VOLUME 37

NEWARK, DELAWARE, MAY 12, 1921

NUMBER 25

VARSITY MINSTRELS
TO BE A RIOT OF FUNRehearsals Indicate a New
Triumph for Varsity
Men

The first carnival of mirth ever attempted by the Varsity Club at Delaware bids fair to "walk off with the field." Rehearsals for the "big nite" are already in full swing. Patrons will be denied nothing of the great store of wit and humor that has been all year accumulating for this one enormous bazaar of fun.

We are cramped here for space (due to "Books Recently Lost from the Library") and so we may only present a brief account of the program that will be presented in Wolf Hall, May 26th. The music will be presided over by George Madden, the inimitable, and his ozone tamers, among them "Banjo" Grier and "Saxophone Joe" Wise, and many others of scintillating brilliance.

Oriental terpsichore will be interpreted by Denishawn Tilghman and Pavalova Robinson.

Earl Brandt, the Lehigh Valley tragedian, will give dramatic recitations. There are to be several surprise features and their nature is being withheld until the last minute. A non-partisan witness who observed the rehearsal of one of these special features became paralysed with laughter after three minutes observation. To prevent a recurrence of such a catastrophe the management has arranged for the services of two Newark doctors. These men and one physician will be in attendance at all times during the performance.

The minstrel circle will be presided over by "How" Young, who cinched the laurels for the keystone job in the Minstrel Show of 1920. There will be three pairs of end-men in rotational appearance. They are Messrs. Lilly and Harmer; "Doc" Haines and "Hank" Gordy; "Skeeter" and "Joe" Wilson.

Harmony will be paid in full by the Dormitory Quartet assisted instrumentally by the Strolling Musicians of Section "A."

We "ain't said nothin' yet"; wait till you see the show.

The time: 8 p. m. May 26.

The place: Wolf Hall.

The price: 85 cents.

Tennis Team Away

The University Tennis Team left Newark early Tuesday morning on a three-day trip in Pennsylvania. Moravian College is scheduled to be played on Tuesday afternoon. Wednesday, the team goes up against the strong Lafayette College Team at Easton. The final match on this trip is with Drexel at Philadelphia.

The men making this trip are: Captain Harty, J. Challenger, Barker, Gutowitz, and Manager Monaghan.

Arrangements are being made to play the George Washington University match at Washington Saturday.

DELAWARE TAKES
DUAL MEET AT
HOMEWOOD

McDonnell and Booth Establish New Records; Pitman is Double Winner

On last Thursday, the Track Team won its second victory of the week, by defeating Johns Hopkins. The duel was an easy one for the Blue and Gold, as the 75 1/3 to 48 2/3 score indicates.

During the meet, "Tom" McDonnell broke his own pole vault record by clearing 11 feet 8 inches, a height which is one inch above his former limit. Booth, for the first time officially broke the two-mile record. He negotiated the distance in 10 minutes and 13 seconds, 7 seconds faster than the former record. Booth has made much better time in practice, so it is expected that he will again break the record. Pitman again proved his fleetness by winning both the 100 and 220 yard dashes. The former event was closely contested by Clark, the Hopkins sprinter, but "Pit" came back and lead the 220 field by at least 10 yards. Fouracre's broad jumping proved another step forward for the team.

Coach "Jimmy" and his squad are to be congratulated on two clean-ups in a week, and it is to be expected that the good work will continue thru the Middle Atlantic States Championship Meet at Baltimore.

(Continued on Page Four.)

UNIVERSITY HOST TO
SONS OF DELAWARE

Annual Outing of Philadelphians to be Held in Newark; Canadian Hero to Address Visitors

The committee for the reception of the Philadelphia Sons of Delaware next Saturday has now completed all the arrangements for the entertainment on that day. The Sons of Delaware will arrive at Newark at 1.52 p. m. by way of the B. & O., and will be met by President Hullen, Dean Smith, Dr. Sypher, and Mr. Wilkinson. About two hundred are expected to be here, and immediately upon their arrival they will go to the Women's College where they will witness the May Day exercises, which promise to be the best ever presented by the Women's College.

Arrangements have been made to end the May Day festivities in time to give the Sons of Delaware a chance to see the baseball game between Haverford and Delaware at 3.30 p. m. Dinner will be served at 6.00 p. m. in Old College. There will be a musical program under the direction of Dr. Miller in which Miss Graybill will sing a solo.

Lieut. Harry G. Milsom of the Canadian Expeditionary Force, known as the "Princess Pat" Regiment, will be one of the speakers of the evening. He is one of the eight survivors of this regiment, and is an interesting speaker. Hon. Fletcher W. Stiles, member of the Legislature of Pennsylvania, will also speak.

(Continued on Page 2)

TRACK AND FIELD
MEET A HUGE SUCCESS

Over 3000 Spectators Watch Athletes of 28 Schools Compete; Records Smashed

The Eighth Annual Inter-Scholastic Track and Field Meet of the University of Delaware was one of the most successful ever held on Frazer Field. The beautiful, inspiring day made the complete success possible. A record crowd attended; the bleachers were filled to capacity and the bank running along the track was lined with the automobiles of the spectators. It is estimated that there were 3000 to 4000 onlookers. However, the throng was not alone confined to spectators, for fully 300 athletes representing twenty-eight schools participated in the meet. Frazer Field truly swarmed with humanity and activity.

The meet began promptly at 1.30 p. m. and continued until after five o'clock. Four records smashed and fast times bordering on former records prove conclusively that the participants were of the best class and in super-excellent condition. Skiles, of Tome School, distinguished himself when he pole-vaulted 10 feet 6 inches and established a new record for that event. Records went to smash in all the high jump events. Proctor, of Mt. St. Joseph's College, gave the prettiest exhibition of the afternoon, going over the bar at 5 ft. 9 1/2 in. and establishing a new record. In Class III, Deibert of Elkton High, made a new record of 5 ft. 3 in.

In the 440-yd dash Coale of Tome School, approached collegiate time when he eclipsed the field and ran in the fast time of 53.25 seconds, making the fourth new record of the afternoon.

The Inter-Fraternity Relay race was one of the features of the afternoon from the viewpoint of the University students.

(Continued on Page 2)

Dramatists to Offer
Three Plays May 24

Not satisfied with their excellent accomplishments recently, when students of the University scored such a success in "Miss Bob White," the Dramatic Club of the Women's College, assisted by members of our Footlights Club, will give three plays, Tuesday evening, May 24.

Dunsany's "Gods of the Mountains," Strindberg's "Simmoom" and McKay's "Maker of Dreams" will be the three plays presented. It is hardly necessary to point out the possibilities for scenic effect in "Gods of the Mountains." Almost every student here has read the story and will appreciate the real value and uniqueness of the play. The other two are equally as good, from the standpoint of plot and quality, but do not offer such a background for scenic art. Miss Mabel Tebo is managing the plays for the Women's College. Dr. F. M. K. Foster is doing the coaching.

University Rifle Team
Wins First Match

The University of Delaware Rifle Team shot in its first match Tuesday afternoon and emerged victorious by a narrow margin. The Delaware team made a total of 938 from a possible 1000 and the University of South Carolina, the opposing team, ran up 937 points. The match was conducted by "proxy"; scores of the two teams were telegraphed from one school to the other and the highest scorer was declared the winner. The University Rifle Team is under the supervision of "Dick" Holton, who is an experienced shot, having distinguished himself on the rifle range when with "Uncle Sam." Ten men, with two alternates, participated in the match Tuesday. Each man shot ten times. Five shots were taken at a kneeling position and a range of fifty yards, and the other five at a prone position with a range of seventy-five yards.

The Rifle Team is an innovation at the University and is concrete proof of the increased activity of the men in the R. O. T. C. Much credit for the formation of the team and its organization can be given to Major Rowe and the sergeants, who from one school to the other and

(Continued on Page 2)

A. A. E. ELECTS OFFICERS
BANQUET PLANNED

Illustrated Lecture on Telephones Given

At the meeting of the local chapter of the American Association of Engineers held in Old College, May 5th, the annual election of officers was held. Walter Dent Smith was unanimously elected President; H. B. Yost was elected Vice President; W. F. P. Jacobs was elected Secretary; and A. Ayerst was elected Treasurer.

Following the election of officers, Mr. Boggs introduced the speaker of the evening, Mr. Herbert H. Hillegass of the Engineering staff of the Bell Telephone Company, Philadelphia. Mr. Hillegass was graduated from Delaware in 1910 and has subsequently specialized in telephone power work. The subject of his talk was "Modern Telephone Central Offices." Mr. Hillegass outlined the historical development of the telephone and emphasized the colossal organization of the present system. His talk was illustrated by more than twenty slides.

Announcement was made that the Second Annual Banquet of the University of Delaware Chapter of the A. A. E. would be held in the west dining room of Old College on the evening of May 19th. Allan R. Cullimore, former Dean of Engineering at Delaware, and at present Director of the Newark (New Jersey) Technical School, will make the principal address. Other speakers are being obtained.

Students who are not members of the A. A. E. are invited to attend. Tickets may be obtained from M. L. Wood, H. P. Young, H. B. Yost, H. Kirk, J. Schaefer, W. F. P. Jacobs and A. Ayerst.

PENN ROMPS AWAY
WITH BALL GAME, 9-1

Jimmie Robbins Continues Delaware's Home Run Reputation with Pretty Circuit Drive

After defeating Old Penn for two consecutive seasons, the baseball nine went to Philadelphia yesterday and lost the annual tilt between Penn and Delaware by the score of 9-1. Erratic playing, coupled with the inability of the twirlers to get the apple across the pan were the salient reasons for the defeat, but Penn's ability to come across with hits when they did most good, cannot be discounted. Hence, the game was Penn's, from start to finish and several feature plays of the afternoon, at the hands of Jimmie Robbins and Captain Donoho, were Delaware's only redeeming features.

In the eighth inning, after Penn had whitewashed Shipley's "Chicks" for that number of frames, our diminutive third-sacker connected with one of Larson's benders for the longest hit of the afternoon, a home run, which went equally as far as that of Gray Carter's, last year, which won the game for Delaware. Besides this feat, Jimmie handled his job on the hot corner in perfect style, taking a pretty heavy beating from the spikes of the red and blue players. Twice during the game, in putting out men on the bases, Jimmie felt the irons in his flesh but pluckily finished the game without a murmur.

Captain Donoho pulled the feature catch of the day when he robbed Maher of what would have been a home run. "Dorse" ran far into left field, stretched his trusty right hand and the pill dropped in. Besides, "Dorse" was the only Delaware man to collect a pair of hits, one single and one infield hit.

Our ball tosters went fine for the first two innings, holding the Penn team scoreless. Then Collins tossed one in the groove and Harvey connected with it for a double. He was caught, however, by "Fip," as he attempted to pilfer third sack. In the meanwhile, Whitehill had drawn a pass and on the next ball, which went by Marvel, he romped home for the first score of the game. After that it was a sad tale for the "Chicks." Collins blew and walked a couple, which, added to several singles, resulted in a total of three runs being scored in the fourth frame. Joe Rothrock, who has handed Penn two defeats, was then sent in to take up the mound duties. But Joe could not get going and Penn sent a trio of runs across in the sixth. Ramsey was Shipley's next choice for the pitching job and he pitched well, after getting started. The trouble was in getting started, for "Buck" passed three men in rapid succession, allowing the two men who were on the bases when he went in to score. In addition to these troubles, "Mike" Underwood had an off day and booted three chances, which was disastrous.

Purpose and Policy

It is customary for each succeeding Board of Editors on assuming active management of the Review to state its policy and aspirations.

As we see it, the purpose of the Review is threefold: The Review must present in an accurate and concise manner the news of the University; it must serve as a medium for the exchange of Student Opinion; it must help to form Student Opinion.

We have recently become a University and are forced now by reason of our changed standing into enlarged relations and into competition with the other Universities of the country; we must act in a manner compatible with our new status. Much has been given us and much will be expected of us. We must enlarge our vision; we must change some of our ways.

The first essential in setting about to correct an evil is a knowledge of the facts—publicity. Moreover, a conquering force has never been exerted except in response to a definite, popular opinion. For that reason, it is our firm determination to state conditions as we find them, and to abide by the consequences.

The Review stands for a just and generous recognition of the accomplishments of each individual in our college community. We earnestly desire the good will of the entire Student Body. We wish to deserve it because we shall fearlessly take a definite stand on all questions affecting the welfare of the students, and the good name of the University. We shall not overlook significant events or conditions for fear of making enemies. We shall make no mendacious attacks; we will be no "yellow journal." But we shall try to take a determined, unequivocal position on every issue that comes before the Student Body even if we incur the displeasure of those whom we oppose.

We have a vast opportunity for useful service; we hope to acquit ourselves worthily. If we fail, Delaware suffers; therefore, our responsibility is heavy. Upon the success of our efforts, much depends, not as regards us personally, but as regards the

good name and welfare of the University. With this in mind, we solicit the sincere cooperation and criticism of every student and alumnus.

—W. D. S.—

Interscholastics

The officials of the University, particularly those affiliated with the athletic department, are to be congratulated upon the notable success of the Eighth Annual Interscholastic Track and Field Meet, held here last Saturday. For three-fourths of a decade, each spring, Newark has been a happy hunting ground for stalwart youths from the various towns of the State and from other states.

Here, versatile athletes have made reputations for themselves which carried them far into a glorious athletic career. High School lads and Preparatory School lads have come here and participated in our annual track and field classic and it is not difficult for us to say, and believe, that they have been favorably impressed with Delaware and her Sons.

The meet this year was our crowning success. More than twenty-five schools, bringing some three hundred athletes, participated in the events. Probably some of Delaware's future students were contestants and we feel sure they were as glad to be here as we were to have them.

We can well remember, then, that the Eighth Annual Interscholastic meet was a huge success. It was largely attended, had, for the first time, a touch of local color, was carried thru without a fault, and, we regret to say, was the last function of the kind that Coach "Jimmie" LeCato will supervise for the Blue and Gold.

An Appreciation

To the retiring staff of the "Delaware College Review" is due much credit for the admirable manner in which it handled the affairs of the paper during the year just past. Special credit belongs to T. Wilmer Holland, Editor-in-Chief during that period.

The term "untiring worker" is hackneyed. And yet no other phrase would be more apropos in speaking of Mr. Holland. His work for the "Review" was tireless—tireless as it was sincere; and in its way very successful completion. Mr. Holland may well feel satisfied that the ideals which he had from the start were not in vain.

General Elections

The following nominees will be voted upon at a meeting of the student body at the regular College Hour on Monday, May 16th:

Representatives to Student Council

Seniors—J. E. Wilson, F. Wills, A. Allen, S. F. Twoes. (Two men to be elected.)

Juniors—J. D. Williams, E. P. Pitman, W. H. Grier, C. Wise. (Two men to be elected.)

Sophomores—C. Fouracre, F. L. Leamy. (One man to be elected.)

Managers

Football—L. Roemer.
Basketball—W. F. P. Jacobs, W. S. Lilly, 3rd.

Baseball—M. L. Draper.
Track—H. B. Geoghegan.
Tennis—W. D. Smith.

Assistant Managers

Football—J. E. Murphy.
Basketball—W. D. Boyce, C. N. Wade.

Baseball—W. H. Grier.
Track—J. M. Lynch, J. W. Brown, C. W. Howard.

Former Secretary Dead

The body of Miss Marion Butterworth, secretary of Harry Hayward when he was Dean of Agriculture at Delaware, was found floating in the water of an abandoned quarry, near Proctor, Vermont, early this week. The quarry is two miles from the place where she was last seen.

Miss Butterworth recently recovered from a serious illness and it is believed excessive worry, caused by the weakened condition of her eyes, persuaded her to commit suicide, while temporarily unbalanced. She was employed as social secretary to Miss Emily D. Proctor, daughter of the former Senator from Vermont.

PENN ROMPS AWAY WITH BALL GAME 9-1

(Continued from Page 1)

Delaware missed several opportunities to score. In the second inning, after Underwood had singled and stole second, Marvel walked and a fine opportunity was presented for a score. There were two outs but "Dory" Collins failed to come across with even a bingle and breezed by three pitched balls. Collins later on clouted a pretty one to deep center and would have made a home run if it had not been slowed up at third base, which gave the Penn fielder a chance to get the ball home. The consequence was, "Dory" was nipped at the plate. "Art" Spaid broke into the home club line up for the first time this year and caught a fine game. Phil, who caught Collins, also held his pitcher up in good style but did not stay in the game long enough to come across with another one of his favorite Penn home runs.

The boys will attempt to stage a real comeback Saturday when our "dear friends from up Haverford way" come down for the annual tilt.

Hazo (a little deaf): "What room?"
Frosh: "Economic Entomology!"
Hazo: "Talk louder son."
Frosh: "Economic Entomology!"
Hazo: Nope. I give up; it sounds like Economic Entomology to me."

What Makes the Firefly Glow?

YOU can hold a firefly in your hand; you can boil water with an electric lamp. Nature long ago evolved the "cold light." The firefly, according to Ives and Coblentz, radiates ninety-six percent light and only four percent heat. Man's best lamp radiates more than ninety percent heat.

An English physicist once said that if we knew the firefly's secret, a boy turning a crank could light up a whole street. Great as is the advance in lighting that has been made through research within the last twenty years, man wastes far too much energy in obtaining light.

This problem of the "cold light" cannot be solved merely by trying to improve existing power-generating machinery and existing lamps. We should still be burning candles if chemists and physicists had confined their researches to the improvement of materials and methods for making candles.

For these reasons, the Research Laboratories of the General Electric Company are not limited in the scope of their investigations. Research consists in framing questions of the right kind and in finding the answers, no matter where they may lead.

What makes the firefly glow? How does a firefly's light differ in color from that of an electric arc, and why? The answers to such questions may or may not be of practical value, but of this we may be sure—it is by dovetailing the results of "theoretical" investigations along many widely separated lines that we arrive at most of our modern "practical" discoveries.

What will be the light of the future? Will it be like that of the firefly or like that of the dial on a luminous watch? Will it be produced in a lamp at present undreamed of, or will it come from something resembling our present incandescent lamp? The answers to these questions will depend much more upon the results of research in pure science than upon strictly commercial research.

Spur Cigarettes

*The
Only
One*

that's

4 leaf blend

It's a different blend. Golden Virginia, with its "life" and sparkle; hearty Kentucky Burley with that good, old tobacco taste. Delicate Macedonian leaf of spicy aroma. And to complete the perfect blend, cool-burning Maryland tobacco.

Crimped

No other cigarettes are made without paste. The paper edges are firmly clinched by a patented machine. Gives Spur its clean-cut look and means a long-burning, even-drawing cigarette. *Some idea!*
