Prayer by the Rev. Charles W. Spry: Our Merciful Father! We pray for all who hold public office and power, in whose hands rests the life, welfare, and virtue of the people. Give our leaders a vision of the possible future of our country. Enlarge the scope of our brotherhood. Give us patience when we are misunderstood and our sincerity is doubted. Endue us with the spirit of humility and service. Hold us true to those principles which mean the largest measure of happiness and security for all people. Sweep, Thou, from all human hearts the gloom of doubt, the blackness of envy, and the poison of hate. Breathe Thy life into people. Purge our cities,

States and Nation of the deep causes of corruption which make sin profitable and uprightness hard. Prayer by the Chaplain, Rev. Clifford L. Brain: Our Blessed God and our Heavenly Father, we draw nigh unto Thee in prayer in the Name of the Lord Jesus Christ. How we praise Thee for our many Blessings that Thou hast laid upon us. For food, shelter, clothing, needs of the soul, as well as the body. Prayer by the Chaplain, Rev. Clifford L. Brain: Minister unto us again we pray Thee, our Father and God. Help us in all of our activities, that we may please Thee, and give a good account of them before men. Lay Thy healing Hand upon the sick ones of our friends and loved ones, as well as all who are in need of body, soul and spirit. Guide this session with Thy tender Hand and give us all discernment and direction, in dealing with such matters as may come before us. May we be quick to see the folly of time wasted in any walk of life, for all we are sure of is now. The past is gone, the future, being in Thy Hands may not reach us. Thus we must redeem the time for the days are evil. Help us, we pray, to this end in Jesus' Name. Amen.

The Governor delivered the following message to the Senate, which the Chair ordered the Reading Clerk to read, and which follows:

**GOVERNOR'S MESSAGE  
STATE OF DELAWARE  
EXECUTIVE DEPARTMENT**

Dover, July 19, 1957

To the Senate of the State of Delaware:

As members of the General Assembly of Delaware, I know you share my grave concern over the gradual but persistent erosion of the rights and responsibilities of our sovereign states. Every thoughtful citizen will agree that this presents a dangerous threat to the preservation of individual freedom—our most cherished possession.

Government is most effective, and it is most responsive to the will of the people, when it is carried out at the level closest to the people. The wise patriots who wrote our Federal Constitution were well aware of this fundamental truth. They endeavored to bind it into our fabric of Government by reserving to the states and communities all powers not specifically bestowed upon the Federal system.

Our generation has witnessed an accelerating surrender of these powers to the central government. It serves no purpose to debate whether the transfer was by gift or by seizure. The question before us is whether—and how—this trend can be reversed before it is too late. I firmly believe the people of Delaware want to make their own decisions on their own problems, rather than have this done in Washington.

We now have an opportunity to make a start in this direction. At the Conference of Governors which I attended as the representative of Delaware last month in Williamsburg, Virginia, the President of the United States took the initiative in proposing a cooperative effort to restore to the states those responsibilities which the states are willing to reassume.

The result has been the appointment of a bi-partisan committee of nine Governors to work with representatives of the President as a task force with three responsibilities which he outlined as follows:

“One—to designate functions which the States are ready and willing to assume and finance that are now performed or financed wholly or in part by the Federal Government;

“Two—to recommend the Federal and State revenue adjustments required to enable the States to assume such functions; and

“Three—to identify functions and responsibilities likely to require State or Federal attention in the future and to recommend the level of State effort, or Federal effort, or both, that will be needed to assure effective action.”

The importance of this undertaking to the people of Delaware can scarcely be over-emphasized. Certainly no one would deny that the municipal authorities in our cities and towns, and the General Assembly for our State, are in a better position than the Congress to decide what should be done about carrying on functions of a state or local character.

Nor can we afford to overlook the financial question presented. Our state and municipal treasuries are sorely pressed to meet rising expenditures in fulfilling the needs of our expanding population. We are reluctant to ask for new or increased revenues at the state and local level because we know how heavily our citizens are burdened by Federal taxation. Yet the latest figures available tell us that in 1955, the Federal Government collected \$779,010,000 from the citizens and industries of Delaware. In return, our state and local Governments received only \$8,100,000 in Federal grants-in-aid, while Federal payments to individuals and institutions in our state amounted to only, \$2,600,000.

As President Eisenhower told us at Williamsburg, and I quote again from his speech: "This effort presupposes that Federal taxes would be cut more than State taxes would be raised to support the transferred functions. The elimination of Federal overhead—stopping, in other words, the 'freight charges' on money being hauled from the States to Washington and back (a bill, I remind you, that is always collected in full)—would save the American taxpayer a tidy sum."

So the purpose of this message today is to recommend that the General Assembly of the First State be the first in the nation to offer its support and cooperation for this movement to restore to the States those rights and responsibilities which are properly theirs. I am confident that an appropriate resolution of support would not only meet with the approval of our citizens, but would also lend encouragement to those who are actively engaged in this effort.

May I offer my congratulations to members of the General Assembly for returning in session today for the transaction of such legislative business as may be deemed necessary and desirable at this time for the proper operation of our State government in the best interests and welfare of the citizens of Delaware.

Respectfully submitted,

J. CALEB BOGGS, Governor

**GOVERNOR'S MESSAGE**  
**STATE OF DELAWARE**  
**EXECUTIVE DEPARTMENT**

Dover, Del., August 14, 1957

The Honorable David P. Buckson  
Lieutenant Governor of the State of Delaware  
President of the Senate, 119th General Assembly  
Legislative Hall, Dover, Delaware

Dear Governor Buckson:

Pursuant to the authority vested in me by Section 3, Article IV of the Constitution of the State of Delaware, as amended, I herewith address to you this public letter informing you that I intend to submit to the Senate for confirmation the name of Honorable James B. Carey, resident in Georgetown, Delaware, as Associate Judge of the Superior Court and the Orphans' Court of the State of Delaware, in and for Sussex County, for a term of twelve years and to succeed himself to that office. Judge Carey's term expired on August 13, 1957.

For the purpose of confirming this appointment and the transaction of such other executive business as may come before it, I shall convene the Senate of the 119th General Assembly of the State of Delaware, on Wednesday the 28th day of August, 1957, at 4:00 P. M., Eastern Daylight Saving Time, at Legislative Hall, Dover, Delaware.

Sincerely yours,

J. CALEB BOGGS

Mr. Reilly introduced the following concurrent resolution, which on his further motion was adopted, and ordered by the Chair to the House for concurrence: **SCR 31**—"Fixing the Time for Temporary Adjournment by the Senate and the House of Representatives of the 119th General Assembly."

**BE IT RESOLVED** by the Senate of the 119th General Assembly, the House of Representatives concurring therein, that both the Senate and the House adjourn temporarily at the conclusion of business on the 96th Legislative Day, and that the Senate and the House reconvene on Monday, January 6, 1958, at 1:00 P. M., for whatever purposes they determine, provided however, that the Senate may be convened at any time upon the call of the President Pro Tempore for the purpose of receiving and acting upon appointments by the Governor, and further provided that the Senate and House may be reconvened at any time upon the call of the President Pro Tempore and the Speaker of the House.

The following bill was reported by the majority of the Committee on Private Corporations as follows: **SB 369**, 3 favorable, 1 on merits.

On motion of Mr. Reilly, **SB 369**—"An Act Further Providing for the Issuance of Bonds of the State of Delaware Authorized by Chapters 449 and 529 of Volume 50, Laws of Delaware, and Relating to the Interest Rate," was taken up for consideration and read a third time by title in order to pass the Senate.

On the question, "Shall the Bill pass the Senate," the yeas and nays were ordered, which being taken, were as follows:

**YEAS**—Messrs. Behen, Cook, Correll, Harrison, Hickman, Johnson, Lammot, Nechay, Reilly, Tull, Williams, Mr. President Pro Tem—12.

**NAYS**—Messrs. Gray, Hoey, Pryor—3.

**ABSENT**—Messrs. McCullough and Melson.

So the question was decided in the negative and the bill: **SB 369**, not having received the required constitutional majority, was lost.

Prior to the announcement of the roll call by the Secretary, Messrs. Reilly and Johnson requested the Chair that their votes be changed from yea to nay.

On motion by Mr. Reilly, motion prevailing, **SB 369** was restored to the calendar.

The Chief Clerk of the House informed the Senate that the House had concurred in **SB 173**.

On motion of Mr. Cook, the Senate recessed at 9:35 P. M., until call of the Chair.

Senate met at expiration of recess at 10:05 P. M.

President Pro Tempore presiding.

Messrs. Melson and McCullough asked to be marked present.

On motion of Mr. Reilly, **SB 369**—"An Act Further Providing for the Issuance of Bonds of the State of Delaware Authorized by Chapters 449 and 529 of Volume 50, Laws of Delaware, and Relating to the Interest Rate," was again taken up for consideration in order to pass the Senate.

On the question, "Shall the Bill pass the Senate," the yeas and nays were ordered, which being taken, were as follows:

**YEAS**—Messrs. Behen, Cook, Correll, Harrison, Hickman, Johnson, Lammot, McCullough, Melson, Nechay, Reilly, Tull, Williams, Mr. President Pro Tem—14.

**NAYS**—Messrs. Gray and Hoey—2.

**ABSENT**—Mr. Pryor—1.

So the question was decided in the affirmative and the bill: **SB 369**, having received the required constitutional majority, passed the Senate and was ordered to the House for concurrence.

The Chief Clerk of the House informed the Senate that the House had concurred in **SB 369** and **SCR 31**.

On motion of Mr. Reilly, the Senate recessed at 10:10 P. M., until call of the Chair.

Senate met at expiration of recess at 10:55 P. M.

President Pro Tempore presiding.

The Chair announced the signing of **SB 369** and **SCR 31**.

The following bill was introduced, given reading by title only, and referred to committee as follows:

**SB 370**—"An Act to Amend Chapter 25, Title 29, Delaware Code, Relating to the Attorney General by Increasing the Salaries of the Deputy of Kent County," by Cook; to Judiciary.

The following bill was reported by the majority of the Committee on Judiciary: **SB 370**, 3 favorable.

Upon privilege of the floor, Mr. McCullough questioned the propriety of the consideration of **SB 370** for passage, since, as he pointed out, this day's session was, by general agreement, specifically dedicated to the consideration and passage of the bill concerning the interest rate on bonds issued by the State of Delaware.

On motion of Mr. Reilly, the Senate recessed at 11:00 P. M., until call of the Chair.

Senate met at expiration of recess at 11:10 P. M.

President Pro Tempore presiding.

Upon privilege of the floor, Mr. Melson spoke briefly upon the present financial situation of the State, noting with concern the rising rate of its indebtedness, and expressing his concurrence with Mr. Hoey, Chairman of the Finance Committee, upon this situation. Mr. McCullough, also being granted the privilege of the floor, spoke briefly upon the same matter.

On motion of Mr. Cook, **SB 370**—"An Act to Amend Chapter 25, Title 29, Delaware Code, Relating to the Attorney General by Increasing the Salaries of the Deputy of Kent County," was taken up for consideration and read a third time by title in order to pass the Senate.

On motion of Mr. McCullough, **SB 370** was deferred.

On motion of Mr. Cook, the Senate adjourned at 11:20 P. M., pursuant to the provisions of **SCR 31**, introduced and adopted, and concurred in by the House, this legislative day.

### GOVERNOR'S MESSAGE

#### TO THE SPECIAL SESSION OF THE 119TH GENERAL ASSEMBLY—DECEMBER 3, 1957

Mr. President, Mr. Speaker and Distinguished Members of the 119th General Assembly of the State of Delaware:

I very much appreciate your presence here today in response to my Proclamation of November 25 calling the 119th General Assembly into session for the purpose of considering and acting upon legislation to balance the budget of the State of Delaware, to maintain its necessary and essential public services and preserve the credit of the State.

The present financial situation of the State of Delaware is extremely serious. Appropriate legislative remedial action is necessary at the earliest possible date in order to serve the best interests of the State of Delaware and its more than 400,000 citizens.

In order to meet and satisfy the financial obligations of this State during the past two months it has been necessary for the State's fiscal officers to borrow \$7,000,000 through the sale of short term deficiency notes. The authority and the responsibility for the fiscal officers to sell such deficiency notes in order to meet current financial obligations was imposed upon them through legislation enacted by this General Assembly.

The unexpended balance of the \$7,000,000 already borrowed, when added to anticipated December revenues, will again be insufficient to satisfy December's debt service requirements and other fully authorized and properly incurred expenditures. Consequently some of December's obligations either will not be met or further deficiency borrowing must be made.

The four largest banks in Delaware, recognizing this situation, have offered to purchase as a syndicate another deficiency note in the amount of \$5,000,000. However if this note is sold by the State's fiscal officers it will bear a due date or maturity of January 31, 1958. Because it appears certain that December and January revenues will be wholly inadequate to pay off the proposed \$5,000,000 deficiency note and other bond and note obligations due on or before January 31, and at the same time meet payroll, pension and other obligations, the fiscal officers delayed a decision on the borrowing of the additional \$5,000,000.

This decision with respect to further borrowing was held in abeyance pending an opinion requested from the Attorney General of Delaware on various aspects of our fiscal situation and with special reference to fixed debt service obliga-

tions. Only last evening I was informed by the Attorney General that in so long as funds may continue to be borrowed, General Fund revenues must be used to meet financial obligations as they arise and are presented for payment, without consideration of the category of indebtedness. Consequently the \$5,000,000 will be borrowed and the urgency for your prompt action becomes even greater.

Before issuing a Proclamation convening the General Assembly today all available information on Delaware's financial problem was presented to the Joint Legislative Finance Committee. This committee extended every courtesy to me and carefully reviewed the facts, but a majority thereof voted against any action to reconvene the General Assembly prior to next January.

All available facts were also presented to the legislative leaders with a request that the General Assembly be reconvened in December, such action to be taken under the authority contained in Senate Concurrent Resolution No. 31 of August 14, 1957. These legislative leaders informed me that they had arrived at a conclusion not to exercise the authority contained in the Concurrent Resolution and to wait until January before meeting to consider and bring into balance the State's budget.

My further review of this situation caused me as the Chief Executive to conclude that such further delay was detrimental to the best interest of this State and its people and represented a further endangering of Delaware's present and future credit standing through the very real possibility of default on Delaware's bonds—of which approximately \$130,000,000 are outstanding—or on its short term notes.

This conclusion is substantiated by the fact that estimated funds available for expenditure in December and January total only about \$6,000,000 whereas estimated expenditures total about \$13,600,000. It is important to point out that the latter figure includes the \$4,000,000 borrowed on November 29 and due on January 29, but does not include the \$5,000,000 offered by the Delaware banking syndicate on which the due date would be January 31.

Those figures describe the situation faced for this month and next. Should this situation be permitted to continue, which I am sure you will agree with me is unthinkable, it is estimated on the basis of present circumstances and existing facts that the State would have a \$20,000,000 deficit by the end of this biennium on June 30, 1959—which is less than nineteen months from today.

In view of the foregoing I repeat here today a statement contained in my Proclamation of November 25. That statement was as follows: "Every passing day compounds the State's critical financial situation, makes solutions more costly and more difficult to accomplish, and creates additional problems for our entire economy."

It therefore appears clear that it was necessary and proper for me to convene this General Assembly without further delay and that it is imperative that appropriate remedial legislation action be taken at the earliest date possible.

Many people have asked why Delaware is in this critical fiscal situation. They are certainly entitled to an answer.

Basically, Delaware is in this situation because:

(1) Nearly all levels of government are presently faced with revenues lower than had been anticipated.

(2) Delaware has grown very rapidly in population, in industrial development, and in the public desire and demand for more and better public services.

(3) Delaware has not improved its fiscal organization and operation to provide the controls to cope with today's large fiscal affairs. The Department of Finance which I have repeatedly recommended would have substantially corrected this situation.

(4) Our State should have been operating on an annual budget instead of a biennial one. I am glad to report that a Constitutional amendment to bring this about is awaiting final approval.

(5) Authorized appropriations are greater than revenue being received. The appropriations were more than I recommended and the revenue coming in is less than I estimated. Both the Governor and the Legislature have a responsibility in this regard.

The facts are that the 118th and 119th General Assembly appropriated \$17,981,828 more than I recommended, except that I did recommend \$11,200,000 for authorized capital improvements in the event revenue estimates materialized. My recommendations also included \$3,300,000 for additional educational units due to increased school enrollment. The 119th General Assembly did not appropriate for this but authorized this expenditure in addition to all other appropriations. Thus this makes the total authorized expenditures for this biennium \$137,950,156.83 without any provision for capital improvements in lieu of the sale of bonds. While my estimate of revenue is not materializing, yet if my budget recommendations to both the 118th and 119th General Assemblies had been followed, the State of Delaware at this date would not be in the present fiscal crisis. Furthermore, the 119th General Assembly apparently concurred in my estimates of revenue, otherwise it would have revised the estimates because the statute requires an approved estimate of revenues by the General Assembly. The 118th General Assembly recognized this responsibility and established its own revenue estimates.

Our present critical fiscal situation should provide the impetus which will result in action to prevent a recurrence. I shall renew many of my recommendations and make additional ones dedicated to this objective.

Each member of the General Assembly has at his desk, or has previously been given a copy of the voluminous statistics which have been prepared relative to this situation and the problem at hand. This material has been provided for your study and use because only the Legislature has the power and authority to take the actions required to end this emergency.

Although I realize that my recommendations have been generally disregarded in the past, I am making some suggestions today for your consideration in meeting this crisis. I shall also continue to do everything I can to be of help to the Legislature in meeting its responsibility.

Serious though our problem is, I respectfully direct your attention to a number of matters which in my opinion should be reviewed and recognized before I submit my recommendations.

Always have confidence in America, in Delaware, and in our people and appreciation for our economic system and the freedom we enjoy. There may be a leveling off in business activity, but I feel sure the future is bright and offers great promise.

Always keep Delaware a good place in which to live, work and do business—both today and in the future.

Remember that our population and industrial growth in Delaware have been enormous in recent years and that we may anticipate a continuing growth at a dynamic rate.

Recognize that living and doing business, including farming, successfully today is keyed in many ways to good up-to-date public service. Thus governmental services in the areas of education, health, welfare, highways, agriculture and recreation must be practically planned and expanded with vision rather than downgraded or contracted to fit an out-moded pattern of revenue.

Remember that the combination of local and State Taxes in Delaware is about the lowest in the nation.

Keep in mind the fact that most of us favor a strong State government position as distinguished from a too powerful Federal Government. Yet at the present time nearly 20% of the adjusted gross income of Delaware taxables is paid to the Federal government whereas normal Delaware General Fund revenues represent less than 6% of such gross income. Another example is that at present on the first \$1000 of net personal income only \$10 a year is collected by the State of Delaware compared with \$200 a year by the Federal government.

We must recognize that the great majority of our people want and need good State services and realize that this is impossible without paying for such services. We may well confuse the natural desire of people for the lowest possible taxes with their desire for the lowest possible taxes consistent with adequate State services and facilities.

A final but very important factor to have in mind is that local government over the years, and especially recently, has shifted more and more public services to the State. This necessarily increases State expenses.

Again I respectfully request that you bear all those matters in mind as you evaluate and act in accordance with our present fiscal problem.

If the good name and reputation of the State of Delaware are to be jeopardized as a result of allowing this crisis to continue, the decision to do so will not be mine. The decision for Delaware at this time rests in the General Assembly under our Constitution and statutes.

The General Assembly should have two objectives:

(1) to balance the budget and provide adequate working capital, and

(2) to provide an improved fiscal system to prevent a reoccurrence of the present situation.

In an effort to contribute toward the fulfillment of the first legislative objective I have suggested immediately above, it will be recalled that I have already requested the administrative heads of every State agency to eliminate totally at this time all expenditures not absolutely essential.

In a further effort to be of service to the General Assembly and to the people of Delaware, and in my capacity as Chief Executive of this State, I respectfully submit the following recommendations for your consideration:

A review by the Legislature of all unexpended appropriations which it approved earlier this year to be followed by such action as it considers feasible and appropriate as to any reduction of such appropriations.

A review by the Legislature of the adequacy under existing circumstances of present rates with respect to all taxes and fees. In this connection I suggest an earnest and careful review and study by every member of the General Assembly of the report submitted by McKinsey & Company in November 1954 entitled "Fiscal Affairs in Delaware." A study of that report will provide the Legislature with an analysis of the revenues which may be derived from existing taxes with adjustments in rates and from sources not yet utilized in this State. Taxes and fees discussed and evaluated in this report include: general and selective sales, corporate income, corporate franchise, personal income, inheritance and estate, pari-mutuel and admissions, motor fuel, insurance, as well as automobile registration, liquor and cigarette.

Specific consideration of a moderate adjustment in personal income tax rates and the imposition of a moderate tax upon the net profits of corporations conducting business in Delaware. These possibilities for increased revenue merit your special consideration because, as the McKinsey report

reflects, they are productive of relatively large amounts of revenue without delay and with comparative ease as to collection.

The enactment of legislation to create a long-needed Department of Finance to place better controls on the State's fiscal affairs, including the recommendation for a system of quarterly allotments of appropriations.

Appropriate action to create a commission, or other body, competent and charged with the responsibility to review the entire revenue situation of this State as it now exists by our statutes; to review the program by which our State now finances schools, highway and other capital improvements; and to report and recommend to the 120th General Assembly when it first convenes a complete fiscal program for adoption by the State of Delaware;

Any other appropriate action to balance the budget of the State of Delaware, including consideration of the imposition of taxes not mentioned heretofore.

There may be those who will contemplate the achievement of some partisan political advantage from the recommendations I have made. If there be such—and it already appears that distorted, defensive and guilt-conscious statements are emanating from the majority party—I suggest that this is a time when the people expect political partisanship to give way to the public interest.

The control of both the 118th and 119 General Assemblies has been held by the Democratic Party. The Governor has been Republican. Most of the Governor's fiscal recommendations have been ignored by the Legislature. I recognize that as being a prerogative of the Legislature, but having done so it must accept the responsibility for the results it created.

It is now my urgent recommendation that we join together without partisanship to serve the public interest and the needs of this State and its people. To accomplish that goal I pledge my fullest cooperation.

The Governor's message and the report of the Bi-Partisan Committee concerning the State's financial situation follows herewith:

### GOVERNOR'S MESSAGE

December 12, 1957

To the 119th General Assembly of the State of Delaware:

I am enclosing herewith the report to the Governor and the Legislature of a bi-partisan committee selected to study the State's financial situation.

I endorse, and recommend for your fullest consideration, this committee's report as offering a proper course to solve Delaware's present serious fiscal problem.

Bills to implement the recommendations of the study committee and its suggested program of action are being presented today to the House of Representatives for legislative consideration. It is hoped that these bills may be introduced with joint sponsorship in order to continue the bi-partisan approach which has now been established and to serve the best interests of the State of Delaware.

These bills include:

(1) A bill to repeal the revolving school sites and architects fund at a saving of \$233,713.50.

(2) A bill repealing the State's obligation to pay certain registration and election expenses at a saving of \$208,000.

(3) A bill to suspend appropriations and spending authorizations for fiscal 1959 until a further review and re-evaluation of them may be made with a view to an estimated \$4 million reduction.

(4) A bill to suspend indefinitely certain General Fund public works projects not considered urgent at this time at a saving of \$602,120.45.

(5) A bill to revert \$50,000 to the General Fund from the New Castle Historic Buildings Commission, providing a saving in that amount.

(6) A bill to give the State Tax Department ninety days within which to audit tax returns and make refunds, where necessary, before any interest on refunds is to be credited. This should provide a saving of several thousand dollars.

(7) Two bills amending the authority of the Board of Trustees for the Delaware State Hospital and the Hospital for the Mentally Retarded pertaining to its special emergency fund account in order that voluntary savings in this area may be effected to the extent of an estimated \$200,000 or more.

(8) A bill to revise and amend the present personal income tax law to produce an estimated additional amount of \$6 million annually.

(9) A bill providing for a corporate tax at the rate of five per cent on net income derived from doing business in Delaware. This is estimated to yield approximately \$5 million annually.

(10) A bill, or bills, extending the authorized number of days of horse racing and increasing the pari-mutuel tax, estimated to yield an additional \$1,500,000 for this biennium.

I wish to report at this date that various state agencies have made voluntary commitments to the Governor's office totaling approximately \$1,200,000 in reductions of their expenditures for fiscal 1958. It is hoped that this amount may be increased through the cooperation of other state agencies who have volunteered no specific amounts and which will be reflected in substantially increased reversions.

In summary, and on the premise of a predicted \$27 million deficit for the biennium ending June 30, 1959, it is hoped that this deficit may be liquidated by reductions of expenditures for the remainder of fiscal 1958 in the sum of approximately \$2,250,000 and by a review, re-evaluation and reduction in fiscal 1959 appropriations of approximately \$4 million, making a hoped for total reduction of \$6,250,000. This leaves an estimated \$20,750,000 to be provided by additional revenue.

The net corporate income tax, at an estimated yield of \$5 million annually, should provide \$7,500,000 by June 30, 1959. The proposed revision in personal income taxes should provide \$12 million additional revenue by June 30, 1959. The revisions concerning racing and pari-mutuel betting should provide an estimated \$1,500,000 additional revenue by June 30, 1959.

Accordingly, anticipated additional revenues, in combination with expected reductions in expenditures, would thus total \$27,500,000—thus overcoming the State of Delaware's immediate and critical financial situation.

I take this opportunity to express high praise and appreciation to both political parties, their leadership, to the members of the General Assembly and to the distinguished citizens of Delaware who served so ably and conscientiously on the bi-partisan committee. It is my hope and prayer that by working together we will be able to serve the needs and best interests of Delaware and its citizens.

Respectfully submitted,

J. CALEB BOGGS, Governor

Report of the bi-partisan committee to study the State's financial situation to the Governor and the Legislature:

This committee was formed at the invitation of Governor Boggs, and the state chairmen of the two political parties appointed three members as their representatives. Representing the Democratic Party were Garrett E. Lyons, State Chairman, former Governor Elbert N. Carvel and United States Senator J. Allen Frear, Jr. Representing the Republican Party were C. Edward Duffy, State Chairman, C. J. Killoran, former Attorney General and Otis H. Smith, Mayor of Lewes. The committee at all of its meetings worked closely with the Governor and with legislative leaders of both political parties.

The first action of the committee was to employ the accounting firm of Isaacson, Stolper & Company to make an independent estimate of the indicated deficit for the biennium ending June 30, 1959. The accounting firm reported an estimated deficit of 27 million dollars. This figure contemplated no change in the appropriations shown in the Governor's report to the General Assembly on December 3rd, but decreased the amount of the anticipated revenue for the two years of the biennium from 110 million dollars to 103 million dollars. After careful study and consideration the committee accepted the figure of 27 million dollars deficit as the basis for its further deliberations.

The committee proposes that this deficit be liquidated in two ways: (1) By a reduction of expenditures in the amount of approximately six million dollars; and (2) By an increase of revenues aggregating approximately 21 million dollars.

The reduction in expenditures for the fiscal year 1958 is estimated at \$2,250,000. Of this amount \$1,200,000 represents voluntary reductions so far committed to the Governor by various state agencies. Legislation is being recommended for effecting further reductions amounting to approximately one million dollars composed of projects not considered to be urgent at this time. A target figure of four million dollars has been set for reductions in the fiscal year 1959, and legislation permitting a period of study and review for 1959 appropriations is being submitted to the General Assembly.

The committee recommends the enactment of three major tax bills: (1) A tax upon net corporate income at a rate of five per cent—estimated to yield approximately five million dollars per year, or \$7,500,000 by June 30, 1959; (2) An increase in personal income taxes estimated to yield an additional six million dollars per annum, or 12 million dollars in the period ending June 30, 1959; (3) Increases in the State share of proceeds from pari-mutuel betting which will aggregate \$1,500,000 in the period ending June 30, 1959.

These calculations would on the basis of approximate figures balance the State's budget for the biennium but would not leave a cash balance or working balance. The committee

strongly recommends to the Governor and to the General Assembly that serious study be given to additional methods or means by which certain types of mandatory appropriations might be reduced in order to provide both a working balance and a lesser burden on the state's revenue-producing sources.

The committee wishes to emphasize to the people of Delaware and to the Legislature that it is merely recommending what it considers to be a proper course to solve this serious fiscal condition. These recommendations are submitted in the hope that they may be of assistance to the Governor and the members of the Legislature.

#### MESSAGE OF GOVERNOR J. CALEB BOGGS TO 119TH GENERAL ASSEMBLY OF THE STATE OF DELAWARE—JANUARY 7, 1958

Mr. President, Mr. Speaker, Members of the  
119th General Assembly:

Thank you for permitting me to present this message to you.

It is undoubtedly as serious a message as I have ever delivered to you. And that includes my message to the Special Session last month.

Let no one be deceived. The financial condition of the State of Delaware is still a very serious matter.

Although the Legislature, in Special Session last month, took prompt action to remedy the urgent and immediate need for increased revenues, it did not provide for a balanced budget by the end of the fiscal biennium on June 30, 1959.

Action to balance the budget must now be taken. I hope that this will be done without delay in a cooperative, bipartisan manner.

On the basis of presently accepted revenue estimates, the task at hand is to reduce 1959 appropriations by about \$6 million—or to increase revenues still further by a like sum.

I am recommending reductions in State appropriations as the more desirable method.

I do not anticipate that my recommendations will win your acclaim. I know that they will produce protests from many sources. Reductions in appropriations are painful and distasteful—but at this time they are essential to the fiscal soundness and credit position of Delaware.

Your right to disagree with my recommendations is fully recognized. In that case, however, it is also your responsibility to endorse and enact other methods of reducing expenditures or increasing State revenues, or both.

You will recall that in December the Legislature suspended until May 1, 1958, all appropriations for fiscal year 1959. This was done so that those appropriations could be reviewed and substantially reduced.

Under those circumstances I am submitting today for your consideration a proposed new 1959 appropriation bill. This bill provides reductions in appropriations for highway maintenance and construction and for mosquito control. A special feature of this appropriation bill provides for certain educational costs to be shared by the counties. This method seems justified on the basis that it will not reduce our public education standards and will provide a broader basis for meeting the mounting costs of education. It provides that 75 per cent of school operational costs shall be paid by the State and 25 per cent be shared by the counties based upon each county's unit enrollment. Educational costs have been presented according to the enrollment for September 1957, and in order to designate the amount payable by each county, anticipated enrollments for the fiscal year 1959 are contained in the figures and are eliminated from the contingency fund bill.

I am also presenting a contingency fund bill for fiscal year 1959. This bill conforms generally with the recently suspended contingency fund bill. However, it does provide funds for (1) the Tax Department due to the increased workload in that Department; (2) deficiencies in pension appropriations; (3) agricultural contagious diseases and indemnity claims;

and (4) maintenance of schools in order to replace in part the appropriation for that purpose which I am recommending be repealed.

There are several supplemental appropriation bills which I am recommending be repealed. These bills, for the most part, represent new outlays and additional State expenses which the State cannot afford at this time. They include Department of Election expenses, municipal aid and certain educational expenses.

The new budget bill, the contingency fund bill and the repeal of certain supplemental appropriations for fiscal year 1959, would provide a total reduction of approximately \$6 million in appropriation authorizations for fiscal year 1959.

But even these proposed reductions in expenditures for fiscal year 1959 are not wholly adequate for the solution of our problem. In my opinion, it is also necessary to effect certain additional reductions from unexpended balances of appropriations made for fiscal year 1958. Specifically, in this category, I recommend a bill to reduce in a total sum of \$500,000, the more than ample funds previously provided for highway maintenance and mosquito control. As a result of a survey which will be completed soon, I will probably have another bill recommending reductions in school maintenance appropriations for fiscal year 1958.

As severe as these recommended reductions in appropriations may seem to be, they are barely adequate to balance the budget for this fiscal biennium ending June 30, 1959. Even if all of today's revenue estimates are fully realized, my recommended reductions are only sufficient to provide a cash surplus as of June 30, 1959, of an estimated \$1,500,000. in excess of authorized commitments.

At this time I also renew my recommendation for the enactment of legislation to create a long-needed Department of Finance to place better controls on the State's fiscal affairs.

I think legislative action is highly important and essential to create a competent commission, or other body, charged with the responsibility to review the entire revenue situation of this State as it now exists; to review the program by which our State now finances schools, highways and other capital improvements; and to report and recommend to the 120th General Assembly, when it first convenes, a complete fiscal program designed to avoid recurring deficits and to provide a practical and realistic program for financing State services and long-term capital improvements.

Another continuing problem in the area of budget control is the uneven flow of receipts from various revenue sources. As at least a partial solution to this problem, I have prepared a bill for introduction which provides that personal income tax withholdings by employers shall be paid to the State Tax

Commissioner once each month, instead of quarterly, in a manner comparable to the system long in operation with respect to similar federal withholdings.

Somewhat related to the same problem of delayed payment of revenues is the present personal income tax provision for quarterly payments of tax obligations reported on the tax return forms due on April 30 of each year. Furthermore, this present provision has aspects of being inequitable for the reason that those receiving their total incomes from salaries and wages are not permitted the same opportunity for delayed tax payments. Consequently, I have had another bill prepared for your consideration which provides that effective April 30, 1959, all personal income tax payments due for the preceding calendar year shall be paid in full with the filing of the annual return.

In this message I have thus far dealt only with fiscal matters. In doing so I have not intended to exclude your consideration of such additional matters and measures as may be necessary and desirable in the best interests of the people of the State of Delaware. I must, however, express the hope that such other matters will not deter the Legislature from prompt action on legislation to bring our budget into balance and to strengthen the State's fiscal and credit position.

Prayer by the Chaplain, Rev. Thomas C. Mulligan: "Our Father, before undertaking the important work of this session we invoke Thy divine blessing. The poet has said, 'The mill will never grind with the water that is past.' Make us to realize this truth in relationship to our lives and our service as we start the new year. Our State of Delaware in past years has made outstanding advances on the road to progress, it likewise has had many set-backs. May the achievements of the past not lull us into a feeling of self satisfaction, nor shall the mistakes of the past not fill us with a sense of frustration. May we know that our chief obligation is to accept the challenge of the present and to quit ourselves as men and be strong. Direct us in this we pray in the Master's Name. Amen."

### FOREWORD

The Committee makes no apologies for the job it has done, incomplete though it may be. Despite the temporarily successful efforts of certain Wilmington officials of both parties to block its proceedings, it has clearly established that the present anti-gambling laws are totally inadequate to prevent widespread, organized, unlawful gambling in those areas where density of population makes such activity highly profitable.

Commencing on September 30, 1957, the Committee has thus far held 12 public hearings, interrogated 30 witnesses, and amassed 532 pages of testimony. (A financial report will be made later.)

Originally the Committee had expected to be granted access to the records of the gambling probe conducted by the 1956 New Castle County Grand Jury. With the wealth of information contained in those records at its disposal, the Committee believed it would be able to conduct informative public hearings without the necessity for hiring a full attorney and a staff of assistants and at the same time without making an excessive demand upon the time and effort of the Committee members. Denial of the records compelled the members to spend many additional hours acquiring background information from other sources.

The Court's decision denying the records to the Committee on the ground of public policy may have been a wise one. Unfortunately, the opinion left one important question unanswered: Why had the records previously been made available to Wilmington's Directors of Public Safety and the State Psychiatrist to assist them in their work?

Since the Committee's hearings were given wide press coverage, the reports concerning gambling and policy bribery are brief. On the other hand, because of the conflicting nature of the testimony concerning both the 1948 investigation into police bribery in Wilmington and the attempt by one or more Wilmington police officials to secure the reinstatement of a suspected gambler to a New Jersey race track, the Committee has set forth in some detail its findings of fact regarding those two incidents together with excerpts of the testimony upon which those findings are based.

The Committee wishes to emphasize that the selected excerpts represent but a very small part of the total testimony. Furthermore, it wishes to point out that in a few instances it has made very minor changes in the statements attributed to the various witnesses. This, however, was done only where clarity and brevity dictated such a procedure. The Committee is satisfied that the selected excerpts accurately reflect the purport of the whole testimony from which they have been lifted.

The Committee expresses its appreciation to the following: the Attorney General for his ready cooperation and for making available the highly valued services of State Detective Walter J. Wassmer; the New Castle County Grand Jury for having published helpful information during the course of the hearings; and the Wilmington's Chief of Police, Arthur B. Wilson for making the services of the efficient and greatly respected Vice Squad available for the service of subpoenas.

## CHRONOLOGY OF COMMITTEE ACTIVITIES

1957

June 24—Adoption of Senate Resolution #86, followed by appointment of Committee members.

July 19—Organizational meeting of Committee at which Senator Walter J. Hoey was elected chairman and Senator Elwood F. Melson, Jr., secretary. The Secretary was directed to make necessary preparation for the hearings.

July 25—Committee request that Attorney General assign State Detective, Walter J. Wassmer, to assist the committee.

July 26—Request granted by the Attorney General.

July 31—Letter to Superior Court Judge Andrew D. Christie requesting information regarding proper procedure to obtain records of 1956 Grand Jury's probe into gambling.

August 9—Letter received from Judge Christie, reading in part:

"I suggest, therefore, that a correct and proper procedure to obtain these records would be a subpoena in the nature of a subpoena duces tecum addressed to the foreman of the Grand Jury as presently constituted.

"Such a procedure would recognize that general control of such special records remains with the Grand Jury even though the records are held by the Prothonotary for safe keeping. Should a disagreement arise as to this matter, the Superior Court might be called upon to decide the issue. The course here suggested would make a way open for a hearing on the issues raised if the necessity for it arises."

September 9—Issuance of Subpoena Duces Tecum addressed to John Jessup, Foreman of the New Castle County Grand Jury directing him to produce the aforesaid records at the office of the Committee secretary on September 10, 1957. Subpoena cancelled upon request, to afford Mr. Jessup an opportunity to ascertain his powers and responsibilities in the matter.

September 16—Formal Opinion by Attorney General Craven to Mr. Jessup concluding as follows:

"I am of the opinion that, in the present instance, the paramount interest of the public requires that the proceedings of the previous Grand Jury should be turned over to the Senate Investigating Committee. However, this is a decision that must be made by the Superior Court. Neither you nor I have any authority or control over the transcript of the 1956 Grand Jury proceedings. This transcript is part of the Superior Court records and the decision as to whether or not it shall be turned over to the Senate Investigating Committee is solely within the discretion of the Court."

September 17—Written request to Wilmington Chief of Police, Arthur B. Wilson requesting that Vice Squad be assigned to assist State Detective Wassmer to serve subpoenas on gambler. 16 witnesses subpoenaed to appear on September 30th.

September 25—Issuance of second Subpoena Duces Tecum addressed to John Jessup in order to bring the matter before the Court.

September 26—Committee ordered by Superior Court to appear in court on October 15, 1957, to show cause why the subpoena addressed to John Jessup should not be quashed. Mr. Jessup ordered not to appear before the committee.
