

Anyone For A Ride?

MISS MOFFAT (Elizabeth Parkhill Barber) arrives in the Welsh village with Priscilla, her English bike, and Betty Watty, a Cockney girl (Suzanne Kozak), in a scene from "The Corn Is Green" playing tonight in Mitchell Hall.

'Corn Is Green' To Continue Performance Through Sat.

"The Corn Is Green" was greeted last night by Mitchell Hall's first-night audience and will continue tonight and Saturday night at 8:15 p.m.

Emlyn Williams' autobiographic play is the story of the fiery struggles of an English school teacher who comes to a remote Welsh mining community to start a school. She sees a spark of talent in an illiterate Welsh boy, who is destined to a crude life of drudgery and drunkenness, and tutors him so that he may go on to greater achievements.

This touching drama tells how the resolute and generous Miss Moffat, played by Elizabeth Parkhill Barber, ultimately justifies her unwavering faith in the miner, Morgan Evans, played by George Cavey.

The miner is liberated, despite the shortsightedness of the local Squire (Thomas Waters) and his seduction by a conniving Cockney girl (Suzanne Kozak).

Other key roles will be played by Mary Minkiewicz, Richard Stewart, Connie Goodman, Mona Lawson, George Boyd and Charles Ogle.

Thomas Watson, technical director for the E 52-University Theatre, has designed the interior book-lined living room of Miss Moffat's recently acquired house. To fill the book cases more than 300 books were borrowed.

Coeds Plan Busy Schedule For Dates As 'Turn-Around' Weekend Draws Near

A formal, a cocktail party, a dorm party with a combo, and picnics are some of the featured events which will take place on Women's Weekend which will be held from March 16-18.

Johnston House plans to entertain their dates at a cocktail party before the Friday night dance. Saturday evening includes a dinner and a party. Several of the dorms plan to incorporate for Saturday evening's entertainment. Warner will combine with Cannon and New Castle will join Sussex for the festivities.

Topsy and Turvey have made arrangements to treat their dates to a show on Saturday afternoon in Philadelphia, dinner at the

Pub. in Camden, and party reservations at the DuPont Country Club, in the evening.

Smyth's dorm party on Saturday night will feature a unit of Chuck Laskin's Orchestra, playing from 9 p. m. to 12 midnight.

"A Shamrock Paradise" will be the theme of the party given by the Women Commuters in the recreation room of Brown Hall Dormitory on March 17. This will be held for the Women Commuters and their dates in connection with Women's Weekend. The party will offer dancing, entertainment and refreshments. To round off the Women's Weekend festivities, the Commuters will hold a wel-

SGA, Class Officer Nominations Open For Petitions Till March 16; Voting To Be Held After Vacation

Artist Series To Present Pianist Robert Goldsand On March 15

The celebrated pianist, Robert Goldsand, who has concertized on three continents since his career opened with a Vienna recital at the age of ten, will be heard on March 15, at 8:15 p. m. in Mitchell Hall. Mr. Goldsand's appearance marks the fourth Artist Series Concert of the 1955-56 season.

Mr. Goldsand is known in America and abroad as one of the outstanding pianists of our time. As a child prodigy he was first heard in Europe, but at sixteen he made his New York debut which opened to him the concert field of the entire United States. Touring in Europe, South America, and this country. The pianist created an international reputation which has constantly increased with his matured art as musician and technician.

Goldsand, who is now an American citizen, returned to European concerts in the fall of 1954, after an absence of some years, and achieved such successes in his London debut and Continental concerts, that he received extraordinary press acclaim, including such lines as "he must be judged a lion . . . he is a pianist in the very first flight" (London Times); "a universally experienced, enormously gifted pianist" (Hamburg Anzeiger); "a marvellous pianist an artist of the highest rank" (Copenhagen Politiken). He returned to Britain, Scandinavia, Germany and Spain for extended tours in the fall of 1955.

Aside from a virtuosity rarely excelled today, Goldsand is an artist of notable accomplishments. In New York he has given six concerts of Chopin repertoire, three concerts of modern music, seven of sonatas by Beethoven, three of an historical cycle, and has performed in radio series, all the piano music by Bach, Schumann, Schubert and Brahms. His programs cover a continually changing repertoire, and it is seldom that he repeats in one season any recital program. His concerto repertoire lists thirty works.

Perhaps a photographic memory, so sharp that to change an edition of a work means he must restudy it entirely, is of great help toward control of so large a repertoire; but even more important is a vivid interest in whatever music has been written for the piano, combined with a comprehensive technique which serves all pianistic problems, and the complete devotion of a performer dedicated since childhood to the art of music.

Robert Goldsand

Week-End Activity Club Holds Meeting Chooses Officers

The Week-End Activities Club presented its constitution last night to the SGA in a bid for official recognition.

At the club's first organizational meeting in Brown Lab Auditorium, Frank Garosi was elected president. Other officers are Eleanor Burke, vice-president; Ann Churchill, corresponding secretary; Joyce Dickerson, recording secretary; Ed Myers, treasurer and Melvin Slawik, parliamentary pro-temp.

In preparation for the club's first recreational program which the club's officers hope to begin after spring vacation, five committees were set up. Chairmen and their committees are as follows: Ed Myers, finance; Eleanor Burke, facilities; Lynne Pollock and Ann Churchill, publicity; Richard Brooks and Frank Helms, games and Joyce Dickerson.

Other club members include Richard Cannon, May Gregg, Shirley Riley, Dave Foulk, Jo Croce, Pat Pennington, Marilyn Cook, Matt Shilling, Bev Ferguson, supervision, Margaret Hamlin and Bill Rudrow.

NOTICE

Those students now receiving scholarships, grants or part-time employment awarded through the office of the Dean of Students and who wish to apply for a renewal for the 1956-57 sessions, should have their applications in no later than May 1. Forms may be secured from the forementioned office.

Student Government Association and class officer nominations are now open, according to an announcement made this week by Stan Lowicki, SGA president.

Petitions must be turned in to the Review office no later than March 16.

These annual elections for the campus highest student positions are open to everyone. Any person can be nominated by submitting a petition containing twenty-five signatures of students who will support the respective candidate.

SGA offices for which nominations may be made are president, vice president, recording secretary, corresponding secretary, treasurer, chairman of the Men's Executive Council, chairman of the Women's Executive Council, social chairman and representatives from the Schools of Home Economics, Engineering, Education, Agriculture and Arts and Sciences.

Each class must elect for the coming year a president, vice-president, secretary, treasurer and SGA representative.

Voting will be held immediately after spring vacation. This is a little later than usual, and is necessary in order to complete planned changes in the SGA Constitution by the present officers.

The SGA president urges all

Debate Team Scores In Hofstra Tourney This Past Weekend

The University of Delaware Debate Team tied for third place along with several other colleges at the annual Hofstra Debate Tournament held at Hofstra College this past weekend.

This ranked Delaware as one of the top ten of some twenty-nine teams participating. The team record for the event was four debates won and two lost, which bested the score of one of Delaware's well-known rivals, Princeton University.

The topic debated was, "Resolved, that the non-agricultural industries of the United States should guarantee their employees an annual wage." The affirmative team, composed of William Brown and Richard Sutton, won two decisions and lost one; the negative team, Stanley Lowicki and John Maybee achieved the same record.

The Tournament consisted of three rounds of debates, and a championship debate between
(Continued on Page 12)

Chaplin Comedies At Wolf March 11

Four comedies starring Charlie Chaplin are scheduled to be shown this Sunday in the Wolf Hall Auditorium at 3:15 p. m. and 8:15 p. m.

Included in these four Essanay comedies which were filmed in 1915, are "The Tramp", "A Woman", "The Bank" and "Police". Through them, Chaplin established himself as the greatest single figure on the screen at the time by relaxing his tempo, making his gestures more meaningful, and adding pathos to his pantomimes.

Club To Characterize History Of U.S.A. In Dance Medium For Annual Show March 12-13

The history and development of the United States will be characterized through the medium of dance in a modern dance program next week.

Under the supervision of Miss Adrienne J. McNaughton, instructor in physical education, the university's Modern Dance Club will present a concert in the Women's Gymnasium on Monday and Tuesday, at 8 p.m.

With the services of members of the modern dance club and others enrolled in a course in dancing, the concert will include seven separate divisions, representing main developments in the growth of America.

First will be a dance featuring the American Indians. Next is scheduled the portrayal of America's independence, followed by the settlement of the South, and later, the West.

No such program would be complete without attention being paid to the "Gav Nineties", and by necessity, a program suggestive of the depression has also been designed. The finale is a number termed "Modern Times".

Miss McNaughton's group will use recorded music in its program. In addition, two solo selections, "A City Called Heaven" and "Give Me Your Tired, Your Poor," will be sung

by Alice Matuszeski. Also, Charles Ogle, will read Carl Sandburg's poem, "Smoke and Steele."

Solo dance parts are held by club president Joyce Adams, Stephanie Klahr and Roberta Hannold.

Props for the production are now under construction, under the direction of committee chairman Winona Dawson.

GINNY KLUSSMAN and Carmen Cella practice routine for the Modern Dance show planned for next week.

Conclave To Begin For Regional A E Pi Tonight At Dinner

The AEPi Regional Conclave gets underway this evening with a dinner at the AEPi House on West Main Street.

Later in the evening a house party will feature Clyde Bessick and his combo.

Since the Fieldhouse could not be procured for tomorrow, as previously planned, the Regional Basketball Finals will be played at the Newark Armory. The chapters of Maryland, Penn State and Delaware will be in the semi-finals held from 10 a. m. to 12 noon. From 3 p. m. to 4 p. m. the finals will be played. The line-up for the Delaware squad as given by center-captain Sid Kugler, will be Duke Martin, Chuck Sloin, Goose Spivack, Paul Baskin and John Strassburger.

Saturday evening's dance at the Ag Hall will feature Manny Klein's Orchestra.

Brunch on Sunday will be the final event of the conclave.

Dr. Perkins Receives Award For Address

Dr. John A. Perkins recently was presented with a Freedoms Foundation award for his high service to the cause of Americanism. The honor was made on the basis of a public address given by the President, entitled, "Freedom's Future." Dr. Perkins received the George Washington Honor Medal and \$50.

The recognition of the expression of Americanism by Dr. Perkins and others keynoted the seventh annual Foundation awards program. A total of 923 persons, organizations and schools were honored for the things they said, wrote or accomplished in 1955 "to maintain the American way of life."

'Review' To Try Two-Week Change

The next two issues of the Review will be headed by Rincy Levy and Dave Tompkins, respectively, as part of an experiment to prepare the staff for the position shifts which will be made next month.

Rincy Levy and Dave Tompkins are the two leading candidates for the top editorial posts for the coming year. The final decision will be made by a vote of the editorial board early next month. The two now hold the positions of associate editor and news editor, respectively.

Each of the prospective editors-in-chief has chosen a staff to serve under him for the week.

Ray DeVries, present editor-in-chief, has announced that the purpose of the experiment is to acquaint the staff with all phases of the Review's operation and at the same time give the present editors an opportunity to look over new talent in order to determine who will be best suited for each position next year.

Gordon Pizor, business manager, has appointed Charley Sloin and Jerry Goosenberg, now national and local ad managers, respectively, to succeed him for the next two weeks.

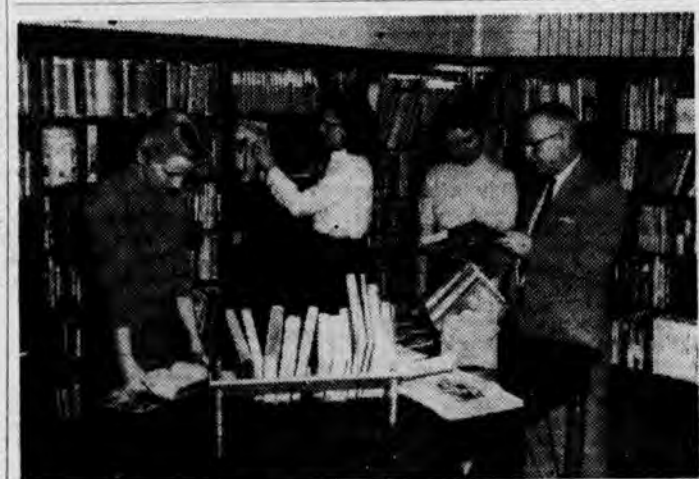

Other major staff positions for next week will be associate editors, Jo Hires and Janet Bonin; feature editor, Dottie Pannell; news editor, Frank Garosi; assistant news editor, Hal Bodley; sports editor, Scott Wilson and copy editor, Katherine McKay.

The staff for March 23 will include associated editors, Jo Hires and Nancy Stewart; feature editor, Frank Garosi; news editor, Scott Wilson; assistant news editor, Dorothy Levy; sports editor, Hal Bodley and copy editor, Linda Heivly.

Ray DeVries will act as supervisor and consultant for the next two issues.

Perkins in 'Post'

Dr. John A. Perkins has written an article entitled "What Is A High School For?" It will appear in the March 17 issue of the Saturday Evening Post.

THREE DELAWARE COEDS, Pat Erickson, Liz Barber, and Barbara Smith visit the new trade books section of the bookstore where they are being aided by the store's manager, Ronald A. McLain.

Million Dollar Engineering Hall To Raise Facade On Campus

Plans for the new engineering building are nearing completion, and should be released for bids on construction in the near future. The new building, which will be constructed on the north side of Evans Hall, is expected to cost in the vicinity of a million dollars.

"It is hard to plan a building of this type," stated William W. Hagerty, Dean of Engineering, "when you must combine a modern interior with the type of architecture that is seen on this campus." The basic plan for the new structure was based entirely on the needs of the engineering department. Each laboratory and type of room that was needed was decided to be included in the new building. It was planned in a rather unorthodox method. The needs of the department were combined or rather brought together, and then the building was planned around them.

In further discussion of the new building, Dean Hagerty stated: "We are striving to create a basic scientific engineering program here at Delaware. It is impossible to keep abreast with the rapid innovations in the engineering world, and we would rather have our graduates prepared with the basic fundamentals, than to be trained in specialized work which in a few years would be out of date. We would also like to have our engineering majors take more liberal arts courses than they are now taking at the

present time."

The name of the building has not been decided as of yet, but it has been suggested by a member of the Board of Trustees that it be named after the late Pierre S. duPont, who was a principle figure in the foundation that is supporting the new project.

When the building is completed, the engineering department will have full utilization of three main plants—the new building, Brown Laboratory and Evans Hall.

Campus Chest Drive To Receive Backing Of APO Members

The Campus Chest, like its home counterpart, the Community Chest, is the annual charity drive which will be held on campus the first week of April.

These drives are conducted on almost every college campus in the country. It is estimated that students contribute thousands of dollars annually to worthy agencies such as the Heart Fund, World University Service Programs, Polio Foundation, Care, Red Cross, and many other important charitable organizations.

A series of very unusual programs make the Campus Chest a highlight of the year on many of the campuses. Carnivals, steak fries and dances are only a few of the events which are held in conjunction with this drive. The main feature of the drive will be the Spring Formal with Les Elgart on April 7.

The chest drive at Delaware has been held for the last several years. In the past, funds have been raised by staging informal dances and parties, and by fraternity men waiting on the girls in the dining halls for a small fee. Inter-fraternity and inter-dormitory contests have also been held under the chairmanship of James Flynn.

Alpha Phi Omega, a National Service Fraternity on the Delaware campus, is sponsoring this year's Campus Chest Drive and have set their goal for \$1,000.

Cheerleaders Select Freshmen Members

Jane Lotter and Fran Ciach were promoted from the freshman team to the varsity cheerleader squad recently.

Pat Lyons and John La Fountain were elected co-captains for the coming year.

Other officers include: Nancy Jones, corresponding secretary; Janet Howell, recording secretary; Jane Lotter and Fran Ciach, treasurers; Jackson Esham, uniforms and Joan Parker, publicity.

PLACEMENT BUREAU

Interview Calendar		Week of March 19	
Deadline for signing up: Wednesday, March 14			
Monday, March 19	Columbia Gas System	Bachelor — Mechanical, Electrical, Chemical & Civil Engineers; Business Admin. & Accounting.	
	Allied Chemical & Dye	Bachelor — Chemistry, Chemical & Mechanical Engineers; limited number of non-technical with some chemistry or related science for production or sales.	
	1. General Chemical Div		
	2. Nitrogen Division	All levels — Chemistry & Chemical Engineers	
	Standard Vacuum Oil Co.	GROUP MEETING 4 p.m. Chemistry Auditorium	
Tuesday, March 20	Standard Vacuum Oil Co.	At least Bachelor degree (Foreign career positions)	
	Continental Can Co.	Bachelor & Master — Business Administration, Liberal Arts, Mechanical & Chemical Engineers, & Sciences. Will also consider any engineering degree for production or sales	
	Standard Oil of Indiana	Bachelor & Master — Chemistry	
		All levels — Chemical Engineers	
	Owens Illinois Glass Co.	All levels for permanent	
		All Engineers, Chemists & Physicists	
		Jr. & Grad. for summer	
		Permanent 7 & Summer.	
Wednesday, March 21	Standard Oil of Indiana	Same as Tuesday March 20	
	DuPont Company	Master — Permanent; Chemists, Chemical Engineers, Physics - completing work in August & not previously interviewed	
		Preferably Juniors, Grad Students and Faculty	
		Mechanics RH&A	
		Summer: Chemists, Chemical & Mechanical Engineers, Physics, Few Civil & Electrical Engineers	

Student Response To X-ray Unit Drive Considered Good

Approximately 500 persons had chest X-rays during the two-day period in which the X-ray mobile unit was on campus last week.

"Although this was a good showing," commented Dr. Gordon Keppel, university physician, "we anticipated even more. It was hoped that everyone who missed the opportunity in September would take advantage of it now."

Students are reminded that proof of a recent X-ray must be shown at registration in the fall before the undergraduate may register. The X-ray may have been taken within seven months preceding registration, so that anyone checked last week will have to have one again in the fall. Of course, the unit will be on campus during the registration period as well as beforehand. Students may receive their checkups then.

Delaware Student Attends Conclave

Joan Henderson has been selected as Delaware's delegate to the Twentieth Biennial Convocation of Kappa Delta Pi to be held from March 15 to March 17 at Oklahoma A&M in Stillwater, Oklahoma.

Connie Rutter has been chosen as alternate in case Joan is unable to go.

This will be the first year that the Delaware branch of this honorary education society has sent a representative to the convention.

Topics to be discussed include the welfare of Kappa Delta Pi and its function as an honor society in institutional and alumni chapters.

Miss Henderson is also a member of House Council, Women's Coordinate Board, Homecoming Court, Blue Hen Art Editor, Executive Committee and other committees.

SGA

(Continued from Page 1)

qualified students who have an interest in the running of student affairs on this campus to enter the election race. He reminds the students that last year's election included ten unopposed candidates. The ideal number of nominations for each office would be no less than three, said Lowicki.

Dougherty, Lindh Win Chief Posts In PKT Election

Paul Dougherty was elected president of Phi Kappa Tau social fraternity at the annual spring elections held last week.

Other new officers include Al Lindh, vice-president; George Harlan, house manager; Pat Schmalpus, chaplain; Bob Mifflin, steward; Ed Kimmel, editor

Paul C. Dougherty

and Terry Schall, secretary.

Dougherty, better known as "Deetles," is a junior chemistry major. Formerly president of Harter Hall, has organized and coached the Harter basketball team. Since joining a fraternity, he has been active in fraternity functions as well, such as the football float and controlling the intramural sports program.

Lindh was steward and IFC representative for the fraternity last year.

Coffee Hour Fetes Outstanding Students In Engineering Field

Seven outstanding students from the School of Engineering of the University of Delaware were entertained last Thursday afternoon at a coffee hour held in their honor by Dean William W. Hagerty and the faculty of the school.

The select student group included Howard W. Anderson, the outstanding senior in chemical engineering; James Mandas, the outstanding senior in electrical engineering; Robert Strouss, the outstanding senior in civil engineering; William Casey, the outstanding senior in mechanical engineering; William Walston, Jr., the outstanding freshman engineering major; Donald Jost, the outstanding sophomore engineering major; and Richard Haines, the outstanding junior engineering major.

Dean Hagerty spoke briefly to the students congratulating them upon their achievements and advising them that similar meetings would be held in future semesters so that outstanding students and their instructors would have the opportunity to become better acquainted.

Photographs of the honored engineering students will be displayed in Evans Hall during the coming semester.

Barbara A. Graham Joins Psi Chi Society

Barbara Graham was initiated into Psi Chi, honorary Psychology society in ceremonies held on February 27.

Miss Graham is the fifth member to enter the society this school year. Her requirements for entrance were to achieve a 3.00 overall index in her major and a 2.75 overall index.

Psi Chi is now composed of seven students and five faculty members. With Evelyn West as president of the local chapter, the organization's aim is to further the members' scholarship in all fields, particularly in psychology.

Two Choirs Combine To Present Cantata

The University's Concert Choir combined with the Newark High School. A Cappella Choir and presented Dubois' "Seven Last Words," a Lenten cantata, last Wednesday evening in the Newark Junior High School auditorium.

Under the direction of Dr. Ivan Trusler, director of choral organization at Delaware, the performance featured as soprano soloist Miss Janet Cooper, director of the high school choir.

Miss Cooper has sung leading parts in programs of sacred music in her home city of Patton, Pennsylvania, has studied at Columbia University, the Cincinnati Conservatory of Music and has attended Fred Waring's Choral Workshop.

Other soloists were from the university choir and were Kenneth Wilson, baritone and Robert Murphy, tenor. The combined group was accompanied by Merle Knotts on the piano.

UD Psychology Club Issues Verbal Invitations For New Members

Psychology majors and those interested in the subject are encouraged to become active in the newly reorganized Psychology Club.

Officers of the club are Al Tomczyk, president; Barbara Graham, vice-president; and Betty Logue, secretary-treasurer. Sponsored by Psi Chi, honorary psychology fraternity and Dr. Ernest Barratt, assistant professor of psychology, the club meets monthly.

Plans have been completed for an all-day display and demonstration of equipment in the psychology department for the benefit of Bucknell University classes at the end of March. The get-together will also be open to Delaware psychology classes and is sponsored jointly by the Psychology Club and Psi Chi.

Future plans include a panel discussion for Mental Health on "Why People Worry?"

Yearbook Editor Expresses Views On Future 'Blue Hen'

"A great deal of planning and new ideas have been included in this year's Blue Hen, and this should prove to make it one of the best editions ever produced," stated Ed Gearhart, editor-in-chief of the 1956 Blue Hen.

A few of Ed's duties in his present position are to distribute assignments and explain the specific type of material desired, to set the deadline for these assignments, to decide on the lay-out and organization of the book and, in general, to coordinate the duties of the staff.

Although this sounds like a full-time job, Ed, a senior chemical engineer, has many varied interests, sports being among the top. As a freshman he was a member of the basketball team and graduated to the varsity ball club in his sophomore year. This same year also found Ed as a member of the varsity's track team.

His activities are not confined solely to sports, however, as

illustrated by his participation in such organizations as AIChe, Men's Chorus, to which he claims a four year membership, and Engineering Council, of which he is secretary. He was also a member of the cast of a presentation in Inter-Fraternity Playbill last year.

Ed says that his outside interests also include swimming, golfing and camping.

He is a member of Sigma Phi Epsilon social fraternity of which he was activities chairman in his junior year and now maintains the position of senior marshal.

Upon graduation Ed hopes to further his education by attending graduate school, but as yet has not decided upon any specific college.

When asked to comment as to the date when the yearbook would be ready, Ed said, "The Blue Hen as of this reading is about 95 per cent completed and (Continued on Page 12)"

Boeing engineers find rewarding jobs in Wichita, Seattle

This model of a supersonic airplane design was dropped at extreme altitude from a B-47 Stratojet. Telemetered data revealed the characteristics of its supersonic flight to destruction at the earth's surface. This is just one example of Boeing-Wichita's continuing development of advanced aircraft and associated system components.

At Wichita research and development programs are expanding rapidly. Laboratory space has been quadrupled and many other new engineering facilities have been added to keep pace with increasing emphasis on technical development. At both of the company's plants, Seattle and Wichita, the increased scope and magnitude of this development effort is creating

additional and excellent career opportunities for all types of engineers.

This means that if you are an electrical engineer, a mechanical engineer, a civil or an aeronautical engineer or a physicist or mathematician with an advanced degree, there is a real challenge for you in one of Boeing's design research or production engineering programs. You would work in a tight-knit team where there is plenty of room for self-expression and recognition.

Boeing engineers are working now on future airplanes and missiles that will maintain the standard of technical superiority established by the B-47 medium bomber, the B-52 intercontinental bomber, the BOMARC IM-99 pilotless

interceptor, the 707 jet transport and the KC-135 jet tanker-transport.

Recognition of professional growth is coupled with career stability at Boeing — twice as many engineers are now employed by the company as at the peak of World War II. They enjoy a most liberal retirement plan. How would you like a satisfying, creative job with the pick of the engineering profession? There may be one waiting for you in the progressive communities of Wichita or Seattle.

For further Boeing career information consult your Placement Office or write to either:

Alpha Tau Omega

As usual at this time of year the dramatically inclined Taus are hard at work producing, we hope, another prize-winning playbill. Directing the production are Brothers Dave Norcross and Bill Orlando.

Over the weekend the brothers of ATO played host to the brothers of Alpha Epsilon Pi at a costume ball. The party was a riotous success, enlivened by entertainment furnished by one of our ingenious pledges, Dave Dunlap. The prize for the best costume from "The Wide, Wide World" was awarded to B. J. Weber and Jim Ehler, our Scotch incumbents.

Now that the weather has become spring-like, many of the brothers may be seen at the field house, breaking records. Brothers Bill Orlando, Al Woodruff, Bob Woodruff, Carl Schupp, and Pledge Neil Fowser are seeking honors on the tennis team. Brother Al Woodruff is co-captain of the team this year. Our lacrosse experts are Brothers Palmer Prettyman and Pledge Dave Messick. Brother Perce Ness is, by his own report, going to break all existing track records since he has given up wine, women and song for a pair of track shoes.

Congratulations to Mary Sherwood and Brother Jim Holbrook, at the U. S. Naval Prep. School, who were pinned this weekend.

Delta Tau Delta

Steak was the order of the day about a week or so ago when the Deltas had their Grand Annual steak dinner, with the losers of the scholarship races buying the goodies for the brain trust. But we hear that the winners had to pay off, too — in one way or other. Many thanks to Brother Buretz who arranged the affair (?) with the co-operation of the inn-keeper's daughter.

It was a big weekend for the brothers who journeyed to the St. Joe's-Delaware game. Everyone ended up at a big whining ding weenie roast thrown by cordial Brother Bill Moore. There was a great variety of entertainment thoughtfully provided by the host — for example, Rupo Von Wilso and his trained bird dogs, Sleepy Strothman and his bedside manner, and Congo line

Fraternally Speaking:—

lore (still only slightly warmed over).

We're looking forward to a good old-fashioned house party at the Shelter this Saturday night — nothing spectacular — we hope that the boys who are going to Penn Chapter's Founder's Day blast on Friday will make it back in reasonably decent condition. Please boys, at least be careful of the back seat of L. P. Lore's car — you know what happened last time.

Wally E. Ford

Kappa Alpha

Tomorrow evening Kappa Alpha will hold its annual pledge house party. All the brothers are looking forward to a great time, as the pledges promise to put on one of the best parties of the year. Roscoe Exely and his entertainment are the talk of the Kastle pledges. Pledges Stritzinger, Hildreth and Pilewicz are leading the men on to greater things for this, the first costume party of the year.

Kappa Alpha is proud to announce that it has placed five men on the all-fraternity team for this year. By the way, this is the best showing any intramural team has made this year in basketball. We end our season this week with high hopes of capturing the intra-mural crown.

This past two weeks the pledges have been working hard, as workers and as wakers. Some of these men are still wondering how to get brothers Betts and Andrews out of the rack. If they find out they'll be the first to know.

Steve Voorhees

Sigma Nu

With the advent of Spring, Sigma Nu's thoughts have turned to putting convertible tops down and White Clay Creek. Many of the brothers went out last Sunday to study and also to recuperate from the splendid house party last Friday, which featured Clyde Besicks and his new eight piece

combo.

Congratulations this week to Middle Atlantic Wrestling Champ, Brother Dale Boyd. Dale, after serving two years as captain, culminated his career last week by establishing the most number of points and becoming the 123 lb. champ. Congratulations also to Brother Bill Baur on his election 25 captain of the wrestling team for the next year. Congratulations are in order for another Middle Atlantic Champion, Captain Tom Duff, of the swimming team, who came in first in the individual medley.

Question of the Week? "Why isn't there a student directory listing the heights of girls as well as the phone numbers?" asks Brother "Rock."

"Pete" Green

Theta Chi

Tomorrow night is the last night of the beards on campus. Yes, the Bowery Ball is here again. The house has been jumping all week with preparations for the big event. The pledges have been making signs to cover the wall. They bear inscriptions fitting for a bowery. We have choice epitaphs to some of our cherished friends of this INSTITUTION. There is sawdust on the floor and all the fittings of an old-time dive. Some of the brothers are so fond of their beards that they are going to dye them green and celebrate St. Patty's day next Saturday.

Last week ushered in the beginning of spring practice. Some of the more ambitious brothers were seen trying to grind each other into the mud of Frazier Field. It seems, from the grunts and groans heard from some, that they weren't in the best of shape after sitting around for the winter and not doing anything. Guess clean living doesn't pay after all.

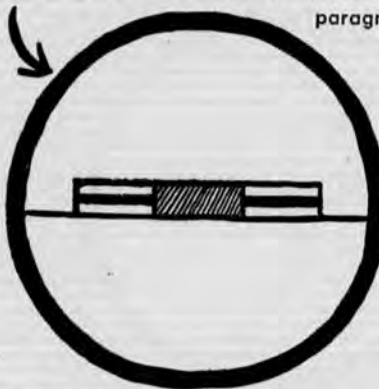

In case you haven't noticed, the house has been really undergoing a big change these last weeks. The town of Newark finally decided that the Theta Chi's deserved a sidewalk. It is now in the process of laying the walk. The town is also landscaping the front and has changed the drive.

Be sure to read the column next week for the announcement of the winner of the "mouldy man" contest.

Jay Harford

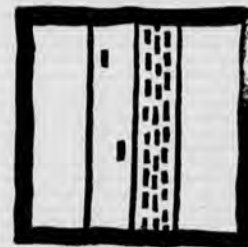

OH YOU KIDS! LUCKY DROODLES!

WHAT'S THIS? For solution, see paragraph below.

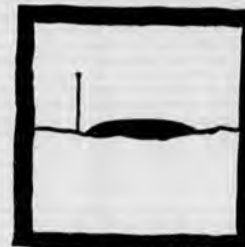

DROODLES—POCKET EDITION. There's a pocket edition of almost everything these days. Why not Doodles? This one's titled: Shirt pocket of Lucky Smoker. This smoker might give you the shirt off his back—but he'd sure hang on to that pack of Luckies. Reason: Luckies taste better. You see, they're made of fine tobacco—light, mild, good-tasting tobacco that's TOASTED to taste even better. Matter of fact, you'll say Luckies are the best-tasting cigarette you ever smoked! Better pocket a pack today!

Phi Kappa Tau

The time has come when new must take the place of the old. When I speak of old I mean, of course, last year's officers. As president we now have Brother Paul Dougherty and the vice president is now Brother Al Lindh. We will see Brother Terry Schall wielding the pen for our chapter as well as Brother Joe Zapalla deeply engrossed in balancing the exchequer. Among the other officers we find Brother Harlan as house manager, Brother Schmolfus as chaplain and Brother Mifflin as steward. You will probably start reading this column, written in superb literary style, as we have a new editor, newly initiated Brother Kimmel.

With spring fast approaching, the baseballs and mitts are being brought out of the moth balls, so if you drop over to the house be sure to duck when you cross the yard. Looks like the "Scorp" couldn't stand the quiet in the ideal study room, so he is moving upstairs where the quiet hours' chairman lives.

Bruce Stewart

Pi Kappa Alpha

Saturday night saw the Pikes gathered at the Kent Manor Inn for our Founders' Day Banquet. The selection of the Kent was certainly a master stroke, since the bar was located right in the dining room. Saved a lot of shoe leather. District President Hugh Dalzell was the principal speaker. It was sure good to see so many of the old grads again. The Kent will probably see many such meetings in the future.

After the festivities, Brothers Wilson and Cashell and Pledge Steele could have been located at the Cedar Inn. Brother White-man had a hot card game and Brother Campbell a hot date.

Most of the Brothers gathered at the Hollow which is becoming quite a Pike's Peak.

Belated congratulations to our pledges are in order. Dick Cannon, Bob Cossaboon, Al Dinofrio, Ron McInnis, Paul Peters, Dave Randolph, Jack Rowe, and Pete Steele are the fledgling Pikes. We would also like to welcome back former pledge Bill Downham to the fold.

The Petit Arms seems to be becoming another meeting place of the clan. Brother Wilson is always in favor of stopping there. Could it be due to the fact that Anne lives so close to the Arms' front door?

By the way, if this column gives you the idea the Pikes drink a lot, it just isn't so. We look that way because we worry!

Ken Cashell

Alpha Epsilon Pi

Today marks the beginning of the district AEPI conclave, a three day affair with a house party, dance, dinner and brunch. The Apes will be playing off the district basketball championships in the Newark Armory. The dance will be at the Ag Hall with the music of Manny Klein. Brother Apes will be coming from Penn State, Temple, George Washington and other schools in the surrounding areas. Brother Sloan will not be here as he flies to Boston this weekend for an interview at Tuft's for dental school. All the men here at the house are pulling for him.

Brothers Berkman and Handloff are carefully counting their calories in the latest competitive game - "Who can get down to a 32 fastest?" Brother Goodman has been spending time in Wildwood lately selling summer houses for his future. . . ? Brother Rubenstein has just recovered from a mild attack of infectious nononucleosus or "Stay home from

school and take it easy 'tis." Brother Collins has been in ecstasy with his little bug-especially with the thought of 32 miles per gallon. Brother Martin has been repeating one name for the past few weeks; it's inaudible, but it is most likely feminine.

Joe Friedman

Sigma Phi Epsilon

The big question being asked behind the Big Red Door this past week was "Who's the artist who likes yellow paint?" It seems that someone doesn't like the color of the house and decided to paint the door, benches and even windows, a repulsive, bright shade of yellow. Those strolling on north campus were heard to mutter, "Who's the mad-man with the paint-brush?" Whoever he was I'm sure he'll be sorry to hear that the brothers of Sig Ep still like the red and they just can't imagine anyone suggesting such a horrible shade of yellow as an appropriate color.

Tomorrow evening the two big words heard will be "Ships Ahoy!" as all the brothers and their dates embark from the various girls' dorms for the Sig Ep "Shipwreck" party in gay and ragged apparel. "Captain" Bill Starkey will be there with "First Mate Noodles" McKelvey to welcome the cast-aways. Everyone is preparing to "bat-ten down the hatches, for there's going to be a terrific blast!" Anyone got a life preserver?

Our new brother Ken Callaway, who was initiated this past Sunday, promises to be a great asset to the halls of SPE.

Dick Brady

TODAY

(Continued from Page 4)

instance of government-under-extenuating-circumstances is hardly desirable, and, in a more extreme situation could be almost catastrophic. Democrats are beginning to take up the cry that this is government by a regency — and not by popularly elected officials.

With Secretary of State Dulles and Vice-President Nixon junketing around the world for one purpose or another most of the time, a partially-disabled President practically leaves the government in the hands of an appointed cabinet and in other underlings. Certainly the Democrats, and the rest of the voters, have a legitimate reason for griping about this situation. Former President, H. S. Truman, in his memoirs, openly admitted that he was woefully unprepared for the job of president when F. D. Roosevelt died.

Undoubtedly President Eisenhower's personal popularity and prestige, not only in the U. S., but in the world at large, is a great asset to both his party and to the U. S. Without his active leadership, administrative policy becomes a collection of loosely organized and often divergent aims and objectives. Russia's seizing of the political initiative in world affairs has been directly connected to the President's reduced capacity for work.

Although a team of heart specialists have announced that Eisenhower can expect at least from five to ten more years of reasonable activity, it appears certain that the GOP, if it is going to nullify the issue of Eisenhower's health, must present to the

Hen Mermen, Grapplers Capture MAC Honors

Tankmen Score 27 Points To Finish In Fourth Place In MACSA Championships

After going through the entire season without a victory, although scoring two ties, the Blue Hen swimmers finished fourth in an eight-team field in the Middle Atlantic Collegiate Swimming Association championships held last Saturday at West Chester State Teachers' College. The meet was won by Lafayette.

This marks the fourth year in succession that the Delaware Mermen, under the guidance of Coach Harry W. Rawstorm, have finished well in the Middle Atlantic. Two years ago the Hens captured first place.

In Saturday's title swim, it was team captain Tom Duff, a senior from Upper Darby, Pennsylvania, who captured the lone gold medal for Delaware as he swept to a first place finish in the 200-yard breaststrokes.

Bruce Stewart, Delaware's elder statesman in the backstroke ranks, bolstered the team's standing by a second place in the backstroke event.

Hen diver Jack Ryder, of Wilmington, placed second behind Lafayette's Ernie Selter. Ryder edged out Lafayette's Bob Detweiler for place honors by .05 of a point.

In other events, Duff claimed a second place in the individual medley and was a member of the sixth-place freestyle combination, which also included Stewart, George Webber and Charles Crompton. The Delaware medley relay team — Stewart, Crompton and Phil Reis — finished fifth.

The results: Lafayette—93, West Chester—3, Gettysburg—32, Delaware—27, Swarthmore—14, Drexel—13, F & M—12, and P. M. C.—1.

Delaware Netmen Prepare For Opener With Temple; Intra-Squad Test Monday

Delaware's varsity tennis squad will begin intra-squad challenge matches this coming week in preparation for the first match which will be on April 11, with Temple at home.

The squad has been working out in Carpenter Field House for several weeks now, but will really get down to the work at hand starting on Monday, according to Coach Roy Rylander. The challenge matches will determine the top nine men on all of the trips and will constitute the varsity squad. The top six men on the ladder will play most of the doubles matches. At the present time the nine men on the ladder are Co-captains Tom Jenkins, and Alan Woodruff; Carl Scupp, Roland Corson, Wale Jebens, Bob Woodroff, Don Delgiorno, Walter Kohler and Herb Anderson.

If last season's records are indicative of the type of campaign that this year's team will have, from a post-season point of view, the season appears to be a successful one. Last year's team posted a 4 win and 6 loss record and the only man of the top six that will not be returning is Tom Williams.

The season will get under way with a match with Temple on our own courts and will be highlighted with the MASCAC Tennis Championships at home on May 3, 4 and 5.

SPOTLIGHT ON SPORTS

By HAL BODLEY

AT LAST! A HIGH SCHOOL ALL-STAR FOOTBALL GAME in the State of Delaware. For many years people have been dreaming of this, and on August 25 it will become a reality. It is this type of competition that creates incentive on the part of the coaches and the athletes. The game will truly be the biggest step forward in organized high school athletics in many years.

The big question that looms over our heads is how this will aid or help the University of Delaware varsity teams. A great many of the students here are Delawareans — you might say the majority. On the other hand the majority of our varsity teams are composed of out-of-staters, athletes from states where there are all-star games and all-star teams, plus league and tournament competition. We think that this strong incentive may constitute a large per cent of the answer why athletes from other states are utilized more than native Delawareans. It has been known for many years that the Delaware Association of School Administrators has had an unwavering by-laws objection to organized league competition. It was probably the fact that only graduating seniors will be used in this all-star game between New Castle and Kent-Sussex counties that made them vote in favor of it. The vote was by a slim 8 to 7 margin, which shows that there was much objection.

We hold an opinion that if the state of Delaware would try to organize a competitive type tournament league in the long run the University of Delaware's teams would benefit. If Delaware is ever to have anything like this, there are many problems which would have to be solved.

First of all someone would have to present a plan to the DASA that would show the need for this and also the methods in which it could be initiated. The fact that educational values would be overlooked for the over emphasizing of athletics would be the DASA's first comeback. Secondly, they would point out that in states where competition is very strong and tournament play is in existence, there is much pressure on the coaches — more than the average enthusiast realizes. The coach must produce a winning team. The person that presents the plan to this group of administrators probably would not get to first base before he was called "out". But there is a need in Delaware for a high degree of organization of high school sports.

At any rate, the all-star benefit game for the Delaware Association for Retarded Children will fill Delaware Stadium with an enthusiastic crowd, and it is definitely a step in the right direction for high school athletics. We are all for this "terrific" idea and can even see it carried out in some of the other sports — maybe basketball for example!

Smith-Waddington Combo Tops Hen Scoring Leaders

Delaware's basketball season drew to a close Saturday night as Saint Joseph's College lead them to a stunning 91 to 77 defeat. As the horn sounded, ending the game and the season, the Blue Hen's record stood at 8 victories and 15 defeats.

During the season Jim Smith and Jack Waddington led the team in the scoring columns. Smith scored 199 field goals and 84 free throws for a total of 482 points, and average of 20.96 per cent of his shots from the floor and connected on 71.8 per cent from the free throw line.

Jack Waddington threw in 138 field goals, 182 free throws for a total of 458 points and an average of 14.4 in the 23 contests. Waddington's percentage from the court was 48.4 and 71.7 from the free throw line.

NOTICE

Lacrosse Coach, Milt Roberts, has issued a call for all freshmen lacrosse candidates to report to practice on Monday, March 12. There is also a need for two freshmen managers.

Delaware Ranks 3rd In Mat Championship Meet As Dale Boyd Leads Way

Dale Boyd, a senior from Drexel Hill, Pennsylvania, climaxed an outstanding collegiate career last Saturday by scoring three straight victories to win the 123-pound title in the Middle Atlantic Collegiate Wrestling Association Championships held at Muhlenberg.

"Boyd's Dream Come True"

For the Delaware captain, this was the realization of a long-thwarted ambition as the bantam weight matman has twice gone to the finals in the area wrestling classic only to have the title wrested from his grasp in the final match. The title gave the Delaware team and Coach Whitey Burnham a direct path to the third place finish.

On Saturday, Boyd was top-seeded, and he proved the merit on Friday pinning Muhlenberg's Carl Scheed in eight minutes and 40 seconds to advance to the semi-finals. The latter contest found Boyd pitted against fourth-seeded Ken Purdy of Gettysburg, who was defeated by way of a 3-1 decision. In the title match, Dale met Haverford's Harry Leecer and scored a 9-0 decision, with seven points being recorded in the final period.

Teammates Supply Support

Other Delaware point-winners were Bill Bauer, third in the 130-pound division; Tom Oves, third in the heavyweight division; and Ed White, fourth in the 137-pound division.

Delaware's third place finish in the championship, which was won by Lafayette, equals the highest finish ever recorded by the Hen mat team in the Middle Atlantic classic. In 1953 the Delaware team that finished a 6-2 season went on to finish third in the championships. This year's team ended their season with a record of 5-4.

The teams finished in the MAC matches as follows: Lafayette-34, Gettysburg-19, Delaware-17, Muhlenberg-16, Bucknell-14, Ursinus-13, Haverford-11, Swarthmore-3.

Courtmens Bow To St. Joe's Triumph Over Ursinus, As Season Draws To Close

St. Joseph's Hawk basketball team dropped the final curtain on the Hen's varsity court season last Saturday evening by downing them by a very impressive 91 to 77 score. Delaware's season mark is 8 wins and 15 losses.

St. Joe's leaped to a 7-0 lead and was in command thereafter. Bill Lynch's rebounding and scoring shattered the hopes of the Hens. It was the Hawk's 20th victory against four defeats and they achieved the win without Kurt Engelbert, ace scorer, who was ill.

Guard Jim Smith, with 29 points, led the way for the Hens. Smith connected for 18 in the first half and caused Coach Jack Ramsay to switch to a four-man zone and play Smith (Continued on Page 9)

A New Wisniewski

A second son was born last Monday to Coach and Mrs. Irv Wisniewski, basketball and end coach for the Hens. They now have two sons and two daughters. Congratulations!

Antics On The Court Prevail As Faculty Tops Greek Stars

by "Pete" Green

Last Monday night the fraternity all-stars met with the faculty to play, what was believed by many who saw the game, the funniest game of basketball ever seen in Carpenter Field House. The men's faculty, however, proved to be too much for the all stars, and dumped them 53-47.

Players for the all-star team were selected from teams submitted to the Intra-Mural Council. The following men represented the fraternity all stars: Sid Kuger, AEPi; Andy Rice, Sigma Phi Epsilon; Dick Atkinson, Sigma Phi Epsilon; Bernie Andrews,

KA; Roland Corson, KA; Lawrence McManus, KA; Don Epper, PKT; George McFarland, ATO; Ralph Bingham, KA; and Jack Simson, KA. Coached by Neal Keogh, Sigma Phi Epsilon's Intra-Mural delegate, the all stars employed a man to man defense and used quick passes on the offense.

Playing for the coaches and faculty were "Tubby" Raymond, Irv Wisienewski, Jim Sullivan, Milo "Mike" Lude, Scotty Duncan and Gardner of the Physical Education Department. Also representing the "fabulous five" of the faculty were "Skip" Crawford, Brandy Davis, who is associated with the Pittsburgh Pirates, Rocky Carzo and Don Miller of Newark High School, and Mr. Roberts of the English Department. Coached by Jim Smith of the varsity, the faculty used a system of unlimited and free substitution. With down the court blocking provided for by the "gold dust twins" Jim Sullivan and Mike Lude combined with the earnest efforts of "Skip" Crawford, the faculty made an interesting game of it for the viewers if not for the all stars. Referees for the contest were Jack Waddington and Dick McKelvey of the variety five.

A note handed to me by Betty Mae Snowberger of Tassel, reads as follows: "Tassel would like to thank the men who refereed the games, and those who kept score and time and announced the ball games. Barbara Cuddeby gave a twirling exhibition between games. To her and everyone not mentioned who made it such a success, Tassel says, 'Thanks.'"

It was brought to our attention that the DuPont Country Club would like to play an Intra-Mural team of Delaware in a ping-pong match. Information offered us said that the DuPont Country Club would come to Delaware or the match could be played at the Country Club itself. Delaware has some good ping-pong players in the Intra-Mural system so why not get "hot" on this, Intra-Mural Council. It would certainly prove to be a good test for our players.

Intra-Mural sports coming up soon include volleyball, badminton and track. Volleyball rosters are in and games are scheduled for next week. Badminton begins next week. Rosters are due Monday. Intra-Mural Track which was scheduled for March 21 and 22 had been postponed until after spring gridiron practice to provide for more competition.

Blue Chick Basketball Team Wins Finale

by John Walsh

The Delaware frosh basketball team completed one of their most successful seasons in recent years Saturday night by trouncing New Castle Air Base 85 to 42. This gave Coach Jimmy Sullivan's boys a 12 and 3 overall record and a streak of 8 consecutive victories.

Ahead by only 11 points at half-time, the Blue Chicks exploded for 53 points in the second half and Coach Sullivan was able to substitute freely. Frank Wickes once again led the team

in scoring as he garnered 26 points. Bob Schillo, a hard-driving guard, followed with 20 points.

Last Wednesday the Chicks traveled to Ursinus and whipped the Ursinus freshmen 82 to 79. This gave the team a perfect 10 and 0 league record.

Coach Sullivan in a recent interview said that several of the boys have an excellent chance of making next year's varsity squad, and that he wanted to thank the team for the fine hustle and cooperation they gave

him.

What's doing at Pratt & Whitney Aircraft

R. P. I. Dedicates Graduate Study Center Near Main Plant

Engineers from Pratt & Whitney Aircraft waiting for classes to begin at R.P.I.'s new graduate study center. Courses, leading to advanced degrees in specialized fields, include Aeronautical Engineering, Applied Mechanics, Higher Mathematics, Thermodynamics, Nuclear Technology.

The vast facilities required for practical application of advanced technical knowledge to the development of future aircraft engines are housed in P & W A's Willgoos Laboratory — the world's most complete, privately owned turbine laboratory.

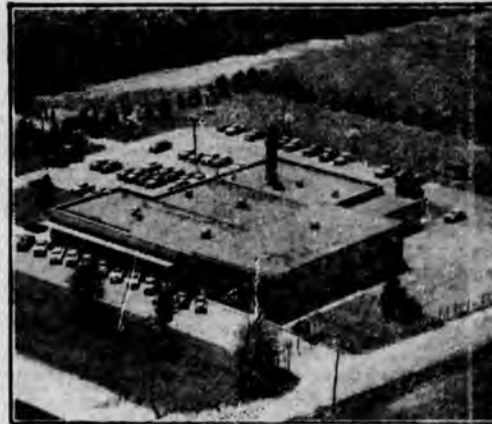

Engineers participating in graduate study program complement their classroom training with laboratory experience gained through their daily employment.

The dedication last month of a full-fledged graduate center near the Pratt & Whitney Aircraft plant in East Hartford, Connecticut, set a precedent in relationships between industry and education. At a cost of \$600,000, P & W A's parent company purchased and equipped the building that was presented outright to Rensselaer Polytechnic Institute for its Hartford Graduate Center. Moreover, an additional grant by this industry leader to R.P.I. was used to establish a liberal fellowship fund. Since last fall, when classes first began, this tuition-assistance plan has functioned to assure advanced education for Pratt and Whitney Aircraft's applied scientists and engineers.

The new graduate study center, 115 miles away from its home campus in upper New York State, is staffed by a resident, full-time faculty. Engineers at Pratt & Whitney Aircraft and other companies in the vicinity are able now to continue their education without interrupting their normal employment.

Designed to raise the level of knowledge and to broaden the base from which research can be approached, this unique new concept of education will lead enrolled engineers to greater achievement in their careers through pursuit of advanced degrees in specialized fields from the nation's oldest engineering college.

R. P. I.'s Hartford Graduate Center, a modern, one-story building in a suburban location, is just a few minutes' drive from the P & W A plant. Student facilities include a large lecture room, a library, classrooms, seminar rooms, a cafeteria, and parking areas.

Freshmen Sports

(Continued from Page 9)
record of one win, one loss and two ties. Coach Whitey Burnham was highly pleased with the performance turned in by the Blue Chicks. He said that several of the boys have good chances to capture positions on next year's varsity team. Among the most promising are 137 pound Hugh Mooney, 147 pound Bob Seaman and heavyweight Greg Kramidas. Coach Burnham said that the highlights of the season were the fine progress made by the team since they first reported and the remarkable record turned in by 137 pound Mooney who won all four of his matches by

pins. Coach Harry Rawstrom's freshman swimming team has ended its season with one win and four defeats. Despite this mediocre record, the Blue Chicks produced many boys who will definitely help next year's varsity. The standouts on the team were Dick Ceadle, Jack Fisher and Frank Fry.

Coach Rawstrom said that the season's bright spot was the Chick's one point win over F & M. In this event the team came from behind by capturing the final relay event. The Coach was also pleased with the second place finish of the 300 yard medley relay team in this year's Middle Atlantic Conference.

Gallery Features Wooden Carvings

Wood sculpture is now being featured on display in the art gallery of the Memorial Library through April 2.

The exhibit is a collection of the works of Parocinio Barela and is being sponsored by the Cultural Activities Committee in conjunction with the Art Department.

The art gallery will be open through March 23 from the hours of 8 a.m. to 10 p.m. Monday through Friday; 8 a.m. to 5 p.m. on Saturday and 1-5 p.m. and 7-10 p.m. on Sundays.

Between March 24 and April 2, the gallery will be open on weekdays only from 9-12 a.m. and 1-4 p.m. The exhibit is open to the public.

Industry Considers Liberal Art Majors

"As industry grows and responsibilities with it, it recognizes that skills other than technical are also important to the job the corporation has to do. This is particularly true of the oil business on the international scene."

David A. Shepard, speaking as a director of Standard Oil of New Jersey, writes in the March issue of the *Atlantic Magazine*, that industry is offering more opportunities for liberal arts graduates than ever before. Industry has found that it is not enough merely to have men who

do ingenious things with machines or bring forth miracles from test tubes.

In the March issue of *Atlantic Magazine*, Mr. Shepard points out what Standard Oil of New Jersey is doing in its search for top-level executives with broad backgrounds . . . backgrounds that lie chiefly in the realm of what is embraced in a liberal arts education.

ASK FOR MRS. BROWN

More Fun!

In the company of friends homeward bound you can make it a "party" all the way. There's room to roam, time to visit, and nothing to worry about.

More Comfort!

Restful coaches, loads of luggage space, refreshments and swell meals en route. No tough driving on crowded highways. No waiting for skies to clear. Yessir, the train is tops in transportation!

What Savings!

Give yourself a "Scotch treat" by teaming up with two or more friends bound for your home town. On trips of 100 miles or more, you'll each save 25% on round-trip coach tickets using GROUP ECONOMY FARES! And here's another bargain! Round up 25 or more to travel long-distance together on the same homeward train. Then return singly or together, and you each save 28% of regular round-trip fare.

*Except for local travel between New York-Washington and points east of Lancaster, Pa.

Md. College Installs New Penalty System Based On Citizenship

(Westminster, Maryland, I.P.) A new system of recognition and penalties based on campus citizenship has been set in motion this year at Western Maryland College. There'll be no more fines or suspension from college for irregular campus conduct under this system, which is supervised by the Standards Committee and directly administered by the Deans of Men and Women, working with the student government.

In essence it involves the use of Administrative Warnings and a Dean's List of Campus Citizens. Any student who violates the rules of good behavior to the damage of the campus community is issued an Administrative Warning. Three warnings in any year or a total of seven in a college career result in expulsion.

The stated purpose of the Administrative Warning is "to work the disorganized offenses against the well-being of the campus community into organized patterns of a cumulative nature without tangible penalty for a chance misstep, but with serious consequences for persistent and flagrant bad citizenship."

In simpler terms, the system is designed to promote one thing—good campus citizenship with the expected result of a better college community.

Those who make outstanding contributions to the campus community will be placed on the Dean's List of Campus Citizens. A student must do good work in the class-room and in campus or dormitory life. He need be outstanding in only one. It is expected that 100-150 students will be on the list.

And here are the advantages of being on the recognition list: (1) No Administrative Warnings for pre-post holiday absences for convenient travel arrangements, job requirements, etc.; (2) Exemption from penalty for absences beyond the number allowed from chapel and assembly; (3) Exemption from regulations of class attendance, if "such students maintain satisfactory standards of work and the design of the course permits;" and (4) Additional late leave privileges for women students.

SGA Considers Suggestions For Revision Of Constitution

During the past seven weeks, the SGA has been seriously considering possible revisions to the Student Government Constitution. Three proposals so far have been considered, each of which is primarily concerned with better representation of the student body.

The first came from Dick Saunders, former senior class president. Essentially this proposal seeks to change, in part, the scheme of representation to SGA.

Dean John Hocutt, Dean of Students, presented a second proposal which embodies a complete revision of representation, and is a system of government based on the senatorial scheme. The third and most recent proposal has come from members of the SGA including Ron Nagle, Tom Thomas and Jim Shelton. In this form, representation is

essentially by living groups, i. e., dormitories, fraternities.

Not any of the three proposals have been entirely accepted, for in the eyes of the SGA each has some faults. As the discussion proceeds, the SGA will probably become selective, in that they will take parts of each and synthesize a new constitution, the results of which will be presented to the students for consideration. However, the student vote as to its acceptance will probably not come until next October.

Incidentally, because of the lengthy considerations of the above constitutional forms and because spring vacation comes much earlier this year, the SGA elections will be held after the vacation. Also, anyone interested in submitting ideas to SGA concerning the constitutional revisions is welcome to do so.

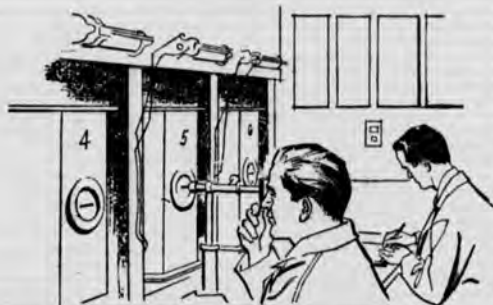

E-52

(Continued from Page 1) rowed from the library. Jane Edwards, chairman of the property committee, has taken care to find furnishings and props representative of the latter part of the last century.

The play's distinguished dramatist was a mining boy in such a community. He was tutored by an English social service worker, Miss G. S. Cook, and won a scholarship to Oxford. After seeing his first play at the age of 19, his theatre career started. His show, "The Corn Is Green," was one of the few shows ever to be a big hit both in New York and London and recently scored again on television. He is also well remembered in his country for his chilling play, "Night Must Fall," in which he also starred.

The Mitchell Hall box office will be open today from 3:30 p. m.-5 p. m., and 7 p. m.-8:15 p. m. and tomorrow 1 p. m.-8:15 p. m.

College graduates develop their skills... growing with UNION CARBIDE

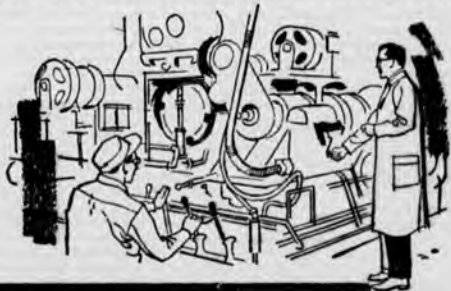

IN TITANIUM RESEARCH...

"After graduating in 1951 with an M.S. in metallurgical engineering, I joined the Metals Research Laboratories of Electro Metallurgical Company. Some of my research in corrosion behavior and notch sensitivity resulted in a patent for a stainless steel. In 1954 I was promoted to Section Leader, supervising research projects in titanium and other reactive metals."

IN ATOMIC ENERGY...

"I graduated in '51 with a B.S. in physics and mathematics. Because of my interest in atomic energy I joined Union Carbide Nuclear Company at Oak Ridge in April, 1954. By November of that year I was classified as a Junior Physicist. I now supervise the operation of mass spectrometers used to analyze radioisotopes produced in atomic reactors here at Oak Ridge."

IN QUALITY CONTROL...

"I'm an electrical engineer, Class of '51. I started in Works Engineering at a National Carbon Company plant. A year later I transferred to a location where Works Engineering covered three plants, and soon became Engineer on important development projects. I was recently promoted to Assistant Head of the Product and Process Control Laboratory at one of the plants."

IN METALLURGICAL CONTROL...

"I'm a metallurgical engineer, Class of '49. I started at Haynes Stellite Company as a Development Engineer in high-temperature alloys, and in 1953 became Shift Foreman in the Metallurgical Control Department. Recently I was promoted to General Foreman, responsible for the Chemical, Spectrographic, Material Release, and X-Ray Departments and the Test Laboratory."

THEY ARE KEY MEN WITH A FUTURE...

If you are interested in a future in production, development, research, engineering, or technical sales, check the opportunities with any Division of Union Carbide. Get in touch with your college placement officer, or write directly to:

Ciliary Motion Among Concerns Of Physiology Dept. Research

Besides being famous for his weekly physiology quizzes, Dr. Raphael Ronkin, professor of physiology, has another interest which concerns the use of energy. Motion is one of the basic requirements of living things, and since most of us here at the U of D consider ourselves alive, energy needed for motion becomes very important to each individual.

Muscular activity is probably the best known type of motion, and Dr. Ronkin is trying to show that another type, ciliary motion, has the same basic pattern and works upon the same principles as the former. Ciliary activity has an important role in the human body as well as in more primitive organisms.

Everyone knows that energy is used in motion, but the question is "how?" For his experiments, Dr. Ronkin is using a small, green protozoa called *chlamydomonas*. These are spherical in shape, about 1/2,000 of an inch in diameter, and move themselves forward by two projecting flagella.

By comparing the amount of oxygen used by normal organisms with that used by mutations, which do not swim, but are otherwise the same, it is possible to determine how much oxygen is needed for movement.

Another line of investigation concerns the comparison of ciliary motion with muscular activity to see if the patterns of chemical activity are the same. If the same events occur in each, then use of energy for motion can be simplified and a better understanding of how organisms function will be obtained.

Working with Dr. Ronkin on this research are Mary C. Straughn, Charles Heckert, Don C. Miller and Barbara Ponsell. The importance of the work has already received recognition by two feature articles published

in the *Journal Every Evening*. Besides his teaching and research work, Dr. Ronkin is a member of Beta Beta Beta biology society, and at present is Acting Chairman of the Biology Department.

Debaters

(Continued from Page 1)

the top affirmative and negative speakers. A four-girl team from the Fordham School of Education took top honors with a six-nothing record, while John Doyle of Fordham Arts took the individual award of the tourney.

Last year the University of Delaware tied for second place at the Hofstra Tournament.

This week-end the debate team will participate in a less formal program at the Penn State Debaters' Congress which is devoted to discussions of the national debate topic in a parliamentary session. William Brown will represent the university as second vice-president of the Congress, an office to which he was elected last year.

Ed Gearhart

(Continued from Page 3)

should be ready for distribution by May 10. The co-operation from the staff members has really been great and I believe the book will support this fact." Ed also added that no copies will be available for sale and only those students who have already paid will be able to obtain their books. This is to eliminate any possibility of financial loss, since only the amount already ordered will be printed.

Ed's final comments on the book: "I'd like to sincerely thank all those people on the Staff who have contributed to making the 1956 Blue Hen a success."

The Same Old Tale; Student Vs. Teacher

In a recent issue, the *Rensselaer Polytechnic* carried these chuckles, which were originally printed in the *Illinois Technology News*.

"You can't beat the system," moaned a student, looking over his grades for the past semester. "I decided to take basket weaving for a snap course, but two Navajos enrolled, raised the curve, and I flunked."

A college freshman was being severely criticized by his professor. "Your last paper was very difficult to read," said the professor. "Your work should be written so that even the most ignorant will be able to understand it."

"Yes, sir," said the student. "What part didn't you get?"

Dr. Robert Jackson To Speak At Meeting

Dr. Robert F. Jackson of the Department of Mathematics will discuss "Computers" in the third of a series of lectures presented by Sigma Pi Sigma, the Physics Honor Society.

The talk will be given on March 14, at 4 p.m. in Room 6, Recitation Hall.

This series of lectures is designed for the information of the entire student body.
