

Master of Business Administration

REVISION:

BUAD 810 Titans Teams and Technology to be deleted from list of required courses. Required course credit hours may be fulfilled by completing 3 credits in the areas of management, organizational behavior, or human resources.

RATIONALE:

The content of BUAD 810 has been made obsolete by the integration of technology, team building, and leadership across other courses in the curriculum. A course of the student's choice from the management discipline will retain breadth and round out the program of study.
