COVER STORY

Olde cuisine: Spice up your Thanksgiving

by Nancy Turner

The Pilgrims had built a handful of thatched roof houses and harvested a boun-ty of corn when Plymouth Governor William Bradford called for the first New England Thanksgiving celebration in the autumn of 1621.

Fifty-one Europeans, preparing the feast of in-digenous vegetables and angenous vegetables and grains, were joined at their feast tables by the Indians Samoset and Chief Massasoit and his Wampanoag braves, who provided five freshly kill-ed deer for the occasion. Modeled after the old English harvest feativals and

English harvest festivals and native American Indian corn rites, the event lasted three days and included several hearty meals, sports and In-dian dancing and singing. Amidst a plentiful spread of wild turkey, corn, cranberries and pumpkins, Thanksgiving joined two worlds of people and established one of the earliest documentations of the blending of European cooking technique with American bounty

In England, the Pilgrims had celebrated Harvest Home each fall after the crops were all stored safely for the winter. They feasted on boiled beef, puddings, apple pies, acknown of the store of cakes and ale.

For their corn festivals, the For their corn festivals, the Indians stewed a native American variety of the pum-pkin, which was sweetened with maple syrup. They also made a corn meal porridge mixed with cranberries, a dish that was cooked in a leather pouch hung dangling from a tripod over an open fire.

According to food resear-chers at the Ocean Spray Company in Plymouth, Mass., the one native food of the new land found familiar by the

land found familiar by the Pilgrims was the turkey, which had been introduced to Europe by Spanish explorers a century earlier. If any of the colonists had brought a cookbook to America, researchers believe it would most likely have been "The English Hus-wif" by Gervase Markham, first published in 1615.

published in 1615. For roasting a turkey, Markham instructs, "First the cleanly keeping and scowring of the spits...And if it be birds or fowle which you spit, then to let the spit go through the hollow of the body of the fowle, and to fasten it with pricks or skewers under the wings, about the thighes of the fowle, and at the feet or rump." published in 1615.

Markham warns that "turkies...must have a slow fire, yet a good one, taking leasure in roasting." To make the foreign foods

a car last week. Last month, 10-year-old Norie Werkheiser was struck by a car. She's recover-ing from a broken leg. Both children were hit as they tried to cross Smalley's Dam Road near Freedom Road in Christiana. Two years ago, a man was killed when he was struck by a car at the same loca-tion on Smalley's Dam Road. Residents of the nearby apart-ment complexes want these ac-cidents to stop. More than 100 people showed up during after-noon protests last week to focus attention on the traffic condi-tions on the narrow, winding and heavily used roadway. "We're going to be out here until something is done," said Beverly Oliver, a resident in one of the apartment complexes. "We need anything out here that can stop most of the accidents." Oliver said residents want to see more police patrol along the road to stop speeders. Residents are also trying to get traffic signs, speed bumps and flashing lights along the road. "We have done some minor improvments to the area," said Michelle C. Ackles of the Delaware Division of Highways. Those improvements include trimming back shrubbery and

Those improvements include trimming back shrubbery and placing signs along the road. Those improvements are not

enough, according to residents of the area. Smalley's Dam Road is a two-lane road with no

Gasoline price \$1.06 per gallon

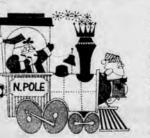

3

Gasoline prices in Delaware will average \$1.06 per gallon during the Thanksgiving holiday, according to a report issued by the Delaware Motor Club.

The figure represents an approximate one cent decrease in the average price per gallon since Labor Day, although it is 13 cents per gallon more than the price

paid during Thanksgiving 1986. The DMC report found that average prices will be: • Full service, \$1.12 for regular grade,

Full service, \$1.12 for regular grade,
\$1.15 for unleaded.
Self service, 91.3 cents for regular,
94.3 cents for unleaded.
Nearly 80 percent of the service stations surveyed in Delaware indicated that they will be closed on Thanksgiving Day. Day.

Justice modifies Raintree order

Spano can finish work on 16 houses

An order forcing a stoppage of ork at Raintree Village near work at Raintree Village near Christiana has now been

modified. The order was issued by New Castle County Executive Rita Castle County Executive Rita Justice because a consultant's study pinpointed construction debris as the cause of methane gas which had seeped into some basements in the village. The order was modified following meetings between Justice and the developer of the site. Thomas Spano.

Justice and the developer of the site, Thomas Spano. Modification of the order allows Spano to finish construc-tion on 16 homes in the develop-ment. Those homes are more than 80 percent complete. When the stop work order was placed on the development, some future residents were con-cerned that closing on the pro-perties would be delayed. Justice says the modification Justice says the modification will allow closing to proceed on those homes near completion.

"It was in the best interest of all to allow him to complete the homes," said Justice. "The county is not desirous of imposing a hardship on anyone, especially the residents." If closing had been delayed on

some of the homes, the homebuyers could have lost their mortgage interest rates and been forced into higher payments.

September when a small explo-sion occurred in one of the homes. State and federal en-viromental officials discovered high levels of the methane in some homes. Residents were evacuated from their homes.

some nomes. Residents were evacuated from their homes, some for nearly a week. The State Department of Natural Resources and En-vironmental Control has ordered Spano to pay all costs of a study and clean-up of the site. The study conducted by a study and clean-up or the site. The study, conducted by TetraTech Richardson, in-dicated that a construction debris landfill in the develop-ment was the source of methane. The consultant is expected to issue apother report in a couple

issue another report in a couple of weeks. The report will release further information about the site and recommend clean-up methods.

"Mr. Spano has agreed to ac-cept that recommendation," said Justice.

Until the clean-up is complete, work will not continue on those homes in the beginning stages of construction.

Justice said it is an unformuate

Gov. Michael N. Castle discusses the state of social services in Delaware.

Castle lauds social services record

Governor says state is taking steps to reduce its infant mortality rate

by Cathy Thomas

Not only is Delaware economically successful, it is also successful at providing social services to citizens in need, according to Gov. Michael N. Castle. Castle spoke Nov. 18 in Newark at a meeting of the State Department of Health and Social Services Advisory Coun-cil.

cll. In praising the volunteer work of the Council members, Castle said the state has taken a leading role in social programs. 'We have become one of the

leaders in recognizing what the problems are," said Castle. Castle serves as chairman of the National Governors Associa-the Vational Governors Association Human Resources Commit-tee. In that role, he has studied the issue of welfare reform

the issue of welfare reform closely. The basic goal of welfare reform is to give those people on welfare the opportunity to make a better life for themselves and their family, Castle said. He added that when a family is taken out of the welfare system, future generations are less likely to depend on welfare. "I'm completely convinced that we're onto a concept whose time has come for a whole number of reasons," said Cas-

Although Delaware has ad-vanced social programs, there are areas of concern. "We do have a very high in-fant mortality rate. It is con-sistently something we've not been very happy about." The fact that Delaware is a small externme show the infant

small state may skew the infant mortality rate somewhat, Castle said. But the state is taking

Oberle seeks to ease burden on workers

Although no official statement has been released by Chrysler headquarters, local union of-ficials say they have been told that 1,700 workers at the Newark plant will be laid off next year.

The layoff will apparently oc-cur while the plant retools for the A-car. The plant currently produces the K-car, which has had sluggish sales.

employees with 30 or more years of service to the Chrysler Cor-poration," said Oberle "These are the men and women who actually manufacture the automobiles we drive on our roadways and they should cer-tainly be considered in any in-centive offers."

centive offers." Oberle said the early retire-ment incentive, if only partially successful, would ease the hard-ship about to be place on many of the unsage of the place on many of the younger employees. Tax modifications, to comple-

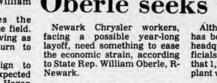

ment such a private sector offering, are now being studied by Oberle.

 \mathbf{I}

The Newark Police Depart-ment will soon be looking for a few good civilians. The 1988 city budget calls for a switch to an all civilian dispatch staff in the police department. Currently police sergeants fill most of the dispatching posi-tions. tions "Civilianization of dispat-ching and communication is a nationwide trend in policing," says Police Chief William Hogan. The plan increases the number of officers in the field. Those officers, now serving as dispatchers, would return to retrolduty.

Oberle has written a letter to Chrysler Chairman Lee Iacoc-ca, asking him to explore ways to ease the financial hardship on displaced workers.

Although no official statement

Oberle said Chrysler has of-fered early retirement incen-tives to management but not to the line employees.

"There are over 400 line

Japanese student settles in at **Caravel Academy**

by David Woolman

There's a small sign on the wall of the Caravel Academy gym, which, like many signs in many gyms in many high schools in the state, lists the names of the girls on the volleyball team. The only thing different about this sign is that half of it is in Japanese. Much of the Japanese portion of the sign bears the names of the players. Keum Soo Cho acts as a translator for the rest. "The poster says 'Caravel number one,' "she says with a giggle. giggle

She should know. She drew the sign

Born and raised in Japan, but of Korean descent, Keum Soo is visiting America through the AFS foreign student exchange program. She is learning much about American eultrus eultrus end in about American culture and, in return, Caravel's volleyball op-ponents are being taught her wicked sidewinder of a serve.

Keum Soo lives with the fami-ly of Laurie Stell, the volleyball coach at Caravel. Until this fall she had not played competitive volleyball, which is extremely

Stell

Betsy Czeiner, co-captain of the volleyball team. "She's always smiling," adds Czeiner. "You could make the worst mistake in the world, and she would say, 'It's alright, don't worry about it.' She's a great person."

person." "She hardly ever gets down on herself," says Stell. Colleen Slater, the other co-captain of the team, agrees. "She doesn't have an attitude at all. She just playe her game, and that's it." plays her game, and that's it." "She just wants to win," says Czeiner. "But if you don't win, she's still funny. Oh, is she fun-

she is still fulliny. On, is she full-ny." "Her talent for volleyball is very rare," adds Slater. Stell agrees. "She picked it up real well....Now she's on the varsity and making a contribution." "If she hadn't come out, we wouldn't have had a setter."

wouldn't have had a setter," says Czeiner. "She's a great asset for the team." Czeiner believes Keum Soo en-

joys playing for the Bucs because of the team's approach to the game, one quite different from the hard-nosed Japanese

approach to the game. "Coming here and playing for a team that's alive rather than going to a practice where you can't talk or can't smile, she loves it,'' says Czeiner. "She likes the people too." Keum Soo said that in Japan, high school teams practice three times a day, often late into the night. Girls must wear their hair very short, are forbidden boyfriends, and worst of all, denied the privilege of dripking denied the privilege of drinking soda

soda. "I don't like it," says Keum Soo. "Sports are to enjoy, but they can't enjoy it. I am so glad. Here I can really enjoy it." She is enjoying more than volleyball in America. "I can ex-press myself here," says Keum Soo. "I feel free." The difference between here and there, to her is more than

and there, to her, is more than just a matter of Japan being a

Caravel is tops, says a sign by Japanese exchange student Keum Soo Cho.

"closed" society. As a female in Japan, Keum As a female in Japan, Keum Soo said she must overcome a longstanding bias that could resrict her future. In her view of America, "women and men (are) equal. I'm surprised (that) school bus drivers are women. I've never seen (that) in Japan."

A further disadvantage she has is her Korean ancestry. Even though she is a Japanese citizen, the number of op-portunities open to her is limited

by prejudice against Koreans. "If I want to get married, or I ant to get a job, it's so different...because my name is Korean." She has to be better than her peers, twice over, as a female and a Korean, just to

succeed at their level. "The experience of just one year changed my way (of look-ing at things)," she says of her

stay in America. She says she doesn't want to be a housewife, she wants a career. Coming to America to do this later in her life is a possibili-ty Keum Soo is considering.

There are some advantages to Japan, outside of it being her homeland, she says. She believes that people there seem to care about each others' feel-

ings more, "so I can't say which (country) is better." In the present, she is taking the opportunity to enjoy the culture and the scenery. "I don't care if I don't get good grades...I can study in Japan." She finds her teammates

She finds her teammates, "very friendly. Individually they are different...but when I need help, they are always kind."

"She loves volleyball," says "She loves volleyball," says Czeiner. "I ask her, 'Do you really like volleyball?" and she said 'I love it. " "You can't find anybody like her "Thereis no see like y was

her. There's no one like Keum Soo."

The Christina School District's James H. Groves High School, its adult evening high school, has received full ac-creditation from the Middle States Association of Colleges and Schools. Christina was informed of the

Christina was informed of the accreditation in a letter from William A. Faunce, chairman of the Middle States Commission

ne Midde States Commission on Secondary Schools. Because Groves is accredited, employers who hire its graduates now have assurance that the school's diploma meets all the quality standards set by Middle States, as well as those set by the State of Delaware. In the big latter Faunce sold

In the his letter, Faunce said, "The Commission staff and I ex-

Groves High School is accredited

Christina administrators pleased by Middle States team's vote of confidence

tend sincere congratulations on the continued recognition of your school as an accredited members of the Middle States Association of Colleges and Schools."

William T. McLain, principal of Christina's Groves school,

said he is delighted by the news. "This is a very important step for our school, and is of extreme importance to our graduates. Our diploma at Groves is as good as any other diploma in Christina School District."

All three of Christina's

regular high schools - Chris-tiana, Glasgow and Newark -are accredited by Middle States,

Groves serves a variety of students, from teenagers to peo-ple in their 80s. Many a grand-parent has graduated from the school.

Grelock attends Capitol conference

Richard Grelock of Newark, a student at Glasgow High School, was one of 300 outstanding high school students selected to at-tend the National Young Leaders Conference held Nov. 17 in Washington D.C. in Washington, D.C.

Throughout the six-day con-

ference, Grelock and other students met with key govern-ment leaders and newsmakers from the three branches of government, the diplomatic corps and the media.

Grelock was greeted by

members of Delaware's Con-gressional delegation, U.S. Rep. Thomas Carper and Senators William Roth and Joseph Biden.

The theme of the conference was "The Leaders of Tomorrow Meeting the Leaders of Today."

such as corn, pumpkin and cranberry taste more familiar, Pilgrim cooks devis-ed ways to prepare the foods in ways similar to the in ways similar to the preparation of favored dishes back home. This becomes quite clear after a glance at Amelia Simmon's "American Cookey" of 1796, the first cookbook to be published by an American author. Most of the recipes in "American Cookery" were borrowed from popular English cookbooks of the period, and the handful of

period, and the handful of recipes which call for distinct-ly American foods remain totally English in method.

In her recipe for "pom-pkin," Simmon directs that one quart of pumpkin be stewed and strained and laid into paste with three pints of cream, nine beaten eggs, sugar, mace, nutmeg and sugar, made, numey and ginger. The past is then cross-ed and checkered with a dough spur and baked in dishes for 45 minutes. This is the earlies recipe known for the American Thanksgiving classic, pum-pkin pie.

pkin pie.

By adding eggs and cream (dairy products were not used in Indian cooking), stewed pumpkin became a custardstyle pudding and the in-troduction of classic pie spices and imported sugar satisfied

the English sweet tooth. Finally, by putting the pum-pkin into a pie crust, a distinc-tly continental tradition, the dish became an elegant dessert completely alien to the native American experience.

The recipe for Indian pud-ding, another classic of the

Thanksgiving table, is also recorded for the first time by Simmon. The characteristic ingredient is corn meal, and through the use of milk, but-ter, eggs and spices the dish is transformed from a plain porridge that was once com-monly hung over the camp-fires of hungry Indians into a

refined European custard. In her book, Simmon also includes the first published recipe for cranberries, one of only three fruits native to American. To make a cranberry tart, she instructs that the bitter berries be "stewed, strained and sweetened, put into (pie pastry) and baked gently." Over the years, Americans have integrated a host of favorites from fruit salads to sweet potatoes to delectable stuffings into the Thanksgiv-

ing feast

From the simple early feast of fish, game and maize, the

2

Much of the current traffic on the road is believed to be motorists turning off Baltimore Pike to use Smalley's Dam Road as a connector to Del. 7. Although clearing for Newtown Road will begin this winter, actual paving of the road will not begin until next spring. For some of the residents, that is not soon enough. "I've been working on this for

the Chesapeake and Delaware Canal to receive rabies shots.

Canal to receive rables shots. Olsen said a statewide animal control bill was propos-ed in the last session of the state legislature, but believes it is doubtful legislators will take us the issue in the upcom-ing special session. He hopes it will be considered early in the regular session next year.

"Hopefully, with the present indication of rables, it will be passed without much fuss and bother," said Olsen.

The outbreak of rabies began West Virginia four or five

two years as manager of the pro-perty and getting nowhere," said Debbie Alexander, manager of the Lexington Green Apartments. Alexander said many apart-

'Quality of Life' bills very important

On Dec. 7, 1787, in Dover, thirty elected delegates voted to ratify the United State's Con-stitution, and thus we became the First State to declare our commitment to the future

On Dec. 8 of this year, two hundred years and a day after that historic event, elected Delawareans will again meet in Dover to cast a vote for the future - this time the future of our state.

I have called the General Assembly into special session on that day to work on an important package of legislation, bills which will ensure a strong measure of protection for the quality of life that Delawareans now enjoy.

now enjoy. This "Quality of Life" package, as it is known, will help assure adequate roads in the

future, and give each county the tools it needs to manage development and growth in the interest of all its citizens. New Castle Countians are well aware of the problems that have sprung up around the new Chris-

Soviets

Afghans brutalized

To the Editor: December marks the 8th an-niversary of the Soviet invasion of Afghanistan. A war that many thought would end in a quick vic-tory, for the Red Army. The tory for the Red Army. The Soviets frustrated and failing to win the war, have restored to massacring the civilian population of Afghanistan.

The following story of a sur-viving victim of a massacre by the Soviet soldiers has been derived from a shocking and concience-raising book by Jane Goodwin, "Caught in the Goodwin, Crossfire."

"It was early in the morning; we heard the tanks and helicopters....We thought they had come to conscript the men. This had happened before, so I hid in the storage cave at the back of our house. I thought my wife and my children would be safe. Seven Russians came into my house armed with machine guns. I could see the faces of the ldiers; they were too young to ave beards. They were

provements. With these new laws enacted, we will be able to avoid similar problems in the future

I introduced these bills in June, and the General Assembly moved quickly on one of them, legislation creating a Tran-portation Trust Fund to provide financing for highway projects. By dedicating some of the highway and fuel taxes the state collects, we will be better able to provide good, safe roads in the future.

The other bills have been the subject of numerous public hearings and extensive debate since June, and have been refin-ed and improved as a result. It is those bills the General Assembly will consider on Dec. 8, and I want to describe what there do

8, and 1 want to describe what they do:
 First, they require each county to pass a new com-prehensive plan by 1990, to up-date that plan five years later, and then every decade.

These new plans will give citizens an opportunity to decide where and how their com-

munities should grow, and what kind of development is ap-propriate. The state will establish minimum standards for those plans, so that there is a consistent standard for planning and zoning statewide.

 Second, we have proposed legislation which would improve the process by which counties notify state and local agencies of zoning changes being con-sidered, and by which state agencies provide technical in-formation relevant to proposed formation relevant to proposed

We would require state agen-We would require information cies to provide that information in time for local planners to use it, and then require county planners to explain any decisions to ignore recommendations to the

ignore recommendations to the contrary. In that way, the citizens of each county will know that zon-ing decisions are made based on facts, and that planners have good reasons for every zoning decision decision.

• We would set the same high standard for changes in the com-prehensive plan itself, but by requiring a two-thirds vote of county council or levy court to approve those plans.

In that way, we would protect

In that way, we would protect the comprehensive plan — developed throughout years of work and public input — from unwarranted changes. In other words, someone who wanted to change your decision about growth and development would have to convince an over-whelming majority of your elected officials that the change was good for the county. was good for the county

OPINION

It's time for Newark to build a new center for the arts

by Neil Thomas

All dressed up and no place

All dressed up and no place to go. That's a colorful phrase that well describes the state of the arts, particularly the perform-ing arts, here in Greater Newark. "The talent," says Priscilla Payson, director of the well-regarded Delaware Dance Company, "is here in abun-dance. It just needs a little bit of help."

Help in the form of publicity. Help in the form of a showcase. Help in the form of a showcase. Payson believes — and I agree with her — that the time has come for Newarkers to back the architem head-on.

tackle the problem head-on. What set her off was a com-ment by a Wilmingtonian that Newark has no culture and no class. The clear implication was that we're a bunch of hicks.

Payson, who has spent more

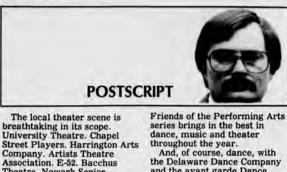

George Thoroughgood and Tommy Conwell.

than a decade building a high-quality dance company, was not amused by the comment. One need just look around to find that the talent here is in-credible.

redible. Internationally-renowned opera stars Katherine and Kristine Ciesinski hall from Newark, and received their earliest musical interest and

earliest musical interest and training from Newarkers. The city has its own Newark Symphony Orchestra, and pro-vides strong support for the Delaware Symphony. It also backs the Newark Community Band and the First State Sym-banic Read as well as too phonic Band, as well as top notch pops and classical groups.

Even rock and roll has a strong base here, Newark hav-ing produced such stars as

Theatre. Newark Senior Network.

Players. Perkins Student Center productions, complete with New York City stars. The University of Delaware's

throughout the year. And, of course, dance, with the Delaware Dance Company and the avant garde Dance

That is not to mention the scores of talented painters, sculptors, textile artists and

photographers who live here. I hope I haven't left anyone out, but I'm.short of breath and I think the point is made. Newark has plenty of talent. Culture thrives here. We just haven't done a very good job promoting it. So what to do? Two things, I think. The first step is to form a Newark arts council or com-mission of some kind. The folks over in Cecil County, Md. form-ed a council several years ago and the organization has done absolute wonders for their arts

absolute wonders for their arts scene. There is no reason we can't do the same. can't do the same. The second step, and the most challenging and potential-ly rewarding, is construction of an arts center. Such a center is badly need-ed. The University of Delaware's Mitchell Hall is well past its prime, and as

Payson found out the hard way it cannot accomodate the han-

it cannot accomodate the nan-dicanned. Payson says an adequate center could be built for about \$3.5 million. How to raise the funds and where a center should be built are questions open to discussion. Perhaps a coalition of city, university, business and community in-terests could be formed to secure the money.

terests could be formed to secure the money. There is no doubt the money would be well spent. A recent Delaware State Arts Council report showed that the arts generate a great deal of revenue, and Newark could easily benefit from before- and after-show diners and shoppers. Here's a strong vote in favor of both an arts council

favor of both an arts council and a new performing arts center. I'd like to hear your views on the matter.
