

## Foreword

We offer this book to those interested in it and Old Delaware in the hopes that its records may serve as a link between our undergraduate days and those of the future. If eyes, seeking reminders of the pleasant days gone by in college, stray over these pages and there in some small way are rewarded, the staff feels that the mission of the *Blue Hen* has been accomplished.

The task has not been a light one, and perhaps not a pleasant one. But it has been cheerfully undertaken, and we ask your pardon for the flaws that may appear in it. Perchance the flaws will not mar the entire jewel.
