SANITARY PLUMBING

and Improved Ventilation.

The rapid increase in the population of modern cities by multiplying the sanitary requirements has stimulated the improvement of Sanitary Science, and the advance of invention and mechanic art; hence it is our constant effort to arrive at the most perfect and practical system of Ventilation and Sanitary Plumbing, as applied to Water Closets, Wash Basins, and Sinks, and all fixtures, Pipes, and Drains, that are liable to conduct noxious and deleterious gases into dwellings.

Special attention given to the examination of Sewer, Soil, and Waste Pipes and Damp Cellars, and remodeling defective work.

AINSWORTH Boiler and Pipe Covering Co.

521 East Fourth St.,
WILMINGTON, DEL.

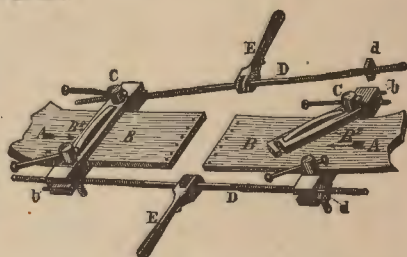

The Best, Safest, and Most Durable Non-conducting Covering ever offered to the public.

E. AINSWORTH'S IMPROVED BELT TIGHTENER.

Taking up a belt with the old style clamp is very tedious and much time lost.

But with AINSWORTH'S the whole operation occupies only three to five minutes; often pays for itself at one using, and will last a lifetime.

Send for a pair. If not satisfactory, return at my expense.
