

TRACK AND FIELD DAY

Delaware College Review

VOLUME 33

NEWARK, DELAWARE, MAY 12, 1917

NUMBER 26

JOE FRAZER FIELD

THE HONOR SYSTEM

Rules For Its Administration and Constitution of the Honor Court.

Article 1. The Honor Court and Its Jurisdiction.

Section 1. The Student Council of Delaware College shall administer the Honor System, and shall act as the Honor Court.

Section 2. The Student Council shall investigate the cases of students charged with dishonorable conduct during examinations, re-examinations, and written tests; in the execution of classroom, laboratory, drafting room, and shop exercises, and all "outside" work and in the use of college and students property; and in violation of the rules made from time to time by the Student Council.

Article 2. Definition of Honor.

Section 1. Each student must, in order to make an examination or pledge test valid, sign the following statement after he has completed his paper:

"I have neither given nor received aid in this examination, or test, and if I have seen any one act dishonorably I will report the fact to the Student Council."

Section 2. Violations of Honor.

(a) Violations of honor in examinations and tests shall consist of any attempt to get assistance from written aids or from any person or paper, and in any attempt to give assistance, whether the one doing so has completed his paper or not. This rule holds both within and without the examination room during the entire time in which the examination is in progress—that is, until all papers have been handed in.

(b) Violations shall also consist in obtaining or attempting to obtain previous to any examinations, copies of the examination papers, or the questions to appear thereon, or to gain any illegal knowledge of those questions.

(c) Any man not signing the pledge placed upon the examination paper will be notified by the professor holding the examination, and if unable then to sign he will be reported to the Student Council for investigation.

Article 3. Student Responsibility.

If any person believes another is acting dishonorably, he shall either (1) ask for an explanation and, should such explanation be unsatisfactory, present the case to the Council, or (2) report the case directly to the Council.

Article 4. Trial.

Section 1. Ample opportunity shall be given a student charged with dishonor to defend himself in person and through witnesses.

Section 2. The Council, acting as an Honor Court, shall have power to try all men suspected of violating the honor system.

Section 3. The Council shall have power to summon any student as witness.

Section 4. The Council shall conduct the trial secretly unless a public trial is requested by the accused student.

Section 5. Five votes out of seven shall be necessary to convict a student charged with a breach of the honor pledge. A majority vote shall be sufficient to decide all other cases arising under the rules of the Honor System.

Section 6. The proceedings and record of the Council when it is acting as a court, shall be secret.

Section 7. If an accused student shall be adjudged innocent, the records of his case shall be destroyed in the presence of the assembled court, and he shall be exonerated in the presence of the Student Government Association if he so desires.

Section 8. If a member of the Student Council is accused of a breach of honor, he shall be relieved from service on the Council until his case is decided.

Article 5. Penalties.

Section 1. The penalty for breach of the honor-pledge in examinations, re-examination, and tests, shall be separation from the college.

Section 2. The penalty for violation of rules of the Honor System other than the honor-pledge shall be set by the Student Council.

Article 6. Initiation.

Section 1. Every student upon registration shall sign an agreement to abide by the rules of the Student Government Association and of the Honor Court; and shall be presented with copies of the constitution of the Association and the Honor Court.

Section 2. At the meeting of the Freshman class on the day on which classes are organized at the beginning of the first term, the constitution of the Student Government Association and the obligations assumed by the student under the Honor System shall be explained by a member of the Student Council, whom it shall appoint for the purpose, and also by the President of the College or his representative. A second meeting of the entering class shall be called two weeks later to discuss the Honor System thoroughly and completely.

Rules Governing Conduct of Examinations and Tests.

1. No student shall smoke in the examination room.

2. No student shall speak in a loud tone of voice, or in any other way attract attention which shall be unnecessary or a hindrance to the other students in the room.

3. No student shall leave the room during examinations without good excuse. Each student is to be the judge of the urgency of his own excuse until, in the opinion of the Council represented, he abuses this privilege. In this case his exit from the room before the completion of his paper may be judged a violation of these rules and punished accordingly.

4. No student not taking examinations given in a room shall enter that room without good excuse. Each student is to be the judge of the urgency of his excuse until, in the opinion of the Council, he abuses this privilege. In this case his entry into the room during examinations may be judged a violation of these rules and punished accordingly.

5. Any student, who, in the judgment of the Student Council,

shall have wilfully violated any of these rules shall be subject to a penalty imposed by the Council, or shall be debarred from having his paper accepted, or both.

6. To facilitate the operation of the Honor System, and for the convenience of students taking examinations, the Student Council shall appoint a representative in each examination room who shall be present solely to distribute papers, to provide for the notification of the instructors when their presence is required, and interpret the rules of the Honor System. His presence shall not be taken as relieving any student of full responsibility for the orderly and honorable conduct of the examination.

7. In all examinations and tests the seating of the students shall be such as to prevent the accidental giving or receiving of aid.

8. A student may take one examination and only one within the time allowed.

Recommendations to the faculty regarding the conduct of examinations.

The Student Council, in order to facilitate the operation of the Honor System, makes the following requests of the Faculty:

That no examination papers be returned to the students, or destroyed, pending a full investigation of all charges of dishonor.

2. That no grades be made known to students, pending full investigation.

3. That the time allowed for final examinations be limited to three hours, and that the nature of the papers be adjusted accordingly.

(Signed)

Le Roy Steel,
President of Student Council,
Harold W. Horsey,
Irving Reynolds,
Donald P. Horsey,
Allan Lauristen,
Secretary of Council,
William S. Fitzpatrick,
George H. Madden.

Gettysburg's Rally Defeats Delaware

Delaware lost 5-3 at Gettysburg, May 2. Gettysburg's rally in the sixth netted them four runs and decided the contest. Up to the sixth inning Delaware led 2-1.

Delaware started out well by scoring in the first inning. With two out Carter singled, reached second on a passed ball, and third on an infield error of Ferguson's hit. Stewart's hit to left scored Carter. Ferguson was out at the plate on the same hit.

In the fourth Ferguson got on base through Matter's error. Stewart and Selby failed to come through but Pierson's clean single scored Ferguson. Score, Delaware 2, Gettysburg 0.

In Delaware's half of the sixth, Madden "whiffed" and Carter and Ferguson grounded out.

When Gettysburg came up, Mealey drew a pass. Matter whiffed and Williams was out. Clancy to Carter. With one on base, Yarrison tripled, Mealey scored. Sheffer doubled scoring Yarrison. Sheffer scored on H. Horsey's error, and Stratton scored on Selby's error. This rally totalled four runs for Gettysburg. Score, Gettysburg 5, Delaware 2.

In the seventh inning, Taggart's single scored Selby. This ended the scoring for the day. Final score, 5-3.

The feature of the game was the clever pitching of both Clancy and Menchey. Clancy allowed five hits and struck out five. Menchey allowed four hits and struck out four.

Honor

The principle of the honor system seems so obviously good that there appears little need for argument. To those students who realize the seriousness of their task, who know their duty to state, friends, parents, and self, to question the need of honesty is absurd.

But there are those, and among them some of the highest ideals, who have completely lost themselves in a whirl of quibbling, those who by constant thinking have magnified the relatively unimportant and have lost sight of the real ends. Among those points most often questioned is, whether one man is justified in reporting the cheating of another. And there is something so repulsive about the tale bearer, that we naturally recoil from any act approaching his part. To this objection there are two answers: First, if we really have the honor system, there will be nothing to report; and second, that those who report violations of the honor system are not tale bearing at all, but are simply protecting the rights of themselves and the other members of the honor plan. And the fault lies not in the reporter but in the person who betrays the confidence placed in him. Until we realize that the man who goes back on his honor deserves nothing more from us, the honor system cannot succeed.

Another common question is whether Delaware College is ready for the honor system. We answer that she is.

If we study the origin of this plan in other colleges, colleges where it has succeeded, it will be found that it grew in opposition often to a great majority. The matter of fraternities and whether the honor system would not break down between members of the same chapter, is only another phase of the same general question. If this is to be a reason why we are not ready now the fraternities will always be with us, and we will never be ready. But this is not true; we are ready now. The entire student body favors the principle and surely a major-

ity will not stand off on matters of detail.

Still another question is, to what should the honor system pertain. In particular it should apply to all official relations of student to college and in general to every act of one gentleman to another. The honor system should be a matter so important and extensive that a stranger would feel its presence in the bearing of every student and in the very atmosphere of the campus.

Now, vote for the honor system. Not because there is any power in that paper, but because you feel proud to declare your sentiments and because it will give moral backing and working unity to those who trust in, and fight for, honor.

Welcome

Today, the fourth annual track and field meet is to be held on Joe Frazer Field. Today marks the fourth anniversary of one of the most important steps toward a greater, bigger Delaware; the step to bring our college into closer relationship with the High Schools of the State. How successful this interscholastic meet has been is shown by the large number of people who have been present at the past three meets. Each year this day, known as "Delaware Track" day by almost every High School boy in Delaware has been a great success. Today the success of this meet should be even greater than ever before.

The benefit which this meet gives is mutual. Delaware is benefited by having so many High School boys and girls visit her. In no other way could the "Blue and Gold" attract so many students as it does at this meet. It not only attracts the students, however, but it also forms a close friendship, for the day at least, between them and Delaware College. The interests of the High School student and Delaware are one and the same on this day.

The incentive to "make good," which this meet gives to every High School boy is of inestimable value to him. In most of the high schools in Delaware little or no opportunity is given for physical development. It is a fact that every Delaware boy who enters college is handicapped when competing in athletics with boys of other States. Delaware took the first step to wipe out this condition when Delaware Field day was inaugurated. This meet serves as an incentive to all Delaware High School boys to train and keep in good physical condition in order that they may "win a place" when the opportunity comes.

This opportunity has come for the fourth time. Today is High School day at Delaware. The college belongs to the boys and girls of the state. The faculty, alumni and students welcome them and hope that the relationship which exists between Delaware and the High Schools will be even closer as a result of this meet.

Congratulations

To "Pat" Keyes, Coach of Delaware's track team, is due unlimited praise for his victory at the Penn Relays. Every member of the relay team deserves his full share of credit for the splendid race he ran, but to Keyes belongs the lion's share of the triumph.

Keyes came to Delaware last year as a graduate student in agriculture. It was not long after his entrance, before every student on the campus had a hearty "Hello" for him, and his friends have increased remarkably fast since that time. It did not take "Pat" long to get the "Delaware" spirit and this was first shown when in the

spring of last year he kindly offered his services to the track team. As a member of the track team at Lehigh, Keyes had gained much experience in track work. It is needless to say, that his offer to help the track candidates was readily accepted. "Pat" took up his work at once and it is impossible to estimate the value of his services to Delaware's track team in (Continued on Page 5)

Track Meet At Maryland State Called Off

The track meet which was to be held at College Park, Maryland, by Maryland State College, last Saturday was called off on account of inclement weather. The meet was open to all high schools of the State and in conjunction with the interscholastic meet, an open meet for the colleges in Maryland, the District of Columbia and Delaware was to be held. All the colleges who were invited to compete among whom were Gallaudet, George Washington University, Catholic University, Georgetown, St. John's, Maryland State, and Delaware, dropped out except Delaware and Maryland State. It was a great disappointment to Delaware that this meet could not be contested as it was this team that Delaware's relay team beat at the Penn Relays and the chances for a victory in a dual meet were exceedingly bright. The meet has been postponed until May thirtieth but Delaware will be unable to compete on account of a dual meet with Lehigh on Joe Fraser Field on that date.

Tennis Match Postponed

The tennis team was to have played Swarthmore College at Swarthmore on Tuesday, May 1, but rain interfered with the match. Only part of a set had been played when a sudden down-pour soaked the courts. The match was postponed to the following Saturday, but rain once more necessitated a postponement. Another match is being sought with Swarthmore.

Engineers Elect Officers

Last Tuesday evening Dean Cullimore spoke to the Engineers' Society. He briefly reviewed the present war situation, stating that the struggle may last five or six years, and that its ultimate success depends largely on the part our country now takes. He said our duty is to remain in college and that he believed that it best to improve our abilities as far as possible until "the boss" shall tell us what to do. In conclusion, Dean Cullimore asked for questions from the engineers and explained the Faculty's attitude toward "war jobs."

At this meeting refreshments were served and the following officers were elected for the coming

HAROLD HORSEY
Captain Baseball Team

year: President, Ernie Wilson; vice-president, M. Plam; treasurer, K. Bowen; secretary, R. T. Marshall.

Changes In Faculty

Due to the resignation of several members of the faculty, the election of new members to take their places, and the institution of new courses in the college, several changes will soon be noticed in the teaching corps of Delaware College.

Dr. R. C. Reed, Mr. Lester W. Tarr, and Mr. Frank A. Carroll, have already departed to take up their new work. Mr. F. J. Pohl, Mr. A. W. Bernhardt, and Dr. Paul W. Boutwell, have resigned and will not return in the fall. These men have many friends and admirers in the student body and we are more than sorry to see them go.

Dr. John Robert Moore, A. B., A. M., Ph. D., has accepted the position of Assistant Professor of English. Dr. Moore has taught at the University of Missouri and at the University of Wisconsin. He receives his Ph. D. from Harvard in June.

Dr. Finley M. Foster, A. B., A. M., Ph. D. will become Instructor in English succeeding Mr. Pohl. Mr. Foster has taught for three years at New York University.

Mr. Charles Ganson Cook, A. B., A. M., will succeed Mr. Bernhardt as Assistant Professor in modern languages. Mr. Cook has taught at the Massachusetts Institute of Technology and will probably receive his Ph. D. from Harvard in June.

Dr. Fred E. Clark, Ph. D., Assistant Professor of Business Administration is a graduate of Albion College, A. B. and the University of Illinois, Ph. D.

Dr. A. G. McGaugan, assistant Professor of Physics, graduated from McGill University, where he received his A. B., and Yale University, where he received his Ph. D. in 1912. He has since taught as Instructor in the Sheffield Scientific School, Yale University.

In the agricultural department, Mr. W. J. Young has accepted the position to assistant to Professor McCue in horticulture. Mr. Fred Neff becomes assistant in agronomy to Professor Grantham. Mr. Ernest R. M. Lamkey, will begin work as Plant Pathologist. Miss Clara M. Nixon will be the Woman County Agent for Sussex County.

At the Women's College, Miss Alfreda Mösserup and Miss Gertrude Brady have resigned and will both pursue their studies at larger universities. Miss Annette Hinds has also resigned and will accept a position in teaching at the Russell Sage Institute in Troy, New York. These three vacancies were filled and two new positions created in a meeting of the trustees last evening, when five new members of the Women's College Faculty were elected.

While we regret the loss of so many valuable friends in the faculty and assure them that they have many student friends and admirers behind, we extend a welcome to those yet unknown friends who come to take their places. The entrance of so many new minds will surely have a broadening and strengthening effect upon the college.

New Constitution Adopted

At a meeting of the student body on Thursday a new constitution for the Student Self-government Association was adopted by unanimous consent. The former regulations were merely temporary and did not fully meet the needs of the organization. No serious changes have been made in the essentials, but the details are much more complete.

Track Championship

Tomorrow the Interclass Field and Track Meet will be held in conjunction with the Fourth Annual Interscholastic Field and Track Meet.

The order of events is as follows:

1. 100 yd. dash.
2. 880 yd. dash.
3. Shot put.
4. 220 low hurdles.
5. 220 yd. dash.
6. 1 mile run.
7. High jump.
8. 440 yd. dash.
9. Broad jump.
10. 120 high hurdles.
11. Pole vault.
12. Medley relay race.
13. Relay race.

The usual points for first, second and third, 5, 3 and 2 will be counted and in the mile relay race and the medley relay race the points for first, second and third will be 10, 7 and 3. In the medley relay the first man will run 220 yards, the second man 440 yards, the third man 880 yards, and the last man one mile. The team winning the greatest number of points will be awarded a banner.

Each class will be allowed two entries in every event, but one man only will be allowed to compete.

The captains elected by the classes are as follows: Senior Class, W. H. Marshall; Junior Class, D. L. Crockett; Sophomore Class, H. W. Marston; Freshman Class, T. McDonnell.

DELAWARE BLANKS MT. ST. MARY NINE

Blue And Gold Tossers Shut Out Old Rivals In Seven Inning Game, 3-0

Delaware evened up matters with their old rivals, Mt. St. Mary's, Wednesday afternoon when the Blue and Gold won a seven-inning baseball game, five innings of which was played in a drizzling rain, by the score of 3 to 0. The game was stopped at the end of the seventh inning to allow the visitors to catch a train.

Both Clancy and Corbett pitched great ball considering the conditions under which they worked, but the latter was unfortunate in getting the breaks against him in the third, when Delaware put over three runs, which won the game. Each pitcher allowed but four hits, but Corbett walked 7, while Clancy was more steady and passed but two men. Corbett fanned 11 men in the seven innings and Clancy 8.

The grounds were in too bad shape for sensational fielding, although both Taggart and D. Horsey made star plays that stopped prospective rallies on the part of the visitors. The clever pitching of Clancy and the equally clever work of Pierson back of the bat were features of the game.

Delaware scored the only runs of the game in the third inning. Clancy walked and went to second on a wild pitch. D. Horsey's attempted sacrifice went for a safe hit, Carney threw wild to first, advancing

1916 Track Team

Blue Hen Near Completion

According to all reports the Blue Hen of this year will be a record breaker. In outward appearance it will be somewhat similar to the book put out by the class of 1911, with half leather binding, and will contain 208 pages.

Kells, the office of the "Newark Post," has announced that the printing is all completed and that the books are now at the binders. Fifteen copies will be on hand on May 12; the remainder on June 1.

Mrs. Cooch, Witsil, '18; "Dick" Thomas, Charles Meier, '19, and Tommy Booth, '19, have contributed drawings, while Tommy Carswell, '18, has offered many camera snap shots. All members of the board have worked conscientiously to make this edition the best. They now need the help of the student body. Several of the students are going to the training camp at Fort Myer, Virginia, on May 16. Most of the fellows have ordered copies, which will not be obtainable until June 1. The class wishes to make a strong appeal to the fellows to pay up now, otherwise they will have difficulty in getting in touch with them. Business Manager Taylor has appointed Harry Alexander and others to receive the money.

dropping back of the pitchers' box, ing each runner a base, and both scored when Sudler threw wild to the plate. H. Horsey's single, Carter's pass and Ferguson's single scored another run. Clem Carney, a Wilmington boy, played a strong game for the visitors. Score:

LEROY B. STEELE
Captain Track Team

Campus Nik-Naks

Several gems have been brought back by the men who were out on the "Farm Census" work last week. A few of them follow:

Agent—Have you a silo?
Farmer's Wife—No; but we have a mother pig.

Agent—I am a representative of the "Farm Census." I came to—
Mrs. Hicks—Yes, yes, I heard about it; but I am not going to subscribe this year, Good-day!

Agent—How soon will you be ready to go, "Rasmus?"
Cullud Shirker—Gimme ten yahds en' Ah'll go now, boss!

Admiring Freshman (at the meet)—That Ernie Wilson boy is quite an athlete, I know he's a good liver.

Soph (ruminating)—'Zatso? I've never seen it.

Broadwater—Just had an exam. in Biology. It's no cinch chasing bugs.

"J. L." (coming back to earth)—You're right. 'Specially when he rides around in an automobile.

How Malignant!

"500" Shark—Come on bo! Play two more, two more.
Trembling Freshman—All right, I will if I can sir.

We never thought much of that "Reversion to Type" idea until the following practical example was witnessed by us in French class. Sam Lambert was reciting. Sam pronounced fort bien, "fort bean" and translated deux sous, "two sows." Needless to say, Samuel is an agriculturalist.

At the Dance.

He (admiring the music)—M'm'm "Flora Bella."
She (blushing)—No; it's Colgate's Dactylis.

Delaware Alumnus On

Russian Commission

John E. Greiner, a graduate of Delaware College, who for some time has been a resident of Baltimore, Md., has been honored by the United States government with a very important commission. He has been selected as one of a number of expert engineers to go to Russia to study and report on the condition of the railroads in that country.

Crockett Breaking Hurdles Record

Juniors Hold Spirited Smoker

On Monday night, May 7, the class of 1918 held a big get-together meeting in the gymnasium, feeling that due to the seriousness of the present conditions this might be their last opportunity to meet as a body. Chairs were arranged in a semi-circle with the orchestra in the center. In this way all members were brought together and made to feel at home with their classmates. The program consisted of an address by Mr. Everett C. Johnson, Secretary of State; speeches and jokes by all members of the class; music by the orchestra and quartet, songs, yells and eats, and smokes galore.

The main feature of the evening was the address by Mr. Johnson. President Horsey introduced the speaker as a member of the celebrated class of '96, a statement which seemed to be resented quite a little, for he was a member of the class of '99. Although overshadowed somewhat by the class of '96, the class of '99 was the first to put out a "Blue Hen" and also the first to hold a "Junior Prom."

The central theme of the address was our attitude toward the war situation. The speaker commended the coolness of the students; but seemed to feel that the people in general did not regard the present condition of affairs as really serious. Everybody has been looking for a revolution in Germany or some other easy means of settling the question. This attitude is to be explained in part at least, by the newspapers. For example, newspapers report 400,000 tonnage sunk; in fact 600,000 more should have been added making a total of 1,000,000 tonnage lost. The seriousness of the situation can not be over-emphasized. The submarine is a real menace. Ships can not be built fast enough, because the Germans can put out ten U-boats to our one merchant craft and, furthermore, only one submarine is sunk to every ten merchant vessels. The speaker also described vividly, some of the atrocities of the German government for which he has good authority. In the face of such facts we should not be idle. We should at least be thoughtful. If Germany can hold out until the next harvest she may win.

As an illustration of our common attitude Mr. Johnson told of an incident which happened when he was in Europe. By a mistake, his party had chartered the same boat for a trip up the Rhine as had a group of German students from Heidelberg. The boys courteously offered the American the upper deck, if they could stand the noise. On the trip the students sang their national anthem and then called upon the Americans to sing the "Star Spangled Banner." The party got through the first verse but fell down completely on the second. The Germans then asked permission to sing our own national song to the chagrin of the travelers. This shows something of our attitude. We must wake up, if we are to fight such a foe.

Following this speech the rest of the evening was devoted to jokes and speeches by students, music, eats and smokes. Music was furnished by the students themselves. "Bob" Sumwalt played the violin; "Ernie" Marks, the cornet; Swayne, the trombone; George Madden, piano. Additional music was furnished by a quartet consisting of "Chet" Smith, George Madden, "Scuteh" Lauritsen and Charles Weigle.

There were thirty-one students present, all of them full of Delaware "pep." Everyone was required to make a speech and many of them pulled off some classy jokes. In the line of practical jokes "Bill" Price starred.

Near the end of the meeting, the class unanimously decided to send

a telegram to Governor Townsend offering the services of the class of 1918 to the government. After this the meeting broke up with the singing of the Alma Mater.

Governor Accepts Services

Dover, Delaware, May 8
Class of 1918
Delaware College

Mr. Horsey:

Your telegram offering your services to State and Nation received and much appreciated. Your serious interest and enthusiasm expressed at your meeting on Monday has been reported to me. I am heartily glad and congratulate you in your efforts to make Delaware take her rightful place in a crisis such as this. Upon such as you we must rely. I accept your offer and shall not hesitate to call on you.

JOHN G. TOWNSEND, JR.
Governor

DEAN HAYWARD ADDRESSES STUDENTS

Cautions Against Hasty Action

Dean Hayward, who has recently returned from Washington where he participated in a conference of American Colleges, looking to the ways and means of assisting the government, gave a very interesting address to the students assembled in Chapel last Thursday. Approximately 180 college presidents representing every state in the Union were present.

Dean Hayward spoke of Secretary Baker's address, indicating that the latter in behalf of the government was as yet unable to question, "What Can I do to Serve My Country?" except to emphasize the fact that the country needs officers, and that college men are ex-

Delightful Dance By Sigma Phi Epsilon

An informal dance was held last Friday evening by the Sigma Phi Epsilon Fraternity. Pompous display had no place in the affair; it was a simple dance featured only by the genialty of the guests among whom were many Wilmingtonians. Several of recent alumni were present to give a touch of the good old times. Refreshments were served at a late hour to approximately 35 couples. Among those present were:

Dr. and Mrs. Penny, Dr. Sypherd, Miss Long, Mrs. Hossinger, Professor Tiffany, Lieut. and Mrs. Hoey, Mr. and Mrs. Bowen, Miss Baird, Miss Armstrong, Miss Sullivan, Mrs. Horn, Mr. and Mrs. Buck, Irene Lenderman, Alice Evans, Marian Campbell, Dora Law, Frances Lindsay, Miss Ingram, Miss Wright, Lydia Cloward,

College Notes

The senior class of the University of Pittsburgh has inaugurated a plan to provide a memorial fund, in appreciation of the services rendered them by the university. In doing this they are merely following the example set by Harvard, Princeton, University of California, Wisconsin, Williams and other schools with similar memorials. The plan is for each member of the class of 1917 to contribute \$6.25 per year toward the fifty thousand dollar memorial, and for each succeeding class to do likewise. Leaders of junior and sophomore classes have promised to follow the example.—Exchange.

There was held recently at the University of Kansas, a Hell week for the freshmen. For one special week the Greek fraternities have an open season for training the fresh, and at any time during the period the freshman is in danger of his life. One may be seen lying on the car track, stopping the cars until the worthy upper classman can finish his breakfast. On a certain whistle they have to climb a tree and stay there until the another whistle releases them. They have to wash dishes, clean house and windows, and wait on the tables. Special goats have been trained to compete with the freshmen in a butting contest. They have to eat their dessert in the middle of the street.—Exchange.

After a spirited discussion in the senior convocation at the University of Wisconsin, the class of '17 adopted the recommendation of the memorial committee for a set of chimes as the class gift. A set of eight chimes will be purchased and will play three times daily for a period of ten minutes, and on special occasions. The Varsity Toast and other appropriate pieces will be rendered. These chimes will be placed either in music hall or the new dome of main hall.

Williams College has secured the services of Captain Gimperling, U. S. A., for the training of its students. The faculty has voted to allow each student of the college corps to drop any two of the curriculum studies which he is now taking, and substitute seventeen hours of military training a week in their places.

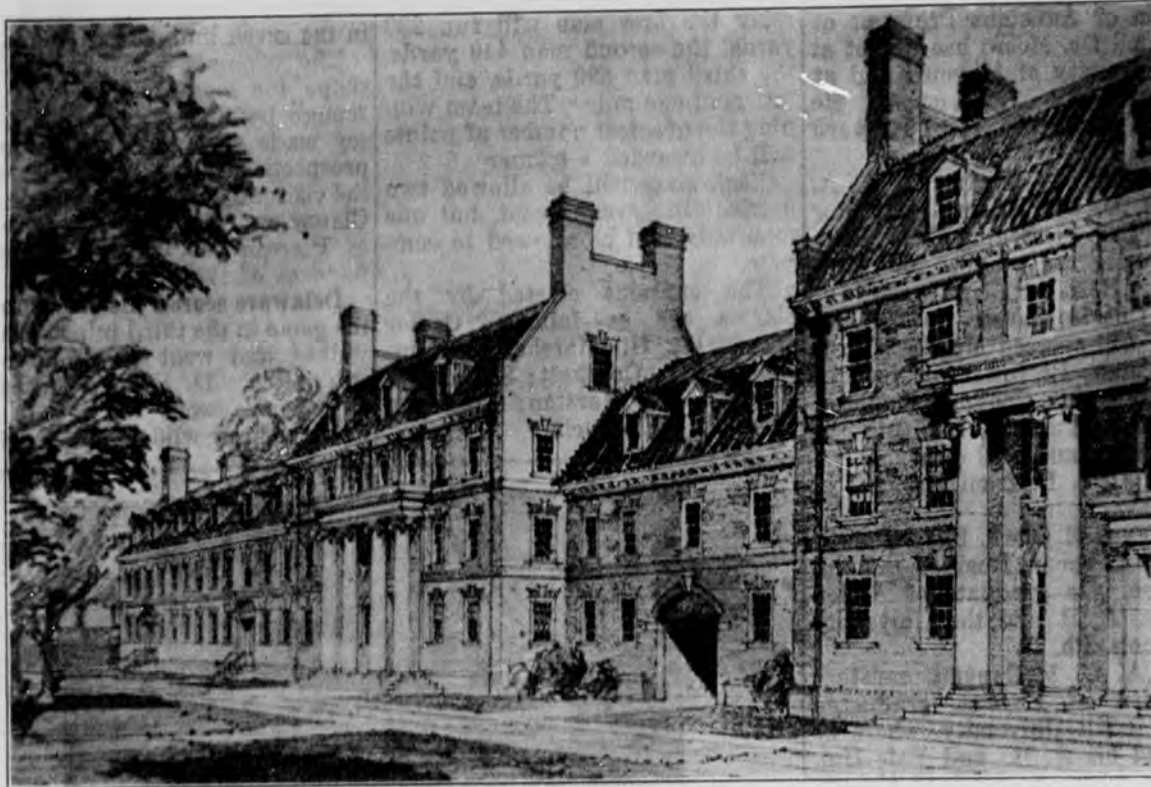

Students at Trinity College, Durham, N. C., are receiving 18 hours of military drill a week. Those students taking the military drill have been allowed to drop any three-hour course, and still be credited with it.

Amherst has decided to allow students to drop any three-hour course and spend that time on military drill. They will receive full credit for the course dropped.

Yale's New Club House.

Yale's new \$100,000 athletic club house will be constructed of stucco to harmonize with the bowl, which will be a part of the same tract of land as the new structure. It will include 2,000 to 3,000 locker rooms for the convenience of students engaged in athletic activities.—Ex.

A plan is being carried out at Cornell whereby men will be secured to act as ambulance drivers in the Cornell-Ithaca section of the American Ambulance Field Service in France. Each fraternity at the university is being asked to furnish one man to act as driver and those fraternities that cannot spare a man will be requested to furnish enough money to hire a chauffeur for the time that the men will enlist.

THE NEW DORMITORY

Delaware Will Play U. of P. Baseball Team

Announcement has been made by Coach McAvoy of the scheduling of the University of Pennsylvania baseball team for a game of ball on Tuesday of Commencement week. This will be June 12. Haverford was originally scheduled for that day but cancelled the game. Coach McAvoy had a conference in Philadelphia Thursday of last week with the manager of the U. of P. team when the game was decided on, and the arrangement was later approved by the Delaware College Athletic Council. The game will be played on Frazer Field and will be the first time that U. of P. has been on the schedule. The Blue and Gold has a fairly strong team and with Jim Clancy, the crack southpaw in form, should be able to give the visitors a good game.

Orders for the equipment for the new dining hall have been placed by the committee and prompt delivery is assured. Every detail is being attended to in order that everything will be in readiness for the opening to the friends and patrons of the college in June. The dining room will seat 200 at ft. Linen, chinaware and glassware have been ordered in substantial quantities to equip these one time. There will be 24 tables, the dimensions of which are 6x10 tables.

The Review was in error last week in stating that T. S. Carswell, '18, was located at Carney's Point. Carswell is now working as an analytical chemist for the Bethlehem Steel Works at Bethlehem, Pa.

ceptionally good material therefor. College men were urged not to rush blindly into any particular branch of the service but to maintain perfect calm until the authorities found places for them in order to utilize their special training. Dean Hayward emphasized the point that well trained men will be in demand after the war as well as before.

In closing his address Dean Hayward spoke of the principles set forth by the Advisory Commission. First, that young men below the age of liability to the selective draft should remain in college, secondly, that colleges and universities should so modify their calendar and curriculum as will most fully subserve the present needs of the nation and utilize most profitably the time of the students and the institutional plan by force and equipment, third, that students pursuing technical courses will render more valuable service later by continuing their training, finally that a responsibility rests on the institutions of higher learning to disseminate correct information concerning the issues of the war and to interpret their meanings.

Dean E. Laurence Smith will represent the College at a meeting of College Presidents to be held at Gettysburg, Pa., May 12th. The purpose of this meeting is to adopt the report of a special committee on Academic rules, to adopt recommendations regarding Normal School Credits, and to discuss "The Colleges in Relation to the War."

The Summer School Bulletins are here. They may be secured by applying at the College Office.

Engineering Society Receives Word From Governor

The Engineers' Society has received the following letter from the State Department:

"Your letter addressed to the Governor, presenting the resolutions adopted at a special meeting of your society, has been received. The Governor wishes you to understand that he appreciates keenly the interest which you have expressed therein. It is his opinion that at present you can do no more patriotic thing than to maintain the unit now held at the college.

Kindly convey the appreciation of the Governor to the members of your society.

Very truly yours,

Everett C. Johnson,
Secretary of State.

INTERIOR OF PURNELL HALL

Quadruple Show To-Night

Great Treat Assured

Capacity House Expected

What promises to rank as one of the greatest events of this college year will take place this evening in the Newark Opera House. Four important and distinct features make up the programme. It was the aim of the directors in charge of the performance to enlist the help of as many students as possible owing to the fact that the College Weekly paper, "The Review," in which all the students are greatly interested, is to receive the proceeds to cancel its indebtedness.

The four-part entertainment will include the one-act plays, "The Green Coat" and "Honor." Mr. Pohl has left nothing undone to make these plays a success, and to maintain the already high standard of acting set by previous plays. Through the kindness of local friends, very valuable and interesting properties have been added to those secured from the city.

The Mandolin Club will be intact. It was previously doubtful whether or not the entire personnel could be present. Leader E. E. Plumley has arranged a very well-balanced programme. "Lucia de Lammermoor," "Salute d'Amour" and "The Hungarian Dance" will be tempered by such lighter selections as "Sunny South," "Dreamy China Lady" and "O Sol Mio."

The College Quartette will be there, and will favor the audience with "Carry Me Back to Old Virginia," "Down Honolulu Way" and by request, "Harmony In the Doms." The uncertainty of military procedure made this attraction seem doubtful for a time but at present it is expected that every one will do his "bit" in this performance.

There is a very ready sale for tickets. Despite the fact that the house is approaching its seating capacity some, very good seats are still to be obtained. In fact one can see and hear from any part of the house.

Reserved seats may be secured at Rhodes Drug Store. Admission 50c. The Mandolin Concert will begin promptly tonight at 8.15.

Editorial

(Continued from Page 2)

the past two years. His services have not been of value to the track team alone, however. When he took up his track duties it was possible for Coach McAvoy to con-

fine all his attention to the baseball team. The great number of victories gained by both the track and baseball teams since that time speak strongly for the success of this arrangement.

Last year, with Keyes in charge of the track team, Delaware had a very successful season. The relay team finished second at the Penn Relays, just being "nosed out" by the fast Md. A. C. team. This was the first time in many years that a Delaware team had won second place at Penn. What Delaware did this year is firmly fastened in the minds of both students and Alumni. The victory this year is the first one that Delaware has won.

This hard earned and well deserved victory may be attributed to many things. The consistent and conscientious work of the track candidates, both varsity and scrub, was an important factor. The spirit of the student body was a deciding influence. But behind all of these things, the most important factor of all, was the coaching, training and directing power of Keyes. It is to him that Delaware students and Alumni should and "do" give credit for the victory.

In June, "Pat" receives his post graduate degree. It is likely that he will not be here to coach next year. Every student hopes that it will be possible to make some arrangement whereby he may be retained as coach. His retention would mean a successful track team for Delaware for several years to come. If, however, it is impossible to have "Pat" as coach for next year, the success which he has attained in the past two years will not soon be forgotten by Delaware men.

Student Council Holds Final Dance

On Saturday evening, May 5, the Student Council held its final informal dance of the college year in the Armory. The dance was thoroughly successful and in spite of the unfavorable weather there was a fairly large attendance.

In all, about forty couples enjoyed themselves. The music, which was rendered by a capable four piece orchestra, was exceptionally good. Despite the fact that the ranks have been depleted by the call to farms and training camps, the attendance was very encouraging.

The success of this final dance as well as that of the previous college dances bids fair for a repetition of the Student Council dances next year. Two other dances similar to this one had been held at different times during the year, —the Thanksgiving dances, and the one held just before the Easter holidays.

Dean Robinson of the Women's College and Mrs. Harry Hayward acted as patronesses for the dance.

Reorganization Of Faculty Proposed

The following recommendations for a reorganization of the faculty of Delaware College has been reported by the committee.

1. That the present Faculty organization be discontinued.
2. That the College be divided into three schools, to be known as

The School of Arts and Science.
The School of Agriculture.
The School of Engineering.
The School of Arts and Science shall include the Departments of Ancient Languages and Literatures, Biology, Business Administration, Chemistry, English, History and Economics, Mathematics, Military Science and Tactics, Mineralogy and Geology, Modern Languages and Literatures, Physical Training, Physics, Psychology and Education.

The School of Agriculture shall include the Departments of Agronomy, Animal Husbandry, Bacteriology and Hygiene, Agricultural Chemistry, Horticulture, Soil Bacteriology, Plant Physiology, Plant Pathology, and Poultry Husbandry.

The School of Engineering shall include the Divisions of Civil Engineering, Chemical Engineering, Electrical Engineering and Mechanical Engineering.

All changes in this classification or assignment of new departments are to be determined by the Council of Administration.

3. That the School Faculties shall consist of the President, ex-officio, the Dean (who shall be the presiding officer) and all members of the teaching staff whose departments belong to the school, and one representative from every other department giving a required course in the school—this representative to be designated by the head of the department.

4. That the School Faculties have jurisdiction over the internal affairs of the school, such as entrance requirements, curricula, instruction, examinations, etc., subject to the ratification of the Council of Administration.

5. That the School Faculties shall hold at least one regular, stated meeting each month at such times as they may decide, and special meetings as may be necessary at the call of the Dean.

An accurate and complete record of all proceedings shall be kept and a copy filed with the Secretary of the Council of Administration within five days after each meeting.

6. That there be a Council of Administration to consist of the President and the Deans of the several schools who shall be permanent members, and two members from each School Faculty who shall be elected by ballot at the regular meeting of the college year, for the term of one year, but no elective member shall be eligible to succeed himself.

7. The Council of Administration shall have final jurisdiction on all matters pertaining to the general policy and discipline of the

college, and shall have the right of review of all actions of the School Faculties.

8. Joint meetings of the School Faculties may be called at the discretion of the President.

"Ag" Club Elects Officers

At the meeting of the "Ag" Club, Thursday night, May 3, the following officers were elected:

President, N. W. Taylor.

Vice-President, F. B. Martinis.

Secretary, G. M. Longland.

Treasurer, C. S. Holland

The absence of many of the members was noticeable. There were no speakers scheduled for the occasion. It was proposed to abandon the program laid out at last week's meeting whereby several prominent agriculturists such as Marvel, Bangroft, Dixon and Soper would speak at future meetings, in view of the fact that so many of the students have left college.

DIRECTORY OF ADVERTISERS

We believe in reciprocity. "If you deal with us, we will deal with you" is a fair and square business proposition.

The Review is dependent upon its advertisers. Without their help in the form of advertisements it could not be published. Therefore it is only right and proper that the students and entire constituency of the College should patronize those concerns which patronize the Review. Your trade and business dealings should preferably go to them.

Below is a classified list of those advertisements which appear in "Our" paper and "Your" paper. Look it over and then follow that doctrine of Reciprocity.
