

CLIMATOLOGICAL DATA

15 MARYLAND AND DELAWARE SECTION

J. R. WEEKS

PRICE: 5 CENTS A COPY; 25 CENTS A YEAR

VOL. XLIV BALTIMORE, MD., YEAR 1940 No. 13

GENERAL SUMMARY

January was very windy; snowfall was heavy over the southern half of the section on the 8th, in Garrett and western Allegany Counties on the 17th, and over an area 20 to 25 miles wide northward of a line from the southern limit of the District of Columbia northeastward to northward of Dover, Del., but exceptionally heavy southward thereof, on the 24th; the Upper Chesapeake Bay was frozen over throughout the month and the Lower Chesapeake Bay was filled with ice or frozen over during the third decade; February 4-13th was mild; on the 14th snowfall was heavy in the Allegheny Mountain region, over the remainder of the section moderate to heavy rain was followed by light snow; ice disappeared by the 15th from the Lower Chesapeake Bay and by the 20th from the Upper Chesapeake Bay. March 2d and 10-16th were cold; the 21st-26th was very cold.

In April the first decade was mild, the second and third decades were cold; the 12th-21st was a wet period. May 6-8th and 13-15th were warm; frost of the 12th damaged early vegetable plants in Allegany and Washington Counties; on the 27th heavy hail 3 miles south of Trappe and at Cambridge, Salisbury, Fruitland, and Deal Island damaged crops slightly and a waterspout damaged some property at Wenona, Deal Island. The first half of June was warm, the second-half was cool; heavy frosts of the 21st and 22d in the highlands of Garrett County damaged crops slightly. July 19th-31st was very warm; on the 22d in Grantsville district some damage was caused by lightning, a wind gust, and heavy rain; a mild tornado on the 23d from northeast of Rockville southward to near Bethesda unroofed several homes and uprooted many trees; on the 28th heavy hail at Ridgely damaged 25 per cent of the tomato crop within an area 1 mile wide and 5 miles long; lightning on the 31st destroyed a barn and the contents near Catonsville. The third decade of August was cold and wet. Heavy rain on August 25 at Cumberland collapsed a street concrete wall. Heavy rains on August 31 in Frederick County overflowed swollen streams; 2 bridges, a trestle, and many fishing cabins were washed away, highways were undermined at many points, and a youth, some cattle, 4 hogs, much poultry, and 10 colts were drowned; damage to merchandise in stores and warehouses in Frederick was \$75,000 to \$100,000. Heavy rain at night of August 31 near Smyrna, Del., overflowed Lake Como; 2 bridges and parts of a railroad bed were washed away and a telephone lineman was drowned.

There were many clear, sunny, pleasant days in September; the 21st was summerlike; a severe northwest gust on the 25th demolished a barn near Snow Hill. 2 negroes and 2 mules were injured and 3 mules were killed; frosts and freezing temperatures of the 25-28th damaged corn and froze other crops in Garrett County and caused some crop damage in Allegany and Washington Counties. October 16-22d was very cold; the first general snowfall of the season occurred on the 19th, it was the earliest of record to eastward of the Allegheny Mountains. Temperature alternations were frequent in November; the 11-15th was a wet period, with heavy rain. In December the weather was mostly mild, except cold during the 2d-6th and warm during the 20th-31st. [Continued on page 52]

CONDENSED SUMMARY OF CLIMATOLOGICAL DATA 1940

Months	Temperature				Precipitation				Number of days				Prevailing direction of wind
