The wife of Ernest Frazer, local merchant, Mrs. Frazer died at her home on Friday, November 26, 1943, after an illness of more than a year. In addition to her husband she is survived by two daughters, Anna Frazer, of Newark, and Mrs. Ira S. Jones, of Roselle; two sisters, Miss Martha R. Born in Cecil County in 1879, Mrs. Frazer was the daughter of Mr. and Mrs. James H. Ford. She had lived in Newark for more than forty years and was a staunch member of the First Presbyterian Church where she was very active in Missionary Society prior to her illness. She was also a former Regent and an active member of the Cooch's Bridge Chapter, D.A.R., and a member of the Newark New Century Club.

Restricted Christmas Lighting Is Requested

Cooperating with the Office of War Utilities, the Newark Town Council has issued a request that residents this year confine Christmas lighting decorations to Christmas trees inside private homes.

Community Christmas trees, exterior home and street decorations and interior and exterior of commercial establishments are requested to be dispensed with in the nation-wide program of conservation of critical fuels and materials.

"Because of the shortness of daylight at Christmas time, necessary consumption of electricity is usually at its peak then. Everything we can do to avoid any additional load will mean a direct savings of fuel, manpower, transportation and materials," it was said.

WAR FUND EXCEEDS QUOTA

\$10,500 Is
Subscribed
For Drive

The Newark drive for the United War Fund Campaign has gone over the top and subscriptions now total more than \$10,500 it has been stated by Robert C. Lewis and John R. Fader, co-chairmen of the drive.

Further reports are to come in from several zones which should result in a moderate increase in the above amount.

The Newark Campaign committee wishes to take this opportunity to thank all of the captains and workers in the Newark area for their help and willing cooperation in canvassing the community. Many of the workers were busy with other duties and in several instances it meant a real sacrifice to give the required amount of time for this campaign.

Those persons who have not been canvassed and who wish to subscribe to the Campaign may still do so by sending their remittance to the United War Fund of Delaware, 8th & Market Streets, Wilmington, Delaware. Rural New Castle County has exceeded the quota of \$34,750 as set for the county.

How About That!

By
Ruth Safran

Sometimes a dance is given because a couple of people decide that some other folks need recreation. Sometimes a dance is born when a group of people who like to dance ask the powers-that-be to stage one. The latter kind has more chances of growing into a success.

Saturday night's tuneful frolic fortunately saw the light because a group of gals with a war job met with Mrs. Rhoda Sutton of the USO. "Can we have a dance every two weeks?", they wanted to know. "We'll be glad to sell tickets, do anything else that would make it a success."

They got their request, tickets were sold, AST's invited and George Madden's orchestra was engaged to play. (The war motif was evident—with a soldier and a sailor making up a part

of the orchestra). Exactly how many turned out, I don't know, but there were enough boys to "go around" and enough of both sexes to fill up the vast Armory auditorium.

A Paul Jones helped unfreeze enough heel-coolers ("at a party or at a dance, the seat seems to stick to the seat of their pants") to keep the dance floor constantly in motion until closing.

Overheard at the party: One GI raving about food at the University: "We had a man cook at the last camp I was stationed at. To him a piece of meat was a piece of meat—nothing to get fancy about. But what a difference with a woman's touch. She can take the same piece of meat but the flavoring she adds, the salad that she mixes to go with it makes it taste so different. And she can take leftovers and make them so palatable you forget you had it the day before. At the last camp leftovers lasted like leftovers. Yop, you really look forward to the meals around here. We're certainly eating well."

And another was describing the insignia that blossomed out last week in response to an inspection warning: "There's the lamp of knowledge on it. That's to indicate learning. And the lamp is superimposed on a gold-brick background."

The Children's Hour

I used to wonder how much of the radio 15-minute chiller-thriller children's programs was swallowed hook-line-and-sinker by their faithful audience. After watching these kids dash inside to get the radio tuned to Superman, Terry and the Pirates and Hop Harrigan—glibly forgetting table-setting chores (or making the radio inhumanly loud so they can hear it in the kitchen), I decided to ask a young member of the audience his reactions.

He knew all the characters in the above programs, knew what they would say and what accent they would use. So I supposed he liked them all as well. Finally he ventured: "I listen to them all, but there's really a lot of difference. I don't like Superman so much because he's always a sissy, even when he's not Clark Kent, the reporter. Can you imagine any real man having to say 'Up, up and away'? Superman always says it."

How about "Terry and the Pirates"? Said my young critic: "Aw, they sit around and talk too much. About the only time something happens is when Pat Ryan comes around."

"But I like Pop Harrigan the most. He gets into creepy things and something's always happening."

SURE SHOT

The seniors at the Newark High School will leave Tuesday for their annual class trip. This year it will be to the Big City of New York. We can only hope that Eugene Campbell don't fall for some of the tricks of those city slickers and buy the Empire State building. And then there is that Butler fellow. The girls have promised that they will not let him get run over by a street car or anything. There are also some great actresses and actors in the class and when they go to some of those broadcasts they might be offered contracts to appear with Fred Waring. (They might, but they won't).

If Rastus takes his rabbit's foot along we are sure that he and the PEST will see that everything is O.K. Yes, those two great detectives Peggy Nichols and Richard Swan will be along to see that no one runs off with the money to pay the hotel bill. Say folks—won't they have some tall stories to tell when they come back home. The worst trouble about the whole thing is when Audrey tells me how much she is going to need to take with her on the trip. Pocketbook, here comes DEFLATION.

It is reported that several of the girls at school when accosted by one of the teachers for not being in class stated that they were holding a Jam Session. The teacher said how come—the girls said, "We are in a Jam right now".

Say folks, the next time you go to the ration board and feel like cussing up the works, (it is all right with me if you cuss the system) just stop and think that the paid personnel worked all day Thanksgiving. Now that is taking it on the chin and I don't mean Maybabe. Those folks that work in the local office take a beating in more ways than one.

Henshaw Steedle wrote a letter to the boss of this marvelous paper (?) and thanked Mr. Ware for sending such a fine paper to the boys in the service and told how glad the fellows were to get it. He stated he enjoyed reading the Sport Page. (Sure, look who writes the baloney on that page)—He also said he would not miss the column by Sureshot for the world. Folks, after reading that the boss should put my name on the door in gold letters. Well, Henshaw, Sureshot just called up your mother and told her about the letter. Sureshot will write to the commander-in-chief and have you promoted to an Admiral. Good Luck. You are the only one who has ever written in and said you liked this column. I was beginning to feel that it was real punk!

On Monday night Sureshot witnessed the drill of Newark's newly organized Company "G" of the Delaware State Guard. Their drilling was very good for a two months' old outfit but they looked mighty PUNK without uniforms. They did have shotguns and boy how they could handle them. Captain Donnell had better not take them on a hike out in the country or all the bunnies would leave for good with so many shotguns all in one bunch.

Captain Bill Donnell has recruited the company from just a handful to 31 members at the present time and states that there is room for quite a few more men and boys.

Griff Moore was doing his stuff out on the drill floor and he acted like a veteran. We are told that he will soon be a general. A certain Main Street businessman who was accused last week in this column of being a poor shot stated the other day that it was Griff Moore, George Neighbors and Buck Crowe who used up all the ammunition.

Conrad Lewis who is a big shot in the Boy Scouts has secured an office job in the Guards. He tends to the books. Sure, and a book is not as heavy to carry around. Jack Reeves will make a good soldier as soon as he gets a nice uniform although he looks fair in that plaid shirt.

We are told that a certain member of the Eastern Beagle Club who is the proud owner of three very fine beagles went gunning with a neighbor who only has an old collie dog. The fellow with the collie got all the bunnies. Some collie dog.

The town of Newark is in bad shape without a magistrate. The main reason that no one wants the job is that there is not much profit in the job after you pay rent for an office, telephone hire, light bill and heat. Why could not the town furnish FREE office space and the use of the telephone. As things stand now an officer is required to take all his cases to New Castle. Some Gas Coupons wasted doing that.

McSPADDEN INDUCTED INTO NAVY

R. Doyle McSpadden, proprietor of the Newark Cleaners, Inc., was inducted into the U. S. Navy last week and left Friday for Philadelphia from where he will be assigned to boot camp or basic training quarters.

Coming to Newark in March of 1940 from Havre de Grace, where he was associated with the City Tailors, McSpadden remodeled his present establishment at 176 E. Main Street and installed one of the most complete and modern cleaning establishments between Wilmington and Baltimore.

A native of Teague, Texas, Doyle is the son of Mr. and Mrs. A. P. McSpadden, of that city. He is married to the former Miss Caroline Clay, daughter of Mr. and Mrs. Jos. W. Clay, of Elkton.

An ardent sports enthusiast, Doyle took up golfing at the Newark Country Club three years ago and, saddled with a handicap of around 20, worked untiringly to better his game until he now plays under a Zero handicap and is considered one of the best golfers in the club. Only four other club members ever enjoyed zero handicaps. They were Sanky Richards and George F. Anderson, both former club champions. Bob Stewart and Geo. Dutton.

McSpadden greatly improved his golf style one summer while on a vacation at his home in Texas. There he took lessons from a pro who shortened his back-swing and changed his style of play greatly. Upon his return to Newark, Doyle's game showed progress and his handicap was cut to seventeen the second year. Consistent effort and diligent play brought further success and this spring he was tabbed with a zero handicap, the only active member so honored.

YELLOWJACKETS DEFEAT CONRAD HIGH SCHOOL 7 TO 0 AS SEASON ENDS

George's Pass To Brandon Davis In First Period Is Good For Lone Touchdown of Game; Cataldi Scores Extra Point on Pass From Griffin

Newark High School closed out its 1943 football season on Thanksgiving Day with a 7 to 0 win over Conrad Redskins on the latter's field before an exceptionally large crowd.

Marvin Butler kicked off for the Jackets and the ball was received by Don Whistler who was downed on his own 28 yard line. The Indians were held by the Newark team and Whistler was forced to kick, the ball being grounded on his own 49 yard line. Griffin made 4 yards through center and George reeled off 2 yards. On the next play a pass from Griffin to Cataldi gave the Jackets a first down on the Redskins 33 yard stripe.

The Jackets were penalized 5 yards for being offside, returning the ball to the Conrad 38. Len George picked up 4 yards and on the next play George hurled a pass to Brandon Davis who raced over the Redskins goal line for the first and only touchdown of the game. A pass from Griffin to Cataldi was good for the extra point.

The second period opened with the ball in Newark's possession on their own 28. Len George gained 7 yards in the next two plays and a pass from Don Griffin to Corbet Vansant was good for a first down on the Jackets' 41 yard stripe. George reeled off 7 yards and Griffin went through center for another first down. After another penalty Newark was forced to kick and Davis kicked out of bounds on Conrad's 20. From here on the period developed into an exchange of kicks with neither side being able to gain the advantage.

The third quarter found both teams fighting desperately to gain an advantage but both teams held and the backs are forced to kick time and again until close to the end of the period when the Redskins carry the ball into Newark territory after a 15 yard penalty. Roddy Holton intercepted Costagno's pass and carried the ball out of danger.

The final period opened with the ball resting on Newark's 37. Davis picked up 4 yard and George got 4 more on the next play when Davis made a first down and a completed pass from George to Vansant and an end run by George carried the ball to the Redskins 31 where Ellis recovered Davis' fumble, thereby thwarting another touchdown.

The victory last Thursday boosted Newark's record to five victories.

GUARD UNIT DRILL WITH SHOTGUNS

Need For Uniforms Is Apparent

Company "G" of the Delaware State Guard met on Monday night in the Newark Armory and held their weekly drill under command of Lieut. William Donnell, commanding officer of the Company.

The drill on Monday night consisted of gun drill with the newly issued shotguns and the continuation of the regular basic training.

RED CROSS PRODUCTION SHOWS REAL ADVANCE

13060 Dressings Are Made In 660 Hours By 102 Workers

Newark residents, men and women as well as High School boys and girls, are giving generously of their time on Tuesday evenings at the urgent call of the Red Cross to fill an emergency quota of surgical dressings. Last Tuesday evening there were 60 eager workers folding gauze at the tables.

Because of the good response the workroom will be open an additional evening to give more people an opportunity to share in this important work. Hereafter, beginning the week of Dec. 6, the Red Cross rooms will be open Thursday evenings from 7 to 9 as well as the usual daytime hours of 10 to 4 on Tuesdays, Wednesday and Thursday, and Tuesday evening from 7 to 9. Sewing on Tuesdays only.

Newark production figures for November show that 13,060 surgical dressings were made in 660 hours by 102 workers. (In October 72 workers made 10,600 dressings in 519 hours.)

This month in sewing production 130 garments were made in 150 hours by only 14 women. There are 100 persons knitting in the local area for the Red Cross and they completed 65 garments in an estimated 1168 hours of work. 23 canteen committee members prepared food for 155 people. There were 6 new cases accepted for Home Service.

Two home nursing classes have already completed part of their course of study and a new class begins this week at 7:30 p. m. on Wednesday.

"We hope," says Mrs. Walter Hultihen, local Red Cross chairman, "that preparations for the coming holidays will not make people stop giving a few hours a week. We must not forget that our boys on the fighting fronts who need these surgical dressings will have NO holidays."

KEEPING APPOINTMENTS WITH CONVOYS

In a day's combat, an infantry division fires about 300 tons of ammunition . . . 100 57 mm. anti-aircraft guns, 127½ tons . . . and the thousands of army vehicles "passing the ammunition" and other supplies each burn up an average of 10 gallons of gasoline . . . All of these materials—the guns, the "gas", the ammunition, the vehicles—plus 700,000 other different military items—must come by sea.

A gigantic supply task without parallel in the history of the nation, this job calls for the finest coordination of American railroads with ships. The railroads must bring everything to ship sidings exactly as needed—and when needed. Any slip, any delay, may hold up a convoy sailing. So keeping appointments with convoys is

one of the most important jobs railroads have these days. If pushing a "convoy train" through ahead of your passenger train caused you to be a little late for an early-morning business appointment, the Pennsylvania Railroad feels sure you will gladly overlook it. The demands of war must have not only railroad equipment—but the right-of-way!
