War Dept. Awards Certificate to C. E. Prof. T. D. Mylrea

Presentation Made at University Assembly

Thomas D. Mylrea, head of the department of civil engineering at the University of Delaware, received a War Department certificate of appreciation on January 7 for patriotic services in a position of trust and responsibility.

The presentation was made in Mitchell Hall, at an assembly of University students, by Col. Jay N. Gillfillan, Professor of Military Science and Tactics and Commandant of the ASTRP, on behalf of the War Department.

In April, 1944, Prof. Mylrea was called upon by the Army Ordnance Department to help set up urgently needed apparatus to accelerate rocket testing. He and assistants, Prof. T. D. Smith, Prof. W. F. Lindell, Prof. M. G. Young, Mr. J. L. Coyle, and Mr. Henry Jacobs, all of whom are associated with the U. of D., developed new charts and mechanical aids which eliminated lengthy computation and provided increased accuracy in the determination of the position of a plane when it fired its rockets.

The newly devised aids made it possible to determine the point of impact of the rocket, the point where the rocket penetrated an imaginary target, and the dispersion of any given type of rocket. Prof. Mylrea and his assistants also aided in evaluating the different types of launching devices

Dr. Kase Elected Vice-President Of Theatre Group

Dr. C. R. Kase, Director of Dramatics at the University of Delaware, has been elected Vice-President of the American Educational Theatre Association for the current year.

The election took place at a national convention of the association held in Columbus, Ohio, several weeks ago. Dr. Kase attended the meeting of which he was Convention Chairman. He also served as chairman of a section meeting devoted to a discussion on "Experiments in Theatre," and was chairman of another committee which drafted a revised constitution for the association. The new constitution was approved before the convention adjourned.

Dr. Kase has served for five years as a member of the association's advisory council. In addition, he is a member of the National Theatre Conference, and has been named chairman of a committee of that organization established to investigate methods of creating greater understanding and closer coordination between the AETA and the NTC with respect to projects and activities carried on by each organization.

The American Educational Theatre Association and the National Theatre Conference are the two major national organizations in the field of the non-profit theatre.

Admissions to Be Determined by A Priority System

Vets and Former Students Come First

A priority system has been adopted by the University for admission to the various schools, according to an announcement by Dr. W. Owen Sypherd, acting President. Students will be admitted according to the following priorities:

1. Delaware veterans or former students.
2. Delaware civilian men and women.
3. Out-of-state veterans having some Delaware connections.
4. Out-of-state civilians having some Delaware connections.
5. Out-of-state veterans having outstanding qualifications.
6. Other out-of-state students having outstanding qualifications.

Dr. Sypherd explained that the term "having some Delaware connections" would be interpreted to mean those who now have close relations in the state and those who formerly attended the University.

Applications have already been approved for the admission of 137 additional students for the term beginning on February 2, 1946. Of this number, 109 are veterans and 47 are former U. of D. students.

Seventy-six additional applications have been received from persons wishing to enroll next month. Appropriate action with respect to these applications will be taken immediately following receipt of the complete information from them.

In addition to a continuing flow of applications on admissions, other factors causing the faculty to establish restrictive measures for future use are lack of dormitory space and other forms of housing facilities and the possible limitation of laboratory space and equipment.

Piano Solo Highlights Weekly Vesper Service

The regular Sunday Evening Vesper Service held in Mitchell Hall last Sunday was highlighted by two piano renditions by Mrs. Kurt Wohl. Mrs. Wohl is the wife of Dr. Wohl of the Chemical Engineering Department. Dr. and Mrs. Wohl are both well known for their concert ability and have given many concert duets since arriving in America.

Mrs. Wohl's first selection was In Thee Is Joy by Bach which is an organ prelude transcribed for the piano. Her second selection was Mozart's Sonata in A Major which is easily recognized by the rondo better known as the Turkish March. Virginia C. Smith read an appropriate Psalm and Betty Kerr lead the singing.

Dr. Hallman will speak at next Sunday's Vesper Service which will be the last service of this term. The first Vesper of the spring term will be held on February 10, 1946.

Dr. Emil Ott Speaks To Student ASME

Personality Development In Education Stressed

At the meeting of the ASME held in Room 308, Evans Hall last Monday evening, Dr. Emil Ott gave the students present some very interesting and thought-provoking opinions on the "Advantages and Disadvantages of an Engineering Education."

One of the main points brought out by Dr. Ott was that, for the most part, scientists are essentially introverts, that is they are inclined to find the solution to their problems by conference with themselves, rather than to seek advice or gain another point of view. They realize however, that they must mix with the world, and thus take up the field of science to give themselves an advantage and then proceed to meet the world on their own terms.

But engineering is an applied science and as such is very much concerned with human relationships. One of the disadvantages of present engineering education is that it is inclined to be an advanced trade school, with relatively little attention paid to the humanities. The prospective engineer should learn to broaden his point of view and associate with his fellow man, in addition to learning the engineering fundamentals.

The method of reasoning learned in studying the sciences is applicable as long as a person is dealing with material things, but reasoning is only one approach to the problem of human relations. The introvert has an advantage, Dr. Ott believes, in that the expansion of one's point of view is generally easier than learning to rely on one's self. The introvert already knows how to depend upon himself, while the extrovert will find it difficult to turn his personality inside out.

Another point emphasized by Dr. Ott was that higher education seems to have been, in the past, more interested in the quality of graduates rather than the quality of these graduates. He foresees the time when the engineering curriculum will be lengthened to five or six years, to provide a better foundation and better the quality of the graduate engineer.

After his formal address was concluded, Dr. Ott answered many questions posed by the members, and expanded on the topics mentioned above.

The son of the speaker, John W. Ott, student chairman of the ASME, presided at the meeting.

Temporary SGA To Be Chosen This Week

Elections to Be Held Thursday and Friday

The election of the officers of a Temporary Student Government Committee will be held tomorrow and Friday in University Hall. Ballot boxes will be placed in front of the mail boxes, and will be attended from 8 a. m. to 4 p. m. and 7 p. m. and 8 p. m. on Thursday, and from 8 a. m. to 4 p. m. on Friday.

These decisions were made at a meeting of the student body held in Wolf Hall on Monday immediately after the meeting of the Arts and Science students, as announced in this paper last week. The following decisions were reached:

1. The elections will be direct. No nominations. No specific offices shall be made, but each voter will be required to select two persons from the Junior or Senior classes, while all of the candidates must be selected from the three upper classes. No freshmen.

2. A committee has been appointed to take care of the balloting details. This committee will count the ballots, and their decision will be supported by a written certification by a faculty member present when the ballots are counted.

3. A checkoff will be used as each student votes. Two students, a man and a woman will observe the balloting.

4. Between the balloting hours, the ballot box will be kept in the business office of the University.

March of Dimes Dance To Be Held Saturday

The social committee of the University is sponsoring a dance to be held in the Women's Gym this Saturday night after the basketball game with P. M. C. Admission to the dance will be free, but each student will be asked to make a contribution to the March of Dimes infantile paralysis fund. All the student organizations are cooperating in furthering the fine work of this fund during their annual campaign. It is hoped that a substantial contribution will be made by the students of the University.

George Feary and his orchestra have been obtained for this dance and it provides a fitting wind-up for the social activities of the term. Dress for the dance will be informal.

Chemical Engineering

Dr. A. P. Colburn will speak before the Baltimore section of the American Institute of Chemical Engineers on January 16, at a meeting to be held at Johns-Hopkins University. His subject will be the use of photography in research. Some movies of research work done at this university will also be shown.

The following veterans are returning to the Ch. E. Dept.: Stephen Gula, Bram Pais, Joseph L. Nurnberg, and J. B. Stopyna.

Don't Forget The MARCH OF DIMES DANCE

Saturday, After the Game 'Till

Midnight — Women's Gym

Admission:

Contribution to March of Dimes Fund

Letters to the Editor

TO THE EDITOR:

Since the Review is an organ of student enlightenment, we wonder if you could ascertain the following information for us. In a recent article you stated the varied accomplishments of the new addition to the military staff. After viewing Lt. Millman, we can only sigh, and ask, would he teach Ju-jitsu to co-eds?"

Hard-up Harterites

DEAR EDITOR:

We, the undersigned, represent 121 of the student engineering body in endorsing Prof. L. Blumberg as the right man for the position as head of the Mechanical Engineering Department. Industry and alumni concur that Prof. Blumberg is the logical choice for this position.

Jack Wilson
George Grier
Joe Skura

Houses for Student Vets

Of all the benefits to which the returning veteran is entitled, none ranks ahead of education. The importance of meeting satisfactorily the crisis in the colleges and universities, which are now facing the greatest jam in history, cannot be over-emphasized.

Veterans enrolled under the G. I. Bill of Rights have reached a peak figure of 125,000 for the country, while upwards of 207,000 more have already applied for entrance. Dr. Francis J. Brown, staff associate of the American Council on Education, predicts that at least 600,000 will be enrolled by next fall.

This means that not only the big-name universities will be flooded with new students, but that smaller colleges only beginning to notice the influx, will receive their share.

At the crux of the problem is housing. In contrast to pre-war students, 30 percent of the veterans are married, 10 percent have children.

Increase of the married veterans' allotment to \$90 is little help. On the other hand, assignment of \$167,000,000 by Congress to the purpose of moving temporary war and defense housing to regions of greatest need, may go far toward a solution—if the funds and housing are properly allocated.

Everywhere the colleges and universities have shown a spirited willingness to face the issue squarely and do everything in their power to take care of the veterans who come to them. They cannot, however, any more than other American groups, provide houses unless the materials and labor are available to build them.

This is a situation for which Congress should have remedial legislative measures ready, if needed.

Alumnae Notes

Jean Boyd Jefferis, '37, is serving with the Red Cross at the England General Hospital in Atlantic City, New Jersey.

T/5 Dorothy Markert of the WAC, formerly a teacher of mathematics in the Newark High School, was sent to France during the summer. She has been having an interesting time in Paris and is anticipating a transfer to Germany.

Mary Bradley, '38, is assistant librarian at the DuPont Experimental Station, Wilmington.

Dorothy Hodgson, '40, is supervisor of the Sales Record Division Naval Stores Department, Hercules Powder Company, Wilmington.

Ann Harrison, '41, is in charge of a Red Cross Service Club at the American University Center, Shrivenham, England. She finds her work very interesting and opportunities for travel in England most enjoyable.

Schied Selected For Navy V-5 Program

Lieutenant Commander D. K. Hemmerly, Director of Naval Officers Procurement, Philadelphia, Pennsylvania, today announced that Charles Franklin Schied of Mount Vernon, New York, has been selected for the March class of the Navy's V-5 Pilot Training Program. Young Schied will begin his Air Cadet's education with a year of college training.

Cadet Schied was graduated from A. B. Davis High School and has been attending the University of Delaware. He has participated in college football and basketball.

He will leave for training about March 1, 1946. Following one year of college, Cadet Schied will attend pre-flight and flight schools to win the Navy's famous "Wings of Gold." Commissioned as an Ensign in the Navy, or a Second Lieutenant in the Marine Corps, he will serve aboard carriers, at advanced bases and on continental shore stations, operating the high-powered fighters and bombers for which the Navy is noted.

In announcing Schied's appointment, Lieutenant Commander Hemmerly stated that applications are still being accepted for the March V-5 class. Young men 17 through 19 years old, who want to fly are asked to write to the Philadelphia Office of Naval Officer Procurement, 1600 Arch Street, requesting application forms. If selected, they will receive an education valued at \$27,000 which will provide training in theory and practice without equal in the aviation field.

Professor "Flunked" By Student Body

(By Associated Collegiate Press)
At the University of Wisconsin when a professor runs home in tears to his wife, it doesn't mean he has been fired. He has probably been "flunked" by his students.

This reversal of academic procedure was thought up by the student board's academic relations committee, and gives the long hoped for opportunity of the students to "tell off" their professors. Questionnaires, distributed to students asked that they rate their teachers, the teaching methods, efficiency, discuss such things as cribbing for test, and social attitudes acquired at the university.

The answers, disregarding personalities, revealed that lectures, the most common method of teaching were considered the least helpful. Small discussion sections and quiz recitation sections rated on top.

Library Lore

For the book lover who is also a radio fan, a number of interesting programs have been arranged. The Chicago Tribune's book section is sponsoring a new quiz show called "The Game of Books," which comes on at 6:30 Sunday evenings, E. S. T., on Station WGN, Chicago. Something like "Information Please," the titles are suggested by the radio audience, bits are dramatized, and a board tries to guess the titles. The dramatizations are particularly good.

"Of Men and Books" is a book review program conducted by John Mason Brown over CBS on Saturday afternoon at two o'clock, E. S. T. Sponsored by Omnibook Magazine, the program includes books which are likely to have wide popular appeal, and with a natural-born story teller like Mr. Brown to do the reviewing, it provides a delightful half hour of entertainment and information.

Cresta Blanca Wines sponsor a radio show called "This Is My Best," a program on which are dramatized the works of well known authors which they consider their best.

Not only will these programs keep you entertained for the length of time they run, but they will also provide you with a speaking knowledge of many books which the average college student finds little or no time to read.

Texas College Initiates Course in Small Business Management

HUNTSVILLE, Texas—(ACP)—The first college in the country to attempt incorporating the teaching of complete management of small businesses in the regular curricula is Sam Houston State Teachers College, according to Dr. Harmon Lowman.

According to the GI Bill of Rights a veteran is guaranteed, under certain conditions, a loan of \$2,000 to begin a new business. Another article provides for a years training financed by the federal government. With those two ideas in mind, Sam Houston will attempt to teach the veteran what he would need to know about managing a small business in any of the twelve listed vocations, and issue a certificate of terminal credit to the prospective small business owner which will aid him in securing the necessary loan under the GI Bill of Rights.

Classes will convene for the first time in the newly constructed Josey Vocational School on January 1, 1946, and new students may enter on the first day of each succeeding month. There are no scholastic requirements for the prospective students, and adequate housing will be furnished at reasonable costs. The courses of study may be completed in nine to twenty-four months, depending on the educational and experience background, ability and personal applications of the veteran.

The subjects which will be taught include: furniture, machine shop, tin shop, electrical appliances, air conditioning garage, printing, radio, photography, garments, interior decorating and plumbing.

Rutgers Defeats Delaware Five

The University of Delaware basketball team suffered their first defeat Saturday night, being turned back to the tune of 72-44 in a one-sided game.

After the first few minutes Rutgers took the lead which they held throughout the game and scored freely until the closing whistle.

A very well executed fast break and a definite advantage in height proved to be Delaware's down-fall. The Rutgers five averaged about 6'-2", and this fact alone kept the Blue Hens at a decided disadvantage.

The New Jersey five outscored the Steers coached five in every period, however, the Delaware quintet tallied 20 fouls to 10 for Rutgers in a game in which 67 personal fouls were called.

Bob Kirkland and Joe Mackey were the high point men for the Blue Hens with 9 and 8 points respectively, however, game scoring honors went to Pete Hugger, who tallied 16 and was closely followed by his team mates Lynner, Campopiano, and Senko.

The score:

Delaware	FG.	F.	Pts.
N. Duncan, f.	1	4	6
Mackey, f.	3	2	8
G. Wolf, f.	1	2	4
R. Duncan, f.	0	1	1
Cataldi, f.	0	1	1
McAllister, f.	0	1	1
Kirkland, c.	4	1	9
Bodley, c.	0	2	2
Grossman, g.	0	1	1
Monaghan, g.	0	1	1
Neff, g.	1	2	3
Sadowski, g.	2	2	6
R. Wolf, g.	0	0	0

Totals	31	10	72

Sigma Nu Holds Party

The first Sigma Nu house party since early 1943 was held in the frat house on Saturday evening, January 12th. Members and pledges arrived at about 8 with their dates. Dancing in the recently redecorated Green Room of the house was featured until midnight. Refreshments were served in the basement lounge.

Dr. and Mrs. W. A. Mosher and Mr. and Mrs. J. M. McDowell represented the faculty.

At a meeting held on Friday, January 11, the Sigma Nu fraternity formally pledged fourteen prospective members, and elected Wayne Grier as pledge captain.

Hen Courtmen Trip Haverford Score 41-27 Win

The Blue Hens of the University of Delaware swept to their second straight victory last Wednesday night in the Field House. The score when the final whistle blew was 41-27.

The boys of the Blue and Gold got off to a very slow start, and the first period ended with the score tied at 7-7. However, they found the range in the second period, and left the floor at half-time with a commanding 17-14 lead.

The second half found the Delaware five picking up where they left off in the second quarter. With Bob Kirkland sinking them from all corners, and Scotty Duncan playing his excellent "Floor Game" the Blue Hens coasted to an easy victory over the weak Haverford five.

Bob Kirkland was the leading scorer for the Blue Hens with 13 points. He was followed by Phil Neff who scored 10. Chuck Johnson topped the Haverford five with 8 points.

The cheerleaders did a fine job leading the Delaware rooting section, enabling the team to show more fight and spirit due to the backing of the student body.

Brown Hall Third Floor Defeats Annex Five, 21-17

In a hard, if not too skillfully, fought game played in the Field House on Thursday, January 10, at 8:00 p. m., the Brown Hall Third Floor basketball team defeated the Annex five by a score of 21-17. Fine spirit was shown by both teams, and by the rooting section (mostly students from the lower campus).

Box score:

Brown Hall	FG.	F.	Pts.
Miller, g.	2	0	4
Colona, c.	1	0	2
Palmer, g.	3	0	6
Groome, f.	1	2	4

Blue Hens to Meet Three Conference Foes This Week

The Delaware courtmen will journey to Ursinus tonight, and hope to keep their undefeated record in the Middle-Atlantic Conference. Ursinus is rated one of the top teams in the Conference, and the contest should be one of the best of the season.

On Friday night, the Blue Hen five will meet Swarthmore again, this time on the Garnet floor. In the last meeting our boys took Swarthmore's measure by 14 points, and we think they can do it again.

On Saturday night the boys return for a home engagement with Pennsylvania Military College, in the Field House at 8 p. m. This week's schedule will provide plenty of excitement for Delaware fans and it is a real test for the fellows on the squad. Let's give them all the support we can.

vide plenty of excitement for Delaware fans and it is a real test for the fellows on the squad. Let's give them all the support we can.

Mid-Atlantic States Conference

Standings	Won	Lost	Pct.
Section Two			
Delaware	2	0	1.000
Ursinus	1	1	.500
Swarthmore	1	1	.500
Drexel	0	0	.000
P. M. C.	0	1	.000
Haverford	0	1	.000

Schedule for the Week

Jan. 16—Delaware at Ursinus.
Swarthmore at Haverford.
Jan. 18—Delaware at Swarthmore.
Jan. 19—P. M. C. at Delaware.
Haverford at Ursinus.

FOLLOW THE TEAM!!

The Women's Student Council will provide buses for all University students, men and women, who would like transportation to and from the Delaware-Swarthmore basketball game, this Friday, January 18. If you intend to go by bus, sign any one of the lists on Dean Crawford's bulletin board, in the Commuters' Room, Robinson Hall, or the door of the post office of University Hall by Thursday noon at the latest. The trip will be free of charge, and buses will leave the west side of Warner Hall at 6:30 p. m.

Responsibility Of Student Stressed At A & S Meeting

Liberal Education Outlined by Dr. F. H. Squire, Dean of A & S

Dr. Francis H. Squire, dean of the School of Arts and Sciences, outlined briefly the meaning of a liberal education at a meeting of the A & S students held on Monday, January 14, in Wolf Hall. Dr. Squire was introduced by Dr. W. Owen Sypherd, acting president of the University, who explained the past functioning of the Arts and Science School before it was recently consolidated under Dr. Squire.

The responsibility of the student during the process of education provided the first topic for Dr. Squire's address. He said that it is the student's own responsibility to conduct himself, on campus and off, with a certain degree of maturity, thus casting a favorable reflection on himself and the University as a whole.

Next he spoke of the enriching value of College Hour. In effect, he declared that College Hour is solely designed to help broaden and enrich the student's experience while in college. He expressed strongly the hope that in the future more students will take advantage of this opportunity by attending these programs regularly.

Then he pointed out that extra-curricular activities, such as dramatics, student publications, student government, and sports, should supplement the regular classwork of the student.

T. D. Mylrea

(Continued From Page One)

and the accuracy of various types of sights by which the pilot guided his plane to the target.

Another of Prof. Mylrea's proposals was advantageously utilized in the recording of the release and impact points of the rockets fired. This was done expertly by direct observation, and gave an accuracy within 2 or 3% of that obtained by photographs.

After V-E Day Prof. Mylrea and his assistants turned their attention to the war in the Pacific. At this time a device was developed to enable an observer to guide the pilot on a predetermined course by radio, and indicate accurately the time of firing.

The certificate of appreciation awarded to Prof. Mylrea bears the signatures of Robert P. Patterson, Secretary of War; Brehon H. Somervell, Commanding General, ASF; and Lt. General A. E. Campbell, Jr., Chief of Ordnance.

A professor of building construction at the Carnegie Institute of Technology from 1927 to 1934, Professor Mylrea has been head of the C. E. Dept. at the University of Delaware since that time. He was an associate professor in the same department at the University of Illinois from 1922 to 1927, and for fifteen years before was engaged in the design and construction of bridges and buildings.

Since 1939 he has been a member of a continuing committee of the American Concrete Institute, engaged in the rewriting of Building Codes. The regulations drafted by this committee serve as a guide for cities wishing to bring their building codes up to date, and during the last few years they have been adopted by forty of our larger cities.

Prof. Mylrea was born in Liverpool, England, and came to the States while a child. He was graduated from the University of Illinois in 1909 with the degree of B. S. in C. E., and was awarded the professional degree of Civil Engineer by that University in 1922.

He is the author of many articles for various engineering society publications, chiefly on reinforced concrete construction. He is a member of Tau Beta Pi, Sigma, Xi, Phi Kappa Phi, and the American Society of Civil Engineers.

JEWELER & SILVERSMITH

Wilmington, Delaware

Sussex

It seems that every since Christmas Peg Reynolds has had that "starry-eyed and vaguely discontented" feeling; and Katty Ann displays just about the same sentiments every time she looks at that Theta Chi pin . . . Best wishes to you and Gordy, Katty. Sussex is getting a pre-vue of Spring.

Remedy for boredom: Be like Sybil and "Stretch"—hitch-hike from Newark to New Brunswick, see the last few minutes of a basketball game, and if not too tired, come back the same way. Exciting? Ask them.

Seen at the Theta Chi party last week: gadabouts Tawes, Banks, Marshall, McKinstry, Marston, Shipherd, McQuaid, Heinel, and Ewing.

Sigma Nu this week attracted Henri, George, Joan, and Rhodie.

19th Century Painting On View in Library

An exhibit consisting of Museum of Modern Art reproductions of famous examples of Nineteen Century paintings opened last Tuesday in the Art Gallery of the the Memorial. French impressionism seems to be the keynote of the show which will continue until January 22. Such well-known artists as Van Gogh, Gauguin (who is not too well represented), Renoir (who is rather neglected), Cezanne, Degas and surprisingly enough, Winslow Homer are included.

The selections range from Edouard Manet's bright, gay "Boy With a Pipe" to the dark and dramatic "Drama" by Honore Daumier. A typical Degas, "Two Dancers," Van Gogh's "Chestnut Blossoms," a striking, vivid Cezanne, "The Red Waistcoat," and "Summer" by Claude Monet are particularly outstanding.

Interesting comments on the artist, his style and work accompany each work.

TOURISTS ACCOMMODATED.
Bang Bang Club—meets at midnight.

Newcastle Newscast

Confined to the dorm for about seventy solitary hours over the week-end, Black, Swing, Burford, Futterman and Green ended up playing hide-and-go-seek on the third floor. Theme song: "We are five little sheep who have gone astray."

P. S. There is now a padlock and chain on the cellar door to keep said sheep in.

Tish Trainer, Anne Wise, and Louise Dougherty were at the Sigma Nu house party Saturday night.

Gloria DePrisco was entertaining a sailor over the week-end. Potential Edna Best—"Shortie"—has penned another ode . . .

Covering the Campus

—With Bob Bell

Ex-Delaware grid star, Jim Buchanan, is due to return to the campus for the next term after nearly four years in the Marines. Look for him to be calling the plays from the quarterback spot next fall . . . Bill Bodley seen at the Cedar Inn niterie with a Cadet nurse from the Delaware Hosp . . . Russ Newcombe and Jim Mays dating Frannie Pettyjohn and Astrid Delitzsch at the same joint.—Don Reynolds and Dottie McNulty togethaw day in, day out . . . With Anne Stone-metz resigning as Editor-in-Chief of the Review and a couple other big wheels graduating at the end of the term there will be a few changes on the staff . . . Must have been a big attraction at the Delaware-Rutgers game in New Brunswick for three gals and one guy from these parts to hitch-hike all the way up there in time to see the last quarter and arriving back in Newark the next dawning!—Gordon Brewer goes to work for Sun Oil at Marcus

Hook come graduation . . . Barton Lewis jaunted up to Bean Town, Mass., not long ago to check on future plans—not matrimony . . . Dean Crawford seen uptown with a Marine captain.—Basil "Goo Goo" Macknik, eligible for the semi-finals of the John Gold talent search, went to New York for the tryout Monday. Who were the two pretty coeds that tied the door shut at the Field House the night of the Annex-Brown Hall game?—"Rock" Ingram had an ardent rooter at that game in the voice of Joe Skura . . . A local tavern has lost a lot of feminine guests since the autograph book has been added to the place.—Jane Barr's frere visiting the campus over the week-end . . . Heard at a niterie over the week-end: She, "Do twins run in your family?"—He, "No, not until they're about two or three years old!"—Congrats to Col. Duncan for the fine talk at the Bill Hitchens house party at Brown Hall.

Telephones

The Bell System plans an extensive trial of two-way radio in providing telephone service to vehicles in a number of large cities.

Connections with other telephones will be made through the nearest of several receiving and transmitting stations operated by the telephone company. It is generally similar to the existing ship-shore radio telephone service for vessels in coastal and inland waters.

The main job right now is making more telephones available for those who have been waiting for regular service. But as soon as the new equipment can be built the Bell System will begin extending telephone service to vehicles.
