Committee for Red Cross Drive Meets Tonight

Will Plan Campaign and District Town

Past Achievements Bespeak Hearty Support from Everybody

The initial step in the local organization for the Red Cross Membership Drive has been taken by Chairman E. B. Frazer who has appointed his committee and has asked for a conference with the members tonight at 7:30. At this meeting the town will be divided into districts for the campaign. Plans for the campaign formulated, arrangements made to secure the cooperation of the churches, the industries, the schools and the entire community. This committee consists of Mrs. H. L. Bonham, Mrs. W. E. Hegeman, Mrs. W. E. Hill, Mrs. C. A. McCue, Mrs. W. E. Steel, Mrs. John Truitt, Mrs. C. L. Penny and Misses Lavina By, Lulu Evans, Nellie Wilson, Eleanor Harter, Jane Maxwell, Hannah Marsey, Edith Spencer, Eleanor Todd, Bertha Welcome, Miss Marshman and Miss Anderson, Mr. G. I. Durnall and Mr. E. J. Ellison.

The chairman is particularly anxious for the drive to be a success. The cessation of hostilities did not by any means mean a cessation of activities for this organization. The reports of achievement given at the recent annual meeting and the unstinted praise given this organization by returned soldiers are the most powerful arguments why every member should resubscribe and every citizen lend his cordial support.

Head of Christiana Service

Bible School 10:00 A. M. Preaching by Rev. William H. Davies, pastor Rock and Zion Presbyterian Church.

Sermonette: "To be in Christ is the secret of our life; to be for Christ is the meaning of our activity; to be with Christ is the hope of our glory." The Kings Business.

Local Soldier Goes to Arizona

Captain J. Wilson O'Daniel who has been spending a 30 days' furlough at the home of his grandmother, Mrs. Rebecca A. Wilson, left on Monday for Arizona to join the 25th Infantry to which he has recently been assigned.

Captain O'Daniel was commander of a Company in the Composite Regiment of representative American Soldiers. This was demobilized after the peace parade in Washington.

High School Literary Societies Present Programs

The Sophomore-Freshman Literary Society held its regular meeting on Friday, October 24. The program was as follows: Song—"There's a Long, Long Trail"—Society.

talk—"Starfish"—Floyd Hubert. Dialogue—"Gossip"—9th Grade Girls.

recitation—"The Turn Over Dainty"—Florence Gray.

andolin Solo—"Traumeri"—Miss King.

talk—"The Air-plane Race"—Nami Riley.

The Senior-Junior Literary Society held a meeting on Friday, October 24, when the following program was presented.

recitation—"The School Marm's Courtin'"—Madeline Johnston.

Local Solo—"Margherita"—Alma Dunlevy.

talk—"From Ragtime to Classical Music"—Evelyn Carpenter.

reading—"The Cruise of the Half-Moon"—Marion Nesbit.

ong—"Society."

Reading Circle to Meet Thursday Evening

The Chautauqua Reading Circle will meet at the home of Mrs. Hayward, Thursday evening, Oct. 30, 7:45.

The circle is at present studying Power's book "America Among the Nations." Each member expected to contribute an item to the Current Events discussion.

MISSIONARY SOCIETIES TO ATTEND CHURCH IN A BODY

Californian Tells Influence of Suffrage on Women of State

The members of the Women's Home Missionary Society who met on Friday afternoon at the home of Mrs. Harrison Gray heard a very interesting comparison made between the climatic conditions in California and Delaware, Miss Alice Garlick of Riverside Cal., a former resident of Newark was the speaker. She told also very entertainingly of the difference made in California women by the granting of suffrage. They are more alert, wide-awake and intensely interested in questions of the day.

"Christianizing America" was the study topic for the afternoon. It was presented by Mrs. Campbell. Comments were made by Mrs. T. T. Martin and a story told by Mrs. C. A. Short. Mrs. H. Warner McNeal, Mrs. Mary T. Williams and Mrs. F. A. Cooch were elected delegates to the convention soon to be held at Smyrna.

The members of this society and the Queen Esther Circle will attend church in a body next Sunday. They are desirous of having every member report in the Sunday School room before the service.

Library Committee Met on Monday Evening

A meeting of the Library Committee of the New Century Club was held at the home of Miss Alice Kerr on Monday evening to consider the purchase of new books for the town library.

Queen Esther Circle to Meet Saturday

The Queen Esther Circle of Newark M. E. Church will meet at the home of Elizabeth McNeal on Saturday November 1st at 2:30 o'clock. Every member is requested to be present.

Signed:—

Edna Greene (Chairman).

Rummage Sale to be held Monday and Tuesday

The ladies of the Presbyterian church will hold a rummage sale on Monday and Tuesday next.

The annual poultry supper will be held on Thursday, Dec. 4.

All Day Service Next Sunday at Ebenezer

Preparations are being made for an all day meeting to be held at Ebenezer church next Sunday. In the morning a patriotic service incident to the demobilization of the service flag will be held. Ten young men from the congregation served in the great war and nearly all have returned and will be present at the exercises. Prominent speakers have been secured and Mr. and Mrs. Arthur Wilson of Wilmington will sing at both services.

Suffrage Convention at Dover Monday Week

The most spectacular affair ever planned by conservative suffragists of the anti-militant type in Delaware will be held in Dover on November 10th. Among the bright features of the convention will be the arrival of Mrs. Carrie Chapman Catt, President of the National Suffrage Association on the 11:58 a. m. train; the escort consisting of decorated cars from twenty-five auxiliary associations to the State House where Governor Townsend will hold a reception; luncheon at the Hotel Richardson in honor of Mrs. Catt, the Governor and prominent suffrage leaders from other states, and a mass meeting in the evening at the Nixon's Dover Opera House where Mrs. Catt will make the address.

The Opera House meeting will be of such a brilliant nature that no Delawarean can afford to miss it. Mrs. Catt is herself a gifted orator and possesses a most magnetic personality. Besides her address there will be speeches from other celebrities and music furnished by Mr. Ernest Warwick, one of Philadelphia's most popular baritones.

EXTENSION SERVICE DOES NOT USURP POWER OF SCHOOLS

State Leader Presents "Club Work" Before Century Club

T. T. Martin, State leader of the Boys' and Girls' Club Work, in an address before the Century Club yesterday gave in a clear and impressive manner the purpose and aims of the Extension Service in this project. He explained that and the characteristics of the place of the public schools but rather cooperation with them in the sense that president Wilson means when he defines to cooperate thus: "so to conduct yourself that others can work with you." He said that every effort was put forth by workers in Home Economics and Agriculture to induce boys and girls to stay in school.

Two vocal solos were given by Miss Alma Dunlevy and an instrumental selection, "Dance Argon-also," by Miss Anna Patchell, Mrs. S. C. Mitchell read several nursery rhymes by Mrs. Joyce Kilmer.

Next week Mrs. W. A. Wilkin-son will read a paper on Industrial Conditions in Delaware. There will also be music, current events and poetry.

On November 11, Miss S. C. Mitchell will show pictures illustrative of historical events in Delaware, and on November 18 the educational committee will have charge of the program and expect to have a distinguished speaker.

Two Short Plays to be Given in Wolf Hall Nov. 20

The Sophomore English class of the Women's College of Delaware will produce two short plays in Wolf Hall, on the evening of November twentieth, "Abraham and Isaac," the first play, is a miracle play written in the fifteenth century by an unknown author. The story, based on the story of Abraham's sacrifice of his only son, Isaac, brings out the human feeling of the two main characters, in a way which perhaps has been previously unthought of.

The second play, "Everyman," is a morality play of uncertain origin, also written in the fifteenth century. The play tells the story of Everyman's experiences in his search for friends who will accompany him to the grave. The search seems in vain, but as the play draws to a close he finally discovers friends who are true until the very end.

Further details, including cast and executive staff, will be given at a later date.

Repair Work on Wrecked Airplane Completed

Repair work on the air-plane which was wrecked several weeks ago in Jex field was completed on Saturday and Captain Briggs, who has been superintending the work, left that day for Baltimore to rejoin Captain Atkey and Lieutenant Ellis.

Previous to his departure he took up three young people of the town. The atmosphere was so thick and heavy that Captain Briggs did not attempt to go up more than a few hundred feet.

Entertains for Prospective Bride

A variety shower was tendered Miss Florence Little last night at the home of Miss Edith Robinson. The decorations and games were suggestive of Halloween. About 20 guests were present and many beautiful gifts were presented to the prospective bride whose wedding will take place early next month.

Hold Reception in Honor Newly Married Pair

On Saturday evening, Dr. and Mrs. S. C. Mitchell entertained the deans of the different departments at the colleges and the new faculty members at "The Knoll" on Saturday evening in honor of Mr. and Mrs. Morris R. Mitchell. These young people stopped off for a few days to visit their parents before proceeding to their new home in Marston, North Carolina.

A series of readings by Miss Dorothy Wolf of the Women's College faculty was a delightful feature of the reception.

ELECTS DELEGATES TO ATTEND SUFFRAGE CONVENTION

Newark Auxiliary is Entitled by Membership to Send Five

A meeting of the Newark Auxiliary of the Delaware Equal Suffrage Association was held at the home of Miss Eleanor Todd on Monday afternoon, the prime object of which was to elect delegates to the convention which will be held in Dover on Monday November 10.

Mrs. Harry Hayward, the president presided and brought an interesting account of the meeting held in Wilmington that morning. After a discussion of plans for the convention, the following delegates were chosen: Mrs. Harry Hayward, Miss Etta Wilson, Miss Lena Evans, Miss Eleanor Todd, and Mrs. R. A. Whittingham. The alternates are Mrs. J. I. Dayett, Mrs. S. M. Donnell, Miss Martha Wilson, Mrs. M. Helen Mackie and Mrs. Ernest Frazer. As soon as it can be definitely learned how many machines will be available to convey the Newark delegates and the friends of Suffrage who will take advantage of this opportunity to hear Mrs. Carrie Chapman Catt who will be the principal speaker of the convention, plans will be made to decorate the automobiles which will form part of the procession arranged to convey the distinguished speaker from the train to the place of meeting in Dover.

The Auxiliary is making a special effort to induce as many as possible to attend the meeting at Dover.

Presents Bouquet to the King of Belgium

Several Newark people who were at the P. B. and W. depot in Wilmington on Monday waiting for the train due here at 6:57 were fortunate enough to get a good view of the King and Queen of Belgium and the heir apparent the young Duke of Brabant. Owing to the failure of the State Department to notify the Wilmington officials that the train would stop, no plans for a formal reception could be made and only a few outside of those waiting for the trains were on the platform when the train bearing the royal guests halted. Miss Edwina Long was in the front rank of the waiting crowd and handed to one of the secret service men a small bouquet of roses, which she was carrying. This was presented to the King.

EVERYTHING READY FOR HALLOWEEN FESTIVITIES

Nearly all the children in the schools will participate in the two Halloween parties at the Y. M. C. A. on Thursday. The grammar school children will hold their party in the afternoon, right after school and the young men and women of the high school will have their masquerade affair in the evening.

For the High School the program committee consists of: Beulah Law, Margaret Burket, Herbert Henning, Mildred Major and Floyd Hubert. This committee has planned a very complete program full of fun and entertainment and while they have refused to make public just what this program will be, yet they assure every one that they will have a good time.

The Gym will be decorated in Halloween trimmings and high school colors. The refreshments will consist of cider and ginger bread.

The grammar school children during the past week have made many decorations for their party. Besides these there will be corn stalks, pumpkins and witches to complete their decorations. The program will consist of:

Mass singing lead by Mr. Beabout, pie eating contests, apple eating contests, shoe race, potato race, monkey and crab race, grand march, three deep, dodge ball, cat and rat. Apples will be served for refreshments.

All mothers are invited to come and watch the party from the balcony.

VICTIM OF AUTOMOBILE ACCIDENT BURIED YESTERDAY

Mrs. Pope's Condition favorable; Inquest To Be Held Tomorrow

While on the way to attend service at the Presbyterian church on Saturday evening, Mrs. John Pope and Miss Julia Smith were run down by an automobile near the corner of Delaware and South College Avenues. Miss Smith sustained a severe shock and concussion of the brain which resulted in her death after about three hours. Mrs. Pope had one ear almost severed, one leg badly cut and sustained numerous minor cuts and bruises.

The driver of the machine, Clarence Lurty, aged 18 years of John Lurty, who lives on the Charles Walton farm near Iron Hill, and several other young men and young women occupants, together with passers-by gave immediate aid.

The physicians of the town were summoned and arrived in a very short time. Miss Smith was removed to her home on Delaware Avenue by Dr. Walt. H. Steel. It was at first thought that Mrs. Pope's back had been broken and she was hurried to Delaware Hospital, Wilmington. Here her wounds were dressed and examination showed that her back is not broken. Today's reports indicate that her condition is as favorable as could be expected.

At the point where the accident occurred stone intended for the surfacing of West Delaware Avenue has been piled along the north side, a box for mixing concrete had been left on the south side of the Avenue by the street contractors, leaving very little roadway. Accounts differ as to the manner in which the accident occurred, some witnesses asserting that the unfortunate victims stepped directly in front of the car, others stating that at the speed with which the car was proceeding at this point, there was no way of avoiding the tragedy.

Young Lurty gave himself up to officer Apsley on Sunday and in a preliminary hearing before Squire Lovett was held under \$5000 bail on the technical charge of manslaughter, to await the action of the coroner's jury. The inquest will be held tomorrow afternoon.

Miss Smith's body was removed to the undertaker's parlors of R. T. Jones and later to the home of her brother, Henry M. Smith, where funeral services were held yesterday afternoon at 2 o'clock by Rev. W. J. Rowan. Interment was made at Head of Christiana cemetery. Two brothers survive.

Miss Smith was 58 years old. Until the death of her sister Susan Smith a few years ago, the two old grandchild of Mr. and Mrs. Wesley Davis met with a tragic death on Friday morning by poisoning.

WEDDING Price-Appleby

Miss Linda Woolley Appleby, daughter of Mr. and Mrs. Clayton D. Appleby, of Bear, and H. Wilson Price, son of Mr. and Mrs. Herbert M. Price of Newark, were married at 10 o'clock Saturday morning at Grace M. E. parsonage, Wilmington, by Rev. John W. R. Sumwalt, pastor of Grace Church.

The bride's costume was a Pekin blue silvertone coat suit, with hat, gloves and fur to match. She carried a beautiful bouquet of white rose buds and her attendants pink chrysanthemums. She was attended by her cousins, Miss Helen N. Hayes, Miss Lydia Santmyer and Miss Anna Burris. The groom's best man was the bride's brother, C. Douglas Appleby.

Immediately after the ceremony the bridal couple left for an extended trip to New York City, Buffalo, Niagara Falls and the Southern part of the Canadian States. They will make their home in Pontiac, Mich., where Mr. Price has been employed for the past two months by duPont Engineering Co.

Keen Rivalry Exists Between Shop Teams

Contestants Eager for Halloween Meet

The Inter-Shop meet between the American Vulcanized Fibre Co., and the Continental Fibre Company which will be held in conjunction with the Halloween celebration at the Y. M. C. A. on Friday night is a arousing much rivalry between the contestants for the cup. Each contest will count for so many points and the shop securing the most points will win the cup. The judges, are Norris Wright, G. I. Durnall and Dr. Hoyt.

Continental Band Announces Full Musical Program

The Continental Band will play throughout the evening, and Mr. Hubert has announced the following program:

Continental March, Written by Mr. Edwards and dedicated to the Band.

Motor Boat Squadron, Tramp, Tramp, Tramp the Boys are Marching.

Onward Christian Soldiers, I'm forever blowing Bubbles, Starry Emblem, Flirtation, Siren, Newark Post March, America.

The Basket Ball line up for the American will be: Forwards Daniels and Hogan; Center, Elissner; Guards J. Hopkins and Marris. The rivalry for a place on the Continental team is so great that they are unable to announce their line-up for Friday. Chalmers, Tierney, Rhodes and Moore are out for the forward positions, Hopkins and Homewood are after the center job, while Battersby, Ewing Jackson and Dawson are prospective guards. Dr. Hoyt will be the referee.

The Indoor Baseball players, are. For the American: Marris, Ellison, Smith, J. Hopkins, Sprugel, Elissner, Davis, Hogan, and Bayless. The Continental, Jackson, Fulton, Dawson, Hopkins, Harrigan, Messick, Moore, Chalmers, Hill, Rhodes, W. Drake, H. Drake, Battersby and Roberts.

The umpire will be W. E. Holton. There will also be a 3 round boxing bout between Lefty Smith of the American Vulcanized Fibre Co. and W. Lloyd of the Continental Fibre Company.

After the contests a social hour will be spent in the Gym in which all the guests of the evening will be invited to participate. Both men and women are invited.

OBITUARY

Blanche I. Miller

Blanche I. Miller, little 2½ year old grandchild of Mr. and Mrs. Wesley Davis met with a tragic death on Friday morning by poisoning.

The grandmother has for several weeks had trouble with her eyes and has been under the doctor's care. He gave her some pills which for the sake of convenience she kept on top of the writing desk. The child climbed up and securing some of the pills, swallowed them and became very ill in a short time. Dr. Kollock was summoned but was unable to save the child's life, and she lived only an hour. It was learned that the pills contained a sufficient quantity of strychnine to cause death.

Funeral services were held at the home of the grandparents on Sunday afternoon with Rev. Frank Herson officiating. Interment was made at Salem cemetery.

James A. Fraley aged 50 years died yesterday morning at the home of Mrs. John Doyle on South College avenue.

The funeral will take place from the residence of Mrs. Doyle on Friday morning, October 30 with high mass at St. John's Church at 9:30. Interment will be made in St. John's cemetery.

Mr. Fraley was a life long resident of Newark and was unmarried. For several months he has been a sufferer from Bright's disease which caused his death.

PROPER SANITARY PRECAUTIONS WILL WIPE OUT TYPHOID

Infected Water, Milk, Ice Cream and Oysters Sources of Contamination

The October issue of the Delaware Health News contains a timely article on the subject of typhoid fever, its nature and prevention.

This is the season of the year when typhoid fever is most prevalent, and a word of warning may assist in keeping down the death rate from this disease this fall. As a matter of fact, typhoid is a most readily preventable disease and its continued existence in a community is due to the disregard of known sanitary precautions.

During the last six months of 1918 there were 31 deaths from typhoid fever in Delaware, during the last half of 1917 there were 40 deaths, and during the last half of 1918 there were 50 deaths. If the Delaware rate had been as low as that of many of the large cities there would have been but 9 deaths during the entire year, so that there was a clear waste of one life per week for the entire year from this one disease, a disease that can be prevented.

Typhoid fever is caused by a small organism which is known as the typhoid bacillus, or germ, and which is only one ten-thousandths of an inch long. These germs are discharged from a patient in the stools and urine and no person can contract this disease unless he takes into his mouth some of these germs which have come from the body of another person. It is thus seen that typhoid fever is a filth disease and that the proper care of the wastes from the human body would wipe out the disease. Some persons who do not have the disease discharge the germs and these persons are known as "carriers." It is therefore necessary to dispose of the body wastes of ALL persons so that the germs cannot contaminate any water or food supply and so that flies cannot carry the infection to milk or other food. This is one of the chief reasons why the State Board of Health is insisting upon the construction of sanitary, fly-proof out-buildings. It is also essential that all persons thoroughly cleanse their hands before handling food so that infection will not be carried to the mouth by means of contaminated hands.

Most epidemics of the disease have been caused by infected water, milk, ice cream and oysters. Many cases have also been caused by flies which carry the infection upon their bodies to food supplies. Many causes are caused by carelessness on the part of those attending persons who are sick with the disease.

If the entire milk supply of a town or city were pasteurized there would be no danger of milk-borne typhoid. While it is not possible to guard against every possible method of food contamination, strict attention to sanitary conditions will result in an immediate drop in the death rate. All persons exposed in anyway to the disease, those who travel extensively or who live in communities where it is prevalent should protect themselves by anti-typhoid inoculation which renders a person immune from the disease for at least two years, possibly longer.

Budget System to Curb Power of Executive

Colonel Stimson makes a strong point in arguing that a properly built national budget system would do much to curb executive usurpation of powers that properly belong to the Congress. Under the present loose and chaotic arrangement the tendency has been to give the President a sort of a blank check; necessary, perhaps, in war time, but not to be tolerated under normal conditions.

Few men are better qualified to speak on this subject than Colonel Stimson, as he has not only been Secretary of War but has had long experience in many important financial spheres. Said he: "What we lack in our national Government is the focussing of responsibility for expenditures and for appropriations for those expenditures."

That responsibility should rest upon certain clearly delimited offices, working in cooperation, instead of each bureau all for itself; and all under the direct specific control of the Congress. The need is so plain that there should be small disagreement as to the principle.

RED CROSS SAVED AMERICAN PRISONERS FROM STARVATION

RELEASED AMERICAN PRISONERS AT BASLE. The fine physical condition of this group of sturdy American troops is due to the fact that the Red Cross was able to take care of them during their imprisonment in German prison camps. The picture was taken on their arrival in Switzerland.

Thrilling Story Now Made Public in Report of Commissioner Carl P. Dennett.

EFFECT ON GERMAN MORALE

ASTOUNDED WHEN PRISONERS RECEIVED MORE AND BETTER FOOD THAN THEIR CAPTORS.

One of the most surprising features of the great war was the remarkably fine physical condition of the American prisoners who were released, some of them after long periods of captivity in German prison camps, and sent into Switzerland after the signing of the armistice.

That the American prisoners were released, well fed and well clothed is due to the work of the American Red Cross, which provided them with food, clothing and many other physical necessities and comforts. Carl P. Dennett, of Boston, in a report just issued says:

Starvation Averted.

"The American prisoners would have starved to death if it had not been for the food parcels sent to them through our (Red Cross) organization at Bern. The condition of the Italian, Russian and other prisoners who did not receive food supplies from their country of origin proves that the prison ration was not sufficient to sustain life for a prolonged period, and it was of a character that our men absolutely could not eat. Our returning prisoners have testified unanimously to the fact that they would have starved had it not been for the food we sent them. I have the testimony in one telegram of 2200 American prisoners to that effect."

"The American expeditionary forces scrupulously respected the treaty on the treatment of prisoners, and there is not a single record of an attempt by a German prisoner to escape."

What the Red Cross Did.

"In the early months after American entry into the war, American prisoners were subjected to many of the indignities bestowed upon other prisoners, but after the demands of the United States in September, 1918, this sort of treatment ceased. There was always that fear in the Teutonic mind that certain distinguished plainclothes junkies and intriguers held in American internment camps might have their wholesome meals and beautiful surroundings altered a bit."

"The American government found itself in the curious position of having to feed and clothe German prisoners of war in its hands and also the American prisoners of war in the hands of the Germans. To meet this condition, the government made arrangements by which the American Red Cross undertook to do the following:

1. Obtain the names of American prisoners of war.
2. Obtain camp addresses of the prisoners.
3. Transmit this information to general headquarters of the American forces; to the Red Cross at Washington, which notified the family of each prisoner; and to the American Red Cross at Paris to clear its records in connection with the search for missing men.
4. Ship necessary relief supplies to American prisoners.

Effect on German Morale.

The American prisoners were thus kept well clothed and well fed, and finally were repatriated apparently none the worse for their confinement. Mr. Dennett emphasizes the psychological effect upon the German population:

"It is undoubtedly true that the food and clothing parcels sent to the American prisoners constituted the best possible propaganda. The German population had been educated to believe that an American army of any size could not possibly be sent to France, and that it would be physically impossible to transport the necessary food, clothing and supplies. And yet, here were prisoners, scattered all over Germany, receiving from America twenty pounds per week of

AMERICANS RETURNING FROM GERMAN PRISON CAMPS. A Group of United States Prisoners Held in German Camps, Marching into Vichy.

better food than the German population had seen for years, and better clothing.

"The effect was irresistible, and spread over all Germany. It became a source of embarrassment to the German officials, and we were even told we were sending more supplies than were necessary and asked to reduce the quantity. We were informed officially that the prisoners received so much food that they were using their canned vegetables to play 'pass-ball' with. Of course, using a can of corn to toss around a circle instead of a ball didn't hurt the contents any; but it made a profound impression on the Germans to see good food used in such a apparently reckless manner."

Secured Better Treatment.

"Because the American prisoners were sent food, clothing and toilet articles to enable them to maintain their health and self-respect, they were respected by the Germans. On the contrary, Italian and Russian prisoners who received no supplies were starved and in rags as a consequence and were treated like dogs."

Bands and orchestras were organized among the American prisoners, and entertainments given. Mr. Dennett tells of band music, sent from America, including such selections as: "Just Like Washington Crossed the Delaware, Pershing Will Cross the Rhine," "It's a Long Way to Berlin—But We'll Get There," etc.

Rather than deprive the American prisoner bands of these pieces, the titles were clipped off and the music forwarded. Thus the German guards and prison officials were serenaded by Yanks with these tunes, and returning prisoners were amazed to learn the words sung to them at home.

Red Cross Nurses Die For Liberty

One Hundred and Ninety-eight American Women Laid Down Their Lives During the War.

One hundred and ninety-eight deaths among the 19,877 American Red Cross nurses who served during the great war, represents the contribution in human life of American womanhood, toward winning the war.

The personnel of these martyrs ranges between Jane A. Delano, late Director General of the American Red Cross Department of Nursing, who lies buried in France, and those humble but no less heroic women who gave up their lives in American cantonments. Their graves lie all over the world, crowned with white crosses. Even in Germany there is one marking the last resting place of Jessie Baldwin, of Summerville, Pa.

In the American Red Cross building in Washington, a beautiful service flag commemorates their sacrifice. A single blue star represents the 19,877 Red Cross nurses in active war duty, no matter where stationed.

In memory of the Red Cross nurses who have "gone west," 198 gold stars burn on this flag, a silent tribute to those splendid women who felt that duty was more than life itself and who, carrying out the traditions and the ideals of the Red Cross, were faithful even unto the end.

WILL CAMPAIGN TO MAKE AMERICA A HEALTHY NATION

Delaware Chapter Red Cross Takes Initial Step in Peace Program

Delaware Chapter of the Red Cross, as an initial step in the Red Cross public health peace program, is conducting a healthy campaign with a special appeal to the women and girls of the State from October 25 to November 15. Dr. Edith Rabe, of the United States Public Health Service who has been touring the country in this work for several months past, will be the campaign lecturer. She will speak in the towns of lower Delaware during the latter part of the campaign. Dr. Rabe will appeal to the women and girls to take an interest in bettering health conditions in their own communities.

Wherever moving picture equipment is available, the health film, "The End of the Road" will be shown as an accompaniment to the lectures.

Individual clubs of the Delaware State Federation of Women's Clubs have been asked to cooperate with the Bureau of Hygiene of Delaware Chapter, which is in charge of this special campaign. In proportion to their size, many Delaware towns have rivalled Wilmington in Red Cross work. The clubwomen of the State should receive a large share of the credit for this activity.

More Americans were killed by disease than by fighting during the war year of 1918, according to government statistics. A large percentage of the American people has been found below normal physically. The Red Cross will campaign to make America a healthy nation. Delaware will take a leading part as she has in previous Red Cross campaigns.

What Mandatory Really Means

Briefly stated a mandatory is a contract to perform for another. It has various involved meanings and definitions in law, but as applied to the all-absorbing topic of the day it means a contract by the United States to administer the affairs of some other country which is presumably unable to completely govern itself.

The big question now is are we prepared to do it. Have we any desire to go in for wholesale receivership in the world's bankrupt nations. Are we to liquidate the indebtedness of all defunct nationalities with moral and financial assistance? To do so in the nearer hemisphere we are already committed but as for the world wide obligation, that is quite another matter.

God made the world in seven days but he didn't have a Senate to deal with.

SURVEY SHOWS SOME COMMENDABLE FEATURES IN GRAMMAR SCHOOL

Primary School, However, "Provides Many Obstacles to Physical and Educational Development"

The School Survey Commission found some commendable features in the Newark grammar and primary school buildings. These were not accessible last summer when the Commission was visiting schools in the special districts of the State. Only the high school was examined at that time. The other buildings were inspected on the Saturday before the opening of school.

As in the case of the other schools of the state the Strayer score card was used in determining the fitness of the buildings for school purposes. Out of a possible 125 points allowed for site the grammar school building was rated at 75; 44 out of a possible 165 was allowed for building; 66 out of a possible 280 for service systems; 185 out of 290 for class rooms and 8 out of 140 for special rooms. The building therefore scored 378 out of a possible 1000 points.

With regard to the primary school the commission found little to commend it. "Its faults are many," says the report, "and provide many obstacles to the best physical and educational development of the children housed therein."

Some of these mentioned are that stairways and vestibules are difficult to heat, doors of class rooms and cloak rooms open inward, stairways are dangerous fire traps, rooms poorly lighted and two large for class room purposes; toilet arrangements unsatisfactory, poorly lighted and furnishing inadequate provision for the number of children housed; heating apparatus poorly housed and too small for the building.

The commission was pleased to note that the toilets had been whitewashed during the summer and the rooms presented a wholesome appearance just before school opened. They were also pleased to note that the movable, adjustable seats had been installed in the primary room.

This building scored only 249 out of a possible 1000 as follows: site, 90 out of a possible 160; building 37 out of 200; service system 63 out of 250; class rooms 0 out of 165.

How's The Weather

Today For Flying

Some day it may be a common thing for Mr. American Hustler and his friends who are planning a recreational dash through the air to arrange with the Weather Bureau for daily reports, so that the flight can be undertaken without risk of running into bad weather, but to date weather reports for aerial touring parties are a relatively new thing. Just now the Government is interested in such an expedition which started from Portland, Me., September 27, and if all goes well, will end at Pensacola, Fla., in December, after visiting more than a score of principal cities on the Atlantic coast and in the Ohio and Mississippi valleys. The flying boat "NC-4" is the craft taking this journey, the object of which is to secure recruits for the United States Navy. When the flying boat stops at regular Weather Bureau stations the lieutenant in charge of the expedition has the weather maps and forecasts placed at his disposal by local Weather Bureau representatives. At other points the complete morning and afternoon reports are telegraphed from convenient weather bureau stations to the fliers.

The Weather Bureau also furnished flying weather forecasts to the parties participating in the transcontinental reliability race that started simultaneously on October 8 from San Francisco and Mineola, L. I. Forecasts of the expected conditions were telegraphed daily morning and evening to all official stopping points on the route, 23 in number.

HOT DISH SHOULD SUPPLEMENT SCHOOL LUNCH

Can Be Prepared With Very Simple Equipment

The relation of good nourishing food to progress in school is a subject that in the past few years has been given much thoughtful consideration by those who have sensed the seriousness of conserving human life and producing a maximum of efficiency in human effort.

The matter of a hot lunch for school children has been agitated in many communities and has been brought to the point of establishment when a change of teachers, which takes place with alarming frequency in most rural communities makes it necessary to go over the whole ground again. The danger of growing weary of well doing is ever present under such circumstances and the time honored injunction is especially applicable. It is a clear case of "somebody" must hold steadfastly to the job of seeing that the good work is kept up where it has been established and that it is established where no definite steps have yet been taken. As the old saw has it "You'll have a hard time convincing the world that the 'Somebody' isn't you."

This project was suggested by a study of rural conditions which showed that many children go long distances to school with hurried and sometimes inadequate breakfasts. In the case of country children breakfast is served very early and supper not until quite late. The need for a warm, wholesome lunch is therefore greatly increased.

Wherever a warm food has been added to the noon lunch at school parents and teachers have seen good results: greater interest in school work, better grades, better health, and less need of discipline are the immediate results.

The equipment for preparing the school lunch can be provided at very little expense and may be as simple as possible.

"An oil-stove a few cooking utensils and a closet will be needed; the closet can be made out of a dry-goods box, if necessary. Teachers and pupils have made fireless cookers under the direction of home demonstration agents, and at one school the boys made the kitchen table. Each child provides his own dishes.

It is not expected that a full meal is to be prepared at school. It is sufficient to supplement the luncheon brought from home with one, or perhaps two hot foods. Cocoa, soup, rice, macaroni, potatoes and an occasional egg dish are easily prepared. Dishes requiring more preparation or longer cooking, such as baked beans, hot pot and meat stews, can be prepared at home and reheated at school. With the teacher acting as club leader, the members are divided into groups as follows: Group 1 will plan meals, order supplies and keep accounts. Group 2 will prepare meals. Group 3 will serve, wash dishes and see that the room is left in order. Change the groups from time to time, so that the children can have opportunities to serve in the various capacities.

Supplies are either furnished by the parents or purchased with money raised or contributed for the purpose. One plan that has worked well is for each child to bring from home his share of the food as the teacher directs; the apportionment should be as uniform as possible. The menus should be made out beforehand, and written on the blackboard for children to copy and take home. This will help the mothers to plan and prepare the things which are to be put into the lunch box each day.

The older girls, under supervision of the teacher, can assist in preparing the lunch. Recipes should be given out beforehand to be discussed and tried at home. Cooking at school invariably encourages the girls to do more of this work, for wherever the mother and teacher cooperate the results

have been satisfactory, and the aid to the over-worked mother is apparent.

Hot cocoa, cream or vegetable soup, steamed rice and milk, scalloped dishes, baked or creamed potatoes, scrambled or creamed eggs, baked beans, potato or fish chowder, cottage or shepherd's pie, meat stew, apple Betty, apple tapioca and rice pudding are nourishing dishes within the possibilities of a one-room school. The food brought from home should include brown, rye or white bread and butter sandwiches, fresh, dried or cooked fruits, small glasses of jelly, cup custards, sweet chocolate and home-made candy, the choice depending upon the dish which is to be served at school.

The following menus are suggestive: Cocoa, bread and butter sandwiches, apple. Baked beans, brown bread and butter, dried fruit sauce. Cream of bean soup, squares of toasted bread or crackers, cookies. Vegetable soup, raisins, dry or stewed, bread and butter. Shepherd's pie, home-made rolls, baked apple or stewed prunes. Rice cooked in skim-milk, raisins, crackers. Baked potatoes and butter, rye bread and butter, apple sauce, a small piece of cheese.

At the close of the forenoon session, the children are dismissed to wash their hands and get ready for the midday meal. The committee in charge lays the places, the desks being used in place of tables. Each child will require two paper napkins, one to be spread upon the desk, the other folded neatly at the left side. Plates, cups and silver are also placed in position, and when everything is ready the children are called, form in line and march in, each one taking his own place. The committee then serves.

In addition to the training in domestic science afforded by the serving of a hot lunch, the teacher will find many opportunities for teaching table manners and many of the little courtesies that make social intercourse pleasant. These are valuable assets, too, more easily acquired by children than by adults. Happy the children in whom training of this sort has been combined with the effort to secure a sound mind and body."

BERTHA E. ALLCORN,
Administratrix.

Referring to the sad accident that occurred in Newark on Saturday night when one woman was killed and another seriously injured by an automobile at the corner of Delaware and South College Avenues, and yet another accident on Sunday night on South College Ave. when a College student was knocked down and injured, the question asked all over Newark today is "Where is the side walk for which the money was appropriated at the last Legislature?" Months have passed by and there appears no sign of activity in this direction. It is understood that the Levy Court has undertaken the work of laying the side walk. With the increased number of students and the town people included, this road is being traversed by about 2000 people. Then again what steps can be taken to prevent speeding? One has only to watch at any hour during the day and night and see the violations of the law in this regard. Also the opening of cut cuts which is a constant annoyance to residents of this section. Is it not up to the Levy Court to give this matter immediate attention? The patience of the residents of Newark is about exhausted.

Signed:
Resident of South College Ave.

WEDDING

McNeal-Berlin

The Pittsburgh Bulletin contains the following account of the McNeal-Berlin wedding which took place last Wednesday.

The wedding of Miss Clara Louise Berlin, daughter of Mr. and Mrs. W. Berlin of Forbes Manor, and Daniel Raymond McNeal, son of Mr. and Mrs. H. Warner of Newark, Del., took place at the home of the bride with the immediate families in attendance. Rev. Dr. James Augustus, pastor of the Wilkinsburg Church, performed the ceremony at 12:30 o'clock before an assemblage of palms and candelabra.

The bride who was given away by her father, wore a one-piece gown of midnight blue tulle, with gold embroidered tulle and a hat of velvet trimmed with ostrich. Her corsage bouquet was of orchids. Mr. McNeal's best man, Mrs. Oliver Pugh of Pittsburgh played wedding music.

McNeal is a graduate of Berea College, class 1914 and Sigma Nu man. He served as a second lieutenant in the Three Hundred and Thirtieth Artillery.

After a honeymoon in the Poconos, Mr. and Mrs. McNeal will be at home after January 1st at West Philadelphia. Out of guests who came on for the wedding were Mr. McNeal's parents, Mr. and Mrs. Harry E. of New York; Mrs. James and Mr. and Mrs. Williams of Greensburg.

Card of Thanks

Mr. and Mrs. Wesley Davis and wish to extend their thanks to friends and neighbors for offering and automobiles in aid of their little granddaughter, L. Miller.

WILMINGTON SERVICE MEN GIVEN TESTIMONIAL BANQUET

Pioneer Literary Society Pays Tribute to its 125 Service Men

Several young men, former residents of Wilmington, attended the testimonial banquet given in the banquet room of the Hotel duPont on Thursday evening in honor of its returned service men by the Pioneer Literary Society.

The hall was decorated with the flags of the Allies and the service flag of the organization of which contains 125 stars. Distinguished guests were present including Federal, State and county officials. U. S. Senator David A. Walsh of Massachusetts was the chief speaker of the evening. Other speakers were M. J. Slattery, president of the Catholic Young Men's National Union, Rev. Joseph L. Wolfe of Philadelphia, chaplain of the Iron Division, and Father Connelly, chaplain of the Pioneers.

Senator Walsh strongly impressed upon his hearers that obedience to law is liberty. Continuing on this strain he said: "Those who defy the law have no place here. There is no need of violence or force to bring reform or to change the government. The place to change the government is where it is changed, is at the polls. We must fight against Bolshevism and make these revolutionists understand that we will not allow them to practice their red deeds here."

Rev. Joseph L. N. Wolfe, of Philadelphia, made a plea for loyal citizens to see that during the readjustment period the guarantees of justice and independence, which the soldiers fought for were to be continued. If we are indifferent, he said, the enemies of the government now walking broadest in the land will destroy the government. He paid a glowing tribute to the individual bravery of spirit and leadership of the American soldier. He told many of his personal experiences on the battlefield under the bursting shells and the rain of machine gun bullets. In closing, he, too, said that it was still necessary although the war is over, to fight against the evil influences trying to destroy the American institutions.

Theodore A. Weth, president of the association, was the toastmaster. Seated at the honor table with him were: United States Senator David I. Walsh, of Massachusetts, chief speaker of the evening; former Senator George Gray, United States Senators Josiah O. Wolcott and L. Heisler Ball, Congressman Caleb R. Layton, Governor Charles R. Miller, Mayor William G. Taylor, Bishop J. J. Monaghan, the Rev. John J. Connelly, the Rev. Wil-

liam Temple, John S. Russell, president of the Security Trust and Safe Deposit Company, Henry P. Scott, Lawrence W. McCarthy, a former president of the association; M. J. Slattery, national president of the Catholic Young Men's National Union; the Rev. Joseph L. N. Wolfe, chaplain of the 28th, or Iron Division, A. E. F.; United States District Attorney Charles F. Curley, Josiah Marvel, and Lieut. Col. Edward J. Meehan, of the 110th Pennsylvania Infantry.

A pleasing feature of the occasion was a letter of regret from Cardinal Mercier, who was unable to be present. He paid tribute to the Diamond State, in the following words: "I know your State was the first to ratify the great constitution of your republic, and that its small territory makes it seem more like my own dear country than your greater and more important States."

"The intense industrial activity which obtains all over it is another link."

"Yet a closer one is the immense effort made by Delaware, under the intense organization and broad inspiration, especially of the world-wide reputed duPont establishments, in order to bring the war to a rapid and glorious end—the immense output of Wilmington and the 'Diamond State' was undoubtedly one of the factors of victory."

Condition of Teeth a Good Index of Bossy's Age

The age of cattle can be approximated closely by the appearance, development, and subsequent wear of their second incisor teeth. Cattle have eight of these all in the lower jaw. In the calf at birth, two or more of the temporary or first incisor teeth are present. During the first month all eight have appeared.

There are in all six stages in the development of the teeth, knowledge of which is helpful to those desirous of becoming proficient in judging the age of cattle.

As the animal approaches 2 years of age the center pair of temporary incisor teeth or pinchers are replaced by the permanent pinchers which at 2 years attain full development.

At from 2½ to 3 years the permanent first intermediates are cut and are usually fully developed at 3 years.

At 3½ years the second intermediates or laterals are cut. They are on a level with the first intermediates and begin to wear at 4 years.

At 4½ years the corner teeth are replaced, the animal at 5 years

having the full complement of incisors with the corners fully developed.

At 5 to 6 years there is a leveling of the permanent pinchers, the pinchers usually being leveled at 6 and both pairs of intermediates

partially leveled and the corner incisors showing wear.

From 7 to 8 the pinchers are noticeably worn; from 8 to 9 the middle pairs, and by 10 years the corner teeth.

After 6 years the arch gradually

loses its rounded contour and becomes nearly straight by the 12th year. In the meantime the teeth have become triangular in shape, distinctly separated, and show the progressive wearing to stubs.

KENNARD & CO.

Exclusive Autumn Fashions

The forecast for autumn is definitely foretold in the diversity of handsome models on display. Kennard & Co.'s usual anticipation of the coming season's vogue has this year outvalued all previous attempts in the fashioning of outer apparel in all the finest approved fabrics, embracing every desirable coloring and two-tone effect.

New Coats—New Suits—New Dresses

Styles shown for the first in all three of these popular garments. Coats in plain and fur trimmed. Suits in all the desirable fabrics. Dresses for street, dinner and evening wear. Every garment shown by us, represents an exclusive model.

Infants' and Children's Headquarters

It is a pleasant place at the Children's Headquarters, second floor, at Kennard's, light and spacious—a veritable little studio devoted to the needs and wishes of the play and party world.

Childlike simplicity, yet with all charm and distinction which should be looked for in children's clothes as well as in "grown ups" and sterling quality in material and finish which means greatest economy in the long run.

Every demand for infants and children up to 8 years of age can be supplied from our wonderful Infants' and Children's Department. Hats and Bonnets, Coats, Dresses, Knitted goods of every sort are shown in the fullest assortment.

Adorably Dainty Silk Lingerie Moderately Priced

Crepe de Chine and Washable Satin has long since ceased to be a luxury with American girls and women. Not only does it give one comfort and satisfaction, but wears and tubs surprisingly well. The Kennard store handles only the good kind of lingerie and yet the prices are moderate.

Envelope Chemise, Night Gowns, Camisoles, Bloomers and Bloomer Combinations

Gay Little Bags For Dress Up Accasions

The high color note that now dominates dress is very evident in all the bags for fall and winter use. Sombre wearables had their day during sad war-time; now woman is using all the bright colors that she can, and if these colors are not incorporated in hat or frock they surely appear in accessories of dress—in umbrellas, in neckwear bows, in bags and so on.

One thing is evident in all the new hand bags: the string or ribbon handle run through a shirred casing is entirely out. All the best bags have frames and very gorgeous are some of these frames, especially on the bags intended for use with dress up frocks. There are carved metal frames and frames of imitation ivory, of shell and amber and of silver. Many of the metal frames are heavily incrustured with brilliants or with colored stones, and shell and ivory frames have beautiful inlays of silver or gold.

We solicit charge accounts from those of established credit, and prepay delivery charges on all purchases within a reasonable distance.

KENNARD & CO.

621-623 Market Street
Wilmington, Delaware

Revised Price List

Many Property Transfers since last Week

INTRODUCING BONUS BILLS IN CONGRESS

American Legion Weekly Declares it to be Favorite Indoor Sport

According to the American Legion Weekly:

"One of the most popular indoor sports at Washington at present appears to be introducing bonus bills in Congress. On the first of October the total was thirty-six, with every prospect of an increase now that brisk, cool days have succeeded summer's heat and a man can put some energy into his work. Probably the only pastime that rivals it in Congressional esteem is introducing measures to provide farm land for former service men.

Glancing over the list of bonus bills and their provisions, the veteran can take his pick, if he happens to favor a cash bonus. Indigent ex-officers who favor a bonus cannot be expected to stomp the country in favor of the measure promulgated by Representative Bell, of Georgia, which would cut the commissioned personnel off without a cent, and give \$30, payable in bonds or cash, to every enlisted man, for every month he served. On the other hand, Senator Gronna, of North Dakota, may be assured of the captain's vote, for they would be the most handsomely benefited by his measure, which would give a year's pay to all who served before the armistice, expecting those whose base pay exceeded \$2,400.

Many of the Congressmen who have fathered bonus bills have circulated their districts with extracts of the Record containing their measures, so that the folks back home will know "what their Representative is willing to do for the boys."

"The situation is not sufficiently clarified to say which bill introduced, or yet to come, will become the center of interest and attention. Consideration is being given to drafting bills providing what might be summarized in a phrase as a 'constructive bonus,' the theory being that something ought to be done for the service men that would be of permanent benefit to all."

Why a Black Sheep in Every Flock and Other Whys

Why is there a black sheep in every flock?

Because sheep, in their early domesticated conditions, were brown or dirty black, and because nature occasionally "harks back" or reverts to early type in nearly all species.

Why does a red flag infuriate a bull? Because, according to one theory, the animal "sees red." The condition which occurs naturally, in certain circumstances (as on the battlefield), in man, rendering him indifferent to danger, is produced artificially in the bull, with like results.

Why does a dog turn round and round before lying down? Because the animal's ancestor the wild dog, made its bed thus by forming a hollow in the leaves and branches.

Why has the camel got a hump? Because in its natural state it needs an "emergency ration." If deprived of food for several days, it falls back on the fat of its own hump, which then gradually disappears before the limbs are perceptibly reduced. That it carries a reserve of water in its stomach is well known.

Why is the underpart of a rabbit's tail white? Because the appendage has on occasion to serve as a danger signal. Violently agitated as it is on the approach of danger, it can be seen by other rabbits even at dusk, whereas it might be wholly invisible if the color of the tail was uniform with that of the body.

Why has a cat got whiskers? Because otherwise—and this applies to the whole of the feline family, including lions and tigers—its eyes would lose sight of prey, such as birds or mice, through fatigue arising from concentration. Experiments prove that cats deprived of their whiskers catch few mice, or none at all.

Many Community Buildings to be Retained

One result of neighborhood and community activity during the war has been the increasing desire in many regions to make this work permanent. To this end certain neighborhoods are preparing to acquire buildings originally erected for other purposes and transform them into community centers. Other towns which have temporarily maintained headquarters for soldiers camping in their vicinity

purpose to make these headquarters permanent and for the benefit of all. An interesting feature of the movement is the construction of community houses as memorials to the soldiers who died in the Great War. Many of the community buildings are designed for the use of farmers and their families on business visits to the cities.

Why Teachers Must Organize

Time was when it seemed incredible that school teachers would ever find it necessary to organize in order to obtain fair pay and fair working conditions, but when the teachers of some cities discovered that the garbage collectors, aided by labor union affiliations, were getting better wages than the teachers and were in line to obtain more favorable pension consideration than teachers could hope for, the teachers began to see the necessity for organization. They discovered, at length, says Christian Science Monitor, what the entire social body, usually referred to as "the middle class," is beginning to find out, that in a highly organized world he is a rare individual indeed who can hope to get his rights unless by joint action with others situated and equipped like himself.

Churches to Consider Americanism Nov. 9

There should be a general response to the request of the American Legion that on Sunday, November 9, attention shall be paid in all the churches not to the Legion *per se* but to the principles of Americanism for which it stands. The date is well chosen, being the Sunday nearest to the anniversary of the armistice which ended the great war. The theme is one of the greatest and worthiest that can be brought before the people.

—Harvey's Weekly.

Elkton M. E. Church Celebrates Anniversary

Elkton M. E. Church is holding a full week's celebration of its 60th anniversary which began last Sunday when Rev. J. P. Otis and Bishop J. M. McConnell in the pulpit. Each night during the week services will be conducted by former pastors of the church, all of whom have been invited for this occasion.

BOY NATURE DEMANDS LARGER EXPERIENCE

Country Lad Natural Adventurer Says Scout-master

• The country boy has always been a pioneer.

He follows up the streams to find where they come from and follows them down to find out what they flow into.

When he discovers a trail he never rests until he has discovered where it leads. He is not satisfied merely to look at a mountain; he climbs it and finds out what lies on the other side.

He knows a lot about trees and soil and crops; about animals and birds and fishes. He is a natural born scout.

But in spite of all the things which a country boy finds to do and to know, he is restless to get away and see new things, meet new people, do greater deeds. It is human nature—especially boy nature—to demand larger and larger experience. Pioneer Scout-aid helps to satisfy the longing.

Older men who have seen the world and tried all it has to offer know that at last the dearest spot on earth is home, sweet home. I have asked American sailors in foreign ports—in those ports which you have longed to visit—where they would like to go next. The answer is always the same—home!

On fast express trains sweeping across the continent, I have swapped yarns with travelers from all quarters of the globe. Sooner or later they turn to tales of boyhood days in the country.

But the experiences of older men do not satisfy you, the boy in the country.

You want to have your own experiences, and you should have them. Pioneer Scouting may make it possible.

This fact, though, I want you to remember. You never will see much of the world unless you learn to see the things that are right around you now.

Have you ever seen a mosquito? Sure, and felt it, too!

What kind of a mosquito was she?

I say "she" because, as you may not know, "he" never bites a human being.

Did you know that there were more than a thousand species of mosquitoes? Right around your own home you might be able to discover twenty or more species. For example, you might discover Wyeomyia Smithii, who is born only in the pitcher plant. "Smittie" you can call him for short. He is an interesting little cuss.

When you get so you can see the things around you, you will not need to go out into the world to become famous. Men who really know things are so scarce that they stick up like sunflowers in a vegetable garden.

Rabbit Skins in Great Demand

In recent years several kinds of fur, formerly of so little value as to offer no inducement to the trapper, have been raised in price, and consequently collecting them has been made profitable. Rabbit pelts, which are extensively used by hat makers, are among these products. One eastern concern has announced that it will need 10,000,000 rabbit skins during 1919 and 1920, and it desires as far as possible to secure them from American sources. This is an indication of a market which should interest many a farmer boy. This fall and winter dried, cased rabbit skins will probably bring a reasonably good return. They are sold by the pound which will contain seven or eight skins. Many farm boys can readily acquire, in the course of the winter, large numbers of skins which will net them a tidy sum and, in addition, they will have the pleasure of trapping experience. The United States Department of Agriculture will supply any inquirer with the names and addresses of possible purchasers of rabbit skins and other pelts.

Wolcott for Vice-Presidency

Members of the Democratic National Committee have evinced a lively interest in the nomination of Senator Josiah Wolcott for the vice-presidency at the coming National election and the matter has been the topic of lively interest at the National Capitol.

NEWS OF THE NEIGHBORHOOD

As told by Correspondents and Exchanges

GLASGOW

Miss Miriam P. Alrich spent Wednesday in Philadelphia.
 Miss Florence V. Dayett spent the past week with her sister Mrs. R. A. Deibert of Elkton, attending a Masquerade on Tuesday night at the home of Mr. and Mrs. E. N. Sweet and a birthday party on Wednesday evening in honor of Miss Florence Jefferies.
 Miss Cynthia Cunningham is spending some time with her brother Steven Cunningham of Cooch's Bridge.
 Charlotte Laws and Margaret Wright who have been sick are better at this writing.
 Private Claude Brooks has returned to Camp Upton, Va. after spending a ten days furlough with his parents Mr. and Mrs. W. C. Brooks.
 Friends of this neighborhood are sorry to hear of the sad accident that happened to Miss Julia Smith and Mrs. Pope on Saturday evening.

APPLETON

Rhea C. Dayett youngest daughter of Sherman Dayett has returned to school. She was confined to her bed over a week suffering from injuries received from a severe fall. Dr. H. G. M. Kollock was her attending physician.
 J. Sherman Dayett has completed the manufacture of concrete blocks for Mr. G. Blockson's new house near Barksdale.
 Miss Dorothy Dayett attended the Dance at the New Century Club Wilmington, given on Monday, Oct. 27th by the Wilmington Trust Co.—10th St. Office.

STRICKERSVILLE

Mr. and Mrs. E. E. Shriner and Mrs. Robert Mathias motored to Delmar, Del. and attended the Salisbury Association meeting on Wednesday and Thursday of last week.
 Mrs. Susan Tauresey is visiting relatives in Wilmington, Del. for a few days.
 Mrs. Mary J. Minner and daughter Bessie and son Elmer and Mrs. Elizabeth Hoffecker of Chester, Pa. motored to Elkton, Md. on Sunday and took in the sights of that town.
 Mr. and Mrs. E. E. Shriner on last Sunday week entertained friends from Philadelphia who were attending the yearly meeting at Welsh Tract Church near New ark, Del.
 Mrs. William Palmer was a week end visitor in Wilmington, Del. while there attended her sister-in-laws funeral.
 Mr. and Mrs. E. E. Shriner and Mrs. Mary Mathias were Wilmington, Del. visitors on Sunday last.
 Messrs. George and Madison Scott, Fair Hill, Md. spent Saturday and Sunday at the home of their grandmother, Mrs. Elizabeth Scott.
 Mr. and Mrs. Harvey Scott, and children visited relatives at Vinegar Hill, Md. on last Sunday.

Ducks Said to be Plentiful

Gunners report ducks are more plentiful than for many years, due, it is said to the fact that the government regulations prohibiting spring shooting are being enforced.

Trolley Fares to be 7c

Permission for an immediate raise in fare from six to seven cents straight, with proviso for the sale of four tickets for 25 cents, and a way left open for a further raise in rates three months hence—such, in brief, is the decision of the Public Utilities Commission on the application of the Wilmington and Philadelphia Traction Company for an 8-cent fare.

Milford to Have Y M. C. A.

It is now about settled that Milford will have a Young Men's Christian Association building at a prominent place in the center of the town.

Monday evening next a meeting will be held in the New Century Club house, when the subject will be discussed and a committee of prominent citizens appointed to effect a permanent organization.

Farmers May Unite With Labor
 Rumors have been current in Washington that the organized farmers are to effect a working agreement with the forces of organized labor.

These rumors were partially confirmed when Samuel Gompers, president of the American Federation of Labor, invited leaders of farm organizations to meet for the purpose of formulating a policy.

The plan, it was stated, is to have farmers from every section of each State meet an equal number of organized labor delegates before the close of the present year. In the meantime the farm leaders agree to study labor problems while the labor leaders promise to pay attention to agricultural questions, with a view to determining whether there is any prospect of establishing a working agreement for the benefit of each.

Cecil Co. Teachers Organize
 At a meeting held recently in Elkton the teachers of Cecil Co. effected an organization.

Mr. Marshall Thompson, Principal of the North East High School, was elected President; Mr. E. B. Fockley, Principal elected, Vice-President; Miss Katharine M. Bratton, of the Cecil County High School, was elected Secretary; Miss Edna Cleaves, of the Perryville School, was elected Treasurer.

All Advisory Board, consisting of the officers, Miss Frances Cleaves, of the North East School, Miss Hannah Hartnett, of the Howard Street School, Elkton, and Mr. Alfred B. McVey, of the Calvert Agricultural High School, was appointed. They were instructed to outline a program for the work of the next meeting.

Miss Emily Moore, of the North East High School, Miss Ethel Hall, Principal of the Rising Sun School, and Miss Helen Teeple, of the Calvert High School, were appointed a committee on by-laws.

Sugar Sale Causes Mob
 A Steulton store got 2,000 pounds of sugar and announced a sale. Two minutes after the sale began the call for police protection was sounded by the store management.

Several thousand men and women swept down on the store, jammed the door ways and nearly wrecked the building. It was the work of half an hour to clear the mob away and permit a handful to enter the store at a time.

Negotiate for Ducking Preserve
 Several Wilmingtonians, who it is reported represent the duPont interest, are negotiating for the purchase of the Eastern Neck farm for the purpose of converting it into a ducking preserve. The farm is beautifully located on the Chesapeake Bay, near Rock Hall, and during the past few years has become one of the finest ducking shores on the bay. The price offered for the farm is \$7,000.

Auto Officer in Cecil County
 An auto officer has been assigned to the upper section of Cecil

county to prohibit speeding on the new macadam roads. Several were arrested and a fine of from \$5 to \$25 imposed by local magistrates.

Soldiers and Sailors Made Supervisors of Coming Census

Washington, October 25: Sixty-five former soldiers and sailors have been appointed supervisors for the Fourteenth Decennial Census, according to an announcement issued to-day by the Bureau of the Census.

"The Census Bureau was particularly glad whenever it found a former service man for the job of supervisor," announced Director of the Census Sam. L. Rogers. "Most of the applicants who qualified, however, were men of more mature age and of broader experience than the majority of soldiers and sailors."

Three women appear on the list of supervisors, one having been appointed to serve in the State of New York, one in Texas and one in Nevada. This is the first time in the history of the Census Bureau that women have been selected to fill these positions.

Of the 372 supervisors chosen approximately 100 are lawyers. Ex-service men come next in numbers and editors rank third with more than 40 appointments. Farmers are represented with about 25, while educators, numbering about 20, run the farmers a close race.

Several physicians have undertaken the task of collecting Uncle Sam's statistics, and likewise a great many business men. Each supervisor appointed had to undergo rigid tests as to his fitness for the position, special stress having been laid on character and experience.

"No man was appointed a supervisor for the Fourteenth Census," said Mr. Rogers, "until every possible guarantee was given as to his ability and honesty. Character was at all times the leading and predominating consideration with the Census Bureau in every appointment made."

Six in One Family
Do Club Work

A Tennessee father who needed no convincing of the value of club work to his children lives in White County. He has six children in club work and manages to find a place for any project they wish to take up. One daughter has a flock of chickens in one barn, and the second has a flock in another. The third has the use of the poultry house and yard. A fourth daughter has geese. The two older boys each have their sheep and hogs. The boys and girls give their father a per cent in return for the feed and housing that he furnishes. The four girls keep accurate records of their poultry work, and all the children are boosters for the club work.

Save Sweet Corn
Seed on the Ear

The best way to secure home-grown sweet corn seed is to allow it to ripen on the stalk and since a single ear will be seed enough for a small garden, it is quite practicable to do this. Select the best and earliest ears by stripping

down the husks to examine the grain and to remove any worms that may be found, and then carefully fold them back and hold them in place by an elastic band or a string. Allow these ears to ripen thoroughly on the stalk. In the North it is often better to pull and hang the plant where there will be no danger from moisture, frost, or even chilling until the seed is thoroughly dry. All the ripe ears remaining at the end of

the season in any crop of sweet corn should be harvested and saved. The best ears will make fairly good seed, and nearly everyone knows the enjoyment in parched sweet corn.

Sweet corn spoils much more quickly than field corn, and can not readily be cured in large shocks, but should be husked from the stalk and spread thinly on staging to cure. A convenient way of storing sweet corn is on the ear.

Ford

THE UNIVERSAL CAR

The Ford Sedan is high-class in appearance and appointments. The seats are restful, and deeply upholstered with cloth of high quality. Large doors give convenient entrance on either side; plate glass windows make it a closed car for inclement weather, and give fresh air when open. With high quality in appearance and equipment there is the simple and safe control in driving. A woman's car — a family car for every day in the year. Ford Sedan, \$775 f. o. b. Detroit.

DELAWARE RED CROSS MAKES RE-MARKABLE RECORD

Reports at Annual Meeting Best Possible Preparation For Drive

The reports submitted by the officers and heads of departments in the Delaware Chapter of the Red Cross at the annual meeting held in Wilmington last week showed an amazing amount of work done by this organization and constituted the strongest possible appeal for membership in the drive which begins next Sunday and culminates on Armistice Day.

The report submitted by Mrs. Willard Hall Porter, head of the Women's Bureau, bearing upon the year's work by that bureau, was especially interesting. It showed the following figures: Surgical dressings made, 23,103; hospital and refugee garments, 25,712; knitted articles, 22,238; comfort bags, 7,137; boxes shipped to Philadelphia headquarters, 361; boxes shipped to France, 716.

The statement made by Miss Emily P. Bissell, of the Bureau of Development, showing a Red Cross membership growth in our State from 15,250 to 74,800 during the year was another exceedingly gratifying showing. Added to it was the report of Mrs. R. L. Holliday, of the Junior Red Cross Department. It showed that the Juniors now are installed in 133 schools throughout the State, with 20,000 children. The junior adopted 50 Armenian children in the Near East campaign.

The canteen, of which Mrs. Henderson Blair was the head, gave supplementary food supplies to moving troops last year as follows: 86,053 men in all, compared with 42,789 men the year previous. Of these 14,000 were motor transport men, 4,757 were transients. Seventy sick men were cared for, 2,500 men care for over night, 77 sent to theatres, 15,000 postcards and 16,000 postage stamps given. About 33,000 sandwiches and 20,000 cups of coffee were served the men; also 227 gallons of ice cream and much fruit, chocolate and cigarettes. During the influenza epidemic, the canteen cooked, washed dishes, sent supplies to the naval base at Lewes, helped emergency hospitals. The canteen workers were on duty during the troop movements from morning until night.

FARM BUREAU TO HAVE MEETING IN WILMINGTON

Will Plan Work For Coming Season and Present Budget

Pursuant to a motion carried at the last meeting of the New Castle County Farm Bureau Executive Committee, namely, that the annual farm bureau membership fee be changed from 50c per individual to \$1.00 per family, and as this change necessitates amending the constitution and by-laws and to obviate conjunction of business at the annual farm bureau meeting which will be held in December, President Frank Yearsley was authorized to call a preliminary meeting of the New Castle County Farm Bureau to be held at the Hotel Nobis, 802 Market St., Wilmington, at 10:00, Saturday, November 1.

The change of membership fee has become necessary to secure funds to supplant those which were curtailed due to the cessation of the war emergency funds. The following budget has been approved by the Executive Committee and will be presented at this preliminary meeting:

Farm Bureau portion of stenographer's salary	\$240
Telephone and telegrams	120
Printing	75
Stationery	25
Office Supplies	10
Postage	50
Exhibits and Premiums	
Corn Shows, Fairs and Club Work	25
Special meetings, etc.	50
Rent of halls for meetings	25
Executive Committee travel	50
	\$670

In order that the county program of work might come directly from the farmers, the plan was

approved that the program of work committee should comprise every community committee. During this meeting at a stated hour the committee representing the various lines of work will adjourn for an hour to adjoining rooms and formulate their part of the program of work and report back to the meeting. The dairy committee will be entirely responsible for the dairy portion of the program of work, the soils and crops committees responsible for theirs, etc., for every group of committees. These various reports will be rounded into a county program of work by a special program of work committee.

The luncheon hour will be a social occasion followed by an informal discussion of the farm bureau membership campaign which will be conducted in the fourteen communities of the county during the month of November. If the farm bureau budget is to be reached and if a membership is to be secured which will insure the farm bureau's program of work reaching the great mass of farmers over the county, an animated membership campaign in each community is imperative.

It is hoped that every member of the New Castle County Farm Bureau be present, but it is essential that every community committee attend this meeting.

FIRST MEMORIAL TREE PLANTED AT WOMEN'S COLLEGE

An Oak in Commemoration of Soldiers Dead Presented by Federation

Lending color to an otherwise gray cloudy day, by wearing bright colored caps and sashes the ingenious students at Women's College made the celebration of their fifth anniversary last Saturday a joyous occasion.

Promptly at 2:45 when numerous guests from various parts of the state had assembled the students under the direction of Marion Watson faculty marshal and Helen Millikin, student marshal marched to the lower campus to the spot previously chosen for the planting of trees which annually forms part of the anniversary exercises. The Freshmen wore bright green caps; the Sophomores light blue; the Juniors red sashes and the Seniors white. After the singing of class and college songs, an elm tree was planted by the Junior class, a beech by the Sophomore class and an oak by Mrs. A. D. Warner for the State Federation of Women's Clubs. This latter is the first of a number to be planted throughout the State in memory of the Delaware boys who made the supreme sacrifice in the world war.

Following these exercises, there

were addresses in the Hilarium. Dean Robinson, in welcoming the guests, said that Founders' Day is a time for measuring growth and adding beauty. She mentioned the fact that on last Founders' Day in 1917 the Corner Stone of Sussex Hall was laid, and this year the building is crowded. Miss Lillian Butz, President of the Student Government Association, spoke of the part that various college organizations play in the life of the students.

Dr. Mitchell said that character is the keynote of the Women's College, which grew out of the needs of the state, and now is quick to respond to any of its needs. He introduced Dr. Kellogg, formerly of Grace M. E. Church, Wilmington, who spoke on "The Times in which we are Living." Dr. Kellogg said that these are restless, adventuresome times—times of destruction and construction. So to meet the challenge of today and to make real progress he declares that we must all have intelligence, morale, faith, and the ideal of self sacrifice and service which always inspires men to do their best.

After the speeches, the guests were escorted to the "New Practice House" formerly the Dr. Mitchell residence, where they were received by Miss Clark, assisted by the Senior students in Home Economics, Misses Helen Bishop, Ruth Messick and Mary Davis, who are in charge of the house for this semester.

THIRD RED CROSS "ROLL CALL" TO BE GIVEN NEXT SUNDAY

Campaign Will End on First Anniversary of Armistice Day

The American Red Cross has announced its Third "Roll Call," beginning November 2 and ending on the first anniversary of Armistice Day, November 11. For its splendid performances of the past, not only in the war, but in many cases of domestic emergency, such as last year's epidemic of influenza, and in innumerable cases of disaster, the Red Cross may well ask the endorsement of the American people, confident that it will be given.

In addition to this great record, however, the organization has planned a comprehensive peacetime program including the promotion of public health, the extension of the nursing resources of the country, the teaching of First Aid, and many other equally important subjects. On this platform as well as on past achievement the continued support of the American people should be given, not only cheerfully, but enthusiastically.

The American Red Cross is an

organization which the American people should continue for all time. It is conducted with the utmost economy, most of its chief officials giving their services without remuneration, so that practically the entire sum raised by the dues and contributions of its members is devoted to relief purposes. Its splendid work in time of disaster, famine or epidemic has saved thousands of lives and kept many thousands more from suffering, if not from actual death.

Every American citizen, male and female, should consider it both an honor and a duty to be a member of the American Red Cross. Pennsylvania hopes to enlist two million members in the coming Roll Call, as the ten-day period for securing members is called. If the people of the state fully understand what the Red Cross of the past has done and what the Red Cross of the future plans to do, Pennsylvania will enroll a far greater number than this. Every one should join.

The Daisy Used as an Adulterant

Recent investigations by the United States Department of Agriculture show that insect powders are often adulterated with powdered daisy flowers. However, the adulteration can ordinarily be determined definitely by microscopic examination. The presence of daisy flowers is indicated by fragments of the fruit tissues. Ordinarily the "ox-eye daisy," "field daisy," "white weed" or "marguerite," as it is often called, is used as an adulterant. Mountaineers in some States gather and dry these weeds and deliver them to country storekeepers in exchange for merchandise. In turn, the storekeeper passes on the daisy flowers to drug dealers, who use the material in insect powders in order to cheapen them. This form of adulteration is carried on to a marked extent at present, it is stated.

TRACTOR NOT SUBJECT TO COLIC, HEAVES OR WINDGALL

Will Not Bite, Bark, Run Away Nor "Haw" When It Ought to "Gee"

Some of the many arguments in favor of the tractor are given as follows in Farm Life:

It will not bite, bark or run away. It will not shy at a loose scrap of paper in the road. It will not kick the stall all night and keep the tired farmer and his wife awake. It will not crib the manager.

It will not break out of the barn at night, jump the fence and eat your neighbor's cabbages.

It will not lie down in a particularly moist spot in the barnyard, roll over on its back and elevate its four feet into the air.

It does not have to be curried, sponged off or treated with horse liniment.

It is not addicted to colic, cough, heaves, spavin or wind-gall.

It will not snort in your ear or whisk its tail in your face.

It will not "haw" when you tell it to "gee" or vice-versa.

You do not have to pull on the lines and holler your head off when you want it to stop.

It does not "up and die" just as the spring work is coming on.

The Average Man's Problem

The great problem for the average man is to devise or discover a plan whereby he may create an independent estate, separate from his business investment, that will enable him to look with equanimity upon a slowing up of business earnings or a period of depression.

He wants to accomplish this without hampering his requirements for the present. The "Equitable Trust Plan" if applied to individual conditions, which is easy to do, will accomplish a result which is the heart's desire for every man.

Ask for our booklet, then come in and talk it over.

THE M. MEGARY & SON CO.

FOR YOU WHO LOVE PRETTY WINDOWS

Here are the very newest and most wanted curtain materials, lace and nets and cretonne that will add so much to the beauty, the homelike atmosphere of bedroom, dining-room or living-room. The appearance of your windows means much to the general effect of your home. The draperies are the one part of your home furnishings that are public—seen by every passer-by—and therefore should reflect the best of taste.

Here are dozens of patterns of different materials, all in perfect taste and adapted for just the room you want them for.

They are not expensive either. They were ordered long ago and have just arrived, so they are marked at former prices, considerably less than today.

Now, after housecleaning, why not give the finishing touch to your home with some of these new hangings?

Quaker Net comes in ecru, white, cream and ivory, 38 inches wide and in some very attractive floral and conventional designs. This material is very popular and deservedly so for window hangings and door panels. Priced 40c, 50c, 75c, \$1 up to \$2.25 the yard. Quaker Net ready made curtains in ecru, white, ivory and cream are 2½ yards long, ready to hang, in floral, bird and conventional patterns. They are priced, per pair, \$3.75, \$4.25, \$5.25 up to \$8.75.

Quaker Panel Lace, an exclusive Quaker product, is especially adapted for the unusual hard-to-fit window. In cream only, \$2.75, \$3.25, \$4 and \$5 the yard. Ask to see this new material and note its usefulness.

Lace curtains—Irish Point, Tanbour & Brussels net, in scroll and flower designs, are priced from \$6 to \$25 the pair.

A plain net curtain with Cluny edge; white, cream or ecru, from \$5 to \$15 the pair. Tapestry portieres in all colors and vedure designs, are priced from \$13 to \$15.50 the pair.

Wood silk portieres, brown, green, rose and mulberry, are \$26 the pair. These portieres with their beautiful sheen make most attractive living-room hangings. Cretonnes range in price from 45c to \$1.50.

Get Your Sellers Cabinet NOW

Rising costs of labor and material have increased considerably the price of these Sellers Cabinets, and when this, our present stock, is exhausted we will be unable to offer these cabinets at present prices.

You need and have doubtless long wanted a Sellers Cabinet. You have an opportunity while these cabinets last of obtaining your cabinet at worthwhile savings.

The Sellers is the finest cabinet to be had today. It is not a cheap cabinet but is made for the woman who wants the very best. And considering the workmanship, construction, and the many exclusive features they possess, they are the most moderately priced cabinet you can buy.

In no other cabinet can you obtain the anti-proof casters—the automatic base shelf extender—the hand-rubbed oil finish. And the automatic lowering flour bin of fifty pounds capacity, easily lowered for filling and instantly removable for cleaning is an exclusive Sellers feature. All cabinets have roll curtains, a full assortment of glassware, numerous handy, time-saving devices and genuine sliding porcelain tops.

The present price of the Mastercraft Cabinet, 48 inches wide, 70 inches high—almost a kitchen in itself—is \$60 net, in golden oak.

The Kitcheneed Cabinet—identical in all its appointments but made for the smaller kitchen where space is limited, is 42 inches wide and priced at present at \$52 net.

We are prepared to furnish either cabinet in white, grey or blue enamel, done in our own shops, at an extra cost.

Remember, however, these are our present prices and cannot duplicate except at an advance.

If you would save—get yours NOW.
