LEGISLATIVE ADVISORY #58

The following legislation was signed by Governor Thomas R. Carper on the dates indicated: 6/30/94 - HB 475 aab HA 6, 7, 8 & 9. 7/01/94 - HB 627, SB 447, SJR 38, SJR 37, SB 420 & SB 440.

The Governor vetoed the following legislation on the date indicated: 7/01/94 - HB 460 aab HA 3 & SA 1, 5 & 6.

July 1, 1994

To the Members of the House of Representatives of the 137th General Assembly:

On June 21, 1994, I received House Bill Number 460, as amended by House Amendment No. 3 and Senate Amendment Nos. 1, 5 and 6, which is entitled: "AN ACT TO AMEND TITLE 1 OF THE DELAWARE CODE RELATING TO STATE LANGUAGE." I am returning H.B. 460 to the House of Representatives without my signature.

House Bill No. 460 would recognize English as the common language of the State of Delaware and would require that English be used for all public domain records, proceedings, and official acts of the State, including government documents, records, meetings, actions, or policies which are enforceable with the full weight and authority of the State. The bill contains exceptions which permit a government entity to conduct its affairs in languages other than English only under the following circumstances: 1) when federal law imposes contrary provisions; 2) when the public safety, social services, health, or justice require use of other languages; 3) instruction in foreign language courses; 4) instruction designed to aid students with limited English proficiency in a timely transition and integration into Delaware's education system; and 5) the promotion of international commerce or tourism.

Other significant provisions of the bill include the requirements that all state agencies annually report the costs related to the preparation, translation, printing, and recording of documents, records, brochures, pamphlets, flyers, or other information material in languages other than English, and the stipulation that the bill does not infringe on the constitutional rights of citizens, rather than individuals, in their use of language for any private conduct.

Proponents of H.B. 460 believe that recognition of English as the common language is important as a symbol to promote unity. As I have previously stated, I have absolutely no philosophical opposition to an affirmation that English is our common language. Most of our ancestors came to America speaking languages other than English. To succeed here, they had to work hard and they had to learn to speak English.

It is no different today. English is accepted as our common language in America and the sooner that immigrants and refugees learn to speak it, the better for them and for our country. Moreover, I have no quarrel with the established practice that laws, regulations, judicial decisions, and executive orders and proclamations be printed in English. While I am prepared to sign legislation which reiterates that point, I must return H.B. 460 unsigned to the General Assembly.

Unfortunately, a careful review of the bill suggests that it may have consequences that are neither intended nor desired. It is my concern that H.B. 460 may have the effects of denying state services to those residents of this State who are not proficient in English. H.B. 460 will also make it difficult or impossible for these same residents to fulfill their obligations to the State.

Therefore, I find myself presented with a bill that may unintentionally hamper the effectiveness of our government. Under H.B. 460, any state services which do not fall within one of the specified exceptions apparently will be barred from being conducted in languages other than English.

A few examples illustrate the possible problems this prohibition would present. Enactment of H.B. 460 into law would mean the State could not publish tax instruction information or tax forms in another language. In this way, H.B. 460 would have the perverse consequence of making it difficult for individuals with limited proficiency in English to pay their required taxes and would cost the State revenue it is owed.

Under state labor laws, employers are required to post information regarding discrimination, workers' compensation rights, and avenues for assistance with these issues. This information is presently

posted in at least one language in addition to English. H.B. 460 would limit the State's ability to do this, effectively denying the information and assistance to workers with limited English proficiency.

I am also concerned that H.B. 460 would preclude innovative educational programs that will better prepare English-speaking children to compete in a world economy where foreign language skills are increasingly necessary. For example, immersion programs, which have proven effective in teaching students foreign languages by conducting all of their classes in that permitted, since not all the classes in such programs are "foreign language courses" as is required by H.B. 460.

In the short time since the introduction of this legislation in May 1994, and despite the cooperation of the General Assembly in adopting some amendments to the bill, close scrutiny of the bill calls in question the delivery of numerous other state services in languages other than English. These range from the activities at youth drug awareness camps in languages other than English, to the Delaware Commission for Women's pending Spanish publication of a Legal Handbook for Women, to the use of American Sign Language for hearing impaired Delawareans at government functions outside the enumerated exceptions, to the publication of driver's manuals in languages other than English.

Just as important as these examples of foreseeable restrictions on state services are the unforeseeable consequences which may arise from limiting the government's flexibility to communicate with a diverse population. I am concerned that structuring the bill to mandate the use of English for government services, except under enumerated exceptions, is unwise, as it is difficult to anticipate the needs of state government in this area.

Futhermore, I believe all residents of Delaware should have the opportunity to become proficient in English as well as at least one additional language. While English is and will remain the primary language in this state, if Delaware is to maintain and enhance its role in this global economy it is vital that we promote proficiency among Delawareans in other languages. Along these lines, we should provide opportunities for those whose first language is English to acquire proficiency in a foreign language. Similarly, we should provide those who are not native English speakers with adequate opportunities to acquire English proficiency while still maintaining their foreign language skills.

If H.B. 460 simply recognized English as the common language and required our state government to account for the costs of using other languages, I believe that I would support it. However, under H.B. 460, there exists an unacceptable risk that our state government will not do its job as effectively -- or as fairly -- as it should.

This risk is not sufficiently balanced by any substantial benefit to be derived from H.B. 460. The legislation does not provide funding to furnish English language training, nor does it expand the opportunities of non-English speakers to become proficient in English. If I could be confident that H.B. 460 provided some of these benefits and did not spark the other concerns raised herein, I believe that my decision today would be different. Nevertheless, these shortcomings are correctable, and I am asking my legal counsel to work with the bill's sponsors to draft for introduction in the next General Assembly legislation which I can sign into law.

For all of these reasons, I return H.B. 460 to the House of Representatives without my signature.

Sincerely,  
Thomas R. Carper  
Governor

July 15, 1994

To the Members of the House of Representatives  
of the 137th General Assembly:

On July 7, 1994, I received Housed Bill No. 494, entitled: "AN ACT TO AMEND SUBPART D, SUBCHAPTER III, CHAPTER 5, TITLE 11 OF THE DELAWARE CODE RELATING TO THEFT AND RELATED OFFENSES." I am today returning H.B. 494 to the House of Representatives without my signature.

Under present Delaware law, a person is guilty of the crime of theft of rental property if they, in a wrongful manner, intentionally, fraudulently, or by false pretenses, take, destroy, convert, withhold, or appropriate personal property which has been leased, rented, or entrusted to them. If enacted, into law, H.B. 494 would expand this crime by also subjecting a person to prosecution if they simply fail to pay the applicable rental charge within 10 days of receiving notice of the amount due, even if they have returned the rental property. Although H.B. 494 permits the renter to claim a good faith dispute as an affirmative defense to the charge, it requires them to bear the burden of proving this defense.

Stated simply, this legislation criminalizes the late payment of a bill. I believe that such disputes are generally a civil, rather than a criminal matter and are more appropriately dealt with in that arena. To further tax our law enforcement and criminal justice system with the added responsibilities which would result from H.B. 494 would be a poor use of those valuable resources.

Additionally, it appears that this bill contains a drafting flaw which would render at least a portion of the rental theft statute, 11 Del. C. § 849(b), quite difficult to interpret. While the apparent intent of H.B. 494 is to add to section (b) of the statute a third basis on which to presume intent to commit rental theft, H.B. 494 misplaces the new subsection (3) in the statute and therefore fails to accomplish this intent.

For these reasons, I am returning H.B. 494 to the House of Representatives without my signature.

Sincerely,  
Thomas R. Carper  
July 15, 1994

To the Members of the House of Representatives of the 137th General Assembly:

On July 8, 1994, I received House Bill No. 214, as amended by House Amendment No. 1, which is entitled "AN ACT TO AMEND TITLE 13, CHAPTER 5 OF THE DELAWARE CODE RELATING TO SUPPORT." I am returning H.B. 214 to the House of Representatives without my signature.

H.B. 214 excludes from child support determinations any "income or benefits earned as a result of ... any secondary source of income that was not being earned at the time of the original order of support." The purported rationale for this bill is that it enables parents who are under the obligation to pay child support to children from their first marriages to obtain second jobs to support the children from their second marriages.

While the motivation for H.B. 214 may be a well-intentioned desire to provide an incentive for parents under child support orders to increase their work effort to better provide for their children, I believe that this bill is unwise because it diminishes the responsibilities that parents have to all their children, whether those children are the result of their present marital relationship or a prior relationship.

Since I took office, my Administration has focused, with the support of the General Assembly and the Attorney General, on ensuring that all parents -- custodial or noncustodial -- provide financial support for their children. Such financial support is merely one of the many responsibilities parents owe to their children.

I believe that H.B. 214 is inconsistent with our State's emphasis on parental responsibility for the following reasons.

First, I believe that all children should benefit from a parent's increase in income. If any parent in an intact family takes a second job or develops a secondary means of support, the entire family benefits. I see no reason why the same standard should not apply to all children of a parent, regardless of whether the children are from first or second families. Responsibility for a child does not end when a first marriage or relationship does.

Second, by its own terms, H.B. 214 does not only apply to those parents who have children in a second family. Thus, even parents who have not remarried and who have no children from a second family, can get a second job and avoid paying increased child support as a result of the increased earnings.

Third, it is not at all clear that it will always be a simple matter for the courts to determine what is a "secondary" source of income. It is not unheard of for a "second" job (which could include payments as an independent contractor) to be more lucrative than income from a "first" job. Under H.B. 214, children from the first family would be totally excluded from the economic benefits of the second job. It is also possible for a second job to include health benefits when the first job does not. Under H.B. 214, it would be impossible in these circumstances for the children of the first family to obtain a medical child support order, while children from the second family would have access to medical benefits. Thus, H.B. 214 is likely to lead to unfair disparate treatment among children with common parents.

Fourth, to the extent inadequate financial support is provided to the children of non-custodial parents with secondary sources of income because that income is excluded from consideration in determining appropriate child support, it is not only those children who will suffer. Taxpayers will also be affected because society will often have to step in and make up the difference for parents who have not provided adequately for their children, through the provision of medical, welfare, education or other social services.

Finally, the bill does not appear to be necessary since the child support formula, known commonly as the Melson formula, already takes into account the responsibility owned by parents who have primary support obligations for other dependents. What this means is that the children of second families are already recognized as dependents along with the children of the first family. Moreover, I do not believe that we should hamstring the discretion of Family Court judges by removing from their consideration important second sources of income, thereby forcing them to ignore, by operation of H.B. 214, important economic realities that would otherwise be vital in shaping an appropriate child support remedy. While I am sympathetic to the legitimate concerns raised by the advocates of H.B. 214, I believe that these should be addressed by amendments to the Melson formula which could encourage Family Court judges to tailor child support orders to the equities of particular cases, rather than by an amendment which precludes any consideration of income from second jobs.

For all the foregoing reasons, I am returning H.B. 214 to you without my signature.

Sincerely,  
Thomas R. Carper

Chief Clerk of the House of Representatives  
Legislative Hall  
Dover, Delaware 19901  
Dear JoAnn:

Thank you for informing me of the passage of House Concurrent Resolution 56 by the Delaware House of Representatives and Senate of the 137th General Assembly. I am very pleased and supportive of efforts at the state level to put an end to retroactive taxes at the federal level through a Constitutional Amendment.

I have cosponsored a Constitutional Amendment now in the Senate (S.J. Res. 120) that would make any future retroactive tax increase unconstitutional. Congress should clearly not have the power to do this again.

Thank you again for sending me a copy of the Resolution.

Sincerely,  
William V. Roth, Jr.
