THE VERY MINUTE YOU SECURE YOUR FIRST SUBSCRIPTION YOU HAVE MONEY DUE. YOU CAN MAKE EVERY DAY "PAY DAY" IF YOU ENTER THIS CAMPAIGN. YOU HAVE A JOB WITHOUT ASKING ANYONE ABOUT IT. ALL YOU HAVE TO DO IS GET A SUBSCRIPTION BOOK AND START. DON'T DELAY. AN EARLY START MEANS EASY SUBSCRIPTIONS.

The Plan In Brief

The object of the distribution is two-fold: primarily to increase the already large subscription lists of The Newark Post, to collect arrears and advance subscriptions, and at the same time afford our friends and readers an unparalleled opportunity to profit in a big way, through their spare time during the next few weeks. So it is a plan that works both ways and to the ultimate good of all concerned.

In order to gain this end quickly and advantageously, one of the most valuable and attractive lists of prizes ever offered by a newspaper in this section of Delaware has been made ready for distribution among those who participate most heartily.

Ambition and energy are the only requisites of success. The plan adopted is the fairest and most impartial conceivable. There will be no "double" vote offers, extra votes given, or any extra vote inducement whatsoever inaugurated during this competition, other than what has been announced in this issue. Neither will there be any long term subscription accepted. The plan of the campaign is straightforward and simple and is fully outlined in this announcement.

Let it be understood at the very outset that this is not a "beauty" or a "popularity" contest, but a strictly legitimate competitive proposition for enterprising men and women, and boys and girls, and one in which no elements of chance enter. One feature of this competition is the fact that there will be no losers in this race.

How to Enter the Campaign

The first step in order to become a candidate and compete for a prize is to clip the entry blank appearing elsewhere, fill in your name and address and mail or deliver to the Campaign Department of The Newark Post, Newark, Del. This coupon entitles you, or the person whom you might nominate, to 10,000 FREE votes. These votes are given you as a starter, and speed you on your way to win. Only one such nomination will be accepted for each candidate.

How Votes Are Secured

The next step is to call on or write the Campaign Department for a free working outfit consisting of an official receipt book, copies of The Newark Post and other information relative to launching an active drive.

Thus equipped, you have but to go to your friends and neighbors, relatives and acquaintances, and have them pay up a subscription to the Newark Post through you. THAT'S ALL THERE IS TO IT. However, you will never win anything unless you make the start; and while it will not be a very difficult matter to capture one of the big prizes, nevertheless it is necessary that you start early. You must plan out your campaign the same as any successful business man plans out his work for a season, and above everything else, let no one discourage you... stick to it and finish. Anything worth having is worth striving for. A few short weeks and you have earned real money.

It takes votes to win. The fastest way to get votes is by securing new and renewal subscriptions to the Newark Post. On each subscription turned in a certain number of votes are issued, varying according to the amount paid and during which "period" same are received at the Campaign Department. See schedule of votes elsewhere.

Early Start Means Easy Finish

The advantages of an early start are manifest: Not only do you have the FULL TIME in which to secure the winning votes but now and up to and including October 2nd you will receive the maximum schedule of votes on subscriptions, then also, the first in the field will undoubtedly get the "cream" of votes and subscriptions, while those who put off entering until a later date will have to take what is left.

Don't lose valuable time waiting to "see what the other fellow is going to do," but pitch right in and show the "other fellow" how to do it.

TO YOU MARRIED WOMEN

To be sure, you have your household duties to attend to, but couldn't you work double time for the next few weeks and enter this drive?

Just think of the many things that could be done with the \$30 to \$60 that you can earn weekly. Can't you, without any trouble, be a "partner" in the home, so why not take this opportunity of adding to hubby's income?

With some real hard work on your part, there is no reason why you could not pile up enough credits to be one of the big winners. Phone 4941 today, or drop in the Newark Post office. Don't delay.

—And You Married Men

We don't ask you to neglect your regular duties, but aren't there many evenings you now waste that could be devoted to this campaign, and bring added income to your family?

If you add \$30 to \$60 to your weekly income for the next few weeks that will pay a lot of taxes, buy a lot of clothes or any of the things that must be paid out of your regular income.

Don't confuse this with the ordinary "contest". This paper offers IMMEDIATE INCOME to those taking part—no long waits. And don't forget the big cash and other prizes to be won—maybe by you—who can tell?

To You Young Men

Who are of the impression that "it is hard to get a start nowadays" and that big opportunities that came into men's lives in days gone by are not for young men of today. Let us prove that HERE IS A REAL OPPORTUNITY.

—And You Young Women

Who realize that women worth while are those who do things and are factors instead of idlers. We want you in the race—today.

Come On, Boys and Girls! Get in the Race!

Before you realize it you will be earning enough to have a bank account of your own — and the experience you will receive will be a valuable part of your training.

Costs Nothing to Enter—Costs Nothing to Win

You Cannot Lose In This Campaign

INSURANCE THAT FITS

Life insurance is a necessity for the foresighted man or woman—but this doesn't mean that every life insurance policy is good for every buyer.

Buy life insurance that is—even as you do when you purchase a pair of shoes or a suit. John Jones' needs and problems may be entirely different from those of Bill Smith who lives next door. And the policy that suits John to a "T" might be entirely wrong for Bill.

In recent years the qualifications of life insurance agents have risen greatly. Today's average agent is far better fitted to advise policies that meet your needs and ambitions. Don't buy any policy without serious consideration and the advice of a trustworthy agent who has studied life insurance exhaustively.

EFFECTIVE METHODS NECESSARY

"Owing to the continental character of our country, to the richness of our soil, to the skill and activity of our laborers and engineers, and to the vast ability to create and use wealth, we have in this country the power to increase national income to new and unthought-of heights.

"Our important problem lies in the effective methods necessary further to develop and use this great power. American common sense tells us that only by close cooperation of industry and agriculture and other elements in our business picture, will we be able to achieve what until now is but a promise of our latent capacity and ability."—From a bulletin issued by the N. A. M. Committee on Agricultural Co-operation.

WORDS FROM A WORKER

When labor and political attacks against industry are the order of the day, it is refreshing to read an employee's opinion stating "Why I Like to Work for My Company."

Forbes Magazine offered prizes for such expressions. One of the winners was Walter J. Held of the Standard Oil Company of California. In part, Mr. Held said:

My company has never caused me to regret joining up with it 24 years ago.

There are two outstanding reasons for my profound appreciation of my company. These are stability of employment and unlimited possibility for advancement for everyone.

During six years of depression, I never feared my employer failing me, though the company was seriously affected by the same economic circumstances as other industrial enterprises. There has been feasts and famines, chaotic price conditions, dishonest competition, upsetting legislation, threats of governmental competition and increasing taxation. But my employer intelligently demonstrated good citizenship and civic consciousness.

My company has never disappointed its 69,000 stockholders, including many employees, by failing to declare a dividend. Its plants have never closed due to industrial strife, with loss to its legion of workers.

Rates of pay for the rank and file have never been cut. In 1931, when construction work had been completed and the general slump in business occurred, a plan was developed whereby employees would be placed on part time. Instead of laying off men, new work was undertaken a year and a half in advance of requirements. Four-day weeks were adopted to spread labor. This spare-the-work plan saved jobs for 3,000 workers.

It was the first company to establish the 8-hour day, with no decrease in pay, when work in oil fields, pipe lines, pumping stations and refineries has been on 12-hour basis.

It was the first to adopt the six-day week for drilling crews.

It places its employees on a monthly payroll after one has completed a year of continuous service, thus making everyone eligible for the same privileges.

It grants annual vacations with full pay.
Compensation is paid during sickness and recovery from accident, depending on length of service, and regardless of whether or not it results from performance of duty.

It has a liberal pension plan on an annuity basis.
Undoubtedly the greatest incentive to all employees is the opportunity for advancement from the ranks to the highest executive positions. It is encouraging for employees to know that virtually all company officials started at the bottom, thus assuring sympathetic understanding of the problems confronting the workers. Of 12,423 employees on the company payrolls at the end of 1934, 64 per cent had ten years or more continuous service.

With two important exceptions, no group of employees has ever struck for any cause originating within the company, over a period of 58 years. The company has always been particularly fair in matters of compensation.

For 25 years' continuous service, five-weeks' vacation with full pay is allowed. For every five years thereafter, six-weeks' vacation with pay is granted.

The company encourages employee credit unions to aid less fortunate workers.

Employee associations handle social, industrial welfare and collective bargaining of problems. Managers are easily reached by the individual worker.

Could there be more convincing reasons Why I Like to Work for My Company?

MCCARTHY A "FRANKENSTEIN" SAYS FIELDS

W. C. Fields, bulbous-nosed screen comedian, dried Judy Canova's tears the other day by telling the little actress her broken romance with Edgar Bergen, ventriloquist, probably would come out for the best. Miss Canova, Pennsylvania, Fla., hillbilly singer, broke her engagement to Bergen, blaming Bergen's wooden stogie. Charlie McCarthy, for upstaging their three-year-old romance. "Why, that is typical of Charlie," Fields whispered to the actress on a stage set.

"I always looked upon McCarthy as a Trilby, but it seems I have been barking up the wrong tree. He is in reality a 'Frankenstein.' Yes sir! Better that he had never been whittled into human shape." McCarthy is a social climber. He comes from a long line of old South American mangrove roots. In his insidious way he has been trying to break up a beautiful friendship between myself and Dorothy Lamour. Last time she shook hands with the little dummy she contracted a severe case of poison ivy. "But, Judy," the portly Fields soothed, "your break with Bergen may be for the best. Think of going on a honeymoon with a guy like that. Why, every time you sat on his knee he'd have you talking to yourself. He'd probably have McCarthy hanging on the other knee, anyway, making cracks. I know just how it would be. I have been taking Bergen's lip from Charlie for months."

W. C. Fields, "lie," Fields whispered to the actress on a stage set.

STATE THEATRE NEWS
Friday and Saturday
Laurel and Hardy go wild and woolly in their first Western, the Hal Roach feature-length comedy, "Way Out West" playing this theatre these two days. The film may be described as the "Duke of the Gay 90's" as the inimitable antics and laughter-getting proclivities of the international leon and fat duo are unrecalled in those thrilling and glamorous pioneer days. The picture is presented for laughs, and gets them to the tune of the music and songs that were popular at the turn of the century. The two comic stars score their greatest triumph by bringing new gags and humorous sequences. In the supporting cast will find Sharon Lynne, James Finlayson, Rosemary Lawrence and Stanley Fields, in different tree than W. C.)

Monday and Tuesday
Marlene Dietrich and Robert Donat, one of the most glamorous romantic teams in screen history came to this theatre in the Alexander Korda's production, "Knight Without Armor." Her first English picture casts the exotic Marlene as an alluring Russian countess, and Donat is seen as a mysterious modern knight errant whose hatred flares into flame of protective love as they through a series of stirring adventures, know

ing moments of incomparable horror and bliss as they flee from the countless terrors that threaten to tear them apart. The story is from the pen of James Hilton who wrote "Lost Horizon."

Wednesday
About as powerful a melodrama as the screens have reflected in a considerable period is "San Quentin," the first National production laid in and about the famous California penitentiary. Strong stuff! You couldn't expect anything less in a story dealing with a couple of thousand prisoners, their officers, guards, their warden, plus their hatreds and internal strife. And strong men to play it! Pat O'Brien as Captain Of The Yard. Barton MacLane as the man whose job he takes and who hates him for it. Humphrey Bogart as a desperate prisoner; Joseph Sawyer as another; Joseph King as the Warden. Breaks for freedom? Certainly! Oh well you see the picture and remember it is for one day only.

Thursday
Teaming Robert Young and Florence Rice (daughter of the famous authority on sports) for the third time, Metro-Goldwyn-Mayer offers the team in "Married Before Breakfast," As Tom Wakefield, a care-free young inventor, Young became enmeshed in a series of laugh-provoking adventures with Kitty Brent, played by Miss Rice. Barnett Parker, as Young's valet, is responsible for much of the comedy. Other featured roles include June Clayworth as June Baylin, socially prominent fiancée of Wakefield; Hugh Marlowe as Kenneth, the insurance-selling beauty of Kitty Brent; and many other film nobles.

What's A Little Distance Between Friends?

Miles are just a matter of seconds when you have a telephone.

The mere fact that the young folks are away at school or that some of your friends live in other towns, needn't prevent you from keeping in touch with them.

Long Distance telephone rates are surprisingly low, especially after 7 each night and all day Sunday.

25 YEARS AGO IN REVIEW

New Machinery At The Post

Aside from the fact of our personal interest and enthusiasm, the installation of the new linotype machine at the Post is of a news interest to the Post readers. This new machine is direct from the manufacturer and was set up under the direction of their representative.

The Mergenthaler 3 magazine Linotype is the latest word to date of this kind of printing machine construction. With a series of 6 faces of type at the command of the operator, the Post can reasonably assure even better news service than in the past. Several friends of the Post have been in to see this wonderful piece of mechanism.

J. Rupert Shultz from the printing Department of the Library Bureau, Boston, has been engaged as operator.

He comes well recommended and started work this week. He expects to have this department in full running in a few days.

There is only one other machine of this type in Delaware and this advantage will be appreciated as placing Newark as a home of up-to-date printing.

Minnehaha Band Elects Officers

At a meeting of the band of Minnehaha Tribe of Red Men on Monday night, resolutions were adopted on the death of Harvey R. Perkins, who had been president and a member of the band since it was organized one year ago. The band in one year has made good progress and will probably be busy during the present political campaign. It is now open for engagements. The meeting on Monday night elected the following officers for one year: president, C. E. Jester; vice-president, C. E. Porter; secretary, Clarence L. Denny; treasurer, Luren Wivel; business manager, Clarence L. Denny; leader, H. C. Herdman; board of directors, F. M. Smith, T. A. Mullen and G. W. Griffin.

Mr. and Mrs. C. B. Evans who sailed for Europe last July, started on their homeward voyage September 6th, on the Steamship America. They are due in New York on Saturday and will return to their home in Newark on Sunday.

At the close of the first week of school Friday, there were four hundred fifty-nine pupils enrolled in the Newark public schools, an increase of thirty six over the enrollment at the end of the first month last year.

Party At Chautauqua

Many people for this locality are attending the Chautauqua in session from September 8-12, at Kennett Square. The program is pronounced excellent. A series of lectures by Dr. Jesse Holmes of Swarthmore, on the Ancient Classics, is an interesting feature.

A party of six, consisting of Misses Lillian, Bessie, Edith, Ellen and Alice Mitchell and John Mitchell, returned Saturday from Chautauqua, N. Y., where they attended the Friends' General Conference. The party visited Niagara Falls and other points of interest in New York State.

He was unconscious when found but soon recovered, none the worse for the fall except a few bruises.

Ten cents advance in price of milk was put in effect on September 1st at the local creamery operated by the Dolefingers of Philadelphia. The price for September is put into effect is \$1.85 per hundred weight.

The improvements to the dwelling of Charles H. Jarmann, near Ogletown are nearing completion.

The ladies of the Sprinkler Committee of the New Century Club report a scarcity of funds. In view of the service during the summer, the above statement should be all that is necessary to gain needed support from those who have enjoyed the benefits, but have neglected to share the expense.

A terrific electrical storm visited this section on Saturday afternoon, with accompanying high winds, hail and rain. Power lines were blown down, and telephones were out of service. Many folks who use electrical ranges were forced to wait until a late hour for dinner until repairs could be made. Men were still working at midnight to repair the damage to the lines. Lightning struck the electric meter in the cellar at the residence of R. P. Maclary and demolished it. Several men who were in a nearby building were severely shocked.

The Rev. J. C. McCoy, pastor of the Newport M. E. Church, had as his topic on Sunday morning "The Pentecostal Power."

Mrs. A. M. Munn will again be in charge of the kindergarten operated at the Krebs School. The department re-opened on Wednesday, and is sponsored by the local people, who pay the teacher's salary as funds are not provided for this branch through the State Board. Any parents having children to enter should contact Mr. D. J. Richey, principal of the school, or Mrs. A. M. Munn, teacher.

WILLIAM F. ALLEN

AFTER LENGTHY CONFERENCE the Cabinet has decided that the United States would pursue a policy of "watchfulness" in the Far East where Japan and China are threatening to involve other nations. Because a state of war is denied by both countries, President Roosevelt has not had to put our Neutrality Law into effect which he would have to do if either nation declared war.

ECONOMY — Administration leaders have begun a drive to economize. The reason is to balance the Federal budget next year and to begin to make payments on the public debt. After a White House Conference, it was announced that reductions in appropriations at the next session would be as high as 30 per cent and that some Federal activities will be curtailed and others eliminated.

BENEFITS OF THE HOUSING ACT — Thirty States which have laws permitting their political subdivisions to set up housing authorities can benefit under the Federal low-cost housing, Wagner-Steagall Act. The Act gives power to the Federal Housing Authority to extend loans to such housing agencies to develop housing for the poor or classes and thus eliminate slums. At least 20 per cent in cash or tax remission must be contributed by the State or its subdivision.

RECOVERY — Although the outbreak in China has made big business uncertain, business as a whole is still holding its own. There are still plenty of favorable signs. The banking situation is good, there will be large farm crops this year, steel buying has picked up and trade is holding well in the slack period.

HELP TO BUSINESS MEN

Many services are open to the American business man through the Department of Commerce. This department will help exporters find markets abroad; give manufacturers latest statistics on the commodities they use, and will also help a business man plan his sales campaign. The Division of Marketing and Research which is a Bureau of Foreign and Domestic Commerce specializes in domestic market conditions, and has a staff of experts who cooperate with business men in solving marketing problems.

STEEL RAILS — All records for expenditures for steel rails since 1931 have been broken. Last year, the railroads of this country have bought steel rails to the tune of \$37,000,000.

VACATIONING — When the President left for his home at Hyde Park for a vacation of a few weeks, he took quite a number of state papers to be given his attention there. The last bill he signed before leaving was the one to close income tax loopholes, by which the Treasury will raise approximately \$100,000,000 yearly. He sent a message to job marchers that lack of funds necessitated the dismissals but that there were no further WPA curtailments contemplated at the present time. He refused to sign the Sugar Quota Bill before his departure and left no sign that he would do so on his return.

BUILDINGS — During the last three years, Congress has provided funds for 1,100 new postoffice buildings; 846 of these are completed or nearly so. The new buildings are in every state and territory in the United States.

Maclary of Newport, have returned home after spending several days as the guest of Mr. and Mrs. W. J. Turner of Wilmington.

In connection with soil-building practices carried out, such as the seeding of specified legumes and perennial grasses, the turning under

of green manure crops, the application of ground limestone or the use of superphosphate in connection with certain legumes and perennial grasses, farmers will be asked to supply records or to show otherwise that they have carried out the practices.

Campaign

can secure, the more certain that one will be of being awarded first prize closing night of the campaign, October 23.

Immediately after October 2, will come a big reduction in extra votes and that is right where the wise candidate will note the drop. Make a point to gather in every possible subscription by October 2. That is a good idea to keep in your mind. Each five subscriptions during

this campaign and until 8 o'clock Saturday night, October 20, will give 25,000 extra votes. There is no limit to the number of these extra ballots a candidate may have.

Following the 200,000 extra vote ballots which stop on October 2, will come only 150,000 extra votes for one week. Then will come another week of only 125,000 extra votes and during the closing week of this campaign only 100,000 extra votes are to be given on each \$15 amount.

Make no mistake about these extra vote offers. Positively there will be no others made. There will be no changes except as advertised herein. There is nothing mysterious about the votes. It is printed plainly for all to read and understand.

The candidates who will take good advantage of these biggest vote offers as they come will find they have certainly had the best advantage it was possible to get in the campaign.

Make Immediate Returns

Do not hold back subscriptions. If you do hold back payments you are bound to lose votes and it also will cause subscribers to be asked after they have already subscribed. Turn in your subscriptions as fast as you get them. This gives the office people time to mark up on the mailing list anyone's date.

The 20 per cent commission is paid immediately to each candidate right at the time money and subscriptions are reported at this office.

The management of THE NEWARK POST wishes it thoroughly understood in regard to the following: Should a candidate already have been paid \$100 in commissions and then be awarded the first prize, and this winner select the \$500 cash, a check for \$400 would be given, not a check for \$500. This makes it possible for any candidate to earn from a few dollars up to \$500 during a few weeks of campaign.

If the winning candidate had already been paid \$100 in commission and selects the \$671 Chevrolet as a prize, then this candidate will be asked to refund the \$100 before the sedan is delivered.

Regarding the \$200 second prize, — if the candidate had already been paid \$80 in commissions this amount would be deducted from the \$200 and a check for \$120 would be given.

The candidate who wins third place in this campaign would be awarded \$50 in cash, according to the following rules. If winner of third prize had been paid \$40 commission, a check for \$10 would be given. But, should the third prize winner already have been paid more than the \$50 amount, this person would keep all the commission but no check would be given as the commission would contain the award.

Additional Rules

Any person now taking The Newark Post must be an OLD subscriber and must be marked old

candidate. Subscriptions are checked in the office, so mark them right when you get the payment.

Changing name of one member of a family to another name in the same family does not make the payment new. Mark it old.

A payment that is new when first secured by a candidate remains NEW for that candidate throughout the campaign. This rule is made so that if a person gives a subscription to a candidate at first of campaign, this candidate will have

credit as a new should under no circumstances be taken later.

All votes will be counted in the closing night of the campaign. Candidates and friends and others interested to attend the counting will be most welcome.

The final counting of votes will be done by three well known persons. Names will be called during closing week of campaign.
