Final Carnival Plans---Big Parade On Monday Night

Residents on Main Street Urged to Decorate

Carnival plans are gradually assuming form and everything is being put into readiness for the coming Carnival.

The uniforms for our local boys have arrived and Summer School girls may well look forward to the parade of our Heroes of The Fire. This action of the boys in purchasing their own uniforms rather than take from the Treasury is receiving commendation from all sides. When co-operation and desire for success goes down to the pocket-book, we may well look for great things in civic improvements.

The Firemen's Section of the parade will be marshalled by Lieut. James McKeon of Company E., while the Automobile Section will be guided by Newark's Master of The Wheel, A. F. Fader.

Although the Committee on Arrangements are reluctant to give to the public, just yet, the list of drawing attractions, having some striking surprises in store, it became known today that Mrs. Jane Murray, Fireman and Newark's friend, has consented to sing during the Carnival. Mrs. Murray is now under signed contract in theatrical work but has made this provision in favor of her friends, the Fire Boys.

If reports count for anything

and they usually do with this Committee, the Fourth of July attractions will far surpass anything ever presented to the people of this community. All arrangements are complete for the fireworks and New Castle County is invited to come see the magic of "powder busting" in scientific prescriptions.

The Summer School students will have an added attraction in seeing Newark in Carnival array and it is hoped on the part of our young people to make them feel at home.

An invitation has been extended to the Boy Scouts who will provide some feature of the entertainment on the ground.

Merchants and residents of Newark are urged to decorate their stores and homes, to give the town a gala appearance and a welcome to the thousands of visitors expected during the week.

The town electricians are now busy wiring the Academy grounds which have proven such a splendid location for the last two years and a corps of volunteers will raise the tents on Friday. Every fireman is positive in his declaration that the 1913 Carnival will be larger greater and better than those of previous years.

SEWER BIDS OPENED

Jacobs \$875 Below The Next Lowest Bidder

At a meeting of the Newark Sewer Commission at noon today bids were opened for building the system of sewers and disposal plant. There were four bidders and all of them were under the estimated cost of the disposal plant. The bids for building the sewers were referred to Engineer T. Chalkley Hatton, to tabulate and report back to the Commission at 4 o'clock this afternoon. The bids as opened were as follows:

Lynwood B. Jacobs of Newark—

Disposal Plant, \$12,380.

12 in. pipe, 4 to 6 ft. deep, .93 5-10 per ft.; 6 to 8 ft., \$1.10; 8 to 10, \$1.26 5-10; 10 to 12, \$1.43; 12 to 14, \$1.65; 14 to 16, \$1.87; 16 to 18, \$2.09; 18 to 20, \$2.42; 20 to 22, \$2.75; 10 in. pipe, up to 4 ft. deep, .77 per ft.; 4 to 6, .82 1-2; 6 to 8, .93 1-2; 8 to 10, \$1.10; 10 to 12, \$1.32; 12 to 14, \$1.54; 14 to 16, \$1.76; 8 in. pipe, up to 4 ft. deep, .60 1-2 per ft.; 4 to 6, .66; 6 to 8, .77; 8 to 10, .93 1-2; 10 to 12, 1.15 1-2; 12 to 14, 1.37 1-2.

One pump well, \$1,812; Y branch on 12 in. pipe, \$1.50; 10 in., \$1.15; and 8 in. 80 cents; verticle foot man-hole, \$4.50; man-hole frame and cover \$10; single flush tanks, 63 cents; double tanks, \$1; rock excavations, \$5 cubic yard; flush tank frame and cover, \$10 each; lamp hole frame and cover complete, \$18 each; 5-inch terra cotta pipe house connections, 82 1-2 cents per foot.

M. & J. E. Farra, West Chester—

Disposal Plant, \$13,574.

12-inch pipe same depth as Jacobs bid on, \$1, \$1.20, \$1.50, \$1.90, \$2.25, \$2.75, \$3.50, \$4.50, and \$6; 10-in. .70, .80, \$1.15, \$1.40, \$1.80, \$2.15 and \$2.70; 8-in., .55, .70, \$1.05, \$1.30, \$1.70 and \$2. One pump well, \$1,500; Y branch, 12-in., \$6; 10-in., \$3.30; and 8-in., \$3; verticle feet of man-holes, \$7.50 each; man-hole frame and cover, \$12.50 each; galvanized catch buckets, \$2.50 each; single flush tanks, \$1.25; double, \$1.75; rock excavations \$4 cubic yard; flush tanks, frame and cover, \$15; lamp hole frame

(continued on page 5)

STATE MILITARY BOARD VISITS NEWARK

Armory Site Not Yet Decided Upon

Governor Charles R. Miller, Adjutant General I. Percy Wickes and State Treasures Charles A. Hastings, members of the State Military Commission met on Monday with local members of the Board of Trade, and the officers of Co. E to consider the selection of a site for the new Armory.

The last session of the Legislature appropriated \$15,000 for the erection of such a building.

Local military men had hoped to secure the ground in the rear of the Academy. The trustees of that institution held a meeting following the inspection on Monday when a vote was taken. Messrs. Evans, Hossinger and Dr. Kollock voting to grant the use of the land, the remaining six members of the Board voting against it.

The amount appropriated in the bill did not include an expenditure for land, and it is expected the public spirited men of Newark will get together and make some provision for the placing of the building. The Military Board inspected several other sites on Monday but owing to the uncertainty of the situation no definite action was possible.

It is understood the Military Board will hold another meeting on Saturday of this week when the site will probably be agreed upon. Should the site be selected at that time the erection of the building will begin at once. Any further delay will most likely mean that the building will not be completed this season.

RETURNS FROM FESTIVAL PLEASING

Crowds Attend In Spite Of Bad Weather

The Bazaar held on the grounds adjoining the church by the ladies of St. John's R. C. Parish promises to go on record as a pronounced financial success, in spite of the rainy weather that prevailed during the latter part of the week.

Excellent programs were rendered at the entertainment tent, when moving pictures were varied with instrumental and vocal solos, by Messrs. Ryan and Howley of Chester, Mrs. Anna Armstrong of St. Georges and Misses Elizabeth and Katharine Bonner, Philadelphia.

Numerous articles were chanced off, among the winners being the following: Mr. Jacob Thomas, 85 gold piece; Mr. W. J. McAvoy, rocking chair; Mr. B. J. Blest, sofa cushion; Mr. George Holton, locket and chain; Mrs. Jacob Thomas and Miss Mary O'Donnell, rocking chairs; Mr. Doring and G. W. Rhodes, cubes; Miss May Lovett, doll; Mr. Harrison, bureau set.

It is believed the proceeds will exceed seven hundred dollars.

Band Concert Popular

An open-air concert was given by the Monmouth band at the Washington House on Monday evening and was much enjoyed by the crowd that gathered around. The boys and girls and a series of concerts during the summer should prove very popular. A suitable band stand would add greatly to the comfort of the players and afford better facilities for hearing to the audience.

CHAMBER OF COMMERCE ENTERTAINS EDITORS AT HOTEL DU PONT--BIG SUCCESS

NEEDS OF PENINSULA DISCUSSED--CO-OPERATION THE KEYNOTE--ORGANIZATION OF DELMARVIA PRESS ASSOCIATION

The visit of the Peninsula Editors, as the guests of the Chamber of Commerce of Wilmington was a success, and it is the general opinion that it is but the beginning of a closer relationship of the tri-state communities.

Judge Gray, toastmaster at the banquet sounded the keynote when he emphasized that geographically the residents of the Delmarvia peninsula are one common people, and that state lines can in no way separate the traditions, the ambitions and the hopes of this peninsula, if not this state community.

In response to an invitation sent out by the Chamber of Commerce, fifty-one rural editors from all points on the peninsula met in Wilmington on Monday afternoon, that they might know each other better socially and sense a definite plan for greater things for the Garden of the East. At the depots and hotel members of the Chamber of Commerce and city newspaper men were modern Beau Brummels in receiving the guests. Each editor was given a badge attached with key pin which gave him the freedom of the city. To be so labeled meant that your bill was already paid. Strange as it may seem the editors were alive to the situation and wandered through the lobbies of the hotel with a truly metropolitan air. Something doing all the time with "you first, Gaston, always."

The editors were scarcely recovered from the dazzling elegance of their own Hotel DuPont when they were whisked away in Packards, Pierce Arrows and Peerless, through manufacturing sections, residential parts, historic scenes and Brandywine parks, only to return to another welcome more gracious and pleasing than the first.

As it should have been, the banquet on Monday evening, was the striking feature. The hall was decorated with shields representing the different publications and at each plate was a copy of the initial publication of the Peninsula Press, edited by John Hamilton. Far be it from any rural paper reported to describe the menu. Suffice to say it was a Delaware dinner, served in true Bullwinkle style.

Josiah Marvel, president of the Chamber of Commerce made the opening address and in his usual happy and sincere style stated the idea of the meeting, and thereafter the whole tone was truly Mar-

velian.

Judge Gray was introduced as toastmaster, and not in recent years has any Delawarean received the ovation that was accorded him. State lines, party lines, differences of opinion, political ideas all gave way in wholehearted tribute to Delaware's honors.

Toasts were responded to: New Castle County, by the cub of The Post; Kent county, A. D. Magee; Sussex county, Robert G. Houston; Eastern Shore, H. L. Brewington; Virginia, S. F. Rogers. The opinion expressed by the speakers was that the thing most needed for the efficiency of better life, bigger business and future development of the Peninsula is merely a hearty, systematic co-operation of communities represented. Avoiding the usual banquet compliments the meeting assumed an aspect of business. It was straightforward talk and Wilmington was criticised kindly but none the less pertinently, and opinions were graciously received. Every guest more than ever recognized Wilmington as the natural

and logical clearing house for Delmarvia, and pledges ran rampant that it was the intent of every editor to lend a little more energy in playing his part for the culmination of this ideal into a fact.

Tuesday morning—and the courtesies and kindness of the host were in no sense exhausted. Breakfast in charge of Carter, Metten, Jones and Hallam, and the leadership from the guiding star Bell. Another trip in and around the city was taken. Among the pleasing features of this trip was the visit to Farnhurst where the visitors were welcomed by Dr. Harker. In parenthesis it may be said that no Delawarean has done his full duty until he has visited this wonderful institution, and seen the care and efficient management which is there in practice.

By arrangement and the courtesy of Chancellor Curtis Old Swedes Church was visited, and most interesting it was to all. Points of interest and sketch of its history were pointed out by the Chancellor. With keen sense of pride the Chancellor gave the information that Old Swedes is the oldest church in the United States in which public worship is still being held.

After returning to the hotel for lunch the editors began to prepare for their departure to the old country desk, each carrying a bottle (of ink) from the depths of editorial love for good old Wilmington, more respect for her editors, more confidence in her business men, more appreciation of her possibilities. And yet the story is here ill-told, but Wilmington is a jolly good fellow.

Large Attendance at Delaware College Summer School

Combined Enrollment of Classes 426

In conformity with the act passed by the last Legislature, the first Summer School ever held at Delaware College opened on Tuesday with one hundred thirty-nine pupils enrolled. Many of those who have registered are young people just graduated from the high schools who are preparing to teach in the fall. The number includes pupils from Maryland several from Pennsylvania, while the three counties of Delaware are well represented.

The boarding houses of Newark are filled with these summer guests, and two of the fraternity houses have been opened to the girls—the Sigma Phi Epsilon, chaperoned by Miss Alice Harvey of Wilmington, and the Kappa Alpha by Miss Kathleen Moore of Wilmington.

The new Commissioner of Education, Dr. Charles A. Wagner, is present and in direct touch with the teachers. He will conduct classes in psychology and school management throughout the five weeks session.

The subjects selected by those enrolled indicate that the idea is serious work, rather than a pleasant outing at the State College. The most popular classes are those in methods, grammar and composition, arithmetic and agriculture.

The enrollment is increasing daily and is expected to reach 200 by Saturday. A list of those already registered follows.

From Newark—Miss Helen S. Barkley, Miss Ethel D. Campbell, Miss Ella Crow, Wilson Daniel, Miss Elsie E. Davis, James Me Heinel, Miss Mary S. Hoffecker, Arthur S. Houchin, Jr., Miss Helen S. Jaquette, Mrs. Louise Staten Johnson, A. M. Mackey, Frank Mackey, Miss Agnes P. Medill, Miss Angie B. Perkins, Miss M. Jennie Raub, Miss Edith A. Robinson, Miss Louise R. Swayne, Jacob J. Tannenhaus, A. Bailey Thomas and Miss Virginia T. Warren.

Wilmington, Miss Elsie A. Eckman, Miss Alice Rhoda Harvey, Miss Lydia W. Lloyd, Miss Alice K. Mason, Miss Kathleen Moore, Miss Sara M. Newman, Miss Anna P. Newman.

Nevada B. Alrichs, Summit Bridge; Anna G. Arrants, Northeast, Md.; Carrie W. Aydelott, Frankford; Blanch Baker, Stockly; Lulu S. Baker, Delmar; Arta Baker, Harrington; Nellie K. Benson, Dagsboro; Helen E. Benson, Laurel; Maud Blackstone, Millsboro; Martha L. Bryan, Laurel; Isadora A. Bradley, Porters; Beatrice Carlisle, Maryland; Lillian Carson, Dover; Hannah M. Clark-

son, Harrington; Leland D. Clements, Dover; Alice B. Collins, Townsend; Cecilia M. Corbett, Delaware City; M. Frances Cook, Frederica; Mary E. Cornelius, Townsend; Ruth M. Crothers, Nottingham; Pa; Michla C. Davidson, Harbeson; Martin Daisey, Ocean View; Mary Davis, Bridgeville; Mrs. Bessie F. Davis, Dover; Emily D. Deitrich, Houston; Elsie M. Derickson, Ocean View; Grace Dill, Felton; Margaret Drysdale, Dover; J. Harold Dobson, Millsboro; Mabel U. Emory, Houston; Alice Downing Evans, Ocean View; Sadie W. Evans, Ocean View; Lillian Frazier, Felton; Flora E. Green, Wyoming; Lillian Hammond, Felton; Myrtle L. Hanson, Harrington; Maude Hickman, Ocean View; Ralph A. Hollis, Greenwood; Mabel E. Hope, Delaware City; M. Pauline Huey, Seaford; Frances Ruth Hummel, Houston; Marguerite Jackson, Harrington; Victoria G. Janney, Cherry Hill, Md.; Otis P. Jefferson, Millford; Tighman S. Johnson, Solbyville; Mary L. Johnson, Clayton; Ronald G. Jones, Harrington; Selma Jones, Greenwood; Laura E. King, Millsboro; Bertha Leccates and Samuel S. Leccates of Laurel; Anna Lister, Felton; Virginia Lyons, Greenwood; Mary R. Lyman, Newport; Mary T. Mabrey, Clayton; Caleb L. McCabe, Jr., Selbyville; Vernon McCabe, Ocean View; Anna McKitt, Felton; Julia Mc Mullin, Porters; Nellie G. Matthews, Bridgeville; Clara T. Mears Milton; Elva V. Mitchell, Laurel; Fannie D. Morris, Dover; Mary R. Moss, Porters; Florence Phillips, Ocean View; Mamie E. Pollitt, Delmar; Nellie Prendiville, Bethel; Lena Prettyman, Greenwood; Lillian Proud, Montelmaun; Evelyn E. Reed, Doyers; Olive Reed, Harrington; Norah L. Robinson, Middletown; V. M. Rodney, Millsboro; Pearl D. Roland, Viola; Sylvia Saltrauck, Fort du Pont; Isabel Alden Scott, Elkton; Elizabeth Shepard, Millford; Mabel Spence, Bridgeville; Hester A. Sperry, Frederica; Etta Smith, Laurel; Elizabeth A. Staats, Townsend; Lulu Stanton, Dover; W. D. Steen, Dagsboro; Bertha Tatman, Farmington; Florence Teague, Georgetown; Florence Timmons, Dagsboro; G. Reese Truitt, Seaford; Margaret Watt, Felton; Otis West, Millsboro; Elizabeth White, Rising Sun, Md.; Raymond W. White, Delmar; Thomas Moore Whitman, Delaware City; Florence W. Wilson, Northeast, Md.; Estelle Sweetman, Chestertown, Md.

CHURCH NOTES

Next Sunday will be observed as Fathers' Day in the M. E. Church. A special sermon will be preached in the morning.

Twilight Services will commence at the M. E. Church on next Sunday evening, from 7 to 8, combining the Christian Endeavor and preaching services and will consist in great part of singing. The services will continue throughout July and August.

The Ladies Improvement Society of White Clay Creek Church will hold their annual lawn fete on the spacious grounds of Mr. Leslie Derickson, Milltown, near Stanton, on Monday evening, July 21. If stormy on that evening, it will be held on the following night. A most cordial invitation is extended to all.

New Organ To Be Installed

The contract for the purchase and installation of a new pipe organ in the M. E. Church was signed last week by Prof. C. A. Short, president of the Board of Trustees, with the Brown Organ Co. of Wilmington. After a thorough investigation of the merits of several makes, the Organ Committee decided on the Brown, a number of which make are in use in churches in Wilmington. The new organ will be installed about the middle of September or beginning of October.

OBITUARY

JOHN SORETH
John Soreth, aged 85 years, well known resident near Cooch's Bridge, died on Thursday, June 19. Requiem high mass was celebrated at St. John's R. C. Church on Monday at 9 o'clock. Interment in St. John's Cemetery.

DESTRUCTION OF HOUSEHOLD INSECTS

After numerous inquiries regarding the destruction of pests that annoy us during the summer months, the publication of a few of the simpler methods of destroying these too familiar insects, I believe, would be timely and save answering by letter the numerous requests for relief.

Until comparatively recently, insects were looked upon as pests, and their association with human beings and other animals was regretted but seldom dreaded.

Evidence has clearly shown that many varieties produce annoyance, but the majority are capable of aiding in the dissemination of disease.

The possible methods by which disease may be disseminated in this manner can be classed under three general headings.

First: Insects carrying from place to place diseases producing micro-organisms which have been collected upon their bodies and limbs by alighting upon wounds, decomposing foodstuffs and other infected materials, and then re-lighting upon other surfaces.

Second: Insects may carry with in their bodies germs of disease which have entered with their food and these may subsequently be deposited elsewhere by means of the insects' discharges.

Third: There are classes of insects which by means of biting and drawing blood, transmit dangerous parasites to the animal which receives this bite.

The first principle to be considered and the one which most effectively prevents the presence of insects, is the establishing of all features which promote cleanliness. With a lack of accumulation of filth and dirt but few insects will exist. These principles vary as regards the species, but in a general way, it is the accumulation of waste with lack of fresh air and sunlight and a more or less abundance of moisture that makes the existence of insects possible.

FLIES.

This class of insects is probably the most common during the summer months. Of this class there are many varieties, the most common being the stable fly and the house fly, each of which has distinctive characteristics.

These insects propagate with great rapidity, their common breeding places being manure piles, garbage or any accumulation of filth. With the maintenance of any amount of this material on the premises it is impossible to prevent the presence of flies.

Therefore the first precaution must be the removal of such waste. Manure piles must not be allowed, and all garbage and other waste placed in receptacles with fly trap covers. Other methods, such as scrubbing of all windows and doors, the use of sticky fly paper and fly traps will assist. Under special conditions, such for instance as in bakeries, stores, meat shops, etc., where foods are more or less exposed, the placing of automatically operated fans directly over the tables will prevent fly congregation.

A solution sometimes used and placed about the rooms in cups is one made by taking a tablespoonful of formaldehyde to every pint of sweetened milk and water. This method is worthy of a trial.

COCKROACHES.

Roaches are a most common and offensive insect and, like the fly, are of many varieties. In the household, they are usually most abundant in pantries and kitchens, in the neighborhood of the fireplace and crevices near the floor; they feed almost entirely on dead animal matter, certain cereals, and other similar products.

After a thorough use of insect powder, the roaches will be numbered and must be brushed up and subsequently burned.

MOSQUITOES.

There are many varieties of this insect, but they all have one common breeding place, and that is in water which has become more or less stagnant. Without the presence of swamps, ponds, pools, marshes, rain barrels, etc., mosquitoes will not exist. No amount of stagnant water is too small, and a pool of rainwater in the cellar or along the roadside furnishes an excellent breeding place.

The first principles in their prevention is the draining of all surfaces where moisture can remain. In the event of the inability to accomplish this feature, covering of the surface of the water with crude oil will prevent the propagation of mosquitoes.

The proper screening of houses and the burning of insect powder are other methods of combating these insects.

FLEAS.

There are many varieties of this insect, and when a household becomes infested it is a difficult pest to combat. They develop in dust in cracks and crevices of the floors, in undisturbed overhangings, and the fur of animals.

A thorough fumigation with sulphur often assists in removing the pests. When fleas are abundant, the only possible means of exterminating them is by the removal of all furniture and overhangings, thorough washing of all floors around the baseboard, etc., with a solution of hot soapuds to which a small amount of coal oil has been added, and the after fumigation of the premises by burning sulphur.

It is one of the most difficult of the insect pests to combat, and every infested household will constitute a problem unto itself.

BED BUGS.

This disgusting parasite as its name implies, most frequently occupies portions of the bed frames or bedding. On account of its habits of concealment it is sometimes difficult to exterminate. Where present, all cracks and crevices should receive a liberal application of kerosene oil, followed by a subsequent fumigation of the room by sulphur. Energetic applications of this procedure will effectually exterminate this pest.

Various bed bug mixtures on the market are not only of limited value, but are dangerous in application. It is a peculiar feature that the presence of cockroaches is seldom associated with bed bugs, the latter being an enemy of the former pest.

MOTHS.

There are many varieties of this insect, the most common being the clothing moth, the destructive work of this insect being familiar to everyone. In a general way, moths will survive only in unlighted, poorly ventilated portions of the household. Fabrics that are in constant use and exposed to sunlight and air are rarely infested. The thorough airing and brushing of all materials every twenty-one (21) days will prevent the destructive work of this pest.

The storing of fabrics in tightly sealed paper bags will usually protect the articles. The fumes of formaldehyde gas in no way limits the ravages of insects. In small apartments sulphur fumigation will assist and the spraying of clothing with 2 per cent solution of carbolic acid in equal parts of alcohol and benzine will kill the larvae. For furs, the placing in cold storage is the most certain protection. In general, frequent brushings of garments and subsequent airing are effective means of preservation.

ANTS.

There are many varieties of this insect, and the only means of destruction of the nests. When ants once gain entrance to a household, their extermination can be accomplished only with great difficulty. Disulphide of carbon poured in their nests will be effective. Be careful of fire with the disulphide of carbon as it is very explosive. Where the nests of the ants can not be found there is little hope of their eradication.

REMEDIES-INSECT POWDERS

These powders are usually one of three distinctive classes: the most common and best being those known as Dalmation and Pyrethrum Roseum. These powders can be used in two different ways: first, by dusting about the vicinity occupied by the insects; second, by burning.

Both powders to be effective must be fresh and made from the unopened leaves of the plants. Pyrethrum Powder should be of a brownish color and never a bright yellow.

For burning, the rooms must be made practically air-tight and sufficient powder used upon the surface of red hot coals to cause a decided smudge.

A convenient form of pastile is made by mixing a small amount of potassium nitrate in mullage and incorporating the insect powder in amount sufficient to cause a moulding of the mixture into cones. When the mixture becomes dry it will readily ignite with the use of a match.

SULPHUR FUMES.

The most convenient method of applying this remedy is by the use of sulphur candles, and for effective results, a pound should be used for every 1000 cubic feet of room space. Moisture in the form of vapor will increase the effectiveness of the procedure, and a convenient method is the placing of a hot brick in a pail of water, causing the generation of steam.

The fumes of the burning sul-

phur are destructive to metallic surfaces and delicate fabrics; and rooms in which it is applied should be closed for at least six hours; after which they should be thoroughly dried. All precautions should be taken against fire while burning sulphur.

Herbert James Watson.

Here and There

Mrs. Mary E. Mitchell, wife of W. Arthur Mitchell, died at the home of her daughter, Mrs. Alfred Taylor, on East Main street, Elkton, on Thursday of diabetes, aged 55 years. Her husband, daughter, Mrs. Taylor, a son, Henry H. Mitchell, two brothers, Clarence and A. B. Walmsley and three sisters, Mrs. S. J. Weiser, Mrs. Frank J. Murphy and Mrs. George R. Ash survive her. Her funeral was held on Sunday from "Dolly Hall," Mrs. Ash's residence near Elkton, with interment in Elkton Cemetery.

BALL PLAYER APPOINTED POSTMASTER

J. D. Moore, president of the Tri-County Baseball League has been appointed postmaster at Oxford, Pa. The office pays \$2,000 a year.

J. Frank Blake of Childs, and Jere C. Price of Singery, will seek nomination for County Commissioner at the coming Democratic primaries in Cecil. Former States Attorney J. Wilson Squier will enter the race for State Senator.

Charles Gatchell of Singery and bride, Miss Naomi Vandegrift of Zion, while taking a drive on their recent honeymoon trip had an exciting experience when their horse,

scared by an automobile, ran away wrecking their carriage.

BIG TIMOTHY

A field of timothy on George M. Campbell's farm, near Iron Hill Station, has a growth of 5 feet in height and uniformly thick over its whole area.

Nitrate of soda washed by heavy rains from a neighbor's land upon pastures of J. S. Wolf near Zion, Md., caused the death of several of the latter's cows.

Despondent over the loss of money, Thomas Morris of upper Principe, Cecil county, 55 years old, took a dose of Paris green, one day last week, and, despite the efforts of his physician, died the next morning. He left a wife and six children.

Ira Biddle, youngest son of Jacob Biddle of Elkton, a brakeman on the Reading Railroad, was run down and killed on Wednesday evening at Linwood, on the P. B. & W. R. R. by a train which he supposed was one on which his brother William Biddle is engineer, and expected to keep on the main track.

Instead, it backed on a siding on which young Biddle was standing and caught him unawares. He was 22 years of age and married less than a year ago to Miss Taylor of Chester, who survives him. Interment was made in Elkton Cemetery on Friday.

Andrew J. Buckman of Seaford charged with selling liquor without Government license, was brought from Salisbury, Md., to Wilmington last week by Deputy U. S. Marshal Zimmerman of Baltimore. He was tried before Judge Bradford and given two months at Greenbank with a fine of \$250.

The Summer School for Teachers at Delaware College

Will begin Tuesday, June 24, 1913, and will be open five weeks.

Monday June 23 is registration day and all are urged to be present on that date so that arrangements may be made to begin work on Tuesday morning. A bulletin will be published as soon as the courses are arranged, giving full particulars of courses, instructors, text-books, board, accommodations, etc. Tuition is free to all students.

Geo. A. Harter, Director of Summer School President of Delaware College

Printer's ink won't make the car go. There's only one reason why 200,000 new Ford's can't possibly satisfy this seasons demand. The car itself is right with a rightness that is unmatched anywhere at any reasonable price.

Our great factory has produced nearly a quarter of a million Model T's. Prices: Runabout, \$525; Touring Car, \$600; Town Car, \$800—f. o. b. Detroit with all equipment. For particulars get "Ford Times"—an interesting automobile magazine. It's free—from Detroit factory. Ford Motor Company, 1444 Michigan Ave., Chicago.

THE WISCONSIN IDEA

REPORT OF PROF. H. HAYWARD TO BOARD OF TRUSTEES OF DELAWARE COLLEGE

The trip to Wisconsin made by the City Club of Philadelphia was undertaken largely for the purpose of finding a satisfactory answer to the question, "What is the Wisconsin Idea?"

The University of Wisconsin has the reputation of being a model institution. A model in that it not only is doing all that is generally recognized as belonging to a University to do, but also that which is considered even more important, its remarkable extension work. This carries to all parts of the state the information which a large, well-trained, and well-paid faculty has collected from all sources and upon almost innumerable topics, systematized and arranged so that it is available to everyone desiring it. In this way the University has extended its campus to the boundaries of the state.

The work of extension has been so successful that it has attracted nation-wide attention, and it was to see this particular phase of the varied efforts of the University of Wisconsin that the City Club of Philadelphia arranged for a special train for the trip, and invited representatives of a number of eastern cities and colleges to accompany them on this pilgrimage.

The details of the trip were perfect in their arrangement. The train left Philadelphia at 7 p. m., Tuesday, May 20th, and arrived at Madison at 7:30 p. m. Wednesday. The program was full, starting at 8 p. m. on Wednesday and closing late Saturday night. It seemed that the University and the citizens vied with each other in seeing who could do the most for the pilgrims.

Upon their arrival, a reception by the Governor was held at the State House, after which the party assembled in the House of Representatives, where they were welcomed by Governor MacGovern and President Van Hise of the University. After this Mayor Williams of Ashland was introduced, and told in an impressive manner how the University Municipal Reference Bureau had helped his city in many ways to organize a modern city government. Most of the cities of Wisconsin are small, he said, and the officials are usually inexperienced. As they cannot afford to hire experts, they have had as a guide only the experience of others who were groping in the dark. So the need had been felt for a long time for some sort of guides, and the University, desiring to be of help, established, three years ago, the Municipal Reference Bureau which loans expert aid to cities, particularly in the installation and management of utilities.

The next speaker was Mr. A. S. Lindeman of Milwaukee, speaking for the manufacturers of the city. "The manufacturers of Milwaukee thoroughly approve of the extension movement," he said, "and are gratified with the results. It is the open door to the University for the whole people."

The next speaker, Ben F. Faust, explained how the University had aided in colonizing the burnt-over lands in the northern part of the state, and how it had started the immigrants on the right road in the selection of their town sites, the laying out of roads, the kind of crops to grow, and the organization of their schools and churches. The speaker, a public promoter, had used the resources of the University for the welfare of these people, and told how this had aided in preventing their being preyed upon by unscrupulous persons.

President L. D. Harvey of the Stout Manual Training School spoke of the way in which the University had aided in the establishment of the secondary schools of agriculture and domestic science. These schools lean upon the University for aid in establishing and carrying on their work in new communities.

The last speaker of the evening was Hon. W. H. Hatton, who told

from personal experience how the University aided the Legislature in the discharge of its duties in the General Assembly. Nearly every phase of possible service was discussed by someone who had had an opportunity of being helped in actual work by the efforts of the extension department.

The next morning the party gathered in the main hall of the University to hear, at first hand, of the work of the extension department.

The first speaker, Dean Reber, formerly of Pennsylvania State College, who organized the work and who has been the chief source of inspiration in it, explained that the university had district representatives in various parts of the state, who represented it in their particular fields. They were advance guards. They study the needs of the community and advise the University how it can be best served. By knowing the particular need of any community, the University is able to respond in an effective manner, which is most acceptable and satisfactory to all. Dean Reber then called upon the heads of the various departments of the Extension Division to tell of their own relation to the work.

Prof. Lighty of the Correspondence Courses said, in part, that before the organization of his department, five million dollars were annually carried out of the state by the commercial correspondence schools. Only 3 per cent of those who started a correspondence course finished it, thus showing the great financial loss to the state. As organized at present, his work was carried on largely by correspondence, but where there were enough students in one locality to warrant the expense, an instructor visited regularly these centers and conducted classes, reviewing the work done by correspondence as well as advanced work; thus making it more effective than the usual correspondence course. This makes it possible to study for University credit and thus shorten materially one's residence at the University, where work is being done for a degree.

When this work was started, many instructors doubted its success. Subsequent events have proven, however, that a student who has taken part of his course by correspondence does just as well in the University as one who has spent his entire study period in residence. As a matter of fact comparatively few study for University credit by correspondence, as the majority take courses giving the most general information and vocational help.

This work has been in progress sometime, and its success is indicated by the fact that the total active registration January 15, 1913, was 5,896. Courses in the following subjects are given by correspondence: Astronomy, Bacteriology and Hygiene, Botany, Business, Chemistry, Education, Electrical Engineering, English, French, Gardening, Geology and Mineralogy, German, Greek, Hebrew, Italian, Latin, Mathematics, Mechanical Drawing, Mechanical Engineering, Music, Pharmacy, Philosophy, Constructional Engineering, Physics, Political Economy, Spanish, Political Science and Surveying.

These courses are provided on the fee basis, but the fee is so small that it pays only in part for the cost of the instructor's time. A large part of the text used is prepared by the faculty of the extension division, and absorbs most of the energies of the persons so engaged. It is worthy of note that the correspondence courses are parallel in their thoroughness and intrinsic value with those given in residence. Correspondence is adult education. It is more difficult to give instruction in that way than it is in residence. But the correspondence and other forms of extension work is an effort well worth

(continued on page 6)

JUNE 25, 1913

DINNER TO THE EDITORS

Wilmington, by unanimous vote, has been named the Clearing House for the Delmarva Peninsula. Pledged with the approval, is the support of the rural newspapers of tri-State communities. That Wilmington and the rural sections have better understanding and appreciation of their relationship and interests has been expressed in no uncertain terms. Nor do we believe that this was based on mere sense of social good fellowship. Though the social feature was both pleasing and beneficial, that to us was not the dominant feature of the Dinner to the Editors by the Chamber of Commerce on Monday evening. With all the banter, good cheer and hospitality, there ran the theme of desire for service and the rebuilding of the whole peninsula. Nor was this prominent for any one section or any one organization—it was co-operation, that the needs of all might be the better served.

Even Wilmington herself realizes, as perhaps never before, her opportunities, her possibilities, and her responsibilities. Her responsibility, as the head of this peninsula, is one of no mean proportions. But let her be assured that, in her advance, she has the loyal support of the rural sections.

The rural folk have, too, a better appreciation of the work in our small province in acquainting our readers of the advance and advantage of Wilmington in her desire for more of our business.

But that's another story. Suffice now to say, The Newark Post stands ever ready to play its little part as best it can and offers freely its columns and service to the common weal.

If you can't buy it in Newark, get it in Wilmington.

SUMMER SCHOOL

The Summer School for Teachers at Delaware College can safely be pronounced a success. The hearty response from all over the State is striking proof of the keen interest that is being manifested in the new epoch of education in the State and the confidence in old Delaware. The promoters and organizers of the School have right reason to be proud and their efforts are worthy of more than ordinary commendation.

Many friends and even some of those officially in touch with the College failed to see how it was possible to effect an organization in so short a time. In fact, some there were, who thought, and with semblance of reason, that the school so hastily organized, would detract rather than add to the dignity and reputation of the College.

The registration here yesterday of the 150 students shows plainly that these sincere skeptics are not keeping pace with the new thoughts and ideas of the people. This assembly of teachers, entering so enthusiastically in the work presents a startling contradiction to the verity of an ultra conservative view.

Dr. Harter and his selected corps of assistants, in a remarkably short time have outlined a complete course of study, which from reports today has met with hearty response and approval.

Surely, a new day is dawning in Delaware and education promises to take rightful position in our progress.

Our new Commissioner of Education has arrived and is entering heartily in the work. The school here will offer him fine opportunity to meet those with whom he will work and add greatly to the outlining his campaign for better things.

Aside from the benefits derived from a few weeks in study here, the College is destined to come in for a share of recognition. These teachers will receive an impression that will be projected into every school district in the State. The College will be discussed not from thoughts formed by reading a catalog of details but from a personal knowledge of the institution and the men directing its destinies. Without detracting from the real work at hand, this, to us, is a pleasing feature of this Summer School.

It is difficult to estimate the influence of these teachers in presenting the College in its true light before the people. The standing of

the institution rests largely upon the impression that they receive of the College. That this shall be favorable is an interesting speculation.

Attention of housewives is called to the article by Dr. Watson on insects and household pests. Valuable recipes are found here that will be greatly appreciated.

Who said the Summer School would fail? To the woods, sleepers to the woods.

It was indeed an unfortunate oversight that the President of the College nor any members of the Faculty were asked to take any part or be present at the Dedication exercises of the ground for the Women's College. Upon these men more than any one, rest the responsibility of the work and the success, hoped for. In our opinion no opportunity should be lost in giving them recognition, which is not only due them, but that the heartiest co-operation may be secured and their rightful relation to the institution be publicly understood.

Firecrackers are just as dangerous on the 25th of June as on July 4th. In fact, even more so—for on the Fourth everybody is on the alert and on guard for fire.

It is our impression that there is an ordinance forbidding such use of this dangerous practice. It is hoped our citizens will take note of this and lend influence toward stopping this nuisance which is liable, at any time, to prove serious menace to life and property. Council authorities should also give the matter attention.

In compliance to request from several of our readers we are publishing in another column the report of Director Hayward of the Pilgrimage to the University of Wisconsin. One of our Wilmington readers who read reports of Professor Hayward's observations has ordered fifty copies to distribute among his friends.

Agreeing with Professor Hayward that all the ideas in practice in Wisconsin are not applicable here, yet every student observer recognizes that we are not, by any means, taking care of our possibilities. Just now, when every phase of life in Delaware seems on the qui vive for better things, these suggestions are worthy of serious study and we urge to our readers, their consideration.

Farmers' Day

The authorities at the Delaware College Experiment Station most assuredly struck a popular chord when they instituted as one of the features of the college commencement week, Farmers' Day, a day devoted to the interests of farmers. It was about seven years ago, we believe that this custom was inaugurated, and the manner in which it has grown in interest year by year proves that it has taken popular hold upon our agriculturists.

This was shown last Monday when over five thousand visitors most of them practical farmers and their wives from Delaware, Pennsylvania, Maryland and even New Jersey gathered on the college grounds and spent the day there. The various departments of the Experiment Station, the work being done and the innovations being made along the line of scientific agriculture were of course the most interesting to the farmers and it is safe to say that much valuable information was disseminated among them.

The Experiment Station at Delaware College has already gained a national reputation for scientific, practical and profitable agricultural work, and the men at the head of it stand high in their profession. Delaware, and in fact the entire Peninsula have felt the impulse of the work inaugurated there and felt it to their profit. Farmers' Day has come to be recognized as a splendid means of disseminating this information at first hand, and all concerned are to be congratulated on the fact that this annual gathering has grown to be a permanent feature.

From the Dover Delawarean.

William T. Warburton of the Elkton bar will address the congregation of Otts Chapel on next Sunday afternoon at 2.30 p. m. All are cordially invited to attend.

Side-lights From The Editors' Dinner

The editors of Wilmington simply outclassed themselves. It seemed to be a race for the ribbon, which one could be the most gracious. Hereafter, when we read the Wilmington papers, we shall remember their kindness at that wonderful visit.

No one would dispute but there is glory enough for them all but some one should let it be publicly known just who the author of this idea of a Dinner to the Editors, is. And then we shall place him in that niche of fame reserved for Delawareans worth while.

The ovation given to Judge Gray was a real Delaware tribute to a MAN.

And say did you notice that all those editors, cussed and battered by the public and politicians, were a good wholesome set of men? They were men who looked as if they had known love and service as well as tears and toil. Editors look like men, after all.

If we were editor of Who's Who in Delaware of The Newark Post, we would send the last edition and insert the following:

Hazel Josiah: born in Sussex county in 18—, (no matter what year, such men never grow old). Educated in the Public Schools of Delaware, graduated from University of Maryland, enrolled as an Alumnus of Delaware College and every other institution on the Delmarva peninsula.

President of Chamber of Commerce of Delaware; Chief of Good Cheer; Hall fellow well met. Director in several organizations, tending toward making life worth the living.

Citizen-at-large—representing Delmarva peninsula.

In his birthplace comes an interesting story. By a close intimacy of a certain famed "little brown jug" and the surveyors who ran out the Delaware and Maryland lines, these men by prophetic love for Delaware's glory, made it possible that he should be born in Sussex county. Great as this honor is and much as it is appreciated it is by no means his best claim to recognition by his fellows. He brought that on himself.

If the State lines are ever re-surveyed, it is probably the Hazel Bill will be repealed.

Newark Garage Improvements

Full equipment of lathes and machinery has been installed at the Newark Garage, making it up-to-date in every particular. This additional machinery makes it possible for Mr. Fader to meet all the variant demands of his increasing trade.

This season has been one grand rush from the beginning of the season and this new equipment only adds to the popularity of the Garage.

TO ARCHITECTS

The Commission, for the erection of the Woman's College Affiliated with Delaware College will receive competitive plans for two fire-proof buildings to cost not more than \$150,000; one a Residence Hall, two stories, to contain reception rooms, kitchen, dining-hall, bedrooms, offices, etc., for the accommodation of fifty students; and a modern Science Laboratory, three stories, to contain, chapel, offices, laboratories, recitation rooms, etc., for the accommodation of one hundred students.

One thousand dollars will be awarded in cash by the Commission for the five best plans submitted: Three hundred dollars for the first plan; two hundred-fifty dollars for the second plan; two hundred dollars for the third plan; one hundred fifty dollars for the fourth plan, and one hundred dollars for the fifth plan accepted by the Commission. The plans accepted shall be the property of the Commission.

All plans must be in the hands of the undersigned not later than 12 o'clock noon, Monday July 7, 1913.

GEORGE W. TWITMYER, Secretary Affiliated College Commission Wilmington, Delaware.

SEALED PROPOSALS—BIDS WILL be received by the Levy Court of New Castle County, at the County Engineer's Office, Court House, Wilmington, Delaware, up to 12 o'clock, noon, on July 8, 1913, for two ten-ton Road Rollers, driven by either gasoline or steam. Said proposals must be made to Benjamin A. Groves, President of the Levy Court of New Castle County, and each shall give a guarantee of good workmanship and performance for one year from purchase of same. June 12, 19, 25-Jly.

Newark, Delaware, June 25, 1913.

To our Depositors and Customers:

We take pleasure in announcing to you that the arrangement proposed, in our letter to you of May 1st, 1913, by which the Farmers' Trust Company, of Newark, was to purchase and take over all of the Capital Stock, properly and assets of The National Bank of Newark, was finally completed on June 24th 1913, and that every share of the Capital Stock of The National Bank of Newark was represented and voted for the plan.

The new Company now owns all of the property and assets of the Bank, and will continue its business under the management of the following officers and directors:

OFFICERS.

J. Wilkins Cooch, President.
Alfred A. Curtis, Vice-President.
Joseph H. Hossinger, Secretary.
Henry Edwin Vinsinger, Treasurer.

DIRECTORS

J. Wilkins Cooch
Alfred A. Curtis
Samuel M. Donnell
Nathan M. Motherall
Crawford Rankin
Ernest Frazer
Joseph H. Hossinger
Eben B. Frazer
Daniel Thompson.

There will be no necessity for making any alterations in the checks now used by you, as the checks on The National Bank of Newark will be honored, in their present form, by the Farmers' Trust Company, of Newark.

We believe that under the present arrangement our facilities for promptly transacting any business intrusted to us have been greatly increased, and desire to thank you for your patronage in the past, and hope for a long continuance of our pleasant relations.

ALFRED A. CURTIS,
J. Wilkins Cooch, President.
Alfred A. Curtis, Vice-President.
H. Edwin Vinsinger, Treasurer.

Estate of EDWARD WILSON, deceased. PERSONALS

Mr. "Dick" Thomas, who has spent the past three years in Germany studying designing, reached home Monday evening and received a royal welcome.

Miss Margaret Ritter of Allentown, Pa., Leigh Chandler of Jersey City, N. J., and Jay Miller of Bangor, Pa., were week-end guests of Miss Marian Campbell.

Mr. M. Rutherford of Akron, Ohio, was a Newark visitor last week.

Miss Effie Chambers of Wilmington spent the week-end with her parents, Mr. and Mrs. John Chambers.

Miss Frances Medill has returned from a visit with Alvin Sutter, wife and family, Stanton.

Mr. and Mrs. Irvin Klair and children, Miss Maggie Woodward and Mrs. Martha Klair of Marshallton, moved to Newark and spent Sunday with the Misses Nantala.

Miss Ruth E. Hines of Philadelphia spent Saturday and Sunday with Robert Potts and family.

Miss Zoe Simpson of Wilmington spent Monday at the home of her nephew, Mr. Harvey Hoffecker.

Miss Rachel Potts spent the week-end with her children, Leah and Charles, at the home of their grandparents, Robert Potts.

Miss Zoe B. Reed of Wilmington was the guest of Miss George von Gons.

Miss Anna Schuchman is visiting relatives in Lancaster, N. J.

Prof. and Mrs. Dutton are receiving congratulations upon the birth of a son born on the 15th.

Mrs. Smith, mother of Arthur Smith, '18, was the guest of Mrs. Brown during Commencement.

Ruben Hare is visiting Wallace Evans.

Mrs. W. H. Hutton, accompanied by her son, Frederick, left on Monday for a protracted stay in Boston, Mass.

Prof. and Mrs. Hayward, Mrs. Hayward, Sr., and Mary Francis Hayward enjoyed a motor trip to Valley Forge, Pa., last Friday.

Miss Eleanor Duffy of Philadelphia has arrived to spend the summer with her grandmother, Mrs. E. S. Armstrong.

Miss Rhonda Chester, formerly of Newark, now of Chester Springs, Pa., visited Mrs. Harriet L. Curtis on Sunday.

Mrs. Alexander F. Williamson of Philadelphia, spent Sunday here with her cousin, Miss Fannie Shapleigh.

Mr. and Mrs. Minot Brewer and child of Merchantville, N. J., spent the week-end with Mrs. S. Minot Curtis.

Captain Robert Mearns of the U. S. Army, and his bride have been the guests of Mr. and Mrs. Alfred A. Curtis. Captain and Mrs. Mearns were married about a week ago at Laramie, Wyoming, and are to spend their honeymoon abroad, sailing for England next week.

Edward N. Vallandigham of Boston, who has been spending several months in Delaware, has left for Boston and will sail for England on July 1 to join his wife and daughters who spent the winter in Italy. They will travel several months on the continent before their return.

The Misses Mabel and Margaret Davis of Wilmington have been the guests of the Misses Springer.

Miss Edna Lilley, teacher in the schools of Camden, N. J., has returned to her home for the summer vacation.

Mr. and Mrs. E. C. Wilson entertained a party of friends last Wednesday evening, who came in automobiles from Wilmington. The guests included Mrs. Waldo Wilson and daughter Elizabeth, Miss Brenda Wilson, Mr. John Cleland, Mrs. Charles Cleland, Misses Mildred and Lillian Cleland and Mrs. Jordan A. Wilson.

Miss Eva Blake of Wilmington, has returned after a visit with Miss Gertrude Willis.

Mr. and Mrs. McEue of Cass City, Michigan, are expected the last of the week to spend some time with Professor and Mrs. McEue on Delaware Avenue.

Mrs. Francis B. Hayward, who has been spending the past two weeks at the College Farm has returned to Lockport, N. Y.

Mrs. George Carmichael of Brooklyn, N. Y., is a guest at the Washington House.

Miss Ruth Whirlow has been visiting relatives in Wilmington.

Miss Katie Montgomery spent Sunday in Chester.

Miss Amanda Perkins of Havre de Grace, Md., is visiting friends in Newark.

National Bank Replaced By Trust Company

Beginning today, the Newark National Bank becomes the Farmers' Trust Company of Newark. In accordance with Act passed at the last session of the General Assembly, the Farmers' Trust Company was organized. By the unanimous consent of the stockholders of the National, the change has been made and the Newark National gives way to the more modern banking.

The officers and directors of the new organization have all been elected to similar positions in the new company.

Going Abroad

Professor and Mrs. Charles L. Potts leave on Tuesday, July 8th for New York, from which city they will sail on the Campania, Canada Line, for Liverpool, Wednesday morning. Their itinerary includes points in England and the continent. Professor and Mrs. Potts will return the middle of October.

STATE FARM

The sweet peas at the College Farm are now blooming and are free to all who wish to gather them.

Professor Hayward has been selected by the Ayrshire Breeders' Association as an expert judge of Ayrshire for the coming fair season.

A very handsome hackney pony stallion has been loaned the College Farm for most of the summer by Mr. George McClathy of Philadelphia.

The College Farm has sold a high class Guernsey Calf to Senator Williams and Mr. Milburn, Hartley, Delaware.

Mr. F. A. Long of Selbyville, purchased a pure bred Berkshire pig at the Farm on Farmers' Day.

Veterans Going to Gettysburg

Rankin Armstrong, Edward McPike, Joseph B. Lutton, Anthony Davis, Charles Walters, Thomas Mullin and Mr. Washburn, all G. A. R. members of Newark, will leave next Monday as guests of the State of Delaware to spend a week at Gettysburg in commemoration of the 50th anniversary of the great battle fought there.

Conductor Kelley Attends Convention

Capt. Jos. E. Kelley, well-known conductor on the B. & O. R. R., has been elected a delegate to the Railroad Relief, which will hold its convention in Harrisburg. He will leave tonight and expects to be gone for several days.

Delmarvia Press Association

Following the royal entertainment at the Banquet Hall, many of the editors and publishers were so imbued with the real opportunity presented that they met at the hotel and organized what is to be known as the Delaware Press Association.

Frank E. Williams of the Cecil Whig, Elkton, Md., was made temporary chairman and C. L. Vincent of the Democratic Messenger, Snow Hill, Maryland, temporary secretary.

After a most interesting and inspiring discussion of the good that could be accomplished—not merely as a business proposition of the publishers but in their co-operation toward the common weal—a committee on organization was named as follows: W. F. Metten, Wilmington; T. F. Dunn, Dover; E. E. Williams of Elkton, C. L. Vincent of Snow Hill; Fred G. Usilton of Chedertown and Spencer F. Roger of Onancock, Va.

They reported the nominations which were unanimously confirmed: President, Thomas F. Dunn, of the Dover Index, Dover; vice president, S. S. Shanahan, Star Democrat, Easton; secretary and treasurer, William F. Metten of the Every Evening.

An executive committee was appointed to draft constitution and by-laws and present them for approval at a meeting to be called at a future date not agreed upon. It was suggested that this meeting be held at the gathering of the Peninsula Horticultural Society at Harrison's Nurseries, Berlin, Md., on July 31, but no formal action was taken.

Sewer Bids Opened

(continued from page 1)

and cover, \$12.50; 5-in. terra cotta pipe for house connections, \$1.10. Kelley-McFeeley Co., Camden, N. J.—Disposal Plant, \$10,750.62. 12-in. pipe, .64, .84, \$1.04, \$1.50, \$2.15, \$2.94, \$3.87, \$4.80, \$5.90; 10-in., .56, .59, .67, .96, \$1.44, \$2.09 and \$2.88; 8-in., .43, .51, .62, .86, \$1.33 and \$1.97; pump well, \$2, 418.78; Y branch, \$1.57, \$1.27 and .87; vertical feet of man-hole, \$5.50; manhole frame and cover, \$14.00; catch buckets, \$3; single flush tanks, .95, double, \$1.05; rock excavations, \$2.25; flush tanks frame and cover, \$14; lamp post frame and cover, \$35; 5-in. terra cotta pipe for house connections, 67 cents.

New York Sewage Disposal Company—Disposal Plant, \$13,438. 12-in. pipe, .61, .69, \$1.20, \$1.30, \$1.90, \$2.40, \$2.90, \$3.15 and \$3.43; 10-in., .42, .53, .81, \$1.15, \$1.51, \$1.78, and \$2.32; 8-in., .35, .48, .72, \$1.05, \$1.25 and \$1.35; pump well, \$1,750; Y branches, \$1.48, \$1.15 and .90; vertical feet of man-hole, \$4; man-hole frame and cover, \$12 catch buckets, \$4; single flush tanks, .80; double, .80; rock excavation, \$3.20; flush tank frame and cover, \$12; lamp hole frame and cover, \$4; 5-in. terra cotta pipe for house connections, 85 cents.

At 1 o'clock this afternoon Engineer Hutton reported back to the Commission the following calculations:

L. B. Jacobs, \$50,945.32. This includes, however, the estimate on 5 inch pipe for house connections which will not in reality come from the assessment. His bid for the Sewer alone is \$48,474.52, being \$875 below the next lowest bidder. Other bids follow:

M. & J. E. Fatta, \$66,407.90; without house connection pipe, \$63,107.90.

Kelley-McFeeley Co., \$52,029.41; without house connection pipe, \$50,019.41.

New York Sewage Disposal Co., \$51,899.82; without house connection pipe, \$49,349.82.

Immediately on announcement of bids the Sewer Commission went into executive session and their decision has not been announced as we go to press.

Annual Camp Of Militia

The Organized Militia of Delaware will have its annual camp of instruction at the State Rifle Range along the Delaware River below New Castle, July 19-26. The camp will be known as Camp Macdonough in memory of the state naval hero, Commodore Thomas Macdonough.

Public Archives

Commission Meets

A meeting of the Public Archives Commission will be held in the Hall of Records, State House, Dover, on Thursday, June 26th. Business relating to publication of new series of the Archives will be discussed.

Negro Desperado In Locality

George Dutton, the negro criminal, who has evaded the authorities of Sussex county for several weeks was reported in this neighborhood the latter part of last week.

Everett Guest, a former guard at the New Castle County Workhouse believes he saw Dutton cross the public road near Roseville on Friday. Guest, who is now supervisor of roads, was a guard at the workhouse when Dutton was a prisoner there.

The alarm brought the State officers but they failed to find the desperado.

Arrangements For Harvest Home

The annual Harvest Home celebration of Ebenezer M. E. church will be held in Whiteman's Grove on Thursday, August 14, 1913.

MR. R. F. FRIEDEL

A Personal Invitation

We desire to make this a PERSONAL INVITATION to you to come and inspect our line of Men's and Boy's Clothing, Furnishings, &c., for spring and summer wear.

Consider it a PERSONAL invitation quite as much as if we were taking you by the hand and talking face to face.

Our line of spring and summer goods is very complete and very attractive. Measured by stocks as offered in other large stores we believe you will be able to make comparisons in our favor.

Not alone is the assortment large, but every garment has been selected with the utmost care, and with due regard to the desire of the man who likes to dress well at a moderate cost.

We are showing a splendid line of Suits and Overcoats for boys—the kind that will please the boys as well as the parents. Come and see us.

The Wisconsin Idea

(Continued from page 3)

while to reach the 99 out of 100 who do not graduate from college.

Another speaker of the extension division told of the Packett library system which is popular in Wisconsin. These libraries are, in part, clippings from books, magazines, papers, and, in some cases, the written opinions of experts on live, up-to-date, popular subjects. A feature of this work which has grown to be indispensable of late is that of aiding citizens or business men who have been called upon to address civic leagues in their home towns upon important questions of the day. The department sends to such men, and others who are to discuss papers, such material as will aid them in the study of their particular subject, the material often including typewritten excerpts from authorities. Many of the subjects studied for these addresses are comparatively new, or upon new phases of old topics, and involve considerable research by members of the department. The correspondence of this department clearly reveals some noteworthy results in supplying to clubs and debating societies good material on the important questions of the day. The debating societies have discarded fruitless themes for questions of municipal, state, or national policy which are demanding settlement by the electorate. With abundant material for the study of live topics have come new interest in these societies. They are steadily growing in number and in interest, because the meetings are more stimulating and helpful. Many schools which formerly organized societies at irregular intervals now maintain them as permanent features. During the past few years the number of civic clubs in the small communities has greatly increased (now numbering more than 276 in Wisconsin) and they are becoming a great force in the moulding of public opinion. Many of these leagues have gratefully acknowledged the fact that their continued success is largely due to their ability to secure data from the library of the department. The growth of this work and its popular appreciation is shown by the statement that, in 1908-09, 524 Packett Libraries were sent out, and in 1911-12, 2450.

Another worker gave an idea of what the University gave an idea of providing lecture and entertainment courses through the state. This department endeavors to keep in touch with the high schools, churches, granges and lyceums of Wisconsin, and, by suggestion and instruction put the lecture and entertainment courses of these various agencies upon a higher plane. The people of the state are thus enabled to secure better lecturers and the music is greatly improved. The Bureau furnished many high school commencement speakers, loaned many lantern slides for illustrated lectures upon given topics, and so took those factors, which we have come to look upon largely as aesthetic, out of commercialism. Through this agency alone last year the University reached 150,000 people, and the work is rapidly growing.

One of the most important departments of the extension division is the Municipal Reference Bureau. This Bureau has now an accumulation of approximately 10,000 documents including city charters, reports, books, periodicals, special articles, and clippings touching upon the various effects of civic government, and it is seldom that a request is received for which some reference cannot be found in the files of the library of this department. During the two years ending July 1, 1912, nearly 3000 requests were received and answered. The subjects upon which requests were received covered almost every phase of city administration and government, but the largest number have been received upon the problems of practical administration and finance. More requests came in on the subject of commission government than upon any other one; street cleaning, garbage collections, sewer cleaning, city accounts and municipal markets have been some of the others upon which the largest number of inquiries have been received. Instruction in political science has been given by the director of the Municipal Reference Bureau, both in correspondence and in residence. The Director of this Bureau is also secretary of the League of Wisconsin Municipalities, an, in this capacity has edited and published "The Municipalities," and in this capacity journal of the League, and in so doing has rendered an additional service to the people of Wisconsin.

Another bureau of public service is the Civic and Social Center Development. The aim of this bureau is to aid in such practical community self organization as will make the common business of citizenship

the subject matter of an intelligent, planned, continuous, orderly, educational process, and so to facilitate for each community the civic, social, recreational—in the truest sense, educational—development which should inhere in democracy and neighborhood. One hundred and two formal addresses and lectures have been given upon civic and social development. Fifty boards of education and their administrative bodies have been met in consultation, and more than 8500 requests for specific information and advice regarding social center development have been received and answered.

Thus far, as a result of the work of the Bureau of Social and Center Development, four cities in Wisconsin have definitely appropriated sufficient money to engage supervision and supply necessary equipment, and in more than 100 places the movement for constructive community organization and social center development is well under way.

Where there is an expressed desire for such service, the Bureau of Civic and Social Center Development aims to furnish the results of the experience of other communities engaged in this form of community self service which has been centered in the school house or other public building. It especially aims to furnish information and assistance by which all residents of Wisconsin may take advantage of the opportunities offered by its University.

The greater part of Thursday afternoon was given over to pleasure trips by automobile, or motor boat rides on Lake Mendota. Thursday evening the pilgrims from the east were entertained at dinner, at New Park Hotel, by citizens of Madison. Friday morning from 9 to 11:40 was given over to an inspection of the Agricultural Department of the University. The character of its work is quite similar to our own, and need not be dwelt upon in detail here.

From the Agricultural Department we were taken to the Maple Bluff Golf Club by motor, where the party was entertained at luncheon. The feature of this luncheon was a discussion of the spirit of the University of Wisconsin, and the function of its extension division as an extra-Mural, by President Van Hise. Your representative has been unable as yet to obtain a stenographic report of this address. It was fundamental in character, as a few excerpts from it will indicate.

President Van Hise said, "The State University is not in politics in the sense that it has ever been organized in the support of any individual faction or party. It is in politics insofar as it takes a position of leadership in advancing a movement along economic and social betterment of the people."

"This activity of the University in upbuilding the commonwealth in all lines is unavoidable if the University is to justify its support by the people of the State."

"The University should reflect the spirit of the times without yielding to it. It must advance knowledge as well as impart it. Our ideas must be readjusted in each generation in the light of our new knowledge."

"The freedom of thought, untrammelled inquiry after truth for its own sake, a constant readjusting of knowledge of the past in the light of the newest facts is absolutely essential in any university, and is a condition of its existence which it must not yield under any circumstances."

"It is this spirit which forever makes the university a center of conflict. Peace and progress are antipodal. Within our own nation a great struggle is now going on between different ideas and ideals. Progress is possible only through struggle and strife."

"As of old, so today, the spirit of the university is in irreconcilable conflict with those who hold that the present state of affairs is best. Political and religious faiths, conventions, and morals, are all constantly changing. Since the university's chief function is to inspire, adjust, improve, and advance knowledge, the change must be the greatest in it, the progress most rapid. Therefore, the university is the very center of disturbance."

"The conflict between the university and the reactionary forces is irrepressible. There is no way to escape this situation but to destroy the university. As the spirit of despotism represses universities, so the spirit of freedom tends to inspire them."

"While the university must not yield to the spirit of the times, it must reflect this spirit. Not only must the modern university men retain their own ideals, but they must take part in giving the university a wider scope."

"The modern university must not only prepare students for the old professions of law, medicine, and theology, but it must make all

of the highest phases of all professions learned professions, including agriculture, engineering, journalism, and commerce."

This address was received with more favor than any other one heard during the stay in Madison, and made the deepest impression upon those best fitted to appreciate its significance.

Saturday at noon the party was entertained at luncheon by The Saturday Luncheon Club, a club whose membership comprises leaders in state wide progressive service. The theme discussed at this luncheon was the University and the State. (The utilization of university resources in governmental activities.) The speakers were Mr. Halford Erickson, of the Railroad and Public Utilities Commission; Prof. John R. Commons, chairman of the Industrial Commission; Prof. Thomas S. Adams of the Tax Commission; Dr. Charles McCarthy, Director of the Legislative Reference Department; and Governor Francis E. MacGovern, Chairman of Board of Public Affairs. The one fact emphasized by all of the speakers was that the university was an institution supported by public funds, and in consequence, should be used to the fullest possible extent for the benefit and progress of the inhabitants of the entire state. Most of the speakers either had been, or are at the present time, members of the faculty, and as employees of the state feel at liberty to call upon the various departments in the University for aid in their state work. In this way Wisconsin is a beneficiary of the University in a way that is unique in the history of American educational institutions.

Saturday evening the visitors were entertained at dinner by the faculty of the University of Wisconsin. The acoustic properties of the building were so poor that your representative failed to hear any of the after-dinner addresses.

The consensus of opinion as to what was observed in Madison by the pilgrims, is embodied in a public statement signed by 20 representative members of the expedition, which says, in part:

"The leading thought impressed upon the Wisconsin pilgrims is the systematic:

(1) effective application of selective methods of knowledge to governmental agencies or government after expert investigation;

(2) state-wide dissemination of the vast accumulations of knowledge in a form accessible to the public;

(3) helpful co-operation with the individuals of the state in aid of their everyday lives, to the end that knowledge of the few may become the more widely diffused.

"The importance of the systematic dissemination of knowledge in a form accessible to the public cannot be overestimated."

"The people of Wisconsin are getting a help from their university which they deeply appreciate, and in return for which they have given it a liberal and enthusiastic support. They look to it for their ideals and inspiration and are proud to sit under its teaching and to follow its instructions."

"In many ways our institutions of learning are superior, and they are already doing a great work in the social service of the state; and with still better organization and co-operation of our higher institutions and the people, we shall expect much results in the future."

IS THE WISCONSIN IDEA APPLICABLE TO DELAWARE CONDITIONS

To what extent can the Wisconsin idea be applied in Delaware? This is a question that should concern everyone who has at heart the best interests of the College and the State. Before it is answered, however, another question should be settled. What is the policy of Delaware College with reference to a larger field of usefulness? Should the College confine its activities to imparting knowledge to those who come to Newark for it? Or should we follow the example of the other land grant institutions, break away from old traditions, and find ways and means of serving the 98 per cent of the people who do not come within the influence of the shadow of college walls? Shall the college campus be restricted to a few hundred square yards of nicely kept lawn, or shall it be pushed to the boundaries of the state? Shall the college be for a chosen and selected few, or shall it, as one of the public institutions of a democracy, aim to render service to the greatest possible number? These are questions of policy which should be settled after a careful study by those competent to comprehend the conditions that obtain in this commonwealth. Would it not be well, now that we stand on the threshold of a new epoch, for a carefully chosen committee of the trustees to formulate a definite policy for Delaware College?

No one appreciates more than your speaker, the futility of trying to apply Wisconsin methods to Delaware conditions. There is no doubt, however, that a considerable amount of well directed effort and a small amount of money would do much to carry the resources of the college to the individual, who would become a more effective citizen if he had some of the knowledge and culture that are now locked up in the libraries, laboratories, and shops of Delaware College. With the present successful methods of getting this information before the people, is it not obligatory that we should take some steps to this end? One well trained man and a secretary, with the sympathy and support of the college behind him, could render acceptable service to more people within the state in a year than the whole college—outside of the agricultural department, can reach in twice that length of time.

The social resources of Delaware are going to waste. No effort is being made to develop them. The results are deplorable to those who are familiar with the conditions of our public schools, rural churches, and the lack of any organized society to take the place of the old fashioned lyceums. The social agencies of the state are in a general way dying of "dry rot," and no hand is being lifted to save them. Is this not a work for us? President Van Hise says, in speaking of the extension work of the University of Wisconsin:

"This activity of the University in upbuilding the commonwealth in all lines is inevitable if the university is to justify its support by the people of the State."

Is there any more reason for calling upon a member of our faculty for suggestions in improving a farmer's cattle or hogs than there is in asking for help in improving his family through the school or church, or through any other agency that may be organized?

No one, probably, appreciates the need or importance of this work more than the college. Nor is it likely that the college could do anything that would be so mutually helpful. With the trail already blazed by the agricultural department and the state appropriation, this important problem of college extension could be easily worked out and a great service rendered to the state by the college. As one who appreciates, in part, at least, the great opportunity for service that the college has, I trust that you, the trustees of Delaware College, will take steps to emulate the good example that has been set by the University of Wisconsin.

Fire Quickly Extinguished

The town was stirred to excitement on Sunday afternoon by the ringing of the fire bell and the Aetna boys hastily responded to the call. The fire, discovered in the home of James Hill, colored, had been extinguished before the arrival of the company. The damage was very slight.

Sight Giant Whale

Henry P. and Charles Scott and L. Scott Townsend of Wilmington, and the crew of the former's yacht, Nemo, saw a whale 40 or 50 feet in length rise and spout off Cross Ledge Light, on the Delaware, on Thursday evening, and then head for the Jersey shore.

FOR SUMMER FEEDING

We have Choice Western Oats,
 Cracked Corn, Hominy Meal, Ham-
 mond Dairy Feed, Choice Bran and
 Middlings—all bought in Car Load
 Lots and offered at lowest Prices.
 Hominy Meal is Good Feed for any
 stock and much cheaper than corn.

We offer Malt Sprouts at \$6 per ton below
 best winter's average selling price. They are a
 good buy for any one who can use them.

CERESOTA FLOUR—\$3.00 PER 1-2 BBL. SACK

That the Real Value of Baugh's Fertilizers
 is recognized by the farmers of this neighborhood
 is evidenced by the large trade that came to us last
 Spring with practically no solicitation. Their value
 and reliability is unquestioned. Why buy any-
 thing that comes along, to be hauled out of car, when
 for as little and often less, you can get Baugh's out of
 our warehouse, just when it suits you to haul.

Let us figure on your requirements—you will
 find it worth while.

Try SAL-VET, the the Great Stock Conditioner,
 recommended by Mr. L. H. Cooch and many others,
 and guaranteed to please.

Edw. L. Richards

HERE AND THERE

Eldridge W. Snyder, a farmer,
 60 years of age, was found dead on
 Saturday in the yard at his home
 near New London, where he had
 been suddenly stricken by illness.

FINING DOG OWNERS

Finding about twenty dogs run-
 ning about in the woods near
 Georgetown one day last week,
 Game Warden Frederick Murphy
 got after their owners, who were
 fined \$3.50 each.

Fire caused by a faulty fire dam-
 aged the kitchen of the hotel at
 New London one day last week.

Avondale has a mad-dog scare,
 and all the canines in the town
 have been ordered confined.

OXFORD TO REMAIN "DRY"

Judge Butler having refused to
 reopen the matter of granting a
 liquor license for the Oxford Hotel
 to Frederick Neidenthal, the town
 will continue "dry."

Chester county farmers report
 heavy yields of hay of good qual-
 ity.

Ripe peaches were on sale in Sea-
 ford last week but the yield in that
 section, it is thought, will be very
 light.

Sussex residents are working for
 the addition of a course in agricul-
 ture and practical farming to the
 regular curriculum of the county
 high schools.

The Board of Stewards has vot-
 ed to secure a parsonage in either
 Dover or Harrington, Seaford or
 Bridgeville for the superintendent
 of Dover district, Wilmington M.
 E. Conference.

CARNIVAL IN NEWPORT

Newport will enjoy a street car-
 nival on Thursday, Friday and
 Saturday held under the auspices
 of Armstrong Lodge, A. P. and A.
 M.

Thrown from a runaway team in
 Delaware City one day last week,
 Frank Collins and Frank Cassidy
 were more or less injured.

ENDOWS HOSPITAL BED

By the will of Mrs. Mary du
 Pont, who died on June 15, \$10,000
 is bequeathed to Immanuel P. E.
 Church, Wilmington, for its sup-
 port, and \$5,000 for the endowment
 of the Lamot du Pont free bed
 in the men's surgical ward of the
 Delaware Hospital.

Wilmington journeymen barbers
 threaten a strike on July 1 if their
 demand for shorter hours is not
 granted.

Dover postoffice for the past two
 years showed earnings of \$16,856.
 91 in excess of salaries.

WHEAT HARVEST GOOD

Farmers of lower Delaware be-
 gan the wheat harvest last week
 and it is said, expect a good yield.

Frank Holland, 12 years old,
 was severely injured in a runaway
 in Delaware City one day last week.

The wheat fields of 30 and 50
 acres on the Pardee farm in St.
 Jones Neck, Kent county, have
 been devastated by army worms.

Charged with making strawberry
 boxes measure short by means of
 extra wooden bottoms, William S.
 Harris has been held in \$300 bail
 for Court in Wilmington.

Clayton tax-payers have voted
 for water works and a sewer sys-
 tem.

Knocked down and run over by
 the hose wagon in New Castle one
 day last week, Albert Brown, 10
 years old, was severely injured.

POTATO SHIPMENTS HEAVY

Many train loads of white pota-
 toes from Virginia are passing over
 the New York, Philadelphia and
 Norfolk Railroad to northern mar-
 kets.

The first blackberries of the sea-
 son were offered in Milford last
 Monday by Henry Harland.

Lowwood Grove, the popular pic-
 nic ground along the Chesapeake
 and Delaware Canal, between
 Chesapeake City and St. Georges,
 has been sold to J. W. Vansant of
 Philadelphia.

CITY OFFICERS NAMED

Mayor Harrison W. Howell of
 Wilmington, has announced his
 purpose to reappoint Daniel O.
 Hastings City Solicitor, Samuel C.
 Biddle City Auditor, and H. G.
 Bothum Mayor's Secretary on July
 1. John F. Lynn will continue as
 Assistant City Solicitor. City Treas-
 urer-elect James F. Price has se-
 lected Branville P. Alexander, a
 former member of the Legislature,
 as his clerk. The place pays \$1200
 a year.

Abraham L. English, former
 Director of Public Safety of Phila-
 delphia, for the past four years
 owner of the Ford's Landing farm
 on the lower Elk River, died on
 Thursday of heart trouble, while
 recovering from an operation for
 appendicitis at St. Mary's Hospi-
 tal, Philadelphia, aged 49 years.

WILMINGTON POSTMASTER

APPOINTED
 President Wilson, upon recom-
 mendation of Senator Saulsbury,
 has selected for postmaster at Wil-
 mington, former Democratic City
 Chairman James J. English. He is
 a member of the United States Fire

Do You Blame the Operator for Every Delay?

In a Telephone Central Office there are
 rushes just as in the business of a store, a bank
 or a restaurant.

Does any store clerk, sales girl, cashier in
 any store in town wait on you as quickly as
 do the operators of the Telephone Company?

The average time you wait for Central to
 say "Number please," is less than four seconds.
 Where else does one receive as uniformly good
 service?

Consider, too, how long, some times, you
 are in answering your telephone bell. You
 expect prompt answers. Do YOU answer
 promptly?

KEMBLESVILLE

Miss Isabel Steele of Elkton, is visiting with Mr. and Mrs. C. T. Richards.

Mr. and Mrs. Owen Hoopes and family of Toughkenamon, were over-Sunday guests of Mr. and Mrs. F. B. Pratt.

Mr. and Mrs. S. B. Snyder and son William spent Sunday with Mr. and Mrs. Dutton Richards, Marshallton, Del.

Mrs. E. T. Brown and daughter of Chesterville called on Miss Ella Wilson on Monday afternoon.

Miss Catharine Schunder of Delaware City is the guest of her aunt, Mrs. Harry W. Swain.

Mrs. Clarence Foote and children and Mrs. Cecil Ferguson and son were entertained on Monday by Mrs. F. B. Pratt.

Although the weather was bad, and there were several festivals in the surrounding neighborhood, the band managed to take in \$53 at their festival, and think of holding another on July 4th, when they will give an open-air concert.

Rev. E. E. Burris of Philadelphia will assist the pastor of the M. E. Church in administering the Lord's Supper on Sunday afternoon, June 29th.

Strawberries Shipped From Selbyville

According to official statements 511 cars of strawberries were shipped from Selbyville this year.

Of the cars 415 were actually shipped from Selbyville station, or 27 cars more than the previous banner year. The other cars were loaded from Ocean View, except a very few from Whaleyville. It is estimated that Baltimore Hundred has received at least \$350,000 for berries this year.

The shippers were:
Chandler, Townsend and Co. 206 cars \$146,000.00
D. C. Williams 108 77,000.00
Frank Simpler 35 30,000.00
Williams & Scott
V. E. Simpler
C. B. Simpler

W. H. Collins and Co. 162 117,000.00
511 \$370,000.00

Supt. Spaid Visits Summer School

Superintendent Spaid of Wilmington was a visitor at the Summer School this morning. Later in the term Mr. Spaid will spend a day at the School when he is scheduled to address the teachers. His topic has not yet been announced.

Farmers' Day Helps Grangers

At the meeting of Delaware Grange last night members made interesting reports of the Farmers' Day at Newark and a general discussion of the benefits to be derived from such meetings took place.

The committee of which Frederick C. Snyder is chairman, made a report on the field day which the grange will hold in the near future. The date for the contests will be decided next Monday night.

An invitation was extended to Peach Blossom Grange to visit the Grange on Monday evening, August 11th.

Frazer Field Dedicated

Before one of the largest crowds of Commencement Week, Joe Frazer Athletic Field was dedicated last Wednesday afternoon. It was the great feature of the greatest Commencement that Old Delaware has ever held.

High tribute was paid to Joseph Frazer, a Delaware graduate in whose memory the field was given, by the speakers of the day and every honor was shown to Eben B. Frazer and Stanley Frazer, the donors of the field by the student body, members of the faculty, trustees and Delawareans in general.

Shortly after 2 o'clock the entire battalion of cadets in dress uniform marched to Eben B. Frazer's home and headed by the band acted as the escort of the donors to the field. Notwithstanding the warm weather probably 2000 persons remained during the interesting program.

Dr. George W. Marshall was master of ceremonies and made a short address. The field was presented to the College by L. Irving Handy on behalf of the donors. Mr. Handy who is a former resident of Newark and knew Joseph H. Frazer from boyhood, told something of the life of the young man who made such a marked success of his profession in the far off country of Bolivia. Mr. Handy in dwelling on the great benefit that the magnificent gift would be to Delaware College, expressed the hope that other contributions from wealthy Delawareans would follow, contending that the wealth of the State have not been just to the College.

Dr. George A. Harter, in a few remarks, received the field on behalf of the trustees and Thomas J. McLoughry received it on behalf of the students.

The raising of three flags, the National flag, Delaware College flag and Joe Frazer Field flag, by Stanley Frazer, was a feature of the program. While the flags were being raised the "Star Spangled Banner" was sung. There were a number of selections by the band.

During the exercises a telegram of congratulation on the presenting of the field to the college and a tribute to the late Joseph Frazer, from Horace G. Knowles, was read. Mr. Knowles was United States Consul to Bolivia at the time of Mr. Frazer's death in that country.

The new athletic field was inspected for the first time by several thousand persons during Commencement week. Many of these had never seen the field since the work was started on it a year ago, and were consequently greatly surprised to see such a model athletic field. It is recognized as one of the most complete college athletic fields in the country. Its benefit to the College can not be overestimated and it is the opinion of many that the liberality shown by the Frazers in presenting this field will lead to other liberal contributions being made to Old Delaware.

Toot Of Welcome To Rural Editors

O, brothers from the Eastern Sho', you're welcome to our town;
Come have a jolly time with us, and all your troubles down
In drafts of sparkling Brandywine; or, if you would prefer
Some other brand, let us observe we have it for you here.

There's Kiameni, dear and cold; it's bottled at the Springs;
No doubt you've often heard of it—a tippie fit for kings;
Or West Brue that is pure as is the limpid morning dew;
And if you like it better it will be on tap for you.

But, maybe, as the "moisture" down your way is rather shy,
You'd much prefer to quench your thirst with something not so "dry."
In which event just name your dope;—to please you we are best,
For on this day our pleasure is to give you pleasure vent.

The City's yours; and all we ask is that you enter in
And act just like you would if you were visiting your kin.
Just let her go; do what you like, and eat up all the pie,
For you will please us best if just to please yourselves you try.

So throw aside all local cares; forget your paper bills;
Don't think of "copy" for a day; just yield yourselves to thrills,
We have them here in bundles, and we'll hand them out to you—
(And leave your pocketbooks behind, there's naught for them to do.)

Forget the "Old Subscriber" once; leave "Veritas" at home,
And "Constant Reader," too, is not a subject fit to roam;
The taxes and the sandy roads must stand aside awhile,
To give you country editors a chance to take a "smile."

Don't go to skin' up at all; no need to grease your boots;
Glad rage this day are out of date; don't wear your fancy suits;

Not come along just as you are, without a bit of fuss;
Bring friendly thoughts and cheerful hearts—and leave the rest to us.
Jerome B. Bell in The Sunday Star.

Horse Kills Itself

A horse pastured in a field crossed by the Newark and Pomeroy Railroad one day last week had strayed under the bridge when the train passed. The rumble of the train and the blowing of the whistle frightened the animal, causing it to throw its head which struck the iron girder with

such force as to kill the horse instantly.

Post physicians tried electric treatment in vain last Monday to revive George, the 10 year old son of L. S. Merrill, electrical engineer at Fort du Pont, Delaware City, whose body was recovered from the canal by Rufus Yearsley after the lad had fallen from a boat rowed by his brother and another boy. The body had been submerged for 40 minutes and was lifeless when recovered.
