Watson's sacrifice bunt and scored on Walsh's third hit of the day.

The Hens extended their winning streak to nine games on May 10, by nipping PMC 5 to 4. In this game the Hens twice fought from behind before they whipped the Cadets.

A two-run rally in the eighth inning provided the Hens with their margin of victory. Jim Zaiser led off the eighth with his third hit of the afternoon, went to second on Gene Watson's bunt and scored the tying run on John Walsh's sacrifice (Continued on Page 10)

SHORT STOP DICK HOFMANN reaches first base safely in last Saturday's game with Villanova. Delaware won the game 5-4 with John Walsh's tie breaking RBI in the ninth inning. Last Tuesday the Hens nipped Temple 3-2 for their thirteenth win of the season.

## Hen Trackmen Tie For Third In Middle Atlantic Competition

Displaying surprising strength in the field events, the Delaware squad earned a share of third-place honors in the Middle Atlantic collegiate track and field championships, won by LaSalle of Philadelphia last Saturday afternoon. The Blue Hens tie for third place in the

championships was the highest finish since 1922.

In the 1921-22 seasons, the Blue Hens wound up third both times, representing their highest finishes ever.

LaSalle, with Ira Davis scoring a triple victory, won the meet with 69½ points. St. Joseph's was second with 51. Trailing Delaware and Lafayette were: Lehigh 12, Swarthmore and Albright 5, Gettysburg 4½, Ursinus 3, Haverford 2, Muhlenberg and Bucknell 1½, and Juniata 1.

Therefore, Coach Ken Steer's charges had a lot to cheer about when they returned to the campus. Cliff Browning's pole vault victory was Delaware's highlight. The sophomore from Toledo, Ohio, cleared 12 feet 4½ inches to give the Hens their only individual victory since 1941.

Dante Marini, the Hens' ace distance runner, was beaten for the first time this season when he finished second in the two-mile race. The event was won by St. Joseph's Joe Sloan in 9:50.2.

Marv Thompson and Johnny Simpson were other pointmakers for the Hens. Thompson took second in the broad jump and tied with teammate Simpson and two others in the high jump. Delaware's freshmen placed second in the medley relay.

### LATE SPORTS FLASH

Jim Smith hit a homerun to lead Delaware to a 3-2 baseball win over Temple.

## Seniors Zaiser, Duff, and Boyd Receive Other Athletic Awards

by Hal Bodley

Varsity quarterback and Delaware pitcher Bob Hooper received the biggest honor bestowed upon a University of Delaware athlete at the annual athletic banquet held in Old College last evening—The Alumni Association Trophy for the Outstanding Senior Athlete.

Jim Zaiser, Tom Duff and Dale Boyd were also named top athletes in football, swimming and wrestling at the annual sports dinner.

Mr. T. Elbert Chance, University of Delaware director of alumni and public relations was toastmaster at the clinic which had guests high in the world of sports, and also many distinguished political figures.

Following an address by Gen. John W. O'Daniel, a distinguished military figure, and graduate of Delaware College in 1917, a total of 125 letters were presented to participants of the eleven Delaware varsity sports teams. After the issuance of the varsity "D's", special awards were presented to men who have received three or more letters in any one sport.

These awards were made by Mr. John DeLuca, a member of the athletic board.

The Alumni Association Trophy for the Outstanding Senior Athlete received by Hooper is presented annually to the Delaware senior who made the most contribution to athletics here at the university.

Bob Hooper

## Football On Horizon As School Closes

This being the final edition of the Review for this school year, the next sport that will be on the horizon, will be football.

In spite of the loss of eleven seniors, including eight starters, from the 1955 Blue Hen eleven, which stunned eight of nine opponents in recording the best record in the Eastern Intercollegiate Football Association, Delaware's 1956 team once again appears very formidable.

Coach Dave Nelson was once again able to employ his second and third teams extensively last season, giving some of the reserves almost as much "combat experience" as the starters. This policy has paid off handsomely in recent seasons, for the Hens have topped 26 of their last 30 gridiron engagements and have never been shut out under Nelson's guidance.

Returning lettermen across the line include Captain Tommy Thomas and Jim Shelton, guards; Ed Malinowski and Joe Harvanik, tackles; Jerry Weis, center and ends Ben Klinger and Carman Cella. A newcomer, Harris Mosher, 6'-7", 235 pound junior, is very definitely in the race for a varsity berth, although lacking the varsity experience of the others.

Talent is abundant in the backfield, with the starting positions anything but settled. Tony DeLucas and Larry Catuzzi, both sophomores, head the list of quarterback candidates for the position vacated by Bob Hooper. Bob Moneymaker returns as a regular to the halfback ranks, while freshman Denny Luker and Bill Walston and sophomores Tony Toto and Jimmy Roe are competing for Jim Zaiser's old berth. Toto has been outstanding both as a halfback and a fullback, currently alternating in the latter position with seasoned John Oberg and the real power runner, John Walsh.

Although depth problems exist at the center and end positions, continued progress of the new men on the squad should make the Delaware gridiron picture bright in the season ahead.

### The Complete Schedule:

Sept. 22	West Chester	Home
Sept. 29	Lehigh	Away
Oct. 6	Lafayette	Home
Oct. 13	Bucknell	Home
Oct. 20	New Hampshire	Away
Oct. 27	Connecticut	Away
Nov. 3	Bainbridge Naval Training Center	Home
Nov. 10	Rutgers	Home
Nov. 17	Temple	Home

Hooper has filled two gaps on the Blue Hen sports horizon. Last fall little was known of the second team quarterback that was to replace Little All-American Don Miller. Hooper came through and proved his abilities in the first game of the season, as he led Delaware to a victory over Bainbridge Navy.

Throughout the season, Hooper (Continued on Page 11)

## Delaware's Top Netmen Close Season With Drexel; Edged Out By Ursinus 5-4

Delaware's varsity tennis team will close out a rather poor season when they travel to Drexel tomorrow afternoon.

The Hens have been faring poorly during the season, losing six out of seven matches. Their only victory was against Temple, which ended in a 9-0 decision.

Delaware put up one of its finest performances, last Saturday against Ursinus, though they again went down to defeat, 5-4.

The match was tied going into the doubles, but Jespersen and Morita of Ursinus combined their efforts to defeat Kohler and Jenkins to decide the contest.

### THE SUMMARIES:

#### TENNIS

Singles—Pete Jespersen, Ursinus, defeated Walter Kohler, Delaware, 6-2, 6-1; Art Mariella, Ursinus, defeated Carl Schupp, Delaware, 6-3, 6-0; Gene Morita, Ursinus, defeated Bob Woodruff, Delaware, 6-3, 6-2; Tom Jenkins, Delaware, defeated Tom Ely, Ursinus, 6-1, 6-1; Alan Woodruff, Delaware, defeated Shell Wagman, Ursinus, 6-1, 6-0; Walt Jebens, Delaware, defeated Rudy Celia, Ursinus, 7-5, 6-4. Doubles—Jespersen and Morita, Ursinus, defeated Kohler and Jenkins, Delaware, 3-6, 6-4, 6-4; Ely and Mariella, Ursinus, defeated Schupp and Jebens, Delaware, 6-3, 6-3; R. Woodruff and A. Woodruff, Delaware, defeated Neilkyde and Wagman, Ursinus, 7-5, 6-0.

## Hen Stickmen Down Lafayette Coach Roberts Empties Bench

By Barbara Cubberley

Blue Hen lacrossemen posted their sixth win of the season Saturday, when they trounced the maroon and white of Lafayette 14-6, in a fast moving game where fans saw plenty of good stick work and body dodging.

The Hens' Ron Haines broke through "extra" to score the first goal of the game after 30 seconds playing time. Lafayette avenged the score with one of their own, before the first minute was complete. Bob Tait sank the next three goals for the Hens' to give them the lead they never lost.

Scoring honors were shared by Tait, 5; Pete Brosius, 4 goals, 3 assists; Haines, 3; Bob Cossaboon, 1 and Jim Dinsmore with his first goal this season. Tait's 5 goals put him in a deadlock with Joe Seivold of Washington College, with a total of 41 goals for the year to lead the country's scoring race. Brosius, with his yearly total of 26 assists and 19 goals, ranks high nationally along with Captain Dick Gar-

ret's total save record of 141 for 9 games. Garret was credited with 17 against the Leopards.

"Team work reached its high point of the year, and showed why the 1956 Delaware lacrosse team has been able to post such an outstanding record," stated Coach Milt Roberts. Roberts admitted that he is very well pleased with the team this year.

Tomorrow the Hens' will face the Engineers of Lehigh. The team goes into this game hoping to better their 6-3 record.

Sports **SLANTS**

by HAL BODLEY

Sports Editor

**T**HIS ISN'T A VERY GOOD TIME TO WRITE ON THE laurels of a university team, with almost all sports activity over, but we are about to attempt to point out a few facts on the Delaware "Indian Fighters" or better known, lacrosse players. This season Coach Milt Roberts has a team which is filling the bill for the university in a stellar manner.

The record book shows that lacrosse had its beginning at the University of Delaware in 1947 when Gordon Bierman, an undergraduate, was able to arouse enough interest in the old Indian game for Athletic Director Bill Murray to sanction the formation of a lacrosse club. During the first year, informal games were played among the thirty-odd team candidates, many of whom had never before seen a lacrosse stick. Bierman served as both coach and captain for the informal 1947 season.

In 1948 lacrosse was recognized as a varsity sport by the Athletic Council and Director Murray appointed Harry Rawstrom to serve as coach for the Hen stickmen. The Blue and Gold team registered its first victory by a 10-1 count over Franklin and Marshall on April 24, 1948, in the first collegiate lacrosse game ever played in the state of Delaware.

Delaware had its first successful season in 1950, when the Blue Hen stickmen compiled a 7-5 log. Much of the success of this team was attributed to the fact that Milt Roberts, a veteran player in his own right, took over full reins of the stickmen. In 1951, he guided his charges to an 8-5 record, but since that year, the Blue and Gold team hasn't had a winning season.

Off hand it is really hard to say whether this year's team is the best yet, because at the present time the record stands at 6-3. A victory tomorrow would put it beyond question. A 7-3 log would impress us just as much as does the 8-5 record of 1951.

You say that you want more for your money? If you don't think that this game is rough enough, ask the players. One competitor from another college informed us that when the offense gets you in the corner of the field and starts beating on you with that stick, you have to cover your face or else just stand there and be killed... roughed up. Many fans of the game state that it is the roughest sport around. From watching three of the contests this season, we will go along with that.

Looking back over the Delaware players, we see that Junior Bob Tait is tied for the National scoring honors, a sure bet for All-American this year. He received Honorable Mention last season. Tomorrow afternoon, the stickmen will close the season at Lehigh, and it is our belief that the Hens will bring home their seventh victory—Are you with us, Milt??

*This 'n That*

**W**E WILL REALLY MISS THE WRITING OF EILEEN Dalton, who will be among the June graduates... She is the gal who writes the WAA News, to keep every one up to date on female athletics... Also among the losses on the sports staff is the able counseling of Ethel Schwartz. If it had not been for her advice, we would not have been able to keep up with the sports picture, especially facts and figures... If Delaware's baseball team is overlooked for a berth in the District II play-offs, we want to know why... So long to Dante Marini, Neal Keough and Jack Simpson, senior athletes on the sparkling Delaware track team... We hear that plans are being drawn up to heat the Carpenter Field House hangar so that Delaware athletes can work out in the covered field throughout the cool, winter months... "Slugger" John Walsh was talking to us last Thursday evening and made the following statement: "When I learn to hit that ball, I am really going to be tough for the pitchers that throw to me." Last Saturday his smash in the ninth inning won the game for the Blue Hens; he also hit safely two other times and drove in the first Delaware run... Frosh swimmer Jerry Clarke received word last Monday afternoon that he won Delaware's appointment to the United States Air Force Academy... Clarke made a bid for the appointment last year, but was runner-up... Good luck out in Denver!... This is about the end of our rope for this semester. Have a good summer, and don't forget to take time out for sports!

**LARRY CATUZZI, BLUE HEN QUARTERBACK** tries a new position as he preps for the Donkey baseball game, which will be played at Newark High School on May 25. Catuzzi will captain a group of footballers that will match forces with the Newark High Faculty.

**Footballers To Man Donkeys For Thrilling Baseball Game**

Donkey Baseball, the most hilarious game ever invented, returns to Newark on May 25 when a team of University of Delaware football players will meet a nine made up of teachers from the Newark schools.

Sponsored by the Newark Lions Club, the game will be played at 7 p. m. on the Newark Junior High School athletic field on Academy Street. Proceeds from the game will be donated by the Lions for the purchase of books for the local high school library.

Tickets for the game can be purchased at booths which will be set up on campus or at the gate on the night of the game. The charge is \$1.00 for adults and \$.50 for children.

The Lions are expecting an even larger crowd than the 1000 persons who witnessed last year's contest between the Lions and member of the local volunteer fire company—a game won by the firemen 2-1 after 60 minutes of the funniest action ever seen on a baseball diamond.

Larry Catuzzi, a real drug-store cowboy, and a quarterback on the Blue Hen squad, will captain the Delaware team. Other footballers riding for Del-

aware will be Bob Kent, Johnny Oberg, Dick Duerr, Pete O'Halloran, Joe Harvanik, Jimmy Roe, Ed Malinowski, Bob Jones and Jim (Duke) Shelton.

When the donkeys feel like it, Donkey Baseball is played like this: All players except the pitcher and catcher are mounted on a group of the stubbornest, meanest critters available. The fielders may dismount to pick up the ball, but must remount before throwing to the bases.

The batter after hitting the ball must mount his donkey to run the bases. The fact that the donkeys supplied the baserunners have no intention of being ridden makes for a real battle between man and beast.

**Blue Hen Of The Week**

By Scotty Wilson

Delaware's Bob Tait is a good prospect for the All-American Lacrosse Team.

He's been playing a first-class game lately, excelling against Swarthmore, Washington and Lee, and Stevens Tech. Against these clubs, he put across 3, 7 and 7 goals respectively.

Against Washington and Lee, Tait put on a virtual one-man show, accounting for 7 of Delaware's 10 goals. Though double-teamed the whole game, he managed to break loose and score with ease. The Hens dropped the contest, but Tait's performance was definitely the highlight of the day.

A graduate of Lower Merion High School, Tait starred in football and lacrosse while in school. There he spent his football career in the backfield and also contributed to one of the most powerful high school lacrosse teams in the East.

Coming to Delaware, Tait provided Coach Milt Roberts with an added scoring punch. He received an honorable mention on last season's All-America team, and it just might be that he will edge into a berth on the first squad.

Presently a junior in the School of Business Administration, big Bob is also a member of Sigma Nu fraternity.

**NOTICE**

All physical education and athletic equipment issued to students in the men's department **MUST** be returned to the equipment room prior to 4 p. m. tomorrow afternoon. No equipment will be accepted after this time.

## Frazer Field Scene Of Interscholastic Track Meet

Thirteen high school track and field records will be put to the test tomorrow afternoon on Frazer Field when top trackmen from all parts of the state congregate for the 41st Annual Delaware Interscholastic Track and Field Meet.

One the standard for the 100-yard dash, is held by a former Newark High athlete, while 10 of the remaining 12 are registered in the names of New Castle County stars.

The time of 9.9 seconds, posted by Bunny Blaney in the 1952 session, remains as the fastest 100-yard dash ever accomplished by a Delaware high school runner in the state meet. Blaney also held the title for the 220-yard dash until last spring when Claymont's Gil Mahla, now a member of the Blue Chicks frosh team snapped the record in 21.8 seconds.

Mahla, one of the highlights of the high school track in Delaware last year, went on to trim seconds off the existing 440-yard dash mark, covering the distance in 50.9 seconds for his second record of the day.

One Interscholastic record seemingly due to fall is the 4:41.5 mile credited to Bob Webb of Sanford Prep in 1950. This season Salesianum hopeful Vic

Zwolak has consistently bettered that mark and is expected to shatter the standard in tomorrow's mile.

A high jump record of six feet, seven-eighths inches, set by Dick Ptak of Wilmington High in 1952, is likely to be much more stable than the mile record. Vic Reed, ex-Middletown star, established a record of 21 feet, eight and one-half inches in the broad jump event in 1939 which still stands.

A more recent state mark was established in last year's Interscholastics when Bob Cuthrell, also a recent addition to the freshman squad, vaulted 11

feet, seven inches, while wearing Caesar Rodney High colors.

The oldest existing record in the 41-year-old Interscholastics is a mark of 49 feet, five and one-quarter inches in the shot put event registered by Dim Montero for Salesianum in 1937.

P. S. duPont's Larry Glaeser tossed the discus 136 feet, six and five-eighths inches in 1950 for an Interscholastic record that still stands, while a second high listed on this year's program is credited to Conrad's Jim Hackman for his 174 feet, nine and three-quarters inches heave in javelin competition of 1954.

## Golfers Look For Victory In Finale At Bucknell

Delaware's golf team will travel up to Bucknell this afternoon to wind up their season. The team will be headed by Dick Sutton, Jim Shelton, Charlie Sands, Tom Metz, Pete Pfefer, and Jim Szymanski. A victory over Bucknell this afternoon would be a big one for the Hens, who have been having trouble with opponents to date. Coach Wisniewski is confident that the team has much more ability than the record book shows.

## Baseball

(Continued from Page 8)

fly. Jim Smith continued the rally with his second hit of the day, to set the stage for Carman Cella's game-winning hit.

Bob Hooper won his eighth game of the year on May 8, as he shut out Rutgers, 1-0, with two hits. The win, Hooper's second shutout in a row, gave Delaware their tenth win of the spring.

The lone run came in the fourth inning when John Walsh singled, advanced to second on an infield out and scored on Lou Romagnoli's clutch single to left. Righthander Wally Olson allowed the Hens only five hits and was the hard-luck loser.

## What's doing at Pratt & Whitney Aircraft

Today's leadership . . . a  
 reflection of policies established  
 in aviation's infancy

Back in The Roaring Twenties, the magic dream pictured American families someday using the light personal airplane as freely as the family car. Among the realists, however, was a handful of men who were unshakable in their conviction that the real future of aviation lay with bigger aircraft, higher speeds, greater ranges—all possible only through engines of higher power and more reliability than those of that era.

In the spring of 1925, six of these men of vision founded a company in Hartford to undertake the development of a new aircraft engine—an air-cooled type. The year's end heralded their first success—Pratt & Whitney Aircraft's "Wasp".

This talented group of men continued to improve their powerplant designs, developing engines of steadily mounting power that operated efficiently and dependably. They contributed much to aviation's progress—so much so that currently three-quarters of the world's commercial airliners and many of our nation's first line military aircraft are P & W A-powered.

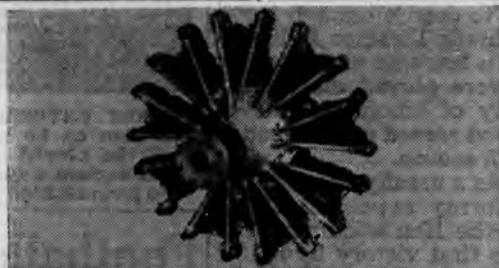

Today's P & W A powerplant designs are supported by the very finest research facilities and equipment, and a technical staff that is continually being strengthened. That nucleus of six men has grown into one of the world's leading engineering organizations. Yet to this very day, engineering achievement at Pratt & Whitney Aircraft is guided by its founders' simple policy . . . the best airplanes can be designed only around the best engines.

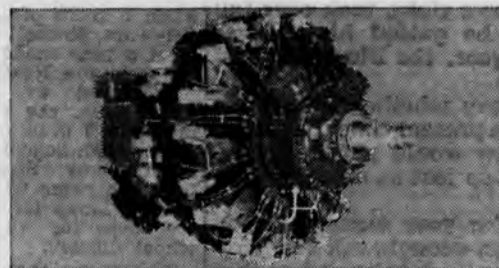

World's foremost  
 designer and builder  
 of aircraft engines

**PRATT & WHITNEY**  
**AIRCRAFT**

DIVISION OF UNITED AIRCRAFT CORPORATION  
 EAST HARTFORD 8, CONNECTICUT

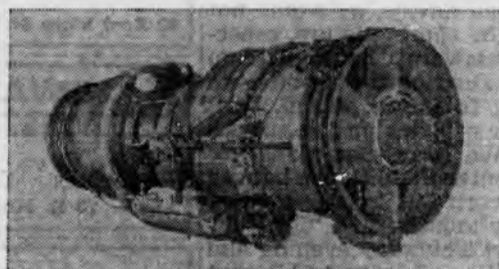

The Original Wasp, the first P & W A engine—designed, fabricated and assembled in less than seven months. Weighing under 650 pounds and officially rated at 410 horsepower, this lightweight, air-cooled radial engine was a milestone in aviation history and set the pattern for almost three decades of record-breaking advances.

The Double Wasp, an 18-cylinder, two-row piston engine rated at 2400 horsepower for basic use. Its rating increased by water injection to 3400 horsepower, the Double Wasp was instrumental in turning many a military crisis into an aerial victory in the decisive battles of World War II.

The Wasp Major, a 28-cylinder engine with pistons arranged in four rows of seven each and a 3800-horsepower rating. Its power and performance having never been equalled, the Wasp Major represents the apex of the art of building reciprocating engines.

The J-57 Turbojet, first jet engine in history to be officially rated in the 10,000-pound-thrust class. In quantity production since early 1953, the J-57 has continuously undergone progressive development. It gives every indication of having almost unlimited growth possibilities.

The Engines of Tomorrow, advanced jet, turboprop, and nuclear. Already in various stages of development, these aircraft engines of the future will further contribute to the long history of leadership that Pratt & Whitney Aircraft has established in the field of aviation.

## Banquet

(Continued from Page 8)

exhibited stellar play. The senior from Mill Creek, Pa., completed 47 aerials for 665 yards and nine touchdowns, handled most of the punting with a 29.95 yard average, tied for second in scoring and led the squad in pass interception with three for a total return of 43 yards.

At the beginning of the baseball season, Coach Raymond needed a pitcher and Hooper, who had done very little pitching decided to try out for the mound staff. To date, Hooper has won eight games, and lost none, has pitched in 62½ innings and given up only eleven runs. His earned run average is 1.269. Much of the success of the baseball team (13-2) is contributed to Hooper's work during this season.

Jim Zaiser received a trophy that was awarded last year for the first time since 1949, which honors a man for excellence in both football and scholarship.

Zaiser led the football team in rushing last fall with 613 yards to establish a new three season mark of 1702 yards. He is besides being a consistent dean's list student, a two-time recipient of the Philadelphia Touchdown Club's Maxwell Award. In addition to dominating the ball-carrying ranks, he topped the list of Delaware scorers with 10 touchdowns for 60 points, led in kickoff returns and ranked third in passing, third in pass receiving, second in punt returns and second in interceptions.

Tom Duff, becomes the second Delaware swimmer to be presented the Jack and Hugh Dougherty Memorial Trophy, established in 1954 by the Blue Hen Swimming team. This award commemorates two men who made outstanding contribution to Delaware swimming as well as athletics in general.

Duff has been one of the outstanding members of the Delaware swimming team for the past three years. This past season he captained the team, and much of the success is contributed to him.

The Tower Memorial Wrestling Trophy is presented in memory of a Delaware wrestler who was killed in action in Korea after graduating from the university.

Dale Boyd received this award for three years of outstanding service to the Blue Hen Grapplers. He was two years a runner-up and this year was a champion in the MAC competition. Boyd went to the finals for three consecutive years, a new president for a Delaware wrestler. He captained the team for two years, and according to Coach Whity Burnham, must go down in the record books as Delaware's greatest lightweight matman. This past season Boyd led the team in take downs with 11, and accumulated 6 near falls. He was the only member of the team unbeaten and untied.

Citations and small trophies were presented to these three athletes.

## Cheating

(Continued from Page 6)

es and in less than one per cent of its high schools—are not proof against it," the magazine explains, "as witness the fact that 93 cadets, the cream of the football squad, were caught cheating at West Point a few years ago, and 109 students were caught at the University of Florida."

The clue as to how the majority of students surveyed felt is to be found in scores of unsolicited comments like:

## Senior Weekend

(Continued from Page 1)

planning to attend the Ball and party.

The Commencement and Baccalaureate services will take place on June 3, with an estimated 560 students receiving their legrees. Both services will be held on the lawn facing Hulihan Hall.

Major General Charles Irving Carpenter, Chief of Air Force Chaplain, United States Air Force, will deliver the Baccalaureate Address at the 11 a.m. service. Commencement will begin at 3 p.m. with a processional march, "Honor Council," by Ketelley, performed by the University concert band. Invocation and Benediction will be recited by Henry N. Herndon, Rector of the Calvary Episcopal Church in Wilmington. Clarence A. Southerland, Chief Justice of the Delaware Supreme Court, will deliver the Commencement address.

The conferring of degrees to the graduates will be officiated by Dr. John E. Perkins, President of the university. Approximately 375 persons in this group are seniors and 185 are graduate students, the largest number of

graduate students over to receive degrees from the university at the same time.

Services will be concluded with a recessional march, "March Processional."

In case of rain, services will take place in Mitchell Hall.

Over all chairmen for the weekend are Mary Kaleel and Mike Ferver. The committees and chairmen are: dance, William DeNardo; party, Dick Chilcut; picnic, George Hudson and luncheon, Bettymae Snowberger.

## Warner Hall Cops A. B. Catts Award

Warner Hall received the A. B. Catts trophy cup as the most outstanding dormitory of 1955-56 in ceremonies in front of Kent Hall last Wednesday at 6:30 p.m.

A. B. Catts graduated from the university in 1952. She stipulated that the cup should be given to the dormitory outstanding in all phases of university life. Among other achievements, Warner Hall received the cheerleaders trophy and placed first in Women's Playbill.

## National SGA Introduces Plan To Increase Group's Strength

Davidson, North Carolina (L.P.)

—The general theme of this year's National Student Association convention, according to a report submitted by John McLaughlin, Davidson's representative, was a philosophical discussion on the aims and goals of higher education. Among the more concrete points, he listed the following:

1. Student government should not be just a coordinator of student activities;
2. Student government should expand to represent all phases of student life;
3. Student government should

judge and take a more active stand on what it thinks about the college curriculum and academic courses;

4. College committees should include underclassmen, for the purpose of giving them future experience;

5. Student government should stress and work for the attainment of a higher intellect;

6. In the matter of student-faculty relations, the student body should be kept informed of student representation on the various student-faculty committees.

## 'Vonnie' Nylund Receives Trip To Europe As Goodwill Guest

Yvonne Nylund, a university sophomore, has won an eight week trip to Europe this summer as a representative of her hometown. The "Goodwill Ambassador Contest," which she won, was sponsored by the service organizations of Ambler, Pennsylvania.

All expenses will be paid for Miss Nylund's trip, six weeks stay with an European family and two weeks of sightseeing. She hopes to visit either Germany or Sweden, as she has a knowledge of the German language and relatives in Sweden.

The contest was won on the basis of recommendations and past achievements. Miss Nylund participated in the Ambler Orchestra and is a member of the university band. A mathematics major, she has been selected as a Junior Counselor and holds a membership in the Canterbury Club.

"It's a dream come true," commented Miss Nylund. "To me, a trip abroad does not mean just a sightseeing tour, but a way to get to know people, customs, and countries different from our own."

## Off Stage

(Continued from Page 4)  
open with a preview party of "Oh Men, Oh Women," on June 9. "The Chalk Garden" and "View from a Bridge," two recent Broadway shows, will be presented July 9-14 and July 16-21, respectively.

Special discounts are offered to college students on all tickets. \* \* A Glance In Retrospect \* \*

This column was an innovation this year and for a few seconds we would like to glance backwards. We have tried to give you a closer glance at theatre activities on campus and in the professional world, once a month we had a movie review, and often we touched on phases of the other arts.

The big event was the GEORGE SPELVIN AWARD for the best actor and actress, supporting actor and actress and best production. This was the only chance for students to publicly recognize and honor their favorite thespians. We were very pleased with the fine response to this award and hope to make it an annual affair.

So, for now, all George has to say is best of luck on your finals, have a great summer and see you next year.

## Reunion

(Continued from Page 1)

Other awards were given to the class of 1956 for having the largest percentage of its living members present, 50 per cent, and to the class of 1931 for having the largest number of class members present, 16.

President John A. Perkins was the principal speaker. He described the recent progress of the university and discussed plans for the future and major problems.

Dr. Perkins told the alumni that, with financial support from the state and private benefactors, Delaware could become the finest university of its size in the country with a national and even international reputation.

Two resolutions were passed by the Alumni Council at a morning meeting. The first resolution voiced the association's sorrow at the death of the late Dean Francis H. Squire. The other resolution commended the work of former Alumni Secretary Richard D. Groo and was a statement of the alumni's appreciation of efforts in their behalf.

## Penn Plans For Skimmer Day Sat.

Skimmer Day at the University of Pennsylvania, one of the most colorful Spring festivals held in an eastern college, will be held this year May 19.

Originally established to bring out the men of Pennsylvania to honor her famous crews and their coaches, the straw hat, Bermuda shorts, and bright blazer-attired students and their dates will leave the campus to revel on the banks of the Schuylkill River and witness the scheduled events.

The feature attraction of the afternoon will be the race between the varsity crew of the University of Wisconsin and the world famous Penn eight while being serenaded by three dixieland jazz bands.

(Continued from Page 2)

behavior without distracting the group. The subjects are always informed that they are being observed through the mirror. In fact, characteristics of the mirror are always demonstrated to the participants.

The groups range in size, but usually involve less than six persons. For the most part, the groups are made up of college students. In some courses, participation in a group of this kind is a requirement of the course, and the experience is used by the instructors as a basis for classroom discussion on the topic of the role of research in the social sciences. In other instances, however, students are asked to volunteer to participate in a study which involves a commitment of one or two hours' time.

Not all the studies, however, involve laboratory experiment. Some field studies are planned to involve "live groups" functioning in a regular job situation.

The present research program is devoted to a study of how small groups function, with the projects now underway being interrelated with this general framework. One study is specifically concerned with increasing the effectiveness of designated official leadership in Delaware's Cooperative Agricultural Extension Service, and another with an investigation of how hypothetical conditions of group structure affect the

group's social interaction, participation within the group and the group's productivity. Work is also in progress on a study of how the interaction process of decision-making in groups is affected by variations in status (intellectual, cultural, etc.) of the group's members. A related study is that of the investigation of aspects of communication in decision-making conferences in industry.
