2 Does it Pay to **3** Use an Old Directory

WRONG

In any live, hustling, growing city there are continual changes. People going, coming, and moving; careful comparison of a new directory with an old directory will show there are 66 per cent. of such changes.

Can you afford to use a directory that is 2-3 wrong?

The new directory is accurate and contains the latest information. The old directory will lead you astray 66 times out of every 100.

Keep abreast of the times
by always using the
latest directory published

1
3
RIGHT

BLOCK DIRECTORY

Giving the Name of the Head of each Numbered House
in the Built-up Part of the City.

On Streets running in a Northerly or Southerly direction the *odd* numbers, such as 101, 205, 307, &c., are on the *Westerly* side of the Street, and the *even* numbers, such as 100, 402, 704, &c., are on the *Easterly* side of the Street.

On Streets running in an Easterly or Westerly direction the *odd* numbers are on the Northerly side of the Street and the *even* numbers are on the Southerly side of the Street.

2 Does it Pay to **3** Use an Old Directory WRONG

In any live, hustling, growing city there are continual changes. People going, coming, and moving; careful comparison of a new directory with an old directory will show there are 66 per cent. of such changes.

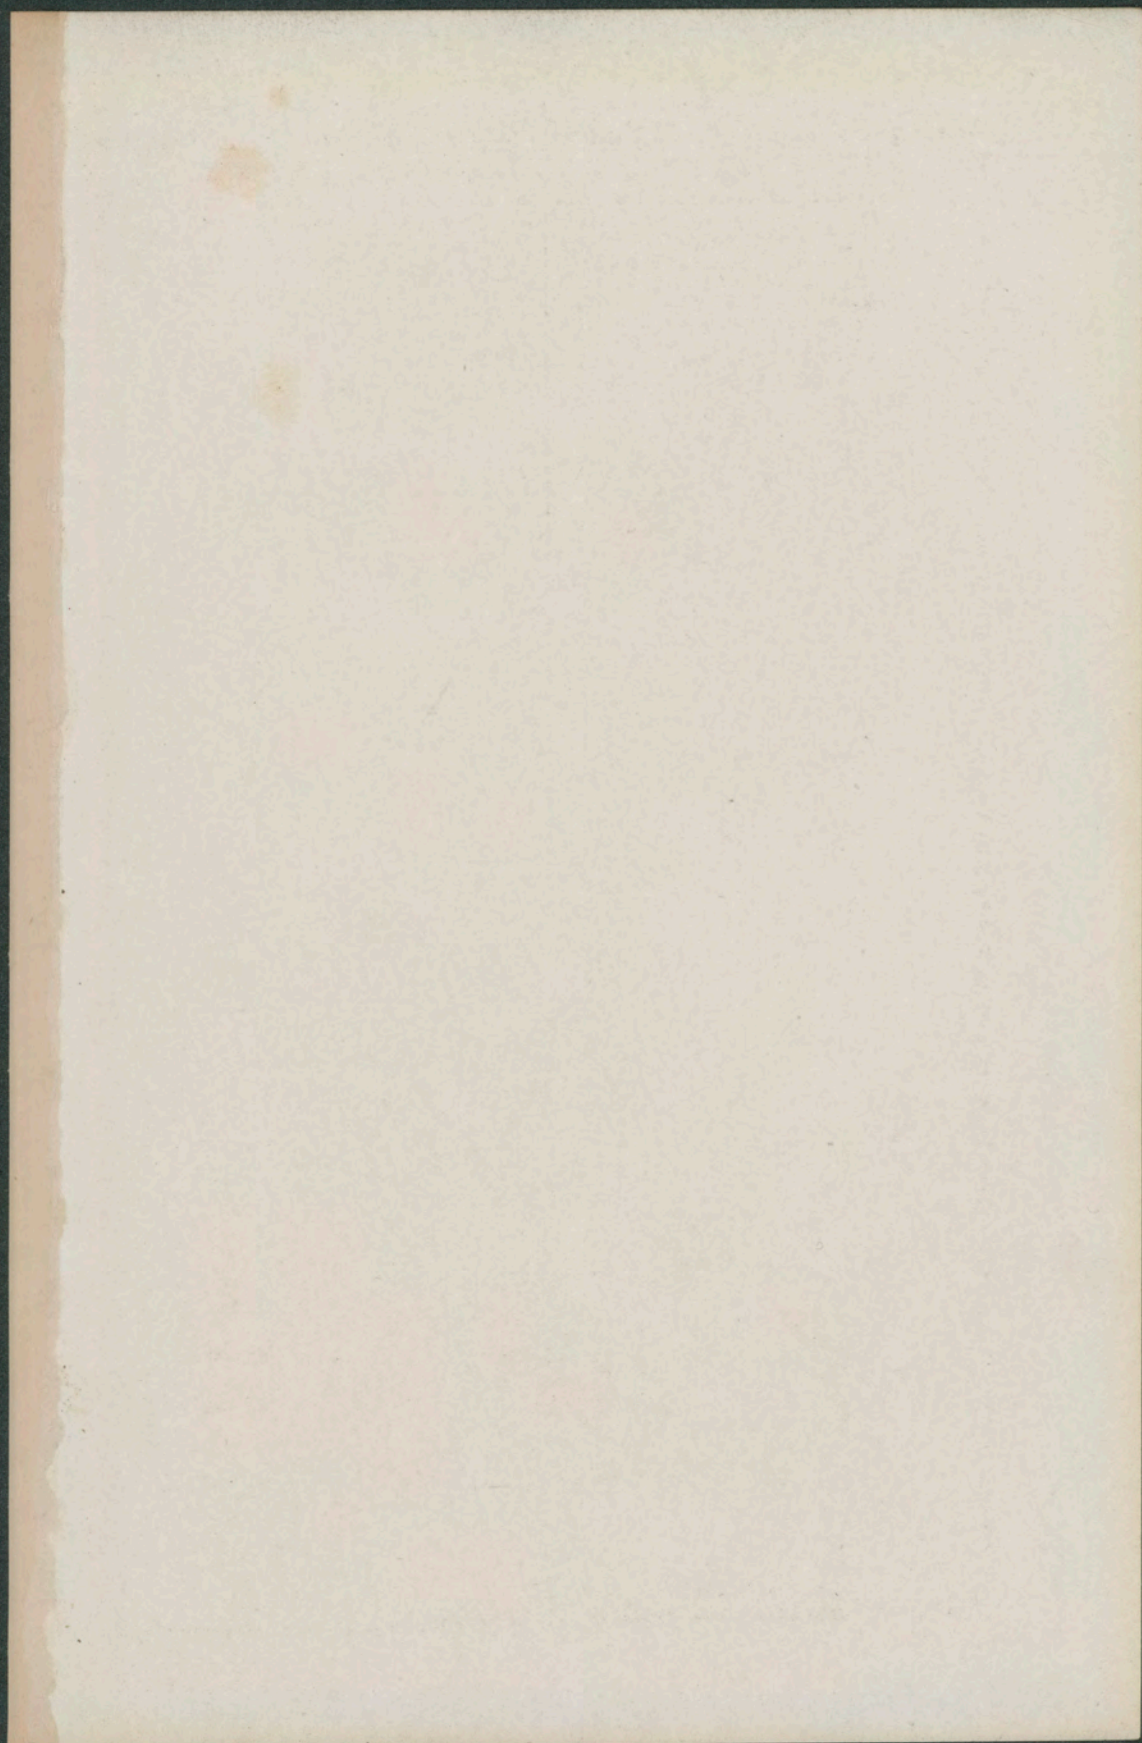

Can you afford to use a directory that is 2-3 wrong?

The new directory is accurate and contains the latest information. The old directory will lead you astray 66 times out of every 100.

Keep abreast of the times
by always using the
latest directory published

Names and Locations of Streets of Wilmington

The city of Wilmington was originally laid out with reference to the two rivers (the Brandywine and Christiana) that flowed along the northern and southern borders, and marked its boundaries in those directions. Since then the channels of its population have widened and overflowed, and the limits of the city have been greatly extended in every direction. The Highlands, Henry Clay, East Lake and other suburbs have been added, and the DuPont's Banks and Rockland are but an outpost of our city, and should be reckoned as a part of it in every estimation of our population and resources.

The streets east of Market, and parallel with it, taken as they number, are:

King, 100	Poplar, 400	Spruce, 700	Buttonw'd, 1000
French, 200	Lombard, 500	Church, 800	Heald, 1100
Walnut, 300	Pine, 600	Locust, 900	Claymont, 1200

The remainder of the streets on the east are not named, but would range, if numbered, as high as 3000 or 3100.

West of Market street, and parallel with it north of Tenth street, are numbered:

Orange, 100	Tatnall, 200	West, 400	Wash'n, 500
	Jefferson, 600		

West of Market street and parallel with it south of Tenth street are numbered:

Shipley, 100	Monroe, 800	Rodney, 1500	Bayard, 2200
Orange, 200	Adams, 900	Clayton, 1600	Woodlawn, 2300
Tatnall, 300	Jackson, 1000	DuPont, 1700	Rodman, 2400
West, 400	Van Buren, 1100	Scott, 1800	Hawley, 2500
Wash'n, 500	Harrison, 1200	Lincoln, 1900	Webb, 2600
Jefferson, 600	Franklin, 1300	Union, 2000	Greenhill, 2700
Madison, 700	Broome, 1400	Grant, 2100	Ford, 2800
	Cleveland, 3000	Gray, 2900	

Beginning at the Christiana bridge, at the foot of Market street, the streets that are at right angles to Market street are Water, Front, and the numerals to Thirty-sixth street, the northern boundary of the city; for example: Water, 1; Front, 100; Second, 200; Third, 300, etc.

On the south side of Market street bridge the streets running east and west, parallel with Front street, are Lobdell, A, B, C, D, E and F, and follow in order, beginning with Lobdell street. The numbered streets that intersect Market street at right angles extend entirely across the city.

In addition to these we have Delaware av, extending from Tatnall street west to Rockford Park, and in the northwestern part of the city, and parallel with Delaware av, we have Gilpin, Shallcross and Lovering avs and Wawaset street. They extend from Adams street west to the park.

In the southwestern part of the city, below Front and parallel with it, we have Chestnut, Elm, Linden, Maple, Sycamore, Beech, Oak, Cedar, Banning and Tunnell streets. All of these extend from Maryland av west to Union street.

The above are the principal streets of the city. There are others of more or less extent and importance, all of which are given and briefly described in the "Alphabetical List."

The numbers of all streets running north and south, or east and west, increase by hundreds, at their intersection with all principal streets, whether the number of houses make a full hundred or not.

The short streets have hundreds corresponding with the main streets with which they are parallel, and begin to number from the intersecting street, having the lowest number or hundred.

The streets at right angles with Market street number each way from it, whether they intersect it or not; and those intersecting it are designated "east" and "west" to denote the direction of a number or place from Market street

The numbers of Market street, and all streets parallel with it above Front, increase toward the north; below Front they increase toward the south. The number of all streets east of Market street and at right angles with it increase toward the east

The numbers of all streets west of Market and at right angles with it increase toward the west

The numbers of all streets running east and west are even on the south side and odd on the north side

The numbers of all streets running north and south are even on the east side, odd on the west

ALPHABETICAL LIST OF STREETS

To facilitate the description of the prominent named streets they are designated as so many squares east and west of the dividing line, Market street, thus: Jackson street 10 squares west means 10 squares west of Market; French 2 squares east means 2 squares east of Market, etc

The numbered streets will be found following alphabetical list of named streets below. From 2d to 11th streets they run consecutively east and west from Market street. From 12th street to city limits a full description is given

A street, south side from Market E to Christiana av
 Adams, 9 squares W, from Maryland av to the Brandywine
 Anchorage, from Beech S W to 9th av, parallel with Maryland av
 Apple, from S Heald E to Claymont N of Lobdell
