

Delaware College Review

VOLUME 32

NEWARK DELAWARE, MAY 23, 1916

NUMBER 29

DELAWARE WINS AT BASEBALL, TRACK AND TENNIS

VICTOR OVER WESTERN MARYLAND AND DREXEL

After losing two successive games, the "Blue and Gold" team came into its own Saturday and won out over Western Maryland after a close and hard fought game. The Delaware team played good consistent ball against the visitors in spite of the fact that several errors were chalked up against her.

As usual, Delaware allowed the visitors to score in the early innings. After Kelley had grounded out to Webb, "Don" Horsey made a wild heave on Diffendal's grounder and he continued to second. Then came the hit which for a time made things look bad for Delaware. Langrall, the third man up knocked a liner to left which proved to be a homer. Diffendal scored on the hit. It was not long, however, before the "Blue and Gold" athletes forged into the lead. They held this advantage until the seventh. In this round Western Maryland put their third and final run across which tied the score at 3-3. After this period Webb held the visitors well in hand and although they had several chances to tally, they could not come across with the needed single.

The line-up:

Delaware	R.	H.	O.	A.	E.
D. Horsey, 2b	2	3	6	4	2
H. Horsey, lf	0	1	3	1	0
Doherty, 1b	0	1	12	1	0
Fidance, 3b	0	1	3	0	0
Stewart, rf	0	1	0	0	0
Ferguson, cf	1	1	3	0	0
Taggart, ss	1	2	1	5	2
Pierson, c	0	0	2	1	0
Webb, p	0	0	0	2	0
Totals	4	10	30	14	4
Western Maryland	R.	H.	O.	A.	E.
Keller, ss	0	0	5	4	0
Diffendal, p	1	1	0	4	0
Langrall, 2b	2	1	1	3	0
Meyer, 1b	0	1	12	0	0
Wingatt, lf	0	1	1	0	0
Thomas, cf	0	2	3	0	0
Miles, 3b	0	0	1	1	0
Morylan, rf	0	0	1	0	0
Arnolds, c	0	0	5	1	1
Total	3	6	29	13	1

*Two out when winning run was scored.

Score by Innings

W. Maryland 2 0 0 0 0 1 0 0 0—3
Delaware 1 2 0 0 0 0 0 0 1—4
Two-base hits—D. Horsey and Doherty; home runs, D. Horsey and Langrall; double play—Langrall to Keller to Meyer; struck out, by Webb, 2; by Diffendal, 5; base on balls, off Webb, 4; off Diffendal, 1; stolen bases, Fidance, Doherty and D. Horsey; left on bases, Delaware, 5; Western Maryland, 7; umpire, Eubanks.

Blue and Gold Track Athletes Trim Drexel

The Delaware College track team won its first home dual meet of the season Saturday on Joe Frazer Field by defeating the Drexel Institute squad. The final score was 69 to 30. In the eleven

events the visitors were only able to capture three first places. Jones, of Drexel, was the individual star. He won the furlong dash and broad jump, while Hisler walked away with the one mile run in 4.49 4-5.

The time made in the sprints was somewhat slow on account of the heavy wind that faced the runners on the straightaway. Steele, the old reliable came across in the quarter and half mile events and won both. Crockett, who holds the low and high hurdle records at the Blue and Gold institution, did not participate because of injuries he sustained some weeks ago. It is probable that he will not run the rest of the season. Henry Marston and George Wilson, both freshmen, ran the hurdles and captured the events with ease. Marconetti, a freshman who has never performed before won the shot put, heaving the iron 31 feet 3 inches.

Hisler of Drexel, ran one of the prettiest races of the day. He captured the mile in 4.49 4-5. Taylor of Delaware, finished second. In the 220 yard dash, Marshall got away in the lead and kept it for 200 yards. Then Jones came to the front and won by two yards.

Summary

High Jump—Tie between Farlam, of Drexel, and Bratton and Marshall, of Delaware, 5 feet 4 inches.

880 Yard Dash—Won by Steele, Delaware; second, Fitzpatrick, Delaware; third, Larkin, Drexel. Time, 2.06 4-5.

100 Yard Dash—Won by Craig, Delaware; second, Jones, Drexel; third, Marston, Delaware. Time, 11 seconds.

120 Yard Hurdles—Won by Wilson, Delaware; second, Smart, Delaware; third, Driscoll, Drexel. Time, 18 4-5.

One Mile Run—Won by Hisler, Drexel; second, Taylor, Delaware; third, Wise, Delaware. Time 4.49 4-5.

220 Yard Dash—Won by Jones, Drexel; second, Marshall, Delaware; third, Craig, Delaware. Time, 24 2-5.

Shot put—Won by Marconetti, Delaware; second, Bratton, Delaware; third, Peoples, Drexel. Distance, 31 feet 3 inches.

Pole Vault—Tie between Hut-ton and Catts, both Delaware; third, Palmatory, Drexel. Height, 9 ft. 3 inches.

220 Yard Hurdles—Won by Marston, Delaware; second, Smart Delaware; third, Driscoll, Drexel. Time, 28 2-5.

Broad Jump—Won by Jones, Drexel; second, Alexander, Delaware; third, Palmatory, Drexel. Distance, 19 ft. 4 in.

440 Yard Dash—Won by Steele, Delaware; second, Roberts, Drexel; third, Marshall, Delaware. Time, 54 2-5.

Delaware Wins In Tennis

The Delaware College tennis team won its first match of the season Saturday afternoon by de-

BUST PRESENTED TO COLLEGE

During Chapel exercises at the Women's College on Friday morning, May 12th, Mr. F. C. Bankroft, Master of the State Grange, spoke to the students. He mentioned his trips to California, on which patriotism for his native state became so strong in him that when he could no longer endure the California's "braggadocio," he declared that Delaware had both a star and a stripe in the flag, besides, Delaware was the greatest state in Union, and Delaware produced more luxuries than any other state.

Mrs. A. D. Warner, whose visits to the college are always a delight to the students, now mentioned how great the influence of the Grange had been in making the Women's College a possibility. She then went on to say that history unfortunately was a mere record of man's conquests and not of his literary achievements, which latter were the greatest contributions to civilization and peace. The speaker told with pleasure of the success of the pageant, and said that Miss Brady deserved special congratulations for her exquisite libretto which might truly be called a literary gem.

And now, as a pleasant surprise, our honorary members of the class of '18 presented to the College a fine bust of Shakspeare, in memory of the Festival and as an ever present reminder of peace, culture, and higher civilization. Mrs. Warner now closed her talk by thanking the students for their very evident spirit of good fellowship and union.

Mrs. Mitchell next read a delightful little poem on Shakspeare written by Thomas Bailey Aldrich. The exercises were then terminated by words of appreciation, from Dean Robinson and Miss Lura Short, representing the students.

feating the Drexel Institute wielders by the score of 5 to 1. The Gold and Blue players captured the single matches, but fell down in one double match. This victory was a great surprise because of the winning streak the Drexel boys have had the past three weeks. Coach Dutton, who has been working consistently with the men, is responsible for the fine showing the Delaware men are making. Summary:

Singles—McMillan, Delaware, defeated Osman, Drexel, 6-2, 6-2; Walls, Delaware, defeated Windich, Drexel, 6-0, 6-3; Downes, Delaware, won from Deppisch, Drexel, 6-3, 7-5; Humphrey, Delaware, won from Crawford, Drexel, 6-1, 6-1.

In the doubles, Walls and Humphrey, Delaware, defeated Osman and Crawford, Drexel, 6-4, 6-0; Windich and Deppisch, Drexel, defeated McMillan and Downes Delaware, 6-3, 5-7, 8-6.

COMMENCEMENT WEEK ANNOUNCEMENTS

Sunday, June Eleventh

11 a. m. Anniversary Exercises of the Young Men's Christian Association
Address by Josiah Marvel, Esq. Oratory

2.00 p. m. Exhibition Drill Frazer Field
2.45 p. m. Corner Stone Laying. Wolf Hall
8.00 p. m. Senior Ball New Campus Armory

General Information

A general invitation is extended to the public to attend all of the exercises conducted directly by the College. To some parts of the program which are given by college organizations, admission is by ticket or special invitation as follows:

Inter-Society Debate

The Inter-Society debate will be held on Monday morning of Commencement Week in the Oratory. The question will be, Resolved, That The United States should within the next four years grant the Philippines their independence. The Athenaeon Society and the Delta Phi Society will each be represented by three speakers and an alternate. The affirmative will be taken by the Athenaeon, while the negative side will be upheld by Delta Phi. The trials for the selection of the men who will represent the two societies will be held on Monday

Agricultural Club Play—Ticket
Fraternity Reunions—Invitation
Baseball Game—Ticket
Alumni Dinner—Invitation
Alumni Meeting and Luncheon—Invitation
Senior Ball—Invitation

Out-of-town guests are advised to secure their hotel accommodations in advance. The three hotels in Newark are The Deer Park, Washington House, and Coverdale's—all on Main street. Newark may be reached by the Pennsylvania or Baltimore & Ohio Railroads. The Corner Stone Laying on Wednesday will be over in time for the 4.48 Delaware Division Express. Visitors from Wilmington and points North who expect to attend the Commencement Exercises on Wednesday should come on the B. & O. express arriving 8.42 a. m., or (at the risk of arriving late) on the Pennsylvania train arriving 10.31 a. m.

Visitors from out of town are asked to be the guests of the College at luncheon on Wednesday, June fourteenth, on the Campus in the rear of Purnell House. Members of the Alumni Association only will be admitted to the Alumni Luncheon in the Gymnasium.

The privileges of Purnell House are extended to all friends of the college during Commencement Week. The rest rooms will be open to both ladies and gentlemen. Alumni are asked to register here. Catalogues and other pamphlets describing the activities of the College will be placed here for free distribution; and a Bureau of Information in charge of an officer of the Y. M. C. A. will be found on the first floor.

Examinations for admission to Delaware College and the Women's College of Delaware—Friday and Saturday, June 16 and 17, and Tuesday and Wednesday, September 19 and 20.

Summer School for Teachers, June 26 to August 4.
Registration for Fall Semester, September 19 to 21.

Joint Committee on Commencement Exercises

H. Rodney Sharp, Chairman,
Thomas Davis,
Egmont Horn,
W. O. Sypherd.

Chief Marshall for Commencement Day—Charles A. McCue

evening, May 29. The Delta Phi trials will occur at 7 p. m. and the Athenaeon trials at 8 p. m. in Delta Phi Hall.

There are two prizes offered to the two men making the two best speeches in this debate. One prize is of thirty dollars and the other is of twenty.

St. John's Game Postponed

Delaware's game with St. John's, scheduled to have been played last Wednesday, at Annapolis, had to be postponed by the latter because of a parade in Baltimore. It is probable that the game will be played today.

Alumni and Commencement

The close of another year is almost upon us and commencement week rapidly approaches. In another column of this issue is to be found the commencement week program. Alumni take notice, and begin at once to get your affairs in such shape that you will be with us thruout the most enjoyable, enthusiastic, and inspiring commencement week that old Delaware has ever seen. More extensive plans are under way for the entertainment and accommodation of the alumni than have probably ever been made before.

It will be your opportunity of seeing the launching of the Blue and Gold institutions on her larger and better mission. You will be able to see the largest student body that has gathered in the Oratory in recent years. It will be the last chance for you to have last chance for you to have brought back those old reminiscences of past historical events while strolling thru the "Dorms." Old friendship will be renewed and all the charm of college life will once more be yours.

The Arts and Science Club

One of the most significant and far-reaching events of the entire year occurred last week when a meeting, which marked the formation of a new society, was held. This society will be known as the Arts and Science Club. A short time ago the proposal was made

that such a club be formed and this resulted in much discussion. Many of the advantages to be derived from an Arts and Science Club were at that time brought to the attention of the readers of the Review. This proposal and the discussion of it have now borne fruit, and the organization of a real live, ambitious society has practically been effected and will shortly begin its activity. Little time remains of the present year but in spite of this fact we believe that the club will be started on its career with an astonishing impulse in these closing days. A statement of how far the organization plans for the club have progressed will be found in another column of this issue.

The aims of the club will be neither too lofty, too practical, nor too theoretical. The idea of the club will be to stimulate interest in those various topics and issues of the day which receive no especial attention from the present curriculum of courses but which are broadening and essential to an education. Although definite plans and rules governing the club have not yet been determined we may be quite sure that the qualifications for membership are not going to be such that the organization will be a mere clique. Nor will it be a society which will be open to any man enrolled in the Arts and Science department of the College. If a club of this kind is to be representative, and at the same time stimulative, the qualifications for admission will make it possible for any man to gain admittance who shows an adequate interest in its purposes and an inclination to put something into the society as well as to get something out of it. The source of the movement for the club has not been the faculty. Just as the organization of the club has been possible only through the enthusiasm with which some of the students have taken hold of the idea, so will the success of the club depend entirely on the initiative and faithfulness of its student members. The delight and pride which the members will feel in work done of themselves and of their own volition will be the basis on which the club will live. The only necessary connections of the instructors with the new organization will be the voluntary one of co-operation, sympathy, and guidance, which we may be sure they will be cordially willing to assume.

An Arts and Science Club formed with such principles and objects as a basis can be developed into one of the most influential and potent factors in the life of the college. And this we believe it will be.

With the reorganization of the Engineering Society here at Delaware has come an increased opportunity for the engineering students to make more of the advantages offered by their respective courses.

A few years ago the Society was recognized as quite a potent factor in the development of its members. Thru one cause or another, mainly indifference, the organization became weaker and weaker. From the first stages of debility the society soon descended so low that only heroic efforts could have revived it. Evidently such measures were beyond those who still maintained even a slight interest. As a natural consequence, the society soon passed away.

The new organization might be classed as a resurrected society and it is the firm belief of the present members that some of the good interred with the bones of the old society has been disinterred along with the bones. At any rate the society is now here, and

The Women's College of Delaware

Girls who expect to complete courses in Delaware High Schools next June should plan to secure a thorough collegiate training at the newly established and rapidly growing Women's College of Delaware. Although it has been in existence only a little over one year, the college has an enrollment of eighty-five students from several states. Tuition is free to all Delaware students. New buildings, large and capable faculty, beautiful location individual instruction.

Three Departments:

Arts and Science---Designed to give a broad cultural training.

Education---Intended for those who wish to teach in the schools of Delaware and neighboring states.

Home Economics---Intended to give students training in home-making and in teaching Home Economics in the schools.

LOCALS

Why not form a choir for Chapel? The last one we had was a source of much entertainment. How about the following for a beginning:

Soprano: Lew Plam, O. F. E. Gentieu; Alto: McCaghey, Cooke; Tenor: Steel, Ches Smith; Bass Jones, Bounds.

Since Veasey has surpassed Beauchamp as a ladies' man, Beech has found consolation in raising a— I almost called it a moustache—however, take a look for yourself and call it what you will.

The Seniors are now taking a last look at everything about the campus. From some of their crazy "operations" it looks as if the quotation "Much learning hath made thee mad" is particularly applicable to them.

W. C. D. NOTES

On Saturday evening, May 13, Mr. Frank Huss, of Wilmington, with Mr. Hemple at the piano, gave a vocal recital at the Women's College. Mr. Huss sang selections from well known operas, among which were those from "Faust" and "Il Trovatore." He also sang some modern songs such as, "The Little Gray Home in the West," "Somewhere a Voice is Calling," and "Love Where The Rose Is." The recital was thoroughly appreciated by all present.

Miss Caudell—"Emily, what kind of cheese would you serve at a nine-course dinner?" Noble Emily—"Spoilt Cheese."

Dr. Sypherd gave a very interesting Chapel talk before the girls of the Women's College on Tuesday, May the sixteenth. He outlined the English work which would be open to any student taking a four year course.

Dr. Sypherd emphasized the necessity for making a wise choice of the elective subjects, and arranging definitely in the first or second year of college life the subjects which the student intends to take during her whole course.

As May 18th is celebrated as Peace day, Misses Rebecca Churchman, Mabel Dobson, and Amelia Leichter each read selections from the pamphlet compiled by the Delaware branch of the Peace League. A most suitable close of the exercises was made by the reading of "A Man's a Man for a' that" by Robert Burns. This poem ends with the significant line: "That man to man, the world o'er, shall brothers be for a' that."

Committees For Farewell Hop

The various committees have been appointed for the farewell Hop. Plans are already under way for this, the last event of the collegiate year 1916. The dance will be held in the Armory on Wednesday night of Commencement week.

From present indications the affair will be one of the most delightful and pleasing ones which has occurred this year. The committees are as follows:

Program and Invitations: J. C. Hastings, Chairman, H. W. Ewing, E. G. Smyth, M. J. Fidance.

Floor: T. R. Wilson, Chairman, H. W. Horsey, H. M. Veasey, J. M. Heinel.

Music: F. T. Campbell, Chairman, A. G. Heinel, L. B. Steele, W. V. Marshall, F. C. McCaghey.

Refreshments: R. H. Pepper, Chairman, R. M. Appleby, J. A. Hopkins, R. M. Cameron, C. Smith, J. W. O'Daniel.

Decorations: J. H. Jones, Jr., Chairman, L. L. Smart, S. D. Loomis, J. H. Beauchamp, S. R. M. Thomson.

Dramatic Club Organized

The cast of "Twelfth Night" met Tuesday, May 16 and organized a Dramatic Club. The purpose of the Club was defined as one to produce plays and to encourage dramatics in the College. Irving Reynolds, '18, was elected Stage Manager, Homer Savin, '18, Secretary, and Joseph Jones, '17 Business Manager. It was decided that any students who were interested in dramatics should be eligible to join the Club and to try out for any play which the Dramatic Club should produce. Some plays were considered, but none were definitely decided upon. Considering

the great success of "Twelfth Night," this Club is expected to fill a need for organized dramatics. The members of the Cast received statewide commendation for their rendering of "Twelfth Night." They have had a tempting offer to play on a Chautauqua circuit this Summer. And they have been asked to repeat the Play at The Playhouse in Wilmington. It is not yet known whether any of these will be accepted, but these demands show how enthusiastically "Twelfth Night" has been received. It is hoped and expected that we shall be favored in the future with talent the members of the Club have already shown.

DELAWARE COLLEGE

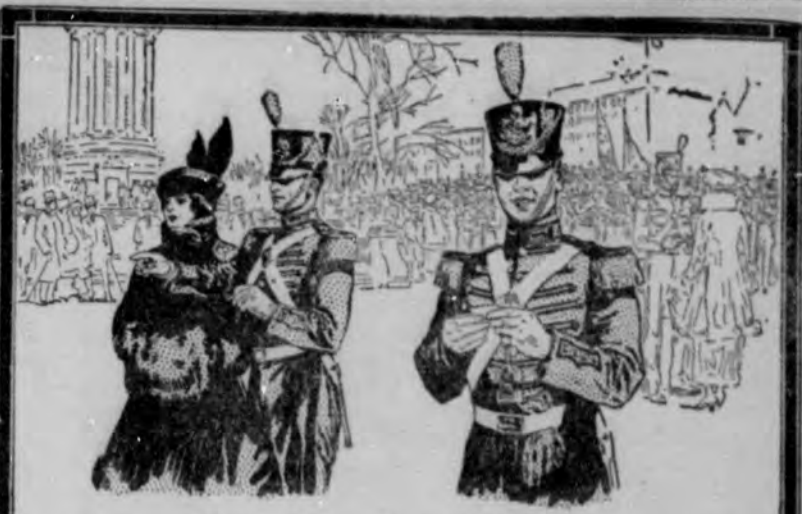

Now is the time for high school students to be making their plans for attending college next year. Why not go to a college near your home, a college which your friends are attending, a college which is growing faster than any other in the East? Delaware College offers splendid opportunities to the earnest students who come to it after completion of a full high school course. Tuition is free to all Delaware students. Thirty-one instructors to 232 students (one instructor to about every eight students) gives the students the benefit of individual instruction.

THREE DEPARTMENTS—Arts and Science
Agriculture, and Engineering

all leading to degrees. Adequate Libraries, Work Shops, and Experimental Farm. Faculty of men trained in best universities of this country and Europe.

Ready!—"Roll Your Own!"

A fresh, lively "roll your own" cigarette of "Bull" Durham is as quickening and inspiring as the roll of drums or the "get busy" notes of a bugle call. "Bull" Durham is the smoke of the red-blooded—the bright and breezy smoke that goes with youthful enthusiasm and energy.

GENUINE "BULL" DURHAM SMOKING TOBACCO

No other tobacco in the world has the unique, mellow-sweet mildness or the delightful aromatic fragrance of "Bull" Durham.

Made of rich, ripe Virginia-North Carolina leaf, "Bull" Durham has that distinctive, exclusive quality which has made it the favorite smoke of three generations.

Only by "rolling your own" with "Bull" Durham can you get a cigarette with the individuality and personality that give such perfect, lasting satisfaction.

EDITORIAL

(continued from page 2)

if to stay, it must have the unselfish support of every engineering student eligible to membership. Next year the active membership will be open to the three upper classes, with the Freshmen engineers as associate members.

Untold benefits may be obtained from this union of the engineers. In other technical colleges the Engineers' Club holds first rank as a means of cementing fellowship and interest among the technical students. What others can do, we can do. The best is none too good for Delaware. Get together Engineers, and boost.

Next Tuesday being Decoration Day, and hence a holiday, there will be no issue of the Review next week.

ENGINEERS VISIT SPARROW'S POINT

Also Inspect Plants In Philadelphia

On Monday, May 15th, the Electro-Mechanical Engineering Seniors, under the direction of Prof. M. Van G. Smith, made an inspection trip to the Maryland Steel Company's plant at Sparrow's Point, near Baltimore, Md.

The party of eight, including Prof. Koerber, made an all-day trip of it. In the morning they visited the unloading docks, which are on the Chesapeake Bay and the coking ovens nearby. In the afternoon, they saw the tapping of a blast furnace, the action of the Bessemer Steel Converter, the rolling of steel rails, the open hearth process, and made a hurried trip thru the ship-building department. The guide for the party in the afternoon was Bob Tippet.

At the docks a Danish ship flying the British Jack was being unloaded of Cuban ore by an American-built travelling crane and clam-shell bucket run by a German. The guard who inspected the pass of the party was an Irishman.

Around the blast-furnace, doing the hot work, the negro race predominated. One big buck did most of the dangerous work of tapping the 87-ton charge of liquid iron. He bored the tap hole thru the fireclay with a steel auger run by steam. He kept the hole from clogging up by shoving a long iron rod into the stream of fire. Every time it came out it was two feet shorter. Burned off. The sparks of burning iron flew all over him but he had on two flannel sweat-shirts, of the kind made popular by Coach McAvoy, goggles, felt hat, and had soles to his shoes an inch thick. He caught one red-hot cinder in the palm of his hand, spit on it to put it out and calmly went to work again with his slag-hoe to scrape the slag off the stream of iron flowing from the tap hole to the car. For this the man gets about two dollars a shift.

In the rolling mills a red-hot ingot of steel produced in the converter was squeezed between the steel rolls and twisted and turned by steel fingers and run back thru the rolls until the red-hot ingot of about the size of a coffin became a still red-hot snake of a rail 90 feet long. This was cut into three lengths, and allowed to cool. This was the first time the metal failed to glow red-hot since it was dropped into the top of the blast-furnace as ore. It was then straightened and stacked in piles. These piles were attacked by a magnetic crane, which picked up six rails at one time and deposited them almost noiselessly in the railway cars ready for shipment.

On Wednesday, May 17th, the same party went to Philadelphia and inspected the Wyoming St. Station of the P. R. T. and the main power plant of the Phila. Electric Co. At the latter plant was seen the largest power unit in operation in the entire world. It is a 30,000 K. W. Curtiss Turbine-Generator.

On Friday, May 19th, the party went to McCall's Ferry Power Plant. Here are eight turbines or "water wheels" aggregating over 100,000 hp. The plant generates electricity for Lancaster and Baltimore, where it is sent at a pressure of 70,000 volts.

Tennis Team Ties Western Maryland

Last Wednesday, in six hard fought matches, the Blue and Gold wielders held the Western Maryland racquet men to a tie score. Owing to the fact that a thirty mile gale was blowing all the afternoon many of the plays on both sides were either lucky or unlucky shots. In this strong wind the men were unable to place the ball and were compelled to play a safe, easy game.

Downes represented the Blue and Gold for the first time this season and played a very good game. McMillan played an excellent game while Sumwalt and Gutowitz did not show their usual good form. Sumwalt and Gutowitz picked the two best players on the Western Maryland team and consequently were both defeated. Had the men have drawn different opponents especially in singles there is no doubt but that Delaware would have won the match instead of tying the score.

The scores of each match follows:

Singles: Downes of Delaware defeated Blades of Western Maryland 6-4, 8-6. McMillan of Delaware defeated Pusey of W. M. 6-3, 6-2. Eldrice of W. M. defeated Gutowitz Delaware 6-1, 6-2. Kester of W. M. defeated Sumwalt Delaware 6-2, 6-0.

Doubles: Downes and McMillan Delaware defeated Blades and Pusey of W. M. 6-3, 6-1. Eldrice and Kester W. M. defeated Gutowitz and Sumwalt Delaware 6-0, 6-1.

The Honor System For Delaware

The Faculty at their last meeting granted the protection of some of the students of Delaware, that they be allowed to take their examinations under the honor system. This petition was signed after careful consideration, by one hundred and ten students and its being granted by the Faculty marks the beginning of the adoption of the Honor System at Delaware.

At the request of the Faculty the Student Government Council appointed the following Honor System Committee: Wm. E. Martin, chairman, LeRoy Steele, Tom Wilson, Ernest Wilson, and Irving Reynolds. These five men to meet with a committee of the Faculty advisors and with their co-operation to decide upon the details of the arrangement under which the Honor System is to be operated in regard to this year's final examinations.

The plan as suggested in the petition is that those who signed the petition be permitted to take their examinations apart from those who still followed the old system. If the plan is to be followed, and the Faculty appeared favorable in their attitude toward it, these men will be allowed to carry their examination papers to their room or any place they desire.

That the Honor System is to be a reality at Delaware we are to a

large degree indebted to Billy Martin who, as editor in chief of the Review, worked consistently and with statesmanlike tact for this purpose. Yet it is more than the work of any one individual. It is rather the awakening of the whole student body to the realization of existing evils and the desire to correct them.

Mandolin Club Gives Concert

On Saturday evening, May 20 the Mandolin Club gave a very pleasing concert at the Women's College. The Mandolin Club played several selections, and musical numbers were also given by a trio of two mandolins and a piano. The concert was well attended, and the audience was delighted by the excellent manner in which the selections were rendered. The Mandolin Club is composed of the following men: E. E. Plumley, leader; J. Robinson, Dr. K. R. Greenfield, first mandolins; C. Weigle and F. R. Proctor, second mandolins; F. B. Martenis and H. Loose, third mandolins; Willard Humphrey, flute; D. P. Barnard, guitar; and M. Lang, piano.

Much credit is due to these men for the quality of this work; the concert showed plainly that it was the result of much hard practice. The Mandolin Club will play several selections during chapel this week.

Fine Start For Arts And Science Club

Several members of the teaching staff of the Arts and Science Department and members of the Senior class met last Thursday evening in Purnell Hall to further the interests of the Arts and Science Club. Committees were appointed to arrange details concerning the question of members, organization and aims and purposes of the club. Programs for each meeting will be prepared for some weeks in advance to enable the one taking part to be well prepared. Such a club as planned is urgently needed to round out the classical man's literary capacity. Much interest is already being manifested.

The joint committee consisting of students and members of the faculty follow: E. W. Martin, '16; J. W. Jones, '16; Howard Bramhall, '16, representing the students and Prof. Dutton, Dr. Seht representing the faculty. Dean Smith will act as chairman. A meeting is scheduled for Monday evening, May 22nd at which time many important matters will receive consideration.

Miss Earle Speaks to Y. W. C. A.

On Sunday evening, May 14th, Reverend Irene Earle, of the Hagley Community House, gave a talk on social service to the members of the Y. W. C. A. The special message of the speaker was that people contemplating social service work should avoid that too common attitude of "Take what I have to throw to you from my pedestal." On the contrary, they should take up democratic personal service which proves that we are all brothers and sisters, and which eliminates class distinction. The speaker said that during her three years' experience at Hagley, her chief difficulty was in drawing members of different religions and sects together without any hostile sentiment. Miss Earle mentioned the incident of Bible Class for young men. It was a difficult proposition to have them study the Bible, but it proved comparatively easy to bring boys together for the purpose of studying another little book which, though it embraced all the doctrine of the Brotherhood of God and the Brotherhood of Man, had a title entirely unsuggestive of

religion. So it happened that, through this preliminary work, the pupils gradually became interested in the Bible itself.

The Next Step Toward Honor System

A joint committee of the student body and faculty has been appointed for the purpose of arranging details relative to permitting students who petition for honor examinations to take them under that system.

The committee representing the students was selected by the Students Self-Government Association and consists of the following men: E. W. Martin, '16, L. B. Steele, '17, T. R. Wilson, '17, Earnest Wilson, '18, and F. I. Reynolds '18. The faculty will be represented by the class advisors, Prof. G. A. Koerber, Senior Class; Dean E. L. Smith, Junior Class; Prof. C. A. Short, Sophomore Class; and Dr. W. O. Sypherd, Freshman Class.

Quite an accident happened in Purnell Hall last week. A Freshman had his eye on a comfortable chair when a Soph sat on it.
