JAMES SPADOLA FOR STATE AUDITOR

Paid for by Spadola for Auditor

EMBRACE the use of data analytics and technology in identifying and preventing fraud. Create partnerships with regional data science companies to combat fraudulent and wasteful spending.

INCREASE the cooperation between legislators, government agencies, and the Auditor's Office. Encourage and assist our legislators and cabinet secretaries with conducting a deep fiscal analysis of government agencies to root out wasteful and inefficient spending. ATTRACT and retain talent by revitalizing and incentivizing the Auditor's Office employees with a "mission first, workers always" culture. Pursue a student loan forgiveness program in exchange for years of service.

MAINTAIN the independence of the office – it is imperative that the "fiscal watchdog" office not be subject to the pressures of the governing political party. In this overwhelmingly Democratic state, the Republican Party should retain this office to maintain vital checks and balances on fraud, waste, and fiscal abuse in this state.
